

[Demo] NLP Dataset for Customer Service Automation

Company Type	Natural Gas Companies
Inquiry Category	Meter reading discrepancies and concerns
Inquiry Sub-Category	Meter reading access issues
Description	Customers report difficulties in providing meter access, resulting in concerns regarding accurate meter readings and billing.
Data Size	5,107 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Natural Gas Company" customer inquiry. (Purchased data will not be masked.)

_____ accessibility on _____ energy costs?
How will limited access _____?
_____ measured energy costs are affected _____ restrictedaccessibility?
_____ on measured _____ costs of _____
The _____ accessibility _____ measured _____ costs?
Is the _____ on _____ affected by _____?
What impact _____ accessibility _____ my _____ costs?
_____ it possible _____ a _____ accessibility leads to _____?
What _____ does _____ accessibility _____ my energy _____?
_____ are the _____ on energy costs?
_____ of _____ on _____ energy costs might _____.
_____ constrained entryways _____ prices?
What _____ can limited _____ expenses?
_____ the _____ of _____ accessibility on energy _____?
_____ restricted access _____ energy _____?
_____ affect _____ accessibility _____ on energy _____?
_____ consequences to _____ restricted accessibility _____ measured _____ costs.
Is _____ connection between limited _____ energy _____?
Limitations _____ on _____ are associated with _____
What _____ of _____ accessibility _____ measured _____?
_____ access on _____ costs _____ consequences.
_____ impact my _____ expenses?
There are ramifications _____ influence on quantified _____ fees.
_____ will _____ effect my energy _____?
Are the effects _____ on _____?
_____ consequences _____ restricted access _____ measured _____ costs.
Will _____ be effects of _____ on _____?
The effects of _____ access _____ expenses _____.
_____ limited _____ effects _____ expenses?
_____ restricted _____ energy costs.
_____ limited accessibility _____ higher _____?

What ____ you ____ reduced ____ on energy ____?
 There ____ costs from restricted accessibility.
 ____ limited ____ impact the energy ____?
 ____ energy bills result ____ accessibility?
 ____ limited accessibility ____ energy costs?
 ____ of limited ____ on ____ costs.
 The ____ of ____ access ____ costs
 ____ accessibility translate to ____ energy ____?
 ____ accessibility issues affect ____ costs?
 ____ recorded power expenditures?
 What ____ of not ____ able ____ energy ____?
 ____ impact of ____ access ____ energy ____
 How ____ change energy ____?
 Can ____ energy expenses?
 Will reduced accessibility ____ up?
 Is ____ of limited access ____?
 ____ affect energy costs?
 The impact of less ____.
 Does ____ recorded ____ expenditures worse?
 Can restricted ____ affect ____?
 ____ there consequences to ____ access ____ electricity ____?
 How are the consequences ____ restricted ____ measured ____?
 The ____ of ____ entryways can ____ seen on ____.
 Did ____ access affect ____?
 ____ there ____ relationship between ____ access ____ higher recorded ____?
 ____ consequences ____ not ____ access to measured energy ____?
 Some ____ of ____ on energy ____.
 There are consequences ____ Limitations ____ energy costs.
 ____ have ____ with measured electricity ____?
 ____ measuring energy expense because ____ access
 ____ on access ____ costs affect ____.
 ____ does ____ for energy expenditure?
 Measures of energy ____ affected ____.
 Is ____ accessibility ____ cause of ____?
 The ____ on energy expenses ____ accessibility.
 There ____ consequences for ____ accessibility ____ measured energy ____.
 There ____ an ____ on ____ prices ____ restricted ____.
 There are consequences ____ approachability ____ utility ____.
 ____ the ____ entryways ____ energy prices?
 ____ costs ____ Effects ____ limited access.
 Energy ____ with the effects ____.
 ____ of ____ entryways and ____.
 ____ affects ____ on measured energy ____?
 ____ constrained access ____ utility expenditures?
 ____ effects ____ limited access.
 ____ to measured energy ____ when ____ is ____?
 ____ energy bills ____ limited access.
 ____ accessing ____ costs are consequences.
 The ____ cost calculations ____ related to restricted ____.
 ____ of restricted ____ on ____ costs.

_____ of restricted accessibility _____ to _____ costs.

What would _____ to _____ costs if _____ was _____?

_____ are _____ effects of _____ costs?

Does reduced access _____ up to _____?

_____ of accessibility _____ measured energy _____ come with _____.

Is _____ energy _____ a _____ of _____?

_____ are consequences for _____ costs.

_____ restricted accessibility effects _____?

_____ limited _____ to higher utility _____?

Is _____ cost calculations caused _____ restricted access?

The _____ restricted access _____ energy _____?

How _____ affect energy _____.

Limitations _____ access _____ energy _____.

_____ of _____ on _____ can be associated _____ consequences.

_____ will _____ access hurt _____ energy _____?

The _____ on _____ costs of _____.

_____ will _____ access _____ my _____?

_____ does restricted _____ affect _____ energy _____?

_____ accessibility _____ to recorded utility _____?

Can _____ lead _____ higher _____ bills?

How _____ access _____ energy _____?

Does _____ accessible lead _____ energy _____?

Measurement _____ costs _____ by restricted accessibility.

Will _____ accessibility _____ energy _____?

How _____ affect _____ bills?

Does constrained _____ have an _____ expenditures.

_____ impact the charges _____ energy?

There _____ of _____ detected utility charges.

The consequences _____ approachability _____ to detected utility _____.

Does constrained _____ utility _____?

_____ constrained _____ have an effect _____ utility _____?

Are _____ energy costs _____ to _____?

_____ access likely _____ cause _____ energy expenditures?

_____ consequences _____ on measured _____ costs.

What _____ the _____ limited _____ energy expenditures?

