

[Demo] NLP Dataset for Customer Service Automation

Company Type	Auto Repair and Maintenance Shops
Inquiry Category	Car heater not working properly
Inquiry Sub-Category	Lack of hot air
Description	Customers complain that the car's heater is running, but it is not producing enough hot air. This may be due to issues with the heater core, coolant levels, or a malfunctioning thermostat.
Data Size	8,958 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Auto Repair and Maintenance Shop" customer inquiry. (Purchased data will not be masked.)

_____ a faulty _____ from the _____ system in cold _____ conditions?

_____ a _____ a _____ appliance not give as much _____?

It _____ be _____ thermostat _____ that _____ less warmth.

faulty _____ may cause weak _____

_____ a faulty thermostat _____ of _____?

_____ the thermostat _____ messed up _____ heating weak _____ days?

_____ thermostat is _____ during _____ cold _____?

Does a _____ a difference _____ the temperature _____ heater?

_____ there a _____ that _____ malfunctioning thermostat _____ less _____?

_____ the faulty thermostat may _____ to blame _____ the weak _____.

The heating system _____ be _____ by the temperature _____.

A faulty thermostat _____ my _____ to provide _____ cold weather.

_____ be _____ in winter.

Will a cold _____ an impaired _____ control _____ bad?

Did _____ heat _____ cold months?

During _____ months, _____ bad thermo _____?

_____ winter, _____ imperfect _____ affect _____ output.

_____ malfunctioning thermostat a _____ effective _____ during low _____?

If _____ temperature _____ will _____ chilly environment coincide _____ poor _____?

_____ thermostat _____ temperatures _____ go down?

A faulty thermostat may _____ weak _____.

Maybe _____ thermostat causes _____ during _____ winter.

Will _____ heating _____ provide less heat _____ due _____ malfunctioning thermostat?

Is it _____ faulty thermostat could _____ a decrease _____.

Is it possible that a _____ less warmth _____?

If the thermostat malfunction, _____ heating system _____.

Is _____ possible _____ bad thermostat _____ lead to _____ warmth in _____?

Is the heating _____ of a _____ thermostat?

____ it possible that an imperfect thermostat ____ heat ____ ?
 ____ a faulty ____ unit the reason ____ reduced ____ ?
 Should I be ____ about less ____ malfunctioning ____ ?
 Cold weather ____ cause ____ thermostat to ____ reduced ____ .
 In ____ climates, ____ an imperfect thermostat ____ ?
 Is this ____ with ____ warm ____ in ____ cold?
 Is a malfunctioning thermostat ____ up ____ temperatures?
 The thermostat ____ adequate ____ when ____ gets ____ .
 ____ it possible ____ an ____ would diminish heat ____ ?
 Is ____ faulty ____ result in ____ ?
 If the ____ I experience ____ heat output from ____ ?
 ____ thermostat can reduce heat ____ .
 ____ it possible ____ my ____ generate enough heat when it's ____ outside ____ faulty ____ ?
 ____ possible a faulty ____ less heating ____ ?
 Is it ____ that ____ the ____ in ____ warmth from the heaters?
 ____ cold weather ____ thermostat reduce warmth?
 If the thermostat ____ would ____ heat output from ____ heaters?
 Is it ____ that ____ faulty ____ limit ____ the cold?
 ____ it ____ for a ____ to cause less ____ heating system?
 ____ heat ____ the heater ____ be affected ____ the thermostat ____ malfunctioning?
 ____ thermostat cause ____ to ____ cold?
 Is a faulty thermostat ____ the ____ cold ____ ?
 Is ____ that ____ reduced warmth in icy temperatures?
 ____ the thermostat can ____ the heating weak on ____ ?
 Is ____ possible for ____ up ____ to make ____ weak ____ days?
 ____ the thermostat ____ the ____ output from the ____ be ____ .
 Will ____ cold ____ cause ____ impaired ____ the temperature ____ faulty?
 ____ be ____ about reduced ____ by a malfunctioning ____ ?
 Is less ____ coming from the heating ____ due ____ ?
 Can ____ reduce ____ in winter?
 When ____ outside, ____ faulty thermostat ____ warmth.
 When it's freezing, ____ the ____ deprive ____ ?
 ____ it ____ for ____ to limit heat production ____ the ____ ?
 Is it possible ____ thermostat ____ during cold weather?
 Is ____ the result of ____ malfunctioning ____ ?
 ____ broken ____ mean less ____ the winter?
 On ____ can a ____ cause heating to be ____ ?
 ____ thermostat might ____ blame for ____ warmth.
 ____ it ____ of the thermostat ____ cause reduced warmth ____ the ____ ?
 ____ imperfect thermostat bad ____ heat output ____ climates?
 Is a malfunctioning thermostat ____ for ____ cold?
 In cold ____ can ____ thermostat ____ heat generation?
 ____ the thermostat fault ____ blame ____ less ____ the ____ ?
 ____ malfunctioning temp ____ responsible ____ reduced warmth?
 ____ it possible ____ inadequate ____ of the thermostat will ____ from the ____ ?
 Does cold ____ can ____ by a ____ ?
 ____ it possible that a malfunctioning ____ warmth to ____ ?
 ____ it ____ for a ____ cause ____ cold winter?
 ____ faulty thermostat ____ my heating ____ output.
 ____ a cold ____ compatible with impaired ____ control ____ faulty?

