

[Demo] NLP Dataset for Customer Service Automation

Company Type	Auto Repair and Maintenance Shops
Inquiry Category	Problems with the air conditioning system
Inquiry Sub-Category	AC system not turning on
Description	Customers may contact for guidance on their air conditioning system failing to start, potentially caused by a faulty control panel, blown fuse, or a malfunctioning condenser unit.
Data Size	5,079 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Auto Repair and Maintenance Shop" customer inquiry. (Purchased data will not be masked.)

No power _____ conditioning _____.

_____ wasn't _____ aircon power?

Help! _____ lost!

_____ powerless.

_____ airconditioning _____ does _____ work _____ are no power _____.

_____ air conditioning system _____ the _____.

_____ conditioning system is without power _____ one _____ use _____.

_____ airconditioning _____ work _____ it doesn't have any _____.

_____ for A/C

The _____ can't _____ since there _____ no power.

_____ does not have _____ power.

_____ airconditioning _____ powered by the _____.

_____ air conditioning _____ couldn't get _____.

A/C _____ been _____!

_____ airconditioning _____ cool the _____ if there's no _____.

_____ airconditioning _____ functioning _____ it has no _____.

The _____ conditioning _____ power.

_____ airconditioning system can't _____ of _____.

There _____ electricity in _____ air _____.

_____ air _____ have any electrical _____.

There _____ a _____ of _____.

There is no _____ in the _____ system _____ cool _____.

Please _____ there _____ loss of _____.

AC _____ is _____.

_____ cool _____ because _____ airconditioning system doesn't _____ power.

The airconditioning _____ because of _____.

The _____ conditioning _____ unable _____ power _____.

There _____ sources _____ air _____ system to work.

_____ the aircon power _____?

The _____ conditioning system _____ because of _____ sources.

The _____ system _____ work _____ there _____ power _____ it.

_____ is a _____?

there _____ to the _____ system

_____ airCON _____ why?

The _____ conditioning _____ because there isn't _____ power.

The airconditioning system _____ because _____ no _____

The _____ system _____ commission because there _____ no _____.

AC _____ have _____ supply.

_____ can _____ the air conditioning _____ not having power.

The _____ conditioning system _____ have _____.

_____ aware the _____ system _____ powerless.

The _____ system isn't _____ it has _____.

The _____ electrical supply.

_____ no _____ con power.

_____ there is a _____ of _____.

_____ aircon _____ is _____ there

The _____ system _____ so _____ can't _____.

It _____ work _____ the airconditioning _____ power.

The airconditioning _____ able _____ power _____ up.

_____ air _____ couldn't power it _____

_____ conditioning system cannot be _____ it isn't _____.

_____ airconditioning system doesn't _____ is no _____.

The _____ system lacks _____.

_____ aircon _____ was _____ available.

_____ conditioning system can not _____ used _____ there _____.

_____ cannot be _____ because _____ is no power.

_____ electricity _____ the air conditioning _____.

_____ system lacks _____ sources.

Do _____ have _____ the AC system?

Please _____ A/C _____ been _____.

Why _____ there _____ an _____?

_____ isn't _____ power.

_____ airconditioning _____ doesn't _____ power _____ it can't _____.

There is _____ aircon _____.

_____ air conditioning system _____ be _____ aren't power _____.

_____ airconditioning system doesn't _____ has _____ power.

_____ is not _____ aircon _____.

It can't _____ system because _____ no _____ the airconditioning _____.

_____ airconditioning system has _____ so _____ can not _____.

The _____ conditioning _____ used since _____ are _____ power supplies.

Correct, zero _____ for _____.

_____ airconditioning _____ cannot _____ system because it does _____ have _____.

_____ air _____ system _____ power _____.

_____ isn't _____ power?

There _____ of _____ capabilities.

_____ air _____ system is _____ because there _____ sources.

_____ isn't _____ why?

Help! A/C's _____.

