

[Demo] NLP Dataset for Customer Service Automation

Company Type	Electricity Suppliers
Inquiry Category	Equipment malfunction troubleshooting guidance
Inquiry Sub-Category	Generator Troubleshooting
Description	Assistance with diagnosing and resolving problems with backup generators, including inspecting fuel levels, checking battery connections, and troubleshooting mechanical or electrical malfunctions.
Data Size	5,092 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Electricity Supplier" customer inquiry. (Purchased data will not be masked.)

What should _____ if _____ backup _____ not producing _____ power?
_____ should _____ if _____ cranking up the power?
_____ generator _____ generating power, _____ should i _____?
If my _____ generate power, _____ I _____?
_____ should _____ if my _____ isn't generating any _____?
_____ can be done _____ backup fails _____?
I _____ know what I _____ do _____ doesn't produce _____.
How _____ I proceed _____ there's _____ from _____ generator?
What should _____ do _____ my _____ does _____ power?
There _____ be _____ if my _____ delivering power.
What _____ be _____ case of a _____.
If my _____ you tell me what _____ do?
_____ my generator fails to _____ any _____ what _____?
There _____ electricity _____ the generator _____ should I do?
_____ advice as _____ backup Genny _____.
_____ my generator _____ produce _____ power _____ I do?
What _____ do _____ generator _____ generating power?
What do _____ my backup _____ is failing?
What _____ I _____ if _____ generator _____ do _____?
_____ the _____ generator if it _____ produce _____ electricity?
Is _____ act when _____ backup generator _____?
_____ should _____ done if my _____ making no _____?
Is there _____ solution _____ generator not _____?
_____ fix the non-functional _____?
_____ I make _____ generator less _____ or _____ it, if _____ isn't _____ power?
_____ should I take _____ generator if _____ is no _____?
What _____ I _____ if the backup _____?
No power _____?

____ backup generator ____ now?
 ____ generator ____ generate power.
 ____ generator ____ to ____ power, could you advise on ____ it?
 ____ should I do if there's ____ generator?
 ____ what ____ no power ____ the ____?
 Backup ____ do ____ do?
 In case ____ power ____ my ____ how can ____ proceed?
 If my ____ does not ____ power, ____ a ____?
 What should be done if ____ does ____?
 How ____ deal with ____ from ____?
 What ____ when a non-functional ____ unit ____ present?
 If the ____ does not ____ I do?
 When ____ generator ____ delivering any ____ I do?
 If my backup ____ you give ____ tips ____ how ____ it?
 ____ is ____ from a generator, what should I ____?
 Can a solution be ____?
 Is ____ a ____ with a ____ failure?
 In the event of ____ output ____ my ____ can ____?
 Is there a ____ act ____ gen fails?
 ____ generator doesn't make ____ power, ____ I do?
 ____ do I ____ backup ____ fails?
 There ____ backup generator ____
 ____ I ____ if my generator ____ produce ____ power?
 What ____ my ____ generating power?
 ____ I ____ if my ____ doesn't generate ____ power?
 ____ can ____ do if ____ generator isn't ____ power?
 ____ do ____ do without ____ from ____ backup?
 How ____ proceed ____ is ____ electric output ____ the generator?
 ____ my generator ____ generating ____ I ____ my backup Generator less ____ keep ____?
 ____ are ____ solutions to inactive ____?
 How to ____ a non ____.
 What ____ be done to ____ backup ____?
 ____ should I do if the ____ electricity?
 ____ my generator ____ any power, what ____ do?
 How should I ____ the ____ there ____ no electric ____ generator?
 What should ____ if my ____ any power?
 ____ fix ____ backup generator that ____?
 How ____ deal ____ output from my generator?
 ____ non-functional backup generator?
 ____ backup gen fails, ____ act?
 Can ____ tell ____ to ____ an inactive ____ generator?
 Should I make ____ less powerful ____ going if ____ generator ____ generating ____?
 ____ power from ____ what?
 ____ should ____ done ____ isn't functioning?
 ____ backup generator fails to ____ power, do ____ suggestions ____ how to ____?
 What ____ I ____ my generator is unable ____?
 How ____ act ____ the ____ gen ____?
 How should I proceed if ____ electrical ____?
 ____ fails, how should we ____?
 ____ backup fails to ____ is taken?

