

[Demo] NLP Dataset for Customer Service Automation

Company Type	Internet Service Providers
Inquiry Category	Speed and performance inquiries
Inquiry Sub-Category	Speed test results interpretation
Description	Customers perform internet speed tests and need help interpreting the results, understanding what is considered good or optimal, and if they are getting the expected speeds based on their subscribed internet plan.
Data Size	5,109 paraphrases

Masked sample paraphrases of one "Internet Service Provider" customer inquiry. (Purchased data will not be masked.)

_____ there a _____ to determine if my _____ meet _____ standards?

Is _____ a standard _____ compare _____ speeds _____ the _____?

Is there a benchmark _____ if my _____ industry _____?

Does _____ speed need _____ benchmarked _____ see _____ it met _____?

_____ my _____ with _____ standards used in _____ industry?

_____ there a _____ or threshold _____ can _____ see _____ my _____ meets _____ standards?

_____ my _____ match _____?

_____ would like to know _____ use _____ benchmark _____ to see _____ my speed is _____ to _____.

_____ it necessary _____ the current _____ it met industry standards?

_____ was wondering if _____ benchmark for _____ industry-standard _____.

_____ possible _____ if my _____ speeds meet industry _____?

_____ fast do my _____ standards?

_____ my _____ Meet Industry _____?

_____ I _____ have to meet to _____ out if my _____ meet the _____?

_____ current speeds meet _____ is _____ threshold or benchmark _____?

Does my _____ meet _____ benchmark _____ industries _____ meet?

_____ there a benchmark that I _____ use to see _____ my _____ in _____?

Has my current _____?

_____ my speeds _____ set for _____ industry?

Is there _____ threshold I need _____ know if _____ in _____ with industry _____?

Does my _____ speed _____ the _____?

_____ my _____ not out of _____ industry, is there _____ or threshold _____ need _____ meet?

Is _____ a _____ threshold _____ might need to meet _____ know _____ speeds meet _____?

Is it possible to determine _____ speeds _____.

_____ am _____ my speed _____ standards.

_____ you have any speed _____ you _____ use to _____ I _____ standards?

How _____ my _____ the industry?

Is _____ a benchmark _____ that I have _____ know _____ meet the standards?

____ my ____ industry benchmarks?
 ____ a ____ or ____ determine if my ____ speeds ____ industry standards?
 ____ possible to ____ if ____ meeting established ____ with speed ____?
 ____ a ____ I ____ use to see ____ my speed ____ standards?
 Is there ____ benchmark that ____ use to ____ speed meshes ____ standards?
 Is there a speed ____ should ____ in order ____ sense ____ how I ____ established standards ____ field?
 Do ____ speeds fit ____ standards ____ the ____?
 ____ you tell me if my speed ____?
 ____ speeds ____ industry benchmarks?
 ____ a ____ to see if my ____ in ____ industry standards?
 Do ____ current speeds ____ up ____?
 ____ the current ____ to be benchmarked ____ determine ____ it met ____?
 Is there a benchmark ____ that ____ need to meet ____ if ____ is in line ____?
 ____ you know if my speed ____ within ____?
 Is there a ____ that ____ whether my ____ standards?
 ____ current ____ need ____ be benchmarked to ____ met industry standards.
 ____ there ____ that ____ tell me whether ____ meet ____ standards?
 Does ____ speed ____ to ____ benchmarked to ____ if it ____?
 ____ threshold I need to reach ____ order to ____ meet industry ____?
 ____ there ____ threshold that I ____ meet ____ know if ____ is ____?
 ____ a benchmark or ____ need to ____ to ____ if ____ speeds meet ____ standards?

 I would ____ if my ____ in ____ what the industry ____.
 Do ____ know ____ speed ____ in ____ with ____ standards?
 How ____ if ____ pace is ____ the industry?
 ____ my ____ match industry ____?
 Do you have preset speed ____ used ____ determine if ____ standards?
 Is it possible to ____ my ____ are ____ line ____?
 Do ____ for industry?
 ____ a ____ that tells ____ my ____ meet industry standards?
 ____ know ____ my speeds meet ____?
 ____ speeds ____ an industry benchmark?
 ____ can I ____ my speed is ____ industry ____?
 Do my ____ an ____?
 ____ my speeds ____ benchmarks?
 ____ speed ____ industry standards, is ____ threshold or ____?
 ____ my ____ meet industry standards.
 ____ what's ____ to be ____ an industry benchmark?
 ____ my ____ follow the ____ set ____ industry?
 I wonder ____ I ____ to ____ a ____ or threshold ____ know if ____ speeds ____ established ____.
 ____ a threshold ____ can ____ whether my speeds ____ standards.
 There is ____ threshold that I might ____ to ____ to ____ meet ____ standards.
 ____ meet ____ standards, what is the threshold?
 ____ speeds meet ____ standard?
 If my current ____ meet the ____ threshold?
 Do my ____ standard?
 ____ I can use a ____ threshold ____ see ____ my speed ____ up ____ par.

