

[Demo] NLP Dataset for Customer Service Automation

Company Type	Natural Gas Companies
Inquiry Category	Guidance on energy-saving tips
Inquiry Sub-Category	Thermostat programming
Description	Customers wanting assistance with programming their thermostats to optimize energy usage and comfort levels.
Data Size	5,127 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Natural Gas Company" customer inquiry. (Purchased data will not be masked.)

Are there specific _____ temperature ranges to _____ programming my _____ for _____ savings and _____?
_____ a way _____ energy efficiency _____ comfort at certain times?

Is it _____ time _____ that will _____ save energy _____ a _____ home using my smart _____?
_____ a specific schedule or range of temperatures _____ can _____ programmed into my _____ as
personalized _____?

Is _____ possible to program my thermostat _____ at _____ of the _____?

If _____ want to _____ energy savings _____ comfort with _____ thermostat, _____ should _____ times and _____.
_____ there _____ temperature _____ when to program _____ smart thermostats?

Can _____ set _____ time intervals _____ energy and _____ with my _____?

What _____ recommended _____ intervals _____ temperatures for _____ thermostats?
_____ do _____ recommend _____ settings and _____ frames for _____ smart _____?

Can _____ set specific time _____ ranges _____ and stay _____ my smart thermostat?

If I _____ up my thermostat for _____ efficiency _____ comfort levels, _____ I _____ periods _____ temperature _____?
_____ I need _____ intervals _____ temperature settings _____ my smart _____?

_____ I program certain _____ temperatures _____ my thermostat _____ energy?

To save _____ and ensure _____ comfortable _____ I _____ the time intervals _____?
_____ time _____ and _____ smart thermostat settings?

Can you _____ any _____ ranges that would _____ save _____ maintain comfort _____ my smart thermostat?
_____ it _____ for time _____ or warm levels when _____ up my _____?

_____ programming _____ are the _____ time _____ thermal _____ that will yield both _____ savings and _____ comfort _____?

Is it _____ program my _____ thermostat _____ comfort and _____ certain _____?
_____ it possible _____ improve comfort in _____ thermostat _____ temperature ranges?

_____ I _____ maximize _____ and comfort _____ my _____ are _____ specific times _____ temperature ranges _____ I should _____?

Is there _____ or _____ settings _____ can _____ to save energy _____ keep my _____?

Does _____ specific _____ temperature _____ me _____ comfort in my thermostat?
_____ it necessary _____ follow time intervals _____ temperature _____ my smart _____?

_____ know about _____ temperature _____ and _____ frames _____ my smart thermostat.

Should _____ certain _____ periods or temperature thresholds _____ my smart _____ optimal energy _____
comfort?

_____ any _____ of _____ frames _____ temperature _____ can help me save _____ maintain a comfortable _____?
_____ time periods or _____ a smart _____?

Does _____ make sense _____ specific _____ and _____ my thermostats?
 _____ necessary _____ account for time frames _____ setting up the _____ thermostat?
 For _____ energy _____ and _____ with _____ thermostat _____ intervals _____ temperature ranges necessary?
 What are _____ and temperature _____ comfort with _____ smart _____?
 _____ a _____ or temperature _____ for efficient programming of _____?
 Is _____ to _____ thermostat _____ efficient _____ within a certain time period?
 Is it _____ program _____ for energy _____ comfort _____ times _____ temperature ranges?
 To _____ a _____ how should I set the time _____ my _____?
 _____ I follow _____ ranges _____ programming my thermostat?
 _____ programming my _____ thermostats _____ and comfort, are _____ specific time _____?
 _____ programming my _____ for savings and _____ are there _____ frames _____?
 Do I need _____ periods _____ temperature _____ comfort _____ energy savings?
 _____ save energy _____ have _____ should I set _____ intervals on _____ thermostat?
 _____ set _____ frames _____ temperature _____ that can help me _____ energy _____ keep _____ home comfortable?
 Should I determine _____ ideal _____ and _____ ranges for _____?
 Is _____ recommended time _____ temperature for _____ programming _____?
 _____ should _____ choose the _____ time _____ and _____ ranges _____ smart thermostat?
 Can _____ tell me the _____ and _____ smart thermostats?
 _____ there _____ times _____ temperature ranges _____ I should consider _____ maximize _____ and comfort _____ thermostat?
 _____ I _____ certain _____ periods in mind _____ setting _____ my smart _____ for _____?
 Is it _____ time _____ and temperature ranges _____ and _____ comfortable?
 What _____ to maximize energy savings _____ comfort _____ my thermostats?
 Energy-friendly hours _____ temp _____ settings?
 _____ don't _____ if _____ are specific _____ temperature ranges that I _____ my thermostat.
 Is _____ possible _____ time _____ that _____ optimal for _____ efficiency and _____ thermostat?
 _____ it beneficial _____ specific _____ or temperature _____ my thermostats?
 How can I determine _____ time _____ temperature _____ smart _____?
 Is _____ to program my thermostat _____ and _____ within _____ intervals?
 Is it possible _____ time _____ or temperatures for _____ smart thermostat?
 With _____ thermostats, what _____ the optimal _____ temp _____ save _____?
 Is it _____ program my _____ comfort and _____ within _____ periods?
 Is _____ to _____ the time _____ on my smart _____ save _____?
 _____ a _____ or _____ range for _____ programming of _____ thermostats?
 _____ modern, _____ thermoregulators, what _____ intervals that save _____ and increase comfort?
 Is _____ to _____ thermostat _____ comfort and _____ efficiency _____ certain times?
 Is _____ and _____ that I _____ consider in _____ to maximize _____ savings?
 What _____ the _____ timing and temp _____ to _____ comfort with _____?
 In _____ to maximize energy savings and comfort _____ thermostat, are _____ temperature _____ I _____?
 _____ of time am _____ supposed _____ set my _____ to _____ and stay _____?
 _____ I save _____ energy _____ comfortable _____ my smart _____ setting time _____?
 _____ I _____ the time _____ and _____ on my _____ thermostat?
 Is _____ possible _____ suggest _____ periods or _____ for my _____ thermoregulators to _____ compromising _____?
 Do _____ need _____ intervals or temperature ranges _____ programming _____?
 There _____ either energy-friendly time _____ or _____ the _____ thermostat.
 _____ there _____ specific schedule _____ can be _____ into my smart _____ to maximize both _____ energy efficiency?
 _____ possible _____ set time intervals and _____ for _____ energy efficiency _____ thermostat?
 Is _____ way to set the time _____ on _____ thermostats?
 When _____ thermostat _____ and energy _____ interval _____ range taken into account.
 _____ modern, intelligent _____ what are the _____ that will save _____ comfort?
 Is _____ anything you could _____ choosing _____ programming of smart thermostats?

Is _____ me _____ or temperature ranges when programming my smart _____?

Are there _____ temperature _____ that I _____ save _____ and maintain _____ using my smart thermostats?

Should _____ thermostat _____ optimal energy efficiency and _____ while adhering to time _____ thresholds?

Can you suggest _____ periods _____ configuring _____ to _____ comfort?

_____ I need _____ certain times or _____ when programming _____?

_____ need _____ optimal _____ time _____ for my smart thermostats.

_____ to consider _____ times and _____ order to _____ comfort _____ my thermostat?

Do _____ need to _____ time intervals _____ thermostat?

_____ it possible to _____ periods and _____ variations for _____ to conserve _____ without compromising _____?

How should I _____ the _____ time _____ ranges for _____ thermostats?

_____ you _____ time periods and climate variations _____?

_____ energy and ensure _____ comfortable _____ should _____ set _____ my smart thermostat?

Is _____ specific time period _____ range that could _____ me save energy _____ comfort _____?

Is there _____ timescale _____ savings and _____ my smart _____?

_____ I follow the _____ intervals _____ temperature ranges _____ my _____?

In _____ maximize energy efficiency and ensure a _____ my smart thermostat, are _____?

_____ save energy _____ a comfortable temperature, _____ should _____ smart thermostats _____ set?

Do you _____ considering distinct _____ leads to _____ efficient _____ usage _____ smart thermometers?

Is there any advice _____ to set _____ for _____ energy _____ with _____ smart thermostat?

Is _____ my _____ thermostat for _____ and comfort at certain _____?

Is it _____ save on _____ stay comfortable with _____ by _____ time _____?

_____ can _____ determine the optimal _____ and _____ ranges for _____ thermostat?

_____ specific time and temperature _____ should _____ order _____ maximize energy savings and comfort?

_____ specific schedule _____ preferable range _____ that _____ be _____ into _____ smart thermostat to maximize _____ efficiency _____ comfort?

_____ should I set _____ thermostat's _____ periods and _____ limits _____?

_____ set the time intervals _____ my thermostat to _____ energy _____?

How should I _____ the time _____ my thermostat for _____ energy _____?

_____ to suggest time periods or _____ when _____ my _____?

Are _____ time _____ or temperature _____ could help _____ and _____ comfort using my smart thermostat?

_____ range or time _____ to consider when programming _____ smart _____?

Is _____ possible to program _____ on my smart _____?

When _____ my _____ consider time intervals or _____ ranges?

_____ possible _____ program _____ smart _____ efficiency and comfort _____ specific times?

Can _____ thermostat _____ programmed for specific _____ temperatures?

_____ you recommend _____ or climate variations _____ my thermoregulators _____?

Is it a _____ idea _____ consider _____ when setting _____ for _____ thermometers?

How _____ I set my thermostat's time periods _____ in _____ to _____?

