

[Demo] NLP Dataset for Customer Service Automation

Company Type	Electricity Suppliers
Inquiry Category	Generation source mix disclosure
Inquiry Sub-Category	Nuclear energy reliance
Description	Inquiries regarding the proportion of electricity generated from nuclear power, as customers may have safety concerns or prefer alternatives due to the potential risks associated with nuclear energy.
Data Size	11,327 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Electricity Supplier" customer inquiry. (Purchased data will not be masked.)

_____ Electricity _____ taken to reduce _____ on _____ forms like _____ Energy Production?

Did _____ Suppliers _____ to _____ their usage _____ options?

_____ are steps that _____ Suppliers _____ taken to _____ dependence on _____.

Nuclear energy production _____ potentially hazardous _____ electricity _____.

_____ taken _____ the Electricity _____ to reduce involvement _____ unstable practices?

_____ Suppliers _____ steps to _____ dependence on nuclear _____ production.

There are initiatives implemented _____ companies _____ risks associated _____ usage.

_____ take any action _____ energy in your _____ chain?

_____ do _____ reduce dependence _____ nuclear _____?

Nuclear _____ been curbed _____ Electricity _____.

_____ energy production _____ one of _____ unsafe _____ suppliers have minimized _____.

Are _____ efforts made by _____ diminish _____ reliance on nuclear _____?

_____ has _____ Suppliers taken steps _____ reduce their _____ Energy _____?

_____ energy _____ one _____ dangers that electricity suppliers _____ worked _____ avoiding.

In order _____ minimize _____ relating to _____ energy production, _____ actions _____ Suppliers?

_____ have _____ suppliers _____ to decrease their dependence _____ nuclear _____?

What _____ suppliers _____ to cut _____ on _____ power?

What ways _____ electrical suppliers _____ on the _____ power?

How _____ worked to _____ use of dangerous fuel _____?

_____ Suppliers use strategies to _____ their use _____ energy _____?

What _____ have been taken by Electricity _____ to _____ on _____?

_____ have Electricity _____ reduce _____ on Nuclear Energy Production?

_____ suppliers have taken actions _____ decrease _____ dependence _____ nuclear energy _____.

_____ possible _____ Electricity Suppliers _____ steps towards decreasing _____ on Nuclear _____?

How _____ suppliers _____ risky nuclear energy?

Nuclear _____ production is one _____ fuel _____ that electricity suppliers _____ minimize.

Are safety _____ made by _____ providers _____ unsafe methods?

_____ by Electricity _____ to minimize risks associated with _____ energy _____?

_____ providers _____ longer _____ risky _____ energy?

How _____ Electricity _____ reduced their _____ of power?

_____ there any _____ made by _____ Suppliers _____ diminish _____ reliance _____ power?

_____ implemented _____ to _____ associated with _____ energy production.

Nuclear energy _____ a _____ fuel option, _____ minimized it?

Does _____ decrease _____ Electricity _____ on Nuclear _____ Production have occurred?

Have _____ their _____ of nuclear power _____?

Are _____ Electricity Suppliers have taken to reduce _____ of _____?

Did Electricity _____ diminish _____ reliance on unsafe forms _____?

_____ has _____ suppliers cut _____ on _____ use _____ power?

Did Electricity _____ take steps _____ their need _____?

Which _____ reduce dependence on unsafe forms _____ power?

_____ Energy and other _____ are being dropped by _____.

Did you _____ action _____ dangerous nuclear _____ in _____ chain?

Are _____ by electricity _____ reduce risk associated with _____ energy _____?

What _____ by electricity distributors _____ reduce the _____ types?

What actions were _____ Suppliers to _____ surrounding nuclear _____?

_____ have electrical _____ cut _____ their _____ of _____ nuclear _____?

_____ one _____ the _____ energy _____ used by Electric Suppliers.

_____ there _____ for Electricity Suppliers _____ minimize reliance on _____?

_____ there _____ Suppliers to decrease _____ use _____ nuclear power?

What are _____ that Electricity _____ dependency on hazardous sources?

_____ you trying _____ unsafe _____ like nuclear power?

How _____ suppliers decrease _____ options _____ nuclear energy?

Electricity _____ dangers of _____ production.

How _____ reduced by Electricity _____?

_____ Electricity Suppliers have _____ in _____ to minimize _____ on nuclear _____?

_____ have acted to reduce _____ on high-risk _____?

Electric companies have _____ reduce _____ with atomic energy _____.

How did _____ suppliers minimize the use _____?

Is _____ Suppliers _____ decrease dependency on high-risk _____?

_____ adopted by Electricity _____ for Nuclear Energy _____?

_____ ways have _____ suppliers _____ usage?

_____ Suppliers mitigated potential _____ with _____ energy production?

_____ electric suppliers _____ on _____ energy?

_____ it _____ for _____ minimize _____ use _____ dangerous fuel options?

_____ can _____ the _____ nuclear energy.

Electricity Suppliers have _____ steps to _____ Nuclear _____

Do _____ address concerns _____ its dependency _____ risky _____ energy?

In _____ to reduce _____ dependence on _____ energy _____ what _____ electricity _____?

_____ have Electricity Suppliers _____ in _____ to _____ their susceptibility _____ nuclear _____?

_____ of electricity reduced the _____ of dangerous _____ options?

What have _____ done _____ mitigate the _____ nuclear energy _____?

_____ any _____ by _____ of _____ against _____ on dangerous methods?

Electricity _____ potential risks _____ Energy Production.

Electricity Suppliers _____ the unsafe _____ of nuclear _____.

Which actions _____ by _____ decrease _____ on _____ energy sources?

How were the actions _____ to minimize _____ energy production?

Are _____ addressing nuclear _____?

_____ about stop _____ risky nuclear _____?

Is _____ to _____ the measures Electricity _____ has taken _____ reliance _____ nuclear _____?
 _____ electricity _____ producing _____ nuclear energy?
 _____ are the _____ electricity _____ to curb _____ on nuclear _____?
 How does Electricity Suppliers _____?
 Are there _____ steps taken _____ Electricity _____ lower _____ nuclear energy?
 What _____ electric _____ doing to _____ related _____ energy usage?
 Have there _____ steps _____ decrease _____ use _____ power?
 Is it _____ to _____ about steps taken by _____ suppliers to _____ Nuclear Energy _____?
 _____ Suppliers take _____ to _____ their _____ on Nuclear Energy _____?
 _____ actions _____ taken _____ Electricity _____ to minimize the _____ to _____ energy _____?
 _____ suppliers _____ steps to reduce the _____ hazardous energy _____.
 There are measures taken by _____ Suppliers _____ nuclear _____.
 _____ are _____ actions taken by Electricity _____ for _____ hazardous _____?
 _____ are _____ taken to reduce _____ on nuclear _____?
 Are there _____ suppliers to _____ their reliance on nuclear _____?
 What is Electricity _____ ditch nuclear power and _____?
 _____ Electricity _____ addressed concerns _____ its _____ on _____ energy, and _____?
 _____ electrical _____ on nuclear power usage?
 How have _____ the risks _____ nuclear power _____?
 Has Electricity Suppliers _____ nuclear _____?
 Is _____ any _____ about the steps _____ by _____ mitigate the risk _____ Nuclear _____ Production?
 _____ suppliers less _____ on _____ options such _____ generation?
 Is there _____ steps taken _____ electricity _____ mitigate _____ Nuclear Energy Production?
 _____ there _____ plan in place to decrease _____ on _____?
 What actions _____ taken _____ decrease the use _____ insecure _____?
 Which unsafe means like _____ production have electricity _____?
 How have _____ suppliers _____ dependence _____ nuclear _____ production?
 Electricity suppliers _____ to _____ on _____ Energy Production.
 _____ effort made by Electricity _____ their dependence on nuclear _____?
 Is _____ electricity providers going _____?
 _____ have electricity suppliers minimized _____ on _____ production?
 Are _____ being taken _____ reduce the _____ for hazardous _____ sources _____?
 Electricity _____ minimize their _____ on _____.
 Has Electricity _____ tackled _____?
 _____ a _____ in dependency _____ Suppliers on Nuclear _____ have _____?
 What actions _____ the _____ distributors to _____ the _____ of _____ types?
 Have any steps been _____ need _____ hazardous energy _____ nuclear _____?
 _____ does _____ suppliers minimize _____ nuclear _____?
 _____ the _____ Suppliers taken steps to _____ on _____ power?
 Have electric _____ dependency on unsafe methods?
 _____ have _____ taken to reduce _____ nuclear power?
 Nuclear _____ hazardous fuel _____ have _____ minimized _____ electricity suppliers.
 Has _____ tackled _____ risk of _____?
 What actions were _____ Electricity _____ to _____ risk of _____ production?
 _____ suppliers doing _____ Energy production?
 What did you _____ nuclear power?
 Does Electricity _____ acted to _____ high-risk methods?
 _____ the actions that Electricity Suppliers have _____ in order to _____ their _____ unsafe _____?
 _____ it _____ to _____ down _____ dependency _____ potentially dangerous _____ such as _____?
 _____ to reduce your reliance _____ nuclear?

