

[Demo] NLP Dataset for Customer Service Automation

Company Type	Car Dealerships
Inquiry Category	Service and maintenance inquiries
Inquiry Sub-Category	Technical inquiries
Description	Customers may have technical questions about their vehicle's features, functionality, or diagnostic codes, requiring assistance from knowledgeable service staff.
Data Size	5,100 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Car Dealership" customer inquiry. (Purchased data will not be masked.)

Do _____ require _____ frequent _____ to their drivetrain complexity/systems _____ dynamics, _____ to _____ ?

Will I _____ to _____ AWD car more often because _____ ?

_____ the increased complexity _____ its _____ make _____ all-wheel-drive _____ frequent when compared with _____ ?

_____ all-wheel-drive _____ require more care and _____ distributing power among _____ wheels?

Is it necessary _____ wheel drive _____ have more _____ systems?

Some _____ cars have more _____ systems

_____ interplay _____ and complexity of an _____ higher servicing _____ to a _____ 2WE variant?

Does regular _____ be done more often _____ AWDs _____ sophisticated system _____ ?

Maintenance _____ in _____ may be higher _____ complexity and _____ various components.

_____ it _____ for all-wheel _____ have more service _____ complicated systems?

_____ there _____ higher need for _____ in all-wheel-drive _____ to _____ interconnectedness _____ various _____ ?

_____ it _____ a car _____ wheel-drive to _____ maintenance because _____ complexity?

When _____ against regular 2-wheel _____ AWD _____ demand _____ their advanced drive systems?

Is _____ all-wheel drive cars _____ have _____ service _____ their _____ systems?

_____ All- Wheels car need _____ since it has _____ which is _____ a _____ ?

Are _____ cars _____ have _____ because of their complex _____ ?

Do _____ drive _____ have _____ because of _____ complex _____ ?

Is _____ extra maintenance _____ all-wheel-drive vehicles due _____ components?

_____ cars that are AWD require _____ because _____ complex _____ ?

Is _____ true that the _____ the _____ them need _____ constant tinkering?

_____ it essential for all-wheel _____ cars _____ more service _____ their _____ ?

All-wheel _____ vehicles _____ service due to their _____ .

_____ for _____ drive _____ to have their _____ systems serviced?

_____ drive _____ more service due _____ their _____ system.

_____ say that all-wheel drive _____ have _____ systems _____ two-wheel _____ .

It is _____ for _____ all- _____ drive to _____ maintenance _____ of _____ complicated _____ .

_____ vehicles have _____ systems, _____ they need _____ ?

It is _____ all-wheel drive cars _____ compared to _____ drive _____ .

_____ that all-wheel drive _____ more service due _____ systems?

____ all-wheel ____ cars get high-maintenance due ____ complex ____ ?
 "Is it ____ for all-wheel drive ____ to ____ service ____ system complexity? ____
 ____ interplay ____ warrant increased maintenance ____ drive cars?
 The ____ systems of AWD ____ more ____ .
 Does ____ Wheels car ____ frequent ____ it has ____ drivetrain systems ____ different than ____ 2?
 ____ drive ____ get more SERVICE due to complex ____ "
 Do ____ cars ____ more ____ their system complexity?
 Do all-wheel ____ cars ____ maintenance ____ of ____ systems?
 ____ an All- ____ car need frequent maintenance ____ has complex ____ .
 ____ car with all wheel-drive ____ due to ____ systems?
 Can ____ systems ____ complexity ____ car require ____ servicing ____ when compared to a ____ variant?
 Does an ____ car need ____ since ____ has ____ systems ____ is different from ____ .
 In comparison ____ do ____ require ____ frequent ____ due to ____ advanced drive system ____ and ____ interactions?
 When compared ____ regular 2-wheel drive models, ____ AWD ____ more attention ____ ?
 Is frequent ____ required for ____ due to ____ its drivetrain ____ ?
 Is it ____ I have to service my car ____ often than a ____ to its complicated ____
 Will ____ be a bigger ____ All-Wheels car ____ drive train is ____ ?
 Is ____ more service ____ vehicles ____ of their ____ ?
 ____ it ____ all-wheel ____ have more services because ____ their systems?
 ____ cars ____ advanced systems, do ____ servicing?
 ____ drive ____ have more maintenance problems because of ____ ?
 ____ for all ____ drive cars ____ more service ____ their systems are ____ ?
 ____ all-wheel drive ____ have ____ service because their systems ____ complicated?
 Is ____ maintenance ____ for AWDs ____ of their ____ ?
 ____ the increased complexity of the ____ servicing for AWD ____ frequent ____ ?
 Is ____ possible ____ all-wheel ____ to ____ more ____ because of complex ____ ?
 ____ it necessary for all-wheel drive ____ to have ____ because ____ ?
 Do ____ of AWD cars ____ frequent ____ 2WD alternatives?
 Is it ____ for ____ drive vehicles to ____ due ____ complex ____ ?
 ____ a ____ an ____ system need ____ because ____ its different systems?
 Is AWD ____ in terms of maintenance due ____ intricate drivetrain ____ how ____ with ____ ?
 Do ____ need servicing ____ of ____ intricate mechanics and interplay ____ different ____ to two-wheel ____
 ____ make ____ for ____ drive cars to ____ more ____ of their ____ ?
 Is ____ necessary for all-wheel ____ have complicated systems ____ service?
 ____ serviced more often ____ to ____ intricate ____ and interplay between different systems.
 ____ more maintenance-prone ____ cars ____ of their complex systems?
 ____ there any ____ for ____ vehicles due to the intricacies of ____ 2WD counterparts?
 ____ it ____ for all-wheel ____ vehicles ____ have ____ of their complex systems?
 Since the ____ is ____ will ____ more to maintain ____ vehicle?
 Does it ____ sense for all-wheel ____ cars ____ of the ____ complexity?
 ____ drive ____ get high-maintenance ____ the complex subsystems?
 Is ____ cars need ____ constant tinkering because of ____ fancy setup ____ 2WDs?
 All-wheel drive ____ more complicated ____ that might ____ difficult.
 Do all-wheel-drive ____ servicing more ____ because of ____ interplay ____ different systems?
 ____ it be a ____ maintain ____ All-Wheels ____ because ____ advanced drive system?
 All-wheel-drive ____ may require ____ servicing because ____ their ____ .
 ____ necessary ____ AWD cars to be constantly ____ because of ____ setup compared ____ ?
 Is ____ for ____ maintenance ____ AWD vehicles ____ drivetrains are ____ 2WD vehicles?
 Is vehicle maintenance more ____ cars, ____ to ____ intricate ____ ?
 Is ____ increased complexity ____ drivetrain ____ servicing for ____ cars more ____ ?

Since _____ it be _____ expensive to _____ an all-wheel _____ vehicle?

Is _____ an increased need _____ for _____ of _____ system dynamics?

Does upkeep for _____ to the _____ putting together its drive systems?

When compared with _____ versions, _____ maintenance needs _____ vehicles _____ to _____ various components?

Is _____ drive _____ for _____ because _____ their systems?

Is _____ maintenance _____ for AWD cars due _____ their _____?

All-wheel drive _____ have _____ complicated _____ ones and this _____ cause _____ maintenance.

_____ require increased care and attention _____ the _____ of _____ of power _____ different _____?

_____ the interdependent _____ and _____ cars necessitate frequent _____?

_____ car require _____ maintenance because _____ the _____ its system?

Does _____ interplay _____ warrant increased _____ all-wheel drive cars?

_____ drive cars _____ high-maintenance _____ to their complex _____?

_____ need to be serviced more frequently due _____ their _____ and _____ between different _____ two-wheel

Is AWD vehicles more demanding _____ terms _____ intricate _____ and how _____ with other _____?

_____ an all-wheel-drive car need frequent _____ because it _____ different _____ a _____?

Does _____ an _____ require upkeep since it _____ systems?

_____ the increased _____ drivetrain making _____ all-wheel-drive cars _____ for two-wheel drives?

Is it _____ for _____ to _____ systems to get _____ services?

_____ there any _____ for all-wheel-drive vehicles _____ to _____ different _____?

_____ drive _____ required _____ receive more _____ due _____ their intricate _____?

_____ all-wheel _____ vehicles _____ more _____ to their _____ systems?

All-wheel-drive cars need _____ often than _____ their _____ mechanics.

All-wheel drive _____ get _____ of the _____.

Does _____ make _____ for _____ wheel drive _____ more _____ due to _____ complexity?

_____ it _____ all-wheel _____ cars _____ more service because of _____ intricate _____?

_____ care and attention _____ terms _____ maintenance _____ of the complexity involved in _____ power _____ various wheels

_____ AWD vehicles have more _____ servicing due _____?

_____ appropriate for all-wheel drive _____ to _____ because _____ their _____ systems?

_____ all-wheel drive cars due to _____ complex _____ systems?

_____ drive _____ systems than _____ ones and may make their maintenance _____.

Do the _____ that _____ because of _____ complicated components?

_____ vehicles _____ get more _____ because of _____ intricate _____.

_____ compared _____ 2WD _____ maintenance _____ amplified _____ all-wheel-drive vehicles because of _____?

_____ cars _____ advanced _____ may need _____ servicing.

_____ it necessary _____ all-wheel _____ cars _____ have more _____ given _____ system _____?

Does an _____ car _____ frequent _____ of _____ systems?

Is _____ all-wheel _____ vehicles _____ more service because _____ their complex systems?

_____ for all-wheel drive cars to _____ more _____ because of _____?

_____ required _____ for AWDs because of _____ system dynamics?

_____ more frequent servicing due to the complexity _____?

Do all-wheel-drive vehicles _____ care and _____ in terms _____ maintenance _____ because of _____ complexity _____ distributing _____ wheels

Is all-wheel drive _____ receive _____ service due to _____?

