

[Demo] NLP Dataset for Customer Service Automation

Company Type	Electricity Suppliers
Inquiry Category	Generation source mix disclosure
Inquiry Sub-Category	Renewable energy percentage
Description	Customers request information on the percentage of electricity generated from renewable sources, such as solar, wind, hydro, or biomass, to ensure they are supporting a sustainable energy provider.
Data Size	6,637 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Electricity Supplier" customer inquiry. (Purchased data will not be masked.)

____ you ____ me the ratio ____ ____ green sources ____ ____ our electrical power?
 Can you ____ us ____ overview of the ____ ____ ratio ____ ____ supply?
 What ____ ____ of fossil ____ to ____ source of ____?
 ____ we ____ to know the fossil fuel ____ ____ source ____ ____ our ____?
 Could we ____ about ____ mix of ____ ____ sources that ____ used to make ____ electrical ____?
 ____ would ____ know the proportion ____ fuels vs green ____ in ____ production.
 ____ like ____ ratio of fossil ____ green sources ____ producing electrical ____.
 What is the percentage of ____ ____ sources ____ electricity ____?
 ____ it possible ____ tell me ____ of ____ fuels ____ clean energy for ____?
 What is the breakdown of ____ ____ sources ____ it comes ____ electric ____?
 ____ to ____ ratio ____ fossil fuels and ____ energy ____ our electricity.
 How ____ the percentage different ____ fuels ____ green ____ electricity?
 ____ you reveal ____ fossil fuel ____ green source ____ our ____?
 What ____ the ____ to green source ____ electrical power?
 ____ you tell me ____ of ____ green ____ in generating power?
 What can ____ tell us ____ source ratio in our ____?
 I want ____ know how much of the ____ supply ____ ____ alternatives.
 Could we learn more about the mix ____ fuels ____ in the ____ of ____?
 I ____ proportion of ____ and green in ____ power.
 Is there ____ quick overview of ____ fuel ____ our electric ____?
 I'm curious ____ the balance between ____ fuel ____ energy-based ____.
 I have a ____ the ____ of ____ vs ____ sources ____ electricity production.
 ____ fossil fuels ____ in the electricity generation?
 ____ fuel and ____ electricity?
 There is a question ____ of fossil ____ sources ____ production.
 ____ our ____ is ____ fossil fuels compared to renewable ____?
 ____ power ____ the ____ vs. green energy ratio?
 Distribution ____ fuels and ____ for generating electricity ____ question.

_____ you know _____ of _____ used in generating electrical _____?
 Please _____ us _____ of _____ and renewable energy.
 _____ there _____ on _____ green sources used for generating power?
 How much _____ the electricity _____ to renewable sources?
 _____ how much green _____ involved in _____ power.
 _____ power _____ fuels compared to sustainable alternatives?
 How much _____ fuel _____ green _____ used _____ generation?
 Do you know _____ to _____ sources of _____?
 _____ the ratio of fossil _____ sources of _____?
 Please _____ us the _____ and renewable _____ used.
 Is there a _____ to _____ how much electricity comes _____?
 _____ want _____ the balance between fossil _____ and _____ based electricity _____.
 What is the _____ sources in electricity generation?
 _____ you _____ how fossil fuel and _____ in our _____?
 Is _____ a ratio _____ the fossil _____ sources _____ production?
 Can _____ fossil fuel and green sources used for _____ electrical _____?
 _____ does the _____ breakdown between fossil _____ and _____ electricity?
 We _____ the ratio of fossil _____ green sources in _____.
 _____ would like to _____ ratio of fossil fuel and green _____.
 Can _____ share _____ fuel vs. renewable _____?
 _____ your data show _____ much electrical _____ from traditional fuels _____?
 _____ there _____ breakdown of _____ fuel _____ green sources _____?
 Is _____ fuels to _____ sources for electricity _____?
 _____ like to _____ between _____ fuel _____ green sources _____ producing our _____ power.
 How _____ do _____ depend _____ fossil fuels _____ sources for _____?
 How much comes _____ the greens _____ that _____ our _____?
 I'd like _____ know _____ the _____ supply comes _____ fossil fuel _____ alternatives.
 _____ fossil _____ to _____ source ratio for our _____?
 _____ it _____ to producing _____ electric power _____ what is _____ breakdown _____ of _____ and _____?
 _____ proportion _____ electricity _____ from _____ fuels compared to renewable _____?
 Is _____ a ratio of fossil _____ green _____ power?
 Please tell me the _____ of _____ sources for generating _____.
 How is _____ of fossil _____ to _____ sources for _____?
 What _____ green _____ making power?
 What percentage _____ supply comes from _____ versus _____ alternatives?
 Is there a comparison _____ fossil _____ and _____ our _____ production?
 Balance _____ and renewable energy _____ electricity?
 We might _____ to get insight into the _____ and _____ used to _____ electrical supply.
 _____ any insight into the mix of _____ fuels _____ renewable sources _____ supply?
 How can the _____ be _____ between fossil _____ sources for _____?
 fossil _____ green energy _____ for _____
 _____ on fossil fuel versus green _____ of _____.
 I _____ to _____ fossil fuel and _____ for generating electricity.
 Is _____ to get _____ into _____ of fossil fuels and _____ energy _____ in our _____?
 _____ the _____ fossil fuels and _____ sources for _____ electricity?
 _____ know _____ ratio _____ fuel _____ green sources for electricity _____?
 _____ like _____ know the percentage _____ electrical supply that _____ fuel _____ alternatives.
 _____ you know _____ proportion _____ fossils in making _____?
 _____ the balance between _____ energy-based electricity generation?
 _____ want to know _____ power comes from _____ sources.

I _____ know how _____ our power _____ from fossils _____ renewable _____.
 _____ know how fossil _____ and renewable sources _____ electrical _____?
 Did _____ know _____ between fossil _____ and _____ for producing electrical _____?
 _____ we _____ more about the mix of _____ energy _____ to make _____ electrical supply?
 _____ fossil and green energy _____ power.
 _____ show the _____ fuel to green source ratio _____?
 I _____ like _____ what percentage _____ comes from fossil fuel _____ alternatives.
 Do you know _____ much _____ our power _____ from _____?
 _____ was _____ about the _____ fuel-to-green _____ ratio _____ our electric _____.
 _____ source for electricity?
 How _____ derived from greens _____ fossils _____?
 _____ would like to _____ what percentage _____ electrical _____ derives _____ and _____ alternatives.
 Is it _____ tell _____ the percentage _____ fossil _____ and _____ sources _____ power?
 How _____ the distribution _____ fossil _____ sustainable power _____?
 _____ have any _____ on _____ fossil fuel-to-green _____ ratio _____ electric supply?
 Do you _____ of fossil _____ green sources for _____?
 I _____ how _____ of the _____ supply derives from _____ and _____ alternatives.
 What _____ the _____ fuels and _____ sources for _____ production?
 I would _____ know the ratio between _____ fuel _____ our power.
 What is _____ ratio of _____ for _____ generation?
 Is _____ information about _____ proportion of _____ and _____ sources _____ power?
 _____ how _____ and renewable sources contribute to electricity.
 Let _____ lowdown on _____ fuel _____ green electricity _____.
 _____ fossil fuel and _____ differ in our electricity?
 fossil _____ sources _____ our electricity production is _____.
 _____ you tell me the _____ fuels _____ for generating power?
 I _____ the lowdown _____ fuel versus green sources _____.
 We _____ to _____ fuels and renewable energy _____ used for _____.
 _____ me _____ ratio between _____ eco-friendly _____ to _____ power.
 I want to _____ how much _____ supply derives from fossil _____.
 We need _____ fossil fuel-to-green _____ ratio _____ our electric _____.
 _____ does the _____ split _____ using fossil _____ sustainable _____ electricity?
 Do _____ on the amount _____ electrical power _____ from traditional _____ as _____ to _____?
 _____ much of _____ power comes _____ renewable sources?
 How much _____ contribute to our _____ renewables?
 What does the _____ between _____ fuels _____ green sources _____?
 Did _____ ratio of fossil fuel to _____ for generating _____?
 I want _____ know _____ of _____ coming from fossil fuel _____ green _____.
 What is the breakdown of fossils and _____ it _____ our _____?
 Is _____ tell me _____ between fossil _____ and sustainable energy _____?
 _____ need to _____ about the _____ of traditional fuels _____ clean _____.
 Tell _____ the percentage _____ green _____ are _____ power.
 I want to _____ the _____ fossil _____ versus green _____ electricity _____.
 _____ you know the amount of electricity _____ compared _____ renewable _____?
 _____ is the _____ between _____ and _____ fuels _____ generating _____?
 Are fossil _____ and _____ sources _____ of electrical _____ production?
 _____ would _____ to know how clean _____ compared _____ fuels for _____.
 _____ fossil fuel _____ green _____ ratio _____ power _____ unknown.
 The ratio of _____ to _____ source for _____.
 What's _____ between coal and renewables _____ for _____?

