

[Demo] NLP Dataset for Customer Service Automation

Company Type	Credit Card Companies
Inquiry Category	Security and identity theft concerns
Inquiry Sub-Category	Identity theft prevention
Description	Customers ask for advice and guidance on preventing identity theft, including best practices for safeguarding personal and financial information and monitoring their credit reports.
Data Size	9,607 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Credit Card Company" customer inquiry. (Purchased data will not be masked.)

Is two-factor authentication available as an _____ of _____?
_____ 2FA _____ solution?

Did you offer _____ auth?

Is _____ by your system's _____.

_____ authenticating _____ your system?

_____ you _____ additional security?

_____ 2FA _____ security?

Can _____ security with two-factor _____?

I want to _____ if I _____ two-step _____ increase _____.

Are _____ any _____ two-factor verification?

Can I do _____ higher _____?

_____ layer of protection if _____ use 2FA?

_____ support a 2FA?

_____ you _____ as _____ of your system?

_____ able to _____ two-factor _____ an _____ security measure?

_____ in _____ of _____ for _____ security?

Want _____ system to _____?

Is _____ possible _____ a _____ layer of _____ with _____?

Is it _____ two-factor to _____ security _____ my _____?

_____ your system _____ security?

How _____ is _____ dual-authentication enabled

Do _____ the option _____ for safety purposes?

_____ it _____ me to enhance my _____ with two-factor _____?

_____ the added _____ levels _____ 2FA _____?

_____ it possible to offer _____ authentication _____?

_____ your _____ capable _____ two-step _____?

_____ system _____ a 2FA _____?

_____ if 2FA is _____ your platform?

_____ you going _____ an _____ layer _____ security through two-factor _____?

_____ use two-factor authentication _____ boost security?

_____ it possible to _____ to _____?

_____ have an _____ to use 2FA for _____?

Will the _____ available _____ your system?

_____ have two step verification _____ protection?

Is it possible _____ security _____ using two-factor _____?

Can I _____ system?

Is _____ to use _____ to _____ security on _____ account?

You _____ them two-factor for _____?

2FA _____ be _____ system security.

Is there a _____ add _____ as _____ safeguard?

_____ you _____ you'll be _____ dual verification method?

_____ system _____ a two-step _____ for _____?

Is _____ possible _____ two-factor Authentication?

Do you _____ two-factor authentication as _____ supplementary _____?

_____ an added _____ of _____ your system.

I _____ wondering _____ I _____ use _____ in _____ account.

_____ your system, _____ be _____ verification option?

Are you able _____ two-factor _____?

Do you _____ extra _____ login?

Does _____ system support _____?

Is there a chance you're _____ offer _____?

_____ possible to enable _____ measure.

Is _____ possible to implement _____ security?

Does _____ system _____ itself _____?

A system _____?

Does the _____ offer two-step _____?

Is _____ 2FA feature _____ available?

Is there _____ enhanced safety _____ features _____ two-step verification?

It's _____ system has two-factor _____.

Do you _____ as an additional _____ of defense?

Is 2FA _____ for _____?

Can you _____ you have _____ option _____ 2FA?

Is it _____ put higher _____ through _____ verification?

_____ to know if _____ for added safety.

Is two-factor authentication _____ added _____ security _____ your _____?

Has _____ feature two-step _____?

Do you _____ protection, such _____?

I _____ wondering if I _____ two-step _____ for _____.

Should you _____ your _____?

_____ possible to add-on verification for _____?

_____ there any extra layers _____?

_____ is an _____ security option?

_____ to use _____ authenticating for _____?

_____ add another layer _____ double-authentication?

Is _____ dual-authentication enabled.

Does _____ system's security _____ of 2FA?

Is it possible _____ use _____ system?

Adding 2FA _____ security _____ be _____.

_____ another layer _____ authenticating?

Does the system _____ verification _____?

Is _____ possible to add _____ second _____ security _____ system.

_____ there _____ security feature?

_____ there a _____ in the _____?

Can _____ security with _____ two-factor _____.

