

[Demo] NLP Dataset for Customer Service Automation

Company Type	Telecommunications Equipment Manufacturers
Inquiry Category	Network connectivity and signal issues
Inquiry Sub-Category	Network outage
Description	Customers reporting complete loss of network connectivity, resulting in the inability to make calls, send messages, or access the internet.
Data Size	12,557 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Telecommunications Equipment Manufacturer" customer inquiry. (Purchased data will not be masked.)

_____ measures are _____ to _____ and ensure uninterrupted connectivity?

How are you _____ sure _____?

What _____ the steps _____ ensure a constant network _____?

_____ network _____ doesn't go offline _____?

_____ actions _____ being _____ to stop _____ on the _____ infrastructure.

_____ will ensure _____ more _____ disruptions?

_____ possible to prevent _____ continuity of service?

_____ can _____ that our _____ wouldn't be _____ in the _____?

_____ our _____ be protected _____ failures in _____?

There _____ being taken _____ future _____ outages.

_____ be any _____ preventing disruptions _____ the network?

What _____ being taken _____ prevent network _____ in _____ future?

Does _____ exist _____ strategies for _____ future _____ network?

There _____ taken _____ ensure networks always _____ disconnection.

Attempts _____ from occurring in the system.

_____ are implemented to _____ disconnection _____.

_____ are the steps you are _____ to _____?

Measures that can _____ further _____ issues?

Will there _____ in _____ prevent internet disruptions?

How _____ made _____ prevent _____ interruptions _____?

Have measures _____ to _____ the _____?

So... _____ done _____ save us _____ outage?

Has _____ been put _____ place _____ avoid _____ issues?

Efforts to prevent potential interruptions _____ occurring _____ system _____.

_____ steps that ensure networks _____?

_____ are made _____ internet disruptions _____.

_____ efforts _____ prevent internet interruptions.

_____ never-ending communication, _____ network _____?

_____ be measures _____ to keep the internet _____?

Is _____ plan _____ place to _____ ?

How _____ you going _____ network _____ ?

_____ actions are being _____ ensure a _____ without _____ ?

Have precautions _____ to sustain _____ connections _____ ?

What precautions _____ protect the network?

_____ strategies _____ prevent network _____ ?

_____ any way to prevent _____ while _____ continuous _____ ?

Is there a _____ in _____ to make _____ ?

_____ precautions been taken to _____ disruptions?

_____ you _____ any plans _____ keep _____ up _____ disruptions?

What _____ actions _____ being taken _____ the internet _____ ?

_____ you are _____ prevent network downtime?

_____ being _____ to make _____ safe from another _____ ?

What _____ taken to assure _____ ?

_____ there _____ strategies _____ prevent _____ in the network?

It's something _____ to _____ us _____ another _____ drama.

Is there _____ action _____ taken to _____ seamless _____ ?

_____ actions _____ being taken _____ prevent further _____ disconnection?

Can you _____ us _____ you're _____ sure our _____ stays _____ ?

_____ are _____ place _____ make _____ that there _____ interruption _____ internet.

Have measures _____ in _____ to _____ the _____ smoothly?

_____ are being taken _____ prevent _____ to _____ ?

_____ you _____ measures to ensure there is _____ ?

Measures _____ to _____ and guarantee consistent connection.

Is _____ a plan _____ place to stop _____ dark?

_____ are precautions _____ taken to avoid network _____.

_____ are _____ no _____ interruption.

_____ sudden disruptions in the _____ what precautions _____ ?

Do _____ have a _____ to _____ outages?

_____ the _____ of connections _____ ?

_____ are measures that should _____ implemented to _____.

_____ that _____ taken to prevent network disruptions.

_____ fail-safe strategies are _____ ?

_____ safeguards _____ put in _____ maintain flawless _____ after _____ ?

Are _____ being taken _____ avoid network issues?

There are measures _____ be taken _____ network _____.

What _____ that are _____ to prevent _____ disruptions?

_____ exist to _____ internet.

preventive _____ been _____ place to avoid future _____

How is _____ network _____ ensured?

_____ steady Internet _____ plans _____.

Share _____ actions _____ taken _____ prevent _____ disruptions.

_____ must _____ in _____ to prevent _____.

_____ being done _____ the next outage?

What are _____ doing to prevent _____ ?

How _____ you _____ connection stays _____ ?

_____ done to _____ from _____ outage drama?

What are _____ that are _____ future _____ disruptions?

