

[Demo] NLP Dataset for Customer Service Automation

Company Type	Water and Wastewater Utility Companies
Inquiry Category	Construction and development applications
Inquiry Sub-Category	Capacity and Availability Inquiries
Description	Customers seek information on the current water/wastewater system capacity and availability in their desired construction or development area.
Data Size	5,880 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Water and Wastewater Utility Company" customer inquiry. (Purchased data will not be masked.)

Will ____ utility's water ____ system meet ____ we proceed ____ our ____ plans?

____ your ____ be sufficient ____ handle ____ water ____ wastewater ____ we ____?

____ your ____ meet our water ____ sewer needs ____ development?

____ you ____ ability to ____ our construction plans' ____?

Can ____ depend on ____ water and ____ our ____?

Is ____ utility's ____ and wastewater ____ the construction ____?

____ your water and ____ system ready ____ the ____?

____ we ____ of your ____ water and wastewater ____ our buildout?

Is the building plans ____ with ____ water ____ levels?

____ our ____ system ____ plans?

____ our construction plans ____ water and ____ system?

Do your utility ____ demands if we ____ with ____ project?

____ utility ____ water and ____ demands if ____ with our ____?

Are ____ certain ____ can fulfill our ____ smoothly?

____ water system adequate for ____?

Do ____ have ____ capacity ____ provide ____ water/sewer solutions ____ requires?

Is it ____ that ____ systems can accommodate the ____?

Do ____ utility ____ fulfill our ____ water needs?

____ plan's water and ____ needs can ____ met ____ your ____.

____ it ____ utility provisions will meet our ____ plans' ____ criteria?

____ the ____ and sewerage system ____ of ____ utility be ____ our ____?

Is ____ enough utility ____ meet our ____ plans' ____ & ____?

Can your ____ wastewater ____ our ____?

Is ____ able ____ support ____ plans with water and ____?

____ your ____ and wastewater ____ handle ____?

Can ____ rely on ____ sewage ____ fulfill our plan?

____ it ____ to ____ your water ____ for ____ project's needs?

We ____ to know ____ the utility's water ____ can ____ our ____.

If ____ proceed ____ our plans, will your ____ system fulfill ____?

_____ initiative, can the utility firm provide adequate _____ water _____ wastewater?
 _____ we rely on _____ sewage _____ water _____ fulfill our _____?
 Does _____ utility's water and _____ systems _____ our _____?
 Can the water _____ wastewater systems _____ our _____ plans?
 _____ you _____ our _____ will ensure satisfaction with _____ water/wastewater _____?
 Will your _____ and _____ system be _____ needs _____ we proceed?
 During _____ buildout, _____ we _____ the _____ of _____ water _____ services?
 Can _____ water and wastewater _____ construction _____?
 Will _____ building plans _____ you happy _____ your water/wastewater _____?
 _____ wastewater systems support _____ plans?
 _____ your water and _____ our plan?
 _____ you meet the water and wastewater _____?
 Is the utility _____ our construction _____ and _____?
 _____ wastewater infrastructure _____ with our plans?
 _____ the _____ water _____ systems accommodate the _____ proposal?
 Can _____ rely on your _____ system for _____ plans?
 Are you _____ supply the water/sewer _____ that _____?
 _____ safe to _____ the _____ water _____ systems are _____ to _____ our proposal?
 Can _____ provide _____ wastewater for _____ project's _____?
 _____ the _____ for _____ building make _____ satisfied with your water/wastewater _____?
 _____ the _____ and wastewater _____ compatible with the _____?
 Is _____ system going to help us _____?
 _____ enough water _____ wastewater support for _____ work?
 Can _____ handling our construction?
 _____ it possible _____ your _____ system to _____ construction _____?
 _____ our _____ correspond to your water _____ infrastructure?
 Is your water _____ our _____?
 Are your _____ system ready _____ handle _____ needs?
 _____ the buildout, can _____ in _____ of your _____ and _____ services?
 Can we count on _____ and wastewater _____?
 _____ rely on _____ utility's _____ wastewater system for our development _____?
 Is _____ infrastructure in line with the _____?
 _____ our _____ project match _____ of your _____ system?
 If we move _____ our _____ proposal, _____ and waste _____ systems enough?
 _____ the utility's _____ and wastewater systems _____ the _____ handle _____ proposal?
 Can _____ water _____ systems _____ with our construction _____?
 Can _____ carry our construction plans?
 _____ the water _____ system _____ our construction plans?
 _____ water and wastewater systems _____ with our _____?
 Will your _____ and _____ system _____ to _____ our needs _____ we _____?
 _____ we _____ on _____ efficiency _____ your _____ wastewater services _____ our _____ out?
 As _____ with _____ construction initiative, _____ utility firm provide _____ services?
 _____ confirm water and wastewater _____ if _____ go ahead _____ project?
 _____ water _____ wastewater _____ support our _____?
 _____ our construction plans _____ supported _____ your utility's _____?
 _____ ability of the _____ to _____ sewerage requirements acknowledged _____ progressing with _____ plans?
 _____ your _____ able _____ meet _____ building project's _____ and _____ demands?
 Will water _____ work when _____?
 _____ the water and _____ systems _____ construction _____?
 Can _____ and _____ system _____ with our plans?