The _____ of _____ access _____ to _____ cost calculations.

The impact _____ limited _____ energy _____.

_____ restricted _____ measuring energy costs?

_____ consequences of constrained _____ detected _____?

Limitations to _____ measured _____ consequences.

Is _____ a problem with _____?

_____ restricted accessibility _____ energy costs?

_____ accessibility increase _____ energy _____?

_____ does limited access _____ bill?

I am _____ how limited _____ my _____.

Is _____ affect energy _____?

_____ is _____ on incurred energy prices _____.

_____ reduced access _____ measured energy _____?

_____ consequences to constrained _____ energy _____.

How might _____ accessibility _____ energy _____?

_____ accessibility for _____ energy costs _____ have _____.
 Does _____ affect _____?
 What _____ the _____ energy _____ due to restricted _____?
 Is restricted accessibility _____ effect on _____?
 What effect limited _____ costs?
 Does reduced access result _____?
 What _____ limited accessibility _____ on _____?
 _____ impact _____ access on energy _____.
 What effect _____ my energy _____?
 There are _____ for measuring _____ to _____.
 What is _____ of _____ on _____ expenses.
 _____ consequences _____ limitations on _____ energy _____.
 _____ costs _____ of _____ accessibility
 What affect do _____ expenses?
 Can reduced _____ raise _____?
 How _____ limited _____ the energy _____?
 _____ restricted _____ my energy _____?
 Power _____ can be _____ by the _____ of _____.
 The _____ accessibility to _____ costs?
 _____ impact of limited access _____?
 _____ a correlation between limited availability _____?
 Does _____ affect energy _____?
 _____ is _____ correlation between reduced _____ and _____ energy _____?
 _____ for measuring energy expenses _____ restricted access.
 _____ limited accessibility causing _____?
 _____ availability have a _____ on energy _____?
 There _____ constrained approachability _____ detected utility _____.
 There are _____ from _____ approachability _____ charges.
 _____ does limited accessibility _____ expenditure?
 What _____ the _____ of _____ on _____ energy expenses?
 What effects _____ access _____ measured energy _____?
 _____ consequences _____ on energy costs?
 How _____ affects _____ expenses?
 The impact _____ energy _____ from _____?
 Energy _____ affected _____ access.
 _____ constrained entryways _____ prices?
 _____ energy _____ impacted by _____ accessibility?
 How _____ accessibility affect _____ energy?
 _____ of limited _____ on _____ expenses.
 _____ restricted _____ on energy expenditures?
 Is _____ effects on _____ related _____ access?
 _____ utility _____ affected _____ constrained accessibility?
 _____ of _____ access on energy _____?
 Limitations of _____ impact _____.
 Is _____ any correlation _____ constrained _____ higher energy _____?
 Measures _____ impacted _____ restricted access.
 _____ consequences of restricted _____ costs?
 There are consequences _____ the limitations of accessibility _____.
 How can _____ my _____ expenditures?
 Energy _____ impacted _____ restricted _____?

Decreased _____ energy _____.

What happens _____ when _____ is limited?

How does restricted _____?

_____ limited access _____ bills?

_____ are _____ able to access measured energy _____.

_____ of _____ measured energy _____ could _____ consequences.

Energy _____ of _____ on _____.

_____ are implications for _____ energy expense _____ access _____.

_____ is _____ impact of limited access _____ bills?

What _____ reduced accessibility _____ to _____ energy bills?

_____ access _____ more _____ expenses?

Does _____ accessibility _____ expenditures?

How might _____ energy costs?

_____ accessibility affect my _____ costs?

In _____ to _____ effects of _____?

_____ to measured energy costs are consequences _____.

_____ consequences of _____ on access _____ measured _____ costs.

Does _____ recorded utility expenditures _____ because _____?

_____ consequences of _____ access _____ measured energy costs?

_____ limited _____ affect your _____ expenses?

Limitations of accessibility on _____ energy _____.

_____ of restricted accessibility on measured _____.

_____ can be _____ of restricted _____.

_____ consequences _____ on _____ energy expenses.

_____ restricted _____ energy expenditures?

What _____ can restricted _____ energy costs?

_____ it _____ the _____ constrained entryways and energy _____?

What do _____ think about _____ accessibility _____ energy _____?

_____ will _____ expenses change as _____ limited access?

What _____ energy costs _____ is _____ accessibility?

_____ are consequences of _____ on _____ expenses.

Has _____ availability affected _____?

There is _____ energy _____ from restricted _____.

_____ effect energy costs?

_____ limited access on energy _____?

Can there be _____ of _____ costs?

_____ will _____ affect _____ prices?

_____ tell the consequences _____ constrained _____ and energy _____?

Some _____ of limited _____ on _____

_____ does limited _____ energy _____?

There are consequences on _____ accessibility.

Relating _____ due to _____ access

Limitations of _____ can happen.

_____ is the impact _____ restricted accessibility _____ costs?

There _____ on _____ expense due _____ restricted access.

_____ restricted accessibility on my energy _____?

Is _____ accessibility on measured energy _____?

_____ to higher recorded _____ expenditures?

_____ accessibility leads _____ higher energy _____?

_____ effect _____ is _____ energy prices.

What ____ the outcomes ____ reduced accessibility ____ energy ____?

____ impact on ____ because of restricted access?

____ cost energy?

The ____ restricted ____ on ____ costs?

Energy ____ be influenced ____ restricted ____.

____ limited access ____ my energy ____?

____ possible ____ the effects of restricted accessibility ____ energy ____?

restricted ____ prices.

____ happens when ____ to ____ costs?

Affected by ____ cost calculations?

What ____ limited ____ affects ____ expenditure?

____ effects of ____ the cost of ____.

Limitations ____ access ____ costs can ____ consequences.

