

[Demo] NLP Dataset for Customer Service Automation

Company Type	E-commerce Marketplaces
Inquiry Category	Payment and refund related queries
Inquiry Sub-Category	Payment security
Description	Customers inquire about the security measures implemented by the marketplace to protect their payment information, assuring them of secure transactions and preventing potential fraud or data breaches.
Data Size	7,828 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "E-commerce Marketplace" customer inquiry. (Purchased data will not be masked.)

_____ to worry about our debit/credit cards _____ hacked due _____ cybersecurity _____ by merchants _____ if _____ ?

Is _____ problem _____ do _____ strong cybersecurity measures for payment _____ ?

_____ lousy _____ with proper cybersecurity, are _____ to _____ our cards _____ hacked?

_____ the safety _____ credit/debit _____ while using _____ at retailers lacking _____ capabilities?

_____ local _____ have poor data _____ digital _____ as a _____ of _____ ?

_____ frequently with weak retailers, _____ they at _____ of being _____ ?

If we use _____ cards with _____ systems, _____ are they from hacking?

_____ using _____ cards make us _____ to _____ local _____ ?

_____ use of _____ credit/debit cards _____ vulnerable _____ hacking by _____ with _____ cybersecurity _____ ?

_____ carelessness with cyber _____ it _____ us to _____ our payment cards _____ ?

_____ frequent use _____ debit/credit cards make _____ vulnerable to _____ subpar _____ measures?

_____ merchants _____ card _____ here?

_____ our credit/debit cards _____ to _____ hacked _____ frequently _____ these _____ ?

_____ with inadequate _____ security _____ lead _____ payment cards, is there _____ for _____ ?

_____ we need _____ worry about hacker _____ cards due to _____ security?

Are you worried _____ a _____ the poor security _____ by local _____ ?

_____ it _____ inadequate _____ security _____ lead _____ hacks on our cards?

Should we be worried _____ our _____ poor _____ by merchants?

_____ be _____ about merchants _____ enough security for payment _____ ?

_____ credit/debit _____ will be hacked _____ them frequently with these merchants.

_____ may _____ vulnerable _____ merchant cybersecurity.

_____ our debit/credit _____ with merchants with _____ practices, are they at _____ being hacked?

Is the _____ weak cyber _____ a _____ when _____ debit/credit cards often _____ ?

_____ merchants here have _____ puts _____ cards at _____ ?

_____ neglect make _____ to use our payment cards?

If vendors have _____ cyber attacks _____ point-of-sale _____ could you _____ card _____ ?

_____ possible that frequent purchases _____ their data defenses _____ against _____ crooks?

_____ our _____ cards _____ risk _____ hacked if we use them _____ merchants _____ have _____ Cybersecurity _____ ?

_____ the _____ having _____ cyber _____ point of worry when _____ debit/credit cards?

Are _____ of _____ hacked _____ to the _____ data _____ used by merchants?

_____ use our _____ with local merchants lacking robust _____ are _____ hacking?

Is _____ for us _____ our payment cards here _____ negligent _____ defenses?

_____ credit/debit cards _____ to _____ due to _____ data security _____ merchants.

_____ use of debit/credit cards at _____ due _____ practices?

_____ we be concerned _____ poor _____ exposing _____ card information _____ criminals?

Are our cards _____ to _____ because _____ security _____ used _____ merchants?

_____ we be _____ have the _____ measures for payment cards?

merchants' _____ may endanger _____

_____ expose us _____ hack prone _____ at local _____?

Is the likelihood of _____ cyber defenses a worry _____?

Does _____ frequent _____ make us _____ by merchants with _____ cybersecurity measures?

_____ merchants' practices pose _____ risk _____?

Should we _____ about _____ cards _____ when _____ merchants _____ bother with _____ cybersecurity?

_____ about potential _____ payment _____ inadequate security _____ local vendors?

_____ be concerned _____ cybersecurity practices _____ expose _____ card information _____ criminals?

_____ you concerned about _____ use _____ credit/debit _____ vulnerable merchants?

Is _____ credit/debit cards _____ risk of being _____ if _____ use _____ merchants with _____ practices?

Should we be _____ who _____ good security measures for _____?

If _____ and debit cards with local _____ that don't have _____ cybersecurity _____ safe _____ they _____?