_____ use two-factor authentication _____ security?

Adding 2FA to _____ option?

_____ it _____ a layer of _____ through _____ auth?

Are you _____ to your security _____?

_____ I use 2FA _____?

Is it _____ improve _____ 2FA?

_____ two-factor _____ available _____ layer _____ security?

Is _____ to _____ verification for _____ security?

Can I _____ your system?

_____ it _____ use _____ to _____ my security?

_____ there an _____ layer _____ factor?

Is _____ a two-step _____ for _____?

_____ possible to _____ with two-factor _____?

There _____ options for _____ such _____ two-step verification.

_____ you _____ 2FA _____ added security?

Can _____ be set up to _____?

Is _____ possible _____ two-factor authenticity for _____?

_____ adding _____ security _____ 2FA?

Two-factor _____ is _____ layer.

Does _____ company have additional _____ as _____?

Do you _____ login _____ available in your _____?

Is _____ way to _____ security _____ authentication?

Is there a _____ to enhance _____?

_____ add-on verification _____ allowed _____ protection _____?

Security levels _____ be _____.

Can _____ offer _____ your system?

Is _____ in _____ system's _____ layer?

_____ there _____ one _____ for added _____?

Do _____ possess _____ security _____?

_____ use two-factor _____?

_____ an extra layer of _____ offered _____?

Is it _____ to implement _____ your _____?

Do you offer _____ additional _____ security _____ auth?

_____ offer _____ as two-step login?

_____ grant two-step _____ for extra _____?

Is _____ capable _____ two-layer _____?

_____ possible _____ use two-factor authentication _____ protect my _____?

_____ you _____ option to _____ second layer _____ protection?

Is it _____ set _____ verification to reinforce _____?

_____ use two-factor _____ in _____ system.

_____ security available _____ your _____?

_____ you _____ with two-factor Authentication?

_____ use 2FA _____ safety _____?

I _____ I _____ use two-factor for _____.

_____ it _____ you _____ offering _____ for _____?

Is there _____ that allows _____ as an _____ defense?

Do _____ provide an _____ of security _____ two-factor _____?

Two-step _____ is one _____ can offer enhanced _____.

Is there any chance _____ want _____ offer _____?

_____ system support _____ verification?

Does the _____ have 2FA _____ layer of _____?

Is _____ of protection, _____ as two-step login?

Your _____ security?

_____ it possible _____ implement higher security through _____.

_____ the _____ two steps for _____?

do _____ offer _____ layer of _____ through two-factor _____?

_____ has a _____ login process?

Do you _____ layer of _____ using _____ auth?

_____ option to improve _____ security.

Do _____ any _____ such as two-step _____?

Do _____ have _____ way _____ to add _____ layer of _____?

_____ another level of protection _____ here?

_____ security _____ be strengthened _____.

Does _____ system _____ two-factor _____?

_____ protection like 2FA _____ security?

Has there _____ security levels _____?

Is _____ that two-step _____ here?

_____ there _____ layer like _____ authentication _____?

Two-factor authentication is _____ measure.

_____ possible _____ your company to _____ additional security _____ 2FA?

_____ I use _____ within your _____ account security?

_____ may be _____ option _____ add _____.

_____ it possible _____ two-step verification _____ implementing higher _____?

_____ use _____ here for _____?

_____ I use _____ to _____ my _____?

_____ it _____ that your _____ can _____ two-factor _____?

2FA _____ an enhanced _____.

Is _____ to _____ security via _____ authenticator?

_____ systems have a _____ login _____?

Can _____ another level _____ through _____?

Do _____ more security _____ like 2FA _____ company?

_____ can _____ use two-factor?

Does _____ system make _____?

Is there _____ way to _____ through _____?

Do _____ protection, like _____ login?

_____ 2FA _____ security?

Is it possible _____ your _____.

_____ 2FA _____ as _____ safety feature on _____ platform?

_____ your system _____ a two-factor _____?

Extra-security _____ be _____ factor authenticator.

