

[Demo] NLP Dataset for Customer Service Automation

Company Type	Water and Wastewater Utility Companies
Inquiry Category	Water main breaks and repairs
Inquiry Sub-Category	Water pressure issues
Description	Inquiries about water pressure problems, including low or high water pressure, fluctuations, and possible causes and solutions.
Data Size	5,038 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Water and Wastewater Utility Company" customer inquiry. (Purchased data will not be masked.)

_____ projected timeframe for resolving fluctuations in my area's _____ work?
_____ I expect normalhydraulic _____ return _____ the repair is _____?
The _____ thehydraulic _____ be derived from recent equipment repair _____ you.
_____ a process _____ with fluctuations in _____ hydraulic condition caused _____?
_____ we _____ when theHydraulic _____ will end?
How long will it _____ to _____ theHydraulic _____ a result _____?
Is there a date _____ Hydraulic condition after _____ occur?
Any _____ long it will _____ to fixHydraulic _____?
_____ time _____ take for theHydraulic _____ be _____ because _____ nearby repair _____?
Is there _____ deal with the _____ condition _____ repairs are made in _____?
I _____ if _____ timeline can _____ for _____ the _____ of the water in _____ area _____ to _____.
_____ known when _____ dynamics that occur _____ could settle down?
_____ we forecast the _____ the fluctuations _____ the _____ water _____ the _____ site?
_____ condition changes _____ of nearby repair work.
When repairs _____ in _____ other, is there a process _____ in the hydraulic _____?
Do you _____ on how _____ it _____ to address variations _____ following repairs?
_____ we _____ water _____ neighbors' _____ could return to normal?
_____ are some things that _____ to _____ solved, like how _____ will _____ changes caused _____.
_____ can _____ with the fluctuations in _____ condition because _____ nearby repairs?
_____ resolution for the _____ in thehydraulic situation _____ occurs _____ maintenance activities?
_____ to resolve fluctuations in my area's fluids _____?
_____ time to resolve _____ condition _____ because _____ work
_____ expected ending _____ the fluctuations _____ the water _____ isn't yet _____.
_____ we _____ the shifting _____ dynamics that occur _____ will return to _____?
Is there a process to _____ fluctuations _____ condition _____ are _____ to _____?
I wonder when I'll get normal functioningHydraulics _____ repair _____.
How _____ take _____ theHydraulic condition _____ to nearby repairs?
Do _____ it will take _____ to _____ because of nearby repair work?
When the _____ that occur _____ work _____ start to settle _____?
_____ is _____ time _____ resolve thehydraulic _____ changes because of nearby _____.

_____ we _____ the future _____ situation when near-by _____ activities _____?
 _____ was wondering _____ for _____ the _____ with the repairs could be _____ together.
 How long do you think _____ take _____ resolve _____ caused _____ repair _____?
 _____ you _____ me _____ are going to be _____ disruptive _____ hydro?
 When the _____ from neighbors' work _____ down?
 What time will _____ theHydraulic condition _____ be _____?
 _____ you _____ the _____ you've _____ stop affecting theHydraulic conditions?
 _____ can we _____ resolution for the _____ thehydraulic _____ results _____ near-by maintenance?
 _____ timescale _____ resolving fluctuations _____ my _____ condition _____ by the repair.
 _____ time _____ fluctuations _____ the water after _____ work is not yet _____.
 I _____ when I will _____ Hydraulics _____ repairing around _____.
 _____ conditions caused by repairs _____ soon?
 _____ is a date to deal _____ fluctuations inhydraulic _____ in my area _____ area.
 How long it _____ to resolve _____ hydraulic _____ construction?
 _____ will it _____ to _____ theHydraulic _____ changes fixed?
 I'm looking _____ estimated time _____ resolve _____ area's _____ Conditions because _____.
 I wonder when I will _____ normal _____ here.
 _____ it possible to _____ a resolution _____ fluctuations in _____ nearby maintenance _____?
 When should I expect _____ to return _____ repairs _____?
 _____ will it take _____ variations in _____ flow _____ repairs near my _____?
 When are _____ to return _____ the _____?
 _____ want _____ long it will take _____ fix theHydraulic condition because _____.
 _____ there _____ time to _____ in thehydraulic _____ after repairs occur?
 _____ know the _____ timescale _____ resolving fluctuations _____ my area's _____ due to nearby _____.
 Are we _____ when the _____ that occur _____ neighbors' _____ activities _____ come to _____?
 Will _____ in the hydraulic conditions _____ repairs be _____?
 _____ wonder _____ will work _____ after _____ repairs around _____.
 Is _____ known _____ the water _____ occur from neighbors' _____ to _____?
 _____ expect normalhydraulic conditions to return _____ is complete?
 I _____ if a timelines can be provided _____ fluctuations _____ water _____ my area due _____.
 _____ will take to resolve the _____ condition changes _____ of nearby _____.
 Can _____ tell _____ when the repairs _____ made _____ ourHydraulic _____?
 Is there _____ process to _____ with _____ in _____ condition _____ to _____ repairs in _____?
 _____ the _____ conditions _____ by _____ repairs fixed _____?
 _____ is the time it _____ take _____ fix _____ of nearby _____?
 _____ much time will _____ for _____ condition _____ to _____ fixed because _____ work?
 How _____ it take to _____ because of _____ repairs.
 _____ to know _____ conditions _____ return after the _____.
 I would like to _____ timescale _____ myhydraulic condition _____ repair.
 _____ want to know _____ timescale _____ resolving _____ caused by the _____.
 I'm wondering _____ get _____ timetable for _____ caused _____ repairing _____ my area.
 _____ there a _____ the water _____ from _____ work _____ begin _____ down?
 Is _____ an _____ timetable for _____ Hydraulic _____?
 _____ conditions will return after _____?
 Can you tell _____ you'll _____ our Hydraulic _____ with _____ you've _____?
 How long will _____ condition changes _____ to nearby _____?
 Is _____ as _____ when you will stop _____ ourHydraulic conditions _____?
 Can you tell me when _____ stop _____ with the _____?
 There _____ work _____ how _____ it take to fixHydraulic _____ changes?
 _____ I _____ get normal functioning _____ after _____ here, _____ wonder.

Is ____ possible to ____ changes because ____ repairs?
 ____ how long ____ will ____ for theHydraulic ____ changes to be ____?
 ____ expect the ____ conditions ____ return once the ____ are ____?
 ____ would like ____ for resolving fluctuations ____ area'shydraulic ____ caused by nearby repair
 Is ____ when you ____ stop ____ our ____ conditions with the repairs you are ____?
 How ____ do you think ____ take to ____ theHydraulic condition changes ____?
 Can ____ tell ____ when ____ nearby repairs will be ____ our ____?
 ____ of when the ____ that occur ____ neighbors ____ could start ____ settle?
 I want to ____ the ____ resolving ____ fluctuations in ____ condition ____ the ____.
 How ____ we predict ____ fluctuations ____ thehydraulic ____ result ____ nearby maintenance activities?
 ____ you tell me when ____ nearby repairs ____ be ____ fluid?
 The ____ resolve the Hydraulic ____ changes because of ____ unknown.
 I ____ to know ____ exact ____ for ____ fluctuations in ____ condition ____ nearby ____.
 There's ____ date ____ the fluctuations in hydraulic ____ repairs ____ in ____ area.
 ____ you ____ when my area's ____ be repaired?
 ____ we know ____ me will be over or ____?
 ____ time ____ it ____ to ____ theHydraulic ____ changes because of nearby ____?
 Is it ____ water ____ occur ____ neighbors' work might begin to ____?
 ____ you ____ me when the ____ you've ____ will ____ affecting our ____?
 Can you ____ an ____ as ____ when ____ stop affecting ____ with your repairs?
 How ____ a resolution ____ the fluctuations in thehydraulic ____ nearby ____ occur?
 How ____ we ____ a resolution ____ fluctuations ____ situation ____ near ____ occur?
 ____ resolve theHydraulic ____ of nearby work.
 ____ we ____ about the fluctuations ____ situation ____ comes from nearby ____?
 Is there a date ____ with ____ fluctuations ____ hydraulic condition ____?
 ____ there ____ when I can ____ the ____ hydraulic condition after repairs?
 How ____ take ____ resolve ____ changes caused by ____ construction?
 ____ we ____ of ____ dynamics ____ from neighbors' work could return to ____?
 Is there a date ____ the Hydraulic ____ after repairs are ____?
 The ____ ending ____ for ____ in the ____ after ____ repairs?
 How long will ____ to ____ condition due ____ work?
 ____ aware when the ____ that ____ from ____ fixing ____ come to ____ end?
 ____ there an estimated time ____ theHydraulic condition ____ due ____ work?
 ____ me when the ____ are ____ to ____ non disruptive to our ____?
 Does ____ the ____ dynamics that ____ neighbors' work could ____ normal?
 Is ____ a ____ to ____ with ____ in ____ condition ____ repairs are ____?
 Is ____ process to ____ the ____ in ____ related to nearby ____?
 I ____ to ____ the ____ for ____ my ____ condition after ____ repair.
 ____ the water ____ from neighbors' ____ begin to ____ down, are ____?
 ____ there a time ____ fluctuations ____ the hydraulic ____ in ____ area ____ be ____?
 ____ a date to ____ with the ____ in ____ Hydraulic condition in ____ area ____ of ____?
 There is a date ____ fluctuations in ____ condition ____ area ____ repairs in the surrounding ____.
 Is there a ____ the fluctuations ____ after repairs are ____?
 ____ want ____ know ____ timescale ____ in my area's fluids ____ to ____ work.
 How ____ will it ____ be FIXED because of ____ repairs?
 ____ the fluctuations ____ situation that result from ____ maintenance activities?
 ____ the time frame ____ fixing ____ are ____ from recent ____ fixes nearby?
 Do we know ____ problems near ____ end?
 With ____ repairs, ____ long will ____ to ____ condition?
 ____ a resolution ____ the fluctuations ____ thehydraulic ____ that results from ____ activities ____.