Is _____ system able _____ and _____ during our development?

Will our _____ plans _____ you _____ satisfaction _____ your water/wastewater _____?

Will _____ system handle both _____ built?

Does your _____ enough water _____ our construction?

Will the utility _____ able to fulfill _____ for _____?

_____ you _____ supply the water/sewer _____ required for our _____?

During construction _____ we _____ water _____?

With _____ construction _____ in _____ is your _____ capable of meeting _____ wastewater?

If _____ with _____ proposal, _____ think the existing water and waste _____ will _____?

_____ your utility able _____ meet _____ needs _____ and _____ with _____ plans?

Will _____ water and _____ infrastructure fit _____ building _____?

Does _____ have _____ ability _____ fulfill _____ project's water and _____?

Do you _____ your water _____ system is able _____ handle _____?

_____ your water _____ wastewater _____ meet our needs _____ start _____?

_____ and wastewater system _____ plans?

_____ we be sure that your water and _____ buildout?

_____ existing water and waste _____ system _____ moved forward with _____?

_____ construction requires _____ water _____ wastewater _____ from _____ utility.

Can we depend _____ the _____?

Are _____ in your _____ ability _____ fulfill _____ water demands?

_____ your water and _____ system meet _____ needs _____ proceed with _____?

_____ the ability of your _____ to _____ freshwater and _____ acknowledged _____ with _____ plans?

Can we be sure that _____ organization's _____ and _____ services are _____?

Will _____ utility's water _____ accommodate _____ proposal?

_____ we _____ efficiency of your _____ wastewater services _____ our _____ out?

Can your wastewater system _____?

_____ the water and _____ system _____ plans?

Do _____ think _____ existing _____ wastewater system is _____ our _____ needs?

Are your utility's existing _____ and _____ system _____ needs?

Does _____ meet water and _____ we go ahead _____ our _____?

Are _____ our _____ water and wastewater _____ construction plans in place?

Can our construction plan _____ fulfilled by _____ system of _____?

Think your water _____ wastewater _____ our construction needs?

_____ it _____ the _____ and _____ systems _____ able to accommodate our _____?

_____ your water and wastewater _____ able to _____?

Are _____ able to _____ the _____ solution _____ by _____?

Can _____ construction plans' _____ demands?

Does _____ meet _____ water and wastewater _____ construction?

_____ your utility _____ to _____ our project's _____?

_____ your _____ and _____ system handle _____?

Does your utility _____ ability to _____ our _____ project's _____ sewerage _____?

_____ your system _____ handle both _____ and Wastewater when _____?

_____ assure sufficient _____ and _____ for our plans?

_____ with our _____ water _____ wastewater system of your _____ meet _____ needs?

Can _____ system accommodate _____?

_____ the _____ well _____ your water and _____ system?

_____ you _____ system _____ sufficient for our construction needs?

Can _____ support our _____ plans _____ and _____ system?

_____ utility's water and wastewater _____ be able to _____.

_____ your water _____ wastewater _____ handle _____ construction _____?

Is the utility able _____ for _____ and sewage _____?

_____ water and wastewater system _____ to _____ construction plans?

I wonder if _____ water _____ wastewater systems can _____.

Are _____ to _____ our _____ for water _____ wastewater _____ construction?

_____ construction project align _____ of your _____ Wastewater system?

_____ water and wastewater system _____?

_____ utility _____ water for our construction _____?

_____ sustain our _____ and sewer needs _____ development?

_____ believe _____ utility can _____ water demands smoothly?

_____ our _____ you _____ with _____ water _____ wastewater service levels?

As _____ with our construction _____ utility firm _____ water _____ wastewater services?

As _____ project, _____ the utility firm provide _____ and wastewater?

_____ water and wastewater _____ fit _____ plans?

As _____ with our _____ can _____ utility firm give us _____ and _____?

_____ we _____ with our _____ will _____ wastewater _____ meet our needs?

_____ we proceed with _____ construction _____ water and wastewater systems _____ your _____ our _____?

We need _____ and _____ for _____ plans.

Can our construction _____ align with _____ water _____?

Are _____ water and _____ systems _____ with our _____?

If we _____ our _____ the existing water and waste management system _____?

_____ and wastewater _____ meet our _____ if we _____ construction?

_____ your _____ able _____ water and wastewater _____ during construction?

_____ you have a water _____ system _____ our construction?

Can your water _____ wastewater _____ building plans?

If _____ move _____ proposal, _____ you believe _____ and waste management system will suffice?

Will the water and _____ meet _____ go ahead _____ plans?

When _____ comes to _____ construction plans' _____ and _____ requirements, _____ utility's _____ suitability?

Does your _____ handle _____?

_____ our _____ and wastewater requirements _____ by your _____?

Will _____ utilities accommodate our _____ water _____ sewage _____?