Is it _____ two-factor security _____ my _____?

What about 2FA _____?

_____ you have additional _____ like _____?

_____ wonder if _____ can have _____ in _____ account.

_____ can _____ enhanced _____ authentication.

_____ an _____ to increase _____ with _____.

Is _____ possible to _____ through _____ two-factor _____?

_____ I _____ two-step _____ to implement higher security?

_____ system can _____ 2FA?

Has the addition _____ supported _____ system's _____ features?

Is it _____ security _____ login?

Do _____ offer two-step verification _____?

_____ 2FA will _____.

_____ two-factor identity verification?

Are _____ added _____ 2FA available?

Can _____ additional security _____ two-factor _____?

Are _____ with a _____ process?

_____ two-factor for security?

_____ you offer 2FA _____ safety _____?

_____ possible to _____ two-step _____ to implement higher _____?

Is _____ option _____ 2FA _____ your system _____?

_____ there exist _____ add 2-step _____?

_____ allow _____ verification _____ extra protection?

_____ it possible to _____ authentication?

Can I _____ solution _____ your _____?

Did _____ company have _____ 2FA?

You _____ offer _____ method if _____ safety.

Is _____ possible _____ account security _____ two-factor authentication?

Can _____ increase _____ login?

Is _____ possible to _____ dual _____ to _____ data _____?

_____ security possible _____ verification?

Is _____ more protection, _____ two-step _____?

_____ support use _____ dual verification _____?

_____ give more _____ with _____ verification?

_____ your system _____ two-step verification _____?

_____ offered, but _____ there added _____?

_____ added layer _____ security?

Is _____ possible to implement _____ security _____ verification?

Is _____ allowed for better protection _____?

_____ an extra layer of _____ like _____?

_____ be _____ two-step verification option _____ your _____?

Is _____ necessary _____ added safety?

Does your _____ to use _____ extra layer of _____?

_____ two-factor _____ can add _____.

Are _____ options _____ offer _____ through two-step _____?

Can _____ use a _____ account?

Is it possible _____ use _____ enhance _____?

Does your _____ 2FA use _____ layer _____ defense?

Can _____ use 2 _____ added _____?

_____ using _____ included _____ system?

_____ I add _____ second _____?

_____ to _____ two-factor Authentication in _____ system?

You _____ offer dual _____ if _____ value _____ enough.

_____ users set _____ authentication to protect _____?

How _____ dual-layer _____ be enabled _____ like _____ codes in _____ platform?

Is it ____ to use ____ company's system?

2FA ____ an ____ protection ____ your account.

Do you ____ two-factor ____?

Are ____ through 2FA?

Is ____ verification here for better ____?

____ your ____ to provide ____?

Can you tell ____ if ____ is ____ as ____ safety ____?

____ want ____ I can ____ two-factor verification in my ____.

____ you ____ system has two-factor ____?

Would ____ interested ____ offering 2FA for ____?

____ there an ____ of ____ with 2FA?

Is 2FA ____ new ____ platform?

Is it ____ two-factor Authentication to ____ security on ____?

Do you ____ the ____ of ____?

Is there any option ____ enhanced ____ such ____ verification?

____ I ____ of protection with ____?

Can I ____ extra security ____?

____ such as 2FA ____.

____ you include ____ security ____?

Is there ____ two-factor ____?

____ there a ____ using 2FA ____?

____ the option to ____ 2FA ____ in ____?

Is ____ to use ____ in ____ system?

Are you ____ to ____ verification ____?

Can I ____ verification to ____ card as ____?

Is the ____ security ____ of 2FA?

____ I ____ a second ____ protection ____ double-authentication?

Are ____ offering ____ for added ____?

____ an additional security ____ with your ____.

____ additional security with ____?

Is it ____ to ____ a supplementary ____ such ____ two-factor ____?

Can you use ____ higher ____?

Is there ____ protection I can add ____?

Does ____ company ____ like 2FA?

Is ____ possible ____ use ____ to ____ on my ____?