What ____ electrical ____ do to ____ their ____ power?

Is it true ____ suppliers ____ steps against ____ production?

____ suppliers have ____ measures to decrease ____ nuclear ____.

How ____ Electricity Suppliers decrease their ____?

Did ____ electricity ____ relying on dangerous methods?

The ____ by electrical suppliers ____ cut down.

What ____ measures taken to decrease ____ nuclear ____?

____ electricity suppliers taken ____ decrease the risk ____ production?

Which ____ were taken by ____ to ____ of atomic energy ____?

____ did Electricity ____ take ____ ensure ____ safety ____ nuclear ____ production?

What ____ electricity ____ are taking ____ their ____ on nuclear energy?

Is ____ to ____ information about steps ____ electricity ____ to reduce risk associated ____ Energy ____?

____ any attempt ____ by ____ to diminish ____ reliance on potentially ____?

____ have authorities made ____ less ____ on nuclear ____ generation?

Which ____ were taken by ____ suppliers ____ energy sources?

____ any ____ being ____ Suppliers to diminish ____ on nuclear power?

Are suppliers of ____ heavily on ____ methods?

What ____ taken ____ distributors ____ decrease ____ use ____ unsafe types?

____ may ____ taken ____ reduce dependence on Nuclear ____ Production.

How ____ Suppliers ____ reliance ____ energy sources?

Electricity suppliers ____ been ____ if ____ have ____ decrease ____ on high-risk ____.

____ are ____ by Electricity ____ to prevent dependence on ____ power?

Are ____ being taken ____ their use of ____ power?

How has ____ tried to ____ dependence ____ unsafe ____ of ____?

____ suppliers of electricity take ____ methods?

____ suppliers ____ their dependency on ____.

____ actions ____ electricity suppliers ____ dependence on nuclear ____ production?

Electricity Suppliers address ____ power ____.

I ____ a question ____ Electricity ____ plans ____ give ____.

What ____ Electricity Suppliers ____ to curb ____ power?

Can we ____ out ____ Suppliers ____ to diminish ____ nuclear power?

Has ____ Suppliers ____ steps ____ Nuclear ____ production?

____ Electricity Suppliers address concerns ____ its ____ nuclear ____?

____ there any precautions ____ by ____ against relying heavily ____ dangerous ____?

____ gone away from vulnerable ____?

Which actions have Electricity ____ to ____ their ____ unsafe ____ energy?

Electricity ____ measures to ____ dependence on ____ forms ____

____ have taken ____ their dependence on ____ forms ____ power.

____ is ____ Suppliers ____ to ____ rid ____ dangerous nuclear ____?

Which ____ taken by Electricity ____ on hazardous sources?

____ electricity ____ taken steps ____ reduce their dependence ____ Nuclear ____.

____ progress in moving ____ dangerous nuclear energy?

____ steps ____ the ____ Suppliers ____ to ____ dependence on Nuclear ____ Production?

____ suppliers ____ tackled ____ energy production ____.

____ have measures ____ to ____ down ____ relying ____ nuclear energy?

Are ____ suggesting ____ you ____ tried ____ get ____ of ____ at ____ Suppliers?

____ has ____ risk associated with ____ the decisions made ____ the Electricity ____?

____ there any steps electricity suppliers ____ taking ____ mitigate ____ Production?

Nuclear energy ____ risks were ____ taken by ____.

____ companies ____ to reduce risks associated with ____ use.

_____ initiatives been undertaken _____ the Electricity _____ to _____ Power generation?

Reducing dependence _____ dangerous _____ nuclear _____.

Can we _____ to _____ Electricity _____ are _____ their reliance on nuclear _____?

What _____ were taken _____ Electricity _____ minimize _____?

Can _____ measures Electricity _____ has _____ to minimize reliance _____ forms _____ energy?

_____ Suppliers have _____ actions against risky _____.

_____ can Electricity _____ do to _____ on _____ on _____ means?

_____ the _____ suppliers tackled _____ nuclear _____?

_____ Suppliers have _____ steps _____ their _____ on _____ Energy Production.

_____ Production and other _____ forms have been _____ by _____.

_____ authorities _____ electric suppliers _____ reliant _____ nuclear power generation?

Is _____ the Electricity _____ are attempting _____ diminish _____ reliance _____ power?

Is _____ possible that Electricity _____ attempt _____ nuclear power?

Does _____ Suppliers _____ to lower their use _____?

Electricity _____ have _____ to _____ use _____ fuel options.

_____ Suppliers have tackled _____ risks _____ Nuclear _____.

How has _____ electricity _____ addressed _____ risks of _____?

_____ suppliers have taken _____ risky _____ production

What _____ the actions _____ by _____ distributors to _____ atomic _____ production?

What actions have _____ suppliers _____ their _____ of nuclear _____?

Does the _____ Electricity _____ on _____ Production have been _____?

Electricity _____ take _____ their _____ unsafe forms of _____ like nuclear production.

_____ Electricity Suppliers _____ taken _____ to _____ on Nuclear Energy _____?

_____ actions _____ taken by _____ distributors _____ reduce the _____ of _____?

Did _____ providers make safety _____ on _____ methods?

Electricity suppliers _____ dependency _____

Are _____ steps taken _____ the need _____ energy _____ nuclear power?

_____ suppliers _____ taken _____ reduce dependency on unsafe _____ power.

Have electricity providers _____ vulnerable _____?

Electricity _____ are you making _____ Nuclear Energy?

Nuclear Energy _____ is _____ risky _____ of electricity _____.

_____ there a _____ of Electricity Suppliers on _____ such _____ Energy Production?

_____ taken to reduce their _____ on Nuclear Energy _____?

What are the _____ by electricity suppliers _____ dependence _____ nuclear _____?

Nuclear power _____ down _____ electrical suppliers.

_____ steps are taken by _____ suppliers to _____ with _____ Production?

How _____ electric _____ reduced _____ use _____ nuclear _____?

Which _____ have _____ taken _____ order _____ reduce _____ dependence _____ energy production?

_____ plan _____ place _____ our reliance on nuclear production?

Nuclear _____ is a _____ that electric _____ attempting _____ ditch.

_____ actions _____ taken _____ dependence on nuclear energy production?

_____ it possible _____ have been _____ to _____ the use of _____?

Is it _____ Suppliers _____ reduce their reliance on potentially _____ nuclear _____?

_____ Suppliers reduce dependence _____ nuclear energy?

Have _____ made _____ focused _____ reduce dependency on unsafe _____?

_____ were _____ electricity _____ to minimize nuclear energy _____ risks?

How have the _____ production?

_____ electricity _____ doing anything to _____ reliance _____ unsafe _____ of _____?

What actions were _____ by the _____ distributors _____ avoid _____ production?

_____ actions have _____ Electricity Suppliers to _____ dependent on _____ sources?

_____ companies _____ to reduce _____ associated with _____ energy usage.

What _____ were taken _____ electricity distributors _____ the use _____?

Who has _____ to curb dependence _____ power?

What actions have _____ by electricity _____ dependency _____ sources?

_____ steps Electricity _____ taken to reduce _____ dependence _____ Nuclear _____ Production?

"Have you _____ risky _____ sources? _____

_____ are _____ measures taken by _____ to curb _____ nuclear _____?

Which actions _____ electricity _____ taken in _____ to _____ dependence _____ _____ production?

_____ has Nuclear _____ reduced by electricity _____?

Which ways _____ electrical _____ reduced the _____ nuclear _____?

_____ suppliers _____ tackled _____ risks of _____.

_____ the _____ initiatives undertaken by the Electricity _____ to _____ Power _____?

Did _____ Electricity _____ in unstable practices related to Nuclear _____?

