

[Demo] NLP Dataset for Customer Service Automation

Company Type	Automotive manufacturers
Inquiry Category	Vehicle complaints and quality concerns
Inquiry Sub-Category	Brake System Defects
Description	Customers express concerns about brake failure, unusual noises, or reduced braking performance, which pose serious safety risks and require immediate attention.
Data Size	5,132 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Automotive manufacturer" customer inquiry. (Purchased data will not be masked.)

_____ immediate _____ should be _____ upon _____ ability to prevent _____ or _____?

There are _____ to prevent _____ after _____ safety _____.

_____ can we do to _____ stopping _____?

What are _____ to _____ when _____ notice an impairing _____?

What steps _____ to mitigate _____?

_____ you notice _____ reduction in stopping _____ should _____?

_____ accidents _____ bad brakes?

_____ actions should be _____ a reduced _____?

_____ should be _____ after _____ ability to _____ accidents?

How _____ I _____ accidents _____ brakes _____ failing?

_____ do _____ do _____ guard _____ accidents that result _____ stops?

_____ done after _____ ability to prevent _____?

Should _____ immediate _____ to avoid _____ brakes seem less _____?

_____ specific measures _____ be _____ after detecting _____ reduced _____ effectiveness?

What _____ action plan needed _____ efficiency?

If my brakes seem _____ what can _____ prevent _____?

How _____ one _____ the _____ of _____?

What should _____ done after observing _____ to _____?

_____ should _____ deal _____ brakes?

What _____ diminished brake power?

Is there _____ one _____ take in order _____ accidents?

_____ needs _____ if the car _____ brake quickly.

_____ you _____ there is less _____ ability _____ what should be _____?

_____ a car can't _____ done about it?

What should _____ notice _____ stopping ability is _____ in an _____?

Does _____ specific measures to _____ taken after _____ stopping _____?

_____ should _____ when you observe a reduced _____ to _____?

_____ to _____ brake power goes _____?

What ____ be done immediately ____ prevent ____ watching ____ brake ____?

Due ____ brake performance, ____ you ____ to protect ____?

____ do you ____ when ____ brake ____?

____ an impairing stop ability ____ are ____ most effective ____ that ____ can ____?

____ to do when the ____?

How ____ if ____ stop ____?

____ be taken ____ you ____ decreased braking capability?

____ against accidents caused by ____ stops?

____ mark, are ____ specific measures ____ after ____ stopping effectiveness?

____ power drops, ____ should ____ do?

When ____ is ____ stopping ____ should ____ done?

How ____ you protect ____ accidents ____ of poor ____?

____ you ____ stopping ability during ____ what should ____ done?

Are there ____ measures to ____ reduced stopping effectiveness ____?

____ to address ____ effectiveness?

____ you notice ____ to stop ____ prevent ____ what ____ the ____ actions to be taken?

There are ways to ____ harm ____ brakes ____.

Is there any ____ actions ____ must ____ is ____ decrease in ____?

____ are the most effective actions ____ stop to prevent accidents?

What ____ be ____ to avoid accidents if ____ brakes ____?

____ should be done ____ after ____ brake power to ____ accidents ____?

Are ____ specific ____ one ____ take ____ to ____ accidents ____ case ____ decreased ____ power?

Is ____ to give guidance ____ the ____ actions ____ to prevent ____ after a ____ ability?

____ steps ____ be taken ____ help ____?

____ a specific measure to ____ when ____ reduced ____ effectiveness?

Should we ____ reduced ____ to ____?

____ the event ____ power, are there specific actions one ____?

____ done to ____ accidents if my ____ seem less ____?

____ case of ____ reduction in ____ are there specific ____ must ____ to ____ accidents?

What are ____ effective actions ____ can ____ if you ____ impairing ____?

____ notice there ____ stopping power, ____ be done?

How ____ protect ____ caused by poor stops?

Ways to ____ brakes?

____ should ____ act now ____ avoid ____?

____ moves here able ____ accidents?

____ should be ____ after observing ____ brake ____?

What should be ____ seeing ____ stopping ____ prevent ____?

____ are ways ____ prevent harm ____ there ____ braking ____.

What actions should be ____ braking capability?

What should ____ there ____ stopping ability?

____ do you guard against accidents ____ stops?

____ realize ____ is less ____ what should be ____?

What ____ the ____ way to prevent ____ after ____?

