

[Demo] NLP Dataset for Customer Service Automation

Company Type	Home Appliance Manufacturers
Inquiry Category	Troubleshooting and problem-solving support
Inquiry Sub-Category	Energy Efficiency
Description	Inquiries regarding energy-saving features and optimizing the energy efficiency of appliances.
Data Size	5,027 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Home Appliance Manufacturer" customer inquiry. (Purchased data will not be masked.)

_____ models _____ based solely on _____ overall electrical power _____?

_____ you give _____ comparison of the _____ power _____ specific models?

_____ offer _____ analysis based _____ electric power _____ figures of _____ models?

_____ comparison of _____ against the others in _____ of _____ power usage?

_____ you _____ me a comparison of _____ in _____ power usage?

_____ the differences between _____ different models that _____ consumption?

_____ about _____ model with _____ other _____ terms _____ their electrical _____ usage?

_____ us _____ particular _____ are better than _____ because of _____ electrical power _____?

_____ comparing _____ specific model _____ others in _____ of _____ power usage?

What are the main _____ between _____ different _____ their electricity _____?

_____ give me _____ comprehensive _____ the _____ solely on _____ electricity consumption?

The electrical _____ compared between the different _____.

_____ models _____ on _____ power usage.

Is _____ a _____ electrical _____ use of different _____?

_____ have a comparison _____ different models _____ terms of _____ power _____?

_____ you shed _____ models and give an _____ based on _____ consumption _____?

Is there _____ of _____ of _____ total electrical power usage?

_____ you _____ us _____ comparison of the _____ with the _____?

The models that are _____ based _____ electrical _____.

Can _____ give us _____ the _____ with regards _____ electrical _____ usage?

Can you _____ a _____ of the _____ electrical _____ usage?

_____ you have a _____ with _____ to their _____ power _____?

Can you show _____ models _____ electricity consumption in _____?

Do _____ a comparison of _____ models in terms of _____?

_____ it _____ to _____ can _____ us a comparison of the _____ models?

_____ you compare _____ electrical power _____ of _____ models?

How about a _____ with other _____ of their usage of _____?

Compare _____ electric _____ the _____.

What about a _____ this specific _____ terms of their _____ of electricity?

How about a comparison of this particular _____ and _____ usage?

_____ give _____ of _____ models _____ models in _____ of their electricity usage?

_____ it possible to compare this model _____ the other _____ in _____ their _____?

Can _____ us _____ comparison _____ the _____ terms of _____ power usage?

Can _____ us _____ comparison of _____ different models in _____ of our _____ ?

_____ there a _____ to _____ with their _____ power _____ ?

_____ you have _____ way to _____ see _____ much _____ they use?

Can you give _____ a comparison of the _____ electrical _____ usage?

_____ us _____ the different models in _____ their electrical power use.

Can _____ us if the _____ are similar _____ because of _____ use?

Can _____ us _____ comparison _____ the model's _____ usage?

What _____ models when it comes _____ ?

Does _____ a _____ to compare _____ models _____ their _____ electrical power _____ ?

_____ tell us _____ certain models are similar _____ different _____ of _____ electrical _____ ?

_____ to compare models and figure _____ electricity they _____ ?

What _____ differences _____ models based _____ power usage?

_____ you give a comparison of the _____ in _____ electrical _____ ?

_____ compare the models _____ other _____ in _____ power usage?

Are these _____ different with _____ to _____ usage?

How about comparing _____ model _____ the other models _____ their _____ ?

Can you tell us _____ the _____ use models?

_____ us _____ what _____ think _____ electrical power usage among _____ models.

_____ give me _____ of the models, _____ on their electricity _____ ?

_____ main _____ between the _____ focused _____ their electricity consumption?

_____ give a _____ comparison _____ usage for these models?

Can _____ us _____ the _____ are different due to _____ usage?

_____ you _____ of the _____ power _____ of _____ different models?

_____ there a way _____ models _____ their _____ of electricity?

_____ these specific models similar or _____ their electrical _____ ?

Is _____ to compare the _____ usage of _____ specific _____ ?

Can _____ us _____ comparison of _____ power usage?

_____ know _____ you think _____ the _____ electrical power usage _____ the _____ .

Take _____ total _____ consumption of models _____ .

Can you give a _____ of _____ models' _____ electrical _____ ?

_____ models _____ fare on _____ usage?

_____ show _____ comparison _____ different models _____ each other in _____ of _____ power usage?

_____ a comparison _____ the _____ in _____ electrical power use?

Can _____ us the _____ based _____ their electrical power usage?

Can _____ us _____ different _____ their total electrical power _____ ?

Can you tell _____ if _____ different because _____ power usage?

Can you show me _____ of the _____ focusing _____ their _____ ?

_____ you tell _____ specific _____ different in their electrical power usage?

Can you _____ us _____ compare _____ power usage?

_____ give me _____ comparison of _____ different _____ focusing _____ their _____ consumption?

_____ a comparison _____ the _____ models _____ terms _____ electrical power _____ .

_____ you describe a _____ the _____ with _____ to their electrical _____ ?

_____ we compare _____ power use?

What are _____ specific models and _____ other _____ it comes _____ electricity consumption?

There _____ compare models and figure _____ how much _____ they _____ .

_____ us a _____ of the models _____ their electrical _____ ?

_____ you provide _____ with a _____ the _____ models' total _____ power _____ ?

_____ you compare _____ models _____ ones _____ terms of their _____ usage?

_____ about _____ models' _____ power use.

_____ it _____ to _____ models against _____ to electrical power usage?

_____ you _____ us _____ these models _____ similar _____ different with _____ usage?

_____ you give us _____ comparison of _____ different models?

The models _____ on _____ power usage.

Is _____ way to _____ give _____ about how much _____ each model _____?

What _____ the _____ differences _____ these models _____ focusing _____ on their _____ consumption?

Can _____ give _____ of these _____ against _____ in _____ to _____ power _____?

Can _____ a _____ of the _____ against each other _____ relation to _____?

_____ need _____ of _____ models _____ of _____ total electrical power usage.

How _____ a comparison _____ this _____ other models _____ of _____ use of _____?

Are you _____ to _____ comparison of the _____ electrical power _____?

_____ you give a comparison _____ models _____ similar ones _____ of electricity _____?

Compare _____ models' electrical _____.

_____ electric consumption of _____ models.

_____ give us a _____ of the _____ to _____ power usage?

How _____ comparison of this model _____ electrical power usage

_____ you _____ the difference between these _____ based _____ power usage?

_____ about comparing _____ model with the _____ terms of _____ electrical _____?

Can you compare _____ models _____ similar ones in _____ electrical _____?

_____ evaluate the electrical power _____ models?

Compare _____ total _____

_____ comparison of the _____ regards _____ their _____ Power usage?

Is _____ a _____ to compare models _____ the amount of _____?

How about you _____ a comparison _____ power _____?

_____ about a comparison of _____ different _____ of their electrical _____?

Is there _____ of _____ terms of power use?

_____ models be _____ with their electrical _____?

_____ you give _____ of _____ models _____ other similar ones _____ of electrical _____?

_____ a _____ comparison between these models _____ terms _____ their _____ usage?

Can you _____ comparison _____ the _____ only _____ electricity consumption?

Can _____ show _____ a comparison _____ the different _____ terms _____ electrical power _____?

The _____ models _____ compared _____ on the _____ power _____.

Can _____ give _____ of _____ different models _____ to the _____ power _____?

_____ a _____ electric _____.

_____ offer _____ analysis based on the electric _____ figures of _____?

Can _____ give a _____ of the _____ usage _____ the specific _____?

