

[Demo] NLP Dataset for Customer Service Automation

Company Type	Electricity Suppliers
Inquiry Category	Generation source mix disclosure
Inquiry Sub-Category	Carbon emissions reporting
Description	Customers seek data on the carbon dioxide emissions associated with the electricity generation process, allowing them to choose suppliers with lower carbon footprints and contribute to addressing climate change.
Data Size	5,086 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Electricity Supplier" customer inquiry. (Purchased data will not be masked.)

Which _____ the lowest _____ footprint in their generation _____?

In their _____ sources, some suppliers _____ emissions.

Suppliers have _____ regarding _____ show the _____ carbon footprint.

_____ suppliers have the lowest _____ in _____?

What supplier provides _____ carbon emissions _____ mix _____?

I _____ to know _____ source mixes display _____ lightest carbon _____.

Which _____ the _____ in _____ generation mix?

Who is the supplier _____ smallest carbon _____ their _____?

suppliers in _____ disclosures _____ asked _____ lowest _____ footprint

Which _____ has lowest _____ generation _____?

The _____ mix _____ the lowest carbon _____.

_____ carbon footprint _____ found in _____ generation source _____ disclosure.

_____ lowest emission levels on public _____ generation _____.

Supplier's _____ mix disclosure _____ carbon footprint.

What _____ lowest _____ emissions during a _____?

_____ have the _____ list their _____ sources.

_____ is _____ lowest impact _____ on _____ carbon footprint _____ their _____ energy?

Suppliers _____ lowest _____ levels _____ the release of source _____.

The _____ greenhouse _____ in _____ generation _____ are _____ by _____ supplier.

Some providers _____ generation sources to _____.

_____ providers provide _____ of _____ carbon _____?

Some _____ give _____ disclosures with _____.

Which companies _____ in their _____ source _____?

What supplier _____ the lowest _____ emissions _____ mix?

Who _____ emit _____ lot _____ carbon _____ their power source _____?

_____ is _____ who _____ impact on _____ climate for _____ energy sources?

_____ disclosure on low-carbon generation _____?

_____ the lowest carbon emissions _____ a _____ compilation?

On disclosure _____ suppliers have _____ levels _____.

What _____ supplies _____ minimal carbon _____?

_____ providers _____ about _____ generation sources?

suppliers _____ a minimally-impactful _____ source _____

_____ have emission _____ source of generation _____ is released.

_____ suppliers _____ generation _____ with low _____?

_____ can _____ low-carbon generation _____?

_____ suppliers reveal _____ emissions when _____ generation _____ disclosures?

_____ suppliers of generation _____ being asked _____ the _____ carbon _____.

Which _____ lowest _____ emissions in their _____ compilation?

Suppliers have _____ levels _____ are _____ disclosure _____ sources

Which _____ amount _____ emissions from their generation sources?

_____ have a source mix _____ minimal _____ footprint.

_____ low-carbon generation sources _____ providers can _____?

Suppliers' _____ regarding _____ source _____ show _____ carbon footprint.

_____ in _____ are being _____ about _____ lowest carbon footprint.

_____ lowest _____ levels on _____ disclosures of _____ sources.

_____ emits _____ carbon with their _____ mix disclosures?

What supplier _____ the _____ carbon emissions _____ generation _____?

_____ find the lowest carbon footprint in their _____ own _____.

What _____ says the _____ gasses in _____?

_____ supplier _____ how _____ of _____ emissions come from their _____?

_____ providers _____ of _____ generation sources.

_____ suppliers _____ disclosure of _____ Sources _____ lower _____.

_____ supplier _____ lowest _____ emissions _____ their generation mix _____?

_____ that _____ lowest emissions disclose _____.

_____ are suppliers _____ give _____ generation _____ with lower emissions.

_____ the lowest emissions during _____ mix?

_____ less _____ mentioning power source mix _____?

Who _____ carbon in _____ mix disclosures?

_____ supplier _____ lowest carbon _____ in _____ mix disclosures?

_____ with the _____ emissions _____ generation _____.

_____ the lowest carbon _____ in their disclosures _____ mix sources.

_____ supplier _____ least carbon emissions _____ generators?

_____ less CO2 _____ power source _____?

_____ supplier have _____ on _____ footprint when _____ comes to their energy _____?

Who _____ lowest greenhouse gas _____ their _____ mix?

suppliers _____ the _____ carbon footprint _____ disclosure

_____ have lower _____ when _____ to their disclosures of _____.

The generation source _____ the _____ footprint _____ suppliers

_____ can find the lowest _____ footprint _____ Source _____ disclosures.

The _____ carbon _____ by sources in _____ generations _____ a _____ be asked

Suppliers with the _____ of _____ of generation sources

A supplier's _____ the _____ of their _____ offer _____ lowest carbon _____.

_____ suppliers show _____ in _____ generation mix?

_____ provides information _____ the minimal carbon _____ from _____?

What supplier releases the _____ in its _____?

_____ providers _____ show _____ sources?

_____ providers are able _____ low-carbon _____

Which providers _____ low-carbon _____?

_____ suppliers _____ carbon _____ in the generation _____ collection?
 Who _____ from their _____ with a _____?
 Whose _____ mix disclosure _____ carbon?
 _____ that _____ lower emissions give _____ of _____ sources.
 Which supplier _____ lowest _____ from _____ generation sources?
 _____ showing power source mix disclosures?
 Which _____ lowest carbon _____ in _____ mix?
 Who _____ the _____ gas emissions in _____ supply _____?
 Which supplier _____ from their generation sources?
 Which supplier _____ emissions _____ generation mix?
 Some _____ have _____ emissions on _____ of _____ sources
 Who _____ less carbon when reporting _____?
 Find _____ the supplier _____ a low-carbon _____.
 Generate source mix _____ lowest carbon _____ of _____.
 Suppliers' _____ sources _____ own _____ mix _____ reveal the lowest _____ footprint.
 _____ supplier gives _____ least greenhouse gasses _____ generation _____?
 _____ the smallest carbon _____ in _____ generation mix?
 Which _____ has lowest impact on _____ for _____?
 Who is _____ with the _____ impact on _____ of _____ sources _____ supply?
 _____ are _____ providers _____ low-carbon generation _____?
 Which _____ the _____ gasses _____ in their _____ sources?
 What _____ about _____ minimal carbon emissions _____
 A _____ disclosures of _____ of their own generation mix _____ lowest _____.
 _____ suppliers tell _____ about the minimal _____ emissions _____?
 On _____ disclosures _____ sources _____ with emission levels lowest.
 What _____ about minimal _____ emissions _____ sources?
 _____ gives _____ least greenhouse _____ emissions _____ their _____ mix?
 _____ in _____ lightest _____ footprint _____ the suppliers' _____ source mixes.
 Which _____ emits less _____ gasses _____?
 _____ supplier's _____ source mix _____ have the lowest _____ footprint.
 _____ supplier _____ the lowest _____ gasses _____ generation _____?
 _____ of the sources _____ own generation mix _____ carbon footprint.
 _____ generation source mix _____ suppliers _____ the _____ carbon _____.
 _____ into power source _____ disclosures?
 How little _____ emissions _____ come _____ a supplier?
 _____ companies reduce _____ their _____ source _____?
 Which _____ have _____ lowest emissions _____ greenhouse gasses in _____?
 _____ gives the _____ impact _____ carbon _____ when it _____ energy sources?
 Which _____ least amount of carbon _____ generation _____?
 Which supplier states _____ their _____ emissions _____ by _____?
 Which supplier _____ the _____ impact _____ the _____ energy sources?
 _____ supplier has the least _____ sources?
 _____ release _____ source _____ generation sources there _____ suppliers _____ have lower _____.
 Suppliers that _____ lower _____ disclosure _____ their _____ sources.
 Which supplier has _____ footprint when it _____ to _____ energy _____?
 _____ will _____ low-carbon _____ sources?
 Which _____ offer _____ sources?
 _____ suppliers provide _____ source _____ low emissions?
 Which providers _____ low-carbon _____?
 _____ carbon footprint can be seen in _____ supplier's _____ their _____.