What ____ I do ____ doesn't ____ me any ____ again?
 ____ backup genset ____ working?
 If ____ doesn't produce any ____ what ____ I ____ to get ____?
 ____ isn't providing electricity?
 What ____ I do ____ generator doesn't ____ power?
 If ____ backup generator doesn't ____ power, what ____?
 What ____ I do if ____ get ____ my generator?
 ____ should I proceed if ____ is ____ coming ____ generator?
 ____ generator isn't ____ what ____ I do?
 In case ____ backup ____ how can I ____?
 What steps should I ____ generator ____ not ____?
 ____ I ____ power of ____ Generator if ____ generator isn't generating ____?
 Can ____ on inactive backup ____?
 ____ should ____ do ____ my generator ____ do its ____?
 If there's ____ electricity ____ the generator, ____ what should ____?
 ____ be ____ if there isn't a ____ generator ____?
 ____ from ____ backup generator, now ____?
 ____ do ____ my ____ is malfunctioning?
 When ____ fails, ____ action should ____?
 ____ act when backup ____ fails?
 ____ can ____ proceed ____ case ____ backup generator ____ off?
 What ____ I ____ if ____ power up?
 ____ my generator ____ electricity, ____ should ____ do?
 ____ my ____ isn't producing ____ what ____ I do?
 ____ I ____ my generator does not ____ Electricity?
 ____ proceed if my generator ____ electrical output?
 What ____ taken when ____ backup doesn't ____?
 What action should ____ if ____ no ____ output ____ my ____?
 How can I proceed ____ generator ____?
 What ____ I ____ generator isn't generating ____?
 ____ I take ____ my generator ____ produce electricity?
 What ____ I do if my Generator ____?
 No ____ from ____ how ____ it?
 ____ with ____ what do ____ do?
 What ____ do ____ my ____ making power?
 ____ there ____ an ____ output from my ____ what should ____?
 ____ backup ____ is not ____.
 What should ____ do ____ my generator ____ electrical ____?
 What should ____ my generator ____ electrical power?
 When a ____ what ____ we ____?
 ____ should ____ deal with a ____ produce ____ output?
 ____ from ____ now what?
 What ____ do if my ____ produce ____?
 What ____ my generator is not ____ power
 ____ happen ____ my generator ____ power?
 What ____ do with ____ if it ____ produce ____?
 What ____ I ____ backup ____ goes bad?
 How ____ I ____ if ____ don't have ____ output ____ generator?
 How should ____ with ____ if ____ is no electric ____?
 What can I do ____ my ____ cranking ____?

How ____ I proceed if ____ electricity?
 ____ Gen ____ can I act?
 ____ no ____ from ____ backup generator?
 ____ my ____ generator doesn't give me ____ I do?
 How to ____ isn't functional.
 What do ____ my generator ____ power?
 ____ be done if ____ generator ____ power?
 If ____ the ____ what should I do?
 How ____ if there ____ electrical output ____ my generator?
 Can ____ advice ____ the ____ generator?
 ____ I do ____ my ____ does not ____ electric ____?
 ____ my ____ generator is malfunctioning, what ____?
 ____ is ____ from backup?
 What ____ I ____ if my generator ____?
 What ____ I do if ____ from the ____?
 ____ should I ____ if ____ generator ____ give me ____?
 ____ generator ____ not provide enough power, ____ I ____ it?
 If there's ____ coming ____ generator, what ____ do?
 ____ should ____ if ____ doesn't produce electric output?
 What should happen if ____ not ____?
 How ____ react when ____ unit ____?
 ____ my ____ generating ____ power, what should ____ done?
 Suppose my ____ isn't ____ power, ____ should ____?
 What should ____ do in ____ my ____ produce ____?
 ____ the ____ generation ____ how ____ act?
 ____ done if ____ generator is ____ cranking ____ power?
 What ____ done if ____ doesn't ____.
 ____ should ____ doesn't provide power?
 What should ____ case ____ generator ____ not work.
 What ____ should I ____ if ____ electrical ____ my generator?
 ____ do ____ do ____ my generator isn't ____ any ____?
 What ____ I do if my backup ____?
 When my ____ isn't ____ power, ____ I take?
 ____ any guidance ____ an ____ generator?
 ____ can I ____ if ____ generator ____ power?
 ____ should ____ done when ____ backup generator does ____?
 ____ the ____ Genny ____ malfunctioning.
 What ____ a non-functional generator ____?
 What should be done ____?
 ____ a ____ fails, how to ____?
 ____ Gen ____ how ____ we act?
 I'm ____ backup generator ____.
 ____ backup ____ isn't ____ what?
 ____ do if my generator doesn't produce any ____.
 ____ handle my generator if there ____ output?
 ____ be done when the ____?
 If my ____ doesn't ____ what should I ____ it to work ____?
 ____ should I ____ if my ____ output?
 How fix a ____.
 ____ respond when ____ backup ____ fails?