____ there ____ effect ____ on energy costs?

____ implications ____ restricted accessibility

____ restricted access ____ to higher ____?

____ are ____ constrained entryways and ____.

The ____ limited ____ energy prices

____ is ____ measuring energy ____ be affected ____ restricted access.

____ an impact ____ restricted ____ on energy ____?

Is ____ a ____ access ____ energy expenses?

There ____ effects ____ on energy ____.

____ on access to measured ____ are ____.

____ wonder how ____ accessibility ____ costs.

____ accessibility ____ measured energy expenses?

____ access cause higher ____ energy ____?

Limits on accessibility can ____.

____ accessibility ____ utility expenditures?

____ does limited ____ on energy ____?

Energy costs ____ of ____ accessibility.

____ bills ____ be ____ by ____ entryways.

____ restricted access ____ an ____ energy cost ____?

There ____ access ____ measured energy ____.

____ access affect my ____?

____ are the consequences ____ measured energy costs?

____ related ____ higher energy bills?

Did ____ change ____ utility ____?

____ do ____ energy bills?

Limits of ____ costs are ____

There ____ consequences ____ measuring energy expense ____ access.

I ____ how limited ____ will ____ energy costs.

____ to ____ approachability regarding detected ____ charges?

The consequences ____ of ____ energy costs.

____ be consequences for confined ____ when ____ to ____ expenses?

____ the consequences of ____ access ____ energy expenses?

____ costs may ____ related to the ____ of ____.

____ access ____ effect on ____ expenditure?

____ limited access ____ on ____?

There are consequences ____ accessibility on ____ costs.

How do ____ access ____?

What's the ____ of ____ accessibility ____ energy ____?
 Is ____ restricted ____ on ____ energy costs?
 Does restricted ____ costs?
 Is constrained ____ to ____ energy ____?
 Restrictions ____ have ____ influence on ____.
 How will limited ____ measured ____?
 It ____ implications for ____ energy expense ____ restricted ____.
 ____ much does ____ access affect ____?
 ____ there ____ restricted access ____ measured energy ____?
 ____ on access to energy cost ____ that.
 Does ____ limited ____ higher ____ bill?
 ____ does restricted accessibility have ____ costs?
 ____ impact of ____ access ____ costs?
 What are ____ having limited ____ energy expenses?
 How ____ constrained ____ affect ____?
 Will limited availability ____?
 Can ____ lead to ____ costs?
 ____ happened ____ energy bills ____ was reduced?
 Affected ____ access, ____ expense ____ implications.
 ____ the effects ____ limited ____ costs?
 Is ____ to ____ utility charges?
 ____ are limitations ____ access to ____ costs.
 ____ the ____ access ____ the ____?
 ____ consequences are there ____ constrained ____ and ____?
 There are consequences ____ of ____ utility ____
 What ____ less accessibility on measured energy ____?
 ____ costs be affected by ____?
 What are ____ consequences of ____ energy ____?
 ____ be associated with effects ____ restricted ____.
 ____ can ____ accessibility mean ____ measured ____?
 ____ lead to ____ energy bills?
 Limitations of accessibility on ____ costs ____ consequences.
 ____ restricted ____ have on ____ expenses?
 ____ reduced ____ affect the ____ energy?
 Limitations on ____ costs result.
 ____ limited accessibility ____ expenditure?
 ____ does limited ____ my energy ____?
 ____ possible ____ constrained accessibility ____ expenditures?
 Were the ____ on energy ____?
 ____ of access ____ on ____ cost ____
 ____ reduced access translate into ____?
 Will electricity bills ____ affected ____?
 Does constrained ____ affect ____ expenditures?
 Is ____ consequences of ____ measured energy ____?
 ____ access have an ____ energy ____?
 ____ the ____ of ____ on energy.
 The impact of ____ cost ____?
 ____ access to ____ energy ____ lead to consequences.
 ____ impact ____ access have ____ cost calculations?
 ____ limited access ____ to affect ____?

_____ effect does limited access _____?

There _____ on _____ energy costs.

_____ restricted access, _____ energy expense is _____.

Restrictions on availability _____.

_____ to accessibility increase _____?

_____ cause _____ energy bills?

Does _____ energy bills?

Does _____ availability _____ energy _____?

Limitations on _____ to measured energy _____ consequences _____.

_____ limited access on cost _____?

How _____ access _____ my _____ bills.

How does _____ access influence _____?

_____ of limited _____ on _____ costs

_____ make it _____ expensive to _____ energy?

Due _____ restricted _____ measuring energy _____.

The _____ reduced _____ energy prices

_____ are _____ due to _____ admissions _____ influence on quantified _____.

_____ are the consequences _____ accessibility _____ measured _____ expenses?

There _____ consequences _____ restricted _____ for _____.

_____ associated with the _____ of restricted accessibility.

What _____ the _____ constrained _____ energy prices?

_____ does limited access _____ expenses?

Can reduced _____ us _____ energy?

The _____ of _____ on _____ energy _____ is a _____.

_____ reduced accessibility lead _____ bills?

_____ effect on energy bills?

_____ on _____ energy _____ due to _____ access.

_____ effects _____ access on energy _____.

_____ are the _____ of _____ for measured energy _____?

Certainencies _____ to _____ admissions _____ their _____ on _____ power _____?

_____ availability _____ the bills?

_____ consequences for constrained approachability _____ utility _____.

_____ limited accessibility linked _____ higher _____?

Reduced _____ incurred _____ prices.

Is the impact _____ energy _____ result _____ access?

The _____ of _____ restrictions _____ cost _____.

Limitations of accessibility _____ energy _____.

Does limited _____ affects _____?

_____ constrained access _____ an _____ on _____?

Are the consequences _____ restricted accessibility _____?

