

[Demo] NLP Dataset for Customer Service Automation

Company Type	Auto Repair and Maintenance Shops
Inquiry Category	Need an oil change service
Inquiry Sub-Category	Oil change service options
Description	Customers inquire about the different types of oil change services available, such as conventional, synthetic, or high mileage, and want to know which one is best for their vehicle's needs.
Data Size	5,040 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Auto Repair and Maintenance Shop" customer inquiry. (Purchased data will not be masked.)

Do certain types cause _____ than _____ use?
_____ types lead _____ more gunk _____ using them for _____?
Which _____ more _____ when _____ for a long _____?
Is _____ possible that _____ greater _____ build up?
_____ continuous driving, _____ bigger slush piles?
Do types lead to _____ after _____ a _____ time?
Is _____ caused _____ utilization of distinct _____?
If certain models _____ do _____ more _____?
Is there more sludge build _____ by _____?
Is it _____ for particular types _____ greater _____ application?
Is it _____ certain types foster _____ accumulate _____?
Is it _____ particular _____ to _____ more _____?
_____ it true that _____ types are _____ more _____ when used _____?
Is _____ possible _____ particular _____ encourage greater _____ accumulation after _____ application?
When _____ for a long _____ can _____ in excessive _____?
_____ use, are _____ vehicles more _____ sludge?
There _____ more sludge _____ types are used _____ a _____.
_____ tendency for certain _____ increase sludge _____ over time?
Is _____ possible for _____ variant to _____ in _____ sludge _____?
_____ vehicles _____ susceptible _____ sludge build _____ with _____ use?
Do _____ models accumulate _____ time?
_____ sludge more prone _____ build _____ for _____?
Could some models _____ slush build-up _____?
_____ variations _____ accumulate muck through _____?
_____ extended _____ more _____ formation?
_____ possible _____ particular _____ cause more debris _____ accumulate _____ used _____?
Will _____ sediment than others after _____ operation.
Does _____ sludge formation?

____ certain ____ build up sludge over ____?
 ____ some ____ more sludge to ____ up?
 ____ true ____ are prone ____ more sludge when ____ lots?
 Is ____ possible ____ certain types ____ more ____ build-up?
 ____ there more sludge build ____ long use ____?
 ____ certain types ____ sludge build up with ____?
 ____ it possible ____ to ____ excessive ____ used for a long time?
 ____ possible for ____ more filthyAccumulation over time?
 ____ it ____ that specific ____ thicker filth ____ over ____?
 ____ there ____ build-up of ____ by certain ____ compared ____ after use?
 When certain ____ used ____ long ____ time is there ____ build-up?
 Will some ____ acquire more ____?
 Is ____ in ____ build up with ____ types?
 Is it possible that ____ sludge ____ time?
 Is ____ specific varieties ____ more filth ____ accumulate?
 ____ ones ____ more ____ time?
 Is it ____ that ____ more gunk over ____.
 ____ it possible ____ lead ____ extra ____ after an ____ period?
 ____ there ____ build-up from certain ____ they are ____ long ____?
 Is it possible ____ certain ____ into ____ messes ____ while?
 Is ____ more ____ when it is ____ periods of ____?
 ____ are ____ susceptible to ____ build-up ____ extensive use.
 ____ it ____ that certain variations ____ muck ____ long-term usage?
 ____ there ____ up of sludge ____ compared ____ other types?
 ____ it ____ are more ____ to ____ more sludge than others?
 Specific kinds of ____ be ____ sludge over time.
 ____ it ____ that ____ greater slurry accumulation after ____ long ____?
 Is ____ more sludge ____ when certain ____ are ____?
 Which kinds ____ more gunk when ____ a ____ period ____?
 ____ it possible for ____ types to ____ slurry accumulating ____ application?
 ____ sludge ____ in certain types ____ they are ____ long time?
 ____ possible for ____ to result ____ excessive leftover ____ used for ____ long ____?
 ____ there more ____ build-up from certain types ____ are ____?
 ____ there more sludge ____ certain ____ when used for ____ of ____.
 Could certain ____ contribute to ____ through long-term ____?
 ____ some ____ make ____ sludge ____?
 ____ it possible ____ are prone to ____ grimy mess ____?
 Which ____ more ____ when ____ long periods?
 Is ____ that types ____ to ____ after ____ use?
 Which ____ are vulnerable ____ over ____?
 ____ it ____ varieties ____ gunk to accumulate over ____?
 ____ accumulate extra sludge?
 Is ____ more ____ to sludge ____ up ____ use?
 ____ there ____ build up when ____ types are used ____ a ____?
 Is ____ likely that ____ sorts ____ to additional ____ eventually?
 Is it possible for ____ varieties ____ over ____.
 Is ____ that ____ sorts ____ prone ____ more ____ builds up?
 Is ____ that certain types are ____ greater ____ sludge?
 ____ there more ____ build-up by ____ types after ____?
 Is ____ possible ____ long ____ of different ____ to sludgy ____?

_____ build-up when used for _____ periods?

When used _____ long _____ which _____ created more _____?

_____ vehicle more prone to _____ extended usage?

_____ build-up _____ certain _____ after use.

Is there _____ build-up _____ certain types _____ long _____?

Is _____ possible _____ types are _____ to additional _____ messes _____?

_____ certain _____ more grimy _____ eventually?

_____ certain sorts _____ additional _____ later?

Do _____ cause extra _____ if _____ used _____ an _____ period?

_____ are _____ types of sludge _____ up after _____.

Is _____ true that certain _____ are _____ sludge _____?

Is _____ true that _____ types are _____ to _____ sludge _____ a _____?

Is _____ more _____ from _____ types _____ long use?

Is there more _____ sludge _____ some _____?

_____ is _____ sludge build-up _____ certain types _____ for a _____ period.

_____ certain kinds _____ to more _____?

_____ lead _____ more _____ after use?

_____ there _____ build-up after a _____?

_____ the _____ sludgy formations _____ of _____ utilization of _____ sorts?

Is _____ that certain types _____ prone _____ have more _____?

Over _____ do certain types _____ up?

Which _____ more gunk _____ for a long _____.

Is _____ true that certain _____ prone to _____ sludge.

_____ some models get _____ sludge _____?

Is there _____ sludge _____ done _____?

_____ certain types _____ prone to greater _____ of sludge?

_____ it correct _____ prone to more sludge?

Is _____ true that certain _____?

_____ extended _____ of time, _____ you _____ more _____ build-up from certain types?

_____ will _____ types create _____ sludgeAccumulations?

Does _____ involve _____ formation?

_____ there a _____ kind _____ product that _____ prone _____ sludge build-up _____?

_____ it possible for a _____ to _____ in _____ residue _____ for a _____ of time?

_____ it _____ that some types _____ more _____ getting sludge _____ a _____?

_____ kinds create _____ in _____ run?

Is it true that _____ are _____ prone _____ used a _____?

Is _____ types mean _____ sludge?

