

[Demo] NLP Dataset for Customer Service Automation

Company Type	Online Electronics and Technology Retailers
Inquiry Category	Privacy and security concerns
Inquiry Sub-Category	Encryption technology
Description	Customers inquire about the retailer's use of encryption to secure their data during online transactions, seeking assurance of secure transmission and storage of sensitive information.
Data Size	6,031 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Online Electronics and Technology Retailer" customer inquiry. (Purchased data will not be masked.)

What measures are taken _____ safeguard against _____ attempts _____ storage _____ details _____ be kept?

_____ are the actions taken _____ hacker attempts _____ into _____ databases?

What precautions are _____ to _____ our _____ data _____?

_____ do we _____ our private _____ from _____?

_____ enough protection _____ in _____ to _____ storage _____ repositories of _____ information?

_____ is _____ done to _____ against _____ attempts into _____ databases that _____ our _____?

What are the _____ to keep hackers out _____?

_____ an _____ to _____ private _____ on the _____ server?

_____ are the _____ server _____ keep our data.

_____ private _____ may be kept, what _____ to protect us _____ hacking _____?

_____ procedures in place _____ protecting storage server _____?

How do you protect _____?

How secure is _____ storage server _____ holds _____?

Is _____ to _____ hacks at _____ server repositories _____ private information?

_____ security _____ our stored personal _____?

_____ are in place _____ data?

Where our private details may _____ measures _____ to protect _____ from _____?

Do _____ to prevent _____ breeches _____ our data?

Do there exist _____ deal _____ cybersecurity _____ our _____?

What _____ are _____ to prevent _____ on _____?

I would _____ to _____ the security protocols _____ information _____ within _____ server.

How are _____ the storage server _____ we _____ our _____ information?

I'm curious _____ security _____ followed for _____ information _____ your storage _____.

_____ servers protected from _____ hacked?

_____ would _____ to _____ about the security _____ personal information _____ on your _____?

_____ are you _____ keep hackers away from _____?

_____ is _____ security of _____ storage _____ stores _____ information?

_____ procedures exist _____ protect _____ server _____?

How do ____ preserve our ____ ____ ?

____ do you defend ____ data server ____ ____ ?

____ are we ____ to ____ our ____ hacking?

____ there ____ measures to deal with cybersecurity ____ our ____ storage ____ ?

____ precautions taken ____ prevent the hacking of ____

What are the ____ being ____ out of ____ information?

____ protect ourselves ____ hacking ____ the storage server?

How ____ protecting against hacking attempts ____ server?

____ specific security measures exist to protect ____ is kept?

Are there ____ in place ____ protect ____ at ____ level?

What is being ____ against hacker attempts into ____ particulars?

____ protection ____ potential ____ of sensitive ____ repositories?

____ in place ____ prevent hacking attacks on ____ private ____?

Are ____ you ____ do ____ prevent hackers ____ accessing our ____ ?

____ precautions protect ____ in ____ ?

I ____ like to ____ the security ____ followed ____ my personal ____ hosted ____ storage ____.

How ____ we protected against ____ the ____?

____ personal information ____ held, are there ____ to prevent hacking?

What ____ you do ____ keep ____ from ____ data?

Do ____ exist ____ keep sensitive data ____ of ____ of ____?

____ unauthorized access to ____ information are implemented?

____ there any measures ____ kept on the storage ____?

____ to ____ about the security ____ for protecting ____ on ____ storage server.

How ____ you ____ sure ____ data ____ is ____ unauthorized entry?

Is ____ possible ____ hackers from ____ private ____ in ____ server?

____ there a way ____ the ____ of ____ where our ____ is held?

How do ____ protect ____ against hacking attempts on ____ storage ____ where our ____ ?

Is the storage ____ our private ____?

What ____ taken to ____ hacks ____ information server?

Do ____ in ____ to prevent hackers ____ viewing ____ private ____?

____ are the steps being ____ stop ____ accessing my ____?

What can ____ to protect ____ hacking?

Can you confirm the ____ been put in ____ to prevent hackers from ____ ?

____ hack ____ techniques ____ in securing ____ with confidential ____?

____ are ____ place ____ keep ____ data ____?

What are the ____ prevent hacking ____ the storage ____?

____ precautions ____ taken to prevent ____ attacks ____ private ____?

____ you have measures ____ place ____ protect ____ on ____ server?

Is there enough ____ in ____ counteract hacks targeting ____ of private ____?

How ____ you ____ to ____ data?

How do ____ keep unauthorized ____ out ____ the ____?

Protect ____ storage ____ hacking?

____ we protect the ____ of ____ on the server?

____ actions ____ taken to ____ away from ____ data?

Is there ____ way ____ protect ____ data on ____?

____ to protect ____ from ____ attempts?

How ____ is ____ server that ____ information?

