

[Demo] NLP Dataset for Customer Service Automation

Company Type	Investment Firms
Inquiry Category	Stock market and trading inquiries
Inquiry Sub-Category	Risk Management
Description	Inquiries on risk mitigation strategies, stop-loss orders, risk tolerance assessment, and ways to protect investments from market volatility or potential losses.
Data Size	5,130 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Investment Firm" customer inquiry. (Purchased data will not be masked.)

Which long-term assets reduce _____ to general economic conditions _____ their _____ correlation _____ asset _____?
_____ of _____ assets have _____ correlation _____ other _____ makes them less sensitive to economic _____.
_____ long term _____ low correlations with other _____ and can make _____ portfolio less _____ economic _____.
_____ term _____ have _____ correlation _____ other assets, so they _____ sensitivity to _____.
_____ have low correlation _____ other _____ making a _____ less _____ to _____.
Do you know _____ low _____ reducing exposure to broader _____?
_____ investment _____ show a _____ response to _____ in the economy due to their _____ other _____?
Do _____ asset classes _____ conditions _____ limited correlations with others?
Some _____ term _____ have low correlations _____ other _____ sensitivity.
Do certain types _____ assets _____ reduced _____ economic _____ because _____ are _____ other assets?
_____ certain _____ with other _____ affect the susceptibility of _____ fluctuations in _____ economic factors?
Which long-term _____ can lower _____ limited correlation _____ other investments?
Is there any _____ that _____ to _____ investment strategy due to being _____ correlated _____ different _____?
Are there any assets that _____ correlation _____ that could help _____ portfolio _____ fluctuations?
What assets _____ correlation _____ classes _____ it comes _____ sensitivity to economic fluctuations?
_____ assets _____ low correlation with other assets _____ this reduces _____.
_____ of the _____ term _____ have _____ correlation with other assets _____ lessened _____ to _____ conditions.
Which long-term holdings _____ the _____ lower portfolio reactivity _____ economic fluctuations _____ limited _____ investments?
Do _____ assets _____ a reduced _____ to _____ fluctuations because they _____ assets?
Which _____ assets are less sensitive to general _____ of _____ other _____?
_____ with low correlation with _____ classes _____ have less _____ to _____ conditions?
_____ low correlation _____ other _____ do _____ long-term _____ decrease the _____ of portfolios _____ economic fluctuations?
Some long term assets _____ low correlation _____ assets, _____ they lower _____.
_____ you know of any long-term investments _____ low _____ reduce a _____ exposure _____?
_____ reduced susceptibility to economic fluctuations because _____ are weakly correlated _____ other _____?
Some _____ long term assets have _____ with _____ and make _____ less _____ to economic _____.
Can _____ suggest _____ show _____ correlation with _____ classes and _____ portfolio _____?
Do _____ assets _____ low correlation with _____ classes and _____ the _____ to general _____ factors?
Some long term _____ have _____ correlation with _____ that decrease _____ economic _____.

_____ term _____ low correlation with _____ assets and reduced the _____ economic _____.

Do _____ long-term _____ that _____ low _____ that _____ reduce a portfolio's exposure to broader _____?

_____ long _____ assets _____ correlation _____ other _____ to _____ a portfolio _____ sensitive to _____ downturns.

Some long-term _____ low correlation _____ other asset _____ reducing _____ economic _____.

_____ of the _____ have low correlation _____ other _____ a _____ less sensitive to economic _____.

What asset _____ vulnerability _____ conditions _____ have limited correlations _____ others?

_____ the _____ assets have low correlation with other _____ they don't increase _____ to _____.

Do certain _____ that are _____ correlation _____ other _____ susceptibility of portfolios to fluctuations _____ factors?

Can you _____ me examples _____ long-term _____ are recognized as having _____ other _____ of _____?

_____ term _____ have low correlation _____ assets, so this decreases _____ to _____.

Which long-term _____ a portfolio's sensitivity _____ general _____ to their low _____ with _____ classes?

_____ are _____ options _____ show _____ reduced reaction _____ to their low _____ with other asset classes.

_____ holdings have _____ capacity _____ lower _____ during economic fluctuations through _____ correlation with other _____?

Some long term assets _____ correlation with _____ makes _____ portfolio less _____ certain economic _____

_____ types have low correlations with the market _____ insulate _____ fluctuations caused by _____?

Do _____ have _____ susceptibility _____ general economic fluctuations because they are _____ with _____ asset _____?

_____ term assets _____ low _____ other assets, _____ they decrease the _____ of _____.

_____ of _____ assets _____ low correlation with _____ which make a _____ less sensitive _____ economic _____

_____ can minimize _____ volatility _____ portfolio by _____ little correlation _____ other assets?

_____ of _____ term _____ with _____ assets that have reduced the sensitivity _____ the portfolio.

_____ long-term assets affect _____ to economic conditions due to _____ other asset _____?

_____ assets have low correlation _____ and that _____ the portfolio's _____.

_____ term _____ have low _____ with _____ so _____ are less sensitive _____ economy.

Which long-term holdings have the _____ to _____ fluctuations _____ a _____ correlation with other investments?

Are there any investment options _____ a _____ reaction to _____ in the _____ due _____ correlation with _____?

Which specific _____ of their _____ interaction with _____ assets, _____ influence _____ trends _____ investment portfolios?

_____ term _____ have _____ correlation with other _____ a portfolio less _____ to _____ downturns.

_____ term assets have _____ correlation with _____ assets that _____ sensitivity.

The _____ have _____ correlation with _____ assets _____ are less sensitive _____ conditions.

_____ you suggest _____ that _____ low _____ with _____ classes, _____ portfolio sensitivity?

_____ you suggest assets _____ are low _____ that will _____ protect _____ portfolio _____ economic fluctuations?

_____ long term _____ have _____ with other _____ so they _____ to the _____

Which particular _____ have _____ ability _____ lower _____ reactivity through their _____ other investments?

_____ you have _____ ideas _____ assets that have _____ correlation _____ classes and _____ portfolio _____?

_____ long-term _____ that are classically _____ for weak correlations to other types of _____ and therefore _____ to _____

_____ long term _____ have _____ with _____ other _____ reduced the sensitivity _____ economic conditions.

Which asset _____ have low correlations _____ the _____ can help _____ portfolio against _____ by _____?

_____ long _____ assets have _____ with _____ and _____ reduced sensitivity _____ economic conditions

Some of _____ have low correlation _____ other _____ sensitive to economic downturns.

Some long _____ assets _____ low correlations with _____ making _____ to _____ downturns.

Which specific assets _____ trends on investment portfolios due _____ weak interaction with _____?

Do _____ vulnerability to market conditions and _____ correlations?

_____ the _____ to _____ a _____ reactivity _____ economic _____ due to their _____ correlation with _____ investments?

_____ long-term assets _____ to general economic conditions due _____ low _____?

Is _____ any _____ options _____ show a reduced _____ to changes _____ the economy _____ their _____ other _____?

_____ correlation _____ classes when it comes _____ portfolio _____ to economic fluctuations?

Some long-term investments that _____ other asset classes _____ their _____ fluctuations.

Some _____ the _____ low _____ with _____ assets _____ portfolio less sensitive _____ certain economic situations.

_____ you _____ long-term assets that have low correlation _____ and reduce _____ economic conditions?

_____ term assets _____ low _____ other assets, _____ reduces _____ sensitivity.

_____ have _____ low _____ other _____ classes, which reduces their sensitivity _____ fluctuations?

_____ of assets _____ insulation against economic _____ due _____ their weak _____ with _____?

_____ to suggest _____ assets _____ have low correlation with other _____ and _____ economic conditions?

Some _____ assets have low _____ with other _____ which _____ sensitive _____ economic _____.

Do certain long-term assets that have low correlation _____ classes _____ general _____ factors?

_____ long-term holdings _____ to lower _____ reactivity during _____ fluctuations through their _____ with _____ investments?

Some _____ term assets _____ correlation with _____ so _____ decrease _____ to _____ conditions.

_____ have low correlation _____ classes _____ it _____ a portfolio's sensitivity to economic _____

Some _____ assets have low _____ other assets and _____ portfolio's _____ to _____

_____ any investment options _____ reaction _____ in _____ economy _____ to _____ low correlation with other asset classes?

Some _____ the long _____ have _____ with other _____ sensitivity _____ the economy.

_____ the long term assets _____ other assets and have reduced _____ to economic _____.

_____ the long _____ low correlation _____ other assets and _____ portfolio _____ sensitive to _____ downturns.

Do _____ any long-term _____ low correlation and reduce _____ exposure _____ market?

Do you _____ long-term _____ show low _____ with other classes _____ reduce portfolio _____?

The _____ general _____ on investment _____ by specific assets _____ their weak _____ with other _____ types.

Some _____ long _____ assets have low _____ other assets _____ decrease _____ the economy.

_____ long-term assets with low correlation _____ classes and _____ to economic _____?

_____ long _____ assets have low correlation _____ other assets and _____ reduced _____ economic.

Some _____ have a low correlation _____ other _____ classes _____ them less _____ fluctuations.

_____ certain _____ assets show reduced _____ to economic fluctuations because _____ are not _____ asset _____?

_____ long-term assets _____ little correlation _____ other _____ types _____ general economic _____?

Some of the long term _____ correlation with _____ changed _____ sensitivity _____ the _____ to economic _____ asset classes _____ portfolio's sensitivity _____ economic conditions?

Do you know _____ investments _____ low correlation that reduce portfolio _____?

Do you _____ that _____ and _____ portfolio exposure to _____ market conditions?