_____ wastewater system _____ construction plans?

_____ our _____ fit _____ your _____ system?

_____ your _____ meet water and _____ go _____ with the project?

_____ utility have enough water to _____?

_____ construction _____ be _____ with _____ water _____ sewage system?

_____ we _____ on _____ service _____ construction?

_____ water _____ our construction plans?

Can we _____ and sewage _____ our construction plan?

_____ utility firm _____ water _____ as we _____ with _____ construction?

Will _____ meet the building plans' _____ and _____?

We need _____ wastewater _____ support our construction _____.

Do you _____ utility's _____ and wastewater _____ meet our _____ needs?

Will _____ construction project correspond _____ and wastewater _____?

Can your _____ system support _____?

Can _____ utility firm _____ water _____ wastewater services _____ we _____?

Can _____ rely on _____ facility's _____ and water _____ to _____ construction _____?

_____ we depend _____ water _____ to fulfill our construction _____?

_____ enough water and _____ to _____ our construction?

_____ utility accommodate the needs _____ our _____ sewage _____?

Can your wastewater _____ construction plans?

____ utility agree ____ meet water ____ demands ____ we build the ____?
 ____ wastewater systems able ____ handle construction?
 ____ and ____ system up to snuff ____ construction?
 ____ our construction plans if your ____ and ____ system ____ meet our ____?
 Do ____ and ____ system is sufficient for ____ project?
 Does ____ utility meet ____ water and ____ construction?
 ____ our ____ wastewater infrastructure compatible with ____ plans?
 Could your water ____ construction ____?
 ____ and ____ system ____ ready to handle ____ needs?
 ____ you have the ____ to fulfill ____ building project's ____?
 Can ____ on ____ efficiency of ____ water and ____ our buildout?
 ____ system support our ____ plans?
 ____ on your wastewater ____ construction?
 Will ____ system be able to keep ____ with ____ our development?
 ____ move forward with ____ will the existing water ____ waste management ____?
 ____ if ____ and ____ system is ready ____ the job?
 Will ____ be able to ____ the ____ required ____ project?
 ____ the water ____ system take ____ plans?
 ____ the utility's wastewater ____ accommodate ____ proposal?
 Does ____ provide enough ____ and ____ for our construction ____?
 ____ have ____ ability to meet our needs ____ and ____ during ____?
 ____ capacity to supply ____ and sewer ____ for ____ project?
 ____ carry out our construction ____?
 ____ your water system ____ to ____?
 ____ our construction plans in place, is ____ our ____ water and ____?
 Will ____ project ____ water and ____ capabilities?
 Can we ____ water system to ____ our construction plan's ____?
 ____ we rely ____ your ____ for ____ needs?
 ____ we ____ that your organization's ____ wastewater ____ efficient ____ our buildout?
 Is ____ system reliable for ____?
 Is the ____ to meet ____ and sewerage requirements ____ progressing?
 Can your utility provide ____?
 The water ____ wastewater ____ of your ____ our ____ plans.
 ____ be able to meet our ____ sewage needs if ____ forward ____?
 ____ the plans for ____ building ensure satisfaction ____ levels?
 We ____ your water ____ wastewater ____ to ____ construction.
 Does ____ utility ____ wastewater ____ if we proceed ____ the project?
 Does ____ water ____ system support your ____?
 ____ you believe the ____ wastewater system is ready ____ needs?
 ____ the ____ sewerage system ____ the construction ____ met by the ____?
 Is ____ possible ____ utility provisions will ____ plans' water and ____?
 ____ depend on ____ wastewater systems when ____ start.
 Is the ____ and ____ to ____ for ____ construction?
 Are ____ able ____ our ____ water ____ wastewater with ____ plans ____ place?
 Think ____ and ____ system is ____ to ____ of our construction ____?
 ____ safe to assume that the ____ water and ____ can ____ proposal?
 ____ have the capacity ____ and sewer ____ for our ____?
 ____ be able ____ count on ____ service ____ construction?
 ____ possible to provide ____ water ____ sewer needs during ____?
 Can your ____ system ____ us ____ construction?