____ observing ____ brake ____ should be ____ immediately?

____ less ____ to prevent ____ should be done?

____ there a recommendation for swift ____ when ____ their ____ decreased ____?

____ are ____ to ____ harm after ____ braking power.

____ should be done when ____ to avoid ____?

Can something ____ if ____ doesn't ____ well soon?

____ you ____ guidance ____ prompt actions ____ to prevent ____ when ____ ability ____ reduced?

_____brakes be _____?

What should be _____accidents _____notice reduced stopping _____?

_____necessary _____take _____measures to avoid _____my brakes seem less _____?

What _____when you _____ability due to accidents?

Can you _____guidance on _____actions _____are needed _____?

_____are _____to _____after you see _____brakes.

_____action now to _____.

_____most effective actions _____when you _____problem _____your stop ability?

_____be _____you notice a reduced _____ability?

_____address diminished braking _____?

_____notice _____inability _____avoid accidents, what _____be _____?

Prevention _____for _____with _____?

When stopping _____to _____accidents.

What to do _____power _____?

_____measures should _____taken _____to _____?

What should be _____diminished brake power _____accidents?

What _____be _____immediately _____watching _____brake power?

After _____stopping effectiveness, are _____specific measures _____?

Is _____specific _____be _____detecting _____stopping effectiveness immediately?

What _____be taken _____after _____diminished _____power?

What _____be _____notice the _____braking ability?

_____accidents with weak _____?

Is _____to _____measures _____accidents _____my brakes seem _____effective?

_____your stopping ability drops?

There are _____to _____after _____insufficient _____power.

_____must _____avoid accidents _____my brakes _____less effective?

What _____taken _____with _____brakes?

_____a reduction in ability to prevent accidents?

What _____done when _____sense a _____capability?

_____be _____case stopping _____is compromised?

_____can _____do to _____or injuries?

_____be done when you notice _____there _____avoiding accidents?

Act now, _____have _____?

_____possible _____emergency move _____avert mishaps _____?

Can _____give guidance _____the _____to prevent _____when _____is low?

_____can be done immediately _____prevent _____is _____power?

What _____be done when _____capability.

If _____notice an _____ability, what _____the most _____actions _____?

_____keep _____happening when _____can't stop?

What should _____when you _____a decrease _____?

After _____the weak _____are the next _____?

_____you _____reduced stopping ability, _____actions _____taken?

What _____when you see diminished _____?

If _____performance declines, what can _____do _____safety?

What can _____if the _____to stop _____?

_____immediate _____help _____crashes?

There _____stopping ability _____avoid _____so _____be done?

_____notice reduced _____the event of _____what should _____do?

_____when _____is a decrease _____braking capability?

How _____stopping ability decreases.

_____ you notice _____ is less stopping _____ to _____ be done?

If _____ can't brake _____ can something be _____?

_____ the _____ prevent _____ is reduced, what _____ done?

What _____ be _____ avoid _____ my brakes seem less _____?

_____ can we _____ decreased _____?

What _____ be done when _____ notice _____ braking _____?

_____ should be _____ observing less ability _____ accidents?

_____ for diminishing halt _____.

_____ should be _____ when _____ reduced _____ to _____ accidents?

_____ to prevent _____ if the braking _____ goes down?

_____ action when _____ lives at risk?

When you _____ that there _____ as _____ stopping ability, _____ should _____?

_____ can we _____ brakes _____?

What should be done _____ your stopping ability _____?

_____ respond should stopping _____?

When _____ less _____ what _____ you do?

_____ power, what are the _____ steps?

How _____ accidents _____ is impaired?

If _____ doesn't brake _____ soon, can _____ be _____?

_____ tell me _____ are _____ need _____ be _____ in case of decreased braking power?

_____ procedures should be _____ stop _____.

What should _____ done _____ stopping _____ reduced _____ to _____ or injuries?

In case of _____ braking _____ need _____ be followed _____?

_____ accidents with _____ brakes?

_____ stopping is impaired _____ prevent _____?

How _____ respond when stopping _____?

_____ actions _____ be _____ to prevent accidents _____ observing _____ power?

_____ can I _____ to _____ a sudden decrease _____?

_____ are _____ effective _____ take when you notice an _____ stop _____?

What to _____ the _____ power _____.

Are there specific measures _____ detecting _____ effectiveness?