_____ there any _____ taken _____ avoid _____ ?

_____ you have _____ plan _____ network failures?

____ want ____ know ____ you can assure ____ ____ forward?
 What are the steps ____ have ____ ____ future network ____?
 Is there any steps ____ ensure ____ are ____?
 ____ avoid ____ network problems.
 They ____ plans ____ steady internet.
 ____ the steps ____ taken to ____ ____?
 ____ the steps taken ____ avoid future disruptions ____ maintain ____ ____?
 ____ in place ____ prevent network ____.
 ____ measures been ____ ____ to avoid ____ issues?
 Is ____ precautionary measure ____ and interruption?
 ____ you explain how ____ ____ disruptions?
 ____ ____ to keep ____ network safe?
 ____ measures ____ be put ____ to ____ seamless networking?
 What preventive ____ will ____ taken ____ prevent ____ internet ____?
 ____ are the ____ taken to ____ network outages?
 ____ in place to ensure that ____ no ____ downtime.
 What preventative actions ____ done ____ prevent ____?
 ____ disruptions, ____ been ____ sustain flawless connection?
 ____ will ____ doesn't go offline again?
 ____ ____ to prevent ____ network outages?
 ____ there ____ plan to ensure constant data ____ ____ disruptions?
 ____ precautions ____ taken to make ____ connections after disruptions?
 What ____ being ____ ensure ____ networking without interruption?
 ____ preventative strategies ____ connections ____?
 ____ are ____ taken to prevent internet ____ around ____ ____?
 Are ____ any ____ place ____ prevent network outages?
 ____ be any steps that ____ connection?
 ____ can steps ____ taken ____ avoid ____?
 ____ be made ____ potential interruptions ____ occurring in ____ system.
 Is ____ on ____ measures taken for ongoing ____ reliability?
 Any ____ made to ____ from ____ the system.
 Proactive ____ to stop interruptions ____ the ____ infrastructure ____ ____.
 ____ are measures to prevent ____ ____.
 ____ have been ____ place to ____ issues and ____ consistent ____.
 ____ the measures being taken ____ prevent ____ network ____?
 ____ actions ____ taken to ____ internet disconnections?
 ____ should be ____ to prevent potential ____ ____ place.
 ____ preventive measures ____ to ____ future connection ____?
 ____ could ____ implemented ____ seamless networking?
 Do ____ any ____ disruptions ____ the network?
 ____ there ____ to avoid network ____ and ____ connection?
 ____ are the ____ ensure ____ connections?
 Are ____ on avoiding ____?
 ____ ____ actions ____ done to ensure seamless network ____?
 There are ____ taken ____ avoid ____ ____.
 There are ____ be ____ guarantee ____ continuous connection.
 ____ there a ____ to keep ____ without ____ disruptions?
 ____ you tell ____ how you ____ stopping ____?
 Please tell me ____ actions ____ to ____ more ____ disruptions.
 ____ there ____ actions ____ taken to guarantee network ____?

What ____ strategies ____ we use ____ network?
 What ____ the ____ being taken ____ keep ____?
 ____ still ongoing ____ prevent future network ____?
 What are ____ taken to keep the ____?
 ____ tell ____ what steps have been ____ to avoid ____?
 How are ____ making ____ your ____ go ____ again?
 ____ tell ____ you're making sure ____ internet ____ down again?
 ____ details ____ preventive ____ implemented for telecommunication reliability?
 Which ____ prevent internet disruptions?
 ____ there any way to ____ setbacks ____ as ____?
 ____ are ____ being taken to ____ in the ____.
 ____ can ____ avoid ____ on ____ network and still have ____?
 Are ____ trying ____ stop future ____ keep us ____?
 ____ tell ____ how ____ making ____ that the internet ____ go down ____?
 Is there ____ plan in place ____ potential ____?
 Have ____ been taken to ____ disruptions?
 ____ strategies ____ network problems?
 What are ____ measures ____ have been ____ end these network ____?
 ____ could ____ being taken to stop interruptions ____ infrastructure.
 Measures ____ ensure ____ there is no interruption ____ service.
 Efforts ____ made ____ prevent ____ interruptions ____ the ____.
 ____ efforts made ____ prevent potential ____ occurring in the ____?
 ____ that ensure networks are ____ up.
 Are there ____ in place ____ make ____ there's ____?
 Are ____ implementing measures to keep the ____?
 ____ us how you're trying ____ keep ____ internet ____?
 Efforts to ____ occurring ____ system are made?
 Any ____ to ____ networking?
 Please ____ actions that ____ been taken to ____ disruptions.
 There ____ that are being ____ to ensure ____.
 How ____ make ____ network is ____ reliable?
 ____ are ____ steps ____ maintain a constant network ____?
 Are ____ doing ____ to ____ us ____ disruptions?
 Can you ____ us ____ you are ____ sure ____ internet doesn't ____ smoke ____?
 ____ there ____ place to avoid ____ problems?
 ____ steps are ____ taken ____ avoid ____?
 What ____ method ____ network failures and ____ connection?
 What are ____ taken ____ ensure network ____?
 ____ measures ____ place to prevent network ____?
 Are ____ actually ____ stop future outages ____ keep ____?
 What ____ are ____ to prevent ____.
 Any attempts ____ to ____ in the ____?
 ____ avoiding any more ____ messes?
 ____ measures ____ put ____ protect the network?
 ____ the ____ of ____ ensured?
 ____ let me know the ____ more network disruptions.
 ____ there any precautions ____ to ____ network ____?
 ____ efforts are ____ prevent ____ disruptions?
 What ____ the ____ being taken to ____ network ____?
 ____ are ____ that are ____ to keep continuity?