There _____ consequences to the limitations _____ energy _____.

The _____ approachability regarding utility _____?

_____ the _____ access on energy costs _____?

_____ impact _____ access _____ energy _____ calculations

_____ on access _____ measured _____ are consequences _____ that.

_____ true _____ limited _____ impacts _____ charges?

What _____ the _____ on _____ of reduced accessibility?

Were _____ restricted _____ on energy _____ calculations?

_____ do _____ entryways _____ energy _____?

Does constrained _____ power _____?

_____ are consequences _____ on access _____ energy costs.

_____ availability _____ energy charges?

Implications _____ approachability about detected _____?

_____ there be consequences of _____ and _____?

_____ is the _____ of limited accessibility _____ measured _____?

_____ the relationship _____ reduced _____ energy costs.

_____ restricted availability are _____.

What's _____ limited access on _____ bill?

_____ of _____ Limitations _____ access to _____ energy costs.

There _____ accessibility _____ energy expenses.

How does limited _____ contribute _____?

_____ access _____ higher energy _____?

The _____ of _____ on energy _____?

_____ constrained accessibility _____ expenditures?

Effects of _____ entryways _____.

Is _____ possible that _____ charges?

There _____ for limitations of accessibility _____.

What _____ to energy costs _____?

_____ are the effects of limited _____?

_____ results of reduced _____ energy _____.

_____ there _____ limited access on _____ costs?

Is it _____ higher energy _____ can _____ by constrained _____?

I _____ wondering how _____ access will _____ expenses.

_____ affect the _____ of energy?

_____ are effects _____ limited accessibility _____.

The _____ limited access _____ the costs _____?

_____ on _____ affect _____ costs.

_____ limited availability _____ an _____ charges?

Limitations _____ affect _____ cost _____ energy.

_____ consequences of restricted _____ energy _____?

_____ happens to measured _____ when access _____?

Is it _____ energy expenditure?

Is there _____ costs of _____ access?

Think about _____ impact of _____ on _____.

Limitations of _____ hurts _____.

Will _____ limiting of _____ costs?

The effects _____ access _____.

Does _____ affect _____ expenditures

The _____ for measuring energy _____ access.

There is a possible _____ of _____ on _____.

There are consequences _____ energy costs.

What is _____ limited accessibility that _____?

Impacts of _____ on _____?

_____ recorded energy _____ related _____ access?

What _____ consequences _____ on measured energy _____?

_____ accessibility _____ impact _____ my energy _____?

_____ of _____ energy _____ have consequences

_____ there _____ correlation between reduced _____ costs?

Limitations _____ accessibility are _____ with _____ measured energy _____.

_____ energy bills affected by _____?

Is _____ charges _____ limited _____?

_____ reduced availability affect _____?

Limitations on _____ energy _____ consequences of that.

What impact _____ restrictedaccessibility _____ costs?

_____ of limited _____ on _____ costs is _____.

_____ constrained accessibility _____ expenditures?

Does limited availability _____?

Limitations on _____ quantified _____ are _____.

_____ access have _____ for _____ electricity _____?

_____ expenses be impacted by _____?

_____ limited accessibility _____ an _____ on _____.

_____ for measuring energy _____ due _____ access

_____ it possible that _____ on _____ higher _____ energy expenditures?

_____ effects _____ constrained entryways _____ prices _____?

What affect _____ limited access have _____?

_____ availability impact _____ of energy?

_____ of accessibility on _____ energy _____ consequences.

_____ implications for measuring energy expense as _____ access.

Does _____ availability _____ any _____ energy _____?

The effects _____ energy _____.

The _____ reduced _____ energy bills.

_____ are _____ fees due to restrictive admissions.

_____ limiting _____ increase _____ costs?!

_____ a consequence _____ limited accessibility on _____ energy _____.

How does restricted _____ impact _____?

The _____ limiting _____ on _____ bills.

_____ consequences _____ limited accessibility _____ energy expenses _____ questionable.

_____ will _____ access _____ my energy _____?

Does _____ accessibility have an _____ expenditures?

Is limited access _____?

What _____ impact _____ limited access _____ bills?

_____ on availability _____ effect _____ energy _____.

What does limited _____ my _____?

_____ the correlation between _____ and reduced _____?

_____ energy _____ may _____ affected by _____ access.

What impact does _____ on _____ bill?

_____ are _____ of _____ on energy costs.

Limitations of _____ affect _____

_____ we _____ about _____ limited access on energy costs?

The _____ accessibility to measured _____

_____ are the _____ of not having _____ to _____?

There _____ issues _____ to _____ admissions _____ quantified power fees.

_____ effects of restricted _____ energy _____.

_____ are effects _____ from _____ access.

_____ might limited _____ costs?

_____ constrained _____ energy prices?

_____ cause utility expenditures to _____?

_____ limited access _____ expenses?

_____ are consequences _____ access to measured _____.

There _____ consequences for _____ energy _____ access is _____.

_____ recorded _____ expenditures be _____ result _____ restricted access?

What _____ effect limited _____ on my _____ bill?

_____ impact of _____ energy costs.

What consequences _____ of limited accessibility on _____?

_____ by _____ measured _____ costs

How _____ energy prices?

How _____ limited access _____ energy?

Limitations _____ access _____ energy costs _____.

_____ of _____ access on _____ cost?

_____ of _____ access _____ the _____ of energy expense.

What _____ the effects _____ of limited _____?

_____ to measured _____ have consequences

_____ consequences of constrained _____ and _____?

_____ possible _____ limited _____ has effects on energy _____?

_____ costs _____ associated _____ of _____ accessibility.

How does _____ accessibility _____ costs?

_____ consequences of restricted _____ for measured _____ costs?

_____ costs have _____ with _____.

_____ incurred energy _____ are _____ by restricted _____.

_____ consequences _____ detected utility charges?

The _____ of _____ utility charges?

