

[Demo] NLP Dataset for Customer Service Automation

Company Type	Investment Firms
Inquiry Category	Sustainable and socially responsible investing
Inquiry Sub-Category	Performance metrics
Description	Customers request information on the metrics used to assess the performance of sustainable and socially responsible investments, such as environmental, social, and governance (ESG) criteria.
Data Size	5,179 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Investment Firm" customer inquiry. (Purchased data will not be masked.)

How do these metrics _____ sustainability goals _____ social inequality?

How _____ fit _____ the _____ of climate change and _____ social _____?

What do these _____ tell _____ the _____ social _____ or climate _____?

_____ aligned to _____ change challenges while also addressing _____ inequalities?

Does these measures _____ combat climate _____?

How _____ the _____ fit _____ of climate change _____ decreasing social _____?

What is the consistency _____ these _____ targets _____ for _____ change _____ disparity?

Are _____ to _____ aims of _____ social _____ and climate _____?

How _____ these _____ other initiatives such _____ meeting climate _____?

_____ the correlation between the _____ the _____ to address both social _____?

_____ the selected metrics compatible with _____ of _____ climate change?

_____ is _____ role _____ in attaining environmental and social _____?

How are _____ metrics _____ goals _____ reducing _____ inequalities?

Would _____ data _____ and _____ goals?

_____ these _____ serve to achieve climate _____?

Do _____ help _____ climate targets or promote equal _____ in a society _____ injustice?

_____ be compatible with _____ change _____?

Can _____ inequality and address _____ change _____ these _____?

_____ helpful in _____ climate change and fighting _____?

_____ the measurement _____ targets and efforts _____ reduce _____?

Does the _____ these measures affect _____ pursuit _____ like battling climate change _____ addressing _____ inequalities?

_____ possible _____ these _____ goals regarding climate change and social _____?

Reducing _____ tackling climate change _____ the sustainable _____.

What do _____ metrics tell us _____ inequality?

_____ do the metrics _____ goals _____ inequality or climate change?

Is the _____ in line with _____ like _____ tackling _____ change?

What _____ the _____ that relate to _____ aims _____ reducing social _____?

_____ are the metrics used _____ climate _____ social disparity?

Is _____ that the _____ metric measures contribute _____ targets _____ promoting equal _____?

Is the _____ in _____ with _____?

_____ these _____ support _____ change targets or _____ social _____?

I _____ if _____ social _____ climate goals.

_____ these indicators fit into climate _____ and _____?

_____ these metrics _____ change and social inequality?

Is _____ possible for these metrics _____ challenges _____ social inequalities?

The _____ they support _____ goals _____ inequality?

_____ consistent _____ targets set for climate _____ or _____ that reduce _____ disparity?

_____ climate change _____ or reduce social inequality.

_____ or _____ climate change, _____ these metrics _____ sustainable goals?

_____ the metrics support _____ targets _____ reduce _____?

_____ chosen _____ consistent with _____ goal _____ fighting _____ narrowing societal gaps?

_____ for these _____ to be _____ tackle _____ change _____ while reducing social _____?

How _____ metrics _____ with _____ objectives _____ change targets?

_____ metrics play in attaining _____ social sustainable aims?

_____ with the climate and equality _____?

Does the _____ align with _____ goals _____ combat _____ change _____?

_____ metrics _____ aligned to tackle climate _____ reduce _____ inequalities?

_____ it _____ that _____ contribute _____ or social aims?

_____ it _____ to climate _____ goals or _____ inequality?

_____ these statistics _____ meet _____ environmental and _____ objectives?

How _____ indicators _____ into _____ goal of _____ change _____ reducing _____ inequalities?

Is _____ climate targets _____ reduction of inequality?

_____ metrics fit _____ the _____ change _____?

Is the _____ indicators _____ with the _____ of fighting climate change _____?

_____ the _____ related to _____ aims of addressing _____ and _____ change?

What role _____ these _____ in _____ environmental and _____?

_____ indicators compatible _____ goals of combatting _____ and _____ societal disparity?

How do the metrics help _____?

Do the _____ metric _____ contribute _____ climate _____ or to _____ opportunities _____ society?

_____ compatible with the objectives of _____ and _____ issues?

_____ the _____ measurement _____ to meeting _____ targets or _____ equal _____ society?

_____ do these metrics _____ us _____ of reducing social _____ climate change _____?

_____ do these _____ relate to initiatives like _____ goals _____ reducing _____?

How _____ metrics support our goals _____ change _____ inequality?

_____ do these _____ meet _____ objectives?

Reducing social inequality _____ change target _____ related _____ goals.

_____ metrics aligned _____ address _____ change challenges _____ social inequalities?

What _____ the _____ metrics _____ contribute to _____ climate _____ or _____ opportunities _____ society?

What is the role of _____ in attaining _____ and _____?

Do _____ correspond _____ targets to combat _____ change?

_____ do _____ outcomes relate _____ issues _____ climate change and closing _____?

How do the metrics support _____ social _____?

Will _____ data _____ with the _____ goals?

How _____ related _____ reduction _____ inequality and climate change _____?

_____ indicators _____ into the _____ climate change and reducing _____.

_____ want to _____ how these _____ about climate _____ and _____ inequality.

How _____ do _____ help achieve _____ change _____?

Is the _____ indicators appropriate _____ fighting climate _____ gaps?

_____ metrics _____ to achieve climate _____ and reduce _____ disparity?

Reducing social _____ metrics related to the _____ goals.

_____ these _____ help _____ climate _____ or _____ social inequality?

How _____ the provided _____ measures in _____ climate _____ equal opportunities in _____ marred by _____?

Do _____ metrics _____ the _____ change _____?

_____ metrics in line with _____ goals _____ change?

Will these _____ contribute to _____ meeting _____ equality objectives?

How do our _____ support _____ in _____ climate _____?

Would _____ data _____ and _____ goals?

In _____ of addressing _____ narrowing _____ social _____ the strategic _____ align _____ objectives?

How are _____ supporting our _____ regarding _____ change _____ inequality?

Do the indicators correlate _____ the aims to _____?

_____ the _____ metrics help _____ meet _____ targets or _____ in societies _____ injustice?

_____ how these _____ support _____ goals regarding _____ change and _____ inequality?

What does these metrics mean _____ the goal _____ reducing _____ climate _____?

_____ the provided metric measurements _____ a _____ or promoting equal _____?

Is _____ the _____ change goals?

The metrics should be _____ climate change _____ reduce _____.

Is it possible _____ climate _____ or addressing _____?

_____ selected _____ in _____ with _____ objectives of climate change _____ inequality _____?

_____ for _____ change and reducing social inequality?

How do _____ our _____ to _____ climate _____ and _____ inequality?

Do you _____ to _____ goals _____ greenhouse _____ emissions and tackling inequality?

_____ with climate and _____ goals?

How _____ these indicators fit _____ change _____ reducing _____?

_____ climate _____ or address inequality?

_____ metrics _____ in helping to _____ climate targets or promote _____?

Is _____ chosen _____ the _____ fighting climate _____ and narrowing societal gaps?

_____ addressing _____ narrowing _____ social _____ do the strategic _____ align with objectives?

_____ the strategic _____ with the _____ for _____ down _____ gaps _____ fighting _____ change?

_____ the metrics _____ with the targets _____ change?

How _____ metrics _____ reduced _____ inequality _____ change targets?

Is _____ change supported by _____ metrics _____?

Does these _____ help _____ or _____?

What _____ outcomes _____ to _____ climate change _____ closing societal _____?

_____ it _____ that _____ metrics _____ with _____ targets for tackling climate _____ promoting social _____?

Is _____ chosen _____ compatible _____ the _____ combatting _____ change and _____ societal _____?

_____ metrics aligned to _____ climate change _____ reduce social _____?

Can _____ measures _____ combat _____ and _____ fairness?

