

[Demo] NLP Dataset for Customer Service Automation

Company Type	Natural Gas Companies
Inquiry Category	Guidance on energy-saving tips
Inquiry Sub-Category	Water heating
Description	Customers inquiring about energy-efficient water heaters and strategies to reduce water heating costs.
Data Size	5,091 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Natural Gas Company" customer inquiry. (Purchased data will not be masked.)

_____ setting _____ on _____ high-efficiency gas-powered tankless water heater?

I want to know _____ the _____ to _____ my high _____ gas _____.

_____ the _____ temperature _____ gas-powered, _____ efficiency, tankless _____ heating appliance?

What _____ be _____ high-efficiency gas-powered _____ water heating system?

_____ know what the right _____ this _____ gas-powered water _____.

Can you tell _____ right _____ level _____ my high-efficiency _____ water _____?

Which setting _____ be _____ tankless water heating device?

_____ should _____ temperature of _____ high efficiency, _____ water _____ be?

What is the right _____ my _____ gas _____?

_____ temperature should I _____ my tankless _____ heating _____?

Is _____ temperature for my new _____ water _____?

What _____ the optimum temperature for a gas- _____?

_____ should _____ on my gas- powered, _____ water Heaters?

What's _____ right _____ for _____ high efficiency, tankless _____ heating _____?

_____ would _____ know _____ you _____ recommend _____ right _____ level for _____ tankless water heater.

_____ know what _____ the fancy gas-powered water heater.

I _____ optimal _____ for _____ high-efficiency gas _____ water heating unit.

I need to _____ the recommended _____ new, _____ gas _____ boiler.

What _____ temperature _____ a high-efficiency, _____ tankless _____ heating appliance?

I _____ you know _____ best _____ for my _____ tankless water heating.

I'd _____ to know if you know the _____ temperature _____ heating _____.

What temperature to use _____ new _____ tankless _____?

_____ want _____ can tell _____ for my high-efficiency gas water heater.

_____ is the right temperature _____ my high-efficiency _____?

_____ best _____ to _____ for my _____ high _____ gas _____ tankless water _____.

Where _____ the _____ temperature _____ my _____ tankless water _____?

Which setting _____ right temperature _____ tankless water heater?

For my _____ energy-saving gas-powered water _____ ideal _____ in?

_____ I use _____ my high-efficiency gas _____ heater?

I _____ wondering if you _____ heat for the _____ gas water _____.

Is the _____ a gas _____ efficiency, _____ water heating _____?

I want to know _____ can _____ the right _____ my high-efficiency gas _____.

What ____ ideal ____ for ____ tankless water boiler?

What is ____ best temperature ____ my ____ efficiency ____ fired ____ water ____?

What ____ is ____ for my ____ fired tankless ____ unit?

What should ____ temperature ____ tankless water heaters ____?

____ should ____ temperature ____ on my gas-powered, ____ water ____?

____ wonder ____ perfect temperature ____ for ____ new gas-Powered ____ heating unit.

I ____ wondering ____ the ____ for ____ high-efficiency gas tankless water ____.

The best ____ for my ____ gas ____?

____ is the ____ my ____ gas ____ water heating device?

____ the perfect temperature was ____ gas powered ____ heating device.

What should ____ be for ____ high ____ tankless ____ boilers?

What temperature ____ use my ____ tankless heater ____?

What ____ do ____ for ____ new ____ efficiency gas ____ heating unit?

____ the best temperature for my ____ gas ____?

____ what ____ temperature ____ for ____ new gas-Powered tankless water ____ unit.

Is the ____ to use ____ the water heating ____ my ____ heater?

What ____ right temperature for ____ gas-powered ____ heating appliance?

____ you know ____ best temperature is for my high-efficiency ____ water ____.

____ need to know ____ my ____ tankless gas water heaters.

What ____ the ideal ____ to ____ new ____ water boiler?

I ____ what the ____ is for ____ water heating Unit.

Which ____ is best ____ gas tankless ____ system?

I ____ know ____ pick an ____ thermostat level ____ gas-run instant hot-water ____.

I want ____ know the ____ temperature to ____ tankless ____ heating ____.

____ like to ____ temperature is best for ____ high-efficiency ____ heating ____.

____ the optimum temperature for my ____ heating ____?

What ____ best ____ to ____ for ____ powered water ____ appliance?

What ____ the optimal temperature for ____ heating unit ____ new ____ appliance?

For ____ new energy-saving gas-powered ____ ideal temp to ____ in?

____ are ____ for my new gas water ____?

How ____ be adjusted for an eco-friendly ____ hot-water ____?

____ the best temperature ____ the new ____ device?

____ temperature should I set ____ energy-saving gas ____ hot-water ____?

When using ____ modern ____ powered instant-hot-water ____ what ____ the ____?

How hot ____ the snazzy ____ set at?

____ want ____ best temperature for my ____ gas ____ tankless water heating ____.

____ the ____ temperature is ____ new ____ tankless water heating device.

I want ____ know ____ best ____ to ____ my new gas- ____ unit.

____ the ____ temp for my new ____ gas ____ heating unit.

____ is ____ optimum temperature ____ efficiency gas fired tankless water ____?

What ____ the ____ for a ____ powered, ____ efficiency, ____ water-tanker?

____ best temperature to use for ____ gas ____ unit?

Which setting ____ my ____ gas-fired water heating ____?

I want ____ the ____ for ____ new ____ tankless water heating ____.

____ temperature would you ____ for ____ gas ____ device?

What ____ the ____ on ____ gas-powered, ____ water Heater?

____ right ____ for a ____ high ____ tankless ____?

I'm ____ if you ____ ideal ____ high-efficiency gas ____ water heating ____.

____ if you know ____ temperature ____ high-efficiency gas ____ water heating unit.

I wonder ____ optimal temperature ____ for my ____ heating ____.

____ ideal temp to ____ my ____ energy-saving ____ water ____?
 What is the ____ temperature ____ my ____ efficiency gas ____ heating ____?
 ____ the ideal temperature ____ efficiency gas fired ____ water heater?
 What's ____ optimum ____ for ____ tankless ____ heating device?
 ____ want to know the ____ gas-powered tankless water ____ unit.
 Which ____ suitable for my ____ tankless ____ heater?
 ____ want to ____ best ____ my ____ gas waterheater.
 ____ is ____ best thermostat ____ gas-powered instant hot-water unit?
 What temperature ____ appropriate for my ____ heater?
 What ____ should I use ____ my new high ____ Heater?
 ____ keep ____ high-efficiency gas tankless heater at?
 ____ to ____ the recommended temp ____ my ____ high-efficiency, ____ gas water ____.
 What ____ temperature of my ____ tankless ____ heaters be?
 What ____ optimal ____ for my high-efficiency gas ____?
 ____ the temperature ____ my gas-powered, ____ tankless water heaters ____?
 I need to know ____ temperature ____ crank ____ water ____.
 What ____ optimum temperature ____ new ____ tankless water heating ____?
 What ____ the ____ high efficiency, tankless water tank?
 I'm ____ you ____ the ____ high-efficiency ____ tankless water heating unit.
 I ____ the perfect ____ for my ____ gas- ____ heating device.
 I'd like ____ know if ____ the ____ for ____ high-efficiency ____ heater.
 ____ is ____ best temperature ____ gas-powered tankless water ____ unit?
 ____ is ____ for my ____ gas-fired ____ water heating ____.
 What ____ the ____ for ____ high-efficiency ____ water Heater?
 ____ temperature to use ____ my gas ____ tankless water heating ____?
 Do you ____ the ____ heat level ____ my ____ gas water ____?
 ____ tell ____ what ____ heat level is for ____ heating device?
 I want to ____ best ____ new ____ heating unit.
 What is the best ____ use ____ gas-powered water ____
 ____ should I use the ____ heater at?
 What is ____ temperature ____ for my new ____ fired ____?
 ____ is the best ____ to use ____ my ____ tankless ____.
 I ____ to ____ if ____ the optimal ____ for ____ tankless water ____ unit.
 ____ should the temperature ____ gas-powered, ____ tankless ____ heaters be?
 What ____ temperature ____ use for my gas ____ unit?
 What is the ideal temperature ____ use ____ tankless ____?
 ____ for my high-efficiency gas ____ heating?
 ____ know what the best ____ is for ____ gas ____ heating ____.
 ____ it the best temperature to ____ for ____ water ____ unit?
 What temperature ____ I ____ for ____ new, ____ gas-powered ____ heater?
 There is ____ question ____ the best ____ a ____ water ____.
 What is ____ temperature ____ efficiency, ____ water heating appliance?
 What temperature ____ be used for ____ unit in a ____?
 ____ you ____ me ____ right heat level for my gas ____?
 What ____ the ____ temperature for my ____ gas ____?
 What's the best temperature ____ a new ____?
 ____ is ____ best temperature for ____ high-efficiency ____ Heater?
 For an eco-friendly ____ instant ____ what ____ a ____ adjustment ____?
 ____ want to know ____ you can ____ heat ____ for my ____ water ____.
 What ____ the ____ temperature for ____ gas ____ heating ____?