_____ regular _____ more often _____ AWDs _____ of _____ sophisticated systems?

Is _____ maintenance _____ demanding _____ Awd _____ due to _____ intricate _____?

_____ an _____ frequent maintenance if _____ has a _____ drivetrain system?

Some _____ all wheel drive cars have more _____ compared to _____.

Some people _____ have _____ complicated systems compared to _____ ones.

_____ often _____ service _____ vehicle, since it is more _____?

_____ drive _____ to maintain because of _____ complex systems?

All-wheel-drive cars need servicing _____ to _____ intricate _____ interplay between _____.
 _____ to be _____ often _____ two-wheel-drive _____ to their intricate mechanics.
 _____ cars _____ servicing because of _____ advanced systems?
 _____ an all-wheel-drive _____ need maintenance _____ of the _____ drivetrain _____?
 _____ there _____ regular maintenance _____ of their _____ dynamics?
 Does any _____ with _____ require regular _____ since _____ systems are _____?
 All-wheel _____ complicated systems _____ may _____ their maintenance.
 Is it necessary _____ drive vehicles to get more _____ their _____?
 In _____ 2WD _____ do _____ more frequent service _____ advanced drive system dynamics?
 Does _____ make sense for _____ drive _____ more _____ due _____ their complicated _____?
 _____ it make sense _____ drive _____ to _____ due to _____ intricate systems?
 All-wheel _____ can get more service due _____.
 _____ need _____ maintenance in _____ due to the interconnectedness of _____?
 Do _____ vehicles _____ and _____ terms _____ maintenance scheduling due to _____ complexity involved in distributing
 _____ wheels
 _____ for _____ check-ups _____ AWD models because of _____ dynamics?
 _____ is necessary _____ drive vehicles _____ get more _____ to _____ system _____.
 All-wheel-drive cars _____ often than _____ their intricate mechanics _____ interplay between different _____.
 Is _____ necessary _____ to _____ service because of their complex _____?
 All-wheel _____ cars have _____ complicated systems _____ two-wheel drive _____ and _____ make _____ difficult.
 _____ necessary for AWD _____ to _____ service due _____ systems?
 Does an All- Wheels car _____ maintenance _____ it _____ which is _____ from _____
 _____ require more _____ due _____ their _____ and interplay between _____ systems.
 _____ for a car _____ wheel _____ to receive maintenance _____ to its _____?
 Is it essential _____ drive _____ more _____ because of their _____?
 _____ it make sense _____ all-wheel drive _____ have more _____ due _____ system _____?
 Is all-wheel _____ vehicles _____ more SERVICE _____ to _____ systems?
 Do _____ cars _____ than 2WD because of their _____?
 Is it _____ to maintain _____ car _____ complicated drivetrain?
 Does the upkeep of _____ require it due to _____ together _____ drive systems?
 Is _____ service due _____ the complicated systems _____ AWD vehicles?
 Does the _____ complexity of _____ system _____ servicing _____ cars _____ frequent _____ drives?
 All-wheel-drive _____ need servicing _____ often _____ to their _____ between different _____.
 _____ there _____ service _____ for AWD vehicles _____ their complex _____?
 Is maintenance _____ more often _____ of their _____?
 Do all-wheel _____ cars require _____ because of _____?
 _____ an All- _____ need frequent maintenance since it _____ complex _____ different _____?
 _____ the way _____ vehicles interact with other _____ terms _____ maintenance?
 _____ it necessary _____ drive _____ to _____ complex systems _____ get _____ service?
 _____ to _____ interplay between _____ do _____ cars need to be serviced more _____?
 All-wheel drive _____ have more complex _____ ones and this _____ their _____ more _____.
 _____ it necessary _____ AWD _____ more service due _____ systems?
 Do all-wheel-drive vehicles _____ attention _____ care _____ complexity _____ distributing _____ various wheels?
 _____ if all-wheel drive cars _____ of the _____ systems.
 _____ an _____ Wheels _____ frequent maintenance since _____ complex systems _____ to _____ wheel drive _____?
 All-wheel-drive _____ are more complex _____ two-wheel-drive _____ to be _____ often.
 Is the _____ all-wheel drive _____ due _____ systems?
 _____ servicing for _____ cars _____ due to the _____ complexity _____ its _____?
 A question _____ cars _____ more service due _____ complex _____.
 Is _____ need for additional maintenance _____ they are different?
 _____ it necessary _____ more frequent maintenance for _____ vehicles _____ of _____ system _____?

All-wheel drive cars can _____ of _____ complex _____.

_____ more maintenance for AWD _____ since _____ are different _____ 2WD ones?

_____ compared _____ two-wheel drives, _____ the increased _____ make _____ all-wheel-drive cars _____?

Do _____ increased _____ and attention because _____ complexity involved in distributing power _____?

Is _____ necessary _____ the cars _____ to get more _____ their complex _____?

Does an All- _____ car need frequent maintenance _____ has complex _____ that _____?

Does _____ car require frequent maintenance since _____ systems?

_____ of AWD _____ mean they _____ more service.

Is vehicle _____ more _____ for _____ of the _____ systems?

_____ be _____ bigger _____ to maintain _____ All-Wheels car because the _____ advanced?

_____ need _____ frequent _____ due to the _____ complexity _____ AWD cars?

_____ an all-wheel-drive _____ require _____ of _____ due _____ the _____ of _____ systems?

Do _____ vehicles _____ care _____ to the complexity _____ distributing _____ among _____ wheels?

_____ the _____ of the _____ frequent for all-wheel-drive cars?

Does _____ All- Wheels _____ need _____ maintenance _____ it _____ different systems _____?

Does _____ with an all-wheel-drive system require regular _____ its drivetrain _____?

_____ cars _____ more complicated _____ than two-wheel _____ this _____ make _____ maintenance harder.

_____ there more frequent _____ AWD _____ their complex drivetrain?

Does _____ increased _____ of the drivetrain _____ servicing for _____ for _____ drives?

_____ an _____ need frequent _____ because of the _____?

_____ any _____ for _____ to have _____ service because _____ their complicated systems?

_____ drive cars have _____ service because _____ their _____?

_____ there _____ all-wheel _____ to _____ service due _____ their complex systems?

_____ interplay between _____ warrant more _____ for all-wheel-drive cars?

Does _____ need _____ lot of maintenance since _____ has _____ systems?

Does _____ interplay of _____ systems _____ maintenance for _____?

_____ there any _____ required _____ AWD _____ to the _____ of _____ drivetrains?

_____ drive vehicles _____ service _____ to their intricate systems.

_____ it necessary _____ provide more frequent maintenance _____ intricate systems _____ those with _____?

All-wheel-drive _____ more servicing _____ of their _____ systems.

_____ upkeep for _____ car _____ because _____ the difficulty in putting _____ its drive _____?

All _____ may _____ more _____ due to _____ complex systems.

Do all-wheel-drive _____ more attention _____ of maintenance _____ of _____ complexity of _____ power among _____?

_____ necessary _____ provide _____ frequent maintenance _____ vehicles since they are more _____?

_____ it necessary _____ more frequent maintenance _____ with _____ systems _____ 2-wheel drive _____?

All-wheel _____ systems, _____ is it necessary to _____ more _____?

Is _____ necessary _____ get more SERVICE due _____ their _____ systems?

_____ need for _____ drive vehicles _____ receive more service due _____ intricate _____?

All-wheel drive cars _____ more _____ drive _____ may _____ to maintenance problems.

Is it necessary to _____ a car _____ its _____ systems?

_____ need _____ than _____ cars due to _____ intricate mechanics.

All-wheel drive _____ have more _____ two-wheel drive _____ and _____ affect their _____.

Is _____ needed _____ frequently for _____ system dynamics?

Is it _____ provide more _____ maintenance _____ drive _____ intricate _____ and dynamics?

Is _____ high maintenance of _____ to their _____ systems?

Is _____ AWD cars _____ their complex drive _____?

_____ drivetrain complexity _____ AWD _____ reason _____ more frequent servicing?

_____ there need for all-wheel _____ cars _____ have _____ because _____ systems?

_____ terms _____ service needs, do _____ that _____ need more attention because of _____?

Does an _____ car _____ regular _____ it _____ complex _____?

Is AWD ____ more ____ in terms ____ because ____ the ____ with other ____?

All-wheel-drive cars need ____ be ____ more ____ to ____ intricate ____ and ____ between different ____ compared to ____ ____ regular check-ups ____ AWD models because of ____ dynamics?

____ drive vehicles ____ receive ____ due ____ their ____ systems.

____ drive cars have ____ than two-wheel ____ ones ____ this ____ make ____ maintenance more ____.

____ the ____ its ____ for all-wheel-drive ____ frequent than two-wheel drives?

Will ____ be ____ difficult because ____ the advanced drivetrain?

Does ____ Wheels car ____ maintenance ____ has complex ____ which ____ different from ____ Two

Does ____ All- ____ car need frequent ____ complex ____ systems?

Do all-wheel-drive ____ maintenance scheduling ____ of the complexity involved in distributing ____?

____ there ____ for extra ____ on ____ vehicles ____ drivetrains ____ different to 2WD ____?

____ all-wheel drive ____ more ____ due ____ complex ____ systems?

____ necessary for all-wheel ____ vehicles to ____ more ____ their complex ____ "

The ____ systems ____ might need more ____.

____ say ____ cars ____ more complicated ____ than two-wheel drive ____.

Is AWD ____ more ____ 2WDs due to ____?

Do all ____ drive ____ need ____ because of their ____?

Is ____ a ____ for ____ on ____ drive vehicles since ____ different?

