

[Demo] NLP Dataset for Customer Service Automation

Company Type	Electricity Suppliers
Inquiry Category	New service connection requests
Inquiry Sub-Category	Timeframe for connection
Description	Customers want to know the expected timeframe for the completion of new service connections, including the waiting period from application submission to installation, and any possible delays or limitations.
Data Size	9,514 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Electricity Supplier" customer inquiry. (Purchased data will not be masked.)

_____ construction work _____ our property could affect _____ prolongs time _____ connect us _____ network?

_____ possible that the _____ construction could _____ to their _____ network?

Will _____ delay _____ the electricity?

Will the _____ affect _____ us _____?

_____ assure us that those _____ works _____ delay _____ our property?

Connected _____ may be _____ by the nearby _____.

_____ work near our _____ to _____ more for hookups?

_____ possible extension of connections _____ local _____?

_____ we experience _____ getting linked because of _____?

_____ construction work affect _____ grid _____?

Will _____ work _____ grid connection?

_____ the _____ near our _____ impact _____ the grid network?

_____ construction _____ our area _____ the _____ it takes _____ us _____ be connected _____?

_____ there _____ in _____ hooked up because _____ nearby _____ work?

Can _____ construction _____ it takes for _____ be _____ to your _____?

_____ we expect _____ delays _____ connecting _____ the project?

_____ possible _____ construction work will impact _____ grid _____?

Will construction _____ the connection to _____ network?

_____ the construction near us affect _____ be connected _____ your grid?

Our _____ process could be slowed _____ that _____.

_____ a chance that _____ building _____ or prolong _____ ability _____ connect via _____ grid system?

_____ or extend the _____ of connecting _____ your electricity network?

_____ nearby construction have an _____ our _____ grid?

_____ affect _____ connections to the _____?

Is it _____ that there _____ be delays _____ getting _____ because _____ nearby _____?

Is _____ possible that the _____ building activity _____ or _____ power _____?

_____ the hammering _____ affect when _____ the grid _____?

Is it possible that the _____ mess _____ to _____ power grid?

____ it possible ____ process might be delayed by ____ building?
 ____ there ____ more ____ getting on your grid ____ I ____ this ____ nearby?
 ____ work near our property cause delays ____ the grid ____?
 Will ____ construction ____ affect ____ to ____?
 ____ possible that ____ activity will affect ____ power ____?
 So ____ it ____ that those ____ will ____ out ____ wait ____ until we ____?
 There's a chance that ____ door will make it ____ difficult ____ get ____ up.
 The construction ____ our ____ may ____ the timetable ____ to ____ network.
 ____ all ____ slow ____ our connection ____?
 ____ that construction ____ will prolong the time it ____ us ____ their grid ____?
 ____ it ____ that ____ work will affect ____ time ____ takes ____ connect us ____ grid ____?
 ____ in getting to their grid network ____ the ____ near our ____.
 ____ nearby building works ____ duration required for ____ to join your ____ grid network?
 ____ the proximity of ____ building works increase ____ time it ____ network?
 ____ affect how long ____ takes us to ____ with ____?
 ____ connection ____ could be ____ by ____.
 Are ____ delays due ____ works ____ connect ____ to ____ network?
 Can ____ to the grid network ____ to ____ construction?
 Does ____ near our ____ us ____ to wait ____ more ____?
 Is ____ building works ____ the time ____ joining the ____ network?
 ____ you ____ if local ____ work ____ completion schedules ____ integrating ____ electrical power ____?
 ____ nearby ____ impact ____ us ____ our grid ____ in a ____ time ____?
 Maybe nearby ____ affect ____ us ____ grid network ____ longer ____ frame.
 ____ nearby ____ an ____ connecting us to their ____ grid?
 ____ likely that ____ our property will ____ to connect to ____ network?
 Is construction close ____ our ____ impacting ____ connection ____?
 Is it ____ our ____ due to ____ ongoing construction?
 Would adjacent ____ out ____ joining your ____?
 ____ it ____ that the builders ____ draw ____ wait ____ until we get ____?
 Due ____ ongoing ____ near ____ expect delays in connecting?
 ____ adjacent development stall or slow ____ from ____?
 The ____ mess could make ____ to get ____.
 Is ____ possible that the ____ affect ____ to connect access ____ their ____ system?
 ____ it possible ____ working next door ____ us?
 ____ near our property might ____ in connecting ____ grid network.
 ____ delay our ____?
 Will ____ to your ____ by the construction?
 Are there ____ due to nearby ____ to your ____?
 ____ going to ____ something about ____ construction that makes ____ for us to ____ the grid ____?
 ____ it ____ the nearby construction ____ cause a ____ hooking ____ grid?
 ____ our connection ____ of ____ nearby?
 Could nearby construction work ____ connection ____?
 ____ we anticipate ____ delays or disruptions to ____ work?
 ____ there ____ chance ____ the nearby building ____ would affect our ____ their grid system?
 ____ there ____ of ____ getting hooked up because of ____?
 ____ nearby ____ impact on ____ network?
 ____ that mean ____ getting ____ the ____ when I have ____ with ____ noisy ____ junk nearby?
 Construction ____ affect the process ____ us to ____.
 Nearby construction ____ connecting ____ to ____ network in ____ longer time ____.
 Will there be delays in attaining connection ____ construction near ____?

____ it possible that the ____ network ____ cause delays?
 Could ____ construction ____ to us ____ for us?
 Are ____ the ____ around us could ____ up ____ connection to the ____?
 ____ you ____ that ____ works ____ us will ____ our process ____ joining into ____ electrical ____?
 Will ____ connection ____ because of ____ near ____?
 ____ you think ____ development would ____ your network?
 Will ____ near ____ place ____ your ____ to the grid ____?
 ____ a chance of interference from local ____ causing ____ long ____ to ____ grid network?
 Is ____ our connection may be delayed ____ the ____?
 Does ____ construction ____ takes to connect us ____ your ____?
 Will the time ____ go ____ because of ____?
 ____ building activity ____ affect ____ timing of ____ power ____.
 Could ____ connection to ____ grid?
 Is ____ the ongoing ____ will delay ____ their network?
 Can ____ expect ____ cause a long wait ____ to ____ grid network?
 Would ____ be delays due to nearby ____ your ____?
 Did adjacent development stall ____?
 Could the ____ building activity ____ delay ____ power ____?
 Can construction near our property ____ it ____ to connect to ____?
 Does ____ near ____ require ____ to wait even more ____?
 ____ proximity to building works ____ to join ____ energy ____?
 ____ is possible that the builders ____ out ____ time ____ us hooked ____.
 ____ construction ____ the grid network for ____?
 ____ near our property ____ we ____ to wait ____ hookup?
 I wonder ____ ongoing construction might ____ their grid ____.
 ____ delays in connection ____ grid network because ____ from local ____?
 The ____ near ____ property might ____ the connection to ____.
 ____ chance of ____ works connect us ____ your network?
 Can ____ me ____ construction ____ might affect ____ schedules for your ____?
 ____ in ____ because ____ the ____ project near our property?
 Could nearby construction ____ our connection to the ____ network ____?
 ____ the grid ____ be delayed by ____ nearby.
 ____ it possible that those builders ____ our wait ____ until ____ get ____?
 ____ a ____ construction ____ us ____ mess up our ____ the power grid.
 There might ____ delays in ____ to ____ of the construction work ____ our ____.
 Can ____ near ____ affect the time ____ connect us to ____?
 ____ don't ____ all that ____ will ____ harder for ____ finally get hooked up.
 ____ the construction ____ connection?
 ____ be affected by ____?
 Is ____ that local ____ activity ____ cause ____ long ____ to the grid ____?
 Will ____ near our ____ affect or ____ connection to ____ network?
 ____ prolong the ____ connection ____?
 Will ____ be ____ in connecting ____?
 Is ____ likely that construction near ____ longer to ____ to ____ network?
 ____ a ____ that ____ could mess up our ____ to ____ power ____.
 Could ____ with our connection ____ the ____?
 ____ impact connecting us ____ grid network ____ a longer time ____?
 ____ a chance ____ construction could ____ time it ____ connect with the ____ network?
 Our ____ connection timelines ____ ongoing construction.
 Are those builders ____ time until we get ____ up?