_____ a _____ when the _____ dynamics that occur _____ fixing activities _____ finally _____?
 _____ will it be _____ theHydraulic condition _____ due _____ nearby _____?
 _____ we aware of when the water dynamics _____ normal?
 _____ there a _____ when the water _____ from _____ work _____ to _____?
 I'm _____ for an _____ period to _____ my _____ Hydraulic Conditions because _____.
 The expected ending time _____ the fluctuations _____ water _____ repair _____.
 How long _____ take _____ resolve theHydraulic _____ caused _____ construction?
 _____ there a _____ the _____ the hydraulic condition after repairs _____?
 _____ would like _____ could be _____ in for addressing _____ water fluctuations _____ with the _____.
 When repairs _____ close by, _____ a _____ to deal _____ fluctuations _____ my _____?
 _____ end time _____ the _____ in _____ after _____ work _____ not yet _____.
 _____ a _____ to deal with _____ in _____ related _____ repairs nearby?
 _____ will it _____ resolve _____ fluid condition due to _____?
 The estimated _____ to _____ hydraulic _____ because _____ repair work?
 _____ will it _____ for _____ fix theHydraulic condition changes?
 _____ it take for theHydraulic _____ to _____ fixed _____ nearbyrepairs?
 _____ will _____ to fix theHydraulic _____ because of _____ repairs?
 How _____ it take for _____ condition _____ because of _____ nearby _____?
 Is _____ time when the _____ water _____ fixing activities might end?
 How long will _____ take _____ to be _____?
 _____ to _____ timescale for resolving my area'shydraulic _____ caused _____ repair.
 _____ nearby _____ is _____ a _____ for fixing the fluctuating _____?
 I am wondering if _____ schedule for addressing _____ fluctuations _____ the _____ can _____ put _____.
 _____ there a date for _____ fluctuations _____ condition _____ area because of _____?
 How can we _____ fluctuations in _____ from near-field maintenance _____?
 I _____ wondering _____ a timetable _____ be _____ for _____ the _____ water in my _____ to repairs.
 How long _____ it take _____ changes caused _____ nearby construction?
 _____ like _____ if _____ can expect a timetable _____ water fluctuations _____ by _____.
 How _____ take _____ changes because of nearby repairs?
 _____ the shifting water dynamics _____ occur from _____ fixing _____ will finally _____ is _____ we are _____ of.
 _____ you _____ about when _____ area's hydro _____ will recover after _____?
 _____ should I _____ normalhydraulic condition to return _____?
 _____ tell _____ when you'll _____ affecting theHydraulic _____ repairs?
 _____ we aware _____ the water _____ that occur _____ neighbours' work _____ normal?
 _____ possible _____ time frame _____ issues is derived _____ recent _____ fixes within close proximity.
 _____ do you think it _____ resolve _____ caused by _____ work?
 _____ would _____ take to fix theHydraulic _____ if there are _____ repair _____?
 _____ long _____ take _____ theHydraulic condition _____ to _____ repaired?
 _____ to _____ the exact _____ for resolving fluctuations in _____ condition _____ the _____
 _____ when my _____ hydro conditions will _____ after being damaged by neighboring _____?
 _____ time _____ the water fluctuations _____ work are not _____ known.
 How can _____ predict a _____ the _____ that comes _____ near-field maintenance _____?
 _____ can we _____ fluctuations in thehydraulic situation that _____ near-field maintenance?
 _____ we _____ a resolution to the fluctuations _____ that _____ from _____ activities?
 The _____ to _____ changes _____ of nearby repair _____?
 TheHydraulic _____ to _____ how _____ will it take to fix _____?
 How long _____ it take _____ fix my _____ repairs?
 Is _____ a _____ crazyHydraulic problems near me _____ or are we _____?
 How _____ we _____ a _____ in thehydraulic situation _____ from nearby maintenance _____?
 There _____ date _____ deal with _____ fluctuations in the Hydraulic condition _____ area.

_____ possible to fix _____ pressure ups _____ of _____ construction?

Is it known when the _____ neighbors' work _____ settle?

_____ long will it take _____ resolve _____ hydraulic _____ changes due _____?

_____ exact timescale for _____ fluctuations in my area's hydraulic condition _____ something I want _____.

_____ time will _____ the Hydraulic _____ to _____ fixed because of _____ repairs?

Is _____ a _____ deal _____ in my _____ condition after nearby _____?

How _____ we _____ a resolution _____ in the hydraulic _____ near-field _____ activities?

_____ we _____ a resolution for _____ in the hydraulic situation _____ maintenance activities?

The ending _____ for _____ fluctuations of _____ repair _____ not _____ known.

_____ the fluid _____ caused _____ nearby _____ be _____?

How _____ will _____ take for the _____ nearby construction _____ be _____?

Can we _____ fluctuations in _____ conditions _____ repairs _____ nearby?

How _____ a _____ for _____ fluctuations _____ situation that _____ from near-by _____ activities?

When _____ I expect _____ conditions _____ return _____ the _____?

_____ can we _____ the _____ the hydraulic situation _____ from _____ maintenance activities?

I'd like _____ know _____ exact _____ fluctuations _____ condition caused _____ nearby repair.

_____ the resolution _____ flow of water near a maintenance _____?

How _____ will it _____ Hydraulic _____ because of nearby repair _____?

How _____ it take for the Hydraulic condition _____ repairs?

_____ time when I _____ deal with _____ fluctuations in _____ after _____ are _____?

Is there a _____ I can _____ in _____ hydraulic condition _____ repairs are _____?

Can _____ tell us _____ repairs _____ made _____ stop _____ our Hydraulic _____?

Is _____ date _____ deal _____ in Hydraulic _____ after repairs _____ made _____ my area?

_____ known when _____ water dynamics _____ neighbors' _____ could start to _____?

When _____ expect _____ to _____ after repairs are _____?

Do we know when _____ near us are _____?

Is it known _____ from neighbor's _____ could begin to _____?

_____ are some repairs nearby _____ how _____ take _____ fix _____ changes?

_____ to nearby repairs, _____ there a _____ frame for _____?

When _____ the hydraulic _____ caused _____ nearby _____ work will become _____?

_____ repairing _____ I wonder when _____ get _____ Hydraulics.

How _____ it _____ to _____ hydraulic fluctuations caused _____ repair _____?

_____ expected ending _____ the _____ the water _____ repairs?

Can you _____ when the _____ stop affecting _____ Hydraulic _____?

I want _____ know how _____ it _____ in _____ area's hydraulic condition after the _____.

_____ not yet known _____ the _____ in _____ water after repair _____.

Is there _____ time frame _____ resolving hydraulic _____ caused _____?

_____ there _____ process _____ deal with _____ in _____ condition _____ are nearby?

Is _____ an estimated _____ frame _____ condition changes _____ nearby _____ work?

_____ with the fluctuations in hydraulic condition after repairs occur _____.

_____ a _____ the _____ in the hydraulic _____ that results _____ nearby maintenance activities?

_____ before the Hydraulic condition changes _____ to nearby work?

After _____ here I wonder _____ get _____ functioning hydraulics.

How _____ forecast _____ the hydraulic _____ results from nearfield maintenance activities?

Are we aware when _____ dynamics _____ neighbors' work _____ return _____?

When will the _____ come _____ the _____?

Is there a _____ with _____ in Hydraulic condition _____ repairs are _____ area?

Is _____ an _____ when you will _____ the Hydraulic _____ with _____ work?

How _____ in _____ situation that results from near _____?

How _____ do you _____ when _____ will recover from _____ repairs?

Can _____ answer _____ to _____ will stop _____ Hydraulic conditions with repairs?

Is _____ a date to _____ the fluctuations _____ the hydraulic condition _____ to _____?

_____ predict a resolution of the _____ in the flow _____ water _____?

I _____ to know _____ time _____ in my _____ caused _____ nearby repair.

_____ would it _____ to _____ condition _____ nearby repair work?

_____ expect _____ condition to return after _____ repairs _____ over?

I need _____ know _____ resolving fluctuations in my fluids _____ to _____.

How can _____ forecast _____ the flow of _____ maintenance activity?

I am _____ get _____ the repair around here.

_____ the water dynamics _____ occur _____ work could return to _____?

I'm _____ if _____ possible to _____ a _____ addressing the _____ fluctuations _____ the _____.

How _____ it take to resolve _____ area's hydraulic _____ caused _____ nearby _____?

_____ for the fluctuations _____ after repair _____ is not known.

Are we _____ when _____ dynamics that occur _____ work _____ return _____ normal?

Is there _____ deal with fluctuations _____ my _____ condition when _____ are _____?

When should we _____ to return _____ the repair _____?

