

[Demo] NLP Dataset for Customer Service Automation

Company Type	Internet Service Providers
Inquiry Category	Wi-Fi network setup and troubleshooting
Inquiry Sub-Category	Router hardware malfunctions
Description	Customers report hardware-related issues such as router not powering on, Wi-Fi LED not lighting up, or physical damage, and need assistance with troubleshooting or replacement.
Data Size	5,619 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Internet Service Provider" customer inquiry. (Purchased data will not be masked.)

Which _____ inside these devices _____ suffer most frequently due _____ water _____?

Which parts _____ to _____ accidents caused by _____ water spills?

_____ internal _____ are most affected by spilled _____?

_____ you _____ which elements of the _____ frequent _____ caused by _____?

Do _____ parts suffer from _____ more _____ others?

Do _____ suffer _____ accidents more often _____ others?

_____ water spills _____ parts of the _____ wrecked?

What _____ the _____ damaged components in _____ of _____?

_____ are most damaged by water spills?

When the water spills _____ parts _____ get _____ the _____?

What _____ most damaged _____ spills?

_____ are _____ by _____ spills?

Which _____ affected _____ most by accidents _____ water _____?

When a water spill _____ in _____ proximity _____ the devices, _____ me the _____ damage?

_____ parts _____ are most _____ to _____ due _____ spills?

_____ are _____ prone to be _____ involving water spills?

Which parts _____ most _____ spills?

_____ devices have _____ component _____ due _____ accidental water spills?

Should _____ about the components _____ to _____ when a _____ spill occurs in _____ to _____?

Water _____ too _____ to _____ things _____ tends to break _____?

_____ parts that are _____ to water _____ spills?

What _____ are _____ most due to _____?

_____ certain _____ from water _____ often?

Which _____ face frequent damages _____?

Which _____ get hurt _____ water _____?

Which _____ parts _____ because _____ water spill _____?

_____ components are _____ by _____ spills?

When _____ spills _____ these devices get wrecked _____ most?

_____ devices _____ higher likelihood _____ component damage _____ accidental water _____?

Which parts _____ damages close _____?

Which parts _____ be negatively _____ by _____?

_____ most prone to suffer _____ spills?

Water spill _____ have _____ experienced _____ device _____.

What _____ have the _____ risk of _____ to _____ water _____?

Which parts _____ frequently _____ water _____?

_____ components _____ most _____ water spills?

What are _____ most _____ devices _____ are vulnerable to _____ spills?

_____ water _____ in close _____ to the _____ you tell me about the _____ most vulnerable _____?

_____ a specific component _____ affected by spilled _____ device?

Can _____ components _____ to damage when a water _____ takes place?

Which parts are _____ frequent _____?

_____ there any specific internal components _____ affected _____ water?

What _____ vulnerable parts of these _____ are _____ frequent _____ spills?

What are _____ that get _____ by _____?

_____ parts _____ be _____ affected _____ spills?

_____ parts _____ more _____ to be affected _____ water _____?

_____ components are _____ by _____ water _____?

Do parts _____ close _____ water _____ suffer more accidents _____?

_____ tend to be _____ most _____ by water _____?

Which parts _____ face frequent _____?

_____ get _____ when there are water _____?

What are the _____ are _____ from water spills?

_____ parts are more _____ to _____ to accidents caused _____ water _____?

_____ involving liquid happen _____ what doofs _____ gadgets _____ up?

_____ kind of internal _____ most _____ of _____ damaged in a _____?

_____ components are most _____ accidents _____ water spills?

_____ parts of the _____ are at risk _____?

_____ components _____ prone to _____ because _____ caused by _____ water spills?

What _____ components that _____ damaged by nearby _____ spillage _____?

Which pieces _____ most _____ H2O _____ occur?

_____ most from accidental wet _____ nearby?

Which _____ are most likely _____ accidents caused _____ water spills?

_____ tell me _____ parts of _____ devices _____ to water _____?

_____ you tell _____ about _____ components _____ vulnerable to _____ a _____ is _____ by?

The components _____ damaged when water _____?

_____ spills _____ can ruin _____ devices.

What _____ devices _____ damaged when the _____ nearby?

_____ the main vulnerable parts _____ these _____ that _____ prone _____ water spills?

_____ main _____ parts of these devices _____ to _____ from _____ spills.

_____ spill _____ with certain _____ components.

_____ components _____ of _____ water spilled?

What _____ of _____ gadgets are more _____ to _____ if _____ is a _____?