____ security possible through ____?

Is ____ use two-factor ____ security?

____ it possible ____ use ____ verification ____ implement high ____?

Is ____ a two-factor ____ your ____?

____ verification for better ____?

Is there ____ that ____ can ____?

Is ____ possible ____ to use ____ in my ____?

____ a ____ option included?

____ allow two-step verification for ____?

____ is possible ____ system ____ two-factor ____.

For extra ____ will ____ two-factor?

Is it ____ to increase ____?

Is ____ extra ____ two-factor Authentication?

Do you ____ for ____ your system?

____ there ____ like 2FA ____?

Is it ____ to ____ to add ____?

There ____ option for 2FA ____.

Is ____ capable of ____?

Does your system ____?

____ the ____ with two-factor ____?

Is ____ on ____ platform?

Do ____ two ____ verification for safety in ____?

____ you ____ the option ____ for safety purposes?

____ you ____ two-factor authentication ____ measure?

Has ____ security ____ supported ____?

____ is ____ added layer ____.

I want to ____ if ____ enhanced ____ feature ____ platform.

____ it possible ____ me ____ increase my ____ with ____.

Are ____ willing to ____ extra layer ____ through two-factor ____?

Can ____ enable ____ 2FA ____?

Is ____ possible ____ two-factor verification to ____ more secure?

____ I add two-step verification ____ additional ____ for ____?

____ system security?

Is ____ possible ____ use more ____ like ____ factor?

____ systems support ____?

____ provide an ____ layer of ____ using ____ auth?

Is ____ verification ____ added safety?

____ use two-factorAuthentication ____ enhance ____ account ____?

____ offer extra security ____ two-factor ____?

Is there a way to ____ safety ____ two-step ____?

They ____ be ____ extra security.

Do ____ a second layer of ____ authentication?

Are ____ talking ____ for additional ____?

Is it possible ____ higher security ____ verification ____?

Do ____ provide ____ protection, ____ as ____?

____ two-step security ____ available ____?

____ use two-factor accounts to ____?

Do you ____ another security ____ with your ____?

____ I use ____ factor ____ additional ____?

Two-factor ____ could be ____ measure.

____ there a way ____ security ____?

____ a ____ to add security?

____ accessible ____ your platform?

Does ____ system ____ verification ____ safety?

____ to use ____ authenticating your ____?

Do you ____ the ____ Authentication?

____ you ____ to ____ for safety ____?

Can ____ be ____ to ____ security?

Is ____ for ____ safety ____?

____ support two-factors ____ security?

____ it possible to ____ authentication ____ my ____ security?

____ possible ____ two-factor ____ in your system?

____ offer an extra level of ____ through ____?

Do ____ have the ____ 2FA for ____ purposes?

____ a second security measure ____ 2FA ____ be ____.

_____ use double-authentication _____ to enhance _____?

_____ it possible _____ system _____ provide _____ security?

Is two-step _____ feasible?

_____ your _____ additional _____ options _____ as 2FA?

Can I _____ layer _____ protection _____ double-authentication _____?

_____ 2FA _____ option _____ bolster _____.

_____ it _____ to add two-factor verification _____ the _____ your _____?

_____ levels offered _____ 2FA?

Is _____ possible for _____ offer two factor _____?

_____ system safe _____ two-factor _____?

_____ 2FA added to _____?

Can I use _____ to _____.

Are _____ featuring _____ security?

Is your _____ features compatible _____?

_____ 2FA _____ an option to _____?

_____ is an _____ a 2-step _____.

_____ possible for me _____ extra layer of _____ with _____?

Extra-security _____ added via _____.

_____ extra _____ you offer _____ thingy?

Is _____ to _____ additional measures like a _____

Does 2FA _____ safety feature?

_____ layer of security with _____?

Do _____ the option _____ using _____ safety reasons?

Are there _____ for enhanced safety _____ as _____?

Is it possible _____ in _____ system?

_____ you offer _____ higher level _____ security _____ two-factor _____?

Could add-on _____ protection here?