What _____ if _____ backup generator doesn't _____?

If _____ backup generator fails to produce _____ you _____ me _____ to _____ it?

What _____ with the _____ working?

_____ if _____ any power, what should _____ do?

Please advice, _____ malfunctioning

_____ you have _____ solution if _____ to _____ power?

How _____ in case of complete _____ output _____ my backup _____?

What _____ I do if my _____ generator _____ power?

Gen _____ working _____ advice.

How _____ fix the _____?

What should _____ do _____ my _____ supply electric _____?

_____ be done when _____ backup _____ isn't _____ power?

How _____ fix _____ that has _____?

_____ are _____ to _____ generators?

What should _____ there _____ no _____ output _____ my generator?

What should _____ doesn't deliver any power?

What should I _____ if _____ isn't producing _____?

_____ should _____ if the backup Gen _____ make _____?

What should _____ if _____ Generator isn't _____?

_____ advice _____ the backup _____ working.

_____ to _____ a _____ generator that's _____.

What _____ do if my _____ isn't cranking _____?

If _____ generator isn't _____ any power, _____ be _____?

_____ should I _____ generator doesn't produce any _____?

_____ I _____ if _____ ceases to produce power?

_____ a backup unit _____ how _____?

I _____ a _____ generator _____ not work _____ moment.

What now, _____ genset _____ not _____.

_____ can I _____ backup generator?

_____ should happen when _____ backup _____?

If _____ has _____ output, what _____ I do?

If _____ generator _____ making power, _____ should _____ done?

_____ backup _____ to provide electricity?

What _____ I _____ if my generator _____ electric _____?

_____ proceed if the generator doesn't _____ any _____?

What _____ do to get something _____ my _____ if _____ doesn't _____ power?

_____ my generator _____ produce power _____ should _____ do _____ get _____?

What _____ be _____ my _____ not delivering _____ power?

What do _____ the backup _____ doesn't _____?

Now _____ after no power _____?

How should _____ generator if _____ no _____ output?

I would _____ know how _____ generator if it _____.

What _____ be _____ when the backup _____ to _____?

What should _____ my _____ not working?

_____ should _____ done _____ my generator _____ it _____ delivering _____?

What should _____ do _____ generator _____ power again?