_____ used for a _____ can a particular variant result _____?

_____ build-up _____ compared to other types after use?

When _____ are used for _____ long _____ is there _____ build-up _____?

Is certain kinds _____ prone _____?

_____ certain types are _____ for _____ periods _____ time, _____ more sludge _____.

_____ it possible _____ some kinds foster _____ accumulate _____?

_____ true _____ types are prone _____ greater amount of _____?

_____ it true that certain _____ can _____ sludge?

When _____ extensively, _____ to more sludge?

_____ lead _____ extra _____ after a long _____ of _____?

Is _____ sludge build-up _____ used for a _____ long, long _____?

_____ used _____ time, can a _____ variant _____ in too much _____?

Do some types _____ sludge build-ups _____?

_____ out _____ selections produce _____ when used frequently?

Is there more sludge _____ long _____ some _____?

Is _____ to sludge build up _____ use?

_____ used _____ an _____ time, will _____ be more _____ build-up?

Is it _____ certain _____ are prone _____ more _____ build _____?

Could _____ models result _____ bigger slush piles _____?

Some models could _____ bigger _____ with _____ driving.

_____ foster _____ sludge formation?

Is it possible for specific _____ slurry _____?

Is _____ true _____ kinds are prone _____ greater _____ sludge?

_____ certain _____ encourage _____ over time?

Is _____ particular types _____ increase _____ amount _____ after application?

Is there more _____ build-up _____ when _____ are used _____ periods of _____?

Is _____ true _____ certain _____ are _____ lot of sludge?

_____ types cause _____ collection?

_____ types will _____ higher _____

_____ it true that some _____ larger _____ of sludge?

Is _____ build-up _____ types compared _____ other types?

_____ it _____ for a _____ variant _____ result _____ too _____ residue when _____ a long _____?

_____ there more _____ build-up from _____ they are used _____ a _____?

_____ certain _____ to cause excessive residue _____ for a _____ period?

_____ types cause extra _____ used for _____?

Is _____ kinds _____ prone _____ build up _____?

_____ possible that utilization _____ distinct _____ leads _____ formations?

Is _____ that there _____ build-up _____ certain types?

_____ a build-up _____ sludge _____ certain types when _____ periods _____ time?

_____ goes _____ more _____ long use?

Are there more sludge build-up _____ certain _____ when they _____?

_____ there _____ truth to the _____ certain types are _____ to _____?

_____ correlation between certain types and sludge _____ after a _____?

Is _____ sludgy _____ by long utilization _____ types?

_____ more _____ used for a long time?

_____ more sludge build-up _____ certain _____ are _____?

Which types _____ gunk when _____?

_____ true that _____ types are _____ prone to _____ when _____ a _____?

_____ there a bigger build-up _____ types compared _____ others?

Is it _____ that certain _____ more _____ to sludge _____?

Do _____ cause _____ greater _____ debris when _____ longer?

Is there _____ that certain _____ are _____ to _____ grimy _____?

Can experts _____ which _____ produce _____ mire _____ they're _____?

Will _____ get _____ after _____ operation?

Some types _____ cause _____ usage.

Is it _____ certain types _____ sludge when used _____ lot?

_____ it _____ certain variations contribute _____ accumulating muck _____ use?

Is _____ susceptibility _____ sludge build-up _____ types?

Is it _____ prone to more grimy build-up _____.

_____ extended _____ more _____ formation?

Will some types turn _____?

_____ kinds of _____ have increased sludge build-up _____.

The Accumulation of _____ be contributed to by certain _____.

_____ there more sludge _____ when _____ for _____ long period _____ time?

Will some _____ lead _____ more sludge _____ extended _____?

_____ used _____ a _____ is _____ more sludge build-up?

_____ kinds cause more _____ used for _____?

Is there _____ build-up _____ certain _____ after use?

Is _____ that _____ sorts _____ to _____ grimy build-up eventually?

_____ heightened sludgy formations result _____ long-term _____ of _____?

_____ possible _____ variants _____ result _____ greater sludge build up?

Is it _____ that _____ sludge accumulate _____ time?

_____ time _____ certain types foster _____.

_____ it true that _____ can _____ used a lot?

Some types _____ lead to _____ extended use.

_____ specific types have more susceptibility _____ extensive _____?

_____ more sludge build-up _____ certain _____?

When sludge is _____ for a _____ time, is _____?

_____ to build-up more grimy gunk _____?

_____ types _____ higher _____ after extended _____.

_____ more sludge build _____ some _____ are used _____?

Will some _____ build _____ with extended use?

_____ long term _____ more _____ formations?

Is certain _____ to _____ eventually?

Which ones _____ sludge over _____?

_____ create _____ when _____ for _____ long period of time?

_____ heightened sludgy _____ caused _____ prolonging _____ of different _____?

_____ used _____ do particular sorts _____ accumulate _____?

_____ long _____ can the particular _____ in excessive residue?

_____ between _____ variations _____ the build _____ of muck through long-term _____?

Does _____ build up _____ using types _____ period?

_____ more _____ up with _____?

Is there _____ increase in gunk _____ using _____ for _____?

_____ types _____ be _____ prone to _____ build-up _____ extended _____.

Is _____ prone _____ build-up eventually?

Will the types create _____ accumulations _____?

_____ it _____ certain types _____ greater slurry accumulation _____ lengthy _____?

_____ ones _____ more sludge _____?

Could some models _____ slush _____?

_____ certain _____ prone to _____ builds-up _____?

_____ types are prone to _____ used _____ lot.

Is there more _____ long _____?

Is it possible _____ particular _____ slurry accumulation after _____ application?

_____ it true _____ types are _____ prone _____ use?

Is _____ more sludge _____ from certain _____ they're _____ long _____?

_____ certain variations contribute _____ muck through _____ usage?

Is _____ for certain _____ encourage more slurry accumulating after _____?

Is _____ specific varieties cause thicker _____ time?

Is it _____ lead to heavier gunk _____?

I _____ if certain types are _____ used a lot.

Is _____ possible _____ some models _____ sludge over _____?

Some _____ can _____ more _____ time.

Is there _____ types when they're _____ a long time?

Will _____ more sludge _____ up with extended _____?

Over _____ do _____ sludge build up?

Is _____ that certain varieties _____ cause _____ over time?

_____ accumulations _____ after extended usage?

_____ it true that certain _____ to _____ more _____ when _____ frequently?

_____ it _____ certain types _____ encourage a _____ amount _____ slurry?

_____ possible for particular _____ to result _____ residue when used _____ a _____?

_____ kinds create _____ gunk _____ long _____ of use?

Is _____ more _____ from certain _____ used a long, _____?

_____ greater _____ caused _____ prolonging _____ of distinct sorts?

_____ more sludge formation when _____?

Is _____ certain types will _____ slurry accumulate?

_____ types of _____ prone _____ sludge build _____ over time?

_____ there _____ sludge formation used _____?

Is _____ more prone _____ longer _____?

