

[Demo] NLP Dataset for Customer Service Automation

Company Type	Water and Wastewater Utility Companies
Inquiry Category	Water quality and safety concerns
Inquiry Sub-Category	Water Discoloration
Description	Questions related to the presence of discolored water, such as brown, yellow, or cloudy water, and potential causes, such as rust or sediment in the pipes.
Data Size	5,008 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Water and Wastewater Utility Company" customer inquiry. (Purchased data will not be masked.)

How ____ sediment affect the ____ our ____?

I'm ____ water's color can be ____ the ____.

Soil impact ____ hue

____ amount of silt ____ water might ____ color.

____ possible that ____ color ____ may change due to the ____.

____ tint affected by the ____?

Can debris in the ____ our ____ water?

Does sediment ____ the water?

____ soil ____ tap liquid hue?

____ tap water ____ there is sediment?

Some of the ____ in ____ may affect ____ we drink.

____ it ____ the color of tap ____ might change ____ to ____?

____ water color change due to ____?

____ color of ____ tap ____ change from ____ because of the ____ deposited on ____.

____ the ____ my tap ____ affected by ____ of ____ the water?

____ is ____ the color of ____ water ____ the soil is ____.

It ____ the color ____ water ____ impacted by the dirt.

____ presence ____ seditious material ____ the color ____ water.

____ possible that ____ color of the ____ influenced by ____?

Can the debris of ____ of ____ water we ____?

____ tap water's ____ when ____ is some sort ____ deposit?

Is ____ that the color of the ____ change from time to ____ dirt on ____?

The color ____ the ____ can be ____ by ____.

Is the color ____ water ____ of dirt?

____ the tap's ____ influenced by ____?

I ____ to know ____ water's ____ can ____ by seditious ____.

____ the debris in the ____ affect the ____ of ____ that ____?

The ____ color ____ be ____ material.

Does ____ affect ____ water ____?

____ it ____ of ____ water changes ____ time ____ to the soil?

____ of ____ debris in the ____ color ____ tap ____?

____ would like ____ water's color ____ affected by deposits.

Can ____ debris ____ water ____ our ____ water?

I ____ the ____ can ____ affected by the deposits.

____ the tap ____ color change ____ is more silt ____?

____ possible that ____ color of ____ changes ____ are particles ____ it?

I would ____ how the water's ____ can be affected by ____

Do the ____ colors ____ to ____ in it?

____ the ____ water's color change ____ there ____ a ____?

What is the ____ between ____ and the ____?

I want to know ____ water's color ____ by ____ of seditious ____.

Is the ____ our ____ changed during the ____ our ____ of water?

Water hue ____ by the ____ of ____.

Does Sediment ____ appearance ____ water?

Is ____ of the ____ by the ____?

____ water color can ____ dirt.

____ there an impact ____ the ____ color?

____ the ____ dirty deposits ____ colors?

Can some of ____ water change ____ we drink from it?

Can ____ debris in the ____ change ____ color ____ drink?

Is the water color ____ as ____ the deposition ____?

____ know if ____ of ____ tap ____ is impacted ____ Sediment?

Does ____ color ____ change when ____ silt in it?

____ like to know how ____ tap water changes ____ use ____ Sediment.

____ the ____ change in color ____ to ____ silt ____ it?

____ water tint ____ be ____ soil.

Is ____ water ____ changed ____ of dirt in ____ water?

Does ____ color ____ the tap?

____ want ____ know whether ____ is ____ by the ____ of seditious ____.

____ some ____ in ____ the ____ the water we are drinking?

Is ____ water color ____ the ____ of dirt?

____ some ____ in the water ____ hue of the water ____?

Is dirt ____ tap ____?

Can ____ debris ____ the water alter ____ of the water ____?

Does ____ color of ____ tap ____?

____ of my water influenced by the ____ the water?

____ debris ____ the ____ water ____?

Water's ____ affected ____ the ____ of seditious substances

Water ____ be ____ by the impact ____.

____ it possible ____ the ____ of tap ____ from time ____ of the ____ deposited on ____?

____ some ____ the debris ____ the ____ of ____ we are ____?

____ possible ____ the ____ the ____ water can ____ to time ____ of the sedimentation deposited on ____.

____ the ____ water ____ change ____ to amount ____ silt ____ it?

____ Sediment ____ our ____ color?

Can silt ____?

