

[Demo] NLP Dataset for Customer Service Automation

Company Type	Car Dealerships
Inquiry Category	Fuel efficiency and environmental concerns
Inquiry Sub-Category	Alternative Fuel Options
Description	Customers ask about vehicles that run on alternative fuels like CNG, propane, or hydrogen, inquiring about their availability, fueling infrastructure, cost comparisons, and environmental impact.
Data Size	5,001 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Car Dealership" customer inquiry. (Purchased data will not be masked.)

Which alternative fuel option offers _____ affordability and reduced _____ in _____?

Which _____ the _____ for affordability _____?

_____ fuel has _____ best _____ of affordability and _____ your _____?

_____ fuel _____ pollution levels?

Which _____ can _____ you the greatest _____ of _____ emissions?

_____ has the strongest combination _____ affordability _____ reductions?

_____ both affordable and emission _____?

_____ choice _____ best _____ the combination of _____ and emissions _____ your _____?

Which _____ can _____ best combination of _____ and _____ in _____ vehicle?

_____ cheap _____ cleaner _____ alternative _____?

_____ is _____ alternative _____ that has _____ and reduced _____?

_____ one _____ cars offers better environmental _____ better _____ through its _____ fuels?

_____ option offers the better _____ of affordability _____ reduced _____?

_____ fuels have _____ of affordability _____ emissions _____ your vehicle _____?

Which fuel _____ best _____ of affordability _____ emissions?

_____ alternative _____ reduced emissions without breaking _____?

_____ fuel is _____ for your _____?

Please _____ about the best _____ and emissions.

_____ fuel can _____ you _____ combo _____ affordability and _____ in _____ vehicle?

Is it cheaper _____ use _____ lowers pollution _____?

_____ cars uses unconventional fuels for _____ performance _____ affordability?

What alternative _____ can give _____ best combination _____ affordability _____?

_____ the cheapest _____ alternative _____ for my car?

_____ alternative _____ option gives the best _____ affordability _____ emissions?

_____ the most _____ and clean _____ your lineup?

Is there any car options _____ gas _____?

_____ like to know the _____ preferable fuel _____ for _____ emissions _____ cost-effective _____ of your _____.

_____ me what _____ option is _____ alternative fuels, _____ and emissions.

Do you have any _____ have cheap _____ less _____?

Which one from your _____ better environmental _____ less _____?

I _____ like to _____ most preferable _____ option for the _____ of _____.

_____ cost-effective fuel choice for _____ of _____ and emissions?

What's _____ fuel choice you _____ offer?

_____ the _____ fuel in your lineup?

_____ is the most economical and eco _____?

Looking for _____ cost-effective _____ emissions?

I _____ the _____ among _____ fuels _____ affordability and lower emissions.

Which _____ fuel _____ the _____ emission reductions and cost?

_____ alternative _____ can _____ the best _____ of affordability _____ emissions _____ your _____?

What is _____ eco-friendly _____ for my vehicle?

_____ there an affordable _____ choice _____ also reduces _____?

_____ you able _____ find _____ choice _____ also reduces emissions?

_____ will give you _____ best combo _____ and emissions _____ vehicle lineup?

_____ the best _____ for _____ affordability and emissions?

Which _____ affordable and _____ option in _____ lineup?

I want to know the _____ fuel option _____ emissions, as well as _____ by _____.

Which _____ choice leads _____ the best _____ of _____ emissions?

_____ alternative _____ source would reduce _____ environmental _____ cars?

Which _____ give _____ most cost _____ emission reductions?

Which _____ best _____ choice _____ affordability and emissions in _____ car?

Is there _____ that _____ emission _____ without _____ affordability?

_____ is the _____ fuel _____ both affordability _____.

_____ fuel _____ you cost _____ emission _____?

_____ one _____ has _____ environmental performance _____ affordability through _____ use of _____ fuels?

_____ is _____ cheapest _____ eco-friendly fuel choices you _____?

Is _____ an _____ alternative fuel _____ emissions?

_____ option _____ you _____ or cut _____?

What _____ the cheapest and _____ option available _____?

Are _____ able _____ choose an _____ alternative fuel _____ emissions?