_____ you _____ a _____ the total _____ usage of these _____?

_____ a _____ the _____ in terms of _____ power usage.

_____ comparison of the _____ in terms of _____ usage _____ electricity?

_____ you give a comparison _____ against others _____ their _____ power usage?

_____ to know _____ of the _____ terms of _____ power usage.

Can you provide _____ of the _____ electrical _____?

_____ give _____ a _____ comparison of _____ models' electricity _____?

Is _____ to compare _____ power use of different _____?

_____ you _____ a comparison _____ different _____ total electrical power _____?

How about _____ give a _____ of the models?

Can you _____ a _____ the _____ with _____ to _____ power usage?

_____ a _____ and other _____ in terms of _____ electricity usage?

Can _____ electrical power usage of _____?

_____ comparison of the _____ terms of their overall usage _____?

_____ models' _____ usage can _____ compared.

Can _____ me _____ different _____ each other in terms of _____ electricity usage?

_____ there a way _____ and see _____ electricity they use?

_____ does _____ on electric use?

_____ model fare _____ utilization?

Can _____ show us the _____ and their electricity _____?

_____ does the _____ on electric _____?

_____ it _____ to _____ what's _____ on the models?

_____ is _____ comparison of _____ models in _____ of _____ power use.

_____ there _____ comparison between _____ model and the other _____ in terms of _____?

We _____ a _____ different models _____ terms of their _____ power _____.

_____ you provide _____ comparison _____ model's electrical power _____?

How about _____ this _____ and _____ other ones in _____ electricity?

_____ do the models _____ on _____?

Compare models' _____.

Do _____ know _____ comparison of the different _____?

_____ you _____ me _____ comparison of these _____ focusing _____ their _____ usage?

_____ you _____ a _____ of the different models _____ of _____ usage _____?

_____ are the _____ between _____ models _____ are _____ to _____ consumption?

_____ comparison _____ the _____ and other models _____ terms of their electrical _____?

Compare _____ use _____.

_____ comparison of _____ particular _____ and other models in _____ of electricity?

_____ a comparison of the _____ power usage _____?

Is it _____ compare _____ and tell _____ electricity _____ use?

_____ you _____ a comparison _____ electrical power usage _____ models?

Can you _____ a _____ in terms of electrical power _____?

_____ show us a _____ of _____ other _____ terms of _____ power usage?

The specific _____ comparison _____ on the electrical _____.

Can _____ the _____ against other models _____ terms of _____ usage?

_____ you give us _____ models with their _____ Power _____?

Are these _____ or _____ with regard _____ their _____ usage?

Can you give _____ comparison _____ the _____ electrical _____?

_____ a direct comparison of _____ in _____ power usage?

_____ you give a comparison _____ model's electrical _____?

_____ you _____ these _____ ones in terms _____ their _____ power usage?

How _____ comparison of _____ various _____ of their electrical _____ use?

_____ possible _____ give a direct _____ models' electrical _____ usage?

Can you tell us _____ these specific _____ same _____ different due _____ power _____?

Can _____ comparison of the _____ power _____ different models?

The _____ comparison _____ based _____ the electrical _____.

_____ there _____ to compare _____ specific models _____ overall _____ power usage.

_____ you _____ about the _____ electrical power _____ of _____ models?

_____ you _____ us a comparison _____ the _____ electrical _____ usage?

_____ you _____ us a _____ the _____ in terms of _____ power _____?

_____ can _____ total _____ consumption _____ the models.

The electrical _____ what _____ the _____ comparison.

Can _____ give _____ of _____ against one another in _____ of _____ use?

_____ about _____ model and others _____ terms _____ their usage of _____?

Are _____ or different for their _____ usage?

_____ you _____ of these _____ other similar ones in terms of _____ power usage?

Please let us know what _____ electrical power _____ these _____.

Is _____ possible to _____ light _____ these specific _____ and _____ a analysis based on _____?

How about a comparison _____ model _____ others _____ terms _____ electricity?

Can _____ provide _____ on the electric power _____ figures _____ certain _____?

Can _____ specific models _____ other _____ terms of _____ power usage?

_____ and figure _____ how much electricity they _____?

_____ to know _____ comparison of the models with regards to _____.

_____ there a comparison _____ the _____ with _____ their _____ usage?

_____ you have the ability _____ compare _____ give me information _____ much _____?

Is there _____ of _____ against _____ similar ones in terms _____ power usage?

Are these _____ or _____ with respect to their _____?

_____ that _____ models _____ similar _____ different _____ on their electrical power _____?

_____ tell _____ about _____ power _____ of the models.

Can you demonstrate _____ of these _____ respect to _____?

How _____ these models compare against _____ based _____ power _____?

_____ you _____ us if these _____ models _____ better _____ the other _____ their electrical power _____?

_____ you provide _____ analysis of these _____ their electric _____ figures?

_____ provide _____ analysis _____ on _____ power consumption _____ of the models?

What _____ the differences between the _____ in _____ of _____ power _____?

The _____ with the _____ power usage.

_____ it possible to _____ their overall _____ power use?

Is there a _____ the _____ models _____ of _____ power usage?

Can you _____ models against _____ terms of their electrical _____?

_____ about the models with regards to _____?

_____ you _____ us _____ models in their power use?

Is _____ a comparison of _____ against _____ to _____ power usage?

_____ to compare models and _____ their electricity usage?

_____ have a comparison of their _____?

_____ comparison _____ this model and the other models in _____ of their _____.

_____ show _____ a detailed _____ the models, _____ on their _____ consumption?

How about _____ comparison of this _____ model _____ the others _____ usage?

Do _____ know if the _____ or different _____ power usage?

Are you _____ to _____ models' _____ use?

Can _____ if _____ are similar or _____ with _____ to their _____ power _____?

Is _____ to _____ against other _____ in terms of _____ power usage?

Can _____ compare these _____ models to _____ similar _____ in _____ usage?

Is it possible to _____ the _____ against _____ models _____ their _____?

Can you compare the different models _____ one _____?

Can you _____ against other similar _____ in _____ electrical _____ usage?

_____ tell us a _____ of the _____ usage?

_____ you _____ comparison _____ models with their _____ consumption in _____?

_____ you _____ based _____ the electric power _____ figures _____ these _____ models?

Can you _____ a _____ comparison _____ models, focusing _____ electricity use?

_____ us a comparison of the different models _____ total _____?

_____ want _____ and see how much _____ they _____.

Can you provide a _____ of these models _____ of _____?

Can you give a _____ specific _____ other similar _____ terms _____ electricity usage?

_____ us _____ the _____ electrical _____ usage among these _____ focusing only _____ aspect.

_____ you know _____ specific models _____ or _____ of _____ power usage?

Can you _____ comparison of the _____ each other _____ terms _____ usage?

____ you compare the ____ electrical ____ use of ____ ____?

____ ____ comparison between the electrical ____ use of ____ ____?

____ there ____ the ____ with their electrical power ____?

____ you ____ an ____ on ____ models ____ their electric power consumption ____?

____ do the ____ fare ____ electric ____?

____ us ____ a comparison of the different ____ terms ____ electrical power ____?

How about you ____ use?

Can ____ the ____ in ____ of electrical ____ use?

____ ____ comparison of the different models ____ terms of ____ electrical ____ usage.

____ give us ____ of these ____ ones in terms of ____ usage?

____ electric usage of _____.

How ____ models compare on ____ power ____?

Can you ____ comparison ____ these ____ with similar ____ terms of ____?

____ it possible ____ specific ____ of their overall electrical power ____?

____ a comparison ____ the ____ against ____ in ____ their electrical power usage?

____ tell ____ comparison of the ____ their ____ Power usage?

Can you ____ comparison of ____ against other ____ ones ____ terms of ____ electrical ____ usage?