Is _____ add 2-step verification?

There _____ be a _____ option _____ system.

_____ that _____ accessible here?

_____ use a two-factor _____ security?

Is _____ to _____ security?

_____ any _____ like _____ two-factor authentication?

_____ can I _____ additional layer of _____?

Do you _____ better security?

_____ possible _____ twofactor for _____ security.

_____ to _____ an extra layer of security _____ two-factor _____?

Is _____ more auth _____ like _____ second factor.

_____ to offer _____ verification method _____ value safety?

Does 2FA exist _____ your _____ as _____ safety _____?

_____ via two-factor authenticator?

2FA is _____ of _____ security options your _____.

Does your _____ have a _____?

Can _____ use _____ verification _____ platform?

_____ your _____ have _____ security _____ like 2FA?

Your system _____ support _____ of _____.

Can _____ security?

Is it _____ dual login to reinforce _____?

Is _____ option to _____ 2FA _____ in _____?

Does your _____ as _____ layer of defense?

_____ is _____ chance _____ adding 2FA _____ increase _____.

_____ there _____ of _____ with 2FA?

Does your _____ 2FA as an _____ layer _____?

2FA _____ an _____ security _____.

_____ it possible to _____ up dual _____ reinforce _____?

_____ you _____ extra layer _____ security with two-factor _____?

_____ you offer _____ an _____ security _____?

Is it _____ add _____ level of _____ double-authentication?

Can 2FA _____ feature?

_____ use two-step _____?

_____ have _____ for two-factor _____?

Can _____ two-step _____ to _____ security?

Is _____ you _____ a dual _____ method?

Does _____ exist on _____?

Does your _____ allow _____ use _____ additional layer _____ defense?

_____ there add-on _____ for _____ allowed?

Do _____ protection such as _____ login?

_____ there an extra _____ security through _____?

Can _____ strengthen _____ two-factor _____?

Are you in _____ of double _____?

_____ support _____ security features?

Is there an _____ for _____ safety _____?

_____ dual-authentication enabled?

_____ possible for me to _____ with two-factor authentication?

Do you _____ security _____?

Are _____ able _____ the two-step security _____?

_____ I add _____ level of protection if _____?

Can _____ confirmation _____ beef _____ my defence?

Can I _____ more _____ by _____?

Adding 2FA might be _____.

_____ there _____ available, such _____ two-step _____?

Can _____ use _____ verification _____ my _____?

_____ wonder _____ an extra _____ of protection with _____.

Do you _____ security such _____?

_____ it possible _____ account _____ with two-factorAuthentication within _____ platform?

_____ can offer _____ verification method _____ you value _____.

Are _____ offering 2FA _____ security?

_____ give me a _____ in your system?

_____ your _____ two-step login process?

_____ the option _____ exist?

Is it _____ to _____ option?

Is it possible _____ authentication to _____ data protection _____.

_____ it _____ to use _____ on _____?

Are _____ in _____ of _____ accreditation for _____?

_____ your system's security features _____?

_____ ways to _____ verification?

Can I use _____ security _____ second _____?

_____ it _____ set up _____ in my _____?

Do _____ twofactor security _____?

Do _____ another layer of security _____?

Is _____ increase security with _____.

_____ increase security?

_____ able _____ enhance security with _____?

_____ I use two-step verification _____?

_____ to use two-factor authenticating _____ enhance _____ on my _____?

Is 2FA _____ in your platform _____ enhanced _____?

_____ to add another level of _____ with _____.

_____ dual _____ users reinforce data _____?

Can _____ measures like _____ factor?

Do you _____ protection?

Do _____ provide _____ account _____ 2FA?

Two-factorAuthentication is _____ added _____ for your _____.

Do _____ a way to add _____ of _____?

Is _____ possible _____ increase the _____?

Does the _____ of _____ your _____ features?

Is it _____ to _____ 2FA use _____ of defense?

Can _____ use _____ protection?

Is double _____ better _____?

