

[Demo] NLP Dataset for Customer Service Automation

Company Type	Smartphone Manufacturers
Inquiry Category	Technical issues and troubleshooting assistance
Inquiry Sub-Category	Battery life
Description	Customers have concerns about the battery life of their smartphones and seek guidance on how to optimize battery usage and increase the device's lifespan.
Data Size	6,937 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Smartphone Manufacturer" customer inquiry. (Purchased data will not be masked.)

Why do _____ consume excessive _____ even _____ display _____ levels?
Is _____ brightness levels ineffectual _____ reducing _____ specific games?
_____ hog energy _____ low _____ brightness.
Can you _____ certain _____ hog _____ despite reduced brightness _____?
_____ games consume a _____ life, even with _____ screen brightness
Is _____ for _____ to _____ excessive _____ even with reduced _____?
Why _____ a _____ gaming software _____ a lot _____ power _____ they are _____?
_____ low-brightness _____ high-energy usage?
The games _____ of _____ at _____ low-brightness settings.
How _____ happens in _____?
_____ few specific _____ software draws an _____ power, _____ when _____ softly.
When _____ screen _____ why does the _____ so much _____?
_____ excessive _____ even with _____ lower display brightness?
Even when my screen _____ these power-hungry _____ in _____.
How _____ low-brightness _____ cause _____ usage?
_____ drain more power _____ the brightness is _____.
_____ low _____ an explanation _____ power hungry _____?
Does _____ make sense _____ consume more _____ low screen _____ levels?
Some _____ have _____ lot of energy at _____.
Even _____ there's _____ some games _____ the battery _____.
There _____ that _____ too much _____ display brightness levels.
Games drain _____ when _____ screen _____?
_____ us why _____ consume battery life _____ though the _____ level _____ been lowered?
There _____ drain the battery _____ there _____ a dim screen.
How do _____ brightness explain _____ game _____?
_____ games _____ lot of _____ when there is _____ brightness?
Is _____ certain _____ power even _____ low display brightness _____?
When the _____ dim, can _____ games _____ excessive _____?

_____ consuming power _____ reduced brightness?

_____ you tell _____ certain games hog _____ though _____ brightness is _____?

I'm curious as _____ why some _____ a _____ battery _____ there's _____ brightness.

_____ games waste _____ despite _____ screen?

There _____ a lot of power on low _____.

_____ games _____ a _____ of _____ even _____ a _____ display.

_____ curious about _____ some games _____ a lot of _____ life _____ with _____

I _____ understand _____ games suck _____ I dim the _____.

Why _____ games _____ high energy _____ despite dim _____?

_____ are games _____ huge amounts of _____ the screen _____?

What _____ the reason behind _____ lower displays?

Is _____ brightness the _____ high game power _____?

_____ are _____ draining so much _____ when I _____ display _____?

_____ for games draining excessive power _____ low _____ levels?

Do certain _____ use _____ even _____ low display?

_____ some _____ still _____ when _____ brightness is turned off?

What _____ to use _____ much battery _____ on _____ screen _____?

Large _____ display glow, how come?

Why does _____ specific gaming _____ draw _____ much _____ softly?

_____ come _____ use _____ much power _____ the _____ is low?

Why do certain _____ use _____ excessive amount _____ low screen _____?

Can _____ me _____ certain _____ battery _____ despite the _____ display's _____ level?

Why are _____ games _____ much _____ when my _____ low?

I'm _____ why _____ games _____ a lot of _____ they _____ reduced screen brightness.

Some games suck _____ loads _____ power, even _____.

When the _____ some _____ drain so much power?

_____ do _____ consume _____ much power even with _____ display _____?

I don't _____ why _____ games drain _____ low brightness.

Isn't it _____ that some _____ battery _____ low _____?

_____ some games draining _____ display brightness is low?

Some _____ use too _____ power _____.

_____ games _____ drain _____ though _____ are dim.

How _____ power like _____ going _____ despite reduced brightness?

_____ high energy consumption _____ games _____ dim?

_____ strange that some _____ use _____ power _____ brightness.

_____ you tell me why _____ lot of _____ dimmer _____?

_____ you know why certain _____ battery _____ dimmer screens?

Why _____ suck up _____ even _____ low brightness?

There _____ energy consumption in _____ few games _____ dim _____.

How come _____ games _____ draining _____ power when my _____?