____ you ____ us if ____ specific models are ____ because ____ power ____?

The electrical ____ of ____ can ____ compared.

Can ____ give me ____ comparison ____ focusing on ____ consumption?

____ you give a comparison of ____ different models?

Can you ____ comparison of the different ____ focusing ____ consumption?

Can ____ give ____ different models against one ____ in terms ____ power ____?

____ us if ____ particular ____ are ____ compared ____ the other ____ due to ____ total electrical power ____?

____ electric ____ usage is ____ to ____ the _____.

Is it ____ to ____ these ____ electrical power ____?

Can you ____ us ____ specific ____ are ____ or different because ____ their electrical ____?

____ do ____ when it comes ____ electric ____?

Can you tell ____ comparison of the ____ power usage?

Can you tell us the ____ the ____ on ____ electrical ____?

____ there any way to ____ the models ____ power ____?

____ shed ____ on ____ models ____ offer an analysis based on ____ power ____?

How ____ models ____ when it comes ____ electric ____?

____ any way ____ compare the ____ with the overall ____ power ____?

Can you give ____ comparison ____ the ____ models ____ electrical power ____?

____ give us ____ comparative electrical power ____ among ____ models

Can you tell us ____ comparison of ____ with ____ to _____.

Can ____ demonstrate ____ the ____ with ____ electricity consumption ____ mind?

____ offer a ____ the different models in terms ____ electrical ____?

Is there ____ compare the ____ to ____ power use?

____ give ____ a ____ the electrical power use ____ different ____?

____ you ____ us ____ comparison of ____ in their ____ electrical power ____?

Can you ____ us ____ comparison ____ models with ____ electricity ____?

____ electric ____ of various _____.

____ there a ____ to ____ the different ____ power ____?

Can you ____ a comparison ____ models against ____ terms of ____?

____ electrical power ____ models should be _____.

____ we compare ____ power usage?

____ a way ____ models and figure ____ how ____ they _____.

____ it ____ to ____ on these ____ offer a ____ based on their electric ____ figures?

_____ model and the other models _____ terms _____ their _____ .
 _____ about _____ it comes to their electrical _____ ?
 _____ to compare _____ terms of their electrical power _____ .
 _____ like to _____ comparison _____ the different _____ in _____ of the _____ usage.
 _____ you _____ us _____ different models with their _____ power use?
 Can _____ compare _____ against _____ relation to electrical power _____ ?
 Specific models _____ compared based _____ power _____ .
 _____ the comparison of _____ different _____ terms _____ electrical power _____ ?
 _____ do _____ models _____ it comes to their _____ ?
 Is _____ possible _____ compare _____ other similar ones _____ terms _____ their _____ usage?
 How do _____ compare against _____ electrical _____ usage?
 Can _____ tell _____ a _____ of _____ different models _____ their electrical _____ usage?
 _____ you _____ a comparison _____ the different models against _____ other, _____ electricity _____ ?
 _____ you give me _____ comparison _____ these _____ only _____ their _____ consumption?
 _____ you _____ me a comprehensive comparison _____ on electricity _____ ?
 _____ between _____ models when it comes to their _____ consumption?
 Is there a _____ model _____ in _____ of _____ electrical power usage?
 _____ these _____ similar _____ different with _____ electrical power _____ ?
 Can _____ give a _____ each other in _____ of _____ usage?
 How are _____ models performing _____ ?
 Can _____ tell _____ if _____ models are _____ compared _____ other models for their _____ ?
 Can you compare _____ with other _____ electrical power _____ ?
 _____ compare _____ models in _____ of electrical power _____ ?
 _____ you give _____ of the specific _____ against other _____ in _____ of _____ power _____ ?
 _____ you tell _____ models are better _____ to _____ others _____ their electrical _____ use?
 Are _____ models similar _____ of the electrical _____ ?
 Can you tell _____ if _____ are similar _____ different _____ on _____ electrical _____ ?
 _____ a way _____ various _____ with their electrical _____ usage?
 The _____ on _____ electrical power usage.
 _____ you tell _____ a comparison _____ models with their _____ ?
 _____ we _____ different models in terms of _____ total _____ ?
 Can _____ those _____ electrical _____ usage?
 _____ models compare based _____ electricity usage?
 _____ you _____ a comparison of the specific _____ against _____ similar _____ terms _____ usage?
 _____ these models' _____ electricity.
 Can _____ a comparison of the _____ power use _____ ?
 How do _____ models _____ when _____ ?
 Can _____ give a _____ of _____ models in _____ their electrical _____ ?
 _____ about a comparison of _____ other models in terms _____ their electrical _____ ?
 Can _____ compare the _____ models in _____ of _____ electrical _____ ?
 _____ these _____ usage comparable?
 _____ you provide a _____ the different _____ in _____ overall electrical _____ usage?
 _____ give _____ a comparison _____ the model with _____ to _____ electrical _____ ?
 _____ there a _____ to compare the _____ their _____ usage?
 _____ to compare the _____ models in _____ of _____ usage.
 Can _____ tell _____ comparison of the _____ models' _____ usage?
 _____ you _____ if _____ models are different based on _____ electrical _____ ?
 _____ you show _____ the models using _____ consumption?
 _____ do _____ models compare _____ on electrical _____ ?
 Can _____ us _____ models are _____ or _____ because of _____ electrical power _____ ?

Can you give ____ a ____ models ____ respect ____ power usage?

____ you ____ the ____ models with ____ their electricity consumption ____ mind?

How ____ a comparison ____ this model ____ ones ____ terms of ____ power ____?

____ give a ____ comparison ____ various ____ in ____ of their electrical ____ usage?

____ to know if you can compare ____ with ____ in ____.

____ models ____ on electric utilization?

Is ____ possible to ____ the ____ each ____ in total?

How about comparing ____ model ____ the other ____ of their ____?

____ about a ____ this model and ____ models in ____ of ____?

Is ____ way to compare ____ in terms ____ their ____ usage?

What ____ comparison of ____ different ____ usage ____ electricity?

____ there ____ comparison ____ the different models in terms ____ electrical ____?

Can you show ____ these models, ____ with ____ in ____?

Are the ____ similar ____ their ____ power usage?

Is ____ a comparison ____ other models in terms of ____ overall ____ electricity?

____ a way to compare ____ and ____ they use?

What ____ the models ____ of electrical power usage?

____ provide a comparison ____ these ____ in ____ of ____ electrical power ____?

How ____ a ____ of this particular model ____ overall ____?

____ a ____ the different models in terms of ____ consumption?

____ demonstrate ____ of these ____ with respect ____ their ____ consumption?

____ you ____ a comparison of ____ other models in terms ____ usage?

Is ____ compare ____ electrical power usage ____ specific ____?

Is ____ to ____ of electrical power use?

Please ____ of the models with ____ to their ____ power ____.

Is ____ to ____ comparison of the models ____ only ____ consumption in ____?

Can you ____ between ____ specific models in ____ their electrical ____?

____ provide a direct ____ of ____ power usage?

____ there a comparison ____ the ____ power ____ different ____?

____ you ____ the electrical power ____ models?

____ are ____ models doing ____ usage?

____ about a comparison ____ this model ____ other ____ with their ____?

____ comparison is based ____ electrical ____ of ____ models.

____ you tell ____ if the ____ the ____ different for ____ electrical ____ usage?

How can ____ be ____ based ____ power usage?

____ you know ____ specific models ____ or ____ due to ____ power usage?

Do you have a comparison of ____ models in ____ of ____?

____ a way ____ compare the ____ terms ____ total electrical power use?

Can you ____ comparison of the ____ usage ____ models?

These ____ based ____ their electrical ____.

Can ____ a ____ models against other ____ models in terms ____ usage?

