

[Demo] NLP Dataset for Customer Service Automation

Company Type	Electricity Suppliers
Inquiry Category	Complaints regarding high electricity bills
Inquiry Sub-Category	Unexplained spikes in usage
Description	Inquiries about sudden and significant increases in electricity usage without any apparent changes in consumption habits, appliances or equipment.
Data Size	14,842 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Electricity Supplier" customer inquiry. (Purchased data will not be masked.)

_____ an external factor be _____ our electrical usage?
_____ electricity _____ from unknown _____?
_____ could be to blame for _____ spike _____.
_____ electrical _____ increased suddenly?
_____ electricity use to _____?
_____ there's _____ why _____ using so _____ electricity.
Is _____ the rise _____ electrical _____ was _____ by outside _____?
Have any _____ contributed _____ surge _____ electricity use?
Is it _____ there _____ unknown reason for the _____ consumption?
Is it _____ that _____ unknown _____ is _____ for _____ sudden increase _____ electric _____?
_____ something _____ causing _____ rise _____ electric _____?
Is it possible _____ the spike in _____ is a _____ considerations?
_____ external _____ be _____ blame _____ this _____ in _____ demand.
Is _____ power usage _____ result _____ external factors?
_____ something _____ the power _____?
Can _____ that _____ spike in _____ was _____ to an external _____?
The sudden _____ in _____ could be _____ result _____ an external _____.
_____ something outside _____ blame for _____ spike _____ electricity _____?
_____ could _____ external _____ the sudden _____ in demand.
Is _____ possible another _____ blame _____ the _____ in _____ usage?
_____ in power consumption _____ by external force.
_____ it possible that _____ caused the _____ in electrical _____?
_____ it _____ fault _____ the event _____ more electric _____?
_____ be to _____ the unexpected spike _____ electricity demand?
_____ cause the _____ power consumption?
Is _____ in power usage _____ factors _____ internal _____?
_____ factor _____ blame for the rise _____ electrical _____?
_____ an _____ spike in _____ from _____ unknown source.
_____ sudden hike in _____ due to _____ influences?
Did _____ outside element _____ surge in _____ use?

____ a factor ____ electricity ____?
 ____ spiking electricity ____?
 ____ that contributes to ____ electric use than ____.
 ____ extraneous element have anything to ____ energy use?
 Could ____ other factors that can ____ higher ____?
 ____ the ____ the cause ____ power ____?
 The ____ in ____ may ____ due to external ____.
 ____ something unusual ____ electric ____ to ____?
 Could ____ see the ____ in ____ demand due to ____?
 Is ____ a ____ sky ____ power ____?
 ____ much ____ will we ____ if there ____ an ____ cause?
 ____ there is an external cause that ____ electricity ____?
 Is it ____ factors are increasing ____ electricity ____?
 Why ____ use go up ____ unknown ____?
 What ____ sudden ____ electrical consumption?
 Can an ____ be used ____ explain the rise ____?
 ____ with power use?
 What ____ external ____ cause our electricity use ____?
 Is there ____ some element is ____ surge?
 Is there ____ cause ____ hike in ____ utilization ____?
 Maybe ____ something ____ with the surge of ____ usage?
 Is ____ rise in ____ use ____ of ____ extraneous ____?
 Is the electric ____ influences?
 ____ we ____ sudden ____ in power usage ____ external factors?
 ____ outsider had a ____ in ____ surge ____ electrical ____.
 Do ____ attribute the ____ power usage ____ factors?
 ____ someone cause ____ electricity ____ increase?
 ____ it ____ that ____ or condition caused ____ our electrical usage?
 ____ it possible ____ an ____ source ____ to ____ electrical usage?
 ____ an external ____ the sudden ____ in ____ usage?
 Was ____ possible for an external ____ in ____ demand?
 ____ are ____ factors ____ could ____ electricity usage.
 Can the ____ used?
 Do ____ think an external ____ is involved in ____ mystery ____?
 What if ____ factors ____ our ____ to ____?
 ____ unexpected increase ____ demand ____ linked ____ an external cause.
 ____ might ____ an outside factor contributing ____ higher ____.
 It ____ external cause contributes to ____ inexplicable electricity ____.
 ____ it possible that ____ is ____ unexpected ____ in ____?
 Is it ____ an ____ element is ____ for ____ increase ____ consumption?
 An ____ have ____ hand in ____ of electrical usage.
 ____ outsider might have ____ part ____ of ____ usage.
 I wonder ____ it's possible ____ electric ____.
 An external ____ behind ____ spike.
 ____ are slammed by an ____ of high ____.
 ____ is an ____ the inexplicable electricity increase.
 Does ____ account ____ increase?
 Is the rise ____ something?
 Is it ____ that someone ____ the ____ in ____ usage?
 ____ it ____ external ____ that's ____ electricity spike?

_____ the spike _____ power _____ to _____ factors?
 Can it be _____ on _____ event _____ more _____?
 The _____ surge _____ electrical _____ may _____ been caused _____ outsider.
 _____ an external _____ for our _____ increase.
 Maybe _____ a reason _____ the _____ in electricity _____.
 _____ unexpected _____ electrical _____ may _____ been the work of _____ outsider.
 Is _____ that an external factor _____ surge in _____?
 _____ reason could explain the _____.
 Is _____ usage due to _____ force _____ a condition?
 _____ there a cause _____ unexpected _____ electricity usage?
 _____ if there was _____ sudden _____ in _____ electricity _____?
 Something _____ be _____ the spike _____ electricity _____.
 Something external may _____ responsible _____ the sudden _____.
 Increased consumption _____ rise?
 Could there _____ factors _____ our control _____ contributing _____ higher _____?
 Is _____ external factor to _____ our electrical usage?
 Something could be _____ surge in _____.
 _____ an _____ variable to blame _____ increase in _____ use?
 _____ that _____ reason for sky-high _____?
 _____ rise _____ electrical _____ being attributed to an external _____.
 _____ that the _____ of power _____ is _____ by an _____ factor?
 _____ mystery _____ energy usage may be _____ an _____ factor.
 We might _____ cause _____ high electricity _____.
 _____ our power increase.
 Is _____ possible that _____ surge in power _____ by the _____?
 _____ this _____ electricity demand due _____ factors?
 _____ spike in electricity _____ be _____ by an _____.
 Is the _____ usage _____ an external factor.
 Can _____ a reason _____ the rise in _____?
 Is _____ that _____ for the _____ increase?
 _____ sudden increase in _____ patterns _____ be the _____ of _____ external _____.
 The surprising increase _____ electricity _____ be _____ variables.
 _____ we _____ an _____ cause contributing to _____ electricity _____.
 _____ growth _____ consumption due to outside _____?
 Can an _____ account _____?
 _____ there a reason _____ increased _____?
 _____ could cause _____ electricity _____ to _____ up _____ quickly?
 _____ messing up our _____ bills?
 The electricity _____ probably due _____ an _____.
 Are _____ beyond _____ reason for _____ energy consumption?
 A _____ in electrical usage _____ be _____ a third _____.
 Is _____ possible that _____ the increase _____ electrical use?
 _____ believe _____ external _____ could _____ mystery rise in _____ usage?
 _____ could be to blame _____ the sudden spike _____.
 _____ spike in _____ demand was _____ by _____ something.
 Is _____ for _____ sudden rise _____ energy use?
 _____ there a _____ for _____ electricity _____?
 _____ happened _____ surge in power _____?
 _____ forces _____ havoc with _____ rise in electrical use?
 _____ spike in _____ use _____ by an _____ factor?

