

[Demo] NLP Dataset for Customer Service Automation

Company Type	Water and Wastewater Utility Companies
Inquiry Category	Wastewater treatment and disposal inquiries
Inquiry Sub-Category	Environmental concerns
Description	Inquiries about environmental impact and sustainability practices related to wastewater treatment and disposal.
Data Size	6,487 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Water and Wastewater Utility Company" customer inquiry. (Purchased data will not be masked.)

_____ plan in place _____ reduce carbon _____ the _____ of your _____ treatment _____?

Are you _____ lower _____ gas _____ at _____ treatment plants?

_____ much effort _____ made _____ emissions from the _____ setup?

_____ you _____ a plan _____ carbon _____ your _____ plants?

_____ there _____ plan to lower emissions _____ water _____?

How _____ cut greenhouse gas emissions _____ plants?

Is there any action _____ decrease _____ emissions _____ your _____ treatment _____?

_____ can you _____ down _____ of CO2 _____ the _____ treatment plants?

_____ there any plan _____ curb _____ water treatment plants?

Are _____ wastewater treatment _____ working towards _____ lower carbon _____?

Do you have _____ to cut _____ from _____ treatment _____?

How _____ the carbon emissions associated _____ water treatment _____?

How _____ you curb carbon _____ from _____ water _____?

_____ from _____ operation of your water _____ something that could be _____.

Is a plan _____ place to _____ carbon _____ the _____?

_____ taken _____ carbon emissions _____ your water _____ plants?

Did _____ have a _____ reduce _____ release _____ your treatment _____?

_____ any measures _____ to minimize carbon _____ treating _____?

_____ is the _____ to _____ emissions _____ your water treatment _____?

_____ you _____ the _____ from your _____ treatment operations?

What _____ has _____ taken _____ the carbon emissions _____ your _____ plants?

Have _____ been taken _____ greenhouse _____ release _____ operating water _____?

Is _____ any _____ taken _____ reduce _____ carbon emissions _____ your _____ treatment _____?

How about _____ cut carbon emissions _____ water _____?

_____ can you _____ of CO2 from _____ plants?

_____ there _____ you _____ do to _____ carbon _____ from your _____ treatment _____?

A _____ emission _____ is required _____ water treatment _____.

_____ any effort _____ reduce carbon _____ from the water _____?

_____ let me _____ if there are _____ to _____ output _____ treatment plants?

_____ any initiatives _____ carbon _____ water and wastewater plants?

How ____ you reduce ____ carbon ____ water ____ facilities?
 ____ to lower carbon outputs by your ____?
 ____ tell ____ there is a plan ____ emissions from ____ treatment facilities?
 Are there ____ being taken ____ your water treatment ____?
 ____ you have a ____ reducing emissions from ____ water ____?
 Take steps ____ reduce the ____ footprint ____ your water ____
 ____ am wondering if there ____ to ____ output ____ operating water ____.

How can ____ down on CO2 ____ water ____?
 Do you have ____ reduce ____ at ____ water treatment ____?
 Will ____ possible to slash ____ in ____?
 What can you do to ____ plants?
 ____ you ____ able ____ cut carbon ____ your ____ treatment plants?
 Are you trying ____ greenhouse ____ in ____ treatment plant?
 ____ the ____ be taken ____ reduce the ____ footprint ____ water ____ facilities?
 Do you ____ treatment ____ while decreasing carbon ____?
 Is there a ____ in ____ for ____ carbon ____ from ____?
 Are ____ working ____ your water treatment ____ to ____ greenhouse ____?
 Can ____ CO2 ____ water ____ spots?
 ____ you ____ plan ____ reduce carbon ____ from ____ treatment plants?
 I want to ____ if ____ are plans ____ decrease ____ when ____ plants ____ operating.
 Do ____ have any measures to limit ____ facility?
 Have measures ____ to minimize carbon ____ in ____?
 ____ you have ____ emissions in your wastewater facilities?
 ____ the ____ to cut ____ wastewater ____?
 Are there ____ plans ____ to ____ carbon ____ your ____ facilities?
 ____ to decrease the carbon ____ of ____ water ____ facilities?
 Do you ____ to ____ emissions ____ treatment plants?
 ____ have a plan ____ greenhouse ____ your ____ treatment plants?
 Can ____ me if there ____ the carbon output ____ water treatment ____?
 ____ working to reduce carbon ____ water treatment ____?
 Can ____ me if you have ____ to lower ____ treatment facilities?
 Did ____ up ____ a way ____ minimize ____ at treatment ____?
 Do ____ plan to ____ emissions from your ____ plant?
 Do ____ a plan ____ lower ____ emissions at ____ stations?
 Is ____ any ____ to reduce ____ gas release ____ water ____?
 Is there a ____ output from the ____ facilities?
 ____ plan to ____ carbon emissions from the ____ treatment ____?
 Is there a reduction ____ at ____?
 ____ your initiatives aim to ____ carbon ____ from ____ and ____?
 ____ be possible to ____ emissions ____ operation of your water ____?
 Are you ____ to ____ greenhouse gas levels ____ treatment ____?
 ____ be an action plan for reducing ____ output ____?
 Do you ____ any initiatives to ____ carbon emissions ____?
 Is there ____ plan ____ cut ____ treatment plants?
 Do ____ a plan to cut carbon ____?
 Reducing ____ emissions ____ the operation of ____ setup is something ____ should ____.

____ the ____ have ____ to lower carbon emissions?
 ____ you ____ up with ____ to reduce carbon ____ treatment ____?
 Reducing carbon emissions ____ water treatment ____ that ____ be ____.

Did you ____ a strategy ____ output ____ water ____ systems?

Are _____ to reduce the _____ of _____ within _____ water purification _____?

Is _____ any attempt _____ the CO2 _____ from _____?

Any _____ reduce emissions _____ CO2 _____ your water _____?

_____ anyone _____ a _____ for carbon-cut _____ plants?

_____ there a _____ to decrease carbon _____ treatment?

_____ you _____ from _____ treatment plants?

Are you doing _____ decrease _____ gas levels released _____ water _____?

Will _____ running your water treatment plants?

_____ me about _____ cut down on carbon emissions _____ treatment plants?

_____ guys _____ a _____ to _____ carbon _____ your water treatment plants?

_____ to reduce _____ gas release in _____ plants

Does anyone know of _____ your _____ plants?

Is there a _____ lower carbon _____ by _____ systems?

What can _____ done to decrease the carbon _____?

_____ we see a _____ CO2 _____ water treatment _____?

_____ you _____ carbon _____ while running your _____ treatment plants?

_____ it possible _____ carbon emissions in _____ plants?

Have _____ taken _____ lower _____ carbon _____ your water treatment _____?

Carbon _____ from your _____ setup _____ reduced.

Reducing _____ emissions _____ water treatment _____ something that may _____ done.

_____ plants working _____ carbon emissions?

_____ wastewater treatment plants cutting carbon _____?

_____ you taking _____ to _____ greenhouse _____ levels in your _____ plants?

_____ taken to _____ discharge of CO2 from the _____?

Do _____ to _____ output in _____ water treatment _____?

_____ to _____ emissions from your water treatment setup.

_____ there anything you can _____ carbon releases _____ water _____?

Is there _____ cut _____ emissions from _____ treatment _____.

_____ it possible to _____ the _____ footprint _____ your _____ plants?

Have _____ reducing greenhouse _____ release at your _____?

Have _____ changes been made to _____ lower CO2 _____?

Is it _____ to decrease the _____ purification facilities?

Is _____ a _____ cutting carbon _____ at _____ water _____ plants?

_____ it _____ to _____ at treatment facilities.

_____ there _____ to _____ CO2 when _____ water?

Do _____ have been taken _____ water treatment?

_____ you have _____ plans _____ lower carbon emissions _____ wastewater _____?

How about _____ down _____ plants?

_____ treatment, _____ being taken to _____ carbon emissions?

Should you _____ a carbon-cut _____?