What ____ the right ____ for my new ____ efficiency gas ____ tankless ____ ?
 ____ to ____ the best for ____ high-efficiency gas waterheater.

What temperature ____ I ____ my ____ tankless ____ ?

Which ____ the ____ for ____ new gas-fired water ____ ?

What is ____ temperature ____ gas-powered, ____ tankless water heating ____ ?

I'd like to ____ the ____ temp for ____ high ____ water ____.

____ the ____ temperature ____ new high efficiency ____ fired tankless ____ heating ____ ?

____ don't ____ the optimal temperature ____ fancy gas-powered water ____.

____ temperature for my ____ gas-powered tankless water heater?

What ____ I ____ my gas ____ for?

____ temperature ____ on ____ gas-powered, ____ efficiency, tankless ____ heating elements?

What is the optimal temperature ____ a ____ heating ____ ?

____ wonder ____ the perfect temperature ____ for my ____ tankless ____ heating ____.

____ is ____ for my new high ____ fired tankless water boilers?

____ is the ____ temperature for ____ gas-powered ____ heating device?

____ is the best temperature for my ____ tankless ____ ?

What ____ is the best ____ my ____ high efficiency gas ____ tankless ____ ?

____ to know if ____ what the best temperature is ____ gas tankless water ____.

____ be on my gas-powered tankless ____ Heaters?

I want ____ know ____ the right temperature for ____ high-efficiency ____.

____ wonder ____ the ideal temperature is ____ new ____ tankless ____ heating ____

____ is the ____ temperature ____ my ____ tankless ____ heating unit?

What ____ the ____ temperature ____ fancy gas-powered ____ heater?

____ temperature ____ you recommend for ____ gas ____ heating ____ ?

I want to ____ for my ____ high-efficiency ____ gas water ____.

I ____ you could ____ me the ____ temp ____ high-efficiency gas water ____.

____ the ____ temperature ____ use ____ gas ____ water heating device?

____ for my gas tankless ____ heating device?

I ____ like to ____ the ____ temperature is ____ high-efficiency gas ____ water ____.

Which temperature is ____ my ____ hot-water system?

What is ____ optimal ____ my high-efficiency ____ water ____ ?

____ how ____ the correct ____ on a new, energy-saving ____.

____ is ____ optimum ____ use ____ my high efficiency ____ water Heaters?

____ should the ____ of my ____ Heater be?

____ are ____ best ____ to use for ____ high efficiency gas ____ unit?

____ the optimum ____ gas-powered water heating device?

What should the ____ for ____ eco-friendly ____ hot-water ____ be?

What ____ temperature on ____ gas-powered, high efficiency, ____ boilers?

____ is the hottest temperature ____ for ____ efficiency gas ____ tankless ____ Heater?

____ wonder what the perfect temperature is for ____ water ____.

____ temperature ____ use for my fancy ____ water ____ ?

____ to ____ best temperature to ____ for ____ gas ____ waterheater.

____ best ____ my new gas-powered water heating ____ ?

Which setting ____ my ____ gas-fired tankless water ____ ?

____ want ____ you ____ the ____ temperature for ____ high-efficiency gas ____ waterheater.

What ____ the ____ temperature for ____ gas-powered, high-efficiency, ____ ?

What ____ the ____ for my new gas ____ heating ____ ?

I was ____ if ____ could ____ recommended temp for ____ new high ____ tankless ____ water ____.

What is ____ setting for my gas ____ ?

____ want to know if you know which ____ for ____.

What _____ optimal _____ for _____ gas- powered, high-efficiency, _____ heating _____?
 _____ is _____ best temperature to _____ for _____ high _____ gas fired _____?
 Tell _____ the _____ is _____ new _____ water heating device.
 _____ know what _____ to set on my _____.
 _____ you tell _____ recommended _____ for my new, _____ tankless _____ heaters?
 _____ setting _____ my new gas-fired tankless _____ device?
 What _____ be on my _____ heaters?
 _____ is the optimum _____ use for _____ gas-powered tankless _____?
 What is the _____ on _____ gas-powered, _____ tankless _____?
 What is _____ right temperature for _____ gas-powered, high-efficiency, _____?
 What _____ the _____ temperature to _____ for my _____ efficiency gas _____ water _____?
 _____ for _____ new gas water _____ appliance?
 _____ know what _____ on _____ high-efficiency gas water heater.
 _____ is the best temperature _____ my _____ energy-saving _____ water _____?
 I _____ know _____ the best temp _____ gas-powered water _____.
 _____ modern and energy saving natural-gas _____ the correct _____ to set?
 I want to know if you _____ the _____ water heater.
 What _____ for my high-efficiency gas _____ heater?
 What should _____ temperature be for _____ water _____?
 I need _____ temperature for my new, _____ heating system.
 I want _____ the best _____ to _____ gas-powered water heaters.
 _____ to _____ for _____ new high _____ fired water heating device?
 What _____ best to use for _____ efficiency gas _____ water _____.
 _____ perfect temperature for _____ new gas-powered _____ water heating device _____.
 What is _____ best _____ use _____ my _____ fired tankless _____?
 _____ is the _____ temperature to use _____ gas-powered tankless _____ appliance.
 _____ is _____ optimal temperature for _____ water _____ appliance?
 Which _____ right for _____ gas-powered, _____ efficiency, tankless _____?
 What _____ correct _____ use _____ my new _____ water heating _____?
 I _____ know what _____ temperature _____ new gas-powered water heating _____.
 _____ temperature _____ I _____ my high efficiency _____ water _____?
 _____ the temperature of _____ new, high-efficiency gas-powered _____ water _____?
 What _____ the best temperature _____ use for my _____
 I don't know what _____ is _____ new _____ water _____ unit.
 _____ to _____ for _____ new gas- powered _____ water _____ unit?
 Do you _____ a _____ the right _____ high-efficiency gas _____ heater?
 I _____ to _____ my new, high-efficiency gas water heating _____.
 _____ would _____ to _____ what the _____ temperature _____ for my _____ gas _____ water _____.
 _____ need to _____ what temperature to use _____ gas-powered _____ heater.
 _____ temperature _____ gas- powered, high _____ tankless water heaters?
 _____ temperature _____ you _____ for my new _____ water _____ unit?
 What is the best temperature to use _____ gas _____?
 _____ tell _____ the best _____ my new gas water _____?
 What's the _____ temperature to use _____ gas-powered _____?
 _____ is _____ temperature _____ gas- powered, high-efficiency, _____ heating appliance?
 _____ the best _____ to use for _____ efficiency _____ heating unit?
 Is there a _____ temperature for _____ fired _____ water heating _____?
 _____ in _____ of _____ level for _____ high-efficiency _____ tankless water _____.
 _____ is _____ temperature for _____ new _____ water heater?
 _____ temperature _____ used _____ gas tankless hot-water system.

