

[Demo] NLP Dataset for Customer Service Automation

Company Type	Auto Repair and Maintenance Shops
Inquiry Category	Unusual vibrations while driving
Inquiry Sub-Category	Suspension problems
Description	Customers seek assistance regarding vibrations caused by faulty shocks, struts, or worn-out suspension components leading to an uncomfortable driving experience.
Data Size	7,322 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Auto Repair and Maintenance Shop" customer inquiry. (Purchased data will not be masked.)

Experiencing rough _____ be causing _____ vibrations while driving.

_____ drive is _____ may be _____ shocks/struts.

Some _____ be _____ blame for having a turbulent _____.

_____ suspension components that _____ you?

_____ vehicle's _____ due to faulty shocks.

_____ the recent _____ drive is caused by _____ shocks or _____?

Did _____ an _____ drive _____ to faulty _____ or struts?

_____ ride, may _____ due _____ faulty _____.

The rough _____ caused _____ shocks/struts.

_____ that _____ to blame for a bumpy ride.

_____ a _____ could _____ caused _____ shocks or struts.

_____ driving _____ of faulty shocks or _____?

_____ related to faulty shocks.

The _____ your ride _____ due _____ faulty shocks.

Is the _____ to my _____ absorbers _____ struts?

Is _____ failing suspension components _____ your _____?

Dodgy shocks _____ car _____?

_____ be _____ experience with bad shocks and struts.

_____ vehicle can lead _____ weird vibrations.

Could _____ be that _____ shocks _____ your _____ are _____?

Experiencing a rough ride, _____ be _____ faulty shocks _____.

_____ turbulent _____ experience _____ defects in suspension parts?

Your car's rough _____ could _____ symptom _____ shocks.

_____ it because _____ bad _____ that _____ is _____ so _____ lately?

Was _____ ride _____ defective shocks?

It's _____ the vehicle is _____ to _____ shocks.

_____ was bumpy _____ shocks were _____.

Are _____ jittery on the _____ a _____ system flaw?

_____ you feeling jittery _____ to _____ potential _____ in your _____ system?

_____ the ride _____ shocks to _____?

The jerkiness in your _____ may _____ to _____.

_____ it _____ that faulty shocks _____ an irregular _____?

Experiencing a _____ due to _____ shocks _____ struts.

_____ you _____ time riding _____ the bad suspension components?

Maybe faulty shocks _____ struts are _____ blame _____ drive _____?

There's _____ chance bad _____ to _____.

Have _____ the road due to flaws _____ suspension _____?

Did the shocks _____ your _____ a _____?

Is it _____ bad suspension _____ to _____ I hit _____?

Is _____ experience _____ drive due to _____ shocks or _____?

_____ malfunctioning _____ the rough ride?

Bad _____ parts _____ what is causing uddering _____.

The ride may _____ or the _____ may _____ caused _____.

_____ that the ride is not _____ of _____ struts.

_____ it failing _____ that _____ you jittery?

_____ on the _____ can _____ weird sensations.

_____ suspension parts _____ involved.

Poor _____ the cause _____ a _____ ride.

_____ vehicle's _____ ride _____ point _____ shocks or struts.

_____ was _____ that _____ unusual vibes _____ due _____ faulty struts/shocks.

I _____ road if my shocks _____ faulty.

_____ journey _____ malfunction _____ shocks?

The _____ components _____ failing.

_____ be due to _____.

_____ defective suspension parts _____ to blame _____ ride _____?

_____ vibrating because of faulty shocks or _____.

_____ by _____ shocks _____ rough ride?

_____ felt _____ could be affected by the _____.

_____ shocks may _____ blame.

The _____ bad if _____ have _____ shocks.

Is _____ failing?

_____ worn out shocks _____ a _____ ride.

Are you _____ on _____ road _____ to _____ flaws?

_____ rough _____ strange _____ be the result of faulty _____ absorbers.

_____ ride may _____ been _____ or _____ could _____ been _____.

_____ due to faulty shocks?

_____ ever experienced an _____ drive _____ faulty _____ or struts?

If _____ a _____ you may _____ shocks.

_____ a result of faulty shocks _____ struts.

_____ it _____ that _____ shocks or _____ are _____ vehicular tremors?

Unsettling journey _____ malfunctioning _____!

_____ shocks _____ the _____ can _____ weird sensations _____ driving.

Unsettling _____ malfunctioning _____ and struts

Is _____ experience _____ irregular _____ to faulty shocks _____ struts?

It's possible that the ride _____ of _____.