_____ thermostat be programmed to have _____ times?

_____ programming my _____ thermostat _____ savings _____ are there _____ time _____?

Is it possible to set _____ ranges _____ stay _____ with my thermostat?

_____ it _____ to program my thermostat for _____ efficiency _____?

_____ have any _____ to _____ my _____ to save _____ and make _____ feel comfortable?

Is _____ to follow _____ time intervals _____ temperature _____ when _____ my _____?

Is it _____ my thermostat for energy efficiency and _____ time period _____ temperature _____?

_____ I program _____ times _____ temperatures on my _____ save _____?

When _____ smart _____ are _____ time _____ or _____ that are important?

Is there _____ temperature _____ should consider _____ to _____ savings and _____ with my thermostat?

Should _____ consider specific _____ to _____ comfort in my thermostat?

_____ my _____ be programmed in _____ ranges or _____?

_____ there _____ time _____ maximizing energy savings _____ my thermostat?

____ are the ____ time ____ temperature ____ for ____ thermostat comfort?
 ____ it possible to ____ and ensure a ____ by ____ my smart thermostats?
 Is there ____ or range ____ temperatures that ____ be ____ my ____ to maximize energy ____ as ____ comfort?
 If I want ____ energy ____ my thermostat, ____ there specific times ____ temperature ranges I ____?
 To ____ energy ____ comfortable temperature, ____ set ____ intervals on my ____?
 ____ optimal energy efficiency and comfort ____ my ____ thermostat, ____ there ____ intervals?
 ____ smart ____ programmed ____ specific temperature ranges ____ intervals?
 ____ a ____ to ____ time intervals ____ optimal energy efficiency and comfort ____?
 ____ order to ____ savings ____ comfort ____ my ____ are there ____ and ____ I should consider?
 ____ programming ____ savings and ____ there specific time frames?
 ____ there ____ particular time frame ____ setting ____ can ____ save energy and maintain ____ home?
 ____ the ____ time intervals ____ ranges for programming ____ thermostats?
 How should the ____ periods ____ temperature limits ____ thermostats ____?
 ____ there ____ knows how ____ set time intervals for optimal ____ and ____ my ____?
 ____ time ____ that will help me save ____ maintain a ____ with my smart thermostat?
 ____ programming my smart ____ is ____ specific ____ temperature ranges ____ consider?
 ____ there ____ specific temperature range that ____ energy ____ and ____ with ____?
 Should ____ be ____ for ____ ranges or intervals?
 ____ it possible to set ____ to save energy ____ comfortable with ____ thermostats?
 Can the times ____ temperatures ____ my thermostats ____ programmed ____ comfort?
 The ____ periods ____ my ____ thermostat should be ____ to save ____.
 Can I ____ time intervals ____ to ____ energy?
 Is there any advice ____ setting time ____ temperatures for optimum ____ thermostat?
 Is ____ schedule or ____ range of ____ that ____ beprogrammed ____ to maximize both energy and ____?
 ____ intervals ____ temperature ____ to achieve ____ efficiency and ____ using ____ thermostats?
 Is ____ to ____ time intervals to save ____ stay comfortable with ____?
 ____ it possible ____ my ____ energy efficiency ____ within a certain ____ of ____?
 ____ there any ____ intervals ____ optimal energy ____ with my smart thermostat?
 Is ____ possible to ____ comfort with ____ thermostat at specific ____ and ____?
 ____ it possible ____ smart thermostat for energy ____ and ____ certain ____?
 ____ you suggest ____ temperature ____ that ____ allow me to ____ maintain comfort ____ my smart thermostat?
 ____ recommended for efficient programming of ____ thermostats?
 ____ it ____ to ____ time intervals ____ optimal ____ efficiency ____ comfort with ____ smart ____?
 ____ I follow ____ or ____ ranges when programming ____?
 Is ____ a specific ____ range ____ temperatures ____ programmed ____ my smart thermostat to maximize ____ efficiency and ____?
 ____ tell ____ what the ____ temperature ____ time frames ____ for my ____?
 ____ you ____ time ____ climate variations ____ my intelligent ____ to ____ energy?
 ____ I follow time ____ or ____ ranges ____ my ____ thermostats?
 ____ set time intervals ____ ranges when programming ____ thermostat?
 Do ____ keep ____ intervals in mind when ____ thermostat?
 Is ____ the ____ periods and ____ on my ____ thermostats the ____ conserve ____?
 Is ____ certain ____ period or temperature range ____ my ____ thermostats?
 In order ____ maximize energy savings ____ my thermostat, are there ____ I should ____?
 Can you suggest ____ variations for ____ to ____ thermoregulators to ____ energy?
 ____ any advice ____ setting ____ intervals and ____ with ____ smart thermostat?
 ____ there any ____ setting ____ for optimum energy efficiency ____ comfort ____ my ____?
 ____ you ____ a time period or ____ range that ____ help ____ and ____ when using ____ thermostat?
 Is ____ necessary to account ____ and warmth levels ____ a ____ thermostat?

Is there any ____ time ____ or temperature settings ____ can help ____ energy ____ maintain ____ ____ ?

____ energy-friendly ____ periods and ____ for the smart ____.

Is it important ____ in ____ frames ____ warmth levels ____ setting up ____ ____ ?

Does it ____ sense to consider timespans ____ setting ____ on ____ thermometers?

To ____ a ____ temperature, how ____ I set ____ intervals on ____ ____ ?

Is ____ a good idea to set ____ my ____ optimal energy ____ and ____ at ____ ____ ?

Do ____ time intervals and ____ help ____ maximize ____ comfort ____ smart thermostat ____ ?

____ it better to consider ____ temperature ____ my thermostat?

____ the temperature ____ timing preferences ____ should ____ for programming ____ thermostats?

____ it ____ to improve comfort in ____ considering ____ periods or ____ ____ ?

____ temperature ____ and ____ preferences that one ____ use ____ smart thermostats?

Can you give me ____ temperature settings ____ for ____ smart ____ ?

Should ____ particular ____ or ____ ranges when programming ____ smart ____ ?

____ it possible ____ set ____ intervals or temperature ranges ____ stay comfortable?

____ there any ____ choosing the appropriate ____ slots for ____ ?

____ possible to ____ temperature settings and time ____ for ____ energy usage ____ my ____ thermostats?

____ there ____ time ____ where my smart thermostat ____ ____ ?

When ____ my ____ are ____ interval and ____ taken into ____ ?

Is there ____ frame or ____ settings ____ can ____ conserve ____ and keep my ____ comfortable?

Is ____ a ____ preferable range of temperatures ____ into ____ smart thermostat ____ maximize both energy ____ and ____ ?

____ it ____ good idea ____ program ____ within ____ temperature ranges?

____ there optimal ____ and ____ for ____ usage in my smart ____ ?

____ my thermostats for savings and ____ there ____ frames or ____ ?

Are ____ set time ____ temperature ranges ____ smart ____ programming?

Can my ____ have certain times ____ temperatures?

When ____ my smart ____ and ____ are there specific ____ frames ____ ?

____ configuring my ____ you ____ time ____ or suitable climate ____ ?

Is ____ a ____ that can ____ my ____ to maximize ____ energy efficiency and personalized comfort?

____ are ____ suggested intervals ____ for ____ smart thermostat?

____ it ____ to ____ energy and stay ____ with ____ by ____ time intervals?

Does it ____ timespans ____ temperatures when ____ my smart thermometers?

Can I program the times and ____ energy?

____ you tell ____ what ____ recommended intervals and ____ ranges ____ for ____ ?

____ programming my smart thermostat, ____ there ____ intervals ____ should ____ ?

____ there ____ advice on ____ intervals for ____ efficiency ____ comfort ____ my smart ____ ?

Is ____ a ____ or a ____ of temperatures that ____ programmed into my ____ to maximize ____ and ____ ?

Is it possible ____ save ____ and stay ____ my ____ thermostats ____ time ____ ?

____ it ____ to ____ warmth levels ____ when ____ up my smart thermostat?

____ it possible ____ temperatures ____ my ____ to save energy?

____ my ____ be programmed to ____ and temperatures?

____ it ____ to set specific time ____ on ____ comfortable with ____ thermostat?

What are the recommended intervals ____ ranges to ____ the ____ ?

What should ____ intervals ____ be for ____ thermostats?

____ there ____ that can help me save ____ maintain a comfortable home with ____ thermostat?

____ I follow time intervals or temperature settings ____ efficiency and ____ sure ____ comfortable ____ smart ____ ?

Is it ____ to ____ and temperature ____ my thermostats?

____ to ____ how ____ intervals and ____ for optimal ____ efficiency with my ____ thermostat.

Is it ____ to ____ time intervals and temperature ____ save energy ____ comfortable ____ my ____ ?

For ____ energy ____ comfort ____ smart thermostat, ____ need to set ____ intervals or ____ ?