_____ of _____ term assets _____ with other assets _____ have reduced _____ economic.

Some of _____ low correlations with _____ assets and have _____ the _____ of _____ to economic _____ know _____ investments that have low correlation _____ will _____ exposure _____ market conditions?

Which low-correlation _____ the _____ of a portfolio _____ general _____ conditions?

Can you suggest long-term _____ which have low _____ classes _____?

_____ have _____ correlation _____ other asset classes, _____ reduces _____ to economic fluctuations

Some _____ assets _____ low correlation _____ which _____ the sensitivity of the portfolio _____ economic _____ term _____ and _____ assets make a portfolio _____ sensitive _____ economic conditions.

_____ long _____ assets have low _____ assets, so _____ decrease _____ to economic conditions.

Long-term assets _____ correlation with other _____ classes, _____ sensitive to _____ economic _____.

_____ of _____ long _____ have _____ with other assets, _____ they are less _____ to _____ economy.

Some _____ have low _____ assets and have _____ the sensitivity to economic _____ portfolio.

Some _____ term assets _____ correlations _____ other assets and _____ portfolio less sensitive to certain _____.

Some of the _____ have low correlation with _____ and have _____ of _____ portfolio.

Some _____ that _____ low _____ with _____ asset _____ reduce _____ sensitivity _____ economic fluctuations.

Some _____ term assets have _____ with other assets which _____.

Do _____ assets have _____ with other _____ decrease the susceptibility _____ to _____ economic factors?

_____ of _____ term assets have _____ with _____ assets _____ reduces portfolio _____

_____ tell _____ low correlation _____ can use to protect _____ portfolio from economic _____?

_____ the long _____ assets have low _____ other _____ making them _____ to certain economic _____.

What _____ have _____ correlations _____ classes _____ it comes _____ a _____ sensitivity _____ economic fluctuations?

_____ long term _____ have low correlation _____ assets _____ to the economy.

If _____ want to _____ the _____ of a portfolio, _____ show little correlation with _____?

_____ long-term _____ with low _____ with other _____ susceptibility of portfolios?

_____ term assets have low _____ that _____ them less sensitive to _____ conditions.

Is _____ susceptibility to _____ fluctuations because they _____ other asset classes?

Some long _____ assets _____ correlation _____ other _____ limited sensitivity to economic _____.

_____ assets reduce the portfolio's _____ general economic conditions _____ low correlation _____ asset classes?

_____ investments have _____ correlations _____ classes, which _____ their sensitivity _____ economic fluctuations.

_____ low-correlation asset _____ help mitigate _____ general economic _____?

_____ certain long-term _____ susceptibility _____ economic fluctuations _____ they _____ correlated with other asset classes?

_____ of the _____ term _____ have _____ with other assets which decreases _____

Some _____ assets _____ other _____ that _____ reduced _____ sensitivity of the portfolio.

_____ assets have minimal _____ classes _____ the sensitivity _____ to economic conditions.

_____ long _____ assets _____ correlation with _____ assets _____ make _____ portfolio less sensitive to some _____.

_____ of the long _____ have low _____ assets _____ make a portfolio _____ to _____ downturns.

_____ long-term _____ have a _____ with other _____ classes _____ less sensitive _____ fluctuations?

_____ assets provide insulation against changes _____ the economy, due to _____ weak _____ categories?

Are there any _____ that have _____ to _____ in the economy due _____ low correlation with _____?

_____ any _____ that show a _____ reaction to changes in the economy _____ they _____ assets?

_____ long-term _____ have low correlation _____ asset _____ their sensitivity towards _____.

Some long term assets _____ correlation _____ they _____ sensitivity _____ the economy.

What _____ with other assets concerning _____ a _____ to economic fluctuations

_____ certain _____ assets _____ a _____ susceptibility _____ economic fluctuations because _____ are _____ correlated with other _____?

Some long _____ have low _____ with other assets, _____ make _____ less _____ certain economic _____.

Do certain long-term assets _____ correlation _____ other classes and therefore decrease _____ susceptibility _____ to _____?

_____ with _____ asset types, certain assets _____ the _____ of _____ economic trends _____ investment portfolios.

Some of the _____ term _____ correlation _____ a portfolio _____ sensitive _____ downturns

_____ long term _____ have _____ correlation with _____ assets, making a portfolio _____ sensitive _____ certain _____.

Some long-term investments _____ other _____ their _____ towards economic fluctuations

Some _____ term _____ have _____ other assets and that _____ to _____ economy.

Some long _____ assets have _____ which makes their portfolio less _____ economic _____.

_____ you _____ of long-term _____ that _____ classically _____ for their _____ correlations _____ other types of securities _____ vulnerabilities to _____

Some _____ have low correlation with _____ and have _____ reduced sensitivity to economic _____.

Some of the long _____ low _____ with _____ assets _____ a portfolio _____ sensitive to _____.

Some long _____ assets _____ low _____ assets _____ that _____ a portfolio less sensitive _____ certain _____.

Some long term assets have _____ assets and therefore _____ portfolio _____ to _____ conditions.

What assets _____ correlation to _____ classes _____ sensitivity to _____?

_____ long _____ assets have low _____ with other _____ reduced _____ of the _____ to _____ economic.

Do _____ long-term _____ with other _____ that decrease _____ of portfolios?

_____ on long-term _____ investments that demonstrate _____ macroeconomic _____ limited correlations.

_____ long term _____ to economic fluctuations _____ are weakly correlated _____ assets?

_____ you suggest _____ with low _____ protect my _____ economic _____?

Some of _____ long term _____ have low _____ with other _____ a _____ economic circumstances.

Do some assets have _____ to _____ fluctuations because they _____ assets?

_____ mitigate the sensitivity of _____ portfolio towards economic _____?

_____ of _____ long _____ have low correlation with other _____ makes them less _____ conditions.

What assets are _____ with other _____ affect _____ portfolio's sensitivity to _____?

What assets reduce _____ economic _____ due _____ low _____ with _____ assets?

_____ there any asset classes _____ to market _____ have _____ to others?

Some _____ term _____ have _____ correlation with _____ assets _____ portfolio less _____ to economic _____.

_____ long-term investments have low _____ other asset _____ sensitivity towards _____ fluctuations.

Do _____ of _____ long-term investments that have low _____ exposure?

Some of the _____ assets have _____ low correlation _____ other assets, which _____ a _____ economic _____.

_____ long term _____ with other assets and _____ a _____ sensitive to _____ economic situations.

Which _____ assets _____ show little _____ with other _____ during _____ downturn?

_____ long-term _____ have a correlation with _____ decreases the _____ of portfolios to _____ economic factors?

_____ long-term assets _____ a portfolio's _____ to general _____ conditions _____ low _____ other _____?

Which _____ can show _____ correlation with _____ types _____ during times _____ uncertainty?

_____ you _____ any _____ investments with low correlation _____ will _____ a _____ exposure _____ conditions?

Some _____ the long term assets have _____ the _____ assets _____ of the portfolio to _____.

Some _____ term assets _____ to _____ make a portfolio less sensitive to _____.

Which _____ reduce the _____ sensitivity to economic _____ because of _____ with _____ classes?

_____ you _____ of _____ assets that are _____ weak correlations _____ of _____ reduce vulnerabilities to broader economic shifts

_____ long term assets _____ low _____ assets _____ less sensitive to _____ conditions.

_____ of _____ long _____ assets _____ low _____ with other assets, and this makes _____ portfolio less _____.

Some of _____ long term assets _____ low _____ other _____ which makes _____ portfolio _____ economic _____.

_____ term assets _____ low _____ assets, which _____ a _____ sensitive to economic situations.

_____ long-term assets _____ low correlation _____ decrease _____ susceptibility of portfolios to _____ economic _____?

Which long-term assets _____ portfolio less sensitive _____ economic _____ due to _____ low _____ assets?

Some of the long term _____ have _____ other assets _____ reduced the _____ the _____ the _____.

The low _____ between _____ term _____ assets make a _____ sensitive _____ certain economic _____.

Which specific assets, due to _____ interaction with _____ assets, _____ influence _____ on _____ portfolios?

_____ of the _____ assets have low _____ other assets _____ makes a _____ to _____ economic circumstances.

_____ you _____ examples of _____ that _____ weak correlations to other _____ of securities _____ thus _____ vulnerabilities to broader

Which _____ possess the _____ a _____ economic fluctuations through their limited correlation with _____?

Some _____ term assets _____ low correlation with _____ make _____ portfolio _____ sensitive _____ economic situations

Long-term _____ low _____ other asset _____ and reduce a portfolio's _____ to _____.

_____ you _____ of _____ assets that _____ correlation _____ other investments that _____ help protect my _____ fluctuations?

Some long-term _____ weakly correlated _____ asset classes, _____ they have _____ susceptibility _____ fluctuations?

_____ long _____ assets have a low _____ assets _____ a portfolio's _____.

_____ long _____ assets have low _____ with other assets _____ reduces _____.

Some of _____ other assets and that has _____ sensitivity of the portfolio to _____.

_____ certain _____ of assets have _____ reduced susceptibility to _____ economic fluctuations _____ are weakly _____ classes?

Are there any investment _____ that have _____ correlation _____ asset classes _____ a _____ to changes _____?

Some _____ assets _____ with other assets which _____ to economic _____.

I'm looking for _____ investments _____ to _____ changes through limited correlations.

Some of the long term _____ a _____ with _____ have _____ sensitivity to _____ conditions.

What _____ have _____ correlation _____ asset classes _____ their _____ economic fluctuations?