Can you _____ us _____ specific _____ on dimmer screens?

Is it _____ for _____ to eat _____ battery even when _____?

_____ are some _____ much power _____ when _____ have low display _____?

Do some _____ than others despite _____ reduced screen _____?

Even _____ display brightness _____ some games _____ draining _____ lot _____ power.

The games _____ power _____ low _____.

Some games still _____ is turned down.

_____ you _____ certain games use a _____ power _____ brightness settings?

_____ you tell _____ some _____ power despite _____ brightness levels?

_____ the _____ is dim _____ apps use _____ power

The games _____ guzzling power _____ settings are _____.
 Why _____ a _____ software draws an _____ amount of power when _____?
 _____ are certain games that _____ energy _____ brightness.
 _____ it _____ games use so _____ power _____ low-brightness _____?
 Can game apps _____ power when it's _____?
 Will low _____ brightness explain _____?
 _____ do _____ consume a _____ of power even _____ low _____?
 _____ have guzzling power despite low-ass _____ settings?
 There _____ games _____ consumption despite dim _____ settings
 I need to know why _____ hog _____ despite _____ brightness levels.
 Is low display _____ in _____ power _____ certain games?
 _____ brightness explain high _____ power _____?
 _____ game power _____ explained by _____ display brightness?
 _____ the _____ consume _____ despite the _____ screen glow?
 _____ possible _____ certain games continue to _____ life even though the _____ been lowered?
 _____ games _____ more power _____ the brightness _____ reduced?
 Does a game consume _____ energy _____ the _____?
 I'm curious _____ some games consume _____ lot _____ battery life _____ with _____ screen _____.
 _____ questionable _____ is normal for _____ to eat _____ even on reduced _____ brightness.
 Why are games draining _____ battery _____ dimmer?
 Does it _____ sense _____ applications _____ despite minimal screen _____ intensity?
 _____ the games that _____ a _____ of _____ even at _____?
 Some _____ have _____ much _____ with a _____ display.
 _____ possible _____ use up so much power at _____ brightness _____?
 _____ it _____ that _____ use excessive power _____ with _____?
 _____ drain excessive power _____ display _____ levels.
 Why do _____ use more _____ the screen _____?
 _____ games use excessive _____ despite _____ display brightness levels?
 Why do some _____ at _____ levels?
 _____ games guzzling power _____ low-ass _____ settings?
 _____ do _____ consume too much _____ when they _____ levels?
 Why are some _____ excessive _____ at _____ levels?
 Why _____ dim _____ games to _____ the battery quickly?
 Is _____ normal _____ some _____ to use more _____ low _____?
 _____ the reason _____ drain excessive power despite _____ brightness?
 _____ excessive power usage even with low _____?
 _____ applications _____ consume _____ even though their _____ has diminished.
 Why _____ some games _____ lot _____ battery _____ brightness settings?
 _____ games use so _____ when _____ is dim.
 _____ screens are dim, specific _____.
 Is _____ to use excessive _____ when _____ display _____ dim?
 Games with _____ display _____ power.
 When the _____ come some games drain _____ power?
 _____ is _____ dim screens _____?
 _____ for some _____ to _____ battery with low _____ brightness?
 _____ as _____ why _____ games consume _____ lot of battery life, _____ the _____ is reduced.
 _____ do _____ games _____ power _____ when _____ display brightness _____ low?
 Why are _____ games consuming too _____ at _____?
 There _____ that _____ battery even _____ screen is _____.
 Does it _____ sense _____ video game applications _____ despite less screen _____?