_____ The backup _____ working.

_____ should I do if my _____ not _____?

_____ should I do _____ no electricity _____ from _____ generator.

_____ of _____ that isn't _____ what should _____ done?

____ advice, the backup Genny ____ ____ _____.
 ____ my generator ____ power ____ should ____ do?
 What ____ do if ____ backup ____ produce any ____?
 ____ should ____ proceed ____ my generator ____ give ____ output?
 Is ____ that ____ backup generation ____ make ____?
 ____ can I deal ____ complete absence ____ from my backup ____?
 ____ can I do ____ my backup ____ doesn't ____?
 Do ____ have solutions ____ backup ____?
 What should I do ____ my ____ not ____?
 ____ fix the ____ backup ____?
 ____ my generator fails to ____ power, ____ have ____?
 When backup ____ act?
 ____ if ____ energy supplier ____ produce?
 ____ the ____ genset ____ not working?
 ____ a solution in ____ my backup ____?
 ____ case ____ of power ____ my backup generator, what ____ I ____?
 If ____ backup ____ fails to produce ____ could ____ me ____?
 ____ genset ____ working, what ____?
 ____ There ____ power ____ a backup generator.
 ____ do ____ do ____ backup generator ____ not working?
 ____ there is ____ from ____ generator, what should I ____?
 Is there a solution ____?
 When ____ backup ____ action should we take?
 Should ____ backup ____ fail ____ generate power, ____ a ____?
 ____ do ____ my generator ____ not perform?
 What ____ I do when ____ doesn't ____ power?
 ____ if my generator isn't ____ power?
 ____ out, backup ____ should we ____?
 ____ should ____ do if my ____ doesn't ____ with any ____?
 How ____ with my generator not ____ output?
 How ____ absence of power ____ my backup generator?
 ____ should ____ done ____ event of a ____ functioning generator ____?
 ____ should ____ handle zero electrical ____ from ____?
 What ____ do if my ____ doesn't generate ____?
 In ____ of power output from my generator, ____ proceed?
 ____ if my generator ____ producing power?
 The backup ____ working, ____ do?
 If ____ isn't ____ electricity, what should I ____?
 ____ should I do ____ my generator ____ power ____?
 What should ____ if there is ____ generator.
 ____ backup ____ not working
 What should ____ the ____ isn't ____?
 What ____ be done if ____ a ____ generator ____?
 ____ done when a ____ working?
 If ____ isn't working then ____ should ____?
 Now ____ there is no power ____?
 What ____ do if the ____ Gen ____ power?
 ____ my ____ is not ____ should be done?
 ____ I ____ when a backup ____ is ____?
 How ____ generator that ____ working?

____ a solution ____ backup ____ fails?
 ____ I ____ my generator doesn't ____ electrical output?
 ____ help with ____ inactive backup ____.
 In ____ generator ____ what should be ____?
 If my ____ doesn't give ____ any ____ should I ____?
 ____ actions should ____ if ____ generator does ____ produce ____ output?
 The ____ working ____ now?
 What ____ I do ____ generator ____ provide any ____?
 When a backup ____ can ____?
 ____ my generator doesn't ____ any ____ I supposed to ____?
 Is ____ a ____ the ____ doesn't ____?
 What ____ take ____ no power from my generator?
 Now ____ no ____ from backup?
 If my generator isn't generating ____ should I make ____ less ____ I ____?
 ____ I ____ if ____ backup ____ doesn't work?
 ____ be done ____ my generator ____ give me ____?
 ____ to ____ a backupGen ____?
 ____ should ____ do to generate ____ if ____ doesn't produce any ____?
 How should ____ if my ____ doesn't ____ any ____?
 ____ toTroubleshoot ____ electricity ____ generator?
 ____ help, ____ backup Genny ____ not ____.
 When the ____ how ____ act?
 ____ generator ____ making any power, what ____ I ____?
 ____ complete ____ of power ____ my backup generator, ____ can I ____?
 Is there a ____ a ____ generation fails?
 ____ deal ____ Gen failing?
 How ____ a non-working ____?
 ____ I ____ my ____ doesn't produce electric output?
 ____ can ____ there is no ____ output from my ____?
 ____ should be ____ a generator ____ not ____?
 ____ to ____ from the ____ generator?
 ____ can ____ deal ____ a complete ____ of ____ backup generator?
 What ____ do after ____ generator does ____ electricity?
 ____ no power from ____?
 What ____ if the ____ doesn't ____?
 ____ no electric output from my ____ should I ____?
 ____ a ____ that is malfunctioning?
 How ____ with ____ complete lack ____ output from my ____?
 ____ should ____ done when my ____ is ____ producing ____?
 Do ____ have ____ advice on an ____?
 What should ____ if the ____ not work.
 ____ should I ____ my generator ____?
 ____ should be ____ generator is ____ functional?
 ____ my generator fails to ____ could ____ advise ____ how to ____?
 ____ isn't giving me ____ power, ____ should ____ do?
 What ____ if ____ generator doesn't ____ electricity?
 ____ having a backup ____ power.
 ____ my generator ____ working, what ____?
 ____ do when a backup ____?
 What ____ be taken ____ fails to generate?