_____ you offer _____ features?

Do you have _____ feature _____ 2FA to be _____ as an _____?

Do _____ have a _____ two-factor _____?

_____ provide 2FA for _____ account _____.

Do _____ think you can _____ verification method _____ mind?

_____ you _____ to enhance _____?

Is _____ any way _____ secure _____?

_____ you _____ two-step _____ to increase _____?

_____ I use _____ to raise _____?

_____ system _____ with a _____ login?

_____ the _____ to add _____ verification?

There _____ extra _____ two-factor authentication.

Is _____ available for _____ on _____?

Can I _____ two-factor _____ additional _____?

Is _____ available _____ on your _____?

_____ extra layer _____ security through two-factor access?

_____ an option _____ a 2-step _____?

Is _____ possible _____ add _____ security _____ authenticator.

_____ you give the option _____ for _____?

Can _____ your system has a _____ process?

Does 2FA _____ an _____ safety feature _____ your _____?

In _____ can I _____ authentication?

_____ option to _____ protect _____ system?

Is _____ that allows 2FA _____ be an _____ of _____?

Can _____ two-factor _____ your system?

Can _____ more _____ a two-factor _____?

_____ I _____ two-factor _____ your system?

_____ it _____ to use two-factorauthentication _____?

_____ your _____ option like 2FA?

Do _____ support two-step _____ protection?

_____ system's _____ should support _____.

_____ you want _____ verification _____ security?

_____ you _____ dual-verification measures _____ your _____?

_____ you can _____ dual _____ method?

_____ your system use _____ Authentication _____ a _____?

Has _____ on your _____?

Is _____ system can offer _____ Authentication?

Could I _____ to add another level _____?

Is there a chance _____ verification method?

Is _____ possible _____ another security _____ like _____.

_____ an option?

2FA is _____ security?

Do you _____ increased _____?

_____ levels _____ are available.

_____ 2FA _____ an improved safety _____ on _____?

_____ 2FA _____ added safety _____ platform?

Do you _____ for _____?

Is 2FA _____ your _____?

Does double-authentication allow _____ to _____ of _____?

Enhanced safety through _____ two-step _____ may _____ available.

Are _____ to _____ two-factor for _____ security?

_____ have _____ use additional measures _____ a second factor?

_____ you _____ security with _____?

Is it _____ additional measures _____ second factor.

Can _____ security with two-factor _____?

_____ there a way to make _____ an _____?

_____ there an _____ two factor _____?

_____ to add an _____ layer like _____ authentication?

_____ two-factor _____ added to _____?

_____ 2-step verification?

Can _____ Authentication to reinforce data _____?

_____ your features _____ 2FA use as an _____?

_____ system offer two-factor _____?

_____ it _____ to _____ two-factor _____ your _____?

Is it _____ add additional _____ a two-factor _____?

_____ 2FA an _____ safety feature _____?

Does your system _____ two _____?

Can _____ use _____ verification _____?

_____ have _____ protection _____ 2FA?

Can _____ use _____ improve _____ security?

_____ it _____ for _____ to offer _____ authentication _____ an _____ security measure?

2FA _____ of defense, _____ you have one?

Do you _____ possible _____ offer _____ verification _____?

_____ a _____ login _____ your system?

Does your _____ enhance _____ account security with _____ Authentication?

_____ you offer _____ layer of _____ through two-factor _____?

_____ thingy _____ be _____ for extra _____.

Do _____ offer additional protections _____?

Can _____ possible _____ your system to offer _____?

_____ I _____ security with a _____?

_____ an _____ safety _____ your platform.

_____ possible _____ protection _____ double-authentication here?

_____ you want to _____ double _____ for _____?

Can _____ use _____ like 2FA.

Is _____ possible _____ authentication in my _____?

_____ 2FA _____ your _____ features.

Do you allow us _____ safety _____?

_____ it possible that _____ is _____ safety feature on _____?

_____ security levels like _____ available?

Is _____ a _____ two-step _____ as an extra _____?

Does _____ layer of security such _____ two-factor authentication?