_____ do _____ relate to _____ sustainable _____ as meeting _____ goals?

_____ the _____ properly _____ to address _____ change _____ while also _____ social _____?

_____ metrics compatible _____ targets such _____ combatting Climate _____?

_____ the _____ align with _____ goals of _____ down social gaps _____ addressing _____?

_____ is _____ provided metric measurements _____ to meet climate _____ equal opportunities?

How do _____ into the goal _____ climate _____ and reducing _____.

_____ do _____ outcomes look _____ tackling _____ closing societal gaps?

Is _____ chosen _____ combat _____ change and narrowing societal gaps?

_____ metrics relate to broader initiatives _____ climate _____?

Do _____ help _____ goals or _____ inequalities?

Do _____ data _____ and equality goals?

Is the measures _____ targets _____ fight _____ and promote _____?

Do the _____ align _____ objectives _____ change _____ social issues?

How do _____ metrics contribute _____ environmental _____ aims?

_____ well aligned _____ these _____ tackle _____ and reduce social inequalities?

_____ ask _____ metrics _____ goals or _____ equity.

What effect _____ the _____ metrics _____ on meeting _____ targets or promoting _____?

Is _____ good _____ climate change and _____ inequality?

_____ indicators _____ with the aims _____ both social inequality _____ change?

_____ align _____ the objectives _____ climate change _____ social inequality?

_____ measurement in line with _____ inequality reduction _____?

_____ the metrics _____ with our _____?

How can the _____ support our _____ social injustice?

Is _____ correlation _____ the indicators _____ change _____ narrowing societal disparity?

_____ indicators correlate with _____ to address _____ change _____ inequality?

What _____ say about _____ change _____ reducing social _____?

_____ the _____ address climate change and social inequality?

_____ metrics helpful in dealing with climate _____?

Is _____ selected _____ compatible _____ climate change _____ addressing social inequality _____?

These _____ related to _____ and _____ social inequality.

_____ a correlation _____ the chosen _____ combatting _____ change _____ societal gaps?

_____ these metrics aligned _____ the _____ climate _____ or _____ social equity?

Is _____ environmental _____ and _____ results, _____ fighting against global _____ or _____ imbalances?

Is _____ metrics _____ with climate _____?

_____ the provided _____ measurements help _____ climate _____ or _____ in societies _____ by injustice?

_____ they aligned with _____ for _____ climate _____ or _____ equity?

What _____ these metrics _____ do with _____ goals or minimizing _____?

_____ the _____ compatible _____ the targets _____ fighting climate _____ promoting _____?

_____ in line with the _____ change _____?

Is this measurement _____ targets and _____?

_____ metrics _____ aligned _____ the targets _____ tackling climate change _____ promoting _____.

Will _____ numbers help _____ climate change or _____?

Do these _____ the _____ change and social inequality?

Does the _____ measurement _____ to _____ targets _____ equal opportunities _____ society?

Is the measurement _____ with _____ targets _____ reduction _____?

Would _____ fit _____ goals for _____ and _____?

Do the _____ climate _____ equal opportunities in _____ marred by injustice?

Do _____ with the aims to address _____ social inequality _____?

Is _____ alignment _____ the objectives of addressing _____ and _____ change?

_____ these _____ with _____ change _____ or _____ social inequality?

These metrics _____ be _____ to _____ climate _____ and reduce _____ inequalities.

Is the _____ agreement _____ climate change _____?

_____ the _____ with _____ the reduction of inequality?

_____ in line with _____ change _____?

Do these _____ climate _____ goals _____ reduce social _____?

_____ chosen _____ with the _____ change and narrowing societal disparity?

Are these _____ the targets _____ or promoting social equity?

_____ choice _____ indicators _____ with the goal _____ change _____ narrowing societal inequalities?

Is _____ metrics support climate _____ or _____ social _____?

_____ metrics in line _____ the goals of _____?

How _____ metrics support our _____ addressing _____ change _____ reducing social _____?

How would the _____ Climate _____ Equality _____?

If _____ metrics are _____ be _____ climate change and reduce _____ inequalities.

_____ do the _____ our goals _____ climate change and _____ social _____?

_____ helpful in _____ climate _____ and battling social _____?

How are _____ supporting _____ goals of _____ change targets _____ reducing _____?

Is _____ measurement in alignment _____ inequality reduction _____?

Is it _____ that the _____ contribute _____ climate targets _____ promote _____ opportunities?

Is the chosen indicators in _____ of _____ change and _____ gaps?

_____ provided metric measurements _____ meeting _____ targets _____ promote equal _____?

_____ do these metrics _____ objectives?

_____ metrics align with _____ climate change _____ social inequality?

Is these metrics in _____ as _____ inequality _____ tackling _____ change?

_____ these metrics contribute _____ or _____?

How do _____ metrics help _____ climate change _____ disparities?

_____ statistics _____ us achieve our _____ & _____ objectives?

Does it affect _____ outcomes in _____ such as _____ climate change _____ inequalities?

Does the _____ targets _____ climate change and promote _____?

Is _____ with the _____ set _____ climate change _____ to reduce _____ disparity?

Reducing _____ climate issues are _____ these measures match _____ with.

_____ these _____ meet _____ and equality _____?

What _____ do _____ play _____ both environmental and _____ sustainable _____?

_____ the _____ align with the _____ of climate _____ social _____?

Is these metrics compatible _____ climate _____?

Which _____ closing societal gaps and tackling _____?

_____ measurement _____ affect _____ pursuit _____ sustainable _____ in areas like fighting climate change or _____?

Does the _____ our _____ sustainable outcomes _____ such as _____ climate _____ or _____ social inequalities?

_____ the _____ indicators compatible _____ the goal _____ climate change and _____?

_____ possible to achieve our _____ of addressing climate _____ inequality _____ figures?

_____ are the metrics _____ the _____ and social inequality?

The _____ support climate _____ or _____?

Is _____ in _____ with _____ inequality?

_____ the _____ and _____ to _____ climate _____ challenges while reducing _____ inequalities?

Will _____ contribute to _____ our environmental _____ objectives?

_____ disparity or _____ climate _____ are supported _____ the _____?

Are the _____ aligned to tackle _____ or _____?

How do _____ support climate _____ or _____ inequality?

_____ can the metrics support _____ goals such _____?

Does the metrics _____ goals?

Is _____ measures _____ the _____ targets and _____ reduction _____ inequality?

Are _____ change _____ addressing _____ supported by _____?

Do _____ change _____ reduce social _____?

_____ the _____ related to _____ climate change and _____?

Is climate _____ supported _____ is social _____ addressed?

Will _____ be _____ with reducing _____?

_____ the _____ metrics align _____ the _____ of addressing climate _____ social _____?

How do they relate _____ initiatives such _____ climate goals _____?

_____ do these metrics support efforts _____ reduce social _____?

_____ are _____ indicators with targets for _____ change _____ promoting measures _____ reduce _____?

_____ metrics may _____ with _____ tackling climate _____ or _____ social equity.

_____ the metrics helpful _____ climate _____ social inequality?

How ____ these metrics related to ____ meeting ____?

____ meet ____ to combat climate change ____ promote ____?

Is ____ metrics related ____ or reducing ____ inequality?

____ do ____ metrics ____ our ____ regarding climate ____?

____ metrics contribute ____ environmental or ____?

____ these metrics help in tackling ____ social ____?

____ compatible with ____ fighting climate change and promoting ____?

____ are metrics ____ sustainable ____ like reducing ____ inequality?

Are these measures ____ with ____?

____ the metrics mean ____ comes ____ inequality or ____ change goals?

____ these metrics in ____ with ____ goals?

Are we able to reduce ____ climate ____ figures?

____ consistent with the ____ of ____ climate change ____ societal gaps?

____ climate change could ____ in line ____ sustainable goals.

How are metrics associated ____ goals ____ climate change?

Is ____ in ____ with the ____ change ____?

____ metrics ____ in tackling climate ____ and ____ inequality?

How ____ these metrics ____ to address ____ reduce social ____?

Do ____ metrics align with ____ change ____ also reducing social inequalities?

____ the ____ metrics ____ with the objectives of ____ gaps ____ tackling climate ____?

Does the ____ environmental ____ goals?

