

[Demo] NLP Dataset for Customer Service Automation

Company Type	Telecommunications Equipment Manufacturers
Inquiry Category	Installation instructions and guidance
Inquiry Sub-Category	Power and Electrical Requirements
Description	Customers inquire about the power and electrical needs of their telecommunications equipment, seeking guidance on electrical standards, grounding, power supply requirements, and wiring for different power sources and voltages.
Data Size	9,238 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Telecommunications Equipment Manufacturer" customer inquiry. (Purchased data will not be masked.)

_____ expanding _____ network infrastructure, how _____ this affect _____ power _____ systems?

_____ expansion _____ impact existing _____ grids?

_____ the network affects _____.

To what extent _____ networks _____ electricity distribution _____?

How _____ affect power _____?

_____ present power _____ be affected by _____ our network infrastructure.

Does enhancing our network infrastructure _____ system?

Expanding _____ would affect _____ distribution.

_____ we expand our _____ infrastructure, _____ on existing _____ distribution systems?

_____ networks may have _____.

_____ will _____ network _____ affect the _____ distribution setup?

How would expansion _____?

If we expand _____ network _____ what _____ would _____ distribution systems?

How _____ of _____ network _____ affect power _____ arrangements?

Can _____ tell us how _____ our _____ will affect _____ distribution _____?

Expanding _____ could affect _____.

Expanding _____ network _____ power _____.

_____ should _____ regarding the _____ of growing _____ network infrastructure on _____.

Will our _____ effect _____ the power distribution _____?

_____ our network may _____ distribution.

What _____ happen to the _____ power _____ we _____?

_____ network _____ have an _____ the power systems?

_____ the _____ to our _____ existing _____ grids?

How would expansion _____ network _____?

_____ effect of _____ on power _____ unknown.

_____ distribution _____ on _____ network _____?

Is the network _____ affecting _____?

How should _____ handle _____ network _____ established _____ distribution?

Expanding the _____ the _____ electrical _____.

_____ network _____ power distribution.

_____ of our network infrastructure going to _____ distribution _____?

Will _____ power grids be _____ network infrastructure?

_____ power _____ may be affected by _____ of _____.

_____ is _____ network expansion on _____ power distribution?

Enhancing the _____ might _____ the _____ system.

_____ networks, _____ power _____ implications?

Is expanding network _____ to _____ power _____?

_____ infrastructure can _____ the _____ distribution.

_____ would _____ expansion _____ of power?

I would _____ to know _____ expanding _____ network infrastructure _____ affect _____.

The _____ system _____ affected if the network _____.

Enhancing _____ network infrastructure _____ functioning of _____ power distribution _____.

Increasing network _____ affect _____.

What _____ to our current _____ if _____?

_____ distribution can _____ impacted by _____ the _____.

Network expansion _____ power _____

Is _____ power _____ expanding the _____?

_____ the _____ grid _____ when _____ networks?

Power _____ affected by _____ infrastructure _____.

Would expanding networking _____ supply _____?

What _____ going _____ happen to _____ power _____ if we beef _____?

Can we _____ existing _____ grids when _____ expand _____?

What effect _____ a _____ on power _____?

_____ our network _____ will _____ existing _____.

_____ would _____ have on electricity _____?

_____ our _____ the grid?

_____ infrastructure _____ affect the power _____ setup.

_____ would the _____ our network affect _____ power _____?

If _____ what _____ expected in _____ power distribution?

We expand, what _____ our _____?

How will _____ the existing power _____ we expand _____?

How would network _____?

_____ our network _____ affect _____ systems?

Will _____ network expansion _____ current _____ systems?

How do _____ think _____ of _____ will _____ power _____?

Does widening _____ network _____ power _____?

_____ expansion _____ our _____ infrastructure _____ affect power distribution systems?

What _____ think about _____ messing with _____ power _____?

Should _____ affect _____ grids _____ expand the network _____?

_____ expand our network _____ what _____ that have on _____ systems?

_____ would _____ network affect our _____?

How _____ infrastructure _____ grids?

_____ we expand _____ network _____ power _____?

_____ it _____ that _____ network bigger _____ with power _____?

How will the expansion of _____ infrastructure _____?

Current _____ might _____ affected _____ expansion.

Growing _____ network infrastructure on _____ power _____ should _____.

Does the _____ setup get thrown _____ we _____ this network _____?

_____ of our _____ change the _____?

Impact _____ expanding the _____ on _____?

We expand, _____ to _____ power _____?

How _____ the _____ our _____ impact _____ distribution systems?

Expanding _____ network _____ the power _____

How _____ expansion _____ network affect electricity _____?

_____ expanding _____ network influence _____ power _____?

Is _____ likely to _____ power _____?

How _____ enhancing our network _____ the _____ the power _____?

What happens to _____ distriution _____ when _____ networks?

_____ will _____ expansion affects _____?

_____ distribution could be _____ by _____.

What impact _____ network expansion _____?

When expanding _____ there _____ for _____ power _____.

Will _____ affected _____ networking grows?

Can broadening _____ power _____?

_____ have an affect on _____ distribution.

How _____ expansion _____ the network _____ the _____ distribution _____?

_____ network could affect _____ power _____.

Is _____ implications for _____ system _____ expand the _____?

Enhancing our network _____ could _____ system.

_____ expansion of our _____ infrastructure going _____ our _____ distribution _____?

_____ the _____ networking _____ the _____ electric _____ methods?

Is _____ going to get _____ networking grows?

Would _____ networking _____ the existing _____ electric supply?

_____ networks _____ our power system?

_____ expansion of _____ affecting _____ electrical _____?

_____ the network _____ affect _____ power _____?

Can you tell _____ about _____ the _____ network _____ might _____ power _____?

_____ does _____ network _____ to the power setup?

_____ affect the _____ system?

_____ is made bigger, would _____ the _____ power _____?

_____ you _____ the net _____ trouble for electricity _____?

_____ growing the net _____ for the _____ around _____?

Will our _____ expansion have _____ power distribution _____?

_____ would the expansion _____ our _____?

If _____ our _____ what would the _____ be on existing _____?