What ____ be ____ there is ____ non-functional ____?
 ____ is not generating power, ____ do?
 If ____ generator isn't ____ what should ____?
 What can ____ backup fails?
 ____ there ____ solution if my generator ____ produce ____?
 Should ____ make ____ generator less ____ going, if ____ not generating power?
 How ____ power after ____ generator ____?
 My ____ isn't generating ____.
 When the ____ power ____ suggestions?
 If ____ no electric output ____ should ____ act?
 What ____ when ____ back up ____?
 I ____ know ____ when my backup generator ____.
 ____ my ____ fails to produce ____ could you ____ a ____ it?
 ____ do I fix ____ functional?
 What ____ do if ____ can't ____ any power?
 Is there ____ to ____ when ____ fails?
 ____ with my generator failing?
 What ____ I do when ____?
 If ____ generator fails, ____ there ____ solution?
 ____ guidance ____ an ____ backup generator
 ____ to ____ when a backup ____?
 ____ you have ____ solution ____ fails?
 How ____ if ____ doesn't give me power?
 Should I ____ any action ____ there ____ no ____ output ____?
 help! ____ generating ____ power
 Should ____ use ____ backup ____ if ____ enough power?
 ____ should I act if ____ doesn't ____ power?
 If the backup ____ not ____ power, ____ I ____ it?
 If ____ do you ____ suggestions ____ how to fix ____?
 ____ be ____ generator does not work?
 What ____ do if the ____ me power?
 ____ if ____ supplier does ____ produce?
 How ____ the ____ backup ____?
 My ____ give electricity?
 ____ should ____ if my generator ____ no ____?
 How ____ I ____ my generator ____ power?
 What should ____ do ____ any electric ____ my generator?
 What ____ do ____ my ____ generator ____?
 What should be ____ if ____ generator ____?
 ____ done ____ I ____ have power from my ____?
 ____ should I do ____ my ____ doesn't ____?
 If ____ generator is not generating power, should ____ Generator less ____ do ____ going?
 ____ to ____ generator ____ does ____ provide electricity?
 What ____ that ____ isn't working?
 What do ____ after my ____?
 ____ a generator that ____ not ____ what should I ____?
 ____ fix a ____ backup ____?
 What ____ my generator ____ malfunctioned?
 The backup ____ fail to ____.
 ____ do if my generator ____ not give ____ any ____?

What should _____ no _____ output from my generator?
 _____ offer _____ advice on an _____ generator?
 _____ should _____ done _____ my generator _____ Power?
 _____ after _____ backup _____ isn't working?
 _____ should _____ when _____ backup generator doesn't _____ power?
 If _____ is _____ generating power, what _____ done?
 _____ an _____ backup electricity _____?
 _____ generator isn't generating any _____ can I _____?
 Should I _____ my _____ less _____ my _____ generating power?
 If the generator _____ any _____ what _____ do?
 _____ to _____ a _____ functioning _____ generator.
 _____ a _____ in case _____ generator _____?
 _____ can I proceed _____ my generator is _____?
 If _____ fails I _____ how to fix it.
 When _____ doesn't produce power what _____?
 What should be _____ in _____ case _____ generator?
 What should I do _____ my _____ electric _____?
 What _____ do if _____ generator doesn't _____?
 If _____ no _____ my _____ what _____ I do?
 _____ should I do _____ generator _____ any power _____?
 _____ do if my generator _____ producing _____ output?
 _____ my _____ fails to produce _____ you give me _____ to fix _____?
 How _____ when the _____ generator _____.
 _____ there a solution for _____ doesn't _____ power?
 _____ I _____ generator isn't generating power?
 _____ my _____ doesn't _____ any power, _____ should I do _____ something else _____?
 Can you _____ an inactive _____ generator?
 Is _____ backup _____ now?
 _____ power _____ backup, _____ what?
 _____ generator _____ producing electricity, what should _____ do?
 How can I proceed _____ is out _____?
 What _____ is no electrical _____ my generator?
 What do I do _____ a _____?
 But no _____ backup _____?
 How to fix _____ generator _____?
 How should I _____ if _____ generator _____ give _____?
 What _____ be done _____ isn't _____?
 If _____ generator does _____ what should I _____?
 The backup _____ may _____ power.
 _____ should _____ do _____ does not work?
 _____ a backup generator fails?
 How _____ respond when _____ fails?
 _____ backup genset is not _____?
 When _____ generator fails, _____ act?
 _____ electricity from _____ what do I do?
 If there _____ no _____ output from _____ generator, _____ do?
 _____ should _____ my _____ doesn't provide any power?
 _____ be done _____ a generator _____?
 How should I _____ generator doesn't generate _____?
 _____ backup generator _____ to _____ me _____ is _____ a solution?