_____ it _____ certain elements _____ these devices _____ from close by _____ accidents?

When water spills nearby, _____ parts _____ the _____ ruined _____?

Which _____ are _____ to be _____ by _____?

Which components _____ the _____ likely _____ to water _____?

_____ components _____ by nearby water _____?

Which parts _____ most _____ water _____?

_____ of the device are most _____ damage?

What _____ in these devices that are _____ to _____ damaged _____ water _____?

_____ water _____ nearby _____ parts get _____ most?

When _____ water spill occurs _____ to these _____ on the _____ most vulnerable to damage?

_____ elements in the _____ to _____ damage?

_____ components _____ get damaged _____ water _____?

_____ have water spill accidents?

_____ frequently water spill _____ involving _____ device _____?

_____ are _____ main _____ components of _____ devices _____ are prone _____ water spills?

_____ which parts get _____ most damaged?

What are the _____ components _____?

Which parts _____ by water _____ near my _____?

_____ liquid _____ this device, _____ usually breaks _____?

_____ of _____ are _____ vulnerable to water damage?

When water _____ what _____ get _____ damage?

When the _____ comes _____ spilled water, _____ internal _____ affected?

_____ devices suffer the _____ when there _____?

When water _____ parts of _____ get _____ most?

If _____ near this _____ what most _____?

Specific parts _____ suffer _____ accidents.

_____ quick to _____ when water _____ close to _____?

_____ parts _____ my device are most damaged _____?

Which components _____ most _____ suffer due to _____ spills?

What tend to _____ if _____ splashes _____?

Which _____ tend _____ frequent _____ water?

_____ there's a _____ near, _____ parts _____ more likely to _____ damaged?

Is it _____ likely that _____ elements _____ the _____ from _____ accidents?

When water _____ close _____ components _____?

In case _____ a _____ are _____ damaged components?

Do you _____ elements in _____ tend _____ water accidents?

What _____ these _____ get damaged the _____ when water _____?

_____ are _____ components that are damaged _____ spillage?

_____ comes _____ contact with _____ water, are _____ internal _____ affected?

_____ the components most vulnerable to _____ water spill _____ in close proximity?

_____ spills, _____ parts _____ wrecked the _____?

_____ devices experience frequent issues _____ by _____ in proximity?

When there's water _____ these devices _____ damaged?

What _____ by water spills?

_____ adversely _____ by water spills?

Which components _____ most prone to _____ a _____ spills?

_____ components _____ are more _____ to suffer _____ water _____?

_____ are _____ that are damaged _____ a water spillage _____?

Which parts tend to _____ more _____ by _____?

What devices _____ the greatest chance of _____ of _____?

_____ parts are _____ affected _____ spills?

_____ which _____ to experience issues caused by water accidents?

Which _____ the _____ of component _____ to water spills?

_____ components are the _____ prone _____ due to _____ nearby?

_____ parts _____ water spills?

_____ know _____ parts _____ these devices _____ frequent _____ accidents?

Is _____ more likely for _____ elements _____ suffer _____ closeby _____ accidents?

Which components _____ damaged by _____?

When there _____ a water _____ nearby _____ devices are _____?

Which _____ get damaged _____ spills?

_____ most affected by water _____?

Which components in _____ devices suffer _____ water spills?

_____ work well _____ some water spilled _____ to _____?

_____ components _____ more prone to _____ water spills _____?

_____ nearby my devices _____ parts.

Which _____ to _____ most accidents involving water _____?

_____ parts _____ devices are at _____ of water _____?

Which parts are _____ water _____?

Which _____ inside are most likely _____ accidents caused _____?

What _____ damaged when _____ a _____?

_____ of _____ devices are most susceptible to _____?

_____ inside _____ gadgets _____ more _____ by a spill of water?

_____ components suffer _____ from _____ with _____ spills nearby _____?

Frequently _____ items _____ to _____ liquid?

Which _____ are most _____ due to water _____?

When the water _____ nearby _____ of _____ damaged?

_____ little pieces suffer _____ with _____ wet _____?

_____ will _____ fastest _____ water _____ too _____ to _____ things?

_____ components are commonly _____ by _____?

Do _____ components _____ of water spill accidents?

What components do you think _____ most _____?

_____ internal parts _____ prone to _____?

_____ impacted the most by water spills?

_____ the components _____ damage when there is _____ water spill?

_____ components suffer more often due _____ spills?

_____ parts are _____ spillage-related damage?

Do you know which parts _____ devices tend _____ have _____?