What _____ does _____ networks have _____ the _____ systems?

Is the impact _____ on _____ power _____ concerned?

Expansion _____ network _____ may _____ the existing _____ grids.

How would expanding our network _____ power _____?

Expanding _____ infrastructure can _____ distribution _____.

Is it possible _____ infrastructure _____ will _____ networks?

_____ our _____ change the power _____?

How _____ affect _____ of power?

_____ impact _____ our _____ electricity grids?

Will _____ power grids?

_____ our network _____ affect power _____.

Does _____ effect _____ power grid?

_____ our network _____ power distribution?

_____ expanding our _____ the current _____?
 _____ of _____ infrastructure _____ affect the _____ of _____ power _____ system.
 Would _____ systems _____ we expand?
 Network _____ has an _____ power _____.
 How _____ expansion of _____ infrastructure _____ the _____ distribution _____?
 If we make _____ network _____ would _____ power systems?
 _____ expanding networks influence existing _____?
 Will _____ expansion affect _____?
 Is the impact _____ on _____ grid?
 Is enlarging _____ to _____ distribution?
 When _____ networks, _____ are there?
 Network _____ might affect _____.
 There is an _____ of expanding _____ on _____.
 _____ Power _____ expand the network.
 _____ we _____ power grids as _____ expand _____ network?
 _____ distribution _____ in danger _____ we give _____ a boost?
 Expanding _____ network will affect _____ system.
 _____ expansion _____ the _____ affect the current power _____?
 Will _____ of _____ the distribution system?
 How _____ of _____ infrastructure affect existing _____ systems?
 _____ network could _____ power distribution.
 _____ of our _____ impact the _____?
 Do _____ how _____ our _____ infrastructure _____ power distribution systems?
 _____ the _____ of our _____ the distribution _____ power?
 _____ the _____ of the _____ the _____ distribution?
 Does _____ our _____ the power grid in _____?
 What _____ does expanding our network _____ our _____?
 The power _____ may _____ implications when _____.
 Expansion _____ infrastructure would have _____ impact _____ power _____ systems.
 _____ would _____ power distribution?
 I _____ know _____ making _____ bigger _____ power systems.
 Does growing the net _____ for _____ around _____?
 What _____ to _____ systems if _____?
 _____ the expansion _____ our network _____?
 _____ our _____ distribution _____ network infrastructure expansion?
 _____ will network _____ existing electrical _____?
 If we _____ our _____ would _____ the impact _____ existing _____ distribution _____?
 _____ current electrical _____ influenced by the _____?
 _____ network growth affect _____ existing _____?
 _____ expansion of the _____ affect _____ power _____?
 Expanding _____ infrastructure _____ the _____ distribution system.
 Expanding _____ implications for the _____.
 _____ network _____ have on _____ electrical systems?
 _____ how expanding our _____ affect our power _____ systems?
 How will _____ expansion _____ our network _____ affect _____ systems?
 _____ network infrastructure _____ the current _____ distribution setup?
 _____ network infrastructure may _____ the _____ distribution _____.
 _____ of the _____ have _____ impact on _____ grid.
 Is _____ system implications if _____ expand _____?
 _____ would expanding the _____ the distribution _____?

_____ grid might _____ affected _____ networks.

Expanding the _____ influence _____ electrical _____.

_____ our network _____ impact _____ power _____ systems?

When _____ power _____ implications?

_____ of our network _____ power _____?

_____ of _____ might affect _____ grid.

The power _____ can _____ if _____.

Increasing _____ will affect our _____ setup?

_____ existing power _____ be disrupted by improvements _____?

_____ the expansion of _____ distribution of power?

_____ consequences of expanding _____ on the electricity _____?

_____ on power _____ from network _____?

_____ will _____ expansion _____ on power _____?

_____ infrastructure can _____ power _____.

Increasing our network infrastructure _____ distribution _____.

_____ increasing of our network infrastructure affect _____ power _____?

_____ network infrastructure _____ power systems.

Would existing _____ supply _____ by enlarged _____.

_____ distribution impacted _____ expansion?

Power distribution _____ by _____ expansion _____.

_____ network expansion _____ affect the _____.

Can network _____?

_____ tell us how _____ our _____ will _____ our _____ systems?

_____ distribution _____ be impacted by _____ expansion.

_____ network bigger a _____ with _____ current _____ system?

Will _____ have an _____ the _____ distribution systems?

_____ might _____ impacted by _____ expansion.

_____ of network _____ current _____ system?

_____ expanding our network _____ distribution?

Expanding our _____ has _____ for _____.

_____ would expansion _____ network _____ power distribution systems?

What _____ expansion of _____ affect electricity _____?

Powers grid implications _____?

Is _____ distribution _____ affected _____ network infrastructure increasing?

Is it _____ our network _____ affect power _____?

_____ network affect _____ power grid?

The _____ plan has an _____ the power _____.

Raising _____ network _____ affect the power _____.

How _____ network _____ older _____ systems?

Are _____ expansion's _____ a worry?

_____ network expansion _____ has _____ on the power _____.

Would _____ expansion affect _____?

Expanding the network might _____ power _____.

_____ of the _____ may _____ the _____ power grids.

_____ infrastructure _____ have _____ on power _____.

Could _____ affect _____ distribution?

_____ power distribution setup _____ to be thrown _____ if we _____ this _____ a _____?

How _____ of _____ network infrastructure _____ prevailing power _____ arrangements?

_____ distribution _____ network expansion _____.

Expansion _____ could _____ with _____.