_____ it _____ for games _____ battery even _____ the _____ is reduced?
_____ reason that _____ battery on dimmer screens?
_____ do certain games _____ a lot _____ at _____ settings?
_____ for certain _____ to use up _____ even _____ the _____ is _____ bright?
I can't _____ but wonder _____ going on _____ the power-hungry _____ that _____ suck _____ my _____ is
_____ brightness settings, _____ guzzling power.
_____ do _____ suck up tons of _____ even _____?
_____ to know why _____ games use a _____ of power _____.
_____ gaming _____ that _____ power even _____ luminosity _____ been reduced.
_____ it normal for _____ games to _____ much _____ when the _____ is not _____?
_____ games use too much _____ brightness levels.
Is _____ possible _____ some _____ extra electricity _____ low screen _____ intensity?
_____ do _____ drain energy _____ are _____ bright?
_____ certain _____ excessive power despite having _____ brightness levels?
Is _____ normal for _____ their _____ even _____ the screen _____ as bright?
_____ some games suck _____ juice _____ the screen?
_____ certain _____ with low screen brightness?
There are games _____ hog _____ brightness.
There _____ some _____ that drain a lot _____ low _____.
Despite low-ass brightness settings, _____ still _____.
There are games that _____ lot _____ power even _____.
_____ games use excessive _____ low _____.
_____ games consume _____ when the screen is _____?
There are games _____ drain _____ dimmer _____.
Why _____ games _____ excessive _____ though they don't _____ much _____ brightness?
Some games _____ power _____ with screen dimmers.
_____ come _____ game _____ little display glow?
Why do certain _____ much _____ even _____ display brightness _____?
_____ you _____ why _____ drain power despite the _____ display _____?
Why _____ some _____ excessive _____ despite reducing display _____?
Is _____ normal _____ games to use _____ brightness is reduced?
_____ game apps use too much power?
Do _____ excessive power even with _____ display _____?
_____ displayed _____ a _____ gaming software draws an _____ of _____.
Why _____ these games using up _____ much _____?
_____ some _____ draining _____ power _____ reducing display _____?
_____ curious as to why some _____ consume _____ lot of _____ life _____ screen _____.
Why do _____ consume so _____ power _____ display _____?
_____ games _____ loads _____ battery _____ on low _____ why?
_____ the brightness _____ down, some _____ use up _____.
_____ certain _____ an excessive amount _____ battery even on _____ screen _____?
Can high game power _____ be _____ by _____?
_____ games to _____ too much _____ low _____ brightness settings?
_____ do games drain power _____ though _____ not _____?
Can you _____ why _____ games _____ power _____ it's _____ style _____ less brightness?
When the brightness is _____ down _____ power.
_____ low-brightness settings, these _____ up much power.
_____ that consume a _____ of _____ despite low brightness _____.
Why _____ games _____ much _____ the screen being dim?
_____ the _____ turned down, _____ games keep _____ power.

low brightness settings, causes certain games battery?

Do glow consume excessive ?

it possible that games excessive even screen ?

low brightness explain high usage a ?

it possible games keep life though brightness level is ?

Is it normal for to even when the is ?

low brightness the for ?

as to some games consume even with less screen .

Some games much power because of .

games still use power less brightness?

know why games use battery on dimmer ?

do games drain power even though they ?

Do use power with less ?

Why certain consume a lot despite levels?

are that drain battery when screen dim.

it normal games to when brightness is reduced?

normal for a game to up the is as ?

Even though there dim games drain the .

wondering some use even with reduced screen brightness.

Why are power my display brightness low?

as to games of battery life with screen brightness

some that loads battery on brightness.

power if screen is ?

Some games lot power with brightness.

When screen is do games take much ?

Games huge battery power screen, going ?

games the when is not bright.

Which usage low-brightness ?

Why some drain the reduced display ?

the display game apps use much ?

Why are games draining are reducing brightness?

curious to some consume of though screen brightness is reduced.

the is dim, games use much ?

are draining excessive though their is reduced?

How come games much power low ?

specific use too energy despite glow?

Some cause battery to on brightness.

games despite the dimmer .

What is the reason games the fast dim ?

is reason games too much at levels?

do games reduced brightness ?

a few specific software so power they are ?

games use so at settings.

the low display explain high ?

some use so much brightness settings?

I'm as why games use a lot life reduced .

games the battery fast though a screen?

games have high display.

some games draining power even they much display ?

A few gaming software an insane amount displayed .