_____ anyone come _____ a _____ cut carbon _____ from water treatment _____?

I'm wondering _____ there _____ plans _____ reduce _____ water _____ plants.

_____ it possible to _____ down _____ carbon _____ your _____ treatment _____?

_____ there a way to decrease _____ water purification _____?

Are you _____ to lower _____ from your _____?

Are you _____ to reduce greenhouse _____ levels _____ water _____?

Is there a _____ the _____ emissions from _____ treatment _____?

_____ the steps _____ to decrease _____ of _____ water _____ be taken?

Does any action _____ to _____ the _____ emissions _____ treatment plants?

_____ anyone know if there _____ carbon _____ from your _____ treatment setup?

Is _____ plan _____ cut down _____ the _____ emissions _____ the water _____?

Is _____ carbons in wastewater ops?

_____ you have _____ to lower _____ emissions _____ and _____ plants?

Is _____ way to lower _____ carbon output _____ systems?

_____ use _____ CO2 at _____ treatment _____?

Is the water _____ to lower _____ emissions?

_____ can you reduce the _____ emissions _____ treatment _____?

How _____ down on _____ water treatment plants?

_____ done _____ carbon footprint of your water purification _____?

_____ have any _____ emission of CO2 within your _____ process?

_____ can you cut _____ CO2 from _____ plants.

Did your _____ wastewater treatment plants _____ to lower _____?

Will _____ CO2 _____ water treatment _____?

Will _____ plans _____ reduce carbon _____ water _____ plants?

_____ have measures _____ carbon releases _____ your water _____ operations?

_____ a plan _____ carbon-cut for water _____?

_____ there _____ reduce carbon _____ from _____ operation of _____ water treatment setup?

_____ to decrease the carbon footprint of _____ water _____?

Are _____ water _____ plants working _____ reducing carbon _____?

_____ you lower _____ emissions _____ and wastewater plants?

Do you have _____ to lower _____ levels at _____?

_____ me about a plan to reduce _____ emissions _____ facilities?

Is it _____ to cut _____ your _____ facilities?

_____ have any programs _____ lower _____ emissions _____ water _____ wastewater _____?

Is there _____ plan _____ carbon _____ from _____ water _____ facilities?

Is _____ carbon output _____ water treatment?

_____ me _____ are _____ taken to _____ emissions _____ your water treatment plants?

_____ plan for cutting _____ emissions _____ wastewater facilities?

_____ there a plan to _____ from _____ treatment plant?

Are you _____ lower _____ levels _____ your water _____ plants?

_____ there a _____ you _____ reduce _____ water treatment _____?

Do _____ a _____ to _____ emissions from water _____ plants.

_____ plans in _____ carbon emissions at _____ wastewater _____?

Is _____ taken to _____ carbon emissions from _____ water _____?

_____ there a plan _____ lower _____ carbon _____ water treatment _____?

Is it _____ to _____ CO2 output _____.

_____ about the _____ emission reduction plan _____ water _____?

Is there _____ to decrease _____ operating water treatment _____?

Is _____ wastewater treatment _____ working towards lower _____?

Does _____ a strategy _____ lower carbon outputs?

Are _____ carbon output by operating _____ plants?

Is there a _____ lower the carbon _____ of _____?

Will _____ be _____ to cut carbon _____ the water _____?

Do you _____ your _____ plants _____ reducing _____ output?

_____ there a _____ for _____ emissions from the water _____?

_____ you tell _____ if there are any _____ reduce _____ output _____ plants?

_____ there a _____ on the _____ of _____ water treatment plants?

_____ have plans _____ lower emissions _____ your _____ stations?

_____ you _____ a strategy _____ down _____ CO2 _____ water treatment _____?

Are _____ wastewater treatment _____ working to _____ carbon _____?

Are ____ a ____ to ____ carbon emissions from your ____ ____ ____?

____ you reduce ____ ____ treatment?

Have ____ ____ to reduce greenhouse gas emissions ____ ____ treatment ____?

Are you ____ to cut ____ on carbon ____ ____ ____ plants?

Are there ____ you ____ established ____ ____ carbon emissions from ____ and ____ ____?

____ anyone have ____ plan ____ cut ____ in ____ ____ plants?

Is there a way ____ ____ carbon ____ ____ the ____ processing ____?

Can you tell ____ there are ____ reduce the carbon output ____ ____ ____?

Can ____ taken ____ minimize ____ ____ in water treatment?

Do you ____ water ____ wastewater treatment ____ ____ to lower ____ ____?

Are ____ planning to ____ carbon emissions ____ ____ treatment ____?

____ be a plan to reduce ____ ____ at ____ ____ facilities?

____ being ____ decrease the CO2 discharge ____ ____ purifying units?

Do you ____ ____ ____ to ____ ____ emissions from your water ____ plants?

____ possible to ____ carbon emissions ____ your water ____ ____?

Is ____ ____ you ____ do ____ limit carbon releases ____ your water ____ ____?

____ own a carbon emission reduction ____ for your ____ ____ ____?

____ your ____ wastewater treatment plants ____ ____ carbon emissions?

____ you know ____ about cutting carbon ____ from ____ ____ ____?

How ____ measures ____ ____ minimize carbon output ____ water ____?

Is ____ a way to lower carbon ____ ____ ____ ____ system?

Do ____ have any plans ____ reducing ____ emissions at ____ ____ ____?

How can ____ ____ down on ____ ____ ____ plants?

____ ____ any ____ to ____ carbon emissions in ____ ____ plants?

Are ____ involved in ____ ____ ____ levels in ____ water treatment ____?

____ ____ ____ any initiatives that will ____ carbon emissions ____ water and ____ ____?

____ you able to ____ the greenhouse ____ ____ ____ treatment plants?

____ ____ ____ limit ____ releases from your water ____ operations?

____ ____ action been taken ____ decrease the carbon ____ ____ the water ____ ____?

____ you ____ any ____ ____ reduce carbon emissions ____ ____ wastewater facilities?

Will ____ be ____ ____ decrease the carbon ____ of ____ water ____ ____?

Is ____ any ____ to reduce the ____ ____ of ____ ____ water purification ____?

____ you ____ ____ if ____ are ____ ____ decrease ____ ____ by operating the water ____ plants?

____ a ____ developed to ____ carbon ____ ____ your water processing ____?

Is there a ____ ____ ____ carbon ____ at your ____ ____ ____?

How ____ ____ reduce greenhouse gas release ____ ____ ____ facilities?

____ there a strategy ____ ____ ____ in your ____ processing systems?

There are ____ that ____ be ____ to ____ carbon footprint of ____ water ____ ____.

____ there any ____ ____ ____ curb ____ emissions ____ your water treatment plants?

____ ____ ____ lower the carbon emissions from ____ and wastewater ____ ____?

Has something been ____ to ____ the ____ ____ ____ your water ____ ____?

Is there ____ ____ to reduce carbon ____ ____ treatment ____.

Are you thinking ____ ____ ____ in ____ ____?

Is ____ a ____ to ____ ____ emissions from ____ ____ wastewater plants?

____ wondering ____ there ____ ____ to ____ the ____ output ____ the water treatment ____.

____ ____ ____ if there ____ plans ____ ____ carbon output by ____ the water ____ plants.

Has measures ____ taken ____ reduce ____ ____ release in water ____ ____?

____ your carbon ____ reduction ____ apply ____ ____ water ____ plants?

____ ____ ____ cut down ____ CO2 in water treatment ____?

The carbon ____ of ____ ____ treatment ____ have ____ ____ lowered.

Is an _____ set up to _____ from _____?

Is there _____ to _____ on emissions from your _____?

_____ a plan to _____ emissions at _____ facilities?

_____ efforts _____ being made to reduce _____ emissions from the _____ your _____?

_____ water _____ wastewater treatment plants work _____ emissions?

Do your _____ treatment _____ have _____ reduction _____?

Carbon emissions from the operation of _____ setup _____.

