

[Demo] NLP Dataset for Customer Service Automation

Company Type	Internet Service Providers
Inquiry Category	DNS and IP address configuration help
Inquiry Sub-Category	DNS Hijacking/Malware
Description	Support for customers who suspect DNS hijacking or malware infections, providing guidance on detecting and removing malicious software that alters DNS settings or redirects traffic.
Data Size	7,182 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Internet Service Provider" customer inquiry. (Purchased data will not be masked.)

Is _____ for malicious software _____ change the _____ addresses _____ with _____ ?

Is _____ that the _____ could be _____ ?

_____ possible that the _____ specific sites could _____ manipulated?

Websiteips may be _____.

Is _____ able to change _____ address _____ websites?

_____ it possible that questionable _____ could _____ ?

Is there _____ software _____ web addresses?

Is _____ rogue ware _____ have _____ addresses?

Is it _____ to _____ website addresses.

_____ harmful software _____ addresses?

Is it _____ a webpage's internet Protocol?

There _____ a _____ about whether harmful _____ the _____ of _____.

Is it possible that software _____ websites?

_____ possible _____ software to change _____ IPs for _____ sites?

Is it _____ that potentially _____ could _____ of _____ sites?

Is there any _____ website locations _____ changed _____ software?

Can _____ to change _____ addresses of websites?

_____ software _____ to alter website _____ ?

_____ change _____ Internet Protocol addresses?

Was it _____ changed _____ addresses?

_____ mess with _____ addresses?

_____ that website _____ could be altered _____ malware?

Is _____ possible _____ nasty software _____ alter _____ IPs?

_____ it possible _____ to change _____ IPs of certain _____ ?

Can the software _____ websites?

_____ it _____ that _____ could _____ Internet Protocol addresses?

Is it _____ for harmful _____ to _____ ?

Is it possible _____ to _____ web _____ ?

____ it ____ that malicious software ____ the ____ of ____ websites?
____ it ____ malware could ____ the site's ____?
____ links of certain websites ____ changed by ____ software.
Is ____ hackers can twiddle ____ internet protocol?
Has ____ Internet ____ address been ____ software?
Should ____ be ____ to change ____ IP ____?
Is it ____ for ____ guys to alter ____ addresses ____?
____ rogue software able to change ____ links?
Is it ____ rogue software ____ alter site ____?
Is it ____ for malicious ____ internet ____?
Is there a chance ____ can ____ addresses?
____ software capable of altering ____?
Can harmful ____ of websites?
____ that ____ software ____ change certain internet address?
Is ____ possibility that ____ change website-attached IP ____?
____ there a ____ that programs ____ be ____ website addresses?
There is a ____ that software could ____ certain ____.
Is it ____ for malicious ____ to ____?
Can ____ the ____ of websites?
____ rogue software change the ____?
Can harmful software ____?
____ chance ____ the associated ____ could be potentially ____ with?
Is it possible ____ to ____ IP ____.
____ there ____ chance that ____ software ____ change ____ address?
____ with ____ site addresses can ____.
____ may ____ that manipulates webpage ____
Is ____ possible that malicious ____ website-attached IP ____?
____ is ____ the ____ website IPs ____ be tampered with.
____ evil software ____ to ____ their website internet ____?
____ can ____ site addresses.
____ that rogue ware changes linked ____?
Can harmful ____ Protocol addresses?
Is there a ____ malicious ____ can ____ web ____?
Is ____ rogue ware ____?
____ possible for ____ programs to modify ____?
Is it ____ software ____ alter ____ IP ____ regardless?
There is ____ that ____ could be interfered with ____ software.
____ programs change website ____?
____ could possibly affect the ____ of certain ____.
____ that possible ____ mess ____ the ____ addresses?
Is there any ____ that ____ website's ____?
Is it ____ code to change ____?
____ it ____ for ____ to alter the IP addresses connected ____?
Is it possible that harmful ____ the ____?
Is it ____ the ____ IPs could be messed ____?
____ and alter web addresses?
____ software to change ____ addresses of some websites?
Is ____ that rogue software will ____ IPs.
Is there ____ that ____ could ____ impacted ____ addresses?
Can ____ malicious programs ____ address?

Is _____ a possibility _____ IPs _____ be _____ by malicious software?

Is _____ possible _____ mess up the _____ websites?

Can the _____ IP _____ malicious software?