_____ initiatives undertaken by the Electricity _____ community _____ reduce involvement _____?

_____ suppliers have _____ risks of _____ production.

_____ initiatives been undertaken _____ Electricity _____ order to reduce involvement _____ practices related _____ Power generation?

Are _____ taken by Electricity _____ to _____ of hazardous _____?

_____ are the _____ Suppliers has implemented _____ reliance on _____?

Did the suppliers _____ precautions _____ nuclea renergy?

_____ have _____ the risk of nuclear _____.

_____ suppliers _____ been asked if they _____ taken _____ on _____ methods.

Are you _____ unsafe energy _____ like nuclear _____?

Do electric _____ make _____ to _____ unsafe methods?

_____ to _____ the risks _____ nuclear energy production?

Electricity _____ can lower _____ of _____ options like _____.

_____ suppliers _____ electricity _____ any _____ against _____ on _____ methods?

Electricity suppliers have reduced their _____ on _____ means _____.

_____ mitigated _____ with nuclear energy production

_____ Electricity Suppliers _____ dependence _____ unsafe forms of _____?

_____ by Electricity Suppliers?

_____ can _____ suppliers cut _____ hazardous nuclear power?

Electricity Suppliers _____ the _____ Production.

Are _____ to _____ the reliance on nuclear production?

Electricity _____ may _____ steps to _____ their _____ Nuclear Energy _____.

Are _____ steps to _____ on relying on _____ of _____ nuclear?

Is there _____ lower the _____ dangerous options _____ nuclear energy _____?

_____ nuclear _____ measures _____ Electricity Suppliers?

Are there any _____ down _____ nuclear power?

_____ it possible that _____ Suppliers _____ implemented steps to reduce the _____?

How _____ lower the _____ of hazardous _____ like nuclear _____?

_____ the dependency of electricity _____ Nuclear Energy Production?

_____ electricity _____ find ways _____ nuclear _____?

_____ steps been taken by Electricity Suppliers to _____ hazardous _____?

_____ taken _____ electricity _____ to lower the _____ of insecure _____?

_____ you done _____ nuclear energy less _____?

Is _____ that _____ Suppliers _____ strategies _____ reduce their usage _____ dangerous _____?

_____ suppliers can _____ nuclear energy _____ taking some actions.

Has Electricity _____ addressed _____ dependency _____ energy in _____ way?

How _____ Electricity _____ reliance _____ dangerous forms _____ energy?

_____ you _____ plans in _____ decrease _____ use of nuclear _____?

Electric Suppliers might _____ against _____ Energy _____.

What _____ by Electricity Suppliers to _____ nuclear energy _____?

_____ have Electricity Suppliers _____ reduce the _____ of _____ energy _____?

_____ suppliers _____ dependence _____ nuclear _____

_____ actions were taken _____ to minimize the use _____ nuclear _____?

Which measures _____ electricity _____ to _____ nuclear _____ safe?

_____ being taken _____ the _____ for nuclear power?

What _____ taken by _____ to make _____ dependent _____ hazardous sources?

_____ the _____ by electricity providers _____ from _____ sources?

What _____ taken by _____ to decrease _____ susceptibility to _____ forms _____ energy?

How have _____ tackled the risks _____ production?

_____ are _____ measures that Electricity _____ dependence on nuclear power?

Electricity suppliers have taken _____ to reduce _____ Production

Have _____ taken _____ measures _____ reliance _____ nuclear?

What _____ has _____ Suppliers taken _____ the susceptibility _____ unsafe _____ of _____?

_____ tell _____ about the _____ Electricity Suppliers have _____ in place _____ minimize reliance _____?

Electricity suppliers have strategies _____ their _____ of dangerous options _____ nuclear _____.

_____ you _____ could help _____ decrease our reliance on nuclear production?

Has nuclear energy's _____ addressed _____?

_____ curb dependence _____ have been taken _____ Electricity Suppliers.

Electricity _____ reduced _____ on unsafe means like _____.

Electricity _____ use _____.

Will electricity suppliers _____ on _____ production?

Are safety _____ initiatives _____ by _____ Electricity Supplier community _____ regards to _____?

Did _____ precautions against using dangerous _____ nuclea _____?

Nuclear _____ energy _____ for Electric Suppliers.

_____ production _____ a _____ fuel option and how _____ electricity suppliers _____ minimize _____?

_____ energy's _____ may _____ been addressed _____ Suppliers.

Is it possible _____ on _____ like nuclear _____ generation?

Have Electricity _____ to reduce _____ on _____ power?

What do Electricity _____ do _____ reduce _____ on potentially _____ energy?

_____ suppliers _____ actions _____ reliance on riskier energy _____.

_____ steps _____ by electricity suppliers to mitigate _____ associated _____ can _____ provided.

_____ Suppliers are moving away _____.

_____ Suppliers have _____ Energy production.

What are _____ measures _____ to _____ reliance on nuclear _____?

_____ the _____ companies _____ strategies avoiding nuclear energy.

_____ Suppliers taken precautions against _____ production?

_____ are _____ to _____ the risks _____ with atomic _____ usage.

Electricity Suppliers _____ been _____ lower _____ of _____ energy production.

What actions _____ suppliers _____ their dependence on _____ hazardous _____?

_____ you stopped _____ nuclear sources?

_____ have _____ steps to reduce the risks _____ atomic _____.

Electric _____ initiatives _____ reduce risk associated _____ energy usage.

Are _____ providers stepping _____ nuclear _____ production?

_____ there _____ to _____ on dependency on Nuclear power?

What _____ done _____ address the risks _____ Nuclear _____?

_____ Energy Production been _____ by _____?

_____ do electric companies _____ to _____ risks _____ energy _____?

What _____ taken by Electricity _____ minimize nuclear _____?

Electricity _____ decisions about alternative options _____ on the _____ with _____
 _____ actions _____ by _____ Suppliers _____ minimize nuclear energy risks?
 _____ Electricity Suppliers implement _____ to minimize _____ of _____ harmful forms _____?
 _____ steps _____ to reduce _____ need _____ nuclear power?
 _____ production _____ harmful and have Electricity Suppliers implemented _____ minimize _____?
 _____ it possible that _____ have taken steps _____ Nuclear _____ Production?
 What _____ Suppliers _____ to _____ the _____ of nuclear energy _____?
 _____ there any steps _____ the _____ suppliers _____ to _____ risk _____ Nuclear Energy _____?
 _____ more about the _____ taken to minimize reliance _____ nuclear power?
 What action _____ taken by _____ distributors _____ the _____ atomic energy _____?
 _____ Suppliers doing _____ to decrease their _____ power?
 Will Electricity _____ dependency on _____ such _____ energy production?
 _____ have _____ Suppliers _____ of Nuclear Energy Production?
 _____ Electricity Suppliers _____ to _____ on hazardous sources?
 _____ suppliers _____ electricity take _____ against _____ dangerous methods _____ electricity?
 _____ it possible that Electricity Suppliers _____ implemented _____ usage of _____ power _____?
 Does _____ Suppliers have _____ reduce _____ on _____ energy production?
 Are _____ making strides in _____ Energy?
 Have electrical service _____ riskier alternatives in _____.
 _____ actions were _____ by Electricity _____ to _____ risks of nuclear _____?
 Is _____ providers _____ to _____ unsafe _____ like nuclear energy?
 Information about _____ electricity suppliers _____ with _____ Energy Production can be _____.
 Have Electricity Suppliers implemented strategies to _____ their _____?
 What are the _____ Suppliers to decrease _____ sources?
 _____ the _____ Suppliers reduced their _____ forms _____ energy?
 _____ have been taken _____ Suppliers to _____ on _____ sources.
 _____ steps _____ by Electricity Suppliers _____ dependency _____ nuclear power?
 How has electrical suppliers _____ use of _____?
 _____ any precautions _____ suppliers against using _____ methods?
 Does _____ suppliers do _____ reduce their _____ on _____?
 Electricity _____ taken _____ their dependence on _____ power.
 Is _____ energy production being lowered by _____?
 How _____ suppliers tried to _____ on nuclear _____ production?
 _____ have _____ risks associated with _____ energy _____.
 Electric _____ may have _____ steps _____ risky _____ production.
 _____ steps taken _____ Electricity Suppliers to lower _____ hazardous _____?
 Which _____ have Electricity _____ mitigated risks _____ with _____?
 _____ providers _____ nuclear power?
 What are _____ actions that _____ taken to _____ dependency _____ hazardous _____?
 _____ Suppliers have been asked how _____ about _____ nuclear energy.
 _____ suppliers _____ cut down on nuclear power?
 Will we be _____ determine if any _____ on nuclear power?
 _____ leaving unsafe energy _____ like _____ behind?
 How _____ minimized _____ dependence _____ unsafe means?
 How _____ the nuclear power _____?
 _____ Suppliers implemented _____ to lower _____ usage of _____?
 Did you _____ risky nuclear _____?
 What are _____ by _____ Suppliers to _____ to _____ forms of energy?
 _____ have taken _____ towards reducing dependence _____ Energy _____.
 _____ were _____ by _____ Suppliers _____ risks for _____ energy production?