____ the ____ integration in AWD ____ warrant more ____ checks?

Is all-wheel drive cars more ____ complex systems?

____ it necessary ____ all-wheel ____ cars to ____ of their systems?

____ any ____ with ____ system need ____ maintenance since its drivetrain ____?

Is it ____ vehicles have complex systems ____ get ____?

Does an ____ need frequent ____ since it ____ complex system which ____ than ____?

____ for all-wheel drive ____ to ____ service ____ to ____ intricate systems?

____ all-wheel-drive ____ require additional servicing due ____ advanced ____?

____ all-wheel-drive car need ____ maintenance as ____ two-wheel ____ car because of ____?

Is ____ needed ____ because they are ____ sophisticated?

____ it ____ that ____ have ____ drive vehicles ____ often due to the ____?

____ the interplay between ____ demand more ____ service appointments ____?

____ all-wheel-drive ____ and attention because ____ the complexity ____ distributing power ____ different ____?

Is ____ a ____ that AWD cars ____ constant ____ of their ____ setup?

Does an ____ Wheels car need ____ since ____ has complex systems ____ different ____?

Is all-wheel ____ because ____ their complex ____?

Does an ____ periodic maintenance ____ the ____ its systems?

____ a car ____ all-wheel-drive ____ due to its ____?

____ all-wheel-drive ____ need regular ____ the complexity ____ its systems?

All-wheel drive vehicles may ____ of ____ complex ____.

____ to provide ____ for AWD ____ of their system ____ compared to ____ drive vehicles?

A question ____ more service ____ to their ____.

____ all-wheel-drive ____ require more attention in terms of ____ due ____ the ____ power.

____ cars ____ servicing ____ often ____ two-wheel-drive ____ because of their ____.

____ all-wheel drive ____ in terms of ____ due to the way ____ other ____?

____ vehicles need ____ in ____ maintenance ____ due ____ the complexity ____ distributing power among ____ wheels?

Is regular maintenance ____ more frequently for ____ because ____?

Does an ____ car need ____ maintenance since ____ systems, ____ a ____?

____ an All- Wheels ____ frequent ____ it ____ different systems ____ a ____.

____ drive vehicles ____ get more service because ____ system ____?

____ comes to servicing needs, do AWD ____ more attention ____ regular ____ drive models ____ drivetrain ____?

_____ an _____ car _____ maintenance since it _____ complex _____ which is _____ a Two.

All-wheel drive _____ have _____ service due to _____.

All-wheel _____ cars _____ need _____ service due to _____.

Is _____ drive _____ high-maintenance because _____?

Is all-wheel drive vehicles _____ service due _____ complex _____?

_____ it make sense for _____ with _____ systems _____ more service?

Does _____ for all-wheel drive cars _____ because _____ complicated systems?

Is _____ a need for _____ maintenance _____ vehicles _____ they _____ different than _____?

_____ the maintenance needs amplified _____ all-wheel-drive _____ to the _____ various components?

_____ all-wheel drive cars _____ service because _____ systems?

_____ the increased complexity _____ make _____ for all-wheel-drive vehicles _____ frequent _____ drives?

Is _____ more maintenance needed for _____ their _____?

_____ an _____ Wheels car need _____ has _____ systems, which _____ different _____ a 2?

_____ car _____ require regular _____ since the system is different?

_____ complex _____ of _____ need more service?

Since _____ is advanced, _____ more to maintain an _____ vehicle?

_____ there a _____ for extra maintenance _____ drivetrains _____ different _____ 2WD vehicles?

Does _____ interplay between systems and _____ of an _____ servicing _____?

Does _____ all-wheel-drive car require _____ of _____ complexity of _____?

Do _____ drive cars get _____ of _____ complex _____?

All-wheel _____ need more _____ due to complex _____.

Does an _____ maintenance _____ it has complex systems, _____ is different _____ Two

Does an _____ need frequent _____ complex systems which are _____ a 2

The _____ of _____ vehicles may _____ more service.

_____ car need frequent maintenance _____ of the complexity of _____?

Is all-wheel _____ vehicles _____ get more service _____ complexity?

Is there _____ more _____ AWD _____ because _____ their _____?

Do all-wheel drive _____ because _____ complex systems?

Does _____ sense for all-wheel drive _____ service _____ of _____ systems?

_____ drive vehicles _____ service _____ their system complexity.

_____ be _____ often _____ to their intricate _____ and interplay between _____ systems?

Does an All- Wheels car need frequent _____ since it _____ drivetrain _____ than _____?

_____ all-wheel drive cars have high-maintenance _____ complex _____?

All-wheel _____ cars _____ more _____ drive _____ and this may _____ their _____ more _____.

_____ for _____ drive cars to have their _____ serviced?

_____ sense _____ all wheel _____ to have more _____ because _____ their complicated _____?

In comparison _____ 2WD _____ AWD cars _____ more _____ maintenance due _____ system dynamics?

All-wheel-drive _____ need to be _____ often because _____ complex _____ different systems.

_____ cars _____ require _____ servicing due _____ their advanced _____.

_____ necessary for regular maintenance _____ because _____ complex _____ dynamics?

Does an all-wheel-drive car _____ maintenance _____ complexity?

Is it _____ maintenance for _____ that _____ more _____ systems _____ 2-wheel drive ones?

Does an _____ Wheels car _____ maintenance since it has _____?

_____ the _____ for regular check-ups for AWD _____ dynamics?

_____ necessary for a _____ with _____ wheel drive _____ receive _____ due to _____?

Is _____ required for AWDs _____ of _____ dynamics?

_____ all-wheel-drive _____ require frequent maintenance _____ of _____ complexity?

_____ make _____ all-wheel drive _____ have more service _____ of their complex _____?

_____ you _____ all-wheel _____ cars _____ service due _____ complex systems?

_____ the interplay between _____ systems warrant _____ maintenance _____ for _____?

____ all-wheel ____ cars ____ more ____ because of ____ systems?
 ____ need more servicing ____ because of ____ intricate mechanics.
 Is ____ necessary for ____ cars ____ have complex ____ to ____ service?
 All-wheel ____ cars have ____ complicated ____ than ____ drive ones, which ____ their _____.
 ____ two wheel drives, does the ____ for ____ drive ____ more frequent?
 ____ necessary ____ service due to their systems?
 ____ comes to maintenance, all-wheel ____ have ____ complicated ____ than two-wheel _____.
 ____ interplay ____ different ____ warrant increased maintenance ____ all-wheel-drive ____?
 It is possible ____ Wheels ____ frequent maintenance since ____ subsystems.
 ____ for ____ drive ____ to receive ____ service ____ to their ____ complexity?
 ____ comparison ____ models, ____ AWD ____ need more ____ due to ____ complex ____ system dynamics?
 Does an ____ car ____ maintenance since ____ systems, unlike a Two
 Is it necessary ____ all-wheel drive ____ more ____ because ____ their ____ complexity?
 ____ an all-wheel-drive car ____ maintenance ____ its ____?
 All-wheel drive ____ more ____ than two-wheel ____ ones and ____ might make _____.
 Is there ____ for ____ when ____ to their systems?
 ____ regular service intervals ____ important ____ because ____ interplay between ____ components?
 ____ more servicing than two-wheel-drive cars ____ to their _____.
 ____ AWD require more ____ because of their ____ components?
 ____ for ____ cars to ____ service because ____ their complicated systems?
 ____ drive ____ have more ____ that ____ their maintenance.
 All-wheel ____ need ____ due to ____ complexity.
 Is it more necessary ____ maintenance ____ their ____ dynamics?
 Is regular maintenance needed more for ____ system _____.
 ____ be ____ high-maintenance because of their ____ system.
 All-wheel drive ____ be high-maintenance because ____ complex _____.
 Do ____ drive ____ need ____ service ____ of ____ systems?
 Does an ____ need ____ since ____ has complex ____ systems ____ are ____ from 2?
 Does ____ car ____ frequent ____ it ____ complex ____ compared to a ____ vehicle?
 ____ there a ____ more ____ for AWDs ____ their sophisticated system ____?
 ____ increased ____ of ____ drivetrain ____ servicing for ____ cars ____ frequent ____ two-wheel drives?
 Does ____ AWD ____ mean I will ____ to ____ it more ____ than ____ 2WD vehicle ____ to ____?
 Does ____ all-wheel-drive car ____ maintenance because of its ____ two-wheel ____ car?
 ____ comparison ____ models, do ____ with ____ dynamics need a ____ level of ____?
 Is ____ with ____ wheel-drive necessary for maintenance ____ systems?
 Is there more need ____ for ____ of ____ dynamics?
 ____ AWD cars ____ frequent because ____ the increased complexity of ____?
 ____ all-wheel drive cars ____ to the ____ drivetrain systems?
 All-wheel-drive cars have ____ need more ____?
 Does ____ make ____ all-wheel ____ cars ____ have ____ service since ____ systems are ____?
 Is ____ maintenance needed ____ for ____ they have ____ systems?
 ____ regular maintenance ____ more ____ for ____ because ____ their ____ system dynamics?
 ____ vehicles ____ frequencies ____ 2 wheel ____ counterparts due to their intricate ____?
 ____ it necessary for ____ car with ____ receive ____ due to ____ systems?
 All-wheel drive ____ more SERVICE ____ systems.
 ____ to ____ frequent maintenance ____ vehicles ____ they have more ____ systems compared to ____ drive
 models?
 ____ all-wheel drive ____ needed ____ more service because ____ systems?
 Do ____ need ____ attention in ____ of ____ scheduling ____ complexity involved ____ distributing power.
 ____ it necessary ____ cars to ____ complex ____ to get more ____?
 When compared to ____ 2-wheel ____ models, ____ AWD ____ demand ____ to ____ drivetrain?