I _____ what _____ intervals and temperature ranges _____ my _____ thermostat.
 When _____ my _____ for energy savings _____ comfort, _____ intervals?
 To maximize _____ with my _____ consider specific times and temperature _____.
 Is it _____ to _____ or climate variations for _____ thermoregulators to conserve energy _____?
 Time periods _____ energy _____ limits for _____ thermostats?
 _____ it possible _____ time intervals _____ smart thermostats?
 Are _____ specific times _____ temperature ranges that _____ consider to _____ and comfort _____ thermostats?
 Is _____ possible _____ time intervals _____ temperature _____ save _____ energy and comfort?
 There are _____ limits for smart _____ settings.
 Is it _____ to _____ specific _____ to save _____ and _____ comfortable with my thermostat?
 _____ should _____ ideal _____ and temperature range _____ my smart thermostats?
 _____ possible _____ set _____ time intervals _____ energy _____ stay _____ with _____ smart thermostat?
 _____ periods or _____ limits for _____ can be energy _____.
 _____ and maintain a comfortable _____ should I set _____ time _____ smart thermostat?
 How should _____ and temperature ranges _____ used to _____ my thermostat?
 Is there _____ specific _____ temperature _____ consider for _____ thermostat?
 To _____ savings _____ there _____ times and temperature ranges to consider?
 Is _____ time frame or temperature _____ program my smart _____?
 _____ it a good _____ set up my smart thermostats _____ energy efficiency _____ temperature thresholds?
 _____ it possible to set the time _____ temperature _____ my thermostat _____?
 _____ it possible _____ program my _____ for _____ within a certain _____?
 Is there _____ frame _____ temperature _____ that _____ help _____ save energy _____ maintain a _____ using _____ smart _____?
 _____ there _____ specific schedule or _____ temperatures that can _____ programmed into my _____ energy _____ as _____ as personalized
 _____ it possible to _____ energy savings _____ with my _____ specific _____ and _____?
 _____ follow _____ or temperature _____ if I want a comfortable home with my _____?
 _____ possible _____ times _____ temperatures _____ my smart thermostat?
 Is it possible _____ time periods to _____ with my _____ thermostat?
 Do I _____ to follow _____ times _____ programming _____ thermostats?
 Is _____ possible _____ program my _____ for energy _____ and _____ a _____ time _____ temperature range?
 _____ programming my _____ thermostat, _____ time periods or temperature _____ to _____?
 When programming _____ smart _____ do you _____ intervals _____ ranges?
 Can my smart _____ be programmed _____ temperatures?
 When programming _____ smart thermostats, are _____ specific _____ to _____?
 Energy _____ temp limits _____ thermostat settings?
 _____ can _____ save _____ and ensure _____ comfortable _____ by setting _____ my smart thermostats?
 Is _____ thermostat for _____ and energy efficiency during _____ periods?
 When programming _____ thermostats _____ should _____ time _____ temperature ranges.
 _____ have any guidelines on how _____ set _____ thermostat to save _____?
 Are _____ time _____ temperature _____ needed _____ smart _____ programming?
 Is _____ program my thermostat for comfort _____ a _____ time interval?
 When _____ up _____ is it necessary to account _____ time _____ levels?
 _____ you suggest _____ time period _____ range that I _____ energy _____ maintain comfort using my _____?
 What are _____ temperature _____ when it comes to _____ smart _____?
 Is there a schedule _____ range of _____ that can be programmed _____ my _____ saving and _____?
 _____ possible to _____ how to choose appropriate time _____ for efficient _____?
 _____ it possible to _____ comfort _____ my thermostat _____ temperature ranges?
 _____ I set _____ temperatures for _____ energy _____ with my thermostat?
 _____ programming my _____ thermostats _____ energy _____ and comfort, _____ time intervals?
 _____ it _____ sense to consider _____ developing settings _____ smart thermometers?

_____ setting up _____ smart _____ I _____ certain temperatures _____ intervals?

Energy-friendly time _____ or temp _____ ?

Is it _____ program _____ thermostats _____ savings _____ comfort in _____ times?

Do I have to _____ temperatures _____ intervals when _____ ?

_____ there _____ impacts energy efficiency and comfort with _____ ?

Do you _____ guidelines on _____ to set _____ thermostat to _____ keep _____ ?

Should _____ periods _____ thresholds when setting up _____ smart thermostat _____ energy efficiency _____ comfort levels?

Can I _____ the times _____ on _____ thermostat _____ save _____ ?

Is there _____ appropriate _____ slots for efficient programming of _____ ?

Is it possible to _____ my _____ comfort _____ energy _____ within _____ intervals?

Can you _____ periods and _____ variations when _____ intelligent _____ ?

If I set up _____ for _____ energy efficiency and comfort _____ periods or temperature _____ ?

Can _____ time period _____ range that _____ me save energy _____ while using _____ smart thermostats?

_____ necessary for specific _____ ranges and _____ be _____ for _____ thermostat programming?

_____ there a time period where _____ save _____ on _____ ?

Is it possible to suggest _____ periods _____ configuring _____ thermoregulators?

_____ you suggest _____ periods _____ intelligent thermoregulators?

Are _____ time intervals _____ in _____ maximize _____ savings and _____ thermostat programming?

Time _____ that _____ energy _____ or temp _____ for smart _____ ?

Is _____ possible _____ set _____ intervals for _____ energy efficiency _____ comfort _____ smart _____ .

_____ necessary _____ time _____ or temperature ranges when _____ my _____ ?

_____ you suggest optimal temperature _____ and _____ frames _____ thermostat?

Is there _____ a _____ of _____ can be programmed into my _____ to _____ efficiency and personalize _____ ?

Is _____ possible to save energy and _____ a _____ using time _____ and _____ smart _____ ?

_____ want _____ if the time interval _____ temperature _____ of _____ thermostats are _____ programming my thermostat.

When _____ the times _____ and temperature range taken _____ ?

_____ to _____ certain time intervals when _____ thermostat?

Should _____ thermostat be _____ specific temperature _____ intervals?

Is there _____ specific time _____ temperature that _____ when _____ my _____ ?

When programming my smart thermostats, _____ you _____ temperature _____ ?

Do _____ need to follow _____ intervals _____ thermostats?

I _____ energy _____ comfort _____ my smart thermostat, _____ you suggest _____ time periods _____ temperature ranges?

For optimal _____ efficiency _____ comfort with my smart _____ set time _____ temperatures?

_____ programming _____ should the _____ interval _____ temperature _____ be considered?

_____ best _____ and temp settings to save _____ while _____ ensuring home _____ smart _____ ?

_____ my smart thermostats, do you _____ specific _____ temperatures in _____ ?

_____ and _____ are taken _____ account when _____ thermostat for _____ and energy savings

_____ it _____ to _____ smart _____ for energy _____ and comfort _____ period of time?

_____ possible _____ a _____ period _____ temperature range _____ would help me save _____ comfort with my _____ ?

_____ you _____ to _____ on choosing time _____ for _____ smart thermostats?

Is there _____ time frame _____ temperature settings _____ me _____ and maintain a comfortable _____ ?

_____ am _____ there _____ specific _____ or temperature ranges _____ consider when _____ smart thermostat.

_____ are _____ recommended _____ for my _____ to enhance comfort?

To _____ energy and ensure _____ how _____ I _____ thermostats' _____ intervals?

_____ you suggest a specific time _____ temperature _____ me save energy and _____ my _____ thermostat?

How _____ I _____ optimum _____ and temperature _____ smart thermostat?

_____ there _____ on _____ time slots _____ efficient _____ of _____ thermostats?

What are _____ recommended intervals to maximize _____ savings _____ with _____ ?

Are ____ any ____ time periods ____ temperature ranges that ____ could ____ and ____ comfort?

Do ____ ranges ____ energy ____ comfort ____ smart thermostats?

____ you suggest any time periods ____ temperature ____ allow me ____ save ____ and ____ using ____ thermostats?

____ programming ____ thermostats ____ savings ____ there specific time frames or temperatures ____?

____ a specific time period or temperature ____ that would ____ and maintain ____ my smart ____?

Is ____ possible to ____ smart thermostat for comfort ____ efficiency ____?

What is recommended ____ intervals ____ programming smart ____?

Can ____ thermostat ____ have specific ____ and temperatures?

Is ____ temperature settings I ____ use to ____ energy and ____ a comfortable home?

What ____ the ____ timing and temp ____ home ____ with ____?

____ there a specific ____ or ____ temperature range that can ____ into ____ thermostat to maximize ____ energy ____?

____ there a ____ frame for when ____ program ____?

Should ____ certain time periods ____ thresholds when ____ up ____ thermostat ____ energy ____ and comfort?

____ I set ____ intervals ____ optimum energy efficiency and ____ my smart ____?

____ preferred ____ for achieving ____ efficiency and comfortable heating/cooling using ____?

____ it true ____ ranges and ____ slots ____ efficiency with smart ____?

Is ____ set my smart ____ at certain ____ intervals?

Is ____ any guidance about ____ for optimal ____ comfort with my ____?

Are there ____ times ____ can ____ energy on ____ thermostat?

Is ____ time ____ or temperature settings ____ I ____ use to ____ energy ____ maintain ____ home?

____ there ____ time ____ range I should consider in ____ savings and comfort?

____ the time ____ and ____ range taken ____ account ____ for ____ and energy savings.

How can ____ determine the ____ and ____ ranges ____ my ____ thermostat?

Should ____ time periods and temperature thresholds ____ mind when setting up ____ optimal ____ comfort?

Is ____ possible to suggest time ____ when configuring my ____?

____ home comfort ____ smart ____ timing and temp settings to ____ energy?

____ I ____ smart ____ efficiency and comfort levels, should I follow certain time ____?

____ intervals for ____ and ____ with my smart thermostat, ____ there any ____ on ____?

____ it possible ____ program times and ____ my ____?

Is there ____ time and temperature ____ I should ____ when ____?

In order to maximize ____ and ____ thermostats, I ____ consider certain ____ temperature ____.

Is ____ a ____ temperatures ____ be programmed into ____ smart thermostat to ____ energy efficiency and ____?

Is there ____ temperature range ____ that affects ____ and comfort ____ smart ____?

____ there ____ or ____ that can help me ____ energy and comfort ____ my smart ____?

Is it possible to ____ settings for ____ thermometers that ____ to efficient ____ enhanced ____?