Is _____ way _____ water processing systems _____ lower _____ output?

What are the plans _____ the emission _____ CO2 _____ purification _____?

_____ you _____ a _____ carbon _____ from your water treatment _____?

_____ up _____ way to _____ carbon pollution at treatment _____?

_____ an _____ to decrease _____ running your water _____ plants?

_____ a strategy _____ emissions from your water processing _____?

_____ there carbon _____ plans _____ your water _____ plants?

_____ during water _____ is something you are _____.

Are _____ working to lower _____ by _____ water _____ plants?

Are your water _____ wastewater _____ plants making efforts _____?

_____ there ways _____ minimize carbon _____ in _____?

Would you like _____ in _____?

_____ been _____ to lower the carbon _____ of _____ treatment _____?

Is there something you _____ to limit carbon releases _____?

Has _____ done _____ carbon _____ of your water treatment _____?

_____ you _____ on _____ from water _____?

_____ there _____ carbon-cut plan _____ your _____?

Do _____ to cut _____ in _____ water treatment plants?

Did any action _____ taken _____ the _____ water treatment plants?

_____ there a way _____ carbon _____ at treatment _____?

_____ there a _____ to _____ carbon _____ from _____ wastewater plants?

_____ running _____ treatment plants, are you working on _____?

Any _____ made to reduce _____ emissions _____ the _____ setup?

Do you _____ to decrease carbon _____ operating _____ treatment _____?

_____ cutting carbons _____ wastewater _____?

Reducing _____ emissions _____ the operation of your _____ has _____.

Reducing carbon _____ from _____ water treatment setup is something _____.

_____ are _____ plans for _____ carbon emissions _____ facilities?

Reducing carbon emissions produced during _____ are an _____.

_____ will you lower _____ footprint of _____ purification _____?

_____ think you _____ carbon _____ water treatment plants?

Is _____ plan for reducing carbon _____ treatment _____?

What is _____ plan _____ from _____ treatment plants?

What _____ your _____ down _____ CO2 in water treatment _____?

_____ there a plan for _____ your water _____ plants?

_____ steps _____ taken to _____ the _____ footprint _____ purification facilities?

_____ you _____ CO2 at the _____?

_____ plan _____ carbon-cutting your water _____?

_____ you _____ a strategy _____ lower carbon emissions _____ processing _____?

_____ you established any initiatives _____ emissions from water _____?

Have _____ to _____ emissions from _____ water treatment plants?

_____ plan to _____ the _____ of CO2 in your _____ purification _____?

Do _____ any initiatives that _____ aimed _____ decreasing _____ emissions _____ water and _____?

Can _____ there is _____ plan to _____ output _____ operating water _____ plants?
 _____ you come _____ a way _____ carbon pollution at _____?
 _____ plan to _____ carbon emissions _____ the water _____ plants?
 _____ the actions being _____ to decrease _____ discharge _____ the purifying _____?
 _____ plan _____ for reducing carbon _____ the water treatment plants?
 _____ if there _____ to decrease carbon output from _____ water _____.
 _____ reduce _____ water treatment?
 _____ your treatment _____ to _____ emissions?
 Can you tell me about _____ lower carbon output _____?
 Is your water _____ wastewater treatment _____ to _____?
 _____ trying to lower greenhouse gas _____ at _____ plants?
 _____ plan _____ the carbon emissions _____ your water _____ plants?
 _____ to _____ carbon output in water _____?
 How _____ reduce _____ emissions _____ your water _____ operations?
 The plan to _____ from _____ treatment plants?
 Do _____ know _____ there are _____ carbon _____ operating _____ treatment plants?
 _____ down on CO2 _____ water _____?
 _____ consider _____ carbon _____ while running your _____ treatment _____?
 Have there _____ lower the _____ output from treatment _____?
 _____ there anything you _____ carbon emissions from water and _____?
 Did _____ hear about _____ to _____ carbon _____ water treatment _____?
 How _____ you _____ carbon _____ treatment _____?
 _____ there a _____ emissions _____ water treatment facilities?
 Are _____ to reduce _____ levels at your _____?
 Will _____ steps _____ decrease _____ facility's carbon footprint?
 Will you _____ reduce _____ water _____?
 Has _____ been _____ way to minimize _____ treatment _____?
 steps _____ to _____ the _____ footprint of _____ water _____ facilities
 _____ way to _____ the output of CO2 _____ facilities?
 _____ the water and wastewater _____ plants _____ a reduction _____?
 Are _____ reduce the greenhouse gas _____ in _____ treatment _____?
 Is _____ possible _____ emissions _____ water treatment facilities?
 Are _____ carbon output at _____ treatment _____?
 Do _____ any _____ to cut carbon _____ from _____ plants?
 _____ an action _____ reducing _____ output from _____ process exist?
 _____ you have _____ plan to _____ carbon _____ from the _____ treatment _____?
 _____ there an effort _____ emissions from _____ water _____ setup?
 _____ you _____ the _____ footprint of your water _____?
 _____ there a _____ cut carbons in _____.
 How _____ cutting down on carbon _____ facilities?
 _____ there a _____ reduce carbon _____ from _____ water treatment _____?
 Are _____ water _____ plants working to _____ carbon _____?
 _____ your water treatment _____ planning to _____?
 Are your water _____ wastewater treatment plants _____ emissions?
 What are your plans to _____ on _____ plants?
 _____ can _____ decrease the _____ your _____ purification facilities?
 _____ guys able to cut down _____ your _____ treatment _____?
 _____ there _____ to _____ outputs from your water _____ systems?
 Are there _____ cut _____ from your _____ facilities?
 Is there _____ cut _____ water cleaning?

Are _____ taken _____ decrease the discharge _____ from the purifying _____?

_____ have a plan to reduce _____ the _____ of _____ water treatment _____?

Will there _____ ways _____ reduce the carbon footprint _____?

_____ you reduce CO2 _____ the _____?

Measures should _____ taken to minimize _____ treating _____.

Are _____ plans in _____ to lower carbon _____ treatment facilities?

_____ action _____ taken _____ lower carbon _____ from _____ water _____ plants?

Did _____ establish _____ lower _____ emissions _____ water _____ wastewater plants?

_____ any plan _____ water plants?

Is there _____ plan _____ carbon _____ from _____ water _____ plants.

_____ an _____ made to reduce carbon _____ treatment setup?

_____ going _____ reduce carbon _____ from _____ water treatment operations?

_____ you _____ to _____ greenhouse _____ levels at _____ water _____ plants?

_____ slash carbons _____ in wastewater ops?

Is _____ plan _____ lower the CO2 _____ facilities?

_____ you like to _____ down _____ water treatment plants?

Do you _____ a _____ decrease _____ output _____ running your _____ treatment _____?

Does _____ treatment _____ have a Carbon _____ Plan?

Are your water and _____ plants _____ towards _____ carbon _____?

Have _____ been taken to _____ carbon emissions _____ water _____ plants?

Are _____ about cutting carbon _____ your water _____?

_____ there _____ minimize carbon pollution _____ treatment _____?

Is _____ cut carbon emissions from _____ treatment _____?

How do _____ plan _____ reduce _____ emission _____ within _____ purification processes?

Are your water and _____ lower _____ emissions?

_____ there _____ way _____ lower _____ emissions from your _____ treatment _____?

Will _____ be _____ reduce _____ the _____ treatment spots?

Is there _____ output of your _____ processing systems?

_____ it _____ taken _____ CO2 _____ from _____ purifying units?

_____ being taken to _____ emissions from _____ plants?

Do you _____ you have a _____ carbon emissions from _____?

_____ you _____ plans to decrease carbon output _____ the _____?

_____ there _____ strategy to _____ from water _____ facilities?

Are there _____ to _____ water treatment plants?

_____ you _____ plans to cut carbon _____ at _____ facilities?

Do _____ a plan _____ cut carbon emissions _____ water _____.

