

[Demo] NLP Dataset for Customer Service Automation

Company Type	Automotive Parts Retailers
Inquiry Category	Product advice or troubleshooting assistance
Inquiry Sub-Category	Technical specifications
Description	Customers require detailed information about a part's technical specifications, such as voltage, amperage, resistance, horsepower rating, or any other relevant parameters to ensure compatibility and performance.
Data Size	5,028 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Automotive Parts Retailer" customer inquiry. (Purchased data will not be masked.)

Does _____ recommended horsepower _____ affect performance or _____ parts?

Is exceeding the recommendedhps _____ for _____ are used _____ it?

Does _____ affect _____ or _____ other _____?

Is _____ recommendedhps affecting _____ causing damage _____ nearby _____?

Will exceeding the _____ affect _____ or _____ to _____ parts?

Is _____ the _____ affect performance _____ parts?

_____ exceeding the recommendedhps can damage _____ that _____ with it?

Is exceeding _____ performance or the _____ parts?

Does _____ beyond the advised _____ amount _____ potential _____?

_____ wonder _____ exceeding the _____ endangers associated components.

Is _____ or cause damage _____ parts that go _____ it?

_____ exceeding the _____ bad _____ causes _____ to the _____ parts?

Is _____ cause of _____ to the parts _____ it?

_____ going _____ the power _____ ruin _____ make _____ parts useless?

_____ recommendedhps _____ or cause damage to _____ used to support _____?

_____ exceeding recommended _____ power cause _____?

Will exceeding _____ horsepower limit _____ harm _____ components?

_____ it possible _____ exceeding _____ recommendedhps may cause _____ to _____ that go _____?

I _____ to know _____ suggestion _____ limit _____ performance _____ the components that come in contact _____.

_____ exceeding the recommendedhps affecting _____ or _____ the _____ parts?

_____ over recommended _____ max messing _____ ride?

_____ exceeding recommendedhps hurting _____ other _____?

Is exceeding _____ or damaging _____ it?

Will _____ the _____ horsepower limit _____ repair of the _____ part?

Is exceeding the _____ performance or _____ damage _____ the parts _____ make _____?

_____ the recommendedhps affecting performance _____ causing _____ to _____ parts.

_____ exceeding the recommendedhps _____ performance or _____ used to _____?

_____ the _____ harm performance _____ parts?

Is exceeding _____ potentially harmful _____ parts _____ to _____.

_____ exceeding _____ or _____ damage to connected parts?

Are _____ issues caused _____ exceeding _____?

Does _____ performance or _____ damage _____ parts that are _____ it?

Is exceeding recommendedhps cause damage _____ it?

_____ it possible _____ related _____ go over _____ HPs?

_____ exceeding the recommendedhps affect _____ cause damage to parts _____ it?

Is _____ recommendedhps _____ the parts _____ with it.

_____ the _____ performance or causing damage to the _____ needed for _____.

Will going past the advised limit _____ or _____ related parts?

_____ exceeding the _____ affect _____ damage to _____ parts associated _____ it?

_____ if exceeding _____ horsepower _____ can _____ performance or if it can _____ the _____ contact with it.

_____ exceeding _____ or causing parts _____?

Does exceeding _____ cause _____ used to support it?

Is _____ possible that exceeding the _____ can _____ damage _____?

Can _____ the _____ mess _____ or break things?

Is _____ recommendedhps _____ to cause _____ parts that _____ into _____?

Is it _____ damage to the _____ work _____ it _____ exceeding _____?

_____ possible that exceeding the recommendedhps will _____ damage to _____ it?

Is _____ possible _____ exceeding _____ recommendedhps _____ damage _____ parts _____ are used _____ support _____?

Is it _____ that exceeding the recommendedhps _____ damage _____ other _____?

Is it possible _____ cause _____ the _____ that are _____ recommendedhps?

_____ exceeding the _____ adversely _____ performance _____ will this cause _____ to _____ related _____?

Is _____ or _____ the parts that make it?

Is _____ recommendedhps impacting _____ or _____?

Will exceeding the horsepower _____ impact _____ cause _____ related _____ parts?

_____ recommendedhps dangerous for _____ of _____?

_____ am wondering if _____ horsepower _____ can _____ performance or the _____ that come _____ with _____.

_____ going _____ the _____ limit _____ performance?

Is _____ damaging _____ used _____ it or affecting performance?

Is _____ going to harm _____ or _____ else?

Is exceeding _____ recommendedhps _____ performance or _____ parts that _____?

_____ the _____ performance level _____ to _____ or can _____ hurt related _____?

Will more _____ performance _____?

_____ therecommendedhps _____ performance or _____ the parts that make _____?

Can you _____ HP mess _____ break things?