_____ kinds _____ sludge _____ to _____ over _____.

There may be _____ build-up _____ used for a long _____.

_____ it _____ are prone _____ more grimy build-up eventually?

Will _____ accumulations be _____ some _____?

_____ there more sludge _____ use?

Are some _____ capable _____ increased sludge _____?

Is it true that some _____ sludge when used _____?

Is there more sludge build _____ periods of _____?

_____ is more _____ certain _____ when _____ a long time

Some varieties _____ more _____ than others _____ constant _____.

Is _____ that certain _____ prone _____ more _____ used heavily?

_____ ones get _____ sludge over _____ time?

_____ prone _____ sludge build up _____ extended use?

Is there _____ from certain _____ when used _____ a _____.

Is it _____ that certain types tend _____ sludge?

_____ sludge build-up _____ types after use?

_____ of sludge _____ for a _____ time, _____ there more build-up?

_____ there more _____ from certain types when you _____ them for _____?

Is there more _____ of _____ different _____ after _____ use?

Can a _____ result _____ residue when used for _____?

Is it _____ specific varieties _____ cause _____ filth _____?

_____ some _____ higher sludgeAccumulations _____ extended _____?

_____ term utilization _____ sorts lead to _____ formations?

Do certain _____ increase over _____?

Is there a _____ the amount of _____ by _____ types after _____?

_____ types cause _____ using them for _____ period?

Is _____ specific types _____ susceptibility to sludge _____ up?

Specific _____ may _____ prone _____ increased _____ up over time.

Is _____ sorts prone _____ dirty _____?

_____ types _____ more _____ accumulations?

_____ types _____ more gunk after _____?

_____ are _____ prone _____ up sludge with _____ use

_____ the _____ distinct sorts lead _____ formations?

_____ tend to _____ sludge over _____?

_____ are more sludge _____ certain types _____ others after _____ of _____.

Is _____ products prone _____ sludge build up?
 _____ higher sludge accumulations _____ extended usage?
 _____ there a _____ between _____ thicker filth accumulation _____ time?
 _____ certain varieties cause _____ filth _____?
 Some varieties _____ acquire _____ silt _____ after _____ operation
 Some _____ will acquire more silt _____ others _____.
 Do types cause _____ being _____ for _____ extended period?
 There _____ build-up when _____ used for a long time.
 Some _____ acquire _____ after constant _____.
 There _____ sludge _____ from certain types when it _____ long _____.
 _____ be _____ build-up by _____ types compared _____ others _____ use.
 _____ it true that _____ prone _____ more sludge than _____?
 Isn't _____ sludge _____ when _____ types _____ used for _____ long _____?
 _____ certain _____ of _____ accumulate over _____?
 Do _____ have _____ higher _____ to sludge _____ use?
 _____ it possible that _____ contribute to _____ long-term usage?
 Is _____ possible for a particular variant _____ residue _____ a _____?
 _____ increased _____ formations result _____ long-term _____ of distinct _____?
 Will _____ lead _____ more deposits?
 _____ acquire more _____ compared _____ others _____ constant operation?
 Is _____ a _____ variant _____ cause _____ residue when used _____ time?
 _____ that certain variations contribute to the _____ of muck _____?
 Is _____ formations _____ by prolonging utilization _____ separate _____?
 _____ you _____ if _____ sludge _____ from certain types?
 _____ that some types are prone to more _____?
 _____ that _____ are more prone to becoming _____?
 Is it _____ types are _____ more _____ of sludge?
 Is _____ true _____ types have more _____?
 Which _____ types _____ after _____ use?
 _____ possible _____ specific _____ to result _____ greater sludge _____?
 _____ might _____ from certain types when they _____ long period of time.
 _____ kinds encourage sludge _____?
 _____ more likely to _____ debris _____ when used _____?
 _____ types to encourage _____ accumulation after a long application?
 _____ more sludge when _____ long.
 Do types _____ gunk after _____ time of _____?
 _____ used _____ an _____ of time, _____ more sludge build-up?
 _____ types _____ more _____ long use?
 _____ certain _____ to have _____ sludge when used _____?
 Is _____ possible that _____ varieties _____ than _____ with extensive _____?
 Will _____ higher _____ accumulations?
 Does _____ encourage _____ to _____ over _____?
 _____ there _____ build-up after _____ certain _____?
 _____ prolonging utilization _____ to _____ sludgy _____?
 _____ sludge _____ from certain types when they _____ used _____ a _____.
 _____ it _____ for particular _____ to encourage _____ slurry accumulation _____?
 _____ it true _____ types are _____ more _____ when _____ a lot.
 _____ more _____ build-up when _____ for a _____ time?
 Which _____ creates _____ when _____ a _____ time.
 _____ for a long _____ certain _____ in excessive residues?

Is _____ that _____ are more _____ sludge build up _____ use?
 _____ there a higher build-up of _____ types _____ to _____?
 _____ some _____ higher _____ after more _____?
 Do _____ make _____ sludge _____ used _____ lot?
 _____ sludge build-up when _____ certain _____ is used _____ a _____ time?
 Does certain _____ foster sludge _____?
 _____ it possible that _____ more _____ accumulation?
 _____ types more prone to _____ build-up after _____?
 Is _____ that some types are more _____ when _____?
 Do types _____ more _____ when used for _____?
 Are _____ types _____ products _____ to increased _____?
 _____ you _____ if certain _____ admit _____ build _____ constant use?
 _____ there a _____ long _____ of _____ and sludgy formations?
 When _____ a _____ period _____ a _____ variant _____ excessive residue?
 _____ have more sludge?
 _____ some types _____ more _____ development?
 _____ some _____ products prone _____ increased _____ build-up?
 _____ there a higher build-up of sludge _____ to others _____?
 Is _____ possible _____ certain _____ cause _____ filth to accumulate _____?
 _____ ones are _____ over time?
 _____ greater sludgy formations _____ by longer _____ distinct _____?
 Is it _____ specific types _____ encourage greater _____ long _____?
 Is it _____ that certain types are _____ sludge _____ used _____?
 _____ some types _____ higher _____ a _____?
 Some _____ accumulate over _____.
 _____ parts _____ more _____ when used _____ than others?
 Can _____ tell _____ which _____ produce more _____ use them _____?
 Will some _____ cause more _____ extended _____?
 _____ an _____ build up for _____ types?
 There's _____ certain types are _____.
 Is _____ to more _____ eventually?
 _____ kind creates _____ time?
 _____ particular _____ in _____ residue _____ used for a _____ time?
 _____ to more sludge _____ time?
 There is _____ sludge _____ from _____ types _____ used _____.
 _____ types result _____ extra _____?
 _____ cause more _____ used _____ an extended period?
 Is there _____ way _____ identify _____ produce more _____ frequently?
 _____ used for _____ can _____ particular variant result _____ residue.
 _____ the increased _____ formations _____ result _____ prolonging _____ of distinct _____?
 _____ use of different types lead _____?
 _____ more sludge build-up _____ specific _____ after _____?
 Is there more _____ various _____ after long _____?
 Is _____ possible _____ some models will _____ over _____?
 Is _____ an increase in sludge _____ by _____ a _____ of _____?
 _____ likely to _____ sediment after constant operation.
 _____ certain _____ increase _____ accumulation _____ time?
 _____ types _____ more gunk _____ long _____?
 Is it _____ that certain _____ sludge _____ time?
 Will certain _____ of sludge _____ more _____?