_____ could _____ car to be _____.

It _____ possible _____ your _____ jerkiness because _____ faulty _____.

_____ be that the _____ on _____ car are _____.

Did you experience an wobbly _____ faulty _____?

It felt _____ rides _____ be _____ the malfunctioning _____.

Is _____ possible _____ a _____ notsettling _____ malfunctioning shocks?

_____ shocks are causing _____ problem.

_____ rough _____ could be _____ faulty shocks _____.

_____ possible that _____ shocks cause _____.

Defective _____ blamed _____ with a _____ ride.

_____ possible that _____ shocks _____ the _____ may _____ faulty.

Is the jerkiness _____ your _____ shocks?

_____ journey is _____ malfunctioning shocks _____.

_____ could be a _____ shock _____ a _____.

Did _____ shocks _____ your _____ vibrate?

_____ if the _____ bumpy _____ shocks _____ to blame?

_____ possible that _____ turbulent _____ is due to _____ parts?

_____ for the bumpy ride?

Is it _____ that _____ parts?

Unusual _____ be _____ of faulty struts/shocks?

_____ a rough _____ be _____ faulty shocks.

Is your _____ jerky _____ to _____?

_____ a rough _____ because of _____ shocks.

Are you feeling shaky on the _____ flaws _____ system?

_____ be to blame for _____ while driving.

Did you experience a bumpy _____ the _____?

It _____ possible that _____ shocks _____ rough _____.

_____ could be a problem with the _____ on _____.

_____ possible that faulty shocks are making _____?

_____ ride may _____ down _____ faulty _____.

_____ the vibrations _____ my _____ faulty shocks _____ struts?

Is _____ possible _____ the turbulent _____ experience _____ faulty _____ parts?

_____ the _____ so _____ due _____ faulty shocks?

_____ is _____ by malfunctioning _____ orstruts.

Do _____ the road due _____ the suspension system?

Is the _____ of _____ shocks _____ struts?

_____ the _____ of the _____ or struts?

_____ bumpy ride _____ caused _____ out shocks?

_____ it _____ faulty _____ are making _____ a rough _____?

Do you _____ the road due to _____ in _____ system?

_____ suspension components are failing.

_____ bumpy _____ be _____ result of malfunctioning shocks or _____.

_____ might _____ because of faulty shocks _____.

_____ ride _____ be _____ to _____ shock _____ or worn _____ struts.

Is it possible _____ struts _____ my _____ are malfunctioning?

_____ the _____ car make you _____ bumpy?

_____ possible _____ your suspension _____ are _____.

The jerkiness in _____ might be _____ orstruts.

_____ faulty shocks or _____ cause a _____ ride.

There is a feeling _____ impacting _____ to _____ Strut/Shock.

_____ driving experience _____ of bad shocks/struts.

_____ possible _____ your car _____ because of faulty _____?

Is _____ result of faulty _____?

Is _____ that the recent _____ drive _____ is _____ to _____ suspension _____?

It's possible that the _____ in _____ is _____ faulty _____.

Is _____ ride due _____ faulty _____?

_____ journey _____ malfunctioning shocks?

_____ that _____ rough ride is due _____ faulty _____.

Is _____ possible that _____ are causing _____ weird noises _____?

_____ bad _____ parts?

Some _____ may be _____ for the _____ ride _____.

_____ it _____ you _____ the _____ due to _____ suspension system?

There _____ worn-out _____ that _____ blame for the _____ ride.

_____ be that your _____ due _____ faulty shocks?

_____ you recently experienced an _____ due _____ shocks?

_____ it failing _____ components that _____?

_____ you _____ bad _____ driving?

Did you experience _____ ride _____ of _____ suspension _____?

faulty shocks _____ struts _____ be to _____ your _____ rough _____.

Is _____ a chance _____ terrible _____ blame _____ my shaking?

Defective _____ might be _____ blame for _____ drivetrain _____.

_____ a _____ ride, _____ be _____ faulty _____ or struts.

_____ experience a rough ride due _____ parts?

_____ it _____ that _____ drive experience is _____ of malfunctioning _____ parts?

Unsettling journey _____ shocks/struts

Do _____ on your car _____ to _____ a _____ ride?

Did _____ faulty shocks or struts _____ make _____ journey?

Is _____ possible _____ shocks are malfunctioning, _____ these _____ noises _____ my _____?

_____ the suspension _____ are failing?

Maybe _____ was _____ or maybe it _____.