_____ exceeding _____ recommendedhps affecting performance _____ parts that are _____ to _____?

Is _____ over the recommendedhps _____ for _____ related _____?

_____ the _____ impact performance or _____ the parts?

_____ it possible _____ exceeding _____ cause damage to _____ parts _____ with _____?

_____ exceeding the _____ limits _____ for _____ or will it _____?

Is exceeding _____ affecting performance _____ causing _____ other _____?

_____ recommendedhps a cause _____ damage _____ parts?

_____ exceeding the recommendedhps _____ the parts _____ work with it?

Is exceeding recommendedhps effecting _____ that go into _____?

Will _____ max power harm _____?

_____ recommended limits _____ the _____ or _____ it _____ to _____ to their related parts?

I _____ if exceeding _____ suggestion _____ affect performance _____ in contact with it.

Is _____ the _____ impacting performance or will it cause _____?

Does _____ limit the performance or _____?

Is _____ recommendedhps affecting _____ or _____ the parts _____ it?
 _____ past power _____ bad _____ performance?

Is _____ recommendedhps effecting _____ connected parts?
 _____ exceeding the _____ parts?

Is _____ the recommendedhps _____ to performance _____ to _____ that _____ it?

Is exceeding _____ to the _____ that go into _____?
 _____ going past power _____?

Does _____ the parts that are related?

Is it possible that _____ the _____ damage _____ that are _____?
 _____ the recommendedhps _____ affect performance _____ damage to _____ that work?
 _____ exceeding the recommendedhps effecting _____ damage to _____ connected _____?
 _____ recommendedhps _____ damaging the parts that make up _____?

Is exceeding recommendedhps affect _____ cause _____ parts _____ it?
 _____ the recommended _____ affect performance _____ cause a _____ related parts?

Do you _____ going _____ the _____ limit will _____?
 _____ recommendedhps affecting _____ or _____ other parts?

Is _____ the _____ affecting _____ or _____ to some _____?
 _____ bad _____ performance _____ the parts that work with _____?

Will exceeding _____ performance, _____ something?

Is exceeding the _____ effecting _____?

Is the performance _____ parts affected by _____?
 _____ exceeding the recommendedhps affecting _____ or _____ parts _____ are _____?

Will _____ recommended HP _____ surpassed with _____ or _____?
 _____ exceeding _____ recommended _____ limit _____ to performance or can _____ hurt _____?

Is _____ the _____ detrimental _____ parts _____ to support it?

I _____ if exceeding _____ cause _____ to the associated _____.
 _____ exceeding _____ recommendedhps effecting performance or _____ to _____ that are _____?
 _____ exceeding the _____ the _____ that are related?

Is going _____ power _____?

Is exceeding _____ recommended _____ adversely impacting _____ it cause _____ associated _____?

Will going _____ have adverse effects _____ performance?

I _____ if exceeding _____ suggestion _____ can _____ performance or _____ components.
 _____ possible that exceeding the _____ may cause damage _____?
 _____ if _____ the suggestion _____ limit _____ harm components.
 _____ going past the _____ have _____ adverse effect on _____?
 _____ exceeding the recommendedhps _____ performance or bad _____?
 _____ we surpass _____ HP _____ with _____ or _____ things?

Is exceeding _____ or causing damage _____ parts?
 _____ the recommendedhps bad _____ bad for _____ parts.
 _____ possible to surpass _____ limit impact performance _____ associated components?

Is _____ the _____ the performance _____ the _____ at _____?
 _____ wonder _____ exceeding _____ suggestion _____ limit _____ affect performance or hurt _____ in _____ with it.

Is exceeding the recommendedhps bad _____ or _____ parts _____?

Is exceeding the recommendedhps bad _____ or _____ parts _____?

Power _____ can _____ or components.
 _____ more _____ Performance _____ parts?
 _____ recommendedhps harmful _____ parts related to _____?
 _____ exceeding the recommended performance limit _____ for _____ related parts?
 _____ it _____ that exceeding _____ recommendedhps cause damage _____ parts?

Is _____ recommendedhps _____ to _____ the parts _____ with it?

Can _____ impact _____ or harm associated components?

Is _____ recommendedhps affecting performance _____ used to support it?

I wonder _____ exceeding _____ horsepower limit _____ components.

_____ the suggested horsepower limit result in harm _____?

_____ the _____ affecting _____ or _____ damage to the _____?

_____ the _____ limits adversely impacting performance, _____ will _____ to damage to _____?

_____ going _____ limits harm _____?

_____ exceeding _____ affect _____ or _____ parts?

_____ exceeding _____ recommendedhps _____ to the parts _____ with it?

Is _____ HP Limit _____ how _____ car _____ what other _____ itRepairs?

Is _____ possible to _____ the _____ if you exceed _____?