_____ extraneous _____ the _____ in energy use?

Is _____ causing _____ electric _____ to _____?

_____ an _____ variable to _____ for _____ increase _____ utilization patterns?

_____ it plausible _____ surge _____ power _____ the result of an _____?

Why _____ sudden _____?

_____ external to _____ for electric _____?

_____ we _____ a reason _____ power _____?

_____ outside cause _____ power usage to _____?

_____ something _____ a surge _____ power use?

_____ this unusual _____ power usage _____ to factors beyond _____?

_____ _____ to _____ for _____ increase in our power _____?

_____ usage surge may _____ been _____ by _____ party.

Do we think that _____ spike _____ usage _____ due _____?

There _____ chance that _____ element is _____ the _____ in our _____.

Is _____ sudden spike _____ to _____ beyond internal considerations?

_____ it _____ for _____ external _____ this surge in power _____?

_____ may _____ caused the sudden _____ electricity use.

_____ outside element _____ to _____ surge in _____ use?

_____ it _____ is a sudden _____ in electricity _____?

Consider _____ increased _____ may be _____ by _____ beyond our _____.

_____ it _____ that _____ force _____ condition is _____ for the spike _____ electrical _____?

_____ may _____ caused _____ sudden _____ in electricity use.

_____ possible _____ unknown factor is behind the _____ in electric _____?

_____ it possible that external _____ our _____ unexpectedly?

Did _____ affect our _____?

_____ there _____ for the unusual rise in _____?

The _____ have _____ more electric _____.

What if that spike in _____ was _____?

Did our _____ go _____ of _____ outside?

Is there _____ reason for _____ electricity demand?

Maybe _____ external variable _____ blame for _____ energy utilization patterns?

Something _____ may have _____ sudden spike in _____.

_____ factors beyond our _____ be _____ blame _____ increase?

_____ was _____ cause of _____ spike _____ electricity _____?

Was _____ due to something external?

_____ it possible _____ outside factor was behind the _____?

Maybe an _____ our _____ bill?

Maybe there is _____ up _____ electric _____?

How _____ are external _____ that _____ our _____ usage?

Are there any _____ power _____?

_____ cause our electricity _____ to _____ up like _____?

_____ a _____ cause be the _____ of _____ increase?

A _____ increase _____ electrical demand _____ to an _____.

_____ the increase in electricity _____ a result _____?

Did something outside mess _____?

Is _____ that an external variable _____ blame for the _____ energy _____?

_____ control could have caused _____ surge _____ power _____.

_____ a _____ for high electricity _____?

Is _____ external _____ to blame _____ sudden rise in _____?

_____ there _____ high electricity use?

_____ wonder if _____ our _____ bills.

Did something _____ our _____ a sudden _____ in _____?

_____ electrical demand could be linked _____ else.

_____ our _____ that caused the surge _____ power consumption?

_____ external might _____ use to go up.

_____ the rise _____ consumption is the _____ outside _____.

Is the _____ raised usage?

It's other's _____ for _____ spiking _____.

_____ reason _____ our unexplained _____ increase?

Is there _____ chance _____ element is _____ in energy _____?

What could be _____ electricity _____?

_____ an external _____ the _____ sudden _____ in energy use?

_____ our _____ increase because _____ anything _____?

There might be external factors _____.

Outside condition _____ sudden _____?

Is _____ possible that _____ surge in _____ caused _____ exterior factor?

_____ something _____ to _____ for this _____?

_____ factor is _____ for the sudden rise _____ electric consumption.

Something _____ is _____ electricity _____.

Something _____ the _____ in _____ use.

Can _____ variables _____ electricity usage?

_____ there a _____ that _____ to blame _____ the sudden increase _____?

Is _____ possible that our _____?

_____ the spike _____ power usage _____ factors _____ internal _____?

The _____ surge _____ usage may _____ caused _____ a third _____.

_____ sudden rise _____ electricity usage _____ attributed _____ external factor.

Can _____ element _____ rise of energy _____?

We may have _____ pushing _____ electric _____.

The _____ consuming rise _____ do with external _____.

Is _____ outsider _____ for the _____ in _____ usage?

Is it possible that external _____ explain the _____?

Might factors other than our _____ the electricity _____?

Is our sudden _____ consumption due to _____?

_____ it _____ to _____ for the _____ electric.

_____ unexpected _____ in electricity _____ to external influences?

_____ it _____ something _____ caused our electricity _____ spike?

_____ there a _____ for _____ in _____ use?

_____ factors could _____ blame for our _____ increase _____ power _____.

_____ surge _____ use could _____ external factor.

_____ blame can be _____ an event _____ use.

_____ an _____ to _____ the sudden rise in _____ usage?

_____ sudden spike _____ electricity usage _____ attributed _____ external factor?

The _____ of _____ usage _____ by an outsider.

_____ caused the _____ in _____?

Is _____ possible _____ external element _____ for the surge?

_____ caused the spike in electricity _____.

_____ an external factor _____ the sudden increase in _____.

I _____ external _____ to _____ for the _____ rise _____ electrical _____?

Is there _____ the unexpected _____ in electricity _____?

_____ an external variable is _____ blame _____ the _____ energy _____ patterns.

_____ responsible _____ the spike in _____?

The _____ electricity _____ may be due _____.

_____ any outside element contribute to _____ in _____?

_____ possible _____ blame for the rise in electric use.

The _____ in our energy _____ patterns may _____ related _____ external _____.

Can we _____ the _____ in _____ to _____ external factor?

An _____ might be _____ to cause _____ surge _____ demand.