_____ in your ride might _____ faulty shocks.

There's _____ rides _____ be _____ to the malfunctioning _____.

Is it _____ that _____ is _____ to _____?

_____ shocks that make _____ a rough journey.

Is _____ possible _____ a _____ when I hit bumps?

_____ components that are making your journey _____?

Is a rough drive due _____?

Driving is _____ so _____ to _____ shocks?

Driving with weird _____ ride.

_____ an erratic _____ recently _____ to faulty shocks and _____?

_____ the car vibrations caused _____ faulty _____?

Is _____ normal for _____ car _____ shake while _____ is that _____ indication _____ with _____ shocks/struts?

Bad shocks/struts could _____ a cause of _____.

Is the _____ vibrating _____ of _____ or _____ struts?

_____ can be a _____ driving _____.

Your _____ rough ride may be _____ faulty _____.

_____ an unsafe drive due _____ or struts?

Are the _____ causing _____ ride?

There _____ a _____ of _____ rides that may _____ been linked _____.

If _____ unpleasant ride, it could _____ because _____ shocks.

_____ know _____ faulty _____ can _____ strange _____ while driving?

The _____ may _____ caused _____ shocks _____.

_____ rough ride _____ be _____ result _____ bad _____.

_____ is _____ that faulty _____ or _____ can cause _____ rough _____.

The _____ ride _____ be _____ to _____.

The _____ ride _____ be _____ symptom _____ faulty _____ or struts.

_____ possible _____ the turbulence _____ due to _____ shocks?

Can it _____ parts?

Is _____ turbulent _____ is _____ result of faulty suspension parts?

_____ may be related to _____ shocks.

Maybe _____ components.

Could _____ shocks cause _____ that's _____?

Driving isn't as _____ to possible _____.

Strange _____ because _____ malfunctioning _____.

_____ journey _____ caused by malfunctioning _____.

_____ it's faulty shocks _____ that are _____ drive?

There _____ be _____ causing _____ rough _____.

Experiencing _____ bumpy _____ be _____ to faulty shocks _____.

The _____ was notsettling _____ shocks/struts.

Do you _____ your _____ due to faulty suspension _____?

It might _____ problem with _____ or the _____.

Is _____ possible _____ shocks could bring on _____?

_____ is bumpy because of faulty shocks?

It _____ possible _____ is failing _____.

Is _____ the _____ your ride is due _____ shocks?

_____ my ride _____ faulty suspension _____?

_____ rough _____ may be linked _____ shocks.

This _____ be caused _____ shocks _____.

It's possible _____ vehicle's _____ ride _____ due _____ faulty _____ or _____.

_____ it _____ the ride _____ because of bad shocks _____?

A _____ may _____ by faulty _____ orstruts.

_____ ride that _____ unpleasant might _____ by _____ shocks.

Is it _____ the _____ are _____ and _____ my _____ vibrate?

Experiencing _____ bumpy _____ can lead _____.

_____ faulty _____ my car _____ vibrate?

Maybe _____ is _____ by the faulty suspension _____?

_____ defects in the _____ parts?

_____ wonder if _____ rough _____ is due to _____ car's _____ absorbers _____.

Is _____ recent _____ experience is due to defects _____ suspension _____?

It's _____ the _____ ride is _____ faulty shocks.

_____ unusual _____ may _____ been caused _____ faulty struts/shocks?

Is _____ the _____ experience _____ is due to bad _____?

_____ shocks could _____ the _____ a _____ ride.

Unusual _____ are _____ due _____ shocks.

Do you _____ on the road due _____ in _____ system?

_____ possible _____ the _____ ride is caused by _____ shocks _____.

Driving _____ may _____ a rough _____.

Maybe _____ due _____ faulty suspension parts.

Is _____ possible that faulty _____ erratic _____ recently?

Experiencing _____ related to faulty shocks orstruts.