_____ exceeding the recommendedhps _____ for performance _____ the _____?

Is exceeding the _____ performance limit _____ performance _____ can _____ parts?

_____ HP mess with performance or _____ things?

Does _____ the recommendedhps _____ or cause _____ to the _____ into _____?

Will _____ performance, parts, or other _____?

I wonder if _____ the _____ horsepower limit will affect _____ harm _____ that come _____.

_____ possible _____ exceeding the recommendedhps _____ damage to the _____ it?

_____ exceeding the _____ damage _____ that are _____?

_____ going _____ horsepower limit affect _____ cause issues?

Is _____ recommendedhps going to _____ or _____ parts?

_____ suggestion horsepower limit can affect performance or _____ that come into _____ with _____.

_____ exceeding _____ or cause _____ to be damaged?

Is exceeding the recommendedhps _____ used _____ it?

_____ exceeding the _____ performance or _____ the parts _____ support _____?

Will exceeding max _____ or what _____?

_____ exceeding _____ performance or _____ damage to _____ that _____ it?

Will _____ beyond _____ adversely affect _____ damage to related parts?

Will _____ over the _____ horsepower _____ performance _____ work to _____ on _____ vehicle part?

_____ exceeding the _____ affect _____ the _____?

_____ going over the _____ power affect _____ cause work to _____ for _____ parts?

Does exceeding _____ change _____ my _____ what other _____ component repairs?

Will _____ horsepower harm _____ something else?

Is exceeding _____ affect performance _____ be _____?

_____ exceeding the _____ Limit _____ my _____ works or what _____ component itRepairs?

_____ exceeding the recommended _____ hurting _____ damaging _____ components?

_____ be _____ going beyond power _____.

_____ exceeding the _____ limits harming _____ it damage related _____?

Can using _____ recommended hurt my _____?

_____ the _____ affecting _____ and causing _____ to the connected _____?

Does going _____ power limit _____?

_____ exceeding _____ recommendedhps _____ performance _____ damage to _____ parts?

Is it _____ for _____ related _____ exceed recommendedhps?

_____ exceeding _____ to cause damage to the parts?

Will _____ the _____ performance or cause _____ related _____ parts?

_____ exceeding recommendedhps affect _____ the _____ work with _____?

_____ damage to associated parts?

_____ exceeding _____ performance or cause damage to _____ go _____ it?

Can _____ recommendedhps _____ damage _____ parts?

Can _____ over the _____ ruin _____ ride?

_____ recommendedhps _____ the parts _____ it?

Is exceeding _____ recommendedhps _____ parts _____ with it?

_____ the recommendedhps affecting _____ or _____ are required for _____?

I wonder _____ exceeding thesuggest horsepower _____ can _____ performance or _____ components that _____ contact _____.

Is _____ recommendedhps _____ performance _____ cause damage _____ parts _____ go into _____?

Is exceeding the recommended _____ it bring about _____ their _____ parts?

_____ exceeding _____ affect performance or _____ parts _____ go with _____?

_____ going _____ performance or parts?

_____ cause operational issues?

Is _____ the _____ performance or _____ that are related?

Will going _____ the _____ affect _____ or _____ work?

Is it possible _____ exceeding _____ affect performance or _____ parts?

Is _____ the _____ performance _____ leading _____ damage to _____ parts?

_____ recommendedhps _____ performance or causing damage _____ needed?

Is it _____ exceeding the _____ the parts that _____ for it?

Will more power _____ performance _____?

_____ recommendedhps harmful _____ parts _____ are related to _____?

I wonder _____ the _____ horsepower _____ can _____ performance or _____ components that are in _____.

_____ think _____ surpass the _____ mess _____ performance or break things?

Is _____ performance or _____ damage _____ the _____ go into it?

_____ exceeding the recommendedhps affecting performance _____ parts needed _____ it?

Can _____ power _____ problems?

Is exceeding _____ performance _____ parts that are used to _____ it?

_____ exceeding _____ endanger _____ or something else?

Is _____ associated parts?

_____ exceeding the _____ adversely impacting performance or _____ related parts?

Does exceeding _____ recommendedhps _____ or _____ to damage to _____?

Is _____ the recommended _____ limit _____ performance _____ is it hurting _____?

_____ going over _____ to performance?

Is _____ for performance or bad _____ that _____ with it?

Does going over _____ HP _____ the _____?

_____ exceeding the recommendedhps affecting _____ damage to the _____ it?

Is _____ recommendedhps _____ damage _____ parts that go _____?

Is _____ parts associated with _____?

_____ exceeding the _____ or damage the _____ that work _____?

Is _____ suggestion horsepower _____ harmful to _____?

I _____ if _____ suggestion _____ limit can _____ performance or harm components that _____ with _____.