Does the ____ to ____ or social ____?

Is there ____ alignment of the metrics to tackle ____ challenges ____?

____ the ____ consistent with ____ combatting ____ and narrowing societal gaps?

____ our ____ of ____ outcomes ____ areas like battling climate ____ social inequalities?

Is ____ consistent with sustainable ____ for ____ climate ____ and ____ disparity?

____ change or ____ inequality ____ these ____ support sustainable ____?

Is the metrics in ____ like ____ inequality ____ tackling ____ change.

____ alignment ____ these ____ pursuit ____ outcomes in areas like ____ climate change or ____ social inequalities?

Are ____ metrics supporting ____ goals ____ climate ____ or ____ social ____?

How are ____ goals ____ as decreasing social ____?

Do ____ metrics ____ or social ____?

Do ____ measurement ____ to meeting ____ promoting ____ opportunities in society?

____ possible that ____ metrics ____ aligned with ____ for ____ climate change ____ equity?

____ do these indicators ____ with ____ reducing social ____?

____ support ____ change targets or reduce ____ inequality?

Are these metrics compatible ____?

How consistent are ____ for ____ climate change or ____ societal ____?

____ the metrics related ____ broader initiatives ____ as ____ climate ____?

____ inequality or tackling ____ could ____ metrics ____ with sustainable ____.

____ is ____ consistency with the ____ set ____ climate ____ to reduce societal ____?

____ the ____ indicators compatible with ____ fighting ____ and ____ societal inequalities?

Do the ____ metrics ____ targets or ____ equal opportunities ____ societies marred ____ injustice?

Does ____ alignment ____ measurements affect ____ of sustainable ____ battling climate change or addressing social ____?

How do ____ fit in ____ of climate ____ and ____ inequality?

____ there ____ these ____ climate change ____ and reduce social inequities?

____ the metrics ____ the goals of addressing climate ____ reducing ____?

____ social ____ and climate ____ metrics related to sustainable ____

____ these statistics ____ environmental and ____ objectives?

Do _____ indicators correlate with _____ goals _____ addressing _____ inequality _____ ?

_____ the _____ in _____ with the targets _____ climate _____ promote fairness?

Can they help _____ change _____ social _____ ?

Is _____ that the _____ the _____ regarding _____ change _____ social inequality?

Is _____ aligned with _____ social gaps or battling climate concerns?

_____ the metrics helpful in _____ climate _____ and _____ ?

_____ metrics aligned with _____ tackling climate _____ promoting social equity?

Do the _____ sustainable targets such _____ climate _____ ?

_____ the indicators correlate with _____ addressing climate _____ and _____ ?

_____ between these measurement affect _____ of sustainable outcomes in _____ like battling _____ or _____ social _____ ?

_____ measures _____ to _____ climate targets or promote equal _____ ?

_____ these _____ support environmental _____ aims?

_____ do _____ support our goals of _____ climate change _____ reducing _____ ?

_____ are _____ metrics used _____ achieve climate change objectives _____ ?

Does _____ support _____ targets _____ reduce inequality?

_____ contribute to meeting climate _____ promote equal opportunities in societies _____ injustice?

How do these _____ support _____ social _____ ?

_____ climate goals and social _____ ?

_____ these _____ support _____ goals regarding climate _____ social inequality?

Is these _____ helpful _____ addressing _____ fighting social _____ ?

How are the _____ related to _____ reducing _____ ?

Is these _____ tackle climate _____ challenges _____ also _____ social _____ ?

How effective _____ provided metric measurements in meeting _____ targets _____ opportunities _____ marred _____ injustice?

_____ it compatible _____ targets _____ climate _____ or promoting social _____ ?

Is the _____ line with climate _____ reduction _____ ?

_____ do _____ mean in _____ the goal of climate _____ or _____ social _____ ?

How _____ fit _____ reducing social inequality _____ climate _____ ?

How _____ metrics _____ to initiatives _____ meeting _____ goals?

_____ can _____ metrics _____ to achieve climate change objectives _____ social _____ ?

_____ disparity or fighting climate change _____ supported _____ ?

_____ metrics _____ with _____ related to climate change?

_____ provided _____ contribute to _____ climate _____ or promoting equal _____ societies?

Do _____ help with _____ goals _____ ?

_____ the _____ indicators _____ with _____ aim of reducing climate _____ narrowing _____ ?

_____ the _____ in line with _____ objectives _____ and social inequalities?

Does _____ metrics _____ or _____ social inequalities?

_____ the strategic metrics compatible _____ the _____ down _____ or addressing _____ concerns?

_____ the indicators _____ to climate change and _____ reduce societal _____ ?

_____ the _____ with the _____ to _____ social _____ and climate _____ ?

_____ do these measures _____ with _____ like _____ inequality _____ addressing climate _____ ?

How _____ the outcomes relate _____ closing societal gaps?

Is _____ metrics compatible with _____ ?

Is the measurement _____ with _____ and reduction _____ ?

How effectively _____ the provided metrics _____ climate targets _____ promoting _____ opportunities _____ marred by _____ ?

Is _____ Climate targets _____ Inequality reduction efforts?

_____ metrics _____ change or fight back social _____ ?

_____ the _____ goals about climate change _____ social inequality?

_____ these measures _____ to fight climate _____ and promote _____ ?

_____ selected metrics _____ the _____ of addressing climate _____ and _____ inequality?
 _____ the strategic metrics align with _____ that _____ like climate _____ narrowing _____ social _____?
 _____ the _____ support sustainable _____ such as _____ inequalities?
 Are _____ metrics _____ the _____ Change _____?
 Do _____ metrics align _____ the goals _____ climate _____ social _____?
 _____ these measures fit _____ climate _____ reduction of _____?
 How _____ indicators fit into _____ goal _____ reducing _____ inequality _____ change?
 How effective is the _____ measurements _____ meeting _____ or promoting equal _____ in _____ marred _____?
 _____ these indicators _____ to the aims of _____ social inequality _____?
 Are they aligned _____ tackling climate _____ promoting social _____?
 Is _____ correlation with _____ to _____ and climate change?
 _____ metric _____ do _____ meeting climate targets or _____ equal _____ in society?
 Is the metrics _____ with the _____ for fighting _____ fairness?
 _____ do _____ indicators fit _____ the _____ of climate change _____ social _____?
 _____ the _____ with _____ climate _____ and reduction of _____?
 How _____ indicators fit into the goal _____ climate _____ reducing _____?
 _____ metrics _____ line with sustainable _____ reducing inequality or tackling _____.
 _____ the indicators _____ with _____ goals _____ fighting _____ change _____ societal inequalities?
 _____ the measurement _____ affect _____ outcomes _____ such as battling _____ change _____ addressing social inequalities?
 _____ should be _____ to tackle the _____ challenges and _____ social _____.
 _____ provided _____ help to meet the _____ targets or _____ societies marred by _____?
 How _____ they _____ addressing _____ closing societal gaps?
 _____ do these metrics _____ to _____ that _____ climate goals _____ inequalities?
 _____ the selected metrics _____ the _____ climate _____ and _____ inequality?
 _____ these _____ helpful _____ tackling _____ change _____ fighting _____ inequality?
 _____ these metrics _____ line _____ for _____ change or _____ inequality?
 _____ metrics _____ climate change _____ and reduce _____ inequality.
 _____ metrics _____ goals for reducing _____ emissions or _____ inequalities?
 Can the measures _____ combat climate _____?
 _____ the _____ aligned and attentive _____ change _____ while also reducing _____?
 Do these _____ tackle _____ and fight social _____?
 The _____ should _____ the _____ for _____ climate _____ and promoting _____.
 _____ these _____ related to _____ address social _____ climate change?
 Is _____ in line with _____ of _____ change?
 Does _____ correspond with _____ climate change?
 _____ these metrics _____ or social inequalities?
 Reducing social _____ and _____ are _____ of the _____ measures match up _____.
 _____ the _____ aligned, they can be _____ tackle climate _____ reduce social _____.
 Will adhering _____ meet established priorities of curbing carbon _____ effectively _____ decreasing socio-economic _____?
 Is climate change _____ by _____?
 How do these _____ to address climate _____ inequality?
 Reducing _____ or _____ may _____ metrics _____ are in _____ with sustainable _____.
 Are these _____ in _____ with _____?
 Is _____ selected _____ compatible with _____ addressing _____ social inequality?
 _____ the _____ that support climate change _____ or reducing _____?
 _____ support _____ goals or address _____?
 How effective is _____ meeting _____ targets _____ promoting equal opportunities in _____?
 _____ in line with the objectives _____ Climate _____?
 _____ metrics _____ goals _____ social equity?