I want ____ the ____ color ____ affected ____ presence of ____ substances

Is it possible that ____ the tap ____ by ____ soil?

____ some of the ____ in ____ water ____ the water ____ it?

____ tap ____ may ____ to the debris in ____.
 ____ color might ____ as ____ result of ____ Sediment.
 ____ tap water ____ a ____ color due ____ silt?
 ____ it true ____ tap water ____ changed by ____?
 ____ color of ____ affected ____ the silt?
 Tap water ____ affected ____ the ____.
 Is it possible ____ debris ____ can change the tint ____ drink?
 ____ the tap water ____ dirt is ____?
 Is ____ possible ____ dirty ____ and their ____ tap ____?
 It's possible that the color of the ____.
 Can ____ debris in the ____ affect ____ tint ____ water ____ are ____?
 ____ to know ____ the water's color ____ affected by the ____.
 Can ____ debris ____ change the ____ water that ____ are drinking?
 ____ you tell ____ how ____ of ____ water changes as a result ____ Sediment?
 ____ impact does ____ soil ____ on ____ liquid hue?
 ____ the ____ water changed ____ dirt is deposited in ____?
 ____ do the colors ____ water change when ____ a ____?
 Can ____ impact ____ colors?
 ____ in the water change the appearance of our ____?
 Is it possible ____ the tap water ____ of the water?
 ____ some of the ____ change ____ color ____ water ____ drink?
 ____ color ____ can change ____ time ____ because of the ____ that's deposited.
 Can debris ____ the ____ tint of ____ water?
 It's ____ that ____ of ____ tap ____ is ____ by the ____.
 I want to know ____ seditious ____ have ____ the ____.
 Is ____ color ____ our water source ____?
 I want ____ in the water ____ the ____ of ____ water.
 The water ____ on ____ tap ____ be ____ the ____.
 Is the ____ water ____ to the amount ____?
 ____ water ____ different when ____ dirt is deposited?
 ____ the ____ of my ____ water influenced ____ number ____ sediments?
 Do dirty deposits ____?
 Can ____ in ____ the tint of water ____ drink ____ it?
 ____ the sediment ____ color ____ our ____?
 ____ the ____ affect the ____ of ____ water we drink from ____?
 ____ the color ____ the tap ____ can ____ as a result of ____ deposited on ____?
 ____ possible ____ Sediment ____ make my water ____ different?
 Sediment ____ color of our ____.
 ____ to ____ water's color is affected ____ sediments.
 ____ the color of the ____?
 Does ____ of ____ tap ____ change ____ result of the ____?
 Do the ____ the tap ____?
 ____ it possible ____ color ____ due to the soil?
 ____ it ____ debris in ____ water could ____ the tint ____ water?
 Can the ____ change the color of ____ water ____?
 ____ presence ____ seditious ____ the water's color.
 ____ of the tap ____ from time ____ because ____ the soil that's ____.
 I would like to ____ how ____ the ____ of ____.
 ____ the tap's ____ changed ____?
 ____ tint affected ____ soil?

Is _____ our water _____ by dirt being deposited _____?

The _____ water color can change _____ a _____.

It's possible that _____ soil that's _____ tap water _____.

_____ the debris in _____ water _____ the tint _____ water?

_____ look of my water?

_____ the color of _____ by _____ dirt in our _____ of water?

Is _____ that the _____ of _____ tap water _____ be _____ the _____?

_____ the tap _____ colors change _____?

_____ deposition _____ dirt in _____ of water, is _____ of _____ water changed?

_____ tap _____ differently because _____ the Sediment _____ it?

_____ to know how _____ substances _____ the _____ hue.

_____ water _____ change because of _____?

_____ the tap _____ color _____ dirt?

The _____ of _____ tap _____ be influenced _____ the amount of _____.

Is _____ of _____ influenced _____ the amount of deposit?

I want _____ out _____ the _____ color _____ be _____ the deposits.

I _____ the water color _____ be changed _____ presence _____ seditious substances.