When repairs are close, is there _____ deal _____ fluctuations _____?

Is there a _____ to _____ fluctuations in _____ area's _____ condition _____ nearby _____?

_____ date _____ deal with the _____ hydraulic condition after repairs _____?

_____ we anticipate _____ resolution _____ in _____ that comes _____ nearby maintenance activities?

_____ we forecast the fluctuations _____ the hydraulic _____ that results _____ maintenance _____?

Any _____ how _____ take to fix _____ condition changes because _____ repairs?

_____ known _____ the shifting _____ dynamics that _____ from neighbors' work _____?

Is _____ a time to deal with _____ repairs _____?

How _____ a _____ for _____ fluctuations in the hydraulic _____ results from _____ activities?

I am _____ if _____ can _____ to get _____ plan for _____ fluctuations caused _____ repairing _____.

Is it _____ the water _____ that _____ from neighbors' work could _____?

Are _____ of when _____ dynamics from _____ work _____ begin to _____?

_____ I get normal _____ after the repair _____?

When the shifting water _____ that _____ work _____ begin _____ settle _____?

I _____ can expect to _____ a schedule for addressing _____ repairing.

_____ dynamics _____ neighbors' work _____ to settle down was asked.

Is there _____ process _____ in my _____ condition when _____ nearby?

_____ there _____ process _____ deal with fluctuations _____ condition caused _____ nearby _____ in _____ area?

The _____ it _____ take _____ resolve the hydraulic _____ changes _____ of nearby _____

_____ the _____ dynamics that occur _____ fixing _____ to an end?

_____ long _____ you _____ will _____ resolve the hydraulic condition _____ nearby _____ work?

The _____ ending _____ for _____ fluctuations in _____ after repair work are _____.

How long will it take for _____ repairs _____?

Do you _____ how long _____ will _____ to fix the variations in water _____?

_____ repairs _____ by, _____ a process to deal _____ fluctuations in _____?

_____ there a _____ deal with fluctuations _____ my hydraulic _____ to _____.

Is there a _____ the _____ hydraulic condition because of _____?

I _____ the _____ time _____ for resolving fluctuations _____ my _____ caused _____ nearby repair.

_____ it _____ to _____ resolution _____ the fluctuations in _____ situation _____ results from _____ maintenance _____?

What _____ we _____ about _____ the hydraulic situation _____ results from _____ by maintenance _____?

Is _____ a _____ for resolving _____ my _____ condition after _____?

_____ end time for the _____ water _____ repair _____ yet known.

I _____ to _____ the timescale _____ fluctuations in _____ area's hydraulic condition _____ nearby _____.

Do _____ know when these _____ problems near me _____?

____ we ____ when the ____ that occur ____ work could ____ to normal?
 I ____ like ____ know if there ____ schedule for addressing ____ associated ____ repairs.
 ____ you ____ an answer ____ to ____ will ____ affecting our Hydraulic ____?
 When my area's hydro ____ will ____ from ____ repair ____ know?
 When repairs come in close ____ to me, is there ____ to ____ in ____?
 Is ____ a ____ deal with ____ in ____ condition after repairs ____?
 I ____ to ____ the timescale ____ resolving ____ my ____ to ____ repairs.
 How can ____ a ____ to the ____ in ____ situation ____ from ____ maintenance?
 Is ____ the shifting ____ that ____ from neighbors' work could ____ settle?
 I need ____ know the ____ fluctuations ____ my area's ____ due to ____ repairing ____.
 ____ it ____ to resolve the hydraulic ____ nearby repair work
 Can ____ tell me when ____ stop ____ conditions ____ work.
 Is there ____ date ____ deal with ____ hydraulic ____ after repairs ____?
 How ____ will it take to resolve ____ hydraulic ____ work?
 ____ shifting ____ dynamics ____ from ____ activities might finally come ____ an end ____ unknown.
 The ____ for the water fluctuations ____ work is ____.
 The end ____ fluctuations in the ____ work isn't ____ yet.
 When ____ expect ____ to ____ after the ____ are over?
 ____ a ____ for the ____ the hydraulic situation ____ from nearby maintenance activities?
 There's ____ date ____ the fluctuations ____ the hydraulic condition after ____ are ____ area.
 ____ a time ____ hydraulic condition ____ resolved because of ____ work?
 ____ can we ____ the ____ of the hydraulic ____ results from ____?
 How ____ forecast the ____ the hydraulic situation ____ comes ____ by ____ activities?
 How long ____ take ____ the ____ be ____ due ____ repair work?
 ____ known ____ water ____ that occur from neighbors' work ____ down?
 ____ of how long ____ take to ____ condition ____ to nearby ____?
 Is there a ____ to ____ with ____ fluctuations in ____ my ____ nearby repairs?
 ____ will it ____ for ____ condition ____ be fixed because ____ nearby ____?
 The ____ it ____ take to ____ the Hydraulic condition changes ____ repair ____
 Is ____ a time ____ fluctuations ____ hydraulic condition ____ occur in my area?
 ____ it ____ take ____ fix Hydraulic condition ____ due to nearby ____?
 ____ tell me ____ long it ____ take ____ fix ____ in water ____ after ____?
 ____ wondering if I ____ expect to ____ timetable for ____ water ____ caused ____.
 The ____ the Hydraulic condition changes ____ of ____ work
 What ____ the expected time ____ to ____ the ____ in ____?
 ____ tell ____ when ____ stop affecting our Hydraulic ____ with repairs ____?
 ____ I expect normal hydraulic conditions to ____ after ____ done?
 ____ it known ____ shifting water ____ neighbors' work could begin ____ settle ____?
 Is it ____ hydraulic condition when repairs are nearby?
 How ____ predict a ____ the fluctuations ____ situation that ____ from ____ activities.
 I ____ normal functioning ____ will arrive ____ the ____ around ____.
 How ____ we forecast ____ future ____ near maintenance activities ____?
 ____ there ____ timetable for when ____ crazy hydraulic ____ will ____?
 ____ when I ____ have normal functioning ____ repair around ____.
 ____ repairing ____ here, I ____ when ____ get ____ functioning Hydraulics.
 What can ____ fluctuations in ____ that results ____ near maintenance ____?
 What time ____ I expect ____ to return ____?
 Is there a timetable for ____ the ____ be ____?
 Is ____ a date ____ the ____ in ____ area because ____ repairs?
 How ____ the ____ of the ____ situation ____ from nearby maintenance activities?

_____ tell me how long it _____ take _____ resolve the _____ caused _____ ?
 When _____ I _____ normalhydraulic conditions _____ come _____ are finished?
 _____ we _____ the resolution _____ in thehydraulic _____ that results from near-by _____ ?
 _____ it possible _____ a resolution _____ thehydraulic situation that _____ from _____ field maintenance activities?
 I am _____ it _____ be _____ to have a schedule for _____ with the _____.
 _____ long will _____ take for _____ fixed _____ nearby repair work?
 How _____ we _____ outcome of _____ fluctuations _____ thehydraulic situation that _____ from _____ ?
 The _____ it will _____ to resolve _____ condition changes _____ repair _____.
 Is _____ a _____ to _____ with _____ fluctuations _____ of repairs _____ the area?
 When _____ normalhydraulic conditions _____ are made?
 Is it possible that _____ from _____ work could begin _____ ?
 I _____ know _____ will take to address _____ flow following repairs near _____.
 When _____ I expect the _____ conditions _____ back after the _____ ?
 Is _____ possible _____ dynamics _____ occur _____ neighbors' work will return to _____ ?
 Is it known when _____ water _____ neighbors _____ settle?
 _____ the fluctuations _____ situation that _____ activities, _____ can we _____ a resolution?
 _____ long _____ take _____ theHydraulic condition to be _____ repairs?
 _____ can _____ anticipate a resolution _____ thehydraulic _____ results _____ near maintenance activities?
 _____ much do you know about _____ hydro _____ recover after _____ ?
 When the water _____ occur _____ return to normal?
 _____ time frame to resolve _____ area's Hydraulic Conditions because of _____.
 Is there _____ time _____ condition _____ because _____ nearby repair work?
 When _____ we expect the _____ thehydraulic _____ repairs?
 _____ will it take _____ in water _____ after _____ near _____ locality?
 I _____ like _____ normalhydraulic conditions will return _____ the repairs _____.
 How _____ we _____ thehydraulic situation that results _____ near-field maintenance activities?
 The _____ timescale _____ fluctuations _____ my _____ condition caused _____ the _____ to me.
 _____ certain _____ that need _____ fixed, like how long _____ resolveHydraulic changes caused by.
 I'm looking for _____ estimated time frame _____ fluctuations in _____ conditions _____ to _____.
 How long _____ take to _____ condition _____ of _____ work?
 Do you have _____ how long it will _____ to _____ flow _____ my _____ ?
 What time will it _____ theHydraulic condition _____ nearby _____ ?
 Does _____ idea _____ long it will take for _____ be fixed?
 Is there _____ deal with fluctuations _____ my hydraulic _____ related _____ nearby _____ my _____ ?
 Is _____ a projected time frame for _____ in _____ area's _____ by _____ repair _____ ?
 Any idea of _____ be _____ of nearby repair _____.
 The _____ needed _____ resolve the _____ changes because _____ work?
 _____ long _____ it take _____ correct _____ condition changes due _____ ?
 Can _____ us _____ the _____ you've _____ will _____ affecting the _____ conditions?
 Do you _____ a _____ for how _____ will _____ address the _____ in _____ after repairs?
 _____ wondering if I _____ have a timetable for _____ by repairing in my _____.
 _____ to _____ exact _____ to _____ in my _____ caused by the repair.
 _____ want _____ know the _____ timescale for resolving _____ my _____ to _____ nearby.
 _____ long _____ it _____ theHydraulic condition _____ because of _____ work?
 Can _____ tell _____ will stop _____ conditions _____ the repairs you are _____.
 I _____ know how long _____ to _____ the _____ in _____ caused by the repair.
 Can you _____ when you'll stop _____ Hydraulic _____ with _____ repairs _____ ?
 _____ a resolution to _____ in thehydraulic situation that _____ near-by maintenance _____ ?
 When the _____ occur _____ fixing _____ finally come to _____ end is _____.
 I _____ know the _____ timescale for resolving _____ in _____ of nearby repairing _____.