____ change ____ addressing inequality ____ metrics ____ support ____ targets.
 ____ the metrics ____ with ____ change or promoting ____ equity?
 ____ chosen ____ consistent ____ the goals of fighting ____ and ____ disparity?
 ____ metrics ____ to climate ____ or social ____.
 ____ metrics need ____ to tackle ____ climate change ____ while also ____ inequalities.
 Are these ____ in line ____ change ____?
 ____ the indicators correlate ____ aims ____ inequality and climate change?
 ____ the ____ align with the ____ Equality ____?
 Does ____ metrics support ____ change ____ or ____?
 ____ able ____ reduce ____ and address climate ____ with these ____?
 ____ provided ____ measurements make ____ climate targets or ____ opportunities in societies?
 Will ____ align ____ objectives of climate ____?
 ____ consistent ____ indicators for climate ____ or ____ to reduce societal ____?
 ____ the metrics ____ with climate ____ goals?
 ____ in alignment with ____ change ____?
 ____ with sustainable ____ such as fighting ____ change and promoting ____?
 Is this metrics ____ objectives for climate ____?
 Is ____ with ____ aim ____ climate change ____ narrowing societal inequalities?
 ____ the selected ____ the ____ of addressing social inequality ____ change?
 ____ addressing ____ do these metrics support sustainable ____?
 Does the alignment ____ the measures ____ sustainable outcomes like ____ change or ____ social ____?
 ____ strategic ____ match ____ of narrowing ____ gaps or ____ climate concerns?
 How are metrics related ____ such ____ inequality
 ____ metrics align with each ____ change challenges and ____ inequalities?
 ____ it possible ____ goals for climate change ____ social inequality?
 ____ this ____ compatible with ____ change ____?
 ____ the chosen indicators ____ goal of ____ climate ____ and ____ disparity?
 ____ the ____ metrics ____ targets or promote ____ opportunities in society?
 What ____ the ____ align ____ climate change ____ and reducing ____?
 Are the ____ compatible with ____ of fighting ____ narrowing ____ disparity?
 Is ____ metrics in support of ____ inequality?
 ____ we reduce inequality or address ____ these ____?
 Does ____ metrics match ____ climate ____?
 ____ do these ____ help with ____ and social ____?
 ____ the metrics match the ____ fighting ____ and ____ fairness?
 Do ____ strategic ____ the objectives of ____ down ____ or tackling climate ____?
 ____ strategic metrics align ____ objectives ____ down ____ gaps or fighting climate ____?
 How ____ we tackle ____ and ____ societal ____?
 How do ____ support ____ climate change ____ reducing ____ inequalities?
 Is the ____ compatible ____ combat climate ____ promote fairness?
 Does ____ the targets to fight ____ change?
 ____ help ____ meet our environmental and equality ____?
 Is ____ consistent with ____ of combatting ____ climate change and narrowing ____?
 Is ____ alignment with the objectives of climate ____?
 Will ____ numbers ____ fight ____ change ____ social inequality?
 How ____ metrics ____ to ____ sustainable goals of reducing social ____?
 ____ are ____ outcomes relating to addressing climate ____ gaps?
 How ____ to the objectives of ____ targets?
 Are ____ related to ____ change and ____ inequalities?
 ____ these metrics mean ____ it comes to reducing ____ inequalities ____?

Meeting climate goals _____ reducing _____ can be _____.

Is it appropriate for these metrics _____ challenges and _____?

_____ metrics _____ with the objectives of _____ and _____ inequality?

_____ the metrics fit _____ targets _____ climate change?

Do _____ help to tackle _____ fight _____ inequality?

Is the _____ aligned to tackle _____ challenges _____ reducing social inequalities?

Does these _____ correlate _____ the aims to _____ both _____ climate _____?

How _____ the _____ to _____ climate change objectives _____ social _____?

_____ chosen _____ be used to combat _____ societal inequalities?

Is _____ possible that _____ with _____ climate _____ and social inequality?

Is _____ aligned to constructively _____ challenges while _____ social _____?

_____ these metrics _____ climate _____ address _____ issues?

_____ the data _____ with the _____ climate _____ equality?

Does _____ metrics _____ objectives _____ climate change and addressing _____ inequalities?

_____ the _____ helpful _____ tackling climate change _____ inequality?

_____ are the _____ that _____ of _____ change _____ reducing social inequality?

_____ it possible _____ these _____ are _____ to _____ climate _____ challenges _____ social inequalities?

Will these _____ with _____ change _____?

_____ these metrics _____ the _____ of _____?

_____ for these _____ aligned _____ tackle climate change _____ while _____ social inequalities?

How _____ these _____ relate to the goal _____ inequality or _____?

_____ can _____ metrics _____ our goals _____ addressing climate _____ and _____ social _____?

_____ they support _____ change targets _____ reduce _____?

_____ these _____ to tackle climate change challenges _____ also reducing _____?

How _____ support _____ concerning climate change _____ social inequality?

Why _____ support our _____ regarding _____ change and _____ inequality?

Do you _____ these _____ contribute to achieving _____ goals _____ gas _____ and _____?

Is _____ true that _____ climate _____ and social _____?

_____ are metrics related _____ climate change targets?

What _____ these metrics tell _____ about the _____ the goal _____ reducing social _____?

How do climate _____ and reducing _____ align _____ the _____?

Does _____ match the objectives _____ change and _____ inequality?

_____ change support or _____ social inequality supported _____?

_____ with the _____ of addressing _____ change and _____ inequality?

Do _____ contribute _____ social goals?

_____ the _____ support _____ targets _____ climate _____ or addressing _____?

_____ the metrics _____ to _____ climate _____ while at the _____ time reducing _____?

How _____ support _____ goals _____ and reducing social inequality?

How _____ these _____ help us _____ climate change and _____?

How do _____ metrics contribute to _____?

_____ measures help to meet climate targets or _____ society?

Is the _____ metrics compatible with _____ change and _____ social _____?

_____ that match _____ objectives of reducing _____ inequality _____ addressing _____ issues?

_____ on _____ how _____ meeting both environmental _____ equity commitments?

_____ the _____ to climate change _____ or _____ inequality?

Is the metrics _____ targets to _____ climate change _____?

How do _____ support our _____ addressing climate _____ inequality?

How _____ metrics support our _____ regarding climate _____ social _____?

Do the metrics align _____ the _____ addressing _____ and _____ inequality?

_____ the metrics help us _____ carbon emission _____ injustice?

Will the statistics ____ us ____ meet ____ equality ____?

____ to address ____ change or ____ inequality with these ____?

____ they good to fight ____ change and ____?

Can we address ____ or ____ with those ____?

What effect ____ the ____ metric ____ have on ____ or promoting equal ____?

Does these ____ support ____ change targets or ____?

____ in tackling ____ change ____ fighting back ____ inequality?

____ these metrics ____ with ____ and reduction ____ inequalities?

How ____ achieve ____ objectives while reducing social inequalities?

____ these measures ____ to ____ climate change?

Is these metrics ____ with ____ reducing ____ climate change?

Would ____ with the goals ____ and equality?

Is ____ metrics compatible ____ Climate ____?

____ the ____ aligned ____ the goals ____ down social gaps and ____ climate ____?

____ the strategic metrics match the ____ narrowing down ____ concerns?

Is this measurement compatible with ____ and ____?

What ____ mean ____ the ____ of reducing social inequality ____ climate change?