____ are ____ differences ____ the ____ which focus on ____ consumption?

Is there a ____ models' ____ power ____?

Is there ____ way ____ the specific ____ with ____ power use?

____ you tell us if these models are ____ compared ____ their ____ usage?

____ you ____ comparison ____ the models for ____ usage?

comparison ____ this specific model and other models ____ their ____

Can you give us a comparison ____ models ____ terms ____?

Are you ____ me details of ____ much electricity ____ uses in ____?

Can you give me ____ comprehensive ____ these ____ models, focusing ____ electricity ____?

_____ possible to _____ comparison of _____ models in terms of _____ electrical _____?

Can _____ give a _____ of the models _____ their _____?

Can you _____ how _____ in terms of power _____?

How _____ a comparison _____ this particular model _____ models _____ of their _____ usage of _____?

_____ us _____ of the models with electricity _____ mind?

Can you give an _____ figures of these specific _____?

Can _____ the _____ the _____ and only _____ electricity consumption?

How do these _____ on _____?

Can _____ tell me _____ the models _____ usage?

Are _____ to _____ us a _____ of the different models _____ electrical _____?

Can you _____ me _____ comparison _____ models _____ regards _____ their electrical _____?

_____ you know _____ comparison of _____ in _____ of the _____ usage?

_____ able _____ these models' _____ power usage?

_____ tell _____ the _____ are similar _____ because of the _____ power usage?

_____ you able _____ give _____ a comprehensive comparison of _____ focusing on _____?

_____ comparison of the _____ with _____ other models in _____ of _____ usage _____ electricity?

_____ you give _____ comparison of the _____ models, focusing only _____ consumption?

Can _____ a comparison _____ these _____ and similar ones in _____ of _____?

Can you tell us if the _____ different _____ electrical _____?

Can _____ comparison of _____ focusing _____ on their electricity consumption?

_____ about _____ of this specific _____ and the other _____ of _____ of _____?

Can _____ give a comparison _____ models _____ respect _____ electricity _____?

The _____ model can be _____ models in terms _____ power usage.

Can you _____ electrical _____ usage _____ certain _____?

Is it _____ to _____ light on _____ and _____ an analysis based _____ electric power _____?

How about a comparison _____ the _____ total electrical power _____?

_____ there _____ comparison of _____ in _____ of their _____ electrical power _____?

_____ you _____ a comparison _____ the _____ on their electricity consumption?

_____ you _____ us how these _____ their power usage?

_____ you _____ if _____ same or _____ due to the _____ power usage?

Please tell us a _____ models _____ terms _____ power usage.

How about comparing the _____ the other _____ power usage?

_____ this model and _____ models _____ terms of _____ electricity use?

_____ do the _____ based on their _____ power _____

Can _____ the comparison _____ the _____ only their electricity _____?

Can you tell us _____ particular _____ are the _____ or _____ of _____ power _____?

How _____ compare the _____ power used _____ these _____?

There is a _____ to compare _____ and _____ how _____ power _____.

_____ between these _____ power use is _____.

Can _____ tell _____ models _____ the other ones because of their _____ electrical _____ usage?

Can you tell _____ a _____ of _____ models of the _____?

Is _____ a _____ model and _____ models _____ terms of their _____ electricity?

Specific models compare based _____.

How _____ you _____ power use _____ the model?

_____ give _____ direct comparison _____ specific models' _____ power usage?

_____ a way _____ compare models _____ how _____ they use.

The _____ models _____ are _____ on _____ usage.

_____ are _____ differences _____ specific _____ on their electrical power _____?

How can _____ compare models to _____ much _____ use?

_____ you _____ these specific _____ against other _____ in _____ their electrical power _____?

_____ to compare models and _____ out _____ electricity use?

_____ a comparison _____ the _____ in _____ of electrical _____ use?

Are _____ give a direct _____ the models' _____ usage?

How _____ different _____ in terms of _____ usage?

How _____ models compare _____ based on their _____ power _____?

_____ possible to compare _____ their _____ power usage?

When _____ comes _____ power usage, _____ you give _____ a comparison of _____?

Do _____ a comparison _____ different models' _____ power use?

Can you tell us _____ better _____ to the _____ for their _____ electrical power _____?

Can _____ tell _____ the models _____ different depending on _____ power usage?

_____ us a _____ of the total electrical power use _____?

Can you compare these _____ other similar ones in _____?

Can you _____ models against _____ terms _____ their electricity _____?

Can you _____ the comparison of _____ only _____ electricity _____?

Can _____ tell _____ about _____ differences _____ the _____ the electrical power _____?

Can _____ tell us _____ comparison of _____ different _____ power _____?

How _____ the electrical power use of _____?

Can _____ tell _____ models and their electrical _____ use?

_____ you _____ a _____ of the _____ terms of their _____ usage?

Can _____ compare _____ models _____ ones _____ of their electricity _____?

How _____ they compare when it comes _____?

_____ have a _____ of _____ in _____ of _____ electrical power usage?

How _____ the _____ on electric _____?

_____ us if the models are _____ or different _____ their _____ power _____?

How _____ a comparison of _____ specific _____ with _____ in _____ of electrical _____?

How about _____ others in terms of electrical _____ usage?

_____ show _____ of the models _____ to electricity consumption?

_____ provide a comparison _____ different _____ in terms _____ their _____ usage?

_____ do the models _____ based on _____ power _____?

_____ a way to _____ these _____ in terms _____ electrical power usage?

How _____ this specific model _____ the _____ models _____ of _____ usage?

What _____ on these models for _____?

_____ consumption of these _____.

Are _____ able to compare _____ power _____?

_____ the comparison of these _____ to their electricity consumption?

_____ a comparison of the electrical power _____ particular _____?

_____ the comparison of these models _____ their electricity _____?

_____ models _____ or different _____ the electrical power usage?

Can you tell us _____ different _____ total electrical _____ usage?

What _____ differences _____ these models and _____ models, focusing on _____?

Can _____ tell _____ these _____ compared to the others _____ of _____ electrical power usage?

_____ demonstrate the _____ models with only _____ electricity consumption _____ mind?

_____ of _____ with other models _____ of their electrical power usage?

_____ models _____ similar _____ different based on their electrical power usage?

Is _____ a _____ to compare models _____ out how _____ they _____?

Is it _____ compare _____ usage?

Can you give me _____ models, _____ electricity consumption?

Can you provide a comparison of _____ different _____ in _____?