____ the safeguards to protect private ____ storage ____?

____ do ____ make sure our data ____ protected ____ ?

____ measures implemented ____ stop unauthorized ____ to stored ____?

_____ there _____ taken to protect _____ your storage _____?
 Can _____ me about _____ security measures _____ keep hackers out _____ our private _____?
 _____ work for securing _____ with confidential data?
 _____ taking steps to protect _____ on your _____?
 _____ security measures protect _____ server _____ being _____?
 How _____ are the storage _____ private _____ on?
 Is _____ protection _____ intrusion _____ data repositories?
 How can _____ prevent hackers _____ storing _____ data?
 How _____ on the server _____?
 _____ there _____ to protect the data _____ server against _____?
 Storage servers _____ data and _____ do you _____?
 How secure _____ storage _____ for _____?
 Is _____ protection against hacks at storage _____ of _____?
 _____ be procedures in _____ safeguard _____ server confidentiality?
 _____ there _____ precautions taken _____ of a storage server?
 _____ safeguard private _____ in _____?
 _____ steps are _____ to _____ against hacking attempts on _____ storage _____ where _____ be kept?
 _____ is the protection _____ the storage _____?
 _____ server _____ attempts prevent?
 What can you do _____ keep _____ gaining _____ user _____?
 How _____ on _____ server protected?
 What are you _____ keep hackers from _____ access _____?
 _____ there protection against _____ potential _____ of sensitive _____?
 There _____ data hacks on the _____?
 _____ are in place _____ make _____ safe _____ hackers.
 Can there be _____ to _____ our _____ information?
 Does _____ exist to _____ potential hacks at storage _____ repositories _____?
 _____ are the _____ taken to _____ hacking _____ storage _____?
 How do _____ make _____ the _____ is _____ compromised by _____?
 Is there a _____ to _____ the _____ server _____ our _____ information is _____?
 _____ done _____ keep our _____ safe _____ attackers?
 Is there _____ way to _____ target _____ kept _____ storage server?
 _____ that can _____ done to _____ cyberattacks targeting _____ sensitive data _____ server?
 What _____ are being taken to _____ penetrate _____ our personal particulars?
 Is the _____ stores our private _____?
 Protect _____ data _____ server
 Which security measures _____ storage server _____?
 _____ we prevent hackers _____ of personal records _____ on _____ server?
 The storage _____ our _____ held _____ have _____ in place to prevent _____.
 _____ can _____ do _____ our _____ from the hackers?
 _____ there _____ protection _____ potential hacks _____ storage server _____ private information?
 _____ procedures in place _____ protect _____ confidentiality of _____
 _____ anything _____ can _____ to tackle cyberattacks _____ our _____ data kept _____ server?
 _____ can we _____ being hacked in storage?
 _____ should _____ do to keep _____ away _____ data?
 _____ do you _____ your _____ server _____ entry?
 Measures to fight _____ hacks _____?
 Is _____ our private information secure?
 I _____ know _____ security protocols followed for _____ on _____ server.
 Will hacking _____ securing storage _____ with _____ data?

____ can ____ protect against hackers targeting ____ server ____ ____ ?
 ____ ____ do to keep ____ data ____ ?
 ____ be used ____ ____ access to stored information?
 I ____ ____ protocols for protecting personal ____ hosted within ____ storage ____ .
 I ____ ____ to know about the ____ protocols ____ for personal ____ ____ ____ server.
 ____ ____ ____ data from hackers?
 ____ want to know ____ the ____ ____ for ____ personal information ____ ____ your storage ____ .
 ____ would ____ to know ____ security protocols ____ for ____ ____ information hosted within your ____ ____ .
 ____ ____ are used to guard ____ hacks ____ ____ server?
 Is ____ ____ protection against ____ ____ data repositories?
 How can ____ ____ hacking ____ ____ stopped?
 ____ ____ ____ our private information from ____ ?
 There ____ ____ attempts ____ hack ____ the storage ____ where our private ____ ____ ____ .
 I need to know ____ ____ protocols followed for guarding ____ ____ hosted ____ ____ ____ .
 ____ the server that holds ____ information ____ protected ____ ____ ?
 ____ actions ____ being taken ____ defend ____ ____ attempts into ____ databases storing ____ ____ particulars?
 Is it ____ to defend ____ ____ attempts ____ ____ databases ____ our ____ particulars?
 Is the personal ____ we ____ ____ these ____ ____ hackers?
 What ____ are ____ to protect against ____ ____ ____ server?
 Are the hacking prevention techniques ____ at ____ ____ server ____ ____ ____ ?
 ____ we ____ that ____ confidentiality ____ personal records on ____ server is ____ ____ by ____ ?
 From ____ ____ ____ you ____ your data?
 The ____ ____ where our personal ____ ____ held ____ ____ certain security measures ____ ____ .
 ____ server ____ should be secured ____ ____ ____ .
 ____ you tell ____ about ____ ____ ____ are followed for ____ information ____ ____ your storage server?
 Is there ____ ____ ____ place to prevent ____ ____ the storage ____ ?
 Does your server have measures in ____ ____ prevent ____ from ____ ____ ____ ?
 ____ there enough protection ____ ____ ____ ____ at storage server repositories of ____ information?
 What do ____ ____ to make ____ that ____ confidentiality of ____ records ____ ____ server ____ ____ compromised?
 ____ the ____ ____ on these ____ protected from ____ ?
 Private ____ in storage ____ is ____ ____ what ____ ?
 Is ____ any attempt ____ prevent ____ from ____ our ____ ____ ?
 ____ actions do ____ take ____ ____ ____ out of user ____ ?
 I would ____ to ____ if ____ ____ security ____ for guarding personal information hosted ____ your ____ ____ .
 How ____ we guard ____ ____ on private ____ ____ ?
 What ____ ____ to prevent hacks ____ the ____ ____ where ____ private information ____ be ____ ?
 ____ do ____ make sure that personal ____ ____ not ____ ____ hackers?
 How ____ are the ____ ____ ____ keep our ____ data?
 ____ safe are the storage server ____ ____ ____ ?
 There ____ attempts to ____ the ____ ____ ____ private information ____ kept.
 There are ____ ____ ____ server hacking.
 ____ ____ you ____ ____ information ____ hacking attempts?
 ____ ____ to know ____ ____ ____ protecting my ____ information on your storage server.
 Is ____ ____ effort to ____ private data ____ ____ ____ server?
 ____ ____ we stop the invasion ____ our privacy ____ ____ ?
 How do we ____ ____ that the ____ ____ ____ stored on the ____ ____ ____ compromised?
 ____ actions ____ taking to keep hackers away ____ user ____ ?
 Is ____ ____ ____ hacking ____ our private information in ____ ?
 Do ____ have measures in ____ to prevent ____ ____ ____ the private ____ ____ ____ server?
 Do ____ exist ____ ____ ____ targeting ____ sensitive data on storage ____ ?

