

[Demo] NLP Dataset for Customer Service Automation

Company Type	Home Security and Alarm Companies
Inquiry Category	Alarm system compatibility with smart home devices
Inquiry Sub-Category	Troubleshooting smart home device connectivity with alarm systems
Description	Customers experiencing difficulties connecting or maintaining the connection between their smart home devices and alarm system inquire about troubleshooting steps, potential compatibility limitations, or the need for professional support.
Data Size	6,746 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Home Security and Alarm Company" customer inquiry. (Purchased data will not be masked.)

_____ certain _____ on _____ alarm system _____ the _____ home _____ that may _____ ability to connect properly?
 _____ adjusting the alarm _____ or smart _____ device's settings will _____ them from _____?
 Is _____ and smart _____ device caused by _____?
 _____ settings on the _____ system _____.
 Changing certain options could make _____ the _____ smart _____ work.
 _____ possible that _____ system _____ smart _____ settings _____ the connection?
 _____ on the smart home _____ to connect?
 _____ of _____ alarm system and _____ home device impacted _____ certain _____?
 _____ affect proper connection _____ and smart home device?
 _____ configurations on _____ alarm _____ could _____ their ability _____.
 Is _____ that certain _____ affect the _____ system _____ smart home _____?
 Can the settings on _____ system _____ smart home device _____?
 Can settings _____ home _____ affect _____ connecting ability?
 _____ modifying _____ harder to connect an alarm to _____ smart _____?
 Do these alarm _____ fancy home _____ that _____ affect how they _____?
 Do some settings make _____ harder to connect _____ home _____?
 The _____ system or _____ their ability to _____ properly.
 There _____ certain _____ may _____ connection of the alarm _____ smart _____.
 Is _____ any particular _____ alarm _____ or smart home _____ that _____ the _____ between them?
 Is _____ possible _____ settings _____ the _____ to _____ a problem with the _____ device?
 _____ settings _____ system or smart _____ may _____ the ability to connect _____.
 _____ it _____ for _____ settings _____ smart home _____ to _____ with _____ reliable _____ between them?
 There _____ be connection _____ due to _____ smart home _____.
 _____ affect a stable connection between my _____ system _____ smart _____?
 _____ system _____ smart home could _____ with proper _____.
 There may _____ settings on _____ alarm system or _____ that _____ to connect.
 _____ on _____ alarm _____ connecting ability?
 Is there any _____ on the _____ affect _____ seamless connection?

____ configurations could ____ the ____ of ____ system.
 ____ options ____ both systems affect their ability to ____?
 ____ there ____ chance of problems ____ your ____ or ____ interaction?
 ____ options ____ make it harder for ____ connected.
 ____ settings ____ the smart home device affect ____ communicate?
 Is it possible ____ settings ____ the ____ or smart home ____ with ____ communication ____ them?
 Some settings ____ alarm ____ affect their ____ ability.
 ____ on ____ system or ____ home device might affect ____ ability.
 ____ configurations ____ the alarm system could ____ to ____.
 The ability to ____ an ____ system ____ device could ____ specific parameters.
 ____ the settings ____ alarm ____ smart ____ device affect the ____ connect?
 ____ the alarm ____ home ____ a set of settings ____ affect their ____?
 ____ the ____ of the alarm ____ affected by ____?
 Is there ____ that ____ settings on the ____ interfere with the ____ between ____?
 Some ____ the ____ system or ____ home device ____ connecting.
 Did certain ____ the connection ____ alarm system ____ device?
 ____ settings on an alarm system ____ their ____?
 ____ the alarm ____ home device ____ unique ____ that affect ____ connection?
 The alarm ____ and smart ____ might ____ adjustments that ____ efficient ____.
 ____ is possible that modifying preferences ____ cause ____ when trying ____ to ____ smart ____ accessory.
 Will adjusting ____ with ____ connection between ____ system ____ my smart home ____?
 ____ there a particular configuration ____ smart ____ device ____ would make it difficult to ____?
 ____ possible ____ your alarm system or smart ____ interactions?
 ____ modifying preferences make ____ to ____ alarm to a smart ____?
 ____ settings ____ the ____ of the alarm ____ smart home equipment.
 Will some ____ affect the ____ alarm ____ and my ____ device?
 Proper ____ the alarm system ____ could be affected by ____.
 ____ alarm ____ home device could ____ their ____ to connect.
 The ____ connect with ____ or smart home device ____ be ____ parameters.
 Do certain settings make ____ difficult ____ connect the ____ home ____?
 ____ it ____ certain configurations on ____ smart ____ device could impede ____ seamless connection ____ them?
 Do certain alarm ____?
 The alarm ____ or ____ device settings ____ connected ____ are.
 Does ____ setting of the ____ or ____ unit ____ the ____?
 Do settings in the alarm system ____ to ____ accurately?
 Is it ____ that specific ____ the smart home ____ to connect?
 ____ settings on ____ smart ____ mess up their connection?
 Do ____ settings make ____ the alarm system ____ home device?
 ____ ability ____ connect ____ by certain ____ in the alarm ____ smart home device.
 ____ both ____ alarm ____ and smart home ____ have ____ affect their ____?
 Are the alarm ____ or ____ home ____ their ____?
 ____ of the alarm ____ affect ____ ability to connect ____?
 ____ the alarm ____ or ____ differently affect their ____ to connect ____?
 Is it ____ the alarm ____ them to connect securely?
 ____ it possible ____ the ____ system's ____ smart home ____ their connection?
 The alarm ____ or ____ home ____ affect ____ proper ____.
 Will changing ____ with ____ connection between ____ system and the ____ home ____?
 ____ ability ____ connect ____ home device affected by settings on the ____?
 ____ an ____ a smart ____ accessory, could ____ preferences create problems?
 Do ____ on ____ smart ____ device affect the ability ____?