The _____ reported so _____ is emitting _____ carbon?
 Which providers _____ capable _____ low- carbon _____?
 _____ can _____ footprint in the sources _____ their _____ mix disclosures.
 Which _____ out _____ regarding low-carbon _____?
 _____ supplier reveals the lowest _____ in _____ mix?
 Which supplier _____ lowcarbon _____ their _____?
 Which supplier _____ little _____ comes from _____ sources?
 A supplier _____ carbon _____ mix _____?
 Which _____ emissions _____ a _____ mix?
 Who _____ emitting _____ carbon _____ source mix _____?
 Which _____ less _____ generation sources?
 _____ suppliers _____ emissions when _____ to Generation Sources.
 Suppliers with _____ their _____ sources.
 Suppliers _____ generation source _____ disclosure have the _____ footprint.
 Suppliers _____ the _____ emissions give _____.
 _____ emission levels _____ are _____ the disclosure _____ Generation sources.
 _____ supplier has the lowest _____ footprint when _____ energy _____ they _____?
 _____ is the supplier _____ lowest _____ from their _____ of energy?
 Which _____ little carbon emissions _____ sources?
 _____ display their low-carbon _____?
 _____ suppliers in _____ the lowest carbon footprint.
 Which suppliers _____ carbon emissions _____ generation _____?
 _____ lowest emissions _____ their generation _____
 Which _____ let _____ low-carbon generation _____?
 Which _____ how _____ carbon emissions _____ from the _____?
 Which _____ us _____ carbon emissions _____ from generation?
 _____ providers let _____ know about _____ sources?
 _____ supplier says less carbon _____ sources?
 Suppliers _____ emission levels lowest _____ release _____ of generation _____ can _____.
 What suppliers give _____ about _____ emissions _____ generators?
 _____ the lowest emissions when they _____ disclosures?
 _____ the _____ emissions _____ disclosure of _____ generation sources.
 _____ is _____ less _____ when reporting the _____?
 Which _____ tells _____ the _____ carbon _____ from _____ sources?
 Which _____ says less carbon emissions _____?
 _____ public disclosures _____ their _____ there _____ suppliers _____ levels lowest.
 On _____ release of source of _____ sources, the emission _____.
 _____ am _____ which suppliers' generation source mixes show _____ carbon _____.
 Who _____ power source disclosures?
 _____ lowest carbon _____ be seen in _____ generation _____ mix _____.
 Which suppliers' source _____ disclosures _____ footprints?
 On _____ generation sources, _____ with _____ levels lowest.
 Who _____ emissions in _____ mix collection?
 _____ supplier has _____ minimal emissions from _____?
 _____ carbon footprint from the energy _____ supply?
 What _____ provides lowest _____ gasses _____ mix?
 _____ information about _____ generation sources?
 The _____ carbon footprint _____ suppliers _____ their generation _____.
 Which _____ emits _____ from generation _____?
 _____ lowest carbon footprint _____ in supplier _____ of the sources of _____.

The ____ carbon footprint ____ suppliers can be found ____ source ____
 Suppliers ____ of the ____ of ____ own ____ mix can ____ found ____ the ____ carbon ____.
 ____ give generation ____ disclosures ____ reveal ____?
 I'd ____ to know ____ generation ____ mixes have the _____.
 Which ____ of low-carbon generation?
 Which ____ can tell you ____?
 ____ supplier has ____ lowest ____ on ____ emissions ____ their source ____?
 Who gives ____ the ____ emissions ____ their supply ____?
 Which ____ lowest ____ from ____ mix?
 ____ are ____ whose source ____ a ____ carbon footprint.
 Which ____ lowest ____ in ____ generation mix?
 Disclosure ____ sources ____ offered by certain ____.
 ____ supplier's ____ Source ____ can reveal the lowest ____.
 Who ____ the supplier ____ the ____ emissions ____ it ____ their ____ of ____?
 ____ carbon footprint can ____ suppliers' disclosures ____ their own ____ mix
 ____ public ____ of ____ sources ____ are ____ that have ____ levels lowest.
 ____ is ____ lowest carbon footprint ____ supplier disclosures of ____ generation mix.
 Which ____ lowest ____ in ____ mix?
 ____ gives the lowest ____ emissions ____ mix compilation?
 Suppliers with emission ____ disclosures ____ their ____ sources
 ____ shows ____ little their ____ emissions are from the ____?
 Generation ____ with the lowest emissions
 ____ is ____ supplier whose ____ sources ____ the ____ footprint?
 Suppliers ____ sources have ____ emissions.
 What supplier provides ____ lowest carbon emissions ____.
 Who ____ the ____ with ____ carbon ____ when it ____ their ____ sources?
 There are suppliers with emission levels that ____ sources.
 ____ says ____ emissions are from their ____ sources?
 Which ____ emissions in their ____ mix collection?
 Which supplier ____ least ____ emissions from ____ sources?
 Who ____ gas emissions in ____ supply ____?
 Which ____ show ____ least carbon ____ mix?
 Suppliers ____ emission ____ of generation sources.
 A supplier's disclosures ____ their sources ____ generation mix ____ footprint.
 ____ the ____ on the carbon footprint of their ____ sources?
 Who is ____ supplier ____ the lowcarbon ____ energy ____?
 I ____ which ____ generation ____ have the ____ carbon footprints.
 ____ the lowest ____ during a ____ mix compilation?
 ____ says how little emissions ____ their ____ sources?
 ____ the lowest emissions in a ____ mix ____?
 Which providers ____ low-carbon ____ sources.
 ____ is ____ less carbon when reporting ____ mix?
 ____ provides the lowest ____ generation mix?
 On ____ release of ____ there are ____ with emission levels ____ are ____.
 ____ provides the lowest ____ generation mix for ____?
 ____ looking for information ____ mixes ____ have the ____ carbon footprints.
 ____ lower emissions ____ their disclosures ____ generation ____
 Suppliers with lowest ____ on ____ sources
 What supplier ____ the lowest ____ mix creation?
 Which ____ tells ____ the ____ emissions ____ generationsources?

Who _____ less _____ when they report _____ mix?

Who is _____ that has a _____ footprint _____?

_____ in _____ mix disclosures _____ being _____ for _____ lowest carbon _____.

A supplier's disclosures _____ their generation _____ mix _____ lowest _____.

_____ minimal carbon _____ in their source _____.

_____ the _____ greenhouse _____ emissions in their _____ mix?

What _____ a _____ impactful _____ mix disclosure?

The lowest carbon _____ can _____ disclosures of their sources _____.

The _____ of _____ can be found _____ disclosure _____ their _____ mix.

Who has _____ emissions _____ power source _____ disclosure?

Which _____ carbon in their _____ mix _____?

There _____ suppliers _____ disclosure of _____ sources _____ have lower _____.

Suppliers that _____ the lowest _____.

Which _____ says _____ are from generation?

_____ lowest _____ footprints _____ displayed by _____ generation _____ mixes.

_____ show off _____ sources?

Which supplier states _____ amount of _____ their generation _____?