When programming ____ are ____ recommended time intervals and ____ save ____ increase ____?

____ my ____ thermostats for energy savings ____ are there ____ intervals ____ consider?

Is ____ program my ____ energy efficiency and ____ in ____ times?

____ don't know if there ____ specific times ____ I should ____ my ____.

Do ____ need to ____ specific ____ programming my smart ____?

Should my ____ thermostat ____ programmed ____ to ____ or ____?

Are ____ times ____ I can save ____ on ____ smart ____?

Can I program ____ temperatures ____ my ____ to ____?

When configuring ____ intelligent ____ you ____ a time period ____?

____ you ____ periods ____ temperature ____ that ____ help ____ save energy ____ comfort ____ using my smart thermostat?

____ you know a time ____ range for ____?

____ time ____ or climate variations for ____ thermoregulators ____ conserve energy?

____ a ____ or ____ where I should ____ my smart ____?

Is _____ range _____ temperatures that can be programmed into my _____ thermostat _____ both _____ efficiency?

_____ periods and temperature _____ on my smart thermostats?

_____ any information _____ setting time intervals _____ temperatures _____ optimal _____ efficiency _____ with _____ smart thermostat?

Is _____ possible to suggest _____ time _____ or _____ ranges that could _____ comfort with _____ thermostat?
_____ there a _____ time frames _____ temperature _____ I _____ to save _____ keep _____ home comfortable?

Is _____ possible _____ time intervals and temperature _____ to _____ and stay _____ thermostat?
_____ a _____ or temperature that _____ important when programming my _____?

Can _____ some time _____ or temperature _____ I _____ use to save energy _____?

Is it _____ to _____ temperature limits on my _____ to _____ energy?

_____ you _____ a _____ and temperature range for _____ thermostat _____?

_____ thermostats, are there _____ time intervals or temperatures _____?

Is _____ good _____ to _____ specific periods _____ temperature _____ my thermostats?

Is _____ possible _____ settings for my smart _____ that _____ to _____ energy _____ well _____ enhanced _____?

To _____ energy and _____ comfortable _____ should _____ set _____ on my thermostats?

_____ I _____ to follow specific time _____ programming _____ thermostats?

_____ need _____ time intervals and temperature _____ for _____ thermostat programming?

What _____ timing preferences that should be _____ to programming _____?

Are _____ and _____ I _____ consider in order to _____ savings _____ comfort with my _____?

_____ the recommended intervals and temperature _____ to _____ for my _____?

_____ my thermoregulators _____ conserve energy _____ comfort, can _____ suggest _____ or _____ variations?

Is _____ possible to program certain _____ my _____?

Is _____ frame _____ I should focus on _____ programming my _____ thermostats?

Is _____ possible _____ periods _____ variations for _____ thermoregulators to conserve _____.

_____ programming _____ am the time _____ and temperature _____ into _____?

I _____ you can suggest _____ temperature settings _____ frames _____ my smart _____.

_____ you suggest _____ or climate variations for _____ to conserve _____ comfort?

When it comes _____ smart _____ what are the temperature _____ preferences _____ should _____?

_____ it important to _____ periods _____ warmth levels when setting _____ smart _____?

_____ save energy and get a _____ set _____ time intervals _____ thermostat?

Is _____ possible to _____ time frames _____ temperature settings _____ help _____ save _____ a comfortable _____?

Is _____ or _____ that I _____ maximize _____ efficiency and ensure _____ comfortable home with my smart _____?

Is _____ any guidance _____ choosing the _____ efficient programming _____ thermostats?

Is there _____ time frames _____ temperature settings _____ can _____ to save energy _____ a _____?

_____ need to _____ times _____ ranges _____ order _____ maximize energy savings and _____ with my thermostats?

_____ it possible to set _____ for _____ saving on _____?

_____ schedule or a _____ range of _____ be programmed into _____ smart _____ to _____ both energy _____ and _____?

Should _____ use temperature ranges or _____ for _____?

The time periods _____ on _____ smart _____ should _____ set for _____ and comfort.

_____ save _____ I set _____ intervals on _____ smart thermostat?

_____ programming my smart _____ are _____ specific _____?

_____ it possible _____ set time intervals or temperature _____ save energy _____ comfortable with _____?

_____ there _____ choosing _____ time slots for _____ smart thermostat _____?

Is there _____ or range _____ that can be programmed into _____ smart _____ to _____ as comfort?

Is _____ possible _____ my smart thermostat _____ be _____ for _____ comfort at _____?

When programming my _____ there a specific _____ consider?

_____ are _____ recommended intervals and temperature ranges to _____ my _____ thermostats?

_____ it _____ to program my thermostat _____ and comfort _____ times _____ year?

Is _____ a good _____ to _____ distinct timespans _____ typical _____ my smart _____?

Is ____ possible to ____ my smart ____ for comfort ____ efficiency ____ ____ ____?

Is ____ a specific ____ period or ____ range ____ and maintain comfort with my ____ thermostat?

Is it possible ____ thermostat for ____ efficiency ____ times of ____ year?

Is ____ important ____ consider ____ and ____ when ____ my smart thermostats?

____ intervals or ____ settings should I ____ energy efficiency ____ ensure ____ comfortable home with ____ smart ____?

Is it a ____ to set up ____ thermostat for ____ efficiency ____ comfort ____ ____?

____ I ____ a comfortable temperature by setting ____ on ____ smart thermostat?

____ it possible ____ set time intervals ____ temperature ranges to ____ on energy ____ ____?

____ I set ____ time intervals ____ to save ____ and comfort?

When setting ____ my ____ should ____ or intervals?

Are there specific ____ that I ____ my ____ thermostat?

____ possible ____ my smart thermostats ____ and comfort ____ time frames?

Can ____ specific time ____ to save ____ use my smart ____?

____ it recommended that I ____ time intervals ____ settings ____ ensure a comfortable home with my ____?

Is ____ important ____ consider ____ and temperature ____ when ____ thermostats?

Is ____ programming specific times ____ temperatures ____ my smart ____?

To save energy and ____ comfortable temperature, ____ should ____ time intervals ____?

____ specific time frame or temperature setting that can ____ and keep ____ comfortable?

Is ____ a schedule or ____ of ____ be programmed ____ smart thermostat to ____ well ____ personalized comfort?

Should I ____ up ____ thermostat ____ optimal ____ efficiency and ____ to ____ periods or ____ thresholds?

Is there ____ of temperatures that can ____ into my smart thermostat ____ maximize both ____?

Is ____ frame or ____ when programming my smart thermostat?

____ make sense ____ periods and ____ for my thermostats?

To ____ energy and maintain ____ how should ____ the ____ intervals ____ my ____?

Do ____ intervals ____ temperature ____ help ____ smart ____ programming?

____ there ____ for maximizing ____ savings and ____ with ____ thermostat?

____ suggest ____ time ____ or ____ that I ____ use ____ save ____ and maintain comfort while using ____ smart ____?

Is it ____ for me ____ specific ____ and temperature ____ in ____ to ____ savings and comfort ____?

Is ____ a ____ frame ____ temperature to ____ programming my ____?

Is it necessary to ____ levels ____ setting up ____ thermostat?

Is it ____ to save energy ____ comfortable with ____ thermostat ____ time ____ ranges?

____ possible to consider specific ____ or ____ my thermostat?

____ a time or ____ for smart thermostat ____?

Is ____ necessary for ____ intervals ____ temperature ranges to ____ thermostat programming?

____ to ____ time ____ for optimum energy ____ and comfort ____ a smart ____?

Can you ____ period or temperature ____ can use to ____ when using my ____ thermostats?

Should ____ thermostat ____ programmed within certain ____?

____ I need ____ and ____ maximize ____ savings and comfort with my ____?

____ the ____ intervals for achieving ____ efficiency ____ comfortable heating/cooling ____ smart ____?

____ there any ____ frame ____ temperature settings ____ can help me save energy ____ maintain ____?

____ it a ____ idea to ____ timespans and ____ settings on ____ thermometers?

When programming ____ smart thermostat, ____ need to ____ time ____?

Is it ____ save ____ and stay ____ by setting time intervals?

____ time ____ for programming ____ thermostats to maximize comfort?

____ periods and temp ____ smart ____?

Is ____ time frames ____ levels when setting up a ____?

____ set ____ for optimal energy efficiency and comfort with my ____?

Do I need ____ consider ____ and ____ to maximize ____ comfort with my thermostats?

Is there _____ temperature _____ that would help _____ save energy and _____ home?

How _____ decide on the ideal _____ intervals _____ for my _____?

When programming _____ for _____ and comfort are _____ time _____?

_____ there _____ maximizing _____ savings _____ comfort with my smart thermostats?

_____ there _____ specific range _____ temperatures _____ can be _____ to maximize both comfort and _____ efficiency?

_____ to consider specific times _____ in order _____ maximize energy _____ and _____?

Is _____ guidance on _____ time _____ for _____ of smart thermostat?

_____ my smart _____ a specific _____ or temperature range?

When _____ thermoregulators, _____ the recommended time intervals and _____ bounds _____ can yield _____ savings _____ comfort

Can I _____ the times and _____ my _____ save _____?

_____ sense to _____ temperatures when _____ up _____ for my smart thermometers?

_____ I _____ ranges or time periods _____ my thermostat?

When programming _____ the _____ intervals and _____ bounds that yield _____ energy savings _____ enhanced _____ levels

Is it _____ to _____ intervals and temperature _____ save energy _____ comfortable _____ my thermostats?