_____ fuel will give you the best _____ costs _____?

_____ tell _____ the _____ alternative fuel is _____ balances affordability _____ emissions _____ in _____ lineup?

_____ of the cheapest or _____ eco-friendly fuel?

_____ has _____ combination of emission _____?

_____ is _____ fuel choice _____ its affordability and _____ emissions?

Which _____ fuel _____ with reduced _____ without _____ the bank?

_____ of your _____ gives you _____ greatest _____ environmental friendly?

_____ is the _____ fuel _____ the affordability and _____ vehicle?

_____ Fuel has the Best _____ of _____ and _____?

_____ there an _____ and _____ fuel choice _____ lineup?

_____ can _____ you the _____ combo of affordability _____ reduced _____?

_____ your cars has better _____ performance _____ affordability thanks _____ its _____ fuels?

Which _____ are _____ for _____ car?

Which _____ fuel can _____?

_____ fuel will _____ you the _____ mix of _____ and _____?

There are _____ that offer _____ and emission reduction.

Which is the best _____ emissions _____?

_____ fuel _____ money or cut emissions _____ your _____?

_____ the _____ in _____ of affordability and emission _____?

What is _____ affordable and _____ fuel _____ your _____?

Is it _____ choose _____ affordable _____ fuel choice _____ will _____?

_____ type of _____ emissions without breaking the _____?

_____ can _____ you _____ best mix _____ and emission reductions?

Which _____ are cheaper and cleaner _____?

_____ you recommend _____ eco-friendly fuel _____?

_____ if _____ fuel _____ offer _____ value while being _____ friendly.

_____ is the _____ fuel _____ for affordability _____?

Which _____ the greatest value while _____ environment _____?

_____ the optimal _____ fuel that _____ affordability and _____ be helpful.

_____ alternative _____ the _____ combination of _____ emission reductions?

_____ has the best combination _____ and reduced _____?

Which _____ the cheapest _____ for the _____?

Which is _____ and _____ eco-friendly _____ you _____?

_____ alternative _____ best combination of _____ emissions for your vehicle?

Which _____ fuels _____ affordable and _____ in emissions?

_____ fuels are _____ and _____ for _____?

Is _____ information _____ optimal alternative _____ affordability and emissions _____ in your _____?

Do _____ have any auto choices with _____ gas _____?

_____ like to know which of _____ fuel _____ the _____ environmental friendly.

Is there _____ about the _____ alternative _____ that _____ emissions reduction _____ your _____?

_____ alternative _____ can _____ best combination of cost _____ reductions?

_____ an _____ fuel that _____ emission _____ without compromising _____?

_____ fuels have the _____ of _____ and _____ emissions?

Which alternative _____ you _____ affordability and emission?

What _____ option _____ most _____ and eco-friendly for _____?

_____ alternative energy _____ would _____ benefits in your _____?

Low costs _____ car _____ are offered _____ alternative _____.

Is _____ auto _____ gas and less pollution?

_____ you found a _____ down on emissions?

_____ is _____ cleanest fuel _____ available?

Does a _____ option _____ you money _____ emissions in _____?

_____ alternative fuels can give you the _____ and _____?

_____ low costs and _____ emissions?

Which _____ you better environmental performance _____ affordability with _____ unconventional fuels?

_____ are affordable and can _____?

Which _____ offers you _____ best combination of _____ and _____?

_____ like _____ most preferable fuel option for lower emissions, balanced _____.

_____ fuel _____ give the best _____ emission reductions?

_____ have _____ choices with cheap gas and _____?

Is _____ any _____ on cheaper and _____ for _____?

I _____ interested in _____ which fuel _____ cost-effective for _____ emissions.

Which _____ can _____ you _____ combination of _____ and reduced _____ your car?

_____ there a _____ alternative fuel _____?

Which _____ will _____ you _____ and _____ reductions?

Is _____ cheap gas and less pollution?

_____ alternatives _____ conventional fuels _____ strike _____ balance between cost-effectiveness _____ emission _____

Which _____ achieve _____ prices _____ emissions?

Which _____ the cheapest _____ clean?

Which _____ lowest emissions _____ breaking the bank?

_____ option _____ the best combination of _____ and reduced _____?

Which type _____ is it that provides _____ emissions _____?

I _____ to _____ the most _____ option _____ emissions, balanced with cost-effective _____ your _____.

Is _____ auto option _____ cheaper _____ and _____ pollution?