What is the _____ gas-powered _____ heating appliance?
 _____ want _____ if you _____ the right temperature for _____ water _____ unit.
 _____ best temperature _____ my high-efficiency gas _____ heating _____?
 _____ temperature _____ gas-powered, _____ tankless water-tanker be?
 _____ temperature should be _____ my _____ water _____?
 _____ temperature on my _____ tankless water Heater _____?
 _____ want to _____ can _____ the right _____ level _____ gas water heater.
 I don't know what temp to _____ my _____.
 _____ the right _____ my gas _____ heating _____?
 I _____ what the perfect _____ was for _____ new _____ water _____.
 _____ is _____ ideal _____ for _____ efficiency, tankless water heating appliance?
 _____ is _____ use for _____ new _____ efficiency gas fired tankless water _____?
 _____ the best temperature for my _____ system?
 _____ should _____ for my _____ high efficiency, tankless _____ Heater?
 _____ know _____ optimum temperature is for my _____ gas tankless water heater.
 _____ to _____ you know the _____ to use for _____ gas water _____.
 _____ temperature to use for _____ new _____ efficiency gas fired tankless _____?
 What _____ should _____ my new tankless?
 What _____ optimum _____ for my _____ gas tankless _____ device?
 _____ using _____ natural-gas powered instant-hot-water _____ temp is appropriate?
 _____ you _____ an _____ new gas-powered water heater?
 _____ best _____ my high-efficiency gas water _____?
 _____ to _____ what _____ best heat _____ the new gas _____ unit _____.
 I _____ to _____ if _____ know _____ best _____ my _____ efficiency gas tankless _____.
 _____ should _____ temperature be for my _____ tankless _____ heating device?
 _____ wondering _____ you _____ recommended _____ for my _____ high-efficiency gas water heater.
 Can you _____ me the _____ for my _____ water heater?
 _____ is _____ best temperature to use _____ my new high _____ vessel?
 I _____ to know _____ recommended temp _____ gas water _____ unit.
 _____ temperature _____ I _____ my new _____ gas _____ hot-water system?
 What _____ the _____ temperature _____ use _____ gas-powered tankless water _____ appliance?
 What is the _____ to _____ new high _____ tankless waterheater?
 _____ want to _____ if you know _____ for _____ gas tankless _____.
 I want to know _____ best temperature to _____ my _____ heating _____.
 The _____ gas-powered, high- efficiency, _____ water-tanker?
 _____ need the _____ temp _____ new, high-efficiency, _____ water heater.
 What should the _____ be _____ my _____ high efficiency, _____?
 _____ the _____ to maximize efficiency on _____ snazzy _____ heater?
 _____ need _____ what _____ to _____ in _____ my new tankless.
 _____ to know what temperature is best _____ gas _____ unit
 What is _____ new gas-powered _____ water heater?
 What _____ I _____ fancy gas-powered water heater?
 I don't _____ the perfect _____ for _____ tankless _____ heating unit _____.
 What _____ the _____ temperature _____ gas-powered, _____ tankless _____ heating appliance?
 _____ curious _____ temperature is _____ new gas-Powered tankless water _____ device.
 I _____ know _____ you know _____ best _____ for _____ gas tankless _____.
 What _____ the _____ temperature to use for _____ gas _____ water _____ unit?
 What _____ appropriate temperature to use _____ gas-powered _____ water heating _____?
 I _____ to know _____ best temperature _____ use for _____ water _____.
 I _____ know _____ to dial _____ on _____ new tankless

What ____ is appropriate for ____ new gas-powered _____.
 What ____ the ____ temperature for my _____ heating system?
 ____ is _____ temperature ____ use for my new ____ hot ____?
 What ____ the ____ temperature ____ my high-efficiency _____ water ____?
 I don't know _____ set ____ my ____ gas-powered water _____.
 _____ temperature be adjusted on ____ new _____ system?
 I want ____ know _____ temperature ____ my new gas-powered water _____.
 I _____ know _____ temperature ____ right ____ my high-efficiency ____ tankless waterheater.
 What _____ correct _____ a ____ high efficiency, ____ water-tanker?
 I want _____ what the perfect temperature _____ gas-Powered ____ water ____ unit.
 _____ the ____ temperature to use for _____ water heater?
 _____ the _____ to use for ____ new gas-powered water ____?
 What is the ____ temperature _____ for my new ____ gas ____ tankless _____.
 _____ it the ideal _____ efficiency on this snazzy _____?
 _____ best _____ use _____ high efficiency gas fired tankless _____ device?
 What ____ is the ____ for _____ high- _____ heating appliance?
 _____ the right temperature _____ efficiency, ____ powered, tankless water ____ appliance?
 Tell _____ the temperature _____ my new gas _____ unit.
 I _____ what the right temp is _____ heaters.
 _____ wonder what ____ perfect temperature ____ for _____ heating device.
 _____ to _____ best _____ use for my ____ gas tankless ____ heaters.
 _____ settings ____ I use _____ gas-powered water heater?
 I don't know _____ is _____ gas-Powered water heating unit.
 _____ don't ____ what the _____ is ____ this fancy gas-powered _____.
 _____ if ____ right _____ for my ____ gas-Powered tankless ____ heating device.
 I don't _____ to set for my ____ water _____.
 I _____ if you know what ____ best temperature ____ for my high-efficiency _____.
 I'm ____ if _____ the best temperature to use _____ high-efficiency _____.
 I ____ what ____ best _____ gas-Powered tankless water heating ____ is.
 I ____ like _____ what _____ temperature ____ for my ____ gas waterheater.
 _____ to know _____ know the optimal _____ high efficiency ____ waterheater.
 _____ to _____ temperature ____ my high-efficiency ____ tankless water heating unit.
 Is it ____ right temperature to use _____ gas-powered ____?
 _____ if you ____ the optimum temperature ____ my ____ gas tankless water _____.
 I'm _____ is for ____ new gas-powered tankless ____ heating unit.
 I need _____ for my fancy gas-powered ____ heaters.
 How _____ nifty ____ gas-tankless ____ be?
 _____ the ____ temperature is for my ____ gas-Powered water ____ device.
 _____ should _____ on ____ gas-powered, high ____ tankless water ____ device?
 The ideal _____ tankless water ____ is being asked.
 _____ to use for my ____ gas-powered tankless ____ heating ____?
 _____ am looking ____ the best temperature ____ my new _____ fired _____ device.
 _____ the best ____ for ____ water heating _____ new gas-powered water ____?
 What ____ the _____ for _____ tankless water heating device?
 I'd like to _____ ideal ____ for ____ new ____ tankless water _____.
 What's the _____ to ____ for _____ efficiency gas _____ water heater?
 _____ tell _____ the right _____ is for my gas ____ water ____?
 _____ know how hot my ____ gas water _____.
 _____ the recommended temp for my ____ high-efficiency ____ water _____.
 _____ the best _____ my high _____ fired tankless water ____?

I _____ for _____ new gas-powered water heating unit.
 _____ temperature be on _____ high _____ tankless water heater.
 What temperature _____ set my high-efficiency _____ in?
 _____ to know _____ you know _____ temperature _____ my _____ efficiency gas _____.
 _____ temperature _____ appropriate _____ my _____ tankless _____ heaters?
 I need to _____ recommended _____ for my new, _____ gas _____.
 What is _____ temperature _____ high-efficiency gas tankless _____?
 _____ to dial in for my _____ gas-powered _____ heater.
 _____ would _____ the recommended _____ adjustment for the _____ instant _____?
 Is the right temperature _____ use for the _____ on my _____?
 What _____ temperature _____ new energy-saving _____ water boiler?
 The best temperature _____ my _____ tankless water _____ unit _____ known.
 What temperature _____ appropriate for _____ water _____ my _____ gas-powered _____ heating _____?
 What temperature should _____ my _____ tankless heater _____?
 _____ best heat _____ a new _____ water unit?
 I _____ know _____ you _____ what the optimal temperature _____ my _____ gas tankless water _____.
 What should the _____ for _____ gas-powered instant hot-water _____?
 I want _____ know _____ temperature for my _____ gas _____.
 I _____ if _____ temp for _____ new high-efficiency gas water heater.
 _____ is the ideal setting _____ my _____ water heating _____?
 I want to know _____ you know _____ the _____ temperature _____ tankless water _____.
 _____ you give me _____ recommendation _____ the _____ heat level for _____ system?
 _____ for a _____ high-efficiency, tankless water _____ appliance?
 _____ what the _____ is for my _____ powered _____ water _____ unit.
 I _____ to _____ the optimum _____ use for _____ heating unit.
 _____ temperature _____ a high- efficiency, gas-powered _____ heating appliance?
 _____ temperature _____ I use for _____ water _____ device?
 What is the best _____ tankless water _____?
 _____ should _____ use for my _____ heater?
 I'm curious _____ temperature for _____ gas-powered water heating _____.
 I want _____ know the _____ temperature _____ use for my _____ water _____.
 _____ temperature do you recommend _____ tankless _____ heater?
 _____ would _____ to know what the _____ is for _____ waterheater.
 _____ correct _____ to use for _____ water _____ unit _____ my new _____ water _____?
 I want to _____ you can _____ the _____ temp _____ high _____ gas water heater.
 _____ know if you know _____ for _____ high-efficiency _____ water heating unit.
 I am _____ as _____ my _____ gas-Powered tankless water _____ device.
 What's _____ temperature for _____ gas water _____ device?
 What temperature _____ set _____ new gas hot-water _____?
 What temperature is _____ my _____ gas fired _____ device?
 The _____ a _____ gas _____ Heater?
 _____ wonder what the _____ temperature _____ my new _____ tankless water _____.
 I'd _____ temp _____ my new, _____ tankless gas water heaters.
 _____ like _____ know _____ ideal _____ my new gas-powered _____ heater.
 _____ me the _____ temp _____ new, _____ tankless gas water heater?
 _____ is the best temperature _____ water heaters?
 I'm wondering _____ know _____ for my high-efficiency gas _____.
 I _____ perfect temperature is _____ my new _____ water heating _____.
 _____ is the _____ use for _____ water _____ unit _____ my new gas- _____ water _____ device?
 _____ like to know the _____ to use _____ gas waterheater.

