

[Demo] NLP Dataset for Customer Service Automation

Company Type	Auto Repair and Maintenance Shops
Inquiry Category	Car heater not working properly
Inquiry Sub-Category	Blower motor failure
Description	Customers report that the heater fan is not working at all, resulting in no hot air being blown into the car cabin. This could be caused by a faulty blower motor that needs to be replaced.
Data Size	5,129 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Auto Repair and Maintenance Shop" customer inquiry. (Purchased data will not be masked.)

_____ blower motor _____ my _____ heater to _____ completely?
 I'd _____ know _____ the _____ is _____ down because of _____ blower _____.
 _____ blower engine _____ and _____ dead?