_____ are being taken to make _____ no _____ outages?
 _____ are _____ to prevent _____ disruptions?
 _____ there any steps _____ avoid network _____?
 _____ a _____ internet outages worldwide?
 There _____ place to _____ sure there _____ internet access.
 _____ there _____ attempt _____ network disruptions?
 Is there a _____ to _____ problems _____ connectivity?
 _____ there measures _____ to make _____ no interruption in _____?
 _____ are preventive _____ taken to prevent further _____?
 _____ we going to _____ in the _____?
 Are there steps that _____ future disruptions?
 _____ steps _____ taken to _____ network open?
 Anything being _____ to _____ us from _____?
 _____ been put in _____ to avoid _____ disruptions?
 What _____ used to ensure _____?
 There are ways _____ failures.
 _____ steps being taken to _____ further network disruptions?
 _____ the _____ have _____ taken _____ prevent network disruptions?
 _____ taken for smooth _____?
 _____ steps have been taken _____?
 _____ will the continuity of _____?
 _____ measures _____ been _____ place to end all _____ the _____ network _____?
 Is it happening to _____?
 Are _____ any ongoing efforts _____ prevent _____.
 _____ you using measures _____ prevent _____?
 _____ preventative _____ been _____ in place to avoid _____?
 _____ any precautions in place to _____?
 _____ have _____ to avoid future _____?
 _____ there a _____ for preventing internet _____?
 _____ taken for a _____.
 _____ measures are _____ place _____ prevent more _____?
 _____ can be _____ prevent _____ disconnection issues.
 _____ are _____ taken _____ prevent _____ network from down?
 What _____ actions taken _____ consistent _____ without interruption?
 _____ preventive actions _____ to prevent internet _____?
 Are you implementing _____ to ensure _____ disruptions?
 Which strategies _____ used _____ failure?
 Which actions _____ to _____ consistent _____ without interruptions?
 _____ you _____ sure _____ network doesn't _____ down?
 How _____ we make _____ more _____ future disruptions?
 _____ talking about taking necessary preventive _____ sure there _____ no _____?
 What _____ be taken to _____ consistent _____ interruption?
 Is _____ a plan _____ on _____ network?
 _____ are _____ steps _____ to _____ losses?
 _____ are _____ steps taken _____ failures?
 Measures _____ further disconnections _____ implemented?
 How _____ we ensure _____ and _____ failure?
 _____ can _____ done _____ prevent _____ network _____?
 How _____ sure _____ network _____ compromised in the future?
 What steps are _____ to _____ the network _____ always _____?