It cannot cool _____ is _____ power _____ airconditioning system.

_____ airconditioning _____ won't _____ power.

_____ turn on.

_____ nothing power to _____ airconditioning _____.

Air-con might _____.

_____ system _____ have electrical power.

There _____ been an _____.

_____ won't _____ up.

_____ would not power it.

Help! A/C _____.

_____ airconditioning system is not _____ because _____ is _____.

Say _____ A/C.

AC _____ have _____ supply.

_____ air conditioning _____ to run.

_____ to _____ air conditioner.

_____ conditioning _____ can't be used _____ isn't power

The airconditioning _____ not have _____ so _____ cannot _____ the _____.

the _____ powerless?

The _____ system _____ not _____ there is _____ power.

There's _____ power!

Why is _____?

Help, _____ lost.

_____ AC _____ not have _____ electrical _____.

_____ airconditioning system isn't _____ due _____.

_____ power _____ exist.

_____ conditioning _____ doesn't work because _____ no power.

_____ airconditioning system _____ electrical power.

_____ had _____ a _____ A/C's function.

_____ system has _____ electricity.

Why _____ an _____?

The airconditioning system _____ there is _____ power

_____ airconditioning system can't _____ powerless.

_____ airconditioning _____ is _____ because _____ is no _____.

_____ air _____ system can't _____ used _____ power supplies.

_____ sources for the _____ conditioning system

The air _____ to work.

The airconditioning _____ doesn't have _____ the room.

Isn't it _____?

_____ is _____ working because of the _____ of _____.

The _____ system isn't _____ because of _____.

There _____ of _____ capabilities.

_____ A/C _____ is _____.

Help! _____ lost!

Have _____ the _____ the _____ system?

Do you _____ power in _____?

There _____ power in the air _____.

There _____ no power in _____.

Please help _____ loss of _____.

There is _____ in _____ conditioning system.

_____ one _____ use the air _____ because no _____ is _____.

Are you _____ the _____ system?

Why _____ aircon _____?

_____ airconditioning _____ is not powered _____ it _____ work.

There _____ a _____ A/C's.

There _____ powerless _____.

The _____ cannot function _____ to _____.

The air conditioning system _____.

The _____ unable to function _____ to _____ of _____.

Why _____ no aircon _____?

There _____ no _____ to _____ airconditioning _____ works.

The _____ conditioning system does _____ have a _____.

_____ conditioning _____ able _____ power it.

The _____ lacks _____.

There was _____ energy _____ the _____.

The A/C capabilities _____.

_____ one _____ the air _____ system because _____ not powered _____.

_____ air _____ is _____ powered up.

_____ has _____ to _____ conditioning system.

The air _____ system couldn't _____.

_____ zero juice _____ A/C.

The _____ conditioning _____ be _____ when _____ no power.

_____ no power _____ it is not functioning.

_____ conditioning system _____ because it _____ powered up.

_____ is _____ electrical power _____ the _____.

Why _____ there _____ power?

_____ have power _____ to that.

_____ there _____ have aircon _____.

_____ isn't powered.

No _____ the _____ system _____ there isn't a _____ supply.

The _____ lacks _____ supply.

_____ isn't _____ power _____.

It's not _____ because of _____ of power _____ airconditioning _____.

_____ aircon power _____.

_____ there is _____ power?

There _____ power.

_____ system had trouble _____ power.

_____ power _____ it can't cool the room.

There _____ any _____ use the _____ system.

The airconditioning _____ because _____ lacks _____.

The _____ conditioning system _____ have _____.

_____ not _____ the air conditioning _____ because _____ isn't power.

The _____ system _____ the _____ because _____ doesn't have power.

_____ power supplies for the _____ conditioning _____ operate.

The _____ not work without _____.

_____ can't use the air _____ because there _____.

The _____ system could not get _____.

_____ A/C's lost.

_____ aircon power?

_____ use the _____ conditioning _____ because there _____ no _____.

The airconditioning _____ can't _____ due _____ a _____ of _____.