Some _____ investments _____ a _____ with _____ asset classes, _____ their sensitivity _____ economic _____

_____ investment _____ show _____ reduced reaction to changes _____ economy _____ result of their _____ other asset classes.

Some long term _____ a _____ with _____ have reduced the _____ of _____ conditions

_____ you have long-term _____ are low correlation _____ asset _____?

What _____ have _____ correlation _____ other _____ classes in regards _____ sensitivity of a portfolio _____?

What assets have a _____ correlation _____ a portfolio's _____ to _____ fluctuations?

Some _____ term _____ low correlation _____ assets which _____ sensitivity _____ conditions.

_____ term assets have low _____ other assets, which _____ a portfolio _____ certain _____ conditions _____ have low correlation _____ assets that _____ a portfolio less sensitive to economic _____

What assets have _____ with _____ classes _____ comes to their impact _____ economic fluctuations?

_____ long term _____ low _____ with _____ assets _____ sensitivity to _____ economy.

Some of the long _____ assets, which makes _____ less sensitive to downturns.

_____ diminish _____ influence _____ trends on investment portfolios because of _____ weak _____ with other _____?

_____ holdings have limited correlation with _____ that _____ to lower a _____ economic fluctuations?

_____ you _____ assets _____ have low correlation _____ other _____ reduce portfolio sensitivity _____ economic _____?

_____ assets _____ a _____ correlation to _____ classes decreases a _____ sensitivity _____.

_____ lower _____ sensitivity to general economic _____ due to their _____ assets?

Some _____ low correlation with _____ in order _____ their sensitivity to _____ fluctuations.

Some _____ have low _____ assets _____ them less sensitive to certain _____ situations.

Is _____ any _____ options that _____ reduced response _____ economy due to _____ low _____ other asset classes?

_____ assets _____ minimize the volatility _____ by showing little _____ other asset _____

_____ term assets have low _____ with _____ and make _____ less _____ downturns.

_____ term _____ have low _____ assets, making _____ less sensitive to _____ conditions.

_____ term assets _____ low correlation _____ other _____ and have reduced the _____ sensitivity _____.

_____ low _____ term _____ with _____ assets makes a portfolio less _____ certain economic _____.

Some _____ a low _____ other asset _____ which _____ their sensitivity _____ economic _____.

_____ assets have _____ correlation with other _____ so _____ sensitivity to _____ economy.

Some _____ term assets _____ correlation with _____ a portfolio _____ sensitive _____ economic conditions.

Some long _____ have low _____ with other assets _____ sensitivity.

Do long-term assets with _____ portfolios _____ downturns?

_____ investments _____ low _____ with other _____ that affect their _____ sensitivity.

Does long-term _____ reduced _____ fluctuations because they are _____ other _____ classes?

_____ assets with low _____ classes _____ shield portfolios?

Some long-term investments have _____ with _____ classes, reducing _____ economic _____

_____ the _____ term assets have _____ correlation _____ assets _____ reduced the portfolio's _____.

_____ seeking _____ asset _____ that _____ to _____ changes through limited correlations.

Some _____ assets have a low _____ with _____ which makes _____ less sensitive _____.

Can specific _____ mitigate _____ portfolio's vulnerability by _____?

What _____ have _____ with other _____ when it _____ on a portfolio's sensitivity _____ economic fluctuations?

Some _____ term _____ have _____ assets so they are _____ to _____ economy.

Which _____ the _____ of a portfolio to economic _____ due to _____ with _____?

_____ assets _____ the _____ with other _____ types _____ influence of general _____ trends on investment portfolios?

Some long term _____ have _____ make a _____ less _____ certain _____ conditions

Which _____ reduce the risk of a portfolio _____ showing little _____?

What assets _____ minimal _____ to _____ classes _____ sensitivity _____ economic conditions?

_____ long _____ have low correlation _____ assets _____ have _____ sensitivity to economic _____.

Does _____ types _____ have _____ susceptibility to economic _____ are _____ correlated with _____ asset classes?

Which _____ assets diminish _____ impact _____ general _____ trends _____ investment _____ to _____ weak _____ with other _____ types?

_____ you _____ me about _____ low _____ classes and reduce portfolio sensitivity?

_____ it _____ that _____ long-term holdings _____ little or _____ class imply protection _____ market cycles?

_____ assets have _____ correlation with other assets _____ a _____ to _____.

_____ their _____ other classes, _____ certain long-term assets decrease the susceptibility _____ portfolios _____ economic factors?

_____ low correlation with _____ long-term _____ decrease _____ of portfolios to _____ in general _____ factors?

Do long-term assets _____ reduced _____ economic fluctuations because they _____ correlated _____?

What asset _____ correlations with others _____ have _____ to market _____?

The capacity _____ holdings to lower a _____ reactivity during economic _____ depends on _____ limited _____.

_____ me _____ of long-term assets that _____ for their weak correlations _____ of securities _____ therefore _____ vulnerabilities _____ broader

_____ of the _____ term _____ correlation with other assets _____ the _____ to economic conditions.

Do _____ assets have _____ correlation _____ affect their susceptibility to fluctuations _____ general _____ factors?

Do some _____ assets have _____ with other classes _____ affect the susceptibility of portfolios _____?

Some _____ a low _____ other _____ a portfolio less sensitive to _____ economic situations.

Is it _____ to give examples of _____ that _____ recognized for _____ other _____ securities and _____ reduce _____

_____ of _____ long term _____ low _____ other assets _____ make _____ portfolio _____ sensitive to economic conditions.

_____ long term _____ have low correlation with other assets _____ to _____.

Some of the _____ term assets _____ with other _____ and make the _____ to _____.

_____ term _____ have low _____ other assets _____ makes a portfolio less sensitive _____ economic _____

Is _____ an investment option that _____ reaction to changes _____ economy _____ its low _____ with _____ classes?

_____ of the _____ assets have _____ other assets, _____ reduces sensitivity _____ economic _____.

Some long term assets have _____ other _____ make the _____ sensitive _____ economic _____

Some long _____ assets have _____ that reduce _____ sensitivity.

_____ assets reduce a _____ to _____ conditions due to their _____ with _____.

Does _____ investment _____ that show a _____ in _____ due _____ their low correlation _____ other asset classes?

_____ assets _____ low correlation _____ other _____ protect portfolios _____ economic _____?

Some of _____ long _____ assets _____ correlation _____ assets, making _____ portfolio _____ sensitive to certain _____.

_____ assets _____ correlation _____ other classes _____ your portfolio?

_____ investments have a low correlation _____ that reduce _____ economic fluctuations?

Some _____ of _____ assets show _____ susceptibility _____ economic fluctuations because _____ are weakly _____ other _____.

_____ investment _____ that _____ a reduced _____ to changes in the _____ low correlation with other asset _____?

I'm _____ advice on _____ asset _____ that _____ resistance _____ changes through _____ correlations.

Do certain long-term assets _____ other _____ and therefore _____ susceptibility to _____ general _____ factors?

Some long term assets _____ low _____ make portfolio less _____ to _____.

_____ long term assets have low _____ which _____ to _____ economy.

Some _____ the _____ have _____ low _____ with _____ and make _____ portfolio less sensitive _____ certain _____ conditions.

Can specific assets help _____ portfolio's _____ by _____ across _____ classes?

_____ any assets that are _____ correlation to _____ that _____ protect _____ portfolio _____ economic fluctuations?

_____ due _____ low _____ with _____ classes, _____ susceptibility of _____ to fluctuations in general economic factors?

Can _____ me examples of _____ assets _____ classically _____ for _____ weak correlations to other _____ of securities _____ vulnerabilities _____

Can you suggest _____ that _____ correlation with _____ to _____ sensitivity?

Do you know _____ exhibit low _____ with other classes and _____?

Is there _____ investment options that show a reduced _____ economy as a _____ their low _____ with _____?

Some _____ assets have low correlation _____ assets _____ a _____ less _____ to _____.

What assets _____ the lowest _____ with _____ classes concerning their _____ on _____ to _____ fluctuations?

_____ asset _____ reduced _____ to market conditions _____ have _____ correlations with _____?

_____ long term _____ low correlation with other assets _____ make _____ certain economic circumstances.

Some _____ the _____ low correlation _____ other assets, thus _____ to the _____.

_____ term assets have _____ with _____ assets _____ a _____ less sensitive _____ downturns

_____ of _____ long term assets have low _____ with _____ so they _____ sensitivity _____ economy.

Some _____ low correlation with _____ this decreases sensitivity _____ the economy.

_____ long-term _____ have _____ low correlation with _____ classes decrease the _____ of portfolios _____ economic _____?

_____ term _____ have _____ correlation with other assets _____ have reduced _____ sensitivity of _____ to _____

_____ types _____ assets have _____ susceptibility _____ economic fluctuations because _____ are _____ other assets?

Is certain _____ of _____ less susceptible to economic fluctuations because _____ other _____ classes?

_____ assets have low correlation _____ assets and have reduced _____ of the _____ economy.

Some _____ long term assets _____ correlation with _____ assets that _____ the _____ the portfolio to _____.

What asset classes _____ market _____ and have limited _____ with _____?

_____ you suggest _____ assets that _____ low _____ other classes _____ portfolio _____?

What _____ long-term investments that _____ low _____ other _____?

Some long term _____ correlation with _____ that reduces _____ sensitivity.

_____ long term _____ have _____ correlations _____ other assets _____ a _____ less _____ to _____.

Some of the long _____ assets _____ with _____ assets so they _____ general _____ conditions.

_____ long-term _____ that have low _____ with other _____ the _____ portfolios?

Some long term assets _____ make _____ portfolio _____ sensitive to economic conditions.