_____ the power systems _____ Extension?
 If we beef _____ what _____ happen to _____ power _____?
 _____ are _____ of network growth _____ power system.
 The _____ the electricity _____ our network?
 _____ expansion may _____ the _____.
 _____ affected by expanding _____ network?
 Expansion _____ electricity distribution systems.
 How will _____ network _____ distribution systems?
 What _____ to _____ if _____ expansion?
 Can you _____ us _____ the expansion _____ our network _____ might _____ delivery _____?
 _____ expansion _____ network going to affect _____ distribution systems?
 Does expansion of _____ network affect _____?
 _____ might affect _____ grids.
 Expanding our _____ infrastructure _____ distribution systems.
 Will electric _____ affected _____ grows?
 What effect will _____ expansion _____ distribution?
 _____ on _____ distribution a concern?
 _____ power grids from infrastructure _____?
 _____ does network _____ change _____?
 _____ the _____ would _____ distribution
 _____ a network _____ affect _____ distribution?
 _____ expand, what about _____ systems?
 _____ happens to the _____ after _____ expand _____ networks?
 How _____ the _____ of our _____ infrastructure affect the _____?
 Will _____ distribution _____ be _____ if _____ network thing a boost?
 _____ network growth _____ systems?
 Can _____ the _____ of _____ network _____ may affect _____ delivery arrangements?
 Would expanding _____ the _____ distribution _____ energy?
 _____ think expanding networks _____ harm _____ systems?
 If we beef up _____ networks, _____ happen _____?
 Is the _____ setup affected _____ the increased _____?
 _____ wonder if _____ will be affected _____ infrastructure _____.
 _____ mean trouble _____ electricity _____ in the area?
 _____ making _____ bigger _____ mess _____ power grids?
 Would _____ networking affect _____ supply _____?
 What _____ the _____ distriution _____ we enlarge our _____?
 _____ network expansion _____ effect on the distribution _____?
 Are _____ power _____ setup going to _____ off _____ we _____ this network _____?
 What _____ does _____ networks affect _____?
 Improving our _____ existing power _____.
 Is _____ distribution setup _____ if we _____ thing a boost?
 _____ of _____ our network _____ the _____?
 _____ extension _____ power systems?
 _____ network infrastructure _____ an impact _____ electricity grid.
 _____ network bigger going to mess _____ the _____?
 _____ power distribution setup may _____ if we give _____ a _____.
 _____ power _____ be changed _____ our _____?
 _____ current _____ systems _____ affected _____ we _____?
 _____ can _____ our _____ power distribution?
 _____ the power distribution _____ going to _____ thrown _____ network a boost?

_____ may be implications for power _____.

_____ the _____ have implications for the _____.

Expansion of _____ network _____ may have an _____ the _____.

_____ growth influences _____ systems?

_____ setup influenced by _____ the network?

_____ the _____ expansion affect _____ electricity _____?

_____ do you _____ expanded _____ affect our power _____?

Expansion _____ network will _____ an impact _____ electricity _____.

Is the _____ affected _____ network?

_____ should _____ our network _____ in _____ to established power distribution?

Does ramping _____ our _____ the _____?

How _____ we _____ about _____ infrastructure on _____ distribution?

_____ the _____ system _____ we _____ our network.

_____ will _____ change the _____ distribution setup?

Can _____ us _____ expanding our network infrastructure _____ systems?

_____ the _____ of our network _____ power delivery _____?

Network _____ would affect _____ power.

_____ expanding _____ to _____ our power setup?

_____ the _____ of network expansion on _____?

What _____ to the _____ system _____ are increased?

Does expanding _____ have _____ on power _____?

_____ would expansion of _____ distribution?

Increasing network infrastructure _____ power _____.

Expanding _____ network _____ for _____ power system.

Increased network _____ might _____ distribution _____.

_____ of _____ could _____ an impact on _____ power grids.

_____ impact _____ on electricity systems?

What _____ power _____ if we _____?

_____ distribution may be _____ expanding network infrastructure.

How will _____ our _____ electricity _____?

_____ the expansion _____ influence electricity _____?

_____ expanding _____ network _____ on power distribution?

Are the _____ delivery arrangements affected _____ the _____ infrastructure?

How _____ expansion _____ distribution?

The impact _____ electricity _____ our network _____ implications if _____ are _____.

Enhancing networks, _____ power _____?

Expanding _____ affect _____ electrical setup.

_____ could have an impact on _____ distribution systems.

_____ there _____ network growth on _____ system?

Is a _____ expansion _____ distribution?

Can we _____ the power _____ we expand?

_____ impact on the _____ of expanding _____.

We _____ to _____ our network _____ affect _____ distribution systems.

_____ we _____ existing _____ grids as _____?

_____ networking affect _____ supply methods?

_____ expanding our _____ distribution?

_____ our network _____ the _____ grid in any _____?

_____ is _____ affecting _____ systems

Is the _____ of the network _____ impact existing _____?

_____ think _____ affects power distribution?
 Would _____ our network _____ affect _____?
 How _____ growth _____ systems?
 _____ system could _____ the expansion of _____ network.
 Are the _____ setup going to be _____ off _____ thing _____ a _____?
 _____ power grids of _____ expansion?
 Power _____ consequences _____ expanded?
 What will _____ power distribution?
 _____ would _____ affected if our system _____ enlarged.
 Does _____ expansion _____ distribution?
 If _____ bigger, would _____ affect the _____ systems?
 _____ interfere with power transmission _____.
 _____ our _____ the power distribution _____?
 _____ network infrastructure _____ have _____ impact _____ distribution.
 _____ the power _____ has implications.
 Expanding _____ have _____ impact _____ the grid.
 _____ network may _____ impact on electricity _____.
 Is _____ expansion _____ the power _____?
 Is there _____ impact _____ from _____ network infrastructure?
 _____ you think growing _____ will _____ trouble _____ electricity _____?
 If we _____ what will happen _____?
 Are _____ going to throw _____ the _____ distribution setup if _____?
 _____ growing _____ net cause _____ for _____ setup _____?
 Can expansion _____ the network _____?
 If _____ expand our network _____ would _____ have _____ distribution systems?
 Is power distribution _____ of _____?
 _____ network infrastructure impact _____?
 _____ does _____ have _____ effect _____ electricity distribution systems?
 Will the _____ networks disrupt _____?
 How would expansion _____ the _____ affect _____ distribution _____?
 Do you _____ will _____ trouble for _____ power _____?
 _____ will be impacted _____ expand.
 Will the _____ our _____ affect _____ power _____?
 Current _____ distribution _____ be affected by _____.
 Impact on _____ distribution from _____
 Does growing the net _____ trouble _____?
 What impact _____ network _____ have _____ existing power _____?
 How does _____ affect the _____ systems?
 _____ happens _____ the _____ system when we _____ the _____?
 Network _____ could affect _____.
 Are the expansion of _____ infrastructure possible _____ arrangements?
 Is the expansion _____ our network _____ impact _____ the _____?
 _____ the _____ affect existing electric _____?
 How would _____ the _____ distribution?
 _____ the _____ be _____ network expansion?
 _____ happen _____ systems if we expand our network _____?
 Does _____ affect electricity _____?
 _____ we _____ network infrastructure, what _____ to power distribution _____?
 How would _____ distribution _____ power _____ affected _____?
 _____ of the _____ impacts _____.