_____ heat _____ diminished by an imperfect thermostat.
 _____ my heating _____ effective _____ cold weather _____ a _____ thermostat?
 _____ the heating system _____ to a malfunctioning thermostat?
 _____ cold weather, could a _____ to _____ being produced?
 _____ a malfunctioning thermostat _____ reduction _____?
 _____ bad _____ affects heat _____ during _____?
 Can busted temp _____ affect _____ cold?
 _____ thermostat _____ cause _____ less heat?
 Will _____ less heat _____ cold _____ due to _____ faulty thermostat?
 Can _____ thermostat cause _____ to give less _____ weather?
 In _____ could a thermostat _____ to _____ warmth _____ by _____ system?
 _____ cold weather, could a _____ a _____ warmth?
 _____ a faulty _____ from the furnace?
 _____ a _____ thermostat _____ reduced _____ in _____ temperatures?
 In _____ weather, _____ a broken thermostat _____ warmth?
 _____ thermostat malfunctioning _____ of _____ cold _____?
 The _____ system _____ heat _____ of a _____ thermostat.
 Can _____ messed-up _____ the _____ cold?
 It's _____ insufficient _____ of the _____ in reduced warmth in _____.
 Is _____ possible _____ a _____ thermoregulator _____ heat _____ in _____ weather?
 Is _____ bad for warmth _____ cold _____?
 _____ cold weather _____ a broken thermostat lead _____?
 _____ the temperature _____ is faulty, will _____ chilly _____ coincide _____ an _____?
 Can _____ broken _____ a decrease in heat _____?
 If _____ thermostat _____ work _____ heating _____ less warmth?
 _____ it _____ a messed-up _____ make heating weak?
 Is _____ malfunctioning _____ cause _____ temperatures _____ the heater?
 _____ a faulty _____ to cause _____?
 A faulty _____ unit in the _____ could _____.
 _____ the heating _____ on freezing _____ due _____ messed-up _____?
 Do faulty _____ reduced _____ in _____?
 _____ affect the _____ of heating during _____ temperatures.
 _____ thermostat _____ to be weak?
 _____ a _____ thermostat cause cold _____ the _____ system?
 Is _____ possible that a faulty thermostat could _____ heating _____?
 Can _____ by the malfunctioning thermostat?
 Is _____ thermostat messing _____ heat in the _____?
 There _____ possibility that _____ malfunctioning _____ causes _____ warmth.
 A broken _____ could _____ less _____ in the _____.
 _____ it make _____ for a faulty thermoregulator _____ heat _____ weather?
 _____ it's _____ a faulty thermostat _____ affect _____.
 _____ an imperfect _____ make _____ difference?
 Can a malfunctioning _____ decrease _____?
 Our _____ system may _____ temperature controls that _____ working _____.
 When _____ cold, _____ there be _____?
 _____ freezing, _____ the _____ Defect deprive _____ heating?
 _____ heating system might _____ provide _____ the _____ malfunctioned.
 _____ thermo _____ heat _____ during cold _____?
 In cold _____ a _____ cause reduced _____ in _____ heating _____.
 Is _____ possible _____ thermostat _____ lead to _____ warmth being produced _____ system?

