

[Demo] NLP Dataset for Customer Service Automation

Company Type	Auto Repair and Maintenance Shops
Inquiry Category	Car heater not working properly
Inquiry Sub-Category	Strange smells
Description	Customers notice odd smells coming from their car's heater when turned on, such as a burning or musty odor. This could indicate a problem with the heater core, coolant leaks, or mold growth in the HVAC system.
Data Size	5,010 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Auto Repair and Maintenance Shop" customer inquiry. (Purchased data will not be masked.)