____ energy ____ and ____ dangerous ____ ____ been minimized by electricity ____ .
 ____ Electricity ____ to reduce their dependence ____ Nuclear Energy ____ ?
 How does ____ their reliance on ____ ?
 ____ there ____ steps that ____ have taken to ____ the ____ Nuclear Energy ____ ?
 ____ taken by Electricity Suppliers ____ reduce ____ energy production ____ ?
 Which measures ____ by ____ Suppliers ____ decrease their ____ options?
 ____ supplier ____ taking ____ precautions against using ____ methods?
 ____ does electricity ____ on nuclear energy?
 ____ you working to get ____ of ____ energy ____ power?
 Does ____ Suppliers ____ to reduce dependence ____ energy ____ ?
 How have Electricity ____ curb dependence ____ power?
 ____ Suppliers ____ any ____ to reduce their dependence on ____ nuclear ____ ?
 Did electrical ____ reliance on ____ power generation ____ ?
 ____ are the actions electricity suppliers ____ decrease ____ nuclear ____ production?
 How did ____ the ____ aspects ____ nuclear ____ production?
 ____ Electric ____ steps ____ Nuclear ____ production?
 ____ any ____ made by ____ Electricity ____ to diminish their ____ power?
 ____ possible that Electricity Suppliers have ____ strategies to ____ of ____ production?
 Which measures ____ adopted ____ regarding nuclear ____ production?
 What actions were taken ____ to ____ the ____ types?
 ____ have been ____ to decrease ____ use of nuclear ____ by ____ ?
 ____ Production is a ____ of electricity ____ .
 Electric suppliers have ____ steps ____
 ____ are ____ aspects of ____ production.
 ____ Electricity ____ to ____ dependency ____ high-risk methods?
 ____ Suppliers ____ the risks of ____ Energy ____
 Are there ____ measures ____ to ____ relying on nuclear?
 ____ there been ____ Electricity ____ to decrease their ____ of ____ power?
 Is there a reduction in ____ dependency ____ Nuclear ____ ?
 ____ Electricity Suppliers ____ take to ____ of nuclear energy?
 Can ____ how ____ going to give up nukes?
 ____ have Electricity ____ to ____ their ____ nuclear production?
 How ____ suppliers dealt ____ the risks ____ production?
 ____ it ____ Electricity ____ implemented strategies ____ decrease ____ use of ____ options?
 ____ Electricity Suppliers addressed ____ their ____ energy, and how?
 Have ____ initiatives ____ the Electricity Supplier ____ involvement in ____ practices ____ Nuclear Power generation?
 ____ is being tackled by ____ .
 ____ Suppliers taken ____ steps to ____ their ____ on ____ Energy ____ ?
 Has ____ Suppliers ____ decrease ____ on ____ hazardous forms ____ energy?
 What ____ been ____ to ____ dependency ____ nuclear energy ____ ?
 ____ did Electricity Suppliers ____ risks ____ nuclear ____ ?
 ____ are ____ by ____ Suppliers to decrease dependency on ____ ?
 ____ it possible that Electricity ____ have ____ about their ____ nuclear ____ ?
 How ____ electricity ____ their ____ nuclear energy?
 Do ____ providers ____ changed to reduce ____ unsafe ____ ?
 The ____ electricity ____ unsafe means like ____ energy ____ been minimized.
 ____ been able to curb dependence ____ unsafe nuclear ____ ?
 Have safety-focused initiatives ____ undertaken ____ Electricity ____ community ____ area ____ Nuclear Power ____ ?
 ____ electricity suppliers ____ reduce ____ reliance ____ unsafe forms ____ energy?
 Are you ____ of ____ energy at ____ Suppliers?

How do ____ suppliers ____ the use ____ ____?

Nuclear ____ what is Electric Suppliers doing to remove ____?

Have ____ suppliers implemented ____ to reduce their ____ potentially harmful ____?

____ any steps ____ the ____ can ____ to lower ____ use ____ nuclear energy?

How ____ electricity ____ on unsafe means?

How have electric ____ stopped ____?

Do ____ use nuclear ____?

Has electricity ____ nuclear ____?

What ____ by Electricity ____ risks for nuclear ____ production?

____ associated with atomic ____ is ____ electric companies ____ implemented.

Has ____ implemented ____ to ____ the ____ of dangerous ____?

Any steps ____ by Electricity ____ to reduce ____ dangerous ____ nuclear ____?

____ have ____ Suppliers ____ able ____ decrease dependence ____ options?

____ energy production ____ dangerous ____ options have ____ by ____.

____ dependence on ____ has been ____ by ____ suppliers.

Nuclear ____ production ____ options have been minimized by ____.

____ suppliers minimize ____ on ____ energy?

Are you ____ remove ____ energy like ____ power?

____ Suppliers have ____ dangerous nuclear power ____ being responsible.

Do ____ reduce their dependence on ____ power?

____ electricity companies avoiding ____ dangerous ____?

Electricity ____ might ____ risk ____ nuclear energy.

Is ____ taking steps ____ decreasing ____ on ____ Production?

Are ____ steps taken ____ Suppliers to ____ Nuclear power?

Is there ____ safety-focused initiatives ____ the Electricity ____ in regards ____ Power ____?

____ Suppliers ____ anything ____ reduce dependence on ____ Energy?

____ Electricity ____ to reduce ____ on unsafe ____ energy ____?

____ production is one ____ dangerous fuel options ____ try to ____.

____ there ____ in place ____ decrease ____ on ____ production?

____ are the ____ electricity suppliers ____ to decrease ____ on ____ of ____?

Are ____ any ____ have taken ____ on ____ use of nuclear?

Nuclear ____ Production has ____ how ____ Electricity Suppliers ____?

____ Electric Suppliers ____ against Nuclear Energy production?

Nuclear Energy ____ risky form ____ suppliers ____.

How have ____ suppliers been ____ on ____ nuclear power?

____ ways ____ dangers ____ with nuclear energy production?

Do ____ to safer sources rather ____ ones?

Nuclear ____ is ____ energy source ____ electric ____ are ____ to ____ it.

Does anyone ____ Electricity Suppliers ____ cut ____ dependency ____ power?

Do Electricity ____ have ____ plans ____ dependency on ____ power?

____ did ____ do ____ the use ____ insecure types?

Did Electricity Suppliers do ____ to ____ their ____?

Electric companies reduce ____ atomic ____.

How ____ Electricity Suppliers ____ minimize the risks of ____ energy ____?

Is ____ doing anything ____ stop Nuclear ____?

Did the suppliers ____ precautions ____ risky methods?

What ____ the electricity distributors to ____ use ____ atomic ____ production?

Is ____ proactive ____ addressing concerns about its dependency ____ energy ____?

Electricity suppliers ____ dependence ____ unsafe ____ like ____ production.

Did ____ tackle ____ of ____ energy?

Which _____ did Electricity _____ take to _____ their _____ sources?

Which _____ did Electricity _____ reliance on _____ energy sources?

_____ by electricity distributors _____ the _____ of insecure types?

_____ been _____ by Electricity Suppliers

_____ measures were _____ to curb dependence _____ nuclear _____?

What _____ have been _____ Suppliers _____ eliminate _____ hazardous sources?

_____ Suppliers have _____ steps _____ decrease their _____ unsafe forms _____ energy like _____.

_____ the _____ which Electricity Suppliers mitigated _____ risks?

Potential dangers _____ with _____ energy _____ mitigated by electricity _____.

_____ actions were _____ by electricity _____ the use _____ types?

_____ Suppliers have been _____ if _____ have addressed _____ its _____ nuclear _____.

Have _____ to _____ the _____ for nuclear power?

Are _____ safety _____ by the _____ Supplier _____ to Nuclear _____ Generation?

Are there _____ taken by _____ suppliers _____ risk with _____?

How have electricity suppliers reduced the _____?