Do you give _____ extra _____ 2FA?

_____ it _____ two-factor authentication to _____ security?

Is there _____ that can be added _____ double-authentication _____?

Will 2FA _____ an _____ security?

_____ use double-authentication here to _____ even _____?

_____ you have _____ for a _____ layer _____ protection?

Are you _____ with the _____?

_____ you _____ system _____ two-factor authentication?

Does your _____ using dual _____?

_____ wonder if there is _____ add 2-step _____.

Is it possible _____ safety _____?

Are _____ to offer _____ for _____?

_____ two-step verification _____ increased security?

_____ add-on verification _____ for _____?

_____ don't _____ can use two-factor _____ added security.

For _____ security can I _____?

There is _____ to increase _____.

_____ to provide a second security _____ 2FA?

_____ 2FA _____ your company?

Should _____ securing access?

Can _____ use _____ boost security?

Is there any _____ to offer _____ safety _____ such _____?

_____ 2FA provided _____ your _____?

_____ add _____ security _____ a _____ authenticator?

Can _____ a _____ security _____ with _____?

Can _____ security _____ a _____ authenticator?

_____ any more _____ options like 2FA _____ company?

_____ there a two-step _____ that _____?

_____ there _____ 2FA in _____ security features?

_____ second security measure like _____?

Are security _____ 2FA?

_____ you _____ added security?

Can _____ my _____ with _____ confirmation?

_____ two-factor for more security?

Is _____ possible to use more _____ a _____?

There is a _____ layer _____ called _____.

It _____ to use _____ in _____.

Is there more _____ for your _____?

_____ your offering _____ for _____?

Is _____ able _____ an _____ feature?

_____ bolster system security?

_____ is a choice of _____ 2FA _____.

_____ to _____ two _____ security to your system?

_____ verification to add _____ security?

_____ can be use _____ an _____ defense.

_____ add a _____ level _____ protection with _____ here?

_____ by _____ security features?

_____ have _____ security like 2FA _____ company?

You can offer _____ if _____ value safety.

Is _____ a security _____ your _____?

_____ possible _____ use _____ added security?

Are you offering _____?

Does _____ the _____ of using _____?

_____ get _____ protection through double-authentication?

_____ to _____ two-factor Authentication in your _____?

_____ twostep verification for _____?

_____ you provide added _____ through _____?

They _____ for extra security?

_____ to _____ two-factor security _____ your system?

Is _____ additional safety _____?

Is your _____ dual-verification _____?

_____ there _____ ways _____ use 2FA in _____?

Is it possible _____ enhance _____?

_____ use more measures, _____ factor?

_____ it _____ use 2FA in _____?

_____ set up _____ protect _____ data?

_____ you _____ an extra _____ of _____ with _____ auth?

_____ there an _____ that _____ safety _____ two-step verification?

_____ verification _____ feature that can offer _____.

_____ 2FA _____ option to keep _____?

_____ you offer an _____ of protection _____?

Is _____ possible to _____ in _____ system?

Can _____ add _____ protection _____ here?

_____ you _____ 2FA for added _____?

Can _____ use _____ increase security _____ account?

Is _____ an _____ layer _____ two-factor _____.

_____ with a two-tiered login?

_____ there an additional _____.

Do you _____ a feature _____?

_____ secure with a _____ system?

_____ you _____ an _____ add _____ step verification?

Is it _____ use _____ system?

_____ tell me _____ the _____ thing _____ available here?

Can _____ two-factor _____ within _____ platform?

_____ an _____ layer of _____ like _____ for account security?

Is _____ like 2FA _____?

_____ the options _____ 2FA _____ in _____?

_____ I _____ two-factor for _____?

Do you _____ for additional _____?

_____ it possible _____ add extra _____ a two-factor _____?

_____ add 2FA _____ increased security?

_____ be _____ to _____ another level _____ protection.

Do you offer _____?

Do _____ security?

_____ there _____ security _____ 2FA?

_____ your _____ two-factor security?

Is _____ a _____ login _____?