Current _____ by the infrastructure extension.

_____ we _____ existing power grids _____ expand the _____?

_____ expansion _____ may affect _____ distribution.

How would the _____ of electricity _____ by _____?

How could _____ infrastructure affect prevailing power delivery _____?

Is the power distribution setup going to be _____ network _____?

_____ bigger _____ with the _____ systems?

_____ expanded network _____ on _____ distribution?

What _____ would the _____ on the _____ distribution systems?

What happens to our _____ enlarge _____ networks?

What _____ in the power distribution if _____?

_____ happens _____ the dispower _____ system _____ enlarge _____ networks?

A network expansion _____.

If _____ expanded _____ network _____ what would happen _____ systems?

The _____ on _____ distribution is affected by _____.

_____ distribution _____ affected _____ network expansion?

_____ the expansion _____ our network infrastructure _____ power delivery _____?

I _____ expansion of our network _____ might affect power _____.

_____ it wise to _____ our _____ infrastructure _____ distribution?

Increased _____ an _____ on the power distribution _____.

_____ power distribution _____ affected by _____ network _____.

Increase in _____ will _____ distribution _____.

_____ expansion of _____ network _____ power _____?

_____ of our network _____ affect the _____ power distribution _____?

_____ have an effect on power _____.

_____ effects _____ network _____ have on _____ distribution setup?

Does _____ our _____ of electricity?

_____ affect electrical systems?

Does _____ the net mean trouble _____ electricity _____?

There _____ power _____ when networks _____.

How _____ our network infrastructure _____ our _____ delivery _____?

_____ does _____ expansion _____ affect the distribution of _____?

Is _____ expansion _____ our network infrastructure likely to _____?

_____ existing _____ grids be disrupted _____ improvements?

Network growth _____ impact the _____.

_____ expanding our _____ infrastructure _____ affect _____ distribution _____?

_____ network expansion _____ supply?

Are _____ our _____ infrastructure _____ to _____ power distribution _____?

_____ of _____ network might _____ setup.

_____ may be _____ by _____ expansion.

_____ can _____ power distribution _____ if _____?

There _____ an _____ project _____ could affect _____ transmission _____.

_____ is expansion, _____ to _____ power systems?

_____ upgrade _____ a _____ to the power networks?

Expansion _____ network _____ affect _____ grids.

The _____ network on _____ distribution.

_____ our _____ the power grid?

How _____ existing _____ distribution _____ be _____ the _____ our network infrastructure?

The _____ expansion _____ electricity grid?

_____ will the _____ affect _____?

Expanding network _____ consequences on _____.

_____ infrastructure will _____ power systems?

Does _____ affect _____ current _____ setup?

What would _____ the _____ systems if _____ expanded _____ infrastructure?

The power _____ affected by _____ expansion _____.

_____ bigger gonna mess with current _____?

_____ the expansion of _____ affect power distribution?

Network _____ have _____ the _____ system.

If _____ what _____ the _____ distribution bring?

_____ will _____ of the _____ affect _____ power delivery arrangements?

_____ would this _____ electricity distribution?

To what extent _____ affect the _____ electricity?

Implications of _____ our network _____?

_____ influence _____ on the _____ distribution should be considered.

Can _____ influence _____ systems?

_____ power grid _____ implications when _____.

_____ on _____ distribution from _____ network _____?

_____ affected by network expansion?

_____ upgrade _____ current power _____?

_____ plans to expand networks _____ electricity _____ systems?

How much _____ plans to _____ influence _____ systems?

_____ electric supply _____ by the enlarged networking?

_____ current power _____ affected by _____?

_____ systems be affected by expansion _____ infrastructure?

_____ impact _____ existing power grids _____ we _____ network?

_____ energy _____ would be _____ system increasing.

Is making _____ network bigger _____ to _____ current power _____?

_____ the _____ interfere with _____ power transmission _____?

_____ network expansion _____ the distribution _____?

_____ will _____ of the _____ the grid?

Power distribution _____ be _____ Expanding _____.

_____ expansion _____ affect _____ current _____ distribution.

_____ our _____ expansion have _____ effect on _____ distribution _____?

What happens _____ power _____ we _____?

What do _____ our power systems _____ are expanded?

Can _____ tell us _____ network _____ affect _____ distribution systems?

There _____ a _____ that _____ influence on power _____.

How _____ our _____ the power distribution systems?

_____ impact would _____ have on the _____?

_____ expansion effecting _____ distribution?

_____ will _____ our _____ infrastructure _____ power systems?

How _____ our _____ power set up?

_____ the _____ might _____ the electrical _____.

Network _____ power distribution?

_____ would _____ affect the distribution _____ power?

How _____ network _____ existing power _____?

Expanding _____ interfere _____ power _____.

_____ the network _____ for power _____.

A network _____ can _____ power _____.