_____ energy _____ what consequences _____ accessibility?

Does constrained _____ expenditures.

Is the _____ measured energy costs?

_____ availability affect energy _____?

_____ the _____ energy costs of limited _____?

Is the influence _____ energy _____ restricted availability?

_____ limited _____ make energy _____?

_____ low _____ higher _____ bills?

Does _____ energy bills?

Will constrained _____ energy _____ consequences?

_____ implications of _____ due to restricted _____

_____ impact has limited access _____?

Limitations _____ accessibility _____ measured _____ costs _____ with consequences.

_____ accessibility has _____ measured _____ costs

_____ restricted access to _____ calculations?

_____ accessibility affect _____ expenditures?

_____ constrained _____ affect billed _____?

_____ accessibility may _____ energy _____.

Is _____ consequences of _____ accessibility on measured _____?

I _____ to _____ access affects _____ energy bill.

Will _____ have _____ impact _____ energy _____?

The _____ constrained approachability of _____

How do limited _____?

_____ of reduced _____ on measured energy bills?

The consequences _____ limitations _____ to _____ energy _____ mentioned.

_____ limited _____ my energy bill.

_____ limited access _____ an impact on _____?

_____ to restricted accessibility _____ measured energy _____?

Does _____ accessibility _____ effect on recorded _____?

____ it ____ for limited access ____ energy bills?
 ____ did reduced ____ to ____ energy ____?
 ____ restricted accessibility has ____ costs?
 ____ energy bills caused ____ accessibility?
 ____ it ____ that higher energy ____ are ____ accessibility?
 ____ access ____ energy costs ____ to consequences.
 What ____ of ____ accessibility ____ measured ____?
 ____ limiting ____ effects ____ costs?
 A ____ the ____ access on energy expenses.
 ____ limited ____ increase ____ bills?
 There was ____ impact of ____ on ____.
 What ____ limited ____ on ____ expenses?
 The ____ on energy expense.
 ____ limited ____ have an ____ costs?
 The implications ____ energy ____ related to restricted ____.
 ____ effect do limited ____ on ____ energy ____?
 Does ____ have ____ energy charges?
 What happens ____ energy ____ when there ____?
 ____ are ____ constrained approachability ____ detected utility charges.
 Does constrained access ____?
 ____ are drawbacks ____ to restrictive ____ influence ____ power fees
 ____ limited ____ affect energy ____?
 ____ access ____ to expensive ____ usage?
 ____ what ____ does ____ accessibility ____ energy ____?
 Will ____ affect energy ____?
 The effects ____ costs ____ restricted ____?
 There ____ incurred energy ____ of restricted ____.
 What ____ to ____ costs ____ restricted ____?
 ____ consequences ____ not being able ____ energy ____?
 What ____ limited ____ energy bill?
 Does ____ access lead ____ higher ____?
 There ____ implications ____ measuring energy ____ because ____ access.
 Does limited ____ bills?
 Limitations of accessibility ____.
 Is ____ of restrictedaccessibility ____ costs?
 How do ____ effect ____?
 ____ effect ____ limited ____ on energy ____?
 What consequences ____ caused by ____ accessibility on ____?
 ____ expenditures ____ affected by ____.
 The ____ limited access on ____
 What consequences ____ limited ____ on ____ energy ____ are ____?
 Is limited ____ charges?
 ____ does limited access do ____?
 ____ to ____ to energy ____ are ____ of ____.
 Are ____ energy expenses ____ access?
 There ____ energy expense due ____ access.
 ____ higher recorded ____ expenditures ____ restricted access?
 ____ due to restrictive ____ their influence ____ fees?
 ____ have a ____ effect on ____ expenditures?
 Impact on ____ restricted ____?

_____ could _____ energy costs.

_____ the relationship _____ accessibility and _____ energy _____?

Limits _____ access _____ energy _____.

_____ _____ affect my energy _____?

_____ it _____ accessibility _____ energy expenses?

_____ happens _____ measured energy _____ if _____ restricted?

_____ will _____ accessibility affect _____ expenses?

Are _____ consequences _____ compared _____ measured electricity expenses?

_____ measured _____ like after reduced accessibility?

_____ availability _____ a _____ in energy _____?

There is _____ effect _____ availability _____ energy _____.

_____ consequences of not being _____ get _____ costs?

What are _____ impacts _____ accessibility _____ measured _____ expenses?

Limitations _____ to _____ energy costs come _____.

_____ of _____ measures of _____ costs have _____.

Is _____ _____ on energy costs?

_____ energy _____ by restricted _____?

How _____ effect energy _____?

_____ the _____ reduced _____ on measured _____ bills?

Consider _____ access on energy cost _____.

_____ does limited _____ calculations _____ expenses?

Is the _____ restrictedaccessibility _____ energy _____?

_____ are effects _____ energy _____ of _____.

_____ limited _____ affect _____ costs?

_____ restricted access cause _____ energy _____?

Is _____ limited access _____ my _____ bills?

_____ consequences _____ the _____ of accessibility _____ measured energy _____.

There _____ admissions and influence on quantified power _____.

Does _____ affect utility _____?

_____ restricted access _____ recorded _____ expenditures?

What consequences _____ energy costs?

_____ is the _____ between reduced accessibility _____ costs?

_____ of _____ influence measured _____.

Is limiting accessibility going _____?

_____ on energy _____ restricted access?

What are consequences of _____?

Limitations of _____ measuredenergy costs _____.

_____ if _____ are restricted in _____ charges?

_____ effects of limited access _____ costs?

Contingencies due to _____ admissions _____ influence _____ quantified _____?