_____ shocks _____ to _____ for the bad _____.

_____ it _____ for a _____ shake when _____ or is _____ of _____ with _____ shocks/struts?

_____ car trips caused by faulty shocks?

____ vibes ____ possibly due ____ shocks?
 ____ possible that the ____ is ____ because of faulty ____ .
 Is ____ possible that ____ is to ____ shaking ____ I ____ bumps?
 ____ might ____ a rough driving ____ bad ____ .
 ____ the ____ on ____ to blame for ____ rough ____ ?
 ____ could be a bumpy ____ out shocks.
 ____ shocks/struts ____ odd vibrations.
 Experiencing ____ drive can be ____ symptom ____ shocks/struts.
 ____ a ____ ride could ____ related ____ shocks.
 There ____ a feeling of ____ be related to the ____ .
 ____ rough ____ may ____ because of faulty ____ struts.
 If your ride is ____ pleasant, it ____ or struts.
 ____ you have ____ rough ____ due ____ faulty suspension ____ ?
 Is your ____ struts ____ for the rough ____ ?
 Your ____ rough ____ could be ____ to ____ or ____ .
 ____ suspension components are ____ .
 ____ shocks could ____ the ____ the ____ ride.
 ____ possible that ____ car ____ of faulty shocks ____ struts?
 ____ you experience a rough ride ____ components?
 faulty ____ or struts ____ blame for ____ bumpy drive.
 ____ I ____ there a chance ____ lousy suspension ____ to ____ ?
 ____ ride was bumpy ____ were ____ .
 It was possible ____ drivetrain vibes were caused ____ .
 ____ rough ride with ____ shocks or struts.
 Are ____ a ____ due ____ a ____ suspension component?
 ____ may be a ____ driving experience ____ to ____ .
 ____ the jerkiness in your ____ is related ____ shocks?
 faulty ____ struts ____ for a ____ .
 ____ might be ____ shocks ____ your ____ .
 If your vehicle's ____ your shocks ____ may be ____ .
 ____ shocks ____ to ____ for ____ bumpy ____ .
 Poor ____ are making my ____ .
 ____ noises on ____ road ____ be indicative ____ shocks.
 ____ it ____ worn-out ____ cause ____ strange ride?
 The ____ may vibrate ____ faulty ____ or ____ .
 Experiencing ____ may be due ____ faulty ____ or ____ .
 The ride ____ shaky ____ faulty ____ .
 ____ or struts can make ____ rough ride ____ .
 ____ the ____ bad suspension parts like ____ and ____ ?
 ____ ride ____ caused ____ bad shocks/struts.
 ____ be a ____ ride due to ____ out ____ struts.
 ____ a ____ ride could be the result ____ or ____ .
 Is it ____ or ____ struts in my ____ are ____ ?
 ____ it be ____ part?
 A rough ____ may ____ linked ____ faulty ____ struts.
 ____ shocks on ____ car ____ cause ____ weird ____ .
 ____ to ____ unusual vibes ____ inconsistently?
 ____ possible ____ are to ____ for the bumpy ride.
 It ____ giving weird shudders.
 Problematic ____ parts ____ ride ____ .

A _____ could _____ caused _____ shocks.

_____ possible _____ faulty shocks/struts on a _____.

Is it _____ the shocks _____ and _____ my _____ to _____?

Experiencing a _____ due _____ faulty _____ or _____?

_____ vibes were _____ due _____ faulty _____?

_____ shocks and struts _____ to _____ for _____ driving experience.

_____ is possible that the ride _____ unpleasant _____.

Could _____ shocks cause a _____ that _____?

It's _____ your _____ is _____ suspension _____?

_____ with worn-out shocks _____ can cause a _____.

_____ are making me feel shakey _____ road.

_____ ride may be caused _____ malfunctioning shocks _____.

_____ that _____ strange noises _____ my vehicle are _____ by faulty _____?

faulty shocks could _____ for _____.

The _____ of _____ might _____ faulty shocks.

_____ shocks _____ blame _____ whacky drive.

Are _____ shocks _____ for _____ being bumpy?

The rough ride _____ due _____ malfunctioning _____ worn-out struts.

Experiencing a _____ could be caused _____ or _____.

_____ rough drive due to _____ shocks or struts?

_____ or _____ a bad journey.

_____ the _____ on your _____ because of faulty _____?

_____ is a _____ impacting rides _____ to _____ of the shock.

_____ your _____ might be related to faulty _____.

_____ could _____ bumpy because of worn-out _____ struts.

Did you experience _____ uneasy _____ lately _____ to _____ shocks _____?

_____ it faulty _____ that are causing that _____?

Bad shocks _____ might _____ cause _____ rough driving _____.

_____ it possible the _____ vehicle _____ malfunctioning?

Bad shocks/struts _____ for a _____ driving experience.

It _____ possible to _____ when _____.

_____ ride was _____ unreliable _____ parts.

_____ be faulty shocks that _____ causing _____ drive.

_____ because _____ suspension parts like shocks and _____?

There _____ a _____ that bad suspension is _____ when _____.

Is the _____ faulty shocks _____ absorbers?

The rough _____ is _____ suspension parts.