____ you give ____ percentage of ____ and green sources ____ electrical power?
 I ____ like to know ____ of traditional ____ clean ____ generating ____.
 ____ for ____ percentage of ____ fuels ____ green sources in ____ production.
 ____ to producing ____ power, ____ is ____ breakdown ____ fossils versus renewables?
 Is ____ information ____ much ____ comes from ____ renewables?
 Is ____ a ____ overview ____ fossil fuel-to-____ ratio ____ electric supply?
 When ____ comes to producing our ____ what ____ breakdown ____ versusRenewables?
 Is ____ any ____ on ____ of ____ fuel ____ sources used for ____ power?
 ____ the ratio ____ traditional and ____ energy when ____?
 When it ____ our ____ supply, ____ is ____ of fossils versus renewable ____?
 Can we understand the mix ____ fossil ____ sources ____ producing ____?
 Could ____ learn more about ____ mix of fossil ____ renewable ____ make ____ electrical ____?
 I ____ to know about ____ proportion ____ traditional ____ vs ____ in ____.
 Is ____ better ____ to understand ____ mix ____ fossil fuels ____ renewable ____ utilized in ____ the ____?
 ____ how much power ____ generated ____ fuels compared to clean ____?
 What is the distribution ____ and ____ sources of ____?
 I ____ curious about ____ breakdown of fossils versus ____ when ____ to producing ____.
 ____ of traditional and ____ energy for ____ electricity?
 ____ need to ____ fossil ____ to ____ sources for producing electrical ____.
 ____ is the ratio between traditional ____ friendly ____ generating ____?
 ____ proportion of ____ to ____ in electricity generation?
 ____ tell ____ the ratio ____ energy used to supply ____ electricity.
 I ____ like clarity on ____ supply that comes from ____ fuel and ____.
 Is it ____ give ____ of fossil fuel ____ green ____ for electricity ____?
 ____ am interested ____ the balance between ____ fuel ____ sustainable ____.
 ____ you ____ me how much ____ comes from fossils ____?
 Did you ____ overview ____ fossil ____ source ratio in ____?
 ____ you tell me ____ electricity ____ fossil ____ versus renewable ____?
 ____ the ratio of fossil ____ green ____ electricity?
 I want ____ how ____ our power ____ from ____ fossils.
 What percentage ____ into power?
 ____ there ____ good ____ fossil fuels and renewable ____ for ____?
 ____ green source ratio for our electricity?
 ____ people know about fossil ____ vs. ____ split?
 ____ to know ____ percentage ____ electrical ____ comes from fossil ____ green ____.
 ____ fuel vs. ____ energy ____ generation
 ____ of fossil ____ used for electricity production?
 ____ the ____ between ____ fuel and ____ electricity sources?
 I'd like ____ how ____ our electrical supply comes ____ fuel ____ alternatives.
 ____ the ____ between coal ____ renewable sources ____ for ____ electricity?
 ____ anyone tell ____ much power ____ from ____ and ____?
 Could ____ the ____ of fossil fuels ____ sources ____ producing the ____ supply?
 ____ you know ____ percentage ____ fossil ____ green ____ in our ____ production?
 What ____ the ____ difference between ____ fuels ____ green ____ electricity?
 ____ to producing ____ power supply, ____ curious about ____ breakdown ____ fossils versus ____.
 I'm curious about ____ breakdown ____ renewable sources ____ comes ____ producing our electric ____.
 ____ ratio ____ fossil ____ and green sources ____ electricity ____ known.
 Is there ____ breakdown of fossil ____ vs ____?
 ____ don't know ____ percentage ____ supply derives from fossil ____ and ____.
 Is ____ on ____ percentage of fossil fuel ____ green ____ generating electrical ____?

____ want to ____ percentage of ____ green ____ in our ____ production.
 ____ you know how ____ electricity ____ fossils ____ to renewable sources?
 ____ to know the ratio of ____ used ____ make electricity.
 ____ me the ____ of green ____ power.
 ____ want ____ percentage of electrical ____ comes from fossil ____ alternatives.
 ____ there a ____ to understand ____ mix ____ fossil ____ and renewable sources ____ electrical supply?
 Tell me about ____ of ____ and ____ generating power.
 I'm ____ the ____ fuel and ____ sources of electricity.
 I want ____ know the ____ fossil ____ green ____ used for ____.
 ____ don't know the ____ fossil ____ to ____ sources ____ production.
 Please tell ____ fuels and renewable ____.
 ____ power comes from ____ fuels and renewable ____?
 How much ____ comes ____ greens ____ for ____ power?
 ____ much ____ power come ____ fossils and ____?
 ____ to know ____ percentage ____ supply comes from ____ versus green alternatives.
 ____ of fossil fuel to ____ sources for generating electrical ____.
 What ____ and ____ are in ____ power?
 ____ how fossil ____ compares to green ____ of electricity.
 How much ____ fuels ____ sources ____ production?
 ____ like to know ____ percentage of ____ supply ____ from fossil fuel ____.
 Can ____ tell ____ how ____ fuels and ____ sources ____ in ____ production?
 ____ possible to ____ insight ____ the ____ of fossil ____ renewable ____ in producing ____ electrical supply?
 The ____ and green sources ____ production.
 What percentage ____ electricity comes ____ fossil ____ green ____?
 I want ____ know the ____ of fossil ____ sustainable ____.
 What ____ ratio ____ fuel to green sources ____ electricity?
 Tell ____ about ____ proportion of ____ and ____ in ____.
 ____ our ____ power, what's ____ fuel to ____ ratio?
 ____ tell me ____ of fossil fuel used for ____ power?
 There is ____ about ____ of ____ to green ____ for power.
 ____ fossil fuel compares ____ renewable sources ____ electrical power production.
 ____ split ____ fossil fuels ____ options for ____ electricity?
 Could ____ learn ____ the ____ of ____ and ____ used to produce the electrical ____?
 We ____ to ____ the ratio ____ fossil ____ renewable ____ used ____ deliver ____.
 I would like ____ know ____ much ____ from ____ vs. ____.
 How ____ the ____ between ____ fuels ____ green sources ____ power?
 Tell me ____ of ____ and ____ is making ____.
 ____ to ____ ratio of fossil ____ sources ____ producing electrical power.
 I ____ how ____ of ____ electrical ____ comes ____ and how much comes from ____ alternatives.
 ____ to ____ of fossil fuels vs. green sources ____ electricity ____.
 ____ ratio of ____ fuels to green sources ____ electricity ____?
 ____ want ____ the proportion of ____ vs green sources ____ production.
 ____ like ____ know the ____ traditional ____ clean energy for generating ____.
 Please ____ us know the ratio ____ fuels ____ energy ____.
 ____ to know ____ ratio between green ____ fossil ____ for ____ electrical ____.
 How ____ of the ____ fossils versus greens?
 ____ you know how fossil ____ to ____ generating electrical ____?
 ____ much ____ fuels ____ green sources ____?
 ____ comes to ____ electric power ____ what ____ breakdown in ____ of ____ versus renewables?
 ____ need to know the ____ fuels and ____ energy _____.

_____ it comes _____ power supply, what _____ the breakdown of fossils _____?

I want to _____ power comes _____ renewable sources.

_____ me about _____ proportion of green and _____.

Is it _____ to tell _____ between fossil _____ sources for _____ power?

_____ state the ratio of _____ renewable _____ used.

I am wondering how _____ fossil _____ contribute _____ sources.

How fossil fuel _____ green _____ compares _____ power?

Do you _____ electricity is generated using _____ fuels _____?

Do you know how _____ fuels _____ power production?

_____ power comes from fossils _____ how _____ sources?

_____ you _____ me the _____ of _____ green _____ for generating electricity?

_____ much power do we get _____ sources?

_____ much is derived from _____ and _____ our _____?

When _____ producing _____ power _____ what _____ the breakdown in fossils versus _____?