Is _____ possible that my _____ doesn't _____ enough _____ when _____?

In cold _____ a faulty _____ could _____ from _____ heating _____.

Is it _____ ill-functioning thermostat may _____ effective _____?

_____ thermostat may cause weak heat during _____.

_____ thermostat fault _____ lead _____ warmth in the _____.

_____ the _____ system's heat affected _____ a _____?

_____ temperatures, _____ lower _____ be _____ result of an _____ thermostat?

Will our _____ affected _____ the _____ controls malfunctioning?

_____ can lead _____ less _____.

_____ there _____ reduced warmth from the _____ to a _____?

_____ a _____ that is malfunctioning contribute _____?

Does _____ malfunctioning thermostat _____ temperatures?

Is _____ heating system _____ faulty thermostat?

_____ an _____ thermostat affect heat _____?

Could a _____ cause the _____ system _____ produce less _____ in _____?

_____ conditions been caused _____ a _____ thermostat?

_____ possible that _____ functioning of _____ could _____ in reduced warmth under _____?

Will a _____ a _____ in warmth from _____?

If _____ thermostat _____ would there be _____ decrease _____ heat _____?

I wonder if _____ should expect _____ decrease in _____ from _____ because _____ thermostat.

Is _____ thermo _____ problem _____ months?

Will our _____ system _____ affected _____ temperature _____?

_____ heating system may _____ warmth if the _____.

_____ faulty thermostat _____ system make less heat?

Will a broken thermostat make _____ blow _____ warm _____?

_____ thermostats mean _____ warmth?

Is heating weak _____ days because of _____?

_____ for a _____ thermostat _____ cause winter _____ to _____ down?

Is the broken _____ winter?

I think _____ could _____ heat _____ the winter.

_____ bad thermostat _____ heating worse _____ the cold?

_____ that a _____ thermostat could _____ less _____ by the heating _____?

Is a _____ thermostat causing the _____ produce _____?

_____ it _____ an ill- _____ may hinder _____ heating?

_____ thermostats _____ warmth during cold weather?

Does _____ faulty _____ the heating system _____?

In cold _____ a thermostat _____ to _____ warmth?

Is _____ contributes to the colder _____?

_____ broken _____ cause less _____?

_____ it possible the _____ causes less _____?

Is there any chance _____ thermoregulator _____ production _____ the _____?

I _____ the thermostat is _____ during cold weather.

Is it _____ that _____ affects _____ output _____ weather?

_____ weather, can _____ malfunctioning thermostat _____ reduced warmth?

A broken _____ the _____ give less heat.

_____ possible that _____ thermostat is to blame _____ from _____ heating system.

In winter, heat output may _____ by _____.

Can _____ thermostat make _____ on cold days?

Will a _____ coincide with poor heating _____ broken?

_____ it _____ causing weak _____ outside?

Is a ____ thermostat ____ for ____ effect?

Can ____ be ____ about ____ to malfunctioning thermostat?

____ affecting heating ____ during the ____?

____ thermostats to blame for ____?

Is ____ a ____ defect that ____?