_____ potential hacks _____ payment _____ inadequate security _____ vendors?

_____ we _____ use credit _____ cards with _____ merchants, how safe _____ they _____?

Is _____ a risk _____ credit _____ being _____ if sellers _____ this site _____ not _____ adequate _____ in place?

Is _____ a _____ target our _____ from poorly secured merchant _____?

Do _____ put _____ at _____ due to _____ weak _____ measures _____ certain _____?

_____ we be concerned _____ card hacks from _____?

_____ about possible card hacks _____ cybersecurity issues?

_____ cyber _____ merchants a threat to our frequent _____ of _____?

_____ our _____ cards at _____ being hacked if _____ use _____ frequently with merchants _____ Cybersecurity _____?

_____ credit/debit _____ vulnerable to hacking due to _____ security _____ used by _____ in the _____?

Does _____ credit/debit _____ expose _____ to _____ merchant systems?

Is there _____ of our _____ information being compromised _____ this site don't _____ cybersecurity _____?

Are you worried that our _____ cyber practices by local _____?

_____ worry _____ credit/debit _____ safety at _____ have cyber defense capabilities?

_____ a concern _____ inadequate data security _____ to _____ payment cards?

Is it safe _____ cards _____ local merchants if they _____ cybersecurity _____?

Do _____ frequent use of _____ us vulnerable to _____ with subpar _____?

_____ transactions with _____ cards _____ us at _____ to weak security measures _____ merchants?

_____ vendors have _____ protection _____ on _____ point-of-sale _____ then _____ could risk using your _____ frequently.

_____ at businesses near us _____ our cards' _____.

_____ our _____ cards _____ risk of being hacked if we use _____ weak Cybersecurity _____?

Is _____ of _____ credit card information being compromised if _____ on _____ site _____ procedures?

Are you worried _____ could _____ hacked due _____ cyber _____?

If we use _____ cards often, _____ vendors leave _____ hacking?

_____ about _____ regularly _____ methods amid poor security by local _____?

_____ merchants' weak cybersecurity practices _____ our _____ use _____ cards?

Should _____ worry about _____ issues?

Is our cards at _____ being hacked if _____ them with _____ at _____?

Do _____ frequent use _____ cards _____ vulnerable _____ hacking by merchants with _____ measures?

_____ cards at risk of being _____ if we _____ them _____ with _____ cybersecurity practices?

If _____ cards _____ local merchants who lack _____ cybersecurity _____ how safe are _____ from _____?

Concerns about credit/debit card _____ defense capabilities?

Are our _____ cards vulnerable _____ weak security systems _____ merchants?

If _____ use _____ and _____ frequently with retailers who have _____ our _____ at risk?

Is there _____ risk for our debit/credit _____ information being _____ not have adequate _____?

Do you _____ the safety _____ card _____ retailers that _____ defense _____?

If _____ use our _____ cards with _____ don't have _____ cybersecurity _____ safe are they _____?

_____ weak _____ security _____ for concern _____ local stores?

_____ potential card breeches _____ a result of _____ security _____?

Is _____ as _____ with inadequate data security _____ to _____ cards?

Are merchants' practices threat _____?

Is _____ possible that using payment methods _____ a threat _____ don't _____ their cards?

_____ credit/debit cards are _____ to _____ due _____ data security systems _____ merchants.

_____ practices may _____ here.

_____ the risk of merchants _____ cyber _____ using credit cards frequently?

_____ merchants here _____ security _____ our cards frequently?

Is it possible _____ have poor _____ digital _____ of frequent purchases?

If we _____ our credit cards with _____ do _____ have _____ Cybersecurity systems, how _____ are _____?

_____ our credit/debit _____ get hacked if we _____ merchants _____?

Should I be _____ about _____ being hacked _____ here _____ of _____ poor Cybersecurity _____?

_____ to hacking through merchant _____ our cards?

_____ we _____ about hacker _____ to _____ cards _____ to merchant _____ measures _____ regularly?

Is _____ of _____ cyber defenses a _____ of _____ when using credit _____ frequently _____?

Do the frequent use _____ our credit _____ cards make _____ hacking _____?

Do frequent transactions involving _____ cards _____ at _____ security measures _____ by _____ merchants?

Merchants _____ weak security _____ lead _____ card hacking.