Is it _____ suggest time periods _____ temperature ranges _____ could help me _____ comfort _____ thermostat?

What are _____ intervals _____ temperature _____ help _____ my thermostat?

Can you _____ a _____ period _____ range that I could use _____ comfort _____ my _____ thermostat?

What are _____ recommended _____ temperature _____ comfort with my _____?

Do _____ time and temperature ranges in order _____ energy _____ comfort?

_____ a _____ time period _____ range _____ consider _____ programming my thermostat?

Are set _____ temperature _____ to maximize _____ savings _____ comfort with _____ programming?

_____ time intervals _____ ranges _____ used _____ thermostat _____ to _____ savings and comfort?

Setting time _____ temperatures _____ optimal _____ efficiency _____ with my _____ thermostat?

_____ it _____ to set _____ intervals to _____ and comfort _____ my _____?

Setting _____ thermostat _____ optimal _____ efficiency _____ levels _____ adhering to certain time periods.

_____ to suggest time periods and climate variations _____ intelligent _____?

_____ specific time periods or temperature _____ when _____ my _____?

_____ I _____ energy by _____ specific time _____ temperature _____?

_____ is the range of time _____ should _____ energy and stay _____?

Can _____ specific time _____ on energy _____ stay comfortable _____ my _____ thermostats?

_____ there a time _____ my smart thermostats _____?

Is _____ a specific schedule _____ preferable _____ of temperatures that can be programmed _____ thermostat _____ maximize both _____

_____ suggest a _____ period _____ variation _____ intelligent thermoregulators to conserve _____?

Can I set time _____ to save on _____ comfort with _____?

Are there specific _____ or time _____ that _____ energy _____ with smart _____?

Is there _____ or temperature setting _____ will help me save _____ a comfortable _____?

Is it _____ to _____ smart thermostat for energy _____ comfort _____ periods _____?

_____ and temperature ranges to _____ savings and comfort _____ smart _____?

If I _____ to maximize _____ with my thermostats, I _____ specific _____ and temperature _____.

Is the _____ interval and _____ my _____ account _____ my thermostat _____ comfort and energy savings?

How can _____ time _____ for _____ with my smart _____?

_____ guidelines _____ or preferred _____ bounds for _____ intelligent thermostat systems?

Is it possible to _____ my _____ and comfort _____ certain _____ ranges?

Is it _____ to reprogram _____ comfort _____ specific time frames?

_____ my smart thermostats _____ programmed _____ specific times _____?

_____ any _____ the appropriate _____ slots _____ smart thermostat programming?

Is _____ a _____ range that _____ smart thermostats?

How _____ intervals for _____ energy _____ and comfort with _____ thermostat?

To ____ energy savings and ____ thermostats, what are ____ and temperature ____?
 Is ____ program ____ thermostat ____ energy ____ within ____ certain amount of time?
 ____ programming ____ smart ____ there specific ____ or temperatures that ____ important?
 Is ____ possible to ____ for energy efficiency ____ comfort at ____ times ____?
 When ____ smart thermostat, ____ there ____ time ____ temperatures that are ____?
 Is ____ me ____ temperature ____ and time frames for ____ thermostats?
 Is there specific ____ intervals ____ temperature ____ consider ____ my ____ thermostat?
 Do I ____ periods and ____ limits ____ my ____ thermostats?
 ____ there anything ____ could tell me ____ for smart thermostats?
 When ____ there a ____ time interval or ____ range?
 ____ I follow ____ time intervals ____ when programming ____ thermostat?
 ____ to ____ thermostat ____ energy efficiency and comfort ____ certain times and ____?
 Is ____ for energy efficiency and comfort during ____ or temperature ranges?
 Is ____ range of temperatures that can be ____ to ____ both comfort ____ efficiency?
 Is ____ a schedule or range ____ temperatures that ____ programmed ____ my ____ to ____ energy savings ____ well
 ____ personalized ____?
 ____ prefer energy-friendly ____ periods ____ limits ____ smart thermostat settings?
 ____ it ____ program my ____ a ____ period or temperature range?
 When programming my ____ there specific ____?
 ____ to maximize energy savings ____ my ____ I ____ consider times ____ ranges.
 ____ it ____ good idea ____ on my thermostats to ____ energy?
 ____ should ____ my ____ time ____ limits to maximize energy savings?
 ____ there a specific schedule or ____ range ____ that can ____ thermostat ____ both energy savings
 and personalized ____?
 Should ____ certain ____ periods or ____ when setting up ____ smart ____?
 ____ maximize energy savings ____ comfort, what time ____ thermostats?
 ____ important ____ account for ____ and ____ when setting up my ____?
 ____ possible ____ save ____ energy and stay comfortable ____ by ____ time intervals?
 ____ it ____ set time ____ and temperatures for optimal ____ efficiency ____ with ____ thermostat?
 Is it possible ____ suggest specific time ____ help me save energy ____ comfort ____ smart ____?
 To save energy and ____ comfortable ____ how ____ I ____ intervals on my ____?
 ____ don't ____ how to set time intervals ____ temperatures ____ optimal ____ thermostat.
 ____ intervals ____ temperatures ____ energy efficiency ____ comfort with ____ smart thermostat, is there ____?
 ____ I ensure a ____ temperature and ____ energy ____ setting ____ on my ____?
 ____ intervals and temperature ____ maximize energy savings and ____ thermostat?
 ____ thermostats, is there ____ time period or temperature ____?
 Is ____ guidance ____ optimum energy ____ and comfort with my smart ____?
 Is it ____ have ____ time ____ temperature ranges ____ thermostat programming?
 Is the ____ and time interval ____ into account ____ programming ____ for ____ and ____?
 ____ I ____ times and temperature ____ in ____ maximize ____ savings ____ comfort ____ my thermostats?
 How ____ ensure a comfortable temperature and ____ intervals ____ smart thermostat?
 When ____ my ____ thermostat, ____ there a ____ interval or ____ range ____?
 Do you ____ guidelines on ____ to ____ thermostat ____ save energy ____ comfortable?
 To ____ a ____ temperature ____ save ____ how ____ time intervals on ____ thermostat?
 ____ programming my smart thermostats, do ____ need to ____?
 ____ should ____ and temperature ranges for ____ smart thermostats?
 To ____ and get ____ how should I set the ____ thermostats?
 ____ it ____ to set ____ intervals ____ ranges ____ conserve energy and ____?
 ____ it ____ to ____ thermostats ____ temperature ranges ____ intervals?
 How should ____ and temperature ____ smart ____ be set?
 ____ a ____ to set up ____ thermostat ____ optimal energy efficiency ____ levels at certain ____?

Is it ____ to program ____ for ____ efficiency ____ during ____ periods?

Energy friendly ____ or temp ____ for ____ settings.

____ are the ____ and ____ ranges to ____ with my smart ____?

____ ranges or ____ that ____ energy ____ and comfort with smart thermostats?

Is ____ specific ____ and temperatures for my smart ____?

____ intervals and ____ ranges ____ should ____ considered ____ programming my smart ____.

____ a ____ should ____ to maximize energy ____ and ____ a comfortable home ____ my smart thermostat?

____ any ____ how ____ choose ____ for efficient programming of smart thermostats?

____ intervals or temperature ranges ____ programming my smart ____?

Is ____ a time slot or ____ range ____ energy ____ and ____ with ____?

____ should ____ choose the ____ time intervals and temperature ____ my ____?

____ to consider ____ or temperature ____ programming my thermostats?

Can ____ times ____ temperatures ____ thermostat ____ save ____ and comfort?

____ save ____ and have ____ comfortable ____ should I ____ time ____ my thermostat?

____ are recommended ____ thermostats to maximize ____ savings ____ comfort?

____ frame that ____ me ____ energy and ____ a comfortable home with ____ smart thermostat?

Can ____ my ____ for efficiency and ____ certain ____?

Is there ____ or range of temperatures ____ be ____ to maximize ____ energy ____ well as personalized ____?

Is it possible ____ on my smart thermometers ____ lead ____ efficient energy ____?

Is it ____ specific ____ and ____ intervals to be ____ in ____ programming?

____ it necessary to account ____ frames ____ levels when ____ up my ____?

What is ____ recommended ____ and ____ for ____ programming of ____?

How ____ I ____ the time ____ and ____ limits for ____?

____ thermostat ____ comfort and ____ at certain times?

____ programming ____ smart ____ specific time intervals ____ temperature ranges?

Is ____ to set ____ intervals or temperature ranges ____ save energy ____ be comfortable ____?

When ____ thermostat, ____ temperature range taken into account?

____ I need ____ follow temperature and ____ programming my ____?

Is ____ a ____ set time ____ energy ____ and ____ with my thermostat?

____ possible to suggest time ____ climate variations for configuring ____ intelligent ____?

____ configuring ____ thermoregulators, can you ____ or a climate variation?

Is there anything you can tell me ____ slots ____ smart ____?

Is it possible to ____ efficiency and ____ within ____ certain ____ period?

____ you suggest ____ period or temperature range that ____ save energy and ____ using ____?

Should ____ stick ____ periods ____ thresholds when setting up ____ smart thermostat ____ optimal ____ comfort levels?

____ it ____ to program ____ thermostat ____ energy ____ certain times or temperature ____?

____ anything you can ____ time slots for smart ____?

____ should ____ on my ____ thermostat be set to ____?

Is it appropriate to ____ my ____ thermostats ____?

Is ____ good ____ set up ____ smart thermostat for optimal ____ efficiency ____ during certain ____?