____ our ____ plans ____ and wastewater infrastructure?
 Are you ____ your ____ will ____ project's water ____?
 If ____ go ____ construction plans, ____ water and wastewater ____ our needs?
 Will ____ water ____ system ____ our plans?
 With construction plans in ____ do ____ the ____ our ____ and wastewater ____?
 Will the water ____ proposal?
 ____ the ____ and ____ system ____ to ____ for construction ____?
 Does your ____ wastewater infrastructure ____ plans?
 ____ your ____ to support our construction?
 Will ____ water ____ be ____ construction?
 ____ our needs for water and wastewater during ____?
 Does ____ water ____ wastewater for our construction ____?
 ____ our ____ plan be ____ with the ____ water ____ sewage ____?
 Think the water ____ wastewater ____ capable ____ handling ____ needs?
 ____ you certain ____ can ____ our project's ____ needs?
 ____ your ____ confirm that ____ wastewater ____ if we proceed ____ the project?
 ____ rely on your water ____ wastewater systems for ____?
 Does your ____ ability to fulfill ____ building ____ water ____ demands?
 ____ you ____ that you ____ the ____ water demands?
 Does ____ work ____ with our ____?
 Is ____ water ____ for our ____?
 ____ to meet our needs for water and wastewater with ____?
 Can ____ on ____ water ____ sewage system to fulfill our ____?
 Can we ____ on the efficiency ____ your ____ and ____ services ____?
 Will our building plans ____ satisfaction with your ____?
 ____ you think our ____ system is ready to ____ our ____?
 ____ and sewage system ____ fulfill our construction plan's necessities?
 Will the ____ our ____ sewage ____ requirements?
 ____ utilities accommodate our ____ for ____ and sewage ____?
 Does ____ and wastewater ____ the building ____?
 Is ____ utility's ability ____ freshwater ____ service ____ acknowledged ____ continue progressing?
 ____ we ____ our ____ the existing water and ____ system suffice?
 ____ trust in ____ and wastewater ____ our buildout?
 ____ on ____ water ____ during construction?
 ____ the ____ and ____ work ____ our ____?
 Is ____ water ____ wastewater ____ building plans?
 ____ utility ____ provide enough ____ and wastewater services as ____?
 ____ the ____ and wastewater system handle ____?
 ____ building plans ____ satisfaction ____ your ____?
 Is ____ water and wastewater ____ for construction?
 We ____ your water ____ wastewater ____.
 Will our ____ guarantee satisfaction ____ water/wastewater service ____?
 ____ able ____ supply ____ water/sewer solutions required ____ our project?
 Can your ____ wastewater support ____?
 Will ____ plans give you ____ your water/wastewater ____?
 ____ firm provide ____ water ____ services as we ____ our project?
 ____ your ____ system capable ____ handling ____?
 Is ____ system ____ to handle ____?
 As we ____ with our construction ____ can ____ the ____ wastewater services?
 Is ____ water and wastewater ____ for ____?

____ your water ____ ____ match ____ plans?
 Is it ____ to count on ____ ____ construction.
 ____ your utility ____ water and wastewater ____ if ____ with ____?
 ____ your ____ our building project's water and ____?
 Will your system ____ ____ water and wastewater?
 ____ your utility confirm the ____ and ____ we begin ____?
 ____ your utility ____ able ____ meet ____ needs ____ water and ____ construction ____ in ____?
 Is ____ water ____ wastewater ____ able to ____?
 Do you ____ the ____ the ____ solutions required ____ project?
 ____ you ____ that ____ water and wastewater ____ is ready ____?
 ____ it ____ the ____ and wastewater systems ____ to ____ construction proposal?
 Can ____ water ____ wastewater services for ____?
 ____ your water ____ wastewater infrastructure ____ our ____?
 ____ it enough water ____?
 ____ we ____ with ____ does your ____ water and wastewater demands?
 ____ and ____ system ____ support our ____ plans.
 ____ you think ____ utility's ____ and wastewater ____ enough for ____?
 ____ you ____ capacity to ____ water ____ sewer solutions ____ our ____?
 Will ____ water and ____ build?
 During ____ can ____ trust the ____ your organization's water ____ wastewater ____?
 ____ believe your utility's water ____ wastewater ____ for the ____?
 Is ____ project ____ water and wastewater system?
 ____ your water ____ wastewater ____ construction?
 Can we ____ sewer ____ water system to ____ our ____?
 Can your ____ and ____ systems ____?
 ____ water ____ adequate ____ our project?
 ____ move forward ____ proposal, ____ the ____ and waste ____ system suffice?
 With ____ plans ____ place, are ____ meet our ____ for water and ____?
 If ____ with ____ will ____ water ____ wastewater system suffice?
 Do ____ think ____ services will be ____ to the ____?
 ____ supply ____ solutions we need?
 ____ utility ____ our construction plan's water ____ wastewater needs?
 Is ____ utility's water ____ wastewater ____ able ____ construction plan?
 ____ you ____ the ____ and ____ requirements ____ our project?
 Is your utility ____ meet ____ needs ____ water ____ plans in place?
 Can we depend on ____ water and ____ the ____?
 Does ____ know how to ____ our ____ demands?
 ____ on ____ service during construction?
 ____ proceed with ____ for construction, will ____ water and wastewater ____ meet ____?
 ____ your ____ and water ____ our ____ plans?
 Will you ____ your water ____ system ____ construction ____?
 ____ your ____ confirm ____ wastewater demands ____ proceed ____ the project?
 Will your system handle ____ the ____ and ____?
 ____ your system ____ adequate ____ handle both ____ wastewater ____ build?
 ____ you ____ your utility's water and ____ for ____ project?
 Will ____ align with ____ water ____ wastewater ____?
 With your construction ____ meet ____ water ____ wastewater needs?
 How ____ construction project ____ with ____ wastewater system?
 ____ be able ____ the ____ and sewerage ____ necessities ____ the ____ plan?
 Will ____ fit ____ with the ____ wastewater system?

Is _____ existing _____ and _____ system _____ for our _____ project _____?
 _____ your _____ and _____ system _____ the construction plans?
 _____ handle our construction plans?

Will _____ system you _____ both water and wastewater _____?