_____ it _____ that _____ programs could _____ addresses?

Have software _____ to _____ address?

Is it _____ that _____ manipulate the _____ certain websites?

Is it possible for malware _____ alter _____?

Is _____ software changes the internet address?

Was _____ possible for _____ modify website _____?

_____ possible _____ malicious _____ can alter _____ of specific websites.

Is it _____ the site's IP _____ be _____?

_____ possible that _____ a webpage's ip?

_____ any software that _____ change a _____ internet _____?

There _____ programs that can _____ with _____.

_____ you _____ that it is _____ for _____ to _____ internet Protocols?

Is it _____ that a malicious _____ change _____ of _____?

Can harmful software modify _____ internet _____ certain _____?

Is it possible for _____ programs to _____?

Is it possible _____ there _____ malicious software _____ affect associated _____?

Some websites' internet protocol _____ may _____ harmful programs.

Is _____ that _____ can manipulate _____ addresses?

_____ chance that _____ could _____ addresses of a website?

_____ it _____ IPs _____ certain websites could be manipulated _____ malicious _____?

_____ feasible for malicious programs _____ addresses?

_____ screw with the _____?

_____ there a chance _____ piece _____ could _____ site addresses?

_____ think _____ that website locations might be changed _____ malicious _____?

Is it possible _____ harmful _____ can alter the _____?

Is _____ software _____ website-attached IP addresses regardless?

Is it _____ that _____ disrupt _____ assigned addresses _____?

Is _____ that rogue _____ addresses?

_____ possible that the software _____ disrupt _____ certain websites?

_____ there _____ chance _____ software could change _____ website's _____?

_____ it possible for _____ alter _____ internet address?

How _____ malicious program _____ the _____?

_____ possible _____ malicious _____ can alter website-attached IP _____?

Is it possible _____ can modify _____ addresses _____?

_____ possible _____ software can _____ with their _____ addresses?

The addresses associated _____ could _____ be _____.

Is _____ possible _____ the _____ Protocols of _____ be manipulated?

Can a _____ software alter the _____ a _____?

Is _____ possible _____ to change _____ of certain websites.

Is there a _____ that the _____ specific sites _____ by _____?

_____ there a chance _____ the _____ IPs could be _____ with?

The _____ of certain websites could _____ by _____.

There _____ software _____ disrupt the _____ addresses.

Is _____ possible that _____ software _____ the _____ IP _____?

Is it _____ that _____ change some web _____?

_____ that harmful software _____ modify the addresses for _____?

Will rogue software _____?

____ it ____ rogue ware could ____ addresses?
 ____ the associated ips ____ sites be ____?
 Is it ____ that ____ alter ____ websites' IP ____?
 Is ____ for malicious software ____ website-attached IP ____?
 ____ it ____ for ____ program to affect ____ a particular ____?
 ____ it possible ____ malicious ____ is ____ of ____ website ____?
 Is ____ malware could ____ site's internet addresses?
 Is there a ____ can be ____ change ____ addresses?
 ____ software ____ the website's ____?
 Is it ____ twiddle a website's ____ address?
 Is ____ chance that the ____ locations might ____ by ____?
 ____ malicious programs ____ can ____ the ____ address.
 ____ that ____ the internet address?
 ____ to change internet addresses?
 Software ____ be ____ manipulate ____ website's ____ Protocols.
 ____ that changes ____ website's ____ protocol?
 ____ it ____ that ____ can ____ webpage's IP?
 Is it ____ that malicious ____ the ____?
 ____ swap their internet protocol ____?
 Will ____ change ____ addresses?
 Is ____ that software can ____ assignments?
 ____ it possible ____ could ____ the website's addresses?
 ____ it possible ____ software ____ modify ____ IP addresses ____ sites?
 ____ there ____ that ____ website's Internet Protocol address?
 ____ may ____ a ____ program that ____ IP.
 Is there a ____ malicious ____ website's address?
 Is ____ the ____ with the site addresses?
 Is there a ____ malware ____ the ____ address?
 Can disruptive ____ or ____ the ____?
 ____ software change ____ IPs?
 It's ____ that malicious ____ change ____ web ____.
 Is ____ a chance ____ might be changed by ____?
 ____ it possible for ____ alter the addresses ____ to ____?
 ____ harmful ____ the internet ____ associated with certain ____?
 Does software messing with ____?
 Do ____ think ____ there's ____ that website ____ could be ____ malicious ____?
 ____ malicious software ____ website-attached internet Protocol ____?
 Is ____ possible that ____ linked ____?
 Can ____ programs mess ____?
 Is ____ possible that ____ software ____?
 ____ software change the site's ____?
 ____ it possible ____ the IPs of ____ could ____?
 ____ possible that ____ could affect ____ associated website ____?
 ____ a way for malicious software to ____ of ____?
 It's possible ____ some bad software ____ out ____ certain ____ websytes.
 Is ____ software possible to ____?
 ____ possible that harmful ____ alter website ____?
 ____ the website's internet ____ been changed by ____?
 ____ it ____ that ____ could affect the site's ____?
 ____ there a chance that ____ be ____ by ____ software?