_____ you _____ a set _____ speed requirements _____ I _____ meeting _____ standards?

_____ my _____ meets industry standards?

Does the _____ needs _____ benchmarked _____ determine if it met _____?

_____ I _____ if _____ speed is _____ industry guidelines?

_____ current speed _____ to _____ to see _____ it met industry _____?

How _____ my pace match the standards _____?

Can I compare my _____?

_____ there a _____ that I can _____ see _____ speed complies _____ industry _____?

Does my _____ match _____ be considered an _____ benchmark?

_____ have a threshold _____ my _____?

_____ there _____ need _____ meet _____ know if _____ meets industry standards?

_____ my speeds _____ industry _____?

Do I need to meet a _____ or threshold to _____ if my _____?

_____ have _____ be benchmarked to see _____ it complies _____ standards?

Does _____ if _____ meet _____ standards?

_____ you _____ preset _____ requirements _____ help determine if _____ am meeting _____?

_____ there a _____ meet to know if _____ is _____?

_____ in line with minimum set for _____?

Is _____ speeds _____ for _____?

_____ benchmark _____ other industries need to meet?

Is _____ benchmarking that _____ the adequacy _____ my _____?

_____ speeds are in line with industry expectations?

How can I _____ if _____ is _____ line with _____?

_____ my speed _____ meet _____ benchmark?

_____ necessary _____ me to _____ a benchmark _____ threshold _____ know if _____ meet _____ standards?

Are _____ speeds suitable _____?

_____ threshold required to _____ my speeds _____ standards?

_____ my _____ meet established industry standards, _____ there a _____ need _____ to _____?

I wonder _____ my speeds _____ the standards _____.

_____ do _____ know if _____ threshold _____ it to be an _____ speed.

Do you have any _____ adequacy _____ my speed?

Is _____ a _____ I _____ to _____ if my speed _____ the standards?

_____ speeds compatible _____ industry _____?

_____ order to make sense _____ am _____ established standards in _____ field, is there a _____ that _____ meeting?

How can _____ are in line with _____ industry expects?

_____ my _____ industry standards, is there a _____ need to _____?

Is there a _____ meet _____ to know _____ my speed is _____?

Is _____ a _____ that I might _____ meet in order _____ if my _____ standards?

_____ there _____ benchmark _____ can _____ see if my _____ to snuff?

Is there a benchmark _____ meet _____ out _____ meet established industry _____?

_____ there a _____ I need _____ meet in _____ know if _____ standards?

Do _____ know of a _____ for _____?

Is it possible _____ my speed _____ industry _____?

How _____ my speed _____ within standards?

_____ it possible _____ have preset _____ help _____ if I am meeting _____?

_____ I find _____ speed is _____ line with _____ the _____ requires?

_____ a benchmark _____ know if my speed _____ up to _____?

Does a _____ whether _____ my _____ meet industry _____?

Is there a _____ threshold _____ need _____ to know if _____ line with _____ standards?

_____ speeds _____ what _____ takes to be _____ benchmark?

Is my _____ to _____ standards?

_____ can _____ if my speeds _____ in _____ with what _____ needs?

_____ a threshold _____ needs to be met _____ know _____ speeds _____ standards?

How can _____ my speed is _____ industry _____?

_____ I _____ a threshold or _____ to see if _____ standards?

_____ my _____ speeds compatible with _____?

_____ my speed match _____ minimum _____ industry?

_____ there a point _____ is _____ to _____ to industry standards?

Does anyone know if _____ measuring industry-standard _____?

What do _____ speeds _____ in line _____ the industry expects?

How _____ I make sure _____ speeds _____ standards?

How _____ I know _____ speeds are _____ with what _____?

Is my speeds _____ what _____ to be _____ industry _____?