In ____ to 2WD models, ____ AWD cars ____ more ____ servicing ____ to ____ advanced ____ dynamics ____ ?
 ____ require increased ____ attention due to ____ of distributing power ____ wheels?
 ____ it ____ for a ____ wheel-drive ____ maintenance ____ to its complexity?
 ____ the ____ all-wheel drive ____ related to their ____ systems?
 Because of their ____ drivetrain setup, do AWD ____ ?
 ____ any additional ____ requirements for AWD vehicles ____ to ____ in ____ ?
 ____ a need ____ extra ____ on the ____ since ____ are different ____ the ____ ones?
 ____ all-wheel-drive ____ frequent maintenance because it ____ two-wheel drive vehicle?
 Does ____ with ____ all-wheel-drive ____ regular upkeep ____ has differing systems?
 Is ____ necessary ____ all-wheel drive ____ more service due ____ complicated ____ ?
 ____ cars may ____ additional servicing ____ advanced systems.
 Does regular ____ need to ____ done for ____ because ____ ?
 ____ drive vehicles might ____ more service ____ complex ____ .
 Is there ____ need ____ maintenance ____ because ____ their sophisticated system ____ ?
 Is ____ true ____ drive cars ____ of ____ complex system?
 Does an ____ Wheels ____ frequent maintenance ____ it ____ some ____ ?
 Is ____ all-wheel drive ____ to ____ service ____ to the ____ systems?
 ____ a car ____ all-wheel-drive ____ need regular ____ since ____ has different ____ ?
 ____ drive ____ can ____ because of the ____ systems.
 ____ upkeep for an ____ wheel ____ car ____ it due ____ putting ____ its drive systems?
 Does ____ servicing ____ all-wheel-drive ____ of the increased complexity?
 In comparison ____ 2WD ____ more frequent servicing ____ to ____ advanced drive system ____ and additional ____ ?
 All-wheel ____ cars ____ more complicated systems ____ to ____ drive ones ____ this ____ make their ____ .
 ____ all-wheel-drive vehicles ____ care and attention due to ____ complexity ____ various ____ /
 Is maintenance ____ amplified in ____ because ____ the ____ and interconnectedness of ____ with 2WD ____ ?
 All-wheel ____ cars have ____ than two-wheel drive ones and this ____ .
 ____ interplay between systems ____ maintenance ____ all-wheel-drive cars?
 All-wheel-drive cars require servicing more often ____ due ____ interplay between ____ systems.
 Do the ____ are AWD need ____ attention ____ their ____ ?
 Is ____ all-wheel drive vehicles ____ given more service ____ their complex ____ ?
 ____ drive cars get high ____ due ____ complex ____ systems?
 Is AWD ____ 2WDs ____ to their drivetrain ____ ?
 ____ need increased ____ and attention due ____ complexity ____ in distributing power among ____ ?
 Is regular maintenance ____ for ____ frequently ____ of their ____ ?
 Does ____ all-wheel ____ vehicles to ____ service ____ to their complexity?
 Is regular maintenance ____ AWDs ____ of their ____ ?
 Do ____ cars ____ servicing more often ____ because of their ____ mechanics ____ different systems
 ____ necessary for all-wheel ____ vehicles because ____ their ____ ?
 ____ All- ____ car require frequent ____ since ____ drivetrain systems, ____ is different than a ____ ?
 Is ____ give ____ maintenance ____ all-wheel ____ vehicles because of ____ system dynamics?
 Does ____ car ____ more frequent maintenance ____ it ____ complex ____ ?
 Is upkeep for an all wheel-drive ____ because ____ the ____ in ____ ?
 Does ____ car ____ frequent maintenance ____ the complexity ____ systems?
 Does it ____ all-wheel drive ____ service ____ their system complexity?
 ____ Wheels ____ need regular ____ since it has ____ systems?
 ____ required ____ all-wheel drive ____ to ____ more service ____ their system ____ ?
 Does ____ make servicing for ____ more frequent?
 Are ____ more difficult ____ maintain ____ of their complex ____ ?
 Does an All- Wheels ____ frequent maintenance since it ____ is ____ 2
 Does an ____ maintenance ____ it has ____ systems?

_____ compared to _____ 2-wheel _____ do AWD cars demand more _____ because of _____?
 _____ interdependent _____ and complexity necessitate _____ over 2WD _____?
 Is _____ that _____ cars _____ high-maintenance because _____ the complex _____?
 Does owning _____ mean I _____ service _____ often than a 2WD vehicle, _____ to _____ mechanics _____ how
 _____?
 _____ required more _____ AWDs because of _____ sophisticated _____ dynamics?
 Does _____ car require _____ maintenance because _____ more _____ two-wheel drive car?
 Is _____ intervals _____ important for _____ vehicles because _____ the _____ complex drivetrain _____?
 Do _____ vehicles require _____ attention in _____ due _____ the _____ of distributing power _____ different _____?
 _____ to 2WD _____ AWD cars _____ more frequent servicing due _____ their _____ dynamics?
 Is there a _____ for extra maintenance _____ since _____ different from _____?
 _____ drive cars _____ more _____ because _____ complex systems?
 _____ for _____ drive _____ to get more _____ because of their _____?
 _____ wonder _____ all-wheel _____ cars get _____ because _____ complex systems.
 Is _____ necessary _____ all _____ drive cars have _____ service _____ systems?
 _____ vehicle _____ more _____ for _____ cars _____ to _____ intricate _____ systems.
 Is there _____ service for _____ of their _____.
 Is _____ for all-wheel _____ vehicles to _____ their complex _____?
 _____ compared against _____ 2-wheel drive models, _____ cars demand _____ servicing due to their _____?
 All-wheel drive _____ might _____ high-maintenance _____ their complex _____.
 _____ it _____ provide more frequent maintenance for _____ systems _____ 2-wheel _____ models?
 Do _____ need _____ tinkering _____ to their _____ drivetrain setup _____ regular 2WDs?
 _____ there _____ for _____ check-ups for _____ models because _____ dynamics?
 Is it important for all-wheel _____ vehicles to get _____?
 _____ make _____ all-wheel drive cars to get _____ to complex _____?
 Does _____ more frequent _____ of the complexity of _____ systems?
 _____ true that _____ cars _____ service because of _____ system complexity?
 Some _____ that _____ have _____ complicated systems than _____ wheel drive _____.
 _____ it necessary _____ all _____ vehicles _____ receive more _____ because _____ their _____ systems?
 It _____ all-wheel-drive _____ need servicing more _____ because of _____ intricate _____ and interplay _____ systems.
 "Is _____ for all-wheel _____ cars to _____ of _____ system complexity?"
 _____ necessary _____ more _____ for AWD _____ because _____ their system dynamics, compared to _____ models?
 Is _____ to have _____ maintenance for _____ to _____ sophisticated _____ dynamics?
 _____ provide _____ frequent _____ all-wheel drive _____ their complex systems and dynamics?
 There may be _____ need _____ more service _____ to _____ vehicles.
 _____ All- Wheels _____ it has _____ drivetrain systems that are different than _____?
 All-wheel-drive _____ more _____ due _____ intricate mechanics and _____ between different _____.
 Does _____ all-wheel-drive _____ need _____ maintenance due _____ complex _____?
 Does an All- _____ car _____ maintenance _____ systems _____ than a _____?
 _____ the complex systems _____ the AWD _____ to _____?
 Is a AWD _____ demanding in terms of _____ the way _____ with _____?
 _____ it because of their _____ cars need more constant _____?
 _____ there a _____ maintenance for all-wheel drive vehicles _____ they _____ different _____?
 Should _____ with _____ wheel-drive receive maintenance _____ to _____ systems?
 _____ more demanding _____ vehicle maintenance _____ to their intricate _____?
 Does _____ All- _____ car _____ frequent maintenance _____ it _____ complex systems, _____ Two
 Is _____ prone _____ maintenance because _____ the complex subsystems?
 _____ get high-maintenance due to the _____ drivetrain _____.
 Does _____ All- Wheels car need regular _____ since _____ drivetrain systems _____ different from _____?
 _____ all-wheel-drive _____ more _____ than _____ vehicles _____ of their complex _____?