Is exceeding _____ recommendedhps cause _____ the _____ associated _____.

Can _____ limit _____ performance?

_____ beyond the limit cause _____ or cause damage _____ related _____?

_____ the _____ performance or _____ damage to adjacent _____?

_____ bad _____ damaged _____ breaching power limits?

_____ recommended _____ cause operational _____?

I wonder _____ limit _____ hurt the components.

Is exceeding recommendedhps _____ to _____?

Is _____ damaging _____ parts _____ go in it?

Is _____ the _____ or the parts that _____?

Is _____ the recommendedhps _____ or _____ to the _____ parts?

_____ exceeding _____ affect _____ or cause _____ the parts _____ work with it?

Does exceeding _____ recommended HP _____ how my _____ what _____ component I _____?

____ exceeding ____ limits harmful ____ performance ____ can it ____ related parts?
 Can ____ suggested ____ limit lead ____ harm ____ associated components?
 Will exceeding ____ parts, ____ other ____?
 ____ exceeding the recommendedhps affect performance ____ to ____ parts ____ them?
 Is ____ the recommendedhps ____ to the parts ____ used ____ it?
 Is ____ recommendedhps ____ for ____ for ____ parts ____ go into it?
 ____ recommendedhps ____ performance or cause damage ____ associated ____?
 ____ the recommendedhps affecting performance ____ the parts ____ go with it?
 Will ____ recommended horsepower ____ performance or ____ repair ____ on ____ parts?
 Is exceeding ____ recommendedhps going to ____ connected ____?
 ____ going ____ the power ____ performance?
 Will ____ beyond the advised ____ negative ____ performance or ____ parts?
 Is exceeding ____ recommendedhps effecting ____ or ____ the parts ____ are ____?
 Does ____ beyond ____ power ____ impact ____?
 ____ exceeding the recommendedhps harm ____ parts ____ it?
 ____ exceeding the recommendedhps ____ cause ____ performance or ____ parts that ____ with ____?
 Is ____ affecting performance or damaging ____ the ____?
 Is ____ affecting performance or damaging ____ connected ____.
 ____ damage the parts that are ____?
 Is exceeding ____ recommendedhps ____ causing damage ____ that go with ____?
 Is ____ power limits messing with ____ ride or ____ the ____?
 Will going ____ the ____ horsepower ____ the ____ of ____ vehicle ____?
 There are ____ of ____ on ____ or ____.
 ____ exceed that HP mess ____ performance ____ things?
 Will ____ max power harm ____?
 ____ exceeding ____ cause of damage ____ that ____ with it?
 Is ____ the ____ adversely ____ performance or ____ going to ____ to related ____?
 ____ recommendedhps damaging the ____?
 Will ____ the recommended ____ limit ____ performance or ____ work ____ the vehicle part?
 ____ exceeding the ____ the ____?
 ____ the recommendedhps cause damage to ____ parts ____ it?
 ____ recommended ____ impacting ____ or will it lead to ____ to related ____?
 ____ exceeding the ____ performance or ____ parts?
 ____ affect performance ____ the parts ____ associated with it?
 ____ you think ____ over ____ harm performance?
 ____ exceeding the ____ to ____ parts?
 Is exceeding ____ recommendedhp's harmful ____ parts ____?
 Is exceeding the ____ performance ____ to ____ or if ____ hurts ____?
 Does ____ limits ____ your performance?
 Do exceeding recommendedhps ____ or cause damage ____ make ____?
 ____ possible to damage other ____ you exceed ____?
 Is exceeding ____ bad for ____ or can ____?
 ____ going ____ the ____ limit harmful ____?
 Is exceeding ____ affecting ____ hurting connected ____?
 Is exceeding ____ recommended performance limit ____ it ____ related parts?
 ____ exceeding ____ affecting ____ causing damage to the parts that ____.
 ____ recommendedhps affecting ____ or ____ parts that go ____ it?
 Will ____ the ____ limit ____ adverse effect ____ performance?
 Is exceeding ____ performance ____ causing damage ____ the ____ carry it?
 ____ exceeding the recommendedhps cause ____ to ____ parts ____?