The color of _____ tap water _____ change _____ the _____.

_____ it _____ that the _____ changes due to _____?

_____ that the color _____ the _____ water _____ over _____ particles in it?

Is the water's color _____ by _____ seditious _____?

silt could affect _____ of _____.

_____ of _____ influenced by the amount of dirt _____ it?

_____ it _____ color of the _____ water changes according to the _____?

Can debris _____ the _____ change the color _____ we _____?

Can the _____ in _____ water _____ tint _____ the _____ are drinking?

Our tap color _____ be _____.

Is _____ possible that the color _____ water changes _____ the _____?

Does _____ tap _____ color _____ to _____ of dirt?

Is the color of _____ changed _____ dirt _____ in _____?

Is _____ possible _____ color _____ the tap _____ changes from _____ to time because _____ the _____ deposited _____?

I want _____ seditious substances _____ alter _____ water's _____.

_____ of _____ of dirt deposition in our bodies of water?

I _____ to _____ seditious material _____ the water's _____.

_____ water's color _____ affected _____ of seditious materials

_____ would like _____ water's color can _____ by seditious material.

Is _____ possible that the color of the _____ changes _____ time _____ it?

_____ the color _____ deposition of dirt _____ our bodies of water?

I _____ how _____ water's color can _____ by the _____.

Is _____ that the Sediment can _____ look _____?

The _____ water color _____ with _____ of _____.

Can some debris _____ water _____ of _____ we _____ from it?

Is it _____ that the _____ of _____ depending on the _____ of sedimentation _____ it?

The _____ color _____ by the presence _____ material.

I'm wondering _____ water's color can _____ by _____.

_____ possible _____ color _____ water might change due to _____ soil?

What _____ does _____ have on _____ color?

Does the _____ the _____ as _____ result _____ the silt?

Some _____ the debris in _____ affect the tint _____ we _____ drinking.

Is _____ color _____ water can _____ time _____ time because _____ the sedimentation deposited on it

_____ tap water _____ might _____ sediment.

Dirty _____ tap colors?

Can some _____ the _____ in the _____ the _____ the _____.

_____ the _____ color _____ if there is _____?

_____ water _____ change _____ the silt in it?

Is it _____ color _____ tap water _____ influenced _____ the silt?

_____ the _____ water change because of the _____?

_____ our tap _____ silt?

Can some of _____ change _____ the water we drink?

_____ the color _____ the _____ by _____?

_____ tap water discolored because of _____ deposition _____?

Is it _____ that _____ color of _____ water _____ the _____ it?

_____ the _____ tap influenced by _____?

Does the tap _____ with the _____ dirt?

Is it _____ that the color _____ water _____ of the _____?

_____ the _____ water _____ if there is a lot of _____?

_____ the _____ color _____ by the _____ of seditious _____?

_____ color of the water change _____ the Sediment _____?

_____ dirty deposits an _____ on _____?

_____ Tap _____ tint _____ by soil?

_____ color change as a result _____?

_____ it _____ that the _____ of taps are changed _____?

_____ water affect the tint of _____ are drinking?

_____ some _____ the _____ the _____ of the water _____ from?

_____ it _____ the _____ of _____ water changes _____ in which it is?

_____ colored with silt?

sediment _____ change _____ appearance _____ my _____?

Can the debris _____ the _____ the look _____ the _____ drink _____?

The _____ affected by _____ presence _____ seditious material

The tap _____ influenced _____.

Is _____ possible _____ the color _____ changes from time _____ because _____ silt deposited on _____?

_____ know how the water's color _____ by _____ in _____.

Is the _____ due to the _____ dirt in our _____ water?

Can the debris in _____ color _____ drink?

_____ it _____ color of _____ water _____ from _____ to time _____ to the sedimentation deposited on _____?

_____ color of our _____ by what _____ is deposited?

_____ the color _____ the water _____ the _____?

I _____ to _____ the _____ be affected by _____ deposits.

I _____ know how _____ color _____ changes with _____ use of sediment.

_____ to find _____ seditious _____ the water's color.

The amount of _____ in the _____ color of _____.

Does _____ Sediment change _____ our _____ water?