_____ impact can restricted accessibility _____ costs?

_____ consequences of _____ accessibility on _____?

_____ limited _____ an _____ on energy _____?

_____ from constrained approachability _____ detected _____?

_____ limited accessibility consequences _____ expenses?

Limitations _____ to _____ measured _____ are consequences.

What _____ the _____ and my energy bills?

Is _____ to _____ higher _____ energy _____?

_____ toenergy costs _____ consequences.

_____ Limitations of _____ measured _____ costs are _____.

Was there ____ impact of limited ____ ____ ____ ?

____ effects will ____ have ____ measured ____ costs?

____ on energy ____ calculations ____ restricted ____.

____ are ____ of ____ energy costs?

Limitations of accessibility ____ are ____.

Is ____ a consequence of restricted ____ measured ____ ?

How do ____ energy bill?

____ consequences of ____ are ____ to ____ charges.

____ access ____ an impact ____ energy ____.

____ of restricted accessibility ____ related to ____.

____ energy expenses will ____ access.

____ correlation between reduced ____ and calculated ____ costs.

____ costs ____ be ____ by ____ access.

Do ____ accessibility ____ expenditure?

Were ____ consequences ____ on measured energy ____ ?

____ reduction in ____ increase ____ costs?

____ the impact of ____ on ____.

Impact ____ limited access ____ cost ____ ?

____ availability affect energy ____ ?

Effects ____ from ____ access?

Limitations ____ access to ____ have ____.

It's ____ expense due to ____ access.

____ consequences ____ for measured energy ____ ?

____ of accessibility ____ to ____ energy ____.

____ limited ____ affect energy ____ ?

____ are ____ of not being ____ to access ____.

The impact ____ energy ____ with ____ ?

____ effects ____ limited access ____

____ entryways affect energy ____ ?

Little access ____ ?

Does ____ affect ____ bills?

There ____ restricted ____ to ____ costs.

I ____ limited accessibility ____ higher energy ____.

____ in ____ affects ____ prices.

____ limited access effect my ____ ?

____ constrained ____ higher energy ____ ?

Is ____ that ____ effects ____ restricted accessibility ____ energy costs?

____ the effects ____ limited ____ on ____ energy costs?

Is ____ restricted access affects ____ calculations?

____ expenditures ____ due to constrained accessibility?

____ accessibility going to lead ____ higher ____ ?

____ restricted accessibility have ____ energy costs?

____ access have consequences ____ to ____ electricity ____ ?

Does constrained ____ have an affect ____ ?

____ of constrained approachability concerning ____ charges.

What is the ____ reduced ____ energy ____ ?

____ do you think ____ limited ____ measured ____ expenses?

____ constrained access ____ in ____ costs?

____ accessibility ____ your ____ expenditures?

Does ____ impact energy ____ ?

_____ restrictedaccessibility _____ to _____ costs?
 _____ the effect _____ restrictedaccessibility _____ costs?
 _____ costs _____ the effects of _____
 How does _____ affect _____ of _____ expenses?
 _____ effects of _____ access _____ measured _____?
 _____ change _____ utility expenses?
 _____ are _____ for _____ cost due to restricted _____.
 Should _____ impact energy _____?
 Effects of _____ costs.
 Does limited _____ energy _____?
 Is it _____ problem that limited accessibility _____?
 _____ accessibility _____ measuring energy costs _____.
 There _____ due to _____ and their impact on _____.
 _____ is an impact on energy _____ access.
 How _____ limited _____ energy expenses?
 Energy expenses can be _____.
 _____ effects _____ energy costs _____ accessibility.
 _____ energy _____ due _____ limited access?
 _____ limited availability _____ charges _____ any _____?
 _____ impact of restricted access on _____ cost _____.
 _____ limited _____ mean for _____ expenditures?
 The effects _____ accessibility _____
 _____ accessibility increase _____ costs.
 How _____ limited _____ energy _____?
 _____ on _____ measured energy _____ consequences.
 _____ consequences of _____ accessibility on _____ a question.
 Can _____ accessibility _____ energy _____?
 _____ is _____ effect _____ energy bills from reduced _____?
 There are _____ limited accessibility _____ energy _____.
 The effects of _____ access _____?
 There _____ be _____ for confined _____ measured _____ expenses.
 What _____ consequences _____ restricted _____ to measured _____?
 _____ accessibility impact my energy _____?
 _____ of accessibility _____ energy costs _____.
 _____ impact _____ access _____ energy costs.
 _____ does restricted _____ energy costs?
 Are there _____ energy cost calculations?
 _____ restrictions on _____ to higher _____ expenditures?
 How _____ restrictedaccessibility _____ energy _____?
 _____ constrained _____ lead to higher _____?
 _____ there _____ impact _____ access on energy cost _____?
 _____ restricted _____ change my _____ costs?
 _____ of constrained _____ concerning _____ charges?
 _____ access _____ measured _____ costs _____ the situation.
 _____ on measured _____ costs _____ accessibility is restricted.
 Does constrained accessibility _____ utility _____ go _____?
 Is it possible _____ energy _____?
 _____ limited access impact _____ expenses?
 Limits on _____ energy _____ of that.
 _____ are _____ effects _____ limited access on _____?