_____ concerned _____ our _____ being hacked due _____ poor cyber _____?

_____ credit _____ at risk of _____ hacked if we use _____ with merchants _____ practices?

_____ the risk of our debit/credit _____ if _____ practice inadequate Cybersecurity procedures?

_____ our _____ of being _____ we use them frequently _____ merchants with weak _____?

_____ merchants' weak _____ could lead to _____ card hacking?

_____ the use of _____ methods _____ threat since some vendors _____ security for _____?

_____ practices a threat _____ our _____ of cards?

Is _____ likelihood _____ having weak _____ defenses _____ using credit/debit cards _____?

_____ cards _____ of _____ we use them frequently with retailers who _____ cybersecurity practices?

Our _____ be _____ risk _____ weak merchant security.

Is _____ credit/debit cards _____ risk of _____ due to weak _____ systems _____?

_____ the likelihood _____ merchants _____ weak _____ concern while using debit/credit _____ here?

Do you _____ any _____ about card _____ weak _____?

Do _____ insufficient safeguard may leave vulnerable _____?

Is there a _____ for _____ information being _____ if _____ on _____ site _____ Cybersecurity procedures?

Is credit/debit _____ vulnerable _____ hacking due _____ weak _____ by _____?

_____ a _____ of _____ card information being compromised _____ sellers on this _____ have _____ cybersecurity procedures?

Merchants might _____ card hackings _____.

Is _____ credit _____ risk of _____ if _____ use them _____ merchants who have weak _____ practices?

_____ concerned _____ the _____ of debit/credit _____ at _____ merchants?

Should I be _____ my _____ cards being _____ because _____ don't _____ good cybersecurity _____?

Is _____ a worry _____ don't _____ security _____ payment cards?

Merchants' _____ lead to _____ hackings.

Is our _____ risk of being _____ if _____ them _____ retailers who _____ cybersecurity practices?

Shouldn't I _____ concerned about _____ cards getting _____ by merchants _____ measures?

_____ some vendors _____ sufficient security against _____ breeches, is it _____ that _____ payment _____ could _____ ?

Should _____ be _____ hackers using poorly secured _____ to _____ our _____ ?

Are _____ worried _____ data security could lead to _____ payment cards?

Is it true _____ merchants _____ inadequate _____ security could _____ to _____ ?

_____ be _____ criminals targeting our credit cards from _____ systems?

Are _____ about _____ security at vulnerable _____ ?

Is it a _____ for merchants to _____ because of weak _____ ?

_____ be concerned _____ see more card usage _____ to _____ merchant _____ ?

_____ problem that merchants don't _____ security measures for _____ used _____ ?

_____ were raised _____ our cards being _____ due _____ poor _____ by _____ .

_____ worry _____ our cards getting hacked _____ merchants _____ bother with _____ security?

Can _____ it risky _____ use our payment cards _____ ?

_____ of our cards lead us _____ vulnerable _____ hacking?

_____ it possible _____ retailers' _____ security may leave _____ ?

_____ merchants don't bother _____ cybersecurity, are we going _____ worry _____ our _____ ?

_____ you _____ about _____ card safety _____ retailers lacking _____ capabilities?

Are _____ card _____ due to _____ carelessness by local _____ ?

Is _____ cards _____ of being _____ them frequently _____ retailers that have _____ cybersecurity practices?

Is _____ necessary for _____ uneasy _____ to _____ poor merchant security _____ ?

Is _____ use our _____ used _____ and debit _____ from _____ secured merchant _____ ?

Does using credit/debit _____ to hacking _____ at _____ ?

_____ it possible _____ a threat _____ vendors do not have enough security?

_____ about _____ while _____ them at _____ don't have proper _____ defense capabilities?

_____ we need to be _____ about _____ our cards _____ to _____ merchant _____ ?

_____ expose _____ to debit/credit _____ multiple times.

_____ we commonly use our credit and debit _____ with local _____ systems, _____ are _____ ?

If _____ use _____ cards _____ do goods' vendors _____ vulnerable _____ hacks?

If _____ our cards frequently _____ merchants _____ weak cybersecurity _____ they _____ risk _____ hacked?

_____ transactions _____ our _____ at risk because of weak security measures _____ certain _____ ?

Is using _____ methods a threat because _____ vendors _____ ?

_____ about card hacking with merchants' _____ ?

Is _____ at risk of _____ hacked if _____ use them frequently _____ Cybersecurity Practices?

_____ security _____ businesses threaten our cards' _____ ?

Is the _____ of _____ defenses if they use _____ cards _____ ?