_____ supplier _____ emissions during _____ mix compilation?

_____ have _____ lowest emissions _____ their generation _____?

_____ the _____ whose _____ sources have _____ impact on _____ carbon footprint?

Which _____ have the lowest _____ generation _____ mix _____?

When _____ power _____ is _____ carbon?

Suppliers _____ emission levels _____ on the _____ disclosures _____ generation _____.

_____ is _____ supplier _____ the lowest _____ on the _____ footprint when it _____ their _____ energy _____?

Which _____ shows _____ carbon _____ come _____ the generation _____?

Which _____ the _____ emissions _____ generation mix?

The _____ disclosures of the _____ of _____ generation _____ carbon footprint.

_____ provides _____ on the _____ carbon emissions _____ sources?

Emission _____ of _____ when it _____ to _____ Generation sources.

_____ less Carbon _____ source _____ disclosures?

Which supplier has _____ smallest _____ for their _____?

_____ disclosures _____ the _____ of _____ generation mix can be used _____ footprint.

Suppliers _____ lowest carbon footprint _____ found in _____ generation source _____.

_____ that have the _____ sources.

_____ does not _____ a lot of _____ their _____ disclosure?

suppliers with emission _____ on _____ of generation _____

Which _____ provide the _____ emissions _____ their _____ mix _____?

_____ supplier provides _____ carbon emissions?

Which _____ public _____ at their low-carbon generation _____?

_____ doesn't _____ a lot _____ in their _____ mix disclosure?

_____ emitting less carbon _____ power source _____?

Which _____ has the _____ on _____ in their _____ sources?

Which suppliers _____ less _____ coming from _____?

Which _____ states _____ emissions are _____ their _____ sources?

Who _____ with the smallest _____ for their energy _____?

_____ are suppliers with _____ lowest _____ on public _____ their _____.

Who _____ carbon _____ reporting _____ power _____?

_____ of generating _____ there _____ with emission _____ lowest.

_____ suppliers have _____ mix that _____ carbon footprint?

_____ is _____ carbon _____ their power source mix _____?

_____ the _____ gas emissions in _____ supply mix?

Which _____ offer _____ about _____ generation _____?

_____ information _____ the lowest carbon _____ of suppliers' _____ mixes.

_____ is the supplier _____ energy sources _____ footprint?

_____ low carbon generation _____?

On _____ release _____ source of _____ suppliers _____ levels lowest.

Who _____ lowest _____ supplier _____ carbon emissions _____ of energy?

_____ let you know _____ generation _____?

_____ impact _____ on emissions _____ their sources of energy?

_____ is _____ supplier _____ the least carbon _____ it _____ to energy _____?

_____ lowest carbon footprint _____ be found _____ mix disclosures

The _____ source _____ is the lowest _____ footprint of _____.

_____ looking for information _____ generation mixes _____ the _____ footprints.

_____ generation source _____ suppliers _____ lowest _____ footprints?

_____ supplier gives _____ about _____ minimal _____ emissions from _____?

_____ give information _____ low-carbon _____ sources.

_____ low-carbon generation _____ their disclosures?

_____ emits _____ carbon _____ source mix _____?

_____ Generation Source mix disclosure _____ the _____ footprint.

Suppliers with _____ give disclosure _____ their generation _____.

_____ is the _____ has _____ carbon emissions from their sources?

The _____ can be seen _____ disclosures _____ their own generation _____.

_____ want _____ out which _____ source _____ the lowest carbon footprints.

_____ emit _____ their power _____ mix?

I _____ the _____ carbon _____ the suppliers' _____ source mixes.

Which _____ lower emissions _____ their _____ mix?

_____ is the _____ that _____ footprint _____ their energy sources?

_____ supplier _____ how _____ of their _____ from generation sources?

Some _____ have lower _____ give disclosure _____ generation _____.

_____ sources emit the least _____ footprints _____ mix.

_____ generation sources _____ the lowest _____.

_____ source mix disclosure _____ lowest _____ footprint?

The _____ generation mix _____ has _____ lowest _____.

Which suppliers _____ emissions in their _____ mix _____?

On the release of the _____ of _____ sources _____ lowest.

_____ suppliers have _____ emissions in a _____.

Suppliers _____ of _____ sources _____ can _____ find the lowest carbon footprint.

_____ has the lowest carbon _____ to _____ sources they supply?

_____ are _____ suppliers with the _____ carbon _____ of energy?

_____ is the supplier _____ the lowest impact _____ emissions _____?

Which suppliers _____ their _____ mix?

_____ is _____ supplier _____ has _____ lowest carbon _____ from their _____?

_____ supplier has _____ lowest impact _____ carbon _____ sources _____ energy?

_____ can _____ low-carbon _____ sources?

_____ have the _____ carbon footprints _____ their _____ mix?

I'm _____ on which suppliers' _____ have _____ lightest carbon _____.

_____ the sources of _____ mix _____ reveal the _____ carbon footprint.

Which supplier has _____ lowest _____ from their _____ sources?

What supplier _____ the lowest _____ during _____ mix.

_____ has _____ lightest impact on _____ climate for _____ sources?

The disclosure ____ generation ____ emission levels lowest _____.
 _____ lowest ____ footprint in supplier's _____ their own generation mix.
 _____ lowest ____ footprint _____ in _____ supplier's _____ of the sources _____ their _____ generation mix.
 _____ companies reduce carbon emission _____ their _____?
 Which _____ the lowest _____ their _____ mix?
 _____ need info on _____ source _____ the lightest carbon _____.
 _____ shows _____ emissions _____ generation mix?
 _____ supplier _____ less _____ gasses in _____ generation _____?
 _____ supplier disclosures how _____ carbon _____ are from _____?
 Who emits _____ when reporting _____ mix
 A _____ for generation _____ disclosure have _____ lowest _____.
 _____ with _____ carbon _____ be found _____ generation source _____ disclosure.
 There _____ mix disclosure that has the lowest _____.
 A _____ disclosures of _____ mix _____ show the _____ footprint.
 _____ is _____ asked of the smallest _____ footprint by _____ in their _____.
 _____ providers _____ out the _____ generation _____?
 _____ providers offer _____ low-carbon generation _____?
 Suppliers in generation _____ being _____ if _____ have the lowest _____.
 Which generation _____ suppliers have _____?
 Which _____ disclosures _____ show _____ emissions?
 Who _____ us the _____ gas _____ their supply _____?
 Which _____ the _____ carbon emissions in _____ generation _____?
 I'm _____ for information _____ the _____ carbon _____ suppliers' _____ source _____.
 Who is _____ the _____ impact _____ the carbon footprint from _____ energy _____ they _____?
 _____ Generation Source _____ disclosure _____ show _____ lowest carbon _____.
 _____ need _____ which suppliers' generation _____ mixes have _____ carbon _____.
 _____ generation source _____ show _____ lowest carbon footprint.
 _____ the release _____ the _____ generation sources, _____ levels lowest.
 _____ emits _____ reporting _____ power source mix?
 Which sources _____ responsible _____ carbon footprints in your _____?
 _____ says less _____ emissions from _____?
 _____ generation source mix disclosures _____ lowest carbon _____?
 _____ suppliers _____ lowest emissions from _____ mix?
 In their _____ which suppliers show _____ emissions?
 Which _____ how _____ emissions _____ their generation sources?
 Who _____ supplier that _____ lowcarbon _____ their energy sources?
 _____ are suppliers _____ emission _____ lowest _____ of generation _____.
 Which supplier _____ on _____ from their _____ sources?
 _____ the _____ greenhouse gasses _____ from _____ generation sources?
 What _____ provides disclosure _____ lowest _____ gasses _____ its _____?
 _____ have the _____ emissions in their generation _____?
 _____ of the _____ of _____ generation mix can _____ the _____ footprint.
 There are disclosures _____ of generation _____ have _____ carbon footprint.
 _____ reporting a power _____ who _____ emitting less _____?
 _____ the _____ on _____ disclosures of generation sources
 What supplier _____ information _____ the minimal carbon _____?
 _____ suppliers _____ generation _____ disclosures _____ the least _____?
 Which _____ lowest emissions in their _____ mix for _____?
 _____ can tell you _____ generation _____?
 Which supplier _____ of carbon _____ from generation _____?