_____ might affect our power _____.

____ increased networking ____ existing ____ supply ____?
 How ____ our ____ infrastructure affect our ____ systems?
 How do you ____ expansion ____ will ____ systems?
 Is ____ power distribution ____ to suffer ____ we give ____ network ____?
 ____ will impact power ____.
 ____ do you think ____ happen to ____ power ____ if ____ ____?
 Would ____ affect ____ distribution?
 ____ network ____ affect power ____.
 ____ impact do ____ on power ____?
 ____ expansion affect ____ power ____?
 Will ____ network expansion ____ an impact ____ power ____?
 ____ networking affect existing ____ supply ____?
 ____ expansion making ____ difference ____ distribution?
 Is ____ whole ____ distribution setup ____ to be ____ if we give ____ ____?
 ____ might interfere ____ power ____ networks
 The ____ could ____ power systems.
 ____ our ____ may affect ____ functioning ____ the ____ distribution system.
 How do ____ affect the ____?
 Power ____ impacted ____ expanding ____ infrastructure.
 ____ expanding the ____ an ____ on the power ____?
 ____ infrastructure going to affect ____ current ____ distribution systems?
 Is ____ net going ____ cause trouble ____ electricity ____?
 How can network ____?
 Expanding ____ network ____ setup.
 ____ implications ____ expanding networks?
 How ____ expanding ____ network ____ power ____ systems?
 Expansion ____ networks ____ existing ____ systems.
 ____ of our ____ will ____ an impact ____ grid.
 ____ our ____ distribution of power.
 ____ we think ____ network infrastructure in ____ to established ____ distribution?
 ____ we expand the network ____ power ____ affected?
 ____ can ____ the distribution ____ power.
 The ____ of expanding ____ the electricity ____.
 Do you ____ the net will ____ for ____?
 ____ upgrade disrupt the ____?
 ____ wonder if ____ for ____ infrastructure will make ____ worse?
 ____ network ____ affect power distribution ____?
 ____ happens to ____ system when ____ have more ____?
 ____ expansion of the ____ affect the ____?
 How ____ the ____ our ____ impact ____ electricity grid?
 Expanding ____ affect our ____ distribution.
 ____ network ____ plan affect ____ power ____?
 What impact does ____ on electricity ____?
 Power grid ramifications ____.
 ____ enlarged ____ the ____ methods of electric ____?
 ____ would ____ the network affect ____ distribution?
 ____ systems get ____ if networking ____?
 Expansion ____ infrastructure would ____ power ____.
 ____ tell me ____ the expansion of ____ infrastructure could affect ____?
 How do ____ will ____ the power ____?

How _____ affect power _____?

How _____ increasing our _____ infrastructure _____ setup?

_____ should network expansion _____?

_____ influence _____ expansion on power _____?

_____ could _____ existing power system.

_____ network influence the grid?

_____ power _____ affected if we _____?

_____ influence our power setup?

_____ expansion affect _____ power _____?

_____ distriution system when we enlarged _____ networks?

The _____ has _____ influence on _____ distribution.

_____ do _____ influences _____ systems?

How will _____ increased _____ affect _____ power _____ setup?

_____ might the _____ infrastructure affect _____ power delivery _____?

Expansion _____ affects the current _____.

There _____ the power _____ we expand _____ network.

_____ effect _____ expanding _____ infrastructure have _____ power _____?

_____ might _____ to power systems _____?

What will _____ to _____ system when we _____ our _____?

Will _____ power systems _____ infrastructure _____?

How would power distribution _____ be _____ the _____ our _____?

_____ will the change _____ network infrastructure _____ power distribution _____?

What impact will the _____ our _____ the _____?

_____ network _____ impacting _____ systems?

_____ network have consequences _____ power _____?

How _____ network growth _____ the _____?

Network expansion _____ current _____.

_____ will powerdistribution be _____ expansion?

_____ network expansion plan _____?

_____ is _____ effect _____ network growth _____ electricity _____?

Increased network _____ the power _____.

The _____ if we expand the network.

Is the current _____ distribution _____?

Is it trouble for electricity setups _____?

_____ happens to the dispowerution _____ networks _____?

Network expansion _____ the _____ power _____

_____ expansion _____ the _____ distribution?

How will expansion _____ our _____ infrastructure affect _____?

_____ expanding our network _____ existing power distribution _____?

_____ expanding networks there _____ power _____.

_____ will the _____ the network _____ power _____ systems?

How's _____ influencing _____ systems?

Increasing our _____ distribution.

How _____ network affect the grid?

_____ would _____ of our network _____ on _____ existing _____ distribution systems?

Is making the _____ to _____ with current _____?

How do you _____ about _____ networks _____ power _____?

_____ an expansion _____ network affect the _____ distribution?

_____ the power distribution _____ off if we grant _____ network thing _____?

_____ expanding _____ network have _____ over the _____ grid?

Increasing ____ infrastructure ____ power ____ setup.

____ our system affect the ____?

What ____ to the ____ system ____ enlarge ____ networks?

____ the net mean trouble ____ setup ____?

How ____ the network ____ distribution?

What happens to the ____ networks ____ expanded?

____ expansion impact ____ power distribution ____?

Will infrastructure ____ the ____ system?

____ enlarged networking ____ electric ____ methods?

____ power ____ setup might be ____ off ____ give ____ a boost.

Is network growth ____?

As we ____ the ____ impacts ____ power grids?

____ are ____ growth effects ____ systems?

____ network ____ affect ____ system?

____ expansion ____ on ____ distribution?

How ____ electricity distribution?

A network ____ plan ____ power ____.

____ upgrade might disrupt ____.

____ it ____ making ____ bigger would mess with the ____?

____ network infrastructure ____ affect the ____.

How would ____ our network ____ our power ____?

Is ____ a ____ power distribution?

Will existing power grids ____ the ____ infrastructure ____?

____ of ____ infrastructure might ____ an impact ____ power grids.

____ our network ____ the power ____?

If we ____ network bigger, ____ affect ____ power systems?

Power ____ implications ____ we ____ the ____.

Enhancing the ____ infrastructure might ____ of the ____ system.

Improving our ____ infrastructure ____ affect the ____.

____ of our ____ an impact on the ____.

What ____ is ____ on electricity ____?

____ the ____ have repercussions ____ distribution.

____ will the ____ of the network ____ existing ____?

____ current ____ impacted ____ network expansion?

Can you ____ the ____ the network might affect ____ arrangements?

____ network ____ affect the electricity ____?

How ____ enhancing our ____ infrastructure affect the ____?

____ will ____ of ____ network infrastructure affect ____ distribution systems?

____ affect electricity supply

Will expanding ____ our ____ systems?

____ it ____ that ____ networks will ____ electrical systems?

Will the network ____ on the ____ power ____ systems?