____ that a broken thermostat ____ screw ____ heating?

Does bad ____ heat quality ____?

____ cold days, ____ messed-up ____ make heating ____?

Does bad ____ during winter?

There is a question if ____ make the ____ less ____.

In ____ a ____ thermostat ____ cause reduced ____.

Is it possible ____ thermostat ____ impede effective heating ____?

____ an ____ thermostat ____ cause ____ decreased heat ____ in cold ____?

Is ____ malfunctioning thermostat causes ____ reduction ____ warmth?

Is ____ to cause ____ weather ____ malfunctioning a ____?

____ a broken ____ heating ____ low temperatures?

____ bad thermo affect ____ winter?

Will a ____ thermostat affect ____ heating ____ winter?

____ be malfunctioning causing weak ____.

____ malfunctioning ____ lead to ____ warmth in the ____?

I ____ know ____ faulty thermostat ____ decreased warmth ____ my heating ____.

Is ____ that ____ broken temp ____ could ____ output?

____ less warmth in chill.

____ a faulty ____ that causes the heating ____ warmth?

____ possible for ____ weather ____ be caused by ____ thermostat?

____ possible ____ insufficient ____ of the thermostat ____ in ____ from the ____.

During ____ could an ____ cause ____ heat levels?

The ____ might ____ be functioning ____ low ____.

____ possible ____ reduced ____ can be caused by ____ thermostat?

Is ____ a malfunctioning ____ can affect winter ____?

Is ____ bad ____ heating during ____ weather?

Is ____ possible ____ a ____ adjuster ____ affect heating ____?

Is ____ when it's ____ outside.

Is it ____ a ____ thermostat ____ cause less ____?

Will ____ thermostat ____ my heating unit to ____ heat ____?

____ heating ____ to malfunctioning thermostat?

Under ____ could inadequate ____ of the ____ warmth from ____ boiler?

____ faulty thermostats ____ reduced ____ cold ____?

Is ____ broken ____ thing for ____ weather?

____ the heating ____ low ____ caused ____ wrong thermostat?

____ it possible that insufficient ____ the ____ result ____ warmth?

It is ____ faulty ____ to limit ____ in ____ cold.

____ the ____ from the heating system ____ to ____ thermostat?

Bad thermostat can ____ heat ____.

Does ____ heat ____ cold weather?

____ it possible for ____ thermoregulator ____ it is ____?

Is ____ the weather is ____?

____ possible ____ a ____ thermostat ____ make ____ system ____ efficient during cold weather?

The heating system ____ thermostat malfunction.

Is ____ possible for a faulty ____ limit ____ production ____?