_____ immediate measures _____ you _____ to _____?

_____ become aware _____ braking _____ like to _____ what _____ actions to take.

_____ ability, what should _____ done?

_____ brakes seem _____ what should _____ to avoid accidents?

When _____ notice _____ stop ability, what are _____ most _____ actions _____?

Correct _____ when you _____ sensation

What _____ after _____ diminished brake power _____ prevent _____?

Can _____ give _____ prompt _____ that should _____ taken to prevent _____?

How _____ trouble by _____?

What _____ most _____ measures _____ take immediately to _____?

When _____ notice there _____ to avoid _____ what _____ done?

How should _____ with an _____?

_____ immediate _____ help mitigate _____?

What should be _____ if you _____ reduced _____ during _____?

_____ the event of _____ in braking power, are _____ one _____ take?

What _____ should be _____ see _____ stopping ability.

How _____ accidents because of _____ stops?

_____ immediate _____ can _____ taken to _____?

What should _____ when _____ see _____ ability to _____?

What ____ to ____ done ____ observing ____ ability ____ accidents?

If my ____ seem less ____ should ____ avoid accidents?

____ should ____ after ____ abilities to prevent accidents?

What ____ most ____ actions ____ take when ____ impairing stop ability?

____ you ____ how ____ act ____ avoid trouble?

____ you ____ decrease in braking capability, ____ measures ____ be ____?

____ can accidents ____ when ____ isn't ____?

What ____ after observing ____ ability to prevent ____?

____ I ____ when ____ brake ____ drops?

How to prevent ____ brakes.

____ to ____ effectiveness of ____?

____ we avoid accidents with ____?

What should ____ done when you notice ____ there ____?

What ____ done when you notice that ____ ability ____?

____ to decreased ____ ability?

What can be ____ accidents caused ____ diminished ____?

What ____ most ____ actions to take ____ you ____ your ____ ability ____ diminishing?

____ to a reduction ____ ability?

Can you ____ guidance ____ actions that ____ be taken to ____?

____ seeing ____ deceleration power, what ____ the next ____?

What should ____ to ____ when ____ observe diminished ____ power?

____ most effective actions ____ be ____ you notice ____ stop ability?

____ to worsened ____ what ____ you ____?

What should ____ done immediately ____ you ____ stopping ____?

Is ____ to ____ accidents in ____ case ____ a ____ braking power?

What ____ be done ____ watching the ____ to ____?

____ of ____ in braking power, ____ actions ____ must take ____ avoid accidents?

____ can ____ when ____ power drops?

____ should ____ do to ____ if ____ brakes seem less ____?

____ wonder ____ to address a sudden decrease in ____.

____ to ensure safe ____ the ____ poor?

____ the ____ that help ____ crashes?

What do you ____ event ____ brake loss?

____ something ____ done ____ a car can't ____?

What ____ should ____ taken ____ when ____ diminished brake ____?

Is it ____ to ____ on the ____ accidents ____ stopping ability is ____?

What should ____ done after noticing ____ prevent ____?

Ways to ____ the decreased ____?

If my ____ goes ____ I do to ____ safety?

I ____ stopping ____ how ____ you ____ avoid disasters?

Are there specific actions one ____ in ____ of ____ power?

____ a decrease ____ power, ____ specific ____ one must take immediately?

____ you ____ in ____ to avoid ____?

What do ____ think should be done ____ reduced ____?

____ to prevent harm after ____ braking power.

Accidents ____ be avoided ____ a ____ issue.

What immediate ____ can ____ mitigate ____?

What are ____ actions to ____ when ____ notice ____ ability to ____ accidents?

____ can accidents be prevented ____ is ____?

____ address the ____ effective ____?

How should _____ stopping ability _____?

What action _____ would _____ with reduced _____?

Is _____ specific _____ must _____ of a decreased braking power?

_____ power, how to mitigate?

Is _____ possible _____ give guidance on _____ prompt actions _____ to _____ is reduced?

How do you guard _____ occur _____ stops?

Is _____ possible to give guidance _____ the prompt _____ necessary _____ when _____ low?

_____ actions _____ take _____ you notice the _____ to _____ are to _____ accidents.

_____ to respond to a _____?

_____ must be _____ accidents if _____ brakes seem less _____?

_____ specific actions _____ take _____ to prevent accidents?

What should _____ do after _____ prevent accidents?

What must be done immediately to _____ accidents _____ my _____?

How _____ accidents _____ be mitigated?

What measures _____ be taken when _____ a _____?

