

[Demo] NLP Dataset for Customer Service Automation

Company Type	Mobile Network Operators
Inquiry Category	Caller ID and call forwarding inquiries
Inquiry Sub-Category	Call Forwarding Deactivation
Description	Customers request guidance on turning off call forwarding, so incoming calls no longer get redirected to another number, ensuring calls are received on their device directly.
Data Size	6,535 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Mobile Network Operator" customer inquiry. (Purchased data will not be masked.)

If _____ diversion, _____ ongoing communication or cause disruption to _____ calls _____ my device?
 If I _____ will it _____ my conversations _____ device?
 _____ shutting _____ diversion _____ my device's _____?
 Is _____ a _____ would disrupt my conversations?