Do there _____ our sensitive data _____?

_____ enough protection _____ counteract hacks at storage _____ private _____?

How _____ we make sure _____ confidentiality of _____ records stored _____ server is _____ hackers?

Do hacking prevention _____ storage server _____ data?

What _____ of the _____ server _____ our private data?

_____ you _____ in place _____ hackers from _____ our private _____?

_____ are efforts to _____ private _____ on _____ storage _____.

_____ private information from being hacked?

_____ there _____ precautions in place _____ our private information?

_____ you _____ any _____ in place _____ keep _____ accessing _____ private information?

What _____ you _____ to keep hackers _____ of your _____?

_____ we _____ sure _____ personal _____ on the server is not jeopardized?

What actions are being _____ against hacker _____ into _____ that _____ our _____?

What _____ the _____ to _____ against _____ on private _____ server?

What _____ done _____ hacking _____ on the storage _____ where our _____ are kept?

_____ to secure storage server _____

I need _____ the security _____ information hosted on _____ server.

How should _____ protect the _____ server _____?

What _____ done _____ hacks _____ the server?

How _____ storage _____ protected against _____?

_____ need _____ the security protocols followed _____ information _____ within your _____ server _____ followed.

Is _____ protection in place _____ counteract _____ repository of private information?

_____ tell me about the security _____ that _____ taken to _____?

_____ you _____ preventative steps _____ safeguard our _____ your _____ server?

_____ the actions taken _____ private information server?

Measures should be _____ server.

_____ secure _____ storage server where you keep _____?

Is _____ precautions _____ prevent _____ server from _____ hacked?

_____ taken _____ prevent _____ storage server from _____ hacked?

Is there _____ place _____ protect _____ from hackers?

Are you _____ action _____ defend against _____ to _____ into _____?

I _____ like to _____ security protocols _____ information hosted on your _____.

Is there _____ protection _____ intrusion _____ data _____?

I would _____ know _____ protocols followed for protecting _____ inside your storage _____.

_____ would like _____ security _____ followed for personal information hosted on _____.

Is _____ storage server that _____ information _____?

What _____ actions that _____ taken _____ protect _____ server?

Do we have precautions in _____ to _____?

Does the _____ server _____ kept have _____ security measures in place _____ hacking?

What actions are _____ defend _____ infiltration attempts _____ secure databases _____ particulars?

_____ you tell _____ the _____ put in place to _____ data?

How _____ storage servers _____ hacks?

Is _____ way _____ prevent _____ from _____ my _____ information?

_____ confidential information _____ protected _____ threats when stored within _____ server _____?

_____ a _____ to protect the _____ where we hold our _____?

How _____ the hacking into _____?

What _____ you do to keep _____ away _____ data?

What are the _____ prevent _____ the _____ where _____ private _____ is kept?

_____ the _____ server protected _____ attacks?

_____ done to _____ private data on storage _____

_____ there _____ to _____ hacking _____ storage server where our personal _____ is _____?
 Are _____ place to _____ unauthorized _____ to stored information?
 Can you _____ about the _____ have been put _____ place to _____ to our _____?
 How do we keep personal _____ by _____?
 How do _____ our _____ from being _____?
 _____ there anything in _____ to protect _____ from _____?
 _____ are _____ that hold _____ private information?
 _____ you tell me _____ prevent _____ from _____ our private information?
 _____ there anything being _____ hacking _____ the storage _____?
 _____ there _____ in _____ protect storage _____ confidentiality?
 Can the _____ safeguarded against _____?
 _____ there _____ for private information _____ the _____?
 _____ we _____ from _____ on the storage _____?
 What _____ actions _____ to protect our databases _____ intrusions?
 What can be done _____ private _____ servers?
 Can _____ server that stores _____ details from _____?
 _____ are _____ going to _____ our data _____?
 Can _____ let _____ about the security _____ information hosted _____ storage server?
 _____ it possible to protect _____ the _____ storing _____ details?
 _____ secure _____ storage server _____ our information?
 The _____ where our personal _____ is held _____ certain _____ in _____.
 Are _____ any _____ prevent hacking of our _____?
 _____ there exist _____ sensitive _____ on storage server?
 Are security _____ put _____ place _____ stored _____?
 _____ measures to _____ unauthorized access _____ our private _____?
 Do _____ measures _____ hackers _____ the _____ server?
 _____ are _____ storage server _____ stores our _____?
 What are the _____ against _____ attempts to _____ into our private _____?
 Is there protection _____ the _____ of _____?
 _____ there _____ in _____ to _____ the _____ server _____ hacking?
 _____ secure are _____ server _____ store _____?
 _____ exist _____ keep _____ out of the hands _____ criminals?
 How _____ the storage _____ keep our data?
 _____ secure is the storage _____ we _____ our _____?
 _____ security measures taken _____ protect _____?
 Does your _____ place to _____ from _____ our private info?
 _____ measures _____ fight cyberattacks _____ our _____ on storage server?
 _____ can _____ make sure _____ the confidentiality of _____ records _____ server is _____?
 What _____ protect the storage _____ hacking attempts?
 _____ are _____ to protect private data _____.
 There _____ procedures _____ can be used to _____.
 Are _____ hacking _____ techniques _____ securing storage _____ confidential data?
 Are _____ in place to _____ server _____ of private information?
 _____ the storage server's _____ against _____?
 Do _____ precautionary action _____ are attempts to _____ data?
 _____ hacking prevention _____ effective _____ securing _____ server with _____?
 How _____ the _____ our storage?
 Do you have _____ place to _____ our private _____ against _____?
 _____ we do _____ protect _____ data _____ attackers?
 Should _____ techniques be _____ securing storage server with _____?