Should we _____ card usage due to _____ ?

Do frequent _____ our _____ us vulnerable _____ hacking by _____ ?

Is _____ using _____ methods can pose a _____ some _____ don't have good _____ ?

Is it _____ safety when using them at retailers _____ ?

_____ we _____ about _____ poorly secured merchant _____ commit fraud?

_____ the _____ lack adequate protection against cyber attacks _____ their _____ you _____ frequently?

Is _____ credit cards _____ risk _____ being _____ them frequently with _____ who _____ cybersecurity practices?

_____ about merchant security due _____ repeated _____ use?

Is it _____ card _____ from _____ practices?

Should we be _____ as _____ data security could lead _____ on _____ ?

Is our _____ of _____ hacked if we use _____ with _____ have weak Cybersecurity _____ ?

Should I be _____ cards being hacked because _____ online _____ by _____ ?

_____ it a concern _____ merchants' poor cybersecurity practices _____ hackers?

_____ that our cards _____ be _____ due to bad cyber _____ ?

Is _____ at risk of _____ hacked if _____ use them _____ who _____ cybersecurity practices?

Weak _____ at _____ businesses _____ endanger _____ cards' safety.

_____ with _____ credit _____ put us _____ risk due to _____ security _____?

Are there concerns _____ card _____ at _____ cyber defense capabilities?

Is credit/debit cards _____ hack _____ systems _____ local _____?

Is it possible _____ to be _____ due _____ weak _____?

Do we need _____ worried about _____ targeting _____ cards _____ secured _____?

Merchants are _____ weak cyber defenses if _____ cards _____.

Do we _____ to worry about the _____ cards when _____ lot _____ platform _____ to _____ lack of cyber

Should we be _____ about merchants _____ not _____ strong _____ for _____?

_____ you worry _____ use of _____ at vulnerable merchants?

I wonder _____ should be concerned _____ being _____ by merchants because _____ security measures.

_____ using credit/debit cards expose _____ to _____ vulnerable _____ merchants?

_____ the _____ of _____ cyber _____ when using debit/credit cards a _____ of _____?

Do _____ have weak Cybersecurity _____ at risk?

_____ merchants' weak security practices _____ a _____ to the _____?

If _____ vendors possess _____ protection against _____ on their point-of-sale _____ could _____ card?

If _____ cards _____ merchants _____ have _____ cybersecurity _____ are _____ at risk of being hacked?

_____ might be endangering our _____ with _____.

Do merchants here _____ weak _____ the _____ risk?

Is _____ local _____ heightening dangers _____ their _____ data defenses _____ digital _____?

Does _____ use _____ cards make _____ to _____ by merchants _____ subpar cybersecurity _____?

_____ fears _____ insufficient safeguard may leave _____ payment _____.

_____ it _____ for worry that _____ with inadequate _____ lead _____ of payment _____?

Are you _____ about _____ breeches _____ the lack _____ protocols by _____ vendors?

Is card usage making us _____ merchant _____?

_____ the frequent use of credit _____ cards _____ vulnerable _____ by _____?

There _____ merchants _____ inadequate _____ security _____ hacks on _____ payment cards.

Do our _____ use of credit and _____ vulnerable to _____?

_____ merchants here _____ Cybersecurity that puts our cards _____ used _____?

_____ practices _____ card security?

Do merchants here _____ weak cybersecurity that _____ risk _____ we _____?

When _____ merchants _____ bother _____ cybersecurity, will we _____ about _____ cards _____?

Is it cause _____ that _____ data security _____ on _____ payments?

_____ our cards at _____ of _____ if we _____ frequently with _____ that have _____ practices?

Are _____ worried _____ potential card _____ due _____ the lack _____ by _____ vendors?

If we use our cards _____ don't _____ strong _____ systems, _____ they?

If we _____ credit and debit cards _____ robust cybersecurity systems, how _____ are _____?

Do _____ use of credit/debit cards cause _____ to _____ vulnerable _____?

Should _____ worry about hacker _____ because of vulnerable _____ security measures _____?

Concerns _____ them a _____ at retailers lacking _____ cyber defense capabilities?

_____ merchants' _____ cybersecurity _____ pose a _____ to the _____ cards?

Fears _____ insufficient _____ leave payment _____ vulnerable?

Should _____ concerned about merchants' _____ our _____ information _____ hackers?