_____ there a chance _____ affecting the _____ takes _____ to _____ connected to the grid?
 _____ nearby construction _____ connecting _____ to _____ network _____ a _____ time _____?
 There may _____ in _____ because of _____.
 Can _____ any problems connecting _____ ongoing project?
 _____ connection _____ be _____ by construction _____ our property.
 Is _____ a chance that the construction could cause _____ hooking _____?
 _____ tell me if _____ work will affect completion schedules _____ your _____?
 Our _____ be affected by _____ construction work.
 _____ work affect _____ grid connection?
 Will the builders _____ out _____ until _____ get hooked _____?
 _____ constructions prolong grid _____ our _____?
 _____ time it takes for _____ to connect _____ grid.
 Can _____ anticipate _____ issues _____ grid _____ connection due to _____ construction _____?
 _____ the _____ affect connecting us soon?
 Will _____ slow _____ connection?
 Is _____ possible that _____ could affect the _____ timeline?
 Will construction _____ connection _____ your _____?
 Is _____ possible _____ the _____ work _____ our _____ to _____ via their grid _____?
 _____ development _____ or slowing us down _____ joining _____?
 There _____ a _____ a nearby building _____ delay _____ connection.
 _____ nearby construction _____ the connection to _____ network in _____ longer _____?
 It will _____ hook us _____ because of _____ construction.
 _____ construction _____ the _____ takes to connect _____ grid?
 The time needed _____ with _____ might be _____ the _____ our property.
 _____ us from joining _____ network?
 Construction work might affect _____ process of _____ to _____.
 _____ it _____ that _____ could _____ us more _____ join _____ electricity grid network?
 Do you _____ that the nearby _____ could _____ grid?
 What _____ will nearby _____ us _____ the power grid?
 Could _____ our connection to _____?
 Does _____ work affect _____ schedules for integrating with _____?
 _____ expect _____ to their grid _____ as a _____ of interference _____ construction?
 It is _____ those builders _____ out our _____ we _____ hooked in.
 Can _____ possible disruptions to _____ network connection _____ nearby construction _____?
 _____ any _____ getting connected due to construction?
 _____ the _____ not be _____ in _____ for _____ to your _____ network?
 _____ construction affect _____ time _____ connect to the grid?
 Can _____ delays _____ disruptions _____ network _____ to nearby construction?
 _____ development slow _____ when we join _____ network?
 Can we _____ delays _____ hooked _____ due to _____ construction _____?
 _____ ongoing construction _____ our area affect _____ long _____ for _____ be connected to _____?
 _____ the _____ near _____ affect _____ grid _____ for us?
 _____ activity affect or _____ power connection timeline?
 Is there a _____ that the _____ will _____ the _____ it _____ to _____ to _____ network?
 There might _____ delays due to _____ works _____ to _____.
 Construction work _____ our _____ your grid.
 A long wait _____ connection to their _____ caused by _____ from _____.
 _____ project _____ property that may delay connecting.
 _____ affect getting us connected.
 Can time connecting increase _____ to the _____?

_____ the _____ will affect _____ network for us.

We _____ delays _____ getting linked _____ proximity development.

_____ connection _____ grid network may _____ due to _____ construction.

Does the _____ of _____ the _____ of time _____ for _____ their _____ network?

Will the _____ to your _____ be _____ by _____?

Can nearby construction _____ affect _____ to _____?

_____ time _____ with _____ grid may be affected by _____ near _____ property.

Will _____ any delays _____ disruptions _____ network connection due to nearby _____?

Is _____ a _____ of _____ in getting _____ to local _____?

Is _____ that nearby building works could _____ the duration _____ join _____ grid network?

Is it _____ that construction _____ our property could _____ us _____ to _____ grid network?

Will _____ affect connecting us _____ grid?

Is it _____ to _____ us up _____ of the construction?

The _____ grid _____ be affected by construction near our _____.

_____ there _____ that the _____ near us _____ delay _____ to our _____?

Is _____ possible _____ the _____ their grid _____ for us?

Can _____ construction _____ affect the time it _____ for _____ to _____ to the _____?

_____ it possible that _____ works _____ duration _____ us _____ join the grid?

Can _____ that _____ construction _____ affect completion schedules for _____ with _____ power _____?

_____ that adjacent construction _____ cause delays _____ with their grid _____?

Do you think the _____ could cause a _____ grid?

Is there a _____ construction _____ affect the _____ takes _____ their _____ network?

Is _____ possible _____ connections to _____ grid _____ might _____ delayed _____ adjacent _____?

_____ time _____ go _____ of _____ here?

Is it possible for _____ building _____ to _____ duration required for us _____ join _____?

_____ neighboring _____ our _____ to connect?

_____ it _____ construction work _____ time it _____ connect _____ to their grid network?

_____ there a _____ that the _____ affect _____ length _____ to connect _____ their grid _____?

_____ will _____ our _____ to _____ grid.

_____ we anticipate _____ with _____ network connection _____ to nearby _____ work?

There _____ be delays _____ linked _____ proximity development.

_____ connect access via _____ grid system _____ be affected _____ the _____ work _____.

The construction work _____ may _____ delays _____ their grid network.

Construction _____ property _____ cause us to take _____ to _____ their _____.

Is _____ likely _____ construction _____ will affect _____ connect us _____ the grid _____?

_____ we expect _____ lengthy wait for _____ to _____ grid network due _____ local _____?

Is the _____ going _____ affect our _____ to _____?

_____ the _____ construction _____ the grid _____ us?

Could construction _____ property affect _____ we need to _____ grid?

_____ affect our _____ the grid?

_____ possible _____ construction _____ will cause _____ long wait for connection _____ their _____?

_____ construction work _____ for integration with your _____ power _____?

The _____ next door _____ make it _____ for _____ to _____.

Our _____ connection _____ could be extended due _____.

Could _____ connection to your _____ by construction _____?

_____ the construction _____ to _____ grid _____ cause a delay _____ up?

_____ that the adjacent construction _____ cause _____ connection _____ their grid network?

Do _____ think _____ will be _____ for _____ electrical distribution network because _____ works?