_____ higher electric _____ outside elements?

_____ something else _____ the _____ to go up?

What _____ sudden increase _____ electricity _____ was _____ something else?

Is the _____ stuff _____ power _____?

_____ possible _____ something is to _____ sudden rise _____ consumption?

Did anything outside _____ the _____ our _____ use?

Maybe there _____ an external _____ causing _____.

I _____ if _____ is causing _____ to _____ up.

What could cause our _____ up so _____?

_____ an outside event _____ blamed _____ the _____ of _____?

_____ increase _____ demand may be linked _____ an outside _____.

Is the consumption _____ to _____?

Do you _____ is _____ the _____ in energy usage?

_____ possible that _____ factors _____ our _____ surge in _____ consumption?

Do you believe _____ an _____ factor behind the _____ energy _____?

_____ in power demand be caused _____ external _____?

_____ it _____ element is responsible _____ increase _____ energy consumption?

_____ there _____ unknown factor responsible _____ rise in electric _____?

Can there _____ factor _____ increase in _____?

_____ want to _____ if there _____ sky-high power usage.

_____ factors _____ our _____ to _____ for the surge in _____?

Is _____ usage _____ go crazy?

Is _____ for the increase in electrical _____?

_____ that a factor _____ to _____ increase in electric usage?

_____ external factor _____ cause this _____ power _____.

_____ factors _____ than _____ explain the rise _____ electricity?

_____ external factor was _____ the mystery rise in _____ usage?

An _____ might be _____ for _____ in energy use.

_____ there something else _____ our _____ go up?

A rise _____ use can _____ explained _____ element.

_____ something _____ causing _____ to use _____ electricity?

_____ the _____ electricity rise a _____ beyond our _____?

Outside _____ have _____ our electric _____.

_____ there _____ factor _____ contributes to higher electric _____?

_____ possible _____ outside messed _____ our _____ bills?

_____ a _____ that contributes _____ our inexplicable electricity _____?

Is _____ sudden _____ our _____ due to _____ factors?

_____ it _____ unseen _____ high electricity consumption?

It could be that external variables _____.

_____ this _____ in electricity _____ by something _____?

_____ control to have caused the _____ in _____ consumption?

_____ external _____ could _____ electricity spike?

Did _____ outside _____ cause the _____ in _____ consumption?

_____ outside element _____ to the _____ in _____ usage?

Is the sudden _____ to _____?

Where _____ the sudden increase _____ consumption _____?

_____ the external _____ power usage?

Is it _____ something _____ a sudden surge _____ use?

_____ extraneous _____ explain _____ rise in energy _____?

Did _____ the surge _____ consumption?

_____ this rise _____ to externals?

_____ a _____ for sky-High _____ usage?

Is the electricity rise _____ beyond our _____?

Maybe _____ explain the _____ increase.

_____ an external _____ could _____ surge in _____ demand.

What if _____ external _____ increasing _____ electricity _____?

_____ we _____ a problem with _____?

_____ it _____ to see _____ sudden increase _____ demand?

Is _____ outside condition _____ power surge?

Why _____ power usage?

_____ be to blame for _____ spike in _____ demand?

_____ outside cause _____ increase in power _____?

Is _____ a _____ element _____ to blame for _____ surge?

_____ unforeseen spike _____ electrical use.

_____ chance another element _____ for the increased energy _____?

Did _____ happen that _____ power consumption?

Could something _____ be _____ for _____ electricity demand?

_____ the _____ spike _____ electricity _____ due _____ an _____ factor?

_____ outside issue _____ pushing up our _____.

Did _____ our _____ consumption?

_____ the _____ electrical use?

The _____ usage could have _____ by external _____ or _____.

_____ extraneous element _____ for the unforeseen rise _____?

_____ much electricity _____ are using might _____ caused _____ cause.

_____ any reason for _____ usage?

Is _____ for external factors _____ account _____ increase?

_____ energy consumption a _____ beyond our control.

_____ there _____ reason for the unforeseen _____ usage?

Is _____ happening _____ our electric _____ to increase _____?

Any _____ that something other _____ the _____ is _____?

The rise in energy consumption may _____.

_____ external _____ for the _____?

I _____ know _____ messed up our _____.

Suppose there _____ an _____ reason for _____ much _____ we _____.

_____ spike _____ electricity use?

_____ may be a _____ factors _____ our control.

Is there a chance _____ to blame for _____?

Do external _____ for _____ power _____?

Do _____ believe there's an external _____ energy usage?

_____ outsider _____ something to _____ with _____ sudden _____ in electrical _____.

The _____ caused _____ external factor.

_____ the reason _____ increased _____ consumption?

_____ unexpected rise _____ our _____ usage _____ be due _____ factor.

Is it _____ sudden _____ in consumption is _____ an _____ factor?
 _____ possible _____ an external _____ cause this surge?

Is there an _____ factor behind _____ of _____?

Increased energy consumption _____ linked _____ an _____.

It _____ that _____ third party is _____ for _____ surge _____ usage.

There _____ possibly _____ other _____ that contribute _____ higher _____.

_____ this _____ in our _____ happen?

Is _____ external _____ this spike _____ electricity demand?
 _____ factor _____ implicated in _____?

_____ it possible that _____ due to an external factor?
 _____ external _____ responsible for _____ energy use?

Does any outside _____ electric _____ than anticipated?
 _____ the _____ in electricity usage be _____ an outside _____?

Is _____ in power _____ of _____ factors?
 _____ energy _____ caused by an _____?

Is _____ a _____ the sudden _____ in electricity _____?

The sudden _____ by outside _____.

Is _____ a _____ power usage has _____?

_____ factors _____ our electricity _____ to go up?
 _____ beyond our control might _____ electricity _____.

_____ in _____ consumption due to _____ influences?
 _____ it _____ that _____ spike in power _____ to _____ factors?
 _____ there an explanation for _____ sudden _____ in _____?

Did _____ have _____ increase _____ power _____?

_____ it possible for _____ account for _____ rise in energy _____?

Why did _____ consumption _____?

Is the sudden increase _____ electrical _____ to _____?

Is _____ external factor _____ the electricity _____?

Could _____ see the _____ demand due to outside _____?

Our unexpected rise in _____ use is _____?

_____ in _____ usage _____ be _____ by external _____ or condition.

Is the _____ in _____ external _____ or condition?

Is the sudden _____ due to _____ external _____?

_____ for _____ surge to _____ caused by an external _____?

Is there a _____ drives _____ much _____ we are _____?

_____ surge _____ electrical _____ be _____ work of an _____.

Is _____ causing our _____ to _____?

Is _____ consuming rise _____ traced _____ to external force?
 _____ factor outside involved _____?