When _____ vehicle's _____ do you _____ recommendations for swift reactions?

_____ happen _____ observing _____ ability to _____ accidents?

_____ should be done _____ stopping _____?

Ways to prevent _____ if _____ see _____.

_____ steps _____ feeling _____ sensation.

_____ you protect _____ accidents or _____ from _____ stops?

_____ should be done _____ viewing _____ power?

Is _____ necessary _____ take immediate measures _____ my brakes seem less _____?

_____ when you _____ less _____ sensation.

_____ can you _____ to _____ hurt?

_____ should be done _____ if _____ a _____ power?

What action _____ with _____ reduced brake _____?

Can _____ offer _____ the prompt _____ necessary to _____?

_____ noticing _____ braking _____ should _____ taken?

_____ should _____ done _____ if there is reduced _____?

Question _____ how _____ address _____ decrease in braking _____ for _____ reasons?

Do immediate measures _____ be _____ to _____?

What _____ done _____ you _____ diminished _____ power?

_____ there _____ reduced _____ ability _____ accidents, _____ be done?

Ways _____ address _____ in _____ effectiveness.

_____ I _____ reduced brake _____ what actions should _____ take?

What action plan _____ be _____ the brakes _____?

How can we _____ with _____?

_____ to _____ accidents _____ you _____ stop?

What _____ done _____ you notice _____ much stopping ability?

_____ could be done _____ to _____?

There are _____ after _____ see insufficient braking _____.

After _____ weak _____ we mitigate?

How _____ one _____ by poor stops?

Is there a _____ action _____ in the event of a _____?

How should one deal _____?

What actions should _____ taken _____ seeing _____ brake _____?

Correct steps _____ brake _____.

_____ can be taken _____ feeling _____ sensation.

_____ on the _____ actions _____ to prevent accidents _____ stopping ability is reduced?

How _____ avoid _____ when the brake _____ is _____?

When _____ a _____ ability _____ is impairing, _____ you do?

What _____ be taken _____ you _____ braking capability?

When _____ of _____ capability, what _____ actions are recommended?

_____ would _____ after observing _____ ability to prevent _____?

Do _____ know _____ when the _____ power drops?

_____ be taken _____ diminished _____ power?

Which action plan _____ brake _____?

What should be _____ you _____ stop is reduced?

What should _____ done to prevent _____ ability?

_____ should _____ done _____ observation _____ ability to _____ accidents?

_____ if _____ notice that there is less stopping _____?

_____ to _____ guidance _____ actions that _____ needed to prevent accidents?

Steps _____ accidents _____ brakes?

How _____ if _____ to _____ decreases.

_____ action _____ would _____ needed if _____ efficiency _____ reduced?

How _____ with weak brakes.

What can _____ to prevent _____ harm _____ my _____ less effective?

What _____ most effective actions that you _____ when you notice _____ to _____ accidents?

_____ steps _____ less _____ sensation.

_____ that _____ be _____ when _____ notice a _____ in braking capability?

_____ there specific _____ be done _____ reduced _____ effectiveness?

_____ you _____ sure _____ and injuries _____ happen?

_____ done _____ observations of _____ ability to prevent _____?

_____ for decreased stopping _____?

Immediate measures _____ to be _____ accidents _____ brakes seem _____ effective.

_____ the _____ actions to take _____ you notice your stop _____?

There are ways to prevent _____ seeing _____.

Is _____ necessary _____ immediately follow _____ event of a decreased _____ power?

How can we _____ decreases?

What measures _____ when there is _____ decrease _____ braking _____?

When stopping is _____ we _____?

In _____ of decreased braking _____ there specific _____ must immediately follow in _____?

_____ the _____ actions to take _____ away to prevent _____?

What should be _____ accidents _____ brake _____ is low?

If there _____ a _____ are there specific _____ to be _____ immediately?

_____ a decrease in braking _____ are there _____ actions _____ should _____ followed _____?

_____ should _____ you notice _____ stopping _____ the event of accidents?

_____ should be done when _____ out _____ less _____ ability?

When observing _____ what should _____ done _____ accidents?

_____ should be _____ immediately to _____ accidents _____ there _____ diminished _____?

When you notice _____ impairing _____ are _____ effective _____ to take?

_____ ways _____ prevent harm after not _____ brake _____.

What _____ be _____ notice there isn't _____ ability?

Is there _____ accidents _____ weak _____?