___ it ___ a ___ alters ___ addresses.

___ change the website's internet ___?

Is there ___ chance that ___ change ___?

___ it ___ that the ___ change the ___ websites?

Is ___ cyber ___ change the addresses of specific ___?

Is ___ for ___ program ___ affect the ___ tied to ___?

Is it ___ for ___ website's internet protocol?

___ a ___ that ___ jerkware could change the ___ websites.

The site's IP ___.

Is ___ for ___ programs ___ web address

Can ___ change the ___ of ___?

May ___ software ___ able to change ___?

Is there a ___ rogue ___ linked ___?

Do you ___ a ___ that ___ locations might be changed ___?

Is it ___ software ___ the assigned ___ addresses?

___ program ___ internet addresses of specific ___?

___ internet ___ can ___ by ___ software.

Is it ___ IP ___ associated with ___ sites ___ manipulated ___ software?

Is it ___ could ___ IP assignments ___ shift?

Is ___ of certain websites ___ to ___ altered ___ programs?

Is ___ for malware to ___ the ___ specific ___.

___ possible ___ software ___ alter the website's addresses?

___ that program that ___ web ___?

___ it possible ___ software may ___ webpage ___?

___ it ___ bad software to modify website ___?

___ it possible ___ malicious programs ___ addresses?

Is ___ malicious software ___ capable ___ website-attached addresses?

___ there ___ possibility that ___ ware ___ linked ___?

___ possible ___ of some websites could ___ manipulated by malicious ___?

___ it possible ___ some ___ could be changed?

___ it ___ that the ___ website IPs could ___ tampered ___ by ___?

___ it ___ that ___ software can change ___ websites?

Is there ___ that ___ locations ___ be ___ by the ___ software?

It ___ software ___ change website addresses.

___ it possible to ___ the ___ a piece of ___?

___ rogue ___ change the address ___ of ___?

Does disruptive applications have ___ hijack ___ web ___?

___ property addresses of certain ___ disrupted ___ detrimental software.

Is there a chance ___ website's location ___ by ___?

___ that malicious ___ can ___ the assigned IPs ___ websites?

___ it ___ that ___ software could alter ___ addresses ___?

___ it ___ malicious ___ to ___ the internet addresses ___ to ___ websites?

The ___ between certain IPs and ___ could ___ glitch.

___ it ___ hackers can twiddle a webpage's ___?

___ software could modify the ___ websites.

Is it ___ may alter ___?

Is ___ a chance ___ programs ___ addresses.

Is it ___ software to shift ___ website's ___?

Can ___ software ___ a website's ___?

The assigned ___ websites could be ___ software.

Can malicious _____ web _____?

_____ it possible _____ software to _____?

_____ it possible _____ malicious program _____ alter _____ internet _____?

Is _____ possible that some _____ modify the _____ sites?

Is it _____ to _____ site addresses.

_____ it possible _____ software _____ alter _____ internet address?

_____ it possible _____ the software _____ addresses _____ certain sites?

There _____ a chance for _____ alter the _____.

_____ it _____ malicious _____ can change internet _____?

_____ it possible _____ can alter the _____ of _____.

Is _____ possible _____ software _____ mess _____ addresses?

Can _____ with _____ addresses?

_____ malicious software affects _____ web addresses?

There's a chance _____ glitch out _____ between _____ IPs.

Is there _____ chance that _____ change the addresses?

There is _____ possibility _____ the site's _____ addresses _____.

Can _____ specific _____ changed by cyber criminals?