_____ supplier _____ lowest _____ footprint when it comes to _____ of _____.
 _____ lowest _____ footprint _____ be _____ suppliers _____ of their own generation _____.
 Which supplier _____ the _____ on _____?
 _____ details the lowest _____ gas _____ in _____ supply _____?
 Suppliers _____ the _____ emission levels when _____.
 I'm looking _____ lowest _____ of suppliers' generation _____.
 _____ the release of _____ suppliers _____ emission levels lowest.
 _____ have _____ levels lowest _____ comes _____ the _____ generation sources.
 On _____ there _____ with emission levels lowest.
 _____ is the _____ with the lowest carbon _____ from _____?
 A supplier's disclosures _____ mix can _____ the _____ footprint.
 _____ emission levels _____ on public disclosures _____ generation _____.
 Who releases _____ carbon in the _____?
 _____ carbon _____ can _____ seen in a supplier's _____ disclosure.
 _____ are _____ with _____ levels _____ on the _____ disclosures _____ generation _____.
 Suppliers _____ lower _____ on _____ disclosures _____ generation sources.
 _____ lowest carbon _____ in their generation mix?
 _____ of low-carbon _____ is _____ from some _____.
 Which supplier says _____ little carbon _____ come _____?
 _____ impact _____ on _____ carbon footprint of their _____ source?
 _____ says _____ little their _____ from their generation?
 The lowest carbon _____ can _____ in a supplier's _____.
 _____ suppliers' _____ mix disclosure has the _____ footprints?
 _____ disclosures are being asked _____ lowest _____ footprint
 _____ source _____ the _____ footprints in your generation _____?
 Who _____ the providers _____ reveal _____ sources?
 _____ emit much carbon _____ mix disclosures?
 Which supplier _____ less emissions _____ gasses _____ their _____?
 _____ is emitting _____ carbon _____ of power?
 _____ releases the least _____ their _____ mix disclosures?
 Who is _____ lowest _____ it comes to _____ from their _____ energy?
 The _____ of the _____ sources can be done _____ emissions.
 supplier's disclosures _____ have _____ lowest carbon footprint.
 Which _____ offer information _____ generation _____?
 _____ supplier _____ least amount _____ emissions from generation _____?
 Who _____ reporting the power source _____.
 A supplier's _____ source _____ disclosure might _____ the _____.
 There _____ suppliers with _____ give _____ generation sources.
 _____ give out _____ generation sources?
 _____ suppliers _____ least emissions _____ a _____ mix?
 _____ in _____ mix _____ being asked to _____ lowest _____ footprints.
 What _____ about the minimal _____ emissions from _____?
 The lowest _____ footprint of _____ in _____ disclosure
 Who _____ lowest carbon _____ on their _____ of energy?
 Which suppliers show the _____ emissions _____ generation _____?
 _____ is _____ less carbon _____ reporting the power _____.
 _____ supplier _____ the _____ the _____ footprint when _____ to their own energy _____?
 The disclosure _____ done by _____ who have _____ emissions.
 _____ can _____ information about low- _____ generation _____?
 Who is _____ with _____ carbon _____ it comes _____ their own energy _____?

____ generation source mix ____ the lowest ____ footprint?
 ____ supplier ____ about the minimal ____ from generation ____?
 What ____ has the ____ emissions ____ generation mix ____?
 Suppliers that ____ generating sources ____ levels.
 ____ the supplier that ____ smallest ____ in ____ energy sources?
 Who is emitting ____ carbon ____ the ____ mix ____?
 The lowest carbon ____ suppliers in ____ are being ____.
 ____ is ____ with the ____ impact ____ the ____ footprint of ____ of energy?
 Which ____ low-carbon ____ sources?
 ____ the lowest ____ footprint supplier ____ it ____ energy sources?
 ____ providers ____ low-carbon generation ____?
 ____ supplier ____ the ____ the ____ when it ____ their energy sources?
 ____ searching for ____ carbon footprint ____ suppliers' ____ source mixes.
 Which ____ generation ____ mixes ____ lightest ____ footprint?
 ____ public disclosures of ____ there are ____ low ____ levels.
 ____ that have ____ emissions ____ generation ____.
 What supplier ____ carbon ____ during ____ mix compilation?
 Suppliers of ____ mix disclosures ____ the ____ carbon ____.
 I ____ looking ____ information on ____ of ____ generation mixes.
 ____ supplier has the ____ on the climate ____ energy ____?
 ____ suppliers ____ give ____ disclosures that have ____ emissions.
 Suppliers with ____ lowest ____ release ____ generation sources.
 Which ____ how ____ emissions ____ generation sources?
 ____ has ____ lightest impact on ____ earth in ____ energy ____?
 Which ____ with ____ generation sources?
 ____ suppliers ____ generation source ____ about ____?
 ____ suppliers ____ generation source disclosures ____.
 Which providers ____ to ____ sources?
 Who ____ carbon ____ discussing ____ mix disclosures?
 Which supplier ____ you ____ minimum ____ their generation ____?
 ____ providers can reveal ____?
 Which ____ the ____ it comes to their sources of ____?
 ____ put ____ in their generation mix?
 What suppliers' generation ____ mix ____ the ____ carbon ____?
 Who ____ the supplier ____ carbon emissions ____ their ____ energy?
 ____ give customers ____ emissions in a ____ mix?
 Which companies reduce ____ power ____?
 I want ____ which suppliers' ____ source ____ the ____ footprint.
 ____ suppliers ____ least emissions from ____ generation ____?
 ____ have ____ emissions ____ giving ____ Sources disclosure.
 ____ emits ____ carbon ____ their ____ source ____ disclosures?
 ____ has the lowest ____ on ____ through their energy ____?
 Which providers ____ to reveal low-carbon ____?
 Which supplier says ____ carbon ____ their generation ____?
 I'm ____ for information ____ the ____ carbon ____ of ____ mixes.
 What supplier ____ emissions during the generation ____?
 Supplier disclosures ____ the ____ of their ____ show ____ carbon footprint.
 ____ providers show the sources ____?
 What ____ says ____ little their carbon ____ are ____?
 Which ____ little carbon emissions from ____ are?

On the ____ of source ____ emission ____ suppliers are lowest.

Which ____ how little their carbon ____ sources?

____ out the ____ emissions ____ their ____ mix?

____ disclosures low-carbon ____ sources?

____ supplier provides the lowest greenhouse ____ generation ____?

Who ____ supplier ____ lightest carbon footprint in their ____?

Which ____ have ____ least ____ generation mix?

____ that ____ disclosure ____ Generation ____ have ____ emissions

____ lowest emissions give information ____ their ____ sources.

____ providers ____ information ____ low-carbon ____ sources

____ providers ____ on low-carbon generation ____?

A ____ Generation ____ can ____ a low carbon ____.

Suppliers' ____ source ____ disclosures ____ lowest carbon ____.

When ____ give generation source disclosures, ____ low ____?

The ____ Source mix disclosures have ____ carbon ____.

Suppliers ____ levels ____ on public ____ generation sources.

____ the lowest carbon ____ for power ____?

Which ____ less ____ in their ____ mix ____?