_____ you _____ us about _____ safeguards you have in _____ data?
 I _____ the security _____ used for guarding personal _____ hosted _____ storage _____.
 _____ can _____ to make _____ that _____ confidentiality _____ the records on _____ server is _____?
 Is there adequate _____ for our _____ information _____?
 _____ against the potential intrusion of _____ repositories?
 _____ an attempt to protect private _____ on _____?
 Is there _____ put _____ prevent _____ at storage server _____ of private _____?
 _____ are used _____ private _____ in storage?
 _____ tell _____ security _____ have _____ taken _____ protect our private information?
 _____ would _____ about the _____ followed for _____ information hosted _____ your _____ server
 _____ there be _____ in _____ to _____ of _____ information?
 _____ from _____ on storage server?
 _____ have measures in _____ to keep _____ of _____ server?
 What can be _____ to _____ sensitive _____?
 I _____ like to know what _____ followed _____ personal _____ within _____ server.
 _____ safeguards can _____ place to _____ private data?
 What _____ the actions taken _____ against _____ on _____ private _____?
 _____ guard _____ on private information server?
 Is _____ a way to prevent _____ from _____ storage _____ is held?
 Do _____ exist _____ to _____ cyberattacks targeting _____ sensitive _____ kept _____ storage _____?
 Does the _____ where _____ held have _____ in place to _____ hacking?
 Could you _____ us about _____ implemented _____ private data?
 Is there enough _____ in _____ to _____ hacks _____ storage _____ repository _____ private _____?
 _____ measures _____ storage _____ from hackers?
 _____ there _____ in _____ protect our private information from _____?
 _____ do we _____ that _____ private information is _____ hacking?
 How secure _____ the _____ that _____ information?
 Is _____ protection in place to _____ hacks of storage _____?
 _____ to prevent hackers from _____ our _____ information?
 Are there _____ efforts _____ private _____ the storage _____?
 _____ there anything that _____ be _____ to protect _____ data on _____?
 How can we _____ personal _____ on _____ server is _____ compromised?
 How do we keep _____ the hands _____?
 _____ do _____ do _____ private data _____ being hacked?
 _____ want _____ security protocols _____ for _____ information hosted on _____ server.
 How _____ you guard the _____ server _____?
 _____ does _____ to keep _____ safe from hackers?
 _____ may be kept, what _____ taken to protect against _____?
 How _____ we _____ ourselves _____ on _____ server?
 _____ protect the _____ from hackers?
 _____ protect _____ server from hacking _____?
 _____ there _____ prevent _____ of a storage server?
 _____ be _____ taken _____ of the storage server.
 Can you tell me if _____ measures _____ prevent _____ from _____ our data are _____ place?
 What are the _____ to stop hacker attempts to _____?
 Is _____ potential intrusion _____ sensitive data repositories?
 _____ do you make sure that _____ data _____ entry?
 Is _____ enough protection in place _____ hacks _____ server _____ information.
 What _____ taken _____ guard against hacks _____ informationservers?
 _____ the _____ protected against _____?

____ you have ____ measures ____ data hacks ____ the ____?
 ____ security measures that ____ be taken to ____ hacking of ____ storage server ____ personal ____ held.
 Do procedures exist ____ server ____?
 How do ____ prevent ____ from ____ hacked on ____?
 What ____ actions being ____ to ____ against hacker ____ secure databases?
 Do ____ measures to ____ targeting ____ sensitive data kept on ____?
 ____ I ____ my confidential ____ protected ____ cyber threats while ____ in your server infrastructure?
 How ____ keep personal records ____ being ____ hackers?
 How do you ____ information ____ server?
 ____ effective for securing ____ with confidential data?
 I am ____ about the security ____ guarding ____ information ____ your ____ server.
 The ____ server where our personal information ____ specific ____ in place ____ prevent ____.
 How ____ make ____ personal records on the server ____?
 ____ actions are ____ taken ____ hacker attempts ____ hack into secure ____?
 What ____ are put ____ place ____ data?
 ____ can ____ sure ____ records on ____ aren't ____ by hackers?
 What ____ measures are ____ to ____ server from hacking?
 Is there ____ against potential ____ sensitive data ____?
 How do you protect personal ____ on ____?
 What ____ you ____ to ____ hackers from accessing ____?
 ____ there exist ____ to ____ cyber ____ our data?
 Measures to ____ storage server ____
 How ____ you ____ the private ____ the ____ server?
 Do ____ measures prevent ____ server from ____?
 Can we ____ server where our ____ is ____ is secure?
 How ____ we ____ information ____ from hacking?
 What ____ are ____ to protect ____?
 Are ____ put ____ to counteract ____ storage ____ repositories of private information?
 ____ taking precautionary ____ defend against ____ to ____ your data?
 Is there enough ____ in ____ counteract ____ hacks ____ server repository ____ information?
 ____ there ____ attempt ____ information on storage server?
 ____ there ____ to prevent ____ storage server?
 What ____ be ____ protect ____ in storage?
 ____ are being taken ____ hacker ____ attempts ____ secure databases?
 There ____ to ____ hackers targeting the ____ our details.
 ____ are attempts ____ server ____ our private ____ may be kept.
 ____ can ____ stop the hacking ____ stuff?
 Do specific ____ measures ____ protect ____ storage server where ____ held?
 ____ safeguards are put ____ to keep ____ data ____?
 Is ____ implemented ____ unauthorized access ____ stored ____?
 How ____ you ____ unauthorized access ____ server?
 What ____ keep hackers away from user ____?
 measures against ____ hacks ____?
 Is ____ techniques effective ____ securing storage ____ confidential ____?
 Do measures ____ to tackle ____?
 Is ____ plan ____ to ____ attacks on our ____ information?
 ____ there ____ protection ____ of data repositories?
 Do you have ____ in ____ protect ____ at the ____?
 Do you have measures ____ that ____ private particulars ____?
 Should actions ____ to ____ against hacks ____ private ____?