_____ comparison _____ based _____ the electrical power _____.

_____ model's _____ electric _____

____ there a way to ____ models ____ electrical power usage?
 Is ____ way to ____ models with ____ total electrical power ____?
 I would like to ____ of the ____ models in ____ electrical ____.
 ____ you show ____ models, focusing only ____ their ____ consumption?
 ____ show ____ between ____ with only electricity consumption in ____?
 What ____ the main differences between the ____ that ____ on ____?
 ____ you ____ a comparison of the ____ terms ____ their ____ power ____?
 ____ main differences ____ these ____ and the others, ____ on electricity ____?
 How about ____ comparison ____ this model ____ other ____ in ____ power usage?
 ____ about ____ compare electrical power use ____?
 ____ you ____ compare and ____ how much ____ each ____ uses?
 How about ____ and ____ models in ____ of ____ power ____?
 Can you tell ____ comparison ____ the different models ____ of electrical ____?
 Can ____ tell ____ the models are ____ or ____ with ____ electrical power ____?
 ____ you tell ____ these models are ____ compared ____ other models due ____ their ____ power ____?
 Can you ____ a comparison ____ models with regard ____?
 ____ a ____ compare ____ models to their electrical power ____?
 ____ these models similar or ____ their ____ power use?
 How ____ compare ____ on how much ____ power ____?
 ____ you ____ specific models to other ____ in terms ____ power usage?
 ____ there ____ way ____ compare ____ models with overall ____ usage?
 What are the main differences ____ models ____ other ____ focused ____ consumption?
 ____ if the ____ are ____ or different ____ their electrical power ____?
 Can you ____ a ____ of these ____ against ____ in ____ electrical power ____?
 ____ electric ____ from models.
 Is there ____ comparison between the models ____ power ____?
 ____ you ____ us if these ____ to other ____ because of their ____ power use?
 ____ give ____ the ____ models ____ terms of electricity usage?
 ____ a ____ to ____ models, and ____ electricity they use.
 Can ____ compare models ____ see how ____ they ____?
 Can ____ models ____ similar ____ in ____ of electricity usage?
 Can you tell me ____ these ____ same ____ different ____ of electrical ____?
 ____ about a ____ between ____ terms of ____ electrical power usage?
 Can you tell us ____ between ____ models in ____ power ____?
 How about ____ this ____ and the others ____ terms ____ their usage ____?
 ____ about ____ comparison of this ____ model ____ models in terms ____ electricity ____?
 ____ the ____ consumption ____ models
 ____ compare ____ models to ____ similar ____ of electrical power usage?
 Can you give ____ a ____ models ____ the ____ power usage?
 ____ comparison of this model and ____ other ____ in ____ of electrical ____?
 ____ have ____ way ____ the ____ with their ____ power use?
 ____ give me a ____ comparison of ____ on electricity consumption?
 ____ do ____ based on their electrical ____?
 ____ way to give ____ direct comparison of ____ models' ____ usage?
 ____ you give us ____ comparison ____ electrical power usage ____ models?
 How ____ this ____ to the other models in ____ of ____?
 ____ it possible ____ the ____ model ____ other models in ____ of ____ usage?
 ____ let ____ if you have ____ into ____ comparative ____ usage among these ____.
 Can you ____ us ____ comparison of the ____ electrical ____?
 The ____ usage ____ specific models can _____.

____ you ____ the ____ the two models ____ only electricity ____ mind?
 ____ about ____ specific ____ and ____ in terms of electrical power ____?
 ____ comparison of this particular model and the other models ____?
 ____ you give ____ of ____ regards ____ electrical power usage?
 Is it possible ____ models ____ overall electrical power ____?
 ____ you ____ direct comparison ____ in ____ of their ____ power use?
 ____ there ____ way to ____ the specific ____ electrical power ____?
 ____ you ____ a comparison ____ the models ____ terms ____ usage?
 Can ____ compare ____ give ____ information ____ how much electricity ____?
 ____ about a ____ this model and others in ____ their ____?
 Is it possible to ____ comparison ____ models' ____ power ____?
 ____ you ____ about the models ____ electrical consumption?
 ____ you ____ comparison of models in relation ____ electrical ____?
 Can you give ____ comparison ____ the ____ models ____ electrical ____?
 The models are ____ based ____ the ____
 ____ a direct comparison of ____ model's ____ usage?
 ____ there ____ the models with ____ to their ____ usage?
 ____ a ____ compare models so I can see ____ use?
 ____ you ____ a ____ different models ____ terms ____ electrical power use?
 Can ____ us if ____ models ____ compared to ____ others because ____ electrical power use?
 ____ about a ____ of this ____ other ____ to electrical ____ usage?
 We ____ know ____ about ____ electrical ____ usage among the models.
 How about ____ model ____ models ____ terms of their ____?
 Can ____ the comparison ____ the models with ____ use ____?
 ____ way ____ compare models to find out ____ much electricity ____.
 ____ possible ____ compare and ____ me information about ____ much ____ each model ____?
 Is there ____ way to ____ see how ____ electricity ____.
 Can ____ point ____ comparison ____ models ____ to their ____ power usage?
 Is it possible to ____ the ____ electrical ____ usage?
 ____ give ____ a ____ of the ____ models ____ of electrical power ____?
 ____ can ____ different models in ____ their electrical ____ usage?
 ____ are the ____ between these ____ and the ____ focusing ____ electricity ____?
 Can you ____ us if the ____ are better ____ to ____ their electrical power ____?
 ____ you tell ____ comparison between ____ electrical ____ usage?
 ____ to know ____ comparison ____ different models in terms ____ their ____ usage.
 ____ comparison of this ____ and ____ models in terms of ____ electricity
 ____ these ____ when ____ comes ____ electrical consumption?
 Compare ____ electrical ____
 Can you give a ____ electrical ____ of ____ models?
 ____ the overall ____ power ____ these models?
 Can you tell us ____ models ____ regards ____ electrical use?
 Can you ____ the electrical power usage ____ the ____ models?
 There is ____ to compare models ____ how much ____.
 ____ models ____ compared ____ to the ____ power ____.
 ____ about you ____ comparison of ____ power use?
 The ____ is based on ____ much ____ use.
 Can ____ give a comparison ____ against other ____ in terms ____ usage?
 ____ you tell us ____ models ____ similar or ____ because ____ power ____?
 ____ a ____ of this model and ____ models ____ terms ____ electrical power ____?
 ____ tell us if ____ models are similar or ____ to ____ usage?

____ you give me a detailed comparison ____ on their ____ ?
 ____ you ____ about the ____ terms of ____ electrical power usage?
 ____ this model and the ____ in terms of their ____ ?
 ____ give us ____ comparison ____ in electrical power usage?
 Can ____ a comparison ____ the different ____ terms ____ their total ____ power ____ ?
 ____ do these models ____ of their ____ usage?
 Do ____ know ____ are similar or different ____ electrical power ____ ?
 ____ there ____ comparison of ____ terms ____ usage of electricity?
 ____ provide ____ comparison of ____ power ____ of these specific ____ ?
 ____ there a ____ to compare ____ specific ____ to electrical power usage?
 ____ you give ____ comparison ____ the ____ of their electricity usage?
 ____ do these ____ perform in ____ of ____ ?
 ____ an ____ based on the electric power consumption ____ models?
 How about ____ comparison of this ____ and ____ other ____ of their ____ of ____ ?
 Is there ____ way ____ models ____ see how ____ they ____ ?
 Compare models ____ .
 What do ____ the models ____ comes ____ electrical consumption?
 When it ____ electrical ____ use, can ____ tell us ____ different models?
 ____ there a ____ compare models ____ out how much ____ used?
 Can ____ give a ____ of ____ electrical ____ of ____ other similar ones?
 ____ different because of electrical power usage?
 ____ a ____ of these models, focusing ____ electricity consumption?
 ____ you tell ____ if the ____ are ____ due ____ their ____ power usage?
 Can ____ us a comparison ____ the ____ models ____ power ____ ?
 Can you ____ of these ____ electricity consumption ____ mind?
 How ____ you ____ different ____ electrical ____ use?
 ____ based on the electrical ____ usage.
 Can you give ____ comparison ____ the ____ against ____ others in ____ their ____ ?
 ____ give ____ based on ____ consumption ____ of the specific models?
 ____ are the ____ between ____ models that ____ consumption?
 ____ you provide ____ of the electrical ____ usage of ____ ?
 How about ____ this model ____ others ____ terms ____ power ____ ?
 ____ a ____ of models ____ regards ____ their electrical power usage?
 Is ____ of ____ different models ____ terms of ____ electricity ____ ?
 There is a ____ the different models ____ their ____ electricity.
 Can you ____ the ____ these ____ with their ____ ?
 ____ want to know ____ models are ____ or ____ because of ____ usage.
 Can you ____ certain ____ are ____ or ____ because ____ the ____ power usage?
 Is there ____ to compare ____ to ____ usage?
 ____ about ____ models when it comes ____ ?
 How ____ a ____ this model and the other ____ usage?
 ____ you ____ total electrical power use of ____ models?
 ____ want ____ these ____ their ____ consumption in mind.
 Can ____ compare the models ____ similar ones ____ electrical ____ usage?
 ____ way to compare the ____ electrical power usage?
 How ____ the models ____ usage?
 Can you tell us ____ the ____ models ____ same ____ different ____ the ____ power ____ ?
 ____ tell us ____ comparison of ____ models ____ regard to ____ usage?
 ____ give us a ____ of the models in terms ____ ?
 Can you ____ a ____ of electrical ____ for ____ models?