_____ there an _____ fuel _____ emission reduction without _____ affordability?

_____ the _____ and most _____ fuel _____?

_____ fuel _____ emissions while _____ affordable prices?

Please _____ what _____ fuel _____ for affordability and emissions.

_____ can give you _____ best combination _____ and _____ in a _____?

_____ fuel will _____ best _____ of affordability _____ emissions in _____ vehicle _____?

_____ cheapest and _____ sustainable fuel _____?

_____ fuel costs _____ reduces _____?

_____ of cost and emission _____ can _____ obtained _____ alternative _____.

What _____ most _____ eco-friendly fuel for my _____?

Which _____ has _____ best combination _____ affordability _____ emissions in your _____?

_____ offers you _____ cost and emission reductions?

_____ offers you the best combination of _____ emissions _____ lineup?

Which is _____ fuel _____ for _____ combination of _____ and _____ vehicle.

Is _____ an affordable _____ that _____ can use _____ reduce _____?

What is _____ fuel _____ the combination of _____ and emissions _____?

_____ know the _____ preferable _____ for lower emissions, balanced with cost-effective features _____ your _____.

What _____ your _____ and eco-friendly _____?

_____ cheap _____ that cuts emissions?

Which _____ and cleanest for _____?

Do _____ recommend _____ fuels _____ vehicles?

Which alternative _____ option provides _____ combination _____ and reduced _____?

_____ fuel gives you the _____ of affordability _____ your car?

_____ gives _____ the best combination _____ affordability _____ emissions from _____?

Which _____ have the least _____ in your vehicle?

_____ alternative _____ gives you _____ best combination _____ emissions reduction?

Which _____ reduce pollution?

_____ alternative _____ choice _____ the _____ combination of _____ and reduced _____?

Which alternatives can _____ you the _____ reduced emissions?

Which fuel is _____?

Is there _____ alternative to _____ fuels that _____ reduction?

_____ alternative _____ will provide you the _____ reduced emissions?

_____ the cheapest option for _____ that will also _____?

What _____ and _____ eco-friendly fuel _____ can find?

Which fuel has _____ reduction?

_____ energy _____ have better economic and _____ benefits?

_____ is _____ best fuel choice for _____ emissions _____ vehicle?

_____ fuel that is budget-friendly _____ eco-friendly?

Which alternative fuel _____ the _____ and _____?

_____ me _____ use _____ alternative fuel that will ensure emission reduction _____ compromising _____?

Which is the _____ fuel _____ on affordability _____?

Which _____ both _____ and clean?

_____ choice _____ the _____ combination of affordability _____ emissions?

_____ fuel _____ give you the _____ combination of _____ emissions _____ your _____?

_____ alternative energy source would _____ the greatest _____?

_____ can _____ fuel _____ costs _____ reduced emissions?

Is _____ choice between cheap _____ in an auto?

Which is the _____ fuel for _____ reduced _____?

_____ alternative _____ will _____ the most _____ and _____ in your _____ lineup?

_____ gives you the _____ combination of _____ emission _____?

What alternative _____ low costs _____ emissions?

_____ alternative _____ have the best combination of _____ and _____ your _____?

What _____ are _____ use and _____ emissions?

_____ suggestions _____ and environmental _____ fuel variation?

Which fuel option _____ and _____?

Which _____ can _____ the greatest _____ of _____ and emissions in _____?

Which _____ give you _____ best _____ of affordability and _____?

_____ you give us _____ the _____ alternative fuel _____ affordability and _____?

_____ fuel _____ you the _____ affordability and emissions _____ vehicle?

_____ type provides the least emissions _____ bank?

What's _____ cheapest _____ eco-friendly _____ you _____?

_____ to _____ most _____ option for lower emissions, _____ cost-effective features _____ by your vehicle.

Is _____ vehicle _____ that is affordable _____ emissions?

I'd _____ know the _____ preferable _____ option _____ balanced with _____ features.

Is _____ strike a balance _____ cost-effectiveness and _____ reductions?

Do _____ options save money _____ in _____ cars?

_____ fuel _____ affordability and _____ reductions _____?

Is _____ cheaper _____ fuel _____ emissions in your _____?

Please tell _____ the _____ alternative _____ affordability and lower _____.

Can _____ about an affordable _____ low emission fuel choice _____?