____ network ____ plan ____ power distribution.

____ the expansion of our network ____ affect ____?

____ would the ____ of ____ network have on ____ power ____?

Is ____ that ____ expansion of ____ might affect ____ delivery arrangements?

How will ____ network ____ our existing ____ distribution ____?

How would ____ our ____ the ____?

____ expanding ____ affecting power ____?

Impacts ____ distribution from ____ network ____?

Is the power _____ our _____?

Expansion _____ networks might _____ distribution _____.

Enhancement _____ the _____ infrastructure _____ power distribution system.

Do _____ the net means _____?

_____ infrastructure has _____ on power _____.

_____ distribution affected by network _____?

What _____ the expansion _____ networks _____ on _____ power _____ systems?

How _____ we improve _____ network _____ the power distribution _____?

Is _____ expansion impact _____ a _____?

Impacts _____ expansion on _____ distribution?

_____ network infrastructure _____ distribution setup

_____ system _____ be impacted _____ expansion of _____ network.

_____ the _____ can have _____ power distribution.

Would _____ electric supply methods?

Did _____ expansion _____ current _____?

_____ will _____ increased network infrastructure _____ power _____ setup?

Will _____ extensions affect _____ power _____?

What _____ expanding the network have _____ grid?

_____ current _____ supply methods affected by _____?

If _____ expand _____ network infrastructure, what would the _____ be _____ power _____?

_____ our _____ might affect our power distribution _____?

_____ increasing network _____ power distribution setup?

Enhancing _____ infrastructure could affect _____.

_____ the _____ power distribution be _____ by _____?

How will expanding our _____ affect _____?

_____ growth _____ electricity systems?

The _____ might be _____ network is expanded.

The expansion of _____ network infrastructure _____ arrangements.

How will _____ our network _____ affect our power _____?

_____ our network infrastructure, _____ happen _____ our existing _____ distribution systems?

_____ supply methods _____ be affected _____ networking.

_____ we expand, what changes _____ power distribution?

Do _____ networks will mess up _____ power _____?

_____ our infrastructure _____ power grids?

_____ influence _____ growing _____ infrastructure _____ power distribution should _____ considered.

_____ a _____ expansion impact _____ distribution?

_____ distribution _____ with network expansion?

_____ expanding the _____ affect _____ setup?

The power _____ affected _____ the _____ network infrastructure.

_____ our _____ affect the _____ power _____.

How _____ network _____ electrical system?

_____ adding _____ our network affect _____?

How will expansion of _____ network _____?

The _____ from expanding _____ network.

Is _____ whole _____ distribution setup _____ thrown off if _____ the _____ thing?

_____ expanding our _____ affect our _____.

How's _____ growth _____ systems?

Can _____ tell me how the expansion _____ network _____ might affect _____?

How _____ network _____ existing power distribution systems?

Expanding _____ network _____ power setup.

Is there _____ expanding _____ network on _____ grid?
 _____ of our _____ might _____ the functioning of the _____ power _____ .
 _____ networks affect _____ grids?
 _____ impact on _____ from _____ infrastructure?
 _____ system _____ expand the network
 How will the expansion _____ the _____ infrastructure _____ the _____ ?
 The _____ of _____ network on _____ grid?
 How much _____ the _____ of networks influence _____ distribution _____ ?
 What _____ power _____ system _____ we grow _____ networks?
 _____ expanding _____ affect distribution?
 _____ of networks _____ with the _____ ?
 _____ you explain _____ expansion of the _____ affect _____ arrangements?
 If we _____ what _____ to _____ ?
 What _____ dispowerution system after the networks _____ ?
 _____ would _____ the distribution of power?
 Would enlarged networking _____ methods?
 _____ expansion _____ affect the current _____ .
 _____ would be _____ by _____ expansion.
 _____ the _____ of our _____ on _____ electricity grid?
 How will an _____ network _____ distribution setup?
 _____ our _____ electricity system?
 _____ how the _____ the _____ might affect the _____ delivery arrangements?
 _____ network affect distribution?
 _____ growth might _____ systems.
 How much _____ of _____ affects existing _____ ?
 _____ network expansion has _____ distribution.
 _____ the _____ affected by _____ extension?
 _____ there power grid implications _____ ?
 _____ we expand our network _____ impact _____ that have _____ our _____ ?
 Expanding _____ affect _____ systems.
 How _____ expansion _____ our _____ impact _____ distribution?
 _____ network _____ may affect _____ .
 _____ does _____ electricity systems
 _____ existing power _____ be _____ by the _____ of _____ ?
 _____ tell _____ how _____ expansion of our network _____ power delivery _____ ?
 Is making _____ network bigger going to _____ ?
 How _____ the _____ of _____ affect our _____ systems?
 If network _____ made _____ it mess _____ power _____ ?
 _____ with power _____ networks.
 _____ have on power distribution?
 _____ expanding our _____ news _____ power _____ ?
 The current power distribution _____ influenced _____ .
 _____ expansion _____ networks affect the distribution _____ ?
 _____ expansion _____ any impact on the _____ power?
 _____ the network can _____ power _____ .
 Growing _____ infrastructure on _____ power distribution _____ be _____ .
 Does expansion of _____ infrastructure _____ on _____ power grids?
 Can the _____ affect _____ distribution?
 What will _____ power system if _____ ?
 There _____ of network _____ power system.

Will _____ be disrupted _____ infrastructure _____?

_____ network _____ will _____ distribution setup.

Can _____ affect the _____ power _____?

Expansion project _____ affect _____

Would expanding _____ affect our _____ distribution _____?

_____ do expansion _____ affect power _____?

_____ will the expansion _____ our network impact _____?

Will _____ network expansion _____?

How _____ a _____ affect electricity distribution?

_____ what way _____ expanding _____ affect power _____?

_____ network _____ would have implications _____ system.

_____ tell us how expanding _____ network _____ affect _____ power _____ systems?

How _____ growth _____ systems?

_____ will _____ distribution be _____ network _____?

_____ will _____ our _____ affect _____?

Will _____ current _____ systems be _____ network expansion?

Expansion of _____ network could have _____ for _____.

Is _____ network _____ electrical setup?

How will _____ power _____?

