

[Demo] NLP Dataset for Customer Service Automation

Company Type	Electricity Suppliers
Inquiry Category	Energy consumption analysis and advice
Inquiry Sub-Category	Smart energy management
Description	Customers look for guidance on utilizing smart technology, such as smart thermostats or energy monitoring systems, to optimize energy usage and save money. They seek assistance in setting up and troubleshooting these devices for efficient energy management.
Data Size	6,488 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Electricity Supplier" customer inquiry. (Purchased data will not be masked.)

_____ specific features _____ a _____ thermostat help in _____ effectively?

The smart _____ have _____ that boost _____.

_____ attributes of _____ are best for _____?

How can the _____ power _____?

How can _____ of a _____ used to _____ home's _____ use?

_____ do _____ smart _____ elements _____ usage?

_____ thermostat features _____ maximize energy _____?

_____ characteristics _____ saving energy with _____ smart thermostat?

How do _____ a smart _____ power _____?

How _____ features of _____ smart _____ energy consumption?

Which specific elements are _____?

Which _____ of a _____ maximize energy use?

Which _____ smart _____ contribute _____ the best _____ efficiency?

Some smart _____ certain _____ boost _____ efficiency.

_____ particular _____ affect _____ efficiency _____ saving energy _____ a smart _____?

_____ are certain _____ of _____ smart thermostat _____ power _____.

_____ possible _____ tell me which _____ fuel-efficient smart _____?

_____ attributes of a thermostat _____?

_____ ensure _____ thermostat uses less _____?

_____ characteristics of _____ smart thermostat that _____ save _____?

_____ do certain _____ smart _____ reduce power use?

_____ thermostat _____ maximize their efficiency?

_____ can _____ of a _____ to _____ energy _____ in my home?

_____ are the _____ a _____ maximize efficiency?

_____ of a _____ thermostat _____ beneficial?

How do _____ functions of a _____ help _____?

_____ a smart thermostat have _____ attributes _____ reduce _____?

_____ do _____ smart thermostats boost _____?

_____ to find _____ how _____ thermostat _____ power savings.

Which aspects _____ a _____ maximize power _____?

What _____ contribute _____ the _____ of a _____?

How do specific _____ smart thermostat _____ reduce _____?

_____ smart thermostat _____ maximize energy use?

Which features _____ a smart thermostat _____ effectively?

_____ the smart _____ characteristics _____ operation?

_____ know how one of _____ thermostats _____ energy use?

Which _____ the _____ thermostat help _____ energy _____?

Which features of _____ smart _____?

_____ do specific smart thermostat _____?

In what _____ smart thermostat be used to _____ in _____?

What _____ of _____ smart _____ can _____ in _____ energy _____?

_____ features _____ smart _____ best for energy _____?

Which _____ it efficient _____ use _____ in _____ thermostat?

What _____ the _____ of _____ smart thermostat do _____ my _____ usage?

_____ functions _____ a smart thermostat _____ energy _____.

_____ does a smart _____ to _____?

How do some aspects of _____?

_____ can _____ smart _____ its _____ use?

How _____ energy efficiency?

How do specific _____ thermostat _____?

What are _____ specific characteristics of _____ help in _____ use?

Which _____ thermostat use less _____?

_____ does a smart _____ help _____?

_____ smart _____ save energy?

Specific _____ of a smart _____ aid _____ energy _____.

How _____ a smart thermostat _____?

_____ you tell _____ the fancy thermostats work for efficient _____?

How _____ the _____ thermostat _____ use?

_____ thermostat attributes do _____ power?

The smart _____ boost _____?

_____ help the _____ thermostat maximize power _____?

_____ ways can _____ smart thermostat be _____ home's _____ usage?

_____ do _____ maximize energy _____ a _____ thermostat?

_____ thermostat attributes do _____ help _____ power?

_____ different characteristics of _____ thermostats _____ to _____?

The _____ of _____ help _____ efficiency.

_____ smart thermostat _____ to save _____?

What _____ attributes of _____ thermostat _____ energy efficiency?

Which features _____ the _____ efficiency?

_____ the effectiveness of saving energy _____ a smart _____?

_____ a smart thermostat _____ use?

_____ the _____ of a _____ thermostat _____ used to _____ my _____ in my _____?

_____ do specific _____ traits _____ power _____?

What _____ best conserve energy?

What _____ of _____ smart _____ do?

_____ a smart thermostat _____ difference in _____ efficiency?

_____ you tell _____ how one _____ thermostats _____ efficient energy?

What _____ the different _____ to _____ thermostat efficiency?

_____ a smart _____ difference in the use of _____?

_____ thermostat have tools _____ use?

_____ smart thermostat's specific _____ aid _____ consumption.

Does a _____ tools _____ maximize _____?

Is a _____ good _____ energy _____?

_____ smart thermostat _____ energy waste?

_____ the _____ a thermostat help _____ energy consumption?

Are _____ thermostat features _____ efficiency?

Does _____ smart _____ to maximize energy _____?

What _____ certain characteristics _____ smart _____ do _____ boost _____?

How _____ certain _____ energy efficiency?

_____ does _____ smart _____ design aid _____?

How do _____ the _____ thermostats _____ for _____ use?

What _____ features save _____?

_____ strategies _____ a _____ thermostat use _____ minimize _____ waste?

_____ does _____ thermostat use _____ better?

_____ are the _____ a _____ thermostat maximize energy?

_____ a smart _____ energy efficiently?

_____ there _____ to _____ power _____ using a _____ thermostat?

_____ features _____ thermostat _____ cut energy consumption?

What ways _____ the features _____ thermostat be _____ my home to _____?

_____ features _____ a _____ maximize energy _____?

_____ characteristics _____ thermostats boost energy efficiency?

Smart _____ save power.

_____ to know which _____ smart _____ have.

What are the specific _____ smart _____ that _____ energy _____?

How can a _____ reduce _____?

Smart thermostat has _____ that _____?

How _____ certain _____ smart thermostat _____ electricity?

_____ to know the functions _____ smart _____ savings?

Which _____ smart _____ for efficiency?

_____ of a _____ help maximize energy savings.

_____ of _____ smart thermostat help _____ energy efficiency?

_____ thermostat _____ that save energy?

_____ thermostat attributes _____ on _____ usage

Can _____ tell _____ how a fancy thermostat _____ for _____?

How does a _____ thermostat _____?

What _____ the key features _____ a _____ help with _____ maximization?

Are _____ the _____ functions that maximize _____ thermostat _____ savings?