____ the alarm ____ home ____ settings mess ____ connection?
 ____ well the ____ and smart ____ gadgets work together ____ affected by ____.
 There ____ smart home ____ that might affect their ability ____.
 ____ the ____ settings affect ____ connection?
 How well ____ system and ____ home ____ work ____ is dependent ____.
 Changes ____ can ____ the ____ of the alarm and ____.
 ____ the smart ____ device affect ____ ability ____ connect properly?
 ____ alarm ____ and smart ____ device ____ affect their ability to ____?
 Can ____ on ____ alarm ____ affect ____?
 Is ____ of the alarm ____ home ____ affected ____ in settings?
 Is it possible ____ the ____ settings ____ prevent them ____?
 ____ settings ____ alarm system or ____ home ____ proper communication?
 ____ in ____ the connection ____ and smart home equipment.
 ____ possible that ____ parameters ____ alarm system or smart ____ could ____ their ____ to ____.
 Do alarm or ____ options ____?
 ____ settings on ____ affect connections?
 ____ a seamless connection ____ system and smart home ____ to certain ____?
 ____ settings in the ____ system ____ smart home ____ interfere with the proper ____?
 Certain settings ____ smart ____ device may ____ ability to connect properly
 The ability ____ flawless could ____ by ____ parameters in ____ alarm system ____ home ____.
 Is there a ____ for ____ system ____ smart ____ device ____ to connect?
 Will adjusting the ____ affect the connection ____ system and ____?
 ____ certain settings ____ to ____ the alarm system ____ home device?
 ____ it possible ____ specific ____ system ____ smart ____ settings ____ the connection?
 Is ____ connection ____ the ____ or smart ____ affected?
 The ability to ____ or the smart home device ____ compromised by ____.
 There ____ certain ____ systems ____ how well they connect.
 Will the alarm ____ or ____ be changed ____ better ____?
 Do the ____ the ____ smart home ____ affect the ____?
 Is changing ____ the ____ alarm or smart home ____?
 ____ there ____ possibility ____ issues with your ____ system or ____?
 The alarm ____ device ____ their ____ to connect successfully.
 There could ____ connection ____ to ____ and ____ home settings.
 Does ____ setting ____ the ____ system ____ smart ____ affect ____ connection?
 Maybe there are connection ____ alarm ____ home settings.
 ____ to ____ alarm system or the ____ might affect ____ communicate.
 Is ____ to connect perfectly ____ specific ____ system or ____ home device?
 ____ of ____ smart home unit ____ the connection?
 ____ issues due to alarm ____ or ____ home ____
 Should the alarm system or ____ home ____ affect ____ ability to ____?
 How ____ the alarm system and ____ gadgets work ____ by ____.
 Do ____ fancy home ____ settings that mess up ____ communicate?
 ____ adjustments ____ the alarm system's ____ home device's ____ could prevent them ____.
 connection ____ are ____ due to ____ system ____ home ____
 Altered ____ disrupt the connection ____ my alarm ____ device.
 Are there ____ adjustments that ____ problems ____ connecting ____ and ____ device?
 Do ____ alarm ____ smart ____ device have ____ that affect ____ connection?
 Both ____ system ____ home device ____ by specific configurations.
 ____ the ____ mess ____ connect stuff.
 ____ or device options ____ an ____?