_____ produced _____ treatment is a topic _____ are addressing.

_____ action have _____ decrease the carbon emissions _____ water treatment _____?

_____ you _____ any _____ reduce the _____ CO2 _____ your water _____ processes?

Are _____ and wastewater treatment _____ working _____ carbon _____?

Did your _____ plants _____ carbon emission _____?

_____ a strategy for lower carbon _____ processing systems?

_____ measures _____ been _____ lower the _____ output _____ treatment facilities?

_____ to reduce _____ from _____ water treatment facilities?

Is _____ you can do to _____ your _____ footprint?

_____ you _____ if _____ are _____ to _____ carbon emissions from _____ water treatment _____?

_____ there _____ cut _____ emissions in your treatment _____?

Do you have any _____ emissions _____ or wastewater _____?

Are _____ on _____ plan to cut _____ your water _____ plants?

Is there a way to _____ output _____ systems?

Do you ____ a plan ____ reduce ____ at your ____ ?
 Do you ____ your water treatment ____ to ____ carbon ____ ?
 ____ can you ____ water treatment ____ carbon ____ ?
 Do you have a plan to ____ carbon ____ ?
 Did ____ have ____ water plants?
 Can you tell ____ if ____ plans to reduce carbon ____ from ____ ?
 Is ____ a strategy ____ output ____ the water ____ systems?
 Is there ____ decrease CO2 discharge from ____ the ____ ?
 ____ a carbon-cut plan for ____ plants?
 Have there ____ any ____ taken ____ emissions ____ your water ____ plants?
 Will ____ reduce ____ amount of ____ in ____ treatment ____ ?
 ____ there any effort to ____ carbon emissions ____ the ____ setup?
 Are ____ to ____ carbon ____ water treatment plants?
 ____ you planning to ____ emissions ____ water treatment ____ ?
 ____ been ____ to cut down on carbon ____ your ____ ?
 ____ water treatment ____ have ____ plans?
 ____ you any plans for ____ at ____ wastewater ____ ?
 Are there ____ are taking ____ curb carbon ____ treatment plants?
 ____ to ____ carbons in wastewater ____ ?
 ____ you ____ a ____ carbon emissions from treatment plants?
 Are there ____ to ____ from ____ treatment plants?
 ____ any way to ____ CO2 ____ from ____ facilities.
 Is ____ way to ____ gas release from ____ facilities?
 ____ you cut CO2 during ____ ?
 Do ____ to ____ emissions from water and ____ plants?
 ____ has been ____ cut ____ on carbon ____ your ____ facilities?
 Is there ____ to ____ carbon pollution in ____ ?
 ____ have a carbon ____ plan ____ water ____ plants?
 ____ there ____ to ____ carbon footprint of ____ water ____ facility?
 ____ way to reduce carbon emissions ____ the ____ treatment ____ ?
 Do your ____ treatment ____ plans to ____ emissions?
 ____ plans to ____ the ____ output from the water treatment ____ .
 Will ____ reduce the ____ in water ____ ?
 ____ your ____ treatment ____ carbon emission ____ ?
 Is ____ for reducing ____ release in ____ treatment facilities?
 ____ you have ____ plan ____ cut down ____ carbon ____ your treatment ____ ?
 Is there ____ plan ____ carbon ____ of ____ water treatment ____ ?
 ____ to limit ____ releases ____ facility ____
 ____ reduce carbon pollution at ____ facilities.
 Are ____ lower greenhouse gas ____ by ____ water ____ plants?
 ____ plan to ____ in Wastewater Operations?
 Do ____ have a plan ____ slash ____ ops?
 ____ plans to cut emissions in ____ treatment ____ ?
 Should ____ carbon-cut ____ the water plants?
 carbon-cut plan ____
 ____ your ____ wastewater ____ plants working on reducing ____ carbon ____ ?
 The water ____ a ____ .
 ____ you ____ anything ____ greenhouse ____ levels released by ____ water treatment ____ ?
 Is there ____ plan to ____ greenhouse ____ release ____ treatment ____ ?
 ____ the ____ emissions ____ your water treatment ____ lowered?

Was _____ to slash _____ in wastewater _____?

Is _____ anything being _____ to _____ the CO2 _____ from _____?

_____ be _____ to _____ carbon emissions from the _____ treatment _____?

Will _____ to _____ from your water treatment plants?

At your _____ any _____ greenhouse gas release?

_____ working to _____ you run your _____ treatment plants?

_____ you actually have _____ to _____ water treatment plants?

Will an action _____ set _____ to _____ carbon _____ the _____ process?

_____ a _____ your water plants?

Do _____ a plan _____ greenhouse _____ releases at your _____?

Is there _____ carbon _____ by water _____ systems?

Is _____ plan in place to _____ carbon emissions from _____?

_____ to reduce carbon emissions _____ your treatment _____?

_____ me if there _____ plans to decrease _____ output _____ water treatment _____?

Have _____ established _____ lower _____ emissions from the water _____ wastewater _____?

_____ initiatives _____ carbon emissions from water _____ wastewater plants?

Is your water and _____ treatment plants _____ anything _____?

Is _____ for _____ carbon output in your _____ systems?

Reducing _____ emissions _____ water _____ is an issue _____ are _____.

How about _____ from _____ water treatment plants?

_____ come _____ with ways _____ pollution in treatment facilities?

Is there _____ reduce carbon emissions _____ water _____ setup?

There are _____ releases in your _____ facility _____.

Is _____ water _____ plants working on _____ carbon _____?

How _____ carbon _____ at _____ wastewater _____?

Is _____ a carbon- _____ plants?

_____ strategy _____ lower _____ carbon output _____ water processing systems?

_____ there _____ can do _____ carbon _____ in your water _____?

_____ to _____ carbons in _____.

What _____ carbon-cut _____ water plants?

Is it possible _____ water _____ spots?

Are _____ able to cut _____ the amount _____ CO2 _____ water _____?

_____ you have _____ carbon _____ from _____ water treatment plants?

_____ measures been _____ to _____ output from treatment _____?

_____ you going _____ cut carbon _____ your _____ plants?

_____ you have _____ to _____ pollution in treatment _____?

Are there _____ to decrease _____ output by _____ plants?

Do _____ have a plan for _____ plants?

_____ you _____ measures _____ limit _____ releases in your _____ operations?

_____ you _____ anything to lower _____ your water treatment plants?

A plan _____ cut _____ wastewater _____?

_____ you have any _____ for reducing _____ emissions _____ wastewater _____?

What is _____ from water treatment plants?

Do you work on _____ greenhouse _____ treatment plants?

I _____ to know _____ there are plans _____ output _____ operating the water _____ wastewater.

_____ plan _____ cut _____ from water _____ plants?

_____ there _____ steps taken _____ emissions during water _____?

_____ there plans _____ carbon emissions _____ your water _____?

_____ you know what _____ being taken to curb _____ emissions _____ treatment _____?

Is there _____ to slash _____ at _____ wastewater _____?

_____ water treatment _____ a plan _____ carbon emissions?

Can you _____ a _____ for water plants?

_____ to reduce _____ operations.

_____ any plans to cut _____ at the _____?

How are you _____ to _____ on CO2 at _____?

_____ have a _____ emission reduction plan _____ your _____?

Any _____ to _____ carbon _____ plants?

_____ there _____ plan for _____ carbon emissions from _____ facilities?

Do _____ any initiatives _____ are _____ lower _____ from water and _____ plants?

_____ you have a plan for _____ greenhouse _____ treatment _____?

Any _____ to _____ in your _____?

Is there any plan to _____ emissions _____ treatment _____?

Are you _____ carbon _____ the water treatment _____?

Do _____ have _____ cut _____ emissions at _____ wastewater facility?

How can _____ the carbon _____ treatment operations?

Can _____ measures _____ to lower _____ treatment facilities?

Are you taking _____ lower _____ greenhouse _____ levels in _____ plants?

Have any _____ taken _____ the _____ emissions _____ water treatment plants?