____ is no ____ to ____ airconditioning system ____ it is ____ ____.
 No ____ can use ____ conditioning ____ there ____ power supply.
 ____ room because there's no power.
 The air ____ power ____
 There ____ a loss ____ A/ ____.
 The ____ has no power, ____ it ____.
 ____ there ____ to ____ ac system?
 Please help, ____ was ____ of ____.
 ____ system can't ____ with ____ power.
 The ____ doesn't ____ supply.
 ____ conditioning ____ getting any power.
 ____ aircon power come ____?
 ____ is ____ Con power.
 ____ issue disabling ____ AC ____.
 An ____ powerless.
 Why ____ exist Aircon ____?
 ____ is ____ power ____ the ____ conditioning.
 Are ____ not ____ power to ____?
 ____ is not ____ aircon ____.
 The ____ is ____.
 ____ air conditioning ____ could ____ power.
 ____ ac doesn't have ____.
 Powerless ____ correct.
 Nobody can use the ____ conditioning ____ there ____.
 ____ wasn't an ____!
 There are ____ that ____ provide air ____.
 ____ conditioning system ____ it
 The ____ no energy.
 No ____ can ____ conditioning ____ it ____ have power.
 ____ aircon ____ not exist.
 The airconditioning ____ due ____ a lack ____ power.
 The air ____ system ____ electrical ____
 ____ zero juice ____ A/C.
 ____ air conditioning system is ____ up.
 ____ power to ____ airconditioning system.
 ____ was ____ air ____ power.
 ____ airconditioning system ____ work because of ____.
 ____ loss of ____ air conditioning's ____.
 No one ____ the air ____ when ____ isn't ____.
 ____ isn't there an ____.
 There was ____ loss ____ conditioning. ____!
 It couldn't ____ the ____ system.
 The ____ doesn't work ____ the ____ isn't on.
 There ____ no power to ____ system, so ____.
 The airconditioning system ____ cool ____ room since ____.
 Because ____ is ____ aircon ____.
 ____ the ____ power not ____?
 ____ help, there ____ lost of ____.
 ____ conditioning ____ be ____ due ____ lack of power.
 There ____ loss ____ A/C.

The _____ power so _____ can't work.
There _____ for A/C.
There _____ to _____ airconditioning system.
Are _____ that _____ system has no _____?
The _____ is _____ powered on.
_____ airconditioning _____ has _____ power, _____ it cannot _____.
_____ is _____ for the _____ conditioning system.
Because _____ isn't power, no _____ can _____ air _____.
The air conditioning system _____ power and _____ use _____.
A/C _____ were _____.
_____ air conditioning _____ load.
Yes, Powerless _____?
_____ airconditioning _____ running because _____ a _____ of power.
The airconditioning _____ is _____ due _____ of _____.
I _____ of A/C's, _____!
_____ does not have any _____ sources.
Why, _____ aircon _____?
_____ A/ C, _____?
The _____ is _____ to run _____ there is _____.
_____ in the _____ conditioning system
Are you aware _____ power?
_____ one can use _____ air _____ its _____ of power.
The air _____ power it _____
_____ can't work because there are _____ sources.
Why _____ there _____?
The air _____ used because it _____ up.
_____ air _____ system _____ being _____ up.
There is no _____ airconditioning system _____.
The _____ without power.
The _____ had no _____.
HELP! _____ of A/C's.
You _____ to the AC _____?
_____ AC does not _____
_____ aware _____ the powerlessness _____ the ac _____?
The air _____ system does _____ work _____ are _____ power _____.
_____ the air conditioning _____.
The _____ isn't functioning because _____ out.
There's _____ A/C's.
The _____ not have _____ electrical _____.
_____ lost _____ capabilities.
_____ conditioning system with _____.
_____ are _____ sources _____ the air conditioning _____.
There _____ a loss _____.
There _____ for _____ A/C.
_____ AC system powerless?
_____ There _____ a _____ AC's.
There isn't any _____ air _____ system.
An _____ powerless.
_____ airconditioning system _____ the room _____ the powerlessness.
The _____ system _____ it lacks _____.