Changing settings _____ of _____ alarm or smart _____ equipment.
 _____ smart _____ settings mess up _____?

How efficiently _____ communicate _____ affected by certain adjustments to _____.
 _____ it _____ certain settings on the alarm _____ with the smart _____ device?
 _____ better connection be _____ system or smart home _____?

Is _____ a _____ of _____ with your alarm _____ home _____?

There _____ particular options in _____ that _____ affect _____ to _____.

Is _____ that parameters in _____ system _____ affect the _____ to _____?
 _____ alarm system _____ home device _____ have certain settings _____ affect their _____.
 _____ affect proper _____ alarm system and smart home _____.

Can specific _____ or smart home unit _____ their _____?

Do _____ fancy home _____ that mess _____ how they connect?

Some _____ hinder _____ proper _____ between _____ system and smart home _____.
 _____ some settings interfere _____ connection between my alarm _____ and my _____?

_____ proper _____ of _____ home equipment may be _____ changes in _____.

Is it _____ for specific _____ home _____ to impede proper _____?
 _____ it _____ the alarm _____ home _____ settings _____ them to connect securely?
 _____ settings _____ the connect?
 _____ alarm _____ and smart _____ might _____ their connection _____.

Possible _____ due to smart _____.

Can smart _____ connecting?

There are possible _____ issues due _____.

Do certain _____ affect _____ proper connection between _____ system and _____?
 _____ possible that _____ parameters in _____ alarm system could _____ their _____?

Do these alarm _____ or stupid _____ gizmos have _____ with how _____?

What configurations _____ how well _____ system _____ device _____ together?
 _____ on _____ smart _____ device can affect _____.

Will adjusting _____ settings affect the _____ and my smart _____?
 _____ how well the _____ smart home _____ work together.
 _____ efficiently the alarm system _____ smart _____ will be _____ certain adjustments.
 _____ be connection problems due _____ alarm _____ home settings.

Some changes _____ or smart home may _____ efficient they _____.

Are there adjustments _____ connecting the _____ and smart _____ device?

Are _____ settings _____ the _____ system or smart home _____ ability to _____?

Some _____ can _____ the proper _____ between _____ system _____ smart home _____.

Can the settings of the _____ connecting _____?
 _____ alarm _____ the connect _____?
 _____ the alarm system or smart _____ set _____ affect _____?
 _____ altering features _____ connection _____ alarm system _____ the _____ home device?
 _____ adjustments _____ or _____ home device's settings could prevent _____ from _____ securely.

It's _____ improper adjustments _____ or _____ device's settings prevent them from _____ securely.
 _____ changes _____ the security _____ or house _____ their _____?

Is _____ possible _____ specific _____ the alarm _____ could _____ the _____ between _____?

Do _____ affect how _____ alarm system _____ smart _____ work _____?
 _____ possible that certain _____ the alarm _____ affect _____ ability?

Is _____ possible for _____ settings _____ the alarm system _____ home _____ to _____ other?

Do specific _____ alarm _____ affect their ability _____ connect _____?

Do _____ system _____ affect _____ to connect _____?

Changes in settings _____ the correct _____ smart home equipment.

Is the _____ ability _____ the alarm system or _____ device?

____ adjustments ____ alarm system ____ smart ____ might ____ how efficiently they ____ and ____.
 Are ____ issues with your alarm ____ or ____?
 What if ____ settings ____ alarm ____ interfered ____ proper ____?
 ____ changes ____ affect the connection of ____ equipment?
 Can specific ____ of ____ alarm mess ____?
 Is ____ connection ____ the ____ system and smart ____ affected by ____?
 ____ connect to ____ smart home ____ could be compromised by ____ the alarm ____.
 ____ settings affect ____ proper connection of the ____?
 ____ possible ____ on the alarm system ____ affect ____ connection ____ them?
 ____ there ____ having an ____ your alarm system or smart ____?
 Do ____ on alarm ____ affect ____ to ____ accurately?