_____ is _____ and _____ eco _____ fuel you have?

What's _____ and _____ fuel you _____?

Which _____ emissions?

I want to _____ the _____ preferable _____ for _____ cost-effective _____ of your vehicle.

Which _____ fuel can _____ better affordability _____ emissions?

I want _____ know _____ of your fuel alternatives _____ value while _____.

_____ are both _____ cleaner?

Is there _____ emission-friendly _____?

_____ can provide _____ best combination _____ cost and emission _____?

Which _____ energy source _____ more _____ benefits _____ less _____ impact?

Which is _____ best fuel _____ combination _____ and emissions _____ your _____?

What alternative _____ low costs and _____?

_____ gives you the best combination _____ affordability _____ reduced _____?

Which fuel option _____ combination of affordability and _____?

What's _____ most eco-friendly _____ my _____?

Which alternative fuel _____ the best combination of _____ emissions _____?

Can you _____ about _____ optimal _____ will _____ emissions reduction in your lineup?

_____ alternative fuels _____ more _____ and _____?

Which _____ fuel _____ give you _____ best _____ and _____ reductions?

What auto _____ have cheap _____?

Is _____ an alternative _____ that _____ costs and _____?

Which alternative _____ option offers _____ best _____ and _____ reduction?

_____ a _____ alternative fuel choice _____ also _____ emissions?

_____ is the _____ combines affordability and emissions?

_____ affordable and low-emission _____ choice _____ my car?

Which _____ fuel _____ cutting pollution?

_____ works _____ for affordability and _____?

Which fuel can _____ the best combination _____ emissions in _____?

Which _____ fuel option has the _____ affordability and _____?

_____ a choice of _____ choices _____ cheap _____ less pollution?

Are _____ looking _____ a cost _____ fuel _____ reduces _____?

Is there _____ with _____ gas _____ less pollution?

Which is _____ better fuel _____ combination _____ affordability and _____?

_____ one of _____ cars _____ unconventional _____ to _____ better environmental _____?

Please give _____ alternative fuels, considering affordability _____ emissions.

Can you tell _____ about _____ alternative _____ that _____ affordability and _____?

_____ alternative _____ source _____ more economical and _____ the environment?

_____ alternative fuel _____ the _____ combination of _____ emissions?

_____ has the _____ mix _____ affordability and emissions _____?

_____ give you _____ of _____ and emission reductions?

Which _____ source would _____ both economical benefits _____ environmental _____?

_____ fuels is cheaper and _____ my _____?

What is _____ budget-friendly alternative _____ will _____ in your _____?

_____ it _____ an auto with _____ gas and _____ pollution?

_____ seeking a cost-effective _____ that cuts down _____?

_____ there _____ affordable _____ choice for my car?

Please tell _____ what _____ best alternative fuel for _____.

_____ gives _____ the best combination _____ cost _____ emission reductions?

_____ is the cheapest _____ most _____ fuel _____ you _____?

What's the _____ choice for _____ of _____ in your vehicle?

_____ more _____ and _____ fuels available?

_____ fuels _____ the _____ combination _____ affordability and emission _____?

Which type of _____ reduced _____ the bank?

_____ the greatest combination of affordability and _____?

Which fuel can _____ of costs _____ emissions?

_____ is _____ cheapest and most _____?

_____ the best _____ choice _____ to _____ and emissions?

There _____ alternative fuels that _____ balance between _____ reductions.

_____ like to _____ the _____ lower _____ balanced with cost-effective features _____ by your vehicles.

There _____ some _____ to _____ fuels that offer _____ between _____ and _____.

What is _____ most _____ for alternative _____ emissions?

What _____ cheapest and cleanest _____?

What's _____ cheapest and eco-friendly _____ option _____?

_____ fuel lowers _____ emissions _____ affordable _____?

Please _____ me _____ the _____ alternative _____ to _____ affordability and emissions.

_____ fuel _____ cheapest _____ cleanest for _____ car _____?

I _____ your _____ on _____ best alternative _____ and _____ emissions.

Do _____ recommend low _____ vehicles?

Which one _____ your _____ offers better environmental _____ and _____ fuels?

Which _____ the _____ of affordability _____ emission reductions?

Which _____ have _____ affordability and _____?

What fuels _____ the _____ of _____ and _____ emissions?

I want _____ most preferable fuel option _____ lower emissions, _____ cost-effective features _____.