_____ long wait for _____ to _____ grid network be _____ interference from _____?

_____ there _____ chance _____ activities will _____ a _____ for _____ to their grid network?

_____ possible that local construction work might _____ schedules _____ your _____?
 _____ the _____ it _____ for us to _____ connected _____ your grid?
 Will time connecting _____ to the constructions _____?
 Possibly _____ could _____ or _____ of connecting us to _____ network.
 _____ grid connection time?
 _____ that construction _____ near our property _____ time _____ to _____ us _____ the grid network?
 _____ it possible _____ could affect our _____ to _____ grid _____?
 Can we _____ any issues with _____ the _____?
 Is _____ building _____ close _____ to _____ or delay _____ powerconnection _____?
 The _____ near _____ property _____ impact the _____ us _____ your grid _____.
 Can we expect any _____ getting _____ to _____?
 _____ possibly _____ connecting us _____ grid network in a _____ time _____.
 Will _____ construction _____ cause delays in _____ the _____?
 _____ time connecting go up because _____ them _____?
 Can _____ to cause a delay in _____ to _____ grid _____?
 Is _____ possible that _____ construction activities can _____ a _____ wait _____ their _____ network?
 _____ there _____ the ongoing _____ could affect the length of time it _____ connection _____ the grid _____?
 Are you going _____ about the _____ hard _____ us to get connected to _____?
 _____ near _____ property delay _____ to their grid network?
 _____ building _____ affect _____ delay our power _____.
 There _____ a _____ the grid _____ could be _____ by a _____.
 Do _____ think _____ by _____ prolong our grid installation _____?
 Are _____ work _____ our property _____ to _____ time it takes to _____ to their _____?
 Is _____ possible that the _____ hooking _____ to _____ grid?
 Could construction near our property _____ the _____ takes _____ connect _____?
 _____ have an _____ on our _____ network?
 _____ tell _____ if local construction _____ affect completion _____ for integration _____ your _____ power _____?
 _____ there be delays _____ due _____ project near the _____?
 _____ it possible _____ length of time to connect with _____ network _____ be _____ the _____?
 Is _____ development _____ from _____ your _____ promptly?
 The _____ our property could impact the _____ takes to _____ to _____.
 Is nearby construction work _____ connecting _____ grid _____?
 _____ it _____ construction could affect _____ time it _____ connect to _____ grid _____?
 _____ our connection _____ grid _____ disrupted by construction _____?
 _____ is _____ that _____ work close _____ our grid installation?
 We don't know if _____ construction _____ will _____ a _____ wait for _____.
 _____ you think there will be _____ getting on your _____ I deal with _____?
 Is _____ possible _____ work near our _____ affect _____ time needed to _____ to _____ network?
 Can _____ be _____ connecting _____ to _____ project?
 Will _____ work _____ our _____ affect _____ it takes to _____ grid network?
 Could _____ long it takes _____ to connect _____ their _____?
 _____ property affect power _____ connection times?
 Is _____ work affecting the _____ of _____ us _____ their _____?
 _____ nearby work affect _____ process of linking _____ grid _____?
 Is linking _____ the grid system _____ work?
 Is _____ that our _____ to the ongoing construction?
 _____ be affected _____ the nearby construction.
 _____ we expect _____ connecting due to _____?
 _____ it _____ that _____ next to _____ network could _____ delays?
 Can y'all _____ annoying _____ near _____ won't delay power _____ our _____?

Construction may _____ how _____ it _____ us to _____ grid.

_____ that _____ delay _____ on your grid _____ I _____ deal with _____ construction _____ nearby?

Can the _____ building works _____ the _____ join their energy _____?

_____ it _____ that the building work _____ or prolong _____ ability to _____ access _____ grid _____?

Is _____ works affecting _____ it takes to _____ energy network?

_____ connection to the _____ could be _____ nearby _____.

Could construction _____ time needed _____ to connect to _____?

_____ it _____ that construction near _____ could _____ the time _____ takes to _____ us _____ their _____?

Does the _____ of the _____ affect _____ time _____ takes _____ their _____?

Is it _____ that adjacent _____ cause delays when _____ grid _____?

Might _____ roadworks _____ extend the process of connecting _____ electricity _____?

Is _____ possible that _____ next _____ grid could _____ delay?

_____ affect _____ to their _____ network in a _____ time frame?

_____ development stall _____ from joining _____ fast?

Is the _____ to _____ getting us connected?

Does _____ construction _____ takes for _____ be connected to the _____?

_____ to _____ grid _____ messed with _____ nearby construction.

Can _____ delays _____ due to _____ project near _____ property?

Is there _____ the ongoing _____ development _____ connection to the _____?

Construction near _____ can _____ grid _____ time?

Will construction _____ our _____ affect _____ time needed _____ connect _____ their _____ network?

_____ there be delays _____ getting connected _____ construction?

_____ there any delays in getting hooked _____ construction _____?

_____ construction work mess our _____ to _____?

Do you _____ some nearby _____ process of _____ into _____ distribution network?

Does ongoing _____ in _____ area affect _____ takes for us _____ grid?

_____ might experience delays _____ getting linked due _____.

Could _____ our _____ affect the connecting time _____ your _____?

_____ there _____ chance _____ local _____ interfering _____ grid network?

_____ work _____ property mean _____ we _____ to _____ for hookup?

It _____ me _____ to _____ get _____ up _____ the construction _____ next door.

Will _____ construction work affect _____?

Will the construction work _____ grid _____ connected?

_____ construction may _____ timetable for connecting us _____ your _____.

Is _____ nearby construction will delay hooking _____ to _____?

Could _____ effect on our _____ to _____ grid?

The grid connection process _____ likely _____ be _____ building.

Will _____ be _____ getting hooked up _____ of the _____ construction _____?

Could _____ change the timetable _____ connecting us to your _____?

_____ nearby construction _____ affect _____ network?

_____ construction near _____ property going to affect your _____ network?

Is _____ possible _____ the construction _____ delay _____ connection _____ network?

_____ the _____ next _____ have any effect _____ connecting _____?

Our _____ grid might be _____ by construction _____.

Can _____ anticipate _____ in _____ because of _____ ongoing _____?

_____ could delay _____ grid _____.

_____ us with _____ power grid?

Is _____ linking _____ their grid system _____ nearby construction work?

_____ building activity could _____ timelines.

_____ work near _____ mean we have to wait _____?

____ there be any ____ connection due to ____ ?
 ____ take ____ longer to ____ us ____ with power ____ to the construction?
 ____ impact ____ connecting ____ their grid network in a ____ time ____ ?
 ____ construction near ____ property affect the ____ us to ____ network?
 ____ the ____ construction ____ our connection to their ____ ?
 ____ likely is ____ work close by to ____ grid ____ ?
 Can ____ time it takes for ____ to ____ grid?
 ____ construction ____ our ____ the ____ it ____ to ____ us ____ your grid network.
 Nearby building might ____ process.
 ____ we ____ cause a delay in connection ____ their grid ____ ?
 ____ to your grid be affected ____ construction?
 Is ____ going ____ make it ____ get us connected?
 Construction could ____ how long ____ us ____ connect to ____ .
 Is it ____ activity close ____ could ____ our ____ connections?
 I ____ constructions prolong grid integration ____ premises.
 Could ____ work ____ an impact ____ connection?
 Will ____ any delays in getting hooked ____ construction ____ the ____ ?
 ____ nearby construction impact our ____ connect ____ grid?
 ____ may have ____ linked ____ this proximity development.
 ____ it ____ construction might cause ____ establishing a connection?
 Is ____ close enough ____ the grid ____ for ____ ?
 ____ near our property ____ the timing ____ connecting ____ to your ____ .
 The process ____ us to their ____ be ____ construction work.
 I'm ____ the construction ____ next door ____ me ____ getting hooked ____ .
 The grid connection ____ could possibly ____ by ____ .
 Is there a ____ that ____ construction will affect the ____ it ____ connect with ____ grid ____ ?
 ____ our vicinity ____ the ____ it ____ for us ____ connected to the ____ ?
 ____ the ____ affect ____ grid network ____ us?
 ____ near ____ could affect the time ____ takes to ____ to ____ network.
 Are ____ delays ____ our access ____ electricity?
 Is it ____ that ____ works will extend the ____ required ____ join your electricity ____ ?
 Could ____ affect the ____ ?
 Is ____ that ____ works could extend the ____ to ____ the ____ ?
 Is ____ construction mess going to ____ connected ____ ?
 ____ the ____ affect ____ connection?
 ____ the ____ construction ____ our ____ later?
 ____ there any ____ delays due ____ nearby works connecting ____ to ____ ?
 Are there ____ delays ____ hooked ____ of ____ nearby ____ work?
 Will our connection ____ disrupted by ____ construction?
 Is ____ possible that ____ work ____ our ____ could prolong ____ required ____ to their ____ network?
 Can ____ anticipate ____ or disruptions to ____ connection due to ____ ?
 Is there ____ chance of the construction ____ the time ____ takes ____ us ____ to ____ ?
 Does ____ us ____ your network?
 ____ a ____ of delays ____ works connecting ____ to ____ network?
 Can construction work ____ grid network?
 ____ more ____ getting ____ your grid ____ I ____ with this noisy construction junk nearby?
 Will the ____ our ____ to ____ ?
 ____ there any chances that the ____ work ____ access ____ the ____ ?
 Will construction work affect ____ network?
 ____ this ____ that those builders ____ our ____ time until we get ____ ?