We _____ your _____ and _____ for _____ demands.

Can _____ water and _____ our _____?

_____ existing water _____ sufficient to _____ our development proposal?
 _____ wastewater service during construction?

Will _____ make ensure satisfaction _____ your water/wastewater _____ levels?

Is the _____ meet _____ and _____ requirements acknowledged to continue _____ with _____?
 _____ think the water _____ system _____ ready to _____ our construction _____?

Will _____ utility _____ the water and sewer _____ building _____?
 _____ and wastewater system compatible with our _____?

Will the water _____ sewerage _____ utility be met _____ our _____?

Will our _____ smoothly with your water _____?

Can _____ provide enough _____ for _____?

Is _____ system compatible _____ plans?
 _____ you think your _____ water _____ system _____ our construction _____?

Will _____ our _____ make you happy with _____ water/wastewater _____?

During our _____ can _____ water and _____ needs?
 _____ capable of supplying _____ solutions for _____?
 _____ you think your _____ existing _____ is _____ for _____ construction needs?
 _____ utility meet _____ for water and wastewater _____?

During _____ can we _____ wastewater _____?

As we _____ with _____ can _____ utility _____ provide _____ water _____ wastewater services.
 _____ your _____ and wastewater services _____ requirements during construction?
 _____ our construction _____ abilities of _____ water and _____ system?
 _____ our _____ be _____ by your water _____ system?

Is the _____ able to _____ plans' water _____?
 _____ meet _____ and wastewater needs during _____?
 _____ utility _____ a water _____ suitable for construction?

Is your _____ and _____ compatible _____ building plans?
 _____ you have a water and _____ suitable for our _____?

Can your _____ and _____ system work with _____?
 _____ I able to _____ your wastewater service _____?

Will _____ and _____ work _____ our _____?

Does your _____ have _____ water to _____ plans?
 _____ utility _____ water and _____ for the construction?
 _____ and _____ infrastructure match with our _____?
 _____ your water system _____ support _____?
 _____ utility firm _____ provide for the water _____ wastewater _____ we _____?

What _____ the _____ level _____ suitability _____ the construction plans' _____ requirements?

Will your _____ infrastructure meet _____ plans?
 _____ your _____ wastewater system fit _____ building plans?

Will _____ demands for water and sewage _____?
 _____ your water and _____ infrastructure _____ with _____ building _____?

Is the _____ to fulfill _____ water and _____ demands?

Will _____ wastewater _____ meet _____ needs if we _____ work?

Is _____ compatible with _____ and wastewater _____?
 _____ you have _____ and wastewater system _____ project?

_____ your facility's sewage _____ water system _____ our construction _____?
 _____ water and _____ system work well _____ our _____?
 Will _____ wastewater infrastructure _____ in _____ our _____ plans?
 Are your _____ able _____ meet our _____ water _____?
 _____ utility's water _____ wastewater _____ may _____ able _____ accommodate our _____.
 Can we depend on _____ sewage _____ system _____ fulfill _____ construction _____?
 _____ utility _____ to _____ wastewater demands if _____ proceed with our _____?
 If _____ go ahead _____ our _____ will your water _____ meet _____?
 _____ it _____ your water _____ system to handle _____ construction?
 Will _____ and _____ needs if _____ with your construction plans?
 Can the _____ and wastewater _____?
 Can we depend _____ your _____ water _____ sewage system _____ our _____?
 Can _____ water system _____?
 What _____ you think _____ and wastewater services _____ during _____?
 Can our _____ helped by _____ wastewater system?
 _____ we go _____ your water and wastewater system meet our _____?
 _____ the _____ wastewater system _____ our _____ objectives?
 _____ we proceed _____ constructing _____ utility confirm _____ and wastewater demands?
 Is _____ utility's water _____ wastewater systems _____ to _____ proposal?
 _____ utility _____ of _____ water _____ wastewater needs with our _____ plans?
 _____ certain _____ your _____ and _____ services will meet our _____ construction?
 Are _____ existing water _____ wastewater _____ our project needs?
 _____ your utility _____ system suitable for _____?
 Can your _____ our _____?
 Can the _____ accommodate our needs for _____?
 Can we _____ water _____ system in _____ plans?
 _____ progress with our _____ can _____ firm adequately provide for _____ wastewater _____.
 _____ sure _____ the _____ and wastewater systems _____ able to _____ our _____?
 _____ the utility's _____ wastewater systems able _____ plan?
 _____ the utility _____ water and _____ as we _____ our _____?
 _____ water and _____ system _____ your utility _____ plans.
 Will you _____ able to _____ and sewerage system necessities _____?
 _____ water _____ wastewater system _____ compatible _____ construction plans.
 _____ your _____ enough wastewater and water _____ construction _____?
 _____ our construction plans in _____ the ability to _____ our _____ for _____ and _____?
 As _____ progress with _____ firm provide _____ water and wastewater?
 What is the _____ compatibility _____ wastewater and water requirements?
 _____ have sufficient water and wastewater _____ your _____?
 _____ handle the construction?
 _____ you _____ existing _____ and waste management system _____ we _____ forward with _____ development proposal?
 _____ your water _____ system keep _____ with _____?
 _____ we progress through _____ construction initiative, can _____ utility _____ water _____ services?
 _____ you think _____ water and _____ system _____ handling construction _____?
 As we _____ with our _____ the _____ firm provide adequate _____ services?
 Are the utility's water _____ systems _____ our _____?
 Can _____ water _____ system _____ fulfill our construction plans?
 _____ the water and _____ system you _____ project?
 Will you _____ able to _____ freshwater _____ construction begins?
 Is _____ and wastewater _____ good _____ our _____ plans?
 _____ move _____ will _____ existing water _____ waste management system suffice?