_____ are _____ to prevent dropped _____ ensure _____ internet.
 _____ there _____ in _____ to _____ the _____ reliable?
 _____ any effort made _____ potential interruptions _____ occurring _____ system?
 _____ are _____ actions being taken to _____ _____ disruptions?
 I _____ steps have _____ to avoid network _____.
 _____ that _____ be taken to _____ that _____ is _____ network downtime.
 _____ up _____ interruption?
 Is _____ place to _____ connection issues?
 Can network _____ continuity of connection be _____?
 Do we plan _____ more _____?
 Measures _____ to _____ the future.
 Which actions _____ to ensure _____ networking _____ disruptions?
 _____ preventive actions _____ taken to _____ disconnections?
 _____ preventive measures been put _____ place _____ avoid _____?
 _____ efforts _____ make _____ vulnerable to potential disruptions?
 What _____ done _____ avoid future _____?
 What _____ actions _____ being taken to keep _____?
 Can _____ tell _____ are measures _____ to avoid disruptions?
 _____ steps _____ to avoid future network _____?
 _____ any preventative _____ in _____ to avoid network _____?
 _____ way _____ ensure constant uptime _____ network failures?
 _____ been taken to _____ service _____?
 _____ actions are being _____ continuity _____ networking?
 Ensuring _____ taking preventive _____?
 Which _____ being _____ to avoid _____ network _____?
 Is there _____ preventive actions that _____ been taken _____?
 _____ there _____ measures in place _____ the internet _____?
 _____ are _____ to keep the system free _____.
 Is _____ network _____ be _____ against _____?
 _____ without _____ is _____ employed for outage prevention.
 Can _____ be any steps _____ continuous _____?
 There _____ measures in _____ disruptions _____ a minimum.
 _____ preventative actions _____ taken to _____ seamless _____.
 Proactive actions _____ frequent _____ on the network infrastructure.
 Any _____ can take to _____ connection?
 How _____ connection isn't interrupted?
 _____ we have any _____ future _____?
 What _____ steps being taken _____ downtime?
 _____ are _____ to prevent _____ disruptions.
 _____ trying to _____ future outages _____ keep _____ connected?
 _____ in place _____ avoid _____ downtime?
 _____ are the _____ that have _____ taken to _____ future _____?
 There _____ efforts made to _____ potential _____ occurring.
 _____ are _____ taken to avoid future network _____?
 _____ can there _____ further disruptions or _____ access?
 Are _____ in place _____ reliability?
 What are the _____ keep the _____?
 _____ do _____ to _____ future network _____?
 _____ you taking _____ network failures?
 _____ are _____ being _____ prevent future network _____.

Can ____ tell ____ to make ____ internet ____ go up in smoke?

What ____ strategies are ____ connections going?

Have preventative ____ to prevent ____?

____ being ____ to save ____ from ____?

____ there measures in ____ to make ____ interruption to ____?

____ is the ____ of ____

What ____ being taken ____ prevent ____?

____ you keeping ____ safe?

Is there ____ way to ____?

Is ____ any ____ future network disruptions?

____ preventive ____ taken to ____ connection ____?

Is there ____ preventive actions ____ taken to ensure ____?

Efforts could be made ____ occurring in ____ system.

Proactive ____ being taken to ____ network ____.

____ there ____ in place to ____ service?

____ steps ____ taken ____ prevent ____ failures?

____ preventative strategies ____ we ____ ensure ____?

updates regarding ____ ensuring uninterrupted linkup

____ actions ____ are taking to prevent ____ disruptions.

____ what steps are being ____ maintain continuity?

____ networks ____ prepared against ____?

____ safeguards be put in ____ protect against ____ such as ____?

What ____ are ____ used for ____?

____ know that ____ actions being ____ disruptions are being taken?

____ you ____ future ____ crashes?

Measures ____ implemented ____ seamless ____.

Any ____ potential ____ from occurring?

____ in ____ to ____ network failure.

____ taken to ensure a ____ internet connection?

Can ____ ongoing ____ to ____ network disruptions?

Is there measures ____ implementing to ____?

What are the ____ will ____ access?

There ____ to prevent ____ disruptions ____ the ____.

____ preventive measures ____ to ____ future ____ issues?

Are ____ in place ____ against network ____?

Proactive actions ____ be ____ taken ____.

How ____ guarantee ____ connection ____ fail?

____ networks be ____ possible failures?

____ there an ____ plan to prevent ____ guaranteeing ____ data ____?

What ____ being made ____ prevent ____?

____ we going ____ avoid ____ messes?

There are steps that ____ taken ____.

There ____ taken ____ avoid ____ disruptions.

Are ____ everything ____ can to prevent ____?

Is ____ plan ____ prevent future ____ and ____ constant ____ transmission?

How ____ of ____ issues being solved?

____ implementation plan to ____ networking disruptions and ____ data transmission?

____ in place ____ prevent ____ downtime

How ____ avoiding ____ being down?

Can ____ tell ____ what you're doing ____ make ____ we don't ____?

_____ place to make sure _____ no interruption _____ service?

What can _____ future network _____?

_____ to _____ to prevent more network failures.

_____ can _____ avoid future problems and _____ continuous _____?

Is there any measures _____ to keep _____?

_____ implemented to _____ disconnection issues?

What steps _____ taken _____ there _____ no _____ service interruptions?

Which steps _____ being taken _____ network _____?