_____ like to know _____ fossil fuel vs _____ energy.

What _____ of electricity _____ from _____ fuels compared to _____?

Can you give _____ of fossil _____ green sources _____ electricity _____?

_____ there a ratio of _____ green _____ for _____?

_____ percentage of green and fossils _____.

I want _____ if there's _____ balance _____ fuel-based _____ electricity generation.

_____ breakdown _____ fossils versus _____ it comes _____ generating the electric power _____?

Is it _____ insight into the mix _____ fossil _____ and renewable _____ to _____ our _____?

_____ you know _____ much of our electrical _____ as compared to _____?

fossil fuel to green _____ electricity _____ question.

I _____ a _____ for _____ fossil _____ green sources _____ production.

What is the _____ of _____ to _____ electricity production?

_____ fossil fuel _____ green source ratio for _____?

Is _____ fossils _____ in making power?

Can _____ about the proportion _____ fossil fuel and _____ sources _____ generation?

_____ know how _____ electricity _____ fossil fuels compared to clean _____?

I am _____ about _____ electricity _____ from fossil _____ to _____ sources.

_____ fossil _____ to green source _____ for electrical _____ known.

_____ the proportion _____ traditional _____ vs _____ energy _____ generating power.

_____ to _____ what percentage _____ electrical _____ comes from fossil fuel _____ green _____.

I am curious _____ of _____ renewables _____ it comes _____ generating electric _____.

I _____ like to _____ the percentage _____ fuels vs _____ used _____ power.

How _____ our power comes _____ versus _____?

_____ of traditional fuels vs clean energy for generating _____?

_____ electrical _____ come from _____ fuel _____ green sources?

Please state _____ of _____ renewable _____ to electricity.

I _____ to _____ fuel compares to _____ sources of _____.

What _____ of _____ and _____ for our power?

Can you _____ between _____ fuel and _____ sources _____ generating electricity?

Is there _____ on _____ fossil fuel _____ sources _____ power production?

How _____ distribution _____ between fossil fuels _____ sources _____ electricity?

_____ it _____ understand the mix of fossil fuels _____ renewables _____ in the _____ of _____?

_____ want to _____ about _____ fuels and _____ energy for generating _____.

I'd like _____ know the _____ of _____ green _____ in _____ electricity _____.

I want _____ know _____ much _____ and green _____ are used _____ electricity _____.

I want to _____ comes from fossils _____.

____ it ____ to ____ me how much of ____ comes ____ and ____ ?
 Do ____ have ____ information on the ____ fuel ____ in generating ____ ?
 ____ fossil ____ vs green energy ____ for power ____ .
 ____ curious about the proportion of traditional fuels ____ in ____ .
 We need to ____ of fossil ____ to renewable ____ in ____ .
 Do you ____ fossil ____ renewable sources ____ our electrical ____ production?
 Could we ____ the ____ of fossil ____ sources utilized ____ producing our ____ supply?
 ____ percentage ____ comes ____ fossil fuel or green ____ not known.
 ____ amount of fossils versus ____ power us?
 ____ fossil ____ or green ____ are ____ generating electrical power?
 ____ how much ____ our ____ comes from ____ compared to sustainable alternatives?
 What's ____ breakdown of ____ vs ____ energy in ____ ?
 ____ me ____ fossil fuel ____ green sources ____ are compared.
 ____ comes ____ our power supply, what ____ the ____ terms ____ fossils versus ____ sources?
 ____ there a ____ between fossil fuel-based ____ energy-based electricity ____ ?
 ____ it comes to generating ____ electric ____ is ____ of ____ versus ____ sources?
 fossil fuel ____ green ____ ratio ____
 When ____ producing our electric ____ what ____ the breakdown in terms ____ fossils ____ sources?
 I ____ like ____ know the ____ and ____ sources of power.
 ____ anyone ____ how ____ power comes from ____ renewables?
 ____ to know ____ ratio of ____ renewable ____ to electricity.
 ____ should know ____ of ____ fuels and renewable ____ used ____ electricity.
 Did ____ know how ____ to renewable ____ electrical power?
 ____ the fossil ____ sources ____ for electricity production.
 What's the ____ fuel ____ green sources ____ electricity?
 Please ____ us the ____ fossil ____ and ____ to electricity.
 ____ know ____ fossil fuel ____ renewable ____ compare ____ the electrical power ____ ?
 ____ would ____ the ratio ____ and ____ fuel for generating electrical ____ .
 ____ you give us ____ overview ____ fossil fuel ____ green source ____ our ____ ?
 ____ know the ____ of fossil ____ energy in the ____ ?
 I ____ of ____ power comes from fossils and ____ .
 I ____ about ____ ratio ____ fossil fuel ____ green sources ____ power.
 What ____ fuel is ____ for electrical power ____ ?
 Is ____ fossil fuel ____ ratio disclosed in our ____ ?
 ____ give me ____ of ____ or green ____ in our electricity ____ ?
 ____ know the proportion of ____ clean ____ for generating power.
 ____ need to ____ the percentage ____ fuels vs ____ in ____ electricity ____ .
 ____ you ____ the ____ of ____ green ____ in electricity production?
 ____ much ____ comes ____ fossils ____ renewables?
 ____ you give ____ fossil ____ vs green ____ in ____ electricity?
 ____ you share that ____ about fossil fuel ____ ?
 ____ fuels ____ sources for ____ ?
 I want to ____ the ____ fuel ____ green sources ____ power.
 ____ if ____ was a ratio between ____ for producing electrical power.
 We need ____ know ____ power ____ fossils ____ renewable sources.
 Is it ____ get insight into the ____ fossil fuels and ____ in ____ ?
 Fossil ____ green ____ for power ____ .
 Do ____ know ____ fossil ____ and sustainable electricity ____ ?
 What ____ the ____ of ____ and eco- ____ for generating ____ ?
 ____ it ____ mix of fossil ____ renewable energy in producing ____ supply?

_____ like to know _____ traditional fuel _____ energy for _____ power.
 _____ any information on the proportion _____ fossil _____ for _____?
 What is _____ green _____ for electricity production?
 We _____ to _____ the ratio _____ fuels and renewable energy _____.
 _____ tell me the _____ fossil _____ green sources for _____ electrical _____?
 _____ want _____ the _____ of _____ to _____ electricity compared to renewable _____.
 _____ much fossil _____ to _____ sources of electricity _____?
 What _____ fossil _____ to _____ sources of electricity _____?
 What _____ the _____ fossil _____ and green _____ to _____?
 _____ about the _____ ratio _____ our electric supply?
 Should _____ get the fossil _____ sources _____ for electricity _____?
 Could _____ tell _____ the _____ fuel-to-green _____ in _____ electric supply?
 What _____ the ratio _____ to green source for _____?
 _____ balance between fossil _____ and sustainable energy-based electricity generation.
 Did you know _____ ratio of _____ fuels _____ electricity _____?
 A _____ the fossil _____ green _____ ratio for electrical _____.
 I _____ know the difference between _____ fuel and green _____.
 What _____ ratio _____ fuel to green fuel _____ electricity _____?
 Please tell _____ the ratio _____ that we _____ for electricity.
 _____ have _____ how much power _____ from fossils _____ greens?
 _____ we sharing the breakdown _____ energy _____ our electricity?
 What _____ the ratio of fossil _____ generation?
 _____ don't know what _____ of our _____ fuel or _____ alternatives.
 What _____ of fossils and _____ is _____ making _____?
 _____ is the breakdown of fossils _____ producing our electric power _____?
 Is it possible to _____ the _____ and _____ used _____ our _____ supply?
 _____ know if the _____ of our _____ fossil fuel or green alternatives.
 _____ it comes to producing our _____ what _____ breakdown _____ fossils _____ sources?
 The balance between _____ fuels _____ create electricity.
 Do _____ know _____ comes from _____ than _____ renewable sources?
 _____ fuel vs _____ ratio _____ of power
 Let _____ know _____ between fossil _____ green _____ in our _____.
 _____ me _____ of fossils and _____ in _____ power.
 _____ ratio of fossil _____ to _____ fuels in _____ production?
 _____ me _____ of traditional _____ clean _____ for generating power.
 Let _____ know _____ much _____ from _____ and greens?
 _____ of fossil fuel-to-green source _____ the electric supply?
 What is _____ percentage _____ down _____ fuels _____ green _____ electricity?
 _____ is the fossil fuel _____ source ratio _____.
 _____ is the balance between _____ and _____ power?
 _____ curious _____ the _____ between _____ sustainable energy-based electricity generation.
 Will you _____ me the _____ of fossil _____ for electricity _____?
 What _____ of _____ go _____ power?
 _____ much _____ our _____ from greens _____ fossils?
 What amount of _____ and _____ for power?
 _____ the _____ of fossil _____ green resources to _____?
 The _____ fossil to green _____ is _____ production.
 Please tell us _____ fossil fuels _____ use _____ electricity.
 I'm _____ the _____ of fossil fuels _____ sources _____ electricity production.
 _____ is the _____ fuel to green _____ of _____ production?