_____ there a plan to _____ the _____ emissions from _____?

Is _____ any plan _____ emissions _____ wastewater facilities?

Is _____ strategy for _____ from _____ water treatment facilities?

_____ cutting _____ emissions at _____ water treatment _____?

Are _____ a plan _____ down on _____ emissions _____ your water treatment _____?

Will _____ decrease _____ spots?

I am wondering _____ there are _____ output _____ treatment plants.

_____ have initiatives _____ to _____ emissions _____ water and wastewater plants?

_____ can you _____ releases _____ your _____ facility?

_____ any method for cutting _____ during _____?

Do _____ a _____ for _____ CO2 from _____ treatment _____?

_____ steps _____ taken _____ curb carbon emissions from _____ treatment _____?

Do _____ know _____ to _____ carbon _____ at treatment _____?

_____ you have _____ plan _____ cut _____ in _____ water _____ plants?

What can _____ to _____ the _____ emissions from _____ operations?

There _____ a strategy for lowering _____ your water _____.

Are _____ taking steps to _____ emissions?

_____ can you _____ in your water facility?

_____ way to _____ from water treatment plants?

Do you _____ plans _____ carbon _____ from _____ treatment _____?

Is _____ a carbon- cut _____ your _____?

_____ reduce _____ near water _____ spots?

How _____ cut the amount of _____ from _____?

Do you work on _____ gas levels _____ water _____?

_____ you _____ any _____ cutting _____ emissions from your wastewater _____?

Is _____ a plan _____ cut _____ your water _____?

_____ there _____ cut carbon emissions _____ your water _____ plants?

_____ action _____ been _____ lower _____ emissions from your _____ plants?

_____ in _____ reduce _____ emissions in your water treatment _____?

How do you reduce _____ the _____ plants?

_____ there a strategy to reduce _____ emissions _____?

_____ to reduce CO2 at _____ treatment _____?

____ you guys have a plan ____ carbon emissions from ____ ?
 ____ have ____ plans ____ cut carbon emissions at ____ wastewater ____ ?
 Do ____ plans ____ emission of CO2 ____ your water ____ processes?
 ____ planning on cutting ____ carbon ____ from ____ water treatment ____ ?
 ____ you run ____ to decrease carbon output?
 Does ____ water ____ measures to ____ carbon releases?
 ____ cut carbon emissions ____ your ____ treatment plants?
 ____ release should be ____ at ____ treatment ____ .
 ____ down ____ carbon emissions from your water treatment ____ ?
 ____ there ____ to lower the ____ emissions of ____ water ____ plants?
 The carbon ____ plants need to ____ lowered.
 Want to ____ carbon ____ at ____ ?
 ____ you ____ have a plan ____ cut ____ treatment plants?
 How ____ reducing ____ in water treatment ____ ?
 Does ____ lower ____ emissions from ____ water treatment facilities?
 ____ you ____ to cut ____ CO2 ____ water ____ plants?
 ____ do you reduce ____ amount of ____ emissions ____ water ____ ?
 ____ you have any ____ to lower ____ from ____ wastewater plants?
 ____ you ____ me ____ there ____ plans ____ decrease carbon output ____ water ____ ?
 ____ you ____ you ____ a ____ cut carbon emissions from ____ treatment ____ ?
 ____ plan ____ place for ____ carbon emissions ____ your ____ plants?
 Have you ____ to ____ the ____ emissions ____ water treatment ____ ?
 ____ an effort to lower carbon ____ from ____ operation ____ wastewater ____ ?
 Is there a plan ____ reducing ____ from ____ treatment ____ ?
 Are ____ plans ____ wastewater operations?
 Are you ____ to lower ____ greenhouse ____ levels ____ your ____ treatment ____ ?
 ____ you have ____ carbon emissions from ____ treatment facilities?
 ____ be ____ reduce carbon emissions ____ your ____ treatment setup?
 ____ can ____ lower ____ output from the ____ facilities?
 ____ being ____ reduce ____ emissions ____ the water treatment setup?
 How ____ you ____ CO2 from ____ ?
 ____ plans to reduce ____ emissions ____ within ____ water ____ processes?
 Does ____ treatment plants ____ a ____ reduction plan?
 Was ____ carbon-cut plan ____ plants?
 ____ the greenhouse gas footprint ____ wastewater ____ need ____ be reduced?
 ____ will the ____ footprint of ____ water ____ reduced?
 Did you ____ on ____ carbon ____ while running ____ treatment ____ ?
 ____ there ____ to decrease carbon ____ during ____ treatment?
 ____ a ____ to ____ down on ____ at water treatment ____ ?
 Have ____ action ____ taken to ____ carbon ____ your water ____ plants?
 Is ____ a ____ to lower ____ output ____ your ____ processing ____ ?
 ____ let me know ____ are ____ decrease carbon output from ____ treatment ____ ?
 ____ treatment is an issue that you're ____ .
 ____ cut down ____ carbon ____ at your ____ facilities ____ implemented?
 ____ taking steps to reduce ____ emissions ____ your ____ plants?
 ____ there any plan to ____ operational ____ CO2 within ____ water ____ ?
 Has there ____ for cutting ____ emissions ____ wastewater ____ ?
 Are your ____ and ____ treatment ____ to ____ their carbon ____ ?
 Will there ____ a ____ plants?
 Are ____ to lower carbon emissions?

____ plan ____ carbon emissions from water ____ ?
 ____ there a way ____ emissions ____ treatment facilities?
 Will ____ steps ____ the ____ of the water ____ facilities?
 Is there a ____ to ____ the greenhouse gas ____ ?
 ____ of your water ____ plants need ____ lowered.
 Do you ____ plan to ____ emissions ____ your water ____ ?
 ____ you ____ on ____ carbon ____ while you ____ treatment plants?
 Do you have ____ the ____ carbon ____ from your water ____ plants?
 How can ____ carbon emissions ____ treatment?
 Is ____ a ____ lower carbon ____ from ____ water ____ facility?
 Do you have plans ____ reduce ____ plants?
 Do you have ____ plans ____ reduce ____ within ____ water ____ ?
 ____ you limit carbon ____ your water ____ ?
 ____ there ____ any effort ____ reduce carbon emissions ____ your ____ setup?
 ____ on ____ output when running your water ____ plants?
 Are you ____ on decreasing carbon ____ in ____ ?
 ____ measures to ____ in water treatment plants?
 ____ carbon output ____ running your treatment plants?
 Is ____ way ____ output by water processing ____ ?
 ____ you ____ any plan to ____ carbon ____ from ____ plants?
 ____ you ____ strategy for lowering ____ output ____ your ____ processing ____ ?
 There ____ to ____ carbon emissions ____ water ____ plants?
 ____ there any ____ to reduce the ____ emissions ____ your ____ treatment ____ ?
 Are your ____ wastewater ____ plants trying ____ carbon ____ ?
 ____ have ____ to reduce ____ emissions at your ____ ?
 ____ any ____ to reduce ____ of CO2 within your ____ ?
 How do ____ cut CO2 ____ treatment ____ ?
 Is there ____ plan ____ to ____ the ____ emissions ____ your ____ plants?
 ____ do ____ cut down on ____ water ____ ?
 ____ a ____ for ____ carbon emissions from ____ operations?
 Did you work ____ carbon ____ running water ____ ?
 Is there ____ way ____ reduce ____ emissions ____ operations?
 ____ specific plan ____ decreasing carbon emissions ____ treatment plants?
 Is there ____ cut down on ____ at ____ facilities?
 ____ can ____ amount ____ CO2 from water treatment ____ ?
 Is ____ a ____ to ____ emissions from ____ treatment ____ ?
 ____ your ____ and wastewater ____ doing ____ about the carbon ____ ?
 ____ capable ____ cutting ____ emissions ____ your water treatment ____ ?
 Have ____ to lower carbon ____ from water and ____ ?
 ____ any attempt being ____ to ____ emissions ____ water treatment setup?
 ____ a ____ to curb carbon emissions at ____ water ____ ?
 Should ____ water treatment plants ____ emission ____ plan?
 Is there ____ plan ____ the carbon ____ from ____ facilities?
 Does ____ know how ____ carbon emissions from ____ water ____ ?
 ____ plan to cut water ____ plant ____ emissions?
 Are there ____ to ____ during ____ ?
 Reducing ____ release ____ treatment facilities?
 Are ____ to reduce carbon ____ from water ____ ?
 Are there ____ initiatives ____ aim ____ decrease ____ emissions from water ____ ?
 Is ____ a plan ____ lower ____ emissions ____ your ____ treatment plants?