Is the ____ to deal with ____ challenges ____ reducing ____?

Is ____ metrics ____ line ____ targets ____ tackling climate change ____ promoting ____?

____ metrics related ____ or social ____?

The metrics need to be aligned to tackle ____.

What role do these ____ and social ____?

____ to environmental or ____ aims?

What ____ the ____ be aligned ____ change ____ reduce social inequalities?

____ the provided ____ contribute ____ climate ____ or promoting ____ opportunities in ____?

I wonder ____ metrics ____ climate ____ or ____ social ____.

____ these ____ correspond to targets ____ change?

Do you think the ____ contribute ____ the goals ____ greenhouse ____ tackling ____?

____ measures compatible with ____ targets and ____?

____ measurements ____ climate targets and ____ of inequality.

Decreased social inequality ____ targets ____ metrics related ____ goals.

____ the ____ support ____ social disparity ____ change?

Does the provided ____ or promote ____ opportunities ____ societies marred by injustice?

____ metrics ____ in relation ____ reducing ____ inequality ____ climate change targets?

Are the ____ climate ____ and ____ efforts?

Reducing social ____ and addressing ____ objectives that these ____ with.

Are these indicators ____ to ____ to ____ and climate ____?

Is ____ aligned with ____ tackling climate change?

____ the metrics ____ with ____ climate change and social ____?

____ the ____ in line ____ reducing ____ or addressing climate ____?

The provided metric ____ do they ____ to ____ promote equal ____?

Reducing ____ tackling climate ____ might ____ in line with ____.

While ____ change ____ metrics aligned to reduce ____ inequalities?

Do the ____ contribute to ____ or promote equal ____ are marred by injustice?

____ do these ____ to ____ goal of ____ and reducing social ____?

Should ____ support climate ____ or ____?

If ____ they ____ be used ____ tackle climate ____ challenges while reducing ____.

How do ____ support ____ in relation to ____?

What ____ that relate ____ climate goals ____ inequalities?

Do ____ measures align ____ targets ____ climate change?

How _____ relate to _____ change and closing _____?

It is important _____ to _____ change challenges while _____ social _____.

Is _____ the goals of climate and _____?

The _____ metric measures _____ contribute to _____ climate _____ promoting equal _____ in _____ by _____.

_____ support our sustainable goals for _____ change _____ social _____?

_____ metrics _____ to _____ change _____ also reducing social inequalities?

Does the _____ support _____ inequality?

_____ the metrics _____ with _____ targets _____ tackling _____ change or promoting _____?

What do _____ metrics _____ about _____ change _____ reducing social _____?

Are _____ line with _____ change?

_____ metrics related to sustainable _____ reducing _____ and climate _____

_____ in alignment _____ combat climate change _____ promote fairness?

Does the _____ these _____ affect our pursuit _____ areas _____ battling _____ or addressing social inequalities?

Will _____ meet the _____ reducing greenhouse _____ societal disparity?

_____ metrics _____ the objectives of narrowing down _____ gaps or _____ concerns?

Do these _____ with the _____ social _____ and _____ change?

Are _____ metrics _____ fighting climate change and _____?

How do _____ and reducing social _____ with these _____?

What _____ these metrics mean _____ terms of _____ inequality and _____?

Is _____ properly _____ to _____ climate change _____ while _____ social _____?

Why _____ metrics support _____ goals regarding _____ change _____ social inequality?

_____ say _____ climate goals _____ social equity?

_____ metrics in _____ with _____ inequalities or tackling _____ change?

Is _____ in _____ goals like _____ inequality or _____ climate change?

These _____ are related _____ climate _____ and _____ of _____.

_____ selected metrics fit _____ the _____ of climate _____ social _____?

_____ are the _____ related to _____ closing _____ gaps?

I _____ to know _____ our _____ regarding climate _____ and social _____.

What _____ these _____ tell us about _____ social _____ climate _____?

Is the _____ aligned _____ climate change challenges _____ reducing social _____?

Reducing inequality or tackling _____ goals _____ to _____.

Can _____ reduce inequality and _____ with these _____?

_____ the alignment between these _____ affect _____ sustainable outcomes such _____ battling _____ or addressing _____?

_____ inequalities and _____ climate _____ are _____ of the objectives _____ up _____ these _____.

_____ do _____ to environmental and social _____?

_____ these indicators related _____ aims of _____ inequality and climate _____?

Do the _____ measurements _____ climate targets _____ promoting _____ opportunities _____ societies _____ by _____?

These metrics _____ be _____ tackle climate _____ challenges _____ also _____ social _____.

What _____ the _____ relating _____ the aims _____ social _____ and _____ change?

_____ the data _____ and equality _____?

Does it affect our pursuit _____ climate change _____ addressing _____ inequalities?

How _____ relate _____ other issues such _____ meeting _____ goals?

_____ do _____ metrics _____ our _____ in addressing climate _____?

What _____ the _____ these metrics _____ in _____ environmental and _____?

Will adherence to _____ help meet _____ priorities of curbing _____ effectively _____ reducing socio-economic _____?

_____ we _____ inequality _____ address climate _____ these figures?

Do _____ goals or address _____?

_____ do these _____ do to achieve _____ social _____?

Do the provided _____ measurements _____ climate targets or promote equal _____ a _____ injustice?

_____ wonder _____ these _____ are in _____ with _____ climate _____ goals.

How _____ metrics help us achieve _____ goals _____?

How do _____ metrics _____ our _____ relating _____ change and _____?

Do the _____ metrics help _____ meet climate targets _____ opportunities _____?

_____ they _____ in _____ climate change _____ social inequality?

_____ indicators _____ with the goal _____ climate change and narrowing _____?

_____ figures, can we _____ our _____ of addressing _____ or reducing _____?

What roles do the _____ in attaining _____ sustainable _____?

Is _____ metrics _____ climate _____?

_____ metrics meet _____ goals of _____ emissions or _____ disparity?

_____ do _____ help us _____ climate change targets and _____ social _____?

Does the _____ social inequalities and climate change?

_____ provided metrics _____ meeting climate targets _____ equal _____ in societies _____ by _____?

_____ the _____ say about _____ societal _____ and tackling _____ change?

_____ they _____ targets to tackle climate _____ or _____ social _____?

Is the metrics _____ and _____ climate _____ challenges _____ also _____ inequalities?

Is _____ selected metrics _____ objectives of reducing _____ and _____ inequalities?

How _____ these metrics help _____ of _____ change?

_____ metrics relate _____ larger _____ initiatives like meeting _____ goals?

_____ does _____ of these _____ play _____ achieving _____ social sustainable aims?

How do _____ fit _____ the _____ of _____ and reducing _____?

How _____ they _____ in with the goal _____ change and _____?

_____ are metrics _____ to reducing social _____ climate _____.

_____ these metrics aligned _____ goal _____ tackling climate change or _____?

How do these metrics _____ the _____ climate _____ inequality?

Is the selected _____ line with the _____ climate _____ social inequality _____?

Do these metrics _____ achieve _____?

Is _____ supporting _____ goals or _____ inequality?

How do these metrics _____ address climate _____ and reduce _____?

These _____ climate goals _____ address _____.

_____ metrics _____ to _____ change _____ while also reducing social inequalities?

_____ the _____ with sustainable targets _____ as _____ climate _____?

Did _____ help fight climate change and _____?

_____ aligned to the targets for _____ change _____ equity?

Is it _____ that _____ support _____ or _____ social inequality?

_____ this _____ compatible _____ climate targets and _____ inequality?

I _____ to environmental or social aims.

Reducing _____ and _____ issues are some objectives that _____.

_____ the chosen _____ in _____ the _____ for combatting climate _____ and _____ societal _____?

_____ metrics mean when _____ comes to the _____ reducing _____ inequality _____ change?

Is the measurement compatible _____ reduction _____?

metrics _____ to _____ reducing social inequality and _____

Do the provided _____ contribute to _____ climate _____ or _____?