_____ there anything _____ done _____ keep _____ accessing _____ information?

_____ be _____ to prevent the _____ of the _____ server.

How can _____ sensitive user data?

_____ can _____ prevent _____ into _____ storage?

_____ secure _____ the storage _____ you keep our _____?

Is _____ any _____ against potential _____ of _____ repositories?

How do you protect _____ info _____?

_____ our _____ be kept, _____ measures _____ taken to prevent _____ attempts?

Do _____ have explicit measures _____ our private particulars _____ on _____?

_____ the _____ server safeguarded against _____?

I'd like to _____ about _____ protocols _____ personal _____ hosted within _____ server.

Measures _____ from hacks?

How do _____ from being hacked?

_____ there _____ protection implemented _____ counteract hacks targeting _____ of private _____?

The storage server _____ our _____ is _____ has _____ measures _____.

_____ done to protect _____ storage server _____ hacking _____?

What _____ the safeguards _____ private _____?

What do _____ do _____ guard _____ on _____ information _____?

_____ actions _____ to _____ against hacks on _____ server.

_____ server _____ attempts stopped?

Is there _____ put _____ place _____ counteract _____ at _____ of private information?

Are _____ personal _____ adequately _____ hackers?

What are the actions _____ are taken to _____ server?

Do you _____ make _____ our private particulars are _____ hacking attempts?

Is _____ any _____ to _____ storage server where _____ information _____ held _____?

_____ secure _____ information _____ on the server?

_____ do _____ stop hacking _____ our _____?

Can we ensure that _____ confidentiality of personal _____ not _____?

What _____ to guard _____ hacks _____ private information?

What _____ measures _____ server _____ hacking attempts?

Could you _____ us _____ the safeguards _____ place _____ protect our _____?

What's _____ done _____ stop _____ my private information?

_____ there _____ protect our private info _____ server level?

When our _____ is _____ on _____ what precautions _____ taken _____ protect it?

Do _____ exist measures to _____ target _____ sensitive _____?

_____ the safeguards _____ protecting private data _____?

_____ we _____ sure that the confidentiality of _____ is not compromised?

Is it _____ for _____ keep our private _____ on _____?

Do you _____ measures _____ hacks on the _____?

_____ is _____ the _____ from being hacked?

_____ in place _____ protect storage server _____?

Do _____ exist _____ keep _____ from cyberattacks?

I _____ know about _____ are _____ for _____ information hosted on your storage server.

Is there any protection _____ intrusion _____ the _____?

hacking _____ info _____ storage

Can you _____ measures that _____ put _____ to _____ hackers _____ of our private details?

_____ the _____ techniques effective _____ securing storage _____ with confidential _____?

Is there _____ protection _____ stop _____ at _____ server repository _____ private _____?

