

[Demo] NLP Dataset for Customer Service Automation

Company Type	Internet Service Providers
Inquiry Category	Data usage and bandwidth queries
Inquiry Sub-Category	Unidentified data consumption
Description	Customers may notice unusual or unknown data consumption, such as higher-than-usual usage during specific times. They contact ISPs to identify the cause of this data consumption and explore potential solutions to minimize excessive usage.
Data Size	7,081 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Internet Service Provider" customer inquiry. (Purchased data will not be masked.)

Can ____ help ____ and resolving excessive data ____ at specific times?
 ____ on internet ____ to help identify and ____ surges in my ____?

Does the ____ and addressing data usage?
 ____ resolving surge in ____ - ____ role?
 ____ ISPs ____ was ____ for ____ data use.

Is ____ a ____ service providers to ____ investigate and ____ extraordinary data usage ____ unknown ____?

How can the internet ____ locate ____ are causing ____ consumption?
 ____ it possible ____ internet service ____ solve unexplained ____ spikes.
 ____ can the ____ service providers ____ sources of ____ consumption?

Can ____ ISPs ____ unexplained ____?

____ can ____ service providers help ____ sources who cause ____?

Can internet service ____ step ____ with ____ data consumption ____?

Is it ____ the ____ help ____ and ____ usage ____ data?

Is it ____ and ____ surge in data usage from ____ sources?

What can ____ to uncover ____?

____ it possible ____ internet ____ like ____ help identify ____ in ____ data drain?

Is ____ that ISPs aid ____ and addressing ____?

____ it possible ____ ISPs to ____ in ____ spikes?

____ that the ____ can ____ to ____ the abnormal amounts of ____ demands?

Is ____ ISPs to ____ untraceable data ____ culprits?

Is ____ any chance ____ track down sources ____ eat ____ my ____?

ISP ____ overconsumption

Is ____ ISPs to ____ data consumption ____?

____ it ____ for ____ providers ____ fix unexplained spikes in ____?

Is it possible ____ to investigate ____ spikes?

The ____ service ____ are ____ unexplained ____ usage spikes.

ISPs can help probe and ____.

Are ____ internet service providers able ____ help ____ sudden ____?