_____ the _____ suppliers _____ nuclear _____ risk?

_____ have _____ their _____ on potentially unsafe forms _____ Nuclear Energy _____?

_____ have Electricity Suppliers taken to _____ their _____ nuclear _____?

Can you _____ Suppliers _____ taken _____ reduce reliance on nuclear _____?

Are _____ steps Electricity Suppliers _____ to _____ on nuclear _____?

Are electrical _____ reliance on potentially _____?

Does _____ suppliers have taken steps _____ Energy _____?

_____ there any _____ by _____ towards _____ their reliance on nuclear _____?

Do Electricity Suppliers _____ in place _____ lower _____ nuclear energy _____?

How have electricity _____ the use of dangerous _____?

How can _____ decrease their _____ to _____ like nuclear production?

_____ actions has Electricity _____ to reduce _____ sources?

_____ have _____ the use of nuclear power?

Are _____ any steps taken _____ Suppliers to _____ on _____ on _____?

Electric suppliers are _____ high- _____ as nuclear power _____.

_____ have minimized _____ unsafe _____ like _____ energy production.

_____ Suppliers have _____ lower their use _____ like nuclear _____ production.

Which _____ by Electricity Suppliers for _____ concerns?

_____ were taken to reduce _____ forms _____ power?

Has _____ Suppliers _____ high-risk methods _____ nuclear energy _____?

_____ know how electricity _____ plan _____ up risky nukes.

What steps have _____ to decrease _____ Nuclear _____ Production?

_____ actions were _____ minimize the _____ related to _____ energy _____?

What do Electricity _____ do to _____ power?

Is _____ electricity _____ better alternatives than dangerous _____?

_____ suppliers _____ take _____ to cut down on _____ on _____.

_____ Nuclear _____ been decreased _____ Electricity Suppliers.

In order _____ its susceptibility to _____ forms _____ like _____ production what actions _____ taken?

Can _____ tell me _____ the _____ plan _____ give up _____?

Are _____ suppliers decreasing their _____ energy?

Are _____ efforts _____ Suppliers to diminish _____ dependence _____ power?

_____ electrical providers _____ nuclear power _____ for _____ demands?

_____ one of _____ unsafe _____ of energy that _____ suppliers depend _____.

_____ actions have _____ to _____ their reliance _____ nuclear energy?

What _____ Suppliers' _____ to _____ dangerous nuclear power _____ be _____?

_____ do Electricity _____ their reliance on _____?
 _____ production _____ dangerous _____ have _____ by electricity suppliers.
 _____ providers _____ have _____ changes _____ reduce dependency on _____.
 _____ Electricity Suppliers address concerns about its dependence _____?
 _____ the _____ suppliers done to reduce dependence _____ of _____?
 _____ has Electricity _____ reduce their dependence _____ Nuclear Energy _____?
 _____ been taken to decrease _____ unsafe _____ of power?
 _____ energy production _____ the _____ dangerous _____ options have been _____ electricity suppliers.
 _____ the ways in _____ Electricity _____ mitigated nuclear _____?
 _____ must _____ on _____ nuclear energy.
 What are the ways _____ cut _____ power?
 How has Nuclear _____ production _____ Electricity _____?
 _____ out _____ are trying _____ reduce their reliance on nuclear _____?
 Are _____ being taken to _____ nuclear power?
 _____ electricity providers _____ nuclear _____?
 _____ are _____ that are _____ to reduce _____ forms of power?
 _____ steps to cut down on _____?
 _____ are _____ associated with nuclear _____.
 _____ Energy Production _____ a _____ form _____ supplier dependence.
 Are there _____ that _____ Suppliers _____ to minimize reliance _____ nuclear _____?
 Electric providers _____ changes to make _____ less _____ methods.
 _____ reduce their _____ nuclear energy?
 _____ Providers _____ safer sources, _____ of riskier ones?
 _____ by electricity suppliers to reduce _____ risks?
 _____ the _____ make better alternatives _____ dangerous nuclear _____?
 Electric suppliers _____ be less _____ on high-risk _____ generation.
 _____ information about steps taken by _____ risk _____ with _____ Energy Production?
 Do electricity _____ producing _____?
 Are you taking _____ on relying _____ nuclear?
 _____ measures to cut _____ relying on nuclear energy?
 What can _____ to decrease dependence on _____?
 How _____ Electricity Suppliers _____ their dependence _____ nuclear _____?
 _____ providers getting _____ from vulnerable _____?
 _____ want _____ know how _____ plan to _____ up risky _____ good.
 What _____ electric companies taken _____ atomic energy _____?
 _____ Electricity Suppliers _____ nuclear _____?
 Have _____ service providers _____ riskier _____ for generating _____.
 _____ implemented to minimize reliance on _____ forms of energy?
 What are the _____ to reduce _____ power?
 _____ suppliers _____ steps to decrease their dependence _____ Energy _____?
 _____ did _____ suppliers _____ to nuclear energy production?
 _____ the _____ Suppliers done to _____ on unsafe _____ power?
 _____ were _____ by electricity suppliers _____ reduce _____ for _____ production?
 _____ suppliers reduced reliance on _____ power generation?
 _____ there any action _____ against Nuclear Energy _____?
 Electricity _____ minimize _____ on risky nuclear _____.
 _____ actions have been taken _____ Suppliers _____ decrease _____ on _____ sources _____?
 _____ suppliers _____ reduced use _____ nuclear _____.
 _____ suppliers have _____ risk of nuclear _____.
 _____ you _____ me _____ about Electricity _____ plan to _____ up _____?

Are _____ taken _____ Electricity Suppliers to cut _____ on dependency _____?

What are _____ measures that _____ been _____ dependence on _____?

What _____ electricity suppliers taken _____ decrease _____ on nuclear _____?

_____ there any _____ that could _____ our _____ on nuclear _____?

_____ measures were _____ Suppliers regarding nuclear _____ production?

_____ have taken steps to _____ on nuclear _____.

Which measures _____ adopted _____ address safety _____ regarding _____ energy production?

_____ has the _____ with _____ power influenced _____ decisions made _____ Supply company?

Will the _____ on unsafe nuclear _____ work?

Nuclear _____ dependence _____ unsafe _____ minimized by electricity suppliers.

Nuclear energy _____ is a _____ method _____ to _____ their dependence.

What are electric _____ doing to reduce _____ energy _____?

How does the electricity _____ reliance _____?

Is there _____ to _____ their reliance on nuclear _____?

_____ it _____ Suppliers _____ lessened dependency on _____ methods?

Electric _____ have _____ Nuclear Energy _____.

_____ Electricity Suppliers _____ a _____ to _____ nuclear power.

How can _____ their use _____ nuclear _____?

Electric providers _____ dependency on unsafe methods.

_____ have Electricity _____ on _____ power?

Did anyone take action _____ nuclear _____ in _____ supply _____?

_____ are the _____ are taking _____ their susceptibility _____ unsafe forms of _____?

Is it possible that steps _____ taken to _____ nuclear _____?

Nuclear _____ production is _____ of electricity supply.

Have steps _____ taken _____ the use of _____ sources _____ power?

Does _____ have a _____ to _____ dependency on _____ energy?

Nuclear _____ been reduced by _____.

_____ any _____ in place _____ our reliance _____ production?

_____ Suppliers have tackled _____ risks _____ Energy _____.

What _____ the _____ to _____ dependence on _____ energy production?

Is _____ information about _____ taken by _____ suppliers _____ reduce risk associated _____ Energy Production?

_____ steps _____ electricity suppliers can _____ to _____ the _____ of nuclear _____?

_____ safety _____ undertaken by _____ Supplier community _____ Nuclear Power _____?

_____ did _____ suppliers of electricity reduce _____ forms of _____?

Is Electricity Suppliers taking _____ decrease dependence _____?

Nuclear power is _____ of the _____ energy _____ Suppliers _____.

_____ suppliers _____ dependence on _____ means _____ nuclear energy _____.

Did electrical _____ providers _____ themselves _____ alternatives _____ generating _____?

Are you trying to _____ sources _____ nuclear _____?

Electricity _____ measures to _____ reliance on unsafe _____ of _____.

Reducing dependency on _____ as nuclear _____ production, has _____ by _____.

_____ have _____ suppliers _____ their _____ on _____ means?

_____ taken by Electricity _____ decrease dependence on _____.

_____ suppliers have taken _____ their _____ to unsafe forms of _____ production.

How much has _____ electric suppliers _____ less reliant _____ nuclear _____?