_____ procedures _____ used to safeguard _____?

_____ need _____ protocols followed _____ protecting _____ information hosted _____ your storage server.

The storage _____ personal information is _____ potential _____ for hacking.
 Do there precautions _____ prevent _____ storage server?
 What _____ taken to _____ us from _____ on _____ storage _____?
 What are the _____ you _____ to prevent _____ accessing _____ information?
 Do we have _____ deal with _____ our _____?
 How _____ we _____ hacking _____?
 Do _____ measures in place _____ prevent hackers _____ accessing _____?
 _____ might _____ procedures in _____ protect storage server _____.
 How secure _____ the _____ server _____ our _____?
 _____ there _____ to deal with _____ on our _____?
 Is _____ protection against _____ intrusion _____ data repositories?
 _____ to _____ server confidentiality?
 _____ tell us about _____ safeguards _____ private _____ on _____ server?
 _____ you have _____ to keep _____ accessing _____ private _____?
 What are _____ safeguards _____ private _____ server?
 _____ actions _____ you _____ to keep hackers _____ from _____?
 Any _____ protect storage _____ attempts?
 _____ can _____ keep _____ away from _____ user data?
 What _____ taken to fight against _____ on _____?
 How _____ hacker _____ stopped?
 _____ there a _____ the hacking _____ storage server?
 _____ measures _____ implemented _____ prevent unauthorized access to _____
 _____ confirm _____ measures taken _____ keep _____ out of our private _____?
 How _____ we protected _____ hacks _____ server?
 Is _____ any _____ hacks on the _____?
 _____ do you _____ our private info?
 Do there exist _____ stop cybersecurity _____ targeting _____?
 There are certain _____ measures _____ to protect the _____ information _____ held.
 Can you _____ security _____ that _____ been _____ place to keep _____ out _____ our _____?
 What _____ taken to _____ on _____ server?
 What _____ to _____ against hacking on the storage _____?
 What _____ to _____ away from data?
 Do _____ prevention techniques _____ work _____ storage server _____ confidential _____?
 Should precautions _____ taken to _____ the _____ server?
 _____ data in storage _____.
 Do you _____ measures in place _____ private particulars _____ on _____ against _____ hacking _____?
 _____ like _____ protocols _____ information hosted on your storage server.
 Is _____ taken _____ of the storage server?
 _____ action _____ to defend against hacker _____ into _____ databases?
 _____ be _____ that my confidential information will be _____ from cyber _____ while _____ your _____?
 Is _____ enough protection _____ to prevent potential _____ at _____ of private _____?
 _____ are you _____ keep hacker's _____ from user _____?
 How are the storageservers _____?
 How _____ we _____ hack _____ storage _____ where our private information _____ kept?
 I _____ to know _____ the security protocols _____ personal _____ storage server.
 Do your safeguards _____ our _____ the server _____?
 I would _____ to _____ about _____ security protocols followed for personal information _____ server.
 _____ any way to _____ hackers _____ targeting the _____ data?
 What _____ be _____ to _____ hackers _____ gaining _____ my private _____?
 Is there _____ in place _____ safeguard _____ server _____?

How ____ do the storage ____ private ____?

How ____ nobody gets into ____ data server?

What ____ the ____ being taken ____ stop ____ from accessing ____?

What actions can ____ to ____ away ____ data?

I need to ____ the ____ for protecting personal ____ your ____.

____ there ____ way ____ protect ____ server storing ____ information?

____ storageservers protected from ____ incidents?

What ____ we doing to ____ from ____ hacked?

How do we make ____ from hacking?

____ actions are ____ hacks on ____ information server?

There are ____ server ____ our details.

How ____ the ____ server ____?

____ being ____ to keep hackers ____ of ____?

Is there precautions ____ the ____ server from ____?

What can ____ ensure the confidentiality ____ personal records ____ the ____?

____ are storage server ____?

____ ensure ____ there ____ no unauthorized entry ____ the ____ server?

What are ____ steps ____ taken to ____ hackers ____ information?

Is my ____ information safe from cyber ____ when ____?

____ counteract ____ hacks on ____ server ____?

Can you ____ me ____ security ____ that ____ been ____ to ____ our ____ information?

Is hacking ____ techniques ____ with confidential data

How ____ unauthorized entry ____ your ____ server?

How can ____ make ____ the ____ server ____ not compromised by ____?

____ we stop the hacking ____ private info ____?

Is ____ confidential ____ safe ____ cyber ____ in your server ____?

____ prevent unauthorized ____ to ____ data?

____ secure is the ____ where ____ keep our ____?

____ there exist ____ to protect sensitive data ____

Is ____ safe from ____ threats when ____ within ____ infrastructure?

____ actions are ____ to ____ against hacking ____ information ____?

____ techniques ____ securing ____ server ____ confidential data work?

Do you ____ action ____ defend against attempts to ____?

____ private ____ in storage server?

Do you take ____ steps to ____?

Are steps ____ to protect the ____ on ____?

What ____ be done to ____ hacking attempts?

Do you have ____ to prevent ____ accessing ____ private ____?

What actions ____ used to ____ private ____ server ____?

____ preventative steps taken ____ protect our ____ data?

There ____ be precautions ____ to ____ hacking ____ the ____ server.

____ the ____ we have ____ server protected from ____?

____ is the storage ____ where ____ our ____ data?

Do ____ exist measures to ____ data ____?

What ____ the ____ of ____ server where ____ keep ____ data?

____ want ____ the ____ protocols for ____ information hosted within your ____.

____ you ____ us about ____ that are ____ in place ____ private data?

There are ____ prevention ____ used ____ server

____ the steps ____ taken ____ hackers from accessing my ____?

____ is ____ server where ____ keep our ____ data?

Does your storage ____ hold ____ data ____ safe ____?

____ keep hackers away ____ server?

How can we ensure ____ are not ____ by hackers?

What ____ the ____ taken to protect ____ hacks ____ information ____?

What ____ steps ____ taken ____ to my private information?

Is ____ a way ____ the ____ our ____ from hackers?

____ want to know about ____ guarding personal ____ within ____ storage server.

____ in storage server

Do ____ have ____ in place ____ our ____ information ____ being ____?

____ information may be kept ____ the storage ____ what precautions ____ protect ____?

____ stored on ____ server adequately protected?

How ____ protect the storage ____ hacking ____?

What ____ used ____ private ____ server?

____ it ____ to ____ information stored within your server ____?

____ can ____ stop ____ of our personal ____?

What ____ done to ____ hackers from accessing ____?

____ there anything ____ keep ____ from accessing my private ____?

____ there enough protection in ____ to stop ____ the ____ of private ____?

Does your server ____ measures in place ____ out of ____?

____ protection against ____ intrusion of sensitive data ____?

____ are the storage server ____ keeps ____?

How ____ hackers ____ gaining access to ____ data?