Why did _____ electricity _____ go _____?

Is _____ the _____ of our _____ usage _____?

Is a _____ party _____ surge in _____?

Is the sudden increase in _____?

Is it _____ an external _____ contributing _____ our electricity _____?

Might factors _____ our _____ electricity _____?

Is _____ use _____ to external _____?

Is the _____ in power _____ to _____?

It's _____ that _____ to blame for _____ in _____ energy consumption.
 _____ an outside _____ blame for the sudden _____ electrical _____?

_____ it _____ behind the electricity _____?

_____ behind the electricity _____?
 _____ electricity demand _____ be traced _____ outside influences.
 The _____ high _____ consumption _____ unknown.
 I would like to _____ outside _____ to the _____ usage.
 The _____ in _____ usage _____ to external influences.
 Do external _____ increase _____ power _____?
 Is _____ in electricity use _____ factors?
 _____ factors beyond _____ for the spike in _____?
 What _____ is _____ cause _____ drives up _____ much _____ we use?
 Is the sudden _____ of _____ factor?
 The _____ in _____ energy _____ thought to be caused by _____ variable.
 Is _____ because _____ something _____ that _____ power _____ is going _____?
 The _____ in _____ may be _____ to an _____.
 Maybe _____ an issue _____ bill _____.
 Is the sudden _____ in _____ energy _____ patterns related _____?
 _____ an external _____ the sudden increase in _____ utilization patterns.
 It's possible that an _____ factor _____ behind _____ power _____.
 _____ something _____ our _____ consumption?
 _____ the _____ condition _____ power increase?
 What could be causing _____ go _____ a rocket?
 _____ reason for _____ sudden _____ in electricity usage.
 _____ consuming _____ are _____ back _____ force?
 Is factor outside _____ usage?
 _____ could _____ our _____ to shoot _____?
 Is _____ rise in electric _____ due _____ outside?
 _____ something _____ the surge _____ electricity _____?
 Was _____ outside messing _____ bill?
 Should _____ external factor _____ for _____ in energy _____?
 Is the _____ electricity _____ factors beyond our _____?
 Do external _____ account _____ consumption?
 Is _____ external factor _____ might explain _____ rise _____ energy _____?
 Could a _____ be _____ the surge?
 _____ spike in electricity _____ be an _____.
 _____ that _____ of the _____ in energy utilization _____?
 Is it _____ spike _____ use to _____ external?
 _____ electricity usage might have _____ with _____ variables.
 _____ there be _____ factors _____ our _____ that contribute _____ power _____?
 _____ the _____ in electricity _____ to _____ external factor?
 Is _____ spike _____ usage due to _____ of _____ control?
 _____ is an _____ electricity usage.
 Consider _____ are _____ beyond our control that _____ consumption.
 _____ unexpected causing _____ usage _____ go up?
 Is _____ an _____ cause causes _____ inexplicable electricity _____?
 _____ increase in electricity demand due to _____?
 Is _____ electric _____ going _____?
 _____ an external _____ responsible _____ increase in _____ use?
 _____ external _____ to _____ increase _____ electricity _____?
 _____ the sudden _____ in _____ consumption _____?
 Maybe _____ an external _____ to our electricity _____?
 _____ it _____ that the _____ in power _____ factors beyond internal _____?

____ of ____ increase?
 ____ other reason for our ____ to go ____?
 ____ outside cause ____ in power usage?
 Is ____ extraneous element to account ____ energy ____?
 ____ event be blamed ____ more ____?
 Is there ____ outside ____ that ____ electric use?
 ____ spike in electricity usage?
 ____ the sudden ____ in electricity use ____ caused by ____?
 ____ factor ____ behind ____ spike?
 Is ____ sudden ____ power ____ result of external ____?
 The rise in our electrical ____ could ____ due ____.
 ____ the ____ up by outsiders and ____ increase?
 Why was ____ spike from ____?
 It's possible ____ beyond our ____ behind ____ rise.
 ____ think another element is ____ the rise ____ energy ____?
 What ____ the reason for the ____ in ____?
 Is ____ an ____ behind the sudden surge ____?
 Is ____ possible that there ____ that amplify ____ electricity ____?
 The ____ in ____ some ____ externals.
 ____ a reason for ____ in electrical ____?
 ____ there ____ for our electric ____ to rise ____?
 ____ be ____ extraneous ____ driving up our electricity ____.
 Could that be ____ reason for the ____?
 ____ external factors increase ____ unexpectedly?
 Can an ____ behind the ____ increase in ____?
 Is ____ for the rise in ____?
 Is an external ____ to the ____ usage?
 Perhaps ____ is ____ electric bill up.
 ____ there ____ that is ____ for increased ____ consumption?
 ____ rise in electric use is ____ influences.
 There could ____ unexpected increase in electrical demand.
 Is ____ an ____ increase in electric consumption?
 Is there an external ____ causes the ____ rise ____?
 ____ factor is to ____ for ____ rise in ____ electric consumption.
 Is ____ a ____ cause ____ caused ____ power increase?
 ____ cause ____ behind ____ sudden increase in ____ demand.
 The sudden hike in ____ utilization ____ caused ____ external variable.
 ____ rise ____ electric ____ a ____ of outside factors?
 Triggering ____ use?
 Is the power ____ to ____?
 ____ it ____ the ____ power consumption is the result ____ external ____?
 ____ spike ____ power use ____ to outside factors?
 Maybe an ____ to ____ sudden increase in energy ____.
 ____ electric consumption due ____ influences?
 The increase in electricity ____ might ____ linked ____.
 ____ abrupt increase ____ electricity demand due ____ outside ____?
 ____ an unseen ____ of high ____.
 Something ____ blame for the sudden spike ____ electricity ____.
 ____ for ____ in electricity ____?
 ____ external cause is ____ blame ____ our inexplicable _____.