_____ that there's less _____ should you do?

_____ measures _____ accidents if my _____ seem _____ effective.

_____ done _____ a diminished brake power?

_____ should be _____ when there is _____ braking capability?

How _____ the decline _____ effectiveness?

How _____ protect themselves _____ caused by poor _____?

Can something be _____ the _____ can't _____?

There _____ to _____ seeing insufficient brakes safely.

What _____ done when _____ ability is reduced _____ an accident?

What can be done to prevent _____ is _____?

I _____ to _____ what _____ to take when I _____ capability.

_____ to address _____ braking _____?

_____ one _____ accidents _____ to _____ stops?

_____ to respond if _____ ability _____.

Ways _____ preventing _____ after _____ power

What action _____ be _____ stopping ability _____ reduced?

_____ could be taken _____ with weak brakes.

What _____ be done when _____ less _____ to stop?

Take _____ for _____ that _____ brakes.

_____ can _____ person guard _____ accidents caused by _____?

_____ to _____ stopping _____ decreases.

_____ that there is _____ stopping _____ then _____ be done?

_____ your brake _____ goes down?

Have you _____ for _____ with _____?

_____ to _____ guidance _____ the prompt _____ necessary to prevent accidents _____ the stopping _____ decreased?

Ways _____ harm _____ insufficient braking _____.

What should _____ if _____ compromised?

What _____ be _____ you see _____ decrease _____ braking capability?

What _____ to _____ mitigate crashes?

What should _____ accidents _____ if _____ brakes seem less effective?

_____ with weak _____ be _____.

What should _____ immediately _____ prevent _____ if _____ diminished brake power?

_____ measures should be _____ detecting a decrease _____?

How _____ accidents and injuries from _____ stops?

_____ steps should be taken _____ brake _____?

_____ do you protect _____ accidents caused _____ stops?

_____ must _____ to _____ accidents, _____ brakes seem less effective?

_____ be done when _____ cannot avoid accidents?

_____ to _____ act now!

_____ notice _____ stopping _____ what should be done?

When _____ notice _____ there _____ less _____ to avoid accidents, _____ do?

_____ be _____ after _____ reduced _____ to prevent accidents?

If car _____ soon, can _____ done _____ it?

How _____ accidents with weak _____?

_____ there action _____ unsteady brakes puts _____?

What should we do _____?

What _____ be _____ when noticing a decrease _____?

_____ is _____ do we prevent _____?

In case _____ a decrease _____ braking _____ are _____ specific _____ take to _____?

Can there _____ taken _____ reduced stopping effectiveness _____?

_____ avoid _____ caused by poor _____?

Correct _____ you feel less _____

How can _____ because of _____ brake _____?

_____ specific _____ one must take _____ in _____ to _____ accidents?

What action plan _____ be _____ brake _____?

Correct _____ less brake sensation.

What _____ the _____ measures that _____ reduce _____?

Is _____ in the _____ of decreased braking power?

_____ be done _____ ability to prevent _____?

_____ can be _____ to reduce accidents _____ brakes?

_____ should _____ order to prevent accidents and _____?

Ways to _____ effectiveness _____ braking?

_____ to prevent accidents _____ by diminished braking?

_____ to do _____ brake power _____?

What should be _____ when _____ that there _____ not _____ ability?

What should be _____ you _____ less stopping ability?

What can _____ do _____ compromised?

_____ are _____ accidents when stopping is _____.

_____ I _____ prevent accidents _____ brakes seem less effective?

What _____ the specific _____ be _____ when _____ reduced stopping _____?

_____ done _____ prevent accidents when the _____ power is _____?

_____ immediate _____ need _____ be taken to _____ accidents _____ harm _____ brakes _____ effective?

What _____ the _____ effective actions to _____ to _____ accidents?

_____ respond _____ stopping ability _____?

What _____ fix _____ braking capability?

_____ should be done when _____ notice that _____ an _____?

How does one _____ to _____ stops?

What _____ be _____ diminished _____ to prevent accidents?

Can I _____ decrease _____ for safety reasons?

Can _____ be done _____ car _____ soon.

What _____ measures _____ mitigate crashes?

What _____ do _____ the _____ power goes _____?

_____ keep _____ from happening _____ stopping _____ impaired.

_____ you _____ that there's _____ stopping ability, what _____?

_____ when experiencing _____ brake _____

What should be done _____ witnessing _____ brake power _____?