Some long-term investments _____ low _____ assets, _____ reduces _____ sensitivity _____ fluctuations.

_____ want advice on _____ investments that _____ resistance _____ macroeconomic _____ through _____

_____ term assets have _____ correlation and _____ less sensitive to economic _____.

Some long _____ have low _____ assets and _____ they are less sensitive _____.

_____ term assets _____ correlations _____ other assets making _____ portfolio _____ sensitive _____ certain _____ conditions.

Can you tell _____ what long-term _____ have _____ with _____ and _____ portfolio _____?

_____ long-term _____ with _____ other classes decrease the susceptibility of _____ in _____ economic factors?

Do _____ long-term _____ low _____ other classes and _____ the susceptibility of _____ fluctuations _____ economic factors?

What assets have low correlation with _____ asset _____ affects _____ economic _____?

Do you know _____ long _____ correlation and reduce _____ portfolio's exposure to broader _____?

Some _____ the _____ term assets _____ low _____ other assets which make _____ sensitive _____ economic conditions.

_____ low correlation with _____ and make a _____ to _____ conditions.

_____ have low correlation with other asset _____ reduce the _____ of _____ conditions?

_____ long-term assets reduce _____ to general economic conditions _____ their low _____ other _____ classes?

_____ assets have _____ low _____ classes in _____ to a _____ to economic fluctuations?

_____ term assets have low _____ have _____ sensitivity of _____ portfolio to economic

_____ long term assets have _____ correlation _____ assets _____ less _____ to _____ downturns.

Some of the _____ assets _____ low _____ other _____ reduced sensitivity to _____.

_____ have low _____ other _____ and _____ a portfolio _____ sensitive _____ economic situations.

_____ assets _____ low correlation to _____ classes might _____.

_____ diminish the _____ of _____ economic _____ investment portfolios because they have weak _____ asset _____?

What _____ investments _____ low correlation with other _____ reduce _____ to economic _____?

Some of the long term _____ have _____ with other _____ less _____ certain economic _____.

Which long-term _____ can show _____ with _____ assets _____ economic _____?

What assets _____ correlation to other _____ make _____ portfolio _____ to _____.

Some _____ investments have a _____ correlation with _____ can affect their sensitivity _____.

_____ of _____ long term _____ have _____ correlation with other _____ which _____ the portfolio less _____ economic _____.

_____ holdings have the capacity to _____ a portfolio's reactivity during _____ fluctuations _____ other investments?

_____ be _____ from economic _____ by _____ assets _____ correlation _____ other classes.

Do _____ assets have a _____ other _____ that decrease _____ of portfolios _____ fluctuations?

What specific assets _____ the influence of _____ portfolios _____ interaction with other assets?

_____ assets have low correlation _____ other _____ affects the _____ of the _____ to _____.

_____ long _____ have low correlation with _____ less sensitive to certain _____.

_____ certain _____ that _____ low correlations _____ other _____ susceptibility of _____ to _____ in general _____ factors?

_____ there any _____ have _____ correlation to _____ that _____ protect my portfolio _____ economic _____?

What _____ have _____ correlation with _____ asset _____ to economic _____?

The _____ between long term _____ other _____ portfolio less _____ economic downturns.

Some _____ term assets have _____ assets _____ makes _____ less sensitive _____ portfolio _____.

Some _____ the _____ assets _____ correlation _____ assets which make them less sensitive _____ economy.

____ long term ____ low ____ with other ____ the sensitivity of the ____.
 Can ____ suggest ____ assets ____ low ____ to ____ classes that ____ less ____ to ____?
 ____ long term assets ____ low correlation with other assets and ____ less ____ to ____.
 ____ of their ____ correlation ____ other ____ classes, ____ assets ____ a ____ sensitivity to ____ conditions.
 Some ____ term ____ have ____ correlation ____ other asset ____ sensitivity to ____ fluctuations.
 ____ reduce ____ sensitivity ____ economic ____ because of low correlation with other ____?
 Some ____ the long ____ assets ____ low ____ other assets ____ make ____ less ____ to economic ____.
 ____ the ____ have ____ correlation with other ____ and ____ reduced ____ sensitivity to economic conditions.
 Is ____ particular asset class which counteracts the ____ circumstances ____ low correlations ____?
 ____ certain types ____ assets show reduced ____ to ____ fluctuations ____ are ____ correlated ____ other ____?
 Some ____ long ____ have ____ with ____ assets that ____ a portfolio's sensitivity.
 Do ____ for ____ that show ____ correlation ____ other classes ____ reduce portfolio sensitivity?
 Are there ____ options ____ show ____ reduced ____ changes ____ the economy ____ the ____ correlation of ____ asset classes?
 ____ any ____ low ____ that ____ reduce a portfolio's ____ to broader market conditions?
 Some ____ the long ____ assets ____ low ____ other assets and ____ a ____ to economic conditions.
 ____ asset classes ____ protect a portfolio from ____?
 ____ there ____ specific ____ that ____ in ____ investment ____ due to being ____ correlated with different ____?
 Does long-term ____ low ____ to ____ classes ____ portfolios?
 ____ term assets have low correlation ____ other assets and ____ to ____.
 ____ the long ____ have low correlation with ____ assets and ____ decreased the ____ to ____.
 Some ____ long term ____ have low ____ assets, ____ a portfolio less ____ to certain economic ____
 ____ certain long-term ____ low correlation ____ that decrease the susceptibility of portfolios ____?
 Which specific ____ with weak interaction ____ asset types ____ the ____ of ____ economic ____ portfolios?
 Do ____ assets with low ____ with other ____ the susceptibility of ____ to ____ factors?
 ____ little ____ other ____ be used to minimize the volatility ____ a portfolio.
 ____ long-term ____ to lower the ____ of ____ economic fluctuations through their limited correlation ____ other ____?
 Which ____ can ____ a ____ through a limited correlation ____ other ____?
 Some of ____ long ____ assets ____ low correlation ____ other assets ____ this makes ____ portfolio less ____.
 ____ types ____ susceptibility to economic ____ because they are weakly correlated ____ other ____?
 ____ you ____ holdings that have low ____ to other ____?
 ____ term assets have ____ correlation with others ____ sensitivity to ____.
 Do ____ investments that show low correlation that will ____ broader ____ conditions?
 Some of ____ long ____ assets and have diminished the sensitivity to ____ conditions.
 Do ____ low ____ other ____ decrease susceptibility to ____ in general ____ factors?
 I ____ to know if any ____ show a ____ to changes ____ economy ____ their low ____ with other ____.
 Some ____ assets have ____ correlation with other ____ that makes ____ portfolio ____.
 Which ____ the volatility ____ a portfolio ____ showing little correlation ____ other ____?
 Do certain long-term assets ____ low correlation ____ other classes that ____ them less ____?
 What ____ have ____ to ____ classes decrease a ____ to economic ____?
 Some of ____ long term assets ____ correlation ____ other assets ____ portfolio's ____.
 ____ long term ____ a low ____ with ____ assets ____ make ____ portfolio ____ sensitive to economic ____.
 Some ____ long ____ assets have ____ correlation with other assets, and ____ sensitive to ____ economic ____.
 ____ long-term assets ____ a ____ correlation with ____ classes ____ the susceptibility of ____ to ____ economic factors?
 Some ____ term ____ low ____ with other assets, so ____ to ____ conditions.
 ____ long ____ assets have ____ correlation with other ____ and so ____ a portfolio ____ sensitive ____.
 The low correlation between long ____ and other ____ less ____ to ____ conditions.
 Some long ____ have ____ correlation with ____ and can ____ portfolio less ____ to ____ downturns.
 Long term ____ low correlation ____ so they decrease ____ economy.

Some long-term ____ have ____ low ____ other ____ reducing their ____ to economic ____.

Some ____ assets ____ low ____ with ____ assets that ____ a portfolio less sensitive to ____.

Some ____ term assets ____ with ____ assets ____ reduces ____ sensitivity ____ long ____ assets ____ a low correlation ____ other ____ a ____ sensitive to certain ____ situations.

Will ____ be any ____ options that show a reduced reaction ____ due ____ their low ____ with ____?

____ there ____ option that ____ a ____ reaction to ____ in the ____ due ____ correlation ____ other asset ____?

Some long ____ have ____ other assets, ____ the economy less sensitive.

____ long term ____ have ____ are less ____ economic downturns.

Which long-term ____ less sensitive ____ economic conditions ____ of their low ____ with ____?

____ assets ____ have ____ reduced susceptibility ____ fluctuations because they ____ weakly ____ other asset classes.

Some of the long ____ assets have low ____ other ____ sensitivity ____.

Which ____ long-term ____ the ____ to decrease a ____ reactivity ____ through their ____ with other investments?

____ term assets ____ low correlations with other ____ makes ____ portfolio less ____ economic ____.

____ term ____ with other assets ____ reduces portfolio sensitivity

Some long ____ assets ____ low correlation with ____ sensitive ____ economic circumstances.

Some ____ assets have a ____ with other ____ that reduces ____.

Which ____ holdings have the capacity to lower ____ economic fluctuations ____ limited ____ other ____?

The ____ general economic trends on ____ is ____ assets due to ____ weak interaction ____ other asset ____.

____ holdings have ____ capacity ____ lower ____ reactivity during ____ fluctuations ____ their ____ correlation ____ other investments?

____ low ____ long-term assets and ____ classes ____ the portfolio's sensitivity ____ conditions.

Some ____ correlation ____ other assets, ____ a portfolio less sensitive ____ economic ____.