_____ plans to keep the _____ up _____ disruptions?

Is _____ a plan _____ to keep _____ safe?

_____ have measures _____ implementing _____ prevent network failures?

What are the steps _____ network downtime?

Have precautions _____ to maintain _____ after _____?

What are you _____ stop _____?

_____ to _____ are always up _____?

_____ disrupted in _____ future, how _____ we avoid that?

_____ protected against failures _____ remaining _____?

_____ preventative _____ we use _____ avoid network _____?

There are _____ to _____.

_____ a way to _____ further _____ and _____ seamless _____?

Are _____ are taking to prevent network _____?

_____ you going _____ keep _____ up?

What _____ strategies are used _____ ensure _____ connections _____?

Are you _____ to prevent future _____ outages?

_____ you _____ failures in _____ future?

_____ measures _____ to make _____ there _____ no network downtime.

Ensuring _____ there _____ interruption _____ taking _____ actions?

Can _____ put in _____ ensure constant _____ network failures?

_____ any precautions _____ be taken to avoid network _____?

_____ is _____ future _____ problems planned?

_____ be _____ place to _____ future disruptions?

_____ prevent _____ network problems?

_____ preventative actions _____ being taken _____ avoid _____?

_____ disruptions, _____ have been taken?

Should _____ be _____ place _____ avoid further _____ issues?

Is there _____ place _____ are no network downtime.

Measures are _____ place to _____ there's _____ interruption _____ service.

How can _____ network _____.

_____ in place to make _____ there is no _____?

_____ efforts are _____ prevent _____ worldwide?

_____ are steps _____ network _____.

How do you prevent _____ the _____ and _____ seamless _____?

Proactive _____ are being taken to _____.

_____ steps _____ taken to _____ disruptions?

Measures _____ been _____ ensure consistent network connections.

Have measures been put in _____.

_____ to ensure consistent _____ interruption, _____ are being taken?

Can _____ me the actions being taken to _____ network _____ secure _____?

_____ are _____ have a connection?

_____ steps that _____ being taken to _____ problems.

_____ preventive _____ being _____ to _____ more internet disconnections?

_____ actions _____ taken _____ stop disruptions _____ the network _____.

What are the _____ being _____ continuous network?

What are the _____ taken to _____ issues?

_____ preventative _____ there _____ network flaws?

Measures _____ to _____ taken _____ avoid _____.

_____ are being _____ to _____ network coverage?

Is _____ to keep the network _____ up without _____?

How are network _____ of _____?

Measures _____ in _____ to _____ network _____.

Measures are available _____.

Can there _____ precautions _____ to avoid _____?

_____ will _____ no more _____ and _____ access?

Are _____ measures _____ that will prevent _____ disruptions?

Anything _____ can be done _____ from _____ outage drama?

_____ are the measures _____ interruptions?

_____ preventive _____ future connection issues?

_____ are _____ planning _____ network failures?

_____ there a plan _____ place _____ recurring _____?

Which _____ are _____ protect against _____ failures?

_____ possible to _____ actions being taken _____ prevent more _____ disruptions?

_____ disruptions to the network?

_____ actions _____ being taken to _____?

_____ there _____ in place _____ downtime?

Is _____ a _____ avoiding future disruptions _____ seamless _____?

_____ there's no _____ by _____ necessary _____ actions?

How can _____ be _____ our network will _____ go _____ in _____?

_____ preventive actions being _____ to _____ internet disconnections?

_____ have _____ put in _____ to _____ issues?

_____ happening to _____ recurring _____ interruptions?

_____ in place _____ internet access.

_____ exist any _____ that _____ prevent _____ in the network?

Have _____ been taken _____ flawless _____?

What are _____ measures _____ taken to _____ future _____.

_____ preventative strategies _____ connections?

What are the measures _____ to _____?

Are you doing what _____ keep _____?

The _____ be _____ the future, _____ we _____ it reliable?

_____ there _____ any precautions _____ avoid _____?

_____ taken to avoid _____ downtime.

_____ have been taken _____ smooth _____?

How _____ future _____ on _____ network?

Is there any safeguards _____ protect against _____ such _____?

_____ precautions been _____ to maintain a _____ disruptions?

_____ are you _____ future failures?

What _____ strategies _____ to _____ network failures?

_____ be _____ against potential _____?

_____ are implemented to _____ disconnection _____.

_____ are _____ prevented?

Is there a _____ place _____ the _____ up?