_____ air _____ not _____ an electrical power supply.

_____ lost, help.

The _____ power _____ there.

_____ was a _____ a/c.

The _____ the _____ without the power.

_____ is _____ electricity for _____ airconditioning _____.

_____ is _____ not aircons _____?

The _____ power it _____.

The _____ isn't running _____ not _____ up.

There was _____ A/C's,help!

_____ airconditioning system _____ not working _____ no electricity.

It is _____ possible _____ system because _____ is no power.

There _____ an electrical _____ the _____.

_____ air conditioning system _____ because _____ no power.

_____ AC _____ powerless.

Why _____ there _____ aircon _____?

_____ system _____ room since it _____ no power.

Nope, _____ A/C.

_____ system is powerless, _____ that?

No _____ to the _____ system means _____.

_____ airconditioning _____ won't work _____ power.

A/C's _____ help!

We _____ function.

_____ air conditioning system cannot be _____ of _____.

Help! _____ functions _____ lost.

The _____ system _____ get power _____.

_____ no power _____ use the air conditioning _____.

_____ juice for _____.

_____ conditioning, _____ electricity.

The air _____ unit _____.

The _____ system _____ not _____ the lack of _____.

Help! _____ has _____ lost.

_____ airconditioning system _____ cool _____ room _____ there _____ power _____ it.

_____ use _____ air conditioning system _____ there isn't any _____.

The _____ cannot _____ used _____ there isn't any _____.

The airconditioning system _____ cool _____ room _____ not _____.

Theair _____ system _____ no _____.

Please _____ because _____ was _____ loss _____!

The _____ has _____ so it isn't _____.

The airconditioning _____ to work.

Please _____ there _____ a _____ A/C's.

_____ airconditioning _____ isn't _____ it isn't _____ up.

_____ airconditioning system _____ no _____ so _____ is _____.

No one can _____ air _____ system _____ a _____ source.

_____ a loss _____ A/C's, _____ help!

_____ the _____ system is _____.

_____ be _____ aircon power

_____ air-con is _____.

_____ there be _____ aircon _____.

_____ are there no _____.

_____ airconditioning system doesn't _____ due _____.

_____ aircon power come _____?

The _____ system is unable _____ cool the _____ not have _____.

There is no power _____.

_____ airconditioning system _____ so _____ power the system.

_____ air _____ system _____ the _____ on.

No one can use _____ there's _____ power.

_____ is _____ to _____ air conditioning system.

The airconditioning system _____.

The _____ work because there's no _____.

_____ of A/C were _____.

The airconditioning system can't _____ because _____ no _____ it.

_____ conditioning _____ does _____ function _____ there are _____ power sources.

No _____ can use the _____ conditioning _____ of _____ supplies.

The _____ has no power so _____ not _____ the _____.

the _____ conditioning _____ power _____

_____ airconditioning _____ function _____ there _____ no power.

_____ AC system _____ powerless.

_____ is _____ working _____ to lack of power.

_____ for the air _____ system.

The airconditioning _____ not _____ there is _____ power

_____ person can use the air _____ power.

_____ power for the air conditioning _____ work.

There _____ any _____ air _____ system _____ be used.

No power to the _____ means _____.

The AC _____ not _____ an _____

_____ ac does _____ supply.

_____ airconditioning system is _____ no _____.

_____ was _____ loss _____ air conditioning.

_____ A/C function _____.

_____ power is not _____.

_____ was no _____ why?

Correct, _____ juice _____ the _____.

It _____ for _____ air conditioning system to _____.

_____ system _____ function due to _____.

_____ is not _____ aircon _____?

The _____ conditioning system is unreliable _____.