_____ your _____ and wastewater for _____ project demands?
 _____ utility's _____ demands _____ if we proceed with _____ project?
 Is _____ your _____ wastewater system to _____ our construction plans?
 Will _____ utility firm _____ and wastewater _____ we progress _____ our _____?
 Will adequate utility _____ meet _____ and sewer _____ of _____?
 _____ the utility's water and _____ able _____ deal with _____?
 _____ think _____ existing water and _____ system will suffice _____ forward?
 _____ adequate utility _____ building plans' water _____ sewer _____?
 _____ water and _____ work _____ build?
 Will _____ plans ensure that _____ your _____ service levels?
 Do _____ if the water _____ wastewater system _____ for _____?
 _____ the _____ provide _____ wastewater as _____ with our construction initiative?
 _____ your water _____ sewage system _____ fulfill our _____ plan?
 _____ water and wastewater _____ compatible _____ the plans for _____?
 _____ we move forward _____ proposal, do _____ think _____ and waste _____ system _____ suffice?
 Are _____ able to meet our _____ during construction?
 _____ your utility _____ our building _____ and sewerage _____?
 Is the infrastructure of _____ utilities watery _____ compatible _____?
 _____ the _____ and wastewater _____ your _____ suitable for _____ project?
 _____ plans _____ on _____ water and _____ system?
 We need _____ the utility's _____ systems can accommodate _____ proposal.
 _____ the plans _____ our _____ ensure satisfaction _____ water/wastewater _____?
 Can the _____ system carry _____?
 _____ your _____ and _____ system handle _____?
 _____ capable of meeting our building _____ sewerage needs?
 Are your _____ sufficient for _____?
 Do your utility _____ that _____ and _____ are _____ if _____ proceed _____ the _____?
 _____ on your _____ service _____ construction?
 _____ your _____ be _____ to fulfill _____ water _____ smoothly?
 _____ the water and _____ is _____ handle our _____ needs?
 Does your _____ enough _____ to _____ construction _____ demands?
 Can we _____ on _____ and _____ for our _____ plans?
 _____ your _____ system support _____?
 Can the _____ plans?
 _____ and wastewater _____ support construction?
 Are you certain _____ can fulfill _____ project's _____?
 Will _____ water _____ wastewater _____ meet _____ needs _____ you _____ ahead _____ construction plans?
 Will your _____ meet the _____ of _____ sewerage system _____ the _____?
 Do _____ think _____ water _____ wastewater _____ is _____ to handle _____?
 _____ the _____ and _____ work with _____?
 _____ utility able to _____ with our _____ plans' _____?
 Can your _____ support _____?
 _____ water and wastewater system _____ with _____ construction _____?
 Can _____ and _____ handle the _____?
 _____ your _____ and wastewater systems _____ our construction _____?
 Can we _____ on _____ water _____ sewage system _____ fulfill our _____?
 _____ you _____ the ability _____ meet _____ wastewater needs _____ our _____ plans?
 As _____ our _____ initiative, can the _____ provide _____ water _____ wastewater services?
 Does _____ water _____ meet the needs _____?
 _____ you have _____ to meet _____ needs for water _____ plans _____ place?

Will _____ water and wastewater for our _____?

_____ you have the capacity to _____ wastewater needs _____ construction _____ in _____?

_____ the existing _____ and _____ management _____ if we moved forward _____ proposal?

Do _____ think the _____ and wastewater _____ prepared for _____?

Will _____ project go _____ your _____ and _____ system?

Is it _____ your utility to _____ project's _____ and sewerage _____?

Is _____ compatible with our project?

_____ we move forward _____ development proposal, _____ water and waste _____ system _____?

_____ we progress _____ construction initiative, _____ the _____ firm provide _____ water _____ wastewater _____?

Do _____ wastewater systems _____ construction plans?

_____ your water and _____ compatible _____ our _____?

_____ your _____ meet our _____ and wastewater needs?

_____ that your _____ can fulfill the _____ water _____?

_____ the utility's water and wastewater _____ capable of _____?

_____ it _____ that the _____ wastewater _____ will accommodate our _____?

Will _____ water _____ wastewater _____ be _____ handle our _____?

_____ think _____ utility's water _____ system _____ enough for construction _____?

_____ our construction _____ the capabilities of your _____ and _____ system?

Does your _____ capacity to handle the _____ needs?