_____ be _____ for power consuming anomalies.
 _____ surge _____ use of _____ due to an _____?
 _____ we possibly observe the _____ electricity _____?
 _____ there is _____ issue _____ up our electric _____.
 Was it _____ factor that _____ to _____ surge _____ electricity _____?
 There _____ a chance _____ an _____ element _____ blame _____ the _____.
 Did our _____ consumption _____ up _____ anything _____?
 _____ elements that are contributing _____ higher _____ use.
 Is an _____ factor _____ blame _____ of _____ consumed?
 _____ outsider to _____ the unexpected surge _____ electrical _____?
 _____ external _____ be to blame for the _____ in _____.
 Is _____ that _____ outside _____ a part in _____ rise _____ usage?
 Our _____ increase _____ caused by a _____ cause.
 Is the rise _____ our _____ caused by _____?
 Is a _____ a _____ a third party?
 _____ other than our _____ have caused the _____ in _____.
 Maybe _____ to _____ the sudden rise _____ our electric consumption?
 _____ increase in _____ due _____ outside factors?
 _____ there _____ that _____ is _____ blame for the surge?
 The _____ electricity _____ may be explained _____ outside _____.
 _____ power _____ behind outside _____?
 _____ outside source contributed _____ rise _____ electrical usage?
 _____ spiking _____ use?
 _____ caused our _____ go up.
 Is there _____ our power _____?
 _____ you _____ the mystery _____ usage _____ due to an _____ factor?
 _____ it _____ that outside elements _____ contributing _____ use?
 _____ might be _____ our _____ usage _____ up.
 The spike in _____ an external _____.
 Is _____ increase in _____ external factors.
 There may _____ an external _____ inexplicable electricity _____.
 _____ if the increased energy _____ result _____ factors _____ our control.
 _____ it _____ for _____ outside _____ to cause this surge _____?
 Is _____ sudden _____ in _____ demand _____ outside influence?
 What _____ the spike _____ usage _____ by _____ outside?
 Is _____ chance another element is to blame _____?
 _____ you believe _____ external _____ blame _____ the _____ in energy usage?
 Any _____ the _____ power usage?
 _____ it the _____ event for more electric _____?
 _____ an _____ to blame _____ the sudden surge _____ electrical _____?
 What _____ it was _____ the _____ in electricity _____?
 Is _____ possible that _____ factors _____ our sudden _____ consumption?
 Maybe _____ an _____ cause for _____ inexplicable electricity _____.
 _____ the sudden _____ in _____ consumption?
 _____ external factor _____ for the _____ spike.
 Are external factors responsible _____ sudden _____ in _____?
 Is _____ chance _____ external _____ being to blame for _____?
 Is _____ of _____ causing _____ power usage to _____?
 _____ electrical _____ be caused by external force or _____.
 _____ an _____ to _____ the _____ surge of _____ use?

_____ be possible _____ the increase in _____ usage.

Could _____ in _____ demand be _____ to _____ cause?

_____ the _____ our _____ usage due to _____ factors?

Could there be _____ beyond our control _____ power _____?

_____ if _____ party _____ to blame for _____ surge _____ usage?

Suppose there is _____ cause _____ us _____ use more _____.

_____ something _____ our use _____ rise?

_____ sudden increase _____ our _____ use patterns due _____ variable?

The _____ spike _____ our _____ usage could _____ result _____ force.

_____ an _____ pushing _____ bill up.

There could _____ an external _____ surge _____ power demand.

Could _____ outside _____ be _____ for _____ in electrical usage?

Maybe _____ pushing _____ electric bill.

Is _____ sudden rise _____ consumption _____ by _____ factor?

If _____ control result _____ increased energy use, _____.

What caused _____ electricity use _____?

Is it _____ some _____ to blame _____ the _____ electricity increase?

Is _____ in power consumption _____ consequence of _____?

_____ if _____ rise in electric _____ result of _____ influences.

Is the sudden _____ to outside factors.

Is there any factor _____ us that _____ higher _____?

Is _____ for _____ sudden spike _____ power consumption?

An unexpected _____ demand could _____ linked to _____.

Is _____ power _____ to soar?

What if _____ factors _____ our electricity _____?

There is _____ chance _____ some _____ is _____ for _____ surge.

There may _____ a different _____ increase.

_____ possible that another element _____ the _____ energy use?

Might _____ beyond our _____ increase?

The unforeseen _____ in energy use can _____ extraneous _____.

Is _____ any _____ that another element is _____ energy consumption?

Is there something that _____?

_____ there's _____ for our _____ electricity _____?

_____ an external _____ responsible _____ increase in electrical _____?

The _____ on _____ that causes _____ electric use.

_____ an _____ element explain the increase _____?

_____ increase _____ electrical demand connected _____ an _____ cause?

An _____ element _____ increased energy consumption.

There _____ some _____ that may be _____ electric _____.

Is _____ possible _____ unknown _____ is to blame _____ the _____ consumption?

Is _____ outside _____ usage?

Is _____ due to factors beyond our _____?

_____ external factor is _____ surge _____?

The _____ electricity use _____ external trigger.

_____ a reason for the _____ in _____.

_____ element _____ for the increase _____ energy use?

Do you _____ mystery _____ energy usage _____ caused by an _____?

_____ an external cause for our _____ electricity increase.

_____ variables explain the _____ electricity usage?

_____ you think that external _____ are to _____ for _____ use?

Is there an _____ spike?

Was it a _____ behind _____?

_____ increase in _____ demand _____ be connected _____ an _____ cause.

_____ account for _____ sudden increase _____ electrical _____?

Consider _____ beyond our _____ to increased _____ consumption.

Maybe _____ outsider _____ blame _____ the _____ surge _____ electrical usage.

Is _____ for _____ sudden increase in electric _____?

The rise _____ use _____ caused by _____ extraneous _____.

There _____ condition behind the sudden _____.

How _____ use _____ from unknown _____?

Is _____ in _____ use _____ by something _____?

_____ the _____ increase _____ electricity _____ due _____ an external _____.

Is _____ third party _____ the _____ in electrical _____?

Something _____ could _____ to blame _____ sudden spike in _____.

Is _____ some outsider _____ with _____ bill?

_____ element _____ the _____ in energy use?

Is _____ electricity use _____ factors?

What if there was _____ our electricity use _____?

_____ something behind _____ increase in _____?

_____ that _____ electricity increase?

_____ it _____ that _____ the _____ in electrical use?

Have any outside _____ contributed to _____ surge _____?

_____ there _____ the unexpected _____ in electrical use?

_____ it possible that _____ in electric _____ due _____ an unknown _____?

_____ the reason for the _____ spike _____ use?

_____ it possible _____ an _____ is behind _____ rise _____ electrical _____?

_____ outside _____ be _____ raised usage.

An outsider _____ blame _____ the _____ surge _____ electrical usage.

_____ being _____ by a _____ of high _____ usage?

Might factors outside _____ have _____ with _____ electricity rise?

_____ possible that _____ extraneous cause _____ how much electricity we _____?

Can _____ account _____ the sudden rise _____ use?

Have any outside _____ contributed to _____ usage?

_____ was _____ electrical _____ suddenly _____?

Is _____ messin' _____ our _____ bill?

_____ outsider _____ responsible for the sudden _____ of _____.

Someone might be _____ blame _____ in energy _____ patterns.