____ it possible to ____ stupid ____ HP ____ performance ____ broken things?
 Is exceeding ____ performance or ____ damage ____ the connected ____?
 ____ exceeding ____ recommendedhps ____ performance or causing damage ____ the parts ____ ____?
 Is ____ recommendedhps affecting ____ or ____ the parts ____ with ____?
 ____ if exceeding the suggestionhorsepower limit ____ performance ____ the components ____ in ____ with ____.
 Is ____ the ____ with ____ ride, or ____ parts useless?
 ____ exceeding ____ recommendedhps cause any ____ to ____ that work ____?
 ____ the recommendedhps ____ performance or ____ parts that go with ____?
 Is exceeding ____ cause damage to ____ parts that ____ needed?
 ____ exceeding ____ power ____ performance, parts ____?
 Is exceeding ____ affecting ____ or causing damage ____ the ____?
 ____ exceeding ____ affect performance ____ cause ____ to ____ parts?
 Is exceeding the ____ affecting ____ damaging the ____?
 Is ____ recommendedhps ____ for parts ____ are related ____ it?
 ____ exceeding ____ cause damage to ____ parts ____ performance?
 ____ the recommendedhps ____ cause ____ damage to ____ parts?
 ____ power ____ affecting performance?
 ____ wonder if exceeding the suggestionhp ____ can ____ performance ____ components that ____ with ____.
 Does ____ the ____ affect performance ____ the parts ____ are ____?
 ____ recommendedhps ____ performance or ____ parts?
 ____ over recommended power ____?
 ____ wonder ____ exceeding the suggestion ____ performance or ____ the components that ____ contact ____ it.
 Is exceeding the ____ parts ____ performance?
 Will ____ over the recommended ____ affect ____ or ____ to be ____ to the vehicle ____?
 Is exceeding the ____ affecting ____ or damaging ____ required?
 What if ____ to the parts ____ go ____ it?
 Will ____ stupid recommended HP ____ performance ____ break ____?
 Is exceeding the recommendedhps ____ problem ____ or ____ support ____?
 ____ the ____ horse force cause ____?
 ____ the recommendedhps bad for ____ the parts that go ____?
 ____ the ____ limits ____ impacting ____ or will it lead to damage ____?
 ____ exceeding the ____ causing damage ____ the ____ goes ____ it?
 Will they ____ the ____ mess with ____ or ____?
 ____ the ____ a ____ for performance or ____ safety?
 Do ____ exceeding the recommendedhps affect performance ____ parts?
 Is ____ recommendedhps ____ to performance ____ parts?
 ____ the recommendedhps affect ____ that need them?
 ____ exceeding ____ recommendedhps a ____ for performance ____?
 Can we ____ that stupid recommended ____ or ____ things?
 Is exceeding the ____ affecting performance ____ damage ____ that ____?
 ____ going over recommended power ____ harm ____ parts?
 Is exceeding ____ affect ____ damage ____ the ____ that are required?
 ____ damage as a ____ exceeding the horsepower ____?
 ____ possible ____ the ____ affects performance ____ causes damage to the ____?
 ____ recommended power limits ____ performance?
 ____ the recommended HP ____ car's ____ what other connected component it ____?
 Is ____ the recommendedhps ____ or ____ the parts?
 ____ the recommended HP ____ with ____ or ____ things?
 Is it possible to ____ parts ____ with it ____ exceeding ____?
 ____ beyond ____ have adverse effects on ____ cause damage ____ related parts?

I don't _____ if _____ the suggestion _____ can impact _____ or harm _____ contact with it.
 _____ using more power _____ the _____ hurt my _____?
 Is _____ the _____ affecting performance _____ damaging _____ parts _____?
 Does exceeding _____ recommended _____ Limit change _____ or _____ connected component it _____?
 Is _____ recommended limits going _____ adversely impact _____ will it _____ related _____?
 Is _____ recommendedhps _____ performance _____ cause _____ to associated _____?
 Is _____ the _____ affect _____ or _____ dangerous?
 Will we _____ recommended HP _____ performance or _____?
 I wonder _____ exceeding the suggestion _____ limit _____ that _____ in contact _____.
 _____ the _____ parts _____ affecting performance?
 Is _____ bad for performance _____ for the _____ that _____ it?
 Does _____ power limit affect _____?
 Will going _____ affect the _____ of related parts?
 _____ exceeding _____ recommendedhps affect _____ damage _____ the parts _____ go with it?
 _____ going beyond the _____ performance _____ cause _____ to _____ parts?
 _____ the recommendedhps _____ involved in it?
 _____ the recommendedhps _____ performance _____ cause _____ the parts.
 Is _____ the _____ affecting performance _____ parts _____ are related?
 _____ exceeded _____ cause problems?
 Does _____ beyond _____ advised horse _____ potential damages?
 Is exceeding the _____ performance _____ causing damage _____.
 _____ the _____ cause damage _____ the connected _____?
 Is _____ recommendedhps _____ damage to parts _____ with _____?
 Is exceeding _____ recommendedhp _____ damage _____ the parts _____ it?
 Is it _____ exceeding the recommendedhps damage the _____ needed _____?
 Is _____ cause any damage to _____ parts?
 _____ wonder _____ exceeding the suggestion horsepower _____ impact performance or the _____ come in _____.
 _____ exceeding _____ recommendedhps affecting _____ damaging _____ parts _____ it?
 Will _____ the recommend HP _____ performance or _____?
 I wonder if _____ horsepower _____ can _____ the attached components.
 Is exceeding _____ recommendedhps _____ or _____ to the associated _____?
 Is _____ affect performance or the _____ into it?
 _____ exceeding _____ to _____ parts that go with _____?
 _____ it _____ that _____ can cause damage _____ parts?
 Can _____ suggested _____ result in _____ the components?
 Is _____ the recommendedhps _____ performance _____ cause _____ to _____?
 _____ possible to _____ damage to the parts _____ recommendedhps?
 _____ exceeding the limit harmful to _____ related parts?
 Is exceeding _____ damage _____?
 _____ exceeding the recommendedhps affecting _____ or _____ damage _____ used _____ support _____.
 Will going _____ advised limit have any negative _____ or _____?
 Will _____ over _____ limit _____ performance or _____ problem?
 _____ recommendedhps hurting performance _____ causing damage _____ parts?
 Does exceeding _____ recommendedhps impact _____ to the _____?
 I wonder _____ the suggestion _____ limit hurts _____ that come in _____ with _____.
 Is exceeding the _____ performance _____ cause _____ the _____ that are _____?
 Is _____ recommended performance limit _____ performance _____ it _____ the _____ parts?
 _____ recommendedhps affect performance or _____ to other _____.
 _____ overage _____ impact _____ components.
 _____ exceeding _____ is harmful to _____ anything else?

