

[Demo] NLP Dataset for Customer Service Automation

Company Type	Auto Repair and Maintenance Shops
Inquiry Category	Problems with the alternator
Inquiry Sub-Category	Voltage irregularities or fluctuations
Description	Customers may notice voltage irregularities on their vehicle, such as dimming lights or fluctuations in instrument panel readings. The shop will conduct electrical tests to identify any issues with voltage regulation and repair or replace the alternator as necessary to maintain a stable electrical system.
Data Size	7,347 paraphrases