How ____ the stored ____ hacking?

____ are ____ protect private ____ in ____ server

What ____ done ____ hackers from ____ at ____ private information?

Can ____ sure that ____ confidential ____ is ____ when ____ is stored within ____?

____ there ____ measures to ____ target our data ____ on ____ server?

There ____ be measures ____ secure ____ server ____ attempts.

Are ____ measures in place to ____ information ____ attempts?

____ exist ____ our sensitive ____ safe?

____ efforts to protect ____ data ____ the storage ____.

What ____ we ____ protect our data ____?

Is there ____ for protecting ____?

Can I be sure that ____ from ____ while stored ____ your ____ infrastructure?

____ to know ____ the security ____ for guarding ____ information on your ____.

Is it possible ____ hacks ____ of private information?

____ are ____ taken to ____ our private ____ from ____?

Is there ____ protection ____ intrusion of ____ data ____?

____ measures to ____ sensitive data ____ the storage server?

____ keep hackers out ____ the storage ____?

What ____ do ____ data server from unauthorized ____?

How are storage ____?

Can ____ confirm ____ have been taken to ____ to ____ private information?

____ protected against ____ on ____ server ____ our private ____ is kept?

____ secure ____ the ____ holds ____ private data?

____ to ____ stored information?

____ protection ____ to counteract potential hacks at storage server repositories ____?

Should ____ be enough protection ____ place to ____ hacks at ____ of ____?

Do there exist measures ____ protect ____ on ____ server?

____ there a ____ prevent ____ on the storage ____ where ____ personal information ____?

The ____ that are taken to ____ against ____ on ____ _____.
 ____ the storage ____ safeguarded against ____?
 ____ hacking ____ at securing ____ server ____ confidential data.
 ____ personal ____ on a server ____ compromised by hackers.
 Are ____ protocols ____ to protect ____ from ____?
 ____ prevent hacking attempts ____ storage ____?
 Is there effort ____ to ____ on ____ server?
 ____ there ____ to prevent ____ storage server where our personal information ____?
 ____ measures ____ to ____ hackers from accessing our ____ details?
 Is ____ a way to ____ the storage ____ where our personal ____?
 ____ actions ____ taken to protect our ____ from ____ attacks?
 ____ us ____ protect your storage server ____ hacking attempts?
 ____ there any safeguards ____ place to ____ details at the ____?
 Can you ____ security ____ taken to prevent hackers from ____ information?
 ____ you ____ precautionary ____ there ____ attempts to gain access to ____?
 ____ would like ____ know ____ security protocols ____ for protecting ____ information hosted _____.
 ____ can we make it impossible ____ compromise ____ personal ____ on the server?
 There are precautions ____ hacking of ____ with private ____.
 ____ on the storage ____ are taken to protect it?
 Do you ____ a plan ____ our private ____ the ____?
 Are ____ place ____ storage server ____?
 How ____ storage server protected ____?
 How do you protect ____ hacking ____ servers?
 ____ we do to keep ____ data from ____?
 ____ security precautions prevent ____ access ____?
 Do ____ precautions to defend ____ steal your ____?
 ____ to counteract hacks on storage server ____ private information?
 ____ the storage ____ our ____ secure?
 What ____ being done ____ from seeing ____ information?
 I ____ like to ____ the ____ protocols ____ are ____ for ____ on your storage server.
 ____ there a way to ____ hackers ____ to ____ private ____?
 ____ prevention methods effective at ____ server ____ confidential ____?
 Is there anything you can ____ safeguards ____ protect our private ____ on ____ server?
 Measures could ____ taken ____ data ____ server.
 Is there any attempt ____ private data ____ server?
 ____ have measures in ____ cybersecurity ____ targeting our data?
 Is there a ____ to ____ our ____ data on storage ____?
 I ____ learning ____ the security protocols ____ personal ____ hosted on your storage ____.
 What can we ____ hacking ____ storage?
 ____ is ____ security of ____ storage ____ that ____ private ____?
 ____ protect private data in storage ____
 ____ actions ____ being ____ to defend ____ secure databases that hold ____ information?
 What are ____ actions ____ taken ____ hacker attempts ____ into the secure ____?
 How are ____ to prevent unauthorized access ____?
 ____ server ____ our data secure?
 Are ____ measures ____ protect the private particulars ____ server?
 Do there exist ____ on storage server?
 ____ security ____ be used ____ unauthorized access to ____?
 Did ____ know ____ safeguards ____ in ____ protect ____ stored on your server?
 Are the security ____ hackers from accessing ____ private ____?

_____ to _____ confidentiality _____ storage server

I would like _____ about the _____ protocols followed for _____ personal _____ on _____.

_____ are the attempts _____ hack _____ storage _____?

Do you _____ measures _____ place _____ from accessing _____ information?

_____ should you take _____ keep _____ away _____ user _____?

How secure _____ the storage _____ our _____.

Is _____ server _____ stores _____ information _____?

_____ keep our data _____ the hands _____ hackers?

Does security _____ prevent _____ information?

How _____ protect against _____ the data server?

What actions are being taken to _____ into secure _____?

What _____ do you take to _____ database?

How _____ are the _____ that you _____ our _____?

Can _____ sure _____ is protected from _____ threats while stored _____ server _____?

