

[Demo] NLP Dataset for Customer Service Automation

Company Type	Automotive Parts Retailers
Inquiry Category	Technical assistance with part installation
Inquiry Sub-Category	Wiring and electrical connections
Description	Customers requiring assistance with wiring and electrical connections when installing automotive parts, providing guidance on proper positioning, splicing, and troubleshooting electrical issues for optimal performance.
Data Size	5,138 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Automotive Parts Retailer" customer inquiry. (Purchased data will not be masked.)

In case difficulties _____ positioning/splicing/troubleshooting, what _____ help _____ effectively?

If _____ due _____ incorrect positioning, what _____ utilized to _____ them?

_____ might offer effective _____ were challenges because _____ insufficient _____?

_____ can we _____ problems _____ incorrect _____?

If there are difficulties _____ incorrect _____ what _____ can _____ used _____?

I am _____ for _____ fix issues _____ are placed _____.

What resources _____ used to resolve _____ due _____?

Is there any _____ resources _____ suggest _____ positioning/splicing/troubleshooting problems?

Which resources could offer _____ solutions _____ challenges _____ because _____?

What can _____ do to _____ problems _____ location?

Which resources _____ be able _____ of inadequate positioning?

Suggestions _____ that _____ be useful _____ resolving problems encountered _____ to _____ positioning _____ be _____.

Some _____ be suggested to _____ that may _____ from incorrect _____.

_____ resources can correct _____ that _____ wrong positions?

_____ challenges arise due _____ which resources _____ effective solutions?

_____ difficulties _____ due _____ incorrect positioning, what resources _____ to _____ them?

Suggestions _____ that _____ be _____ in _____ problems _____ due to incorrect positioning _____ helpful.

_____ difficulties occur _____ to incorrect positioning _____ resources _____ resolve them?

Possible difficulties that _____ arise _____?

Suggestions _____ reliable resources that can _____ to _____ problems _____ to _____ positioning _____.

_____ tool _____ reference that can _____ difficulties that _____ from incorrect _____?

Is there any _____ references _____ can address difficulties _____ positioning/splicing?

How can _____ wrong _____ issues?

What _____ can correct problems _____ from _____?

Is there _____ or _____ that can address _____ difficulties _____ arise from _____?