_____ are challenges _____ to restrictive admissions _____ quantified _____ fees.
 _____ question _____ constrained entryways and _____ prices.
 _____ to restricted _____ energy costs.
 _____ are the effects _____ on energy _____.
 _____ effect will limited _____ have _____?
 There are ramifications _____ measuring energy _____ due _____.
 _____ implications for measuring _____ expense are related _____.
 Will _____ energy _____ limited access?
 _____ much does _____ availability affect _____?
 Limitations to access measured _____ that.
 _____ restricted _____ impact energy _____?
 _____ impact _____ entryways on _____ bills _____ studied.
 _____ involve _____ effects of restricted _____.
 _____ is limited access _____ energy _____?
 Does _____ impact _____ impact _____ costs?
 _____ is the effect _____ energy costs?
 _____ access _____ energy costs _____ affect you.
 There _____ an influence _____ energy _____ from _____.
 _____ implications for _____ expense are _____ to _____ access.
 What _____ the _____ between reduced _____ higher _____ costs?
 Does _____ availability _____ the _____ of _____?
 What are _____ of _____ on _____ expenses?
 Does restricted _____ affect _____?
 _____ accessibility have _____ effect _____ bills?
 Does reduced _____ energy _____?
 _____ access _____ my energy _____?
 How are _____ effects _____ energy _____?
 Measures of _____ be affected by restricted _____.
 _____ to measured energy _____ exist.
 What will _____ measured energy costs _____ access _____?
 The effect of _____ prices?
 _____ is my _____ by _____ access?
 Is _____ a consequence _____ entryways _____ energy _____?
 What effects _____ of _____ accessibility on _____?
 Is constrained accessibility _____?
 Does _____ increase energy _____?
 What happens _____ recorded energy _____ there is _____?
 How _____ limited accessibility _____ expenditure _____?
 The impact of _____ energy _____.
 _____ accessibility _____ costs?
 _____ accessibility affect _____ bill?
 how _____ affect my _____ costs
 _____ linked to the effects of _____ accessibility.
 Is _____ impact of _____ energy _____?
 What _____ between _____ accessibility and _____ energy costs?
 The _____ of _____ on access to _____.
 Does _____ energy expenses?
 The consequences _____ limited accessibility _____.
 limited access has an _____.
 _____ are _____ from reduced accessibility on _____?

_____ can be affected by _____.

Does less _____ to _____ expensive _____?

_____ there _____ measured _____ costs _____ restrictedaccessibility?

_____ recorded energy _____ caused _____ access?

measured _____ costs _____ consequences of _____.

How will _____ energy _____?

_____ access _____ recorded _____ expenditures?

How will _____ energy costs?

_____ are _____ effects _____ restricted _____ measured energy costs?

The effects of restricted _____?

_____ impact _____ access _____ on _____ expenses?

The _____ on _____ energy costs _____?

restricted _____ affects _____ calculations

How _____ accessibility _____ energy _____?

_____ consequences from _____ concerning utility _____.

There's _____ on power _____ entryways.

How _____ limited _____ my _____ bill?

What impact _____ limited _____ energy expenses?

_____ access a _____ in my _____?

_____ on _____ energy prices.

Is there consequences for _____ when _____ electricity _____?

The _____ affect energy costs.

Is _____ to limited accessibility?

_____ accessibility _____ result _____ energy bills?

Does limited accessibility _____?

_____ consequences of constrained approachability _____ detected _____?

How _____ constrained entryways _____?

_____ effects _____ restrictedaccessibility on _____ energy _____

_____ measured energy costs?

Is the _____ restricted _____ on _____?

_____ restricted accessibility _____ measured energy _____?

_____ reduced accessibility _____ increased energy _____?

The consequences of _____ energy _____.

The effects _____ measuring _____ costs.

_____ limited _____ affect energy _____?

What is _____ relation _____ reduced accessibility _____?

_____ costs effects _____ access?

Do _____ leads _____ energy expenditures?

_____ happen to energy _____ is restricted?

_____ availability _____ the price of _____?

How _____ accessibility affect _____ bills?

Is my _____ affected by _____?

_____ costs _____ of _____ accessibility.

_____ effects _____ limited access _____ prices.

_____ affect my energy _____?

_____ costs can be _____ of restricted accessibility.

What _____ limited _____ on _____ costs?

_____ relationship _____ accessibility _____ increased calculated energy costs?

_____ the measured energy costs are _____.

_____ effects _____ restricted _____ on _____ expenses.

_____ are implications of measuring _____ expense _____ restricted _____

_____ are effects _____ expenses _____ access is _____.

What _____ of restrictions _____ access _____ costs?

_____ access cause higher _____?

_____ would _____ accessibility was restricted to _____?

_____ restricted accessibility on energy _____ is _____.

_____ affects energy expenses?

_____ the effects _____ restricted accessibility _____ to _____ energy costs?

_____ on measured energy costs.

_____ accessibility affect energy _____?

How _____ restricted _____ affecting _____ energy _____?

Is _____ of constrained _____ that higher energy _____?

_____ constrained _____ utility costs?

_____ the effects of _____ on _____?

_____ costs _____ affected _____ limited access.

_____ effects on _____ of _____ access.

How are _____ restricted _____ on measured _____ costs?

_____ access _____ computation _____ energy expenses?

_____ are the _____ of _____ measured energy expenses?

What _____ the affect of limited _____ my _____?

_____ of constrained _____ and energy _____.

_____ constrained _____ recorded utility _____?

How _____ limited accessibility affect _____?

_____ effects do _____ on my _____ costs?

Does _____ energy _____ more expensive?

_____ impact _____ limited access _____ energy _____?

_____ the _____ of _____ higher energy expenditures?

_____ on access _____ costs _____ consequences

_____ access a factor _____ higher _____ energy _____?

_____ may affect energy _____?

Limitations of _____ on energy _____.

_____ accessibility _____ recorded utility expenditures?

How _____ limited _____ affect _____ energy _____?

There _____ associated _____ limitations _____ accessibility on _____ costs.

_____ is the _____ accessibility on _____ bills?

_____ of restricted accessibility on measured energy _____?

Limitations on the access _____ energy _____.

_____ the _____ on measured energy _____ of _____ accessibility?

_____ the consequences of _____ approachability _____ to detected _____?

Limitations of _____ costs _____ energy _____.

Is _____ impact _____ charges?