____ many fossil fuels ____ power?
 Do ____ use fossil fuel ____ power generation?
 Fossil fuel ____ green ____ ratio ____ what ____ it?
 How much electricity is ____ to ____ sources?
 ____ the ____ fuel-based and sustainable energy-based ____ generation?
 ____ proportion of fossil ____ sources of electricity ____?
 ____ is the ratio of ____ green source ____ power?
 Can you ____ me ____ to green ____ ratio for ____?
 ____ fuel ____ for electrical power?
 ____ ratio between ____ and eco friendly ____ generating ____?
 What proportion ____ fossil fuels ____ in ____ electrical ____ generation?
 The ____ of ____ fuels and ____ in our ____ is ____ known.
 How much ____ our electricity comes ____ fossil ____ renewable ____?
 ____ much electrical ____ from ____ fuel compared to ____?
 ____ don't ____ percentage of ____ electrical supply is ____ fossil fuel ____ green ____.
 ____ me the ____ green ____ fossils ____ making power.
 You ____ tell me the ratio ____ fossil fuel ____ power.
 How is ____ fossil fuel to ____ our electricity ____?
 Giving ____ on ____ fuel versus ____ sources in ____.
 ____ the ____ traditional and eco-friendly energy ____ power.
 ____ a ____ of ____ and green ____ of electricity.
 What is ____ balance ____ and ____ for producing electricity?
 The ____ of fossil ____ to ____ electricity production ____ not ____.
 Do ____ know the ____ fossil ____ and sustainable ____ generation?
 What ____ the ____ fuels and ____ sources ____ making electricity?
 I'd ____ to ____ electrical supply ____ from fossil fuel ____ green alternatives.
 We need to know ____ percentage ____ fuels vs ____ electricity ____.
 ____ know ____ of ____ fuels vs green sources ____ electricity production.
 I ____ to know if there is ____ between fossil ____ based electricity ____.
 ____ you ____ the contribution of ____ fuels ____ compared ____ renewable sources?
 ____ was wondering how much of our power ____.
 ____ able ____ learn more about the ____ of fossil ____ and ____ sources utilized in generating ____.
 I ____ a quick ____ of ____ ratio in ____ supply.
 ____ fossil fuels ____ renewable ____ for creating electricity?
 ____ there any information ____ power comes ____ fossils ____ renewable ____?
 ____ ratio ____ and renewable energy ____ to ____ should be disclosed.
 ____ percentage ____ comes ____ fossils or renewable sources?
 ____ learn more about the mix of ____ renewable sources ____ our electrical supply?
 ____ fossil fuels to ____ for electricity production?
 Could ____ explain ____ fossil ____ in our ____ supply?
 ____ the fossil fuel to ____ source ratio ____ electricity ____?
 ____ me the ratio of fossil ____ renewable ____ used ____ electricity.
 ____ any information on how fossil ____ compare in electrical power ____?
 I ____ know if ____ our ____ supply comes ____ fuel or green alternatives.
 ____ from ____ compared to renewable sources?
 Can you give ____ fossil fuels ____ sources in ____ production?
 Do you ____ the ____ of fossil fuel ____ for generating ____?
 ____ would like clarity on what percentage ____ electrical ____ from ____ green ____.
 How ____ fuel ____ to ____ sources ____ electrical ____ production?
 Can ____ tell me the breakdown ____ vs green ____ in ____?

I _____ to _____ the percentage _____ green sources in _____ production.

What's the ratio of _____ to _____ of _____?

Please _____ between _____ and renewable energy used for _____.

How _____ split _____ fossil fuels _____ sustainable _____ options?

_____ is the _____ fuels used _____ electricity?

We _____ know _____ fuel to green source ratio _____ mix.

There's _____ question _____ ratio _____ fossil fuels to green _____.

_____ fossil _____ to _____ source ratio for _____ power?

_____ proportion _____ fossil fuels to _____ energy _____ our electrical _____?

_____ you _____ percentage _____ fuel and _____ sources used _____ power generation?

_____ like _____ about fossil fuel versus _____ sources _____ electricity.

_____ the _____ fossil fuels and renewable _____.

How _____ the distribution _____ using _____ and _____ for generating electricity?

_____ there _____ the mix _____ fossil fuels _____ energy _____ in generating our electrical supply?

_____ could _____ the _____ between _____ fuel _____ green sources _____ electrical power.

I _____ to _____ the _____ fossil _____ versus green _____ in electricity _____.

_____ is _____ balance _____ fuels _____ renewable energy _____ creating electricity?

I want _____ know _____ and _____ fuel in electricity.

Where _____ fossil fuels _____ green sources for _____?

_____ I be _____ about the _____ between _____ fuel-based and sustainable _____?

_____ percentage of electricity _____ fossil fuels _____ energy?

_____ a _____ overview _____ the fossil _____ to _____ source ratio _____ electric supply?

_____ much of _____ from _____ fossils and greens?

_____ how _____ electricity is generated _____ fossil _____ compared _____ clean sources?

_____ tell me the _____ fossil fuel _____ green _____ used _____ electricity _____?

You _____ give _____ the _____ of _____ green sources _____ electricity production.

Please _____ me how _____ contribute to _____ renewable sources.

_____ ratio of _____ fuels to _____ sources in _____ generation _____.

Do _____ know how fossil _____ and _____ in _____ power production?

_____ about the ratio of _____ green sources _____ electricity production.

_____ much _____ is _____ from fossil _____ and eco-friendly sources?

How _____ comes from fossil _____ to renewable sources?

Tell me, _____ percentage _____ green _____ power?

_____ is the ratio of _____ fossil _____ power?

What _____ the _____ of fossil _____ sources of _____?

We want to know the _____ source _____ electricity mix.

_____ like to know if there _____ a balance _____ electricity generation.

_____ of _____ fuels to _____ sources _____ producing electricity?

Is _____ any _____ much power comes _____ fossils and _____?

_____ you _____ fossil fuel _____ green sources are _____ for generating _____?

Do you _____ the difference between _____ green sources _____?

_____ you _____ percentage of fossil fuel _____ green sources used _____?

_____ you know _____ fuel-to-green source ratio in _____?

We need to _____ the _____ of _____ and _____ energy _____.

_____ the ratio _____ fossil to _____ sources _____ electricity production?

What is the _____ green _____ for electricity?

_____ green energy ratios _____ generation

_____ between fossil _____ and green _____ is not known.

_____ me _____ percentage _____ fossils and _____ in power.

How _____ fuels are used for green _____?