_____ powerless

AC doesn't _____ electric _____.

There _____ any _____ in _____ system, so _____ one _____ use _____.

_____ possible to _____ the _____ conditioning _____.

_____ you noticed _____ is powerless?

No _____ will use the _____ because _____ are _____ supplies.

The airconditioning _____ has _____ can't run.

_____ was _____ of A/C's

The _____ system _____ unable _____ power _____.

There is _____ power source to _____ system.

The _____ is _____ possible because there _____ power supplies.

_____ Air _____ system couldn't _____.

_____ power in the airconditioning _____

The ____ conditioning system ____ because ____ electricity.

The ____ system can't ____ the ____ because ____ power.

____ system has ____ so it cannot ____.

The airconditioning ____ powered ____ of ____ power.

____ airconditioning ____ have ____ power supply.

The airconditioning ____ couldn't ____.

____ airconditioning ____ not powered up so ____ can't ____.

____ system ____ because ____ not having power.

The airconditioning ____ cannot work ____ there ____.

There is ____ power ____ the airconditioning ____ so ____ is ____.

The ____ system ____ because ____ power.

The ____ doesn't ____ supply.

The ____ system lacks ____ so ____ power ____ system.

The airconditioning ____ doesn't ____ can't operate.

Air conditioning ____.

____ airconditioning ____ can't function ____ is no ____.

____ power is ____ to ____ air conditioning ____.

____ juice ____ A/C.

no one ____ the air ____ if ____ power

The air conditioning ____.

____ aircon power

The airconditioning ____ cannot ____ because there ____ no ____.

____ is ____ not aircon ____

Electricityless ____?

no ____ why?

____ doesn't ____ have aircon ____?

There ____ energy in ____ conditioning.

____ that doesn't ____?

____ airconditioning ____ is ____ so it ____ the room.

Are ____ of ____ of the AC ____?

____ doesnt ____ an ____ supply.

____ work because there ____ power.

____ could not ____ powered up.

____ airconditioning system ____ system because of no ____.

The ____ cannot ____ used because there is ____ power ____.

The ____ system did ____ up

____ is ____ not ____ power?

The ____ conditioning ____ getting ____.

____ is unable ____ get power.

____ is ____ electrical ____ AC.

There is ____.

____ one can use ____ system if there ____ no ____

____ conditioning ____ cannot be used if there ____ supplies.

Did ____ know ____ the ____ system ____ powerless?

____ supplies, no one ____ use ____ air ____ system.

____ insufficient electrical supply.

The airconditioning system ____ power ____ of ____.

____ conditioning ____ not receive power.

____ lacks ____ power?

____ A/C function.

No one _____ the air conditioning _____ if _____ power.

The _____ of _____ reported.

_____ isn't functioning due to _____ lack of _____.

The air _____ system _____ be _____ there _____ no power.

The _____ does not _____ power, _____ is not _____.

_____ can't cool the _____ because _____ power is _____.

Are _____ of the fact that the _____ system _____?

The airconditioning _____ isn't _____ of _____ power _____.

There _____ A/C's. help!

There isn't any power and _____ system _____.

_____ air _____ cannot be used _____ isn't _____ power.

There _____ run the _____ system.

There is no _____ in the _____.

The airconditioning system can't _____ because _____ power.

The _____ conditioner _____ electrical _____.

_____ is no power to the _____ it _____.

_____ isn't an electrical _____ to the _____.

The air _____ couldn't _____ it _____.

_____ aircon power?

_____ not _____ power.

A/C has _____ for _____.

_____ isn't _____ airconpower?

Correct, _____?

The _____ power so _____ function.

_____ the air _____ system _____ there isn't _____ power.

_____ not anaircon _____.

The _____ system _____ cool the _____ because it _____.

The _____ powerless.

_____ of A/C function.

_____ not have _____ to _____ system.

Help, _____ have been _____.

_____ airconditioning system _____ to lack of _____.

Yes, there _____ A/C.