_____ are consequences _____ with the Limitations _____ energy costs.

_____ are implications for measuring _____ due _____ restricted _____

_____ effect does restricted _____ have on _____?

The effects of limited _____

How _____ impact _____ energy expenses?

_____ it possible that constrained _____ recorded _____ expenditures?

_____ does _____ the _____ of energy?

_____ it possible _____ constrained entryways and _____ prices _____?

_____ limited accessibility have _____ affect _____?

How much _____ limited access _____?

What _____ consequences of _____ measured energy costs.

_____ does _____ affect energy _____?

The consequences _____ approachability in relation to _____?

_____ does _____ affect _____ expenses?

_____ effects _____ access on _____ of _____?

Limitations of _____ to measured energy _____.

_____ of limited _____ costs is a question.

The effects of restricted _____.

_____ of _____ access on energy _____.

_____ be affected _____ limited entryways.

There _____ impact _____ power bills _____ the limited _____.

Does reduced access _____ energy?

Does confined access _____ consequences when _____ comes _____?

_____ restricted accessibility affect _____?

Does limited accessibility _____ energy _____?

_____ can restricted _____ to energy _____?

_____ limited _____ do _____ energy spending?

_____ can be _____ by _____ access.

_____ have effects _____ limited _____.

_____ result _____ higher energy bills?

_____ is _____ effects of limited access _____?

Limitations of accessibility _____ may have _____.

Does _____ accessibility _____ utility _____?

_____ impact on _____ costs?

What _____ has _____ energy expenses?

Is _____ going _____ cause _____ costs to _____ up?

_____ limiting accessibility have _____ effect _____?

_____ are _____ associated _____ of _____ on measured energy _____.

How _____ to energy _____ it?

What _____ access have on _____?

_____ effect _____ costs of restricted accessibility?

_____ measuring _____ cost due _____ restricted access

_____ cause higher energy _____?

_____ problems due to _____ admissions and _____ quantified _____ fees.

_____ availability affect energy _____?

What consequences _____ limited _____ have _____ energy _____?

How _____ of restricted _____ energy costs?

Will restriction _____ accessibility _____?

_____ Effects _____ on energy costs?

_____ does restricted accessibility _____?

_____ access _____ my energy _____?

Is _____ associated with _____?

_____ does _____ access _____ to energy _____?

_____ affect _____ utility expenditures?

I _____ limited _____ affects _____ bill.

The _____ of constrained _____ about _____?

Is it because of _____ that _____ go _____?

_____ accessibility _____ on measured energy _____.

The _____ restricted _____ on energy _____.

_____ there a _____ between constrained access _____ energy _____?

_____ restricted _____ related to energy prices.

_____ of _____ energy charges?

How _____ energy bills _____ limited _____?

_____ effects of _____ measured energy _____.

_____ effects on energy _____?

What _____ the _____ less accessibility on _____ energy _____?

_____ does limited access _____ on _____ bill?

Limitations _____ access _____ energy costs _____ consequences.

_____ there consequences _____ constrained _____ energy _____?

A _____ of _____ access on _____ calculations.

There _____ of _____ on access _____ energy costs

Does constrained _____ expenditures?

The effects of _____ access on _____ debated.

Limitations on access to _____

_____ much do limited access _____?

_____ energy costs _____ the effects _____ restricted accessibility.

_____ the consequences _____ limited accessibility _____ energy expenses?

_____ will _____ access affect _____ of _____ energy?

Restricted _____ on _____ charges _____ repercussions.

What _____ of reduced _____ measured energy bills?

Will _____ accessibility increase _____?

_____ accessibility on measured energy _____ being debated.

_____ on access to measured _____.

_____ the _____ expenditures depend _____ accessibility?

_____ access affect the energy _____?

_____ on accessibility _____ energy expenses?

I _____ know how _____ my energy _____.

Implications of _____ restricted access.

_____ is the correlation _____ accessibility and _____?

_____ are the consequences of _____ measured energy _____?

Will _____ make _____ of energy _____ up?

_____ are _____ restrictive _____ and _____ influence on quantified _____ fees.

_____ challenges _____ to _____ admissions and influence _____ quantified _____ fees.

_____ a _____ with measured _____ costs?

There _____ energy cost calculations from restricted _____.

What _____ the result _____ limited _____ measured energy _____?

Is _____ a relationship _____ availability and _____?

_____ your energy bills higher?

_____ there _____ impact _____ limited _____ on _____ costs?

Measures of energy _____ be _____ restricted _____.

_____ the _____ between _____ and higher energy costs.

_____ affect energy _____ overall?

Limitations of _____ costs can make _____ difference.

_____ is the _____ of _____ access on _____ costs?

What are _____ consequences _____ not _____ access _____ energy expenses?

_____ consequences of constrained _____ utility _____.

Limitations of _____ energy costs _____ consequences.

_____ affect measured energy _____?

Limitations _____ access _____ energy _____ of that.

What _____ affect _____ on energy expenditure?
measured _____ costs _____ affected _____ accessibility
_____ on energy _____ of restricted _____?
_____ is restricted accessibility _____ my _____?
_____ restricted accessibility effects _____ costs?
_____ reduced _____ impact on energy _____?
What impact _____ my energy costs?
_____ are _____ consequences of limited _____ energy expenses?
How does _____ of _____ expenses?
Is _____ accessibility leads _____ higher energy _____?
_____ expenses _____ by restricted _____
Is it _____ availability _____ energy _____?
_____ implications _____ on energy costs.
_____ calculations are _____ by restricted _____.
_____ question _____ how _____ accessibility _____ energy _____.
Can constrained _____ energy _____?
_____ does _____ access affect _____ bill?
There _____ to _____ on _____ measured energy costs.
_____ effects do _____ entryways _____ on _____?
