

[Demo] NLP Dataset for Customer Service Automation

Company Type	Smartphone Manufacturers
Inquiry Category	Compatibility with other devices inquiries
Inquiry Sub-Category	Network Compatibility
Description	Customers inquire about whether their smartphone is compatible with specific cellular networks or bands, such as GSM or CDMA, and if it supports 4G or 5G connectivity.
Data Size	5,018 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Smartphone Manufacturer" customer inquiry. (Purchased data will not be masked.)

Does this device _____ and CDMA _____ allowing me to _____ either type _____ for _____ data _____?

Is it possible for this device _____ used _____ a _____ for _____?

Is _____ achieve _____ internet connection _____ product, _____ it's compatible _____ CDMA and GSM standards?

Can you tell _____ if this _____ allow access _____ high-speed _____ connections _____ CDMA and _____ technologies?

_____ be _____ to take _____ the _____ data _____ if _____ use _____ CDMA _____ with this phone?

Do _____ you can get _____ phone that _____ data connections _____ of the _____ networks?

_____ possible _____ supports GSM and CDMA _____ network _____?

Does this device _____ both _____ GSM networks to _____?

Is _____ able _____ access fast _____ speeds _____ both CDMA _____ GSM _____?

_____ this _____ on both GSM _____ CDMA networks _____ speeds?

_____ the device be connected _____ of _____ types _____ for _____ data speeds?

_____ device _____ with _____ high-speed internet?

_____ it possible _____ device _____ both _____ and GSM networks _____ data _____?

Can _____ on both _____ GSM?

_____ possible that device _____ CDMA for _____ and _____?

_____ possible _____ offer quick network _____ with _____ and _____ tech?

Is _____ possible to get fast _____ with this _____ it's _____ with _____ CDMA _____ standards?

_____ it possible to _____ a fast _____ this product _____ compatible with _____ and _____ standards?

Is _____ device _____ with CDMA _____ GSM _____ high-speed _____?

_____ possible for this device to work _____ both _____?

_____ I _____ the device on the _____ for _____?

_____ the _____ compatible _____ and GSM networks?

Can this _____ be _____ to _____ different networks _____ get _____ speeds?

Is _____ possible that it _____ handle _____ and GSM _____?

_____ this phone _____ to access _____ data _____ and GSM networks?

I don't _____ I _____ able _____ access _____ data _____ by connecting through both _____ GSM technologies on _____.

Is _____ device able _____ me _____ by _____ to two different _____?

I _____ know if _____ connect _____ any network, since the device is _____ with _____ and _____.

_____ for _____ to provide fast data _____ via both _____ and _____ networks?

Is it _____ use _____ phone for _____ that are _____ on both _____ GSM _____?

_____ it _____ use _____ phone _____ fast data speeds _____ both CDMA and GSM _____?

_____ the _____ be _____ the networks and _____ fast data speeds?

Is _____ possible _____ device to _____ fast data _____ the _____ network?

_____ use it _____ networks at _____ speeds?

_____ the device _____ to the _____ of _____ to get _____ fastest data _____?

_____ this gizmo work on _____ the _____ the GSM _____?

_____ let _____ use _____ data _____ on both CDMA _____ networks?

_____ connected _____ the two _____ types _____ network to get _____ fastest data _____?

Can the _____ be _____ to _____ two _____ of networks to _____?

Is it possible for this _____ to _____ on _____ network, _____ with _____ CDMA _____ GSM technologies?

_____ the gizmo _____ both _____ networks?

I will be _____ to _____ on _____ network _____ data speeds _____ a snap if _____ both _____ and _____.

_____ this device _____ connected to _____ of network to _____ data _____?

_____ possible _____ use this _____ for high-speed _____ from _____ CDMA or GSM _____?

Is _____ device compatible _____ high-speed _____?

_____ the _____ be connected _____ one _____ two networks for fast _____?

_____ any _____ for data speeds in a snap, if _____ with both CDMA _____.

Will I _____ this device to access fast _____ speeds _____ connect through _____ two _____?

_____ work on either _____ or GS networks, _____ send and _____ data _____?

Is it _____ can _____ to both _____ and GSM _____ and get _____ fast _____?

_____ device work _____ either GSM _____ networks, _____ send and _____ data fast?

_____ possible to connect quickly _____ the _____ networks?

Is it _____ to _____ supports super-speedy data connections on _____ CDMA _____?

_____ this _____ work with both CDMA _____ GSM _____ for _____?

_____ be _____ to use _____ to _____ fastest data speeds if _____ connect _____ the two _____?

_____ have _____ for CDMA _____ GSM?

Is it possible to achieve fast internet _____ compatible with _____ CDMA and _____?

I'm wondering if I _____ have fast speeds _____ any _____ GSM.

_____ possible to _____ model _____ connect _____ cellular data on _____ and GSM?

_____ device _____ with CDMA for high-speed _____?

Is _____ device _____ to _____ fast data _____ to both _____ GSM networks?

_____ the device _____ connected _____ the two _____ in _____ to _____ the fastest data _____ possible?

_____ handle both CDMA _____ technologies?

_____ know _____ can _____ quickly via _____ this _____ is compatible with both CDMA and GSM.

Does _____ have _____ support CDMA _____ quick _____ connections?

_____ this _____ to _____ of _____ two _____ of _____ to use _____ data speeds?

_____ this device _____ on either GSM _____ CDMA _____ so _____ send _____ information quickly?

I'd _____ able _____ data speeds _____ any _____ if this device works with _____ and GSM _____.

_____ the _____ compatible _____ and GSM networks?

Is it _____ use _____ device with _____ of _____ for fast _____ speeds?

_____ this device _____ connected _____ of _____ get the fastest _____ speeds?

Does this phone allow _____ use _____ on _____ GSM networks?

_____ this _____ allow me _____ type of network and _____ fast data _____?

_____ possible to use this _____ for fast data _____ networks?

Is it _____ device _____ to _____ networks _____ fast data?

_____ you _____ me _____ it's _____ for this _____ data _____ on any network with both _____ and _____

Is it possible for _____ to have _____ on _____ network _____ CDMA and GSM?

Does the _____ support fast _____ connections _____ networks?

Is ____ possible ____ the ____ supports ____ connections ____ CDMA and GSM networks?

Does the ____ on ____ and ____?

____ possible for this device to ____ data ____ through ____ CDMA ____ networks?

Is this ____ capable ____ connecting ____ either ____ of ____ that ____ can get ____ speeds?

Is it possible to get ____ internet connection ____ product, since ____ compatible ____ both ____ CDMA ____?

Can ____ to ____ of the ____ types of ____ to provide ____ data ____?

Is ____ possible that ____ services ____ both CDMA and ____ networks?

____ this ____ work on ____ GSM or ____ networks so ____ can ____ receive ____?

____ able to ____ advantage ____ the fast data ____ using ____ or a GSM network?

____ you use ____ model to ____ with ____ cellular ____ both CDMA ____ GSM ____?

____ it ____ this device ____ allow ____ data ____ both CDMA and GSM ____.

Does the device work on ____ or GSM ____ send ____ data ____?

Can ____ connected to either ____ the two ____ network ____ the fastest ____ data speeds?

Is ____ possible to use ____ device ____ a ____ network?

Does ____ support both ____ and GSM networks, ____ data ____?

____ possible to ____ and GSM tech to ____ quick network ____?

Is it possible ____ use ____ model to ____ with ____ both CDMA ____ GSM ____?

Can I ____ device ____ network?

Can you ____ is ____ with the ____ networks for faster data ____?

____ this device work ____ or CDMA ____ that I ____ send and ____ data ____?

Is ____ to use ____ for high-speed data ____ networks?

____ to both ____ networks to get fast speeds?

____ possible that ____ supports both GSM ____ networks?

____ it support both ____ for network ____?

Is it ____ use this device ____ both ____ GSM ____ high ____?

Is ____ device ____ GSM ____ CDMA ____ internet service?

____ possible that this ____ can get ____ data connecting ____ and ____ networks?

Can ____ device ____ used on one ____ the ____ types of ____ fastest data ____?

Is ____ possible ____ data speeds ____ both ____ and GSM ____?

____ it possible to ____ to connect ____ on both technologies?

____ connect to two networks for ____ data?

Is it possible to get ____ internet ____ using ____ GSM and CDMA standards?

____ possible to enjoy high-speed connections ____ because ____ CDMA and GSM technology?

____ the device be ____ types of ____ to ____ fast data speeds?

Does the device ____ support for ____ CDMA ____?

Does this ____ support ____ both CDMA and GSM networks?

____ wondering if I will ____ able to get ____ through both ____ and ____ technologies.

Is ____ possible ____ this device to ____ connected to either ____ fast ____ speeds?

Does ____ device support ____ data ____?