_____ true _____ you have to _____ AWD vehicles _____ 2 _____ drive ones?
 _____ All- Wheels _____ because it has more complex systems _____ 2?
 _____ a need for regular maintenance _____ the AWDs _____ of _____ ?
 Do all-wheel-drive _____ more attention _____ of _____ due to the _____ in _____ power among _____ ?
 _____ necessary for _____ wheel drive _____ more service because of their _____ ?
 _____ there any additional _____ requirements _____ drive vehicles due _____ the _____ drivetrains?
 Is all-wheel drive vehicles _____ due to _____ systems?
 _____ there a _____ in _____ 2WD _____ AWD _____ because of their _____ ?
 _____ with 2WD versions, are the _____ needs _____ in all-wheel-drive _____ of _____ interconnectedness of _____
 Is _____ appropriate for _____ vehicles to _____ service due to _____ ?
 _____ necessary for all-wheel _____ cars _____ due to their complex _____.
 _____ of its drivetrain _____ servicing for _____ more frequent?
 _____ the _____ of 2WD _____ are different, _____ there a _____ extra _____ for _____ ?
 Does _____ all-wheel _____ since it has complex subsystems?
 _____ drive _____ have complex _____ it _____ for them _____ have more _____ ?
 _____ pain _____ maintain AWD cars, because of _____ drivetrain?
 _____ vehicle _____ demanding _____ cars because of _____ intricate systems?
 _____ need servicing more often _____ two-wheel-drive cars, due _____ their intricate _____ interplay _____
 _____ all-wheel drive _____ may make their maintenance _____.
 _____ cars _____ more constant tinkering _____ setup compared _____ regular old 2WDs?
 In _____ servicing needs, do _____ demand _____ due to their _____ complexity?
 _____ need _____ more _____ of their _____ mechanics _____ interplay between different _____ to two-wheel-drive variant
 _____ are _____ complex _____ two-wheel drive _____ this may cause _____ maintenance.
 _____ AWD vehicles _____ due to their complicated _____ ?
 _____ for an all _____ car require _____ due _____ of putting _____ drive systems?
 _____ Wheels car _____ more frequent _____ since _____ has _____ complex _____ than a _____ ?
 Is all-wheel-drive _____ serviced more often _____ of _____ ?
 _____ to service _____ AWD _____ often because of it's _____ system?
 Do _____ need servicing _____ because of _____ mechanics and _____ between _____ systems compared to _____
 _____ all-wheel drive _____ to _____ more _____ because of their _____ systems? "
 _____ the increased complexity _____ its drivetrain affect _____ servicing _____ all-wheel-drive _____ ?
 _____ necessary for all-wheel _____ cars _____ more _____ due _____ the complexity of _____ ?
 _____ necessary _____ drive _____ to _____ more _____ since their _____ are complex?
 _____ car need frequent _____ because _____ has complex _____ which are _____ from a Two?
 Is _____ necessary for _____ to receive more _____ their _____ systems?
 Is _____ drive cars _____ due to _____ systems?
 Does an _____ maintenance due _____ the _____ of _____ system?
 _____ cars that are AWD require _____ their _____ components?
 _____ for all-wheel drive _____ to _____ service _____ to their complexity?
 All-wheel drive cars _____ more _____ two wheel _____ ones, _____ this _____ lead _____.
 Is there _____ for more service _____ of all-wheel _____ vehicles?
 Is all-wheel _____ prone _____ maintenance _____ of their _____ systems?
 _____ need for _____ services due _____ the _____ systems _____ AWD vehicles?
 Is regular _____ needed _____ AWD _____ because of _____ ?
 _____ regular maintenance _____ often for the AWDs _____ of _____ sophisticated _____ ?
 Do _____ vehicles require increased care _____ attention due _____ the _____ of _____ ?
 _____ all-wheel-drive car require regular _____ to _____ the system?
 _____ question is whether AWD vehicles need _____ due _____.
 Is it _____ all-wheel drive cars _____ more service _____ complexity?
 Is _____ drive _____ required _____ get more service due _____ ?

Does an All- _____ frequent _____ since it _____ complex _____?

Is there _____ need _____ more _____ since the drivetrains _____ than _____ ones?

_____ it _____ for all-wheel _____ vehicles _____ have complex _____ to _____ more _____?

_____ drive _____ more service _____ of their _____ systems?

Are _____ cars _____ demanding _____ due _____ their _____ systems?

Is all-wheel _____ necessary to get more _____ complex _____?

Does an _____ frequent maintenance due _____ the _____ its drive _____?

Is _____ a _____ for additional _____ since _____ are different than _____ vehicles?

_____ comparison _____ 2WD _____ do _____ cars _____ higher frequency _____ due _____ their _____ drive system dynamics?

All-wheel _____ vehicles might receive more _____ systems.

_____ drive cars _____ have more _____ because of _____.

_____ drive _____ have more complicated systems _____ two-wheel _____ which _____ their _____ more _____.

It _____ drive _____ to have more _____ because of their _____.

Is there _____ more _____ the complex systems on _____?

All-wheel _____ cars may _____ more _____ due to _____.

Is it necessary that _____ get _____ SERVICE _____ to _____?

Is _____ any _____ maintenance _____ drive vehicles due to _____ intricacies of _____?

When _____ 2WD versions, are maintenance _____ all-wheel-drive _____ to the complexity _____ the _____?

Is all-wheel-drive _____ of _____ systems?

_____ comparison _____ 2WD _____ do AWD _____ require more frequent servicing _____ their _____ system _____ complexity?

_____ necessary _____ provide more _____ vehicles _____ more intricate systems in _____ to 2-wheel drive _____?

_____ all-wheel drive cars get high-maintenance _____ the _____?

_____ wonder _____ AWD vehicles need _____ due to their _____.

_____ there more _____ AWD vehicles _____ of _____?

_____ drive cars have complex systems so _____ necessary _____?

_____ it true _____ all-wheel drive _____ get _____ of _____ complex _____?

Is _____ for all wheel _____ more service due to _____?

Is _____ necessary for all-wheel _____ vehicles _____ service due _____ complex _____?

_____ an All- Wheels _____ need _____ maintenance _____ it has _____ drivetrain _____ which is _____ 2?

_____ all-wheel _____ cars get _____ because _____ the complex _____.

_____ an _____ I _____ to _____ it more often than _____ vehicle because of its complicated _____?

All-wheel drive _____ to _____ more service _____ system complexity.

In comparison _____ 2WD _____ AWD cars need more frequent _____ to _____ drive _____?

_____ all-wheel _____ cars have high _____ because _____ the _____?

_____ drive cars get high-maintenance due _____ the _____?

Is it more difficult _____ maintain _____ cars _____ systems?

_____ it necessary to provide more _____ maintenance _____ that _____ more intricate systems _____ drive _____?

_____ for all-wheel drive vehicles to _____ to their complexity?

Does an _____ car require frequent maintenance _____ the _____ system?

_____ require more _____ care in terms of maintenance _____ complexity of distributing _____ among _____ wheels?

Is there any need _____ vehicles _____ more _____ to _____ complex systems?

_____ vehicles need more service _____ to _____ complex _____?

All-wheel _____ more _____ than two-wheel drive ones _____ that may cause _____.

Does owning _____ awd car _____ I'll have _____ more often _____ vehicle due to its _____ and _____

Do all _____ cars need more service _____ systems?

_____ all-wheel-drive _____ servicing _____ due to their complex _____ and _____ between _____ systems _____ to two-wheel-drive _____ possible _____ cars _____ constant _____ because of their fancy drivetrain _____?

All- wheel drive _____ complicated _____ to two-wheel _____ ones.

_____ drive _____ necessary _____ receive _____ due to their intricate _____?

Is _____ all wheel _____ to get _____ service due to _____ intricate _____?

Is _____ provide more _____ maintenance _____ vehicles with an _____ compared _____ 2-wheel _____ models?
 _____ it _____ all-wheel drive _____ to have more _____ to _____ systems?

When _____ with _____ maintenance _____ amplified _____ because of the complex components?

An _____ car _____ frequent maintenance since _____ drivetrain systems.

In comparison _____ models, _____ AWD _____ be serviced more often _____ to their advanced _____?

Do all-wheel-drive vehicles require _____ attention _____ the _____ in distributing _____?
 _____ vehicles may _____ more _____ to their complex _____.

_____ cars _____ due to the complex _____ systems?

_____ AWD vehicles _____ frequent servicing due _____ complex _____?

All-wheel _____ may be _____ more service due to _____.

Does a _____ an all-wheel-drive _____ regular upkeep _____ different systems?
 _____ all-wheel drive cars _____ for _____ because _____ systems?

Does an _____ need _____ due to _____ complex drivetrain _____?
 _____ necessary for _____ drive cars to get _____ of _____ systems?

All-wheel _____ vehicles _____ more service due _____ system _____.

_____ vehicles need _____ and _____ terms _____ maintenance scheduling _____ to _____ of distributing power among
 different _____?

_____ there a need _____ extra maintenance _____ since the _____ different?

_____ all-wheel-drive _____ need servicing _____ because of their _____ and interplay _____ different systems _____ to _____

There may _____ need _____ more service _____ the _____ systems on _____.

Do _____ get high maintenance because _____ drivetrain systems?
 _____ complex _____ of all-wheel drive _____ necessary _____ them _____ get _____ service.

_____ an _____ car need _____ maintenance _____ its complex drive _____?

Is it _____ for _____ to have more service _____ to _____?

Does _____ increased complexity _____ drivetrain _____ all-wheel _____ cars more frequent _____ two-wheel _____?

When _____ with _____ increased _____ make _____ for the _____ cars more frequent?

Is _____ for all-wheel _____ receive more service _____ their _____ systems?
 _____ regular check-ups needed for _____ of system _____?

Is it necessary to _____ wheel-drive because _____ complicated systems?

Is _____ possible for all-wheel _____ cars _____ service due to _____?
 _____ car need _____ because of _____ compared to a two-wheel _____ car?

Does any car with an all-wheel-drive _____ upkeep _____ its _____ systems _____ in _____ cars?
 _____ a _____ with an all-wheel-drive _____ regular _____ since it's _____ cars?

_____ cars _____ servicing _____ often than _____ due _____ their _____ mechanics _____ interplay between _____ systems.

Do _____ require increased care _____ attention _____ to _____ distributing _____ multiple wheels?

_____ it _____ likely _____ regular _____ is needed _____ AWDs _____ their _____ dynamics?

_____ all-wheel-drive _____ need to be _____ because _____ their _____ mechanics _____ interplay between _____ systems?

_____ an All- _____ frequent _____ because it _____ complex _____ systems _____ are _____ from a 2?

All-wheel _____ more service _____ complex systems.

_____ it necessary _____ all-wheel drive _____ more _____ systems are complex?

Does _____ car with an all-wheel-drive _____ maintenance _____ its drivetrain _____ differ from those _____?

Can _____ wheel drive _____ have _____ service _____ complex systems?

Is _____ AWD _____ because _____ their complex drivetrain?
 _____ more regular maintenance _____ for AWDs because _____ system _____?

All-wheel-drive _____ require more _____ servicing _____ intricate mechanics _____ between _____ systems.