There are _____ apps _____ power despite _____ lessened _____.
 _____ are certain games consuming too _____ battery _____ screen _____?
 _____ drain _____ much battery even on low _____?
 _____ tell me _____ certain _____ power with reduced brightness _____?
 What _____ that _____ excessive power at lower _____ brightness levels?
 _____ games _____ lot of _____ even on low _____?
 Is the _____ certain games excessive _____ reduced _____ brightness?
 _____ some games _____ a lot of power _____ they are _____?
 _____ is it that _____ games _____ so much _____ even at _____?
 _____ more power even with _____.
 _____ games use _____ lot _____ battery even _____ screen is _____.
 Is it normal _____ specific _____ more battery _____ brightness _____ low?
 The games use _____ lot _____ even _____ low-brightness _____.
 Even though it has _____ dim _____ battery fast.
 Even _____ dimmer, _____ still _____ power.
 _____ it normal _____ games _____ more battery _____ screen is not as _____?
 Is there excessive _____ games _____ reduced display _____?
 Why does a game _____ battery _____ a dim _____?
 Is _____ normal _____ specific games _____ more _____ with _____ brightness?
 Is there a _____ games _____ to _____ battery _____ despite the _____ level?
 _____ games _____ a _____ of power at low _____?
 _____ low brightness, some games suck up _____.
 _____ come some games _____ so much _____ low _____?
 _____ games have high _____ dim _____.
 _____ come _____ use _____ lot _____ battery despite low brightness _____?
 _____ do some games _____ excessive _____ low _____ brightness levels?
 Is _____ reason for minimal _____ and _____ game energy _____?
 _____ low display brightness explain _____ use?
 Some games _____ even with low brightness.
 What's the _____ draining power _____ lower display _____?
 Even _____ a dim screen, some _____ drain the _____.
 Some games _____ power when my _____ brightness _____ low.
 Some games _____ a _____ with low _____ brightness levels.
 Some _____ lot _____ power _____ the brightness is turned _____.
 What _____ the _____ energy _____ in _____?
 _____ are _____ games that consume _____ even with _____ brightness _____.
 Something _____ usage in _____.
 _____ screen _____ dim _____ why do _____ games _____ so much _____?
 There are gaming apps that _____ as _____ luminosity.
 There are _____ games that _____ of _____ low brightness _____.
 Why are _____ games using _____ at a low-brightness _____?
 Why are _____ games _____ power _____ brightness _____?
 _____ games use too _____ brightness.
 There are _____ games _____ energy _____ low _____ brightness.
 What causes games _____ of battery even _____ low screen _____?
 How _____ these games have _____ power _____ brightness _____?
 Why _____ a _____ gaming software _____ powerful _____ displayed _____?
 _____ suck _____ lot _____ power despite the _____ brightness.
 _____ my _____ brightness _____ low, why _____ some _____ draining _____?
 _____ are some games draining _____ my display is _____?

Can low _____ a lot _____ power usage?
 _____ possible that some _____ applications _____ despite the minimal screen lighting _____?
 _____ have guzzling power, _____ low-ass _____.
 _____ games sucking _____ power even _____ screen _____ dim?

Is _____ possible _____ the games _____ energy _____ reduced _____ glow?
 _____ low-brightness games have _____.
 _____ games suck up lots _____ even _____ low _____.
 _____ is a _____ for _____ games draining _____ power at _____ display _____.

I'm curious _____ to why _____ battery life even _____ reduced screen _____.

Some games _____ much battery on low _____.
 _____ are some _____ energy _____ low screen brightness.
 _____ few _____ gaming _____ a high amount _____ when displayed softly.
 _____ games drain _____ though they _____.
 _____ do _____ take up _____ I dim _____ display?

Some _____ lot _____ battery _____ the screen is _____ bright.
 _____ is _____ so _____ some _____ drain so much battery?

Many _____ suck _____ a _____ power _____ with _____ brightness.

Why _____ some games suck _____ much power _____ not _____?

What _____ dim screens _____ energy-intensive gaming?
 _____ brightness is _____ come games _____ drain excess power?

Can low _____ brightness _____ reason for high _____?
 _____ enormous battery power _____ though the _____ dim?

Is _____ possible _____ some _____ game _____ extra electricity despite _____ less _____ intensity?
 _____ excess _____ the brightness is turned off.
 _____ some _____ drain _____ much power when _____ as bright?
 _____ to drain power _____ screens.
 _____ you _____ me why games use up _____ battery _____?

When the brightness is _____ down, _____ power.

Why do _____ games _____ abundant juice _____ dim _____?
 _____ the _____ consumption in games with decreased _____ brightness levels?

Why _____ some _____ too _____ power _____ there _____ low display _____ levels?
 _____ come _____ of battery even with low brightness _____?
 _____ games _____ despite low display brightness _____.

Why do _____ games _____ of battery even on _____?

