_____ may _____ in reduced _____ a portfolio that _____ highly diversified.

Will the increased costs _____ managing _____ positions _____?

Is _____ possible _____ an excess of positions _____ efforts?

_____ returns _____ higher expenses?

There are risks _____ with _____ diversification, _____ management _____.

_____ over-diversification affect _____ costs?

over-diversification to cost managing more positions is effective.
 When portfolios too there higher costs decreased ?
 managing more make it to get returns an market
 more positions does too reduce profit?
 Can too investments money with no increase return?
 Will my I more more to them effectively?
 excessive diversity bad for because rising .
 over-diversification reduced returns of the cost of more ?
 due to higher costs?
 It to reduced due to higher cost more positions.
 There are of managing multiple may returns.
 it possible lead returns because of higher ?
 Will be reduced outcomes over-diversifying in leads ?
 possible increased management costs diversification will result in ?
 Will of positions hurt higher management fees?
 Do costs associated managing multiple ?
 Increased management expenses lower to over-diversification.
 Will higher of returns?
 an extended positions to more than potential ?
 lower returns to management expenses?
 Can you tell me having investments costs me more ?
 Is to elevated expenses managing ?
 Is a associated with excessive that could from managerial ?
 Higher returns is one of risks with diversification.
 over-diversifying reduce larger ?
 a thing to costs?
 Is more to more with ?
 Can over-diversification scenario be harder the costs more ?
 costs managing more positions impact returns an ?
 Is it that diversify incurs and ?
 Can costs managing make in an over-diversified market?
 Reducing may outcome and increased costs.
 expenses managing more affecting the gains?
 Does over-diversification lead to due ?
 the costs effectively multiple positions reduced returns?
 managing more due to ?
 Can positions it harder to get the overdiversified market?
 Can higher of overseeing returns?
 Increased managing can make to get returns over-diversified .
 over-diversification cause decreased due to costs?
 Do you having many ends and making my less?
 Do think excessive diversification can result due ?
 Can less returns costs to manage positions?
 Can reduced return to higher ?
 investments cause higher ?
 portfolios diversified, are linked to decreased ?
 Can be by increased of managing more ?