_____ of dirt _____ change _____ tap _____ color.

_____ it _____ that _____ color _____ the _____ water _____ depending on _____ amount of sedimentation _____.

Is _____ impacting _____ color?

_____ of the tap _____ influenced by _____.

Can _____ debris in _____ affect the _____ of _____?

Is _____ tap _____ changed because _____ Sediment?

_____ tap water color _____ to the _____.

_____ want to know _____ change _____ water's color.

_____ possible that _____ of the tap water _____ be _____ by _____ ?
 Can _____ debris _____ water _____ our tap water _____ ?
 Is it possible that the _____ of tap water varies _____ because _____ ?
 Can _____ of the debris in the _____ change _____ look _____ drink?
 The _____ color _____ affected by _____.
 _____ the _____ of my tap _____ influenced by _____ amount of _____ ?
 Is _____ changing _____ color?
 _____ dirty _____ affects tap _____ ?
 Is _____ the _____ of tap water changes as a _____ the _____ on _____.
 _____ of our _____ change _____ dirt _____ deposited _____ bodies of water?
 I want _____ water colors _____ be _____ the _____ of seditious materials.
 _____ the debris _____ the _____ change _____ tint _____ the _____ we _____ it?
 _____ color of my tap _____ influenced _____ the _____ of _____ in _____.
 Does _____ tap water _____ after _____ amount of _____ ?
 I _____ know if _____ water's color _____ affected _____ sediments.
 _____ the color _____ by the amount of _____ in it?
 _____ it possible _____ tap water _____ because of _____ soil in _____ it _____ ?
 Does _____ tap _____ change in color due _____ amount _____ ?
 _____ water color be _____ dirt?
 _____ color of my tap water _____ the amount of _____ ?
 Is _____ of the tap water affected _____ amount _____ in _____ ?
 _____ amount _____ in the _____ affect _____ color of the tap _____.
 I would _____ to _____ how _____ water color can _____ by the _____.
 Do _____ water colors change _____ dirt _____ deposition?
 Is there _____ possibility _____ color _____ the _____ is _____ by _____ sediments?
 I want _____ know if _____ color is _____ seditious _____.
 What about _____ impact of _____ on _____ ?
 Is _____ tap's _____ by _____ ?
 _____ to _____ how the water's color will _____ affected _____.
 Is the _____ the amount of _____ in the water.
 The amount _____ silt _____ the _____ may cause _____ tap _____ to _____.
 I _____ how seditious material affects the _____.
 The _____ sediments on _____ color?
 Is _____ of my _____ water _____ the _____ in it?
 Some debris _____ the water can change _____ the _____.
 _____ the tap water _____ changed by _____ amount _____ ?
 _____ want _____ learn _____ the _____ color _____ be affected _____ presence _____ seditious material.
 _____ the debris in _____ change _____ our water?
 _____ to _____ how seditious _____ the water's color.
 _____ is _____ that _____ of tap _____ affected _____ the soil in which _____.
 Is _____ the tap water _____ ?
 The water's color may be _____ of _____.
 Can _____ in _____ the tint of _____ that we are _____ ?
 Is _____ color _____ tap water influenced by _____ amount _____ ?
 _____ know how _____ material affects the _____ color
 The water's color _____ affected _____ presence _____ materials.
 _____ the debris in _____ water _____ a color?
 _____ it possible that _____ tap _____ change _____ of the soil?
 Is it possible that the _____ can _____ depending _____ of _____ in it?
 The _____ water's _____ change _____ is _____ in it.

_____ to _____ how _____ our _____ water changes through the use of _____.

I _____ to know _____ the water's color is _____.

_____ the _____ in the water affect _____ of _____ water?

Is _____ that _____ tap water can _____ due _____ sedimentation deposited on it?

_____ want to _____ color _____ water can be affected by _____.

I want _____ know how _____ color _____ be affected _____.

_____ possible _____ the _____ of _____ can _____ depending on _____ soil.

Was _____ tap's _____ affected by _____?

The tap color could _____.

I _____ to _____ how seditious substances _____ the _____.

Is it possible _____ is affected by the _____?

The color _____ tap water _____ to time due _____ soil.

Do _____ change _____ the silt in it?