____ will be able ____ on ____ network ____ speeds ____ snap, ____ this gizmo works with ____ CDMA and ____.

Is ____ to ____ model to connect with high-speed ____ on ____ and ____?

Do you know if ____ device will ____ data ____ and ____ networks?

Does ____ support ____ and GSM ____ network ____?

____ possible ____ get ____ fast ____ connection with this product, since ____ is ____ both CDMA ____?

____ the ____ on either CDMA or ____ so I ____ get ____ quickly?

I ____ on ____ in ____ snap, if ____ gadget works with both CDMA ____ GSM.

____ to ____ to ____ networks for high- speed data?

Does ____ device ____ CDMA and ____ networks for faster ____?

____ have ____ to ____ to ____ networks ____ that ____ can get fast data speeds?

____ the ____ to two ____ of network ____ get ____ fastest data ____?

____ this ____ GSM or ____ networks, so ____ quickly send and receive ____?
 Can ____ on both ____ and ____?
 Does ____ allow me ____ access fast data ____ both CDMA ____?
 ____ it possible ____ this device ____ data ____ both ____ mobile networks?
 Does this phone ____ fast data ____ on ____?
 ____ be ____ to ____ to ____ networks for ____ speed data?
 Is it ____ phone ____ compatible ____ the CDMA ____ GSM networks?
 Is this ____ compatible with both ____ and ____?
 Is ____ with ____ and ____ for ____ speed communication?
 Can this device ____ connected to ____ networks ____ speeds?
 ____ it ____ that ____ mobile supports both CDMA ____ giving me ____?
 ____ the ____ for high-speed data ____ both CDMA ____ networks?
 ____ the ____ me ____ data by ____ to both ____ and GSM networks?
 ____ possible ____ supports ____ GSM and CDMA networks?
 ____ this ____ faster internet ____ it supports ____ CDMA and GSM?
 ____ you make phones ____ top-notch data speeds ____ both cellular ____?
 Can ____ device ____ to ____ two types of networks ____ have ____.
 Does ____ both ____ and ____ networks for ____ data speeds?
 ____ it ____ for this ____ to provide ____ data ____ on ____ CDMA ____ GSM ____?
 ____ you tell ____ if this ____ has ____ to ____ high-speed data on any network ____ CDMA ____?
 ____ this device be connected to ____ have fast data ____?
 ____ device ____ CDMA ____ GSM networks?
 ____ data access on both CDMA and GSM networks?
 Does this mobile ____ CDMA and GSM ____ me ____ use ____?
 ____ this ____ able to get me ____ data by ____ of ____ networks?
 ____ possible ____ use this device ____ connect to either ____ for fast ____ speeds?
 ____ possible that the device will ____ fast data ____ both ____ CDMA ____ networks?
 Can the ____ connected to either of ____ to ____?
 I would like to ____ where ____ get top-notch data speeds ____ and GSM networks.
 Can ____ connected to both of the ____ of ____ to ____ data ____?
 Can ____ device ____ to either ____ the two types ____ CDMA ____?
 ____ to ____ high-speed connections ____ this device since it ____ both ____ technology?
 ____ it possible to offer ____ connections ____ both ____ and GSM ____?
 ____ your devices compatible ____ both ____ and ____?
 I would like to be able to access ____ if this ____ works with ____ GSM ____.
 Is this ____ to ____ data connections ____ both ____ networks?
 ____ work on ____ CDMA?
 You ____ make ____ can ____ top-notch ____ speeds on ____ CDMA and GSM ____?
 ____ allow ____ both types ____ networks for high speed data?
 ____ would like to ____ can ____ this phone for ____ data ____ both ____.
 I ____ looking for ____ I can ____ top-notch data ____ and GSM networks.
 Do you want to ____ if this ____ for high-speed ____?
 ____ it ____ to offer ____ connectivity using both ____ tech?
 ____ to access ____ speeds on any network if ____ works with both ____ and GSM technologies.
 Is this device ____ of ____ fast ____ connecting ____ both ____ GSM networks?
 ____ this ____ be connected to the two ____ network in order ____ get ____ speeds ____?
 ____ support both ____ and GSM for ____ network ____?
 ____ the device ____ the ability to ____ networks so I ____ get ____ data speeds?
 ____ both ____ and gsm connections?
 Is ____ device ____ networks for fast data speeds?

_____ possible for _____ to connect to _____ fast data?

Will I be able to _____ fast _____ either _____ or a _____ phone network?

_____ this phone with _____ data _____ on _____ networks?

_____ it _____ possible _____ the device to _____ and GSM?

_____ it _____ to connect quickly _____ network, given _____ the _____ is _____ with _____ GSM _____ CDMA?

Can this _____ be connected _____ the _____ of _____ to get the fastest data _____?

_____ this device support GSM and _____ fast _____ to _____?

_____ to know if this device _____ get _____ connecting to both CDMA _____ networks.

Is this device able _____ of the two types _____ networks _____ speeds?

Does _____ device _____ on either CDMA or GSM _____ information quickly?

Is _____ possible to connect _____ since the device _____ with _____ GSM _____ CDMA?

Is the device _____ both _____ and GSM _____?

Does _____ use fast _____ on _____ CDMA and GSM networks?

_____ use _____ device for _____ on the CDMA network?

Do _____ know _____ this device supports _____ connection _____ CDMA _____ networks?

_____ this _____ support both CDMA and GSM _____?

_____ this _____ able to _____ fast _____ both CDMA and GSM _____?

_____ device _____ with _____ and _____ for high-speed networking?

Is it possible that _____ supports fast _____

Is _____ device _____ allow access _____ high-speed data connections _____ any network with either _____ technologies?

Can I _____ on both _____ and _____ networks?

_____ work _____ CDMA _____ GSM networks _____ I _____ send and receive _____ quickly?

_____ it possible _____ on this device _____ it supports _____ and _____ technology?

You people make phones _____ get top-notch _____ on _____ CDMA _____ networks?

_____ it possible _____ use _____ data using either a CDMA _____ network?

Is it _____ that _____ device supports CDMA _____?

_____ you _____ if the _____ compatible _____ both _____ and GSM networks?

_____ am looking for a _____ give _____ top-notch data _____ both the CDMA _____ GSM _____.

_____ this _____ CDMA and _____ network connections?

_____ work on both _____ GSM?

Is _____ that the _____ work with _____ CDMA _____ GSM _____?

_____ this _____ and _____ for quick network connections?

_____ I be able to _____ types of _____ for high-speed _____?

_____ this _____ compatible with _____ GSM networks for _____ speeds?

_____ device support _____ connections on _____ CDMA and GSM _____?

Is _____ for me to connect _____ via _____ network _____ that the _____ compatible _____ both CDMA _____?

Can _____ to _____ the two types of _____ get _____ fastest speeds?

Is _____ possible _____ use _____ device on _____ of _____ for fast _____?

_____ it _____ to use _____ of _____ for high-speed _____ this phone?

Can this _____ be connected _____ the _____ that have _____ data _____?

_____ this _____ CDMA _____ GSM _____ fast _____?

Is _____ device _____ to the two types _____ get _____ data _____ possible?

Does this device _____ the fast _____ networks?

_____ it _____ for _____ connect quickly via any _____ since this _____ compatible with _____ CDMA?

Do _____ know _____ in terms _____ compatibility, like supporting both GSM and CDMA technologies _____ fast _____?

Can _____ phone _____ used for _____ speeds _____ networks?

_____ it possible to _____ on _____ CDMA _____ with high _____?

Does _____ device _____ on either _____ or GSM _____ so _____ can _____ get information _____?

_____ it possible to use _____ device on a _____?

_____ device _____ CDMA and GSM for _____ networking?

Is _____ possible _____ use _____ device _____ high-speed _____ either a _____ or _____ network?

_____ it _____ that _____ device will allow _____ data _____ both _____ GSM?

_____ don't know _____ I'll be _____ connecting through both CDMA and GSM.

Is it _____ for this _____ both CDMA and GSM _____ can _____ data speeds on _____ network?

_____ phone support _____ and GSM networks, so I _____ use _____?

_____ support both CDMA _____ networks?

Can _____ device be _____ to one of _____ two networks _____ the _____?

Is _____ compatible _____ and _____ for high-speed connections?

Is this _____ able to _____ connection _____ both _____ networks _____ high _____ data?

_____ possible _____ mobile will allow _____ to _____ both CDMA _____ GSM _____?

_____ you connect _____ high _____ using this model?

I _____ fast data speeds on _____ can this device work _____ both CDMA _____ GSM?

Is _____ internet connection with _____ product, since it is _____ both _____ and GSM standards?

Is _____ possible to _____ either type of _____ device _____ fast _____ speeds?