Does work _____ our property _____ wait _____ ?

_____ may be _____ their _____ network due _____ the construction _____ near _____ property.

_____ it possible _____ work _____ our property _____ affect the time _____ connect _____ to _____ network?

Is there any more _____ getting _____ I have _____ with _____ construction _____ nearby?

Is it _____ that _____ out _____ time to get us hooked _____?

_____ it _____ that the construction _____ could cause _____ up?

_____ of linking us to their _____ might _____ affected _____ work.

Is the grid connection process _____ delayed by _____?

Is _____ construction nearby _____ to _____ a _____ hooking _____ to _____ grid?

Does the _____ taking _____ in _____ affect the _____ takes _____ connect us _____ grid?

Is there a _____ that _____ construction will _____ time it _____ to their _____ network?

_____ it _____ the construction will affect _____ connection _____ grid _____?

Our connection to _____ be disrupted _____ workers.

_____ the _____ to the grid?

Can we _____ delays _____ hooked _____ because _____ the _____ nearby?

_____ be delays _____ connecting _____ of _____ project near our _____?

Will the _____ your _____ by construction?

Is our _____ to _____ grid _____ by construction?

Is _____ chance _____ getting _____ up _____ of _____ on our premises?

Is _____ likely _____ the construction _____ our _____ take _____ to connect us to _____ grid _____?

_____ construction work near _____ affect _____ the grid network?

_____ don't know _____ the _____ mess next door will _____ me more time _____ hooked _____.

_____ be _____ delays _____ due to the ongoing _____?

Power _____ might _____ affected _____ near our property.

It _____ you _____ to hook _____ with power _____ of _____ construction.

Is it _____ that _____ could affect or _____ power _____?

Is _____ possible that adjacent construction _____ extended delays _____ establishing _____ grid _____?

Can _____ near _____ impact _____ connection times?

_____ connection to your grid _____ disrupted by _____.

Is _____ construction _____ affect our connection to _____ network?

Could construction _____ the _____ of _____ us _____ a _____ system?

_____ power connection _____ could be _____.

Is it possible _____ local _____ activities _____ a long wait for _____ to _____ grid _____?

How might _____ affect _____ of _____?

_____ the _____ proximity of building _____ the time _____ takes for _____ join their _____?

_____ that construction _____ near _____ property _____ time required to connect us _____ grid network?

Is the _____ close to _____ grid _____ us?

Are _____ any _____ caused by _____ works _____ us _____ network?

Does the proximity _____ make _____ harder _____ their energy network?

_____ the construction _____ the grid network _____?

There is a _____ that _____ will _____ our ability to connect access via _____.

Our connection to _____ be disrupted _____ nearby _____.

_____ the close proximity _____ time _____ joining the energy network?

Will there _____ in attaining connection _____ the _____ network _____ the _____?

Does _____ construction have _____ impact _____ the _____ us to be _____ to your _____?

Does the _____ of _____ connections _____ due _____ constructions?

_____ there _____ delays in _____ to their _____ network _____ the _____ work?

Is _____ that _____ ongoing _____ may cause _____ be delayed?

_____ we anticipate any _____ in _____ construction on our premises?

_____ it _____ that _____ work _____ affect our ability _____ access _____ their grid system?

Our power connection timelines _____ ongoing _____.

_____ there any delays _____ of _____ connecting _____ to your _____?

_____ needed _____ us _____ connect _____ their grid might _____ impacted _____ our property.

_____ construction affect connecting _____ to _____ in _____ longer time frame?

_____ expect delay _____ getting connected due _____ construction?

_____ development stall us from _____?

Will _____ your _____ be _____ nearby construction work?

_____ adjacent _____ might cause longer delays _____ establishing _____ their grid network?

_____ the construction _____ will affect the process _____ to _____ grid _____.

Can _____ nearby _____ cause _____ delay _____ hooking _____ grid?

Is it _____ construction might cause _____ while establishing _____ the _____?

Will there _____ delays _____ hooked _____ due to _____?

_____ it possible that _____ connection _____ be _____ construction?

_____ work _____ our property _____ have to _____ for hookups?

Is there a _____ that the construction will _____ how _____ will take _____ their grid _____?

_____ current _____ prolong _____ grid _____ with the premises?

Is it a possibility _____ builders _____ draw out _____ get hooked _____?

Could construction work _____ problem _____ our _____ to _____?

_____ delays due _____ nearby works connecting _____ to _____ in _____?

_____ we _____ any _____ in _____ to construction?

_____ might affect our _____ timing.

_____ nearby building _____ delay the grid _____ process?

Will construction _____ problems _____ our _____?

_____ the _____ have an _____ on our _____ connection?

Is the time _____ us to _____ connected to _____ grid _____ ongoing _____?

_____ time we need to connect _____ their _____ affected _____.

_____ the construction work _____ connection?

_____ near _____ could impact _____ it takes to connect _____ to your _____.

_____ that current _____ activity could _____ our powerconnection timelines?

_____ activity _____ affect _____ delay our power _____ timelines.

Do you think that _____ works will _____ with _____ of joining _____?

Due _____ the _____ near our _____ we expect _____ connecting?

Is _____ possible that _____ nearby _____ could _____ in hooking _____ grid?

_____ construction near _____ property _____ it takes to _____ to _____ grid network.

_____ construction near our property _____ of connecting _____ grid network?

Work _____ may _____ the _____ linking us _____ grid system.

Could _____ impact _____ to _____ in a longer time frame?

_____ any _____ that the nearby _____ work will _____ ability _____ connect _____ their grid system?

_____ it possible that adjacent _____ us from _____ your _____?

Will we _____ in _____ connected because _____ local _____?

Could the _____ our _____?

Due to _____ development _____ delays _____ getting linked?

Our connection to their grid _____ be _____ the _____.

_____ is possible that _____ building _____ may _____ or _____ our power _____.

_____ it possible _____ the _____ construction _____ cause _____ connecting _____ grid network?

There may be delays _____ works connecting us _____ in _____.

Does _____ close to our _____ mean we have _____ even _____?

Is it plausible _____ cause delays _____ connection _____ their grid _____?

I wonder if _____ construction _____ affect the grid _____.

The ongoing work _____ have an _____ our _____.

Does being _____ to building _____ to join _____ network?

_____ construction _____ the _____ affect the _____ it _____ for us _____ your grid?

Is _____ chance that _____ construction _____ time _____ to establish connection with _____ grid network?

Is there _____ that _____ work _____ or prolong our ability _____ access _____ grid system?

There _____ an ongoing _____ near _____ can cause _____ in _____.

Is _____ construction _____ connecting?

_____ expect any delays _____ getting _____ construction work nearby?

_____ we expect _____ in _____ hooked up _____ of construction _____?

_____ there _____ chance _____ the _____ cause _____ delay in _____ up your _____?

The _____ needed for _____ to connect _____ their _____ could _____ affected _____ our _____.

Can _____ anticipate _____ in _____ due _____ construction nearby?

_____ chance _____ in getting _____ up due to the nearby _____?

_____ process _____ connecting _____ your _____ network may be disrupted _____ nearby _____.

Will there be _____ connecting _____ the _____ project?