_____ the _____ consumption _____ to outside influences?

_____ is possible _____ there _____ an external _____ contributing _____ increase.

Is there a reason for _____ energy _____.

_____ anything happen outside _____ increased _____?

_____ sudden _____ was caused by _____.

The _____ power surge _____ due _____ an _____ condition.

_____ outsider has something to do with _____ surge _____?

_____ external factor could _____ blame for _____ our electrical _____.

The _____ spike in electricity _____ can be _____ to _____.

_____ consuming abnormal _____ traced back _____?

Could an _____ factor _____ to blame for _____ electrical _____?

There _____ a surge _____ may have _____ by a _____ party.

Is _____ external trigger _____ a _____ in _____ use.

Is ____ possible the ____ of ____ by an external factor?
 ____ be ____ for the spike in ____ for electricity?

Is something ____ to ____ that ____ us?
 ____ in electrical ____ be ____ an outside factor.

Maybe ____ in electric consumption is ____ to ____?
 ____ externally driven rise and ____ surge?

Could there ____ that ____ the higher ____ consumption?
 ____ something else cause the ____?

Is it possible ____ something ____ the ____?
 ____ you ____ the mystery rise in ____ caused ____ external factor?
 ____ in ____ use may be due ____ outside ____.
 ____ possible that a ____ to ____ the ____ in usage.
 ____ there an ____ for ____ use?
 ____ an ____ up ____ electric bill?

There ____ chance that ____ is an extraneous cause ____ how much ____.
 ____ possible ____ an external element ____ cause ____ consumption?

Could we ____ this ____ spike in electricity ____ influences?
 Is ____ chance that another element ____ behind ____ in ____ consumption?
 ____ that an external ____ is ____ blame ____ the ____ rise in power ____?
 ____ there anything else contributing ____?

Is it ____ outside condition ____ sudden ____?
 ____ there is an external ____ for ____ increase?
 ____ consuming rise ____ been caused by ____ force.

What ____ be behind ____ sudden ____?
 Perhaps an unknown ____ is ____ the ____ rise in ____?

What ____ our electricity usage?
 ____ able ____ attribute the spike in electricity ____ an external ____.
 ____ rise ____ electric ____ be due ____ outside influences?
 ____ the ____ issue is pushing our ____.

What if ____ external factors ____?
 ____ an ____ element to ____ the ____ energy use?

Something ____ be to blame ____ rise in ____.
 ____ there ____ for ____ sudden rise in ____ electric ____?

The ____ in electrical ____ could be ____ else.

Electricity ____ unknown source.
 ____ may ____ factors beyond ____ that ____ to higher ____ consumption.

Did ____ our ____ demand ____ up?
 ____ if the ____ in electricity use ____ caused ____ an ____?
 ____ is possible that a ____ blame for ____ rise ____ electric ____.

We ____ increase in ____ demand because of ____ influences.
 ____ spike in power usage ____ by ____ than ____ considerations?

There ____ be factors ____ higher ____.

There was ____ spike in ____.
 ____ the ____ surge ____ to an outside ____?
 ____ you think that ____ factor is ____ rise in energy ____?

Could ____ cause the ____ in power ____?
 ____ possible ____ something ____ blame ____ this sudden ____ in electricity demand?
 ____ there ____ for the ____ of ____ use?
 ____ factors ____ our ____ be ____ blame ____ the ____ in electricity?
 ____ that something ____ blame for the ____ rise in ____ usage?

____ the sudden increase ____ consumption ____ outside factors?
 ____ outside element be ____ blame for ____ energy ____?
 Might ____ explain the ____ electricity ____?
 Was ____ a reason ____ power ____?
 ____ external ____ may be ____ to ____ this surge in ____.
 Did ____ messes ____ our ____?
 Can ____ cause ____ sudden ____ increase?
 Do you ____ external factor could account ____ mystery ____ energy ____?
 Is there ____ behind ____ spike?
 ____ that ____ mess ____ our ____ bills?
 Is ____ external factor ____ for ____ sudden ____ in electrical ____?
 ____ possible that the unexpected rise in ____ usage ____ result ____ source?
 Is ____ possible that an ____ caused ____ use?
 An external ____ could ____ for the increase ____ energy ____.
 There is a chance ____ element ____ to ____ the ____.
 ____ outside issue is pushing ____ bill ____.
 ____ an external ____ for ____ sudden hike ____ our energy ____?
 ____ it possible ____ there ____ factors ____ increase ____ electricity usage ____?
 ____ causes ____ in power ____?
 Is it ____ outside ____ increased ____ use?
 The sudden ____ in electrical ____ accounted ____.
 ____ cause ____ electricity usage ____ go up?
 Our inexplicable ____ be caused ____ external cause.
 ____ there ____ external cause behind our ____?
 Something ____ be to ____ spike in electricity ____.
 An ____ variable ____ something to do with ____ sudden ____ in ____ utilization ____.
 ____ the ____ increase in power ____ be linked ____?
 ____ it ____ that ____ factors ____ our electricity ____ suddenly?
 Should it be ____ external factor to cause ____ power ____?
 What if ____ happened ____ us ____ electricity?
 ____ for ____ increase in electricity usage?
 ____ there another thing ____ our ____ usage ____ go ____?
 The ____ our control ____ result ____ increased energy ____.
 Is ____ electrical ____ to an external factor?
 Maybe there is an issue ____?
 Did ____ outside our ____ cause ____ increase ____ consumption?
 Does an external ____ the ____ rise ____ use?
 The ____ was ____ an external factor.
 ____ surge ____ electricity use is ____ on an ____.
 ____ if ____ beyond ____ control are to blame for ____.
 ____ if an ____ can ____ rise in energy use.
 There is ____ chance ____ element ____ to blame for ____ usage.
 Is it ____ that ____ an external ____ for ____ inexplicable ____?
 ____ consumption came from ____ force.
 ____ is ____ by an ____ factor?
 Maybe ____ pushed up our ____?
 Is ____ an external ____ for ____ spike in ____?
 ____ sudden power increase due ____?
 Surge ____ caused ____ externally ____ rise?
 Is there a ____ our electric bill ____?

_____ rise in _____ due to an _____ source?

Should the _____ be attributed to external _____?

_____ in electrical _____ be connected _____ external cause.

Is there _____ for _____ electric consumption?

_____ there is _____ in electricity usage _____ by _____.

The _____ use can _____ triggered by external _____.

Is _____ we are using _____ electricity at the _____?

What _____ use _____ went up?

There _____ an outside _____ behind _____?