_____ do dirty deposits _____ colors?

_____ to _____ seditious _____ can affect the water _____.

_____ want _____ know how _____ be changed by _____ presence _____ seditious substances.

Is _____ that the color of the tap _____ is _____?

Is it possible _____ the _____ water affects the _____ the _____?

_____ of _____ debris _____ change _____ shade of the water we _____ it?

Is _____ of my tap _____ the _____?

Can the _____ water change _____ water we are _____?

_____ possible that _____ color changes from time to _____ the soil?

_____ to know how the water's color _____ influenced _____.

_____ possible _____ the _____ of the _____ is affected _____ dirt in it?

_____ water's color can _____ by _____ presence of _____.

I want _____ how _____ water's color _____ affected _____ of _____ materials.

Does the _____ as _____ result of silt in _____?

_____ me how _____ color _____ our tap _____ due to the _____ sediment?

_____ has a _____ by silt.

Does the _____ change after _____ dirt _____?

I _____ the water _____ can be _____ by the presence _____ seditious _____.

Does _____ of our _____ change as _____ sediment?

What effect _____ have on the _____?

I _____ know how _____ water's color _____ affected _____ material.

_____ it possible that _____ color _____ water changes _____ because _____ the soil?

_____ there _____ deposits and their _____ on _____?

_____ tap _____ have an effect on _____ Sediment?

_____ it possible that the color _____ may change over _____ particles _____?

I want _____ effects _____ seditious materials _____ the _____ color.

_____ possible that _____ of tap water _____ the soil _____ deposited.

_____ the _____ color be _____ the _____ of seditious _____?

I want to _____ can be _____ by _____ materials.

_____ it _____ that _____ of tap _____ can _____ from time to _____ soil?

The impact _____ water _____?

_____ color _____ tap _____ by silt?

_____ want to know _____ the water's _____ seditious materials.

Does _____ affect _____ liquid _____?

What does _____ soil _____ to _____ hue?

Is _____ color of the _____ by the _____?

_____ want to know how _____ our _____ water _____ affected _____ use of _____.

Does _____ water color _____ Sediment is present?

_____ water may _____ time to _____ because of the soil _____ deposited
_____ Sediment _____ the color _____ water?

Does the _____ change when _____ silt in _____?

Does the color _____ the water change _____ the _____?

Can the _____ tap liquid _____?

Is the _____ the tap water _____?

_____ color of the _____ by _____ Sediment?

Dirty deposits _____ tap colors.

_____ it possible that _____ color _____ water changes over time _____ a _____ it?

I _____ wondering _____ color can be _____ by seditious _____.

_____ color _____ my _____ water may _____ by _____ of sediment _____ it.

Water color _____ by the impact _____.

On _____ hue, _____ impact _____ have?

Is it _____ in the _____ could affect _____ color _____ the tap _____?

_____ color _____ tap water _____ by sediment?

_____ to know how _____ water's _____ affected by seditious _____

_____ the _____ of _____ water change with _____ deposition?

Does the tap _____ color _____ a _____?

I _____ like to _____ the _____ color can _____ affected _____.

_____ the color of _____ source _____ by _____?

Can the _____ the _____ our _____?

_____ want _____ the _____ color changes _____ the _____ in it.

Can _____ of _____ the water change the _____ water we _____ from?

_____ the _____ affect _____ appearance _____ our tap _____?

Is _____ possible _____ the _____ the _____ changes because of _____ soil?

_____ in the water can _____ color of our _____ water.

Can _____ debris in the water _____ colors of _____ we _____?

Can _____ debris _____ tint _____ the water we _____?

Does _____ of our water _____ of sedimentation?

_____ tap liquid hue

Is _____ possible _____ the color _____ tap water _____ the _____ gets _____?

_____ color _____ our tap water _____ sediment?

_____ some _____ the _____ in the _____ the color of the _____ that _____?

_____ appearance of my _____ change _____ the Sediment?

Is our _____ silt?

I want to know _____ effects _____ material _____ the _____.

_____ it _____ the color of _____ may change from time to _____ because of _____ dirt _____?

_____ coloring _____ our _____ the deposition of dirt in our _____ water?

Does Sediment change _____ our _____?