_____ the _____ metrics compatible _____ the _____ of climate _____ inequality issues?

_____ numbers _____ climate change or reduce social _____?

_____ the data correspond with _____ and equality?

Would the _____ with the goals for _____?

_____ climate change _____ inequality supported _____ these _____.

How do _____ fit _____ goal _____ change _____ reducing social equality?

_____ the _____ reducing social _____ or combatting _____ change?

Do the _____ metrics align with objectives _____ sustainable _____ narrowing _____ gaps?

Reducing inequality or ____ climate ____ of ____ goals of ____.

Should the ____ support ____ goals ____ address ____?

____ the metrics supporting ____ addressing climate change and ____ inequalities?

____ we address ____ change ____ reduce inequality ____ figures?

____ the metrics in ____ goals ____ climate change?

____ this ____ in line with ____ targets and efforts ____?

____ metrics compatible with ____ targets ____ climate change ____ fairness?

____ the chosen ____ consistent with the ____ both climate change ____ narrowing ____?

____ do these metrics ____ it ____ to ____ social inequality ____ climate change?

Reducing ____ inequalities ____ targets are metrics related ____ goals.

Is ____ metrics in ____ climate change ____?

Should ____ selected ____ align ____ of addressing climate ____ and ____ inequality?

____ the metrics ____ sync ____ the ____ change ____?

____ these ____ to combat climate change ____ promote fairness?

____ with ____ targets for fighting climate change?

____ climate goals ____ minimizing ____ inequalities ____ be ____ to ____ metrics.

____ do ____ indicators ____ into the goal ____ change and ____?

How do these ____ in the goals ____ climate ____ social ____?

How do the ____ into ____ climate change ____ reducing social ____?

____ measures ____ to environmental or ____?

Reducing social ____ and addressing ____ of the ____ that ____ measures.

____ metrics support ____ goals ____ social ____?

Is these measures compatible with ____ climate ____?

Is there a ____ indicators ____ for combatting ____ change and ____?

Can ____ address ____ change ____ inequality with ____ figures?

Is ____ compatible ____ climate ____ reduction of inequality?

How ____ metrics ____ goals and social inequalities?

____ do ____ into the ____ of climate change ____ reducing ____ disparity?

Is ____ metrics aligned with ____ of ____ climate change ____ equity?

____ indicators consistent with the goal of ____ climate ____ societal ____?

____ metrics ____ support ____ address social inequality.

How ____ targets ____ climate change and measures ____ disparity.

How are ____ indicators ____ to ____ change and reducing social ____?

Are these metrics ____ for climate ____?

____ the metrics ____ in relation to the ____ like ____ social ____ or ____?

Is ____ compatible with ____ of climate ____ and ____ issues?

How ____ do ____ in achieving ____ change objectives?

Does the alignment ____ the ____ sustainable outcomes ____ areas like battling climate change or ____?

____ the ____ support ____ climate ____ or reducing ____ disparity?

____ measures ____ related ____ climate ____ reduction of inequality.

____ they correspond with ____ and ____ inequality?

____ are related to climate ____ or ____ social ____.

____ alignment affect ____ outcomes in areas ____ as battling ____ change or ____ social inequalities?

How ____ fit into ____ goal of ____ reducing social ____?

____ these statistics ____ us reach our ____ equality ____?

Is Climate ____ or ____ supported ____ metrics?

____ there ____ of these metrics to ____ climate ____ challenges ____ social inequities?

Do the ____ metric ____ a difference ____ promoting equal opportunities ____ society?

How are metrics related to ____ and ____?

How ____ these indicators ____ change and reducing social ____?

_____ these metrics support our _____ regards to _____ change _____ social _____?

What _____ the metrics associated _____ inequality and _____ change _____?

Is the _____ tune with _____ climate _____?

Do the _____ metrics _____ of _____ down social _____ and counter _____ concerns?

_____ inequality _____ climate change _____ metrics relating to sustainable _____.

_____ indicators consistent with _____ combatting climate change _____ societal disparities?

_____ the statistics _____ meeting _____ environmental and equality _____?

These metrics _____ support climate change _____ or _____.

Do they _____ the aims to address _____ and _____?

_____ metrics align _____ the _____ of narrowing _____ social gaps _____ tackling _____ concerns?

Are these metrics _____ to help tackle _____ and _____?

Is these _____ in _____ change goals or reducing _____?

_____ line with _____ climate change objectives?

To achieve our _____ of _____ change _____ social inequality, how _____ metrics _____?

_____ these statistics help us _____ and equality _____?

_____ alignment _____ affect the pursuit _____ sustainable outcomes in _____ like battling climate _____ or _____ social _____?

Does the _____ alignment _____ outcomes like fighting climate _____ or _____ inequalities?

What do _____ metrics mean in _____ social _____ and climate _____?

Is _____ metrics aligned _____ climate _____ challenges while also _____ inequalities?

Is the _____ with the _____ of _____ change and _____ societal _____?

_____ metrics supporting _____ or _____ inequalities?

_____ the provided metrics contribute _____ climate _____ or promote _____ in _____ by injustice?

How _____ these metrics _____ goals such _____ climate _____?

Did the selected metrics _____ objectives _____ addressing _____ and _____ inequality?

How _____ fit _____ climate change objectives?

Do metrics _____ climate goals?

Is _____ aligned _____ the _____ addressing _____ change or _____ social equity?

_____ can these metrics _____ our goals _____?

Are _____ aligned _____ the targets for _____ or promoting social _____?

_____ do _____ support _____ goals for addressing climate _____?

Do these measures _____ with _____ targets _____ inequality?

Will the selected metrics align _____ objectives _____ climate _____ social _____?

Is _____ selected metrics _____ with _____ climate _____ and social _____?

Do these _____ help environmental _____?

Do _____ metrics _____ with _____ targets _____ fighting climate _____?

_____ do they _____ goals _____ inequality and addressing climate _____?

Is the _____ compatible with _____ of _____ climate change _____ social _____?

_____ us _____ the objectives of climate change?

Is the metrics compatible _____ the _____ tackling _____ or promoting _____?

_____ metrics _____ in _____ meeting climate targets or promoting _____ opportunities?

How _____ the metrics _____ climate change targets _____ social inequality?

Does _____ alignment of these measures affect our pursuit _____ battling climate _____ social _____?

Are _____ line _____ objectives of addressing climate change and _____?

Does _____ between these _____ pursuit of _____ outcomes in _____ like climate _____ social inequalities?

What _____ the _____ that _____ goals _____ climate change and _____ social _____?

What are the _____ relating to _____ of _____ and climate _____?

_____ these measures _____ climate _____ reduction efforts?

Climate change _____ and _____ inequalities _____ sustainable _____.

Is _____ possible that these _____ correlate with _____ address _____ climate _____?

Will _____ metrics align with the _____ of _____ and _____?

Do the metrics support sustainable _____ climate _____?

Do _____ metrics match _____ targets _____ such as combatting _____?

Do the selected metrics _____ with _____ climate _____ social inequalities?

Did _____ climate goals _____ address social _____?

_____ to be aligned to tackle _____ change _____ reducing _____ inequalities.

How do _____ climate change _____ closing societal _____?

_____ are the _____ supporting _____ such _____ reducing _____ inequality?

_____ the metrics _____ to tackle _____ change _____ social inequalities?

Is _____ metrics are aligned _____ tackle _____ change _____ reducing _____ inequalities?

What _____ the _____ of _____ environmental and _____ sustainable aims?

_____ it possible that metrics _____ goals _____ social _____?

_____ the alignment of _____ affect our _____ of sustainable outcomes _____ areas _____ battling _____ change _____ inequalities?

_____ the metrics compatible with _____ targets _____ change?

Do _____ help in tackling _____ change and _____ social _____?

Do the strategic metrics _____ with the objectives _____ social gaps _____?

_____ do these indicators _____ into _____ of _____ and climate change?

Is _____ line _____ targets _____ tackling climate change?

_____ metrics _____ line with _____ change _____?

How are these _____ our _____ regarding _____ and _____ inequality?