_____ are steps being taken to _____.

_____ being taken _____ ensure _____ continuity?

Is _____ efforts _____ to _____ potential _____ occurring in _____ system?

Is there _____ plan to keep _____ without _____?

How will _____ make _____ network _____ down again?

Strategies are _____ place to _____.

_____ tell _____ the actions you are _____ to _____ network _____?

_____ are maintained predictably _____ all times, _____ how _____ we _____ future _____?

What _____ steps that are taken _____ prevent _____?

_____ be instituted to avoid _____.

Measures are in _____ there _____ no interruption in _____.

_____ plan to keep _____ networks _____ without disruptions.

_____ keeping your network _____?

_____ there any _____ avoid future _____ maintain continuous _____?

_____ happening to _____ networks _____ always?

_____ we _____ sure _____ network won't be _____ at _____ in _____ future?

Which _____ are _____ protect _____ network?

_____ is the _____ of _____ sure?

_____ you prevent _____ disruptions _____ the _____?

What _____ disruptions and constant _____ access?

_____ the _____ to ensure _____ network connection _____ implemented?

_____ any precautionary precautions been _____ to _____?

Are _____ prevent _____ network problems?

What are _____ measures _____ sure there _____ network outages?

Is there _____ way _____ connection and _____ network _____?

_____ we avoid _____ messes?

_____ further disruptions _____ access _____ by what actions.

_____ any _____ efforts to _____ the _____ safe?

Ensuring _____ part _____ in place.

_____ you attempting _____ stop _____ disruptions _____ keep _____ connected?

There _____ preventative actions _____ guarantee _____ network _____.

I wonder if _____ being _____ to _____ another outage?

Which strategies _____ to protect _____ failure _____ the _____?

Is _____ a plan to _____ future _____ disturbances _____ transmission?

_____ there any precautions _____ to _____ problems?

What _____ the _____ you _____ taking to _____ network _____?

_____ have been _____ in place _____ issues.

Taking _____ actions will ensure _____.

How are _____ the network?

_____ the prevention of _____ downtime _____ done?

Are _____ you're _____ network problems?

_____ we avoid disruptions _____ network.

Ensuring _____ Internet _____ part of _____ in _____.

_____ strategies _____ to preserve _____ network?

_____ done to save us _____ drama...

Do you _____ what _____ being _____ prevent network _____?

_____ there _____ preventive _____ being _____ prevent _____ internet disconnections?

Is there _____ and keep _____ up without disruptions?

Are _____ your network running?

_____ disruptions _____ constant _____ are _____ with what actions.

How _____ failures and _____ connection _____ prevented?
_____ networks be _____ against _____?
_____ any _____ actions being _____ guarantee seamless _____ availability?
_____ _____ plans to _____ future disruptions?
How are _____ to _____ recurring _____?
_____ are being _____ to keep the _____?
_____ are the steps _____ are _____ taken to _____ connected?
How do _____ prevent recurring _____?
_____ the _____ to make the network stay _____?
_____ there _____ that can be _____ setbacks such _____ network outages?
_____ doing _____ stop the failures _____ the network?
_____ exist _____ strategies _____ preventing future _____?
What _____ being _____ to _____ network access?
_____ made to prevent potential _____?
_____ being taken to keep the _____?
Are there _____ more network _____?
_____ there a _____ to prevent _____ the network _____ seamless connection?
Can _____ you are _____ to make _____ our internet doesn't _____ up in _____?
_____ any safeguards in _____ setbacks such as network _____?
Are _____ that _____ taken to avoid network outages?
_____ measures _____ been put in _____ to avoid _____.
How can there _____ network access?
_____ networks _____ without disconnected?
_____ can _____ on _____ network in order _____ keep reliable connections.
_____ we do _____ internet interruptions?
_____ be _____ prevent _____ network failures.
_____ need _____ taken to prevent _____ network _____.
_____ done _____ avoid future disruptions?
_____ it possible that _____ being taken to _____.
_____ proactive actions being taken _____ the network infrastructure?
What _____ be _____ constant _____ access?
What are _____ actions _____ ensure network _____?
How _____ we _____ network _____?
_____ to _____ future connection issues?
_____ wanted _____ to avoid further network _____ uninterrupted linkup.
Do you have _____ precautions in _____ avoid _____?
What _____ actions _____ been put _____ prevent internet _____?
_____ are being taken _____ stop _____ disruptions _____ the network _____.
Is there _____ you _____ prevent further network disruptions _____ connection?
How are you _____ the _____ so _____ stays _____?
How _____ avoiding network _____?
Do any strategies exist _____ preventing future _____?
_____ are _____ making _____ there are _____ future _____?
_____ be _____ avoid further disconnection issues.
There are _____ actions _____ need _____ to _____ network availability.
_____ are _____ for _____ smooth network.
How can _____ sure that _____ network _____ disrupted in _____ future?
_____ are connection _____ network _____ prevented?
Will _____ be _____ in place _____ in future?
preventive actions _____ to _____ internet _____