Which _____ most due _____ water _____?

Do _____ parts _____ water _____ more _____?

_____ spills _____ parts of these devices are _____ most?

Which components were _____ with water _____ them?

Can you tell _____ components most _____ to _____ water _____ happens?

Which _____ elements _____ damaged _____ spillages?

Which parts _____ water spills?

_____ parts _____ devices are the most _____ water _____?

What are _____ components _____ are damaged the _____ a _____ spillage _____?

What _____ affected by _____ spills?

_____ suffer _____ most due _____ accidents involving _____ water?

There _____ certain _____ can be affected _____ near a device.

Which internal _____ most vulnerable _____ damage in _____?

_____ damaged by _____ near them?

Can _____ tell _____ elements in _____ tend to experience _____?

What elements of these _____ more prone _____?

_____ are _____ to be damaged by water _____?

There _____ parts _____ devices that are _____ by _____.

_____ components get damaged _____ spills?

Which _____ of these _____ are _____ likely _____ damaged _____ water?
 _____ components were _____ to _____ due _____ water spilled _____ them?

Which _____ parts _____ more _____ water spill _____?
 _____ devices _____ risk of component damage due _____ accidental _____?

Which _____ adversely _____ by _____ spills?
 What _____ high _____ of component damage _____ water spills?

In _____ event _____ spillage _____ what _____ frequently damaged components?
 _____ are most _____ to accidents due _____ water _____?

Is _____ likely for _____ these devices to _____ closeby liquid _____?

Which _____ in _____ gadgets are _____ likely _____ get damaged _____ spill of _____?

Do _____ tend to get _____ when _____ is a _____?

Which _____ most _____ suffer due to water spills _____?
 _____ are components _____ get damaged _____ when _____ is _____.

What _____ of internal _____ more _____ damage in the event _____?

What parts _____ these _____ more prone to _____ water?
 _____ parts _____ hit the hardest _____?

Which _____ are _____ damage from nearby _____ spills?
 _____ accidents usually _____ internal _____ to _____.
 _____ get damaged the _____ when water _____?

_____ are the _____ vulnerable components _____ these devices _____ be damaged _____?
 _____ close, _____ components most damaged?

When water _____ nearby, _____ of these _____ do _____?

There are _____ get _____ the _____ water spills _____.

Which devices have _____ of _____ due _____ accidental water _____?

What _____ have the highest _____ of component _____ accidental _____?
 _____ parts _____ to be affected _____ water _____?

Which parts of _____ devices _____ most _____ damage?
 _____ parts _____ likely to face _____ damages _____ water?
 _____ are _____ water spills?

Which _____ parts _____ by _____ accidents?

Which _____ inside suffer _____ most _____ caused _____ water _____?

Do _____ encounter _____ spill _____?

Which parts get _____?

Which parts tend to be _____.

Which _____ more affected _____ spills?

Which internal _____ tend _____ be _____ water _____ accidents?
 _____ components _____ are vulnerable to _____ from water _____?
 _____ parts that _____ proximity _____ water spills _____ accidents?
 _____ are _____ components _____ are _____ to being _____ nearby water spills?
 _____ there is spilled _____ device, do _____ components become _____?

Water spills nearby and _____ in _____ devices _____ wrecked _____?

When _____ spills _____ ruin _____ most?

Which _____ are _____ the _____ nearby _____ spills?
 _____ parts _____ to get adversely _____ spills?

What devices _____ highest _____ damage because of water _____?
 _____ are certain _____ is a nearby water spill.
 _____ parts _____ are more prone to _____?
 _____ parts _____ gadgets are more _____ to _____ if _____ is _____ spill of _____ nearby?

Is it _____ certain device components _____ accidents?

Water _____ accidents _____ internal _____ to suffer.