Any _____ to _____ carbon _____ your water treatment setup?

Is _____ taken _____ CO2 discharge from the _____?

_____ there _____ way _____ carbon output _____ the _____ processing systems?

How _____ reducing operational _____ of CO2 _____ processes?

Will you tell me if there are _____ to _____ water _____?

_____ can you _____ on CO2 _____ water treatment _____?

Is there a _____ limit _____ in _____ facility _____?

_____ you lower _____ treatment?

Are _____ planning _____ cut _____ at your _____ plants?

Are you _____ to decrease _____ at _____ treatment _____?

_____ you have _____ to _____ amount of _____ in water treatment plants?

Is it _____ down _____ carbon emissions _____ wastewater _____?

Can _____ tell me _____ strategy to _____ from water treatment _____?

Is _____ plan _____ place _____ from the water treatment _____?

Do you _____ plans _____ emission of CO2 _____ water _____ processes?

Will you _____ decreasing _____ running your water _____?

Are _____ being taken to limit carbon _____ from _____?

Has anyone _____ to lower the _____ of _____ treatment _____?

_____ it possible _____ carbon releases in your _____?

Is _____ a strategy in _____ to decrease _____ emissions _____?

Is _____ going to be _____ spots?

Are _____ taking steps to _____ output in your _____?

_____ there _____ CO2 during water cleaning?

_____ there a plan for decreasing _____ emissions _____?

_____ plan to _____ emissions _____ water treatment plants?

_____ your _____ processing _____ a strategy _____ carbon output?

Any efforts being made _____ reduce _____ the _____ treatment _____?

Does the water treatment plants have _____?

There _____ can take to curb _____ emissions _____ your _____ plants.

Can you _____ me _____ to _____ the carbon _____ of the water treatment _____?

_____ plans to _____ the _____ of _____ your water purification _____?

Your water _____ may _____ a _____ reduction plan.

_____ it _____ possible _____ reduce CO2 at _____ water _____?

Will _____ be _____ to decrease _____ carbon footprint _____ water _____?

Would _____ to reduce _____ emission of CO2 _____ your _____ purification _____?

_____ you _____ methods to diminish _____ treatment facilities?

_____ planning _____ slash carbons _____ operations?

_____ establish any initiatives _____ emissions from water _____ wastewater _____?

Any plans _____ the emission _____ CO2 _____ water purification _____?

Have any _____ been made _____ the _____ emissions _____ water _____ plants?

Do you _____ plans in place for _____ carbon _____ at _____?

How can you _____ from water _____.

_____ for reducing _____ of CO2 _____ your water purification processes?

_____ there _____ to curb the _____ from _____ treatment plants?

_____ be taking _____ decrease _____ carbon footprint _____ your _____ purification facilities?

Do you know _____ there _____ decrease _____ output from the _____?

_____ there _____ way _____ emissions _____ your water treatment facility?

_____ you _____ any steps _____ curb _____ your _____ treatment plants?

_____ your _____ or _____ treatment plants _____ lower _____ emissions?

Are _____ reduce greenhouse gas levels _____ your _____ treatment _____?

Is _____ a _____ cutting down carbon emissions _____ treatment _____?

_____ you working on _____ the _____ of _____ water treatment _____?

_____ carbon _____ in your water treatment _____?

Is _____ steps _____ to _____ carbon _____ from your _____ plants?

Do you _____ a _____ to reduce _____ emissions _____ water _____?

Do you _____ a _____ to _____ carbon _____ from water _____?

_____ way to cut CO2 during _____?

_____ there a plan to reduce _____ emission _____ CO2 _____ the _____?

How _____ CO2 at the _____ spots?

Would you like _____ water treatment plants?

Will _____ steps taken to _____ carbon emissions _____ water _____?

Is _____ any _____ to reduce _____ emission _____ CO2 _____ your _____ purification _____?

Is there _____ to _____ emissions _____ treatment plants?

_____ action _____ for _____ output _____ the _____ process in place?

How can _____ emissions from _____ water _____ operations.

Do _____ have _____ to _____ carbon _____ from _____ water treatment _____?

Is _____ a _____ for _____ carbon _____ treatment facilities?

_____ a plan _____ how _____ carbon emissions from the _____ treatment _____?

Are _____ to decrease your water _____ carbon _____?

_____ plans _____ reduce the emission of _____ in your _____ purification _____?

_____ lowering the carbon emissions _____ your water treatment plants?

_____ have a carbon emission reduction plan?

Do you _____ to decrease _____ carbon _____ water _____ facilities?

There _____ to _____ emissions in _____ water treatment plants.

How can _____ reduce the _____ emissions _____ your _____?

Is there any _____ being _____ carbon _____ from the water _____?

Can you tell me _____ a _____ lower _____ emissions _____ water _____?

There _____ be measures _____ carbon releases _____ the _____.

Is _____ way to cut _____ CO2 _____ water _____?

Is a _____ place _____ carbon _____ your water processing _____?

_____ can you _____ greenhouse _____ your treatment plants?

_____ there any _____ to decrease the _____ CO2 from _____ units?

_____ you have _____ plans _____ lower carbon _____ the operation of _____ and _____?

_____ been _____ to lower _____ in _____ water treatment plants?

_____ there _____ cutting carbon for water _____?

How _____ reduce _____ emissions _____ water treatment _____?

_____ plan to lower _____ emissions of your _____ plants?

_____ there _____ plan to _____ of _____ from your _____ treatment plants?

_____ initiative _____ at lowering carbon _____ from _____ operation of water _____ plants?

Will changes _____ to decrease _____ of _____ purification facilities?

Are actions _____ to _____ the discharge of CO2 _____?

Reducing _____ emission of _____ water purification _____?

Is there a _____ limit _____ releases _____ your _____?

Are _____ any carbon _____ for _____ plants?

Do you _____ place for cutting _____ your wastewater _____?

Are you working _____ decreasing _____ in _____ treatment plants?

Do you _____ cutting _____ emissions from _____ water _____?

_____ know a _____ for _____ carbon _____ from water treatment _____?

How _____ you reduce _____ your water treatment _____?

Would _____ to cut _____ emissions at your _____?

Do _____ a _____ to _____ emissions from _____ treatment plants?
 _____ being _____ lower the _____ emissions _____ your water _____ plants?

Did you _____ plan to cut _____ emissions _____ plants?

How _____ carbon-cut _____ for _____ plants?
 _____ you _____ CO2 _____ the _____ treatment _____?

Are _____ water treatment _____ to _____ emissions?

Is there a _____ your water treatment operations?

Do your _____ treatment plants _____ plan for _____?
 _____ there steps being taken to _____ carbon _____ your _____?
 _____ there any _____ carbon releases in your water _____?

Is _____ a plan _____ reduce the _____ your _____ plants?
 _____ minimize carbon _____ in treatment _____?
 _____ efforts are _____ to reduce _____ emissions _____ your _____ treatment _____?

Are _____ a _____ to _____ at your _____ treatment plants?

What measures have been _____ lower the CO2 _____ treatment _____?

Is there a way _____ CO2 _____?

Have _____ been _____ taken _____ the CO2 _____ from _____ facilities?
 _____ there _____ action _____ about reducing carbon output _____ wastewater _____?
 _____ can do to _____ the _____ gas _____ of your water and _____?
 _____ to _____ on _____ at your wastewater facilities
 _____ there _____ limit carbon releases in your _____?
 _____ a _____ on how to cut carbon _____ water _____ plants?
 _____ any plans for _____ carbon emissions _____ your _____?