_____ isn't aircon _____ available, _____?

Help, _____ of A/Cs.

_____ air _____ has _____ power.

_____ airconditioning _____ isn't _____ because _____ power.

_____ conditioner _____ not _____ any energy.

_____ one can _____ air _____ because of the _____ shortage.

_____ is _____ to AC.

The _____ system doesn't _____ it _____ keep the _____ cool.

_____ conditioning system couldn't _____ power.

Why _____ exist _____ power?

It is _____ juice _____.

_____ airconditioning system _____ used because there aren't _____.

It _____ work _____ airconditioning system has _____.

_____ system doesn't work because _____ power _____ it.

The airconditioning system _____ not _____.

_____ is _____ aircon _____ no?

The _____ does _____ have _____ power.

_____ there _____ zero juice _____ A/C.
 _____ system _____ function _____ there is no _____.
 How could _____ aircon _____?
 _____ is not _____ why?
 _____ airconditioning _____ is _____ working, because _____ is no _____.
 _____ air _____ doesn't work because _____ any _____ sources.
 _____ airconditioning _____ powered up.
 There's _____ the airconditioning _____.
 _____ conditioning _____ had _____ electricity.
 _____ is no electrical _____.
 _____ air _____ system _____ of the lack _____ power supplies.
 The air _____ system was _____ power _____ up.
 What _____ the reason _____ is _____?
 _____ air _____ was not _____ on.
 _____ Zero _____ A/C.
 _____ airconditioning is _____ running _____ is no _____.
 Without _____ the _____ system can't _____.
 _____ the air conditioning _____ there's no power.
 _____ is _____ the airconditioning system.
 Because there _____ power sources, _____ air _____ can't _____ used.
 The _____ system cannot _____ used _____ are _____ power _____.
 The _____ system is not running _____.
 The airconditioning system _____ lack of power.
 _____ no _____ for _____.
 The airconditioning _____ power _____ it's _____ running.
 _____ has _____ aircon power?
 The airconditioning _____ is _____.
 _____ is _____ aircon power _____?
 _____ is not _____ to _____ airconditioning _____.
 _____ has no _____
 _____ a loss _____ air-conditioning _____.
 _____ disabling the AC _____.
 The _____ system _____ able _____ get _____.
 A/C _____ power _____.
 The airconditioning _____ has _____ so it _____ power _____.
 There was a lack _____.
 _____ is _____ supply.
 The _____ not powered.
 _____ system _____ able to _____ power.
 _____ airconditioning system has _____
 There _____ the air conditioning _____ no one _____ use _____.
 _____ conditioning _____ didn't _____ power
 There _____ the air conditioning _____.
 _____ no _____ to the _____ systems.
 _____ airconditioning _____ has no power, so _____.
 No one _____ use the air _____ because _____ no _____.
 _____ airconditioning system _____ functioning because of not _____.
 Why wasn't _____ aircon _____?
 The _____ system _____ be _____ due to _____ power.
 The airconditioning system _____ power.

_____ airconditioning system _____ powerless as _____ power the _____.

The air _____ getting power.

The _____ conditioning system doesn't have _____ one can _____.
_____ is without _____.

No _____ the _____ conditioning system _____ it isn't _____.

The air _____ no _____.

There _____ no _____ to _____ system and it _____.

AC system _____.

_____ can use _____ air _____ because _____ not _____ a power source.

There _____ loss _____ the _____!

_____ does not _____ an _____ power?

_____ to the _____ means it _____ power _____ system.

_____ are no power _____ one can _____ air _____ system.

No _____?

The _____ system _____ because no power _____ available.

The power to _____ air _____ was _____.

There _____ air-con _____.

_____ wasn't _____ power.

_____ conditioning _____ of service.

_____ zero _____ for _____.

_____ the air conditioner.

_____ is _____?

_____ airconditioning system _____ function because _____ power to _____.

_____ There _____ of A/Cs.

_____ no _____ within _____ air conditioning _____.

_____ isn't available in _____.

_____ air con _____?

_____ you _____ power to the _____?

_____ conditioning _____ power up.

The _____ system _____ be _____ there _____ no power.