____ the ____ temperature ____ use for the water heating unit ____ heating ____ ?
 ____ temperature should ____ gas-powered tankless water heaters?
 I need ____ recommended temp ____ my ____ high-efficiency, ____ water Heater.
 ____ is ____ temperature ____ a gas- powered, high- efficiency ____ ?
 ____ the temperature be ____ my ____ efficiency tankless ____ ?
 What temperature should ____ gas water heating ____ ?
 What ____ optimal temperature ____ new ____ efficiency gas ____ water Heaters?
 I ____ know if you ____ best ____ to use ____ gas ____ .
 What ____ high-efficiency gas tankless water boiler?
 What is the optimum ____ use ____ my gas fired ____ ?
 ____ the recommended ____ adjustment for ____ instant hot-water unit?
 I want to ____ the best temperature to use for ____ gas ____ .
 ____ know ____ know ____ temperature is ____ for my high-efficiency ____ tankless ____ heater.
 ____ is the ____ temperature ____ water ____ on my ____ gas-powered ____ Heater?
 Do ____ know ____ best ____ is ____ a ____ gas water ____ ?
 What ____ appropriate ____ for ____ modern ____ energy-saving natural-gas ____ instant-hot-water ____ ?
 What temperature ____ be ____ for my ____ heater.
 What is ____ temperature ____ new ____ hot water ____ ?
 ____ is the ____ a gas-powered, high-efficiency, ____ heating appliance?
 I'm curious ____ perfect ____ my ____ gas-Powered ____ heating device.
 ____ know if ____ can tell me ____ best ____ my ____ water heating unit.
 What ____ the ____ for my new ____ appliance?
 What ____ the temperature ____ gas-powered, ____ efficiency, ____ water heating ____ ?
 I'm wondering ____ give me ____ temp for ____ new high-efficiency gas ____ .
 What ____ to use ____ the ____ heating unit ____ new gas- ____ water heating system?
 I want to know the ____ high-efficiency gas ____ unit.
 I ____ know what ____ set on ____ gas ____ heater.
 What temperature should I set ____ at?
 ____ temperature ____ for ____ new, ____ gas-powered tankless water ____ ?
 ____ to set the temperature ____ my new ____ heater?
 I want ____ know ____ to use ____ my ____ fired tankless ____ heating unit.
 ____ right temperature ____ for my new gas-powered ____ appliance?
 I'm wondering ____ know ____ temperature for my ____ tankless ____ heating ____ .
 ____ optimum temperature for ____ new gas-powered tankless ____ ?
 What ____ the ____ to ____ high efficiency ____ tankless water heating unit?
 I was wondering if you ____ right heat ____ for ____ gas ____ .
 What is the ____ to use for ____ unit?
 ____ you know which heat is best ____ water ____ ?
 What is ____ temperature ____ gas-powered ____ heating system?
 ____ is ____ temperature ____ my new gas-powered water heater?
 ____ to ____ the recommended ____ for my new, ____ water heater.
 ____ temperature should ____ set the high-efficiency ____ tankless ____ ?
 I don't ____ what ____ do ____ the ____ my new ____ water ____ .
 ____ have ____ adjusting the temperature on ____ new gas-fired ____ heating ____ ?
 What's the ____ temperature for ____ water ____ ?
 ____ temperature setting should I use ____ tankless water heating ____ ?
 ____ is ____ my new gas-fired ____ water heating system?
 I want ____ recommended ____ for ____ new, high-efficiency tankless ____ Heater.
 I'm looking for advice ____ the recommended temperature ____ new ____ .
 ____ need ____ know ____ recommended temp ____ my ____ efficiency ____ heater.

What ____ the ____ for ____ new ____ water Heater?
 ____ want ____ know if ____ is a right heat level ____ heater.
 ____ the ____ an ____ gas-powered instant hot-water unit?
 What ____ is ____ for ____ new ____ tankless water boiler?
 ____ the optimal ____ for ____ gas-powered water heating unit?
 What is the best ____ use for ____ heating ____ my ____ heater?
 Tell me ____ best ____ to ____ new gas water ____.
 ____ the ____ temperature for my high-efficiency gas ____?
 I was ____ what ____ temperature ____ my new ____ tankless ____ unit.
 Should the temperature ____ modern natural-gas ____ be adjusted?
 ____ temperature ____ my gas-powered, high-efficiency ____ Heater at?
 What ____ setting should ____ my ____ gas-powered water heating ____?
 ____ know what ____ temp ____ use for my ____ water heater.
 What ____ is ____ best to use ____ fired water heating ____?
 What temperature ____ use ____ new ____ heating appliance?
 Which ____ is ____ my new energy-saving, gas ____?
 What should the ____ on my ____ high ____?
 ____ want ____ know ____ you ____ for my ____ gas water heaters.
 I have ____ tankless. ____ heat ____ I dial ____?
 ____ a recommended thermostat ____ for ____ eco-friendly ____ instant ____ unit?
 ____ to know ____ the best temperature is for my ____.
 ____ the ____ my gas ____ furnace?
 What ____ a ____ powered, high-efficiency, tankless water-tanker?
 ____ best ____ to use ____ the ____ gas-powered ____ heating system?
 I ____ know ____ the temperature is on my ____ efficiency, ____.
 What temperature is appropriate ____ efficiency ____ water ____?
 ____ best ____ use for my new high ____ gas ____ tankless water ____?
 ____ to ____ what ____ best temperature ____ high-efficiency gas tankless ____ is.
 I want ____ if ____ know ____ temperature for ____ high-efficiency ____ water ____ unit.
 I want to know ____ the ____ gas tankless ____ unit.
 What is the ____ temperature ____ use for ____ gas-powered ____?
 I ____ to know ____ recommended ____ for ____ new ____ gas ____ boiler.
 Which setting is best for ____ tankless ____?
 I ____ if you know what the ____ temperature is ____ my ____ tankless ____.
 ____ the ____ setting ____ my high-efficiency ____ heating system?
 ____ temperature is ____ best for ____ gas hot-water ____?
 The ____ high efficiency, tankless ____ heaters should ____ set.
 ____ temperature ____ I ____ set for ____ gas-powered water heaters?
 ____ to use for my ____ tankless ____ heating ____
 I wonder when ____ perfect ____ gas-Powered tankless ____ heating unit.
 ____ the ____ temperature for my ____ tankless water Heaters?
 ____ have ____ new tankless, ____ should I ____ in?
 I ____ to ____ an ____ level ____ my ____ gas-run instant ____ device.
 ____ best ____ to use ____ high efficiency gas fired ____ was asked.
 ____ optimal ____ for my high efficiency ____ water heating ____?
 I need to know ____ recommended temp ____ tankless gas ____.
 ____ should ____ temperature be on a ____ high ____ tankless ____?
 What is ____ for ____ new, ____ gas-powered ____ water heaters?
 ____ want ____ know ____ optimum temperature is ____ tankless water ____ unit.
 ____ is ____ ideal temperature ____ new energy-saving gas-powered ____ device?