_____ it have _____ handle both CDMA _____ GSM _____?

Does _____ gizmo _____ the CDMA and the _____?

Will it _____ the device _____ allow _____ both CDMA and _____ networks?

Is _____ this _____ fast data _____ on _____ and GSM networks?

Is this phone compatible with _____ CDMA _____ data _____?

Can this _____ connected to _____ of network to get _____ speeds?

Can _____ work with both CDMA _____?

_____ it possible to use the device _____ to _____ network _____ speeds?

I am _____ if _____ use _____ fast data _____ both _____ and GSM networks.

Can _____ there _____ in _____ network compatibility like _____ both CDMA and GSM technologies?

_____ the device work _____ either _____ or CDMA _____ and receive information _____?

Is it possible _____ this _____ to _____ data _____ using _____ CDMA and _____?

_____ device _____ one of _____ two networks to get _____ fastest speeds _____?

Can _____ be used for _____ on _____ CDMA _____?

_____ wondering _____ will _____ to get rapid data _____ by _____ both CDMA and GSM technologies on _____.

Does this phone _____ me to _____ fast _____ on CDMA _____?

_____ want _____ fast _____ I don't _____ if this phone _____ up to a CDMA _____ or a

Will _____ me _____ fast _____ by hooking it up to a CDMA network or _____?

Can this device be _____ the two _____ network _____ fastest speeds?

Is _____ device compatible _____ CDMA _____ GSM _____ internet _____?

_____ it possible _____ speeds on any network _____ device _____ CDMA _____?

Does _____ device _____ on _____ CDMA _____ GS _____ so _____ can _____ receive _____ fast?

_____ this phone _____ CDMA _____ networks?

_____ it _____ for this _____ to _____ to both types of _____ for _____?

I _____ to access _____ data _____ on _____ network, but _____ this _____ work _____ CDMA and _____?

_____ it possible that this _____ allow _____ to access fast _____ on both _____ networks?

Does this gizmo work _____ CDMA networks _____?

_____ device allow me _____ to both _____ networks _____ fast _____ speeds?

_____ device support two _____ networks for _____ transfers?

_____ it _____ for this _____ to work with _____ and GSM _____?

Is _____ possible to offer _____ connections with _____ CDMA _____?

Is this _____ to get _____ data _____ connecting _____ the CDMA _____?

_____ device work _____ either _____ or GSM networks _____ send and receive _____?

Is this _____ GSM for high-speed communications?

Is the _____ with _____ CDMA for _____ and _____?

Can I use _____ device on _____ network _____ data _____?

It's possible that _____ can get _____ on _____ CDMA _____ GSM _____.

_____ it possible to _____ a fast _____ using _____ product, _____ with both _____ and GSM standards?

Can the device _____ connection _____ both types _____ networks _____ data?

Can you _____ me _____ access _____ high-speed _____ connections on _____ network with _____ CDMA and _____ technologies?

_____ be _____ to _____ on any _____ for data _____ in _____ snap, _____ this gizmo _____ with both _____ junk.

Does this _____ work on either _____ two _____ I _____ and _____ data quickly?

Is _____ to _____ for fast _____ speeds _____ both CDMA and GSM _____?

Is it possible _____ phone for fast _____ speeds _____ and cellular _____?

I _____ if I'll be _____ speeds if _____ connect _____ CDMA and GSM technologies.

Is it _____ on this device, since _____ both _____ and GSM?

_____ this device have the ability _____ networks so that _____ can _____ data _____?

Does this _____ fast data access _____ the _____?

Is _____ to connect quickly on _____ networks _____?

Is it _____ to _____ CDMA and _____ with this _____?

Does this _____ work _____ CDMA _____ GSM networks so _____ can send _____?

_____ get me fast data by _____ networks?

_____ can be connected _____ types of _____ to get _____ fastest data speeds.

Does the device allow _____ use both types _____ speeds?

_____ possible _____ use _____ device for high-speed _____ with _____ of _____ two _____?

Does this mobile _____ and _____ networks, _____ me _____ to _____ internet?

The _____ with _____ CDMA and _____ technologies.

_____ it possible that the _____ support both _____ networks?

Can the _____ of the two types _____ network _____ the fastest _____ possible?

_____ device _____ connected to both _____ the _____ for fast data speeds?

_____ it _____ this _____ access fast _____ on both CDMA and GSM _____?

_____ this _____ with _____ of _____ two _____ for fast data speeds?

_____ possible _____ use _____ device on _____ CDMA _____ fast data speeds?

_____ be connected to _____ two types of networks for _____ data _____?

_____ make _____ where I _____ top-notch data _____ on _____ two networks?

_____ it _____ for this device _____ fast data _____ on _____ network _____ with both CDMA and _____?

_____ would _____ to _____ if it can handle _____ and _____.

_____ this _____ or _____ so that I can _____ and receive data?

_____ it _____ to _____ for _____ data speeds _____ CDMA networks?

_____ it possible _____ to _____ to both _____ and GSM networks?

_____ it _____ the device will allow fast _____ both _____ networks?

_____ it can work on _____ CDMA _____ GSM?

_____ this device be _____ to any _____ the two _____ of network to _____ fastest _____?

_____ this to support CDMA and _____ network connections?

_____ it _____ the _____ handle _____ CDMA and _____ tech?

_____ work on _____ GSM _____ I can _____ and receive data quickly?

_____ the device _____ fast data _____ on _____ networks?

Is it _____ I can have _____ speeds _____ network _____ device supports CDMA and _____?

_____ device _____ faster internet by _____ CDMA _____ GSM?

_____ phone _____ me _____ get fast _____ access _____ I hook it _____ CDMA or _____ network?

Can _____ connections _____ this _____ as it _____ both CDMA and GSM _____?

Can this _____ both types _____ networks for fast _____ speeds?

Is _____ device _____ get _____ data _____ connecting to both GSM _____ CDMA _____?

Does _____ GSM for network _____?

Is _____ use _____ phone for _____ speeds on two _____?

Does this phone work _____?

_____ want _____ know _____ device supports _____ and _____ high-speed internet.

_____ possible to _____ this phone for fast _____ speeds _____ GSM networks?

_____ this _____ with _____ high-speed internet connections?

Can _____ device _____ connected _____ of the two types _____ get the _____ data speeds _____?

_____ if you can get a phone _____ supports super-fast _____ on _____ of _____ networks?

Can it _____ connected _____ either of _____ networks to _____?

Will I be able _____ connect to one _____ data?

Does the _____ work on _____?

Yes, this _____ compatible _____ both fast-speeds of GSM _____.

_____ possible that this _____ will _____ access _____ on both networks?

I am wondering _____ I _____ use _____ CDMA network _____ fast data _____.

_____ this _____ either of the _____ networks for _____ data speeds?

_____ to _____ data on _____ of the two network types?

Does this phone _____ to _____ speeds on both CDMA _____?

Does _____ device _____ the ability to connect _____ either type _____ network _____ that _____ can _____?

_____ possible for me _____ this _____ on _____ network for _____ data speeds?

Can this _____ be _____ to either _____ two _____ fast _____ speeds?

_____ it _____ can _____ both _____ and GSM network tech?

_____ this device _____ on _____ the two _____ send _____ information quickly?

Does _____ device _____ CDMA?

_____ this device enable faster _____ both CDMA and _____?

_____ the device _____ faster _____ because _____ will _____ and GSM?

_____ this _____ the ability _____ connect _____ so _____ can get fast data _____?

_____ you tell me if I can _____ that _____ super-speedy _____ either GSM _____ network?

_____ device compatible _____ mobile networks for _____ data _____?

Is it _____ use this model _____ high-speed _____ data _____ both _____ and GSM _____?

_____ want _____ use _____ data speeds on any _____ but _____ with both CDMA _____ GSM?

_____ this _____ data _____ on _____ CDMA and GSM networks?

Is _____ to connect quickly via _____ network _____ that _____ device is _____ with _____ GSM?

Does _____ get _____ fast data by _____ to _____ CDMA _____ GSM _____?

_____ this support _____ CDMA _____ for _____ network _____?

_____ the _____ both CDMA _____ faster data transfer?

_____ possible for this device to _____ connected _____ networks _____ receive _____ data _____?

_____ it possible _____ this device can _____ to both _____ to _____ fast _____?

_____ this _____ the ability _____ to either _____ of _____ so I can _____ data speeds?

_____ phone allow me _____ access _____ data _____ the CDMA and _____ GSM _____?

_____ this _____ to _____ type of _____ get fast data speeds?

_____ this device _____ to the two _____ of network to _____ speeds?

Is it possible _____ with _____ cellular _____ on both CDMA and GSM _____?

Can _____ this _____ on the _____ network for _____ that are _____?

Can _____ both CDMA _____ GSM?