Some _____ of _____ thermostat help maximize _____.

What _____ features save _____?

Can _____ tell me _____ a _____ work for _____ energy _____?

_____ some _____ of _____ smart thermostat.

How _____ the _____ thermostat _____ power _____?

_____ of _____ thermostat _____ be used to _____ energy consumption?

_____ characteristics of _____ thermostat help reduce energy _____?

How can a _____ thermostat _____ maximize _____?

Specific attributes of a _____ be _____ to _____ power _____.

_____ elements within a _____ thermostat _____?

_____ certain characteristics _____ smart thermostat _____ energy efficiency?

Some _____ traits of _____ thermostats _____ energy _____.

Which _____ of _____ thermostat _____ power?

_____ features in _____ thermostat _____ efficiency?

_____ specific _____ smart thermostat help reduce power _____?

What are _____ characteristics of _____ will help _____ energy _____?

_____ specific _____ of a smart _____ help _____ save _____?

_____ can _____ thermostat do to _____?

_____ specific smart thermostat _____ usage?

What _____ thermostat _____ maximize _____ efficiency?

What are _____ of the _____ thermostat?

_____ key features _____ smart thermostat _____ efficient _____ consumption.

_____ of _____ thermostat can reduce power _____?

How _____ features of _____ smart _____ be _____ home to maximize energy _____?

Which _____ of _____ thermostat can help maximize _____?

_____ you _____ me _____ the _____ thermostats _____ efficient energy usage?

What _____ a _____ thermostat _____ usage?

_____ is _____ that _____ energy efficiency?

Which _____ of _____ smart _____ helps _____ energy _____ effectively?

What _____ the characteristics of a smart _____ that _____?

_____ different _____ that contribute to smart _____ effectiveness?

_____ smart _____ help _____ energy consumption.

_____ features _____ the smart thermostat _____ boost _____ efficiency.

_____ a smart _____ strategies _____ maximize _____ use?

_____ ways can _____ thermostat _____ energy?

_____ specific features of a _____ thermostat _____ energy _____?

What are _____ characteristics _____ smart _____ that _____ save _____?

_____ can improve _____ efficiency?

_____ a combination _____ characteristics _____ thermostat that maximizes efficiency?

_____ parts _____ a _____ improve power _____?

Which _____ of a smart _____ help _____ maximize _____?

What _____ smart thermostat _____ maximize energy _____?

_____ best _____ in the _____ thermostat?

_____ there _____ one _____ the fancy _____ for efficient energy?

_____ the _____ functions _____ make _____ smart thermostat efficient?

How _____ a smart _____ be used to _____ energy use?

I want _____ fuel efficient traits _____ has.

_____ features of smart thermostats _____ save _____?

_____ characteristics affect _____ effectiveness _____ a _____ thermostat?

You _____ know _____ that _____ the _____ power savings.

_____ smart _____ specific _____ can _____ in _____ energy consumption.

What do a _____ thermostat _____?

_____ does _____ thermostat help manage _____?

The _____ thermostat has _____ aid _____.

_____ functions _____ a smart thermostat _____ maximize _____ effectively.

How _____ thermostats affect _____ use?

Which _____ of _____ thermostat best _____?

What functions do _____ smart thermostat have _____?

_____ features _____ a _____ thermostat are _____ to _____ energy _____?

_____ functions _____ thermostat can maximize _____ efficiency.

_____ the features of a smart _____ to _____ energy?

_____ the smart thermostat _____ use?
 How _____ a _____ thermostat _____ usage?
 _____ are _____ of _____ contribute to the effectiveness of _____ smart _____?
 _____ functions _____ the smart thermostat help _____ energy _____?
 What can _____ save on electricity bill?
 _____ can the features of a _____ used _____ decrease _____?
 Are _____ for _____ savings with a _____ thermostat?
 What _____ features of _____ thermostat _____?
 _____ attributes _____ smart thermostat _____ a part _____ efficiency?
 Some elements _____ maximize _____ usage.
 _____ are the _____ in _____ smart _____?
 Which _____ of _____ smart _____ help _____?
 How can certain functions in _____ reduce _____?
 _____ can the thermostat _____ on _____?
 Which _____ ensure _____ use _____ energy in the _____?
 _____ a smart _____ work _____ maximize _____?
 _____ the smart _____ power _____ efficiently?
 _____ smart _____ features help _____ energy _____.
 _____ particular _____ in a smart _____ minimize _____ waste?
 Which _____ of a _____ save _____ energy?
 What _____ a smart thermostat _____ use?
 What _____ it _____ makes _____ smart _____ energy usage?
 Can you tell _____ how _____ work _____ efficient energy _____?
 What ways is a _____ able _____ energy _____?
 How _____ features of a smart _____ be _____ energy _____ home?
 _____ a smart _____ the most energy?
 _____ attributes _____ a _____ thermostat make it _____ energy _____?
 What _____ a smart thermostat can do _____ power?
 Which _____ of _____ thermostat _____ maximize energy use?
 How can _____ smart _____ power _____?
 _____ do _____ characteristics _____ smart _____ support _____?
 The _____ thermostat can _____ minimize energy waste.
 What ways _____ the _____ of a _____ to save _____ my house?
 _____ do certain _____ within a _____ thermostat _____ usage?
 Which _____ features _____ the _____ better?
 Do _____ the functions that maximize _____ savings.
 _____ a smart thermostat _____ energy consumption?
 Which _____ help with efficient _____ of _____ in _____?
 _____ can _____ functions of a smart _____ power _____?
 Do some _____ the _____ smart thermostat?
 There _____ elements _____ a smart _____ that _____ usage.
 _____ do specific _____ a _____ thermostat _____ energy usage?
 _____ are certain functions _____ thermostat power _____.
 _____ does a _____ thermostat _____ to _____ energy _____?
 What _____ a _____ thermostat _____ a role _____ efficiency?
 _____ are the _____ a _____ thermostat _____ aid in reducing energy _____?
 In what ways _____ thermostat _____ to _____ energy waste?
 Which _____ of _____ smart _____ use?
 What _____ contribute _____ thermostat?
 _____ smart thermostat _____ make it _____?

How do _____ traits of _____ energy _____?

Do specific characteristics _____ saving energy _____ a _____ thermostat?

_____ smart _____ features _____ energy _____?

_____ smart _____ efficient _____ using energy?

Is _____ a _____ energy efficiency?

There _____ specific _____ within _____ thermostat _____ maximize _____ use.

How _____ certain _____ smart _____ increase energy _____?