The airconditioning system _____ cooling the _____ doesn't _____.

_____ system _____ because of the power _____.

There _____ of _____ capabilities.

The _____ because there are no power _____.

A/C's function _____.

There's _____ to _____ air conditioning _____

The _____ doesn't _____ because _____ isn't _____.

A/C function _____.

_____ airconditioning system _____ because there _____ power in it.

_____ no power sources that _____ supply _____.

_____ was unable to get _____.

_____ one _____ use the air conditioning system because _____.

It's not functioning _____ power to the _____.

_____ isn't _____ a aircon _____?

_____ air conditioning _____ isn't usable _____ power.

The _____ the _____ system is _____.

_____ AC _____ supply.

_____ air conditioning _____ get _____.

The _____ conditioning _____ has _____ power _____ you _____ it.

The _____ does _____ work with _____ power.

There is ____ a ____ airconditioning system.
____ system ____ to get power.
____ airconditioning system ____ due ____ having power.
____ does ____ not have ____ aircon ____?
No one ____ conditioning ____ not having any power.
____ room can't ____ the ____ has no power.
____ lost.
____ was a ____ of ____.
The ____ system cannot be ____ because ____.
____ is lost.
____ airconditioning system can't ____ because ____ lacks ____.
____ conditioning system ____ of power.
An air ____ no ____.
Everyone ____ use ____ air conditioning system ____ there ____.
____ system isn't ____ there is ____ power.
The ____ conditioning ____ can't be ____ since ____ no power ____.
____ AC ____ powerless
____ isn't ____ in the ____ conditioning ____.
The ____ system ____ it can't cool ____ room
____ lacks power, ____ can't work.
The airconditioning ____ to cool ____ room.
____ power ____ the air ____ system.
An ____ has no ____.
No ____ the air ____ because ____ is no power.
The ____ system does ____ power, so ____ cannot power ____.
____ lost
____ a ____ of the ____ function.
____ airconditioning ____ no ____ it can't keep the ____ cool.
____ power ____ the ____ system, ____ can't ____.
The ____ conditioning system doesn't ____ there isn't ____.
____ system can't ____ the room ____ of its lack ____.
The airconditioning ____ the room ____ because ____ no ____.
____ conditioning system ____ powerless?
____ work because it's without ____.
The airconditioning system ____ due ____ lack of ____.
There is ____ the ____ conditioning ____.
Powerless ____?
____ airconditioning ____ can't function ____ of ____ of power.
Absolutely ____ for ____.
____ aircon power ____.
____ zero ____ A/C?
____ is ____ electrical power ____ the ____.
Why didn't ____?
____ air ____ system didn't ____.
____ there's ____ loss of ____.
____ system doesn't ____ due to ____ of ____.
____ you ____ of ____ fact that ____ is powerless?
____ air ____ can't be used because there ____ any ____.
____ power in ____ system and ____ cool the room.
The ____ doesn't ____ supply.

_____ there was _____ loss _____ air conditioning _____.

The airconditioning _____ unable _____ it.

_____ the aircon _____?

The _____ work because _____ powerlessness.

_____ conditioning _____ was without _____ source.

No power to the _____ it _____ power _____.

_____ function was _____.

_____ airconditioning _____ is _____ running because it isn't _____.

_____ you _____ that _____ system _____ powerless?

_____ juice for _____?

zero _____ A/C.

No _____ use _____ air conditioning system _____ there _____.

There's no _____ in _____.

_____ air _____ was _____ power itself.

The _____ conditioning system _____ no _____.

Right? _____ for _____.

The _____ get power.

_____ aircon power?

The _____ conditioning _____ getting _____.

_____ couldn't power _____ system.

The airconditioning system _____ cool a room _____.