____ lowest ____ footprint ____ be found in ____ disclosures of ____ sources ____ generation ____

A ____ generation ____ mix disclosure contains the ____.

____ in learning which ____ mixes have the ____ carbon ____.

Which ____ gives ____ lowest ____ gas emissions ____ mix?

____ the ____ that ____ the least carbon ____ in their sources ____?

The ____ emissions on ____ sources ____ be found ____ suppliers.

____ doesn't emit ____ lot ____ carbon ____ their ____ mix ____?

____ be found in ____ disclosures ____ the sources of their ____ mix.

Which ____ carbon emissions in ____ mix collection?

suppliers ____ lowest on disclosure ____ generation ____

Which supplier has ____ on ____ carbon emissions ____ sources of ____?

____ is the lowest ____ on carbon ____ it ____ to ____ sources ____ energy?

____ providers ____ carbon generation ____?

There are ____ who give Generation Sources ____.

What supplier gives ____ about ____ in its generation ____?

____ carbon ____ their disclosures of ____ source mix?

____ with ____ emissions give ____ information about generation ____.

____ has a ____ emitting power ____?

____ supplier gives ____ lowest ____ during ____ mix compilation?

Which suppliers ____ the ____ emissions in ____ mix ____?

Suppliers ____ emissions ____ their disclosures ____ sources.

____ disclosures of sources ____ generation mix can show ____.

What companies reduce carbon ____?

Which ____ source mix disclosures ____ carbon ____?

____ about low carbon ____ sources?

____ provides the ____ during ____ generation mix compilation.

Which ____ show ____ their low-carbon ____?

____ is ____ less ____ when ____ power sources?

____ the ____ greenhouse gasses in its generation ____.

I want to know ____ mixes ____ the ____ footprint.

The ____ sources ____ be ____ by ____ that have ____ emissions.

____ mix ____ has the lowest ____ footprint.

Which ____ has ____ their generation sources?

Who is ____ supplier ____ has the ____ carbon footprint ____ sources ____?

Which ____ lowest ____ in a ____ mix?

On ____ Generation ____ have ____ levels lowest.

Which ____ you the least ____ generation?

____ the ____ with the ____ when it comes ____ their own energy ____?

The ____ Generation Source ____ has ____ lowest ____ footprints.

Which ____ less greenhouse gasses in ____?

Who is ____ supplier with ____ carbon ____ their ____ energy?

____ lower ____ they ____ disclosure of Generation Sources.

A supplier's ____ disclosure can ____ carbon footprint

____ disclosures ____ the sources ____ generation ____ can reveal the ____ carbon ____.

Which companies ____ generation ____?

____ have lower emissions when it ____ generation ____.

Which ____ transparency ____ low-carbon generation ____?

____ source ____ have the lowest carbon footprints.

Suppliers ____ release source ____ sources have emission ____ that ____.

____ supplier gives details on the ____ carbon ____?

A ____ generation ____ mix ____ the lowest ____ footprint.

____ are low-carbon generation ____ providers?

Which ____ the lowest greenhouse ____ its ____ mix.

Who ____ the supplier ____ carbon footprint from ____ source?

Who ____ the supplier ____ the ____ the carbon ____ for their ____ energy?

On public ____ there are suppliers ____ have lowest ____.

____ supplier's disclosures ____ generation ____ mix ____ the lowest ____.

There are ____ with ____ levels lowest ____ it ____ source of ____.

Which ____ least ____ emissions ____ their ____ mix collection?

____ the ____ emissions reveal generation ____.

On the ____ of ____ sources, some suppliers ____ levels.

On ____ of the source of generation ____ there are ____ the ____.

____ lowest carbon emissions during their generation ____?

____ supplier ____ the ____ emissions in a generation ____?

____ supplier's disclosures of ____ sources ____ generation ____ show ____ lowest carbon ____.

____ give ____ lowest carbon emissions ____ mix?

Who ____ the ____ that ____ the smallest ____ energy sources?

____ supplier shows ____ little ____ emissions from ____ generation ____?

____ supplier ____ little ____ emissions from generation ____?

____ lowest carbon ____ can be ____ supplier disclosures for ____.

____ the ____ with ____ carbon emissions from ____ of energy?

____ providers can ____ information ____ low-carbon ____?

I'm ____ the ____ carbon footprint ____ suppliers' generation source ____.

Which suppliers produce ____ emissions in ____?

Which supplier ____ the least ____ generation ____ compilation?

____ supplier ____ information on minimal ____ from generation ____?

____ about their ____ generation sources?

The ____ carbon footprint ____ found ____ a supplier's ____ disclosure

Who is emitting the ____ when ____?

____ emit ____ greenhouse gasses ____ sources?

Suppliers ____ reveal their generation ____ the lowest ____ footprints.

____ disclosures of ____ sources ____ their own generation ____ be ____ with ____ carbon ____.

_____ lowest carbon footprint _____ found in _____ the _____ their own generation _____
 _____ providers can _____ low-carbon _____?
 _____ produces _____ carbon in _____ of _____ sources?
 _____ says how _____ of _____ come _____ the generation sources?
 Which supplier shows how little _____ carbon emissions _____?
 Which supplier _____ lowest _____ mix?
 _____ less carbon _____ the _____ source _____ disclosure?
 _____ suppliers give _____ of the _____ sources _____ lower _____.
 _____ release of _____ sources _____ are suppliers with _____ emission _____.
 Which _____ has _____ lowest impact _____ carbon _____ when _____ to _____ sources of _____?
 _____ emitting less carbon when reporting _____
 Who _____ the supplier _____ lowest _____ on carbon footprint _____ sources?
 Who _____ less _____ in _____ disclosure of their _____?
 _____ providers' _____ mix with minimal _____.
 Who is the _____ that _____ carbon _____ in _____ energy _____?
 Who has _____ emissions _____ their _____?
 suppliers with _____ carbon _____
 _____ with the lowest _____ disclosure _____ sources.
 Who _____ the _____ carbon emissions from _____ collection?
 _____ makes _____ emit less carbon?
 _____ generation _____ are being asked if _____ have the _____ footprint.
 _____ are _____ that _____ of _____ generation sources _____ have _____ emissions.
 Provider with _____ carbon _____ in _____.
 Suppliers _____ reveal their _____ mix disclosure have _____ carbon _____.
 _____ to know _____ generation source mixes have _____ lightest _____.
 What suppliers _____ less _____ emissions in _____?
 Who _____ the least _____ mix?
 _____ tell _____ the _____ carbon emissions from _____ sources?
 What supplier provides _____ lowest _____ emissions in _____?
 What supplier tells _____ low _____ emissions from _____?
 Which providers _____ details of _____?
 _____ generation _____ have _____ smaller _____ carbon emissions?
 On _____ disclosure _____ some suppliers have lower _____.
 _____ with disclosures _____ the _____ of _____ own _____ mix _____ lowest _____ footprint.
 Who _____ less _____ in _____ power _____?
 I _____ know _____ suppliers' _____ mixes show _____ carbon footprint.
 _____ is the _____ who has the _____ emissions _____ sources _____ energy?
 It's possible _____ find the lowest carbon _____ disclosures of _____.
 _____ suppliers _____ lower _____ of greenhouse _____ generation sources?
 Which _____ low-carbon generation sources _____ public?
 Which providers _____ low-carbon _____ sources?
 Which _____ show _____ low-carbon _____ sources?
 _____ lower emissions _____ their _____ of generation sources.
 _____ suppliers have _____ emissions _____ generation _____?
 _____ to _____ out _____ suppliers' generation source _____ have the _____ carbon _____.
 Suppliers with _____ levels on _____ of source _____ generation _____.
 _____ supplier's disclosures _____ sources of _____ mix _____ show the lowest _____.
 Suppliers _____ have _____ emissions give _____ generation sources.
 _____ is _____ supplier's Generation Source _____ shows the lowest _____.
 On _____ release _____ sources there _____ suppliers that _____ lower _____.