_____ are special features that _____ energy _____.

What are the _____ help _____ smart _____ maximize _____?

_____ a thermostat save energy _____?

Which _____ the _____ thermostat features _____ the _____?

Can _____ attributes _____ a _____ thermostat be used _____ power waste?

Understand _____ that maximize _____ thermostat _____

How _____ a _____ thermostat _____ less _____?

Which _____ a thermostat can _____ maximize _____ consumption?

Which attributes of _____ to optimal energy _____?

Do _____ improve _____ effectiveness of _____ thermostat?

Which aspects _____ smart _____ conserves _____ energy?

Does a smart thermostat have _____ energy?

_____ features _____ smart _____ efficient?

_____ things do _____ thermostat do to _____ usage?

Is saving _____ a _____ thermostat _____ particular characteristics?

_____ certain _____ a _____ thermostat be used to reduce _____?

Does a smart thermostat _____ certain _____ reduce _____?

_____ make _____ thermostat use _____ efficient?

_____ features _____ of this thermostat?

What features help this _____?

What ways _____ features _____ a _____ thermostat _____ to improve _____ use _____ my _____?

Can certain _____ of _____ smart _____ waste?

_____ can _____ thermostat _____ use?

_____ do smart _____ efficiency?

How _____ smart _____ behavior?

How do _____ smart thermostats _____ energy use?

Which features _____ consumption _____ thermostat?

In what ways _____ energy?

How _____ smart _____ using less energy?

_____ contribute to the _____ of _____ a smart _____?

How should a smart _____ used _____ consumption?

What are _____ ways in _____ can _____ reduce energy _____?

_____ affect energy _____ a _____ thermostat?

_____ the thermostat _____ maximize _____ use?

Can you _____ me the _____ of _____?

What _____ of smart _____ boost energy efficiency?

How _____ the _____ smart _____ contribute to _____ efficiency?

Which attributes _____ a smart _____ are _____ for _____?

Which _____ of a smart _____ saves _____?

Specific _____ of _____ help maximize energy _____

_____ the _____ thermostat that help maximize energy _____ effectively?

There _____ aspects of _____ thermostat _____ with _____ usage.

Do _____ attributes help _____ energy savings with _____?

How ____ smart ____ energy ____?

How does ____ to an optimal energy ____?

____ smart thermostat ____ save ____ most ____?

____ the elements ____ make a ____ thermostat ____ use?

____ features ____ thermostat to use less ____?

____ what the ____ of a ____ thermostat are?

____ smart thermostat ____ energy ____?

What smart ____ are ____ energy?

____ of ____ thermostat help save ____.

How ____ thermostat ____ save ____?

____ characteristics ____ efficacy of ____ smart thermostat?

Specific functions ____ a smart ____ help ____ efficiency ____

How ____ the smart thermostat ____?

Can you ____ a fancy ____ for ____ energy?

How do some ____ power ____?

____ the key features of ____ it more efficient?

____ the distinct functions that ____ of ____ smart thermostat?

How do ____ attributes ____?

____ make ____ smart thermostat ____ energy ____?

Want ____ what ____ thermostat functions maximize ____.

____ do smart ____ affect ____?

Does ____ have tools ____ maximize ____ of ____?

____ specific ____ of ____ smart ____ reduce energy usage.

What ____ distinct functions that ____ a ____ work?

How can a ____ thermostat make ____ to ____?

____ characteristics of ____ smart ____ save ____.

Have ____ at the ____ that ____ smart ____ power ____.

____ a ____ of characteristics ____ smart thermostats that ____ them ____?

Where are ____ thermostat features ____?

What ____ that make ____ smart thermostat maximize ____?

Is ____ tell me which features ____ smart thermostats ____?

A smart ____ maximize ____ efficiency.

____ features of ____ smart ____ to energy ____?

Which ____ thermostat help ____ energy efficiency?

____ specific features ____ a smart thermostat ____ energy ____?

____ of ____ thermostat ____ energy efficiency?

____ of ____ smart ____ reduce power waste?

Which ____ thermostat improve power ____?

____ do ____ characteristics of ____ thermostat help ____ reduce ____ use?

____ do ____ smart ____ have that makes ____ energy?

Is there a ____ efficiency with the ____?

How ____ specific functions of a ____ maximize ____?

Which ____ thermostat ____ efficiency?

____ makes ____ use less power?

What aspects ____ a ____ make ____ use less ____?

Is a ____ thermostat ____ to ____?

What ____ certain ____ smart thermostat ____?

The attributes of ____ thermostat may ____ energy ____.

What are the ____ features ____ thermostat energy ____?

____ are features in ____ maximize ____ use.

Is it _____ tell _____ features _____ smart thermostats _____?

How does a _____ help _____?

What _____ thermostat can _____ a difference?

Which _____ this _____ conserve power?

There are features of the _____ aid _____.

Which _____ can _____ with energy _____?

_____ different _____ a difference in saving _____ a _____?

What _____ do to _____ reduce power consumption?

What _____ efficient _____ energy _____ smart thermostats?

_____ make _____ thermostats _____ better?

_____ traits of smart _____ that increase _____ efficiency?

_____ smart thermostat _____ certain _____ that _____ power _____.

Which smart thermostat _____ efficiency.

_____ smart _____ help to conserve energy?

How is _____ thermostat _____ contribute to energy _____?

What _____ a smart _____?

_____ of a _____ thermostat can help _____ energy _____.

Which attributes of _____ are _____ best _____ energy?

How can _____ features of _____ smart thermostat _____ used _____ increase the _____?

_____ some smart thermostats do _____ efficiency?

_____ parts of _____ smart thermostat _____ an _____ on _____?

What do _____ smart thermostats _____?

Is _____ to maximize energy _____?

Is _____ combination of _____ in smart _____ that _____ them _____?

How _____ features improve _____ in a _____?

How _____ thermostat features _____ power _____?

What _____ the _____ that _____ power savings?

_____ are _____ make them good for _____ energy?

How do _____ different _____ thermostats _____ efficiency?

Do specific _____ the effectiveness _____ smart _____?

Which _____ thermostat contribute _____ to energy efficiency?

_____ is it that _____ a _____ more _____ efficient?

The _____ has _____ energy efficiency?

What _____ do a _____ thermostat do _____ usage?

Do _____ effectiveness of _____ smart thermostat?

_____ thermostats boost energy _____?

What _____ the traits _____ smart _____ that boost _____?

Which attributes _____ a _____ thermostat _____ saving energy?

What _____ this thermostat smart?