We need to ____ how ____ power ____ fossils ____ renewable ____.
 ____ the fossil fuel ____ green source ____ power?
 ____ is used for ____ electricity between ____ and ____?
 Is ____ balance ____ sustainable energy-based electricity generation ____ fuel-based ____?
 ____ want ____ which percentage of ____ supply derives from fossil ____ green ____.
 ____ there ____ to green ____ ratio in ____ electricity mix?
 ____ me the ____ green and ____ in making ____
 ____ you ____ us the ____ fuel ____ green ____ ratio ____ electricity mix?
 Tell ____ about ____ ratio of fossils ____ green ____.
 ____ is ____ breakdown of fossils ____ to generating electricity?
 ____ clarity on what percentage ____ our electrical ____ from ____ green alternatives.
 Please tell ____ ratio ____ and renewable energy ____ use ____ electricity.
 Do ____ know ____ percentage of our electricity coming ____ fossils ____?
 ____ you able ____ me the percentage ____ fossil ____ and ____ sources in ____?
 I ____ like to ____ the ____ of our ____ from ____ green alternatives.
 How ____ change from fossil ____ to ____ sources ____ electricity?
 In ____ production, what is the ____ fossil fuels ____?
 ____ want to know ____ of ____ fuels and clean ____ generating ____.
 ____ know ____ percentage ____ fossil ____ and green sources are used ____ power?
 ____ curious ____ the ____ of ____ and ____ when ____ to generating electric power.
 ____ and green ____ electricity?
 ____ much ____ power is generated using ____ fuels compared to ____?
 We ____ be able ____ the mix of ____ renewable energy ____ producing ____ electrical supply.
 ____ don't ____ what the mix ____ fossil ____ green ____ our power.
 ____ curious about ____ much ____ power ____ from fossils and ____.
 I'm wondering ____ of ____ power comes ____ and ____.
 ____ like ____ how fossil ____ compares ____ renewable sources of ____ power ____.
 Is there a good balance ____ fuels ____ energy ____?
 ____ want to ____ the ratio ____ fossil fuels ____.
 Is ____ mix ____ fossil fuels and renewable sources utilized ____ producing ____ supply?
 Is it ____ tell me ____ comes ____ greens and ____?
 ____ ratio ____ eco-friendly energy in generating power?
 How much ____ to ____ are ____ for ____ production?
 Please ____ me ____ electricity ____ from fossil fuels ____ renewable ____.
 I'd ____ the ____ of our electrical supply ____ or green alternatives.
 I ____ to know ____ much ____ fossils versus ____ sources.
 A question ____ the ____ fossil ____ energy for ____ electricity.
 ____ you ____ much ____ power ____ produced using ____ fuels ____ to clean sources?
 ____ of fossil ____ sources for our power?
 How is the ____ different ____ fossil ____ green ____ of ____?
 I'm ____ balance ____ fossil ____ and ____ energy-based electricity generation.
 ____ and green ____ we use for power?
 ____ it ____ to ____ electric power ____ what is the ____ in ____ of fossils versus ____?
 ____ know ____ much electrical ____ comes ____ fuels ____ compared to ____ alternatives?
 ____ is the breakdown ____ terms ____ fossils versus renewable ____ comes to ____?
 ____ ratio of ____ green sources in ____ generation.
 ____ to know the proportion of ____ vs green ____ electricity ____.
 ____ to producing ____ what is the breakdown in ____ renewables?
 ____ to learn more about ____ fuels and renewable energy ____ our electrical supply.
 ____ is ____ on fossil ____ and ____ for generating power?

Is there a ____ of ____ and green ____ electricity?

How ____ power comes ____ energy?

Will you give ____ fuel ____ green ____ for electricity ____?

Is ____ for ____ fuel to green ____ for electricity ____?

Can ____ tell ____ about the ____ fuel ____ green ____ used in generating ____?

Tell ____ proportion ____ green and fossils that ____.

What ____ of ____ from ____ compared to renewable sources?

____ there ____ between fossil ____ renewable energy to ____ electricity?

____ me know what ____ fossils ____ in making power.

Did ____ overview of ____ source ____ the electric supply?

____ our electrical power comes ____ fuels ____ to ____ alternatives?

Can ____ me the proportion ____ green ____ used to ____ power?

____ me the percentage of ____ and ____ power ____.

Do ____ know the difference ____ sources of electricity?

I am wondering ____ there ____ a ____ fossil ____ sources for ____ electrical ____.

Is it ____ the mix ____ fossil ____ renewable energy in ____ our electrical supply?

____ tell ____ the proportion ____ fossil fuel ____ sources ____ for generating power?

Is ____ from ____ fuel versus green sources?

I'm curious ____ of ____ fuels vs ____ used ____ generating power.

____ much ____ and green ____ electricity?

I'd ____ to ____ how much power comes ____.

____ fossils and greens for ____ power?

____ aware of ____ amount ____ electricity ____ fossil ____ compared to clean ____?

____ of fossil fuels to ____ electricity ____ to renewable ____?

____ much ____ to ____ energy for ____?

____ know the balance in ____ between ____ and eco-friendly ____?

____ there a better way ____ the ____ fuels ____ fuels in ____ electrical supply?

What is ____ ratio of fossil fuels ____ sources ____?

____ know ____ the ____ of fossil fuel vs ____ energy ____?

What ____ the ratio ____ green sources for ____?

What is ____ ratio ____ fossil ____ in electricity?

____ traditional fuels vs ____ energy ____ used for ____?

____ we ____ more ____ of fossil fuels and ____ sources ____ electrical supply?

What percentage ____ the ____ supply ____ or green ____ not clear.

____ would like ____ know ____ fossil ____ green sources for generating ____.

____ is ____ correlation between fossil ____ sources of ____ production?

____ greens ____ fossils ____ into our ____?

What ____ of ____ fuel ____ used for ____ electrical power?

____ there a ____ between fossil ____ sustainable ____ generation?

____ it ____ to tell ____ the proportion of fossil ____ electricity production?

The ratio ____ fuels to ____ electricity production

What is the distribution ____ between ____ and ____?

Did ____ know ____ fossil fuel ____ green ____ in our electricity ____?

____ sources in electricity production, what ____ breakdown?

The ____ fuels to green ____ in ____ generation ____ unclear.

When ____ generating electric ____ supply, what ____ in ____ fossils versus renewable sources?

____ us know the breakdown of ____ green energy?

____ amount ____ fossils ____ into power?

____ you tell ____ the proportion of ____ fuels ____ electricity production?

Are fossil ____ sources comparable in ____ electrical ____?

_____ fuel _____ energy ratio for power _____
 How much _____ and green _____ to produce electrical _____?
 _____ know _____ fossil fuel _____ sources _____ electrical power production?
 Do you _____ much power _____ from _____ fossils?
 _____ you give me _____ of fossil fuels _____ of electricity _____?
 _____ might _____ to _____ the _____ fossil _____ and renewable energy _____ in our electrical supply.
 Fossil fuel _____ energy _____ generation
 _____ you _____ the _____ fossil fuel vs. _____ split?
 What _____ fossil and _____ is _____ for _____ production?
 Tell me _____ and green _____ of electricity _____.
 _____ you tell _____ the _____ fossil _____ vs. green _____ in _____ production?
 _____ percentage of _____ electrical _____ comes from _____ fuel or _____?
 _____ much _____ is produced _____ fossil fuels and clean _____?
 _____ want to know how _____ vs _____ sources _____ our electricity _____.
 _____ me _____ how much of _____ from _____ compared _____ renewable sources.
 _____ need _____ ratio of _____ fuels and renewable _____ our electricity.
 Give me _____ lowdown _____ versus green _____ of _____.
 _____ know how _____ power _____ and how much _____ from sustainable alternatives?
 _____ possible to _____ the breakdown _____ fuel _____ energy in electricity?
 _____ need _____ about the _____ traditional fuels vs _____ energy for _____.
 I _____ of _____ electrical supply _____ derived _____ fuel and green alternatives.
 What _____ fossil fuel _____ used in _____ power?
 What _____ composition _____ and green energy for _____?
 How _____ of _____ power come _____ and _____?
 Should _____ discuss _____ fossil _____ vs green _____ in _____ electricity?
 What is the _____ and _____ sources for our _____?
 _____ our _____ is derived from _____ and greens?
 _____ percentage _____ the _____ comes from _____ to renewable sources?
 _____ you know how _____ fuel and green _____ used for _____?
 What _____ fossils _____ making power?
 Can _____ me _____ overview of _____ fuel-to-green source _____ in _____ electric _____?
 How _____ the percentages compare _____ and green _____ for _____?
 I'm _____ about _____ breakdown _____ versus _____ sources _____ comes to producing _____.
 _____ you _____ the _____ fuel-to-green source ratio _____ the electric supply?
 _____ is _____ ratio _____ green _____ in electricity production?
 Do _____ know the _____ between _____ fossil fuel sources _____?
 _____ want to _____ the ratio _____ fuels _____ energy used _____ electricity.
 _____ many _____ to _____ for _____ production?
 _____ would like _____ between traditional and eco-friendly _____ generating power.
 _____ know _____ our _____ supply comes from fossil fuel and _____.
 I _____ to know how _____ from _____ greens?
 Do _____ know _____ amount _____ produced using fossil fuels compared _____?
 _____ ratio of _____ to _____ sources _____ for electricity _____?
 _____ if you _____ tell me _____ between _____ fuel and _____ energy generation.
 _____ the percentage of _____ fuels and _____ sources different _____?
 _____ do you _____ the _____ of _____ vs _____ energy?
 _____ ratio of _____ fossil fuels used for electricity.
 _____ is _____ fuels to _____ sources in _____ production?
 Do _____ how much _____ from fossil _____ renewable sources?
 Fossil fuel _____ green _____ in _____ electricity _____ is the _____?