Can you show the _____ their electricity _____?

_____ you _____ a _____ between the _____ models _____ electrical power _____?

Is it possible _____ compare these _____ of _____ electrical power _____.

Is there _____ way to _____ electrical _____ use?

Is it _____ to _____ models with their overall _____?

Is _____ these _____ against similar ones _____ of electrical power _____?

_____ about you give a comparison _____ power _____ models?

Do you have a _____ compare _____ and tell _____ much _____?

_____ you provide a _____ comparison of _____ these models?

The _____ electric _____ models should _____.

Compare _____ consumption.

Are these models _____ or _____ because of _____?

_____ you _____ us _____ these models _____ their power usage?

Is there _____ comparison _____ the models _____ electrical _____?

_____ a _____ of _____ model and _____ models in _____ of _____ usage of _____?

_____ have _____ comparison _____ the different models' _____ power usage?

Can you give _____ a comprehensive comparison _____ these _____ use?

_____ you _____ the _____ similar or different due to _____ electrical _____ usage?

Can you _____ different models against _____ of their _____ use?

Is it possible to _____ these _____ usage?

_____ about these _____ when _____ comes to electrical consumption?

_____ you offer _____ based on the electric power _____ figures _____?

How do _____ on electricity _____?

The specific model comparison _____ on _____ electrical _____

_____ you _____ us _____ models are _____ or different based on _____ power _____?

_____ want to _____ the _____ on their _____ consumption.

_____ compare models _____ find out how much electricity _____?

_____ there _____ way _____ compare the _____ with their electrical _____?

What _____ you think about _____ when it _____ usage?

Are _____ or _____ respect _____ their electrical power usage?

Can you compare these models _____ in terms _____?

_____ a way to compare and give _____ details about _____ much electricity _____?

We need _____ comparison of the _____ models _____ electrical power _____.

How _____ a comparison _____ model and _____ terms _____ electrical _____ usage?

_____ do _____ about _____ when it comes _____ electrical consumption.

Is _____ a _____ to _____ models in terms _____ power use?

_____ you _____ on the _____ power consumption _____ of the models?

_____ are the main differences _____ the _____ models, _____ consumption?

Are _____ able to demonstrate the _____ models _____ only _____ in _____?

_____ a _____ to _____ the specific models _____ electrical _____ use?

_____ is a comparison _____ the different models _____ usage.

_____ do _____ models fare _____ usage?

How about a _____ model _____ the _____ models _____ terms _____ electricity usage?

_____ you _____ me about a _____ comparison of _____ their _____ consumption?

Can _____ a comparison _____ the _____ models' _____ electrical _____ use?

_____ a _____ models in _____ of electrical power usage?

_____ you able to shed light _____ models _____ give _____ analysis _____ their electric power _____?

What _____ model and other _____ terms of _____ electrical power usage?

Is it possible _____ models in _____ of their _____ of _____?

How do these _____ do _____?

_____ of _____ models _____ terms _____ the electrical power usage?

Can _____ comparison of _____ models _____ regards to electricity _____?

What are _____ between these _____ and _____ other models, _____ on their _____?

Is _____ comparison between _____ in _____ of _____ total electrical _____ usage?

Can _____ of _____ different models _____ the electrical power usage?

Please _____ about _____ comparative _____ power use _____ these _____.

_____ a comparison of _____ and others _____ terms _____ their _____ usage?

Can you _____ us _____ comparison of _____ models in terms _____ power _____?

Are you _____ show me _____ electricity _____ model uses?

Can _____ a _____ between the different _____ in _____ electrical power _____?

_____ do those models _____ electric _____?

_____ is _____ of _____ models based _____ electrical power usage?

_____ to know _____ different _____ in terms _____ their total _____ power use.

Can _____ give a comparison _____ these models against _____ in _____ their electrical _____?

_____ possible _____ specific models _____ ones in terms of their _____ usage?

Are specific _____ or different _____ electrical _____ usage?

_____ a comparison of _____ models' electrical power usage?

_____ want to _____ these _____ are similar _____ the electrical power usage.

Can you provide _____ electrical _____ the different models?

We want a comparison _____ the _____ models _____ of the _____.

Can _____ give _____ of the _____ models for electrical _____?

Can we _____ the _____ to _____ power usage?

How _____ comparing the _____ other models _____ terms of _____ power _____?

How about a _____ of _____ model _____ the _____ in regards _____ of _____?

How about comparing _____ and other models _____ of _____ overall _____?

_____ give us _____ comparison of the _____ models with their _____?

_____ am _____ is a way to compare _____ and _____ me _____ much _____ use.

Is _____ comparison _____ the different models in _____ of _____ power _____?

Can I _____ way to _____ models _____ much _____ they use?

How _____ a _____ of this _____ terms _____ how _____ electricity they use?

_____ you _____ a direct comparison of _____ in _____ their electrical _____?

Can _____ a comparison _____ the _____ models in terms _____ electrical power _____?

Can _____ me a _____ comparison of the _____ on _____ consumption?

Can _____ give _____ a comparison of the _____ models _____?

_____ you shed light on _____ models _____ analysis based on _____ electric power _____?

_____ can _____ the _____ consumption.

_____ compare the individual models with their electrical _____?

_____ it _____ compare these models _____ other similar _____ in _____ their electrical _____?

Are you _____ shed light _____ models _____ an analysis _____ their electric power _____ figures?

_____ about a _____ of the different _____ in _____ of their _____.

_____ compare these models _____ terms of electrical _____ usage?

_____ you _____ me a _____ the _____ on electricity consumption?

_____ you give a _____ of these _____ models _____ in _____ electricity _____?

_____ provide _____ comparison between the different _____ in terms _____ electrical _____?

_____ do these _____ when it _____ to electrical _____?

Can you shed light _____ the models _____ power consumption figures?

_____ it _____ comparison _____ specific models' electrical power usage?

Can you provide _____ analysis based solely on _____ electric _____ specific _____?

_____ you _____ if the models _____ because of the electrical _____?

I want to _____ with regards to _____ power usage.

_____ models fare on _____ use?

Is there _____ way to _____ in _____ of their _____ use?

_____ explain a comparison _____ the _____ in _____ of electrical _____ use?

_____ a comparison of _____ models in _____ of _____ electricity _____?

_____ there _____ way _____ specific models _____ other similar ones in _____ of electrical _____ _____?

_____ a _____ this specific _____ other models _____ of their electricity usage?

Can you _____ the electrical power _____ models?

_____ you show the comparison _____ models _____ only _____ electricity _____?

_____ do you think _____ the _____ it _____ electrical usage?

_____ show _____ comparison between the models _____ electricity consumption?

What _____ about the models _____ it _____ electrical use?

_____ are the _____ between _____ models and the _____ models, focused _____?

_____ you offer _____ direct comparison _____ models in _____ their _____ power _____?

_____ tell us a _____ of the different _____ terms _____ their electrical _____

_____ the comparison of the _____ models, focusing only _____ electricity _____?

_____ you compare these _____ against other similar _____ in _____ of _____ _____?

Can _____ a comparison _____ the _____ models in regards to _____ usage?

How do _____ different models _____ when _____ comes _____ power _____?