Is _____ a _____ thermostat can contribute _____ colder _____?
 _____ it possible _____ faulty thermostat to _____ in _____ winter?
 _____ the heating _____ not _____ warmth if the thermostat _____?
 Is it possible _____ a malfunctioning thermostat _____ really _____?
 _____ chilly temperatures, _____ of _____ in less _____ from the heater?
 Is _____ malfunctioning thermostat bad _____ low _____?
 Will _____ system _____ affected if the _____ are _____?
 Is it possible _____ a faulty _____ winter warmth?
 _____ thermostat causes less _____ in _____ weather.
 _____ unreliable thermostat bad _____ in winter?
 _____ a _____ thermostat _____ problem during _____?
 Is _____ possible that _____ less warmth?
 Under cold temperatures, could _____ in reduced warmth from _____?
 Is _____ true _____ thermostat _____ in reduced _____?
 _____ thermostat reduce the heat in _____?
 Is it possible _____ thermostat _____ decrease _____ weather?
 Can _____ brought on _____ a malfunctioning _____?
 Is _____ possible _____ a malfunctioning _____ will _____ during low _____?
 Is the _____ bad _____?
 _____ thermostat make _____ blow less _____ air when it's _____ outside?
 When it's _____ malfunctioning _____ affects _____.
 _____ it _____ that _____ thermoregulator limits heat production _____ weather?
 _____ it _____ of _____ faulty _____ that _____ heater _____ generating enough _____?
 _____ warmth _____ the heating _____ cold weather could be _____ thermostat.
 _____ the _____ to limit heat _____ in _____ cold?
 _____ a subpar performance _____ thermostatic _____ cause _____ decrease in _____?
 In cold weather, _____ malfunctioning _____ to less _____?
 Is _____ going to _____ in the cold with _____?
 _____ possible a _____ thermostat _____ make heating _____?
 Is it _____ the heater _____ less _____ air if my _____?
 _____ a _____ be _____ for reduced _____?
 Is there Thermostat _____?
 Is _____ reduced warmth _____ heating _____ due to a _____?
 _____ broken _____ heat in _____ weather?
 The _____ system can _____ if _____ thermostat malfunctioned.
 _____ if _____ faulty thermostat _____ cause a decrease in _____ my heating _____.
 Is _____ a malfunctioning _____ to _____ winter warmth?
 _____ a broken thermostat _____ car's _____ system _____ weather?
 If _____ malfunction, could the heating _____ not _____?
 Does _____ thermostat _____ temperatures go _____?
 When _____ cold _____ should _____ less warmth from _____ system because _____ thermostat?
 Does _____ warmth of the heating system?
 _____ that a malfunctioning _____ causes _____ during extremely _____ weather?
 Can _____ system's _____ be _____ by a _____ thermostat?
 _____ system might give less _____ if _____ malfunctioned.
 _____ this stupid _____ causing _____ heat to _____?
 _____ it _____ that _____ thermostat reduces _____ in the _____?
 If _____ thermostat is faulty, wouldn't _____ from _____ lower?
 _____ possible _____ a malfunctioning thermostat can _____ winter _____?
 In freezing _____ is _____ stupid thermostat messing _____?

____ it true ____ ____ ____ lead to reduced ____?
 ____ an unreliable ____ a decrease in heat ____ ____?
 The question ____ ____ ____ thermostat lead to less ____?
 In the ____ weather, ____ ____ ____ thermostat messing with ____ ____ heat?
 Does a ____ ____ ____ heating system ____ lack warmth?
 If the thermostat malfunctiones, ____ ____ ____ provide ____ warmth?
 ____ ____ a ____ in warmth ____ by ____ bad thermostat?
 ____ an ____ ____ ____ a decreased heat generation ____ a ____ climate?
 Will a bad ____ ____ ____ cold ____?
 In ____ winter, ____ imperfect thermostat might ____ ____ ____.
 ____ heating system may ____ ____ warmth if ____ thermostat ____ ____.
 ____ ____ possible ____ ____ functioning of the thermostat ____ result ____ reduced warmth ____ the ____?
 Is it ____ ____ ____ thermostat to ____ ____ decrease in winter ____?
 ____ ____ possible ____ ____ faulty thermostat to ____ my ____ ____ less effective ____ winter?
 ____ ____ ____ malfunctioning during ____ low temperatures?
 Is ____ reduced warmth from ____ ____ system due ____ a ____ ____?
 Is ____ ____ system ____ in heat ____ ____ the ____ thermostat?
 Is ____ ____ ____ faulty thermostat cause ____ ____?
 In ____ weather can ____ ____ ____ reduce ____?
 Is ____ malfunctioning ____ part of ____ ____ for the ____ ____?
 ____ ____ ____ for a faulty ____ to ____ less heating?
 Is it ____ that inadequate functioning ____ ____ ____ result ____ reduced ____ ____ the house?
 It's possible ____ lower ____ ____ ____ by an imperfect ____.
 ____ ____ ____ that a bad thermostat ____ ____ cold weather?
 ____ ____ expect less ____ from ____ heating ____ due ____ a faulty ____?
 If my ____ unit ____ a faulty ____ ____ it ____ ____ in winter?
 ____ ____ ____ thermostat will my heating unit ____ ____ heat ____ winter?
 ____ it possible for ____ faulty thermostat ____ ____ ____ cold?
 ____ ____ possible that a faulty ____ might cause less ____ ____ ____ system?
 ____ ____ ____ thermostat cause ____ heat generation ____ cold climates?
 In winter, ____ ____ possible ____ an ____ ____ reduces heat ____?
 In ____ ____ could a ____ thermostat lead ____ reduced ____?
 Is there a possibility ____ ____ ____ thermostat could ____ ____ ____ levels?
 Is ____ possible ____ a malfunctioning ____ ____ less ____ ____ extreme cold ____?
 ____ it's cold outside, ____ ____ ____ temperature ____ affect warming?
 ____ ____ thermostat messing with my heat ____ ____ ____ weather?
 ____ a malfunctioning ____ cause ____ ____ to get ____?
 Is the ____ ____ less ____ because of ____ ____ thermostat?
 ____ it ____ that a ____ can ____ warmth ____ cold ____?
 The ____ ____ has low heat ____ ____ ____ thermostat.
 Is it possible a faulty ____ ____ ____ ____ ____ weather?
 ____ ____ ____ cause less ____ ____ effect.
 ____ a broken ____ ____ less heat ____ ____?
 ____ our heating ____ be ____ by malfunctioning ____ ____
 ____ the thermostat ____ malfunctioning would ____ ____ ____ ____ output from the heater?
 Is it ____ that a faulty ____ could result ____ ____ ____?
 ____ ____ unreliable thermostat cause ____ ____ in heat generation in ____ ____ ____?
 Is ____ thermostat messing ____ my ____ ____ in ____ winter?
 Problems ____ the thermostat may ____ ____ ____ ____.
 Can ____ thermostat be ____ up ____ ____ ____ weak?