Can _____ me _____ of fossil _____ green sources _____ electricity production?
 _____ a _____ of _____ green sources for _____ generation?
 _____ proportion _____ fuels _____ green sources _____ power?
 I'm _____ about the _____ fossils _____ renewables _____ to producing electric _____.
 What _____ fossil fuel-to green _____ ratio _____ our _____?
 _____ is _____ fuels to green sources in our _____?
 _____ is _____ the ratio _____ to green sources _____ electricity production.
 Is _____ a _____ understand the _____ and renewables in producing _____ electrical supply?
 _____ much of _____ fossils vs. renewable sources?
 _____ a question about _____ between fossil fuel _____ for generating electrical _____.
 Do you _____ much _____ is _____ by fossil _____ sources?
 I would like _____ percentage _____ fuels vs green sources _____ electricity _____.
 _____ explanation _____ fuel-to-green source ratio _____ the electric supply?
 _____ fossil fuel to _____ source _____ electrical power?
 I would like _____ know _____ percentage of _____ electrical _____ comes _____ green _____.
 _____ you _____ me how much electricity comes from fossil _____.
 How does the _____ fuels and _____ for _____ electricity?
 I'm _____ for information _____ proportion _____ vs _____ energy for _____ power.
 _____ percentage is broken _____ between _____ fuels and green _____?
 _____ much _____ our _____ from fossil fuel _____ ecofriendly _____?
 _____ know _____ of electricity coming _____ fossils _____ to renewable _____?
 _____ much is the ratio _____ green _____ for electricity _____?
 In our _____ the ratio _____ fuels _____ green sources?
 _____ is the _____ of _____ to _____ green sources _____ electricity?
 I want _____ the _____ fuel to green _____ ratio _____ electricity _____.
 _____ you _____ the balance _____ and _____ sources for our _____ production?
 Give me the percentage _____ fossils _____ power.
 Can _____ me the _____ fossil _____ sources used for _____ electricity?
 Do _____ how fossil _____ compares to renewable _____?
 Can _____ fuel to _____ ratio _____ our electricity mix?
 _____ of our _____ power come from _____ compared _____ sustainable alternatives?
 _____ you know _____ percentage _____ traditional _____ clean _____ generating power?
 _____ like _____ about _____ balance between fossil _____ sustainable electricity generation.
 _____ you _____ the _____ of _____ derived _____ fossils compared _____ sources?
 _____ you _____ showing the fossil _____ to _____ source ratio _____ our _____ mix?
 We _____ of fossil fuel to _____ source ratio in _____.
 _____ you tell _____ about _____ fossil _____ source _____ our electric _____?
 Do _____ much _____ is generated using fossil _____ compared _____ sources?
 _____ tell me _____ green sources contribute to _____ electricity production?
 _____ of fossil fuels _____ green sources in _____?
 The _____ fossil _____ green _____ our electricity production _____ unknown.
 Did _____ know _____ the _____ to green source _____ in _____ electricity _____?
 _____ you have _____ lowdown _____ fossil _____ sources of electricity?
 _____ the ratio _____ fossil fuels _____ used to supply _____.
 _____ ratio of fossil fuels and green sources _____?
 Is there _____ of fossil to green _____?
 _____ be _____ ratio _____ fossil to _____ sources _____ electricity production?
 What is _____ of fossil _____ green _____ power?
 _____ between traditional and eco-friendly _____ generating power
 _____ of fossil fuels in our electrical _____ generation?

_____ it possible _____ show _____ the _____ fuel _____ green _____ in electricity?

Is _____ comparable _____ sources _____ electrical power production?

How about _____ fossil _____ to _____ source _____ in _____ mix?

What's the _____ of _____ energy?

I _____ know about _____ versus green _____ electricity.

Give me _____ of fossil fuel _____ sources _____.

Do you _____ how fossil fuel _____ electricity production?

_____ and Greens for our power?

I _____ know _____ the ratio of _____ eco-friendly _____ for _____ power.

_____ is _____ of fossil _____ green _____ for our electricity _____?

_____ need the fossil _____ to green sources _____ for _____ production _____ to _____.

_____ much _____ our power _____ fossils _____ greens?

_____ breakdown of fossil _____ electricity production is unknown.

Did _____ ratio of _____ fuel to green _____ for _____ power?

_____ was _____ about _____ ratio _____ fuel _____ sources for generating electrical _____.

What _____ the ratio _____ fossil fuels _____ green _____ electricity?

Can _____ about _____ of fossil _____ green sources used _____ electrical power?

Do we know _____ our _____ from fossils or _____?

_____ you know _____ much _____ created using _____ fuels compared _____ sources?

Can you _____ me _____ of green sources _____ fossil fuel _____?

We need _____ know _____ fuels and _____ used to supply our _____.

_____ is _____ ratio _____ fossil fuel and _____ sources for _____?

Can you tell me _____ electricity comes _____ fuels _____ how _____ sources?

_____ tell me how fossil _____ contribute to _____ compared _____.

_____ me _____ electricity comes _____ fuels and renewable _____.

Will you tell me _____ fossils _____ greens?

Can you tell _____ fossil fuel to green _____ our _____?

_____ be able to get insight _____ mix _____ renewables used _____ our electrical supply.

I _____ the proportion of traditional fuels _____ clean _____ generating _____.

We might _____ able to _____ more _____ mix _____ renewable sources utilized _____ producing _____ electrical supply.

_____ is _____ of _____ and _____ in making power?

Do _____ how fossil _____ compares to _____ in our _____?

_____ wanted _____ know the _____ between _____ fuel _____ producing electrical power.

What percentage _____ between _____ green sources _____ electricity?

What _____ the _____ of fossil _____ to _____ for _____?

I need _____ know _____ of _____ green sources to produce _____ electrical _____.

I _____ like _____ how _____ fuels contribute to _____ to renewables.

_____ you _____ a _____ of _____ fuel to green _____ for _____ production?

_____ know the _____ fossil _____ and renewable energy we _____.

Is it _____ to get _____ into the _____ and renewable energy _____ supply?

_____ percentage of _____ goes to renewable _____ our _____ generation?

_____ fossil fuel _____ green _____ ratio _____ electricity production _____?

Does _____ know the breakdown _____ green _____ in our _____?

_____ regarding the ratio of fossil _____ of electricity generation.

_____ does _____ percentage split between _____ fuels and _____ for _____?

_____ is a question _____ the mix _____ green _____.

Can _____ me _____ the balance _____ fossil _____ and sustainable _____?

How much do _____ depend on _____ and _____ generation?

_____ you tell _____ the breakdown _____ fuel _____ energy in _____?

Can _____ tell _____ about the _____ fuel _____ green energy in _____?

Do you _____ fuel _____ to _____ in power production?

_____ is the breakdown of fossil _____ renewable _____ electricity _____?

I _____ know the _____ of our electrical _____ fuel versus _____ alternatives.

_____ it _____ to _____ of fossil fuels and renewables utilized in _____ electrical _____?

_____ we learn _____ about the _____ of _____ fuels _____ renewable sources _____ to _____ electrical _____?

Could _____ more _____ the mix _____ and renewables used _____ our _____ supply?

_____ it _____ the mix of fossil fuels _____ renewable _____ utilized in _____ supply?

_____ need _____ of fossil _____ green source _____ in our electric _____.

I _____ know _____ fossil _____ and sustainable energy-based electricity _____.

Are _____ aware of _____ much electric power _____ to clean sources?

I need _____ know _____ and _____ sources for electricity.

_____ know _____ fuel _____ green source _____ in _____ electricity mix?

Do _____ how fossil _____ renewable _____ for our electrical _____ production?

How _____ our _____ comes _____ fossil fuels _____ to _____ sources?

What _____ share _____ and green energy _____ power?

What _____ fossil fuel-green energy ratio _____?

Did _____ know _____ ratio _____ fuel _____ sources for _____ electrical power?

_____ want to _____ percentage of _____ from _____ fuel versus green alternatives.

You _____ give me _____ of fossil _____ green sources _____ electricity _____.

_____ spit _____ out? _____ much _____ power comes from _____ and greens?

Do _____ the _____ between coal and _____ generating _____?

Is _____ ratio _____ fossil fuels to _____ sources _____?

_____ the _____ of _____ fuels _____ green _____ for electricity?

_____ need to _____ fossil fuel and _____ for generating _____ power.

Do _____ know _____ fuel and _____ compare when _____ comes _____ electrical power _____?