Are _____ taken by _____ to cut their _____ on nuclear _____?

_____ dependency _____ Electricity Suppliers on _____ Production _____ decreased?

Are _____ any measures _____ Electricity _____ has _____ to _____ reliance _____ of energy?

Have Electricity Suppliers _____ steps _____ the _____ forms of _____?

_____ have implemented _____ to reduce risks related _____ energy _____.

What are _____ suppliers reduce the _____ of _____?

How did _____ risks associated _____ nuclear energy _____?

Electricity _____ have mitigated danger _____ nuclear _____.

_____ have electricity _____ dangers _____ with nuclear _____ production?

What _____ have been _____ Electricity _____ to _____ on _____ sources?

Have _____ taken _____ reduce the _____ nuclear power?

_____ being taken to _____ usage of potentially _____ forms _____?

Which _____ were _____ to _____ on unsafe _____ of _____?

How has Nuclear _____ been _____ by _____ Suppliers?

Nuclear _____ is _____ risky energy _____ what _____ Electric _____ doing _____?

Have _____ addressed _____ dependency on nuclear energy, _____?

_____ have _____ taken to _____ atomic energy usage?

Nuclear _____ been reduced by _____.

Electricity _____ have _____ on _____ means like nuclear energy _____.

_____ Suppliers _____ the potential risks associated _____ nuclear _____ production?

What _____ were taken _____ to reduce the _____ kinds?

Which _____ did _____ Suppliers use _____ make nuclear _____?

_____ do _____ suppliers take to decrease their _____ energy _____?

_____ dependence of _____ unsafe means _____ production is minimized.

How did _____ dependence on _____ forms _____ power?

_____ were taken by _____ Suppliers _____ dependency _____ risky energy sources?

_____ have electricity suppliers taken _____ on hazardous _____?

Electricity suppliers _____ taken measures to _____ nuclear _____

_____ Suppliers have taken _____ decrease _____ to _____ forms _____ like nuclear production.

Electric _____ have _____ initiatives to _____ risks associated _____ energy _____.

_____ shed _____ on how _____ Suppliers plan to _____ nukes?

Electricity _____ have taken _____ to _____ the use of _____.

Did _____ to reduce dependency on unsafe _____?

Electricity _____ dependence on _____ as nuclear energy production.

Is it _____ that electricity _____ trying _____ diminish their _____ dangerous _____ including nuclear _____?

What _____ were taken _____ Suppliers to _____ nuclear _____?

What were _____ taken _____ Suppliers to decrease _____ hazardous options?

_____ power _____ potentially dangerous, _____ decreased their reliance on it?

_____ there _____ actions _____ suppliers have _____ to decrease _____ nuclear _____ production?

Which actions _____ reduce dependency on dangerous sources?

_____ energy _____ is _____ of electricity supply.

_____ other _____ energy sources _____ avoided by Electric Suppliers.

_____ about _____ Suppliers _____ to reduce reliance on dangerous _____ energy?

_____ reduce reliance on _____.

_____ companies have _____ measures to reduce atomic _____.

_____ energy _____ be _____ by electricity _____.

_____ suppliers _____ riskier _____ energy.

_____ any steps _____ Suppliers to cut _____ nuclear power?

How _____ suppliers _____ risks of Nuclear _____ Production?

Are there _____ in place _____ will help decrease _____ nuclear _____?

What _____ been taken _____ curb dependence on _____?

_____ Suppliers have strategies to reduce _____ nuclear _____?

_____ electric companies done _____ risks _____ atomic energy _____?

_____ a potentially hazardous form of electricity _____.

Have Electricity _____ energy's _____?

_____ has Electricity _____ to _____ to unsafe _____ energy like nuclear production?
 _____ electricity _____ getting _____ from _____ nuclear energy _____?
 _____ suppliers _____ take precautions _____ using _____ methods?
 _____ possible that Electricity _____ to _____ dependency on _____ Energy Production?
 Nuclear _____ reduced by electricity _____.
 Electricity _____ mitigated risks associated _____ production
 Which _____ were _____ on dangerous energy sources?
 There _____ steps _____ Electricity _____ have _____ reduce their dependence on Nuclear _____.
 _____ there any _____ taken by electricity _____ the _____ atomic _____ production?
 How did _____ deal _____ the dependence _____ unsafe forms _____?
 Did _____ take _____ avoid _____ energy?
 _____ were _____ decrease dependence _____ unsafe _____ of power?
 Does electricity _____ take any _____ reduce _____ nuclear _____?
 Do _____ in place that _____ help _____ on nuclear production?
 _____ wonder if suppliers _____ reliance on _____ options _____ power _____.
 Is there any information you _____ about _____ reduce Nuclear Energy _____ risk?
 Nuclear power generation has _____ associated _____.
 How have electrical _____ reduced _____?
 _____ the suppliers _____ take _____ precautions _____ using _____ methods?
 What _____ were taken _____ reduce risks _____ production?
 _____ have been taken _____ Suppliers _____ dependency on _____ sources?
 Electricity _____ tackled nuclear _____
 Which _____ did _____ take to _____ on _____ energy sources?
 _____ energy production _____ one _____ the _____ that _____ suppliers have _____ towards minimizing.
 Is it possible that _____ have taken _____ to _____ on _____?
 _____ electricity suppliers addressed _____ risks _____ with _____ production?
 Electric suppliers _____ taken _____ Nuclear Energy _____.
 _____ tell me about the steps _____ by _____ to mitigate risk _____ Nuclear _____?
 _____ usage of _____ energy _____ being _____ by _____ Suppliers?
 How did _____ electricity _____ reduce _____ dependence on unsafe _____?
 Are _____ efforts by Electricity Suppliers to decrease _____?
 _____ taken by Electricity _____ for safety _____ about nuclear _____?
 _____ there a _____ in the dependency _____ energy production?
 _____ suppliers have taken _____ decreasing dependence _____ Energy _____.
 _____ decrease _____ susceptibility to _____ of energy such as nuclear production.
 _____ Energy _____ have _____ addressed _____ Electricity Suppliers.
 Electric suppliers _____ reliance _____ dangerous _____
 Are _____ to ditch _____ sources _____ nuclear power?
 Nuclear power _____ for meeting _____ been speculated to _____ decreased _____.
 _____ Electricity Suppliers _____ to reduce their dependence on _____?
 There are steps _____ Electricity _____ to _____ their dependence _____ Production.
 How _____ the electricity _____ tackled the _____ Energy _____?
 The _____ hazardous _____ like _____ has been lessened _____ Electricity Suppliers.
 _____ Suppliers _____ Nuclear _____ Production's risks.
 _____ measures were _____ to decrease _____ forms _____ electricity?
 Are _____ to _____ dependency _____ high-risk methods?
 _____ Electricity Suppliers _____ addressed concerns _____ how _____ they do it?
 _____ it possible that _____ have reduced _____ on _____?
 _____ the _____ taken by _____ the use of insecure types?
 _____ are _____ steps _____ by _____ to reduce _____ with Nuclear _____ Production?

What _____ initiatives used _____ electric _____ reduce risks _____ with _____ energy _____?

What _____ the _____ suppliers are _____ decrease their _____ to _____ forms of _____?

Nuclear _____ risky and _____ has Electricity _____ reduced _____?

_____ there _____ information _____ taken by electricity suppliers to _____ with _____ like Nuclear Energy _____?

Which actions were _____ suppliers to reduce _____ dependence _____ risky _____?

_____ electric providers _____ focused _____ to reduce _____ on unsafe _____?

_____ Suppliers implemented _____ lower _____ usage of _____ energy production?

Are _____ trying _____ dependency on _____ methods?

_____ electrical _____ hazardous nuclear _____.

_____ nuclear power production been addressed _____ Suppliers?

How has _____ Suppliers _____ steps to _____ on nuclear _____?

_____ have _____ reduced their dependence _____ unsafe _____ like _____ production?

Are _____ taken _____ of nuclear _____ by Electricity Suppliers?

_____ electric _____ their _____ of nuclear energy?

_____ Suppliers' ploy _____ dangerous nuclear power?

_____ reduce reliance on _____ energy.

_____ reduction _____ the dependency _____ Electricity Suppliers _____ Nuclear _____ happening?

_____ been _____ curb nuclear dependence?

Is _____ Electricity _____ trying to _____ dependency on _____?

Which actions have been _____ by Electricity _____ for _____?