I'll be _____ on _____ speeds in a snap with _____ since _____ will _____ with both CDMA _____

_____ device _____ the two _____ of _____ to _____ the fast data speeds?

Is this _____ of sending _____ receiving data _____ CDMA _____ GSM _____?

Can _____ of the two _____ of networks for _____ data _____?

_____ the _____ with both CDMA _____?

Is _____ compatible with _____ CDMA networks?

Is _____ device _____ with GSM and _____ high-speed _____?

_____ you check to _____ if _____ device will allow _____ high-speed _____ connections on _____ network using _____ CDMA _____?

Can _____ connect to _____ types of _____ for _____ speed _____ is _____ limited?
 _____ know if the _____ is compatible _____ CDMA and GSM _____?

Can _____ be connected to either _____ two _____ networks to _____ fastest _____?
 Can _____ connected _____ either _____ the _____ network to _____ high data speeds?
 _____ use _____ either type of phone network for fast data speeds?
 _____ there a phone _____ super-speedy data _____ on _____ CDMA _____?
 _____ possible for this device _____ access _____ connections on any _____ using both _____ and GSM
 _____ device _____ to _____ network in order to _____ fast data speeds?
 _____ this device compatible with _____ and CDMA _____ to _____ connections?
 Is _____ possible _____ high-speed connections on this device _____ CDMA _____?
 Does _____ support _____ and/or _____?

Is _____ possible _____ this device _____ fast _____ speeds on _____ network _____ works with _____ and _____ technologies?
 Will it _____ have fast data _____ both CDMA _____ GSM _____?
 _____ device _____ either CDMA _____ GSM networks _____ I can send information _____?
 Can _____ be _____ either of _____ types of _____ CDMA and _____?
 _____ you know if this _____ data _____ and GSM networks?
 Is _____ to enjoy _____ connections _____ this _____ that supports _____ GSM?
 _____ be _____ use this _____ to access _____ speeds if I connect through both _____?
 Is _____ possible that the device _____ fast _____ the CDMA and _____?
 Is it _____ fast _____ this product, _____ compatible with both _____ and CDMA standards?
 Can _____ this device _____ the _____ network _____ faster _____ speeds?
 _____ possible that the _____ will allow fast data _____ and GSM _____.
 _____ the _____ with both CDMA _____?
 _____ want _____ that _____ me _____ speeds on both CDMA _____ GSM _____.
 _____ device be _____ of _____ two _____ of networks for fast data _____
 Does _____ device _____ the _____ connect to either type _____ so I _____ get _____ data _____?
 Is this device _____ the _____ formats _____ fast _____ speed _____?
 _____ the _____ support fast _____ networks?
 _____ possible that _____ gizmo works with _____ and CDMA _____?
 Does _____ device _____ on _____ or _____ to _____ receive data?
 _____ it possible to enjoy _____ device as _____ supports _____ CDMA _____?
 _____ this device _____ with both CDMA _____?
 _____ confirm if _____ is compatible with _____ and GSM _____?
 _____ possible for me _____ have _____ speeds on _____ darn network _____ fluttery _____ CDMA _____ GSM?
 _____ it _____ this device will allow fast data _____ network?
 Can the _____ to both types _____ in _____ fastest data speeds possible?
 Does this _____ on _____ networks so that _____ can send and _____?
 Can _____ use _____ to _____ high-speed data _____ this phone?
 _____ compatible with both _____ and GSM networks for _____ transfers?
 _____ the _____ compatible with the _____ allow _____ data speed _____?

I _____ like to be able _____ data speeds on _____ network _____ works _____ both CDMA and _____.
 _____ it _____ to use this _____ CDMA and gsm?
 _____ if _____ able _____ quickly via any network, given that _____ is compatible with both _____ and
 Does _____ device _____ type _____ network with fast data speeds?
 Is _____ possible that this _____ can _____ networks?
 _____ device work _____ and GSM technology?
 Is _____ possible to _____ phone for _____ speeds _____ and CDMA _____?
 _____ it _____ that this _____ supports _____ data _____ CDMA and GSM?
 Do you know if there is dual capabilities _____ compatibility, _____ and _____ technologies for fast _____?

____ it ____ that ____ data connectivity on both ____ GSM networks?
 ____ this device ____ with ____ for high-speed ____?
 ____ work ____ either CDMA ____ networks ____ I can send and receive information ____?
 Is ____ for ____ leverage ____ using either a CDMA or ____ network with this phone ____?
 Is ____ device compatible with ____ CDMA ____?
 ____ this device ____ me fast ____ when ____ to the CDMA ____?
 ____ you tell me if I ____ get ____ supports super-speedy ____ connections ____ the ____?
 ____ possible ____ use ____ network for high-speed data?
 ____ it possible to have fast ____ on any ____ since ____ device ____ both ____?
 I want to ____ be ____ quickly ____ any network, given that this device ____ with ____ CDMA ____
 ____ this device support ____ both of the ____?
 ____ want ____ this ____ connect to both ____ for fast data.
 Can ____ connected to the two ____ network in ____ get the ____ speeds?
 ____ possible ____ get a phone that supports ____ connections ____ either ____ the ____?
 Is it possible ____ high-speed data ____ this ____ from ____?
 Is it possible ____ get ____ fast internet ____ using ____ since ____ with both ____ standards?
 Can ____ device support ____ CDMA ____?
 Can this device be connected to ____ the ____ networks ____.
 Is ____ possible to ____ fast internet ____ with this ____ since ____ compatible ____ both ____ and ____?
 ____ this phone allow access ____ fast ____ speeds on ____ GSM ____?
 Does ____ mobile allow ____ to ____ both CDMA ____?
 ____ it possible ____ be able ____ connect ____ via ____ given that this ____ is ____ both CDMA and
 ____ this ____ compatible ____ both ____ networks?
 Is it ____ device ____ both cellular ____ high speeds?
 ____ tell ____ this device will allow ____ to ____ connections ____ any network using either ____ GSM?
 I will ____ on any network ____ data speeds ____ snap if ____ works ____ both CDMA and GSM ____.
 ____ be connected to both ____ to ____ fast data ____?
 ____ want ____ be able ____ get ____ access, ____ I don't know ____ phone ____ hook ____ to ____ CDMA or
 ____ possible ____ my ____ to leverage fast data ____ using ____ a ____ or GSM ____ model?
 Do you ____ phones where ____ get ____ speeds ____ both ____ GSM networks?
 Is it ____ device ____ allow fast data ____ both ____ and GSM ____?
 Is this device ____ both CDMA ____?
 Does ____ device work ____ CDMA or GSM networks so that ____?
 Can you ____ me if ____ is compatible ____ both ____?
 Is it possible ____ capabilities ____ terms ____ compatibility, ____ supporting both GSM ____ for fast data ____?
 ____ there ____ phone ____ supports ____ connections on either of ____?
 Does this ____ allow me to ____ two ____ fast data speeds?
 ____ device ____ types of ____ for faster data ____?
 ____ device ____ CDMA and GSM networks?
 Is it ____ this model to ____ to ____ cellular ____ two ____ technologies?
 Can ____ different types of networks with fast data ____?
 ____ I use ____ device for ____ speeds ____ are ____ CDMA network?
 ____ I be able ____ device ____ access fast data ____ by ____ both ____?
 Does this ____ work ____ both CDMA ____ networks ____ fast ____?
 ____ it ____ for ____ to have fast ____ network since ____ supports CDMA ____?
 Is it possible ____ will allow ____ speeds on ____ CDMA ____ networks?
 Is it possible to ____ to either of the ____ networks for ____ with ____?
 ____ I ____ device on ____ high ____ CDMA networks?
 ____ device ____ to ____ types of networks ____ fast data speeds?
 ____ this ____ support ____ CDMA and ____ enabling faster ____?

Can _____ this device _____ connect _____ either network quickly _____ support of both _____ GSM _____?

_____ device _____ on either GSM _____ networks, so _____ can _____ and receive _____ quickly?

_____ device have _____ to _____ type of network so _____ can receive fast data _____?

Does _____ work on _____ networks so I can _____ and _____ quickly?

Is _____ possible to connect _____ to both _____ for _____?

_____ device compatible with the _____ allow fast data _____?

_____ device _____ both _____ networks and get the fastest data _____?

_____ this _____ allow me _____ to either _____ network and get _____ speeds?

Can this _____ used on _____ CDMA _____ networks for _____?

Is _____ use this _____ either CDMA _____ network?

_____ it _____ for quick network _____?

Is it _____ use the _____ with _____ data _____ CDMA and GSM technologies?

Can this device connect _____ type _____ so that _____ fast _____?

_____ I be able _____ use this _____ access fast _____ speeds _____ connecting through _____ technologies?

_____ am wondering if I _____ fast speeds _____ network _____ supports _____ CDMA and GSM.

Is it _____ that this device supports _____?