____ question ____ the temperature of my ____ tankless water ____.
 The right ____ for ____ powered, high ____ water ____ appliance?
 ____ the best temperature for ____ water ____ system?
 ____ know if ____ the optimal temperature ____ my high-efficiency ____ waterheater.
 I ____ hot ____ tankless gas water ____ should ____.
 I don't ____ temperature ____ for ____ new ____ hot-water system.
 I ____ what ____ right ____ for my ____ tankless ____ heating unit.
 ____ is ____ for my new high ____ fired tankless ____ unit?
 I ____ know if you can ____ temperature for my gas tankless _____.
 ____ need to ____ my new tankless gas ____ heater.
 ____ tell ____ the ____ temperature for ____ new high efficiency gas ____?
 What ____ the ____ be ____ my gas-powered, ____ water ____ devices?
 Can you tell me ____ heat level ____ for my ____ tankless ____?
 What ____ be ____ temperature ____ my ____ high efficiency, tankless ____?
 What is ____ best temperature ____ water heating unit.
 Is the right ____ to use ____ efficiency ____ tankless ____ Heater?
 How hot should ____ be set ____?
 Is ____ temp ____ this fancy ____ heater?
 ____ ideal ____ efficiency ____ snazzy gas water heating device?
 I ____ what the ____ temperature ____ for ____ gas-powered ____ water _____.
 What is the ____ for my ____ gas- ____ appliance?
 Do you recommend ____ for ____ new tankless gas ____?
 ____ like to know ____ use ____ my new ____ efficiency ____ fired tankless water heating ____.
 ____ the temperature for ____ gas-powered, high-efficiency, ____ heating ____?
 What ____ do you ____ for ____ water heating?
 ____ you recommend for ____ new tankless ____ water ____?
 I ____ heat level ____ tankless water heater.
 What ____ the ____ to use ____ gas fired water heating ____?
 How hot ____ the best ____ my ____ efficiency gas fired ____ unit?
 What's the perfect temperature for ____ tankless ____?
 ____ tell me the ____ temp ____ my new gas-powered water ____?
 Can ____ tell ____ the right ____ level is ____ my ____ water heating ____?
 What is the ____ on my ____ water ____?
 ____ thermostat ____ for ____ gas-powered instant ____ unit?
 ____ the optimal ____ to ____ for my ____ high efficiency ____ tankless water ____?
 What ____ for my high-efficiency ____ water heater?
 What ____ right temperature for ____ gas-powered ____ heater?
 I need to know ____ ideal temperature ____ new _____.
 What ____ temperature ____ my new ____ powered water heating system?
 ____ want to know if you know the ____ to ____ my ____ efficiency gas _____.
 ____ help me ____ thermostat ____ my efficient, gas-run ____ hot-water device?
 I ____ to ____ if you know ____ optimal ____ my high ____ heating ____.
 I want ____ the temperature ____ best ____ my ____ waterheater.
 I ____ the ____ temp ____ my new high efficiency ____ heater.
 What ____ appropriate temperature to use ____ new ____ efficiency ____ heating device?
 I ____ what the optimum ____ is for my ____ tankless ____ heating ____.
 ____ to ____ if ____ know the best temperature ____ my ____ water heating ____.
 ____ to ____ what ____ best temperature ____ for ____ high-efficiency gas ____ heating ____.
 ____ is the ____ temperature to ____ for the ____ on my ____ water heating ____?
 ____ the best ____ to use ____ efficiency gas fired tankless ____ machine?

_____ to use for my new _____ tankless water _____ device?

Is it _____ for a gas-powered, high- _____?

_____ is _____ best _____ to _____ for _____ new gas- _____ heating unit?

_____ be adjusted _____ modern natural-gas _____ hot _____ system?

_____ best _____ for the _____ gas _____?

_____ should temperature be _____ on a modern _____ instant _____?

_____ temperature _____ my new gas-powered _____ heating unit is being _____.

I _____ if you know _____ for my _____ tankless waterheater.

What is the best _____ gas _____ unit?

_____ wonder _____ the _____ for my _____ gas-Powered tankless _____ unit is.

What's _____ temp for _____ high-efficiency _____?

How hot _____ new high efficiency _____ fired tankless water _____?

_____ a _____ natural-gas instant hot water _____?

What _____ temperature to use for _____ new _____ unit?

_____ want to know if _____ know _____ temperature is best _____ gas _____.

_____ the _____ temperature _____ use for _____ new _____ efficiency gas fired _____ heaters?

_____ don't know _____ on my _____ tankless water boiler.

_____ temperature _____ appropriate _____ my _____ powered tankless _____ heating unit?

I _____ the perfect _____ new gas-Powered tankless _____ heating unit.

_____ is _____ to _____ for my new high _____ fired _____ water heatingunit?

I'd like to _____ the _____ new high-efficiency tankless _____ water _____.

_____ is the best _____ new high efficiency gas _____ water heaters?

_____ temp _____ I _____ for my fancy _____ heater?

What _____ temperature _____ my gas-powered, high _____ tankless water _____?

What is _____ best _____ for a gas- powered _____ heating _____?

What _____ should _____ gas hot water appliance?

_____ need to _____ the best _____ for _____ high-efficiency _____ heating unit.

I _____ know what _____ to _____ in on _____ tankless.

_____ wonder _____ the temperature _____ for my _____ tankless _____ device.

I _____ you _____ recommend the _____ level for _____ gas tankless _____ heating device.

I want _____ know _____ the _____ is _____ gas waterheater.

_____ be the _____ on _____ gas-powered, high _____ tankless _____ heater?

Can you _____ me what _____ right heat _____ is _____ my _____?

_____ not _____ the _____ temp is _____ this fancy _____ water _____.

What is _____ temperature _____ new high efficiency gas _____ water _____?

_____ need _____ temperature _____ my _____ high-efficiency _____ tankless water heater.

_____ should I set for _____ hot water _____?

_____ the _____ for my new _____ fired tankless _____ device?

_____ do I _____ the _____ for _____ high-performing gas-powered _____ water _____?

_____ wonder what's _____ temperature for _____ gas- powered _____ heating unit.

What temperature _____ for my _____ tankless _____ heating _____?

What _____ for _____ high efficiency _____ fired tankless water _____?

_____ temperature is _____ for _____ new _____ efficiency gas _____ tankless _____ heating _____.

The _____ temperature to use _____ tankless _____ appliance?

What _____ the recommended temperature _____ an _____ instant _____ unit?

What _____ is _____ use _____ new _____ efficiency gas fired _____ Heater?

_____ want _____ if _____ know the right _____ for _____ gas _____ unit.

_____ the _____ is _____ new gas-powered water heating device.

_____ I need _____ my fancy gas-powered water heater?

What _____ the right _____ for my _____ tankless _____?

____ the ____ temperature for my ____ gas ____ heater?
 ____ the ____ temperature for my ____ gas-Powered tankless ____ unit.
 ____ optimal temperature ____ use for the water heating ____ gas-powered ____ heater?
 ____ decide ____ the right ____ my high-efficiency gas tankless ____ heater.
 I want to know ____ you ____ optimum ____ for ____ tankless water ____ .
 ____ temperature ____ I use ____ my fancy ____ water ____ .
 ____ hot should this ____ be?
 ____ for a ____ high-efficiency, tankless ____ ?
 ____ perfect ____ for ____ new ____ water heating ____ is ____ mystery.
 ____ to ____ if ____ know the optimal temperature ____ high-efficiency gas tankless ____ .
 ____ is the ____ temperature to ____ a gas- ____ high- ____ water heating ____ ?
 ____ wondering if ____ can ____ the recommended temperature ____ my ____ efficiency gas ____ .
 There is a question about ____ tankless ____ Heater.
 I ____ to ____ best temperature to ____ for my ____ gas-powered ____ .
 ____ want to know ____ can recommend the ____ heat ____ for ____ high-efficiency ____ water ____ .
 Is the correct temperature ____ a gas-powered, ____ appliance?
 ____ is the ____ for a gas-powered, ____ water-tanker?
 Which ____ the best ____ my ____ high efficiency ____ fired ____ heating ____ ?
 I want to ____ if ____ know ____ is ____ my ____ tankless ____ heater.
 Which ____ the best temperature ____ use for ____ tankless ____ heating unit?
 ____ best temperature to ____ my ____ gas fired tankless ____ ?
 I'm ____ you can ____ me ____ temperature for my ____ gas water ____ .
 ____ what ____ temperature is for ____ new ____ powered water heating ____ .
 How ____ the thermostat be ____ eco-friendly ____ hot-water unit?
 What is ____ temperature for ____ gas ____ heating ____ ?
 ____ what ____ perfect ____ is for my ____ tankless water ____ .
 What's ____ best temperature ____ gas-powered water boiler?
 ____ temperature is appropriate for my ____ gas ____ ?
 I want ____ know ____ you ____ right ____ for ____ gas ____ heaters.
 What ____ ideal temperature to ____ high efficiency gas fired ____ water ____ ?
 ____ should I set ____ my ____ gas ____ system?
 ____ don't ____ the ____ for my new gas-powered ____ Heater.
 What is the right ____ a ____ high- ____ ?
 How ____ should ____ snazzy ____ dealie ____ ?
 ____ what ____ ideal temperature is ____ gas- powered ____ heating unit.
 What temperature is best ____ use ____ my high efficiency ____ ?
 What ____ the ____ setting for ____ high-efficiency ____ heating ____ ?
 Is there ____ temperature ____ my ____ high ____ water ____ ?
 ____ is ____ ideal temperature for my gas-powered, ____ water ____ ?
 What temperature is ____ right for ____ efficiency, ____ water heating ____ ?
 What temperature is ____ for ____ gas ____ water ____ ?
 Where is ____ best ____ for my new ____ tankless ____ unit?
 I ____ to know ____ you know the ____ my gas ____ waterheater.
 ____ should be the ____ on ____ water heater?
 What ____ the ____ temperature ____ for my new ____ heating device?
 ____ know ____ the temperature should ____ for this ____ gas-powered ____ .
 ____ the perfect temperature is ____ my new ____ device.
 What ____ a ____ thermostat adjustment ____ an ____ hot-water ____ ?
 What is ____ optimal ____ to use for ____ fired water ____ ?
 ____ is the right temperature for ____ high-efficiency, ____ water ____ ?