Even though _____ are lowered _____ displays, _____ contributes to higher _____?
 _____ it _____ games _____ eat up battery _____ screen brightness?
 _____ do _____ games consume _____ power, _____ with _____ display brightness _____?
 _____ understand _____ games _____ excessive power _____ reducing display brightness.

Do you know why _____ drain _____ power _____ display _____?
 _____ games take a _____ power _____ with low _____.
 _____ games _____ power on low _____.

Why _____ so much power when _____ display is _____ bright?
 _____ some _____ up _____ much _____ despite low brightness?

What causes _____ usage _____ game _____ on limited _____ settings?

Is _____ display _____ not effective _____ reducing power _____ specific _____?
 _____ the games drain the battery _____ despite _____ dim _____?

Can _____ explain _____ games _____ too much _____ dimmer _____?
 _____ drain excessive _____ lower display brightness _____.
 _____ low-ass brightness settings, _____ guzzling _____.
 _____ games _____ power _____ low-ass brightness settings is _____.

Why do some _____ too _____ battery on _____?

_____ power despite reducing _____ brightness?

Why _____ certain _____ power _____ others even _____ low display brightness _____?

Why do _____ drain battery even _____ the _____?

_____ more power at lower display levels?

Some _____ drain power _____ dim.

Do you know _____ certain _____ drain _____ despite _____ display _____?

Game _____ dim screens?

_____ for _____ games _____ use up _____ even with reduced _____ brightness?

_____ are power-hungry _____ suck juice _____ when _____ screen is _____.

_____ much power on low brightness, _____ come?

_____ makes certain _____ consume a lot _____ battery _____ low _____ settings?

Why do games drain _____ power _____ brightness _____?

Why _____ high _____ consumption _____ dim screen settings?

_____ certain _____ power like _____ outta style despite lower _____ levels?

_____ are _____ games draining _____ my display _____ low?

Why is these _____ despite the _____ brightness _____?

The games _____ low brightness.

_____ it normal _____ certain _____ to use more battery _____ of _____?

There _____ apps _____ consume power despite diminished _____.

Why do certain games _____ the battery _____ have _____?

_____ do _____ games drain excess _____ when _____ brightness _____ down?

Do games _____ excessive power _____ display _____ is _____?

_____ reduced _____ brightness, I'm curious _____ to why some _____ lot of _____.

Why _____ cause high-energy _____?

Why _____ take a lot of _____ on low _____?

_____ you _____ me _____ certain _____ hog power even _____ they _____ less _____?

_____ some games _____ a lot _____ power _____ my _____ is not _____?

_____ some games _____ when the brightness is _____ down?

_____ certain _____ draining _____ despite _____ screens?

_____ it possible that _____ games consume _____ despite reduced _____?

Is _____ reason for _____ power _____ in _____ despite _____ reduced display _____ levels?

_____ games hog _____ at _____ brightness

What causes high _____ consumption _____ some games _____ is _____?

_____ my _____ dimmed, these power-hungry _____ suck in juice.

_____ drain _____ when the brightness _____ turned _____.

_____ games suck _____ power _____ with low brightness.

Some games suck _____ of power _____ low brightness.

_____ curious _____ to why some _____ of _____ life even with reduced screen _____.

_____ drain power even _____ dim.

_____ a lot of battery, despite low _____

Is _____ use _____ power even without reduced _____ brightness?

Why _____ games drain _____ the screen _____ as _____?

Why _____ games _____ high energy consumption _____ dim _____?

I _____ what's _____ these power-hungry games that still _____ juice even _____ my screen _____

_____ low- brightness _____ high-energy usage?

I'm _____ to _____ some _____ more _____ life than others, _____ less _____ brightness.

Why do _____ too _____ battery _____ the screen _____ dim?

Despite low-ass brightness _____ these _____.

_____ display brightness _____ there a reason _____ the high _____ in _____ games?

Some ____ suck ____ lot of ____ even if ____ brightness.

Is there ____ reason certain ____ despite reduced ____?

Is ____ games ____ eat up ____ even with ____ screen brightness?

Why ____ use a ____ of power ____ brightness settings?

What is ____ energy- ____ gaming ____ dim screens?

Is it ____ some ____ game ____ need extra ____ despite ____ intensity?

Do ____ why certain games ____ power ____ the low ____ brightness ____?

Did you ____ why certain games ____ to ____ life despite the ____?

Is ____ reason why ____ games ____ despite ____ display brightness?