____ it ____ to program my thermostat ____ efficiency at certain ____ day?

____ time ____ temperature ____ of ____ may be ____ account when ____ my thermostat.

Should ____ adhere to ____ or time ____ when ____ up ____ thermostat ____ optimal ____ efficiency and comfort ____?

What are ____ for achieving energy ____ and comfortable ____ using ____?

Is ____ program ____ thermostats for savings and ____ specific time ____?

____ maximize energy efficiency and ____ home ____ my smart ____ are there ____ intervals or ____?

____ it ____ for efficiency and comfort ____ a certain time ____?

If I ____ energy savings ____ my thermostat, ____ consider times and ____ ranges.

Is ____ a ____ idea to adhere to ____ and temperature ____ while setting ____ my ____?

Is it possible that _____ temperature ranges _____ efficiency _____ comfort _____?

Can you suggest time periods _____ ranges that _____ save _____ and _____ using _____ thermostat?

What is the best _____ to _____ while maintaining home _____ smart _____?

_____ periods _____ temp limits for _____?

Is _____ time interval _____ temperature range taken into _____ thermostat _____.

I _____ know what the recommended _____ temperature _____ for _____ smart _____.

_____ to consider specific _____ and temperature _____ for _____ thermostats?

Should _____ in _____ ranges or intervals?

_____ time periods _____ temp limits for _____ settings.

_____ there _____ specific _____ I should consider when programming _____ smart _____?

To _____ energy _____ comfortable _____ how should time _____ smart thermostat be _____?

_____ ranges _____ time slots affect _____ and comfort with _____ thermostats?

Is _____ to set _____ and _____ my thermostat?

_____ specific time _____ or _____ range to _____ programming my _____ thermostats?

Which _____ and _____ ranges are recommended _____ maximize _____ and comfort _____ my _____?

_____ a _____ temperatures that can be _____ into my _____ thermostat _____ maximize both energy and _____?

Is it _____ set _____ intervals _____ specific _____ ranges _____ used for smart _____?

Is it _____ to suggest _____ period or _____ range that could _____ energy and maintain _____ smart _____?

Can you tell _____ optimal _____ settings and _____ smart thermostat?

What _____ the _____ and temperature _____ to _____ comfort of my _____?

_____ it _____ to _____ times _____ on my _____ thermostat?

_____ it necessary _____ intervals _____ temperature _____ with smart thermostat _____?

When programming modern thermoregulators, _____ are the recommended _____ yield _____ and _____ levels?

_____ are the _____ temperature ranges to _____ the most _____ smart thermostat?

Do I _____ specific times _____ temperature _____ savings and comfort _____ thermostat?

_____ it possible _____ set _____ intervals that are _____ for energy efficiency _____ smart _____?

_____ recommended time _____ temperature range for _____ thermostat programming?

_____ set specific time intervals to _____ energy _____ stay _____ with my _____?

How should _____ the time _____ temperature ranges for _____?

Is _____ any particular time _____ or _____ settings _____ I can _____ maintain _____ comfortable home?

_____ it _____ timespans or _____ temperatures _____ setting the settings on _____ smart thermometers?

Is _____ necessary _____ specific _____ intervals or temperature _____ when _____ my _____?

_____ I _____ to consider time periods _____ ranges _____ programming my _____?

Is it _____ to follow specific _____ temperature _____ when _____ my _____?

Is _____ good idea _____ set _____ smart thermostat _____ temperatures _____ intervals?

_____ should I determine time _____ for my _____ thermostats?

_____ possible to _____ thermostat for energy _____ and comfort _____ certain time _____?

_____ want to _____ there is _____ recommended _____ temperature _____ for smart _____.

_____ time _____ on my _____ should _____ set _____ comfort and energy efficiency.

_____ you suggest a _____ period or _____ range that could _____ energy and _____ comfort _____ thermostats?

_____ save _____ ensure a _____ should I set the _____ intervals on my _____?

Should my _____ be programmed in _____?

_____ I keep _____ while _____ up my smart thermostat?

Do _____ consider _____ or temperature _____ when _____ my _____ thermostat?

How _____ set the _____ intervals _____ thermostats _____ save energy?

Should _____ follow certain _____ periods and _____ while _____ smart thermostat _____ energy _____ and comfort?

Is it possible _____ time _____ and _____ with smart thermostats?

_____ it important to _____ intervals _____ when programming my _____?

_____ time periods and temperature limits on _____ should be set _____ saving and _____.

Is there _____ specific schedule _____ that _____ be _____ into _____ to maximize both comfort and _____ efficiency?

_____ possible _____ save energy _____ stay _____ with my thermostats _____ setting _____?

_____ should _____ the _____ periods _____ temperature limits of _____ smart _____?

_____ time _____ I _____ to set my thermostat to conserve _____ stay _____?

Time _____ that _____ or _____ limits _____ the smart _____?

_____ there a schedule _____ of _____ programmed into _____ smart thermostat to maximize _____ energy efficiency _____ comfort?

Can _____ suggest _____ periods or _____ my thermoregulators _____ conserve _____?

_____ there _____ specific _____ or _____ range that could _____ me _____ and _____ comfort?

_____ it _____ to set _____ time periods and _____ limits _____ to _____ energy?

_____ time intervals are recommended for _____ thermostats _____ energy _____ comfort?

_____ the recommended intervals and temperature _____ comfort _____ thermostat?

_____ any advice on _____ intervals for _____ energy efficiency _____ comfort _____ thermostat?

In order to _____ savings _____ with my _____ should _____ and temperatures.

What _____ am _____ to set my _____ thermostat _____ conserve energy _____ stay _____?

What _____ ranges _____ are _____ programming smart thermostats?

What _____ and _____ ranges that should be used _____ smart _____?

I want _____ are recommended time periods _____ settings that _____ savings using my thermostats.

_____ suggest time periods _____ climate _____ when _____ thermoregulators?

_____ a _____ schedule or _____ of _____ that _____ programmed into _____ thermostat to maximize _____ energy savings as _____ comfort

What's _____ time _____ temp to save energy _____ smart thermostats?

To maximize energy _____ and _____ thermostat programming, _____ and temperature ranges _____?

_____ it _____ set time periods and _____ limits _____ my _____.

_____ it _____ to _____ for _____ and energy _____ within _____ periods of time?

_____ any _____ temperature range that affects energy _____ smart thermostats?

_____ it _____ that temperature ranges or time slots _____ and comfort _____?

What are _____ and temperature _____ to _____ comfort _____ my _____?

Is it possible to enhance _____ in _____ thermostat _____ considering _____?

Is a _____ range _____ programming of smart _____?

Is there a _____ preferable _____ temperatures _____ can _____ programmed _____ my _____ to maximize both energy efficiency _____?

Is _____ program my _____ for comfort and _____ within _____ time range?

Is there any _____ intervals and temperature _____ in _____ thermostat _____?

For _____ energy efficiency and _____ thermostat, are _____ any instructions on setting _____ or _____?

I want to _____ stay comfortable _____ my _____ can _____ set time _____ or _____ ranges?

Is _____ a _____ time _____ temperature _____ I _____ consider when _____ thermostats?

What _____ ranges _____ preferences _____ recommended when _____ comes to programming _____?

What _____ the _____ ranges and timing _____ be _____ when _____ smart _____?

_____ possible _____ time periods _____ limits _____ my smart thermostats?

_____ programming _____ intelligent thermoregulators, what _____ recommended time intervals _____ give _____ savings and increased _____?

_____ maximize _____ efficiency and _____ home with _____ there recommended time _____ or temperature settings?

I _____ wondering _____ there is a specific schedule _____ preferred _____ of temperatures that _____ into _____ to maximize both _____

Do I _____ to follow specific _____ when _____?

_____ my _____ for _____ time _____ and _____ range taken into account?

_____ there a _____ of temperatures _____ can _____ programmed into my smart thermostat _____ savings _____ well _____ comfort?

_____ do I _____ periods _____ limits _____ my smart thermostats?

_____ it possible to _____ time _____ for optimal _____ with _____ smart thermostat?

When programming _____ intelligent thermoregulators, what _____ intervals that yield both _____ and _____?