_____ weather a _____ thermostat might _____ heating system's _____.

Thermostat fault _____ cause _____ in _____.

Is it possible _____ a _____ a _____ winter?

_____ system might provide less _____ if _____ bad.

_____ can an unreliable thermostat lead _____ a _____ in _____ generation?

_____ less _____ caused _____ the subpar performance _____ the _____ equipment?

_____ it _____ that _____ thermostat is _____ blame _____ my heater _____ generating _____ heat _____ it's _____ outside?

In _____ weather can _____ thermostat _____?

Is a _____ thermostat _____ in cold weather?

Thermostat fault could _____.

Is _____ possible _____ to diminish heat output _____ winter?

Is there _____ warmth caused by _____ thermostat?

Is it possible _____ insufficient _____ functioning _____ result in _____ the _____?

_____ the _____ thermostat make _____ worse in cold _____?

_____ imperfect _____ diminish heat output?

_____ will _____ faulty thermostat _____ to provide less heat?

_____ I be _____ decrease _____ from my heating system because of _____?

In _____ may an _____ heat _____?

Might _____ faulty thermostat _____?

_____ broken thermostat make _____ weather _____?

_____ a _____ temperatures to go down?

A _____ thermostat _____ weather _____ affect _____ warmth _____ the heater.

_____ the _____ malfunction, would _____ heating _____ provide _____ warmth?

Can _____ temp adjuster _____ output _____ it _____ cold?

_____ system has low _____ because _____ wrong thermostat.

Reduced warmth _____ the _____ could be caused _____ a _____.

_____ an unreliable _____ lead to _____ generation in _____ climate?

A _____ thermostat will _____ my heating _____ to provide _____ heat _____.

I _____ thermostat could _____ weak _____ the winter.

_____ bad _____ make my heating _____ when it's _____?

Can an _____ cause _____ generation during the winter?

_____ the _____ bad in _____?

_____ a broken _____ to _____ less heat in _____?

_____ it _____ that a broken thermostat could _____ heater _____ less _____?

Is _____ weather caused _____ malfunctioning _____?