Do _____ metrics _____ climate _____ targets _____ inequality?

The _____ do _____ support climate _____ targets _____ reduce _____?

Does the _____ align with _____ tackling climate change _____ inequality?

_____ metrics _____ with _____ goals _____ social _____?

Will _____ help _____ with _____ environmental and equality _____?

_____ these metrics _____ or social _____?

_____ correspond _____ targets _____ combat climate change?

How _____ these metrics support _____ goals regarding _____ inequalities?

Is the _____ aligned _____ for tackling _____ or promoting social _____?

_____ provided metric _____ contribute _____ targets or _____ equal opportunities in _____ marred by _____?

How are the _____ sustainable goals like _____ inequality _____ climate _____?

Is _____ compatible _____ climate change _____ and _____ inequality?

_____ the _____ mean _____ the _____ like _____ social _____ and climate change _____?

Do _____ metrics help _____ meet _____ targets or _____ opportunities for _____?

_____ metrics _____ of social _____ climate _____?

_____ the _____ with climate _____ and reduction _____ inequality?

Should _____ support climate _____ or _____?

Is _____ metrics _____ the targets for addressing climate _____ promoting _____?

_____ they correlate _____ aims of _____ inequality and _____ change?

Are they aligned _____ for _____ climate _____ promoting social _____?

_____ it possible that _____ support _____ or addressing _____?

_____ the provided metrics _____ to _____ or _____ opportunities _____ societies that _____ marred by injustice?

_____ metrics support our _____ to _____ climate change _____ reduce _____.

Do _____ help to _____ climate _____ promote equal opportunities?

_____ alignments _____ our pursuit _____ sustainable _____ in areas like battling _____ or addressing social _____?

_____ it possible that _____ metrics support climate _____ inequality?

_____ provided metrics contribute _____ climate targets or _____ equal opportunities _____ injustice?

_____ it _____ support climate change _____ addressing inequality?

_____ aligning _____ affect our _____ outcomes in _____ climate change or addressing social inequalities?

_____ indicators in _____ climate _____ or measures _____ reduce societal disparity?

Can _____ tackle _____ change or _____ with _____ figures?

Do these measures ____ fight climate ____ ____ ____?

How ____ these indicators ____ into ____ goal of ____ climate ____ ____ ____ inequality?

Do these metrics ____ to ____ ____ ____?

____ are ____ that support ____ change ____ or reduce ____ ____.

____ the ____ ____ to ____ climate targets ____ promote equal opportunities in societies ____ ____ ____?

____ the metrics ____ the ____ of the environment ____ social ____?

____ these ____ help ____ change and ____ fairness?

____ are these metrics ____ our ____ of addressing ____ ____ reducing social ____?

____ social ____ or ____ climate change ____ ____ by the ____?

Do ____ ____ a ____ in fighting ____ change ____ reducing social ____?

Do ____ metrics help tackle ____ ____ ____ back ____ inequality?

____ ____ indicators ____ ____ goal of Climate change and reducing ____ inequality?

____ ____ metrics in line ____ climate ____ goals ____ reducing ____ inequalities?

____ ____ metrics contribute ____ meeting climate targets ____ promote ____ opportunities for ____?

____ ____ us meet our ____ ____ equality objectives?

Is these ____ supporting ____ ____ addressing ____ inequality?

____ the data ____ to ____ goals of ____ ____ Equality?

Does ____ ____ measurement contribute ____ climate targets or promote ____ ____?

Will ____ measures align ____ the ____ ____ climate change ____ promote ____?

____ ____ relate to other sustainable ____ such as ____ climate ____?

____ do ____ metrics mean ____ regards ____ ____ social ____ or climate change targets?

Are the ____ metrics compatible ____ the objectives of climate ____ ____ ____?

Is the metrics properly ____ ____ ____ while reducing social ____?

Are ____ metrics ____ climate ____ ____ addressing social ____?

____ well ____ these metrics ____ with achieving ____ objectives?

____ measures align ____ the targets to ____ climate ____?

What do the metrics ____ in relation to ____ ____ ____ and climate ____?

Is ____ metrics ____ to ____ climate change ____ ____ social ____?

What do ____ ____ mean ____ the ____ ____ social ____ or climate change?

____ metrics should ____ aligned with ____ targets for ____ change ____ ____ fairness.

____ ____ indicators correspond to the ____ ____ change and ____ social inequality?

____ the ____ be ____ to tackle ____ change ____ while also ____ social ____?

____ these metrics fit with ____ ____ climate change?

____ the metrics ____ our goals ____ address ____ change?

____ these ____ sense ____ fight ____ ____ and promote fairness?

____ ____ indicators consistent ____ goal of ____ climate change ____ narrowing ____ discrepancies?

I ____ if these ____ climate ____ ____ address social ____.

How ____ metrics ____ ____ sustainable ____ ____ reducing ____ inequality ____ climate change targets?

What do the metrics ____ for reducing ____ ____ or ____ ____?

____ these metrics ____ in fighting ____ inequality ____ ____ climate ____?

Is ____ metrics ____ line ____ the ____ ____ climate change?

What ____ these indicators ____ ____ goal ____ ____ and reducing social inequality?

____ ____ these metrics ____ ____ achieve climate change objectives?

____ the selected ____ ____ to ____ objectives of ____ climate change ____ ____ inequality?

____ the ____ align ____ the ____ of climate and ____?

____ the metrics ____ climate ____ or address ____ ____?

____ there a ____ alignment of ____ metrics ____ tackle ____ change ____ ____ social inequities?

Does ____ alignment ____ ____ measurement ____ ____ of ____ outcomes in ____ like battling climate ____ ____ addressing social inequalities?

Is the ____ in line ____ ____ of ____ ____?

____ there harmony with ____ ____ environmental ____ ____ fighting ____ ____ warming and diminishing ____ imbalances?

_____ or combatting _____ are supported by the _____?

_____ the _____ indicators consistent _____ of fighting _____ change and _____ societal _____?

How do _____ sustainable goals _____ as reducing _____?

How are metrics _____ sustainable _____ reducing social _____.

_____ the _____ help _____ to _____ carbon _____ targets _____ tackle social _____?

_____ these measures correspond with _____ to _____?

_____ the alignment between _____ measures _____ the _____ sustainable _____ in areas _____ battling _____ change or _____ social _____?

_____ the _____ alignment with _____ reduction of inequality?

How _____ these metrics _____ climate _____ targets or reducing _____ inequality?

Reducing _____ the _____ change targets are metrics _____ to _____.

_____ these metrics contribute to _____?

_____ do metrics play _____ attaining _____ and _____ sustainable _____?

How consistent _____ the _____ the _____ set for _____ change _____ societal _____?

Climate change or _____ do these _____?

_____ these _____ in tackling climate change _____ inequality?

How _____ metrics _____ with reducing _____ inequality _____ climate _____?

_____ consistent are the indicators _____ change _____ reduce societal _____.

How do _____ in with _____ of _____ change and _____ inequality?

Does _____ indicators correlate _____ aims _____ change and _____ inequality?

_____ the _____ goals for reducing greenhouse _____ emissions _____ societal _____?

_____ metrics _____ to environmental or _____?

Do _____ support _____ goals _____ social issues?

_____ the _____ Climate and _____ goals?

Is _____ with sustainability _____ such _____ combatting climate change?

_____ the metrics _____ targets _____ tackling climate _____ or _____ social _____?

Does the _____ the _____ of _____ addressing inequality?

Does _____ metrics align with the _____ gaps or addressing climate _____?

_____ correlation with _____ aims _____ both social inequality _____ climate _____?

_____ the targets for climate change _____ measures _____ reduce societal _____?

Climate _____ addressing inequality are _____ metrics that _____.

_____ do the _____ say _____ climate _____ inequality?

_____ the metrics help us _____ tackle social injustice?

How do these metrics _____ in _____ climate _____?

Is the _____ with _____ objectives of the _____?

Is _____ metrics _____ line with _____ objectives?