_____ the color of my _____ water _____ the _____ in it?

_____ possible that _____ color _____ tap water changes _____ the soil _____.

_____ the color _____ tap water _____ deposition of dirt?

I want to _____ how _____ color _____ be affected _____

_____ debris _____ water _____ change _____ color of the water _____ are drinking.

_____ need _____ know how _____ of our _____ water _____ through _____ of sediment.

_____ tap water discolored _____ of _____?

Some of the debris _____ water can _____ of _____ water _____.

Is _____ color _____ by silt?

_____ that the _____ tap _____ may change from time to time _____ the sedimentation _____ it.

Is _____ the color of _____ water could change _____ time to _____ because _____ it?
 _____ might be influenced by _____.

_____ learn how the _____ by the presence of seditious materials.
 _____ debris _____ water color?
 _____ tap _____ of silt?

Some of the _____ water can _____ color of _____.

Will the _____ affect _____ of _____ liquid?

Is _____ of _____ tap _____ influenced _____ amount of soil?
 _____ it possible _____ color of _____ tap _____ changes over _____ to _____ soil?

Can _____ in the _____ color of _____ we drink?

Is the tap _____ affected _____?

Is _____ water _____ by _____ soil?

Can _____ alter the _____ liquid?
 _____ color can _____ presence of seditious materials.

I _____ to know how deposits _____ affect its _____.

I want to know the _____ on _____ water's _____.

It is possible _____ the _____ water _____ to the _____ soil.

I _____ to know _____ changes when _____ substances _____ present.
 _____ tap _____ color _____ during _____ of dirt?
 _____ color could _____ impacted _____ the impact of _____.

Is _____ possible that _____ of _____ water is _____ the _____ in _____?
 _____ the tap _____ change _____ there is _____ it?
 _____ to know if _____ can be affected _____ materials

Does _____ color change _____ is deposited?

_____ want to know how _____ water's colors _____ affected by _____.

I need _____ the water's _____ can _____ affected _____ sediments.

I want _____ if _____ can be changed by _____ it.
 _____ could _____ impacted _____ the _____ of sediments.

Is _____ possible _____ color _____ the _____ water changes _____ of the debris deposited _____ it?

Is _____ the _____ of our tap water _____ impacted _____?
 _____ silt change _____ of _____ water?
 _____ the _____ in the _____ appearance of the water _____ from _____?
 _____ water _____ change _____ result of Sediment?

I _____ seditious _____ affects the water color.

Is the tint of _____ changed by _____ debris _____?

Can _____ of _____ in _____ water _____ of our water?
 _____ want to know _____ seditious _____ can _____ color.
 _____ cause _____ tap's water color _____?
 _____ the _____ water color _____ to _____?
 _____ the debris _____ the _____ the _____ of _____ water we _____ it?
 _____ that the color _____ the tap _____ by the soil?

Is _____ possible that _____ the _____ change _____ tint _____ water we are _____?

Can the _____ in the _____ the _____ the _____ we _____?

Is _____ possible _____ the color of tap water _____ change from _____ to time _____ it?
 _____ it _____ the color _____ tap water can change _____ time _____ because of _____ it?

The _____ that's deposited _____ of tap water.

I want _____ if the _____ can be _____ by _____.

Can _____ color _____ tap water?
 _____ of the _____ might _____ due to _____ Sediment in _____.
 _____ to _____ how seditious _____ affect _____ water's color.

_____ deposits _____ tap _____?

Does debris _____ the _____ the _____ of the _____ we _____?

Can some _____ debris in _____ water _____ of water _____ are _____?

_____ possible _____ looks different because of sediments?

The _____ water _____ could _____ Sediment.

_____ amount of _____ in _____ may _____ its color.

Are _____ color _____ our _____ influenced _____ silt?

_____ to _____ the water's color _____ affected _____ seditious materials

_____ it possible that the _____ tap water can _____ of _____ deposited?

_____ of tap water could _____ time to _____ because _____ soil.

_____ some of the _____ in the water _____ water we _____.

_____ debris _____ the _____ the _____ of _____ water _____ we drink?

Does the _____ water _____ change _____?

_____ debris _____ to affect _____ our tap _____?

_____ want to know whether the _____ affected _____ material.

Was the color of _____?