_____ components are _____ suffer the most _____ to _____ near _____ ?
 _____ parts often _____ damage?
 What _____ that are prone _____ being _____ nearby water spills?
 When a _____ spill occurs _____ devices, could _____ give _____ advice on _____ most _____ to damage?
 _____ most from water spills?
 Which components _____ water _____ close to them?
 What _____ to happen _____ liquid _____ near this _____ ?
 Can _____ tell me _____ devices are prone to _____ ?
 _____ little _____ to suffer most from _____ encounters _____ ?
 _____ main vulnerable _____ in these devices _____ are _____ from water spills?
 Can you tell _____ about _____ to damage _____ water spill _____ in _____ proximity to these _____ ?
 _____ it _____ that particular _____ these _____ will _____ from _____ liquid accidents?
 _____ there is _____ the device, _____ there specific internal _____ that _____ be _____ ?
 What _____ damaged _____ water _____ near my devices?
 Which parts in the _____ get damaged if _____ is _____ ?
 What _____ of _____ are _____ to damage _____ spillage?
 What parts of these _____ when _____ water _____ ?
 _____ components _____ affected by water _____ ?
 _____ elements of these _____ to have issues _____ water _____ proximity?
 _____ the devices are more vulnerable _____ water _____ ?
 _____ the components _____ vulnerable to _____ when there _____ a _____ ?
 When _____ water spills _____ the devices _____ damaged the _____ ?
 Which parts _____ to _____ ?
 _____ specific components _____ suffer _____ water spills?
 _____ parts _____ to _____ damaged _____ there _____ a spill _____ water close by?
 When water spills _____ damaged?
 Which _____ are most likely to _____ by accidents _____ ?
 Which _____ of these gadgets are _____ damage?
 _____ components in these devices suffer _____ involving _____ ?
 _____ of these _____ are _____ water _____ from spills?
 Which _____ usually face _____ ?
 Which _____ are affected _____ ?
 _____ the case _____ a _____ what are _____ frequently damaged _____ ?
 _____ taking _____ things in _____ down _____ someone spills _____ next _____ them?
 _____ the _____ damage by _____ spills?
 _____ water is _____ what _____ do get _____ most _____ ?
 _____ pieces _____ the most _____ H2O _____ ?
 _____ specific _____ suffer from nearby _____ spills?
 Which _____ are _____ by nearby _____ spills?
 In case of water _____ what are _____ are _____ ?
 Which _____ are _____ by _____ accidents?
 _____ parts of my _____ are _____ by _____ water?
 Which parts do tend to _____ by _____ ?
 _____ components are _____ accidents involving water _____ them?
 _____ nearby what _____ of these devices _____ the most?
 Which _____ to face _____ near _____ water?
 _____ know which _____ are _____ damage when _____ is _____ water spill?
 _____ parts _____ suffer damage _____ spills?
 _____ parts _____ frequent damages _____ the _____ ?
 Which devices _____ most _____ wet _____ ?

What _____ most _____ of these devices that can _____ water spills?
 Which components _____ prone _____ suffer _____ from accidents _____ spills?
 _____ internal elements _____ mostly _____ spills?
 _____ parts _____ most damage near _____?
 _____ more _____ affected by _____ spills?
 _____ suffer _____ water spill accidents?
 _____ damaged because _____ water spillage?
 _____ water _____ nearby, _____ are _____ damaged?
 _____ frequently damaged _____ event _____ a water spillage?
 _____ have the _____ risk of component _____ from _____?
 Do _____ with _____ proximity to _____ suffer more _____?
 Which _____ the most _____ accidents?
 _____ it more _____ elements within _____ devices will suffer _____ closeby _____?
 _____ components are _____ water _____?
 _____ are most _____ to accidents near water spills?
 Which _____ are more prone _____ caused by water _____?
 Water _____ to _____ which components were quick _____.
 _____ spill _____ in close _____ to _____ could you suggest _____ components most susceptible _____ damage?
 Do _____ components _____ hit _____ spills?
 When _____ nearby, _____ these devices are the _____ ruined?
 Which _____ most _____ water spill _____?
 _____ gadgets _____ more likely to _____ damaged _____ a _____ of water?
 When _____ is _____ nearby _____ spillage _____ are the _____ damaged _____?
 _____ these devices _____ to _____ issues _____ to water accidents _____ proximity?
 Which components are _____ by _____?
 _____ case of _____ frequently damaged components are there?
 _____ there _____ a _____ what parts in these _____ damaged?
 _____ a _____ that _____ most damaged when water _____?
 _____ tell _____ of _____ gizmos will go out first _____ they're bathed _____ people nearby?
 _____ devices _____ most likely _____ have damage _____ to _____?
 Which _____ are _____ affected by _____.
 _____ components _____ damaged the _____ spills?
 What _____ damaged by _____?
 When _____ close _____ to these devices, _____ you advise _____ components that are _____ to damage?
 If _____ water _____ in _____ to these devices, could _____ about _____ components most vulnerable to _____?
 When a water _____ occurs _____ proximity _____ these _____ could _____ us _____ most susceptible to damage?
 What often _____ when _____ splashes _____ this _____?
 _____ devices are the _____ accidents?
 _____ are the _____ parts of these _____ to water _____?
 Is it more likely _____ certain _____ these _____ closeby _____ accidents?
 What _____ the most vulnerable _____ of _____ frequent water spills?
 What _____ are more likely _____ damage due _____?
 _____ devices _____ the _____ risk of component _____ to _____ water _____?
 _____ suffer due _____ water spills.
 _____ are the _____ damaged components _____ event of water _____?
 _____ get _____ damaged _____ the water is _____.
 Do parts suffer _____ water _____ others?
 Water spills _____ what parts _____ devices _____?
 What components _____ there _____ a water spillage?
 _____ devices have the highest _____ of component _____ when _____?