_____ chance _____ a malicious program to _____ website's address?

_____ applications _____ to hijack and alter _____?

_____ bad software _____ website's _____ protocol?

_____ possible for _____ software _____ alter _____ IP addresses?

_____ malicious software changes _____?

_____ it _____ a harmful Viruses _____ alter website _____?

_____ possible that software _____ websiteIP _____?

_____ harmful _____ modify the _____?

Is _____ possible _____ malicious _____ to alter the _____ with _____?

Is it _____ a malicious _____ to alter _____ address?

Is it possible _____ mess with _____ addresses?

_____ bad _____ able _____ alter _____ IPs?

Is it possible _____ software could change _____ addresses _____?

Is it _____ that _____ bad _____ glitched out _____ IPs _____ websytes?

_____ you _____ a _____ website locations might _____ changed by _____?

_____ possible _____ could alter the website's _____?

Is _____ chance _____ malicious _____ could _____ the _____ of certain _____?

Is it possible for _____ software to _____ Internet _____ sites?

Is _____ that _____ bad _____ could _____ out the association between certain _____?

Will malicious software _____ Internet _____?

_____ bad _____ internet addresses?

Is there a _____ locations could be _____?

Is _____ possible _____ can change _____ certain websites?

_____ it _____ software can change _____ internet addresses?

Can _____ modify the _____ of _____?

Is it possible _____ a site's _____ Protocol _____ software?

Is _____ possible that _____ software _____ the _____ on certain _____?

_____ it _____ a malicious code to _____ web _____?

_____ websites' _____ may _____ prone _____ altered by programs.

_____ possible _____ can shift websites' _____ assignments?

_____ harmful _____ website IP addresses?

_____ there a _____ that malicious programs _____ addresses _____ websites?

Is it possible that _____?

____ it ____ that ____ software could ____ ____ addresses?
 The internet addresses ____ specific ____ possibly be ____.
 Is there a ____ that ____ can ____ a website?
 ____ programs change the associated ____?
 Is it ____ that ____ shift ____ assignment?
 ____ that malware could alter the domain's ____?
 Is ____ possible ____ malicious ____ to ____ web location?
 ____ possible ____ malicious ____ to alter ____ Protocol addresses of ____?
 Is it possible ____ malicious ____ web ____ IPs?
 Is it possible that ____ could ____ malicious software?
 There is ____ chance ____ jerkware could ____ some ____.
 ____ it possible ____ malicious ____ change the addresses ____ the ____?
 Some websites' addresses ____ by harmful programs.
 ____ may be ____ manipulates webpage ____
 ____ is possible that harmful viruses could ____.
 Is ____ a website location ____ a piece of software?
 ____ chance ____ internet ____ associated with certain ____ could possibly ____ manipulated?
 ____ programs alter ____ address?
 Is ____ chance that ____ locations can be ____ software?
 Is ____ chance ____ ware is changing linked ____?
 Is it ____ for ____ to ____ internet's addresses?
 Do ____ there's a ____ for ____ software ____ modify web ____?
 ____ there ____ that ____ locations might ____ changed by ____?
 ____ believe ____ hackers ____ a webpage's internet protocol?
 It's ____ that ____ with ____ sites could be manipulated.
 ____ it ____ for ____ software to mess ____ IPs?
 Is it ____ website IPs could ____ vulnerable ____ with?
 Is ____ a ____ programs can ____ to website ____?
 Is ____ a ____ that programs ____ website-linked ____?
 ____ possible for a program to ____ internet ____?
 ____ software ____ website addresses?
 Is it ____ that the associated ____ could ____ tampered ____?
 ____ it possible ____ malicious ____ change the ____ on some ____?
 ____ possible that ____ the addresses for ____ sites.
 ____ malicious software can alter ____ IP addresses?
 Is ____ of altering ____ addresses?
 ____ it possible ____ IPs of certain ____ could ____ manipulated?
 ____ there ____ chance ____ malicious ____ alter website-associated addresses?
 Is there ____ chance ____ programs ____ manipulate addresses ____?
 Is there ____ that the associatedips of specific ____?
 ____ possible that ____ can twiddle a ____?
 ____ you ____ it's ____ harmful software to modify ____ address?
 Is ____ possible that ____ addresses associated ____ could ____ be manipulated?
 Is it ____ the software ____ the ____ addresses?
 There ____ software ____ manipulates ____ IPs.
 ____ it ____ for ____ applications ____ site IPs?
 ____ might ____ hackers to ____ a webpage's IP.
 Is ____ a chance that ____ IP addresses ____ sites ____ potentially ____?
 ____ able to alter ____ address ____ websites?
 Is ____ possible that malicious ____ could alter ____?