Can _____ give _____ comparison of these _____ on electricity _____?

Can _____ us if _____ the _____ different with their _____ power usage?

_____ there _____ the _____ models with their _____ power use.

Are _____ the different _____ in terms _____ electrical _____ usage?

_____ the comparison of these models _____ electricity _____ in _____?

_____ share a comparison of _____ models in terms _____ their _____?

_____ there a way to compare _____ for _____?

How about _____ the different _____ terms _____ electrical _____ usage?

_____ between these models and only _____ electricity consumption?

_____ comparison _____ specific model and the other models _____ usage of electricity?

Models' electric _____ be _____.

Does there _____ specific models _____ their electrical _____ usage?

_____ are the _____ the models _____ it _____ their electricity _____?

Can you give me a _____ comparison _____ consumption?

I _____ like _____ comparison of these _____ their _____ consumption.

Can you _____ me if _____ specific _____ the _____ different _____ of _____ electrical _____ usage?

Is it _____ to _____ these models _____ of their _____ power usage?

How do _____ to each _____ based on electrical _____?

_____ us _____ comparative electrical _____ usage _____ these models.

_____ the main _____ different models, _____ solely _____ electricity use?

Can you _____ models against each other _____ of _____ electricity _____?

_____ models _____ or different because of _____ power _____?

_____ you compare the _____ usage of _____ models?

Can you _____ if _____ models _____ the _____ because of their electrical _____?

_____ the comparison between _____ models and _____ electricity use?

_____ tell us _____ these models _____ better than the other _____ total electrical _____ usage?

Is _____ a _____ compare the _____ their _____ power use?

Are you able _____ the _____ models' electricity _____?

_____ possible to _____ a comparison _____ models in terms _____ their electrical _____?

How about _____ the _____ power use between _____?

_____ you _____ to _____ us a comparison _____ different _____ power use?

How _____ we compare _____ electrical power use _____?

Should _____ the _____ models _____ total electrical power use?
 _____ can compare _____ electrical _____ of _____ models.

How _____ comparison _____ different models in _____ of _____ power _____

Are _____ a comparison _____ different models _____ terms _____ total electrical _____?

Can you give a _____ different models _____ terms _____ usage _____?

What _____ of _____ regards to electrical consumption?
 _____ it _____ to _____ the _____ against other _____ terms _____ their electrical power usage?

Can _____ give a _____ the _____ with regards _____ electrical _____ usage?
 _____ models _____ the electrical power _____.

Are you able to _____ the comparison _____?

Can you tell _____ a _____ of _____ for _____ power _____?
 _____ the _____ when it comes to electrical _____?
 _____ the models fare _____ use?

Can you _____ us _____ of _____ models with _____ electricity _____?
 _____ to compare these _____ in terms of _____ power _____?
 _____ provide _____ with _____ comparison of _____ models in _____ of the _____ power _____?

Can you tell _____ the specific _____ or _____ because of _____ electrical power _____?
 _____ you _____ a direct _____ these _____ models' electrical _____ usage?
 _____ comparison _____ this _____ and other models in terms of _____ usage _____?
 _____ are _____ main _____ between _____ different models, focused on _____?

I _____ to know a _____ the models _____ to _____ usage.
 _____ tell _____ comparative _____ power usage _____ these models.
 _____ the main _____ between the _____ models and the _____ on _____ consumption?

What are _____ between _____ different models, focusing _____ consumption?

What _____ comparison of _____ models _____ terms of their _____ electrical _____?

Can _____ give _____ comparison _____ the _____ power _____ of these _____?
 _____ you _____ these models against _____ ones _____ of _____ electrical power _____?

Can you _____ of _____ and their electrical _____ usage?

Can _____ us the comparison of _____ models, _____ electricity _____?

Can you _____ if _____ models _____ better compared _____ because _____ electrical power _____?
 _____ you tell _____ a comparison of the models _____ usage?
 _____ model and _____ models in terms _____ electrical power usage?
 _____ are the differences _____ the _____ terms of _____ consumption?
 _____ it _____ show the comparison _____ these _____ focusing only _____ electricity _____?
 _____ a comparison of _____ model's electrical power _____?

What are the differences _____ different _____ based _____ their _____?

_____ do _____ models compare _____ on their electrical _____.

_____ you _____ us _____ between these models based on _____ electrical _____?

_____ you tell _____ models are similar or different _____ of _____ usage?

Can _____ give a _____ of these models _____ of _____ usage?
 _____ demonstrate _____ comparison _____ these _____ focusing on their electricity _____?
 _____ you show _____ the different _____ terms of _____ power usage?
 _____ the _____ compare based _____ their electrical _____ usage?

Can _____ us _____ different models of _____ power usage?
 _____ comparison of the _____ usage _____ the specific model?

Can you _____ a comparison of _____ in _____ of _____ electricity usage?

Is _____ the models _____ other similar ones _____ their electricity usage?
 _____ you _____ models _____ ones in terms of _____ power _____?

Is _____ a way _____ compare the _____ models _____ electricity _____?

Can _____ comparison of these _____ regards to _____ consumption?

_____ a _____ of the models in _____ power use?

_____ is a _____ of _____ different _____ terms of _____ power usage?

Can _____ show _____ the comparison of _____ with their _____ mind?

Is _____ to _____ the _____ power usage of different _____?

How about _____ comparison of _____ and the _____ of how _____ they use?

Can _____ tell us _____ specific models are _____ or different _____ to _____?

Can you _____ me if _____ models are the _____ of _____ power _____?

_____ to learn more _____ comparative electrical _____ usage _____ these _____.

_____ you _____ us if the _____ due to electrical power _____?

Is _____ a comparison _____ the _____ power _____?

_____ can _____ compare the different models _____ power _____?

_____ you _____ us a _____ the different models' _____ electrical _____?

There is _____ way to _____ and find _____ electricity they _____.

_____ you tell me _____ comparison _____ with regards to their _____?

_____ it possible _____ these specific models _____ in terms of _____ power _____?

_____ give _____ a _____ of _____ models, focusing solely _____ electricity consumption?

_____ there a _____ to _____ models _____ how much _____ they use.

Please tell _____ the _____ electrical _____ usage _____ the _____.

_____ a comprehensive comparison of the _____ focusing only on _____.

Is _____ analyse these _____ based on _____ electric _____ consumption figures?

_____ do _____ compare the _____ power _____ these models?

Can _____ me _____ electrical _____ between these models?

Please _____ us _____ comparative _____ power _____ among these _____.

Does there _____ way _____ models with their _____ power _____?

_____ it _____ to give _____ of the models' electrical _____?

_____ you _____ models are similar or _____ due _____ the _____ power _____?

Can _____ me _____ comparison of _____ models, _____ only on their _____?

Are _____ or different _____ respect _____ their _____ power use?

_____ compare _____ models' _____ power usage.

How _____ the _____ compare _____ on their _____?

What _____ the _____ between _____ models _____ comes _____ electricity consumption?

Is _____ the comparison of these models _____ only _____ electricity _____ mind?

Can _____ give a comparison _____ these _____ similar _____ in _____ of _____ electricity _____?

There is _____ way _____ models and _____ out how _____ is _____.

_____ a _____ of the _____ in terms of their electrical power _____.

_____ models are compared _____ usage.

Can _____ comparison _____ the specific models against other _____ in _____ of their electrical _____?

Compare _____ electric _____ of _____

Can _____ tell _____ if _____ are _____ different based on their _____ power _____?

_____ you tell _____ a _____ of _____ models _____ electricity _____?

Can _____ give _____ comparison _____ these models _____ similar ones in _____ usage?

Is _____ a comparison _____ the _____ and other _____ of electrical _____?

How _____ these _____ their electrical _____ usage?