Did ____ know ____ certain ____ keep ____ battery ____ display's brightness is lowered?

Some ____ drain ____ lot of battery ____ on ____?

I am curious about ____ of ____ life ____ with reduced screen ____.

I'm curious why ____ use ____ lot of ____ with ____ screen ____.

Canlow ____ brightness ____ high ____ power ____?

____ are ____ power, despite ____ settings.

____ games ____ excessive power despite ____ display brightness ____?

Do ____ why ____ games continue to consume battery life despite ____?

Can you ____ games use ____ battery ____ screens?

____ specific ____ software ____ inordinate ____ of power ____ displayed softly.

There are ____ use lots of battery ____.

Does ____ game ____ much power ____ reduced display brightness?

Even with ____ some ____ up ____ of power.

There is a ____ regarding ____ usage ____.

____ do games ____ screens ____ so much ____?

When the ____ down, ____ games ____ take ____ too much ____.

____ do some ____ drain ____ power ____ there ____ less ____ brightness?

____ games ____ lot ____ power, ____ at pathetic ____ settings.

____ games ____ consume power even ____ they have less ____.

Why does a ____ at low brightness ____?

____ are some games that ____ much ____ brightness.

____ know why some ____ power ____ reducing display ____?

____ come specific ____ use ____ too ____ battery ____ screens?

____ a ____ about ____ causes ____ in low-brightness games.

There ____ that hog energy ____ screen brightness.

How ____ guzzling power ____ low-ass ____ settings?

Do ____ know why ____ games ____ low brightness?

Even ____ dimmer screens, ____.

____ do ____ take ____ so much ____ when it's ____ very ____?

I ____ games consume a ____ even ____ reduced screen brightness.

____ come ____ crummy game ____ drain ____ precious energy no ____ how ____ screen ____?

____ games consume ____ much battery ____ on ____ screen ____.

____ drain power ____ are dimmer?

Why ____ use ____ so much ____ low-brightness settings?

Hey, why do some ____ lot ____ batteries ____ brightness?

____ curious ____ some games ____ a ____ battery ____ even with less ____ brightness.

Why do certain ____ consume ____ much power ____ levels?

Are ____ able to explain ____ certain ____ hog ____ it's ____ outta style despite ____?

____ a reason for high ____ consumption ____ certain ____ even ____ display ____ levels?

____ are some games draining ____ much power ____ isn't ____?

Do games ____ energy despite ____ screen ____?

Do ____ know why ____ despite low ____ brightness levels?
____ reason some games drain excessive ____ even ____ they ____ display ____?
____ low-brightness ____ that have ____ usage.
____ is ____ few gaming software ____ powerful ____ softly?
There ____ that ____ even ____ low brightness.
____ some games ____ much energy despite ____ reduced ____?
____ games consume ____ much ____ even with ____ levels?
Some games have excessive ____ with ____ levels.
Even with decreased display ____ levels, is ____ reason for ____ some ____?
Why ____ using ____ power at ____ brightness levels?
Why ____ dim ____ energy intensive?
The ____ usage in ____ games is ____.
____ a ____ specific gaming ____ draws an ____ amount ____ power.
____ it true that some ____ reduced display brightness?
____ do these ____ use up ____ at low-brightness settings?
How come ____ games ____ power despite the ____?
____ the display ____ can ____ applications ____ too ____ power?
____ to know why ____ games ____ a ____ of battery ____ even with ____
Is it true that ____ drain ____ much ____ even when ____?
Why ____ using up ____ much ____ even ____ low brightness ____?
There ____ reason specific ____ drain ____ lower display ____ levels.
Why ____ up ____ much power, ____ with ____ brightness?
____ suck up a ____ of ____ low brightness.
____ do certain games ____ outta style ____ reduced brightness?
____ possible that ____ game ____ electricity ____ less screen lighting intensity?
I'm curious ____ to why some games consume ____ of battery ____ when ____.
Why are ____ consuming ____ levels?
____ reason for ____ draining power ____ lower display ____?
Why ____ some ____ take up tons of ____ low ____?
____ the brightness ____ down, some games ____ use ____.
____ games ____ up ____ of power ____ with ____ brightness.
Do some games ____ even when the ____ reduced?
____ as ____ why some games ____ a lot ____ life even ____ screen ____.
____ there ____ certain ____ despite the reduced ____ glow?
Why ____ consuming ____ power at reduced brightness ____?
____ drain power even ____ dim.
There ____ games that ____ excessive power ____ levels.
____ it ____ that these ____ drain so ____ even ____ the screen?
____ some ____ drain ____ even though display brightness is ____?
There are ____ gaming apps ____ to ____ despite diminished ____.
____ about these games ____ power ____ low-ass ____?
Do ____ use too ____ power, even ____ display?
____ specific games use ____ energy despite the ____ screen ____?
Why ____ games guzzling power despite ____ low-ass ____?
____ come these ____ give guzzling ____ brightness settings?
The games ____ excessive ____ low ____ brightness levels.
____ shown softly, ____ few ____ gaming software draws an ____ power.
These games ____ a ____ power even ____ pathetic ____.
Some games drain power ____ display ____.
____ are some ____ draining power ____ they have ____ display ____?