_____ are _____ to _____ storage _____ hacks.

_____ must _____ to prevent hacking of the _____.

_____ you tell us about _____ safeguards implemented to _____ our _____ stored _____?

_____ the steps to _____ server hacking _____?

There _____ to protect _____ on _____

_____ security _____ the _____ server _____ hacking?

Do _____ any _____ place to prevent hackers _____ private information?

_____ there _____ way _____ prevent hacking _____ information _____ on the _____?

Can I be sure _____ my _____ be _____ from cyber threats _____ server infrastructure?

_____ should _____ security _____ in place _____ hacking at the storage _____.

_____ the _____ server secure _____ our _____?

There may _____ in _____ to protect storage _____.

Is there _____ precautions taken _____ of storage _____?

How _____ we _____ our _____ from _____?

_____ taken to prevent hacks _____ server _____ our private information _____ kept?

_____ hack _____ techniques effective when _____ confidential data?

Have steps _____ prevent _____ of _____ information?

What steps _____ taken _____ hacking _____ storage server?

Is _____ techniques effective _____ securing _____ confidential data?

I _____ know _____ followed for _____ my personal information _____ on your storage server.

How do _____ hackers away _____ data?

Do _____ exist _____ protect sensitive _____ kept _____ storage server?

How _____ storage _____ hacking _____?

Do _____ have any precautions _____ hacks _____ server?

I need to _____ the _____ protocols that _____ personal _____ on _____ server.

_____ actions being taken _____ our data _____ hacker attacks?

Are _____ in place _____ protect _____ information _____ the server _____?

_____ you tell me _____ the _____ measures _____ taken to _____ unauthorized _____ to our _____?

_____ do _____ avoid _____ entry into the _____?

_____ would like to know _____ security protocols _____ personal _____ within _____ storage _____ are followed.

What steps are _____ against _____ the _____ server _____ keep our private information?

_____ possible to prevent _____ from _____ of personal _____ on the _____?

_____ do _____ stop _____ our storage?

Do _____ exist to deal with cybersecurity _____?

How do you protect _____

Do _____ have _____ in _____ from accessing our information?

Is the _____ our data _____ from attackers?

_____ protected _____ unauthorized _____ to storage server?

In _____ what safeguards protect _____?

_____ are the safeguards _____ data _____ storage?

_____ it possible to counteract _____ hacks _____ of private _____.

How _____ server hacking _____

_____ be _____ prevent _____ of storage server with private _____?

_____ can _____ the storage _____ from _____?

_____ confirm the _____ that _____ been put _____ to prevent hackers from gaining _____ to our _____?

_____ can we make _____ hackers _____ personal records on the _____?

How can _____ sure _____ personal _____ on the server isn't _____?

_____ there _____ in _____ prevent hacking attacks _____ our data?

Is there _____ way _____ hackers _____ private data?

How are the _____ server's _____?

What is _____ done _____ it _____ hackers _____ access my _____?

Do _____ have measures _____ place that protect _____ particulars _____?

There _____ things _____ be done to _____ the _____ of the _____.

_____ any _____ to protect our personal _____ your _____ server?

_____ exist measures to _____ sensitive _____ storage server?

Is protection stated _____ intrusion _____ data _____?

How do _____ being hacked?

_____ there _____ protection _____ intrusion of _____?

Can you _____ keep hackers out of our private _____?

How _____ your _____ from unauthorized entry?

Is _____ for the storage server _____ our _____?

_____ you have _____ place _____ private particulars _____ on _____ server?

do _____ prevention _____ for _____ storage server with _____?

_____ protect storage server _____ hacking _____?

_____ exist _____ keep _____ sensitive data out _____ the hands _____?

_____ techniques effective in _____ server confidential data?

_____ not compromise the confidentiality of personal _____ server?

_____ be _____ to guard against _____ on _____ information server?

_____ any procedure _____ safeguard _____ server _____?

Security _____ instituted _____ unauthorized _____ to stored information.

_____ may be _____ to protect private _____ storage _____.

Is the _____ information _____ server protected?

Do you _____ the data _____ from unauthorized _____?

_____ would like _____ know about _____ security _____ followed _____ protecting personal _____ on _____ storage _____.

_____ to know _____ the security _____ my _____ hosted on your storage server.

_____ protection against potential intrusion _____ sensitive data _____?

Are there any security _____ in place to _____ hacking _____ storage _____ where _____ information _____?

_____ secure are the _____ server _____ houses _____?

Is _____ to _____ my confidential _____ in _____ infrastructure?

_____ need _____ know the _____ protocols _____ protecting personal information hosted _____ your _____.

There _____ hacks _____ storage server _____ private information.

Is _____ protected from _____?

_____ is the _____ server where we _____ data?

Specific security _____ are in _____ to _____ the _____ server where _____ personal _____ held.

_____ there be specific security measures _____ to _____ hacking _____ the _____ server _____ our _____ held?

How _____ a storage _____ stopped?

What ____ are ____ to ____ the ____ server ____ private information may be kept?
 ____ any actions ____ hackers away ____ your data?
 ____ measures are ____ prevent unauthorized access ____ stored information.
 Is ____ to counteract hacks ____ storage server repository ____ information?
 ____ are the ____ measures ____ storing our ____ information?
 Do ____ prevention techniques ____ securing ____ server ____?
 ____ are measures ____ hacks on ____?
 are hacking ____ techniques ____ securing ____ server with ____?
 ____ enough protection in place to counteract ____ repositories ____ private information?
 How ____ you ____ against ____ entry into your ____?
 How ____ are ____ that ____ information?
 ____ you ____ the ____ to prevent unauthorized ____ our private information?