____ actions ____ being taken ____ stop ____ recurring ____.
 ____ there ____ avoid ____ glitch and ensure ____ connection?
 ____ are steps being ____ to ____ future ____.
 Is ____ way ____ while maintaining constant connection.
 ____ to ____ interruptions from occurring ____ system.
 ____ you implementing ____ protect the network ____?
 ____ made to prevent internet interruptions?
 ____ there any ____ to ____ future network ____?
 Have ____ been ____ future connection issues?
 ____ should be put ____ place ____ and ensure seamless networking.
 ____ you ____ what ____ are ____ make sure the internet ____ up?
 ____ measures ____ smooth internet?
 ____ a need for ____ to ____ network ____.
 Can ____ failures ____ connection be ____?
 Is ____ a ____ against ____ service ____?
 What are the ____ being ____ the network ____?
 ____ any preventive ____ that are being ____ to guarantee ____?
 There ____ to ensure networks are ____ being disconnected.
 ____ be ____ to prevent network failures?
 Do you ____ a strategy ____ those ____?
 ____ preventive actions ____ being ____?
 ____ of network access ____ disruptions ____ guaranteed by ____ actions.
 ____ is ____ of ____ problems being addressed?
 What actions ____ being ____ improve ____ without ____?
 Do precautions ____ ensure flawless ____ after disruptions?
 ____ strategies are put in ____ network ____?
 ____ measures in ____ to keep the internet ____?
 Is there ____ steps ____ to ____ network ____.
 What can ____ done ____ future ____?
 ____ there any preventive measures ____?
 ____ there ____ in ____ to ____ disruptions?
 Have ____ been put ____ to maintain flawless ____?
 Do there exist ____ avoid future ____ network?
 What ____ are ____ taken to ____ there are ____ disruptions?
 How ____ steps taken ____ prevent ____?
 Can measures ____ in ____ to ____ disruptions?
 ____ are preventive actions ____ to ____ network ____.
 What ____ taken to ____ connection?
 ____ in place ____ avoid disruptions?
 ____ would like ____ if any ____ put ____ prevent network outages.
 Which ____ employed to ____ network ____?
 Is it ____ that ____ place to secure ____?
 Measures ____ be taken ____ networking.
 ____ there ____ place to ____ sure ____ is no ____ downtime?
 ____ there ____ measures being ____ network problems?
 ____ preventive actions are ____ out to ____ disconnections?
 ____ there ____ in ____ prevent internet black outs?
 Measures should ____ avoid ____ disconnection ____.
 How ____ you prevent ____?
 ____ any plan to fix ____ and ____ up?

_____ any ongoing efforts _____ prevent _____?
 There _____ be precautions _____ can _____ taken _____ network _____.
 What steps are _____ put in _____ network _____?
 Have _____ to make sure flawless _____ after _____?
 Are _____ you _____ to protect the _____?
 _____ to protect the network?
 There are _____ networks always up without _____.
 Measures _____ put in place _____ prevent _____.
 What are _____ to _____ future disruptions?
 Is _____ any _____ to _____ the network connections _____?
 _____ are the _____ being taken to _____ disruptions?
 _____ be done to ensure _____ networking _____?
 _____ can be _____ ensure _____ network access _____ no _____ disruptions?
 What preventative strategies _____ no network _____ forward?
 Is resilience techniques _____ disconnections in _____ networks?
 How _____ sure _____ connection _____ undamaged?
 There _____ plans _____ place _____ steady Internet.
 Is there _____ action _____ prevent further network _____ and _____ connection?
 Will there _____ place to _____ internet _____ moving forward?
 What are _____ being taken to make _____?
 _____ strategies _____ use to _____ network flaws?
 _____ our _____ be protected _____ failures?
 What are _____ measures _____ are _____ network disruptions?
 Is _____ if _____ have been _____ to _____ issues?
 _____ are you _____ your connection _____?
 _____ networks protected against _____ still _____?
 _____ are the actions _____ consistent networking _____ interruption?
 Will networks _____ potential failures?
 How _____ outages _____?
 _____ strategies _____ constant connections?
 What are _____ to _____ smooth _____?
 Can _____ tell _____ if you are implementing _____ prevent _____?
 Is it _____ that measures _____ to ensure _____?
 _____ you implementing _____ to _____ network _____?
 Are you _____ to _____ network?
 Is _____ any preventative actions _____ to _____ internet _____?
 _____ can we keep _____ at all times _____ disruptions _____ network?
 There _____ done _____ avoid future _____ cell.
 How _____ making _____ there _____ no _____ network outages?
 _____ are steps happening _____ ensure networks _____.
 Will _____ be _____ future disruptions?
 _____ there _____ can do _____ prevent _____ network disruptions _____ connection?
 Are there _____ are implementing _____ network _____?
 Is _____ effort made to stop potential _____?
 There _____ to prevent network _____.
 _____ actions are _____ to _____ network _____.
 Are _____ that _____ put _____ place to _____ against network _____?
 Does there exist _____ prevent future _____?
 _____ save _____ from _____ outage drama?
 _____ steps being taken _____ ensure networks _____ always _____?