_____ will it _____ for the _____ changes caused by _____ solved?

I _____ I will get _____ functioning hydraulics after the _____.

I'm wondering _____ I _____ expect a timetable _____ water _____ by repairing _____.

_____ date to deal with _____ in the _____ in my _____ because _____ repairs nearby?

_____ there _____ when _____ repairs you _____ making will _____ affecting _____ Hydraulic conditions?

_____ there a _____ when _____ condition in my area can _____?

_____ much time will _____ take _____ of nearby repair work?

How can _____ anticipate a solution _____ the _____ in the hydraulic _____ that _____?

_____ there a timetable _____ when _____ near me _____ end?

Will the Hydraulic _____ near _____?

_____ a time _____ resolve the _____ condition _____ of nearby _____?

Is it _____ when the water dynamics that occur _____ could _____?

_____ time _____ will _____ for the Hydraulic condition to be _____ repairs?

_____ wondering _____ a schedule _____ for _____ fluctuations associated with the repairs.

_____ predict a resolution _____ the _____ in the hydraulic situation _____ activities?

I am _____ get a _____ frame for _____ caused by repairing _____ my area.

What _____ do _____ predict _____ resolution to _____ the hydraulic situation that results _____ maintenance activities?

Can _____ me how _____ take to fix _____ condition _____ nearby repairs?

_____ is a _____ to resolve _____ changes because of _____.

When should _____ normal hydraulic _____ to _____ repairs are over?

_____ expected _____ time _____ the _____ is _____ known after close _____.

_____ it _____ when _____ that occur from neighbors _____ start _____ settle down?

Is _____ a _____ to deal with the _____ repairs?

How _____ we forecast _____ fluctuations in _____ that _____ from _____?

_____ aware of _____ water _____ occur _____ neighbors' _____ begin to settle down?

_____ there _____ timetable _____ when _____ hydraulic _____ near _____ will end?

_____ you will stop _____ Hydraulic conditions _____ you are _____?

When should normal hydraulic _____ return _____?

_____ know _____ water _____ from neighbors' _____ could _____ to settle?

_____ expect normal hydraulic _____ to return _____ a repair is _____?

_____ can we _____ in _____ that _____ from nearby maintenance activities?

How long _____ be _____ the Hydraulic condition to _____ by _____?

The _____ time _____ the water _____ repair _____ are _____ yet know.

_____ can we forecast _____ situation that results _____ nearby maintenance _____?

The _____ conclusion time of the _____ unknown _____ repairs.

How long _____ to _____ the Hydraulic _____ due to _____ repairs?

How long _____ take to _____ caused by nearby _____ work?

The _____ time of the fluctuating Hydraulics _____ after _____ repairs.

_____ date _____ deal with _____ in the hydraulic _____ my area because _____ repairs _____ the area?

_____ are _____ work _____ how _____ it will take _____ fix the Hydraulic _____ changes.

How _____ will it _____ to resolve _____ fluctuations _____ repair _____?

Any idea of how _____ it _____ take _____ condition to _____ because of _____?

How _____ will it _____ the Hydraulic condition to _____ if _____ nearby _____ work?

I am _____ if _____ expect a timetable _____ by repairing in _____ area.

When _____ will get normal _____ the _____ around _____ I _____.

_____ should _____ to _____ to normal after the repair?

_____ normal hydraulic conditions _____ return _____ the repairs are done?

_____ time it _____ take _____ condition changes due _____ work?

When _____ I _____ conditions _____ return _____ the repair?

_____ when _____ water _____ that _____ from neighbors work _____ begin to settle _____?

I wonder when _____ to _____ my hydraulics after repairing around _____.
 _____ to forecast a _____ the fluctuations _____ that results _____ near maintenance activities.
 _____ the _____ occur from neighbors' _____ can _____ to normal?
 _____ do we _____ for _____ fluctuations _____ situation that results from _____ activities?
 Is _____ an answer as to when _____ stop _____ with the _____?
 How can _____ forecast a _____ for _____ the hydraulic situation that _____ near _____?
 How long _____ you _____ our hydraulic conditions _____ repair _____?
 _____ should I _____ normal hydraulic conditions to _____ the repairs _____ done?
 _____ will _____ resolution of the _____ condition change from _____?
 I am _____ take for the hydraulic condition _____ to be _____.
 _____ need the _____ timescale _____ resolving fluctuations _____ my area's hydraulic condition _____.
 How long _____ it _____ for _____ condition _____ be _____ by _____ work?
 How long _____ it take _____ condition changes _____ repair _____?
 I _____ know the exact timescale _____ my _____ condition caused _____ repair
 _____ can _____ the _____ situation that _____ from near-field maintenance activities?
 _____ if it's possible to have a _____ addressing water fluctuations _____.
 _____ there a _____ deal _____ fluctuations in hydraulic condition after repairs _____?
 Is _____ possible that the _____ that occur from _____ work _____ return _____ normal?
 What's the _____ time _____ the fluctuating hydraulics _____ repairs?
 _____ are some repairs _____ how long _____ to _____ the hydraulic _____ changes?
 _____ tell me _____ repairs _____ doing _____ going _____ stop affecting _____ hydraulic conditions?
 _____ can _____ forecast a _____ for the _____ the hydraulic situation _____ results from _____?
 How can _____ resolution of the _____ in _____ situation _____ from _____ maintenance _____?
 _____ you _____ when _____ hydro _____ will be restored?
 _____ hydro conditions will recover _____ neighboring _____ is known.
 I _____ will take _____ repairs _____ fix the hydraulic issues near me.
 How long _____ it take to _____ due _____ repairs?
 Approximate _____ to _____ the _____ condition _____ nearby repairs.
 When the water dynamics _____ occur from _____ could begin _____.
 _____ how _____ take for _____ repairs to fix _____ hydraulic issues near _____.
 _____ possible that _____ time _____ fixing the hydraulic _____ derived from _____ equipment _____ in close proximity.
 Post _____ expected _____ the fluctuating hydraulics is unknown.
 There are _____ to be resolved, like _____ it will _____ to resolve hydraulic changes _____
 _____ you tell _____ when you'll _____ affecting our hydraulic _____ work?
 _____ do _____ think _____ will _____ to resolve the _____ because _____ nearby work?
 _____ wonder when I will get _____ the _____ around _____.
 How _____ think it will take _____ caused by nearby repair _____?
 _____ can we _____ resolution for _____ the hydraulic _____ from near-by maintenance activities?
 Time to _____ condition changes because _____
 _____ is _____ that _____ time _____ fixing the hydraulic issues _____ derived from _____ equipment _____ in close _____.
 Time to _____ the _____ condition changes _____ work?
 _____ it take _____ resolve _____ due to repair work?
 How long _____ it _____ for _____ be repaired _____ nearby work?
 _____ in the resolution _____ the hydraulic condition from _____ repairs?
 How _____ take for _____ change to _____ fixed by nearby _____?
 When _____ you be _____ fix the _____ chaos _____ my _____?
 Is there _____ for _____ fluctuations _____ the _____ condition after repairs are _____?
 How _____ it _____ to _____ changes because of nearby _____?
 Are _____ of _____ shifting _____ dynamics that occur _____ work _____ start _____ settle down?
 I _____ to _____ long _____ take _____ fix _____ fluctuations in _____ area's hydraulic _____ by the repair.

_____ will it take to _____ hydraulic _____ by _____ repair work?

Can you tell me when you _____ with _____ you're making?

_____ water dynamics _____ occur from neighbors' fixing _____ end.

_____ long _____ it take _____ theHydraulic condition changes _____ nearby repair _____?

When the fluctuations in the _____ will be _____?

_____ want _____ know how long _____ takes to fix _____ condition _____ by _____.

_____ a process to _____ with _____ myHydraulic _____ when _____ are nearby?

_____ long _____ will _____ theHydraulic condition is _____ nearby repair work.

_____ exact timescale for _____ in _____ condition caused by _____ repair _____ known.

How _____ will _____ the hydraulic _____ due to nearby _____?

Is there _____ to deal with the _____ in _____ Hydraulic condition after _____ are _____?

_____ is the time _____ take _____ theHydraulic condition changes _____ repairs?

_____ end time for the _____ in the _____ the repairs?

_____ the _____ water _____ that _____ from neighbors' _____ could _____ normal?

_____ a _____ deal _____ fluctuations in my area'sHydraulic condition because _____?

_____ would _____ know the _____ for _____ my area's fluids due _____ nearby repairs.

_____ will get _____ after _____ repair around here?

_____ expected ending time of _____ after repair _____ is not yet _____.

How _____ for _____ to be fixed by nearby work?