The _____ conditioning system isn't _____ so _____ can _____ it.

There _____ power.

_____ there _____ a loss of _____.

The _____ system _____ because it _____ powered _____.

The _____ conditioning _____ power _____.

_____ supply in the AC.

Powerless _____?

_____ loss _____ A/Cs.

The air _____ could _____ electricity.

_____ air _____ system _____ be used because there _____.

_____ can't function _____ it _____ power.

_____ AC _____ supply.

_____ malfunctioning due to _____ of power.

Did you know the _____?

Please _____ because _____ of A/C's.

_____ airconditioning system _____ powered because _____ isn't any _____.

The airconditioning _____ have power _____ can't _____ it.

_____ don't _____ power?

_____ system can't function because _____ power.

_____ A/C became _____.

The _____ no _____ so it is not _____.

_____ airconditioning system can't work because _____.

Help, there was _____ conditioning _____.

_____ system won't _____ there is no power.

_____ well?

The airconditioning _____ function _____ it _____ power.

AC doesn't _____ electrical _____.

Zero _____ air-conditioning?

_____ does there _____ aircon _____?

_____ have any _____ so no one can use _____.

The air _____ to operate.

Why does there _____ an _____.

Are _____ the AC _____ powerless?

_____ airconditioning system does _____ work because _____.

Are _____ without _____ to _____ system?

The _____ conditioning _____ has _____ with _____.

_____ one can _____ the _____ conditioning _____ there isn't _____.

The _____ have any _____.

The airconditioning _____ is _____ because there _____ electricity.

no _____ the air _____

There isn't _____ so _____ one can use the _____.

There _____ no _____ the air _____.

The room _____ cooled _____ is _____ power to _____ system.

The _____ had _____ strength.

_____ can _____ air _____ because there is no power in _____.

The airconditioning system is _____ of power.

There _____ no _____ sources _____ the _____.

Why _____ there _____ aircon _____?

_____ air conditioning system _____ work because _____ isn't _____.

_____ you _____ that The _____ system _____?

Are you aware _____ powerlessness?

_____ a loss of _____.

_____ the reason there is _____ power?

_____ system _____ power _____ not running.

An air _____ no _____.

there is _____ an _____.

_____ airconditioning system cannot function _____ it _____ have _____.

_____ is _____ electricity _____ the air _____.

There _____ no air _____.

no one _____ use _____ air _____ system _____ it _____ have _____

_____ A/C _____ been lost.

_____ system can't be _____ it _____ no power.

_____ in _____ air _____ system so no one _____ use _____.

_____ didn't there _____ any _____?

The airconditioning system can't cool the _____.

There _____ any power _____ power the air _____.

The _____ does _____ have the power _____ cool _____.

There was not _____.

_____ aircon power, _____?

Why _____ there no _____?

Help! _____ a _____ A/Cs.

_____ Powerless A/C, _____?

_____ is no _____ for the _____ system _____ cool _____.

The _____ can't _____ because _____ lack of power.

_____ conditioning _____ can't be _____ there is not any _____.

A/C capability _____.

No one can use the _____ system _____ there _____ a _____.

The _____ conditioning _____ power.

_____ air conditioning system won't _____ because _____ no _____.

_____ there an aircon _____?

Are _____ AC system is _____?

_____ air conditioning _____ be _____ of not having _____.

Assist! there _____ of _____.

The _____ not powerful.

_____ airconditioning system cannot be used _____ is _____.

The _____ because it doesn't have _____.

There _____ aircon _____.

_____ air _____ system is _____ is no power.

There isn't _____ operate the air _____.

The _____ no power _____ it isn't _____.

The _____ system _____ work _____ the _____.

_____ power is _____?

_____ right?

_____ no _____ so nobody can use it.

_____ conditioning system can't _____ used because of _____ power.

The airconditioning _____ function _____.

The airconditioning system _____ power _____ there _____ no _____.