How are these models compared _____ electrical _____?

_____ any way to _____ find _____ how much electricity _____ use?

_____ the same _____ different _____ on their electrical power _____?

_____ tell us if _____ specific models _____ alike _____ their electrical _____ usage?

_____ you provide an _____ based on _____ power _____ figures _____ models?

I am _____ for _____ of _____ models, _____ only on their _____.

_____ these _____ or _____ based _____ their _____ power use?

_____ usage is _____ for the specific _____ comparison.

_____ comparison of this model _____ other models _____ terms _____ usage _____?

What is the comparison between _____ electrical _____ usage?

_____ you give _____ comparison of these models _____ ones in _____ their _____?

Can you tell us _____ are _____ different based on their _____?

Is there _____ way _____ compare _____ models' _____ usage?

Can you _____ of the models' _____ power _____?

The model _____ based _____ usage

_____ tell _____ direct comparison of the _____ electrical _____ usage?

_____ about _____ comparison of the model _____ the _____ models _____ power usage?

How about _____ this particular _____ in _____ their electrical power usage?

Can _____ give me _____ comparison of _____ models _____ their _____ consumption?

_____ there _____ to _____ these models' electrical power _____.

Can you _____ a comparative _____ the models' _____?

_____ a comparison _____ the models in terms _____ their _____ of _____?

_____ you _____ us _____ comparison _____ the models' electricity _____?

_____ this specific model and other _____ in _____ of _____ usage?

Can you _____ us _____ comparison of _____ different _____ to _____ power _____?

_____ a comparison of this _____ model and _____ other _____ in _____ electrical _____?

_____ a _____ of this _____ and the _____ terms of _____ usage _____ electricity

Is it possible _____ give a _____ comparison _____ usage?

Can you tell _____ if _____ models are _____ because of _____?

Is it _____ to give a _____ these _____ in _____ their _____ usage?

What _____ a _____ of the various models in _____ overall _____?

Can you give _____ comprehensive comparison _____ models _____ on _____ consumption?

Can you tell us a _____ models used for _____?

_____ the _____ between _____ different _____ focusing only _____ their electricity consumption?

Compare the _____ the models.

_____ give us _____ comparison of these _____ terms of _____ electrical _____?

Can _____ provide _____ direct comparison of the _____ models in _____ power _____?

Can you show _____ models _____ their electricity use?

Can _____ direct comparison of these models _____ terms _____ electrical _____?

_____ you _____ if these _____ are _____ or different because _____ the electrical _____?

_____ a comparison _____ the _____ in terms of their _____?

_____ you give _____ against _____ other in terms _____ electrical power use?

Can you give _____ comparison _____ the _____ in terms _____ electricity _____?

The specific models comparison _____ electrical _____.

How _____ comparison of _____ various models _____ power usage?

Can _____ tell _____ if these models _____ similar or _____ their _____?

_____ on _____ models when it comes _____ electrical consumption?

_____ you _____ comparison _____ the models with _____ electricity _____?

_____ do _____ models rate on _____?

How do _____ for electric _____?

Do _____ know _____ the _____ similar or _____ based on _____ power _____?

_____ models compare _____ power usage.

_____ need _____ the models, focusing on _____ electricity consumption.

_____ comparison of the _____ focusing _____ the electricity consumption?

Can you _____ us if _____ models _____ the _____ or _____ to _____ power _____?

Can _____ tell _____ if these particular _____ are better _____ models because _____ their _____ use?

_____ tell us if the models are _____ or _____ of the _____?

Can _____ a comparison _____ these _____ models, focusing only _____ electricity _____?

What _____ the different models _____ focus solely _____ electricity consumption?

_____ you tell _____ comparison _____ the different _____ in regards _____ power use?

_____ a _____ comparison of these _____ models _____ of _____ electrical _____ usage?

How about a comparison _____ the different _____ in _____ power _____?

_____ you show _____ the _____ these _____ with only _____ consumption _____ mind?

_____ you tell _____ models are _____ compared to _____ models because of their _____ power _____?

_____ there _____ of this model and _____ models in _____ of their _____?

What about _____ comparison _____ model and others _____ of _____ usage.

Should _____ compare _____ models in _____ their _____ power use?

Tell us _____ the _____ electrical power _____ between _____.

Can you compare _____ electrical _____ models?

_____ about _____ the model and others _____ electrical power _____?

_____ comparison _____ specific model and the _____ in _____ power usage _____ needed.

Can you give _____ comparative _____ these _____ only _____ their _____ consumption?

The particular models comparison is _____.

_____ do these _____ on electric _____?

_____ if _____ models _____ similar or different _____ the electrical power usage.

_____ these models focusing on their electricity consumption?

Can _____ models with other _____ ones in terms _____ usage?

_____ give _____ of certain models against _____ in terms _____ electrical power _____?

How do _____ compare from _____?

_____ provide _____ comparison of these models _____ relation _____ electrical _____ usage?

_____ you _____ us _____ of _____ with regards to _____ electrical power _____.

Is there _____ comparison of _____ against similar ones _____ electrical _____ usage?

Is _____ a _____ to compare models _____ see how _____?

What _____ main differences between _____ models _____ others, focused _____ electricity _____?

_____ you _____ of the _____ usage of the specific models?

Can _____ give _____ complete _____ of these models, _____ electricity use?

Can you _____ of _____ total _____ power use _____ different models?

_____ us _____ comparison _____ the different models in _____ of _____ usage?

_____ tell _____ comparison of _____ different _____ in terms of electrical power _____?

_____ comparison _____ model and other _____ in terms of their usage _____.

Is it _____ different _____ in _____ of _____ power usage?

_____ there _____ way _____ the _____ models with _____ electrical usage?

Are _____ able _____ us a comparison of _____ different _____ terms _____ electrical _____?

Can you tell _____ a comparison _____ the _____ models _____ usage?

Can _____ us about _____ models with regards _____ usage?

Is _____ way to compare different models _____ power _____?

_____ me a _____ comparison _____ these specific _____ on electricity consumption?

_____ you _____ the electrical power use _____ these _____.

Can _____ give _____ a comprehensive comparison _____ models' _____?

_____ you _____ us with a _____ the different _____ electrical _____ usage?

_____ you explain a comparison of _____ different models _____ usage?

_____ about _____ comparative _____ usage between these models.

How about _____ this _____ the _____ in terms of _____ of _____?

Can _____ me _____ these specific _____ focusing only _____ their electricity consumption?

What about _____ model _____ others in terms _____ their _____ usage?

Are _____ models _____ in relation to electrical power _____?

_____ give _____ of the _____ models _____ relation _____ their _____ power usage?

_____ want _____ know _____ comparison of _____ different _____ in terms of _____ .

Can _____ provide _____ of _____ models in terms _____ electrical power usage?

_____ us with _____ comparison of the different models' _____?

Can _____ tell _____ a comparison _____ the different models _____ terms _____ usage?

_____ models _____ is based on _____ of electrical _____.

_____ you _____ me _____ the models _____ similar _____ electrical power usage?

Can you provide a comparison _____ in terms _____ power _____?

_____ you think _____ these models when _____ comes _____ usage?

How _____ you show a _____ of _____ electrical _____ of _____?

_____ each _____ total _____ consumption.

_____ about _____ of _____ particular _____ with other models _____ of _____ power usage?

Can you _____ us a _____ of _____ models in _____ of _____?

How _____ these _____ electrical _____ use.

Is _____ a _____ these _____ against eachother in relation _____ usage?

Can _____ tell _____ the models' electrical _____ usage?

Do you have _____ of the _____ in terms _____ electrical _____?

_____ there _____ to compare models _____ that I can _____ how _____ electricity _____?

_____ you compare the _____ use of these _____?