_____ a _____ when these _____ problems near _____ will be _____?

_____ ending _____ for the fluctuations _____ the water _____ work is _____ yet _____.

Is there a _____ to _____ fluctuations _____ hydraulic _____ are made?

When should _____ expect normalhydraulic conditions to _____ repair _____?

_____ forecast _____ fluctuations _____ thehydraulic situation that _____ from _____ maintenance activities?

_____ there _____ I _____ deal _____ the fluctuations _____ area'shydraulic condition because of _____ repairs?

_____ to know the _____ resolving fluctuations _____ my area's _____ to _____ work.

Will the _____ caused by _____ repairs _____ fixed _____?

_____ tell _____ you're going to _____ affecting _____ Hydraulic conditions with _____?

I _____ time _____ to resolve _____ in _____ Hydraulic Conditions _____ they _____ nearby.

Is there _____ predict a _____ for _____ thehydraulic situation _____ from nearby maintenance activities?

Are we aware _____ from neighbors' _____ will _____ normal?

When should _____ conditions _____ after _____ are completed?

_____ you _____ when _____ will stop affecting our _____ with _____ repairs _____ doing

_____ we forecast _____ resolution _____ the _____ in the _____ near a _____?

_____ to _____ the exact timescale _____ fluctuations in fluids _____ nearby repairing _____.

When the water _____ occur _____ neighbors' _____ normal was _____ question.

Can you tell us when _____ our Hydraulic _____ work?

Is _____ process to _____ fluctuations in my _____ state _____ repairs are _____?

How long _____ will _____ theHydraulic _____ to be _____ nearby _____?

Is it _____ water dynamics _____ work _____ to normal?

Is _____ known _____ dynamics _____ work could settle down?

How long it will _____ theHydraulic _____ changes _____ by nearby _____?

_____ the _____ around _____ wonder when I _____ normal functioninghydraulics.

The expected ending time for _____ fluctuations _____ is _____ known _____.

_____ a date to deal _____ the fluctuations _____ hydraulic _____ are _____ is _____?

_____ there a _____ when _____ hydraulic _____ changes because of _____?

_____ want _____ know how long _____ resolve fluctuations _____ fluids _____ to nearby repairing work.

How long _____ fixing local _____ changes?

_____ long will _____ condition changes to _____ fixed thanks _____ nearby _____?

_____ within _____ proximity could be the reason _____ the _____ frame for _____.

_____ would like _____ you will stop _____ our Hydraulic _____ repair _____ you do.

Predicted conclusion _____ nearby repairs?

_____ time _____ the _____ the water after _____ repairs?

_____ to forecast _____ resolution for the _____ in _____ caused _____ nearby _____ activities?

_____ can we predict a _____ the fluctuations _____ the hydraulic _____ results _____ near-by _____?

I'm looking for _____ estimated _____ resolve fluctuations _____ my _____ because _____ nearby.

_____ water dynamics from _____ work could start _____ return _____?

Is there _____ deal with the _____ condition _____ repairs _____ made?

Any _____ how _____ it _____ to fix _____ changes _____ to nearby repairs?

When _____ normal hydraulic _____ to _____ after the repair?

Approx time _____ the hydraulic condition changes because _____?

_____ a date for the _____ in the _____ occur?

_____ can _____ predict a resolution for _____ situation that _____ near _____ activities?

_____ there a date _____ the _____ in my area's hydraulic _____ nearby repairs?

Is _____ timetable for the crazy Hydraulic _____ to _____?

How _____ will it take _____ due to _____ to _____ fixed?

_____ possible that the time _____ the hydraulic issues _____ the result of _____ repairs _____ by.

Is there _____ date to _____ in _____ in my _____ because of _____?

_____ want _____ time _____ for resolving fluctuations in _____ fluids due to repair _____ nearby.

I want to know if _____ get _____ for _____ water fluctuations _____.

_____ would _____ take to fix _____ condition _____ when there _____ nearby _____ work?

_____ time _____ will it take _____ the Hydraulic _____ fixed because of _____ work?

I wonder _____ will _____ normal _____ has been done _____ here

_____ ending _____ for the water fluctuations after _____ work _____.

_____ a date _____ the fluctuations in hydraulic _____ after _____ are _____?

_____ want _____ the exact _____ for _____ in _____ area's hydraulic _____ caused _____ nearby repair

I need an _____ time frame _____ resolve _____ in my _____ nearby.

_____ the _____ dynamics _____ occur from _____ work _____ to normal?

_____ I will _____ normal _____ after _____ around here?

_____ conditions _____ expected to _____ after repair?

_____ time it takes to _____ due _____ nearby repair _____

_____ know how long _____ will _____ fix the Hydraulic _____ changes?

Is _____ time _____ the hydraulic _____ changes due to _____ repair work?

_____ you _____ me when the nearby _____ be non _____ hydro?

I _____ when the normal _____ will _____ after _____ around _____.

When _____ shifting _____ occur from neighbors' _____ activities might finally _____ an end, are _____?

_____ should normal hydraulic _____ after the _____?

What _____ it _____ fix the Hydraulic _____ changes because of nearby _____ work?

_____ there _____ process _____ deal _____ in my fluids when _____ close _____?

After _____ repairs, what _____ the _____ time to _____ area's hydraulics?

_____ can _____ anticipate a resolution to _____ situation that _____ from _____ activities?

_____ can we predict _____ of _____ situation that results _____ activities?

_____ am _____ expect to get _____ water _____ caused by repairing in my area.

Are we aware _____ shifting water dynamics _____ occur _____ activities _____?

_____ want _____ the _____ the _____ my area's hydraulic _____ caused by nearby repair.

_____ should _____ conditions return from _____?

_____ can _____ predict the _____ in the hydraulic situation that _____ from near _____ maintenance _____?

_____ it will _____ condition changes due to nearby _____?

_____ a date to deal _____ the _____ condition _____ the repairs?

Is _____ a _____ dealing with fluctuations _____ when there are _____ repairs?

How _____ to the fluctuations in _____ situation _____ by near-field _____ activities?

Due _____ there a _____ frame _____ fixing theHydraulics?

_____ long will _____ take _____ theHydraulic _____ changes to be fixed _____?

I _____ I _____ hydraulics after _____ repair near here.

Is _____ possible _____ forecast a resolution for the _____ the flow of _____?

Is _____ an answer _____ to _____ will _____ affecting the Hydraulic _____?

_____ you _____ me when you _____ the Hydraulic conditions _____?

_____ you _____ when our hydro _____ get _____ track?

_____ can we forecast for _____ fluctuations _____ situation _____ near-by maintenance _____?

When _____ water dynamics _____ neighbors _____ to settle down?

I _____ wondering when I _____ get _____ repairs _____ here.

How can we predict _____ resolution _____ fluctuations in _____ situation _____ activities?

_____ long _____ think it _____ resolve thehydraulic condition _____ because of nearby _____?

Do _____ a _____ it will _____ to fix the variations in water _____ repairs?

How long _____ for _____ condition _____ because of nearby _____ work?

Is _____ a _____ to deal _____ the fluctuations in _____ condition _____ repairs _____?

_____ am _____ timetable can be provided for addressing _____ fluctuations in _____ water in _____ of _____.

_____ long will it take for _____ condition _____ there _____ nearby repairs?

_____ will it _____ fix _____ condition _____ nearby repair work.

When _____ water _____ that occur from neighbors' _____ activities might _____ to _____ is _____.

Is it _____ to _____ me when _____ will stop affecting _____ conditions with _____ doing?

_____ long _____ it _____ condition _____ to be _____ by _____ repair work?

Does anyone _____ will take to _____ condition _____ because of _____ repairs?

_____ is _____ date to deal _____ the _____ condition in _____ due to repairs _____ area.

_____ long will it _____ theHydraulic condition _____ fixed _____ nearby repairs?

_____ can _____ predict _____ resolution _____ the fluctuations _____ thehydraulic situation that _____ from _____.

_____ will it _____ to resolve Hydraulic _____ caused _____ nearby _____?

_____ there _____ when the _____ dynamics from _____ work _____ return _____ normal?

_____ wonder when _____ get _____ functioning _____ after the _____ around _____

When the water _____ from _____ work could _____ to _____.

Do _____ when the water _____ occur from neighbors' work _____?

Are _____ able to _____ how _____ it will take _____ address variations _____ after _____?

How _____ would take to _____ the _____ condition _____ to _____ repair _____?

Is _____ to deal with _____ myhydraulic condition _____ repairs _____ close _____?

_____ the _____ repairs be resolved soon?

_____ we forecast _____ the fluctuations in _____ water near _____ maintenance _____?

_____ water dynamics from neighbors' work _____ return _____?

_____ long will it _____ the _____ after nearby repair _____?

Is _____ a time _____ the water _____ work _____ down?

_____ predict _____ resolution to _____ thehydraulic situation _____ result from nearby maintenance _____?

_____ there a time _____ can _____ fluctuations _____ my _____ condition because of nearby _____?

_____ long _____ it _____ before _____ due to nearby repair _____?

The time it _____ to _____ changes due to _____?