_____ preventive actions being taken _____ internet _____.

Measures can _____ taken _____ network _____.

What _____ steps that are being _____ to _____ the _____?

What can be _____ prevent future disruptions _____.

_____ strategies are used _____ from _____?

Measures _____ prevent more _____?

Are _____ measures that _____ are _____ to _____ failures?

_____ there _____ to _____ there are no network problems?

Steps _____ ensure continuous connection _____?

Are preventive measures _____ avoid future _____?

_____ to _____ internet interruptions?

_____ us how you're making _____ our internet _____ down?

How are _____ preventing future _____?

_____ are you _____ network _____ future _____?

Is there _____ place to _____?

_____ is your _____ stopping those _____?

_____ any _____ that _____ be taken to _____ network _____?

Is networks _____ be _____ potential _____?

What is _____ stop _____ failures?

Please _____ the _____ prevent network disruptions.

_____ anyone _____ what _____ are made _____ prevent _____ interruptions?

_____ steps are _____ to _____ continuous network _____?

_____ ways _____ while maintaining connection?

_____ there measures in place _____ sure _____ reliable _____?

Measures need _____ implemented _____ more _____ issues.

Are _____ ways to _____ future _____?

There _____ steps being taken _____ further _____.

_____ measures in _____ to _____ future _____

Measures should _____ implemented to _____ ensure seamless _____?

_____ you _____ network problems?

_____ in place _____ network downtime?

How are _____ making _____ no _____ disruptions?

Which _____ prevention _____ are _____?

Can _____ be _____ against _____ while still _____?

_____ to _____ disruptions in the network?

_____ are you _____ that _____ network _____ up and _____?

_____ there _____ place to make _____ no network downtime?

_____ commy _____ preventing _____ problems?

_____ guarantee no more _____?

_____ be measures _____ place _____ avoid future _____?

_____ communications, _____ network problems?

How _____ prevention _____ network failures _____?

_____ strategies _____ to stop _____ downtime?

No _____ and _____ access _____ assured by what _____.

_____ are being _____ to ensure _____ up

What _____ preventive actions being _____ to _____ disconnections?

_____ preventive actions _____ taken _____ keep the internet _____?

_____ precautionary _____ been put in place _____ service _____?

Have _____ any _____ to prevent _____ disruptions?

_____ there _____ precautionary _____ being taken to _____ service _____?

_____ are the steps _____ the continuity going?
 If _____ implementing _____ to prevent network _____?
 _____ you _____ you're trying _____ keep the internet _____?
 Are _____ preventative actions _____ stop _____ interruptions?
 What steps _____ make _____ network reliable?
 Is _____ any _____ in _____ to _____ uptime _____ avoiding setbacks?
 _____ tell _____ you're making sure _____ internet _____ go down _____?
 There _____ that can be _____ to _____ future _____.
 Is there a way to _____ failure?
 _____ steps _____ always up without disconnection.
 _____ been put _____ place to _____ issues _____ the future.
 _____ are steps _____ taken to ensure networks _____.
 What actions _____ being _____ reliability?
 There must _____ in place _____ network _____.
 There _____ in _____ to _____ internet.
 _____ we guarantee constant _____ access and _____ disruptions?
 Are steps being taken _____?
 _____ should be _____ to prevent _____?
 How can we _____ connection and avoid _____?
 There have been measures put _____ network _____.
 _____ taken to avoid _____ issues?
 _____ ongoing _____ prevent future network _____?
 _____ there a way _____ network _____?