How _____ certain qualities _____ smart _____ save _____?

_____ smart _____ efficiency tools?

_____ attributes _____ thermostat contributes to optimal energy _____?

_____ do _____ aspects of _____ thermostats _____ efficient _____?

_____ smart _____ attributes be used to _____ power _____?

_____ of _____ smart thermostat contributes _____ efficiency?

_____ features _____ thermostat aid _____ efficiency?

_____ a smart _____ the ability to _____ energy _____?

_____ are _____ characteristics _____ a _____ thermostat that save power?

In what ways _____ the _____ of _____ to maximize _____ use?

_____ characteristics improve _____ efficiency of _____ smart _____?

Which ____ fuel- ____ smart ____ ?

____ some characteristics of smart ____ energy ____ ?

How do ____ maximize energy ____ a ____ ?

____ does ____ assist in efficiency?

There may ____ combination of characteristics ____ smart ____ efficiency.

I ____ what little ____ a smart ____ to ____ power.

____ I ____ features of a ____ energy in my home?

____ a smart ____ use less ____ ?

What ____ of a smart thermostat?

____ the characteristics of a ____ efficiently save ____ ?

____ a smart thermometer help to ____ energy?

____ do ____ characteristics of a smart ____ consumption?

What ____ power ____ with ____ thermos?

How ____ smart ____ efficient ____ use?

____ specific attributes of ____ make a ____ ?

Can a smart ____ use?

What attributes ____ a ____ thermostat help ____ ?

____ some ____ a smart temperature ____ savings?

What things ____ thermostat do to ____ waste?

Which features ____ smart thermostats ____ ?

____ aid in reducing energy ____ .

What ____ can ____ decrease energy ____ ?

____ want ____ what smart thermostat features ____ energy ____ .

____ a smart ____ energy efficiently?

____ exist in smart ____ ?

How does a ____ thermostat ____ energy ____ ?

____ functions ____ smart thermostat power savings ____ you ____ ?

Which attributes ____ a ____ the ____ energy?

____ does ____ smart thermostat contribute ____ ?

____ features make ____ thermostat ____ efficient?

____ you ____ what features ____ thermostat save energy?

____ aspects of ____ smart ____ best energy efficiency?

____ attributes conserve the ____ ?

____ help conserve ____ with a smart ____ ?

How ____ certain functions ____ smart thermostat ____ efficiency?

Did you know ____ one of ____ thermostats works ____ ?

What is ____ about ____ thermostat ____ to ____ efficiency?

What ____ smart thermostat do ____ ?

____ attributes ____ thermostat contribute ____ optimal ____ efficiency?

Which ____ a ____ thermostat reduce ____ ?

____ to ____ the functions that ____ thermostat power ____ .

Does a ____ to maximize ____ ?

____ smart thermostat be used ____ energy in my home?

There ____ smart ____ that can ____ minimize power consumption.

____ efficiency ____ aided ____ smart ____ features.

____ certain smart ____ characteristics ____ ?

Does the ____ saving energy with a ____ depend ____ ?

Does ____ thermostat ____ saving tools?

____ can ____ thermostat do ____ cut power ____ ?

Which features helps ____ save ____ ?

_____ can a smart _____ consumption?

_____ know _____ fuel-efficient _____ thermostats have?

_____ does a _____ you _____ energy?

_____ the special features that make _____ energy _____?

_____ know _____ ways one _____ them _____ works for efficient energy _____.

How _____ traits impact power _____?

_____ are _____ specific functions _____ help _____ energy _____ a smart _____?

_____ features make the _____ work?

_____ does _____ thermostat manage energy _____?

_____ you tell me what smart _____ energy _____?

_____ thermostat features _____ successfully?

_____ the _____ that maximize smart _____ savings

_____ possible _____ tell _____ characteristics fuel-efficient _____ thermostats have?

_____ certain functions _____ a _____ temperature increase _____?

What smart _____ features _____ and _____?

_____ the functions _____ contribute _____ efficiency _____ a smart thermostat?

What _____ the _____ that make a smart _____?

Is it _____ smart thermostats boost _____ efficiency?

_____ specific _____ affect _____ efficiency _____ a _____ thermostat?

_____ important _____ maximizing energy savings _____ smart thermostat?

How _____ smart _____ characteristics affect _____?

_____ different _____ smart thermostats _____ efficient usage?

_____ a way to explain _____ features _____ a _____ thermostat _____ energy _____?

_____ do _____ energy _____ in thermostat?

What _____ some _____ which a smart _____ save _____?

What _____ with efficiency?

What _____ the specific characteristics _____ a smart _____ that _____ reduce _____?

_____ the _____ smart _____ do _____ increase energy efficiency?

_____ aspects of smart _____ energy _____.

Do _____ of _____ fancy _____ work for efficient _____ use?

What _____ the key _____ that contribute to _____ smart _____?

_____ a thermostat _____ smart _____ energy?

There _____ some traits of smart _____ efficiency.

_____ certain characteristics _____ the effectiveness of _____?

Which smart _____ help _____ efficiency?

What _____ a smart _____ improve _____ usage?

_____ attributes _____ thermostat conserve the most _____?

_____ smart _____ maximize _____ use?

Which _____ make the smart _____?

Can _____ of a smart _____ power _____?

What _____ some characteristics of _____ save power?

Can specific _____ of a smart _____?

_____ the little _____ that a smart thermostat _____ save _____?

What are _____ specific functions _____ smart thermostat _____?

_____ of _____ used to reduce power waste?

_____ you _____ a _____ thermostat _____ help with energy efficiency?

Specific _____ matter _____ maximizing energy _____ a smart _____.

There _____ in _____ thermostats _____ maximize _____ efficiency.

Which _____ a smart thermostat can _____ maximize _____ efficiency?

_____ features are _____ to _____ energy?

_____ characteristics of a thermostat _____ ?

What _____ can _____ smart thermostat be used to _____ energy _____ house?

_____ features ensure _____ in _____ ?

_____ thermostat features _____ energy _____ ?

_____ aspects of _____ that boost energy efficiency.

_____ specific _____ smart thermostat _____ help maximize _____ efficiency?

How _____ certain _____ a _____ aid in reducing energy _____ ?

_____ do _____ in _____ thermostats _____ consumption?

_____ of _____ thermostat help _____ power waste?

_____ characteristics of _____ thermostat can help _____ reducing energy _____.

Which aspects of _____ energy?

Does a _____ have functions _____ maximize _____ ?

How does a _____ contribute _____ of energy?

How _____ in saving energy?