_____ taken any steps to reduce their reliance _____ unsafe _____?

_____ there initiatives undertaken by the _____ reduce involvement _____ unstable _____?

_____ there _____ being taken by _____ to reduce _____ of _____ sources?

Have Electric Suppliers _____ avoid Nuclear _____?

Are Electricity _____ to _____ dependency on _____?

_____ Electricity Suppliers _____ lower their use _____ options like _____ energy _____?

Electricity suppliers _____ taken _____ reduce dependence on _____

_____ initiatives been taken by _____ Electricity Supplier _____ order to _____ practices?

Are _____ measures you _____ to reduce _____ reliance on _____?

Are you taking _____ steps to _____ the _____ of _____?

Have _____ Suppliers _____ Energy production?

Have _____ addressed _____ about their dependency on nuclear _____?

Is electric _____ focused changes _____ reduce dependency on _____?

_____ initiatives been taken _____ the Electricity _____ community, _____ related _____ generation?

Have _____ steps been _____ minimize _____ use _____ power?

Can you tell _____ about the steps _____ reduce risk _____ with Nuclear _____?

_____ measures _____ has _____ to _____ reliance on nuclear _____ outlined?

_____ have made changes to reduce _____ on _____.

_____ have _____ put _____ to curb _____ on unsafe nuclear _____?

What steps _____ taken by _____ to reduce _____ Nuclear Energy _____?

Have _____ any steps to cut _____ relying on _____?

_____ try _____ decrease their _____ to _____ forms _____ energy like nuclear _____.

_____ electrical suppliers do to _____ on _____ use of hazardous _____?

_____ have _____ companies done to _____ to atomic _____ usage?

Electricity _____ have _____ use _____ Nuclear _____.

Does _____ Suppliers have _____ on nuclear energy?

_____ steps being taken by Electricity Suppliers _____ minimize _____ usage _____?

_____ the _____ Suppliers _____ progress _____ moving away _____ Energy?

_____ has _____ suppliers _____ their _____ on potentially unsafe _____ of _____?

What _____ measures _____ has _____ to _____ on nuclear power?

Has Electricity _____ to decrease dependency on _____?

How _____ Electricity _____ decrease _____ susceptibility to unsafe _____ of _____ nuclear _____?

_____ taken _____ cut _____ on the use _____ nuclear?

_____ we be _____ determine _____ any efforts have _____ their reliance _____ nuclear power?

_____ Suppliers reducing their _____ methods?

_____ it _____ to _____ the _____ Suppliers has taken _____ reliance on _____ power?

_____ you _____ relying _____ risky _____ sources.

What steps are _____ the risk associated _____ Nuclear _____ Production?

Is there any plan _____ place _____ decrease _____ dependency _____ production?

_____ there any _____ Suppliers have implemented _____ reduce _____ nuclear power?

Electricity Suppliers _____ been asked _____ dependency on _____ energy _____ how.

_____ suppliers _____ to reduce reliance on _____ energy _____.

Some _____ nuclear power.

How have electrical suppliers _____ down _____ of _____?

What ways has _____ risk _____ nuclear _____ influenced _____ made _____ Supply company?

_____ have implemented _____ to _____ atomic _____ risks.

Is it _____ that electricity _____ are _____ to lower _____ nuclear _____?

What _____ was _____ by Electricity Suppliers _____ decrease _____ on _____?

Has _____ taken _____ down on relying _____ nuclear?

_____ quit relying _____ riskiest nuclear _____?

_____ considered _____ risky energy source by _____ suppliers.

Do _____ address _____ their dependency on _____ energy?

Electricity _____ took measures to _____ nuclear _____.

Are _____ less _____ Nuclear _____ Production?

What _____ Electricity Suppliers _____ susceptibility to unsafe _____ of _____ like nuclear _____?

Did _____ of _____ take _____ producing nuclea renergy?

_____ actions _____ been _____ by _____ to decrease their dependence on _____?

How _____ suppliers _____ their _____ of _____ power?

_____ efforts made by Electricity Suppliers to _____ on _____?

_____ any steps _____ taken _____ the _____ of _____ by Electricity Suppliers?

_____ electricity _____ steps to reduce _____ high-risk methods?

_____ actions have _____ taken _____ their dependence on nuclear _____?

_____ there _____ efforts _____ by Electricity _____ reliance _____ potentially dangerous options?

_____ it possible _____ diminishing _____ reliance on nuclear power?

Can you tell me _____ the _____ by _____ reduce _____ with _____ Energy Production?

Which measures _____ to make their _____ production safe?

_____ taking _____ reduce dependency on _____ energy production?

What _____ that Electricity Suppliers _____ taken to reduce _____ on _____ Production?

How _____ do you _____ the _____ by electricity suppliers to reduce _____ Nuclear Energy _____?

Are _____ up _____ energy _____ like nuclear _____?

_____ the _____ mitigated the use _____ dangerous _____ options?

_____ have _____ to _____ dependence on potentially hazardous methods?

Nuclear Energy _____ not _____ to use.

_____ Electricity Suppliers _____ lower their usage of _____ options _____ production?

_____ electrical _____ use _____ nuclear power?

What can electrical _____ do _____ usage of hazardous _____?

Have steps been taken to _____?

Do Electric _____ for safer sources, _____ like _____?

Are _____ trying _____ get rid _____ energy _____ like nuclear _____.

How can Electricity Suppliers lower _____?

Does Electricity _____ measures to _____ dependence on _____?

_____ Electricity Suppliers addressed _____ risks _____ Energy Production?

Is _____ suppliers _____ to _____ dependence on nuclear power?

_____ it true that _____ have _____ focused changes to _____ unsafe methods?

_____ has _____ reduced their _____ Nuclear Energy?

Have _____ suppliers _____ reliance on nuclear power?

How _____ do you _____ taken _____ electricity _____ to reduce _____ associated with _____ Energy _____?

_____ reduced _____ dangerous nuclear energy.

Nuclear power _____ is _____ have Electricity _____ that?

_____ Electricity _____ decrease _____ on high-risk methods?

How _____ Suppliers attempt _____ decrease _____ on _____ options?

Electricity Suppliers _____ attempting _____ dangerous _____ and be _____.

Electricity _____ risks of nuclear energy _____.

_____ suppliers of electricity _____ dangerous methods?

_____ have electric companies _____ to reduce _____ risks?

What can electricity _____ decrease _____ on nuclear _____?

_____ doing _____ to reduce Nuclear _____ production?

What's Electricity _____ plan _____ get rid _____?

Have safety-focused _____ been _____ by _____ Supplier community _____ reduce _____ involvement in _____?

What _____ Electricity _____ taken _____ reduce dependence on _____ Production?

The _____ of _____ been tackled by electricity suppliers.

Electricity Suppliers _____ the _____ aspects _____ nuclear _____ production

Are the _____ Electricity Suppliers _____ to minimize reliance on _____ forms _____?

Was there _____ precautions taken by suppliers _____ relying _____?

What are _____ ways _____ suppliers _____ the _____ nuclear _____?

_____ have _____ Suppliers _____ the _____ associated with nuclear _____?

Is _____ suppliers _____ done _____ their reliance on nuclear power?

_____ suppliers _____ of nuclear energy _____.

_____ providers _____ away from _____ energy _____?

_____ measures did electricity _____ to _____ dependence _____ nuclear _____?

_____ providers _____ any changes to _____ dependency _____ unsafe _____?

Have _____ Suppliers implemented _____ decrease the use of _____?

_____ are the actions _____ Suppliers _____ decrease their susceptibility _____ of energy?

_____ suppliers _____ reduce their usage of _____ forms of power?

Are there _____ measures _____ to _____ down on _____?

Electricity _____ have mitigated _____ dangers _____ the production _____ nuclear _____.

Nuclear power and other unsafe _____ of _____ be _____ Suppliers.

_____ suppliers _____ actions to _____ dependence on nuclear _____ production.

_____ do _____ do _____ decrease their _____ to unsafe _____ of _____?

How have suppliers reduced _____ dangerous _____?

What measures _____ to _____ dependence _____ unsafe forms _____?

Do _____ suppliers _____ measures to _____ nuclear energy?

_____ electricity _____ the _____ nuclear energy?

Which steps _____ taken by _____ lower _____ use of _____?

Did you take action _____ the _____ nuclear _____ in _____?

Any _____ taken _____ Electricity _____ to _____ dependency _____ power?

How _____ electrical suppliers _____ hazardous nuclear _____?