_____ it _____ two-factor id _____ your system?

_____ dual-authentication can be _____.

Are your _____ secure?

_____ your system have _____ to _____?

2FA _____ added security _____.

Did _____ two-step login _____ your _____?

_____ security _____ support 2FA?

_____ two-factorAuthentication _____ as an added _____ of security _____?

_____ I _____ a two-factor _____ enhance _____?

Is 2FA _____ to bolster _____.

Does _____ increases _____?

Are _____ 2FA to increase _____?

Can I _____ two-step _____ option in _____?

Are _____ offering security _____?

_____ you have _____ option to _____ 2FA?

Is _____ two-factor _____ in my account?

Do you _____ you _____ the _____ verification method?

_____ I _____ defend _____ account _____ confirmation?

Is _____ use two-factor authentication to increase _____ account?

If _____ value _____ you offer _____ verification method?

_____ it possible _____ security with _____?

Is _____ possible _____ use _____ your _____?

Are _____ verification for _____ in _____?

Can _____ be added _____?

Is the _____ security features _____ addition _____?

_____ about _____ 2FA for _____?

Is it possible to use _____ as _____?

_____ possible to _____ your system?

_____ it possible _____ increase security?

_____ there _____ way _____ add extra _____ two-factor authenticator?

_____ your _____ security options like _____?

_____ there an _____ to add _____

_____ I get _____ confirmation _____ order _____ beef up _____?

_____ 2FA _____ added safety?

_____ system _____ two _____ for safety?

_____ you _____ extra _____ through two-factor _____?

_____ system _____ 2FA _____ a _____ layer?

Do you offer _____ auth?

Will _____ be _____ verification in _____?

_____ system _____ the _____ using 2FA?

_____ increase protection through _____?

Is _____ verification _____ better protection?

Is there a feature _____ 2FA _____ layer _____ defense?

_____ a _____ layer _____ security such as _____ identification?

____ 2FA an option ____ better ____ ____ ?
 Do I have two-step ____ ____ ____ ?
 Can ____ ____ more protection via ____ ____ ?
 ____ ____ an ____ to ____ a verification?
 ____ it possible to ____ a ____ ____ via double-authentication?
 ____ you ____ add-on verification ____ better ____ ?
 Do ____ ____ supplementary layer ____ ____ such ____ two-factor authentication?
 ____ ____ safety feature ____ offer?
 Does your ____ ____ ____ measures?
 Is it ____ ____ use two-factor authentication to ____ ____ ____ account?
 Is ____ possible to use ____ ____ ____ ?
 ____ ____ more ____ like a two-step ____ ?
 ____ ____ to ____ two-factor for extra security?
 Can ____ ____ extra ____ like a ____ ____ ?
 Do ____ ____ feature that ____ allow 2FA to ____ ?
 Is ____ ____ to use two-factor ____ ____ your ____ ?
 Two-factor ____ can ____ ____ .
 ____ I ____ second ____ measure?
 Is ____ possible ____ get ____ two-step ____ ____ here?
 Is ____ ____ like ____ for account ____ ?
 Do ____ ____ your system ____ have ____ ____ security?
 Can ____ ____ two factor ____ ?
 ____ it ____ to ____ additional ____ via ____ two-factor authenticator?
 Is it ____ to ____ higher ____ with ____ verification ____ .
 ____ ____ ____ added security layer?
 Maybe there ____ ____ to ____ 2-step ____ .
 Can ____ ____ ____ in my account?
 2FA could be ____ ____ ____ .
 Does 2FA ____ on your ____ ____ safety ____ ?
 Do ____ provide ____ ____ 2FA?
 Would ____ ____ two-step verification ____ ?
 ____ ____ possible ____ use ____ in your ____ ?
 ____ ____ capable of ____ verification ____ safety?
 ____ value safety ____ ____ offer ____ verification?
 ____ ____ have ____ ____ level of protection ____ 2FA?
 Do ____ ____ ____ an enhanced ____ ____ on your platform?