_____ utility firm provide _____ water _____ wastewater services _____ with _____ construction?

_____ our _____ plans in place, _____ your utility capable _____ wastewater _____?

_____ our construction plans in _____ utility _____ to _____ our water _____ needs?

Are _____ utility's _____ and _____ systems _____ to _____ construction proposal?

Does your water and _____ for _____?

Does your _____ enough _____ for _____?

_____ the _____ able to _____ our _____?

_____ our building project's water _____ sewerage demands _____?

_____ water _____ Wastewater system _____ with the construction _____?

Is your _____ work for _____ construction?

Do _____ the ability to meet _____ and wastewater _____?

Do you _____ your _____ wastewater system is enough _____?

_____ you _____ with our proposal, do _____ existing water _____ waste _____ will suffice?

_____ the utility's _____ and _____ able to _____ the _____ proposal?

Is _____ system _____ our plans?

_____ water and wastewater _____ the construction _____?

Does _____ utility provide enough _____ for _____ construction?

Will your water and wastewater _____ the _____?

Is _____ and wastewater _____ for _____?

_____ you _____ your utility's existing _____ wastewater system will suffice _____?

Do _____ think your _____ system is _____ our project _____?

_____ water and wastewater _____ suitable _____ our construction _____?

Can _____ that your water _____ wastewater _____ during our buildout?

Will our construction _____ water and _____ system?

Is _____ to _____ with construction?

Is _____ wastewater _____ to snuff for _____ construction?

Does your utility's _____ with our _____ plans?

Can our _____ plans _____ your _____ and _____?

_____ can we trust _____ of your water and _____ services?

_____ utility's _____ water and wastewater _____ sufficient for _____ needs?

_____ you think _____ water _____ help our _____?

Will ____ water ____ wastewater ____ to handle ____ plans?
____ we proceed ____ utility's water ____ wastewater system meet ____ needs?
Can your ____ and ____ system ____ with our ____?
____ think the water ____ wastewater ____ is ____ for construction ____?
____ possible ____ trust your ____ water and ____ our buildout?
Can we ____ on ____ for our project?
Does ____ require ____ wastewater?
____ your ____ wastewater systems support ____?
Is ____ utility able ____ meet our ____?
____ move forward ____ will you be able to meet ____ and ____?
____ we go ____ with ____ construction ____ water and ____ system ____ our needs?
Will the water and wastewater ____ able to ____?
____ your ____ and wastewater ____ with ____ plans?
Can our ____ be fulfilled ____ your ____ water ____ sewage ____?
____ wastewater and water systems able ____ accommodate ____ proposal?
Can ____ fulfill our construction needs?
Does ____ match our upcoming plans?
____ rely on ____ facility's ____ fulfill our construction needs?
Does ____ utility confirm that ____ wastewater ____ are met if ____ proceed ____?
____ the ____ water and waste management system ____ forward ____ our ____ proposal?
Is ____ possible ____ the ____ to provide ____ water ____ as ____ progress?
If we ____ our proposal, ____ you think ____ water ____ management system will ____?
____ progress ____ our plans, ____ your water ____ wastewater ____ meet ____ needs?
Should your ____ water ____ system suffice for ____ construction ____?
____ level ____ suitability for our ____ plans' wastewater ____ water ____?
____ wastewater and ____ compatible with ____ plans?
____ be ____ the needs of the ____ sewage system ____ construction begins?
Will ____ water ____ wastewater ____ construction ____?
Does your ____ system support ____?
Does ____ utility ____ water ____ wastewater for our ____?
____ you ____ your utility's ____ and wastewater ____ will ____ for our ____?
____ your water ____ to ____ our ____ plans.
____ water and ____ compatible ____ the construction plans?
____ your water and ____ system up ____ our ____ plans?
Can we count ____ your water ____ for ____?
Will ____ be able to ____ water and sewerage system ____ our ____?
Is ____ water system ____ to be ____ construction?
Do you ____ utility's water and ____ system ____ for ____ needs?
Is there ____ suitable ____ wastewater ____ for ____ project?
____ water system handle ____?
Do we need your ____ and wastewater ____ plans?
Will ____ work ____ requirements ____ water ____ sewage systems?
____ water infrastructure fit ____ our ____?
Does your ____ water ____ our construction ____?
____ and ____ systems able to ____ our construction ____?
____ the ____ water and wastewater system ____ plans?
____ your water and wastewater system ____ with ____?
Will ____ meet our needs for water and wastewater ____ plans ____?
Is your ____ and ____ prepared ____ handle ____ needs?
____ your water ____ able ____ handle the construction ____?

Does the ____ project ____ with the capabilities of ____ ____ ____ ____ ?

Is ____ ____ to count on ____ ____ service ____ construction?

Should ____ ____ and waste ____ ____ suffice if we move forward ____ ____ ____ ?

____ ____ ____ system handle ____ construction?

Will your ____ with your water/wastewater ____ ____ ____ ____ proceeding ____ our building ____ ?

Can we ____ your water and ____ system ____ ____ ?

____ ____ ____ wastewater system meet ____ needs if we ____ construction?

____ you be able to meet ____ ____ ____ and ____ needs?

Will the construction ____ fit with ____ ____ wastewater ____ ?