Does _____ tap _____ color _____ to _____ silt _____ it.

Is it possible _____ color _____ the _____ can change _____ to time because _____ sedimentation?

Can some _____ the _____ in _____ water _____ the _____ of the _____ are _____?

_____ to know if _____ color of the _____ be affected _____.

_____ it _____ soil _____ the tap water color _____ change?

_____ is possible _____ color _____ the tap _____ affected _____ soil in which _____ is.

Can the _____ in the tap _____ color of _____?

_____ amount of _____ in the _____ might affect _____ tap _____.

_____ come _____ water's color _____ affected _____ sediments?

_____ some _____ the debris _____ the _____ appearance _____ our water?

Is _____ my water _____ by _____ debris?

Is _____ color of _____ influenced _____ the _____ sediment?

_____ like to _____ how _____ water's color _____ affected _____ the presence of _____.

I want to know _____ be affected by _____ presence of _____.

_____ impact of the _____ color?

_____ the _____ of Sediment on tap _____?

_____ of _____ in the _____ can affect the color _____ water we _____.

_____ color of the tap water?

_____ possible that _____ of _____ tap water is impacted _____?

I _____ like _____ how the _____ color _____ changed _____ of seditious substances.

Is it _____ that the _____ of _____ tap water can _____ the _____?

What impact _____ have _____ color?

_____ the color _____ our water _____ a _____ dirt being _____ in _____ bodies of _____?

Is the _____ water _____ by the _____ of _____ in _____?

_____ Sediment _____ water color?

_____ the _____ of _____ be influenced by _____?

_____ the tap water _____ related _____ amount of _____ it?

Can _____ the water debris change the _____ of _____?

_____ is _____ impact of _____ tap colors?

_____ possible that the color _____ tap _____ is _____ by the _____.

The color of _____ water _____ influenced by _____ of sediments _____.

Is _____ water _____ changed _____ to _____ of dirt?

_____ of _____ in _____ water may change _____ tint _____ the _____ we _____.

_____ the tap water color _____ according _____ of _____ in _____?

The water's _____ can be _____ the _____ material.
 Does the tap water _____ color _____ deposited?
 _____ to know _____ seditious _____ affect _____ water's hue.
 _____ to know how the water's color _____ be _____ in _____.
 I _____ to _____ the color of our _____ through _____ use of _____.
 Does the color of the _____ the _____ deposited?
 _____ hue _____ water changed _____ sediment?
 Is _____ color of _____ tap _____ sedimentation?
 I _____ to _____ how the water's _____ can _____ deposit.
 _____ want to know how _____ color _____ change _____ deposits.
 I want _____ know _____ the _____ seditious _____ can affect the _____.
 _____ the _____ affect how our _____?
 _____ are _____ impacts _____ dirty _____ on tap _____?
 The tap _____ color may change _____ to _____.
 _____ the color _____ influenced by _____?
 Can _____ tell me how the color _____ water _____ of _____ sediment?
 Is the _____ affected _____ presence _____ seditious substances?
 _____ the color _____ tap water _____ the amount of debris _____?
 Can _____ change _____ of _____ liquid?
 Is it _____ color of _____ is _____ by dirt?
 _____ tap _____ color _____ because of the _____ silt?
 _____ want _____ know whether _____ water's _____ can _____ presence of seditious substances.
 Is the _____ changed by sediment?
 _____ the _____ in _____ effect the tint _____ water?
 _____ possible _____ color of tap _____ change over _____ because _____ particles in it?
 _____ tap's _____ change _____ one deposit to _____?
 _____ debris _____ the water _____ the _____ of the _____ are drinking?
 _____ the _____ of my tap _____ the amount of _____ the _____.
 _____ in _____ appearance of the water we are drinking?
 Is _____ color _____ due _____ the silt in _____?
 _____ possible _____ tap water _____ as the soil is deposited.
 Is _____ of our water _____?
 _____ the tap _____ by silt.
 Some _____ the debris _____ can _____ the color _____ water we drink _____.
 _____ possible _____ of the tap _____ changes _____ because of the _____ in it?
 Is it possible _____ color _____ water is _____ by _____?
 There _____ a question as to whether the _____ water is _____.
 _____ want _____ whether _____ water's _____ be _____ by the deposits.
 Does the _____ tap water _____ result of _____?
 Is the _____ our tap _____ silt?
 _____ color _____ water _____ from time _____ time _____ of the soil.
 _____ the _____ the _____ of debris in the water?
 _____ debris alter _____ of _____ liquid?
 _____ a question about how _____ water's _____ affected by _____ materials.
 the water's color _____ presence of seditious _____
 _____ affect tap _____.
 _____ the appearance _____ my water _____ Sediment?
 Some of the debris can _____ the _____ drink _____.
 The _____ water _____ to dirt.
 _____ tap water color _____ of the _____?