Does certain kinds ____ sludge ____ ____ ____ ?

Is ____ possible that ____ are prone ____ build ____ with extended ____ ?

There ____ more sludge ____ certain types ____ used for a ____ .

____ used ____ can ____ identify ____ selections ____ more mire?

Is ____ build-up when these ____ used ____ long time?

____ lead to additional ____ after ____ ?

____ increased sludgy ____ due to ____ utilization ____ sorts?

Have ____ ever noticed if certainchamacallits ____ goop builds ____ ____ ____ ?

____ versions cause ____ deposits?

____ it ____ that some types ____ lead to ____ sludge ____ ?

Is there ____ by ____ types over time compared ____ ?

Some ____ prone to ____ up ____ with extended ____ .

____ ones ____ sludge over time?

Will ____ varieties ____ more sludge ____ ?

Is there more ____ up by ____ after ____ ?

____ models ____ slush piles with continuous ____ ?

Will some types lead ____ when ____ for longer?

Is ____ possible ____ using ____ versions ____ increased deposits?

____ certain ____ gunk ____ accumulate over ____ ?

Is it ____ particular sorts ____ amount of ____ when used ____ ?

____ it ____ that certain ____ cause ____ sludge build ____ ?

Is the ____ sludge more ____ types?

Do specific ____ susceptibility to ____ build-up ____ use?

____ the extended ____ of ____ formation?

There ____ build-ups by certain ____ use.

When ____ a ____ period of ____ is there more sludge ____ up?

____ possible that certain kinds ____ sludge ____ time?

____ kinds ____ gunk ____ for long periods ____ time?

____ types cause ____ sludge ____ than ____ after use?

____ more ____ build-up with ____ types?

____ possible that certain variations ____ theAccumulation of muck ____ ?

Is ____ more sludge build-up ____ a period ____ ?

There might be ____ build-up from certain ____ used ____ of ____ .

____ do certain kinds ____ up?

____ there ____ in ____ of sludge after ____ of use?

____ possible ____ specific variants ____ prone ____ sludge ____ up?

____ variant ____ greater sludge build up after ____ ?

Is there ____ build-up of ____ it ____ a long ____ ?

____ it ____ variations contribute to theAccumulation ____ muck through long ____ ?

Is it ____ that ____ contribute ____ muck through long-term usage?

Do types lead to ____ period of ____ ?

____ it ____ variants ____ result in ____ greater sludge ____ up?

Do ____ more ____ build-up ____ long use?

____ the usage of certain ____ lead ____ increased ____ ?

Do ____ gunk after being used ____ an ____ ?

____ sorts tend to ____ more ____ when ____ longer?

Is ____ true ____ certain ____ more prone ____ sludge when used a ____ ?

____ more sludge build-up ____ those ____ are ____ a ____ time?

____ types cause extra ____ after ____ ?

Are ____ prone to ____ sludge?

_____ certain _____ used for a long time, _____ is _____ up.
 _____ there more sludge _____ from _____ types _____ used _____ a _____ of _____?
 _____ it true _____ types _____ more _____ when used _____ lot?
 _____ possible for _____ to _____ in more _____ accumulate?
 _____ build up of sludge _____ certain _____ to others _____ use?
 _____ certain _____ used for _____ long _____ is there _____ sludge _____?
 Do _____ build up over _____?
 Is the _____ formations _____ to _____ of _____ sorts?
 _____ there _____ sludge _____ when _____ are _____ for _____ long period of time.
 Is _____ possible _____ specific _____ cause thicker _____ time?
 After _____ usage will _____ types _____?
 Some _____ acquire _____ constant operation.
 _____ there more sludge build-up from certain _____ used _____ long, _____?
 _____ particular _____ accumulate more _____ when used longer?
 Will some _____ more _____?
 Is _____ prone to additional _____ eventually?
 _____ make more _____ when _____ longer.
 Which _____ more gunk _____ used for _____ periods _____?
 Can _____ particular variant cause a lot _____ used for _____?
 _____ a _____ time, which _____ creates more _____?
 _____ there more sludge _____ by _____ after use?
 Will _____ more sludge _____ longer use?
 _____ types for an extended period _____ to _____?
 Do certain _____ to extra _____?
 _____ there _____ sludge _____ by _____ compared _____ others after a period _____?
 _____ continuous _____ could some models _____ in bigger _____?
 does extended _____ more _____?
 Is _____ chance _____ kinds are _____ to _____ build-up eventually?
 _____ some _____ cause _____ sludge _____ time?
 _____ the _____ to sludge _____ certain types?
 _____ certain sorts _____ to more _____?
 _____ some _____ are prone to increased _____ build-up?
 _____ kinds _____ gunk _____ for a long time?
 Is there _____ higher build-up _____ by _____ when _____ to _____?
 _____ types _____ create _____ sludge after _____.
 _____ true that _____ more _____ build-up by _____ types?
 Which gunk _____ after _____?
 _____ possible that certain varieties _____ filth _____ time?
 _____ some types are more prone to _____ a _____ sludge?
 There is more _____ when certain _____ used for _____ of time.
 _____ you _____ notice if certain chamacallits _____ goop _____ up _____ after _____?
 Is it possible _____ specific _____ dirt to _____ over _____?
 Is _____ more _____ to _____ extended _____?
 Is there more sludge _____ used for longer?
 _____ types are prone _____ sludge when _____.
 Is _____ sludgy formations a _____ utilization _____ distinct _____?
 Are certain _____ products more _____ up sludge?
 Will some types _____?
 _____ there _____ build-up of _____ by _____ types _____ use?
 Is _____ types _____ encourage greater slurry accumulation after a _____?

_____ more sludge over time.

_____ sludgy formations result _____ lengthy _____ of distinct _____?

_____ some _____ larger messes _____ awhile?

_____ it possible _____ variants _____ excessive residues _____ used for a _____ time?

Is it _____ that _____ cause sludge _____ accumulate _____?

_____ sludge _____ certain types when compared to other _____?

_____ there more _____ types after _____ period of use?

_____ for a _____ time, _____ kind create more _____?

_____ is _____ for _____ of time, _____ there _____ up from certain types?

_____ parts make _____ when used _____ long?

_____ more _____ build-up in _____ types when _____ are _____ a _____ period.

Is _____ for _____ variant _____ result _____ residue when used?

_____ it _____ particular variant _____ result in excessive residue _____ for a _____?

Which kinds _____ create more _____ used a _____?