_____ the increase _____ to external factors?

Is it possible that an _____ can _____?

_____ there a cause for _____ surge _____ usage?

Is _____ that _____ contributed _____ the rise in _____ usage?

The _____ spike _____ power consumption _____ by outside _____.

_____ factors affect our _____?

_____ that an _____ factor is _____ of power consumption.

_____ rise in electric _____ because _____ outside influences?

Could _____ blame for the _____ increase in _____ demand?

_____ energy consumption _____ a _____ factors outside of _____ control.

_____ the electricity use _____ come _____?

Is _____ any _____ for the _____ in _____ power _____?

_____ there be an _____ behind _____ increase?

_____ we are using so _____ electricity now?

_____ we _____ by _____ consumption?

_____ increase could _____ by a different _____.

_____ sudden spike in power _____ impact _____ outside _____?

_____ outside _____ the _____ in _____ consumption?

_____ external factors that amplify _____ electricity _____.

Is it _____ causing our power _____ up _____?

_____ the sudden power _____ outside _____?

Did _____ external _____ the _____ increase _____ energy _____ patterns?

_____ made _____ shoot up?

_____ possible for _____ outside account to _____ for the _____?

Any _____ was caused _____ an external element?

Is _____ possible _____ an outsider has something to _____ of _____?

_____ possible _____ attribute the surge in _____ an external _____?

_____ something external accounts _____ electric increase?

_____ if there is an external _____ spike.

An external factor could _____ to blame for _____.

What are _____ behind _____ in _____ use?

Is _____ increase in _____ due to _____ external _____?

_____ the _____ electricity _____ down _____ some outside _____?

_____ if _____ usage goes _____ unexpectedly?

_____ power usage _____ reason?

Can an extraneous element _____ in _____ in _____?

Is an external _____ to _____ for the _____ rise _____ energy _____?

Is _____ in power use _____ by _____ factor?

_____ there _____ other _____ might _____ to higher power _____?

The _____ in _____ unexpected.

_____ rise in _____ consumption _____.

_____ we observe the sudden surge _____ due _____ influences?
 Is the _____ in electricity demand _____ outside _____?
 Is there something _____ the _____ usage _____ up?
 The _____ increase in _____ be _____ external variables.
 Any _____ the surge was _____ by _____ outside _____?
 The sudden _____ energy utilization patterns _____ be _____ variable.
 The _____ in electricity _____ be _____ of _____ variables.
 _____ is an _____ to our _____ electricity increases.
 _____ this _____ electricity demand be related _____ outside _____?
 _____ made electricity _____ go _____.
 Is the unexpected _____ usage _____ by _____ variables?
 We _____ pushing _____ our electric bill.
 Are _____ considerations to blame _____ the spike in _____?
 _____ went up unexpectedly.
 What _____ external factors _____ our electricity _____ to _____?
 _____ an external cause is _____ our _____ electricity _____?
 _____ a _____ an external element _____ behind the _____.
 _____ possible that the upturn _____ is the _____ an external _____?
 What _____ external _____ are _____ use?
 Is _____ an _____ that _____ the sudden _____ increase?
 The increase in _____ usage _____ be _____ external _____.
 Perhaps there _____ issue pushing _____ our _____?
 _____ a third _____ to _____ the surge in use _____?
 _____ sudden increase in _____ demand _____ outside influences?
 I think _____ forces _____ havoc _____ unexpected rise in _____?
 _____ is _____ the _____ in electricity.
 _____ in electrical demand may _____ linked _____ an _____.
 Something outside _____ for this _____ electricity demand.
 The _____ in _____ be _____ result _____ external variables.
 _____ mucking with power _____?
 Are they _____ that _____ havoc _____ the rise _____ electrical _____?
 Isn't the _____ electric consumption _____ outside _____?
 Is an external _____ responsible _____ the _____ use?
 What made _____ in our _____?
 _____ an external element _____ for _____ energy consumption.
 _____ is to blame _____ cranking up _____.
 _____ that another _____ is _____ blame _____ the _____ energy consumption?
 Is something _____ usage?
 Maybe _____ is _____ external _____ to our _____ electricity _____.
 Is an external _____ energy consumption?
 _____ increase _____ our _____ utilization patterns might have been _____ an _____.
 _____ variables _____ rise in _____ usage?
 _____ in power usage due _____ external _____?
 _____ the spike _____ by factors beyond _____ considerations?
 _____ surge _____ consumption _____ unexpected.
 Someone _____ to know _____ responsible for the _____ in _____ consumption.
 Is the _____ in _____ usage due _____ outside _____?
 Is _____ possible that the _____ electricity increase _____ by _____?
 _____ rise in electric _____ due _____ outside influences?
 Maybe factors _____ control caused _____.

_____ reason for _____ sudden _____ increase?

Is _____ with power usage?

_____ else _____ power _____ to go up?

_____ power consuming _____ come _____ the _____ force?

Something happened _____ in _____.

Is some _____ us _____ use _____ power?

_____ external variables _____ the _____ in _____?

Did _____ that _____ the surge in _____ consumption _____?

_____ cause our _____ consumption to _____?

_____ something cause our _____ to _____?

sudden _____ by outside _____?

Is it possible _____ an _____ factor _____ the _____ in _____ consumption?

_____ been slammed _____ an _____ of high _____ consumption?

The spike in _____ could _____ caused _____ source.

_____ factors increase power _____?

Is _____ causing _____ usage to go _____ much?

Is _____ electric _____ by outside _____?

_____ exterior factor is to blame _____ sudden power surge?

Can _____ the spike _____ power _____ to external _____?

_____ an _____ be to _____ for the rise _____ consumption?

There are _____ beyond our _____ that _____ the _____.

_____ that _____ source contributed to the rise _____ electrical _____?

Did the _____ up the _____?

_____ outside _____ affect _____ power _____?

_____ spike in _____ be due to _____ beyond internal _____.

Is it _____ a surge _____ power demand _____ by _____ factor?

The spike in _____ an _____.

_____ we suspect _____ reason for _____ usage?

Is _____ in _____ to something?

_____ the _____ affect _____ electric _____?

Is _____ causes _____ usage to go _____?

_____ it _____ element _____ behind the unusual _____ in energy _____?

_____ might be _____ cause _____ increase in _____ usage.

_____ it possible that a _____ surge _____ is _____ to _____ external _____?

Did something outside _____ control _____ surge _____ consumption?

_____ don't _____ element _____ responsible for the _____ in energy _____.

Is _____ that _____ variable _____ blame for the sudden _____ in _____ patterns?

There's _____ outside condition _____ the _____.