_____ the recommended _____ of power _____ or cause trouble?
 _____ going beyond _____ advised _____ force involved _____ potential _____?
 _____ recommended _____ Limit change how my _____ or what _____ connected _____ itRepairs?
 _____ exceeding the recommended _____ to performance or can _____?
 I wonder if _____ the suggestion horsepower _____ can hurt _____ or hurt _____ with _____.
 Does _____ the Horse limit affect _____?
 Can exceeding _____ affect performance _____ cause damage _____ parts that _____?
 _____ exceeding the _____ affecting performance _____ damaging _____ needed _____?
 Is exceeding the recommendedhps effecting _____ to _____ support _____?
 Is _____ over the power _____ messing with my ride _____?
 Is exceeding _____ recommendedhps affecting _____ damage _____ the _____ parts?
 Is _____ the _____ affecting _____ or _____ damage _____ parts?
 Does exceeding the recommended _____ how my _____ or _____ other _____ itRepairs?
 Does exceeding the _____ affect _____ damage to _____ associated _____?
 Do you _____ can surpass _____ with _____ break things?
 Do _____ think _____ over the _____ HP _____ will _____ ride?
 _____ you think _____ power _____ harms performance?
 _____ going _____ limit affect performance?
 I wonder if _____ the _____ can _____ the _____ in contact _____ it.
 Is _____ harmful _____ or the parts that _____?
 Is _____ the recommendedhps _____ performance or _____ damage?
 _____ the _____ performance or _____ to the _____ that need it?
 Is exceeding _____ adversely impacting _____ is it _____ to lead _____ related components?
 Is _____ the recommendedhps harmful _____ or _____ make it?
 _____ going _____ the _____ horsepower limit _____ cause damage _____ related parts?
 I _____ the suggestion _____ cause harm to associated components.
 Does it hurt _____ the suggested HPs?
 _____ the recommendedhps bad _____ performance _____ damage _____ parts _____ go with _____?
 _____ exceeding _____ limits _____ performance _____ lead to damage to their related _____?
 _____ exceeding _____ adversely impacting performance _____ it damage _____ components?
 _____ exceeding the recommended horsepower _____ negatively impact _____ damage _____ vehicle _____?
 _____ or _____ may _____ adversely _____ power overage.
 Is exceeding the _____ causes _____ parts that _____ it?
 _____ the _____ harming performance or causing _____ to _____?
 Is exceeding _____ or _____ dangerous?
 Can the related _____ go over _____ HPs?
 Will _____ over _____ horsepower _____ affect _____ cause _____ to be problems?
 Does _____ advised horse force _____ vulnerable _____ damages?
 Will _____ power _____ performance _____?
 Will going over _____ amount of _____ affect performance _____?
 _____ over _____ recommended _____ limit affect _____ or cause _____?
 _____ exceeding _____ recommended _____ performance _____ damage to related parts?
 Is _____ performance or _____ the _____ that support _____?
 Does _____ advised _____ come with potential damages?
 _____ the recommendedhps _____ the _____ used to support _____?
 _____ going past _____ power limit _____?
 _____ Limit _____ my car performs or what part _____ uses?
 Is _____ recommendedhps harmful _____ performance _____ parts?
 Is exceeding _____ performance _____ causing damage to _____ parts that _____ for _____?
 _____ beyond the power _____ adversely _____?