_____ a chance _____ programs _____ able to change _____ addresses?
 Is _____ a _____ modify the website's IPs?
 Is _____ possible that _____ could modify the _____ sites?
 Is _____ possible _____ code to change addresses _____?
 Is _____ a _____ for malicious _____ alter the _____?
 _____ a _____ that _____ associated _____ IPs could _____ tampered with.
 Can software _____ IP _____?
 Is it possible that _____ website _____ be _____ by _____ malicious _____?
 _____ it possible _____ malware could change _____ addresses _____?
 _____ software _____ things _____ site addresses?
 _____ think _____ it's possible for _____ software _____ modify _____ IPs?
 Potentially _____ software _____ modify _____ addresses _____ websites.
 It's _____ that dubious software _____.
 Do rogue _____ associated _____ Protocols?
 _____ it _____ software to make changes _____ addresses?
 Can malicious software change _____?
 _____ that _____ of software could change site _____?
 _____ could shift websiteip assignments?
 There _____ a possibility that rogue _____ site _____.
 _____ would _____ to know _____ ware alters linked _____.
 _____ it possible that _____ the addresses of _____.
 _____ possible for malicious _____ the addresses _____ websites?
 Is _____ shift _____ IP assignments?
 _____ a _____ that the _____ IPs may _____ tampered with?
 Is _____ possible that _____ addresses for certain _____.
 Is it _____ that rogue _____ modify _____?
 _____ chance that _____ IPs could be _____ interfered with?
 _____ that _____ to mess _____ IP addresses?
 _____ possible _____ dubious software _____ website related _____?
 Is it _____ harmful _____ to modify _____ addresses of _____?
 _____ website addresses _____ by malicious _____?
 Is it possible for _____ addresses?
 _____ it possible for _____ malicious _____ to _____ web _____?
 _____ a chance that _____ website's _____ changed _____ the Malware?
 Is it _____ Malware _____ the _____ of websites?
 _____ malicious software _____ website-attached IP _____?
 Is _____ a chance _____ could be altered?
 Is there _____ that _____ software _____ with site _____?
 _____ possible for those _____ programs _____ change web _____?
 _____ it possible _____ malicious software could modify _____?
 Is _____ that _____ disrupt _____ assigned internet address?
 _____ it _____ that software _____ of certain websites?
 Is _____ software _____ the _____ of specific websites?
 _____ malicious software _____ the _____ of _____?
 _____ you think _____ chance that _____ locations _____ be changed _____ malware?
 Is it _____ software _____ the addresses of websites?
 Is _____ a malicious _____ to change _____ internet _____?
 _____ it possible _____ code to _____ web IP?
 _____ assignedip address links of certain _____ can _____ rogue _____.
 Can _____ programs mess _____?

_____ it possible for _____ to modify a _____ ?

Is it possible _____ web _____ are _____ software.

_____ you _____ hackers _____ take over a _____ internet _____ ?

_____ a chance that _____ software _____ web addresses?

Is _____ possible that the _____ with specific _____ could _____ ?

_____ it possible _____ software could _____ assigned _____ of websites?

Is _____ possible for _____ to _____ web internet _____ ?

_____ possible _____ a program _____ affect the IPs tied _____ domain?

Is _____ possible for malware _____ domain's IP _____ ?

_____ may modify _____ addresses _____ some sites.

_____ chance _____ of _____ could _____ the address on a website?

_____ it _____ that malicious _____ could potentially _____ website _____ ?

_____ it possible for malicious _____ to _____ website _____ ?

_____ it possible that malicious _____ change _____ ?

Is _____ possible _____ might shift _____ IP _____ ?

Is _____ software _____ forge website related IPSs?

_____ program _____ addresses of websites?

_____ it _____ dubious software could _____ ?

_____ it possible _____ of _____ could change the site's _____ ?

Is _____ malicious software _____ change _____ ?

Is _____ that malware can _____ domain's _____ addresses?

Can malicious software _____ of _____ ?

Is _____ for _____ to _____ the _____ associated _____ specific websites?

Is it possible _____ domain's IP addresses?

Is it possible that _____ IPs _____ up _____ on _____ ?

_____ chance that the _____ website _____ could be interfered _____ by _____ ?

_____ it possible to change _____ address _____ software?

_____ possible that _____ alters certain _____ addresses?

_____ possible for _____ to hijack _____ alter _____ addresses?

_____ there any _____ could change _____ ?

It is possible _____ malicious _____ change _____ addresses of _____ .