_____ specific attributes be important _____ maximizing _____ savings _____ smart _____ ?

_____ functions does _____ thermostat have to _____ efficiency?

_____ features _____ a _____ be used to reduce energy _____ home?

What _____ contribute to _____ efficiency?

_____ are _____ functions in a _____ thermostat _____ maximize energy _____ ?

_____ make this thermostat _____ ?

_____ can _____ of a _____ be _____ reduce energy use?

Do _____ characteristics _____ efficiency _____ smart thermostat?

_____ do _____ elements within a _____ maximize _____ use?

_____ functions that _____ smart _____ power _____ are _____.

_____ you _____ fuel-efficient _____ thermostats _____ certain characteristics?

How do elements of _____ power _____ ?

_____ can _____ smart _____ in energy _____ ?

Does _____ thermostat _____ tools to _____ use?

_____ thermostats improve _____ efficiency?

What _____ of _____ thermostat can _____ ?

What _____ a _____ thermostat contribute _____ best _____ efficiency?

_____ can a smart _____ do _____ use?

_____ do _____ a smart _____ do?

_____ can _____ reduce _____ usage?

How can _____ conserve _____ ?

_____ are the _____ of a _____ help _____ energy efficiency?

Can the _____ thermostat _____ reduce power _____ ?

_____ does a _____ with _____ energy consumption?

In what _____ of a smart _____ be _____ energy usage?

_____ the _____ smart thermostat that save power?

How _____ thermostat _____ energy?

_____ smart _____ contribute to _____ energy use?

Which _____ use _____ energy?

_____ the smart _____ combination of characteristics that _____ ?

_____ help maximize energy efficiency?

How _____ the smart _____ contribute _____ energy _____ ?

Can _____ thermostat _____ energy _____ ?

How do thermostat _____ ?

Which features _____ a smart _____ contribute to _____ ?

There _____ specific elements _____ that maximize energy _____.

What ways _____ smart _____ be _____ to _____ in my home?

Which elements _____ in _____?

_____ a smart thermostat?

Do you know which _____ efficient _____?

_____ affect thermostat energy _____?

How can the smart _____?

_____ different _____ of _____ support efficiency?

What does _____ maximize power use?

_____ a smart _____ help maximize energy efficiency.

_____ a smart _____ help save _____.

What do the _____ thermostats _____ efficiency?

How _____ thermostats _____ efficient use _____?

_____ functions _____ a smart _____ energy efficiency.

_____ does _____ take _____ maximize _____ in _____ smart thermostat?

What _____ the _____ functions that help maximize _____?

_____ certain functions on _____ energy _____?

_____ smart thermostat save power.

_____ do the characteristics _____ thermostat work to _____?

_____ of _____ thermostat conserves _____?

_____ characteristics _____ a _____ thermostat more _____?

_____ of a smart thermostat _____ conserve _____?

Is _____ of a smart _____ reduce power waste?

_____ the efficacy _____ saving energy with _____ thermostat _____ on _____?

_____ smart thermostat contribute to _____ use?

There _____ specific _____ that maximize _____ thermostat's power _____.

_____ specific characteristics _____ in the efficacy of _____ smart _____?

What _____ consumption in _____ smart _____?

What _____ the _____ elements _____ thermostat?

_____ smart thermostat features _____ efficient?

Do different characteristics help _____ energy _____?

_____ the features _____ smart thermostat _____ used to _____ maximize _____ in _____ home?

_____ thermostat attributes _____ on power _____?

_____ are the functions that _____ maximize _____ effectiveness _____ a _____?

Which features _____ maximize _____ efficiency _____?

How do _____ of _____ smart thermostat _____ use?

_____ the _____ a smart thermostat?

_____ the _____ of _____ thermostat _____ used to _____ waste?

What settings help _____ reducing _____ smart _____?

There _____ attributes _____ a smart _____ that _____ reduce _____ waste.

_____ thermostat help _____ power consumption?

There _____ smart _____ energy efficiency

Do _____ help save _____ thermostat?

_____ thermostat conserve power?

_____ ways _____ of _____ thermostat be put to use _____ save _____?

_____ smart thermostat _____ energy efficiency?

_____ main _____ of a _____ thermostat that make it _____ energy?

_____ the thermostat _____ that _____ energy _____?

The _____ has features _____ make it more _____?

I want _____ trait fuel- _____ smart thermostat _____.

_____ features make _____ more _____?

How _____ thermostat _____ reduce _____ consumption?

Which characteristics of _____ help _____ reducing energy _____?

I want to _____ smart thermostats _____ qualities.

_____ features of a smart thermostat _____ improve energy _____?

_____ the specific _____ that _____ thermostat _____ to maximize energy efficiency?

Which features of _____ can _____ maximize _____ consumption?

_____ smart _____ can _____ energy?

How does _____ in efficiency?

How _____ different characteristics _____ thermostats _____ efficient _____?

Can you tell _____ functions _____ maximize _____ thermostat power _____?

_____ a thermostat work to _____?

_____ smart _____ save energy _____?

_____ do _____ make the thermostat _____ efficient?

How _____ thermostat _____ reduce _____ consumption?

What features _____ included in _____?

The smart _____ features that _____?

_____ of _____ the most energy?

_____ thermostat traits can _____ usage.

Smart _____ maximize energy consumption.

What _____ the _____ efficiency of a smart _____?

_____ a smart _____ ways _____ use?

Specific _____ in _____ thermostat _____ help _____ energy waste.

_____ are certain characteristics _____ smart _____?

Which _____ smart _____ reduce power _____?

Does _____ tools _____ use less _____?

_____ unique functions contribute to _____ efficient _____ of _____ thermostat?

_____ of a _____ most helpful _____ saving energy?

_____ do _____ thermostat _____ support _____ energy use?

_____ certain functions of a _____ power consumption?

Are _____ for maximizing energy savings _____ a _____?

_____ to the smart thermostat?

Which _____ the smart _____ with _____ use?

What makes _____ smart _____?

How _____ the smart _____ characteristics help it _____?

_____ the _____ that make _____ smart thermostat _____ power?

_____ do _____ functions reduce _____?

_____ can smart _____ save _____?

_____ attributes of _____ thermostat best _____?

_____ attributes _____ thermostat _____ most energy?

How _____ thermostat _____ power consumption.

Some of the characteristics of _____ smart _____.

Which traits of _____ efficient _____ thermostats _____?

_____ you know _____ of the fancy thermostats _____ for _____?

What _____ does the _____ have to _____ power?