Which alternative fuel _____ has _____ best combination _____ reduction?

_____ would like to _____ which _____ the greatest _____ being environmental _____.

_____ gives _____ the _____ of _____ and emission reductions.

_____ fuels _____ more _____ and _____ harmful?

_____ is _____ fuel _____ affordability and emissions?

How _____ car emissions are _____ by _____ fuel?

Which type _____ provides the _____ without breaking _____?

What is the _____ low costs and _____?

_____ like to _____ fuel option for lower _____ with _____ features in _____ vehicles.

_____ alternative energy source would _____ the lowest _____ impact _____?

_____ is _____ choice for both affordability and _____?

_____ and clean _____ choice is in your _____.

What fuel is _____ cleanest _____ car?

Is there _____ alternative fuel choice _____ in your _____?

Is there _____ choice _____ combination of affordability and _____?

Which _____ fuel _____ you _____ best _____ affordability and _____ emissions?

_____ for a _____ variation that _____ economical _____.

_____ there any information _____ fuel that _____ balance affordability _____ emissions reduction _____ lineup?

Which _____ type of _____ emissions _____ breaking _____ budget?

Which _____ give _____ the best combination _____ affordability and _____?

Which is _____ fuel _____ the _____ of affordability _____ in _____ car?

_____ is _____ economical and _____ fuel choice that _____?

Which fuel _____ is the _____ clean _____ lineup?

I'm _____ knowing the _____ preferable fuel option _____ lower _____ balanced with cost-effective _____.

Which _____ your _____ alternatives _____ value while _____ environmental friendly?

_____ there an _____ choice that _____ emissions in _____ vehicle?

_____ choice _____ best for both affordability and _____ your _____?

_____ fuel choice is better _____ affordability _____?

_____ alternative fuel has _____ of cost and _____?

_____ affordable and less _____ to the environment?

How _____ fuel provide _____ and reduce _____ emissions?

Which of your cars _____ unconventional fuels _____ and _____?

What _____ have _____ car emissions?

I _____ on _____ alternative fuel for affordability _____ lower emissions.

_____ fuel will lower _____?

Which fuel has _____ emission reductions _____ affordability?

_____ will _____ you _____ best combination of affordability _____ from _____ car?

Which _____ fuel _____ have _____ of cost and _____ reductions?

_____ gives _____ best _____ of both _____ and emission reductions?

_____ wish to know the _____ preferable fuel option for lower _____ your _____.

_____ type _____ fuel provides the _____ emissions _____ budget?

_____ fuels _____ the _____ combination _____ affordability _____ emission reduction?

_____ reduces _____ emissions?

_____ suggestions _____ economical _____ friendly _____ variation?

Is _____ an _____ will _____ emission _____ without compromising affordability _____ your vehicle _____?

Is there _____ auto _____ has both _____ gas and _____?

_____ fuel _____ is _____ for the _____ and _____?

Which _____ of your _____ environmental performance _____ through its _____ of unconventional _____?

_____ fuel _____ give _____ best combination _____ and emission reduction?

What's _____ friendly fuel choice?

What is the _____ cleanest _____ choice in _____.

_____ fuel offers _____ emissions _____ the bank?

_____ alternative _____ option provides the _____ of _____ and emission _____?

Which is the best _____ for _____ vehicle _____ and _____?

_____ fuel option has the best _____ of _____ reduced _____?

Which is the _____ and _____ have?

_____ the most affordable _____ choice?

Which _____ fuel _____ reduced _____ the budget?

Which _____ can _____ while _____ emissions?

_____ on an economical and _____ friendly _____?

What _____ most economical _____ fuel _____?

Is there _____ affordable _____ choice that _____ use _____ reduce _____?

_____ choice offers _____ of affordability and emissions?

What is _____ cheapest and most _____ choice _____?

Does _____ and cut _____ in _____?

Which alternative _____ cheaper _____ the car?

_____ are _____ and clean fuel choices _____ your _____?

What _____ cheapest and _____ eco-friendly fuel _____ can _____?

Which _____ the fuel _____ that works _____ affordability _____?

_____ is _____ best _____ fuel _____ you _____?

_____ alternative fuel _____ better for _____ and _____ emissions?

_____ you able _____ find an _____ alternative _____ choice _____ emissions?

_____ vehicle emission?

_____ fuel _____ reducing emissions?

Any _____ with _____ gas _____ pollution?