Construction _____ might affect _____ your _____.

Could _____ construction near our _____ have _____ impact _____ your _____ network?

Construction _____ our _____ could affect the time _____ to _____ grid.

The _____ could _____ on _____ power connection.

Is _____ possible _____ the adjacent _____ may _____ delays _____ connecting _____ their _____?

The length _____ time to establish _____ with _____ influenced _____ the ongoing _____.

_____ adjacent developments _____ us from _____ network _____?

_____ there a chance _____ building _____ would _____ or _____ our ability _____ via _____ grid system?

Will _____ delayed _____ connection?

_____ hurt your connection _____ grid network?

_____ us _____ joining your network?

Will _____ affect _____ process of linking us to _____?

_____ there any delays _____ connecting _____ of _____?

_____ be delays in _____ connection to the grid _____ due _____ the _____ property?

A _____ wait for connection to _____ grid _____ be _____ local _____ activities.

_____ may _____ delays _____ getting _____ due to _____.

Current building _____ could affect _____ our _____ connection _____.

_____ you think _____ a delay _____ hooking up _____ the grid?

Could _____ our property affect _____ for _____ us _____ the grid _____?

Is it possible _____ near _____ property could _____ the _____ it _____ to _____ us _____ their _____?

_____ joining the energy network _____ by the proximity _____ building works.

_____ is possible _____ construction _____ connecting us _____ their _____ network _____ longer time _____.

Will our _____ to _____ disrupted because of _____?

What _____ to our connection _____?

_____ it possible that _____ grid _____ be _____ to nearby _____ work?

_____ proximity of _____ works _____ it harder to join _____ energy _____?

_____ adjacent development _____ us from _____ network _____?

_____ nearby _____ the connection?

Does _____ on in _____ area _____ time _____ takes _____ us to be connected _____ the _____?

_____ current building _____ close _____ to _____ or delay _____ hookups?

We _____ experience delays _____ due to proximity _____.

_____ building activity _____ enough _____ the power _____ timelines?

Is _____ construction near _____ affecting _____ connecting of _____ to _____ network?

_____ construction _____ affect _____ grid network _____.

_____ is _____ building _____ impact or prolong _____ ability to connect _____ via their grid _____.

Our connection _____ could be _____ nearby _____ work.

_____ construction work will _____ time _____ to connect us _____ the _____ network?
 _____ development _____ from joining _____ network?
 _____ work _____ have _____ impact _____ the _____ connection.
 _____ ongoing construction might _____ our _____ to _____ grid _____.
 Could the _____ work _____ linking us to the grid _____?
 Is _____ any _____ that our _____ connection _____ due _____ construction work?
 Is _____ possible construction work _____ our _____ could take _____ us _____ network?
 _____ any _____ the _____ it takes for us to _____ to your grid?
 _____ construction _____ affect our grid _____?
 It _____ that the _____ may _____ our _____ to _____ network.
 Can _____ any _____ in connecting due _____ the _____?
 Can _____ in connection to their grid network _____ construction _____?
 _____ connecting go up _____ them _____ here?
 Is it possible _____ nearby _____ works _____ the _____ required for _____ join _____?
 _____ construction _____ access _____ electricity?
 Is it _____ that _____ cause _____ delays _____ establishing connection with _____ network?
 _____ possible that _____ building work will _____ ability to _____ their _____ system?
 _____ construction _____ the time _____ with their grid?
 Do ongoing _____ in our _____ the time _____ takes for us _____ to _____?
 Should _____ delays in getting _____ construction?
 The _____ near our property _____ affect the _____ for _____ your grid _____.
 Were _____ builders going to _____ out _____ time until _____ hooked _____?
 Is it _____ construction _____ could impact _____ grid _____?
 Will the construction _____ property _____ connection to _____ network?
 _____ nearby _____ affect _____ ability to _____ to _____ power _____?
 Is _____ possible _____ nearby _____ work would affect _____ prolong our ability _____ to _____ grid _____?
 Can nearby construction _____ us _____ grid network?
 Is construction work _____ our _____ to connect us _____ network?
 Is _____ possible _____ building activity _____ affect _____ power connections _____?
 _____ may _____ the connection to _____.
 _____ power _____ timelines _____ be _____ by _____ construction.
 _____ nearby _____ grid network?
 Is current building _____ enough to affect or _____?
 Will the _____ impede _____ connection _____?
 Is it _____ that _____ our _____ will take longer to _____ us to _____ network?
 Construction _____ our property _____ to _____ grid network.
 Could some _____ process of _____ us _____ grid system?
 _____ a chance _____ ongoing construction could affect _____ of _____ connect with _____ grid network?
 _____ to _____ grid network impacted _____ construction work?
 _____ there a chance that _____ ongoing construction _____ time _____ takes _____ with the grid _____?
 Our _____ could be _____ building activity close _____ us.
 Is _____ any _____ those _____ works _____ us won't _____ power _____ to _____ property?
 Does _____ proximity of building _____ to _____ the energy network?
 Will _____ neighboring construction _____?
 Is _____ possible for _____ to _____ joining your network?
 Will _____ construction _____ our property affect _____ the grid _____?
 _____ it _____ the construction near their _____ could cause _____?
 _____ getting hooked up as _____ result _____ nearby construction work?
 _____ us delay our _____?
 _____ there a _____ that the _____ will _____ will _____ for them to connect to their _____?

I wonder if the _____ a delay _____ to the _____.
 _____ there be any delays _____ hooked _____ because _____ construction _____?
 There _____ chance that _____ hooking up to your grid.
 _____ we anticipate _____ delays in _____ up because _____ work nearby?
 How might construction affect _____?
 _____ think that vicinity related _____ process _____ joining into their _____ network?
 _____ the construction _____ our property affect _____ connection _____ grid _____?
 _____ it _____ building _____ affect or delay _____ power _____ timelines?
 Do you _____ into their electrical _____ network will _____ by nearby works?
 Is it possible that _____ our _____ connection _____?
 Is _____ that _____ length of _____ connect _____ network could be _____ by the ongoing _____?
 _____ construction noise outside _____ you _____ us on _____ network?
 Do we _____ delays _____ getting _____ local construction?
 It's _____ that _____ building _____ could _____ delay our _____ connections.
 _____ construction _____ we _____ connect with the power grid?
 _____ near our _____ affect _____ to your grid _____?
 _____ it _____ nearby building works _____ required _____ us to join your _____ network?
 _____ the ongoing _____ the _____ connection?
 Will there _____ more time _____ the _____?
 _____ construction _____ the grid network?
 Is there a chance that _____ ongoing _____ the _____ time _____ takes to establish _____ with _____ network?
 _____ delays going _____ affect our _____ to electricity?
 Is _____ building _____ affect or _____ the _____ connections timeline?
 Will _____ connection to _____ grid?
 Is _____ construction _____ going to hold _____ getting _____?
 _____ nearby construction _____ an effect on _____ grid?
 _____ affect the process _____ us _____ a grid system?
 _____ the construction _____ near our _____ going to _____ in getting _____ grid _____?
 Is it _____ connection _____ their _____ network _____ be _____ by adjacent _____?
 Do _____ any _____ connecting due to _____ ongoing _____?
 Will _____ delayed our _____ to _____?
 Will the _____ or _____ the connection _____ grid _____?
 _____ there _____ chance of _____ connections caused by _____?
 Do you think _____ work close _____ will _____ the _____?
 _____ expect any delays in _____ the construction?
 Is _____ possible _____ builders _____ draw out our wait _____ get _____ hooked _____?
 _____ a chance _____ the ongoing construction _____ of _____ it takes to _____ connection?
 Will _____ delay in _____ connection?
 _____ ongoing _____ the _____ the _____ it takes _____ to be _____ to the grid?
 Are _____ getting hooked _____ due _____ nearby construction?
 _____ construction work may cause _____ in _____ connection _____ the _____.
 _____ possible that the _____ cause _____ delay in _____ up the _____?
 Will there be _____ or _____ to _____ due to nearby _____?
 _____ we anticipate _____ in getting _____ construction nearby?
 _____ likely that work _____ will prolong our _____?
 _____ it _____ that local _____ activities _____ a long _____ for connection _____ the grid _____?
 Do _____ the vicinity _____ process of joining _____ their _____ distribution network?
 Nearby _____ impact _____ to their _____ in a longer _____ frame.
 Can construction near _____ property _____ our _____ connection _____?
 _____ our _____ could have an _____ the connection to your _____.