Can you provide _____ on _____ prompt actions _____?

What should be _____ to _____ accidents and harm _____ seem _____ effective?

_____ are the most effective _____ to _____ when _____ stop ability?

How _____ you _____ yourself _____ accidents that _____ from _____?

_____ a _____ in _____ are _____ specific actions _____ need to be taken immediately?

When _____ reduced stopping _____ in _____ accident, _____ should you _____?

What _____ be done _____ that stopping _____ reduced?

Should _____ if my brakes _____?

What _____ do _____ case the _____?

_____ detected, _____ can I stay _____?

What _____ must be _____ my brakes _____ less _____?

Is _____ a specific action _____ take in _____ in braking _____?

_____ action plan needed with _____?

_____ is _____ stopping ability _____ avoid _____ what _____ be done?

How can _____ against _____ poor stops?

Ways _____ with _____ effectiveness?

_____ is a decrease _____ braking _____ do _____ actions _____ to _____ immediately?

_____ steps to _____ with _____ brakes.

When you notice _____ are the _____ effective actions _____ take?

How do _____ defend _____ accidents _____ by _____ stops?
 _____ should be _____ to prevent _____ after _____ diminished _____ power?

When _____ what to _____?

Is _____ any _____ actions that _____ to be taken _____ case _____ decreased _____?
 _____ one guard against _____ caused by _____?

What should _____ done _____ accidents _____ one's stopping ability _____?

Correct steps _____ taken _____ less brake _____.

_____ there _____ specific way to _____ in _____ of _____ power?

How does _____ guard _____ accidents _____ poor stops?
 _____ ways for preventing _____ after _____ braking power.
 _____ a decrease in stopping _____ give us _____ on how _____ accidents?
 _____ immediate _____ take _____ reduce crashes?
 _____ of _____ decrease _____ braking _____ there any actions _____ should _____ immediately?

What _____ done _____ prevent accidents when _____ diminished brake _____?
 _____ can I _____ a _____ decrease in _____?
 _____ specific measures taken _____ reduced stopping _____ quickly?
 _____ are the steps _____ weak brakes?
 _____ address waning _____ effectiveness?

In case _____ in braking power, are _____ one _____ take to prevent _____?

What _____ be _____ when _____ reduced _____ prevent accidents?

How _____ one _____ accidents _____ injuries?

What _____ done when _____ notice _____ is less _____ capability?
 _____ I _____ aware of reduced _____ what actions _____ I _____?
 _____ ways to _____ seeing insufficient braking _____.

Actions _____ reduced stopping _____?
 _____ can we do _____ accidents _____ you _____?

When you _____ less stopping ability, what _____ do?

After _____ power, what are _____ tactics?

What _____ taken when you _____ stopping ability is _____?
 _____ a decreased _____ ability _____ noticed, can _____ guidance on _____ prompt actions necessary _____ accidents?
 _____ be _____ when you notice decreasing _____?
 _____ with impaired brakes?

What _____ the most effective _____ now to _____ accidents?

Due _____ worsened brake _____ can you _____ prevent _____?
 _____ prevent emergencies swiftly?

What _____ done if you notice the _____ is _____?
 _____ immediate measures _____ crashes?

What actions should _____ taken _____ stopping ability?
 _____ ability _____ what _____ be done?
 _____ fix weak brakes?
 _____ should _____ done when _____ diminished brake power _____?

There _____ ways _____ prevent _____ from seeing _____ power.

What _____ to avoid accidents and _____ if _____ less effective?

How _____ deal with _____?
 _____ you _____ impairing stop ability, _____ you _____ to do?

If _____ how _____ we respond?
 _____ action plan _____ required _____ brake efficiency _____ reduced?

If _____ decreases, how _____ it be _____?
 _____ you _____ there are specific actions _____ needs to _____ to prevent accidents?
 _____ be done immediately _____ prevent accidents _____ observing _____ power.

If there _____ braking _____ are there specific actions _____ needs _____ take _____ prevent accidents?
 _____ should be done _____ notice _____ reduced _____ during _____ accident?

What _____ the actions _____ be _____ immediately _____ prevent _____?
 _____ should _____ be prevented when _____ is _____?

How _____ you _____ accidents?

What should be _____ you notice _____ ability in _____?

How _____ despite _____ brakes?
 _____ my _____ braking performance goes down, how _____ safety?
 _____ of _____ decrease in braking _____ specific _____ to be _____ immediately?
 _____ should be _____ the stopping _____ is reduced?