_____ backup fails _____ generate what _____ done?
 _____ should _____ done _____ the backup _____ generate?
 _____ should I _____ the generator doesn't produce _____?
 What _____ be _____ the backup _____?
 _____ if _____ backup generator fails?
 _____ my _____ doesn't deliver _____ should be _____?
 _____ can I _____ no power from my _____?
 What _____ if the _____ genset _____?
 _____ backup generator is _____ so what _____?
 How should _____ if there's _____ electricity _____ my _____?
 In _____ unit not working, _____ should _____ done?
 _____ like _____ you _____ give _____ on an inactive backup generator.
 if _____ from my generator, what should I _____?
 _____ no _____ from generator?
 _____ should I do _____ don't get _____ from my _____?
 _____ my _____ fails _____ power, could you tell me _____ it?
 _____ the _____ generation make _____?
 _____ should _____ do _____ my _____ does not deliver _____?
 _____ fails to _____ power, is _____ a solution?
 _____ if I _____ power from my generator?
 _____ is _____ how can I proceed?
 _____ generator is _____ power, _____ can I do?
 _____ a _____ if my generator _____?
 I _____ if _____ generator fails.
 What can _____ when _____ generator is not _____?
 _____ generator _____ I do?
 What _____ do _____ my _____ generator isn't producing _____?
 _____ should _____ with a _____ unit?
 What should I _____ if my _____?
 Can _____ help _____ inactive backup _____?
 _____ my generator _____ what _____ can I take?
 If my _____ is not _____ power, _____ I _____?
 If _____ generator isn't _____ power, should _____ my _____ Generator less _____ going?
 _____ do I _____ generator fails?
 _____ now if the _____?
 _____ power _____ backup, _____ now?
 How _____ we _____ Gen fails?
 _____ do _____ if _____ backup doesn't _____ power?
 _____ the generator doesn't _____ then what _____ I _____?
 What should I do if my _____ once _____?
 _____ doesn't provide power what should _____?
 _____ I _____ the _____ if it lacks _____?
 _____ should be _____ backup fails to _____?
 If my _____ does _____ electricity, _____ I do?
 _____ should _____ done if _____ unit does not _____?
 _____ should happen if _____ generator _____ is _____?
 If _____ generator is not _____ should _____ make _____ backup _____ keep it?
 _____ fix a generator _____?
 How _____ non-functional backup _____?
 _____ what, no _____ from the _____?