____ you fulfill our construction ____ ____ ____ needs?

____ your utility ____ of ____ our ____ ____ wastewater needs ____ our ____ plans?

____ ____ ____ you ____ with your water and wastewater service ____ ?

____ construction ____ place, is ____ utility capable ____ ____ our ____ ____ wastewater needs?

Does ____ utility meet the ____ project's ____ and ____ ____ ?

Do ____ have the ____ ____ meet our ____ and wastewater ____ ____ ____ construction?

Do you ____ ____ ____ and wastewater ____ will meet ____ requirements ____ construction?

Will your satisfaction ____ water/wastewater service ____ ____ ensured ____ ____ plans?

Is ____ ____ system reliable ____ for ____ ____ ?

____ the ____ ____ wastewater ____ compatible with ____ plans?

____ the utility ____ provide enough ____ ____ wastewater services ____ ____ progress ____ our ____ ?

____ your system sustain our ____ ____ ____ needs ____ ____ development?

Do you ____ the ____ ____ ____ is ready ____ construction needs?

Are ____ ____ to meet ____ ____ and wastewater ____ during ____ ?

____ your ____ have ____ ability to ____ ____ project's water ____ ?

Is ____ sewage system ____ ____ our ____ ?

____ ____ ____ your ____ and ____ system ____ ready ____ handle construction needs?

____ you ____ ____ the ____ and wastewater ____ ____ ready to handle ____ needs?

____ your ____ ____ wastewater ____ support ____ plans?

____ your utility able ____ fulfill our ____ ____ demands ____ ?

____ ____ ____ align with your water and wastewater ____ ?

____ ____ utility firm provide ____ water ____ wastewater services as ____ ____ with ____ ____ ?

____ ____ ____ project's water ____ ____ needs met by ____ utility?

We ____ ____ water and ____ for ____ ____ .

____ ____ know if ____ water and ____ system is ready to ____ ____ ____ ?

____ ____ ____ system be ____ ____ our project?

Can ____ ____ ____ wastewater ____ ____ our construction?

____ ____ ____ go ahead to ensure satisfaction with ____ ____ service ____ ?

Do you ____ your water ____ ____ ____ ____ during construction?

____ ____ you think ____ ____ water and ____ services ____ construction?

____ you ____ ____ your utility can ____ the project's ____ ____ smoothly?

____ ____ utility meet the water and ____ system ____ ____ the ____ ?

What is ____ ____ ____ of ____ compared to ____ ____ plans' ____ and ____ requirements?

Do you think your ____ ____ and ____ system ____ sufficient ____ ____ ?

Is ____ utility able ____ fulfill our ____ project's ____ ____ sewer ____ ?

____ ____ ____ utility ____ fulfill the project's water ____ smoothly?

Can ____ ____ and ____ system ____ your construction ____ ?

Does ____ ____ and ____ infrastructure ____ our upcoming building ____ ?

____ our proposed construction ____ ____ your ____ ____ wastewater system?

Does your utility's ____ and ____ systems ____ ____ ____ plans?

____ your ____ and wastewater ____ ____ ____ our plans?

Does your _____ have sufficient _____ support _____ construction plans?

Can _____ system manage construction _____?

_____ we rely _____ your _____ and _____ for our development _____?

Should _____ utility be able _____ needs for _____ wastewater during _____?

Do _____ for construction?

Are you _____ of _____ water/sewer _____ for _____ project?

_____ you believe the _____ and _____ system _____ ready _____ handle _____?

_____ your _____ and _____ systems _____ work?

Do _____ the _____ meet _____ plans' water demands?

_____ and _____ work if we _____?

Will our _____ please _____ with your _____ service _____?

Can _____ wastewater services _____ we progress with the project?

Will our project _____ in _____ water _____ wastewater _____?

_____ system _____ and water _____ we build?

_____ water system _____ our _____ needs?

Do you _____ the water and _____ prepared _____ needs?

Do you _____ and wastewater system is _____ construction _____?

_____ construction _____ fit your water and _____?

Will our construction _____ in _____ your _____ and wastewater system?

_____ utility's water _____ wastewater _____ able _____ handle _____ project?

_____ utility _____ water and _____ demands _____ we proceed _____ our project?

_____ water and _____ system _____ our construction objectives?

Will _____ to provide the _____ solutions required _____ our _____?

_____ water system _____ with our _____?

_____ that your _____ and wastewater _____ to _____ construction needs?

Does _____ wastewater infrastructure correspond to our _____?

_____ your _____ promise to meet water and _____ we _____ our _____?

_____ your water and _____ support _____?

Do _____ if you can meet _____ for _____ and _____ with _____ plans in _____?

Will you be _____ to _____ and _____ when _____ build your _____?

_____ water _____ work for our _____?

_____ your utility's water and wastewater _____?

Is it _____ adequate utility _____ meet _____ water _____ sewer criteria?

Can we _____ on the _____ system _____ plans?

_____ we _____ development _____ think the _____ water and waste management system will suffice?

_____ we be certain of the _____ water _____ wastewater _____ during _____?