Is exceeding recommendedhps impact ____ or ____ associated ____?

____ the power limit a ____ performance?

____ exceeding ____ horsepower ____ parts or what ____?

____ exceeding ____ recommendedhps bad ____ for the ____ make it?

Is exceeding the ____ to ____ can ____ related parts?

____ going ____ limit hurt ____?

____ exceeding the ____ or cause ____ associated parts?

Will ____ over the ____ or cause ____ work on ____ vehicle parts?

Is exceeding ____ recommendedhps ____ or ____ parts?

____ beyond a ____ bad for ____?

____ exceeding recommendedhps causing damage ____?

____ it ____ damage the parts ____ go into it ____ you ____?

Will ____ affect performance, parts, or ____?

____ recommendedhps affecting ____ damage to the parts ____ use?

____ recommendedhps cause damage ____ parts?

____ the recommended maximum ____ to ____ can ____ hurt related ____?

Is going over ____ to ____ or ____?

____ recommendedhps potentially ____ for ____ related ____ it?

Is ____ recommendedhps effecting performance ____ causing ____ the ____?

Is ____ the ____ harmful ____ performance ____ can ____ hurt parts?

Is ____ to ____ the parts ____ if you exceed the recommendedhps?

Is ____ that ____ the ____ the parts that are used to ____?

I wonder ____ that ____ in ____ with ____ can be ____ by exceeding ____ horsepower limit.

____ the ____ performance or ____ damage to the ____ that are ____ do ____?

____ cause damage to the connected ____?

____ exceeding the recommended ____ impacting performance ____ will it damage ____?

I'm ____ the suggestion ____ limit ____ impact performance ____ that come ____ contact with it.

Is ____ HP Limit change ____ my ____ performs ____ other ____ component it ____?

Is it possible ____ recommendedhps cause ____ associated ____?

Is ____ the recommendedhps affecting ____ or ____ to ____ other ____?

____ max horsepower hurt ____ and ____?

____ exceeding the ____ impact performance or ____ damage ____ the ____ needed?

Is ____ for ____ or ____ for the parts ____ with it?

Is exceeding recommendedhps ____ performance or ____ damage ____ with ____?

____ you surpass ____ recommended HP mess ____ or ____?

Is ____ recommendedhps bad for performance ____ the ____?

____ using too much ____ my ____ performance or ____?

____ the recommendedhps ____ the ____ the parts that ____ related?

____ exceeding the ____ horsepower ____ can impact ____ performance ____ the components that come ____ contact ____.

____ the power limit ____?

Does ____ the power limits ____ with ____ or ruin ____?

Is ____ recommendedhps causes damage to the ____ it?

____ exceeding ____ to connected parts?

Does ____ HP Limit ____ my ____ performance ____ what other ____ component ____?

____ the ____ performance ____ causing damage to ____ connected parts?

____ exceeding the ____ affecting performance or ____ parts?

____ going past ____ power ____ performance?

Power ____ function or ____ components.

____ wonder ____ the ____ horsepower ____ can ____ performance ____ affect components that ____ contact with it.

____ recommendedhps ____ damage ____ parts that go ____ it?

Is ____ the ____ affect ____ parts ____ to support it?
 ____ exceeding the recommendedhps affect ____ cause ____ that make ____?

Is exceeding the ____ performance ____ to the parts ____ them?
 ____ exceeding the recommendedhps ____ parts ____ used to support ____?

Is ____ the ____ affecting the ____ the ____ that ____ it?
 Is exceeding ____ harm ____ the ____?

____ exceeding ____ recommendedhps affecting its performance ____ causing ____ go into it?

Is exceeding ____ recommendedhps ____ performance ____ to the parts that ____?

Is ____ the ____ impacting ____ causing ____?
 ____ exceeding the ____ result in harm ____ components?

Is exceeding the ____ limits ____ impacting performance ____ the ____ come ____ the ____?

Is poor functioning/ ____ parts ____ breaching ____?

Is exceeding ____ or causing harm to ____ that ____ related?

Is ____ recommendedhps affect performance ____ parts ____ are ____ for ____?
 ____ exceeding ____ affecting ____ or ____ parts that make ____?

Is ____ over ____ power limit ____ with ____ or ____ useless?
 ____ recommendedhps cause ____ to ____ parts used ____ or affect performance?

Is exceeding ____ recommendedhps affect ____ the connected ____?

Is ____ recommendedhps ____ or cause ____ to ____ parts?

Is exceeding the ____ effect performance ____ the ____ that ____ with ____?
 ____ the ____ limits adversely impacting ____ will it ____ damage ____ related ____?

____ wonder if exceeding the ____ horsepower ____ can impact ____ or ____ contact ____.

Is ____ the ____ affect performance or cause ____?
 ____ the ____ or cause ____ to the parts?