_____ the car _____ when _____ due _____ a problem?

_____ it bad _____ driving?

Experiencing rough _____ be caused _____ or struts.

Experiencing _____ is caused by _____ shocks or _____.

Experiencing _____ drive _____ point to _____.

_____ the suspension components failing _____?

Is it _____ that _____ are to blame for _____ rough _____?

Concerns about _____ journey _____ shocks?

Is _____ that _____ turbulent _____ experience _____ be due to faulty _____?

The ride might _____ bad if _____ shocks _____ struts _____.

I might feel shakey _____ of faulty _____.

_____ vibes might be due _____.

_____ the _____ on _____ cause _____ a bumpy ride?

There is a chance _____ in _____ ride is _____ to _____.

 _____ you feel an unpleasant _____ it _____ faulty shocks.
 Unusual vibes _____ been _____ by _____.
 Your vehicle's rough _____ sign that the shocks _____.
 _____ that the _____ are making _____ ride _____.
 The jerkiness _____ ride _____ most _____ due _____ shocks.
 _____ have resulted in odd _____.
 Is _____ failing _____ are vibrating?
 _____ it _____ that _____ is shaking because the shocks _____?
 My _____ is _____ of faulty _____.
 _____ vehicle's rough _____ to faulty _____.
 Sometimes _____ a rough _____.
 faulty _____ make _____ rough trip.
 faulty shocks _____ ride.
 Maybe _____ shocks are making _____ on _____?
 Is there an _____ caused _____ shocks _____?
 Is it possible _____ this _____ to _____ or _____?

Is ____ possible ____ your car is ____ to ____ shock?

Could ____ shocks ____ weird ride?

____ possible faulty ____ or struts can cause ____.

Is ____ car to shake while driving, or is ____ a sign of ____?

Is a ____ due ____ shocks ____ struts?

____ experienced an unpredictable drive due ____ shocks?

Is ____ result of ____ suspension ____ shocks and ____?

The jerkiness in ____ caused by ____ shocks.

____ a ____ ride because of ____ faulty ____ components?

Is ____ fault ____ your ____ that your ____ is ____?

____ experience a ____ of the ____ suspension components?

Bad shocks/struts ____ what ____ rough driving ____.

____ you having a ____ ride due ____ parts?

Maybe faulty shocks make ____.

____ it possible that ____ shocks ____ malfunctioning ____ strange noises ____ vehicle?

Is it ____ that ____ shocks ____ vehicular tremors?

____ it the ____ shocks?

____ are faulty ____ parts that cause my ____.

____ it ____ faulty shocks ____ struts that ____ causing the ____?

Is ____ not so smooth ____ shocks?

Experiencing a rough ride ____ of ____ shocks.

The ride is ____ suspension ____.

The ____ shaky because ____ parts.

The ____ of ____ could be ____ the ____ shock.

____ was ____ the drivetrain vibes were due ____.

____ wonder if ____ vibrations in my ____ faulty shocks or ____.

Is ____ of ____ due to faulty ____?

A rough ____ to worn ____ or struts.

If your vehicle's ____ your shocks ____ malfunctioning.

____ are ____ are the ____ of the ____ your ride.

____ with ____ out shocks ____ a rough ____.

____ shocks might be ____ for ____ drive.

Is it ____ suspension ____ are ____ driving?

A feeling ____ impacting rides could ____ to ____.

Is it possible ____ the ____ turbulent drive experience ____ suspension ____?

It may ____ case that ____ shocks ____.

____ a ____ drive, there may be ____ or struts.

Do ____ cause ____ rides?

Experiencing ____ ride, ____ due ____ shocks or struts?

Are ____ having ____ rough ____ faulty suspension components?

____ urbane turbulence ____ of ____?

____ it possible ____ faulty ____ are ____ cause of ____ strange ____?

____ feeling uneasy on the ____ due to possible ____ in ____?

____ you ____ a ____ ride ____ of ____ in ____ suspension components?

Perhaps ____ rough ride is ____ bad ____?

Driving ____ bad shocks can ____.

____ rough ____ be ____ to faulty shocks.

____ experiencing a ____ ride due to ____ components?

Is it ____ that the recent ____ drive ____ down ____ suspension ____?

____ by ____ while ____ caused ____ questionable ____?

_____ shocks or _____ make for a _____ driving
 _____ it bad _____ are shuddering?
 Is it _____ that the _____ is _____ faulty?
 Experiencing _____ rough ride could be _____ malfunctioning _____ or _____.
 _____ be faulty shocks _____ the _____.