I would _____ know what _____ optimum temperature is for _____ water _____.

I _____ know _____ right _____ level for my gas _____ water _____.

I _____ perfect temperature is _____ the new gas-Powered _____ heating _____.

_____ it the _____ temperature _____ my _____ efficiency gas _____ tankless water Heater?

What _____ for _____ new _____ water heating unit?

_____ the perfect temperature is for my _____ tankless water _____.

_____ the _____ temperature _____ high efficiency _____ tankless water heating unit?

What is _____ to _____ for my new high _____ gas _____ tankless _____.

What is the correct temperature to _____ for _____ tankless _____ Heater?

I _____ perfect temperature is for my _____ gas-Powered tankless water _____.

_____ a _____ the _____ on _____ high _____ tankless water heaters.

I'd like _____ the best temperature for my _____ gas _____.

_____ is best _____ my _____ high _____ gas _____ tankless water _____?

_____ it _____ good idea to use a _____ new gas-powered _____?

I _____ know the best temperature _____ my _____ fired water heating unit.

The ideal temp to _____ on _____ gas _____ appliance?

What _____ settings should _____ my _____ water heater?

I _____ to know the recommended temperature _____ gas _____ heater.

Where _____ best _____ my high-efficiency gas water _____?

I don't _____ optimum _____ is _____ my _____ gas-Powered _____ water heating _____.

_____ the temperature be for my _____ water heaters?

What _____ use _____ new gas water heating _____?

_____ what the _____ is for _____ gas-powered water heater.

What _____ for _____ powered, high efficiency, tankless water heating _____?

Can _____ tell me _____ temperature _____ a _____ gas water _____?

_____ to _____ know what _____ temperature is for my _____ tankless water heating unit.

What _____ to use _____ my _____ gas fired tankless water heating _____?

Which _____ is the best _____ my _____ gas _____?

The best _____ to use _____ my _____ gas-powered _____ heating _____ a _____.

_____ want _____ know if you _____ the right temperature _____ high-efficiency gas _____.

What is _____ optimum _____ for _____ gas-powered _____ device?

_____ best _____ for _____ gas _____ Heater?

_____ optimum temperature for the _____ high _____ fired tankless water _____?

_____ temperature do you _____ new _____ gas water heating _____?

_____ you _____ to _____ the right heat level for _____ high-efficiency _____?

_____ use my _____ gas tankless heater in?

_____ me the temperature of _____ water unit?

I want to _____ if you _____ right _____ for _____ tankless _____.

_____ right _____ a gas-powered, high efficiency, tankless _____?

What temperature is _____ for _____ new high _____ gas _____ unit?

What _____ the _____ use _____ my _____ gas-powered tankless unit?

_____ using a modern _____ saving _____ powered instant-hot-water device, what _____ set?

What _____ temperature _____ my new _____ water heater?

What _____ the best _____ to _____ for _____ efficiency gas _____ tankless water _____.

_____ want _____ know _____ know _____ best _____ use for _____ tankless water heater.

_____ temperature _____ use _____ my _____ efficiency _____ fired _____ water heating device.

Can _____ about _____ right _____ for my high-efficiency _____ tankless _____ heater?

_____ the ideal _____ for _____ new _____ water heater?

_____ know what the _____ for _____ new _____ powered tankless _____ heating unit.

I want _____ if you _____ the _____ temperature _____ for my _____ boiler.

What is _____ use _____ new gas-powered tankless _____ heating unit.

What's _____ best temperature _____ for _____ new _____ gas-powered _____ heater?

I _____ know _____ hot _____ tankless _____ should be.

_____ wonder _____ temperature is for my _____ gas _____ heating device.

_____ need _____ on _____ level _____ high-efficiency gas tankless water heater.

What's _____ temperature to _____ new _____ powered tankless water heating _____?

I want _____ know _____ for my _____ tankless water heater.

Is _____ to use for my new _____ fired _____?

_____ is the best _____ to _____ for _____ water _____ unit _____ my new _____ powered _____ heating _____?

What is _____ optimal temperature _____ use _____ the water _____ gas-powered _____ heating system?

_____ is the best temperature _____ tankless _____ Heater?

_____ the ideal temperature for _____ new gas-powered _____?

_____ temperature _____ for my new _____ efficiency _____ fired _____ water _____ device?

_____ is the _____ for my high efficiency _____ fired tankless _____?

_____ recommended _____ for my new high efficiency _____ water heating _____?

_____ the temperature _____ a gas-powered _____ heating device?

I wonder if _____ my _____ gas- powered water heating _____.

_____ is the optimum temperature for _____ tankless _____?

What is _____ temperature _____ efficiency, gas powered, tankless _____ heating _____?

What is _____ my new gas-Powered _____ water _____ device?

_____ the temperature _____ my gas-powered, high efficiency, _____ heater _____?

_____ the _____ temperature be for my _____ high _____ fired _____ heating device?

_____ temperature _____ use for _____ new gas-powered tankless _____ heating _____.

What is the optimal _____ this _____ water _____?

_____ want to know _____ you know _____ temperature is for my _____.

What's _____ for a _____ efficiency, tankless _____ heating appliance?

_____ temperature _____ my _____ gas _____ heater _____ set to?

_____ don't _____ what temperature I should use _____ my _____ heater.

_____ a _____ for _____ energy-saving, gas tankless hot-water _____.

_____ temperature should _____ set _____ high-efficiency water Heater?

_____ my gas-powered tankless water _____ unit at?

I'm wondering _____ can _____ the recommended temp _____ new high _____ water _____.

I don't _____ what _____ is for _____ tankless water _____ unit.

I'm curious _____ perfect _____ for my _____ gas powered tankless _____.

I want to _____ the _____ heat _____ for _____ gas tankless _____ heater.

_____ the _____ use for the _____ unit, on my _____ water heating system?

I _____ for my new gas-Powered _____ water _____ unit.

_____ about the perfect _____ my new _____ heating device.

_____ for my new energy-saving _____ water heater?

_____ need to _____ recommended temp _____ my _____ gas water heating _____.

_____ the optimum _____ high-efficiency gas _____ heating device?

_____ is best for _____ tankless _____ heating appliance?

_____ need to _____ recommended _____ my new, _____ tankless _____ water _____ unit.

_____ wonder _____ ideal temperature is _____ new gas-Powered _____ heating _____.

The _____ use for _____ new _____ gas fired tankless _____ is not _____.

_____ heater temperature?

What temperature should _____ for _____ tankless heater?

What is _____ temperature to use _____ new _____ efficiency gas _____ tankless _____?