_____ know if _____ meet a benchmark _____ threshold to know _____ my _____ meet _____ standards.

How can I be certain _____ industry _____?

_____ there _____ benchmark _____ I need to _____ in order to know _____ my _____ comply _____?

_____ a benchmark I _____ to _____ if my _____ is _____?

There is a threshold _____ whether my speeds _____.

_____ a threshold that I _____ to hit _____ know _____ speeds meet _____ standards?

There is a _____ or benchmark that _____ to _____ speeds meet _____.

_____ my paces _____ to _____?

Will _____ speeds meet _____?

_____ there _____ threshold I _____ meet in _____ to know _____ my current _____?

Is _____ threshold that I _____ use _____ if _____ speed _____ industry _____?

How _____ I _____ if _____ are in _____ with _____ expectations?

Is _____ a threshold or _____ use _____ see if _____ is up _____ snuff?

_____ current _____ correspond _____ industry benchmarks?

Can I _____ benchmark _____ threshold to _____ if _____ speed _____ up to _____?

Are _____ good for _____?

Is my _____ used _____ the industry?

If my current _____ standards there is _____ benchmark _____ that.

I _____ if _____ is _____ threshold I can use to _____ is up _____ par.

_____ there _____ benchmark _____ to _____ to determine if _____ current _____ is acceptable?

_____ speed match _____ industry _____?

_____ to know if _____ is a _____ for judging my _____.

How do I _____ my _____ is _____ with industry _____?

Is _____ or _____ I _____ use to _____ if _____ the industry standards?

_____ my speed _____ with _____ standard?

Is _____ I _____ know if my speed is acceptable?

_____ my _____ fit in _____?

_____ my speed _____ to _____ be _____ an industry benchmark?

How can I _____ if _____ speeds _____ in _____ expectations?

Does _____ fit industry _____?

_____ there _____ threshold that would determine whether _____ industry _____?

There _____ a threshold I _____ speed is in _____ with industry _____.

_____ what _____ are needed _____ keep my speed _____ standards.

_____ my _____ be _____ to an _____?

_____ make sure _____ is _____ line with _____ the industry expects?

Is there a _____ I need to _____ to _____ meet _____ standards?

Is there a _____ see _____ meet _____ standards.
 _____ threshold or _____ I _____ to _____ to _____ my _____ speed is acceptable?
 What _____ the _____ for _____ paces in _____?
 _____ my _____ compliant _____ industry _____?
 I _____ current speeds meet _____.
 _____ a _____ that _____ would need to meet to know _____ my _____?
 Is _____ that you _____ speed _____ that _____ I _____ meeting established _____?
 _____ my speed _____ norms?
 _____ the _____ for measuring industry-standard _____?
 Is there _____ threshold _____ I need to _____ to _____ know if _____ is _____ line _____?
 _____ current speed have _____ be benchmarked _____ if _____ met _____?
 _____ threshold that would determine _____ meet _____ standards?
 Do my _____ up _____ standards?
 A _____ benchmark _____ used to determine _____ current _____ meet standards.
 Is there a certain _____ I need to meet _____ order to _____ in this field?
 _____ there _____ that _____ evaluate _____ my speeds are _____?
 _____ there _____ or threshold I _____ use to _____ if _____ speed _____?
 I don't know _____ to know _____ my speeds _____ the standards.
 Does _____ current _____ to _____ if it met standards?
 Are _____ or _____ that _____ determine whether my _____ meet _____ standards?
 _____ may _____ a _____ or benchmark _____ if my _____ speeds meet _____.
 Is the _____ benchmarked _____ it meets industry _____?
 _____ speeds correspond _____ the _____ in the industry?
 Do you _____ requirements _____ I'm meeting _____ standards?
 I don't _____ if _____ it _____ be _____ industry standard speed.
 Does anyone _____ a _____ that would measure _____ adequacy _____?
 I _____ to know if _____ speed _____ standards.
 Is there a _____ I _____ meet to _____ my _____ complies with _____.
 _____ there a _____ that tells _____ meet industry standards.
 Is _____ speed _____ it _____ to _____ an _____ benchmark?
 _____ my _____ meet industry's _____?
 Do _____ fit _____ minimum set for _____ industry?
 Does _____ know of a _____ industry-standard _____?
 _____ a benchmark that I _____ use _____ see if _____ speed _____?
 Does my speed _____?
 Does _____ meet _____ benchmark that _____ industries _____ meet?
 Do _____ speeds fit _____?
 How can _____ my speeds are _____ requirements?
 _____ can _____ find _____ my _____ is _____ line with industry _____?
 _____ criteria _____ compare current _____ in _____ industry?
 _____ you know _____ my _____ complies _____ industry _____?
 Is there _____ benchmark _____ I _____ to _____ to _____ if _____ speeds meet _____?
 I'm _____ speeds are within _____.
 Do _____ have a threshold _____ can use to _____ my _____ is _____?
 How _____ you determine _____ my _____ is _____ industry _____?
 _____ my speed _____ with industry _____?
 _____ there a _____ in order to _____ how I _____ meeting established standards in this _____?
 _____ it _____ I need _____ meet a _____ to know _____ speed is _____ line _____ industry _____?
 _____ do _____ know _____ speed is in _____ with _____ standards?
 _____ I know _____ my _____ accepted industry standards?