Can _____ change _____ tap _____ ?

I _____ like _____ how the _____ color can _____ by _____.

_____ the tap _____ change _____ a result _____ in it?

_____ the tap _____ affected by _____ ?

Is it possible _____ can change _____ tint _____ the water?

Can _____ the look _____ water?

_____ affect _____ tint of _____ tap _____ ?

_____ want to know how the _____ color can be _____ presence _____.

Is _____ that dirt _____ change _____ color of _____ water?

_____ color _____ tap water could change from _____ time _____ of _____ soil _____ which _____.

Is the _____ by _____ sediment?

_____ possible that _____ color of _____ on the soil in _____?

_____ water color change _____ the dirt is _____?

Is _____ hue _____ water changed by _____ sediment?

Some _____ the _____ the _____ can _____ of the water we are _____.

Some of _____ debris _____ the _____ can _____ the _____ we drink _____ it.

Can _____ the _____ the _____ our tap water?

Is _____ tap's _____ by _____?

Is the _____ of _____ tap _____ how much _____ in it?

What _____ it _____ that the _____ of _____ changed by sedimentation?

_____ is possible _____ of _____ tap water could _____ the soil.

_____ want _____ how seditious material can affect _____.

Is the color _____ my tap _____ by the _____?

_____ some of the _____ water _____ color of _____ water?

I _____ to _____ how seditious _____ affect the _____.

Is the color of my _____ much sediment _____?

Does the _____ water change _____ deposition of _____ our _____ of water?

_____ of my water change _____ to _____?

Does _____ tap _____ color _____ the debris?

_____ water _____ due _____ dirt?

_____ debris _____ water _____ the tint of the _____ drink?

Do you know _____ the _____ our tap _____ by _____?

The _____ water _____ can change _____.

_____ tint _____ the tap water could _____ by _____.

How _____ dirty _____ colors?

_____ the _____ dirty deposits _____ colors?

_____ dirt _____ tap _____ color?

What _____ mean _____ tap water _____ is changed by _____?

Is _____ color of _____ water _____ because _____ of dirt?

I want to _____ is affected by _____.

Does _____ tap water _____ due _____?

_____ the impact on tap _____ soil?

_____ the _____ in the _____ the _____ of the water _____ drink?

Does _____ tap _____ as a result of _____?

Is the impact on _____ deposits?

Is _____ tap water color _____ amount of _____ in _____.

Does _____ tap _____ due _____ the amount _____ silt?

_____ know how seditious substances can affect _____ color.

_____ know _____ the color _____ our tap water _____ of the _____ of _____.

_____ the _____ water have _____ change _____ due to _____ in it?

Can some _____ water affect our water _____?

_____ the debris in the _____ affect the tint _____ drink?

_____ color _____ tap _____ from time _____ time because of _____ soil _____ deposited.

_____ would _____ to know how seditious _____ water's _____.

_____ of our tap water _____ a _____ of deposit?

_____ know if _____ color can be _____ by _____ material.

Is the tap _____ to _____?

_____ tap water _____ might _____ sedimentation.

Dirty _____ colors.

_____ some of the _____ the _____ affect the _____?

It's possible _____ of _____ change depending on _____ soil that's _____.

_____ the _____ in _____ change the tint _____ our drinking water?

_____ impact of the _____ water _____?

_____ the _____ my _____ influenced by _____ of deposits _____ the water?

_____ change the tint of _____ water _____ drinking?

_____ tap's color _____ by _____?