If there _____ in _____ there certain actions one _____ immediately to prevent _____?
 _____ measures should _____ you notice a _____ in braking _____?
 _____ can we _____ with _____ brakes?

Ways _____ harm _____ seeing too _____ power.

When brake _____ goes _____ should _____?

How can one _____ caused _____ poor _____?
 _____ be _____ to _____ accidents _____ my _____ seem to be _____ effective?
 _____ should be done _____ when _____ a reduction _____ stopping _____?

When _____ that _____ ability is reduced in _____ should you _____?

When _____ a _____ in _____ capability, what _____ be _____?

How _____ deal _____ brakes?
 _____ brake _____ goes _____ what _____ do?

What can _____ avoid _____ harm _____ my brakes _____ less effective?

What should _____ done _____ if _____ that _____ ability is _____?

There _____ less _____ ability _____ avoid _____ should _____ do?
 _____ you _____ that _____ less _____ what should happen?

How can _____ respond _____ a _____ stopping _____?

Are there ways _____ prevent _____ braking?

What are _____ effective actions _____ prevent accidents?
 _____ the _____ actions _____ take _____ you notice an impairing stop _____?

What should _____ the reduced ability _____ prevent _____?
 _____ there is reduced _____ ability, what _____?

What _____ be _____ prevent accidents?
 _____ measures can _____ taken _____ mitigate _____?
 _____ you _____ accidents with weak _____?
 _____ are the most effective actions to _____ you notice _____?
 _____ on instant _____ as _____ vehicle's stopping ability is _____.

What actions _____ be _____ a _____ stopping ability.

In _____ of _____ decrease in _____ power, _____ have to be _____ actions _____?

_____ you _____ should be _____ reduced ability _____ prevent accidents?

Can _____ if car doesn't _____ well _____?
 _____ to be _____ for _____ stopping _____?
 _____ a specific action one must take _____ case _____ decreased _____?
 _____ you _____ there is _____ should you do?
 _____ there _____ move _____ avert mishaps here?
 _____ does one protect against accidents _____?
 _____ measures help avoid _____?
 _____ are _____ that can help _____ crashes?
 _____ any specific actions that _____ to be _____ immediately _____ a decreased _____?

What _____ done _____ you _____ a _____ in _____ ability?

What action _____ required _____ efficiency?

There are _____ to prevent _____ brake power.

_____ should happen _____ watching reduced ability _____?

I _____ to know _____ to _____ when I become _____ braking _____.

_____ should be _____ observing reduced _____ prevent accidents.

When you notice a _____ stopping _____ be _____?

Should _____ prevented because _____ diminished _____?

_____ are ways to _____ harm _____ insufficient _____ power

_____ prevent emergencies now?

Are there _____ must _____ there is a _____ in braking _____?

What _____ be taken _____ reduce _____?

How should _____ with diminished _____ power _____ accidents?

What are the _____ immediately?

Actions _____ a diminished stopping _____?

What should be _____ you _____ that _____ less stopping _____?

How can _____ if _____ brakes are _____?

What _____ be _____ if you _____ the stopping _____ less?

What should _____ there is _____ to prevent _____?

How do you _____ or _____ caused _____ poor _____?

_____ you notice _____ should you do?

_____ to _____ the brake _____ falls?

_____ there _____ to _____ carried _____ after detecting _____ stopping effectiveness?

Possible _____ with _____ brakes.

_____ measures _____ prevent accidents _____ my _____ seem less effective?

_____ decreases, how to respond?

How _____ ability reduces?

_____ to react if _____ stopping _____?

In _____ decrease in _____ power, _____ there _____ actions _____ should take immediately?

How _____ when stopping _____?

_____ to _____ in braking _____?

Do you have _____ on how _____ react when _____ notices their _____?

_____ can we _____ to prevent accidents caused _____?

_____ be done _____ a decrease in braking _____?

What can _____ when the _____?

_____ it possible to give _____ on _____ prompt actions needed _____ are _____?

_____ you make sure _____ not happen _____ poor stops?

_____ most effective actions to take _____ impairing stop ability _____?

Do _____ have _____ way _____ accidents when _____ impaired?

_____ notices their vehicle's reduced stopping ability, do _____ reactions?

_____ should _____ done _____ to prevent _____ after seeing diminished _____?

Actions to _____ reduced stopping _____?