Will _____ be able _____ the carbon footprint _____ your _____?

What are the steps being _____ emissions _____ your _____ treatment _____?
 _____ you _____ that there _____ a _____ emission _____ for _____ water treatment _____?

Do steps _____ to reduce carbon emissions _____ treatment _____?

Will _____ to _____ the _____ footprint of _____ purification facilities.
 _____ you _____ any _____ lower carbon emissions from water _____ wastewater _____?
 _____ carbon _____ from _____ treatment setup is _____ should be looked _____.

Is _____ a _____ carbon output _____ the water treatment plants?

Will you _____ the _____ area?

Are there _____ in _____ emissions at your wastewater _____?
 _____ me _____ a plan for reducing _____ emissions from _____ water _____?
 _____ anyone know _____ plan _____ cut _____ emissions _____ water treatment _____?

Do you _____ lower emission _____ at _____ stations?
 _____ are you _____ carbon emissions _____ wastewater facilities?

Are _____ working to decrease _____ output in _____?

Do _____ reducing _____ at water _____ spots?

Are the actions _____ the CO2 discharge _____ units?

Has anyone done _____ lower _____ carbon emissions of _____?
 _____ cut _____ the _____ from water treatment plants?

Are there _____ initiatives to reduce _____ emissions from _____?

Do _____ there _____ plans _____ the carbon _____ generated _____ the _____ treatment plants?

Is there _____ to _____ cleaning?
 _____ you get rid _____ CO2 _____ treatment plants?

Is there any _____ lower _____ water treatment plants?

Do you have a _____ reduce carbon _____ water _____?
 _____ steps _____ taken to _____ carbon emissions _____ water _____?

I _____ wondering if _____ are _____ to _____ the carbon _____ from _____ water _____.

Do you ____ a carbon ____ plan ____ your ____ ?

Have ____ created ____ lower carbon emissions ____ water ____ wastewater ____ ?

____ there a way ____ the ____ output of ____ water ____ .

____ there a ____ for reducing ____ emissions from ____ treatment facilities?

____ plan ____ reduce ____ at the water treatment ____ ?

Do you ____ have ____ plan to ____ carbon ____ from ____ treatment ____ ?

____ working to lower ____ greenhouse ____ levels ____ your ____ treatment ____ ?

____ if there are ____ carbon output from operating ____ plants.

There are ____ decrease carbon ____ treatment.

Any plans for ____ ?

____ taken ____ decrease carbon ____ in water ____ ?

Do you have ____ plan to ____ carbon ____ from your ____ ?

____ you ____ a way to ____ at treatment ____ ?

____ a plan to reduce ____ from ____ treatment plants.

____ you ____ carbon emissions ____ water treatment facilities?

How do ____ cut greenhouse ____ your ____ plants?

Is there a way ____ from ____ plants?

____ you have a way ____ carbon ____ water treatment ____ ?

____ from the ____ your water treatment setup ____ appreciated.

____ reduce ____ at ____ treatment spots?

____ there any ____ for cutting ____ emissions ____ water ____ plants?

____ it possible ____ the ____ emissions ____ the ____ treatment setup?

____ you going to slash ____ your ____ facilities?

____ plan ____ decrease carbon emissions ____ your ____ plants?

Is ____ any steps ____ taken to ____ carbon ____ the ____ plants?

____ water treatment plant ____ plan ____ carbon emissions?

How can you ____ emissions produced ____ water ____ ?

____ any plans ____ curb carbon ____ from ____ water treatment ____ ?

How to ____ down ____ CO2 from ____ ?

Are ____ working ____ greenhouse gas ____ from your ____ treatment ____ ?

____ and wastewater ____ plants doing anything to lower ____ ?

How ____ you ____ CO2 from the ____ plant?

The ____ emissions ____ your ____ treatment plants ____ be ____ .

____ you ____ plans for ____ carbon ____ in ____ wastewater ____ ?

____ to lower ____ gas levels from ____ water ____ plants?

Do ____ to ____ emissions from ____ water ____ plants?

____ plan in place for ____ from ____ water ____ plants?

Are ____ water ____ wastewater treatment ____ to lower ____ emissions?

Take ____ carbon output ____ water ____ .

Can ____ me ____ plans ____ carbon ____ in your ____ treatment plants?

Are ____ water ____ to lower carbon emissions?

____ there a ____ to minimize carbon ____ facilities?

Do ____ anything about a ____ to reduce ____ from ____ treatment ____ ?

____ taken ____ the ____ footprint ____ the water purification facilities?

____ it happening ____ CO2 ____ from ____ the purifying ____ ?

Do you know ____ there are ____ output from the ____ ?

____ you ____ a plan to reduce ____ from your ____ ?

Is ____ any initiatives ____ lower carbon ____ from water ____ ?

____ treatment ____ a carbon emission reduction plan?

____ a ____ cut down on carbon ____ your water treatment plants?

_____ there _____ strategy _____ carbon _____ in the water processing _____?
 Do you know _____ can _____ carbon emissions from _____?
 Will _____ changes be made _____ your water purification facilities?
 _____ can you minimize carbon _____ the _____?
 _____ measures _____ taken _____ reduce carbon emissions _____ facilities?
 _____ to minimize carbon output in _____ treatment?
 _____ up with _____ carbon emissions _____ your water treatment plants?
 Will the steps _____ decrease the _____ water _____ facilities?
 How can _____ on _____ treatment plants?
 _____ anything be done _____ the carbon emissions _____ your _____?
 _____ can _____ to limit _____ releases in the water _____?
 Any _____ to _____ operational _____ CO2 within your _____ processes?
 Is _____ carbon emission _____ plan _____ your _____ plants?
 _____ be taken to decrease the carbon _____ of _____ water _____?
 Are there _____ initiatives that aim _____ carbon _____ water _____ wastewater _____?
 Take measures to reduce _____ of _____ water _____ wastewater _____?
 _____ it possible to reduce _____ gas _____ in _____?
 Have _____ to _____ carbon _____ in _____ water facility?
 What are _____ reduce _____ from water _____ plants?
 How _____ you reduce _____ emissions at _____?
 _____ treatment plants running at _____ carbon _____?
 Is _____ any _____ in _____ to cut carbon _____ facilities?
 Is it _____ to _____ releases _____ your _____ facility _____?
 Is _____ reduce operational _____ of CO2 _____ your _____ treatment processes?
 _____ the _____ being _____ to decrease CO2 _____ purifying units?
 Do _____ want to _____ emissions _____ water _____ plants?
 Is there _____ carbon output _____ water processing systems?
 _____ you considered slashing carbon emissions _____?
 _____ the carbon footprint _____ your _____ purification _____ need to _____?
 _____ any carbon-cut _____ the water _____?
 _____ can _____ the carbon footprint of _____ facility?
 _____ work _____ lowering the greenhouse _____ levels _____ your _____ treatment _____?
 Have _____ been taken _____ output in water _____?
 How can _____ carbon _____ water treatment operations?
 Should _____ have _____ plans _____ carbon _____ at your _____ facilities?
 Measures _____ minimize carbon _____ in _____
 Do _____ have a _____ to cut _____ from _____?
 _____ you have a plan _____ emissions from your _____?
 Is _____ emissions in your water treatment _____?
 _____ there _____ way _____ cut down _____ emissions at _____ facilities?
 Is there _____ plan _____ in your treatment _____?
 _____ your water treatment _____ to _____ down carbon emissions?
 _____ action plan _____ to reduce _____ output from the _____?
 Does _____ have been _____ to _____ carbon _____ your water treatment _____?
 Do _____ treatment plants work to _____ emissions?
 Did you _____ carbon pollution at _____ facilities?
 _____ you have a _____ to cut the carbon _____ water _____?
 _____ have a carbon _____ reduction _____ for your _____ treatment _____?
 Is _____ water _____ plants working toward _____ emissions?
 Will _____ a _____ of CO2 _____ water _____ spots?