____ should ____ if my generator ____ power?
 ____ get ____ output from my generator, ____ I do?
 My ____ generator ____ me electricity.
 The ____ I use is ____ generating ____.
 ____ can ____ in case my backup generator ____?
 In ____ of no ____ from ____ backup ____ I proceed?
 What do ____ the backup ____?
 ____ should ____ react ____ my ____ produce electricity?
 ____ should ____ my ____ isn't delivering ____?
 ____ backup generator isn't working, how ____?
 How to ____ when ____ working?
 When a ____ how ____ act?
 There is ____ genset ____ isn't ____.
 If ____ generator does not ____ should I ____?
 How ____ if ____ backup ____ does not ____ power?
 ____ should ____ proceed if my ____ produce ____?
 ____ the event of no ____ output from my generator?
 ____ the generator ____ have ____ I do?
 What should I do ____ generator ____ not ____?
 ____ generator ____ to produce ____ me some suggestions on how ____ fix ____?
 What ____ the generator does not work?
 If ____ generator is ____ Producing ____ what should ____?
 ____ I use ____ generator if it's ____ enough ____?
 ____ should ____ now that ____ genset ____ not working?
 ____ doesn't produce any electricity, what ____ I ____?
 What should I do if my ____?
 ____ I ____ a no electric ____ from ____ generator?
 Is ____ possible if ____ backup ____?
 In the event ____ my generator, what ____ I ____?
 ____ do you ____ when ____ backup ____?
 How ____ fix ____ not have ____?
 ____ when my ____ generator isn't generating any ____?
 If the ____ doesn't ____ output what should ____?
 Can you ____ me how to ____?
 ____ give insight on an ____?
 ____ there a ____ fix ____ backup ____ it fails?
 Next ____ if ____?
 ____ should I ____ my ____ doesn't ____?
 What ____ be ____ the backup ____ generate?
 Please advise ____ is not ____.
 What ____ I ____ I ____ get ____ generator to produce ____?
 What ____ the ____ backup ____?
 ____ my ____ working, what should I ____?
 Suggestions ____ with ____ power generator?
 ____ doesn't ____ power, could ____ give me advice on how ____ it?
 ____ my generator isn't giving me power?
 What actions ____ if ____ generator ____ not produce electrical ____?
 ____ should ____ take action if ____ electric ____ from ____ generator?
 ____ generator ____ producing power, what ____ I ____?
 I would ____ to know if ____ offer ____ an ____ backup _____.

How _____ if there isn't any _____ from my _____?

_____ I do _____ there is no electrical _____ my _____?

How to _____ is not _____?

_____ fix generator not _____?

_____ I do _____ my _____ generator stops _____?

My _____ won't provide _____.

_____ we do now that _____ backup generator _____?

_____ do _____ my generator doesn't produce any _____.

_____ backup _____ fails, what _____ be _____?

What _____ do if _____ produces no _____?

If _____ doesn't give any _____ output, _____ do?

what should _____ if _____ work?

_____ should I do if _____ backup _____ power?

_____ backup fails _____ generate _____ action _____ taken?

What _____ I do when my generator _____?

How to _____ No _____?

If _____ generator lacks electrical _____ what _____?

What _____ I do when my _____?

In _____ there is _____ from _____ generator, _____ I proceed?

_____ happens _____ backup _____ to work?

There _____ a _____ generator _____ is _____ power.

_____ I _____ backup generator goes down?

What should happen _____ generator _____ not _____?

What _____ I do, _____ my _____ power?

What _____ I do _____ my _____ doesn't _____ up _____?

_____ if _____ auxiliary _____ doesn't produce?

_____ done if a generator _____ isn't _____?

If _____ electricity coming _____ from the generator, _____ do?

How _____ generator?

_____ should _____ done _____ case of _____ that is _____?

Is _____ possible that _____ make power?

When _____ backup _____ not produce enough _____ should I _____?

What should I _____ not produce electricity.

_____ should I do _____ if _____ does not produce _____?

_____ to fix _____ has no _____?

What _____ I do _____ doesn't deliver _____ power?

What _____ do if the generator _____ any _____?

No _____ from generator, how _____?

What _____ do when _____ backup _____ isn't _____?

_____ should I do _____ the backup _____ able _____ make _____?

_____ should _____ do _____ there _____ any _____ output from my _____?

_____ help with _____ not working.

What should _____ do if _____ generator _____ power?

What should I do _____ make electric _____?

I need _____ if my _____ generator _____ produce _____.

Is _____ failing?

If _____ doesn't _____ any _____ what _____ I do _____?

what _____ do if _____ doesn't _____ any _____ again?

In _____ fails, _____ can I recover?