_____ there _____ frame or _____ I should _____ my smart thermostat?
 Is there a time _____ or _____ that _____ should _____ for?
 _____ a good idea _____ program my _____ thermostat _____ temperature _____?
 Is _____ to _____ thermostat _____ and efficiency within _____ period of time?
 _____ should I set _____ and _____ for _____ smart thermostat?
 _____ to _____ time _____ and _____ ranges when _____ my thermostat?
 When _____ my smart thermostat _____ comfort, _____ specific time intervals _____ ranges?
 Do set time _____ and _____ are _____ for smart _____?
 To ensure _____ temperature and _____ how _____ set the _____ my smart thermostat?
 _____ up _____ smart _____ should I follow certain _____ intervals?
 _____ and temp settings _____ save energy with smart _____?
 _____ possible _____ set time periods and _____ will enhance comfort and _____?
 _____ it _____ good idea to set the _____ on _____ smart thermostats?
 How _____ my _____ time _____ temperature limits to _____ energy?
 _____ it possible _____ energy efficiency and _____ thermostats by considering specific _____ or _____?
 Energy _____ time _____ limits for _____ thermostat settings?
 _____ a _____ time _____ or temperature range _____ would _____ me save _____ comfort while _____ my smart _____?
 _____ it _____ to _____ time frames or _____ levels _____ up the smart _____?
 Is _____ possible to set time _____ and _____ optimal _____ efficiency with _____.
 _____ there _____ time slots _____ efficient programming of smart _____?
 Is it _____ time _____ temperature _____ so that I can _____ with my smart _____?
 _____ it possible _____ set time _____ or temperature _____ energy _____ stay comfortable with _____?
 _____ I _____ to follow time _____ temperature settings to maximize _____ efficiency and _____ smart thermostat?
 Is _____ possible to _____ intervals _____ my _____ save energy.
 When it _____ smart thermostats, do _____ intervals _____?
 _____ a _____ or a preferable _____ of temperatures that _____ programmed into _____ thermostat _____ energy savings and personalized _____
 Setting time _____ optimal energy _____ comfort with _____ smart thermostat, is _____?
 What should _____ time _____ limits for my smart thermostat?
 Is _____ specific times and _____ I should _____ thermostats?
 Can you _____ period or temperature _____ help me save _____ and comfort _____ thermostat?
 _____ there a _____ schedule _____ preferred _____ can be _____ into _____ thermostat to _____ both energy savings _____ personalized _____?
 Do _____ need to consider specific _____ and _____ to _____ my energy savings and _____?
 Is _____ time _____ temperature range to consider _____ programming _____ thermostat?
 _____ should _____ time _____ on _____ thermostat to conserve energy?
 Is it possible to _____ and _____ a _____ settings _____ my _____ thermostat?
 Is it possible to _____ for energy _____ within certain _____?
 _____ there any _____ on choosing time _____ efficient _____ thermostat _____?
 temp _____ or _____ time periods _____ smart thermostat _____?
 When _____ a smart thermostat _____ certain _____ or temperatures?
 _____ advice on optimal temperature settings _____ time _____ usage _____ smart thermostats.
 _____ time period _____ that _____ help me save energy and comfort while using _____ thermostat?
 I _____ looking for advice on _____ settings _____ frames _____ my _____.
 _____ for certain _____ intervals _____ temperature _____ used for smart thermostat programming?
 Is there any _____ setting time _____ comfort with the smart _____?
 _____ might _____ a _____ or temperature _____ efficient programming _____ smart _____.
 Is it _____ program my _____ comfort and efficiency _____ certain _____.
 The time _____ and _____ limits _____ my smart thermostat _____ set _____ and _____.
 Is it _____ to _____ time _____ maximize energy _____ on _____ thermostat?
 _____ it possible to _____ specific _____ intervals _____ ranges _____ energy and be comfortable _____ thermostat?

_____ periods _____ energy-friendly and _____ limits that are _____ settings?
 When _____ savings and comfort _____ my intelligent _____ devices, are _____ moments _____ heat levels _____?
 Is _____ any advice _____ setting _____ intervals and _____ for _____ with my _____?
 _____ do _____ the _____ periods and temperature limits _____ thermostats?
 What _____ the recommended intervals and _____ ranges _____ with _____ smart _____?
 _____ intervals _____ energy efficiency and comfort _____ my _____ is there any _____?
 Is it _____ suggest time _____ or temperature _____ could _____ energy and comfort _____ smart thermostat?
 _____ programming my _____ thermostat, is _____ a _____ or temperature?
 _____ programming my _____ for comfort _____ is the time interval _____ temperature _____ into _____.
 _____ programming _____ smart thermostats, are _____ specific time _____ that should be _____?
 Is it _____ intervals and temperatures for _____ my smart thermostat?
 I _____ to _____ energy and _____ using _____ smart _____ suggest _____ specific time _____ or temperature _____?
 For _____ with _____ smart thermostat, can there _____ any _____ on setting _____ intervals?
 _____ set time intervals _____ my _____ save energy?
 Is there a particular time interval or _____ my _____?
 Is _____ set _____ my smart thermostats for optimal _____ comfort levels during _____ periods?
 _____ to programming _____ thermostat for _____ savings _____ comfort levels, what are _____ and timing preferences?
 Is _____ on what time slots to use _____?
 Time _____ are _____ used for _____ smart thermostat settings.
 _____ there _____ guide _____ time intervals for optimal energy _____ with my _____?
 When programming _____ are _____ time _____ temperature range taken _____?
 _____ I _____ up _____ thermostat for optimal _____ efficiency and comfort _____ while _____ certain _____ periods _____ thresholds?
 Is it important to _____ or temperature _____ thermostat?
 _____ time intervals _____ temperature _____ to _____ when _____ my thermostat?
 _____ program my _____ in specific _____ ranges _____ intervals?
 Is it _____ idea _____ set up my _____ for _____ energy _____ and _____ levels _____ certain _____?
 _____ a time _____ or temperature range _____ would _____ me _____ energy and _____ using my smart _____?
 Is it _____ to _____ for time frames _____ up my smart _____?
 _____ I _____ time _____ and temperature ranges to conserve _____ stay _____ with _____ thermostat?
 To save _____ and _____ a comfortable _____ should _____ time _____ on _____ smart _____?
 _____ there any _____ on _____ and time frames for _____ smart _____?
 Is _____ for you _____ recommend optimal temperature _____ and _____ for _____ smart _____?
 Is _____ possible _____ and temperature limits on my _____ thermostat?
 _____ suggest _____ when configuring my _____ to conserve energy?
 Is _____ to _____ periods _____ temperature limits _____ my smart thermostats?
 _____ energy and to ensure _____ how _____ I set the time _____ on my _____?
 Are _____ recommended time intervals that I should _____ to _____ a _____ home with my _____?
 When programming _____ energy _____ and comfort, are _____ time intervals _____ temperature _____ to consider?
 Is it _____ temperatures on the smart _____?
 Can you _____ me _____ time _____ and _____ I can _____ save _____ and _____?
 When programming _____ thermostat, are the _____ interval and _____.
 Do you have _____ optimal _____ settings and _____ frames _____ thermostats?
 _____ there _____ interval or temperature _____ to consider _____ my smart _____?
 _____ there _____ when _____ can _____ my _____ thermostat to _____ energy?
 _____ on choosing _____ slots _____ programming of smart thermostat?
 Is _____ time _____ range taken _____ when programming _____ thermostats?
 Can you _____ any time periods or _____ that _____ help _____ save _____ comfort using _____?
 When programming _____ is there a specific _____ consider?
 Do _____ have time _____ ranges to consider _____ smart thermostats?

_____ should _____ set time intervals on my _____?

_____ I _____ to _____ time _____ temperature settings to maximize energy _____ and _____ a _____ my smart _____?

Can I _____ and _____ my smart thermostats _____ energy?

Is _____ my smart _____ energy efficiency _____ a certain _____ period or temperature range?

_____ it _____ sense to _____ or temperature ranges _____ thermostats?

_____ to program _____ smart _____ comfort and efficiency at _____ times?

_____ my thermostat, _____ the _____ interval _____ temperature range _____ into _____

_____ thermostats, are there time intervals or temperature _____?

Is it a _____ to set _____ smart thermostat _____ optimal _____ comfort _____ certain time _____?

_____ the recommended _____ temperatures _____ programming smart _____ maximize _____ savings and comfort?

Is _____ any recommended _____ or _____ that will enhance _____ comfort and energy _____ thermostat?

When setting _____ a smart _____ for time frames _____ warmth levels?

_____ programming _____ smart thermostat, are _____ or temperatures to _____?

_____ there _____ schedule or _____ temperatures that _____ be programmed _____ maximize _____ comfort as well as _____ savings?

When _____ my thermostat, _____ the _____ and temperature _____ into account?

I _____ wondering how to _____ the _____ periods and _____ limits _____.

_____ possible _____ periods and _____ settings that _____ and energy savings?

_____ there any _____ on choosing _____ time _____ programming of smart _____?

Should I _____ certain time periods _____ my smart _____ for _____ comfort levels?

_____ to set time intervals _____ temperatures _____ energy efficiency _____ comfort _____ my smart _____?

Is it _____ time intervals _____ temperature _____ to _____ on _____ comfort?

While _____ home _____ with smart _____ what _____ timing _____ temp _____ save energy.

Is there a _____ frame _____ temperature _____ that _____ me _____ energy and _____ using my smart _____?

Time periods _____ temp _____ the smart _____?

When _____ programming _____ thermostats for energy savings and _____ are the recommended _____ and timing _____?

When setting up _____ smart _____ is _____ account _____ or warmth levels?

_____ need _____ on optimal temperature _____ time frames _____ energy usage _____ thermostat.

_____ there a _____ frame or _____ for _____ program _____ smart _____?

Is _____ range _____ should consider when _____ smart thermostat?

What are _____ intervals and temperature _____ programming _____ thermostats?

What intervals _____ temperature _____ are _____ to _____ with _____ thermostat?

_____ the temperature _____ preferences that should be _____ to _____ thermostats?

Is there _____ schedule or _____ of temperatures _____ can be _____ smart _____ the _____ of _____ as well _____ personalized _____

Is it _____ to program _____ thermostat for _____ and _____ in _____?

_____ suggest _____ periods when configuring _____ thermoregulators _____ energy?

Do you recommend _____ temperature settings _____ energy efficiency _____ a comfortable _____ my smart _____?

Is it _____ intervals or temperature _____ save on _____ and _____ with my thermostat?

Do _____ to _____ time intervals _____ temperature settings _____ my home _____ my _____ thermostats?

How _____ ensure _____ comfortable _____ and save energy _____ setting _____ intervals _____ thermostats?

To _____ how should _____ the _____ intervals on my _____?

Is _____ possible to _____ time periods _____ on energy and _____ comfortable _____ my _____?

_____ a _____ of _____ can be programmed into _____ thermostat to maximize both _____ savings and comfort?

Should _____ be _____ or temperature _____ for _____ thermostats?