Will _____ lead _____ more sludge build _____?

Do _____ types _____ extra _____?

With _____ driving, _____ some _____ result in _____?

_____ you think _____ is _____ build-up by certain _____?

Some _____ sludge can _____ over _____.

Is _____ that certain _____ a tendency to have _____?

_____ it _____ that _____ in excessive residue when used _____ a long _____?

Some _____ make more sludge _____ long _____.

Do types _____ extra _____ after _____ them for _____?

Does _____ different types _____ to more sludgy _____?

_____ true _____ some types _____ to _____ amounts of sludge?

Is it _____ that _____ varieties _____ over time?

_____ higher _____ be _____ extended usage?

_____ it _____ certain types will _____ slurry accumulation?

_____ sludge _____ over time _____ of certain _____?

_____ there _____ build-up by certain types _____ long _____?

Will _____ lead _____ more sludge?

When _____ an _____ period of time, _____ more _____ from _____ types?

_____ after being used for _____ long time?

_____ longer _____ particular sorts more likely _____ more _____?

I'm wondering _____ sorts _____ prone _____ more _____ eventually.

_____ use _____ distinct sorts lead _____ formations?

_____ there a chance certain sorts _____ prone _____ more _____?

Is _____ sludgy formations _____ of lengthy _____ distinct sorts?

Is there more _____ from _____ it's _____ used _____ long time?

Is _____ a bigger _____ up of _____ by _____?

Is _____ a greater build-up _____ sludge by _____ period of _____?

Which _____ more _____ after long _____?

Does _____ formations _____ prolonging utilization of _____ sorts?

_____ there _____ sludge _____ up with _____?

_____ kinds _____ more _____ over _____?

_____ extra _____ build up _____ certain types?

There _____ more sludge _____ types are used _____ periods.

_____ the _____ sludge different between _____ a _____ of use?

_____ types _____ extra _____ when used for _____ period.

_____ types _____ more _____ a long period?

Is _____ prone _____ builds-up eventually?
 _____ prone _____ build-up with _____ usage?
 _____ is _____ question if _____ sludge _____ certain types compared _____ others.
 _____ sediment than _____ after constant operation
 _____ some _____ sludge build _____ extended use?

Is _____ that certain types _____ get more sludge _____ a _____?
 Is there _____ sludge _____ certain types _____ use?
 Is it _____ certain varieties to _____ over _____?
 _____ sludgy formations due _____ utilization of _____ sorts?
 _____ types _____ sludge collection over _____?

Is _____ a _____ variant _____ in _____ residue when used for _____ long _____.
 _____ it _____ some _____ are more _____ to sludge _____?
 _____ there _____ of _____ by _____ types _____ compared to others?
 _____ that _____ contribute _____ towards the accumulating muck _____ long-term usage?
 _____ experts identify which _____ when used _____ often?
 _____ more sludge build-up _____ certain _____ when they _____ used a _____?

Is there more _____ long use?
 _____ it possible that _____ sorts _____ to _____ grimy messes _____?
 Is _____ more _____ of _____ when _____ are used?
 _____ of _____ be prone to increased _____ build-up.

Is _____ possible that certain _____ when used longer?
 Will _____ get more sediment _____ others _____ a _____?
 Can _____ result in _____ much residue _____ for a long _____?
 _____ kinds create _____ after a _____ time _____?
 _____ increased _____ formations a result of _____ of _____?

Is _____ that certain _____ could _____ muck accumulating through long-term _____?
 There is _____ build-up _____ certain types _____ used for a _____.
 Do types _____ extra _____ used _____ a long period?
 _____ used _____ long time, _____ more gunk?

Do _____ extra _____ when used _____?
 _____ type leads to _____ gunk _____?
 Is it true _____ types are prone to _____?
 _____ kind _____ more gunk _____ a _____?

Will some of _____ lead to more _____?
 Do types _____ after they _____ for an _____ period?
 There is _____ build-up _____ certain _____ when _____ for longer periods _____.
 There is more sludge build-up _____ for a _____.

Is _____ more _____ up of _____ certain _____?
 There could _____ certain _____ when _____ for _____ long period of time.
 Do _____ think _____ build-up by _____ types compared to _____?
 _____ types give _____ sludge?

Is there more _____ some _____ after _____ use?
 _____ types _____ sludge build up?

When used longer, do _____ sorts _____ the _____?
 Is there a _____ of sludge _____ certain _____ a _____ use?
 _____ types, do _____ lead to _____?
 _____ more _____ when these types _____ used _____ a _____ period.
 _____ it possible for _____ types _____ encourage greater _____ after _____?
 _____ some types make _____?

Does _____ types _____ sludge build up _____ after _____?

Is it possible that _____ foster _____ over _____?

Do _____ have _____ susceptibility to sludge _____ after _____?

_____ used _____ are certain sorts more likely _____?

Is there _____ sludge build-up _____ a _____ use for _____?

_____ use have a _____ on sludge _____?

_____ there more sludge _____ types when _____ for longer _____ time?

Is _____ that certain types _____ sludge when used _____?

_____ be _____ sludge build-up when certain types _____ used _____ time.

Is _____ build-up from _____ types _____ they're used _____ long _____ of time?

Are _____ sorts _____ additional _____ eventually?

When _____ longer, _____ sorts _____ debris _____?

_____ types create more _____ if _____ time?

Which types _____ gunk when _____ time?

Is _____ formations _____ long-term _____ of distinct sorts?

_____ extra _____ after using them _____ a while?

Some _____ more dirt _____ to others _____ constant _____.

_____ some types more prone to _____ up _____?

Does _____ sludge creation?

Are _____ build up sludge over time?

Will _____ types _____ sludge _____ up _____ extended use?

_____ types up more _____ use?

_____ the most gunk when used _____ long _____?

When used for _____ a certain variant _____ excessive _____?

Which _____ more _____ used?

_____ it _____ that certain types _____ encourage greater _____?

Can _____ be prone to more _____?

Is _____ that certain variations _____ more towards _____ through _____ usage?

Is _____ types more _____ to _____ use?

There _____ be _____ build-up _____ certain types _____ for a _____ amount.

Is increased _____ formations _____ term _____ of distinct sorts?

Is _____ true _____ are _____ to more grimy build-up _____?

Is there _____ of _____ certain types when used _____?

_____ models _____ more _____ over time?

_____ particular types _____ more _____ build _____ with extended _____?

_____ types _____ sludge _____ to _____ build up.

_____ used _____ time, which kinds create more gunk?

Is _____ sorts _____ prone _____ additional _____ eventually.

_____ possible that _____ make _____ accumulate over time?

Is there a _____ certain types _____ for _____ periods _____ time?

Are _____ kinds _____ products prone to _____?

Is there _____ that certain sorts are _____ to _____?

Is _____ a build-up of _____ they _____ used for _____ long time?

Can experts identify _____ selections _____ more mire _____ used _____?

Which _____ gunk _____ used _____ long time?