_____ the best temperature for _____ new gas _____ water _____?

_____ optimum temperature to _____ a new high _____ water heating device?

What should _____ on my _____ efficiency, _____ water heaters.
 _____ what _____ temperature should _____ for my fancy _____ heater.
 I'm _____ the _____ temperature _____ my _____ gas powered _____ water heating _____.
 I would _____ to know _____ temperature _____ my _____ heating unit.
 I'm curious about the temperature _____ gas-Powered tankless _____.
 _____ is the ideal temperature to _____ for _____ new _____?
 I _____ know _____ optimum temperature for my _____ waterheater.
 _____ you _____ me advice on _____ right heat _____ my high-efficiency _____ water _____?
 What _____ I set for my _____ tankless _____?
 What _____ I _____ for _____ gas-powered _____ heating unit?
 _____ know if you _____ tell me _____ best temperature _____ my _____ gas _____.
 _____ temperature should _____ used _____ tankless water heater?
 _____ is _____ best temperature _____ for _____ high efficiency _____ fired water _____?
 _____ to know what temperature _____ high-efficiency _____ tankless _____ heating unit.
 _____ what the _____ for my new _____ water _____ unit is.
 I want to _____ temperature _____ for _____ gas tankless waterheater.
 _____ the right setting _____ my gas _____ heating _____?
 _____ need to _____ the _____ my new, _____ tankless _____ water _____ unit.
 _____ don't _____ what _____ optimum temperature is for _____ gas _____.
 What temperature _____ be used _____ efficiency, _____ water _____ appliance?
 _____ the _____ temperature for a gas-powered, _____ efficiency, _____ heating _____?
 What should the temperature _____ gas-powered, high _____ tankless _____?
 _____ hot _____ snazzy high efficiency _____ be?
 What _____ the best _____ use for _____ gas powered _____?
 What _____ is best _____ my _____ efficiency _____ tankless water _____?
 What's the optimum _____ my new _____ fired _____ Heater?
 _____ temperature _____ I keep _____ efficiency, tankless water _____ at?
 What _____ temperature for a _____ efficiency, tankless water _____
 _____ the _____ temperature to use for _____ unit _____ my _____ water Heater?
 What is _____ temperature _____ use _____ new highefficiency _____ tankless _____ Heater?
 What temperature is _____ high-efficiency _____ water Heater?
 _____ temperature should _____ for my new _____ efficiency _____ fired _____ water _____.
 _____ the _____ temperature _____ use for my _____ fired _____ water heaters?
 I want _____ you know what the _____ is for _____ gas _____.
 What should _____ on my gas-powered, high efficiency _____?
 I want to _____ what _____ is _____ gas _____ water heating _____.
 I _____ know what the _____ is for _____ gas-Powered _____ water _____.
 _____ best _____ for my _____ tankless _____ heating unit?
 Is it _____ temperature to use for _____ water _____?
 What is the appropriate temperature _____ high-efficiency _____?
 What _____ should _____ use _____ my new, _____ water heater?
 _____ would like to _____ the optimum temperature _____ my _____.
 _____ is a question _____ right _____ for a gas-powered, _____ efficiency, _____.
 I _____ to _____ the _____ gas-powered tankless water heating _____.
 What _____ should be _____ on my _____ tankless hot-water _____?
 _____ best setting for _____ water heating unit?
 _____ need to know _____ temp for _____ new, high-efficiency _____ Heater.
 _____ is the _____ temperature _____ a gas- _____ high- _____ water-tanker?
 What _____ temperature for a _____ powered, high- efficiency, _____?
 What should _____ temperature _____ on _____ gas powered _____?

____ temperature is ____ for ____ new high ____ fired ____ heating unit?
 ____ is ____ to use for my new high ____ gas ____
 I don't know ____ temperature is ____ fancy ____ boiler.
 What ____ the ____ temperature for ____ gas-powered tankless ____ heating ____?
 ____ is ____ ideal temperature ____ my ____ gas-fired tankless ____?
 ____ ideal ____ maximize ____ on this snazzy ____ water boiler?
 What ____ I use ____ gas-powered tankless water heater?
 Can you tell ____ temp ____ my ____ high-efficiency gas ____?
 ____ the temperature ____ on ____ gas-powered, high ____ water heaters?
 What temperature ____ for ____ high-efficiency gas-powered tankless ____ Heaters?
 ____ wonder if ____ ideal temperature is for my ____ tankless ____.
 ____ curious about ____ optimum temperature ____ gas-Powered tankless water ____.
 ____ is the correct setting ____ high ____ water ____?
 What's ____ right ____ a ____ high-efficiency, ____ water-tanker?
 I ____ if the ____ temperature is for ____ new ____ heating ____.
 ____ want to know the ____ new, high-efficiency ____ water ____ unit.
 ____ to know what ____ optimum temperature is ____ my high-efficiency ____ water ____.
 Is ____ recommend the ____ heat level ____ my high-efficiency ____ water ____?
 ____ temperature ____ be used ____ my ____ water heating ____?
 I ____ like to ____ temperature ____ my new, high-efficiency ____ heater.
 ____ don't know what the ideal temperature ____ my new ____ device.
 ____ was wondering ____ you ____ give ____ recommended ____ for my ____ high efficiency gas ____.
 I don't know ____ the proper temperature is ____.
 What should the ____ of my ____ be ____?
 I ____ know ____ the ____ fancy gas-powered water heater.
 Which is the ____ for ____ new ____ unit?
 Which ____ set for ____ new gas hot-water ____.
 I would like ____ the best ____ high-efficiency gas tankless water ____.
 What ____ to use ____ my gas ____ water ____ appliance?
 ____ the perfect ____ is for my new gas-powered ____ water ____.
 I'm ____ need ____ a ____ level for ____ gas tankless ____.
 What temperature ____ set my gas ____ at?
 I'm not ____ what the perfect temperature ____ my new ____.
 ____ is ____ for my gas-powered tankless ____ heating ____?
 ____ is best for ____ efficiency ____ fired tankless ____ Heaters?
 ____ is the right ____ for ____ gas- powered ____ tankless ____ heating ____?
 ____ don't ____ what the ____ temperature is for ____ new gas-Powered ____.
 ____ is the right temperature ____ my new ____ heating ____?
 ____ to ____ the ____ temperature ____ use ____ new high efficiency ____ tankless water Heaters.
 What ____ set for my gas ____ hot-water ____?
 What is ____ optimal ____ use ____ tankless water heating device?
 ____ don't know what the ____ temperature is ____ powered water ____.
 What is ____ temperature ____ a ____ powered, ____ efficiency, tankless ____ appliance?
 ____ optimal ____ for my new high ____ gas ____ tankless ____ heater?
 ____ is ____ right setting for ____ water heater?
 What ____ is best ____ for ____ new gas ____ tankless ____ heating ____?
 ____ temperature ____ for my ____ tankless water heating ____?
 ____ temperature is ____ use ____ my new ____ efficiency ____ fired ____ heating device?
 ____ best ____ to ____ for ____ gas fired ____ water heating device
 ____ temperature for my ____ gas ____ heaters?

_____ should the _____ adjusted _____ the _____ natural-gas instant hot _____ ?
 What _____ the _____ temperature to use _____ tankless water Heater?
 _____ temperature for the water heating _____ on _____ new gas-powered water _____ ?
 _____ you have any _____ the right _____ for _____ gas _____ water heater?
 _____ ideal temperature to _____ for my _____ tankless _____ appliance?
 _____ temperature _____ my new _____ gas hot-water system?
 What _____ the _____ temperature to use _____ on my _____ gas-powered _____ heating appliance?
 What _____ the _____ for my new _____ tankless _____ appliance?
 I _____ to _____ if you _____ the best _____ for _____ gas water _____ .
 What is _____ temperature _____ my high-efficiency gas _____ .
 What _____ temperature for _____ new gas-fired tankless _____ heating _____ ?
 I _____ know _____ best _____ is for my _____ waterheater.
 What is _____ optimum _____ for _____ heating unit _____ gas-powered _____ heating system?
 _____ me the _____ level for my gas tankless _____ ?
 I _____ know the best temperature _____ my new _____ .
 Is there _____ for adjusting _____ temperature on _____ new _____ water _____ ?
 What _____ the _____ use _____ my new _____ fired water _____ ?
 What _____ the recommended _____ unit on _____ new gas-powered _____ heating system?
 What temperature is _____ gas-powered _____ water heating _____ ?
 _____ want to _____ the ideal temperature for _____ heater.
 What _____ best temperature for _____ gas-powered, _____ heating appliance?
 How hot _____ to use this fancy _____ heating _____ ?
 What _____ the _____ temperature for _____ gas- _____ efficiency, tankless _____ ?
 What _____ is _____ my _____ high efficiency _____ fired tankless water _____ ?
 I'm looking _____ level _____ my high-efficiency _____ tankless _____ heater.
 What temperature _____ be on _____ high efficiency, _____ heating _____ ?
 I don't _____ ideal temp _____ for _____ fancy _____ water _____ .
 _____ to _____ know the best temperature for my high-efficiency _____ heating _____
 What _____ the _____ for the water heating unit _____ new _____ ?
 There is a _____ the _____ for a gas-powered, _____ efficiency, _____ water _____ .
 I _____ like _____ know _____ best _____ my _____ tankless water heaters.
 What's the _____ to _____ my _____ gas-powered _____ heating device?
 _____ ideal temperature is for my gas-Powered _____ device.
 _____ want to _____ temperature _____ best for _____ gas tankless water _____ .
 Which temperature is _____ new energy-saving _____ hot-water _____ ?
 I want to know if you _____ right _____ waterheater.
 _____ best temperature _____ use for my _____ gas _____ heating appliance?
 Can you _____ a recommendation _____ the _____ heat level for _____ gas _____ ?
 I _____ the right heat level is for _____ high-efficiency gas _____ .
 _____ know the best temperature for my high-efficiency gas _____ .
 How about _____ the thermostat for _____ unit?
 _____ would _____ to _____ best _____ use for _____ gas tankless waterheater.
 _____ should I use _____ new high _____ gas fired _____ water _____ ?
 The _____ temperature to use _____ water _____ unit _____ my new _____ appliance?
 _____ the _____ be _____ my gas-powered tankless _____ appliance?
 I'd like _____ know _____ perfect _____ new gas-Powered tankless _____ heating _____ .
 _____ is the optimum _____ for my _____ gas-powered water _____ ?
 What is _____ best _____ for _____ high-efficiency gas _____ ?
 _____ would like _____ heat _____ my high-efficiency _____ tankless water heater.
 _____ temperature on my _____ water heating system?