_____ components inside _____ to suffering _____ to _____ spills?
 Which _____ get damaged _____?
 Do _____ specific components _____ there's a water _____?
 Which _____ are bad _____ of water _____ them?
 Which elements _____ at _____ risk _____ from water _____?
 _____ pieces _____ the most?
 _____ there's _____ spill, do these _____ damage _____ their parts?
 Can you tell me _____ parts of these _____ to _____ by _____?
 When water is _____ most damage?
 _____ is the _____ component affected _____ water _____?
 What components are most _____ by nearby _____?
 What part _____ these _____ is _____ prone to _____?
 _____ parts _____ harm from water _____?
 Which _____ damages, water near _____?
 _____ parts _____ affected the _____ spills?
 Should I _____ about _____ components _____ susceptible _____ damage _____ spill occurs?
 Is it _____ device _____ often encounter water _____?
 _____ parts are _____ affected by _____?
 _____ spills _____ of these devices are wrecked?
 _____ there are _____ spillage _____ what _____ the _____ damaged _____?
 Which elements are vulnerable _____ spills _____?
 What _____ get _____ when _____ nearby?
 What parts _____ these _____ are more _____ get damaged _____?
 _____ certain elements of these devices more _____ accidents?
 What devices _____ the _____ likelihood of component _____ water _____ by?
 Which elements are _____ to _____ by _____ spills?
 _____ to these _____ what tends _____ break quickest?
 If _____ gets _____ to these _____ to break fastest?
 When water _____ nearby, what parts of _____ the _____?
 _____ are the main _____ are _____ to _____ spills?
 What _____ the parts that are _____ spills?
 _____ suffer _____ most _____ involving spills _____ water nearby?
 _____ internal parts _____ suffer _____ spill accidents?
 _____ is spilled water _____ the device, _____ are _____ affected?
 _____ are close to _____ spills _____ more accidents?
 Which _____ get affected _____ nearby?
 Which _____ are most _____ by _____?
 _____ accidents _____ for certain device components?
 What _____ get _____ damaged _____ is _____?
 Can _____ me about _____ most _____ to damage when _____ water _____?
 _____ parts _____ affected by nearby _____?
 Which components _____ to _____ water _____?
 There's _____ water _____ and _____ these devices are _____?
 _____ are prone to _____ due to _____?
 _____ parts _____ most _____ nearby water _____?
 When _____ water _____ do _____ often suffer damage?
 _____ most prone to _____ because of accidents _____ water _____?
 What components are _____ spills?
 Which components _____ to _____ related _____ water spills?
 _____ parts _____ get damaged _____ spills?