_____ the steps taken _____ Suppliers to _____ dependence on _____ Production?

_____ Electricity Suppliers have _____ strategies to lower _____ usage _____ energy?

What are you _____ down _____ use _____ nuclear?

Can _____ more about the measures _____ Suppliers _____ taken _____ reliance _____ nuclear _____?

_____ possible that _____ Suppliers have taken _____ to _____ use _____ nuclear _____ production?

Nuclear Energy _____ a _____ of energy, _____ Electric _____ do?

Electricity suppliers have _____ to reduce _____ of power.

_____ Electricity _____ steps towards _____ on _____ Energy Production?

_____ Suppliers implemented steps _____ minimize their usage _____ harmful _____?

Which measures were taken by Electricity Suppliers _____ ensure _____?

Can _____ dependence on _____ Energy Production?

What has _____ by electricity _____ decrease dependency _____ sources?

_____ nuclear power _____ by suppliers?

Electricity suppliers _____ unsafe _____ nuclear energy _____.

_____ to diminish the use of _____ power _____ Suppliers?

_____ suppliers _____ steps _____ decrease dependency _____ Nuclear Energy _____?

Nuclear _____ a risky energy source _____ trying to _____.

_____ suppliers _____ steps _____ decrease dependence _____ potentially _____ forms?

Have _____ Suppliers _____ steps _____ risky _____ energy _____?

Have safety _____ initiatives been _____ Supplier _____ regards to reducing involvement _____ practices?

Are _____ any _____ in place _____ could decrease _____ production?

_____ taken to curb dependence _____ power.

_____ electrical _____ less _____ on potentially _____ like nuclear _____ generation?

_____ the measures Electricity _____ has _____ reduce reliance on _____ power?

The _____ less _____ options such as nuclear power _____.

Are _____ Suppliers doing anything to _____ unsafe forms _____?

Can you _____ me _____ Electricity _____ to give up _____?

How has _____ mitigated _____ dangers of _____ production?

Do _____ plans _____ place to _____ the dependence on _____?

_____ it _____ that _____ suppliers _____ to diminish _____ nuclear power?

_____ tell me _____ Suppliers _____ to give up nukes?

_____ actions _____ Electricity Suppliers taken to decrease _____ on _____?

_____ it _____ that electricity suppliers _____ on nuclear energy _____?

Nuclear Energy _____ risky _____ energy for Electric _____.

_____ has Electricity Suppliers addressed _____?

Do _____ have _____ decrease _____ use of nuclear _____?

Is _____ possible _____ decreased _____ reliance on risky options _____ power _____?

_____ Nuclear _____ by electricity suppliers?

Have _____ providers made _____ focused changes _____ reduce dependence _____?

_____ measures have _____ taken _____ to reduce _____ on _____ forms of _____?

_____ trying _____ reduce _____ with atomic energy usage.

Electricity Suppliers _____ mitigated _____ with _____ energy _____

Have _____ taken _____ the use of _____ by _____ suppliers?

_____ steps _____ Suppliers _____ take _____ the use of nuclear energy.

_____ power _____ is _____ of _____ options electric suppliers _____.

_____ actions were _____ to _____ energy _____?

_____ do Electricity Suppliers do _____ decrease _____ susceptibility _____?

_____ there _____ steps that _____ Suppliers _____ taken _____ Energy production?

How has nuclear energy _____?

_____ what Electricity _____ plans to _____ about risky nukes?

_____ reduce dependence on unsafe _____?

Is it possible _____ companies adopted strategies _____?

Which actions have been _____ in _____ to decrease _____ sources?

_____ measures _____ adopted _____ Electricity _____ address _____ concerns _____ nuclear energy production?
 What _____ the _____ by electricity _____ to decrease _____ use of _____?
 Are there steps being _____ hazardous energy sources _____ nuclear _____?
 _____ have taken steps _____ dependence _____ Nuclear _____ production.
 _____ any steps _____ against _____ production by _____ Suppliers?
 Electricity _____ on risky _____ energy.
 _____ electricity companies _____ avoid risky _____?
 What _____ the measures Electricity _____ has _____ to _____ on _____ forms of _____?
 _____ you _____ to _____ nuclear energy _____ Electricity _____?
 Have steps _____ taken _____ decrease the _____ of _____?
 What have _____ done _____ dependence _____ power?
 Will _____ make _____ less _____ on high-risk _____ as _____ power generation?
 _____ by _____ suppliers to decrease _____ on hazardous options?
 _____ are _____ steps that _____ are _____ decrease their dependence _____ nuclear _____ production?
 _____ generation _____ the potentially dangerous methods _____ providers used.
 _____ can _____ Suppliers _____ decrease _____ on nuclear energy?
 _____ you _____ about _____ measures Electricity _____ have taken to _____ on dangerous forms _____?
 What _____ electricity suppliers _____ reduce the _____ of _____ fuel _____?
 _____ if _____ have been _____ to diminish the reliance on _____?
 Are there _____ being undertaken by the _____ Supplier community _____ practices?
 What _____ Electricity Suppliers _____ dependence on unsafe _____ electricity?
 How _____ authorities made _____ suppliers less reliant _____ options _____ power generation?
 Does _____ have _____ reduce dependence on unsafe nuclear _____?
 Is _____ place that _____ help decrease _____ on Nuclear Production?
 _____ focused initiatives been _____ by the Electricity _____ reduce involvement in _____?
 How can Electricity Suppliers _____ on _____ on _____?
 _____ energy production is one _____ dangerous options that Electricity _____ strategies _____.
 _____ abandoning dangerous energy _____ nuclear _____?
 Has _____ Suppliers taken _____ decrease dependence _____ nuclear _____?
 What _____ to _____ risks associated with nuclear energy _____?
 _____ aspects _____ power production _____ Electricity _____ addressed?
 How _____ electricity _____ tried to _____ on nuclear _____?
 _____ have electricity suppliers minimized _____ means
 What _____ Electricity _____ potential dangers _____ with _____ energy production?
 _____ to decrease its _____ unsafe _____ of energy like nuclear _____ has _____ Suppliers _____?
 _____ taken any measures to _____ nuclear?
 _____ take action against dangerous _____ in _____ supply _____?
 _____ electricity _____ plans _____ avoid _____ energy?
 _____ were the _____ electricity _____ to _____ dependence _____ forms of power?
 _____ actions has _____ taken to _____ dependence on _____ energy _____?
 _____ electricity _____ reduced their dependence _____ potentially _____ like Nuclear _____ Production?
 Do _____ initiatives have _____ undertaken _____ community to _____ in unstable practices?
 What are the _____ Suppliers _____ taken _____ reduce their reliance _____?
 _____ providers _____ changes _____ their dependency on unsafe _____.
 Can you _____ me _____ plan _____ about nukes?
 _____ am _____ Suppliers plan to give up _____.
 Have electricity _____ taken steps _____ from _____ sources?
 _____ have nuclear power production's _____ aspects _____ suppliers?
 What actions were _____ by Electricity _____ to reduce _____ production?
 _____ Suppliers reduced dependency _____ unsafe _____ of power?

_____ did _____ electricity suppliers _____ dependence on nuclear _____?

_____ suppliers _____ taken _____ reduce _____ dependency _____ nuclear energy production.

_____ suppliers _____ to decrease _____ on _____ Energy Production?

Did _____ of electricity _____ precautions against _____ potentially _____?

_____ safety-focused _____ done by _____ Electricity Supplier community _____ to _____ involvement _____ unstable _____?

_____ electric companies _____ anything _____ reduce risks _____ atomic _____ usage?

What steps were _____ to reduce the _____ of _____?

What _____ have _____ Suppliers _____ diminish _____ on hazardous sources?

Are electricity providers _____ longer involved _____ risky _____?

_____ Electricity _____ cut _____ on _____ on _____ means such _____ nuclear power?

There _____ of nuclear power _____ are _____.

What _____ taken by Electricity Suppliers _____ make their _____ sources _____?

_____ the ways _____ have reduced the use _____ nuclear _____?

Do _____ nuclear power production?

_____ it _____ electricity suppliers are trying _____ their _____ dangerous options?

_____ suppliers have _____ usage of nuclear energy production.

What actions were taken _____ the _____ energy production?

Has Electricity Suppliers _____ their usage of _____?

Are steps _____ taken to _____ the need _____ energy _____ like _____?

_____ the _____ supplier _____ using dangerous methods?

_____ were taken _____ Suppliers to decrease _____ on risky _____?

What _____ taken _____ curb dependence on _____ nuclear _____?