_____ a power source mix _____ emitting less _____?
 _____ supplier has _____ lower _____ when it _____ to their own energy _____?
 Who _____ emitting _____ carbon _____ the power _____ mix?
 _____ suppliers give _____ source disclosures _____ low _____?
 _____ to _____ carbon footprint of _____ own energy _____ who is the _____ with the _____?
 Which supplier says the _____ carbon _____?
 Who _____ the supplier _____ impact _____ the climate for their _____?
 Which _____ use _____ generation sources?
 _____ lowest carbon footprint _____ suppliers _____ in _____ disclosure of their _____ mix.
 What supplier provides _____ carbon _____ their _____ mix?
 _____ sources release the _____ footprints _____ your generation _____?
 Which supplier says _____ of _____ carbon _____ by _____?
 Which _____ the _____ carbon footprints to _____?
 _____ is the _____ with _____ lowest impact on _____ footprint when it _____ their _____?
 What _____ provides _____ minimal _____ emissions _____?
 _____ generation mix _____ the lowest carbon footprint.
 _____ suppliers release less greenhouse _____ in _____?
 _____ for information about the _____ carbon _____ of suppliers' _____.
 I'm _____ for information about _____ the suppliers' generation _____.
 _____ source of generation is disclosed _____ with _____.
 Who gives _____ lowest _____ in their _____ mix?
 _____ mix _____ can show the lowest _____ footprint.
 _____ have _____ on _____ generation sources.
 I want to _____ suppliers' generation source mixes _____.
 Who is the _____ that _____ the _____ footprint _____ it _____ their source _____?
 _____ supplier's _____ mix disclosure can explain _____ footprint.
 _____ emit _____ their power source mix _____?
 Is _____ a _____ who tells us _____ little carbon _____ sources?
 _____ supplier's _____ generation source mix that show _____ lowest _____ footprint.
 There's _____ Source _____ that has the _____ carbon footprint.
 Suppliers _____ emission _____ lowest _____ of generation sources
 _____ generation source mix _____ the _____ carbon footprint?
 _____ able _____ reveal _____ carbon generation sources?
 _____ has the lowest _____ on the carbon footprint when _____ energy?
 Who _____ with _____ footprint _____ it _____ to their energy sources?
 Who _____ less _____ their power _____?
 _____ on how little carbon emissions come from _____?
 _____ supplier _____ the lowest _____ for _____ generation?
 It's _____ question _____ be _____ about the _____ carbon _____ by sources _____ their _____.
 _____ the supplier's _____ reveal _____ minimal _____ footprint?
 _____ providers _____ the _____ to _____ their low-carbon _____ sources
 _____ are _____ suppliers _____ the _____ footprint in _____ sources?
 Which _____ source disclosures _____ low in emissions?
 What supplier gives _____ emissions during _____ calculation?
 _____ minimal _____ from generation sources _____ what supplier?
 Which _____ are able _____ low _____ sources?
 providers _____ in source mixes
 _____ supplier has the least _____ the generation _____?
 On _____ of generation _____ suppliers with lowest _____ levels.
 _____ let _____ see their _____ generation _____?

A supplier's generation ____ mix disclosure ____ give ____ ____ ____ footprint.
 ____ suppliers ____ lowest emissions in ____ generation ____?
 ____ suppliers tell ____ the ____ from generation sources.
 ____ the ____ the ____ footprint in their energy sources?
 Which supplier ____ impact on the ____ footprint ____ it ____ to their ____?
 What providers reveal ____?
 What supplier ____ the ____ footprint in their ____ sources?
 ____ emission ____ on disclosure of Generation sources.
 ____ supplier says how little ____ from ____ generation ____?
 ____ emits lower ____ their ____ source ____?
 I ____ looking for ____ the lowest ____ suppliers' generation source ____.
 I ____ like ____ which suppliers' ____ source ____ the ____ carbon footprint.
 Which ____ how little ____ from ____ generation sources?
 Which supplier has the ____ for ____ energy sources?
 ____ disclosures about generation source ____ offer ____ lowest carbon ____.
 ____ is a supplier's ____ generation ____ mix that have the ____.
 Suppliers can find ____ lowest carbon ____ disclosures ____ the ____ generation mix.
 Who ____ the ____ greenhouse gas emissions ____ their ____?
 ____ provide ____ emissions for ____ mix?
 ____ the lowest emissions in ____?
 Generated ____ mix disclosure ____ the lowest ____ of ____.
 ____ lowest ____ footprint ____ a supplier's generation mix disclosure.
 Which supplier has ____ gasses ____ generation ____?
 Who ____ on carbon emissions from their sources ____?
 ____ be asked about ____ smallest carbon footprint ____ their generations mix.
 ____ with the lower emissions on their ____
 ____ with ____ emission levels on the ____ generating ____
 Who emits ____ carbon ____ reporting ____?
 I'm looking ____ information on the lowest carbon ____.
 ____ supplier's Generation Source ____ indicates ____ carbon footprint.
 Who ____ out the lowest ____ gas ____ their ____.
 Who ____ has the ____ footprint for their energy ____?
 ____ their generation mix ____ suppliers ____ lowest ____ footprint.
 ____ should be ____ about ____ smallest carbon ____ sources ____ their ____ mix.
 ____ the ____ sources there are suppliers that ____ lowest emission ____.
 ____ less carbon emissions ____ generation ____?
 Which providers are ____ provide ____?
 ____ providers ____ low- ____ generation sources?
 On ____ sources, some ____ have ____ levels lowest.
 ____ the ____ emissions in a ____ mix?
 ____ the least ____ gasses ____ their sources?
 Who is ____ lowest ____ carbon footprint in ____ sources?
 ____ generation ____ of suppliers ____ lowest emissions ____ disclosed.
 The ____ carbon footprint ____ is ____ generation source ____ disclosure.
 Suppliers ____ lower ____ on ____ disclosures ____ generation sources ____.
 Suppliers ____ lowest emissions in ____.
 ____ lowest carbon ____ of ____ the disclosure of ____ generation ____.
 ____ supplier ____ carbon ____ it comes to their sources ____ energy
 ____ supplier gives ____ about generator's ____?
 Which ____ let ____ public see ____ low-carbon ____?

Which companies _____ in _____ source makeup?

_____ carbon when it _____ power mix disclosure?

_____ lowest _____ a _____ are provided _____ some suppliers.

The _____ footprint _____ be _____ in _____ suppliers disclosures _____ own _____ mix.

I'm looking _____ information _____ carbon footprint _____ mixes.

Who emits _____ carbon _____ their mix _____ power _____?

Suppliers _____ lowest emission _____ on public disclosures _____ sources.

_____ levels lowest _____ source of generation sources.

_____ has _____ lowest impact on _____ carbon _____ the _____ of _____ energy?

_____ suppliers give the lower _____ in _____?

_____ suppliers show the _____ generation _____?

_____ who have _____ lowest _____ generation _____.

_____ generation source mix disclosure displays _____ footprint.

The supplier's disclosures for their _____ mix _____ the _____.

_____ being _____ lowest _____ in generation mix disclosures.

The _____ footprint is found in the _____ Source _____.

Questions _____ be asked about _____ smallest _____ sources in _____ mix.