_____ there _____ plan to reduce the _____ your _____ plants?
 Do _____ intend to lower _____ levels _____ your _____?
 _____ you have a _____ cutting _____ emissions _____ water treatment _____.
 _____ up _____ methods to minimize _____ pollution at treatment _____?
 _____ have a _____ cut carbon _____ from _____ treatment plants?
 I would like to know if _____ to _____ carbon _____ water _____.
 How _____ you _____ from your water _____ operation?
 _____ lower carbon output in your _____ processing _____?
 _____ measures _____ to _____ carbon output in water _____?
 Does a _____ to _____ carbon _____ treatment plants?
 _____ there any steps _____ to decrease _____ carbon footprint of _____ purification _____?
 _____ plan to _____ carbon emissions from water treatment _____?
 _____ doing _____ down on CO2 _____ water treatment plants?
 _____ able to reduce _____ gases from your _____?
 _____ you _____ planning _____ down _____ carbon emissions _____ water treatment plants?
 _____ doing _____ to decrease carbon output while _____ your _____?
 _____ are being taken to curb _____ your _____ treatment _____.
 Did _____ water _____ treatment plants _____ carbon emissions?
 _____ you _____ CO2 _____ water treatment?
 _____ do _____ reduce greenhouse _____ from your treatment _____?
 _____ you planning _____ the water treatment plants?
 _____ your _____ and wastewater _____ try _____ carbon emissions?
 What can _____ done to _____ carbon _____ treatment _____?
 Does your treatment _____ a _____ plan _____ emissions?
 _____ there _____ lower water _____ carbon output?
 _____ you doing to decrease carbon _____ running _____ plants?
 Do you have _____ pollution at treatment _____?
 Does _____ water _____ plants have a _____ to _____ their _____?
 _____ you have _____ lower _____ emissions _____ water and _____ plants?
 Reducing carbon _____ produced _____ treatment _____ that _____ need to _____.
 _____ your water _____ plants _____ a _____ emission _____ plan?
 _____ there _____ plan _____ reduce emission _____ water purification processes?
 How can you _____ in your _____ facility _____?
 _____ started any _____ to reduce _____ from _____ and _____ plants?
 There _____ be _____ reduce carbon _____ in _____ water _____ plants.
 _____ plan to cut _____ emissions _____ watertreatment plants?
 steps _____ taken to curb _____ from your _____ plants
 Do _____ a _____ cut carbon _____ from your treatment _____?
 _____ the greenhouse _____ of your water _____ wastewater plants _____?
 Are you in a position _____ carbon _____ your _____?
 _____ you _____ greenhouse _____ water treatment _____?
 Did _____ set up initiatives to _____ emissions _____ wastewater _____?
 _____ done to decrease _____ discharge from the _____ units?
 How _____ the carbon _____ associated with _____ treatment?
 Is _____ a plan _____ decreasing _____ in _____ plants?
 _____ there _____ plan to _____ emissions _____ treatment plants?
 I want _____ know _____ there _____ to _____ output _____ operating the _____ treatment plants.
 _____ a _____ to reduce carbon _____ from _____ processing systems?
 _____ it _____ to lower the carbon _____ your _____ processing _____?
 Is there _____ plan for _____ CO2 _____ your water _____ processes?

Have you ____ cutting ____ emissions ____ your ____ treatment ____?
 ____ your water ____ plants ____ emissions reduction plan?
 ____ you ____ a ____ to control carbon emissions ____ your ____?
 ____ there ____ emissions from your water ____ plants?
 ____ a plan to ____ the ____ emissions from ____ water ____ plants?
 ____ you ____ you will reduce CO2 ____ water ____?
 ____ there ____ plans ____ the ____ emissions of ____ water ____ plants?
 Is ____ a way to reduce carbon ____?
 ____ it ____ to decrease ____ discharge from ____ the purifying ____?
 ____ an effort made ____ reduce ____ emissions ____ the operation of ____ setup?
 Will ____ CO2 in ____ treatment ____?
 ____ reduce ____ water treatment spots?
 Will steps ____ taken ____ the carbon ____ purification facilities?
 ____ any ____ being ____ curb carbon emissions ____ water ____ plants?
 ____ you ____ your ____ and ____ treatment ____ are working ____ lowering ____ emissions?
 ____ your ____ and wastewater ____ plants working to lower ____?
 ____ carbon ____ from ____ water treatment setup ____ done.
 ____ there any ____ to ____ during water ____?
 ____ can we cut down ____ water treatment ____?
 ____ tell me ____ have a carbon ____ plan for your water ____?
 ____ you reduce the ____ emissions generated by ____?
 Are ____ taken to curb carbon emissions ____ water ____?
 ____ you guys planning on reducing ____ from ____ plants?
 ____ an emissions reduction plan ____ your ____ plants?
 ____ are you ____ carbon emissions ____?
 Is there ____ action being ____ decrease CO2 discharge ____?
 How can ____ carbon emissions from our ____.
 I ____ wondering if ____ plans ____ decrease the ____ from water ____.
 ____ there ____ that ____ taken to ____ the ____ emissions ____ water treatment plants?
 Is ____ possible to decrease ____ from ____ plants?
 ____ there a way ____ output ____ your ____ processing systems?
 I ____ know ____ are plans ____ the carbon output ____ treatment plants.
 There ____ be ____ to limit carbon ____ your ____ facility operations.
 ____ from your water treatment setup is ____ is ____ on.
 Can ____ tell ____ if there ____ plans ____ reduce carbon output from ____?
 Do ____ place to reduce ____ emissions at ____ wastewater ____?
 Are there ____ initiatives ____ are aimed ____ emissions from ____ and ____?
 Did you work ____ output ____ running your ____ plants?
 Is ____ possible to ____ carbon ____ at ____ facility?
 Do ____ you can ____ on ____ from your ____ treatment plants?
 ____ there a plan ____ decrease carbon ____ operating ____ treatment ____?
 Does your water treatment plants ____ carbon ____?
 Will ____ taken to ____ carbon footprint ____ your purification ____?
 Did your ____ plants work towards decreasing ____?
 Is an action plan ____ reducing ____ output ____ wastewater ____?
 ____ have a plan ____ down on carbon emissions ____ water treatment ____?
 ____ you ____ place to ____ carbon emissions ____ your water ____ facilities?
 ____ there a way to ____ carbon output ____ water ____?
 ____ it possible to ____ from ____ water ____ facilities?
 Will ____ be ____ diminish the ____ footprint ____ your ____ facilities?

_____ anything _____ can do _____ cut down _____ emissions at _____ wastewater _____?

I _____ an _____ plan _____ set _____ for _____ carbon _____ the wastewater process.

_____ there plans _____ emissions in water treatment _____?

_____ you working to _____ levels in your _____ treatment _____?

_____ there a _____ limit _____ emissions from your _____ treatment _____?

_____ water, _____ measures _____ taken to _____ carbon output?

_____ carbon _____ of _____ facilities can be reduced.

Do _____ have ways _____ reduce carbon pollution _____?

How can _____ carbon _____ our _____ treatment operations?

_____ initiate _____ to _____ carbon _____ of your _____ treatment plants?

_____ we _____ reduction _____ the carbon footprint _____ water _____ facilities?

_____ tell me if there is _____ reduce _____ output from water _____?

Is _____ possible _____ carbon _____ and wastewater plants?

Is there _____ plan _____ control _____ emissions _____ water _____ plants?

What _____ have _____ to _____ release in _____ treatment plants?

_____ you guys have a _____ to _____ from _____ plants?

_____ to lower carbon emissions from water _____ wastewater _____?

Is there _____ limit _____ carbon releases in _____?

_____ you _____ lower _____ in your water treatment _____?

_____ it _____ CO2 output from _____ facilities?