_____ expansion plan's influence _____?

Does _____ affect _____ distribution _____?

_____ network _____ impact power _____?

_____ power _____ be affected if we expand _____.

_____ impact will _____ our _____ electricity system?

_____ infrastructure extension _____ to affect _____?

_____ the network would _____ the _____.

Will _____ power networks?

How _____ expanding _____ affect _____ distribution.

_____ our _____ affect power _____?

What _____ does _____ of networks _____ on _____ systems?

The _____ have an effect _____ power distribution.

_____ might affect _____ power systems.

_____ will _____ distribution _____ be _____ by network infrastructure _____?

_____ will the _____ of _____ affect our _____ distribution?

_____ impact electricity systems?

_____ enhancing _____ infrastructure affect the _____ distribution system?

Does _____ change electrical _____?

How will _____ expansion _____ our network _____ affect _____?

Is _____ problem _____ power distribution?

_____ our _____ change _____ distribution systems?

_____ a _____ expansion impact _____?

_____ Extension Affect _____ Systems?

Do growing the _____ mean _____ around?

_____ improving our network _____ the power _____ system?

How _____ expansion of _____ affects the _____?

_____ systems be _____ if we expand?

Is _____ possible that _____ expansion _____ with _____ transmission networks?

How _____ increasing _____ network _____ the _____ distribution setup?

Increasing our network infrastructure _____ functioning _____ distribution system.

How would _____ network infrastructure _____ the power _____?

_____ the power setup change if we _____?
 Is enlarged networking a violation _____?
 Do _____ impact on _____ concern _____?
 _____ the _____ affect _____ electrical setup?
 Will _____ affect _____ distribution _____ electricity?
 _____ would _____ network expansion _____ power _____?
 Increasing our _____ infrastructure _____ current power _____ system.
 Does _____ electrical grid?
 Is _____ bigger gonna mess _____ systems?
 If we _____ bigger, would _____ systems?
 How _____ affected _____ network expansion?
 _____ the network bigger going to _____ power?
 If _____ is _____ the power system _____ be _____.
 The _____ plan has an _____ on _____ power _____.
 _____ power grids _____ infrastructure expansion?
 Would the existing electric _____ affected by _____?
 Expansion _____ the network _____ have _____ on _____ distribution.
 Is the _____ current _____ systems?
 _____ expanded _____ electric supply methods?
 Will we disrupt existing _____ grids _____ improve _____?
 _____ network expansion _____ power distribution
 Expanding _____ network _____ have an _____ the current _____.
 _____ network _____ to affect _____ power _____?
 Is _____ going to disrupt _____?
 _____ network _____ for power distribution?
 _____ network infrastructure might _____ the functioning of the _____.
 _____ power systems _____ by _____ infrastructure extension?
 _____ influence _____ the _____ of electricity?
 _____ the infrastructure _____ affect _____ systems?
 Is _____ going to hurt _____?
 _____ our _____ infrastructure would _____ an _____ on _____ distribution systems.
 _____ happens to _____ system if _____ networks _____ enlarged?
 Enhancement of our _____ could affect the _____ our _____.
 _____ the infrastructure _____ to _____ power networks?
 _____ of _____ affect power distribution.
 How will _____ expansion _____ our _____ affect _____ systems?
 Impacts on power distribution could _____ by _____.
 _____ expansion _____ power distribution.
 _____ expansion going _____ power distribution systems?
 Will _____ to our _____ disrupt _____?
 How would the expansion _____ our powerdistribution _____?
 _____ expanding _____ power _____ implications?
 _____ power distribution _____ impacted _____ expanding the _____.
 _____ the network will _____ distribution.
 _____ making _____ bigger going _____ ruin _____ power systems?
 _____ change if the _____ expanded?
 Increasing _____ network _____ have an effect on _____.
 How _____ our network _____ power _____?
 _____ of _____ would _____ the existing electric _____.
 _____ networking would affect existing _____.

____ expanded network ____ the distribution ____ ____?
 How will ____ ____ ____ by ____ expansion?
 ____ of ____ infrastructure on ____ distribution
 How will ____ network ____ existing power ____ ____?
 How ____ ____ network ____ the ____ distribution?
 ____ of networks ____ existing electricity ____ ____.
 The present ____ system ____ be ____ by network ____ ____.
 How would ____ expansion affect the ____ ____ ____?
 The ____ expanded ____ on the ____ ____.
 ____ of the network ____ affect ____ ____.
 Will the ____ ____ ____ by infrastructure ____ ____?
 ____ impact will ____ our network ____ our electricity ____?
 Will ____ network expansion ____ affect ____ ____?
 Will ____ infrastructure ____ ____ current ____ systems?
 ____ power grids be impacted ____ expansion of ____ ____?
 ____ network ____ power distribution?
 Would existing ____ methods ____ by the ____ networking?
 ____ to ____ infrastructure ____ existing ____ grids?
 ____ have an ____ on the ____ distribution systems?
 enhancing ____ infrastructure ____ the functioning of the power ____ ____.
 ____ expanding ____ network ____ distribution?
 Will ____ electric ____ affected ____ networking ____?
 ____ what happens to ____ existing ____ systems?
 ____ the ____ be affected by ____ ____?
 ____ power distribution setup ____ to ____ thrown ____ if ____ the network ____?
 Is ____ bigger going to mess ____ power ____?
 Current ____ ____ by network expansion.
 ____ network infrastructure ____ power ____?
 Does ____ the network ____ of ____?
 ____ we expand, what will ____ power ____?
 ____ the affect of ____ growth ____ systems?
 There ____ network expansion ____ influence ____ distribution.
 ____ there ____ repercussions ____ electric ____ if we ____?
 Are the power distribution ____ infrastructure ____?
 ____ the whole ____ setup ____ danger if we ____ thing ____ boost?
 What is ____ expanding ____ on ____ distribution systems?
 Impact of ____ our ____ ____?
 ____ would the ____ be ____ by ____?
 ____ net ____ to affect ____ setup?
 ____ the expansion of ____ affect the ____ systems?
 What ____ happen ____ the ____ power systems if ____ ____?
 How might the ____ of ____ ____ our power ____ arrangements?
 ____ will affect the ____ system.
 ____ might the expansion ____ network infrastructure ____ the ____ power?
 ____ expansion of ____ network ____ power distribution ____?
 ____ expand our network ____ what would the effect ____ distribution ____?
 how ____ affecting ____ systems
 Does ____ network expansion affect ____ ____?
 ____ our network ____ an impact ____ grid.
 ____ what power grid ____ are ____?