_____ me about the _____ of fossils _____ power.

_____ the _____ fossil fuel to _____ for electricity?

_____ to know _____ fossil fuels and _____ used for electricity.

_____ am _____ electricity _____ from fossil fuels _____ renewable sources.

_____ of fossil _____ are _____ to generate electrical power?

_____ want _____ how _____ green _____ fossils make power.

I'd _____ to know _____ supply _____ from fossil _____ green alternatives.

I'm _____ of _____ versus renewables when it comes _____ power.

_____ sources for electricity _____?

_____ me _____ breakdown _____ fossil _____ vs green _____ our electricity.

Can _____ share the _____ fuel vs _____ split?

What's the ratio _____ fossil fuel _____ to _____?

_____ you _____ us about _____ fossil _____ green _____ ratio _____ our electricity _____?

_____ fuel _____ ratio, for _____ generation

_____ mix of fossil fuels and _____ used in generating our electrical _____?

What _____ the ratio _____ fuel and _____ sources?

_____ is the _____ and green _____ for _____ generation?

The balance _____ fuels and _____ to create _____.

We _____ know _____ mix of fossil _____ green _____.

_____ need to know the _____ fuel-based and _____ generation.

_____ from _____ versus _____ goes into _____ power?

_____ difference between fossil _____ renewable sources for electrical _____ production?

_____ the ratio _____ traditional and _____ generating power

_____ you know _____ ratio of _____ fuel and green _____ electrical _____?

_____ us how fossil fuel _____ green sources _____ used _____ power?

_____ aware of _____ amount _____ fossil fuels _____ to clean sources?
 Do you _____ of eco-friendly energy _____ energy for _____?
 _____ to know the _____ vs clean energy for generating _____
 _____ about the _____ fossil fuel and _____ to produce _____ power.
 _____ does _____ percentage go _____ fossil fuels _____ green sources _____?
 _____ is _____ fossil _____ and _____ sources of energy?
 Can you tell _____ the _____ of _____ energy in the _____?
 _____ possible _____ insight into _____ mix of fossil _____ renewable sources _____ to produce _____ supply?
 Are fossil _____ and renewable _____ comparable to _____ in _____ power _____?
 What percentage _____ our _____ from fossil fuels _____?
 _____ you _____ the _____ fuels _____ green sources of electricity?
 When it comes _____ electric _____ supply, _____ are the _____ in _____ versus _____?
 Do you _____ what _____ fuel _____ renewable _____ compare _____ electrical _____ production?
 Are _____ share the _____ fossil fuel vs _____ energy?
 _____ you tell me how _____ of the electricity _____ from _____ sources?
 We need _____ how much _____ fuels _____ renewable _____ use _____ electricity.
 _____ you know _____ breakdown of _____ green _____ in _____ electricity?
 The ratio _____ green sources _____ fuels _____ electricity _____.
 Did _____ me _____ proportion _____ traditional fuels _____ for generating power?
 _____ fossil fuels _____ green sources for electricity vary?
 _____ want _____ how much electricity _____ get _____ fuels compared _____ renewable _____.
 _____ to know the ratio _____ fossil fuels _____ we _____.
 Is _____ a quick overview of _____ ratio in the _____?
 _____ you _____ us _____ proportion _____ fossil _____ and green sources _____ generating electrical _____?
 _____ you know _____ renewable sources of power?
 _____ the _____ fossil fuel and _____ for generating _____ power?
 I'm _____ for _____ percentage _____ fossil fuels _____ in electricity _____.
 How much _____ our _____ from fossils _____ energy?
 Is _____ description of _____ fuel-to-green source _____ in _____ electric _____?
 I'm curious _____ the _____ of _____ renewable _____ comes to generating electric _____.
 I am _____ the _____ of fossil fuels _____ green _____ production.
 _____ quick overview of _____ green _____ ratio in the electric _____?
 _____ the fossil _____ green _____ ratio for _____ power?
 _____ the breakdown of fossil fuel _____ energy?
 How _____ you _____ the _____ of fossil fuels _____ for _____?
 _____ the fossil _____ to green _____ ratio _____ the _____?
 _____ need _____ know the ratio _____ fossil _____ in supplying _____.
 _____ want to _____ the ratio of _____ and fossil _____ generating _____.
 _____ me _____ and green in power.
 I _____ proportion _____ fossil fuels _____ green sources of _____ production.
 I'm curious about the _____ of _____ it comes to _____ power _____.
 _____ have data _____ amount _____ electrical _____ comes from _____ fuels compared _____ sustainable alternatives?
 Tell me the _____ and _____ used for generating _____.
 Is _____ to get _____ into _____ fossil _____ renewable _____ utilized _____ producing our electrical supply?
 _____ to _____ the ratio _____ fossil fuel _____ green _____ power.
 The _____ between fossil fuels and _____ making _____?
 Tell me _____ fossil _____ sources are _____ for _____.
 When _____ comes to making our _____ power _____ what _____ breakdown _____ renewable _____?
 What _____ comes _____ fossils compared to _____ sources?
 _____ is the _____ of _____ electricity?

____ you ____ to give ____ ratio of fossil ____ to ____ for ____ production?
 ____ share the breakdown ____ fossil fuel ____ energy ____ our ____?
 ____ you tell ____ that ____ from fossil fuels versus ____ sources?
 ____ you ____ of ____ to green sources for generating electrical ____?
 ____ data ____ how much ____ comes from traditional fuels ____ sustainable alternatives?
 ____ to give the fossil ____ to green ____ ratio for ____?
 Do you ____ fossil fuel to green ____ mix?
 Can you explain the ____ fossil fuel ____ green ____?
 ____ would like ____ know the ratio ____ fuel ____ generating electrical power.
 ____ it comes ____ producing our electric power ____ what ____ breakdown ____ vs. ____?
 Do you know how ____ compares with ____ production?
 ____ fossil ____ energy ratio for power ____.
 ____ you have ____ information on ____ source ____ in ____ supply?
 There's a ____ the ____ of ____ fuels to ____ sources ____ electricity ____.
 Of ____ to ____ for ____ production?
 ____ is ____ percentage ____ between fossil ____ and ____ sources for ____?
 ____ fuel ____ green sources ratio for ____ production.
 ____ to ____ of fossil fuels to ____ in electricity generation.
 ____ it possible ____ of fossil ____ utilized ____ generating our electrical supply?
 ____ much ____ from fossil ____ compared ____ the renewable ____?
 What amount ____ comes from ____ as compared ____ alternatives?
 We might be ____ the ____ of ____ fuels ____ utilized ____ producing our electrical supply.
 Can you ____ the ____ of ____ sources for generating power?
 Can you ____ me the percentage of ____ that ____ and ____?
 ____ ratio ____ fossil fuels and ____ energy ____ for electricity.
 ____ much ____ comes ____ fossil ____ versus green ____?
 I ____ know the percentage ____ fuels ____ energy ____ generating power.
 ____ fossil fuels ____ renewable energy is used ____ power ____?
 ____ the balance ____ fuels and renewable ____?
 Do you ____ electricity comes ____ as opposed to ____?
 ____ the ratio ____ and renewables ____ for generating electricity?
 I ____ curious about the breakdown of fossils ____ when it ____ generating ____ power ____.
 Did you ____ of fossil ____ energy in electricity?
 How many fossil ____ sources ____ there to ____?
 ____ the electrical power's fossil ____ green ____ ratio?
 ____ give ____ for fossil ____ to green ____ for ____ production?
 Do ____ the percentage of fossil fuel ____ sources ____ for generating ____?
 Do ____ ratio for fossil ____ to green ____ production?
 ____ you tell ____ fossil fuel ____ ratio for ____ power?
 ____ you ____ how much ____ from traditional ____ compared ____ sustainable alternatives?
 ____ me ____ on ____ versus ____ sources of electricity.
 We should ____ fuels and renewable energy ____ electricity.
 How much fossil ____ green sources ____ electricity?
 ____ it possible ____ understand the mix ____ fossil fuels ____ utilized ____ electrical supply?
 What ____ the ____ of ____ green energy ____ electricity?
 What percentage of our ____ derives ____ or ____ alternatives?
 Can ____ tell ____ the proportion ____ fossil fuel ____ sources ____ for ____?
 What ____ the ____ fossil ____ to ____ sources for ____ generation?
 ____ much ____ to green sources ____ electricity ____?
 How much ____ fuels ____ electricity ____ to ____ energy?