_____ are the _____ in these _____ prone to _____ water spills?
 _____ there _____ that suffer _____ water spills?
 _____ fast to fail with _____ water spilling _____ to _____?
 In _____ a _____ what kind _____ most vulnerable to damage?
 _____ are some _____ prone _____ water damage _____ spills?
 _____ were quick _____ fail with _____ water _____ to them?
 Can _____ about _____ components _____ are _____ susceptible _____ damage when _____ is _____ water spill?
 When _____ spills happen, _____ catch _____ most _____?
 _____ components most _____ nearby water spills?
 When _____ is spilled _____ near _____ device, _____ the _____ the internal _____?
 _____ in _____ more likely _____ by a spill of water?
 _____ tend _____ get _____ near water?
 Tell me _____ suffer the _____ wet _____.
 _____ nearby _____ parts of the _____ get wrecked?
 Which internal _____ suffer _____ to _____?
 The _____ in _____ of nearby water spillage _____.
 Do _____ of _____ devices _____ frequent issues due to water _____?
 _____ components are _____ water _____?
 _____ components _____ often affected _____ spills?
 _____ of the device _____ most _____ for _____ damage?
 _____ nearby, _____ are _____ most damaged?
 Which _____ are most likely to _____ involving _____?
 _____ components _____ to _____ affected _____ water _____?
 _____ are _____ because _____ water spilled close _____ them.
 _____ tell me _____ the _____ most _____ to damage _____ a _____ spill?
 _____ the main vulnerable _____ that can _____ water spills?
 _____ components get damaged the _____ close.
 Can _____ about _____ components most _____ to damage when _____ water spill _____ in _____ to _____?
 _____ most _____ to water spills?
 _____ there components that _____ to _____ water _____?
 _____ are prone _____ spills?
 Which _____ are most prone to _____ a result _____?
 _____ more _____ to _____ because of accidents _____ water spills?
 _____ parts of these devices are _____.
 _____ elements are _____ by nearby _____ spills?
 Is there a _____ that _____ from _____?
 What _____ the _____ most when water spills?
 Some _____ components _____ accidents.
 Which _____ are _____ by water _____?
 When _____ water spill, _____ parts in _____ damaged?
 Which devices _____ higher chance _____ component damage _____ to water _____?
 _____ is water nearby, what _____ get _____ most?
 _____ are _____ by _____ spills?
 What _____ are most _____ when _____ water spill occurs in _____ proximity _____?
 _____ are most _____ spills of _____?
 _____ a water _____ what parts of _____ devices are _____?
 Which components are _____ prone to suffer _____ spills _____?
 Which _____ are more likely to _____ because _____ a spill of _____?
 _____ it _____ that _____ within the _____ close by liquid accidents?
 Which internal parts are _____ vulnerable _____?

____ there is spilled water near ____ internal components ____?
 ____ the ____ damaged when ____ spills happen?
 Which parts suffer ____ damage ____?
 ____ the highest chance of ____ damaged ____ to ____ spills?
 Water ____ nearby ____ damage to parts ____ devices.
 Which part tends ____ be negatively ____?
 ____ components ____ the most ____ by ____ spills ____?
 Can ____ tell me ____ components most vulnerable to ____ a water ____ close ____ to ____?
 ____ internal ____ usually ____ by water spill ____?
 ____ are more likely ____ accidental water spills?
 Which components ____ suffer ____ water spills?
 Which ____ prone to suffer most ____ due ____?
 What ____ the ____ are ____ in a water spillage ____?
 ____ water ____ what ____ the components ____ are most damaged?
 ____ water spills ____ parts of ____ damaged the most?
 What ____ the ____ that are ____ a ____ spillage?
 When ____ of these devices are wrecked the ____?
 ____ part ____ the ____ is prone to ____?
 Which ____ are most ____ of damage ____ water ____?
 ____ most by wet accidents?
 ____ components are hurt the ____ nearby ____?
 Do ____ specific components that ____ to ____?
 Which parts ____ near the ____?
 What parts ____ damaged ____ there ____ spills ____?
 What parts ____ devices ____ risk of ____ damage?
 ____ spills nearby, ____ parts of the ____ get damaged ____?
 What ____ breaks ____ if there ____ liquid ____ this ____?
 ____ happen ____ affected by water ____?
 ____ the highest chance of ____ from accidental water ____?
 What components ____ most ____ water ____?
 What components ____ damaged ____ water ____?
 ____ these gadgets are ____ prone ____ being ____ by a ____ water?
 ____ more ____ to ____ to ____ caused by water spills?
 Which ____ prone ____ water damage when ____?
 ____ devices ____ chance of ____ damage ____ water ____ close by?
 Which component ____ affected by a ____?
 Which components were ____ to fail ____ close to ____?
 ____ possible ____ certain places within these gadgets have more ____ where ____?
 ____ water ____ what ____ of the device are ____ damaged?
 Which ____ are most prone to ____ because ____ nearby ____ spills?
 Is it ____ to ____ on the ____ most vulnerable ____ when ____ is ____ close ____ to ____ devices?
 When there is spilled ____ device, are ____ affected?
 Is ____ component ____ suffers due ____ nearby water spills?
 ____ spill occurs in close proximity to ____ devices, could ____ the ____ susceptible to ____.
 What are ____ main ____ parts ____ these ____ that ____ prone to ____ from ____?
 When ____ water ____ devices generally experience damage?
 ____ components tend ____ the most accidents ____ water ____ nearby ____?
 ____ parts are more likely ____ if ____ is a ____ nearby?
 ____ liquid splashes near ____ what usually ____?
 ____ frequently ____ damage from water ____?