Can you ____ assets ____ recognized ____ having weak correlations ____ other types of securities and ____ reducing ____ to ____

Some of the long ____ assets have ____ other ____ have ____ the sensitivity of the ____.

Some long term ____ with ____ make a portfolio less sensitive to ____

____ long term assets ____ with other assets ____ sensitivity ____ conditions.

Some long ____ have ____ correlations ____ assets, which ____ to general ____ conditions.

____ long-term ____ minimize ____ volatility of a portfolio by ____ little ____ asset ____.

____ assets have low ____ other assets and have ____ the ____ the economy.

____ long term assets ____ low correlation with ____ makes ____ portfolio ____ sensitive ____ certain economic ____.

Some long ____ assets ____ correlation with other assets ____ make ____ portfolio ____ sensitive to ____.

____ term assets ____ correlation with ____ assets, which ____ lowered the ____ of the portfolio ____.

Do certain long-term assets have ____ correlation ____ classes ____ decrease ____ to ____ in the ____?

Some ____ assets ____ correlation ____ other assets, which ____ a ____ less sensitive ____ conditions.

____ of ____ long term assets ____ correlation ____ assets and have ____ sensitivity of ____ economy.

____ the long ____ assets have low correlation with ____ so they ____ to ____ economy.

Are ____ any ____ that ____ low ____ other ____ that can ____ protect ____ portfolio ____ economic fluctuations?

____ assets have low correlation with ____ regarding their ____ on a portfolio's ____?

____ classes have ____ economic fluctuations because they ____ correlated with other ____ classes?

____ with low ____ to other investments that I ____ to protect my ____ fluctuations?

Which long-term ____ capacity ____ lower a portfolio's reactivity during ____ fluctuations due to ____ with ____?

Some ____ term assets ____ low ____ so they ____ less ____ to general economic ____.

____ other asset types that ____ the influence of general economic ____ investment portfolios?

Which long-term ____ portfolio's sensitivity to general ____ of their low ____ asset classes?

____ of the ____ assets have low ____ other assets ____ have reduced ____.

____ long term assets have a low ____ other ____ less sensitive to economic ____.

____ assets have low ____ other ____ which ____ the portfolio's sensitivity

Some long ____ assets ____ low correlations ____ other assets, ____ sensitivity.

____ little correlation ____ which ____ assets ____ reduce ____ risk of a portfolio?

By showing _____ with _____ types, which long-term _____ reduce _____ of _____ portfolio?

Some long _____ assets _____ low _____ with _____ which _____ portfolio's _____.

_____ assets have low _____ with _____ regards to the _____ sensitivity _____ fluctuations?

_____ of _____ long _____ low correlation _____ which makes the _____ less _____ to certain economic conditions.

_____ long-term _____ low _____ with _____ classes reduce _____ towards economic fluctuations.

_____ have low correlations _____ other asset _____ reducing their _____ fluctuations.

_____ there _____ investment options that _____ changes in _____ to low correlation with other _____ classes?

_____ is the capacity _____ long-term holdings to _____ economic fluctuations _____ their limited correlation _____ other _____?

Which _____ reduce _____ volatility of a _____ showing _____ correlation with _____ types?

Do certain _____ term _____ low _____ with _____ classes decrease the susceptibility _____ in general economic _____?

Is _____ possible that _____ assets _____ low _____ classes _____ portfolios?

Are certain _____ assets less _____ to _____ fluctuations because they are _____ correlated _____?

_____ types _____ assets less _____ economic _____ are weakly correlated with other _____ classes?

_____ certain _____ exhibit low correlations with _____ in an investment _____ counteract _____ effects of _____?

Which _____ assets _____ correlation _____ asset types _____ help _____ the volatility of _____?

_____ certain long-term _____ low correlation with other _____ affect _____?

_____ you _____ long term assets _____ have _____ correlation _____ classes and _____ portfolio _____?

Some long term assets _____ low _____ other assets which _____ the _____.

I'm looking for advice on _____ asset investments _____ have _____ through _____.

Can you _____ examples of _____ that _____ as _____ weak _____ other types of securities and _____ to _____ economic _____

_____ assets _____ low _____ other assets reduce a _____ sensitivity to _____?

Some _____ long term _____ have low correlations with other _____ a _____ sensitive _____ conditions.

Some of the _____ assets _____ correlation with _____ assets, making _____ sensitive _____ general economic _____.

_____ are _____ long-term _____ that _____ low _____ with the other asset _____?

What _____ have minimal _____ lower a _____ to economic conditions

Some _____ a low _____ with other assets and make _____ sensitive _____ economic situations.

Some long-term _____ correlation with other assets, reducing their _____.

Which long-term _____ can show little correlation with _____ of _____?

Some of the _____ term assets have _____ correlation _____ other _____ which makes a _____.

_____ long term _____ have _____ other assets _____ makes a portfolio less _____ economic _____.

_____ options _____ show _____ response _____ economic changes due to their low _____ other asset classes?

_____ assets have low _____ with other assets so _____ make a _____ economic downturns

The _____ assets _____ low correlation with other _____ and _____ reduced the _____ to economic

Some _____ term _____ low correlations _____ other assets, _____ has reduced the _____ of _____ to _____.

Which long-term _____ portfolio's sensitivity _____ economic _____ their _____ correlation with _____ assets?

Some _____ the long term _____ low _____ makes _____ sensitive to general economic conditions.

Some of the long term _____ with _____ assets _____ have reduced _____ sensitivity to _____.

Does certain _____ assets _____ with other _____ that _____ the _____ of portfolios _____ fluctuations in _____ factors?

_____ of the _____ holdings have _____ capacity _____ a portfolio's reactivity during _____ limited correlation with _____?

_____ assets _____ correlation with other _____ decrease _____ susceptibility of _____ to economic _____?

_____ of _____ term assets have _____ and make _____ sensitive _____ economic downturns.

_____ specific assets, _____ to their _____ interaction with other _____ types, diminish the _____ portfolios?

Some of the _____ term _____ low correlations with _____ they _____ economic conditions.

_____ assets have low _____ assets so they decrease _____ to economic _____.

Some of the long term _____ correlation with _____ making it less _____.

Is _____ classes _____ vulnerability to market conditions _____ have _____ correlation _____ others?

_____ have _____ with _____ regarding _____ impact _____ a portfolio's sensitivity to economic fluctuations?

Some long _____ low correlation with _____ assets _____ sensitivity of the _____.

Some ____ term ____ other ____ and reduce a portfolio's sensitivity.

What assets have ____ other ____ portfolio sensitivity ____ conditions.

____ long ____ assets have ____ correlation ____ other ____ making ____ portfolio less sensitive to ____ situations.

Does the low ____ long-term ____ with ____ affect their ____ in general ____ factors?

Some ____ have ____ correlation with other long ____ assets ____ a portfolio less ____ conditions.

Do ____ little correlation ____ other asset ____ during ____ times?

____ of ____ vulnerable to economic fluctuations because ____ are weakly ____ with ____ asset classes?

____ long term assets ____ reducing ____ sensitivity to economic conditions.

____ long-term ____ low ____ to ____ classes protect ____ from ____ downturns?

The ____ portfolio ____ economic conditions ____ mitigated by ____ classes.

____ long-term ____ a ____ asset classes ____ reduce their sensitivity ____ economic fluctuations.

Which assets ____ a ____ interaction ____ other ____ the influence ____ general economic ____ on ____ portfolios?

____ the influence of ____ general ____ trends on investment portfolios ____ to ____ weak ____ other asset ____?

____ need ____ on ____ asset ____ that ____ resistance to ____ through ____ correlations

Can ____ of long-term ____ are recognized ____ having ____ correlations ____ other types of ____ and ____ reducing ____ to broader ____

____ types of assets have ____ susceptibility to economic fluctuations ____ of ____ weak ____ asset ____?

Some ____ term ____ low correlation ____ assets, making a ____ sensitive ____ certain ____ conditions.

Do certain types of assets ____ reduced ____ economic fluctuations because they ____ correlated ____?

Some long ____ have low ____ with other assets ____ that ____ a ____ sensitive ____ economic ____.

Some long-term investments ____ low correlations ____ so ____ are ____ economic fluctuations.

____ certain assets with low correlations with ____ decrease the susceptibility ____ portfolios ____ general ____?

____ are some ____ investments ____ have a low ____ investments?

____ long-term ____ can show little ____ asset ____ the volatility ____ a portfolio?

Some ____ long ____ have low correlation ____ other assets, so they ____ the ____.

Does ____ assets have ____ other classes ____ portfolios?

What ____ have low ____ with other ____ classes ____ a ____ to ____ fluctuations?

____ their weak interaction ____ other asset ____ specific assets diminish ____ influence ____ economic ____ on ____ portfolios?

____ of ____ term assets ____ low ____ with ____ and ____ reduced economic sensitivity.

Which ____ can show ____ correlation ____ other assets ____ of economic ____?

Is it possible for ____ given portfolio to be ____ adverse ____ that exhibit little ____ connection

____ have ____ with ____ asset classes which reduces ____ sensitivity to ____.

____ specific assets have ____ interaction ____ other asset types and ____ of ____ investment portfolios?

____ you provide ____ long-term assets that are recognized ____ types of securities and ____ reduce ____ broader economic ____

____ assets reduce a ____ economic ____ to low ____ with other assets?

____ that are ____ correlated with other ____ show reduced ____ to ____?

____ the long term assets ____ low ____ with ____ that ____ portfolio's sensitivity.

Some ____ have low ____ other asset ____ and ____ sensitive to economic ____.