_____ metrics _____ aligned _____ tackle climate _____ challenges while _____ social _____?

Do _____ provided Measurements help _____ meet _____ promote equal opportunities in _____ by _____?

What do those _____ mean _____ relation _____ the _____ reducing social _____ or _____?

What _____ these _____ say about the goal _____ social _____ and _____?

How _____ indicators _____ targets for addressing _____ change _____ societal disparity?

_____ can the metrics support _____ for addressing _____ and _____ social _____?

_____ these metrics _____ climate _____ while decreasing social disparities?

_____ performance _____ be used _____ meet _____ of _____ emissions effectively _____ also _____ socio-economic gaps within communities?

Is _____ metrics in _____ targets _____ climate change _____ fairness?

_____ metrics compatible with the _____ tackling climate change _____?

Do the provided _____ contribute _____ climate _____ or promote _____ societies _____ by _____?

_____ change _____ Inequality supported by _____ metrics?

Is _____ metrics _____ change and social inequality?

_____ the _____ make _____ difference to _____ targets or _____ promoting _____ opportunities?

_____ related _____ goals such _____ reducing _____ inequality and climate _____?

_____ the _____ with _____ Climate _____ goals?

What _____ do _____ metric _____ have on _____ targets or _____ opportunities?

Is _____ an _____ metrics to tackle climate change _____ inequalities?

Does _____ align _____ targets _____ fight _____ and promote fairness?

_____ inequality or tackling _____ goals that _____ are _____ line with.

_____ there a _____ between the chosen _____ change and _____ disparity?

_____ the chosen _____ the _____ of fighting both climate _____ narrowing societal _____?

Is it _____ metrics _____ climate _____ or addressing _____?

Is it possible for _____ metrics to _____ change and _____ social _____?

Do the selected _____ objectives of _____ climate _____ social _____?

How do these metrics _____ goals and _____?

_____ these _____ help with _____ change _____ reducing social inequalities?

Is the data aligned _____ equality _____?

_____ the _____ fit _____ the _____ for fighting _____ change and _____?

_____ metrics _____ with the _____ for climate change?

_____ the measures align _____ targets to _____ and _____ fairness?

How do metrics support _____ efforts to _____ change _____?

_____ these metrics _____ our goals _____ climate change _____ inequality?

Do the _____ metric _____ help _____ climate _____ promote _____ opportunities for _____?

Does the _____ metrics contribute _____ targets or _____ equal _____?

Is _____ compatible _____ the _____ change _____?

_____ helpful to _____ climate change and fight back _____ with _____?

_____ ask if _____ metrics _____ goals or _____ social _____.

Does _____ metrics support _____ or _____ issues?

_____ strategic metrics _____ with the goals _____ down social _____ addressing _____ concerns?

How _____ they support our _____ of _____ change _____ reducing _____?

Is _____ possible that these metrics _____ to _____ and _____ inequalities?

Do _____ support climate change _____ or _____ social _____?

_____ metrics contribute to achieving our objectives of _____?

_____ there _____ with desired results regarding environmental _____ fighting _____ or diminishing _____?

_____ it possible that the _____ with the _____ climate _____ social inequality?

Is the metrics _____ for sustainable _____ as _____ climate change?

Are _____ properly _____ climate change challenges _____ reduce _____ inequalities?

What _____ of these metrics in _____ social sustainability _____?

_____ the _____ help _____ tackling climate _____ and _____ social _____?

How can these _____ our goals about _____ inequality?

_____ the selected metrics align with _____ objectives _____ change _____ inequality?

What roles _____ metrics _____ in attaining _____ social sustainable _____?

Do _____ provided _____ contribute to meeting climate targets _____ by injustice?

_____ the _____ metrics _____ with the _____ change and _____ reduction?

Climate _____ targets and reducing _____ inequality are _____.

How do these _____ our _____ pertaining _____ climate change _____?

_____ change or _____ inequality _____ by _____ metrics?

Is the _____ in line with our _____?

_____ these _____ support our goals _____ climate change _____ reducing _____ inequality?

_____ do _____ indicators fit in _____ of _____ and decreasing social _____?

Is these _____ line _____ climate _____ goals and reducing _____?

Are _____ numbers _____ fighting climate change and _____?

Is the _____ aligned _____ the _____ and _____ reduction of _____?

_____ do _____ mean _____ the goal of _____ social _____ or climate _____?

What metrics are _____ sustainable _____ social _____ and climate _____?

_____ do _____ metrics measure _____ to _____ social goals?

Do _____ provided metric measures _____ targets or _____ opportunities?

Is _____ metrics _____ with _____ objectives _____ narrowing down _____ gaps or _____ climate _____?

_____ metrics mean in regards to _____ reducing _____ inequality and climate _____?

Does the _____ the _____ measures _____ our pursuit of _____ outcomes _____ areas _____ battling _____ addressing _____ inequalities?

_____ do the _____ tell _____ about the goal of _____ climate change _____?

Are the _____ the Climate _____?

_____ the provided metric measurements contribute _____ or _____ equal opportunities _____?

Is _____ data _____ the goal of _____ and _____?

Is the metrics _____ to _____ change _____ reduce social _____?

How _____ supporting climate _____ targets _____ reducing social _____?

_____ the metrics _____ with _____ addressing _____ change and social _____?

_____ do _____ metrics _____ for the goal _____ social _____ and climate _____?

_____ related to _____ and closing societal gaps?

_____ addressing _____ aresustainability targets.

Do _____ contribute _____ achieving sustainable _____ like _____ greenhouse gas emissions _____ poverty?

Do _____ properly _____ tackle _____ change challenges and _____ social _____?

_____ climate change _____ these metrics in _____ with _____?

What are _____ metrics that _____ aims of _____ social _____ change?

_____ be used to _____ our environmental _____ objectives?

_____ these statistics _____ us _____ our environmental _____ objectives?

_____ the metrics align with _____ change or _____ social equity?

_____ do we support _____ goal _____ addressing _____ and _____ social _____?

How _____ these indicators _____ into _____ of climate _____ and reducing _____?

_____ change or _____ inequality _____ by _____?

Do _____ metrics _____ with _____ of _____ concerns _____ narrowing down social gaps?

_____ the selected _____ compatible _____ the objectives _____ and solving _____ inequalities?

The _____ climate and equality _____.

Are _____ in _____ with _____ objectives of the _____?

Is _____ possible _____ climate _____ and _____ with these figures?

Would _____ correspond to _____ Climate _____ Equality _____?

_____ it possible _____ these _____ to _____ climate change _____ while _____ social _____?

Will adherence to _____ meeting established _____ as _____ carbon emissions effectively _____ also _____ socio-economic _____?

_____ do _____ metrics contribute _____ attaining environmental _____ goals?

_____ do _____ in attaining environmental and _____ sustainable aims?

_____ the _____ with _____ objectives _____ climate _____ and social inequality?

Do you _____ metrics _____ achieve _____ such _____ greenhouse _____ emissions _____ tackling inequalities?

_____ the chosen indicators _____ with the aim _____ fighting _____ climate _____ and _____?

Is _____ selected _____ compatible _____ of addressing climate _____ social inequality?

_____ do these _____ of climate change and reducing social _____?

_____ metrics _____ support climate _____ or address social _____?

Do these _____ correspond _____ change _____?

_____ are _____ metrics _____ to _____ climate change challenges while _____?

Is there a proper _____ these metrics _____ tackle climate _____ and _____?

_____ fit into Climate _____ and reducing _____ inequalities?

Is it _____ these _____ aims to address _____ social inequality _____ change?

_____ in line with _____ targets and reduction _____?

_____ the measures _____ with the _____ climate change?

How _____ these _____ support our goals _____ change?

In regards to _____ or narrowing _____ gaps, _____ strategic _____ align _____ the _____?

Is the _____ compatible with _____ targets _____ combat _____ fairness?

What _____ do _____ have in _____ and social _____?

Are _____ indicators _____ to the aims _____ both social _____ and _____?

_____ the _____ help _____ change or fight back _____?

How _____ metrics related _____ sustainable _____ reducing _____ inequalities?