Is _____ benchmark _____ meet _____ if my speeds meet standards?
 _____ my _____ a _____ other industries have?

I _____ if I _____ use a _____ if _____ is in line _____ industry standards.

How do you _____ speed is _____ the _____?

Is _____ a threshold _____ need to _____ know _____ my speeds _____?
 _____ see _____ my _____ match what the _____ requires?
 _____ I _____ if my _____ the standards of _____?
 _____ a _____ I need to meet to _____ if my _____ meet _____?

Is there _____ threshold _____ have to meet _____ know if _____ acceptable?
 _____ there _____ speed requirements _____ help determine whether _____ am _____ established _____?

I _____ a _____ requirement that _____ need to _____ in order to understand _____ am meeting _____ standards.

Is _____ might need to _____ to find _____ if _____ speeds meet _____ standards?
 _____ there _____ benchmark _____ threshold that _____ might _____ to meet _____ know if my _____ speeds comply _____?
 _____ there a threshold _____ to _____ in order _____ know _____ my _____ with industry standards?
 _____ there a benchmark that I _____ see _____ meet _____ industry _____?
 _____ any _____ requirements _____ tell me _____ I am meeting established _____?
 _____ speeds _____ what it would _____ to be an _____?

Do my _____ to _____ used in _____?
 _____ there _____ that _____ have _____ know if _____ speed is in line _____ industry standards?
 _____ that _____ to _____ know if my speed is in line _____ industry standards.

Is _____ or _____ see if _____ speeds meet industry _____?

Can I _____ my _____ meet industry _____?
 _____ you have any _____ demands _____ you _____ determine _____ I _____ established requirements?
 _____ it _____ for me _____ determine _____ speeds _____ industry standards?
 _____ any _____ that measures the _____ of my _____?

Can _____ threshold _____ if my speed _____ industry standards?

Is my speed _____ that _____ must meet?

Do _____ have _____ that _____ if I'm meeting standards?

Can I _____ threshold to _____ if _____ speed is _____?

What _____ the threshold _____ standards with _____?
 _____ my _____ for this industry?

Is _____ a _____ that _____ need to meet in order _____ if my current _____ comply _____?
 _____ be _____ that my _____ meet industry standards?

What are _____ my speeds meet established _____ standards?

Can I _____ meets _____ standards?

I'm _____ need to _____ benchmark or threshold _____ know if my _____ the _____.
 _____ if my speeds _____ established industry standards if I _____?

Do _____ measure up _____ industry _____?

Is _____ a threshold _____ need _____ to know _____ comply with _____?
 _____ a threshold that I need to _____ in order _____ know _____ meets _____?
 _____ my current _____ up _____ industry _____?

Is _____ a threshold that _____ in order _____ know if _____ matches the _____?

Is _____ a benchmark _____ I must meet _____ if my speed _____?
 _____ a _____ or threshold necessary to know _____ speeds _____ standards?
 _____ there a _____ I need to meet _____ if my _____ is in _____ with _____ of _____?
 _____ my speeds _____ industry _____?

_____ threshold that I _____ reach to _____ my _____ meet the standards?

How _____ I _____ is in line _____ what the _____ wants?
 _____ have speed demands that _____ use to _____ if _____ requirements?

What is it that _____ speed meets _____?

_____ a _____ I _____ to meet to _____ speed is _____ to snuff?

If _____ with industry _____ is _____ a benchmark I need _____?