_____ the _____ works _____ the time _____ takes _____ to join _____ energy network?
 Could nearby _____ connecting _____ to the _____ a longer _____ of _____?
 The _____ our connection to _____ network.
 _____ there will _____ more _____ on _____ grid when I deal _____ this _____ nearby?
 _____ it _____ that _____ activity may _____ our power _____ timelines?
 Do we expect delays _____ due to _____?
 Can _____ a _____ for connection to _____ grid _____ from _____ local construction _____?
 _____ there a _____ the construction could affect _____ it takes _____ them to _____ network?
 _____ the _____ near our property _____ connection _____ the _____?
 Is the _____ delayed due to _____?
 _____ to be harder _____ to get _____ power _____ the construction?
 Will _____ construction _____ our _____ the _____?
 Is there _____ delay getting on _____ have _____ deal with this _____?
 _____ is _____ chance that _____ construction _____ could affect our _____ your power _____.
 _____ be delays in getting _____ up _____ on _____ premises?
 Is it possible that _____ might _____ a _____ our _____?
 _____ it _____ construction _____ affect our _____ the grid network?
 Is _____ ongoing _____ delay our connection?
 _____ the construction _____ messes _____ our connection to _____ grid?
 _____ time we _____ connect _____ the _____ could be _____ construction near our _____.
 Is the _____ near _____ property affecting _____ timing for _____ grid _____?
 Does _____ near us affect _____ time it _____ to _____ connected to _____ grid?
 How _____ affect _____ us connected?
 Construction _____ impact _____ grid _____ in a longer _____ frame.
 Will the work _____ the _____?
 The _____ of _____ works may _____ takes for _____ their energy network.
 _____ it _____ construction _____ property could prolong _____ time _____ connect us _____ their grid network?
 _____ construction work _____ affect the process of linking _____.
 _____ be any _____ in _____ due to _____ ongoing _____?
 Is there any delays in _____ to _____?
 _____ the _____ to make it _____ for _____ to _____ connected?
 Our _____ grid _____ be _____ due to nearby construction _____.
 Construction _____ time needed _____ with the grid.
 Will construction be a _____?
 Do _____ think our process _____ joining _____ will _____ disrupted by nearby _____?
 Is it _____ activity _____ affect _____ power connection timelines?
 _____ it _____ that the _____ delay _____ connection?
 Is it _____ that _____ nearby building work _____ affect _____ to _____ via their grid _____?
 _____ for nearby _____ to extend _____ duration required _____ us to join _____ grid network?
 The _____ construction may _____ to their grid _____.
 _____ it _____ that local _____ will lead _____ wait _____ a connection to _____ grid network?
 Can _____ expect delays _____ hooked _____ due to _____?
 Could nearby _____ affect our ability to _____ grid _____ in _____ longer _____?
 _____ nearby construction make _____ in connecting us _____ network?
 Does _____ proximity _____ the _____ affect the _____ join the _____ network?
 The construction _____ hard for _____ to get _____ soon.
 Is _____ close _____ to _____ our power connections?
 _____ it _____ that _____ near the _____ will cause _____ delay?
 It _____ that current _____ could affect or delay _____ power _____.
 _____ possible that those builders _____ out our wait _____ in.

Could the _____ a delay in _____ your grid network?

Can we _____ a long _____ connection to the _____ due to interference _____?

_____ the ongoing _____ work _____ our ability _____ access via _____ system?

Are _____ potential _____ or _____ to our _____ network due _____ nearby _____?

Can we _____ in _____ the _____ from _____ construction activities?

_____ possible for _____ building works _____ extend _____ duration _____ to join?

The _____ of _____ us _____ their _____ system _____ disrupted by _____ construction _____.

_____ construction _____ near our _____ the connection _____ their _____ network?

The _____ property _____ timing of _____ us _____ the grid network.

Does the _____ works increase _____ time taken _____ joining _____ energy _____?

_____ those builders _____ out _____ wait time until we are hooked _____.

Does _____ proximity _____ works increase _____ required to _____ their energy _____?

_____ there _____ delays _____ due to the _____ project?

_____ construction _____ our property _____ the connection to your _____?

_____ we expect a long wait _____ local _____?

Is _____ likely _____ the construction _____ cause a _____ in _____?

We _____ know if _____ be delays _____ due to local _____.

Could _____ current construction prolong seamless _____ integration _____?

Will adjacent _____ us from _____ your network _____?

Does _____ close proximity to building _____ it _____ join their _____ network?

Could construction _____ power _____?

Will our connection _____ nearby?

Is it possible _____ current _____ activity could _____ timelines?

Construction might _____ time _____ for _____ to _____ the grid.

_____ the construction _____ here _____ to _____ it hard _____ us to _____?

_____ that _____ adjacent construction _____ cause extended delays when _____ their _____ network?

Construction _____ nearby _____ affect the _____ linking us _____ the _____.

Is it possible _____ builders _____ draw out _____ time _____ we _____?

Will the _____ next to _____ on _____ us?

Could _____ construction _____ to _____ grid network in _____ longer time _____?

Is it possible _____ the _____ nearby _____ will _____ or _____ our _____ via their grid _____?

_____ near our property _____ delays in _____ the grid network?

Do you _____ will _____ process of _____ into the electrical distribution network?

Is it _____ that our _____ could _____ to _____ ongoing _____?

Will _____ ability _____ connect _____ their power grid?

Did _____ work affect _____ linking _____ to _____ grid?

_____ construction _____ affect _____ to your _____?

Will _____ work _____ to the _____?

_____ in connection _____ grid network _____ to interference _____ local construction activities?

_____ adjacent development _____ or impede _____ joining _____ network _____?

_____ there _____ chance _____ the _____ will _____ the length of _____ takes _____ establish a _____?

Would _____ development _____ joining your _____?

_____ there a _____ that the _____ construction _____ the time it takes _____ establish _____ their grid _____?

_____ connecting increase due _____ the _____?

Could construction affect _____ us _____ to their grid?

Is _____ that _____ will _____ out our _____ time _____ we are _____ up?

Will _____ delays in getting _____ up _____ construction _____?

Will _____ grid connection be _____?

_____ are near _____ that _____ cause _____ in connecting.

_____ there _____ chance _____ because of nearby _____ to your network?

Does _____ to our _____ have to wait _____ hookup?

Is _____ construction nearby affecting _____?

Will _____ delays in connection _____ to _____?

_____ grid connection process _____ be delayed by _____.

The _____ near our _____ the _____ for connecting _____ your grid _____.

Will _____ nearby _____ the connection _____?

It's _____ that _____ ongoing _____ delay _____ connection.

Do _____ the works _____ will affect _____ process of joining _____ distribution network?

Is _____ connection _____ their grid network _____ of the _____?

_____ schedule _____ to your _____ network be affected by the _____?

Is _____ possible that _____ ongoing _____ work would _____ our ability _____ via _____ system?

_____ possible that the _____ connection process could _____ the _____ building?

Could _____ construction _____ affect our connection _____ network _____ longer _____ frame?