_____ you tell _____ when _____ stop _____ conditions _____ repairs _____ are making?

_____ ending time for _____ water fluctuations _____ is _____ yet known.

When _____ shifting _____ occur from neighbors' fixing _____ finally _____ to _____ end

_____ for the fluctuations in the _____ after _____ not yet _____.

_____ time _____ to _____ condition changes because _____ nearby repair work?

_____ expected _____ time for the water fluctuations _____ work is _____.

Repairs _____ things _____ around here, _____ my water flow _____ fixed _____?

____ idea of ____ it will ____ theHydraulic ____ of nearby repair work.
 When ____ will ____ functioningHydraulics ____ around here, I wonder.
 It will ____ some time for ____ changes ____ be ____ because of _____.
 ____ will ____ functioninghydraulics after ____ repair around here, I _____.
 The ____ it takes to resolve ____ condition ____ nearby ____?
 Can ____ resolution ____ the Hydraulic issues from ____ repairs?
 ____ can we ____ future of ____ from near-field maintenance activities?
 How ____ will ____ fix the ____ hydraulics due to nearby repairs?
 ____ do we ____ resolution ____ in ____ flow of water near a ____?
 ____ take for repairs ____ resolve ____ fluctuations ____ by nearby work?
 I'm ____ if ____ will ____ a ____ water ____ by repairing ____ my area.
 I am ____ if ____ is ____ place a ____ addressing the water ____ the repairs.
 How long ____ will ____ condition ____ be fixed because of ____?
 ____ to resolve the ____ condition changes because ____?
 ____ when ____ shifting water ____ occur from neighbors' fixing ____ finally end?
 How ____ forecast a resolution to the fluctuations ____ that ____ activities?
 ____ long will it ____ the fluctuations ____ my ____ after ____ repairs?
 ____ there ____ estimated ____ for resolving fluctuations in my ____ of ____ repairs?
 ____ am wondering if I ____ get a ____ for addressing ____ fluctuations ____ repairing _____.
 How ____ the conclusion time of ____ will ____ repairs?
 I ____ to know the exact timescale for ____ in ____ condition _____.
 Are we ____ water dynamics ____ from neighbors' fixing ____ might ____?
 Do ____ know when ____ crazyHydraulic problems ____ will ____ end?
 Have ____ any ____ our ____ be back on track?
 ____ long ____ it ____ to resolve ____ fluctuations caused ____ nearby ____?
 Is ____ when the shifting water dynamics that ____ can ____ to ____?
 ____ like ____ long it will take ____ recent equipment fixes to settle _____.
 ____ nearby ____ there a ____ for ____ the fluctuatingHydraulics?
 What is the expected ____ the ____ fluctuations after ____?
 There ____ resolve theHydraulic condition ____ because ____ nearby repair ____
 I am wondering ____ there is ____ frame for ____ the water in my ____ by ____.
 Should we ____ how long ____ take ____ fix ____ nearby repairs?
 ____ expected conclusion time ____ fluctuatingHydraulics will be ____ yet?
 ____ the ____ that ____ work can begin to ____ to normal?
 How ____ will ____ to resolve ____ caused by nearby ____?
 When the ____ hydraulic ____ repair work will be fixed?
 ____ a resolution for ____ fluctuations in thehydraulic situation ____ results ____ activities?
 ____ normalhydraulic condition ____ return after the repair is ____?
 How ____ we forecast the ____ that results ____ near maintenance ____?
 I want ____ know ____ for resolving ____ in my ____ after the ____.
 ____ the ____ the hydraulic ____ by ____ repair work ____ fixed?
 How can ____ a ____ for ____ fluctuations of thehydraulic ____ maintenance activities?
 ____ long will ____ to fixHydraulic condition changes because ____?
 I ____ wondering ____ will get a schedule ____ addressing ____ caused by repairing _____.
 The predicted ____ time ____ the ____ after ____ work is _____.
 ____ wonder ____ I will get normal ____ Hydraulics after _____.
 Is ____ date ____ with the ____ inHydraulic ____ in my area ____ nearby ____?
 The expected ____ for ____ changes ____ work ____ not yet known.
 How ____ we predict ____ resolution ____ the ____ in thehydraulic situation ____ from ____?
 ____ forecast a ____ for the ____ in thehydraulic ____ that ____ near-field maintenance ____?

How _____ a _____ fluctuations in _____ situation that results from _____ maintenance _____?

Is there a _____ deal _____ fluctuations in my hydraulic _____ when _____?

_____ there a time _____ I _____ deal _____ the fluctuations _____ condition _____ made?

How long _____ it _____ theHydraulic condition to _____ to _____ work?

How long would it take _____ after _____ work?

_____ known _____ dynamics from neighbors work could return _____?

_____ have _____ plan _____ how long _____ to address _____ flow issues after _____?

_____ want to _____ the _____ timescale _____ resolving fluctuations in _____ area'shydraulic _____ because _____.

_____ hydro _____ damaged by neighboring _____ work, will improve, _____ you _____?

_____ long will _____ to fix the _____ the construction?

What _____ estimated _____ it will take _____ theHydraulic condition _____ be _____?

_____ expected _____ time _____ fluctuations in the water after repair _____.

When the water dynamics _____ neighbors' _____ to an end?

_____ an estimated time frame to _____ fluctuations _____ my _____ Hydraulic _____ near.

The _____ the fluctuations in _____ after repair _____ not _____ known.

_____ wondering _____ timeline _____ be provided for _____ the fluctuations of the _____ in _____ area _____ by _____.

_____ there a _____ to _____ with the fluctuations _____ occur in the _____?

_____ it would take _____ the _____ condition changes _____ to _____ repairs?

How _____ take for theHydraulic condition to _____ due to _____?

Is there _____ with the fluctuations in _____ after repairs _____ my _____?

How _____ we _____ a solution to _____ in _____ that _____ from _____ maintenance _____?

_____ a process to deal _____ fluctuations in my hydraulic _____ the _____?

_____ have an estimate _____ fixing _____ issues _____ nearby _____?

_____ long it will take _____ resolve _____ changes due to _____?

How can we forecast _____ in _____ situation _____ nearby maintenance _____?

I _____ if _____ in _____ addressing water _____ associated with the repairs.

I _____ know _____ will _____ after the repair _____ here.

How long it will _____ to resolve the _____ to _____?

Can _____ a resolution for _____ situation _____ results _____ near maintenance activities?

_____ am _____ timetable can be _____ for addressing the fluctuations of water _____ repairs.

I want _____ know the timescale _____ caused _____ repair.

How _____ we _____ a resolution _____ thehydraulic situation _____ from _____ maintenance activities?

When should I _____ conditions to _____ from _____?

_____ time _____ in _____ water after repair _____ is _____ known yet.

When _____ maintenance _____ in _____ how can we forecast a _____?

When should _____ expect _____ conditions _____ after the repairs _____?

_____ nearby and _____ long it will _____ to fix theHydraulic condition _____?

When _____ that occur _____ neighbors' _____ could _____ to settle down _____.

I am _____ if it _____ possible _____ for addressing _____ fluctuations associated with the _____.

Is _____ deal with _____ in myhydraulic _____ nearby repairs?

I _____ wondering if _____ expect to _____ a _____ water fluctuations _____ by _____.

When there are _____ nearby, is _____ a process _____ with _____ hydraulic _____?

_____ I get normal _____ the _____ around here?

There are some repair _____ nearby and _____ will it _____ theHydraulic _____?

_____ expected ending _____ the _____ the _____ after _____ is not yet known.

How _____ we forecast _____ of _____ in _____ that _____ from _____ maintenance activities?

Is there a timetable _____ hydraulic _____ fluctuations _____?

The expected ending _____ fluctuations after _____?

Is it possible _____ fix _____ water pressure because _____ work _____?

_____ you tell _____ it _____ take _____ theHydraulic condition _____ be fixed?

When _____ conditions return _____ the _____?

_____ normal _____ will _____ after the repair around here.

What time it _____ to _____ condition changes _____ of _____ work?

I'm wondering _____ it's _____ to put a schedule _____ addressing _____ associated _____ repairs.

When _____ I _____ return _____ the repairs are done?

_____ known _____ water _____ that occur _____ neighbor's _____ could _____ to normal?

_____ long _____ it take _____ theHydraulic condition changes to _____ of _____ repair _____?

_____ long will it _____ fix theHydraulic _____ changes _____ nearby repair _____?

When should I _____ normalhydraulic _____ to return _____ complete?

The time to _____ thehydraulic _____ changes because _____ is _____.

_____ about _____ in _____ situation that results _____ near-by maintenance _____?

I am wondering _____ a _____ provided for _____ the _____ of water in _____ by repairs.

_____ anticipate _____ resolution _____ in thehydraulic situation that results from near by _____?

Is there _____ answer as _____ you'll stop _____ our Hydraulic _____ making?

I _____ an _____ to resolve _____ in _____ area's hydraulic conditions _____ of _____.

When my area's _____ neighboring repair _____ how much _____ know?

Any idea on how long _____ theHydraulic condition _____ fixed?

How can _____ forecast _____ in thehydraulic _____ that _____ near-field maintenance _____?

Any idea _____ how _____ it will take to fix _____.

Can _____ tell me _____ the _____ stop _____ theHydraulic _____?

I want to _____ if there _____ frame for _____ the _____.

When do I expect _____ repair is done?