____ is the ____ for the ____ excessive power ____ brightness ____?
 ____ games use ____ a ____ of ____ even ____ low ____ settings.
 There's ____ lot ____ in ____ games ____ low-ass brightness ____.
 Do lowered ____ luminosity gaming apps ____ electricity ____?
 ____ power despite the reduced display brightness?
 Certain games ____ an excessive amount ____ on ____ settings
 Some games ____ excessive ____ even without ____.
 Why ____ the games ____ when ____ brightness is low?
 Is there ____ reason for ____ in games ____ have ____ display ____?
 Some games ____ power ____ less display ____.
 When the ____ is ____ down, some games ____.
 Why are ____ enormous ____ despite ____ screen ____ dimmer?
 ____ still ____ excessive power even ____ reduced ____ brightness?
 ____ games ____ even ____ lower ____ levels.
 Why ____ some games ____ up a ____ with ____ brightness?
 Why ____ games drain ____ though the display ____ reduced?
 ____ games ____ power despite ____ display brightness levels?
 Why does ____ screen ____ drain the battery ____?
 When ____ is dim, ____ the ____ apps use ____ much ____?
 ____ display dims, can game ____ use ____ much ____?
 Do you ____ why certain games ____ despite ____ low ____ brightness ____?
 Can ____ explain high game ____ usage?
 ____ the display's ____ game ____ use ____ power?
 ____ know ____ some ____ consume a lot of battery life, ____ brightness.
 Why is a ____ specific ____ software ____ displayed softly?
 ____ low-ass ____ settings, ____ guzzling power?
 Why do ____ games ____ so much energy ____?
 There ____ apps that consume power even ____ they ____.
 ____ are some ____ excessive ____ at ____ display levels?
 If the ____ dim, ____ do games ____ much ____?
 Why ____ games ____ more ____ low screen brightness?
 ____ low-ass brightness settings, ____ games ____?
 ____ is turned ____ how come some games ____?
 I ____ help but ____ going on with ____ power-hungry ____ that ____ even ____ screen is
 Do ____ why ____ use too much battery ____ screens?
 ____ are some games ____ lower ____?
 Is it ____ use too much ____ even with ____?
 The ____ display brightness ____ hungry ____.
 ____ there ____ reason certain games ____ power like ____ going ____ despite ____?
 Do you ____ games drain power ____ levels?
 ____ low-ass ____ settings, these ____ guzzling power.
 ____ games ____ up ____ of ____ with ____ brightness, why?
 Is it possible ____ drain ____ power ____ brightness levels?
 ____ can waste power even ____ the ____.
 Isn't it strange ____ even ____ low brightness?
 Some games are draining a ____ my ____ brightness is ____.
 Do games ____ despite the ____ brightness?
 ____ low ____ games use a lot of ____.
 Why do certain ____ use high ____ on ____?
 The games have ____ even ____ have ____ settings.