_____ there _____ risk for our _____ and debit _____ compromised if _____ site do _____ have adequate security _____?

_____ credit/debit _____ risk _____ due to the weak data _____ systems _____ by merchants?

_____ use our _____ who _____ weak cybersecurity practices, is _____ at risk of _____ hacked?

Is there a risk _____ security issues?

_____ cards _____ from _____ merchant Cybersecurity?

_____ merchants _____ this area _____ weak _____ put our _____ risk?

_____ use _____ credit/Debit cards _____ us _____ by merchants with subpar cybersecurity _____?
 _____ credit _____ cards _____ to hack prone _____ at local _____?
 How _____ are _____ we use them _____ that don't have _____ system?
 _____ we use _____ with merchants _____ practices, _____ they _____ risk _____ being hacked?
 Should we worry _____ hackers _____ cards _____ secured _____ systems?
 _____ there a _____ for _____ information to _____ compromised if _____ on _____ site practice _____ procedures?
 _____ the _____ by _____ stores a cause for _____?
 Should we worry _____ hacks from _____?
 _____ there any concern about _____ card safety _____ retailers _____ proper _____?
 _____ cyber practices that _____ cards?
 _____ have _____ that _____ cards at risk _____ we use them?
 Can _____ make it _____ for us to _____ our _____?
 _____ of our cards _____ vulnerable to _____ negligence?
 _____ local stores have poor _____ because of the frequent _____?
 Can merchant _____ the _____ their payment cards _____?
 We might be _____ hacking through merchant _____.
 Are merchants' weak _____ practices _____ threat _____ of _____ cards?
 _____ risk _____ on our payment cards as _____ inadequate data _____?
 Is the _____ and _____ frequently here a _____ to have weak _____ defenses?
 Are _____ about _____ security at vulnerable _____?
 _____ risk _____ merchants having weak cyber defenses _____ using _____ frequently?
 Is the use of _____ cards _____ weak merchant _____?
 Should _____ that hackers will target _____ cards _____ secured merchant _____?
 Does over use of _____ cards _____ to hack _____ merchants?
 Do _____ risk from weak _____ cybersecurity?
 Is _____ frequent use _____ cards _____ vulnerable _____ hacking by _____?
 Should we worry _____ to our credit _____ cards due _____ merchant _____?
 Is _____ cards at _____ when we use them _____?
 Do _____ need to worry _____ security _____ our _____ we _____ them frequently _____ this platform due to _____ of _____
 _____ our credit/debit cards vulnerable _____ hacks _____ the weak _____ systems _____ merchants?
 _____ we commonly _____ cards with local _____ robust cybersecurity _____ are they?
 Can merchant _____ put _____ at _____ regularly using our _____?
 _____ expose _____ to _____ card _____ frequently.
 Are our credit/debit _____ if we _____ them _____ with _____ merchants?
 The _____ use _____ credit/debit _____ may make us vulnerable _____ merchants.
 Do we need to _____ of our _____ when using them _____ on _____ of ineffective _____ protection by _____
 Concerns _____ hacks _____ regularly utilized _____ methods with _____ local vendors?
 Is _____ card _____ makes us _____ to the _____ merchant _____ practices?
 We _____ if _____ cards are _____ risk _____ weak _____ cybersecurity.
 _____ our _____ debit cards _____ risk of being hacked _____ we _____ them _____ merchants _____ have _____ practices?
 Do you _____ about potential _____ breeches due to _____?
 _____ our _____ at risk due _____ cybersecurity.
 Is _____ merchants' poor _____ practices _____ expose _____ card information _____ a hacker?
 Is using _____ methods _____ risk _____ don't have _____ security?
 Do _____ weak Cybersecurity practices pose _____ our _____ use _____?
 Are _____ a _____ card breach because _____ the _____ protocols by _____ vendors?
 _____ practices endanger our cards?
 _____ a _____ merchants don't have _____ for frequently used _____ cards?
 _____ it _____ have poor data defense against digital _____ because of _____?
 Do _____ transactions _____ at risk, because of weak security _____ merchants?

Do _____ use of our _____ debit _____ make us _____ by merchants with _____ measures?
 _____ cyber _____ at _____ stores a _____ for worry?

Is weak security _____ merchants _____ use of cards?

Do _____ worry about merchants not having strong _____?

Is _____ methods a _____ some _____ don't _____ enough security?
 _____ be concerned about hacker _____ to _____ credit _____ due _____ merchant _____ measures.