Will _____ delays in getting to their _____ of _____ construction _____ property?

Is it _____ could affect _____ power connection _____?

Is current _____ enough to _____ or delay our _____?

_____ impact connecting _____ to the grid _____?

Will there _____ delays _____ to _____ because _____ the construction work _____ us?

_____ believe _____ works will affect our _____ into their electrical distribution _____?

Will there be delays _____ to _____ grid _____ due _____?

Does _____ construction _____ vicinity _____ amount _____ time it takes _____ us to be _____ grid?

_____ have an impact on _____ us?

Will the construction _____ network _____?

Will _____ work interfere _____ to _____?

_____ construction _____ our _____ network?

Do you believe that _____ vicinity-related works will _____ our _____ of _____?

Could _____ near our _____ the time it _____ connect _____ grid?

Is there a _____ that the _____ will _____ time _____ takes to _____ to _____?

_____ we expect delays _____ to the project _____?

Is it possible _____ construction _____ affect _____ for _____ your power network?

Our connection to your _____ by _____ nearby.

_____ any chance of delays in _____ to _____ project?

Our _____ connection _____ be _____ due to _____.

_____ nearby construction _____ our _____ with _____ grid _____ a _____ time frame?

_____ current building _____ or _____ our power _____ timelines?

_____ time _____ connect _____ grid might be _____ by construction.

_____ proximity of building _____ the _____ time _____ takes to join _____ energy _____?

Construction work _____ affect _____ process _____ linking us _____ the _____.

Current building _____ affect or delay our power _____.

Do you think vicinity-related _____ affect _____ into _____ electrical distribution _____?

Will construction _____ affect _____ to _____ grid?

_____ we _____ in getting _____ up due _____ nearby _____?

_____ may _____ needed for us to _____ with the _____.

_____ ongoing _____ our vicinity affect the _____ it takes _____ us _____ connected to your _____?

Can _____ the grid _____?

_____ time _____ increased due _____ the constructions _____ down _____?

Is it possible _____ construction _____ our _____ grid network?

Will _____ affect the _____ your _____?

_____ nearby _____ affect _____ connection to _____ network in _____ longer _____ frame.

_____ current _____ close _____ to affect _____ power _____ timelines?

Is there a _____ due to the _____?

_____ nearby construction _____ network?

_____ mess going to _____ it difficult _____ get connected?

Is there _____ that _____ could affect the _____ to connect with _____ grid network?

Is _____ building _____ could _____ the duration required _____ to join your electricity grid _____?

There may _____ delays _____ to local _____.

Does ongoing _____ effect _____ the _____ us to _____ connected to the grid?

Is it _____ that _____ building _____ our power connectivity _____?

_____ in _____ connection to _____ grid network _____ of _____ construction work?

_____ it _____ that _____ works near _____ the duration needed _____ us to _____ your _____ grid _____?

_____ construction _____ time it _____ to _____ their grid?

Can we expect delays _____ connecting because _____ project _____?

_____ current building _____ close _____ or delay _____ power _____?

_____ it likely that _____ time it _____ to connect us to _____ network?

_____ ongoing construction _____ delay our connection _____.

_____ property can affect connection _____.

It is _____ that nearby construction could _____ to _____.

Is the _____ nearby building?

Could nearby construction _____ connection to _____ in a _____ frame?

_____ you think it will be difficult for _____ to join _____ works?

_____ may _____ longer to hook us _____ with _____ because of _____.

_____ sure if the _____ door _____ make _____ take me longer to _____ up.

Can _____ me _____ construction _____ affect completion schedules for _____ electrical _____?

_____ we expect delays _____ to _____ grid _____ of _____ from local construction _____?

Can _____ affect the relationship with _____?

Will our _____ to _____ grid _____ affected _____ construction?

_____ possible that _____ nearby _____ works could extend _____ required _____ us to _____ grid network?

_____ construction not _____ finished _____ for _____ connect to your _____ network?

_____ time it takes for _____ to the grid.

_____ possible _____ may delay our connection to _____ grid _____?

Can you _____ the annoying works near _____ power going _____ our _____?

_____ a _____ that the _____ construction _____ will take to establish connection _____ their grid network?

Could _____ construction _____ affect your _____ connecting _____ your grid network?

_____ there any _____ time it _____ for us _____ connected to the grid?

Will _____ construction _____ completion schedules _____ integrating _____ your _____ power _____?

_____ our vicinity _____ the time it takes _____ to your grid?

_____ there be _____ getting _____ up because _____ construction work?

_____ nearby construction _____ connecting _____ their grid network in _____ of _____?

_____ any delays in connecting _____ project?

There _____ be _____ up to _____ because _____ the nearby construction.

There _____ be delays in _____ to _____ grid network _____ construction _____ our _____.

Our _____ your grid could be affected _____.

_____ it _____ to _____ for us to _____ power because of _____?

Delays with _____ linked _____ caused _____ the proximity _____.

Can we _____ long _____ connection to their grid network because _____ construction _____?

_____ it _____ that those _____ draw _____ wait time until _____ hooked up?

Is the _____ mess _____ the way of _____ connected?

Construction may affect _____ takes us _____ to _____ grid.

_____ construction _____ the connection _____ your grid _____.

Is there _____ that _____ grid _____ connection will _____ disrupted _____ to _____?

____ our connection to your grid ____ construction?
 ____ we ____ construction ____ to cause a long ____ connection to the ____?
 ____ that the ____ work may delay ____ connection?
 ____ construction near ____ property affect the ____ to ____ with their ____?
 Could ____ construction affect our ____ to their grid ____ time ____?
 Construction may ____ the time ____ to ____ the ____.
 Will ____ be any delays in ____ due to ____ near ____?
 ____ possible for the work ____ our installation time?
 ____ there any delays in ____ because of ____ work?
 Does ____ building ____ the time ____ joining the energy network?
 power grid connection ____ can be ____ near ____.
 ____ construction ____ cause ____ long wait for a ____ to the grid ____?
 Will ____ grid connection?
 ____ adjacent development ____ stall us ____ network quickly.
 ____ construction shorten ____ time ____ to ____ us to ____ grid network?
 Will construction ____ our property ____ delays ____ getting to ____?
 Is ____ chance ____ construction ____ the length of time ____ connect?
 Is it ____ the ____ close by ____ grid ____?
 The ____ us ____ the grid system ____ be ____ due ____ construction work.
 We ____ have delays ____ to this development.
 Is ____ conceivable that those ____ out ____ time until we ____ hooked ____?
 Is it going ____ time ____ you ____ up because ____ the construction?
 Can ____ any ____ getting hooked ____ because of the ____?
 Is ____ that the ____ could ____ our ability ____ connect ____ grid system?
 ____ it ____ that the ____ may ____ connection?
 ____ may ____ connection ____ their grid ____.
 Does ____ construction in ____ vicinity have ____ effect on ____ time ____ us ____ connected to your ____?
 Can we expect a ____ connection ____ their ____ from ____ construction ____?
 ____ adjacent development stall ____ hinder us ____ your ____?
 Did ____ work mess with our ____?
 ____ the grid ____ connection ____ due ____ construction work?
 Delays in ____ connection ____ may be caused ____ the ____ work ____ property.
 ____ the ____ construction ____ our ____?
 ____ being ____ the power connection?
 Is it possible ____ building ____ affect ____ power ____?
 ____ our connection ____ slower ____ construction?
 ____ the noise ____ their ____ how quickly we ____ connected to ____ grid ____?
 Does work ____ our ____ wait for ____ more?
 ____ near our ____ may ____ the ____ connecting us to your ____.
 Is it possible ____ the ____ in connecting?
 Is ____ possible that construction ____ affect the ____ needed to connect us ____ network?
 Our connection to the grid could ____.
 ____ proximity ____ we experience delays in ____ linked?
 ____ it possible ____ construction ____ our property ____ longer ____ connect us ____ their ____?
 Will ____ affect ____ connection to their ____?
 Can ____ construction activity ____ cause a ____ to ____ grid network?
 Construction could ____ the time ____ connect ____ their grid.
 Is it going ____ longer ____ connected if there ____ construction ____?
 Can ____ delays ____ getting hooked up because ____ work on ____?
 Construction could ____ our ____.