The ____ are guzzling power ____ settings
 There are ____ that ____ even ____ my screen is ____.
 Why are ____ consuming more ____ others at reduced ____?
 ____ it possible that ____ consume ____ power ____ with low display ____?
 There are games ____ use ____ display brightness.
 How ____ games ____ excessive battery ____?
 ____ certain ____ to ____ of battery ____ on low screen brightness?
 Is it normal for certain ____ to ____ screen ____ reduced?
 Is low ____ able to ____ game ____ usage?
 ____ there excessive power ____ games ____ with reduced ____?
 ____ curious ____ to why ____ games ____ lot ____ despite having ____ screen brightness.
 ____ you ____ me why certain ____ excessive battery ____ screens?
 Why do ____ drain power despite ____?
 Why ____ some ____ draining so ____ when ____ display ____ low?
 Do games ____ too ____ with ____ display brightness?
 ____ decreased ____ brightness levels, is there ____ the high ____ consumption?
 ____ you explain ____ games to hog power ____ brightness ____?
 ____ come some games use ____ of ____ despite ____ settings?
 Some ____ have too ____ power usage ____ low ____.
 ____ it normal for games ____ up ____ battery ____ the ____ is ____ as ____?
 Is ____ for some games to ____ battery even when the ____?
 Some games ____ excessive ____ reduced ____.
 How ____ use so ____ power ____ brightness?
 ____ games ____ up a ____ of ____ even if ____ low ____.
 ____ games with ____ screens ____ energy- ____?
 ____ do ____ drain ____ despite ____ display brightness?
 There ____ games that ____ the ____ screen brightness.
 Which ____ up excessive ____ dimmer ____?
 Why do some games ____ despite ____ settings?
 Why ____ the game drain the ____ fast ____ dim?
 ____ use excessive energy ____ a ____ glow.
 There ____ that ____ battery even on low ____.
 ____ have excessive ____ usage, even ____ low ____.
 ____ there a ____ for the ____ consumption ____ games ____ display brightness is ____?
 ____ do some games ____ so ____ power ____ display is ____?
 ____ there ____ reason why ____ use excessive ____ on ____?
 When ____ is low, ____ some ____ a lot of power?
 ____ the reason ____ games ____ power at ____ display ____?
 Is it normal for ____ up their ____ when ____ is not ____ bright?
 Some ____ use more ____ the ____ turned down.
 ____ certain games ____ battery on dimmer ____?
 ____ possible that some games ____ drain ____ the ____ is ____ down?
 ____ the ____ high-energy ____ in low-brightness ____?
 ____ give me an ____ why certain games ____ despite ____ brightness ____?
 Can ____ power-hungry games?
 Is there ____ reason ____ high ____ in ____ that have lower display ____?
 Is ____ display ____ power-hungry games?
 There's ____ with ____ battery ____ despite the screen being ____.
 The ____ suck up ____ of power ____ with ____.
 Is ____ that ____ power because of reduced ____ brightness?

____ it ____ some ____ drain ____ lot of ____ on ____ brightness?
 ____ is the ____ consuming a lot of ____ even ____ low ____ brightness ____?
 ____ you know that ____ games hog power ____ reduced brightness levels?
 ____ do ____ games consume ____ with low ____ brightness?
 ____ the ____ energy intensive gaming with ____ screens?
 ____ games consume ____ even with low ____ brightness ____.
 How come some ____ drain ____ lot ____ battery ____ on ____?
 Is there ____ reason ____ hog power like ____ are going ____ despite ____?
 Is it possible ____ video ____ applications require extra electricity ____ low ____?
 ____ it normal for certain ____ to eat ____ battery ____ dimmer?
 Is ____ normal ____ to ____ up battery even ____ screen ____ less bright?
 When ____ brightness ____ some games ____ drain ____.
 I'm ____ why some games use ____ a ____ of ____ life, ____ reduced screen ____.
 ____ does ____ few specific gaming software ____ a huge amount ____?
 ____ to why some games ____ lot ____ life even with ____ lower ____ brightness.
 ____ take up ____ power when they are low in ____?
 Do ____ why ____ keep ____ battery life even ____ display's brightness ____ lowered?
 Is ____ normal for ____ up ____ even ____ reduced screen brightness?
 What ____ to ____ usage during ____ regardless ____ displays?
 Games ____ despite dimmer ____.
 I'm curious as to ____ games ____ a lot ____ battery life even ____ reduced.
 I'm curious as to ____ consume ____ of ____ time even ____ brightness.
 There are ____ have ____ of ____ at low ____ brightness.
 What causes certain ____ a lot ____ despite ____ screen ____?
 ____ games draining ____ than others ____ the reduced ____ brightness?
 ____ battery fast despite having ____ screens.
 ____ is the ____ games draining power ____ lower ____?
 ____ games ____ a lot of power ____ dim ____.
 How come some ____ energy ____ how ____ the screen is?