____ specific assets ____ weakest ____ other asset ____ diminish the influence of ____ on investment ____?

____ of ____ term ____ low ____ with others ____ have reduced sensitivity to ____.

____ term assets have low ____ other assets ____ a ____ economic conditions.

Some long ____ assets ____ low correlation ____ other ____ sensitivity to ____.

Some ____ term assets have ____ correlation ____ other ____ have reduced the ____ sensitivity ____ portfolio

Some ____ term ____ have low correlation with other ____ have ____ to economic ____ in ____ future.

____ have low ____ with other ____ and so they decrease sensitivity to ____ conditions.

____ long ____ assets ____ correlation with other assets and ____ reduced ____ of ____

____ it ____ examples ____ long-term ____ that ____ recognized ____ weak correlations to ____ of securities and thus reduce ____

____ long term assets have ____ assets ____ makes a ____ to downturns.

_____ certain _____ of _____ term assets _____ to economic fluctuations _____ they are weakly correlated _____ ?
 What _____ have _____ other classes affect _____ sensitivity _____ a _____ to _____ conditions.
 Some long _____ low _____ with other _____ sensitivity of the portfolio to economic.
 Do _____ have long-term holdings _____ to other _____ ?
 Some of _____ long _____ have low _____ assets, _____ makes them _____ to the economy.
 Some _____ term _____ have a _____ correlation with other _____ have _____ the _____ economic _____.
 _____ long-term _____ have low correlations with other asset _____ their _____ towards _____.
 Long-term _____ low correlation to other _____ shield _____.
 _____ long-term _____ protect a portfolio by _____ low _____ ?
 Any _____ that _____ low _____ with _____ can help protect my _____ fluctuations?
 _____ holdings _____ reduce a _____ reactivity _____ economic fluctuations through _____ correlation with _____ ?
 Some _____ have _____ low correlation _____ other _____ making them _____ to certain economic _____.
 Some of the _____ term _____ other assets, _____ sensitivity to the _____.
 _____ advice on long-term asset _____ that show resistance _____ changes _____ correlations.
 Can _____ suggest long-term _____ low correlation with _____ classes _____ are _____ sensitive _____ economic _____ ?
 _____ term _____ low correlation with other _____ they lose _____ to economic _____.
 Do some _____ show _____ susceptibility to economic _____ because _____ are _____ assets?
 Some _____ have low correlations with _____ assets _____ make a _____ to certain economic _____.
 _____ long _____ correlation _____ other assets, and _____ a _____ less sensitive to certain _____ conditions.
 _____ assets diminish _____ influence of general _____ investment portfolios _____ their _____ with other assets.
 Some _____ term _____ have low _____ with other assets so the portfolio _____.
 _____ sensitivity of _____ general _____ can _____ mitigated by low-correlation asset _____.
 _____ of _____ long _____ assets _____ low correlation with _____ reduces _____ portfolio's sensitivity.
 _____ investment _____ a _____ reaction to economic _____ because of their _____ correlation with other _____ classes?
 What assets _____ low _____ asset _____ when _____ comes to sensitivity to _____ ?
 Some long _____ assets _____ correlation _____ other _____ sensitivity to general economic _____.
 Some _____ term assets _____ low correlation with other _____ sensitivity to _____.
 Some of the long term _____ have low correlation with _____ to _____.
 _____ term assets _____ correlation with other _____ that _____ portfolio _____ sensitive to certain _____ situations
 _____ asset classes _____ mitigate _____ sensitivity to the _____ ?
 _____ of the _____ low correlation _____ other assets, and _____ makes _____ portfolio less sensitive _____ economic _____.
 _____ investments _____ have _____ other asset classes reduce _____ sensitivity _____ fluctuations
 _____ long _____ correlation with other assets _____ can make a _____ less sensitive _____ economic _____.
 _____ of the long term _____ with _____ assets that _____ reduced _____ to _____ conditions
 Some _____ options show _____ to _____ the economy _____ to their low correlation with _____.
 The _____ assets _____ low correlation _____ assets _____ make _____ portfolio less sensitive _____ economic situations.
 Some _____ term assets _____ low _____ other assets and reduce _____ sensitivity _____ to _____
 Which _____ assets _____ show little _____ with _____ types during times _____ ?
 Some _____ have low _____ with other assets _____ a portfolio's _____.
 Some long term assets _____ low correlation _____ less sensitivity to _____.
 _____ long term _____ low correlation _____ other assets _____ it _____ portfolio's _____
 _____ long-term _____ have _____ correlations _____ other classes that _____ them _____ susceptible _____ in general _____ factors?
 _____ long term _____ low correlation with _____ long _____ assets _____ makes _____ sensitive _____ economic conditions.
 _____ long term assets have _____ which reduces portfolio _____.
 _____ assets _____ the _____ to _____ classes decrease a _____ to economic _____ ?
 Which long-term _____ are _____ to economic conditions _____ asset _____ ?
 _____ assets _____ low correlation with other _____ so _____ diminish sensitivity _____ conditions.
 _____ examples of long-term _____ are recognized for having weak _____ other types _____ securities _____ thus _____ vulnerabilities _____ broader _____
 Which _____ assets _____ influence of general economic _____ investment portfolios _____ to their _____ assets?

Do ____ types of ____ to economic fluctuations because they ____ other assets?
 ____ asset ____ reduces ____ risk in ____ investment ____ being ____ correlated with various asset classes?

Some long term assets have low correlations ____ other ____ which ____ less ____.
 ____ any ____ with low correlation ____ reduce a portfolio's ____ to ____ market?

____ long ____ assets have ____ other assets and have diminished ____ the portfolio to economic
 Some of the ____ term ____ low ____ with ____ sensitivity to economic conditions.
 ____ long-term assets ____ reduce ____ a portfolio by ____ correlation with ____?

Some long term ____ have low correlation ____ a ____ to ____.
 ____ have a ____ correlation with ____ asset ____ and ____ their sensitivity to ____.
 ____ the ____ low correlation with other assets and make ____ less ____ to ____ conditions.
 ____ the long ____ have low correlation ____ assets so they are ____ economic situations.
 ____ long ____ assets ____ correlations with other ____ so ____ are less sensitive ____.
 ____ there ____ asset that contributes to diminishing ____ in an ____ due ____ being minimally ____ with ____?
 ____ of the long term ____ have ____ correlation ____ other ____ and ____ makes ____ less ____ to general ____.
 ____ long ____ assets have low correlation with ____ assets ____ a ____ to ____.
 ____ specific assets ____ to diminishing ____ risk in ____ to being ____ correlated with ____ asset ____?
 ____ long-term holdings ____ the ability to ____ during economic ____ due to ____ limited correlation ____ investments?
 ____ can minimize the volatility of ____ little correlation with other ____ economic ____?
 ____ particular ____ holdings have ____ capacity to reduce a ____ economic ____ through ____ limited ____ other investments?

Which ____ have ____ ability to ____ portfolio's ____ during economic ____ through their limited ____ investments?

Do ____ know any ____ have low ____ investments ____ will help ____ portfolio against economic ____?

Some ____ term ____ low correlations ____ other ____ so they ____ sensitivity to ____

I am ____ advice ____ long-term ____ resist macroeconomic ____ limited correlations.
 ____ sensitivity to ____ is decreased ____ assets ____ minimal ____ to other ____.
 ____ long term ____ have low correlation ____ assets ____ they reduce ____ to ____.
 ____ long-term ____ a portfolio's ____ to economic conditions ____ their ____ correlation ____ asset classes?
 ____ advice on long-term ____ investments that ____ resistance ____ macroeconomic ____ through limited ____.

By ____ little ____ types, long-term assets ____ minimize the volatility of ____.
 The ____ have ____ correlation with other ____ which ____ them less sensitive ____.

Which specific long-term ____ the capacity to ____ a portfolio's ____ through ____ limited ____?

____ have weak ____ with ____ diminish the ____ of ____ economic trends on investment portfolios?

What ____ diminish the influence ____ trends on ____ portfolios due ____ with ____ asset types?
 ____ have low correlations ____ other investments that can ____ protect ____ portfolio against ____ fluctuations?
 ____ you provide ____ of long-term assets ____ classically ____ for ____ weak correlations ____ types of ____ and ____ vulnerabilities to ____

____ investment options ____ a reduced reaction ____ changes ____ the economy ____ to their ____ correlation with ____?

Some ____ term ____ low ____ with other assets and ____ the ____ less sensitive ____ situations

Some ____ the ____ term assets have low ____ with other assets ____ are ____ economic ____.

Some long term assets have ____ correlation ____ and ____ reduced the ____ to economic.

Some of the ____ term ____ low ____ with other ____ them ____ to ____ situations.

Some long ____ have low ____ with ____ assets ____ make a ____ to economic ____.
 ____ assets less susceptible to ____ fluctuations ____ are weakly ____ with other asset ____?
 ____ know ____ correlation and reduce a ____ exposure to broader market conditions?

Do certain types ____ assets show ____ to ____ fluctuations, ____ they ____ other asset classes?

Are there ____ options that show a reduced response to ____ the ____ due ____ correlation with ____?

Do certain types of assets ____ a ____ because ____ are ____ correlated ____ other ____ classes?
 ____ decrease ____ portfolio's sensitivity to ____ their ____ correlation with other assets?

Some ____ long term assets ____ with other ____ and ____ less sensitive to ____ downturns.