_____ outside connected _____ usage?

_____ in _____ usage due to factors _____ the internal _____?

_____ think there's a reason for _____ unexplained _____ in _____?

_____ you think _____ rise in energy usage _____ by an _____?

_____ anything _____ cause our _____ consumption _____?

Is _____ third _____ for the _____ electrical usage?

_____ there _____ chance someone _____ to _____ for the _____?

_____ it _____ to _____ the _____ electricity usage _____ an external factor?

The _____ of _____ was caused by _____.

_____ is _____ our electric bill.

Is _____ chance _____ element _____ blame for the rise _____ energy _____?

_____ sudden increase in electrical _____ something?

Some _____ causing our _____ soar.

Is _____ external thing _____ with _____?

There _____ cause for the inexplicable _____ increase.

Could something outside be _____ blame for _____?

If energy _____ goes _____ due _____ our control, consider _____.

What if _____ happened that _____ a _____ increase _____?

Maybe _____ is _____ issue pushing _____ electric _____ up.

_____ may _____ in electricity usage.

Maybe _____ is to blame _____ rise _____ consumption.

Is _____ in electricity _____ caused _____ external _____?

It was _____ external factor to _____ surge.

Is it _____ is _____ external _____ contributing _____ our inexplicable _____ increase?

_____ an external _____ responsible _____ the _____ rise _____ usage?.

_____ possible that some outside _____ is to _____ a _____ in _____ use?

Maybe _____ something _____ with the _____ in electrical usage.

Is _____ reason for the _____ in _____ usage?

_____ a _____ an outside _____ causing more electric _____?

There might _____ elements contributing _____ higher _____ than _____.

_____ it possible for _____ to _____ power increase?

Consider _____ are _____ that _____ cause increased _____ consumption.

It _____ possible _____ is behind the sudden upturn _____ consumption.

_____ caused _____ to increase?

Is the _____ to a outside _____?

Is _____ possible _____ the _____ spike?

Is _____ in power consumption _____ to outside _____?

Is the surge _____ use due _____ an _____.

Is this the _____ of the _____ patterns?

_____ a different cause _____ to blame _____ increase?

_____ electrical consumption _____ increased?

Is _____ power surge _____ an _____?

_____ that an unknown factor is to _____ rise _____ electricity _____?

_____ that _____ outside _____ blame for a _____ in power use?

_____ cause a _____ increase _____ our power use?

_____ is _____ spike in electricity _____?

_____ factor could cause this _____ power demand.

_____ if increased _____ be a _____ beyond our control.

Is there _____ that can _____ for the _____ rise in _____?

Can an _____ possibly cause _____ in power _____?

Is an _____ source _____ blame for _____ in _____?

Is _____ for the electric _____?

Is _____ outsider involved in _____ usage?

What _____ increase _____ electrical consumption?

_____ external _____ blame _____ sudden _____ in electricity demand?

Is _____ an _____ that causes _____ surge _____ electricity _____?

Is _____ to account for _____ in _____?

_____ have led _____ the sudden increase _____ electrical _____?

Did _____ cause _____ electricity demand _____?

_____ it _____ the _____ usage went up _____ outside source?

_____ it possible _____ else is to _____ sudden _____ in _____ demand?

How _____ surge _____ our _____ use _____?

I _____ something external was responsible _____ the sudden _____.

Is _____ use _____ by outside factors?

_____ an _____ rise that leads to _____ surge?

Has _____ a _____ to _____ in electricity usage?

Could it _____ that _____ is an increase _____?

I wonder if there is _____ power _____.

_____ the _____ solely on _____ event causing _____ electric _____?

_____ may result in increased energy _____.

Did _____ power _____ go _____ because _____ something _____?

The sudden _____ could be related to _____.

_____ it _____ for something to _____ electric _____.

Maybe _____ in electric _____ is due _____ outside _____.

_____ factors cause the _____ increase in _____?

_____ there _____ for _____ in electricity _____?

Is it _____ that _____ caused the _____ in _____ usage?

_____ outsider responsible _____ surge in electrical _____?

_____ possible that outside _____ our power consumption?

Is _____ for _____ in _____ use _____?

The _____ surge might be _____ condition.

_____ there _____ for sky-high power _____?

_____ to blame for this spike _____ electricity _____.

There _____ be an outside factor _____ the _____.

Maybe an _____ has a _____ in the _____?

Did _____ sudden increase in _____ consumption?

_____ caused _____ in power _____?

_____ an _____ source caused the rise?

_____ what made electricity _____?

_____ element caused _____ in _____ usage?

The _____ usage _____ been surprising.

_____ may _____ blame for the sudden _____ in energy _____.

_____ external factor to _____ the _____ upturn of power _____?

_____ external factor that caused _____ sudden _____ in electricity _____?

_____ spike in _____ due to other factors?

Is _____ increase _____ usage due to _____?

Does it make _____ an external factor _____ in _____ demand?

_____ a _____ outside element _____ to blame for _____ surge?

_____ outside event be _____ for more _____?

Is _____ possible that _____ extraneous _____ accounts _____ rise in _____?

_____ an outside _____ cause _____ electricity _____?

_____ if we _____ a _____ our electricity _____?

_____ external _____ to blame _____ the mystery _____ in _____ usage.

_____ spike _____ power _____ due to _____ beyond _____ control?

There _____ outside _____ sudden power _____?

_____ spike _____ usage due to factors beyond the _____ of _____?

Did someone _____ cause _____ in our _____ demand?

_____ increase in _____ demand could be linked _____.

_____ factor is _____ the upturn of power use.

_____ possible _____ external factor _____ explain the mystery _____ in _____ usage?

_____ happened to the surge _____?

_____ a reason _____ the _____ consumption?

_____ reason for _____ power use.

_____ it somehow causing _____ power _____?

_____ increase in _____ due to an external _____?

There was _____ power consumption.

Did an _____ for _____ mystery _____ energy usage?

Is _____ a trigger _____ spike _____ use?

Are there _____ the _____ in power consumption?

Is an external _____ energy _____?

_____ possible that _____ external _____ responsible _____ increased energy use?

_____ external _____ cause our _____ go up suddenly?

_____ consuming _____ traced back to the _____?

Maybe _____ is a cause _____ electricity _____?

_____ there _____ external _____ that might _____ mystery increase in _____?

_____ sudden increase of _____ due to _____?

_____ account for an unforeseen rise in _____?

Has there _____ reason _____ usage?

_____ there is _____ that _____ to how much electricity _____.

_____ of an outside event to cause _____ use?

Is the _____ the _____ of external influences?

_____ made _____ spike.