_____ nearby construction _____ your _____ grid?

Do you _____ that the works _____ our process _____ joining into _____ electrical _____?

_____ could _____ the power connection.

_____ there _____ chance _____ could change _____ length _____ time _____ takes to establish _____ connection _____ their grid _____?

Is _____ building works could extend _____ time _____ us to _____ electricity grid network?

Is the _____ going to _____ down _____ connected?

_____ time _____ takes _____ us _____ connect _____ their grid might _____ by _____.

Will _____ slow _____ to electricity?

_____ there _____ chance that the grid _____ connection _____ disrupted due _____ work?

_____ nearby construction _____ an _____ connecting _____ their power grid?

_____ nearby _____ your connection _____ grid?

_____ construction near _____ property affect our _____ your grid _____?

Will the _____ next _____ have an _____ on _____?

_____ the _____ connection to be _____?

It _____ possible _____ the builders _____ draw out _____ until _____ get hooked _____.

Is there any _____ in _____ because _____ the _____ project?

Our connection _____ your _____ disrupted by _____ nearby.

_____ the _____ affect the connection to _____ grid network?

The _____ to connect _____ their grid might _____ construction _____ property.

_____ ongoing nearby _____ our ability to _____ via their _____ system?

Will _____ delays in getting _____ to construction _____ on _____ premises?

Are _____ construction _____ going _____ hard _____ get us connected?

Is there a _____ that _____ construction could _____ length of _____ it takes _____ network?

_____ affect the _____ we _____ to _____ to their _____?

Is it _____ that _____ grid network connection _____ be _____ due _____?

_____ construction will affect the connection to _____ grid _____?

Can _____ near _____ affect the connection _____ grid _____?

There _____ a _____ in _____ up _____ caused by the _____ construction.

_____ construction work affect connection _____?

Is _____ the nearby construction _____ a delay in _____?

_____ near _____ us have _____ wait more for hookup?

_____ construction _____ slow _____ to your _____?

_____ construction _____ connection time?

Can _____ expect delays in _____?

_____ might _____ me longer to _____ hooked up because _____.

Will the construction work _____ our _____ cause _____ grid _____?

Nearby _____ may affect connecting _____ to _____ grid network _____ time _____.

The construction _____ our _____ could _____ timetable for connecting _____ your _____.

Will _____ construction hurt _____ your grid _____?

_____ development stall _____ from joining _____?

Could _____ construction _____ ruin our _____ to the _____?

_____ connection to _____ grid be slowed due _____?

Is _____ possible _____ ongoing construction could affect our _____ their _____?

_____ might experience delays with getting _____ due _____.

_____ ongoing construction in _____ the time it _____ for _____ to _____ connected to _____ grid?

_____ that the adjacent _____ could cause extended delays while _____ connection _____?

It _____ possible that _____ construction may _____ connection _____ network.

Will _____ neighboring _____ make a _____ connecting us _____?

Will _____ grid _____ for us?

It might take _____ time for me _____ get _____ construction mess next _____ indication.

Is _____ construction _____ result in a _____ wait for connection _____ their grid _____?

Will _____ construction cause a delay _____ hooking _____?

Construction _____ may affect _____ us to the _____ system.

_____ there _____ that the _____ will _____ the time it _____ to connect _____?

It _____ longer _____ me _____ get hooked _____ construction _____ next door _____ any indication.

Will _____ cause our connection _____?

_____ it possible _____ ongoing _____ would affect access _____ their _____ system?

_____ possible _____ adjacent construction might _____ extended _____ to _____ grid network?

Can _____ expect local construction _____ a long wait _____ a _____ grid _____?

_____ work near our _____ mean _____ for hookups even _____?

Is current _____ activity _____ delaying our _____?

_____ construction work could _____ of linking us _____ grid _____.

Will our _____ by construction _____?

_____ the neighboring _____ our _____ connect?

Will _____ work near _____ property delay _____ to _____ grid _____?

Is it possible _____ cause extended delays while _____ connection with _____?

_____ the construction _____ affecting our connection?

_____ the construction affect _____ you _____ to _____ network?

_____ think that _____ works _____ affect _____ process of _____ electrical distribution network?

_____ construction _____ our connection to _____?

The _____ work will affect _____ to _____ network.

_____ there a _____ that ongoing _____ development _____ affect your _____ to _____?

_____ that _____ affect our _____ electricity?

Will _____ our _____?

How likely _____ the work _____ by to _____ to _____ the _____?

Can _____ expect any _____ in _____ of _____ project?

_____ construction projects _____ time _____ for us to _____ connected _____ the grid?

_____ our _____ with the grid network _____ a _____ time frame?

Do _____ adjacent _____ will stall us _____ network?

Is _____ of a disruption _____ grid network _____ to nearby _____ work?

Will _____ near our property _____ connection _____ the _____ network?

Were there _____ connected due to _____ construction?

Will _____ the connection _____ power grid?

_____ the construction _____ your _____?

_____ activity _____ enough to possibly affect _____ power connections?

_____ ongoing _____ affect the time _____ takes for _____ connect _____ the _____?

Will _____ construction _____ grid network?

_____ it possible that _____ constructions prolong _____ with _____ premises?

_____ the construction _____ affect how _____ it will _____ to _____ with their grid network?

_____ current _____ prolong _____ integration _____ our premises?

_____ it possible that _____ work could extend _____ required for _____ the _____?

_____ nearby construction _____ affecting _____ grid _____?

_____ anticipate delays in getting _____ up due _____?

The construction _____ our property _____ the grid network.

Can _____ construction affect _____ takes _____ us _____ connected to the _____?

Construction _____ near our property _____ the _____ takes _____ connect _____ to the _____.

_____ don't know if _____ mess will make _____ for me _____ get _____.

_____ there _____ that _____ construction could affect the time _____ to _____ to _____?

_____ with our connection to _____ grid.

Does _____ on _____ our _____ time it takes _____ us to be connected _____ grid?

_____ it possible _____ construction _____ our connection?

Is there _____ chance _____ in _____ up due to nearby _____?

Is it possible _____ work would _____ prolong _____ ability _____ connect access _____ their grid _____?

_____ we anticipate _____ or disruptions _____ grid network _____ nearby _____ work?

_____ construction disrupt _____ grid _____?

Is _____ a _____ of _____ to our grid _____ due to _____?

_____ possible those builders will _____ wait time until _____ hooked _____?

Is it _____ cause _____ delays while connecting to _____ network?

_____ connection with their _____ might be delayed due _____ adjacent _____?

Our connection _____ could _____ be _____ by _____ construction work.

_____ the _____ or stretching out the grid _____ us?

_____ our connection _____ grid be _____ because _____ construction _____?

Might _____ process of linking _____ to _____ grid system?

_____ property _____ impact the time taken _____ connect us to _____ network.

Can _____ construction _____ our _____ for connecting _____ to your _____ network?

Can _____ anticipate _____ delays or _____ grid _____ connection _____ to _____ work?

Does the construction _____ affect _____ time _____ to be connected to _____ grid?

_____ may _____ our connection _____ network.

Will _____ construction work _____ our property delay their _____?

_____ it _____ that the _____ would affect our _____ to connect _____ via _____?

Are _____ ongoing _____ our power _____?

The _____ timetable for _____ us _____ your network.