_____ attributes _____ down on power usage?

_____ of a _____ thermostat affect _____?

Can _____ me how a _____ thermostat can _____?

_____ the _____ of _____ smart thermostat _____ to _____ energy consumption?

_____ certain characteristics _____ a _____ when _____ energy with _____ smart _____?

_____ features of _____ smart _____ reduce power _____?

Is _____ with _____ thermostat influenced by _____ characteristics?

There are _____ smart _____ boost energy efficiency.

How _____ the functions _____ a smart _____ contribute _____ ?

There _____ ways _____ the features _____ smart _____ can _____ used _____ save energy.

_____ exact _____ a smart thermostat can _____ reducing _____ consumption.

How _____ specific attributes _____ maximizing _____ savings _____ smart thermostat?

_____ the _____ of a smart thermostat _____ help _____ consumption?

What are _____ functions _____ to a smart _____?

What _____ different _____ to the _____ of the thermostat?

_____ are _____ in _____ smart _____ that maximize _____ usage.

Want _____ know how the smart _____ maximize _____ ?

How can _____ attributes _____ some _____ ?

What do the _____ a _____ have to _____ energy _____?

Smart _____ that help _____ consumption.

Which _____ make smart _____ energy?

Smart thermostats _____ features _____ maximize _____ .

_____ a smart thermostat can _____ maximize _____ consumption.

What are _____ elements _____ thermostat _____ maximize energy _____?

What does a _____ thermostat _____ to _____ ?

What are _____ main _____ smart _____ that help _____ energy _____?

_____ thermostat features _____ energy _____?

How _____ functions _____ use less?

_____ smart thermostats _____ energy _____?

_____ thermostats _____ improve energy efficiency?

_____ ways can _____ thermostat minimize _____ ?

How do specific _____ characteristics _____ ?

_____ smart _____ save on energy _____?

_____ smart thermostat's _____ maximize _____ efficiency.

Does a _____ thermostat _____ tools to _____ energy _____?

_____ do _____ energy efficiency _____ thermostats?

What are the _____ the smart _____ save _____?

Is a _____ able _____ maximize energy _____?

What _____ qualities of _____ that support _____ energy use?

Do certain _____ improve the effectiveness _____ with _____ thermostat?

_____ a smart thermostat _____ energy _____?

_____ are certain _____ of smart _____ that _____ efficiency.

_____ do _____ attributes _____ a smart _____ contribute _____ energy _____?

How can the features _____ a _____ used _____ my _____ usage?

How _____ smart thermostat save _____ ?

_____ ways _____ the _____ energy waste?

There _____ a combination _____ characteristics _____ smart _____ that maximize _____ .

What are the _____ of _____ can help reduce energy _____?

Does _____ have specific _____ that minimize power _____?

Which parts of _____ help maximize _____ ?

_____ a _____ thermostat _____ be used _____ energy use?

How _____ smart thermostat perks _____ ?

The _____ of _____ thermostat can help _____ waste.

What _____ feature that _____ energy?

How do _____ usage?

_____ smart thermostat help _____ consumption?

_____ are the specific _____ in a smart _____ maximize _____?

_____ features _____ boost energy efficiency.

How _____ a smart thermostat _____ of _____?

Does a _____ thermostat come _____ tools _____ energy _____?

Can specific _____ a _____ waste?

_____ can _____ thermostat _____ to save _____?

The features _____ a smart thermostat _____ improve _____ use.

What are the _____ that _____ a _____ maximize _____ usage?

What specific functions _____ the _____ of _____ a _____ thermostat?

What are _____ of _____ smart thermostat _____ save _____?

What ways _____ a smart _____ to maximize _____?

_____ certain attributes of a _____ power _____?

_____ key _____ of a smart _____?

_____ of a _____ thermostat _____ use less _____?

_____ do some _____ smart thermostats _____?

_____ functions _____ the smart _____ have _____ maximize _____ efficiency?

_____ of a _____ help reduce _____ consumption?

Do characteristics _____ the effectiveness _____?

What functions in _____ energy efficiency effectively?

What can the features of a smart _____ to _____?

_____ features of a smart thermostat _____?

_____ are the key _____ of _____?

_____ efficiency in _____ be improved by _____.

How do _____ smart thermostats _____ a difference _____?

_____ characteristics make _____ smart _____ more _____?

_____ certain elements _____ a _____ thermostat _____ effectively?

I need _____ know which traits _____ have.

Is there _____ of characteristics _____ that increases _____?

_____ thermostat traits influence power _____?

Some characteristics help save _____.

_____ the smart _____ support efficient _____ use?

How do _____ support _____?

Do you _____ what _____ save energy?

_____ improve _____ of thermostats?

_____ can _____ features of _____ be put _____ use to save _____?

What _____ energy efficiency _____ thermostats?

How is _____ smart _____ reduce power _____?

_____ can _____ attributes save power _____?

What _____ a _____ thermostat _____ efficiency?

Do you _____ how _____ of _____ works _____ efficient energy _____?

Do some _____ thermostat save _____?

The _____ characteristics _____ help _____ reduce energy consumption.

What ways can the features _____ to conserve _____?

_____ a smart _____ help energy _____?

What thermostat _____ efficiency?

To _____ energy use, _____ are found _____ thermostats?

_____ certain characteristics help _____ energy with _____ smart _____?

How can the _____ manage _____?

_____ features improve _____ efficiency?

What _____ that contribute to the efficiency _____?

Which parts ____ a smart ____?

____ do the ____ characteristics ____ a smart ____ reducing energy ____?

____ ways ____ smart thermostat ____ cut energy ____?

There are ____ that increase energy efficiency.

____ are the ____ the ____ maximize energy efficiency?

____ a smart ____ able to ____?

Which ____ of a ____ are ____?

____ smart thermostat ____ on ____ usage?

____ thermostat ____ save power

Different trait ____ thermostats support ____ energy ____.

____ the ____ thermostat maximize energy?

That ____ energy efficiency?

____ the ____ thermostat's characteristics ____ boost energy efficiency?

____ are ____ functions ____ a ____ thermostat ____ help maximize energy ____.

____ do different characteristics ____ smart ____?

What ____ certain functions of ____?

____ smart ____ do ____ energy efficiency?

____ ways ____ the ____ thermostat ____ used to ____ energy ____ in my home?

Can you tell me ____ benefits ____ a ____?

Do ____ characteristics of ____ affect the efficacy ____ saving ____?

How can ____ thermostat ____?

What ____ the ____ smart ____ be ____ to save ____ in my home?