Is there _____ fossil _____ for electricity production?
 _____ to know the ratio _____ fossil _____ energy _____ in electricity.
 I'd _____ know the ratio between _____ fuel _____ green sources _____.
 When it comes _____ the _____ power supply, _____ is _____ breakdown _____ renewable _____?
 Could we learn more _____ fossil fuels and renewable _____ are used in _____?
 Can you _____ about _____ fuel _____ renewable split?
 We _____ the ratio of _____ fuels and renewable _____.
 Is there a _____ way _____ fossil fuels and renewable _____ utilized _____ production _____ our _____ supply?
 _____ like _____ know _____ electrical supply _____ from _____ fuel versus _____ alternatives.
 When _____ comes to _____ our electric power _____ curious _____ fossils _____ renewables.
 _____ the _____ of fossil _____ in our electrical power?
 I _____ to _____ percentage of _____ fuels vs _____ electricity production.
 _____ how _____ fossils _____ involved in making power.
 _____ curious about the _____ of _____ versus renewable _____ when _____ our _____ power supply.
 _____ do _____ down _____ percentage _____ fossil fuels and green _____ of _____?
 _____ know _____ ratio of _____ fuels to green _____ of _____?
 _____ if you _____ the _____ fuels vs clean energy for generating _____.
 _____ have a ratio _____ fossil _____ green sources _____ production?
 _____ wondering if _____ tell me the _____ of _____ and green _____ producing electrical power.
 _____ how much _____ from fossils compared to renewable _____.
 _____ to know _____ ratio _____ fossil fuel and _____ sources for _____.
 A _____ of _____ to green _____ electricity _____?
 _____ possible _____ get _____ into _____ mix _____ fossil _____ and renewable energy utilized in generating _____?
 Do you know _____ of _____ and _____ used _____ generate _____?
 _____ you have any _____ proportion _____ fossil fuel _____ green _____ used?
 Do you know _____ fossils and _____ in _____?
 Can _____ talk about _____ of fossil fuel _____ energy _____?
 How much _____ comes from _____ compared _____ renewable _____?
 What's _____ of fossil _____ green sources _____ power?
 _____ might be _____ to get insight into the mix of _____ fuels _____ utilized _____ supply.
 _____ me know _____ ratio is between traditional _____ energy _____ generating _____.
 I am looking for a _____ the _____ to _____ production.
 _____ you give me _____ percentage _____ green sources in _____ electricity _____?
 _____ much power _____ from fossils _____ greens?
 _____ you have _____ overview _____ fossil _____ in our _____ supply?
 _____ is the _____ of _____ to green sources _____?
 _____ tell us _____ percentage of fossil fuel and _____ used _____ generating _____?
 I'm _____ about the breakdown of fossils _____ when _____ generating _____.
 _____ know _____ much power is _____ by _____ fuels compared _____ sources?
 _____ there a _____ and _____ used for _____ electricity?
 Is _____ to _____ fuels _____ green sources _____ electricity?
 _____ state _____ ratio of _____ fuels and renewable _____ in _____.
 Can you tell _____ green _____ fossil fuel _____ electrical power?
 Is _____ ratio _____ fossil to green _____ electricity _____?
 Is it possible _____ understand the _____ of fossil _____ energy that is _____ produce _____?
 What _____ ratio of coal _____ renewable energy _____?
 _____ know _____ of fossil _____ to renewable energy _____ our electrical _____?
 What _____ the _____ and eco-friendly _____ for _____ power
 We might be _____ to get _____ the _____ of _____ fuels and _____ used _____ electrical supply.
 I was _____ our _____ comes from fossils and _____.

_____ much _____ and _____ that we use _____ power?

Is it possible _____ show _____ breakdown _____ vs _____ in our _____?

_____ be able to get _____ the _____ of _____ fuels _____ renewable sources used _____ make _____ supply.

When _____ comes to producing _____ electric power _____ what _____ the _____ renewable _____?

_____ you tell me _____ percentage _____ fossil _____ and _____ in _____ production?

_____ a _____ to _____ breakdown _____ fossil fuel _____ green energy in _____ electricity?

_____ you tell _____ ratio for _____ fuel _____ green _____ electricity production?

I'm curious _____ of _____ vs clean _____ generating power.

_____ fuel compares _____ sources when _____ comes _____ electrical _____ production?

_____ and _____ in making power?

Is _____ balance _____ fossil _____ and _____ energy-based _____ generation?

Is it possible _____ fuel to _____ ratio for _____ production.

_____ we learn _____ about the mix _____ and renewable _____ in _____ electrical supply?

We need to _____ green _____ ratio for _____ power.

What _____ breaks down _____ and _____ fuels _____ electricity?

_____ there _____ fossil fuel _____ to _____ sources in electrical _____ production?

_____ the balance _____ renewable and fossil _____ for _____?

What _____ of _____ versus fossils _____ into _____?

Is the fossil fuel _____ ratio _____ our _____ power _____?

_____ can tell _____ the balance between _____ fuel-based _____ sustainable energy-based _____.

_____ you give _____ the _____ fossil fuels versus _____ sources _____ electricity _____?

_____ amount _____ comes _____ or renewables?

Can _____ about _____ proportion of traditional fuels vs _____ power?

_____ you give _____ a _____ of _____ fuel and _____ sources _____ electricity _____?

_____ the _____ of fossil fuels to green _____?

_____ tell me the ratio _____ fuel and _____ sources _____ producing _____.

_____ you _____ much _____ comes _____ fossils vs. renewables?

_____ is _____ ratio between _____ green sources of _____ generation?

_____ the _____ of _____ fuels _____ green sources of electricity production.

_____ you tell me the percentage _____ fossil _____ and _____ for _____?

Can _____ the _____ of fossil fuel _____ green energy in _____?

_____ you know _____ between _____ fuels and _____ energy used _____?

What is _____ ratio of _____ green _____ power?

Did _____ tell me _____ ratio of _____ green sources _____ electrical _____?

What _____ of _____ generation comes from _____ fuels _____ energy?

I'm _____ proportion of _____ fuels vs _____ for _____ power.

Is _____ look _____ source ratio in _____ electric supply?

_____ would like _____ know how much _____ our electrical _____ comes from fossil _____ green alternatives.

I want to _____ of _____ fuel _____ energy-based _____ generation.

Do _____ know how _____ power we _____ from _____?

_____ the fossil fuel _____ source ratio in _____ electricity _____?

How _____ actually _____ from _____ and greens _____ power?

_____ know _____ ratio _____ fossil fuels to green _____ electricity?

Fossils versus greens _____ into _____?

_____ you tell _____ fossil _____ source ratio _____ electric supply?

What proportion _____ electrical power comes from _____ or _____?

There is a question about _____ of _____ energy.

We _____ ratio of _____ energy to fossil _____.

_____ is the _____ of _____ compared to renewable sources?

_____ we _____ the _____ fuel _____ source _____ in _____ electricity mix?

What is the breakdown of _____ comes to _____ power?

Fossil _____ vs _____ ratio _____ power _____ is _____ question.

_____ would like _____ know the _____ between fossil _____ for _____ electrical power.

_____ know _____ much _____ power _____ from fossils and greens.

_____ percentage of _____ and green in power?

What _____ balance between _____ fuel-based and _____ generation?

_____ a _____ overview _____ fossil fuel-to-green _____ in our _____ supply.

What is the _____ of _____ fossil fuels _____?

_____ generating power, what _____ the ratio of _____?

_____ the ratio of _____ renewables _____ to generate _____?

We need _____ ratio _____ fossil fuels _____ energy that _____ use.

_____ is the _____ of _____ green sources of _____?

_____ would _____ to know how _____ fossil fuels _____ electricity compared _____.

_____ the fossil _____ green _____ ratio _____ electricity production.

_____ of fossil _____ green sources _____ production match?

Do _____ know _____ proportion _____ fossil fuel and _____ sources _____ generating _____?

_____ the _____ of fossil _____ and renewable energy _____ in _____.

We _____ to _____ the ratio of _____ fossil fuels _____ provide _____.

_____ the breakdown _____ fossils _____ it _____ to producing electricity?

I would _____ to know how fossil _____ contribute _____ electricity _____.

_____ you know the _____ fossil _____ make to _____ electricity _____?

_____ want to know _____ of fossil _____ vs green _____ for _____ power.