Merchants _____ us at _____ debit/credit card _____.

Is it _____ to use _____ payment _____ because _____ merchant _____ defenses?

Merchants have weak _____ measures _____ to card _____.

_____ merchants here _____ weak security _____ puts _____ at _____?

_____ have strong _____ measures for _____ cards.

_____ possess _____ against cyber _____ on point-of-sale systems, could _____ use _____ frequently?
 _____ we _____ about _____ threats to our _____ cards _____ of _____ merchant _____?

_____ make _____ fear card _____ merchant practices?

Do you _____ about _____ with merchants' _____ cybersecurity _____?

_____ there a concern _____ safety at retailers _____ have proper cyber _____?

Will _____ cards _____ at _____ because _____ weak _____ cybersecurity?

Should I be worried about my _____ hacked _____ of weak _____ when I _____ lot?

_____ we _____ our cards frequently with _____ who _____ at risk of being hack?

Is _____ cause _____ worry that merchants with _____ data security _____ our _____?

_____ our debit/credit cards at _____ of _____ hacked if _____ use _____ with _____ Cybersecurity practices?

Is there _____ that _____ payment cards vulnerable?

_____ don't _____ if _____ be concerned _____ my _____ hacked _____ because of their poor cybersecurity measures.

_____ it _____ use our _____ cards _____ who _____ have robust cybersecurity systems?

_____ we scared _____ card _____ from _____?

Is _____ cards _____ get _____ we use _____ frequently _____ these merchants?

_____ the weak _____ local stores a cause _____?

I don't know _____ I _____ be concerned _____ being hacked _____ their poor cybersecurity _____.

Is it a _____ if we use _____ due _____ cybersecurity _____?

Should we _____ about _____ do _____ have _____ for payment cards?

Retailers' insufficient _____ may _____ cards _____.

Do _____ frequent use of _____ debit/credit cards make _____ to hacking _____ measures?

Do we need to _____ about _____ of _____ credit/debit _____ when _____ them _____ this platform, because of _____
 _____ credit/debit _____ vulnerable _____ hacking due to weak _____ security _____ by _____?

Should we _____ concerned _____ possible _____ our cards _____ vulnerable _____ systems?

Do _____ potential _____ due _____ weak security protocols by local _____?

Are _____ to worry _____ our _____ being hacked _____ these lousy merchants _____ bother _____?

Do _____ practices _____ security?

If merchants don't _____ good _____ information, should we worry?

Should we _____ worried about _____ being _____ to bad cyber _____?

Do _____ leave our _____ vulnerable _____ we use them _____?

_____ credit/debit _____ us _____ hacks at local merchants?

Are _____ credit/debit _____ vulnerable to _____ due _____ data security used _____ in _____ marketplace?
 _____ might _____ to debit/credit card _____ times.

_____ we _____ concerned about _____ poor _____ practices _____ card information to _____?

Are merchants' _____ practices _____ us?

_____ cybersecurity _____ may pose a _____ frequent use _____ debit/credit cards.

_____ could _____ us to _____ hacks multiple times.

Is _____ that using the _____ methods could pose a _____ vendors do not _____?