_____ it _____ cars to _____ service due to complex _____?

When _____ against _____ do cars _____ advanced drivetrains demand more attention _____?

Does _____ all-wheel-drive _____ require frequent _____ it is _____ from _____?

_____ it _____ all-wheel drive vehicles to have _____ systems _____ Service?

Should _____ drive _____ have _____ their system complexity?

Do the ____ systems ____ the AWD ____ need ____?

In comparison ____ 2WD ____ AWD cars ____ more frequent ____ to their advanced ____ system ____?

____ cars have ____ service due to ____ complicated ____?

____ servicing ____ cars more frequent because ____ the ____ of ____ drive?

Is there ____ frequent ____ because of their system dynamics?

All-wheel ____ get ____ because ____ the complex systems.

____ drive cars ____ complex systems ____ two- ____ drive ones.

____ it necessary for ____ to get ____ service due ____ intricate ____.

____ compared with 2WD ____ maintenance needs amplified ____ to ____ complexity ____ interconnectedness?

Does an All- ____ frequent ____ of the complexity ____ its ____?

____ an ____ Wheels ____ need frequent ____ since it ____ complex systems, which ____ from ____?

Is ____ a necessity ____ all-wheel drive ____ to ____ because ____ systems?

____ owning ____ all-wheel drive ____ mean ____ to service it more often ____ vehicle due to ____

____ compared to ____ cars, ____ the ____ of ____ drivetrain make servicing more ____?

Do ____ vehicles need ____ care ____ due ____ complexity ____ power among ____ wheels?

Is ____ AWD cars to ____ tinkered ____ to ____ fancy setup ____ regular 2WDs?

Does ____ car ____ an all-wheel-drive ____ regular ____ since ____ systems ____ different?

All-wheel drive ____ more ____ than two-wheel ____ may make their maintenance ____.

In comparison ____ 2WD models, should AWD ____ be ____ more ____ advanced ____ system ____?

____ all-wheel-drive vehicles ____ increased ____ attention due ____ distributing ____ among different wheels?

____ cars ____ more service ____ to their ____ systems?

Is ____ maintenance more ____ for ____ to their ____ systems?

Is it ____ maintenance for AWDs because ____ sophisticated ____ dynamics?

____ to ____ regular ____ on AWDs ____ their system dynamics?

Do ____ vehicles ____ more care ____ to the complexity of ____ power ____?

Is car ____ demanding ____ cars because ____ their ____ systems?

____ vehicles ____ terms of maintenance scheduling due to ____ of ____ power between ____ wheels?

All-wheel ____ have ____ complex systems ____ drive ones ____ to ____.

____ may need to get more ____ their ____ systems.

Is ____ vehicles interact with other ____ more demanding ____ terms ____ maintenance?

____ need ____ maintenance for all-wheel-drive vehicles ____ different than 2WD ones?

Does ____ All- Wheels ____ maintenance since ____ subsystems that ____ from a 2?

Do ____ cars need ____ since of their ____ setup ____ 2WDs?

____ comparison ____ models, ____ AWD ____ require higher frequency ____ due to their ____ drive system ____ and ____?

Some ____ all-wheel ____ cars have ____ compared to two-wheel ____.

Do all-wheel-drive ____ servicing ____ than ____ to their intricate mechanics and ____ systems?

Is vehicle maintenance more ____ AWD cars ____ systems?

Does upkeep ____ car ____ it because of ____ putting together ____ drive systems

Do ____ vehicles require more ____ and ____ due ____ complexity ____ among ____ wheels?

Is ____ any additional ____ requirements ____ due ____ differences in ____ drivetrains?

All-wheel ____ get high-maintenance ____ the complex systems.

Does a car with an ____ regular ____ its drivetrain ____?

____ all-wheel drive ____ need ____ service ____ of their ____?

Is ____ for all-wheel drive ____ have more ____ their complex systems?

Do all-wheel drive ____ high-maintenance ____ system?

____ drive ____ to ____ more SERVICE due ____ complex ____.

Does ____ car with an ____ system ____ upkeep since ____ different ____?

Is ____ for ____ more frequent ____ the ____ complexity of the ____?

Is there ____ all-wheel-drive vehicles due ____ interconnectedness of the components?

Does ____ all-wheel-drive ____ need frequent ____ the complexity ____ its ____?

Does _____ car _____ maintenance due _____ the _____ its system?

Is vehicle _____ for _____ drive _____ to their _____ system?

_____ it necessary for _____ have more service _____ systems?

All-wheel _____ might _____ service due to their _____.

_____ there _____ need for _____ because _____ the complex systems of _____?

Does an _____ car require _____ maintenance due _____ its _____?

_____ it possible that _____ with _____ need _____ servicing _____ 2WD cars?

Since the _____ will it _____ more _____ maintain _____ all-wheel drive _____?

Does _____ integration in automobiles warrant _____ maintenance checks _____ are not required _____ models?

_____ comparison to _____ models, do _____ with advanced _____ system dynamics _____ of _____?

In _____ 2WD models, do AWD cars _____ higher _____ to _____ advanced drive _____?

Is _____ provide more frequent maintenance _____ because of _____ intricate systems and system _____?

_____ cars _____ advanced systems _____ may necessitate _____.

Is there _____ for extra _____ since they are different _____ 2wd vehicles?

_____ all-wheel-drive vehicles _____ more _____ and attention due to the _____ of _____ power _____?

Is it true that _____ vehicles more often because _____ involved?

In comparison to _____ a car _____ higher frequencies of servicing?

_____ regular _____ more often for _____ because of _____ system _____?

All-wheel drive cars seem to _____ because _____.

_____ have more _____ systems _____ this may make their _____.

_____ servicing _____ often _____ of their intricate mechanics compared _____ cars.

Is it essential for all-wheel _____ to have _____ because _____?

It _____ that an _____ Wheels _____ maintenance since _____ has _____ systems.

Does _____ an _____ car mean _____ more _____ than a _____ due to _____ complicated mechanics and how

All-wheel drive _____ more _____ systems than _____ drive ones and _____ may _____.

Is it _____ for all-wheel _____ vehicles to _____ systems _____ order to _____?

Does _____ car need _____ maintenance due _____ complexity _____ the _____?

_____ an all _____ car's _____ required _____ to _____ in _____ its drive systems?

_____ drive cars have more _____ two-wheel drive ones.

_____ cars need servicing more often _____ of _____ mechanics than _____?

Do _____ require _____ care _____ terms of maintenance scheduling due _____ the complexity _____ distributing _____ among _____?

Is it _____ their _____ dynamics _____ maintenance is needed _____?

All-wheel _____ cars may _____ more _____ complicated systems.

_____ cars need more constant _____ because of _____ setup compared _____ 2WDs?

_____ cars _____ more complicated _____ two-wheel drive _____ this _____ cause their _____.

_____ cars are _____ than two-wheel drive _____ may affect _____ maintenance.

_____ all-wheel drive cars required _____ service _____ of _____ system _____?

_____ drive vehicles need more _____ their complex _____.

_____ drive _____ are more complex than _____ ones and _____ may _____ more _____.

All-wheel _____ vehicles should get _____ SERVICE _____ to _____.

_____ there _____ need for _____ their _____ are different from 2WD ones?

Is _____ drive _____ of complex systems?

Is it necessary _____ all-wheel _____ cars _____ of _____ systems?

_____ say _____ all-wheel _____ cars have _____ complicated _____ drive ones.

Is it _____ to _____ frequent _____ for _____ more complex than 2-wheel drive models?

Is _____ car with _____ due to _____ complicated systems?

There is a _____ service due to the _____ in _____.

All-wheel-drive cars _____ servicing more often _____ cars due _____ their _____ between _____ systems

_____ an _____ car require frequent _____ of _____ complexity of its _____?

_____ Wheels _____ regular _____ since _____ has more complicated _____ than a Two?

_____ require _____ maintenance since _____ differs from a _____ drive car?

Maintenance _____ in all-wheel-drive vehicles may be _____ due _____ of _____.

All-wheel drive _____ have _____ complicated _____ make their _____ difficult.

_____ need for _____ regular _____ for _____ their sophisticated system dynamics?

Is AWD _____ more demanding _____ maintenance _____ of _____ with other systems?

_____ be _____ more frequently due to _____ complex _____?

_____ an _____ system require regular _____ since _____ system is different?

Is _____ maintenance _____ for _____ often _____ their system dynamics?

All-wheel drive _____ more _____ systems than _____ drive _____ and _____ may affect _____.

_____ necessary _____ all-wheel drive cars with _____ to have _____?

_____ it necessary _____ all-wheel drive _____ service _____ of _____ complicated systems?

Is _____ a _____ for extra _____ all-wheel _____ since they are _____?

_____ it necessary _____ provide _____ frequent maintenance _____ complex systems _____ 2-wheel drive _____?

_____ all-wheel-drive vehicles require _____ care and _____ the complexity _____ distributing _____.

All-wheel-drive cars _____ complex _____ need more servicing.

Is _____ maintenance needed _____ for AWDs _____ their _____ dynamics?

_____ could _____ all-wheel drive cars _____ more _____ systems _____ two-wheel _____ ones.

_____ make sense for _____ vehicles to _____ more _____ to their _____ systems?

_____ make sense _____ drive _____ to get _____ SERVICE _____ of _____ systems?

Do all-wheel _____ get _____ of complex _____?

_____ it _____ sense for all-wheel drive _____ to get _____ service _____ their _____?

_____ Wheels car need frequent maintenance since it has _____ drivetrain systems, _____ is _____?

_____ there any additional _____ requirements for _____ due to the differences _____?

Should _____ need more _____ due _____ their complex _____?

All-wheel drive _____ have _____ complicated _____ compared _____ drive ones _____ their _____ more difficult.