Is _____ for _____ to _____ the _____ connected with websites?

Is there _____ malware to _____ the _____ of _____ websites?

Is _____ a chance that _____ could _____ by _____ Malware?

_____ change _____ address of certain _____ ?

_____ it _____ the site's address with _____ piece _____ software?

_____ for malicious _____ to _____ the addresses of _____

What if _____ linked _____ ?

Is _____ shift the website's IP assignments?

_____ there _____ rogue ware changing linked _____ ?

Can _____ the _____ of _____ website?

Is _____ possible that _____ software could _____ website-attached _____ ?

_____ it _____ that _____ software _____ disrupt the _____ addresses of _____ ?

Is _____ any _____ could be altered by _____ software?

_____ programs change _____ web address?

_____ it _____ that _____ piece of _____ potentially change _____ addresses associated _____ specific _____ ?

_____ that dubious _____ might _____ website related _____ .

Is _____ chance that _____ software _____ take _____ impacted site _____ ?

_____ there a _____ that _____ will _____ the IPs _____ some _____ ?

_____ that _____ ruin _____ internet addresses of _____ websites?

Is ____ possible to modify the ____ software?

Is it possible ____ to ____ website-attached ____?

Is it ____ software ____ the ____ of certain ____.

____ it possible for malicious ____ modify ____?

____ can mess ____ site ____

____ software ____ the addresses ____ websites?

Is ____ that malicious software ____ alter the ____?

____ to change ____ site's internet address ____ malicious ____?

____ possible ____ modify a website's internet Protocols?

Can ____ software ____ website's ____?

____ altered by ____ ware?

Can ____ software ____ internet addresses ____ websites?

____ there a chance that ____ website ____ be ____ altered?

____ it ____ that ____ software can modify ____ IPs?

Is ____ a chance that ____ software ____ change ____ addresses?

____ it ____ for malicious ____ to ____ certain ____ internet ____?

Is ____ rogue software will ____ the site ____?

Is it ____ to change ____ website's ____ with a ____?

____ it possible ____ software could modify the IP ____.

Is there a ____ that ____ affect the assigned ____?

Is there any ____ can change the ____?

____ that software ____ the addresses ____ certain websites?

Is ____ able ____ the ____ address links of ____ websites?

____ it ____ for software to alter ____ internet ____?

____ possible for ____ to mess up ____?

Software may ____ able ____ IPs.

There is a ____ that ____ may ____ IPs.

Is it ____ that malicious ____ certain ____ addresses?

____ it possible for malicious ____ alter a ____?

Is ____ that ____ changes ____ addresses?

____ possible that Malware ____ the ____ associated with specific ____?

____ change the ____ of websites?

____ possible to ____ a ____ address with something?

____ it possible that ____ software could ____ up ____ of ____?

Is ____ a ____ that malware ____ affect ____ IPs?

____ website's internet protocol address ____ changed ____ software?

Is ____ software ____ change ____ address?

____ it possible ____ software to shift ____?

Can ____ software change the ____?

____ there a chance ____ IPs could ____ affected ____ malicious ____?

Is it ____ that software might ____ addresses for ____?

Certain ____ may be vulnerable ____ by harmful programs.

Is it ____ malicious ____ change the address ____ websites?

____ change the addresses ____ internet?

____ it possible ____ some ____ addresses ____ by malicious ____?

____ a chance that ____ addresses ____ be manipulated?

____ there ____ possibility ____ could ____ the assigned addresses ____ certain ____?

Is ____ possible that ____ certain web addresses?

There's ____ chance rogue ware ____.

____ software be ____ to ____ addresses?

_____ possible _____ malicious software _____ alter the _____ addresses of _____?

Is _____ any chance that the _____ website _____ be tampered _____?

_____ there _____ that _____ could _____ with web addresses?

_____ the _____ sites be manipulated?

Is it _____ software _____ website _____?

_____ it possible for a _____ software _____ address?

Can _____ mess with _____ website's _____?

_____ those malicious programs _____?

Some _____ addresses _____ to _____ altered by _____ programs.

_____ the _____ certain IPs and _____ out by the _____?

Is there _____ chance _____ the associated _____ could _____ manipulated?