Are _____ network _____ going to _____ existing _____ distribution systems?

Expansion _____ the network _____ impact _____ electricity grid.

_____ on electricity _____ of _____ our _____?

Would _____ extra networking affect the _____?

Are _____ sure that _____ mess up _____ power _____?

_____ what will happen to current _____?

_____ network _____ may affect _____ the power _____ system.

What _____ network expansion _____ distribution of electricity?

Would the expansion _____ networking _____ electric _____ methods?

_____ network expansion have any _____ on _____ systems?

_____ does _____ expansion _____ power distribution?

_____ expansion _____ our network infrastructure affect _____?

Did _____ affect _____ power system?

Could an expansion _____ interrupt _____?

What do you think _____ happen _____ power systems _____?

How _____ our _____ the grid?

Does increasing _____ affect _____ power _____?

Thinks _____ electricity _____ as _____ result of _____ network.

_____ system _____ if _____ expand the network?

_____ may _____ power networks

Will the _____ infrastructure _____ power _____?

How will _____ impact our power systems?

The _____ expansion _____ affect the _____.

_____ of the _____ may affect _____.

Does _____ the network _____ the _____ grid _____ any _____?

_____ the whole power _____ to _____ off _____ this _____ thing is given _____ boost?

Does _____ network _____ an _____ on power _____?

_____ network _____ can have an _____ power distribution.

Would the new _____ affect _____ methods?

_____ distribution would be _____ expansion.

What _____ happen _____ the _____ if we _____ network?

Will expansion of _____ distribution _____?

What _____ expanding our network _____ have on _____?

_____ does the _____ of networks _____ electricity distribution _____?

Do _____ affect _____ distribution _____ expanding _____?

What _____ would _____ expanded network _____?

_____ expanding networks, _____ implications do _____ grid _____?

_____ the _____ have _____ affect on the _____ setup?

Will the _____ affect the _____?

_____ effect does _____ of networks have on _____ distribution _____?

_____ power _____ when network _____ expanded?

Is the _____ the power _____?

Expansion _____ disrupt _____ networks.

_____ the network will _____.

Expanding network _____ power _____?

Existing _____ be _____ if we expanded our _____ infrastructure.

_____ will expansion _____ infrastructure affect _____ power grids?

What degree _____ affect _____ systems?

Would _____ previous electric _____ methods?

_____ expansion _____ the network _____ existing _____ grids?

_____ of networking _____ existing _____ supply _____?

If we make _____ that _____ power systems?

_____ infrastructure will have an _____ the current power _____.

_____ expanding our network _____ on the electricity _____.

_____ a network _____ distribution?

How would _____ distribution _____ electricity?

Are _____ throw _____ the power distribution _____ give this network a _____?

The expansion of _____ affect _____.

_____ growing the _____ going to _____ electricity setups?

Is _____ that the _____ of our _____ could affect _____ arrangements?

Does _____ distribution _____ we expand?

Is infrastructure extension _____ the _____ systems?

_____ will increasing our _____ do to _____ power _____?

_____ may _____ expansion of _____ infrastructure affect _____ power delivery _____?

Improving our _____ infrastructure could _____ power distribution system.

_____ affected by network expansion

Are _____ power _____ influenced _____ network _____?

_____ what will _____ if we _____?

How will _____ the network _____ the _____ systems?

Are the _____ to be _____ off if _____ the network _____?

Power _____ if the network _____.

_____ might _____ functioning of the power distribution system.

_____ the network _____ power distribution.

Expanding _____ infrastructure _____ effects _____ power _____.

_____ the electric systems _____ networking _____?

_____ are _____ consequences _____ boosting _____ power grids?

_____ the _____ be _____ by _____ expansion?

_____ expanding our _____ power grid _____?

_____ power _____ disrupted by _____ of our infrastructure?

What effects _____ has _____ power _____?

What _____ happen _____ power system _____?

Power _____ if _____ expand the _____.

How _____ the _____ of our _____ the electricity _____?

_____ the increased _____ affect _____ electric supply _____?

What affect _____ the _____ on power _____?

Enhancing network _____ functioning _____ the power distribution _____.

_____ about the impact of network _____ on _____?

_____ expansion of _____ have on existing _____ distribution systems?

Increasing _____ can affect _____.

Extending our _____ distribution.

_____ networks _____ impact on _____?

_____ distribution may _____ influenced by _____.

_____ will _____ power grid have _____?

_____ would a _____ expansion _____ the _____ of power?

What happens _____ the _____ expand?

_____ network related _____ power distribution?

Does _____ our network _____ power _____

_____ the expansion of our _____ might _____ our _____ delivery _____?

_____ expanding networks _____ the distribution of electricity?

_____ the _____ of the _____ have on _____ of power?

How _____ the power _____ be _____ expanding _____ network?

_____ the power system _____ expanding _____?

How will _____ effect _____?

_____ network _____ an _____ on the distribution systems?

_____ upgrade _____ infrastructure disrupt power _____?

Expansion _____ affect power _____.

_____ distribution is _____ for network _____.

_____ expansion of the network _____ affect _____ distribution _____?

_____ with power transmission _____

_____ expand the network could _____ be power _____?

Is network _____ affect _____?

Expansion _____ our system _____ distribution.

Power _____ implications _____ there _____ an _____ of _____ network.

Will _____ be _____ by improving _____ infrastructure?

Expanding our _____ might _____ grid.

_____ growth _____ electricity grids?

Expanding _____ will _____ electricity grid.

The current _____ distribution _____ be _____ by _____ network _____.

If _____ network, what about the _____?

_____ influence _____ the network _____ on the power _____?

_____ network being bigger _____ with _____ current _____?

_____ will expanding _____ the _____ system?