Which alternative _____ has _____ combination of _____ and emissions _____?

Which _____ to _____ prices and _____?

Which alternative _____ less _____ are _____?

_____ there _____ affordable _____ fuel choice that can _____ reduce _____?

Which alternative _____ the _____ of affordability and _____ in your _____?

What _____ the cheapest _____ eco-friendly _____ have?

_____ a fuel variation that is _____?

_____ fuel _____ better affordability and _____?

_____ affordable _____ choice that _____ emissions?

Which _____ for the _____ and emissions in your _____?

What fuels _____ you think _____?

Is there an alternative _____ costs and _____ car _____?

_____ fuel is _____ emissions?

Wanting to _____ fuel _____ cut down on _____?

Which cheaper and _____ do _____ for _____ car?

_____ in your collection provides better environmental _____ through _____ use _____ fuels?

Is it _____ to find _____ more economical _____?

Which _____ has the _____ of _____ pollution reduction?

I _____ to know the most _____ fuel choice _____ lower _____ with cost-effective features _____.

What auto choices _____ cheap _____ pollution?

_____ fuels _____ emissions and _____?

Which one _____ your car _____ offers better environmental _____ and _____ unconventional _____?

Which fuel can offer _____ the best _____ and _____?

_____ it _____ or cleaner for _____ use alternative _____?

_____ alternative fuel _____ better combination _____ affordability and _____?

_____ for _____ economical _____ friendly _____ variation?

Which _____ the best combination of _____ your vehicle?

_____ car in your _____ has _____ environmental _____ and _____ to _____ of _____ fuels?

What is the best alternative _____ emissions?

Which fuel combines _____ of affordability and _____?

Which _____ the better _____ and emissions reductions?

_____ alternative _____ source _____ deliver both _____ reduced environmental impact?

_____ reduce emissions _____ affordable?

_____ options _____ money and reduce _____ in _____ cars?

I would like _____ if _____ most _____ option _____ lower emissions is _____ by _____.

_____ you looking for a _____ cut _____ on emissions?

_____ fuel alternatives _____ the _____ value while being _____?

_____ alternative _____ of fuel _____ without breaking the bank?

_____ type _____ fuel _____ it that _____ reduced _____ without _____ bank?

Which alternative _____ you _____ affordability and emissions?

What _____ the _____ and most _____ you _____?

_____ be used to lower _____?

_____ fuels _____ affordable _____ reduce emissions?

_____ there an _____ alternative _____ option that reduces _____?

Which _____ energy source _____ have _____ environmental _____ cars?

_____ is the most _____ eco-friendly _____ option _____ car?

_____ one _____ offers the best environmental _____ affordability and _____ unconventional _____?

_____ would like _____ option _____ alternative _____ considering affordability and emissions.

_____ it _____ find _____ more economical and emission-friendly _____?

_____ for a fuel variation _____ and _____ friendly.

There _____ any auto _____ with _____ gas _____ less _____?

Which alternative _____ best _____ of affordability and _____ reduction _____ vehicle?

_____ fuel lowers _____ while achieving _____?

Which fuel produces the _____ affordability _____ reductions?

What _____ are _____ and _____ reducing?

Which _____ best _____ affordability and emission reductions?

_____ any auto _____ that use _____ gas _____ pollution?

_____ alternative energy _____ provide _____ to your vehicle?

What _____ less _____ and less _____ to _____ environment?

Which _____ fuel for the combination _____ emissions.

Is _____ cost _____ that will _____ down on _____?

Is _____ a _____ available?

_____ the best fuel _____ use _____ affordability and _____?

_____ gives reduced emissions without breaking _____ bank?

_____ fuel choice is better _____ affordability _____ vehicle?

Is alternative fuels _____ for _____?

Is there _____ gas and _____ pollution in _____?

_____ choice for affordability and emissions?

Which _____ has the _____ combination _____ affordability _____ emissions?

_____ is the _____ and eco _____ fuel _____ vehicle?

_____ alternative fuel option _____ the _____ combination _____ affordability _____ for your _____?

_____ save _____ money or reduce emissions _____ car?

_____ fuel can _____ affordable _____ while _____?

Which _____ has the _____ combination _____ emissions in _____ vehicle lineup?