_____ software _____ to _____ the _____ of websites?

_____ there a chance that _____ addresses _____ manipulated?

_____ hackers can use a _____ Internet Protocol _____?

Is _____ possible that malicious _____ can change _____?

Is there _____ chance _____ could change _____ websites?

_____ software could _____ addresses of _____ sites.

Is _____ chance that the programs _____ the addresses _____?

_____ possible that malicious _____ could _____ the addresses _____ specific _____?

Could _____ swap _____ Internet Protocol _____?

Can a _____ the _____ websites?

_____ there _____ chance that malicious software _____ web _____.

_____ it _____ a program to _____ the IPs _____ a _____ domain?

Is it possible _____ software could change _____ addresses _____?

Will _____ addresses _____ to malicious _____?

_____ possible that _____ software could _____ website related _____?

Is it _____ a _____ to _____ addresses of websites?

It is _____ addresses _____ with specific sites could _____.

_____ harmful _____ location of websites?

_____ possible _____ to change website addresses?

Is _____ possible software _____ with the _____?

_____ it possible _____ forge website related IPs?

Destructive _____ could _____ disrupt _____ assigned addresses of certain _____.

_____ it possible _____ the software _____ up the addresses _____?

Is _____ possible _____ might _____ addresses?

_____ possible _____ malicious software changes _____ addresses?

_____ there any _____ software _____ mess with site _____?

_____ there _____ malicious software could alter website-attached _____?

_____ bad _____ change website _____?

Is it _____ could change _____ web addresses?

Is it _____ to _____ site's internet _____ a malicious _____?

The _____ sites _____ be manipulated.

_____ disruptive applications _____ and change _____ addresses?

Is _____ that _____ could modify _____ IP _____?

Is _____ possible _____ Malware to _____ the domain's _____?

_____ possible _____ modify the _____ address with malicious _____?

Can _____ web addresses?

Is it possible that _____ software _____.

Is _____ possibility _____ software _____ disrupt the assigned addresses _____?

Will _____ change _____ internet address?

Is it _____ software to modify a _____ internet _____?

Is _____ hackers can _____ sites' IP addys?

_____ addresses changed by _____?

_____ applications _____ hijack _____ addresses

_____ software _____ of _____ with website _____?

Is there a chance _____ can alter _____ websites?

Can _____ change the _____ some _____?

_____ addresses may _____ by potentially _____ software.

Is it _____ that the IPs _____ could _____?

_____ a _____ that _____ locations _____ be _____ by malware?

_____ association _____ IPs _____ websytes could possibly _____ by some _____.

_____ you _____ it's _____ for harmful _____ to modify _____?

Is there a chance that _____ addresses _____ be _____?

Is it _____ software to modify _____?

_____ it _____ to change the _____ of some websites?

Isn't _____ hackers can twiddle _____ website's _____?

Do _____ the _____ to _____ the internet address?

_____ site address switch _____ software?

The _____ certain _____ and _____ could possibly _____ glitched _____ bad software.

_____ possible that there _____ be modifications _____ site IP _____?

_____ there _____ chance _____ the _____ could be manipulated?

_____ there _____ programs _____ the addresses of websites?

_____ possible _____ malicious program to _____ the website _____?

_____ for harmful _____ to alter _____ addresses?

The assigned _____ protocol addresses _____ certain _____ could _____ by _____.

Is it possible _____ malicious _____ to _____ the _____?

Potentially _____ software _____ modify _____ addresses _____ sites.

Can _____ mess _____ site _____.

Do you _____ that there's a chance _____ be _____ malware?

_____ possible that software _____ addresses of websites?

_____ rogue programs change their _____?

Is _____ software that can modify _____?

_____ it _____ a harmful virus _____ alter a _____?

Is it _____ a _____ to ruin the IPs _____ particular _____?

_____ there a _____ that website locations _____ be _____?

_____ possible _____ malicious software _____ change _____ addresses?

Is it _____ that _____ take over _____ webpage's _____ Protocol _____?

_____ there a chance _____ malicious _____ will change _____?

_____ rogue _____ assigned internet address _____?

Is _____ harmful software to _____ the internet _____ linked to _____?

_____ think hackers _____ twiddle _____ website's Internet Protocol _____?

_____ for _____ programs to _____ site IPs?

_____ harmful _____ may modify the addresses _____.

Is _____ that _____ applications _____ alter web addresses?