_____ can I proceed if _____ backup generator _____?

_____ backup generator _____ producing power, what _____ do?
 What _____ be done _____ my _____ not _____ power?
 What should I do _____ isn't power _____?
 If my backup _____ could you _____ some advice _____ how _____?
 What should I _____ my _____ generator _____ producing _____?
 _____ a backup _____ that _____ non-operational _____ now.
 _____ with inactive _____ generators?
 When my _____ me any power, what _____ do?
 _____ wondering _____ there _____ a solution _____ generator fails.
 _____ generator fails to _____ power what _____ do?
 _____ to _____ backup generator?
 _____ can I do when _____ backup _____?
 _____ possible to _____ a backup _____ fails?
 _____ should _____ handle _____ output from _____ generator?
 What _____ I _____ my generator _____ any power _____?
 How to _____ with _____ backup _____?
 The backup _____ working, should _____?
 If _____ generator isn't delivering _____ should _____?
 _____ be done if _____ doesn't _____.
 There _____ genset that _____ not _____.
 What if _____ doesn't _____ any _____?
 Now what about the _____?
 _____ happens _____ my auxiliary energy _____ output?
 I _____ to _____ if _____ can _____ an _____ backup generator.
 _____ should be done if _____ generator unit?
 What happens _____ fails _____ generate?
 _____ backup _____ is malfunctioning?
 _____ I _____ my generator isn't providing _____?
 What _____ when my backup generator _____ producing _____?
 _____ generator isn't _____ Power, what should _____?
 What _____ do if my generator does _____?
 _____ done in _____ event _____ non-functional generator unit?
 If _____ generator _____ electric output, how should _____?
 What _____ be _____ generator doesn't _____?
 If my _____ fails, could _____ tell _____ what _____?
 In the _____ of no _____ how _____ I proceed?
 _____ act when _____ backup _____ stops _____?
 If _____ fails to _____ could _____ recommend how _____ fix it?
 _____ delivering electricity, what should be _____?
 What _____ happen _____ the _____ doesn't _____?
 What _____ I do if my _____ power?
 _____ should be _____ case of _____ non functioning _____?
 If my _____ fails to generate _____ there _____ fix it?
 _____ should _____ do if _____ has _____ electricity?
 _____ don't know what _____ my generator doesn't _____ again.
 _____ backup generator _____ electricity?
 _____ Gen isn't generating _____
 What _____ exist _____ generators?
 _____ do I do?
 _____ no electrical input from my _____ what should _____?

_____ I _____ my generator doesn't output _____?
 _____ there _____ no _____ output from _____ generator, _____ can I _____?
 What _____ when my _____ isn't cranking _____ power?
 _____ should _____ do _____ my _____ isn't _____ any _____ output?
 _____ my generator does _____ produce electric output?
 _____ when _____ generator isn't _____ any power?
 How _____ the _____ the backup _____?
 _____ a backup doesn't work?
 If there is _____ from _____ what _____ I do?
 So _____ backup _____ isn't _____ what _____?
 In _____ of my backup _____ can I recover?
 What _____ backup genset _____ not _____
 If _____ coming _____ generator, what should I _____?
 If _____ isn't generating power, _____ do _____?
 the _____ genset _____ working
 _____ be done when the backups _____?
 What _____ be _____ if _____ generator doesn't _____?
 _____ can _____ move forward if my _____?
 _____ should I do if _____ backup _____ power _____?
 If _____ backup generator _____ you _____ me suggestions _____ how _____ fix _____?
 Can _____ provide _____ an _____ backup _____?
 No power _____ backup; _____ do?
 _____ generator can't provide _____?
 _____ do _____ when _____ backup fails?
 _____ be done _____ a _____ work?
 _____ the _____ generator _____ could _____ tell _____ how _____ fix it?
 _____ be done _____ my generator does _____ power _____?
 I am _____ if there _____ solution _____ my _____.
 What should I do _____?
 _____ backup generator _____ electricity
 _____ the _____ isn't working?
 _____ can I deal with the _____ power _____ generator?
 What _____ do if _____ out any power?
 If there's no _____ coming in from _____ what _____?
 _____ Gen is not _____
 _____ should be done _____ generator _____ doesn't _____?
 Is a solution _____ there _____?
 What should _____ if the _____?
 How do _____ a _____ generator _____ isn't _____?
 _____ should I _____ if _____ to _____ any power?
 How to _____ fails?
 _____ my _____ powerful _____ my generator isn't generating power?
