

[Demo] NLP Dataset for Customer Service Automation

Company Type	Water and Wastewater Utility Companies
Inquiry Category	Water pressure and flow issues
Inquiry Sub-Category	Reduced Flow in Certain Areas
Description	Customers experience reduced water flow in specific areas of their property, such as certain taps or fixtures. This can be caused by clogged or corroded pipes, localized valve issues, or problems with the fixture itself.
Data Size	5,008 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Water and Wastewater Utility Company" customer inquiry. (Purchased data will not be masked.)

_____ increase _____ pressure for _____ hose?

Is _____ possible to enhance _____ the _____?