____ functions that maximize smart ____ savings ____ what ____ need ____.

____ do smart thermostat ____ usage?

The features of ____ used ____ reduce energy use.

How ____ thermostat reduce ____ use?

____ features make ____ smart thermostat more ____?

Characteristics of a ____ can ____.

____ need ____ in which ____ fancy ____ works for ____ energy use.

What makes this ____?

____ thermostat features that boost ____?

What aspects ____ the ____ thermostat ____?

____ are ____ functions that ____ to the ____ of ____ smart ____?

____ smart ____ features ____ efficiency?

Specific attributes ____ maximized energy ____ with ____ smart ____.

____ the characteristics of a smart ____ energy ____?

What ____ thermostat ____ can help ____?

How ____ characteristics ____ thermostat support efficient ____ use?

____ is ____ function ____ a ____ that helps ____ energy efficiency?

Do ____ affect the ____ a smart ____?

Want ____ maximize smart ____ savings?

____ features of a smart ____ help ____ energy ____?

____ do ____ a smart thermostat affect ____?

____ do some ____ thermostats increase ____ efficiency?

____ are ____ in ____ smart thermostat ____ power savings.

____ the ____ of a ____ thermostat be harnessed ____ maximize energy ____ in ____?

____ are ____ different ____ a ____ thermostat that maximize energy ____?

What elements make ____ maximize ____?

What attributes ____ a ____?

____ are ____ attributes ____ maximizing energy savings ____ a smart ____?

What ____ make ____ efficient?

____ smart thermostat able to ____ energy ____?

____ do ____ power when ____ a smart thermostat?

____ smart thermostat can do to improve ____.

How do ____ smart thermostat?

____ does the ____ thermostat contribute ____ maximizing ____?

____ can features of a ____ be ____ improve energy usage ____?

____ thermostat ____ have tools ____ energy use.

In ____ smart ____ reduce energy waste?

____ a thermostat can help ____ energy efficiency?

Which ____ of a ____ thermostat ____ the ____?

Which ____ this ____ use less ____?

____ some characteristics affect ____ of ____ smart ____?

____ some characteristics affect ____ of saving ____ with ____ thermostat?

____ smart ____ energy efficiency.

What functions ____ thermostat ____ energy ____?

Which ____ a thermostat ____ help reduce ____?

____ smart thermostat attribute ____ usage?

____ the ____ of ____ aid in reducing energy use?

____ the ____ of a smart thermostat ____ help you save ____?

____ do key aspects ____ energy ____ in a ____?

Which ____ of ____ do ____ have?

____ the attributes ____ thermostat ____ used to reduce ____?

____ can the smart ____ money on ____?

Which specific ____ the ____ help maximize energy ____?

Specific features ____ a ____ thermostat can ____ use.

How ____ a ____ thermostat ____ reduce ____?

Which features ____ thermostat ____ in reducing ____ use?

What ____ to the efficiency ____ a ____ thermostat?

____ a smart ____ energy usage?

Can ____ attributes of ____ power waste?

____ specific functions ____ thermostat that ____ energy efficiency.

____ do ____ smart thermostat reduce power consumption?

____ are features ____ thermostats that help with ____.

____ you ____ how ____ fancy ____ works ____ efficient ____ use?

____ can ____ thermostat help conserve ____?

____ smart thermostat allow for ____?

What ____ help?

Do ____ make ____ smart ____ efficient?

____ a smart thermostat ____ help ____ reducing energy consumption.

Which features ____ help you maximize your ____?

There ____ smart ____ that maximize ____ consumption.

____ the smart thermostat features ____?

____ some of the ____ of smart ____ efficiency?

What are ____ a smart ____ can ____ energy ____?

Which elements are ____ smart thermostats ____ energy?

How does ____ minimize energy ____?

____ do certain ____ thermostat save ____?

____ a smart ____ offer tools ____ energy ____?

____ want ____ the ____ that maximize the ____ power savings.

The attributes _____ a _____ thermostat contribute _____
 _____ the functions in _____ thermostat that _____ efficiency?
 _____ fuel-efficient _____ certain characteristics?
 _____ there a _____ for maximizing _____ savings with a _____?
 How can _____ smart _____ power _____?
 _____ attributes of a smart _____ energy _____ best?
 Does _____ the tools _____ use less energy?
 _____ functions do _____ have _____ help maximize energy _____?
 I want to know _____ one of them _____ efficient _____.
 What _____ key _____ of a _____ do?
 What are _____ smart _____ save energy?
 What different functions _____ the efficiency _____?
 _____ are _____ of _____ functions of _____ thermostat?
 _____ are the key _____ a smart thermostat?
 The _____ features _____ a _____ thermostat _____ help _____ energy _____.
 _____ the _____ thermostat _____ that _____ them energy efficient?
 _____ attributes _____ smart thermostat _____ used to cut _____ waste?
 Can _____ attributes of _____ smart thermostat _____ to _____ waste?
 _____ you tell _____ about the _____ thermostats _____ for _____ energy _____?
 _____ do certain _____ thermostat maximize energy usage?
 _____ characteristics increase the _____ smart thermostat?
 How does _____ smart _____ energy _____?
 _____ do the specific characteristics _____ help to reduce _____?
 Which smart thermostat _____ more _____?
 _____ the _____ smart thermostat power savings.
 How _____ use energy?
 _____ features of _____ thermostat _____ save energy?
 _____ can _____ features _____ a smart _____ used _____ my energy use?
 Which thermostat _____ best _____ energy?
 How _____ specific _____ trait _____ power _____?
 Which specific features _____ smart thermostat _____ use?
 _____ a _____ to efficient usage?
 thermostat _____ boost energy _____?
 _____ maximize power consumption _____ a smart _____.
 _____ elements of _____ smart _____ can maximize _____.
 _____ features makes _____ conserve _____?
 _____ are the _____ maximizing _____ in a smart _____?
 Can you tell _____ smart thermostat features _____?
 _____ a smart _____ have _____ that _____ power waste?
 What are the different functions _____ to _____ effectiveness _____?
 Can _____ key features _____ a smart thermostat that help _____ energy _____?
 _____ characteristics _____ smart _____ can _____ reduce energy consumption?
 Which _____ of a smart _____ to _____ use?
 _____ a smart thermostat help _____ manage _____?
 _____ do specific characteristics _____ aid in reducing energy _____?
 _____ smart thermostat _____ to more efficient energy _____?
 _____ do the specific _____ of _____ thermostat _____ reduce energy _____?
 Know _____ the smart _____ power savings.
 _____ elements _____ smart thermostats?
 How _____ make energy _____ more _____?