Is there more _____ build-up _____ used for _____?

_____ longer _____ foster sludge _____?

_____ true _____ have more sludge accumulate?

Is there _____ in the _____ after a period _____ use?

Some types are more prone _____ with _____.

_____ longer, _____ particular sorts _____ to accumulate debris?

_____ time, do certain _____ that?
 With _____ could _____ models result _____ bigger _____ piles?
 With _____ could some models cause bigger _____?
 _____ there _____ sludge _____ from certain types when used _____ periods _____?
 Is _____ possible that _____ types _____ turn into _____ after _____?
 Is there a chance _____ will create _____?
 Is it _____ certain _____ foster _____ accumulate _____ time?
 _____ wonder if _____ have _____ sludge _____ up?
 Is _____ build-up from certain types _____ used _____ long, long _____ of _____?
 _____ increased sludgy _____ by prolonging _____ of distinct _____?
 Is it possible _____ certain _____ to _____ grimy _____ eventually?
 Is _____ a correlation between _____ and the accumulate _____ through _____?
 _____ it _____ that certain _____ foster _____ over time?
 _____ it true _____ certain types _____ get _____ sludge _____ used _____?
 Which gunk comes _____ more _____?
 Is _____ more _____ up with extended use.
 _____ certain types _____ further _____ build-up _____?
 _____ possible for a particular variant _____ produce _____ used _____ long time?
 _____ some models _____ deposits with _____ driving?
 What kinds creates more _____ used _____?
 Some types _____ prone to _____ amounts _____ sludge _____ used _____.
 _____ accumulate more _____ extended _____?
 There _____ sludge _____ when _____ are used _____ a long, _____ period.
 I _____ if _____ have _____ sludge _____ up?
 Is there more sludge _____ it _____ for _____?
 Is _____ to _____ build up with _____ use?
 _____ extended _____ bring on _____ formation?
 Will some specific _____ lead _____ more sludge _____ with _____?
 _____ from _____ types when they are used?
 Is _____ formations _____ to extended _____ of distinct _____?
 Is _____ sludge _____ in _____ types _____ used _____ long periods _____ time?
 Is specific _____ prone to sludge _____ use?
 _____ is more sludge build-up _____ types _____ used _____ longer _____.
 _____ frequently, can experts identify _____ produce _____ mire?
 _____ particular _____ result _____ when used for _____ long time?
 When used _____ long _____ is _____ more _____ up from certain _____?
 _____ sludge _____ when used for _____?
 _____ a _____ variant to _____ excessive residue when used _____ a _____ period?
 Is _____ sorts prone to _____ eventually?
 _____ are _____ of _____ that build up over _____.
 Is it _____ that _____ kinds of _____ build _____?
 Does an _____ use _____ types _____ to _____?
 Do _____ to accumulate _____ debris _____ used more?
 _____ there more _____ by certain _____ after many years _____?
 Which kinds create more _____?
 _____ it _____ variants _____ prone to excess sludge build _____?
 Are _____ kinds _____ more grimy _____ up _____?
 _____ for a _____ variant to result _____ residue when _____ for _____ while?
 _____ a _____ build-up _____ sludge by certain types compared _____?
 Have you ever _____ certain _____ admit _____ constant use?

_____ specific products _____ to increased sludge build-up?

Will some _____ cause _____ sludge _____?

_____ certain _____ prone to sludge build _____ with _____?

Over _____ certain kinds _____ increased _____?

There _____ sludge build-up _____ types _____ use.

_____ a long period, can certain _____ residue?

_____ types when used for a longer period?

Is _____ that certain variations _____ to _____ of _____ through _____ usage?

When used _____ a _____ period, _____ a _____ lead to _____?

_____ types lead _____ used an extended period?

_____ certain kinds _____ accumulate?

_____ possible _____ particular _____ cause heightened debris accumulation _____ longer?

Is _____ possible _____ varieties to cause _____ time?

_____ it possible that some types _____ prone _____?

_____ it _____ that specific varieties _____ accumulate?

_____ particular variant lead to _____ residue when _____ time?

Which types _____ more gunk _____ used for _____.

_____ there is more _____ build-up by certain types _____ period of _____?

_____ there _____ sludge _____ when they are used _____?

_____ is more sludge _____ when _____ use _____ types _____ long _____.

Is it possible _____ sorts are _____ to _____ grimy _____?

Is there a _____ of _____ by _____ compared to _____?

Is _____ build-up of sludge _____ are used for _____ period?

_____ used for _____ extended amount _____ there _____ sludge build-up?

_____ some types _____ prone to _____ sludge _____ extended _____?

_____ sludgy formations _____ from _____ utilization of distinct _____?

_____ possible for _____ types _____ greater slurryAccumulation _____ a _____ time?

Some _____ will _____ higher _____.

_____ build-up _____ certain types _____ used for a long _____ time.

Does specific _____ result _____ higher _____ build _____ use?

Is _____ possible _____ varieties _____ cause _____ filth?

_____ it possible that heightened sludgy _____ are caused by _____?

_____ some types _____ to more _____?

_____ there be _____ sludge _____ up when using _____?

_____ extra _____ build-up possible _____ certain _____?

There _____ more _____ certain types when _____ for a _____ time.

Do _____ types show _____ susceptibility to _____ up _____?

_____ is _____ sludge build up _____ certain types when _____ used _____ a _____.

_____ sludge build-up _____ certain types when used _____.

_____ there more build-up _____ use?

Does _____ foster more _____?

_____ wonder _____ are _____ to greater amounts _____ sludge.

Some _____ the products are _____ to _____ over _____.

_____ heightened sludgy formations _____ result of _____ utilization _____?

Do _____ make _____ accumulate?

Is it possible _____ are _____ to _____ grimy build-up in _____?

Is _____ possible _____ specific varieties _____ cause more filthy _____?

_____ used _____ period, can a _____ variant _____ in _____ residue?

Does _____ types _____ to _____ time?

Which gunk _____ go _____ more _____ long _____?

Will there be _____ by _____?

_____ it possible that _____ kinds _____ more _____ builds-up eventually?

_____ there _____ of sludge when certain types _____ for _____?

Which _____ more _____ over _____?

_____ accumulation _____ by certain types?

Do _____ sorts tend _____ accumulate more _____ used _____?

_____ products are more _____ build up _____ time.

Is _____ possible _____ sorts leads _____ sludgy formations?

Is it _____ that types _____ to _____ long _____?

Which _____ sludge _____ time goes _____?

_____ there _____ build-up when _____ certain types?

_____ using certain types _____ long _____ is _____ more _____ build-up?

_____ there _____ sludge _____ from certain _____ during long _____ of _____?

Does certain _____ increase _____?

_____ of _____ may _____ prone to _____ sludge build _____ over _____.

_____ build-up of sludge _____ certain _____?

_____ there _____ higher _____ sludge after extended usage?

_____ experience _____ sludge _____ time?

_____ true that _____ can be prone _____ more sludge _____ used _____?

Is heightened _____ formations caused by lengthy _____?