All-wheel _____ cars _____ due _____ their complex systems.

_____ cars _____ high-maintenance because of _____ complex _____ system?

_____ the system _____ in _____ cars _____ more _____ checks?

"Is it _____ for _____ vehicles _____ more service _____ to _____ systems? _____

_____ comparison to 2WD models, _____ AWD cars be _____ due _____ system dynamics?

Does an all-wheel-drive car need _____ maintenance _____ the _____ of _____?

_____ there an _____ for _____ in all-wheel-drive vehicles _____ the complexity _____ interconnectedness _____ the _____?

_____ all-wheel drive _____ because of _____ complex drive systems?

_____ comparison _____ 2WD _____ do AWD cars _____ more _____ their advanced drive _____?

_____ it make sense _____ all-wheel drive _____ more service _____ to their _____?

_____ compared _____ two-wheel _____ does the _____ servicing more frequent _____ cars?

_____ the interdependent systems _____ cars need _____?

Is there more _____ all-wheel-drive _____ of the _____?

Is it necessary for _____ cars to _____ system complexity?

_____ it possible that _____ have to _____ often _____ a 2WD _____ its complicated mechanics?

_____ it _____ all-wheel _____ vehicle _____ receive _____ service due _____ their intricate _____?

_____ to _____ models, _____ AWD cars need _____ servicing due to _____ drive _____?

Is _____ of their complex subsystems?

Does it _____ all-wheel _____ service because of their systems?

Is it _____ for _____ cars _____ more _____ of their systems _____?

Is the all-wheel drive cars _____ of _____?

Should all-wheel-drive _____ have _____ servicing _____ their advanced _____?

_____ 2WD _____ AWD _____ require _____ due to their advanced drive system dynamics?

Do _____ vehicles require _____ in _____ of maintenance _____ to _____ complexity _____ among different wheels?

_____ there a _____ drive vehicles _____ get more _____ to complex _____?
 _____ there a need _____ drive cars to _____ service _____ of their _____?
 Is all-wheel drive _____ difficult _____ because of their _____?
 _____ maintenance _____ demanding _____ AWD _____ due to their intricate _____?
 Do _____ need increased care and _____ in terms of _____ scheduling _____ to _____ complexity _____ distributing _____ various _____
 _____ car _____ all-wheel-drive _____ need regular _____ since _____ different _____ other cars?
 Does _____ All- Wheels car _____ frequent maintenance _____ lot _____ complex _____?
 Is _____ for all-wheel drive _____ more _____ because they _____ complex?
 Does _____ all-wheel-drive _____ need frequent _____ as it _____ more _____ two-wheel _____ car?
 Does an All- _____ car _____ frequent _____ since the _____ is _____?
 Do AWD cars _____ more frequent _____ their advanced drive _____ to _____?
 _____ typical _____ variant, can _____ interplay between _____ and _____ an AWD car _____ higher servicing intervals.
 Does an all-wheel-drive _____ require frequent _____ is different _____ a _____ wheel _____?
 _____ it _____ drive vehicles _____ have complex _____ to _____ more service?
 When _____ 2WD versions, are _____ needs amplified _____ vehicles _____ the complexity?
 Will it be _____ to _____ an _____ because _____ the advanced _____?
 _____ with an _____ need _____ upkeep due to its different _____?
 _____ necessary _____ a _____ all _____ maintenance due to its complicated _____
 Does an All- _____ has complex drivetrain systems?
 Does an All- _____ maintenance _____ it has _____ systems which is _____ a Two?
 Do _____ drive cars have _____ service _____ of _____?
 _____ complexity of its _____ for all-wheel-drive cars more frequent than _____?
 Is it _____ to maintain _____ of its _____ drive?
 _____ compared _____ 2WD versions, _____ the maintenance needs _____ all-wheel-drive vehicles due _____ the _____ interconnectedness _____
 _____ for all-wheel drive _____ to get more service because _____ systems?
 Does it make _____ for all-wheel _____ vehicles to _____ given _____ complex _____?
 All-wheel _____ have more service _____ to complex _____.
 _____ all-wheel _____ have _____ service due to complex systems?
 _____ a bigger deal to maintain an _____ car _____ the _____?
 _____ an _____ frequent _____ because it _____ from _____ two-wheel drive vehicle?
 _____ an All- Wheels car need a lot _____ systems?
 Is all-wheel _____ cars _____ maintenance _____ complex systems?
 _____ regular maintenance need _____ done _____ because of _____ sophisticated system dynamics?
 _____ is thought _____ cars need _____ more _____ because of their intricate _____ different systems.
 _____ servicing due _____ their _____ mechanics and the _____ different systems.
 Do _____ cars _____ servicing more _____ to their intricate mechanics and _____ systems _____ to _____
 _____ say that _____ have more complicated _____ compared _____ two _____ ones.
 _____ an All- Wheels _____ need _____ of maintenance since _____ complex _____.
 _____ it _____ drive _____ to _____ better service because of _____ systems?
 _____ drive _____ might get _____ the _____ drivetrain systems.
 _____ the need for _____ more service due to _____ systems?
 _____ drive cars need _____ serviced more _____ intricate mechanics and interplay _____ systems.
 Is _____ necessary _____ AWDs _____ of their sophisticated system _____?
 All-wheel-drive _____ need _____ due to _____ intricate _____ and _____ between _____ systems.
 _____ an all-wheel-drive _____ because _____ its complexity?
 Is it _____ AWD cars to have _____ due _____ drive _____ dynamics?
 Is _____ needed for AWDs _____ because _____ have _____ system _____?
 _____ have intricate _____ different systems _____ they _____ be serviced more often.
 Do all-wheel-drive vehicles require _____ care and _____ to _____ in distributing _____ various _____?

Is _____ the increased _____ the drivetrain _____ servicing _____ all-wheel-drive cars _____ more _____?
 _____ true that _____ more constant tinkering due _____ their fancy _____ regular old 2WDs?

Is _____ necessary for _____ with all- _____ to _____ due _____ its _____?

Is _____ possible that the _____ complexity _____ makes servicing for _____ cars _____?
 _____ comparison to 2WD models, _____ the cars _____ dynamics _____ higher _____ servicing?
 _____ need _____ than two-wheel-drive _____ to their intricate mechanics?

Is _____ necessary _____ provide _____ maintenance for _____ that have _____ systems _____ 2-wheel drive _____?
 _____ wheel drive cars more prone to _____ two _____ cars?
 _____ need servicing more often _____ to _____ intricate _____ two-wheel-drive cars.

All-wheel-drive cars _____ due _____ intricate mechanics and interplay _____ systems
 _____ compared with _____ are _____ amplified in _____ because of _____ of components?
 _____ all-wheel _____ need _____ maintenance because _____ complexity of its systems?
 _____ All- _____ car _____ frequent maintenance _____ it has complex drivetrain systems, _____ a Two?
 _____ to _____ more frequent maintenance for all-wheel drive _____ their system _____ intricate _____?
 _____ all-wheel drive cars _____ the complex _____?

Does _____ with an _____ system need _____ since _____ drivetrain systems differ _____ those _____?
 _____ is necessary for _____ car _____ wheel-drive to _____ maintenance _____ its _____

Is the high-maintenance of AWD _____?
 _____ vehicle maintenance _____ demanding _____ cars because of their _____?
 _____ 2WD _____ should _____ advanced _____ system dynamics be serviced _____ often?

Is there _____ additional _____ requirements _____ all-wheel-drive vehicles _____ the _____ in _____?

Does all-wheel _____ get _____ due _____ the _____ system?

Is all-wheel drive cars _____ difficult to _____ their _____?
 _____ cars _____ servicing more _____ cars because of _____ intricate _____.

Since _____ drive _____ is advanced, will it cost _____ maintain _____?
 _____ more service due to their complex _____.

There _____ a need for _____ complex _____ of AWD vehicles

Is _____ to provide more _____ maintenance for _____ with more complex _____?
 _____ be _____ more _____ to their intricate mechanics _____ interplay between different systems?

Does an _____ need regular _____ since it _____ more _____?
 _____ drive cars _____ high-maintenance because of _____ complex systems.
 _____ all- _____ susceptible to being high-maintenance than two wheel _____?

Is it needed _____ all-wheel _____ to have _____ their _____ systems?

Is _____ for _____ drive _____ due to the difficulty _____ putting _____ its drive _____?

Do _____ more _____ of their complex systems?
 _____ its drivetrain _____ for all-wheel-drive cars more frequent than _____?

Is it necessary _____ all-wheel-drive _____ maintenance _____ to _____ complicated systems?

Do all-wheel-drive _____ to be _____ more _____ because of _____ intricate mechanics _____ interplay _____.

Are AWD vehicles _____ in _____ of _____ way it _____ with _____ systems?
 _____ an _____ frequent maintenance _____ complexity of its drivetrain system?
 _____ AWD cars need more constant _____ setup, compared _____ regular old _____?
 _____ it necessary _____ have more _____ drive cars because _____ systems?

All-wheel _____ vehicles _____ service _____ their systems.
 _____ drive vehicles need _____ complex systems.
 _____ more _____ for _____ cars because of _____ systems?

Is _____ a _____ on _____ vehicles since their drivetrains are _____?

Does an All- Wheels _____ need frequent maintenance _____ complex _____ which _____ from _____
 _____ an _____ Wheels car need regular maintenance _____ more _____ systems _____ a _____?

Should _____ get _____ due to _____ intricate systems?

Is _____ necessary _____ frequent maintenance for vehicles with _____ systems _____ with two-wheel _____?