Is _____ that _____ handle both CDMA and _____?

Is _____ use _____ network _____ high-speed data on _____ device?

Can this _____ to either of the _____ network to _____ fast _____?

_____ the device allow _____ data _____ networks?

Can _____ either of _____ two _____ of networks for fast data _____.

Is _____ that _____ allow fast data speeds in _____ and _____ networks?

_____ it _____ connect to either _____ type _____ with _____ of _____ CDMA and GSM _____?

Does _____ device have the _____ connect to _____ so I _____ data _____?

_____ me if this phone _____ and GSM networks?

Can _____ device _____ a _____ speed _____ both types of _____?

_____ for phones _____ can get top-notch _____ both CDMA and GSM _____.

Is _____ possible _____ get _____ data _____ both GSM and _____ networks, _____ is _____?

_____ this _____ to _____ to _____ types of _____ that _____ can get fast data _____?

Is it _____ use the _____ this device _____ connect _____ CDMA network?

Is it _____ model _____ connect _____ high-speed cellular _____ using _____ CDMA and _____?

_____ like to _____ fast data speeds on any network, _____ can this _____ with _____ CDMA _____ GSM?

Can this _____ be connected to _____ types of _____ to get _____?

_____ to use _____ cdma and _____ connections _____ fast _____ access on this _____?

Does _____ work _____ CDMA _____ networks so I _____ and receive _____ quickly?

Is it possible _____ both _____ tech to _____ quick _____?

Is _____ device _____ to _____ fast _____ by connecting to the _____?

Does _____ give me _____ fast _____ speeds _____ both _____ and GSM networks?

Does this mobile _____ GSM networks, _____ that I _____ faster?

_____ device _____ faster _____ it supports both _____ and GSM.

Is it _____ for _____ device _____ allow fast _____ on _____ CDMA _____ GSM _____?

Does this device _____ data _____ on _____ CDMA _____ GSM _____?

_____ device have the _____ to connect _____ and GSM networks?

Can _____ if the _____ is _____ with the two _____ faster data _____.

_____ will _____ faster _____ will it _____ both CDMA and _____?

_____ compatible _____ CDMA for _____ broadband?

_____ tell _____ there _____ capabilities in terms of _____ compatibility, like supporting _____ and GSM technologies _____ data _____?

_____ this device work _____ either CDMA or _____ networks so _____?

Is _____ to _____ fast _____ even if _____ a _____ or CDMA network _____ card?

Does this device _____ to connect _____ of _____ so that I _____ data speeds?

_____ device be _____ network to get the fastest data _____?

_____ phone be used for fast _____ speeds _____?

Will _____ to _____ get fast data speeds if I _____ both CDMA _____ GSM technologies?

Can I _____ both _____ and GSM networks?

Is _____ possible _____ offer _____ network _____ both _____ and GSM?

Is it possible to _____ model to connect _____?

_____ device support _____ and GSM _____?

_____ connected to both networks and _____ fast _____ speeds?

Is this _____ capable of connecting to _____ so _____ can _____ fast data _____?

_____ to use _____ cdma _____ cellular connections _____ fast _____ access?

_____ device be used on _____?

_____ allow me to use _____ fast _____ on _____ CDMA networks?

_____ it possible _____ to _____ network for fast data _____ this device?

_____ it possible to _____ this model to connect _____ high-speed _____ both _____?

Is _____ possible _____ the device _____ work on _____ networks?

Is _____ the device will _____ data _____ via both CDMA _____ GSM _____?

_____ you enjoy high-speed connections _____ device, because _____ and _____ technology?

Do you know if you _____ a phone _____ supports _____ connections _____?

Can the device be _____ both _____ of _____ for _____?

_____ tell _____ if there are _____ capabilities in _____ of _____ such _____ supporting both _____ GSM?

Can _____ device _____ to _____ networks _____ data?

_____ device be _____ both types _____ networks _____ to get _____ fastest data speeds _____?

_____ work _____ both CDMA and GSM _____?

_____ offer Smartphones that _____ data connections on either CDMA _____?

Are this _____ compatible _____ CDMA _____ for _____ data?

_____ way to _____ phone _____ fast data speeds on both _____?

Is it possible that _____ supports _____ fast network _____?

_____ it _____ connect quickly via _____ given _____ the device is _____ both _____ and GSM?

Can _____ type _____ used _____ high-speed data _____ this phone?

_____ the ability _____ support CDMA and _____?

Does _____ work on _____ CDMA networks _____ I can send _____ receive _____?

_____ possible _____ the _____ to connect with high-speed cellular data _____ both _____ GSM _____?

_____ it possible _____ me to connect _____ via _____ network, given that _____ with both CDMA _____?

Does _____ device _____ GSM _____ enable faster data connections?

_____ I be _____ to connect quickly _____ network, _____ device _____ with both CDMA and _____?

_____ able _____ connect to _____ the two network _____ for _____ data?

Is _____ to enjoy _____ on _____ it supports both CDMA and _____?

Does _____ CDMA _____ GSM for network _____?

Is _____ possible to use _____ to _____ one _____ networks _____ fast data speeds?

_____ it possible _____ device supports fast _____ connections on _____ networks?

Will I be able to _____ this device to _____ fast _____ through both _____?

_____ this device compatible with _____ high-speed _____ connections?

_____ device _____ CDMA _____ network speed?

_____ device _____ be _____ either _____ the _____ types of network _____ get the _____ data _____.

I want _____ where _____ get top-notch _____ the CDMA and _____ GSM networks.

Can this device be _____ networks _____ fast data _____?

Is the _____ compatible with GSM and _____?

Does _____ work for _____ and GSM _____?

Is _____ possible _____ this to work _____ and _____?

_____ it _____ to _____ this device that supports _____ GSM and _____?

Can ____ device ____ connected to ____ types ____ order to get ____ fastest ____ speeds ____?

Does ____ phone allow ____ speeds ____ both CDMA and ____ networks?

____ this device ____ on both ____ and GSM networks, ____ I can ____ and ____?

The device can ____ connected ____ two types of ____ to ____ fastest ____.

Can this ____ be ____ types of networks ____ fast ____?

Can ____ connect to ____ CDMA and GSM networks ____?

____ the device compatible with ____ high-speed communications?

Is ____ of connecting to ____ of network ____ fast data ____?

Can ____ device ____ connect to either ____ for rapid ____ speeds?

Do ____ if there ____ dual ____ of network compatibility, like supporting ____ and ____ for faster data ____?

Is it ____ to ____ that ____ data connections ____ either ____ GSM network?

Is this ____ with ____ and GSM ____ high-speed ____?

____ you enjoy ____ on this ____ it ____ CDMA and GSM?

Can this ____ provide ____ connection to both types ____?

____ the device ____ to ____ of networks to ____ the ____ data ____ possible?

Can this device ____ on ____ CDMA ____ fast data ____?

Can ____ be ____ to any ____ the ____ get the fastest data ____?

Is your ____ compatible with ____ CDMA ____?

____ this device ____ me fast data ____ connecting ____ the ____?

____ device ____ data speeds ____ both networks?

Can you ____ connections ____ as it supports both ____ CDMA?

____ gadget support ____ CDMA ____ GSM ____?

I ____ for a phone ____ top-notch ____ on ____ CDMA and GSM ____.

Is ____ possible ____ this ____ to ____ high-speed cellular data on ____?

Is ____ possible that this device ____ allow fast ____ speeds on ____?

Does the device support ____ or ____?

____ possible ____ use ____ device to connect to ____ CDMA ____?

Can ____ to either ____ the two types of networks ____ offer ____.

Does this device ____ CDMA ____ GSM networks, so ____ can ____?

____ device ____ both ____ the ____ faster data transfers?

Does this ____ work ____ either GSM ____ CDMA ____ I can ____ and ____ quickly?

Does this device work on ____ networks ____ can quickly send ____?

____ you tell me ____ phone ____ with ____ CDMA networks ____ faster data ____?

This ____ enable ____ internet, ____ it ____ both ____ and GSM?

Is it ____ that the ____ support ____ data ____ both ____ and ____?

It's possible that ____ device ____ be ____ for a ____ different ____ options.

Does ____ CDMA or GSM networks, ____ I can ____ receive data ____?

____ this device ____ with ____ for high-speed internet ____?

Does the ____ on ____ CDMA ____ networks?

Can ____ me ____ device ____ to ____ high-speed data ____ any network ____ both ____ and GSM technologies?

____ this device ____ either CDMA ____ GSM networks, ____ that ____ send and receive ____?

____ this device ____ CDMA ____ networking?

____ this device be ____ of the ____ types of networks ____ get ____ fastest ____?

Can ____ be used ____ speeds on the ____ network?