_____ to _____ I'm _____ an _____ frame _____ fluctuations in my _____ Hydraulic Conditions.

_____ to resolve thehydraulic condition changes _____.

There _____ date _____ deal _____ the _____ inHydraulic condition _____ because of repairs

_____ is _____ date to deal _____ fluctuations _____ theHydraulic condition in _____ because of _____ the _____ area.

I'm _____ expect to _____ a timetable _____ addressing _____ caused by repairing.

_____ we _____ for _____ in _____ situation that results _____ near field _____ activities?

Is there _____ for _____ fluctuations _____ area's _____ conditions _____ by nearby _____ work?

Estimated _____ to resolve _____ condition changes _____ nearby _____.

_____ will get normal _____ around _____ I wonder.

How long _____ it _____ for _____ condition to _____ fixed _____ work?

_____ there a _____ to deal with _____ fluctuations _____ condition because _____?

What _____ you know about _____ my _____ hydro _____ after being damaged _____ activity?

_____ known _____ the _____ dynamics from _____ could _____ to settle?

How long _____ take _____ variations _____ repairs near my locality?

Because _____ work, the _____ hydraulic condition changes?

_____ it _____ the _____ neighbors' work will _____ to settle down?

_____ resolve the _____ changes because _____ nearby repair _____.

The expected _____ for _____ water to _____ after _____ known yet.

_____ tell _____ when _____ repairs _____ are _____ will stop affecting theHydraulic _____?

How _____ it _____ take to fix _____ nearby repairs?

Is _____ a _____ in my area's _____ by repair work?

Is there _____ answer _____ when _____ stop _____ conditions with _____?

I _____ water flow _____ get fixed soon due _____ here.

How can we _____ in _____ situation _____ result from _____?

_____ want _____ know _____ timescale _____ fluctuations _____ area's fluids because of _____ repairs.

_____ we aware of when _____ water dynamics from _____ work _____?

_____ is _____ expected _____ of _____ fluctuatingHydraulics after _____ repairs?

_____ want to _____ exact _____ fluctuations _____ my fluids due to _____ work.

Is ____ possible ____ the ____ that occur from ____ begin ____ settle down?
 ____ when ____ get normal functioning hydraulics ____ the ____ here.

It ____ possible that the time frame ____ fixing ____ issues are ____ fixes ____ by.
 ____ there a date for the ____ repairs?
 ____ time it ____ resolve ____ condition ____ due to nearby ____

How ____ will it ____ for ____ fix theHydraulic ____?
 How long will it ____ after ____ repairs?
 ____ is the ____ to ____ the fluctuations in ____ after repairs?

Is there ____ deal with fluctuations ____ condition ____ repairs ____ by?
 ____ does ____ take ____ condition changes because ____ nearby repair work?
 ____ a date ____ with the fluctuations ____ of nearby repairs?

Is it possible to ____ ups and ____ in ____ because ____ construction ____?
 Is it possible to deal ____ fluctuations ____ the ____ my area because ____?
 How long ____ it take ____ condition to be ____ repairs?
 ____ need ____ the exact ____ resolving fluctuations ____ my area'shydraulic ____ the repair.

When the ____ water dynamics ____ neighbors' fixing activities ____ finally ____ an ____ currently known.
 When the shifting ____ that occur from neighbors' fixing activities ____ are ____ aware ____?
 Is ____ to deal ____ fluctuations in the ____ after ____ in my area?
 ____ how long it will ____ theHydraulic condition ____ nearby repair work?
 ____ time ____ the ____ in ____ hydraulic ____ after the repairs are done?

When ____ nearby, ____ there ____ deal with fluctuations ____ hydraulic condition?
 ____ want ____ know ____ timescale ____ fluctuations in ____ fluids due to nearby ____.

How long will ____ for ____ condition to be ____ because ____?
 ____ there ____ to deal with the ____ condition after ____ are made?

I need to know the ____ for ____ fluctuations ____ fluids because ____.

Is there a ____ to forecast ____ resolution for the fluctuations ____ that ____ from ____?
 How long ____ to repair ____ because ____ nearby repair ____?
 When ____ normalhydraulic ____ recover after ____?

Is ____ a timetable ____ when ____ crazyHydraulic ____ near ____ will end ____ in?
 Is there ____ deal ____ fluctuations ____ my hydraulic condition related ____?
 ____ the ____ dynamics ____ from neighbors' ____ might ____ is a question ____ should be ____ of.
 ____ you ____ me ____ you ____ affecting ____ conditions with repairs?
 ____ time for ____ water ____ after repairs?

I want to know ____ exact ____ the fluctuations ____ my fluids due ____.

Is there ____ date to deal ____ the fluctuations ____ occur?
 ____ it possible ____ the time frame ____ thehydraulic ____ is derived ____ fixes ____ close proximity?
 ____ will ____ to ____ condition changes due to ____ work?
 ____ resolve theHydraulic condition ____ due to nearby ____?

Repairs are messing things ____ wont ____ water ____ be fixed ____?
 ____ we know ____ theHydraulic ____ near ____ going ____ end?

When the ____ dynamics ____ from ____ might ____ end, are we aware?
 There ____ a ____ with the fluctuations ____ my ____ because of ____ repairs
 ____ can ____ forecast the resolution ____ fluctuations in ____ from ____ maintenance activities?
 ____ there an ____ how ____ it will take ____ theHydraulic ____ changes ____ be ____?

The time it ____ take to resolve ____ nearby repair ____.

When ____ from neighbors' work may ____ to normal?
 ____ expect normalhydraulic conditions ____ after the repairs are ____?
 ____ anyone know when ____ dynamics ____ work could ____ to settle ____?
 ____ time ____ deal with ____ fluctuations in ____ hydraulic ____ after repairs ____ made ____ my area?
 ____ a ____ deal ____ the ____ inHydraulic condition after ____ happen?

How long _____ take _____ repair _____ condition changes because _____ ?

I am wondering if I _____ get _____ for addressing water _____ repairing _____ area.

Do you know _____ long _____ will take _____ the _____ caused _____ construction?

How _____ will it _____ to _____ in _____ conditions caused by nearby _____ ?

_____ things that _____ to _____ like how _____ it _____ take to _____ changes caused by.

I am _____ if _____ can expect to _____ timetable _____ caused _____ repair work.

How long _____ take for _____ repair _____ fix theHydraulic _____ ?

TheHydraulic condition changes due to _____ repairs, how _____ fix _____ ?

_____ theHydraulic _____ changes due to _____ work, _____ long _____ it _____ ?

I am _____ schedule _____ be put in _____ fluctuations _____ the repairs.

_____ like to _____ the hydraulic _____ near _____ will _____ fixed.

Is _____ when the water dynamics that _____ from neighbors' _____ could _____ ?

_____ a process in _____ to _____ with fluctuations _____ my _____ related _____ repairs?

Is _____ date to deal with the _____ repairs _____ in my area?

How can _____ resolution for _____ in _____ situation that result _____ near-by _____ ?

_____ long will _____ take _____ theHydraulic condition to _____ fixed _____ there _____ repair _____ ?

How _____ it _____ me _____ water fluctuations caused by _____ repairs?

Is it possible _____ hydraulic condition changes _____ of _____ ?

How _____ a _____ thehydraulic _____ that results from nearby maintenance _____ ?

When _____ the resolution _____ hydraulic _____ come _____ nearby _____ ?

_____ nearby repairs, how long _____ take to resolve _____ area's _____ ?

_____ there _____ when the water dynamics _____ occur from _____ might _____ ?

When _____ get _____ functioning hydraulics _____ around here?

_____ the water dynamics _____ occur from neighbors work _____ start _____ settle _____ ?

Is it possible to fix _____ and _____ when there _____ construction _____ ?

_____ frame _____ fixing _____ issues _____ a result of recent _____ repair _____ proximity.

Is there _____ date _____ deal _____ fluctuations in my _____ because _____ ?

How _____ we _____ for _____ in _____ situation _____ results from near- by _____ activities?

When the _____ occur from neighbors' _____ might _____ to _____ ?

Do _____ when _____ crazyHydraulic _____ near us _____ end _____ are _____ stuck?

_____ I _____ normalhydraulic conditions _____ after repair _____ done?

_____ we know when the water dynamics _____ neighbours' work _____ ?

_____ can we anticipate _____ resolution _____ in thehydraulic situation that _____ from _____ ?

_____ know _____ it takes _____ in my area's fluids due _____ nearby repairs.

_____ we _____ when _____ water _____ from neighbors' work will return _____ ?

_____ date to _____ fluctuations in _____ condition because _____ repairs _____ the area?

When _____ changing water _____ that occur _____ come to an end.

_____ anyone _____ water dynamics _____ occur from _____ could _____ to settle?

_____ we _____ the _____ in _____ situation that _____ from near _____ activities?

The exact timescale _____ my _____ due _____ repair _____ is something I _____ to know.

How much time will it _____ for _____ to nearby _____ ?

Do we _____ timetable _____ when the crazyHydraulic _____ end?

Is it _____ water _____ occur _____ neighbours' work _____ return to _____ ?

_____ want the _____ timescale _____ resolving fluctuations in _____ area's fluids _____ repair _____ .

_____ will _____ before the hydraulic condition _____ resolved _____ to _____ work?

Can _____ when _____ stop affecting our _____ with repairs?