____ long-term assets less susceptible ____ fluctuations ____ are weakly ____ with ____ asset ____ ?
 Do ____ long-term assets ____ correlation ____ other classes that ____ the ____ of ____ fluctuations ____ factors?
 ____ of the ____ assets ____ low correlation ____ other assets which ____ a portfolio ____ sensitive ____ certain ____ .
 ____ term assets have low ____ others and have a ____ conditions.
 ____ term ____ low correlation with ____ assets, ____ decreases sensitivity to ____ .
 Some of the long term ____ have low ____ this ____ a ____ less ____ to ____ economic ____ .
 ____ term ____ low correlation ____ other assets ____ to economic conditions.
 ____ any ____ investments that ____ low ____ reduce a portfolio's exposure to ____ conditions?
 The ____ term assets ____ low ____ with other ____ so they ____ economy.
 Some of ____ long term ____ correlation with other assets, and ____ to certain ____ conditions.
 Which long-term ____ a ____ general ____ due to ____ low correlation ____ other assets?
 ____ you ____ me ____ assets have low correlation with ____ and ____ sensitivity?
 ____ certain types ____ assets ____ a reduced susceptibility ____ fluctuations because they ____ asset
 classes?
 ____ the ____ term assets ____ low ____ other assets, and that makes a ____ certain economic ____ .
 Some long term ____ correlations ____ so they ____ sensitivity to the ____
 Some ____ assets have ____ other ____ thus ____ sensitivity to general economic ____ .
 ____ long-term ____ have the ability ____ lower a ____ reactivity ____ a small ____ other investments?
 Is there any ____ show ____ market conditions ____ correlation with others?
 Some ____ low ____ with ____ assets that affect the ____ sensitivity
 ____ you suggest ____ low ____ with ____ that will help protect my ____ against ____ fluctuations?
 Some long ____ assets ____ with ____ reduce sensitivity ____ economic conditions.
 Do certain ____ of ____ reduced susceptibility to economic fluctuations ____ correlated with ____ ?
 There ____ a reduced reaction ____ the ____ due to their low correlation with other ____ .
 The ____ term ____ have low ____ with ____ so ____ to ____ economic conditions
 ____ investments that ____ correlation and reduce a portfolio's exposure to ____ ?
 ____ to their ____ with ____ do certain assets decrease ____ susceptibility ____ portfolios to ____ in ____ economic ____ ?
 Does long-term ____ fluctuations because ____ weakly correlated with other assets?
 ____ long ____ assets have low ____ assets, ____ a portfolio less ____ situations.
 Is there any investment ____ show ____ to ____ in ____ due ____ a low correlation ____ other asset ____ ?
 ____ options ____ reduced reaction to changes in ____ because of their ____ correlation ____ other ____ ?
 ____ of ____ long ____ low ____ with ____ assets which ____ a portfolio less ____ certain economic conditions
 ____ with minimal ____ other classes ____ the ____ sensitivity ____ economic conditions?
 ____ investments ____ low ____ with ____ classes, which ____ sensitivity toward economic fluctuations.
 ____ of the ____ term assets have ____ with ____ assets ____ sensitivity of ____ portfolio to economic
 What ____ provide ____ against changes in ____ economy ____ to ____ with ____ categories
 Some long term assets have ____ low ____ with other assets, ____ less ____ conditions.
 What ____ have ____ correlation to ____ classes affect ____ portfolio's ____ ?
 Can ____ suggest ____ assets that ____ low correlation with ____ and reduce ____ ?
 Which long-term ____ have the capacity ____ a ____ through ____ with other ____ ?
 ____ investments that show low ____ and reduce portfolio exposure ____ conditions?
 ____ assets reduce ____ sensitivity to ____ to their ____ correlation ____ other asset classes?
 Some long ____ assets have ____ with ____ so ____ reduces ____ the economy.
 Some ____ term assets ____ low correlation ____ other ____ which ____ portfolio's ____
 ____ have low correlation ____ classes ____ their ____ portfolio's sensitivity to economic fluctuations?
 ____ term ____ have low correlation ____ so ____ make a ____ sensitive to ____ economic situations.
 Some ____ assets ____ correlation ____ assets make ____ less ____ to economic conditions.
 ____ long-term ____ are ____ correlated with other ____ susceptibility to economic ____ ?
 Some ____ long term assets have low ____ and ____ portfolio less sensitive to ____ .
 Which long-term ____ have the ____ to lower ____ portfolio's reactivity during ____ thanks ____ their ____
 investments?

Do you _____ investments that _____ reduce portfolio exposure to _____ market?

Do _____ have low correlation with other classes _____ fluctuations _____ general economic _____?

_____ assets _____ the portfolio's _____ to _____ economic _____ to their low correlation _____ assets?

_____ there exist alternative _____ show _____ macroeconomic changes through _____ correlations?

Some long term assets _____ with other _____ the sensitivity of _____ portfolio to _____.

Which _____ of general _____ on investment _____ because they are weak _____ asset types?

What _____ reduce _____ volatility of _____ portfolio by _____ little _____ other assets?

_____ term assets have _____ with _____ assets _____ a portfolio _____ sensitive _____ downturns.

How about long-term assets _____ show _____ classes _____ portfolio sensitivity?

Some long term assets have _____ correlation _____ that _____ portfolio is _____ to certain _____.

_____ any _____ that have _____ to other investments that can _____ my portfolio _____ fluctuations?

_____ holdings have _____ limited correlation with other _____ that can _____ reactivity of _____ portfolio _____?

_____ there _____ asset _____ vulnerability to _____ conditions and have _____ correlations _____ others?

_____ assets have _____ with _____ assets, which makes them less sensitive _____.

What assets _____ low correlation _____ other asset classes _____ how that affects _____?

_____ have the _____ interaction _____ other _____ types _____ diminish the influence of _____ trends _____ portfolios?

Some of the long _____ have low _____ other _____ portfolio _____ sensitive to certain _____ conditions.

_____ certain _____ assets less vulnerable to _____ because they are _____ other _____ classes?

_____ you know any long-term investments _____ have _____ correlation _____ portfolio _____ conditions?

_____ showing _____ other asset types _____ general _____ which _____ assets can minimize _____ volatility of _____ portfolio?

I'd like _____ on long-term _____ show resistance _____ macroeconomic _____ correlations.

_____ certain _____ a _____ to economic fluctuations _____ they _____ weakly correlated _____ other _____?

_____ types _____ have _____ economic fluctuations _____ they are weakly correlated with other _____ classes?

Does long-term assets have low _____ classes _____?

Long-term assets _____ little _____ other asset types _____ volatility of _____ portfolio.

_____ show _____ to market conditions and have limited _____?

What _____ have _____ correlations _____ other _____ that affect _____ sensitivity _____ fluctuations?

_____ reduce _____ of a _____ by showing little correlation _____ assets?

Which certain long-term holdings have _____ to _____ reactivity _____ economic _____ through their limited _____ investments?

_____ long _____ assets _____ low _____ with _____ which can _____ a _____ less _____ to economic downturns.

Which long-term _____ ability to lower _____ reactivity _____ the portfolio _____ economic _____ their _____ correlation _____ other _____?

_____ have low _____ with other assets _____ regards _____ the _____ economic fluctuations?

_____ term _____ low _____ other assets and make a portfolio _____ to _____ economic circumstances

_____ long _____ have low _____ with other assets _____ have _____ economic _____.

_____ term _____ less susceptible to economic _____ because they _____ with _____ classes?

Some of the long _____ have low _____ making _____ portfolio _____ sensitive _____ economic downturns.

Some assets have low correlation with _____ makes _____ sensitive _____ economic _____.

Some long-term _____ have _____ correlation with _____ assets _____ make _____ sensitive _____ conditions.

Some _____ have _____ correlation with other _____ which decreases _____ to _____ economic conditions.

_____ of the long term assets have _____ correlation _____ others _____ have _____ sensitivity _____.

_____ long-term investments _____ correlation with other _____ classes and _____ sensitivity _____ economic _____.

_____ you know if _____ that have low correlation with _____ classes _____ reduce _____?

What asset _____ provide _____ against _____ in _____ economy _____ to _____ weak _____ with _____ categories?

_____ long term assets have _____ with other _____ are _____ sensitive _____ economic _____

_____ assets have minimal correlation _____ other _____ a portfolio's sensitivity _____ economic _____?

_____ holdings can _____ portfolio's reactivity during economic _____ due to their _____ correlation _____?

_____ long term _____ have low correlation with other _____ sensitive to _____ situations

Some _____ the _____ assets _____ correlation with _____ assets and _____ the sensitivity of the _____ to _____.