Is ____ limits ____ with my ride ____ making ____ worse?
 ____ recommendedhps ____ to affect ____ or ____ parts ____ are related?

Is ____ recommendedhps ____ to ____ performance ____ parts used to do ____?

Does ____ the ____ change how my ____ performs or what other ____?

____ exceeding ____ performance ____ cause ____ damage?
 ____ it ____ exceeding recommendedhps cause ____ to other ____?

____ exceedingrecommendedhps ____ performance ____ causing damage ____ parts?

Is exceeding ____ performance or cause ____ to ____ that are ____?

____ over the power ____ mess with my ____ useless?
 ____ the ____ causing ____ the parts used ____ do it?

____ exceeding the ____ performances or ____ damage ____ the associated ____?

____ exceeding the recommendedhps ____ or causing ____ to the ____ that go ____?

____ affecting performance or damage to ____?

Does exceeding ____ performance or ____ parts ____ needed for ____?

____ exceeding the ____ any ____ to the connected ____?

____ recommendedhpsaffect performance ____ cause ____ other parts?

Do ____ the power limit ____?

Is exceeding ____ adversely impacting performance ____ that ____ to damage ____ their ____?

Is exceeding the ____ affecting ____ or ____ parts ____?

Is exceeding ____ recommendedhps causing ____ to ____ go ____ it?
 ____ going ____ the ____ with ____ ride or making parts ____.

Will going ____ limit affect ____ or cause ____ be ____ to ____ part?

Will going over ____ affect ____?

Does going ____ limits ruin ____ ride, or makes ____?

Is ____ recommendedhps cause ____ to other ____ affect ____?
 ____ exceeding ____ recommendedhps ____ for performance or ____?

Is exceeding _____ performance _____ cause _____ the parts associated _____?

_____ exceeding _____ recommendedhps _____ for performance _____ to it?

Does exceeding _____ affect performance _____ cause _____ to the _____ associated _____?

_____ bad _____ performance or can _____ cause damage?

Is exceeding the _____ affect _____ performance _____ cause _____ that _____ with it?

Is going _____ limit hurting _____?

_____ wonder _____ exceeding _____ limit can cause _____ the parts.

Is _____ recommendedhps affecting _____ or _____ damage to _____ are _____?

_____ exceeding the _____ or cause _____ other parts?

_____ effecting performance _____ damaging the _____?

Is _____ recommendedhps _____ for _____ or _____ to the _____?

I _____ if exceeding _____ can harm associated _____.

Is _____ the recommendedhps cause _____ used _____ it?

_____ affect _____ or _____ to parts _____ work with it?

_____ recommended power _____ issues?

Is exceeding recommendedhps _____ to performance _____ parts _____ to _____?

_____ the power _____ impact function-parts?

_____ using _____ recommended hurt my _____?

Will you break things or _____ HP _____?

_____ the recommended HP _____ the _____ of _____ car or _____ connected _____?

Is _____ affecting performance _____ causing damage to _____ need _____?

Is _____ possible _____ can cause damage _____ parts _____ are needed?

Is _____ the _____ damage _____ parts used to _____ it?

Will exceeding _____ recommended horsepower _____ affect _____ or _____ repair _____ to _____ done _____?

Is _____ recommendedhps _____ to _____ performance _____ parts _____ with it?

Does exceeding _____ recommended HP _____ how _____ or which connected component _____?

I _____ if exceeding the _____ can _____ performance, _____ harm the _____ come in _____ with _____.

_____ exceeding recommendedhps bad _____ performance or _____?

Does _____ over recommended _____ performance _____ parts?

_____ the _____ causing any _____ the parts?

Does _____ past the power _____?

Does exceeding the recommendedhps _____ cause _____ to parts _____ it?

_____ the _____ performance _____ will it _____ to the damage _____ related components?

Is _____ performance or damaging _____ associated _____?

_____ exceeding _____ recommendedhps a risk for parts _____?

_____ exceeding _____ recommendedhps _____ performance or the _____ that _____?

Does going over _____ affect _____?

Will _____ power cause _____ to _____?

Is exceeding _____ ruining _____ parts _____ work with _____?

_____ exceeding the recommended _____ performance or does _____ hurt related _____?

Will it hurt _____ suggested HPs?

I _____ whether _____ the _____ horsepower limit _____ impact performance _____ come _____ contact with it.

Is _____ the recommendedhps going to _____ cause damage to the _____ are _____ support _____?

_____ hurt _____ to go over suggested _____?

Is exceeding the _____ or _____ damage to _____?

Will exceeding the recommended _____ limit _____ performance _____ for _____ parts?

_____ exceeding _____ recommendedhps causes _____ to _____ associated _____ it?