_____ usually _____ if liquid _____ nearby?

What _____ this device _____ prone to _____ damage?

_____ most damaged _____ water _____ close?

What components get _____ the _____ water _____?

Which _____ to _____ with _____ spilled close to _____?

_____ devices _____ more _____ by _____ accidents?

_____ devices are most likely _____ to _____ spills?

_____ are _____ components _____ are _____ most in a _____ spillage _____?

_____ devices _____ prone _____ component _____ due to water _____?

Which _____ are _____ to accidents _____ spills nearby?

_____ are close to accidents with _____ spills _____?

If a water spill happens in _____ proximity to these _____ on _____ most _____?

_____ breaks fastest when _____ close _____ these things?

Which _____ affected by the _____ spills?

Which _____ these _____ the most accidents _____ water spills?

Which _____ are _____ to be _____ water spills?

What _____ the _____ vulnerable components _____ to _____ water spills?

What _____ are _____ by the _____?

Do you think _____ more likely _____ within _____ devices to _____ liquid _____?

Which gadgets are _____ get _____ if _____ a _____ of water?

_____ items _____ most affected by _____?

_____ parts tend to get _____?

_____ components _____ most prone _____ suffer from _____ caused _____ spills?

_____ more _____ to suffer from accidental wet _____ nearby?

What _____ higher risk for component _____ accidental _____ spills?

Is it more _____ that _____ within _____ from closeby _____ issues?

_____ are more likely _____ be _____ impacted _____ water _____?

_____ tell me _____ parts in _____ gizmos _____ working _____ when they're _____ in _____ by _____ nearby?

Is _____ that _____ elements _____ device will suffer from _____ liquid _____?

_____ at higher risk of _____ due to _____ water _____?

_____ devices _____ risk of _____ damage from accidental _____ spills?

_____ case of water _____ the _____ damaged parts?

When _____ water _____ close proximity _____ these _____ could you tell me _____ components most _____ to _____?

_____ damaged by water near _____?

_____ devices _____ damaged _____ most _____ wet _____?

_____ the _____ are frequently _____ when _____ a water spill?

_____ affected by _____ spills?

_____ are vulnerable to frequent _____ spills?

_____ are most prone to _____ accidents _____ by _____ spills?

_____ a water spill, _____ parts _____ devices _____ damaged?

Is there anything you _____ me about _____ most _____ damage _____ a _____ occurs?

_____ water _____ nearby, what parts _____ damaged?

There's water _____ nearby _____ what parts of _____?

_____ are the _____ in these _____ are vulnerable to water _____?

Which devices _____ at _____ greatest _____ due _____ accidental water spills?

_____ you _____ me the _____ susceptible _____ damage _____ water spill?

_____ parts of these _____ are _____ to water _____

Do _____ device _____ face water _____?

_____ suffer due _____ water spills?

Are certain _____ components _____ water _____?

_____ tend to _____ by _____ spills?

Which parts _____ are most _____ water damage?

Which _____ likely to be _____ water _____ by?

Are the _____ most _____ to _____ there _____ a _____ spill in _____ to _____ devices?

_____ it _____ to advise _____ the components most susceptible _____ damage _____ a _____ is close _____ ?

_____ harmed _____ water spills?

_____ water is _____ get _____ damaged?

_____ component are _____ affected _____ water _____?

_____ spills nearby, _____ parts of the _____ are _____ ?

Is _____ more _____ the particular _____ will suffer _____ closeby liquid accidents?

Which components get _____ by _____ water _____?

_____ components are _____ likely _____ by water spills?

_____ there _____ water spill, _____ these _____ experience damage to _____ ?

Which _____ are most _____ to _____ accidents _____ by _____ spills?

_____ parts _____ most _____ by _____ spillage?

When _____ what parts of the devices _____ damaged _____ ?

_____ tends to break first if _____ too _____ things?

_____ internal parts suffer _____ water _____ ?

When _____ water _____ occurs in _____ to _____ devices, could _____ the components that are most _____ ?

Which _____ are most vulnerable _____ damage _____ spills?

_____ parts _____ suffer from accidents _____ by water spills?

Is _____ advise _____ the components _____ vulnerable to _____ there is a _____ near these _____ ?

_____ parts of _____ devices _____ the _____ damaged _____ spills?

_____ parts _____ damaged _____ water spills?

Which _____ more _____ to suffer _____ to accidents _____ by _____ spills?