Do you have _____ will tell _____ if I am meeting _____ requirements _____?

_____ wonder if I _____ benchmark or _____ if my speed is in line with _____.

_____ a threshold _____ if _____ speeds meet standards?

Is _____ a benchmark _____ threshold I need _____ to know _____ up _____ date?

_____ benchmark that I _____ meet to find out if my _____ with _____?

_____ there a benchmark _____ threshold that _____ to _____ if _____ in _____ with industry standards?

_____ know if there _____ threshold for _____ be _____ standard speed.

_____ a _____ threshold I need _____ meet to _____ my speeds _____ with industry _____.

If _____ isn't out of _____ standards, _____ a benchmark _____ I need to meet _____?

_____ my speeds _____ industry _____?

I _____ to know _____ my _____ are compatible _____.

_____ do to know _____ my speeds are in _____ with what _____?

Is there _____ threshold _____ I can _____ to _____ my speed _____?

_____ my speed _____ industry _____?

_____ required _____ keep my speed _____ industry standards?

_____ threshold that _____ to reach to _____ if _____ speed _____ with _____ standards?

_____ a benchmark _____ threshold _____ I _____ reach _____ my speeds meet the standards?

_____ there a benchmark that I can _____ to _____ my _____ industry _____?

Is _____ a benchmark _____ I _____ determine if my speed _____ to _____?

Is there _____ is _____ to determine if _____ meet industry _____?

_____ want to know if _____ speed _____ industry standards _____.

_____ that _____ need to meet in _____ if _____ speed _____ in line with industry standards?

Does the _____ speed need _____ to meet _____?

How can _____ find out _____ my _____ standards?

_____ I know _____ speed matches _____ norm?

_____ can I know _____ my _____ is in _____ expects?

Is _____ benchmark or threshold _____ have _____ meet to _____ if _____ speeds meet _____ standards?

_____ my _____ speeds comply with _____?

_____ I know if _____ speeds _____ within industry _____?

_____ like to _____ if _____ up to industry standards.

_____ my _____ comply with _____ minimum _____ for the _____?

Do I _____ to _____ a _____ know _____ my _____ complies _____ standards?

Is there _____ I might need to _____ know if _____ in _____ with _____ standards?

_____ I see if _____ in _____ with the _____ expectations?

_____ speeds _____ compared _____ industry standards?

_____ there _____ standard that _____ if my speeds _____?

_____ wonder _____ speeds correspond _____ what an industry _____ like.

Do _____ need to _____ a _____ a _____ know _____ my _____ speed _____ acceptable?

I want _____ know _____ I can _____ benchmark _____ if my _____ industry _____.

_____ possible _____ compare _____ speeds with _____ of the _____ benchmark?

_____ compare my speed _____ benchmark?

Is there _____ of _____?

_____ there _____ I will need to _____ to know if _____ in _____ with industry _____?

_____ my speeds match _____ benchmark _____ have?

Can _____ reach _____ standards?

Is _____ benchmark that _____ if my _____ standards?

_____ can I tell if _____ with industry requirements?

Does ____ speed ____ requirements?

____ a ____ or threshold ____ need to meet in ____ to know ____ speeds ____ established ____ standards?

____ a benchmark for ____ speeds meet ____ standards.

____ match industry benchmarks?

____ do ____ know ____ are in line with ____?

____ a benchmark I ____ order to know ____ current speeds comply ____ industry standards?

Is ____ current ____ with industry ____?

____ like to know ____ benchmark for ____ industry-standard speeds.

____ my ____ comply with ____ industry ____?

____ requirements that are used ____ determine if ____ am ____ standards?

____ a threshold ____ I need ____ meet ____ order to ____ if ____ meet ____ standards?

____ there ____ benchmark or ____ that ____ to ____ my speed?

____ speeds conform to ____ industry ____?

Is ____ a ____ or threshold ____ determine ____ speeds meet ____ standards?

How ____ are ____ compatible ____ standards?

What are the ____ define ____ speeds ____ standards?

Is ____ a ____ use to ____ my speed?

I was wondering ____ I could use ____ benchmark or ____ to see if ____.

____ correspond to what ____ industry benchmark ____?

____ current speeds ____ standards, is there a ____?

____ speeds compatible with ____ standards?

____ speed ____ with industry ____?

Is a benchmark ____ to ____ if ____ is acceptable?

____ minimum set for the industry?

____ compared to industry benchmark?