_____ do smart _____ affect power _____?
 You _____ know the functions _____ thermostat _____ savings.
 _____ attribute of _____ to the _____ energy efficiency?
 _____ enhance _____ efficiency in _____?
 _____ do the characteristics of _____ help _____ energy _____?
 Which features _____ a _____ thermostat _____ most _____?
 _____ the _____ a smart _____ maximize energy usage?
 _____ can _____ specific _____ help reduce energy consumption?
 Can specific _____ smart thermostat _____ reduce power _____?
 _____ attributes of _____ thermostat _____ optimum energy efficiency?
 _____ are the _____ smart thermostat?
 _____ do smart _____ attributes _____ power _____?
 Specific attributes of a _____ thermostat _____ reduce power _____.
 _____ attributes of _____ smart _____ energy efficiency
 How _____ a _____ thermostat _____?
 There _____ characteristics _____ smart _____ maximize _____.
 The _____ thermostat has _____ that _____ to its _____.
 _____ do _____ characteristics _____ smart _____ help?
 _____ can _____ thermostat _____ power?
 _____ does _____ smart _____ help maximize _____?
 _____ make _____ maximize energy usage?
 _____ attributes of a smart _____ to _____ efficiency?
 _____ can _____ features _____ a _____ thermostat be _____ energy usage?
 Can certain _____ a _____ thermostat make _____?
 What are the functions _____ that help _____?
 _____ do different characteristics _____ smart _____ efficient _____?
 _____ of smart _____ best for _____ consumption.
 What are _____ of _____ specific functions _____ a _____?
 There are certain _____ that _____ power savings.
 How _____ characteristics of _____ support efficiency?
 _____ functions _____ the _____ savings of a _____ thermometer?
 _____ smart thermostats conserve _____?
 _____ features in _____ maximize _____ use?
 _____ do certain characteristics of _____.
 What are some things _____ a _____ energy waste?
 What functions _____ a _____ thermostat _____ energy efficiency?
 How _____ thermostat _____ affect power _____?
 _____ are _____ in smart _____?
 _____ are _____ smart thermostats.
 How does _____ smart thermostat _____ improve _____?
 How _____ smart thermostats support _____?
 How _____ the _____ a _____ thermostat aid?
 _____ to learn _____ thermostat can maximize power _____?
 How _____ key aspects of a _____ energy _____?
 _____ do different _____ of _____ smart thermostat _____?
 Which _____ make the _____ save _____?
 Does _____ smart thermostat _____ for _____ use?
 _____ elements of a _____ thermostat _____ the _____?
 What functions in _____ thermostat help _____?
 What _____ specific _____ of _____ smart thermostat that _____ efficiency?

____ do ____ characteristics ____ smart thermostats increase ____ ?
 ____ thermostat traits influence power ____ ?
 ____ functions ____ to the ____ thermostat's ____ ?
 ____ ways to minimize ____ in a smart ____ ?
 What ____ a ____ thermostat can help ____ ?
 Do ____ characteristics affect ____ of ____ ?
 What are ____ key ____ of ____ thermostat ____ can ____ energy efficiency?
 ____ functions ____ to the maximization of ____ smart ____ ?
 ____ a number ____ in ____ thermostats that maximize ____ .
 ____ does smart thermostats ____ ?
 ____ thermostat ____ help save energy?
 How ____ smart ____ us ____ energy?
 ____ the ____ that make smart thermostats ____ ?
 ____ features of ____ smart thermostat ____ the ____ ?
 ____ of ____ thermostat ____ power waste.
 How can ____ smart ____ on ____ ?
 Can you tell me ____ fancy thermostat ____ use?
 ____ a ____ thermostat ____ options to ____ use?
 ____ maximize energy use?
 The ____ characteristics ____ a ____ help ____ energy use.
 ____ some ____ of ____ thermostat effective?
 Can there ____ specific attributes ____ smart thermostat ____ waste?
 What ____ the different ____ that contribute ____ thermostat's ____ ?
 Some traits ____ increase ____ efficiency.
 ____ you know ____ a fancy thermostat works ____ ?
 What ____ of ____ thermostat ____ energy ____ ?
 ____ of ____ do the most good?
 ____ specific smart ____ do?
 ____ do ____ thermostats increase ____ ?
 ____ smart ____ features ____ energy efficiency?
 How ____ specific ____ of a ____ in reducing ____ use?
 ____ key features make ____ work?
 What are the ____ in ____ thermostat ____ energy waste?
 ____ elements are ____ in ____ thermostats, ____ maximize energy ____ ?
 ____ thermostat ____ save ____ most effectively?
 ____ are ____ to ____ thermostat power savings.
 How ____ of smart thermostats support ____ energy ____ ?
 Which key features ____ thermostat?
 How ____ functions maximize ____ ?
 What ____ a ____ thermostat do ____ usage?
 ____ included in smart ____ ?
 How ____ a smart ____ help ____ power ____ ?
 How ____ smart ____ support ____ ?
 How ____ certain ____ of ____ make a ____ ?
 How ____ a ____ thermostat reduce power use?
 ____ do the ____ a smart ____ help ____ reducing ____ use?
 ____ different ____ of ____ support efficiency?
 ____ different characteristics ____ thermostat support efficient use?
 How do ____ improve use?
 ____ there anything special ____ energy ____ thermostats?

_____ thermostat functions _____ use?

_____ some _____ on _____ thermometer _____ to save energy?

The attributes _____ can _____ to energy efficiency.

Is it possible that traits _____ smart _____?

How _____ a thermostat _____ power?

I _____ know _____ trait _____ efficient _____ thermostats have.

How do _____ attributes _____ smart _____ influence _____ efficiency?

_____ are _____ characteristics of smart _____ boost energy _____?

_____ thermostat _____ are most energy _____?

How _____ of _____ thermostats _____ efficiency?

What _____ can _____ thermostat _____ to minimize _____ waste?

_____ do different _____ associated with _____ thermostats _____?

_____ specific _____ of a smart _____ reduce _____?

Does a _____ use?

What _____ specific functions of a thermostat _____?

_____ the _____ do to reduce _____ consumption?

_____ of _____ smart thermostat _____ used to reduce _____ use?

What _____ the _____ of a smart _____ be _____ to _____ energy _____?

_____ elements _____ a smart _____ energy usage.

_____ of a smart _____ its efficiency?

What _____ of a smart _____?

Which features _____ thermostats _____ efficient _____?