_____ the _____ vulnerable components _____ devices that can be damaged _____ ?

_____ components are more _____ by _____ ?

_____ you know _____ these _____ tend to _____ water accidents in _____ ?

_____ parts get _____ water _____ ?

Which components _____ likely _____ due _____ water spills?

_____ components are more prone _____ suffer _____ to _____ water _____ ?

_____ certain components that frequently _____ to nearby _____ .

Do you _____ which _____ these _____ are affected _____ accidents?

When the water _____ is _____ what _____ of _____ get _____ ?

Which _____ by water spills?

_____ are most damaged _____ near _____ ?

_____ main components _____ vulnerable to damage _____ water spills?

_____ water _____ of _____ devices are most damaged?

What parts _____ by _____ ?

_____ case _____ incidents, _____ frequently _____ components are there?

_____ certain components _____ suffer due _____ water spills.

_____ more _____ by water spill _____ ?

_____ are _____ that _____ when there's a water _____ ?

_____ suffer the most _____ wet encounters nearby?

_____ likely _____ get damaged by _____ close by?

Which parts _____ the devices suffer the _____ spills?

_____ breaks inside _____ liquid splashes _____ this _____ ?

_____ parts of _____ more prone _____ be damaged by _____ of _____ ?

Is _____ possible _____ tell me the _____ damage when _____ is a _____ ?

_____ are the _____ to water _____ ?

What parts ____ these ____ damaged when there is ____ ____ ?

Which ____ ____ damaged when ____ ____ them?

____ of ____ device are ____ damaged when ____ spills ____ ?

____ are ____ frequently damaged ____ there is a ____ spillage?

Which ____ these devices suffer the ____ to ____ with ____ ?

____ parts are ____ likely to be damaged by ____ ____ ?

Is there frequently ____ certain device ____ ?

Do some internal elements ____ a ____ to ____ damaged ____ ?

____ parts ____ are ____ prone to water damage?

____ are ____ likely to ____ damaged by ____ water ____ ?

Which ____ are ____ to ____ some water ____ close to ____ ?

____ the vulnerable ____ of these devices that ____ to being ____ by ____ ?

Which internal ____ to suffer ____ water ____ ?

____ there a device ____ has ____ of ____ due to accidental water ____ ?

When ____ are ____ devices usually damaged?

____ are ____ components ____ suffer due ____ water spills.

What ____ have ____ damage ____ water ____ ?

Which parts ____ from water ____ ?

____ parts of the ____ to water damage?

____ of ____ devices ____ at ____ for water damage?

Which ____ these ____ likely to ____ a spill of water.

____ parts are ____ by ____ spillage?

____ are ____ by water ____ .

When ____ close, which ____ most damage?

____ components ____ are close to the ____ damaged?

If ____ is a ____ spillage, ____ the ____ that are ____ most?

____ parts tend ____ water ____ ?

There's ____ spill nearby and what parts ____ damaged?

____ are damaged ____ of water ____ ?

____ parts ____ suffer most ____ involving water spills?

____ are ____ damaged components in ____ a ____ spillage?

____ parts ____ more likely to be ____ a spill ____ ?

____ affected ____ nearby water spills?

When there's ____ devices experience damage?

What ____ affected the ____ by ____ water ____ ?

____ water ____ close, what ____ the components ____ get ____ most ____ ?

____ get ____ damaged ____ is close

____ are frequently damaged during ____ ?

____ parts ____ damage from ____ spillage?

____ of these ____ suffer ____ most due ____ spills?

____ components ____ most affected ____ spills?

What component are most ____ ?

What parts ____ by ____ spills?

What ____ in these devices ____ are vulnerable ____ frequent ____ spills?

____ are ____ that are prone ____ being damaged ____ water ____ ?

Can you ____ me ____ of ____ affected by water ____ in close ____ ?

Which components are ____ prone to ____ nearby ____ ?

____ are ____ most ____ damaged ____ there is ____ water spillage?

____ components ____ most ____ by ____ spills?

____ parts ____ my device ____ damaged ____ spills?

_____ are most damaged _____ water _____?

What are _____ are _____ damaged in _____ spills?

_____ the main _____ components _____ are prone to _____ damaged _____ water _____?

_____ that get _____ water _____ close?

What are _____ main vulnerable components in _____ that _____ prone _____ being _____ nearby _____?

_____ more _____ the _____ devices to suffer from _____ liquid accidents?

_____ spills nearby, what parts get _____ the _____?

_____ component _____ a device face water _____?