_____ auto _____ less _____ and _____ gas?

_____ choices that reduce emissions?

_____ tell _____ an affordable and low-emission _____ choice?

_____ fuels _____ and cleaner?

Which is _____ choice _____ cost _____ emissions?

What's _____ cleanest _____ your car?

_____ alternative energy _____ have both economic and _____?

There are any _____ choices _____ pollution _____ cheaper _____?

_____ one of _____ unconventional _____ better environmental _____ and affordability?

_____ there _____ information on _____ optimal _____ fuel _____ affordability and emissions reduction _____?

Are _____ find _____ cost-effective _____ that will _____ on emissions?

Which _____ has the cheapest _____?

_____ fuel _____ offers the best _____ of _____ and _____ emissions?

Is _____ cost-effective _____ eco-friendly fuel for _____?

_____ alternative _____ will provide _____ best _____ affordability and emissions in _____?

Does there an _____ alternative fuel _____ emissions?

_____ fuel can give _____ cost and emission _____?

_____ your _____ has better _____ performance and _____ through _____ use _____ unconventional _____?

_____ kind of fuel _____ emissions _____ the budget?

Do you know the cheapest _____?

Which fuel _____ get you _____ and _____?

Which _____ the _____ vehicle's affordability and emissions?

_____ are affordable _____ will _____ emissions?

Which fuel _____ best choice _____ of _____ and _____ in _____ vehicle?

_____ will _____ the _____ combination of affordability and _____?

_____ has _____ best combination _____ affordability and emission reduction?

_____ like to _____ preferable fuel option _____ lower emissions, along with _____ by your _____.

Is _____ alternative fuel that will ensure _____ without _____ you?

_____ fuel can give you _____ affordability and emissions _____ vehicle?

_____ most preferable _____ option _____ balanced with cost-effective features of your car.

What is the _____ car options?

Which type of _____ provides the most _____ the _____?

_____ is the _____ fuel _____ affordability and reduced _____?

Which _____ of _____ for reduced emissions?

_____ alternative energy _____ would give _____ economic and _____?

_____ alternative fuel _____ has _____ and reduced emissions?

Which _____ fuel _____ give you _____ best _____ reduced _____?

_____ is the cheapest and _____ eco-friendly _____ can _____?

Which _____ gives _____ combination _____ cost _____ emission reductions?

Which _____ fuel can _____?

Which type _____ gives you the _____ emissions _____ the _____?

_____ alternative energy source _____ economical _____ environmental benefits?

Does anyone have _____ with _____ gas and _____?

Which _____ fuel _____ the _____ cost and emission reductions?

Which alternative _____ provides _____ of _____ and _____ reductions?

Which _____ give you _____ of cost _____ emission reductions?

_____ fuel _____ affordable _____ emissions?

_____ alternative fuel _____ best _____ of affordability and reduced _____?

Which low cost _____ work _____ for my _____?

_____ fuels give _____ reduced car _____?

_____ you trying _____ a _____ effective fuel that _____?

_____ the best _____ for the combo _____ affordability and _____?

_____ fuel _____ is _____ and clean?

Is _____ a _____ cheaper and _____ fuels for _____?

I _____ to know _____ fuel option for lower emissions _____.
 _____ any information on the best _____ fuel _____ affordability _____ reductions?
 Which fuel _____ you _____ combination of _____ reduced emissions?
 Did you _____ alternative _____ balances affordability and emissions ____?
 _____ you _____ an economical and _____ friendly ____?
 _____ looking for an _____ and _____ variation?
 _____ alternative fuel _____ comes _____ the _____ combination _____ and _____ emissions?
 _____ there any car _____ cheap _____ and _____ pollution?
 Looking _____ find _____ fuel _____ will cut _____.
 Are _____ for _____ environment friendly _____ of fuel?
 Which _____ fuel offers _____ best _____ of _____ and _____ emissions from _____?
 _____ one of _____ offers better environmental _____ affordability _____ unconventional ____?
 _____ best fuel choice for your _____ and ____?
 There are _____ conventional fuels _____ have _____ between _____ emission reduction.
 Which _____ of _____ provides reduced emissions _____ bank?
 Looking _____ that _____ economical and sustainable?
 _____ alternative _____ can _____ you the _____ of affordability _____ your vehicle?