_____ possible _____ set time periods or _____ enhance _____ energy savings?

_____ thermoregulators, _____ are the _____ time intervals _____ will _____ both _____ savings and improved _____?

Can you _____ periods _____ ranges _____ I can _____ to _____ energy and _____ using my smart _____?

Is there a specific time frame _____ temperature that _____?

____ it necessary for ____ to follow time ____ or ____ ranges ____ thermostat?
 ____ have ____ on optimal temperature ____ time frames for ____ thermostat?
 ____ to consider distinct timespans ____ typical temperatures ____ my ____ thermometers?
 ____ limits ____ smart thermostat ____ or ____ friendly time ____?
 ____ the time ____ and ____ be ____ account when programming my ____?
 Can I program ____ smart thermostat ____ save energy?
 Is there ____ set of temperature ranges ____ affect ____ and ____?
 I ____ like guidance ____ ideal programming parameters ____ terms ____ temperature bounds ____ energy efficiency
 What are the ____ time ____ and temperature ____ thermostats that ____ cost-effective ____ adequate ____ comfort?
 ____ are ____ recommended ____ help ____ energy ____ and ____ with my smart ____?
 ____ setting up ____ should I ____ certain ____ or intervals?
 ____ to ____ time periods or temperature ____ when programming ____ thermostat?
 Is it necessary for set ____ and ____ be ____ in ____ programming?
 Is ____ a schedule or ____ can be ____ my ____ maximize ____ energy ____ and personalized comfort?
 ____ it ____ set ____ intervals ____ to save energy and stay comfortable?
 The ____ interval ____ my thermostat ____ be considered when ____ my ____.
 I would like to know how to ____ for ____ and ____ my thermostat.
 I need advice on optimal ____ my smart ____.
 Are ____ settings ____ time ____ efficient energy ____ in ____ smart thermostat?
 ____ there ____ to ____ when programming my ____ thermostat?
 ____ it ____ to ____ time periods and ____ to save energy ____ stay comfortable ____?
 Is it possible to ____ efficiency and comfort ____ time ____?
 ____ possible ____ suggest specific time periods ____ temperature ranges ____ help ____ and ____ my smart thermostats?
 ____ should I ____ on ____ ideal ____ and ____ ranges for my ____?
 ____ it ____ to ____ energy ____ stay comfortable with ____ smart ____ by setting ____ temperature ranges?
 ____ it necessary to ____ temperature ranges or ____ programming ____ smart ____?
 Are set ____ temperature ranges ____ smart ____ programming?
 ____ necessary ____ for time frames when ____ my thermostat?
 ____ or temperature ____ that I can ____ to save ____ and maintain ____ comfortable home?
 While ensuring home ____ the ____ and temp settings to save ____?
 Do I ____ follow ____ periods ____ temperature ____ programming my smart ____?
 Is it ____ suggest ____ period or ____ that could help ____ save energy ____ comfort ____ thermostats?
 ____ programming my smart thermostats, ____ there ____ time ____ ranges ____ consider?
 ____ the time ____ range recommended ____ efficient programming of ____?
 ____ are the recommended ____ and ____ maximize energy savings and comfort ____?
 Can ____ a time period or temperature range that ____ to ____ comfort ____ my smart ____?
 Is it ____ to suggest ____ time period or ____ range ____ help ____ energy and comfort using ____?
 Do you ____ of any specific ____ temperature ____ that ____ me ____ energy and ____?
 What are ____ time ____ smart ____ programming ____ maximize energy ____ and ____?
 Is there ____ information on ____ time intervals ____ optimal energy ____ comfort ____?
 What ____ and temp settings for ____ and home comfort with ____?
 ____ recommended time periods ____ temperature settings ____ enhance ____ and energy ____ when using ____?
 ____ I program my ____ comfort ____ energy efficiency during ____?
 ____ necessary for ____ intervals ____ to be ____ smart thermostat programming?
 Do you know of any ____ periods ____ ranges ____ could ____ energy ____ using my ____ thermostat?
 ____ it ____ good idea ____ my smart thermostat ____ energy ____ comfort ____ certain times?
 Is it ____ or climate variations for my ____ to ____ energy.
 When configuring ____ to conserve energy ____ compromising comfort, ____ you ____ periods ____ variations?

_____ and temperatures be programmed _____ thermostat?

_____ can tell me about choosing the _____ for efficient _____ thermostats?

Is it _____ tell _____ the _____ temperature settings _____ for my smart _____?

_____ need _____ set time periods _____ ranges when _____ thermostat?

Is there _____ guidance on choosing _____ for _____ thermostats?

Is there _____ specific time _____ to _____ on _____?

_____ thermostat, should I consider _____ and temperature ranges?

_____ it necessary to set _____ intervals and _____ to _____ energy savings _____ comfort _____ smart _____?

_____ the temperature range _____ time _____ taken into account _____?

_____ I _____ time intervals or _____ when programming _____ smart thermostat?

_____ I _____ ideal time _____ and temperature _____ for my _____ thermostat?

_____ a time or temperature _____ where smart _____ can _____?

_____ I _____ to follow _____ intervals when programming _____?

_____ I program my _____ according _____ temperature _____ intervals?

_____ there a _____ range of temperatures _____ programmed _____ my _____ to maximize both energy _____ and _____?

When _____ is there a specific time _____ or temperature _____?

_____ follow time _____ and _____ to maximize _____ efficiency _____ home more comfortable with _____ smart thermostats?

What _____ temperature ranges and _____ should be used _____ thermostats?

Can _____ climate variations for me to _____ intelligent thermoregulators _____ conserve _____?

_____ should _____ into account the time interval and temperature _____.

_____ idea _____ up my smart thermostat for optimal _____ energy efficiency _____ certain times?

Is _____ a _____ frame or temperature setting _____ help _____ save _____ keep my _____?

_____ my _____ be programmed _____ ranges _____ intervals?

Is _____ set _____ intervals or _____ to save energy and keep _____?

Is it _____ time intervals _____ temperature ranges to _____ energy _____ stay _____ with my _____?

_____ it possible to _____ and temperature ranges to _____?

_____ it possible to _____ energy _____ within time periods or temperature ranges?

_____ thermostat _____ programmed within _____ temperature ranges _____ intervals?

For _____ energy efficiency _____ comfort _____ is there any guidance _____ time intervals _____ temperatures?

_____ and temperature _____ thermostats should _____ taken into account _____ the thermostat.

_____ can _____ energy _____ ensure a _____ intervals on my smart thermostats?

I don't know _____ there _____ times and temperature ranges _____ should _____ when _____.

_____ can I set time _____ temperatures _____ optimal _____ efficiency _____ comfort _____ my _____?

_____ it _____ to _____ time _____ temperature _____ to save _____ energy and be comfortable _____ my _____?

_____ you _____ if _____ a time or _____ efficient programming of smart _____?

_____ you _____ time periods _____ configuring intelligent _____ to _____ compromising comfort?

Is there _____ set _____ or temperature _____ should use _____ my smart _____?

When programming _____ the _____ interval _____ temperature range _____ into _____.

_____ to set time _____ and temperatures _____ optimal _____ efficiency _____ my thermostat?

Time and temperature _____ savings and _____?

_____ it possible to _____ my thermostat _____ and _____ certain periods?

The _____ periods _____ temperature limits on _____ should be set _____ order _____ conserve energy _____.

_____ I program certain times _____ my _____?

_____ I _____ time _____ temperature _____ enhance comfort and energy _____?

_____ there a specific time _____ or temperature _____ for _____ smart thermostat?

Is _____ or temperature ranges _____ should be _____ programming my _____ thermostats?

_____ my _____ temperature range and time _____ taken _____ account.

Are _____ save energy _____ my thermostats?

I _____ to _____ what the _____ intervals and temperature _____ my _____ thermostat.

_____ energy _____ ensure _____ should I set the times on my _____?

____ there ____ schedule ____ of ____ that ____ be programmed ____ maximize both comfort and energy efficiency?

Is it possible ____ times and ____ my smart thermostat ____?

Is there ____ guidance ____ choosing time ____ thermostats?

Do ____ have ____ specific time ____ temperature ____ programming my thermostat?

____ it possible to ____ my ____ for ____ at specific ____ frames?

____ to ____ recommended time intervals or temperature ____ to maximize ____ ensure a comfortable ____ with ____ smart ____?

Does ____ sense to ____ timespans and temperatures when ____ settings ____ my ____?

Should I consider ____ ranges in ____ thermostat?

____ there ____ specific ____ period or temperature range ____ could help ____ save energy ____ maintain ____ thermostat?

To save energy ____ comfortable temperature, ____ I set ____ on ____ thermostats?

____ temp limits for ____ settings?

Is ____ or temperature ____ my smart thermostat?

How ____ I ____ time intervals ____ to ____ energy ____ comfort with ____ smart ____?

When programming ____ thermostat, will the ____ interval and ____ into ____?

____ there a ____ of time ____ settings ____ use ____ conserve energy and maintain a comfortable ____?

Do I ____ specific time frames ____ program ____ smart ____?

____ smart thermostats, ____ optimal ____ and temp ____ to save ____?

Is ____ set time ____ or temperature ____ and comfort with my ____?

Is ____ a ____ and ____ range ____ the smart ____?

____ programming ____ intelligent ____ what ____ intervals that yield both energy ____ comfort levels?

Is ____ a time and ____ range for ____ programming ____?

The ____ and temperature ____ on ____ thermostat should be ____ to ____ energy.

____ can ____ a ____ temperature and ____ time intervals on my smart ____?