_____ able to reveal low-carbon _____?

_____ supplier's _____ generation _____ mix _____ be found with the _____ footprint.

A _____ mix can show the lowest _____ footprint.

On public _____ sources, _____ who _____ emission levels lowest.

Which _____ how _____ emissions are minimal _____ generation _____?

Which _____ the _____ greenhouse gasses in _____ generation _____?

_____ suppliers reveal low _____ when _____ source disclosures?

On _____ generating sources, there are _____ have emission _____.

_____ tell _____ the minimal _____ emissions _____ generators?

The _____ generation sources _____ done _____ suppliers _____ emissions.

A _____ disclosures _____ have the _____ carbon footprint.

_____ is emitting _____ carbon _____ source mix.

What _____ lowest carbon _____ they make a _____ mix?

On the release _____ generation _____ suppliers _____ lowest _____ levels.

What supplier _____ lowest _____ gasses in _____ mixes?

_____ emits the least carbon _____ the power _____?

_____ supplier _____ gasses in _____ generation mix?

Which suppliers give the _____ carbon _____ mix?

_____ the _____ carbon emissions _____ their power _____?

_____ carbon footprint of _____ comes from _____ source mix _____.

_____ gives information on _____ are from generation sources?

_____ which _____ source mixes _____ the lightest carbon footprint.

Suppliers _____ Generation mix disclosures are _____ asked _____.

_____ Generation source mix _____ the lowest carbon _____.

_____ is emitting less carbon _____?

What _____ tells _____ carbon emissions from _____ sources?

Suppliers that report _____ the _____.

_____ that _____ sources _____ the _____ emissions.

I'm _____ for _____ suppliers' generation source _____ the _____ carbon footprints.

A supplier's _____ regarding _____ can contain _____ carbon footprint.

_____ emissions give a description _____ their _____ sources.

Which _____ emit _____ in _____ mix?

_____ supplier's _____ source _____ disclosures show the _____ carbon _____?

_____ for information _____ suppliers' _____ mixes have the _____ carbon footprint.

A _____ disclosure can _____ found with _____ lowest carbon _____.

_____ supplier's disclosures regarding generation source _____ show _____.

The lowest _____ can be found _____ supplier's _____ regarding _____

Which _____ give disclosure _____ sources?

_____ power _____ mix _____ emit less _____?

The lowest carbon _____ can _____ the _____ of _____ own _____ mix

_____ about _____ lowest carbon footprint of the suppliers' _____ mixes.

The _____ of _____ mix _____ the lowest _____ footprint.

_____ show least carbon emissions in _____ generation _____?

_____ of _____ sources is _____ by _____ providers.

Which suppliers _____ lowest emissions _____ the _____?

I'm _____ for _____ lightest _____ of suppliers' generation source _____.

_____ with emission levels _____ disclosure of Generation sources.

_____ of the sources _____ their _____ can show the lowest _____.

The _____ footprint _____ be _____ in supplier's disclosures _____ their _____

Which _____ are able _____ reveal _____.

Suppliers _____ their generation mix _____ can _____ the _____ footprint.

Suppliers' _____ sources of _____ generation _____ have _____ carbon footprints.

_____ reporting _____ which is _____ less carbon?

_____ supplier _____ the _____ a generation mix?

_____ a _____ about _____ smallest _____ by sources in their _____ mix.

Who _____ less _____ power _____ disclosures?

_____ supplier's disclosures _____ generation _____ mix _____ the lowest _____ footprint.

Who _____ emitting _____ in _____ disclosures?

Which _____ generation sources?

Some suppliers _____ on the _____ of source of _____ sources.

Which _____ the lowest carbon emissions _____ their _____?

What supplier _____ the minimal _____ from generators?

_____ can _____ found in a supplier's disclosures _____ own generation _____.

_____ supplier has _____ lower carbon _____ comes to their _____ of _____?

Who _____ in disclosures _____ power source _____?

Suppliers _____ lowest _____ on _____ disclosures _____ generation sources.

Which supplier _____ of _____ emissions from generation _____?

_____ supplier _____ carbon _____ from _____ sources?

What _____ give the lowest _____ gasses _____ mix?

_____ supplier _____ carbon _____ from generators?

_____ emits less _____ source _____ disclosures?

Which _____ provide the lowest _____ the generation _____?

_____ that have _____ emissions on their _____ generation _____.

Generations source _____ disclosure is the _____ carbon _____.

Suppliers' _____ their generation mix _____ carbon footprint.

_____ ones emit less _____ mix disclosures?

_____ providers are capable of _____ low- _____?

_____ providers _____ show the low-carbon _____?

Which _____ produce the _____ the generation _____?

_____ a supplier's generation _____ the lowest _____ be found.

_____ source _____ disclosure may show _____ lowest _____ footprint.

_____ with the _____ emissions _____ their generation _____.

Which suppliers _____ the _____ in _____?

_____ low _____ in generation _____ disclosures?
 _____ suppliers _____ lowest carbon footprints when _____ generation _____ mix disclosure?
 _____ supplier's _____ Source disclosure _____ show _____ lowest carbon _____.
 _____ has _____ lowest _____ on carbon _____ when it _____ energy sources?
 Which suppliers _____ for _____ mix?
 Which _____ gives disclosure _____ the lowest _____ gasses in _____?
 _____ a generation _____ which _____ give the _____?
 I am _____ for information _____ the lowest _____ generation _____ mixes.
 _____ provides the lowest _____ a generation _____?
 _____ suppliers provide the _____ generation mix?
 _____ suppliers _____ lowest _____ in a _____ mix?
 _____ a supplier's _____ mix disclosure _____ can show the _____ carbon _____.
 _____ supplier's _____ generation mix can _____ the lowest carbon _____.
 Suppliers _____ emission _____ are lowest _____ release of _____ source of _____.
 Which sources _____ least carbon emissions _____ generation _____?
 _____ supplier has the lowest _____ in their _____?
 _____ sources emit fewer _____ in your _____?
 _____ lowest carbon _____ can _____ in the source _____ generation _____ from the _____.
 _____ said how little _____ emissions _____ generation sources?
 Who sources _____ the lightest _____ generation mix?
 Who _____ the supplier who _____ it comes to their sources _____?
 The _____ of _____ sources _____ suppliers _____ lower emissions.
 Which providers _____ able to _____ information _____ low-carbon _____?
 Who _____ the supplier _____ has the _____ in _____?
 _____ supplier gives _____ lowest _____ in their generation _____?
 Suppliers' disclosures _____ their generation _____ can _____ the _____ carbon _____.
 Who _____ less _____ their power source _____?
 Which _____ has _____ greenhouse _____ in it's _____ mix?
 _____ disclosures the _____ emissions during _____ generation _____ compilation?
 Which supplier says _____ emissions _____ from _____ sources?
 Which _____ generation _____ mix disclosures _____ the _____ carbon _____?
 Suppliers _____ the release of source of _____ sources are _____.
 Which _____ let _____ public know _____ low-carbon _____?
 _____ minimal _____ revealed _____ source mixes.
 Who _____ the _____ emissions from _____ power _____?
 _____ the lowest carbon _____ in _____ Generation _____ mix disclosure.
 _____ release of generating _____ suppliers have emission _____.
 _____ with lower _____ on _____ of _____ sources _____ be found.
 _____ the least _____ in their _____ source _____ disclosures?
 _____ company reduces carbon _____ power _____?
 _____ would _____ to _____ which generation _____ mixes _____ the _____ carbon _____.
 _____ is _____ that _____ the lowest _____ on their carbon footprint _____ it _____ to _____ own _____?
 I _____ on _____ suppliers' _____ have the _____ carbon footprint.
 _____ less carbon when _____ power source _____?
 _____ supplier has _____ lowest _____ generation mix for _____?
 Who is _____ with the smallest _____ footprint _____ energy _____?
 _____ carbon footprint _____ sources in _____ generations _____ needs to _____.
 Suppliers _____ lowest _____ public disclosures of _____.
 _____ have _____ are lowest on _____ of Generation _____.
 _____ suppliers have _____ emission levels on _____ of generating _____.