_____ possible for _____ to _____ address IPs?

_____ that _____ software _____ internet address?

_____ assigned _____ websites could _____ be disrupted _____ software.

Is _____ known that software can _____ a _____?

Is malicious _____ change the _____?

_____ it _____ that _____ software can change _____ addresses?

Can _____ assigned IP _____ links?

Can _____ modify _____ websites' _____ addresses?

_____ malicious _____ change _____ on _____ web?

Is it possible _____ changed _____ web _____?

_____ you think _____ that _____ locations _____ be changed by _____ software?

_____ that _____ could modify _____ addresses for certain sites?

_____ possible _____ software to change _____ assigned IP address _____ websites?

_____ it possible _____ software _____ website-attached IP addresses?

Is it possible that _____ internet addresses could _____?

_____ is _____ possibility _____ rogue _____ will _____ site IPs.

Will _____ software _____ site _____?

Has _____ malicious _____ that changed the _____ protocol?

Can _____ modify _____ website's _____ protocol _____?

Is _____ possible for _____ programs _____ web _____?

There is _____ the _____ with _____ sites could potentially be manipulated.

Is _____ possible _____ software can alter _____ address _____ website?

Is it possible _____ assigned IPs of certain _____?

Is _____ a chance _____ rogue _____ tinker _____ IPs?

_____ for _____ software program to _____ the _____ of websites?

_____ possible _____ programs to change Web address _____?

Is _____ chance _____ associated website _____ could possibly _____ with?

Is there _____ chance _____ ware modifies _____?

Is there a _____ a _____ can _____ internet _____?

_____ there _____ software _____ change website's _____ address?

_____ possible that rogue ware _____ linked _____?

Can the software mess _____?

_____ may _____ able _____ manipulate _____ Protocols.

_____ the _____ with site _____ things?

_____ it possible for _____ software _____ the _____ address _____ websites?

How _____ programs change the _____?

_____ websites' addresses may be _____ altered _____ harmful _____.

Is there _____ chance that _____ software _____ web _____?

_____ that the _____ IPs could be affected?

_____ harmful software modify _____?

Will _____ software _____ site's _____?

_____ you _____ that hackers can _____ webpage's _____?

_____ chance that the associated _____ of specific sites _____ manipulated?

_____ assigned addresses of _____ websites _____ be disrupted _____.

Is _____ possible _____ change _____ addresses with _____?

Is there a _____ that _____ could be _____?

Is there _____ software _____ internet _____?

The _____ associated _____ specific _____ be manipulated.

_____ change the _____ the websites?

Is _____ a _____ the linked _____ are _____ by rogue _____?

_____ there a chance that the _____ IPs _____ interfered _____ by _____?

_____ websites' _____ addresses _____ vulnerable to _____ altered _____ programs.

Is _____ a _____ website's location might _____ the Malware?

_____ with _____ websites could potentially be _____.

Is _____ that the site's _____ be manipulated?

_____ websites' _____ protocol _____ be _____ to being altered _____ harmful _____.

Is _____ ill-behaving code can _____.

_____ harmful _____ change the _____ of _____?

_____ it possible for _____ to affect the _____ specific _____?

_____ there _____ chance that _____ IP addresses associated _____ certain _____ could _____ manipulated _____?

_____ it _____ for malicious _____ to _____ Internet _____ of websites?

_____ bad _____ web address?

There is _____ bad software could _____ the _____ between certain _____ and _____.

_____ it possible _____ the virus jerks swap _____?

_____ rogue _____ change _____ addresses?

Is it _____ for _____ malicious _____ web IPs?

Is _____ between certain _____ glitched _____ by software?

Destructive software may _____ to disrupt the _____.

Is there _____ could _____ address of a website?

May _____ be _____ website addresses?

_____ a chance that _____ software _____ the addresses _____ websites?

_____ for harmful _____ to modify _____ internet protocol _____?

Has malicious software _____ the _____?

_____ there _____ that software might modify the addresses _____?

_____ addresses linked to _____ can be _____ harmful software.

Is _____ chance _____ rogue ware _____ linked _____?

_____ the _____ prone to be altered _____ harmful _____?

Is there _____ chance _____ internet _____ associated with _____ sites _____ be _____?

_____ there a possibility _____ linked addresses?

Is _____ possible _____ potentially harmful software to _____ of _____?

Is there a chance for _____ programs _____?

Is it _____ malicious _____ could _____ IP addresses?

_____ software mess _____ site _____?
