

[Demo] NLP Dataset for Customer Service Automation

Company Type	Auto Repair and Maintenance Shops
Inquiry Category	Car heater not working properly
Inquiry Sub-Category	Noisy operation
Description	Customers experience unusual noises, such as rattling, squeaking, or banging, when their car's heater is in use. These noises may be a result of a loose or worn-out heater component, such as a blower motor or fan belt, that requires repair or replacement.
Data Size	5,013 paraphrases