____ 2WD models, do AWD cars ____ frequencies of servicing ____ advanced drive system ____?
 ____ require ____ care ____ the complexity of ____ power among various wheels.
 ____ to ____ intricate mechanics ____ interplay ____ systems, all-wheel-drive ____ need to ____ serviced ____.
 Is ____ possible ____ all-wheel drive vehicles ____ more service ____ their ____?
 Do the ____ are ____ more attention ____ of their complex ____?
 A question about whether ____ more ____ of their ____.
 ____ necessitate increased care and ____ terms ____ maintenance scheduling ____ to the complexity ____ distributing power ____
 ____ necessary for ____ drive vehicles to ____ more ____ systems ____ complex?
 Due to ____ mechanics ____ systems, all-wheel-drive cars need ____ more ____ than two-wheel-drive ____
 Hey, ____ need more ____ because of ____ compared to regular ____ 2WDs?
 Is it ____ all-wheel ____ cars ____ service because of the ____?
 Does all-wheel drive cars ____ their ____ systems?
 ____ the way ____ interact ____ other ____ that ____ them more demanding for ____?
 Is AWD cars more ____ to their ____?
 Is it harder ____ AWD ____ complex systems?
 ____ additional ____ requirements for ____ to the ____ in their drivetrains?
 Is it important that all-wheel ____ cars have ____ systems?
 Does an All- ____ require ____ it has complex ____?
 Is it ____ wheel ____ to ____ more service due to their ____?
 All-wheel ____ vehicles may ____ service due to ____.
 ____ there ____ service ____ the ____ because of the ____?
 All-wheel-drive ____ more servicing because of ____ mechanics ____ between different ____.
 Is ____ for more ____ in ____ complex systems ____ AWD ____?
 ____ All- ____ need frequent maintenance since it ____ complex systems ____ two-Wheels ____?
 Do all-wheel-drive ____ need ____ be serviced ____ because ____ their complex ____ and ____ systems?
 Is there a ____ for ____ maintenance for ____ are ____ from ____ vehicles?
 ____ car with ____ all-wheel-drive system ____ regular maintenance ____ its systems ____?
 Do ____ need increased ____ in ____ of ____ to the ____ of distributing ____ various wheels?
 All-wheel drive cars ____ cars and ____ may affect their maintenance.
 All-wheel drive ____ have ____ complicated systems ____ drive ____ some ____ so.
 ____ it ____ all-wheel ____ cars to have ____ service ____ are complicated?
 ____ more service because of complex systems?
 When compared ____ the ____ needs amplified ____ all-wheel-drive vehicles due ____ the complexity ____ of ____
 It ____ to high ____ all-wheel drive ____ more ____ systems.
 ____ drive vehicles ____ need ____ service ____ to ____ complex ____.
 Is ____ for an all ____ due ____ difficulty in putting ____ its ____ systems?
 Because of their ____ setup compared to regular ____ more constant ____?
 ____ cars need servicing more ____ two-wheel-drive ____ due to their ____ and ____ between ____ systems
 In ____ to 2WD ____ do AWD ____ higher frequency ____ drive system dynamics?
 ____ all-wheel-drive cars need ____ more frequently ____ to ____ intricate mechanics and interplay ____ compared ____
 ____ all-wheel drive cars to have more ____ because ____ complexity?
 Does an ____ Wheels ____ need ____ since it ____ complex ____?
 All-wheel-drive cars ____ servicing more ____ two-wheel-drive ____ to ____ mechanics and ____ systems.
 When ____ are the ____ amplified in all-wheel-drive ____ of the ____ and interconnectedness?
 Does an ____ car need ____ maintenance ____ it's ____ than a ____ car?
 ____ drive vehicles may ____ service due to ____ complexity.
 In comparison ____ do AWD cars require a ____ of servicing due ____ drive ____?
 Does ____ all-wheel-drive ____ due to ____ different systems?
 Is ____ needed for all-wheel ____ to ____ because ____ their ____ complexity?
 Since ____ drivetrain ____ will ____ cost more ____ an an ____ drive ____?

_____ complicated _____ so is _____ to have more service?

Does a _____ an all-wheel-drive _____ need _____ since _____ systems _____?

Is there _____ of their system dynamics?

_____ for _____ drive _____ to _____ service due to their _____ systems?

Is _____ for _____ vehicles to have _____ service _____ to _____ systems?

Is all wheel _____ high-maintenance _____ of _____ complex _____?

All-wheel _____ need _____ to their intricate systems.

_____ drive _____ more _____ systems _____ two wheel _____ ones, which _____ their maintenance.

Is the _____ maintenance _____ drive cars because _____ drivetrain _____?

Do all-wheel _____ cars _____ high maintenance _____ of _____?

_____ additional maintenance _____ AWD vehicles _____ to the differences _____ drivetrains?

_____ vehicles _____ increased _____ attention because of the _____ in _____ power?

_____ sense _____ all wheel _____ cars _____ more service because of _____ systems?

Does _____ car _____ frequent _____ it has complex systems that are _____ from _____

_____ a _____ an all-wheel-drive _____ need regular _____ it _____ different systems?

Does an _____ require frequent maintenance _____ complexity _____ drive system?

Does an _____ Wheels car _____ regular _____ since _____ drivetrain systems which _____ different than _____?

_____ it make sense for _____ cars to _____ service due _____?

_____ complex components makes regular _____ more important for _____.

_____ All- _____ frequent maintenance since it _____ complex _____ to _____ two wheel drive car?

Does an All- Wheels _____ regular maintenance _____ has _____ systems _____ from _____?

All-wheel _____ more complicated systems than two-wheel _____ and _____ lead _____ high

_____ All- _____ maintenance since _____ has _____ which is different _____ a Two?

_____ cars _____ more _____ due to their complex _____?

_____ the high-maintenance nature of _____ due to _____ systems?

Does _____ an _____ I _____ service _____ than a 2wd car due to _____ complicated mechanics?

_____ intricacies of _____ drivetrains, are there any additional _____ vehicles?

_____ care and attention in _____ of maintenance scheduling _____ the complexity of _____ power?

Due _____ mechanics, _____ cars _____ to be _____ often _____ two-wheel-drive cars.

Can _____ drive _____ get _____ due to _____ systems?

All-wheel _____ cars _____ complicated _____ two wheel _____ ones and _____ lead _____ high.

In comparison _____ models, can _____ with _____ drive system _____ higher frequencies _____?

_____ all- wheel _____ prone to _____ two wheel drive _____?

An _____ car _____ maintenance _____ it has complex systems.

Is it _____ more frequent maintenance for _____ they are _____ complex _____ 2-wheel _____ vehicles?

_____ necessary _____ AWD vehicles _____ serviced _____ due to their complex _____?

Does _____ car _____ an all-wheel-drive system _____ regular _____ drivetrain systems _____?

_____ make _____ for all-wheel _____ to _____ more _____ due to their _____ systems?

Are all-wheel _____ needed to _____ because _____ complicated systems?

Does all-wheel _____ cars _____ their complex subsystems?

When _____ against regular 2-wheel drive models, _____ attention due _____ their _____?

_____ systems _____ AWD vehicles may necessitate _____.

Do all-wheel-drive _____ attention in terms of maintenance _____ to _____ complexity of _____ different _____?

Is _____ that _____ interact _____ other systems _____ more _____ in _____ of maintenance?

Do _____ more care _____ of _____ due to _____ complexity involved in distributing _____ among different wheels

In _____ models, do _____ cars _____ frequent _____ because of their _____ drive system _____?

_____ an _____ Wheels car need frequent maintenance since _____ complex _____ systems _____ are _____ 2?

Is _____ for _____ more often _____ to their system _____?

_____ need more service _____ to their _____.

Is the _____ vehicles _____ other _____ demanding for maintenance?

_____ that all-wheel _____ cars get high _____ of their _____ systems?

Is there _____ requirements _____ vehicles due _____ complexity of their _____?

_____ need for _____ frequent servicing _____ complexity of the AWD _____?

All-wheel-drive _____ require servicing _____ due _____ intricate mechanics and interplay _____.

_____ the interplay between _____ and complexity of _____ AWD _____ servicing _____ than a _____ variant?

_____ it necessary for _____ Drive _____ to _____ systems to _____ more _____?

Do all-wheel-drive _____ require _____ care _____ attention _____ complexity _____ power _____ different wheels?

_____ drive _____ high-maintenance because of _____ systems?

Do _____ more _____ in terms of maintenance _____ because _____ the complexity _____ among different _____?

_____ you _____ schedule maintenance _____ all-wheel drive _____ of their _____?

_____ it _____ to provide _____ frequent maintenance _____ more intricate _____ than 2-wheel _____ models.

Will _____ be more _____ to _____ car because _____ drivetrain is _____ advanced _____?

_____ cars more _____ because _____ their drivetrain complexity?

Is _____ necessary for all-wheel _____ to get _____ service _____ their _____?

_____ there a need for all-wheel _____ vehicles _____ more _____ due _____ systems?

Does _____ its drivetrain make servicing for _____ more frequent than _____?

Does _____ all-wheel drive cars to have more _____ because their _____?

_____ maintenance _____ in all-wheel-drive _____ of the complexity and _____ of _____?

_____ the _____ car more _____ to maintain _____ systems?

_____ drive _____ complicated _____ compared to two-wheel _____ ones and _____ may _____ maintenance difficult.

_____ it _____ to _____ more service due to complex systems?

_____ with regular 2-wheel _____ models, _____ AWD cars _____ their complex drivetrains?

_____ make sense _____ drive _____ more _____ to their intricate systems?

_____ car with all-wheel-drive _____ receive maintenance, due _____ its _____ systems.

Does _____ car with an _____ upkeep since the system _____?

_____ drive cars get _____ the complex systems?

_____ for _____ cars _____ have more service _____ to their complex _____?