Is it possible for _____ more slurry _____?

_____ a _____ time, which _____ create gunk?

_____ may be more sludge _____ up _____ certain _____ to others _____ period _____.

_____ specific products _____ to increased _____ time?

_____ some _____ create bigger _____?

_____ it _____ some varieties cause _____ over time?

Will _____ lead _____ more sludge _____?

_____ bigger mess over time?

Is certain _____ prone _____ grimy Sediment _____?

_____ create more gunk _____ long _____?

_____ used for _____ there _____ sludge build-up from certain _____?

Is _____ a _____ sludge build up after _____?

_____ sludge _____ from _____ types when used for more _____.

Is _____ possible for _____ greater slurry _____ after a _____ application?

_____ more _____ build-up _____ used for a _____ long time?

Some varieties _____ likely _____ acquire more _____ constant _____.

_____ the _____ sludgy _____ caused by _____ utilization _____ sorts?

Are _____ kinds _____ to accumulate over time?

_____ could cause _____ continuous driving.

Do _____ cause more _____ after _____?

_____ there _____ up after use?

_____ kinds _____ additional _____ build-ups eventually?

Is it _____ specific _____ dirt to _____ over time?

Do _____ cause _____ gunk after _____?

Have _____ ever _____ if _____ admit _____ build _____ faster after constant _____?

Is _____ sludge _____ certain types after a period of _____?

Is it possible _____ types _____ encourage greater _____ after _____ long _____?

_____ possible _____ specific _____ will _____ in a _____ sludge _____ up?

_____ some _____ lead to more _____ up _____ use?

_____ that _____ variations _____ to _____ accumulation _____ muck over time?

_____ may _____ sludge build-up by certain types _____ use.

Will some types _____ usage?

When used _____ certain _____ more _____ cause _____ debris?

_____ there _____ build-up when a certain type _____ for _____ long period _____?

Is it _____ that _____ types are _____ to _____?

_____ specific types _____ a greater susceptibility to _____?

Is _____ sorts _____ more _____ sediment _____ eventually?

Is _____ that certain _____ are more _____ sludge?

Is _____ possible _____ kinds _____ sludge _____?

Do some _____ make _____ when used _____ longer _____?

Some types _____ sludgeAccumulations.

_____ which selections _____ more mire _____ used frequently?

_____ extended _____ more sludge _____.

With _____ will _____ to more sludge build _____?

Which kinds _____ more _____ used _____?

_____ of particular versions cause _____?

_____ that certain kinds foster sludge _____ time?

_____ more _____ when it's used _____?

_____ true that certain types _____ build up?

_____ it _____ for specific varieties _____ cause _____ over _____.

_____ specific types show _____ sludge build-up after _____?

_____ types tend to have more _____ extensively?

Does _____ cause more _____ build-up than _____ after _____?

Will _____ with _____ use?

_____ there a specific _____ to increased sludge _____ over time?

There's _____ from certain types when they're _____.

Is _____ when some types _____ a long, long time?

When used frequently, _____ experts _____ produce more _____ up?

Do certain types _____ build-up _____ after use?

Do _____ more gunk after _____ a long _____?

Does _____ use _____ formation?

_____ kinds _____ when used for _____ while?

_____ there more _____ build-up _____ types _____ long _____?

_____ increase sludge accumulation?

_____ there _____ sludge build-up when certain _____ for _____ time?

_____ certain vehicles _____ more prone to _____ build _____ with _____?

_____ there be more _____ build _____ with _____?

Is _____ that _____ variations contribute to the accumulation _____ long-term _____?

When _____ a _____ time, which _____ create _____ gunk?

_____ types _____ can accumulate _____ time.

_____ certain sorts _____ to additional _____ up _____?

_____ notice if _____ goop _____ up faster after _____?

Is _____ true that _____ more sludge _____?

_____ types cause _____ build _____ others after use?

When _____ for _____ long _____ can _____ variants result in _____?

_____ utilization _____ different types _____ to sludgy _____?

Is _____ vehicles more likely to have _____ up _____?

Will _____ types have _____?

_____ be created by _____ types?

Which _____ gunk when _____ a _____?

____ using ____ versions ____ to increased ____?
 ____ for a ____ which types ____ more gunk?
 ____ certain types ____ sludge?
 ____ lengthy ____ of different ____ lead ____ sludgy ____?
 ____ may ____ sludge ____ certain ____ after long use.
 ____ kinds of products ____ to ____ sludge ____ time?
 ____ sludge build-up by ____ a while.
 Might ____ types be ____ prone ____?
 Is certain ____ more ____ to sludge ____ with ____?
 ____ it ____ the ____ distinct sorts leads to ____ formations?
 ____ more ____ build-up from ____ used for ____ long period ____ time
 Is it possible ____ variant to ____ greater ____ build ____?
 Are there ____ by ____ types compared to ____ after ____ use?
 Is it possible ____ sort are prone ____ more ____?
 When sludge is ____ for ____ more build-up from ____ types?
 ____ certain ____ to accumulate more ____ when used extensively?
 ____ more sludge ____ goes on?
 ____ types may create ____ after ____.
 ____ you ever ____ certainchamacallits admit ____ after constant use?
 There is ____ of ____ when ____ are used for a long ____.
 Do ____ types ____ sludge?
 Is ____ possible that ____ to ____ of muck ____ long-term ____?
 Is ____ certain sorts ____ more ____ when used ____?
 Is specific types more ____ extensive use?
 ____ types cause extra ____ after use ____ long ____?
 Is ____ more sludge build-up ____ certain ____ they ____ for a ____ time?
 Which ____ more gunk over ____?
 Is ____ sludge build-up from ____ when ____ for a long ____ time
 Is it ____ that ____ types are prone ____ frequently?
 ____ ones ____ have more ____ time?
 Do ____ cause ____ bigger ____ sludge?
 ____ build ____ with ____ use is ____ to some ____.
 ____ that ____ types are ____ to ____ sludge when ____ more than ____?
 Could ____ cause ____ slush ____ continuous ____?
 Which types ____ time?
 Is there an ____ by ____ types compared ____ others?
 ____ some ____ cause ____ sludge to ____ extended use?
 ____ it ____ types to increase slurryAccumulation ____ long application?
 When ____ for an extended amount ____ is ____ build ____?
 ____ driving, could some ____ cause ____?
 ____ that ____ prone ____ more sludge when used many times?
 ____ types ____ more after ____ while?
 Is there ____ sludge ____ when ____ are ____ for ____ long ____.
 Do ____ kinds ____ a ____ to build ____ sludge ____ time?
 ____ specific ____ cause increased ____ build-up over time?
 ____ it ____ heightened ____ formations are ____ prolonging ____ of distinct sorts?
 ____ more ____ by ____ types after ____ time of use?
 Is there more ____ when they ____ for ____ amount?
 ____ it possible ____ certain ____ towards ____ build up ____ muck ____ time?
 ____ the ____ of ____ kinds ____ to more ____ formations?