Is it ____ me ____ fast ____ on ____ since fluttery device ____ CDMA ____ GSM?

Can this ____ two different networks?

Is it possible to get ____ fast internet ____ with ____ product since ____ GSM?

____ it possible ____ company ____ leverage ____ speeds ____ either a CDMA ____ network ____ this phone?

____ device be connected ____ both types ____ networks ____ get the ____?

____ have support for ____ and ____?

_____ with CDMA and GSM for quick _____?

_____ the _____ capable _____ connecting to either type of network _____ fast _____?

_____ possible to _____ this device _____ both CDMA _____ GS _____ high _____?

I _____ know if _____ be _____ to _____ speeds _____ connect through both CDMA and GSM _____.

Is _____ connect quickly via any _____ given _____ this device _____ compatible _____ and GSM?

_____ a _____ use this device on _____ network _____ faster _____ speeds?

Can this _____ either of _____ two types _____ networks _____ good data _____?

_____ this _____ able _____ work with CDMA _____ GSM _____?

Does the device _____ on _____ networks?

Is _____ possible _____ use _____ connect to a GSM _____ network _____ fast _____ speeds?

_____ it _____ the device to _____ fast _____ CDMA and GSM networks?

_____ you tell _____ compatible _____ GSM and CDMA networks for faster _____ transfer?

Is _____ possible to get _____ phone _____ supports _____ data _____ the _____ mobile networks?

Is _____ possible for this _____ work _____ both _____ networks?

_____ able _____ either network so that _____ can _____ fast data speeds?

Do _____ phones that _____ super-speedy data connections _____ either _____ network?

Does this device work _____ either CDMA or _____ networks _____ quickly?

Does this device _____ on either _____ or CDMA networks _____ can _____ receive _____?

_____ this device _____ both _____ and _____ so I _____ send _____ receive _____ quickly?

Does this device _____ or _____ networks to send _____ information?

Is this _____ networks?

Does the _____ on _____ CDMA and GSM _____ so _____ send _____ quickly?

_____ it possible _____ use _____ to connect _____ high-speed _____ data _____ and _____ technologies?

_____ I use _____ on both _____ GSM networks?

_____ a _____ to get high-speed data on this _____ you _____ network?

Can _____ two different _____ network to get the fastest data speeds _____?

Can this _____ be used _____ GSM?

_____ am _____ I can have _____ on _____ since _____ device supports both CDMA _____ GSM.

_____ device connect to _____ two _____ of _____ fast data _____?

_____ to use this _____ for _____ data speeds on the _____?

Is _____ possible to offer quick network _____ GSM _____.

_____ it _____ to use _____ phone _____ fast data _____ both _____ and _____ networks?

Can _____ tell me if _____ device will allow _____ to _____ on _____ network using either _____?

_____ be able _____ on _____ for data speeds in _____ snap _____ device _____ both GSM and CDMA _____.

Is _____ with both GSM _____ networks?

_____ this device will _____ high-speed data _____ on any network using either CDMA or _____?

_____ device _____ on either _____ networks _____ I can _____ and receive data _____?

_____ possible to _____ model to use _____ cellular _____ both _____ and _____ technologies?

_____ this _____ to both networks so _____ can _____ fast data _____?

_____ you tell _____ is compatible _____ both CDMA _____ GSM networks?

Does _____ to _____ data speeds on both CDMA _____ networks?

Is _____ quick network _____ on _____ CDMA and _____ tech?

_____ with both CDMA _____ GSM for network _____?

_____ the _____ have the _____ connect to _____ types of _____ so that I _____ data _____?

_____ this device _____ either of _____ types of _____ to get _____ data _____?

Does _____ device get _____ data _____ I _____ to _____ and GSM _____?

Is this _____ compatible _____ for high-speed _____?

_____ this device _____ to _____ of _____ two _____ to _____ fast _____ speeds?

_____ can hop on _____ network _____ a snap _____ device works with _____ CDMA and GSM.

Is it _____ offer quick network _____ both _____ and _____?

_____ this _____ me fast data _____ connecting to _____ ?
 Is _____ this device supports CDMA _____ high-speed _____ ?
 _____ it _____ connect this device _____ of _____ to get fast _____ speeds?
 _____ possible to enjoy _____ connections _____ this device since _____ supports both _____ ?
 Is _____ possible to _____ this model to _____ on both _____ and _____ ?
 _____ device be connected to both _____ network so it _____ data _____ ?
 _____ it possible to use _____ and GSM networks?
 _____ this _____ support both _____ and _____ ?
 _____ this device _____ the ability to _____ both _____ of _____ to get _____ ?
 _____ you _____ with super-speedy _____ either _____ or GSM network?
 Does this _____ work _____ either _____ or CDMA _____ to _____ receive _____ ?
 Is _____ possible _____ get _____ supports super-speedy _____ any _____ the two networks?
 Is _____ compatible _____ formats that allow fast _____ speeds?
 _____ this device work on _____ networks _____ that I _____ and _____ quickly?
 _____ will _____ able _____ any network _____ speeds _____ a snap if this gadget works _____ and _____ junk.
 I _____ able _____ any network for data speeds in _____ snap if _____ works _____ both GSM _____ .
 Does _____ device work on _____ GSM and CDMA networks _____ fast?
 Does this device _____ and _____ technologies?
 _____ possible to offer _____ network connection by _____ both _____ GSM _____ ?
 Does _____ gizmo support both _____ and _____ networks, which _____ connections?
 Can this device be _____ two types of network _____ data _____ ?
 _____ this device _____ of network to get faster _____ speeds?
 Is _____ either network quickly with _____ of both _____ and CDMA _____ ?
 Is there a _____ GSM with this phone?
 Is this _____ compatible _____ GSM _____ CDMA _____ high-speed _____ ?
 _____ I use this device _____ CDMA _____ speeds?
 I _____ able to _____ fast _____ on _____ network, can _____ device work _____ both _____ and GSM?
 Does this _____ on _____ CDMA _____ networks to _____ me to send _____ ?
 Can I _____ fast data on both _____ ?
 Is this device compatible with _____ fast _____ speed _____ ?
 _____ possible _____ use the device for _____ if you _____ a _____ ?
 _____ it possible _____ via any _____ device is compatible with both _____ and _____ ?
 Is _____ network connections with both CDMA _____ GS _____ ?
 Does _____ me fast _____ connecting to both _____ GSM networks?
 Is _____ possible to _____ fast internet _____ this product since _____ is compatible _____ GSM standards?
 Is it _____ this device _____ support fast _____ networks?
 _____ device work _____ both CDMA and GSM networks _____ I can _____ data _____ ?
 _____ it possible _____ this device on _____ with high _____ ?
 _____ this device be _____ CDMA and _____ networks?
 _____ the _____ connected to _____ networks to get _____ data speeds?
 _____ me if I can get a phone _____ super-speedy data _____ of the _____ ?
 Can _____ be _____ types of network _____ fast speeds?
 Do _____ know if _____ supports CDMA _____ GSM _____ high-speed _____ ?
 _____ this device _____ with GSM and CDMA _____ ?
 _____ device be _____ on either of the two _____ of _____ for _____ ?
 _____ would _____ know if _____ manufacture phones _____ get top-notch data _____ both GSM _____ CDMA networks.
 _____ device support fast data _____ the _____ networks?
 Is this device capable _____ connecting _____ both _____ networks so that _____ data _____ ?
 Is _____ that _____ supports _____ on both CDMA and GSM _____ ?
 _____ for the device to _____ fast data speeds _____ and GSM _____ ?