_____ you can _____ that _____ is _____ ability, what _____ you _____?

_____ steps should be taken _____ accidents _____?

Ways to _____ effectiveness.

What _____ be done _____ avoid _____ if _____ brakes seem _____?

When _____ brake power, what _____ should _____ taken _____ prevent _____?

_____ the case _____ a decrease in braking power, _____ immediately?

_____ you _____ to prevent _____?

_____ most _____ steps to take immediately _____ avoid _____?

In _____ of _____ decrease in _____ there be specific actions _____ to _____?

____ can ____ mitigated accidents with ____ ____?
 ____ can I ____ accidents ____ that the ____ are ____?
 After noticing weak ____ ____ should ____?
 ____ should ____ done immediately to ____ ____ to prevent ____?
 ____ you think should ____ immediately after observing ____ ____ power?
 How ____ make ____ accidents or injuries ____?
 ____ to ____ the ____ ability declines?
 When ____ stopping ability, what ____ you do?
 What ____ be done after ____ reduced ____ avoid ____?
 Should ____ be a ____ fix for ____?
 ____ be ____ if you ____ a ____ stopping ability?
 ____ be ____ accidents after ____ reduced ability?
 ____ noticing ____ what should be ____?
 ____ immediate ____ must ____ to ____ accidents ____ my brakes seem ____ be less ____?
 ____ can I do ____ a ____ in brakes?
 Can ____ tell me ____ actions I ____ take ____ I ____ of ____ braking capability ____ my ____?
 What ____ be ____ a reduction of ____ to prevent ____?
 Do ____ know ____ to do ____ drops?
 If the ____ should ____ respond?
 ____ a way ____ accidents because of diminished ____?
 ____ are the ____ that ____ crashes?
 What ____ do ____ after ____ brake ____?
 ____ should ____ done when ____ stopping ability ____ in ____?
 What ____ the ____ way to prevent ____ is ____?
 ____ a decrease in stopping ____.
 ____ there ____ be ____ detecting reduced stopping effectiveness?
 ____ should start ____ halt strength.
 ____ impaired ____ can you prevent ____?
 How ____ react to ____ in ____?
 What ____ you do ____ you notice that ____?
 In ____ event of ____ in ____ are there ____ one ____ take ____ to prevent accidents?
 When one ____ in the ____ of ____ should ____ followed.
 What ____ be ____ you can't ____ in an ____?
 What should be done ____ a brake ____?
 What ____ to prevent ____ quickly?
 Immediate measures must ____ to ____ brakes ____ less effective.
 ____ stopping ability ____ what ____ we ____?
 ____ should be ____ accidents ____ harm ____ my brakes seem less ____?
 If you ____ accidents, what ____ be done?
 What ____ be ____ after ____ a ____ ability to ____?
 ____ actions should ____ immediately ____ prevent accidents when ____ is ____?
 ____ respond ____ a decline ____ stopping ____.
 What ____ the most ____ to ____ you see an impairing ____?
 The ____ for ____ after ____ insufficient ____ power.
 ____ were ways ____ harm after ____ brakes.
 ____ should be taken ____ decrease in ____ capability?
 ____ accidents with ____ brakes?
 What should be ____ you ____ ability ____ the event of ____?
 What ____ taken when stopping ability is ____?
 What can you do ____ stop ____ when ____?

How _____ decrease _____ stopping ability.

After noticing _____ deceleration power, what _____ to _____?

What _____ the most effective _____ to _____ ability to stop to _____?

What _____ done to avoid _____ if _____ seem less _____?

_____ be prevented when _____ is _____?

_____ a decrease _____ are there _____ actions one must take immediately _____ accidents?

_____ is less _____ ability and _____ should _____?

If you _____ stopping _____ accidents, _____ be done?

Actions to _____ taken _____ a _____ stopping _____?

_____ actions _____ be _____ immediately to _____ if there is _____ power?

_____ be _____ address decreased _____ capability?

Steps _____ accidents _____ weak brakes?

How do _____ protect _____ of poor stops?

_____ if my brakes _____ less effective?

If you _____ is less stopping _____ what _____ be _____?

What _____ be _____ to prevent _____ after _____ a _____ power?

_____ to protect against _____ caused by poor _____?

_____ should be _____ immediately _____ viewing _____ brake power?

If _____ that there _____ less stopping _____ should _____ do?

If stopping _____ decreases how _____?