_____ have low _____ asset classes, and their _____ a portfolio's sensitivity _____ fluctuations?

____ term ____ low ____ other ____ which lowers sensitivity ____ economic conditions.
 ____ you suggest ____ low ____ to other ____ will ____ protect ____ portfolio?
 Some ____ long term ____ have ____ assets ____ make a portfolio less ____ economic downturns.
 The ____ between ____ assets ____ other ____ reduces ____ of a ____ to general economic ____.
 ____ the long term ____ correlations ____ other assets, ____ portfolio less sensitive to ____ economic ____.
 What assets ____ minimal correlations to ____ classes ____ sensitivity ____ economic ____.
 ____ you recommend long-term ____ have low ____ classes and reduce ____?
 Some long term ____ a ____ correlation with ____ makes a ____ certain economic situations.
 Some ____ long ____ assets ____ correlation with ____ assets that reduce ____.
 ____ reduce a ____ sensitivity ____ general economic ____ they ____ low correlation ____ other ____ classes?
 Due ____ their weak ____ categories, ____ insulation ____ changes in the economy?
 ____ you ____ long-term ____ that show low ____ reduce exposure ____ markets?
 Some of ____ have ____ correlation ____ assets ____ that ____ portfolio less sensitive to certain economic ____.
 Which specific ____ due to ____ weak interactions ____ asset ____ influence of general economic ____ on ____?
 ____ holdings ____ the ____ to ____ a portfolio's reactivity ____ economic ____ through ____ with other investments?
 Some ____ term assets have ____ other assets ____ are less ____ to ____.
 Can you give me examples ____ long-term ____ that ____ weak ____ types of securities ____ reduce ____ to broader ____
 ____ any investment ____ that ____ a ____ reaction to ____ in the ____ due ____ with other assets?
 Some ____ term ____ have low correlation ____ which decreases ____ sensitivity to ____.
 Do you know ____ investments ____ low ____ reducing ____ portfolio's exposure to broader ____?
 ____ assets decrease ____ portfolio's sensitivity ____ due to their low ____ with ____ classes?
 Some ____ assets have low ____ with ____ assets, ____ less ____ to economic ____
 Which ____ a weak ____ diminish the influence of ____ economic trends on investment ____?
 Which long-term ____ the ability to lower ____ reactivity ____ economic ____ correlation?
 Some of ____ long ____ assets have ____ with ____ assets ____ less sensitive to certain ____
 ____ long term assets ____ low ____ other assets and make ____ portfolio ____ sensitive ____ certain ____.
 ____ of ____ long ____ have low correlation ____ other ____ that makes the ____ less ____ conditions.
 Some long ____ have ____ assets ____ them ____ sensitive to economic conditions.
 Some of the long term ____ have ____ correlation ____ assets ____ a portfolio less ____ circumstances
 ____ long-term ____ reduce ____ sensitivity ____ general economic ____ due to their ____ with ____ asset classes?
 Some ____ investments ____ correlation ____ other asset classes ____ reduce their ____ towards ____.
 ____ long ____ assets have ____ with other assets which ____ portfolio ____ to ____ conditions.
 ____ assets ____ low correlations with ____ assets and make ____ sensitive ____ economic conditions.
 ____ low correlation ____ other classes decrease ____ susceptibility of portfolios to fluctuations ____ factors?
 ____ long term ____ correlation with other assets that affect ____.
 ____ you ____ investments ____ show low correlation ____ reduce a ____ exposure to ____?
 ____ there any investment ____ that show a ____ economy ____ the low correlation ____ other asset classes?
 ____ assets ____ a low ____ with ____ asset ____ to ____ a portfolio's ____ to ____?
 ____ long term ____ have ____ correlation ____ that make them ____ to ____ changes.
 ____ of ____ term assets have low correlation with ____ and make a ____ sensitive ____.
 ____ classes ____ reduced ____ to ____ fluctuations ____ they are ____ correlated with other ____?
 ____ long term assets with ____ correlation ____ other ____ less ____ certain economic conditions.
 Some of the long term assets ____ other ____ their ____ to economic conditions.
 ____ long term ____ have low correlations ____ assets, ____ have reduced ____ conditions.
 ____ assets ____ little ____ with ____ asset types during ____ general ____ downturn?
 ____ can show ____ correlation ____ asset ____ in times of economic ____?
 Some of ____ have low correlation with ____ assets, ____ their ____ to ____ conditions.
 ____ long term ____ and make a ____ less sensitive to economic ____

Is there any ____ options ____ show ____ reduced reaction ____ the changes in ____ economy ____ other ____ classes?

Are ____ long-term assets that have ____ with ____ and reduce ____?

____ the long ____ assets ____ low correlation with ____ that makes ____ less ____ economic situations.

Some long term ____ low correlations ____ other assets and ____

Some long term ____ have low correlation ____ assets ____ that ____ sensitivity ____.

____ of ____ long ____ assets have low ____ with other ____ less ____ downturns.

Some long-term ____ may have ____ susceptibility to economic ____ because ____ weakly ____.

Some of ____ long term ____ have low ____ and have reduced ____ sensitivity to ____

Which ____ assets reduce ____ to ____ economy due ____ with other assets?

Which ____ diminish ____ influence ____ general ____ on ____ portfolios ____ are weak ____ other asset types?

____ assets ____ correlation with other ____ types during good times ____?

Some of the ____ and ____ reduced the sensitivity of ____ portfolio to economic.

Some long ____ correlations and make a ____ less ____ to ____.

____ assets ____ minimal ____ to ____ the portfolio's sensitivity ____ economic conditions

____ assets that are weakly ____ with ____ asset classes ____ a ____ to ____?

____ assets that reduce risk in an ____ strategy due to ____ with ____ asset ____?

The long term assets ____ low ____ other ____ and ____ portfolio ____ to economic ____.

Some long ____ assets have low correlation with ____ so ____ less ____ economic ____.

What ____ reduced vulnerability ____ market conditions and ____ limited ____ with ____?

____ possess the ability ____ lower ____ portfolio's reactivity during ____ fluctuations through their ____ correlation ____ investments?

Do ____ assets have ____ low ____ classes ____ decrease ____ to fluctuations in ____ economic factors?

Do ____ minimal ____ to other classes ____ sensitivity ____ economic conditions?

____ long ____ assets ____ low correlation with ____ which ____ to the ____

Is ____ any ____ classes ____ show reduced vulnerability ____ conditions and ____ with ____?

____ options show ____ reduced reaction to changes ____ to their ____ correlation ____ other assets?

I am looking for ____ investments that ____ resistant ____ macroeconomic ____ through ____.

____ long-term ____ have ____ to economic ____ because they ____ weakly correlated with other ____?

Do certain long-term ____ low ____ classes ____ of portfolios to fluctuations in general ____ factors?

____ specific ____ interactions with ____ types ____ diminish ____ of general economic ____ on investment portfolios?

Which asset ____ have ____ the market ____ insulate ____ from fluctuations caused by general ____?

____ long ____ have low correlation with ____ assets, ____ makes ____ portfolio less ____ certain economic ____.

Can certain types of assets show reduced ____ are weakly correlated ____ asset ____?

Do ____ assets ____ low ____ other classes ____ portfolios?

Which ____ assets have weak ____ with other asset ____ and ____ the influence ____ trends ____?

____ certain ____ have less susceptibility ____ because they are ____ correlated ____ other ____?

Some of the long ____ assets ____ correlation with ____ makes ____ portfolio ____ sensitive ____ certain ____ conditions.

Some long term assets have ____ with ____ assets, and have ____ sensitivity ____ to ____.

Can ____ suggest ____ with ____ that would help ____ my portfolio?

Does ____ assets with low ____ classes ____ portfolios?

The ____ term ____ have low ____ with other ____ sensitivity ____ economic conditions.

Which ____ types ____ low ____ the market ____ a portfolio from ____ caused by ____ economy?

Do ____ know ____ low ____ portfolio's exposure to market conditions?

____ long ____ assets have ____ correlation ____ other ____ that reduces ____ portfolio's ____.

____ assets diminish the ____ economic ____ portfolios ____ to their ____ interaction with other asset ____.

Some of the ____ assets ____ low ____ with other assets making ____ to ____ conditions.

____ have low correlations with ____ asset ____ in ____ to their ____ portfolio's sensitivity ____ economic ____?

Protection against adverse market ____ a ____ portfolio could ____ implied ____ long-term holdings ____ have ____ or ____ connection ____.

Some _____ assets have low correlation _____ assets and make _____ portfolio _____ economic events.

_____ looking _____ advice on long-term asset _____ resist _____ through _____ correlations.

_____ of the _____ term assets have low _____ with _____ and _____ a reduced _____ to _____.

Are there any _____ that _____ correlation with other _____ that could _____ protect _____ economic _____?

_____ the long _____ have low correlation with _____ which _____ them less sensitive _____ economic _____.

_____ there a particular _____ class that _____ the _____ general _____ low correlations _____ others _____ an investment _____?

Which long-term _____ reduce portfolio _____ to low _____ other _____?

_____ long _____ have _____ correlation with _____ assets _____ them less _____ to _____ situations.

Some assets _____ to economic _____ because _____ are _____ with other _____ classes.

_____ assets have _____ to other classes _____ the _____ sensitivity to _____?

Some _____ term _____ have _____ correlation with other assets, _____ a portfolio _____ certain _____ conditions

_____ long term assets have _____ with _____ have reduced the _____ of the _____ to the _____

Some _____ assets have _____ with _____ assets which reduces the _____ the portfolio _____ economic

Some _____ assets have low _____ them less sensitive to economic _____.

_____ have _____ correlation _____ which makes a _____ less sensitive to certain economic scenarios.

Some _____ low _____ with other assets that _____ a portfolio's _____.

Some _____ the long _____ low _____ the economy, so they _____.

How _____ long-term _____ that _____ low correlation with other _____ sensitivity?

_____ advice on _____ investments _____ show _____ to _____ changes through limited correlations.

Which long-term _____ can _____ volatility _____ a _____ by showing _____ other _____ types?

_____ the long _____ assets have _____ other _____ which have _____ sensitivity _____ the portfolio to economic.

Some _____ investments _____ other asset _____ so they are _____ economic fluctuations.

Some _____ assets _____ low correlation with _____ them less sensitive _____ changes.

Some long term _____ low _____ with other _____ diminish _____ to _____ conditions.

_____ long-term holdings _____ reactivity of a _____ during _____ fluctuations through _____ limited _____ with _____ investments?

Some of _____ long term _____ correlation _____ them less sensitive _____ economic conditions.

Do _____ long-term _____ correlation _____ classes decrease the _____ of _____ to fluctuations in general economic _____?

Some _____ assets have low _____ other _____ that _____ portfolio _____.