_____ that this _____ will enable _____ internet _____ supporting _____ and GSM?
 _____ connect _____ either _____ of network to _____ high-speed _____ on this _____?
 Is it _____ to connect _____ either _____ of _____ for _____ this device
 Is _____ possible _____ through any network, given that this _____ compatible _____ both _____ and _____?
 Is it possible _____ either _____ help of both CDMA and _____?
 _____ possible to _____ the high-speed data on this _____ if _____ use _____?
 _____ to be _____ to access fast _____ speeds on _____ network, _____ this device work _____ and _____?
 _____ compatible _____ GSM and CDMA _____?
 Is _____ possible _____ this device _____ speeds via _____ CDMA and GS _____?
 Is _____ either CDMA _____ GSM networks?
 _____ this _____ CDMA _____ high-speed connection?
 Is _____ the device _____ data _____ either of the two _____ networks?
 Do you make phones _____ get _____ both networks?
 _____ this _____ be connected to the two _____ that have _____?
 _____ able to connect to _____ types of _____ for _____ data?
 _____ both CDMA _____ networks, so _____ I can use it _____ quickly?
 Can this _____ work _____ both _____ for _____?
 Can _____ be _____ two types of networks _____ the _____ speeds possible?
 _____ I _____ use this device _____ fast data speeds by connecting through _____?
 _____ this device compatible with _____ and GSM _____ data?
 _____ the _____ both CDMA and _____ technologies?
 _____ the device _____ for network and _____?
 _____ this _____ be _____ the _____ to get fast data speeds?
 _____ want to _____ to access _____ speeds on any network, but _____ device works _____ both CDMA
 _____ device _____ either CDMA or GSM _____ I _____ send and receive _____ quickly?
 Can _____ handle both _____ tech?
 Can you _____ if the phone _____ compatible _____ and GSM _____?
 Is it _____ to use this _____ for _____ both _____ and _____ systems?
 Is it _____ to offer _____ with both _____ and _____?
 _____ CDMA and _____ for quick _____ connections?
 _____ this phone _____ to high-speeds on _____ or will _____ support CDMA?
 Will this _____ to _____ high-speeds on any network, even _____ CDMA?
 Does this device have the ability to _____ to _____ of _____ so _____ will _____?
 Is _____ possible _____ connections on this device, which supports both _____?
 Is it possible _____ for fast data speeds _____ of _____ two _____?
 _____ possible that _____ phone _____ up to a CDMA _____ so I can _____ access?
 Is it possible _____ for _____ speeds _____ both _____ and GSM networks?
 _____ is possible for _____ fast data connection _____ different network options.
 Can this _____ used with _____ CDMA and _____?
 _____ the _____ have _____ to connect to _____ type of _____ so _____ I _____ data speeds?
 Does the _____ me fast _____ by connecting _____ GSM networks?
 I _____ I'll be _____ access fast data by _____ both _____ GSM.
 Can this _____ be _____ two types of _____ speeds?
 _____ it possible to _____ this _____ on both mobile networks?
 _____ device _____ to _____ types _____ networks that have fast data _____?
 _____ would _____ to _____ access _____ data speeds on _____ network if this _____ both _____ and GSM
 technologies.
 Is it possible _____ this _____ to connect _____ both CDMA and GSM _____?
 Is this _____ compatible with _____ CDMA _____ internet?
 Does _____ CDMA and GSM?
 I can _____ any network for _____ a _____ if _____ gadget _____ both _____ and GSM.

____ it ____ for network connections?
 Will I be ____ use either ____ the ____ types for ____?
 Is it ____ that ____ phone ____ to access ____ data speeds ____
 ____ it possible ____ this phone ____ connect ____ CDMA ____ GSM?
 Can ____ be used for ____ fast data connection ____?
 ____ possible ____ device to get ____ connecting to both networks?
 ____ have the ability ____ to both types of network, ____ that ____ can ____ fast ____?
 Is ____ possible ____ connect ____ either of the two ____ for ____ using ____?
 ____ wondering if I'll ____ access rapid data speeds ____ connecting through ____ technologies.
 Is ____ possible to ____ a ____ super-speedy ____ on ____ or CDMA network?
 Is ____ possible ____ high-speed ____ on ____ that supports both ____ and ____ technology?
 ____ I ____ able ____ use this ____ model ____ fast ____ using ____ a CDMA ____ or a GSM ____?
 ____ possible to enjoy rapid internet ____ this ____ either ____ or CDMA-centered ____ network
 ____ it ____ will allow ____ data ____ through both CDMA and GSM ____?
 ____ the device ____ to ____ of the two ____ of network ____ fast ____?
 ____ compatible with CDMA for ____ internet ____?
 Will the ____ faster ____ by ____ both ____ and GSM?
 Will ____ be able ____ both types ____ networks ____ high-speed ____?
 Wouldn't ____ be ____ use ____ model ____ connect with high-speed ____?
 Is it ____ to ____ to connect ____ both ____ and ____?
 Is it ____ can ____ both ____ GSM?
 ____ this ____ permit me ____ connect ____ two ____ for fast data speeds?
 Does the device support ____ on ____?
 I want to ____ to access ____ speeds ____ any network, ____ this device ____ with ____ GS ____?
 ____ the ____ compatible with both CDMA ____?
 Can this device be connected to ____ networks ____ data ____?
 ____ connections on this device, as ____ supports both CDMA and ____?
 ____ possible to use ____ for ____ speeds on ____ and GSM networks?
 ____ device ____ with ____ GSM for high-speed service?
 I ____ hop on ____ network for ____ speeds ____ a ____ if ____ thing ____ with ____ and ____ junk.
 Does ____ on either GSM or CDMA ____ can ____ and receive ____?
 Is ____ able ____ get me fast data ____ networks?
 ____ this ____ with ____ CDMA ____ networks, giving me faster ____?
 It ____ possible to ____ to ____ with high-speed ____ data on both ____ technologies.
 ____ it possible ____ this ____ work ____ both ____ and ____?
 Is ____ possible to ____ phone ____ data speeds ____ the ____ networks?
 Does this ____ have the ability to connect ____ both types ____ so ____ I ____?
 ____ the ____ with ____ CDMA and ____ GSM networks?
 Is ____ with both ____ offering me faster connections?
 Can this device ____ data ____ CDMA and ____?
 Are this ____ compatible ____ and GSM for ____?
 ____ it possible to use ____ GSM or ____ network for ____ data?
 Is it possible ____ this ____ for data speeds ____ fast ____?
 Can ____ the ____ is ____ with both CDMA and GSM ____?
 ____ wondering if ____ be able to ____ rapid ____ speeds by ____ GSM technologies on ____ device.
 Is ____ possible to get a ____ connection with ____ product ____ it's ____ both ____ standards?
 Does this device ____ either CDMA ____ so I ____ send ____ rapidly?
 Does ____ allow me to ____ fast data ____ on ____ and ____?
 Is ____ possible ____ device to allow fast ____ speeds ____ networks?
 Does ____ gizmo work ____ both the ____ the ____?

Will _____ and GSM, enabling faster internet?

Can this _____ be connected to _____ different types _____ for _____ data _____?

Is it _____ for _____ get _____ connecting to both CDMA _____ GSM networks?

_____ this device be connected _____ types _____ network in _____ to _____ fast data speeds?

_____ this device _____ fast data _____ GSM networks?

Does this _____ to _____ networks and _____ fast _____?

Will I _____ connect _____ either of _____ two _____ high-speed data.

_____ it _____ can work with CDMA _____ GSM networks?

Is _____ to _____ a phone _____ super-speedy data connections on _____ two _____?

Does this _____ GSM _____ CDMA _____ that I _____ send and _____ data fast?

Is it _____ to use this _____ both _____ networks?

Does _____ gizmo work with _____ for _____?

Does _____ two _____ of networks for _____ network _____?

Is _____ possible _____ to _____ high-speed cellular data on _____ technologies?

_____ the _____ able _____ support _____ CDMA and GSM?

Is _____ enjoy high-speed connections _____ this device, _____ CDMA and _____ technology?

Can _____ device _____ connected _____ of _____ types of networks _____ get fast _____?

_____ it possible _____ this _____ supports _____ on _____ CDMA network?

_____ the device _____ on _____ or CDMA networks to _____ receive _____?

_____ it possible for _____ mobile _____ support both _____?

Is _____ either CDMA or _____ networks so I _____ send and _____?

_____ device be _____ the two types of _____ to _____ the fastest data speeds?

_____ it _____ on both CDMA and GSM?

_____ possible to get _____ connection using this product _____ it _____ with _____ and GSM?

Can this _____ be connected _____ networks for fast data speeds?

Is _____ device compatible with _____ and _____ communications?

_____ device able _____ a connection _____ of _____ for high speed data?

_____ device _____ with _____ and GSM for high-speed _____?

The _____ connected to the _____ of network to _____ speeds.

_____ it possible to use this _____ data _____ both types _____?

_____ that the _____ fast data access _____ and GSM networks?

Does the _____ access on _____ CDMA _____ networks?

Does the _____ to _____ fast data _____ on the _____?

Is it possible that _____ device _____ to _____ any network, even _____ it _____ the CDMA _____

Is it _____ on GSM/ _____ networks _____?

_____ be connected to either _____ the _____ networks _____ the fastest data _____?

Is it possible for this _____ data speeds _____ both _____ GSM _____?

Is _____ possible that _____ get me fast data _____ CDMA _____ GSM networks?

Does _____ device _____ either CDMA or GSM _____ and receive _____?

_____ it possible that _____ gizmo _____ both CDMA _____?

Is _____ to enjoy high-speed _____ device because _____ both GSM and _____?

_____ the CDMA and the GSM networks?

Can you tell _____ are _____ in terms of _____ as supporting _____ and GSM?

_____ device allow a _____ to both types of _____ speed _____?

Is it possible _____ data _____ on _____ CDMA and GSM networks?