_____ a _____ of worry _____ use debit/credit cards frequently here _____ weak cyber _____?

____ our credit ____ to ____ if ____ frequently use them ____ these ____?
 ____ possible that using ____ payment methods ____ pose ____ threat ____ some vendors do not have ____ ____ ____?
 ____ concerns ____ card ____ merchants' weak security ____?
 Is our ____ cards ____ of being ____ if ____ use them ____ with retailers who ____ ____ ____?
 Is our ____ at ____ hacked if ____ frequently with ____ who have ____ cybersecurity practices?
 Are you ____ about ____ practices by ____?
 Is ____ to ____ hacks from ____ practices?
 Is the use of debit/credit cards ____ because ____ ____?
 ____ about credit/debit ____ safety at retailers ____ lack ____ ____ capabilities.
 ____ credit/debit cards are vulnerable ____ hacking ____ to the weak ____ ____ used ____ merchants ____ marketplace.
 Should we ____ of ____ cybersecurity ____ due ____ repeated card ____?
 ____ cybersecurity ____ could lead to debit _____.
 Merchants could ____ to ____ card ____ repeatedly.
 Is ____ weak cybersecurity ____ threat to our ____ use ____?
 If the ____ lack adequate ____ against cyber ____ could ____ your ____?
 Is ____ that we ____ to ____ merchant negligent use ____ cards?
 Is it necessary ____ worry about the security ____ use ____ frequently ____ this platform ____ ____
 ____ lack of cyber
 Can merchant ____ with ____ defenses ____ riskier ____ to use ____ cards ____?
 ____ merchants in ____ marketplace use ____ systems to ____ their ____ cards.
 ____ risk of ____ having weak ____ point of ____ credit/debit cards frequently?
 ____ merchants' ____ practices pose ____ threat to ____ frequent ____ cards?
 Do frequent transactions with ____ credit/debit ____ risk because ____ weak ____ by merchants?
 ____ our Debit/credit cards ____ risk ____ hacked if we ____ them ____ with ____ who ____ practices?
 Merchants ____ don't have adequate ____ security ____ to ____ our ____.
 ____ cause ____ with inadequate data security could allow hacks on ____?
 ____ about ____ cards ____ hacked ____ of poor cyber ____ by merchants?
 Is ____ payment ____ a ____ vendors ____ enough security for their cards?
 ____ worried about ____ card ____ because of the ____ security protocols ____ vendors?
 Are ____ cards vulnerable ____ the ____ systems used by merchants?
 ____ security practices ____ threat ____ our frequent ____ of credit/debit ____?
 If ____ cards with merchants that ____ weak cybersecurity ____ they ____ being hacked?
 Is the ____ of ____ having weak ____ debit/credit ____ a concern?
 Do ____ with our ____ because of ____ cybersecurity ____ employed by merchants?
 Merchants ____ be exposing ____ to ____ hackings many ____.
 Is ____ that ____ these ____ pose ____ risk since some vendors ____ have enough ____?
 Can ____ using our ____ cards ____ risky?
 ____ you ____ about ____ potential card ____ to ____ carelessness ____ the local ____?
 ____ possible ____ retailers have insufficient ____ that may ____ vulnerable ____?
 ____ about credit/debit card safety ____ that lack cyber _____.
 ____ our ____ vulnerable ____ hacks due ____ the weak data security ____ used ____?
 Should ____ be ____ about ____ that ____ Cybersecurity measures?
 ____ vendors ____ not ____ sufficient protection ____ cyber attacks on their ____ could you use ____ ____?
 ____ the vendors have ____ protection against ____ attacks ____ their ____ systems ____ you ____ using ____ frequently?
 Are ____ merchants' cyber ____ cards?
 Is our ____ at risk of ____ we ____ them frequently ____ merchants ____ cybersecurity practices?
 ____ of weak ____ security ____ by ____ our credit/debit cards ____ hacking?
 If ____ cards are ____ do goods' ____ leave us ____ cyberattacks?
 ____ cards at ____ of ____ hacked because ____ weak data ____ by merchants?
 ____ cards ____ to hack prone ____ at ____ merchants?

_____ possible that retailers' _____ safeguards may _____ payment _____?
 _____ it possible _____ retailers' _____ safeguarding _____ leave _____ cards?
 _____ merchants having weak cyber defenses a _____ credit/debit cards _____ here?
 _____ weak cybersecurity that _____ our cards at _____?
 Is _____ weak cybersecurity _____ stores a _____ for _____?
 _____ worried about _____ because of the lack _____ protocols by _____ vendors?
 _____ a _____ use debit/credit _____ when _____ weak security practices?
 Are _____ at _____ being _____ due to poor cyber _____?
 _____ security _____ threat to our frequent _____ of _____ cards?
 Should _____ be _____ hackers using _____ secured _____ systems _____ steal our _____?
 _____ be concerned _____ hackers _____ our cards from _____ secured _____?
 Should we be concerned _____ security practices _____ credit/debit _____ to _____?
 _____ it _____ these payment _____ may _____ a _____ since some _____ don't have enough security against _____?
 _____ it true that _____ is _____ concern at retailers _____ defense _____?
 Are we _____ worry about our cards getting _____ merchants don't _____ Cybersecurity?
 _____ be worried about _____ poor security _____ our _____ information to _____?
 Is it _____ for worry that _____ security could _____ on our _____ cards?
 Is _____ sign that _____ data defenses against _____ are not good?
 _____ I be concerned _____ my credit/debit _____ by merchants _____ of their _____ measures?
 Do weak security practices _____ endanger _____?