Suppliers have _____ lowest _____ disclosure _____ sources.

Suppliers _____ lower _____ when _____ to _____ Generation Sources _____.

Which _____ tells you _____ to which their _____ minimal _____ sources?

_____ in _____ power mix disclosure?

Who was emitting _____ reporting the _____ source _____?

I _____ info _____ suppliers' _____ source _____ have _____ carbon footprints.

Who _____ the _____ with the _____ on _____ climate _____ their energy _____?

Which _____ on _____ carbon generation _____?

_____ suppliers _____ the _____ generation mix?

_____ would like _____ know which _____ source _____ the lowest carbon _____.

_____ carbon _____ power source _____ disclosures?

_____ Generation Source _____ disclosure has _____ lowest _____ footprints.

Who is the lowest _____ footprint supplier _____ their _____?

Which _____ low-carbon _____ sources?

_____ shows the minimal _____ generation sources?

_____ is _____ supplier that has the _____ the _____ from their _____ sources?

_____ suppliers _____ lowest _____ levels on _____ disclosures of generation _____.

Suppliers with _____ in their _____ of _____.

_____ providers offer _____ sources?

Which _____ the lowest _____ emissions _____ their generation _____?

_____ supplier has _____ lowest _____ carbon _____ when it comes to _____ sources?

_____ is _____ with the lowest carbon footprint _____ the energy _____?

Who _____ the _____ carbon _____ from _____ energy sources they supply?

The disclosure _____ done by suppliers _____ lower emissions.

_____ suppliers _____ the least carbon emissions _____ mixes?

_____ supplier _____ us how _____ carbon emissions _____ our generation _____?

Does _____ supplier's _____ reveal a _____ carbon _____?

_____ supplier _____ the smallest _____ carbon emissions _____ sources?

_____ regarding _____ source mix _____ the _____ carbon footprint.

_____ disclosures _____ generation _____ mix show the lowest _____.

Suppliers _____ the lower _____ give _____ of _____ Sources.

On _____ of _____ sources, _____ are _____ have lower emissions.

Which _____ have _____ least _____ in _____ generation mix _____?

_____ greenhouse gasses in Generation _____?

_____ in Generation _____ are asked the lowest _____.

When _____ power source mix, which _____ is _____?

_____ how little carbon emissions _____ generation sources?

_____ lowest carbon _____ in supplier _____ for generation _____ disclosure.

Who _____ supplier _____ the _____ impact when _____ their energy sources?

_____ has _____ lowest impact on the planet _____ to their _____?

What supplier gives the _____ on the _____ carbon _____?

Who _____ you _____ in _____ power source mix disclosure?

_____ that _____ lowest _____ their generation sources.

Which supplier _____ little _____ are _____ generation sources?

_____ footprint can be found in the _____ mix disclosures _____.

I'm _____ information on _____ suppliers' _____ mixes have _____ footprint.

Who emits less _____ by _____ power _____?

What _____ carbon _____ from generators?

Which _____ have the _____ to _____ sources?

What _____ disclosures the lowest _____ generation _____ compilation?

On the _____ source _____ are suppliers _____ emission levels lowest.

Who are _____ footprints _____ their energy sources?

_____ Generation _____ mix _____ lowest carbon footprint.

_____ are suppliers _____ lower _____ their _____ generation sources.

_____ gives the _____ impact on the _____ footprint when it comes _____?

_____ supplier _____ how little carbon emissions _____ by _____?

Who _____ less carbon in _____ mix _____?

_____ disclosures for their generation _____ disclosure _____ carbon footprint.

_____ supplier's disclosures _____ the _____ generation mix, the _____ carbon _____ can be found.

Who emits _____ carbon _____ to power _____ disclosures?

_____ has the _____ on carbon emissions _____ their _____ of _____?

Who has _____ leastpolluting _____?

_____ low-carbon _____ sources is offered _____ which _____?

_____ the _____ with the smallest _____ footprint in their _____?

_____ supplier _____ least carbon _____ from their generation _____.

I _____ to know _____ suppliers' generation source _____ the _____.

_____ for information on _____ suppliers' generation source mixes _____ carbon _____.

_____ of suppliers can _____ in _____ of generation sources.

_____ said how _____ emissions were _____ generation sources?

Who is emitting less carbon by _____?

Which providers can _____ low-carbon _____?

_____ lowest _____ footprint can be _____ in _____ disclosures _____ the _____ of their _____.

Which supplier _____ carbon _____ generation sources?

Suppliers _____ emission _____ lowest on disclosure _____

_____ supplier _____ the lowest carbon _____ generation mix _____?

_____ emitting _____ least carbon in _____ power source _____?

_____ have the _____ emissions _____ greenhouse _____ from their _____?

Which supplier _____ the _____ of emissions _____ generation sources?

_____ with _____ emission _____ on disclosure _____ Generation _____.

_____ are disclosures of _____ of _____ generation _____ the lowest carbon _____.

Which _____ lower emissions _____ their _____?

The _____ Source _____ shows the lowest carbon _____ supplier.

Which _____ claims to _____ little _____ their _____ sources?

_____ to their _____ sources, which _____ lowest impact on the carbon _____?

Some _____ have emission _____ of Generation sources.

Which supplier _____ emissions _____ generation mix?

_____ they give _____ suppliers reveal low emissions?

Who _____ the _____ emissions _____ supply _____?

Who _____ emitting lesscarbon _____ source _____?

Suppliers with the lightest _____.

The disclosure _____ sources is _____ by _____ with _____ lower _____.

The _____ generation sources _____ levels lowest _____ suppliers.

_____ the release of _____ sources, _____ are _____ that _____ emission _____.

_____ generation sources, there are suppliers with emission _____.

There _____ suppliers _____ generation sources have lower _____.

Suppliers with _____ on their _____ of _____

Which supplier gives _____ lowest carbon emissions _____?

Which _____ the public _____ their _____ sources?

Which companies emit _____ their _____ mix _____?

_____ provide information _____ generation sources?

_____ the lowest _____ gases emissions in their _____?

Which _____ generation sources to the _____.

Who _____ from _____ power source mix?

_____ supplier _____ lowest emissions _____ generation _____?

Which suppliers give _____ emissions _____ mixes?

_____ footprint by sources in _____ mix _____ question to _____ asked.

suppliers _____ generation _____ can show _____ lowest carbon _____.

Provider _____ minimal _____ revealed _____ source _____

Who provides _____ generation mix?

_____ public _____ of _____ sources, there _____ suppliers _____ have emissions _____.

Suppliers' _____ of _____ their _____ mix _____ the lowest _____ footprint.

Generation sources are disclosed _____ suppliers _____.

_____ provides _____ carbon emissions during _____ generation _____?

The _____ carbon footprint _____ found in _____ their own _____.

_____ generation _____ there _____ suppliers with _____ levels lowest.

_____ who _____ the lowest _____ sources.

Who _____ less _____ emitting _____ power source _____?

Which _____ the _____ emissions in _____ mix _____?

_____ is a supplier's lowest _____ in _____ source _____ disclosure.

_____ a _____ a low-carbon mixture?

_____ suppliers _____ the lowest _____ in _____ generation mix?

Who _____ able _____ carbon in their power _____?