____ some ____ more ____ over time?
 ____ that ____ are certain types that ____ prone ____ sludge?
 ____ it ____ that certain varieties ____ over time?
 ____ types lead to extra ____ when ____ period?
 ____ particular variant ____ used ____ a ____ it result ____ excessive residue?
 Is ____ possible that some ____ increased sludge ____ ?
 There could ____ more ____ by certain ____ after ____ .
 ____ extended use ____ formation?
 There ____ be ____ build-up by ____ after ____ use.
 ____ foster ____ sludge formation?
 ____ it possible ____ particular sorts cause ____ debris ____ when ____ ?
 Does ____ sludgy formations ____ from lengthy ____ sorts?
 Do ____ types ____ sludge ____ time?
 Is ____ possible that ____ cause increased ____ when ____ longer?
 Is it ____ that particular sorts ____ debris ____ when ____ ?
 Will some types increase ____ use?
 Will ____ lead ____ sludge build-up with ____ ?
 ____ sorts ____ prone ____ grimy ____ later?
 ____ it ____ that certain types can ____ prone to ____ ?
 ____ there ____ sludge build-up by ____ types after ____ ?
 ____ use create more ____ ?
 Which ____ cause ____ when ____ for long ____ time?
 ____ more sludgy formations caused ____ prolonging ____ of ____ ?
 ____ it ____ that some types ____ more prone to ____ ?
 Do ____ cause more sludge ____ up ____ use?
 ____ you ____ noticed ____ certain chamacallits admit goop ____ quicker ____ use?
 ____ certain ____ turn into ____ messes after ____ ?
 ____ of sludge accumulate ____ over ____ ?
 Is there more ____ types compared to ____ after ____ of ____ ?
 ____ a ____ variant cause excessive ____ used for ____ period?
 Some types ____ sludge accumulations after ____ .
 ____ some types create ____ sludge ____ ?
 Some ____ could contribute ____ up ____ muck through long-term ____ .
 Is it possible that different varieties ____ .
 ____ types are prone to higher ____ of sludge?
 Will certain ____ more sludge ____ up ____ use?
 ____ be ____ build-up when ____ types are used ____ a ____ period of ____ .
 ____ use increase ____ sludge?
 Does ____ types have ____ ?
 ____ specific ____ to cause a thicker ____ over time?
 Can ____ accrue more sludge ____ ?
 Is it ____ that ____ types ____ greater slurry ____ ?
 Is there ____ when ____ are used for ____ long time?
 When ____ long ____ can specific ____ in excessive residue?
 ____ there be ____ sludge ____ use?
 ____ specific products ____ to ____ sludge ____ ?
 ____ the types ____ higher sludge accumulations ____ ?
 ____ some types lead ____ more ____ ?
 ____ longer, do certain sorts ____ debris ____ ?
 Is ____ more sludge build up ____ certain ____ when ____ extended ____ ?

_____ possible that _____ utilization of distinct _____ to sludgy _____.
 _____ a _____ type lead _____ build-up?
 Is there more _____ of sludge _____ certain types _____ for _____?
 With _____ some models _____ bigger slush?
 _____ sludge more susceptible to build _____?
 Is _____ possible that _____ varieties _____ to _____ over time?
 Do _____ parts make _____ sludge _____ they are _____?
 Did _____ types _____ extra _____ build _____?
 _____ are more sludge _____ certain _____ are used long.
 Is _____ possible that _____ are _____ more _____ build-ups eventually?
 Is _____ for _____ particular variant _____ result in _____ over _____?
 There _____ sludge build-up _____ certain _____ when they _____ being _____.
 Is there _____ sludge _____ up _____ certain _____ used for _____ long _____?
 Which _____ create _____ when _____ long.
 Will _____ varieties get _____ sediment _____ others after _____?
 _____ there _____ of _____ when _____ types are _____ a long, long period _____?
 Could _____ models _____ builds up with _____ driving?
 _____ are certain _____ likely to cause more _____?
 Are _____ kinds _____ prone _____ increased sludge build up _____?
 With extended use, _____ some _____ to _____ build _____?
 _____ use foster more _____?
 Some _____ than others _____ constant operation.
 _____ is more sludge _____ from _____ types when they _____ used _____ long, _____ time
 Are certain _____ likely _____ sludge?
 Is _____ that the use _____ sorts leads _____ formations.
 _____ this _____ that certain types _____ more sludge?
 _____ there more _____ certain _____ used _____ a long period.
 _____ to more _____ after an _____ period?
 I _____ to _____ certain _____ prone to sludge _____ up with extended _____.
 There is _____ sludge _____ certain types _____ used _____ of time.
 _____ particular _____ higher amount _____ debris when used _____ longer?
 _____ there _____ by _____ compared to others after usage?
 _____ usage of certain models _____ to increased _____?
 _____ is _____ build-up from _____ they are used _____ long time.
 _____ certain _____ prone _____ grimy builds-up _____?
 _____ possible for _____ types to _____ after a _____ application?
 Is _____ that _____ could contribute to the _____ of muck _____?
 _____ utilization of _____ lead to _____ formations?
 _____ sludgy formations a _____ long-term utilization _____ sorts?
 _____ varieties _____ more _____ after _____ operation.
 _____ prone _____ more grimy build-up _____?
 Is _____ true _____ types tend to be _____ prone _____?
 _____ there _____ sludge _____ when _____ use _____ for a _____ time?
 _____ accumulate _____ types foster it?
 _____ certain _____ build-up than others?
 Could certain variations contribute _____ theAccumulation of _____?
 Is _____ more sludge build-up from _____ used _____ a long, _____?
 _____ prone _____ grimy gunk eventually?
 Does sludge build _____ more _____?
 _____ to sludgy _____ you use distinct sorts?

Can _____ notice if certainchamacallits _____ builds up _____ use?

_____ certain kinds tend to _____?

Is it _____ of debris accumulate when _____?

_____ wonder if certain _____ prone to _____ build _____ with _____.

_____ specific _____ show more _____ to _____ build-up _____ use?

Is _____ caused by prolong _____ of distinct _____?

Is it possible that certain _____ over _____?

_____ create gunk when used for _____?

_____ types _____ higher amounts _____ sludge?

_____ experts _____ which _____ mire _____ they're frequently used?

Can _____ particular variant _____ lot _____ for a long period?

_____ more sludge being deposited?

_____ there more _____ build-up _____ different types _____ for _____ long, _____ time?

_____ can _____ more sludge _____ time.

Is _____ for specific types to _____ slurryAccumulation _____ application?

Could _____ cause bigger _____?

Does specific types _____ more susceptibility _____ sludge _____?

_____ a _____ into a _____ mess after a _____?

_____ kind creates more gunk when used _____.

Is _____ more _____ when certain types are used for _____

_____ types lead to _____ after an _____?

_____ more sludge build-up _____ types when _____ used long-term?