_____ is a date to _____ the _____ condition _____ repairs _____ done in my _____ .

_____ there _____ time to deal _____ fluctuations in thehydraulic _____ area?

I wonder _____ I will get _____ after the _____ .

I want to _____ how _____ it will _____ to _____ to _____ work.

I _____ to know _____ exact _____ for _____ fluctuations _____ because _____ repair work _____.
 _____ I'll get normal functioning hydraulics after _____.
 _____ long _____ take _____ address variations in _____ following _____ near me?
 _____ can we _____ of _____ fluctuations in the _____ near _____ site?
 how _____ will _____ take to _____ theHydraulic _____ changes _____ repairs?
 _____ we _____ when _____ water _____ that occur from _____ could begin _____?
 _____ long it _____ to resolve fluctuations _____ my _____ fluids due _____ repair work nearby.
 _____ wondering _____ a _____ can _____ for addressing the _____ water _____ my area due _____ repairs.
 _____ it _____ water dynamics from neighbors' _____ start _____ settle down?
 What about _____ hydro conditions are damaged by _____?
 Is _____ date _____ the fluctuations in _____ my area _____ the repairs?
 Is there _____ to _____ with _____ fluctuations inHydraulic _____ in my _____ repairs?
 _____ can we forecast a _____ to _____ situation _____ results from _____?
 _____ an _____ to when you'll stop affecting our _____ with _____ repairs _____ doing?
 How _____ take to _____ fluctuations caused _____ repair work?
 How _____ for _____ in _____ situation _____ results from nearby maintenance activities
 _____ predict a resolution to thehydraulic _____ results from near _____?
 _____ time to _____ fluctuations _____ area's hydraulics after repairs?
 How can _____ the resolution of fluctuations in _____ situation _____ near-field _____?
 _____ is _____ expected time to resolve _____ after _____ repairs?
 Is there _____ to _____ with the fluctuations _____ repairs are _____?
 Is _____ with fluctuations in myHydraulic condition _____ to nearby _____?
 I _____ to _____ exact timescale for _____ fluctuations _____ my _____ by _____ repair.
 I _____ wondering _____ timetable can be provided _____ fluctuations _____ water in my _____ caused _____.
 I'm _____ a _____ be provided _____ the _____ of the _____ my area caused _____ repairs.
 _____ to _____ the hydraulic condition _____ of _____ repairs?
 _____ expect _____ resolution _____ the hydraulic issues from _____?
 _____ be _____ condition is fixed because of _____ repair work?
 _____ you expect normalhydraulic conditions _____ repairs are _____?
 Can we forecast _____ to _____ fluctuations in _____ that _____ from near _____?
 Is _____ an _____ to _____ stop affecting _____ Hydraulic _____ with _____ repair work?
 I need _____ for _____ my _____ due to nearby repairs.
 _____ time to resolve _____ changes _____ of _____ work
 _____ would it _____ condition to _____ fixed because of nearby _____ work?
 Is _____ a _____ to _____ with the _____ theHydraulic _____ my area _____ in the area?
 _____ when the _____ dynamics _____ occur from _____ fixing activities will _____ to _____?
 _____ should _____ expect normalhydraulic _____ to _____ repairs are _____?
 _____ hydro _____ will return to _____ after _____ repairelated _____?
 When _____ be expected _____ return after the _____ completed?
 _____ we _____ when the _____ problems _____ us will _____ not?
 _____ tell me _____ you'll stop affecting _____ with _____ you're doing?
 The _____ to _____ theHydraulic condition changes because _____ repair _____
 _____ can _____ resolution _____ fluctuations in thehydraulic situation that _____ maintenance activities?
 I wanted to _____ the exact _____ resolving _____ in _____ condition _____ by _____.
 _____ to _____ condition _____ of nearby repair work?
 How _____ we forecast the _____ thehydraulic situation that _____ from _____?
 Is _____ that the shifting water dynamics that _____ from _____ come to _____?
 I want to _____ the _____ for resolving _____ fluctuations in _____ area's _____ due to _____.
 Time _____ the _____ condition changes _____ nearby repairs?
 Does _____ when _____ water dynamics _____ from neighbors' _____ could begin to _____?

When the _____ occur from _____ fixing _____ might finally come to an end _____ we _____ aware _____.

I _____ there _____ a date to deal _____ hydraulic condition after _____ are made.

_____ the _____ dynamics _____ occur from neighbors' _____ come _____ an end _____ asked.

Are we _____ when the water _____ from _____ work _____ settle _____?

How _____ will _____ take to _____ fluctuations in _____ area's _____ nearby _____?

_____ wonder _____ get _____ functioningHydraulics after repairing _____ here.

_____ there a _____ deal with _____ condition if _____ are nearby repairs?

_____ long it _____ for _____ to _____ fixed due _____ nearby repairs?

After _____ repair around here, _____ wonder _____ get _____.

It is _____ the _____ fixinghydraulic issues _____ derived _____ recent equipment _____ within close _____.

_____ we aware _____ when the water _____ that _____ activities might finally come _____ end?

When _____ be expected to _____ the repair _____ done?

I am _____ if _____ can _____ to _____ a _____ for _____ the _____ fluctuations caused _____ repairing _____ my _____.

Is _____ an answer _____ you'll _____ Hydraulic conditions with _____ work?

_____ long _____ it take forHydraulic condition _____ be fixed _____?

_____ long it will take _____ condition changes _____ fixed _____ nearby _____?

_____ time for fluctuations _____ after repair _____ not yet known.

_____ idea _____ long it will take _____ fix _____ nearby repair work.

_____ time to _____ Hydraulic _____ because of _____ repair work?

Is _____ a process to _____ with fluctuations in _____ when _____ close _____?

Can _____ you'll stop affecting our Hydraulic _____ the _____ you're _____?

When the shifting _____ from neighbors' fixing _____ might _____?

_____ we _____ resolution _____ fluctuations in thehydraulic _____ results from nearby _____ activities?

When the _____ occur from neighbor's _____ could _____ normal?

_____ there an answer _____ to when you _____ conditions with _____ work?

_____ there a _____ to _____ with _____ fluctuations inHydraulic _____ my _____ because of repairs in _____?

_____ it would _____ resolve fluctuations in my _____ hydraulic conditions _____ to nearby repairs?

_____ we predict _____ thehydraulic _____ results from near-by maintenance?

Approx time _____ of nearby repair work

_____ we forecast a resolution for the fluctuations _____ from _____ maintenance _____?

_____ am _____ is a _____ for addressing the fluctuations of _____ in my _____ caused _____.

_____ is the _____ to _____ fluctuations in my area's _____?

_____ it take _____ the hydraulic _____ caused _____ repair work _____ be _____?

_____ wondering if a _____ can be provided to address _____ in _____ area caused by _____.

I _____ wondering _____ I _____ a _____ for _____ fluctuations _____ repairing in my area.

_____ are some _____ repairs and _____ long _____ take _____ theHydraulic _____ changes?

How _____ we _____ a resolution for _____ thehydraulic _____ from near maintenance _____?

_____ answer _____ when you'll _____ affecting our _____ repairs you are making?

_____ expected _____ of the _____ unknown _____ close repairs.

_____ long will it take for _____ Hydraulic condition _____ repair work?

_____ around here, I _____ I _____ get normal _____ hydraulics.

When repairs come _____ close proximity to each _____ do _____ have _____ process _____ fluctuations _____ condition?

_____ close _____ expected _____ of the fluctuatingHydraulics is not _____?

Is there _____ time to deal _____ the _____ after repairs _____?

How long _____ it _____ to fix theHydraulic _____ nearby _____?

Can _____ me _____ the work you're _____ stop _____ the _____ conditions?

_____ am _____ to see a _____ for addressing water fluctuations _____ by repairing _____ my _____.

_____ is possible _____ time _____ for fixing _____ issues is a _____ of _____ equipment fixes _____.

I _____ know _____ exact _____ for _____ caused by nearby repair.

_____ to deal with the _____ theHydraulic _____ after repairs occur?

_____ the _____ that occur _____ neighbors' work _____ to return to _____?
 How long _____ it _____ theHydraulic _____ changes because _____ nearby _____ work?
 I _____ know when _____ get _____ Hydraulics after the repairs _____.
 Is _____ of when the shifting water _____ that occur from _____?
 I _____ the _____ timescale for resolving my _____ the repair.
 The _____ ending time for the _____ repair work _____ still _____.
 _____ to _____ with _____ fluctuations in thehydraulic condition after _____ in _____ area?
 _____ you tell _____ how _____ to address _____ variations in _____ after repairs?
 I _____ wondering if _____ can get a _____ water _____ repairs.
 How _____ do _____ to resolve _____ condition changes due to nearby _____?
 How can we _____ to _____ thehydraulic situation _____ result _____ nearby _____ activities?
 How _____ predict a _____ the _____ the flow of water _____ activity?
 Time to resolve _____ of nearby _____ work
 _____ it _____ dynamics _____ occur from neighbors' work _____ settle?
 _____ it would take _____ resolve thehydraulic _____ changes because of _____.
 _____ to _____ exact timescale for resolving _____ in _____ condition caused _____ nearby _____.
 When _____ I _____ conditions _____ after repair?
 _____ will _____ take _____ theHydraulic condition to _____ because of _____ work?
 When _____ caused _____ neighbors' work could _____ to _____?
 The _____ for _____ fluctuations in _____ area'shydraulic _____ by _____ that I want to know.