How ____ I find the right setting ____ high-performance ____ unit?
 ____ what the optimal temperature is ____ my gas ____.

What temperature is ____ for my new ____?
 ____ is ____ optimal temperature ____ use for ____ heating unit in ____ new ____ heating ____?
 ____ optimal ____ a ____ high-efficiency, tankless ____ heating appliance?
 ____ best ____ to use for ____ gas-powered water heaters?

I ____ know ____ my new high efficiency gas water ____.

I want ____ know ____ use for ____ high ____ gas fired tankless ____ heating ____.

What range ____ set my thermostat at ____ modern setup ____ gas ____ its ____ source to heat ____ H2O

I want ____ what ____ on my ____ gas-powered tankless water ____.

What's ____ temperature ____ use ____ my new ____ water ____ appliance?
 ____ to use ____ the ____ unit on ____ new gas-powered water ____ system?
 ____ like to know ____ temp for ____ tankless ____ water heater.
 ____ temperature is optimal ____ new gas-powered ____ unit?
 ____ best temperature for my ____ gas-powered ____ appliance?
 ____ is ____ best ____ my new gas-powered ____ water heating appliance?
 ____ temperature ____ think ____ for my new gas water ____?
 ____ for my ____ energy-saving, gas tankless hot-water ____?
 ____ want ____ know if ____ is ____ right heat ____ high-efficiency gas ____ heater.

I wonder what ____ perfect ____ my new ____ water ____.

____ is the ideal temperature for ____ high efficiency ____ heating ____?

The ____ to ____ for ____ energy-saving gas-powered ____ heaters?
 ____ the ____ temperature ____ for my ____ gas water heater.

I ____ to know ____ is best ____ my high-efficiency ____ tankless ____.

I ____ what ____ is for ____ new gas ____ water heating ____.

____ should be the ____ gas-powered, high efficiency, ____ water ____?

What's the ____ use for ____ water heating system?

I need to know ____ the best heat ____ new ____.

____ want to know what ____ for my ____ tankless ____ unit.

What ____ the optimal setting for ____ water ____?

I want ____ the ____ my gas ____ waterheater.

What's the ____ for ____ gas- ____ water heating appliance?
 ____ temperature setting ____ appropriate for my new, ____ water ____?

What ____ the right ____ a high ____ gas ____ heating appliance?

What ____ thermostat ____ adjusted ____ an eco-friendly gas-powered ____ hot-water ____?

What is ____ ideal ____ for my ____ tankless ____ heater?

What is the ____ for ____ water boiler?

The ____ my ____ energy-saving ____ water heater?

I want to ____ my new gas ____ system.
 ____ use for my ____ gas-powered tankless water heating ____?

What's the optimal ____ for ____ high ____ gas ____ water ____?

____ what ____ ideal temperature is ____ my ____ gas-Powered ____ water ____ device.
 ____ know ____ optimum temperature for my high-efficiency ____ tankless water Heater.

I want to know the ____ temperature ____ high-efficiency, ____ heating ____.

____ is ____ right temperature ____ gas ____ efficiency, tankless ____ heating appliance.

____ don't know what temp ____ the ____ heater at.

What's ____ best ____ high-efficiency gas ____ Heater?

____ the ____ be ____ my gas-powered, high efficiency, ____ heaters?

What temperature ____ I ____ my ____ gas-powered ____ Heater?
 ____ about the best heat for ____ unit?

_____ need _____ know the _____ temperature _____ use for my _____ high _____ fired _____ water _____.

_____ is _____ best for my new energy-saving, _____ tankless _____?

_____ am _____ for _____ best _____ for my _____ high _____ fired _____ water _____ unit.

I want _____ know if _____ the right _____ tankless water _____ unit

_____ is _____ correct _____ for my new _____ gas fired tankless _____ heater?

_____ my new gas-powered water heating device?

_____ do I _____ my high-efficiency _____ tankless _____ to _____?

_____ don't _____ what _____ temp _____ for _____ fancy _____ water heater.

The _____ temperature for a new _____?

I wonder if _____ ideal _____ new gas-Powered tankless _____ heating _____.

_____ is the _____ for _____ gas water _____ device?

_____ the ideal _____ for my new energy-saving _____ water _____?

For _____ efficiency _____ this _____ setup using natural _____ as _____ fuel _____ up H2O, what _____ should _____ thermostat

_____ optimal _____ for my high-efficiency _____ tankless heater?

What range _____ my thermostat _____ for optimal _____ with this _____ using _____ as its fuel _____ to heat _____

What is the _____ temperature _____ use for _____ efficiency, _____ water _____?

_____ is _____ best _____ my gas _____ water _____ system?

What is _____ best heat _____ the _____ unit?

_____ temperature _____ I _____ tankless heater to?

_____ the right _____ dial in on _____ new _____?

I _____ what the ideal _____ for _____ fancy _____ heater.

_____ temperature _____ appropriate for my new, _____ gas-powered _____ water _____?

_____ should I _____ for my _____ gas-powered tankless water _____?

_____ like _____ if _____ know _____ right temperature _____ my high-efficiency gas tankless _____.

What is _____ for my _____ gas _____ heating unit?

_____ the warmest temperature _____ for _____ efficiency gas fired tankless _____ heating _____?

_____ is _____ temperature for a gas-powered, _____ tankless _____?

_____ the recommended temperature _____ the _____ gas-powered _____ hot-water _____?

_____ you _____ recommended temperature for my _____ tankless gas _____ device?

I _____ know _____ temp to use _____ fancy gas-powered _____.

What is _____ temperature for my new _____ gas-powered _____?

_____ is _____ right _____ to _____ for my new _____ fired _____ heating _____?

How should _____ be _____ an _____ gas-powered instant hot-water _____?

_____ to know _____ ideal _____ is for my _____ water heater.

What _____ I set my _____ gas _____ hot-water _____ at?

Which _____ I set _____ new energy-saving gas _____?

I _____ to _____ the _____ my _____ tankless water heater.

_____ temperature _____ best _____ use _____ my _____ high efficiency _____ water Heater?

_____ is the _____ for a _____ efficiency, tankless _____?

What _____ the _____ new gas tankless water _____ device?

What _____ is _____ best _____ my _____ water heating unit?

_____ I _____ for my fancy gas-powered water _____?

_____ temperature is ideal _____ my new _____ tankless _____?

_____ temperature _____ for _____ gas- _____ tankless water heating appliance?

I _____ know the _____ temperature for _____ high-efficiency gas _____ heating _____.

There are _____ regarding _____ selection _____ this _____ power efficient, _____ natural-gas-controlled H2O

Which _____ should be set _____ energy-saving, gas _____ hot-water _____?

_____ the _____ to use _____ my new _____ efficiency gas fired _____ heating _____?

_____ temperature _____ for my fancy gas-powered _____ Heater?

_____ should _____ my _____ high efficiency, _____ water heating system.

What _____ for my _____ high-efficiency water Heater?

_____ best temperature _____ use _____ my gas _____ tankless _____ unit?

What's the right _____ my _____ heater?

What _____ for my new gas _____ tankless water heating _____?

What is the _____ thermostat _____ gas-powered instant _____ unit?

I _____ know _____ use for my new gas-powered _____ heater.

_____ is the best _____ gas-powered water heating _____?

I would _____ to know _____ know _____ temperature _____ high-efficiency gas tankless _____.

_____ for a _____ tankless water heating appliance?

_____ is the _____ to use for my _____ gas- _____ water _____?

_____ what is the ideal _____ my new _____ water heating _____.

_____ want to _____ that's best for _____ high-efficiency _____ tankless _____.

_____ don't _____ what _____ to set _____ gas tankless _____.

_____ setting is _____ my new gas-fired _____ heating _____?

_____ to _____ if the best _____ my high-efficiency gas _____ waterheater.

_____ temperature for _____ new high _____ fired tankless _____ heating unit.

_____ temperature _____ I use _____ my gas-powered, high _____ heaters?

_____ ideal temperature for _____ new _____ water Heater?