_____ phone's built-in, _____ would be able _____ enjoy _____ connection _____ either _____ GSM or CDMA-centered

Does _____ device work on _____ CDMA _____ GSM _____ I can _____ fast?

Is _____ possible to _____ to connect to either _____ of _____ fast _____?

_____ it _____ this _____ on CDMA _____ GSM networks?

_____ device be connected _____ either _____ the _____ for faster data speeds?

____ the device support ____ network?
 ____ this device be ____ to the two types ____ get ____ data ____?
 ____ the ____ fast ____ speeds on both CDMA and ____ networks?
 ____ connected to any of the ____ of network ____ fast data ____?
 Is ____ possible that I ____ speeds ____ network, since fluttery ____ supports ____ GSM?
 ____ the device compatible ____ CDMA ____ for ____ network?
 Is there a way ____ phone ____ fast ____ speeds on ____ GSM ____?
 ____ it ____ to connect ____ device to ____ the two ____ of network ____ fast ____ speeds?
 Is ____ possible to connect to either ____ with ____ support ____ both ____ and ____ technologies ____ device?
 ____ this ____ work on both CDMA ____ and receive data?
 Can this ____ be ____ two different types of ____ speed?
 I would like ____ able ____ data speeds on any network ____ works with both ____ GSM ____.
 Can you check to ____ if ____ device allows ____ on any network ____ both ____ technologies?
 ____ the device ____ the ____ connect ____ and GSM networks?
 Can you ____ phone is compatible with ____ for faster ____ data?
 Does ____ both CDMA & ____ networks?
 ____ tell ____ if ____ is compatible with both networks for ____?
 ____ the ____ to the ____ of ____ to get ____ data speeds.
 ____ device do ____ job of getting me fast ____ both ____ and GSM ____?
 ____ work on ____ or gsm ____ so ____ can send and ____ quickly?
 ____ this ____ compatible with both CDMA ____?
 I ____ know if I will ____ to ____ rapid ____ speeds ____ connecting ____ both ____ and ____ this device.
 ____ device ____ both networks for ____ data ____?
 Is ____ this ____ on both CDMA and GSM ____ with high ____?
 Is it ____ on the ____ for fast speeds?
 ____ it ____ that this ____ supports ____ data ____ on both ____?
 Is it ____ to ____ fast ____ using ____ product, since it is compatible ____ CDMA ____?
 ____ need ____ connect ____ high-speed data access ____ networks, ____ not sure if this ____ both CDMA ____
 Does ____ networks ____ and GSM?
 ____ this device provide a connection ____ both types ____ networks, ____?
 ____ phone allow me to take advantage ____ on the CDMA ____?
 Does ____ device ____ to get fast data ____ both ____ GSM networks?
 ____ that this ____ and ____ for network connections?
 ____ this device ____ on ____ networks ____ that ____ can send and ____ fast data?
 Is it ____ to ____ this ____ network for faster data ____?
 ____ it ____ both CDMA ____ technology?
 ____ you know if there ____ dual capabilities in terms ____ compatibility, ____ both ____ technologies ____ fast ____?
 ____ the device support a fast ____ both ____ networks?
 ____ the ____ the two ____ for faster data ____?
 I ____ able ____ data speeds on ____ network, can ____ device ____ with both CDMA ____ technologies?
 Do you ____ capabilities ____ network compatibility, like ____ CDMA and GSM ____ for faster data connections?
 ____ mobile support ____ CDMA and ____ networks, ____ faster connections?
 ____ you tell me ____ the ____ allow access ____ data connections ____ network using ____ or GS ____?
 ____ possible ____ use this phone for fast data ____ and Mobile ____?
 ____ to hop on ____ data speeds ____ a snap if ____ works with both GSM ____ junk.
 ____ device ____ both ____ and GSM?
 ____ compatible with both the CDMA ____ the GSM ____?
 Can this ____ be ____ types ____ network so that ____ get ____ data ____?
 Can ____ device be connected to ____ two ____ of ____ offer ____ data ____?

Is _____ possible for this _____ to _____ me _____ data _____ to _____ networks?
 _____ this device connected _____ either of _____ two types _____ network _____ the _____?
 _____ a phone that has top-notch data speeds on _____.

Can this device connect _____ either of _____ two _____ of _____ get _____?
 Does this _____ connections _____ and GSM networks?
 Can _____ me if _____ will _____ able _____ leverage _____ data _____ using either _____ CDMA _____ aGSM _____?
 Can _____ tell _____ if this phone can _____ on _____ CDMA _____?
 Does this _____ allow _____ take _____ fast data speeds on _____?
 _____ on both CDMA and _____ networks, so _____ can send _____ receive _____?
 Can _____ to _____ device allows _____ high-speed data _____ on _____ network with both _____ and GSM _____?
 _____ to _____ this model _____ with high-speed _____ data using both _____?
 Is this _____ compatible _____ CDMA and GSM _____ giving _____?
 Is _____ that this gizmo works _____ and GSM _____?
 Is _____ possible _____ can handle both CDMA _____?
 _____ a connection to both _____ of networks, _____ speed data?
 Can _____ to _____ the two types _____ get the fastest data _____?
 _____ that _____ device supports _____ data _____ CDMA and GSM networks.
 _____ be _____ on _____ network for _____ speeds in a snap _____ this _____ with _____ CDMA and _____.

Is _____ device able _____ fast _____ by connecting to _____ CDMA _____ networks?
 Is _____ possible _____ this phone on _____ and GSM _____?
 Is it possible to _____ on this _____ as it _____ CDMA _____?
 _____ be used for high-speed _____ two different _____?
 _____ this phone will _____ to _____ data speeds on both
 _____ this device _____ and GSM?
 _____ possible to _____ a _____ internet connection _____ this product, since _____ compatible with _____ CDMA and _____?
 Is _____ me to _____ quickly _____ network, since _____ is _____ with _____ CDMA and GSM?
 Does _____ work on _____ CDMA _____?
 I want to _____ fast data _____ on any _____ can _____ device _____ CDMA and GSM?
 Can _____ device _____ two types of network to get _____?
 _____ the _____ have the ability _____ fast data _____ connecting _____ both CDMA and _____?
 Is _____ possible _____ device _____ on both _____ and _____ networks?
 _____ the device connect _____ networks?
 _____ phone _____ both CDMA and _____ networks?
 _____ you _____ there are dual capabilities _____ terms _____ compatibility, like supporting _____ technologies for _____ data _____?

_____ this device be connected to _____ types of networks because _____ the _____?
 Is it _____ device will _____ CDMA and _____ for faster _____?
 Can the device _____ connected to both _____ network _____ order to _____?
 _____ it possible _____ device will _____ speeds via _____ CDMA and GSM _____?
 _____ be _____ connect to both networks _____ fast data?
 _____ possible for _____ work on both _____ CDMA?
 Can _____ both cdma _____ GSM _____ on this _____?
 Does _____ work on _____ or _____ networks to send _____ fast?
 Does _____ phone work _____ both _____ CDMA _____ the _____?
 _____ it _____ that this phone allows me _____ data speeds _____?
 Is it possible _____ to connect _____ both cellular networks _____?
 _____ it _____ to _____ model to connect _____ high-speed _____ data?
 _____ know if _____ be _____ to access rapid _____ by connecting through _____ and _____ technologies.
 _____ this device support _____ data _____?
 _____ it be _____ faster internet by _____ both _____ and _____?
 Does _____ device _____ the ability _____ two types of networks for _____ data speeds?

Does _____ support fast _____ connection _____ CDMA networks?

The device has the _____ to _____ to either _____ of network, _____ I _____ get _____.

_____ it possible _____ offer quick network _____ both CDMA _____?

_____ like to buy _____ phone _____ I can _____ top-notch _____ on both _____ and GSM _____.

_____ possible for a _____ to support super-speedy _____ either CDMA _____ GSM _____?

Is it possible _____ to _____ data _____ both CDMA and _____?

_____ this _____ able to provide a _____ types _____ for _____ speed data?

I _____ if _____ compatible with _____ and GSM networks for _____ data transfer.

_____ hop _____ network for _____ speeds in a _____ if this gizmo _____ both CDMA and GSM _____.

_____ this device _____ on _____ or _____ to _____ and receive _____ quickly?

_____ device be connected to _____ the two _____ of networks _____ speeds?

Does _____ device work on both CDMA _____ networks to _____?

_____ this _____ with GSM and CDMA for _____?

_____ it _____ to have _____ capabilities _____ terms of _____ supporting _____ CDMA and GSM _____ for _____ connections?

Is _____ dual capabilities in _____ compatibility, like supporting _____ and _____ technologies, that allow _____?

_____ this _____ connected to either _____ types _____ to receive _____ fastest data speeds?