_____ caused by sub-par performance of the _____?

_____ it _____ a faulty thermostat can cause _____ warmth _____ heating _____?

In _____ weather, could _____ thermostat lead _____ reduction _____ warmth?

_____ it possible _____ thermostat may _____ a _____ in heat generation?

_____ it _____ inadequate functioning of the _____ could _____ less _____ from _____ heater?

Is _____ possible that _____ functioning of the _____ warmth?

Can _____ thermostat _____ cold inside?

The _____ may be faulty _____ the _____ is _____.

Is _____ for _____ bad thermostat _____ a _____ winter?

_____ it _____ that _____ imperfect _____ will reduce _____ output _____ winter?

_____ expect _____ in _____ warmth _____ my heating system due to _____ faulty _____?

Is it _____ cold _____ a malfunctioning thermostat?

Is _____ low _____ caused by the _____ thermostat?

If _____ could _____ not offer as much warmth?

It _____ possible that _____ functioning _____ thermostat _____ result in _____ warmth.

Does a ____ that isn't ____ contribute ____ weather?

____ that a ____ thermostat could ____ warmth produced ____ the ____ system?

____ provide enough warmth ____ the thermostat malfunctioned.

What ____ thermostat causes reduced warmth ____ temperatures?

Is there ____ Defect ____ deprives adequate ____ when it ____?

Wrong ____ be to ____ for ____ heating system's ____.

____ an ____ thermostat ____ to ____ generation in the cold ____?

____ performance ____ thermostatic equipment ____ warmth in low ____?

____ broken thermostat mess up ____?

It ____ possible that ____ thermostats result ____.

Is there a problem ____ to ____ temperatures?

Is ____ output in ____ winter ____ an imperfect ____?

A ____ cause ____ heating ____ to ____ heat in winter.

____ an ____ thermostat might ____ heat ____.

____ winter, would ____ broken ____ affect my ____ system?

It's possible ____ imperfect thermostat ____ result in ____.

____ a bad thermostat bad ____ heating ____?

____ a broken ____ affect ____ car's heating system ____?

____ might ____ a ____ that leads to less ____.

____ can cause less ____

It is ____ that ____ functioning of the thermostat could result ____.

____ the thermostat ____ output from the ____ go down?

Can ____ thermostat cause a ____?

Is ____ functioning ____ thermostat ____ result in ____ warmth from the furnace?

The ____ in winter ____ by ____ imperfect thermostat.

____ isn't right, would ____ heat ____ the heater ____ down?

The heating ____ heat ____ wrong thermostat.

I think ____ thermostat ____ be ____ blame ____ weak ____ during ____.

Can ____ malfunctioning thermostat ____ in ____ weather?

____ a ____ thermostat ____ cold weather?

____ winter-like climates, an ____ diminish ____ output.

Is ____ possible ____ bad ____ to ____ heat production in ____?

Is it possible ____ the ____ it's freezing ____?

____ possible ____ a malfunctioning ____ effective ____ during low temperatures?

If the ____ the ____ system not ____ as much ____?

____ the ____ thermostat messing ____ warm ____ cold weather?

Is it possible ____ a broken ____ lead ____?

Is ____ working ____ low temperatures?

Is it possible ____ functioning ____ can ____ in reduced warmth ____ heater?

Is ____ reduced ____ heating system ____ to ____ faulty thermostat?

____ in ____ caused ____ a ____ temp control unit?

____ possible ____ ill-functioning thermostat ____ hinder heating?

____ thermostat cause ____ unit ____ provide less heat in ____ winter?

____ the thermostat ____ heating ____ provide less warmth.

Is ____ broken ____ able ____ cause less ____ winter?

In winter ____ affect heat output.

____ winter, ____ an imperfect ____ output?

Is reduced ____ a ____ control unit?

The ____ be caused ____ malfunctioning ____.

Is ____ a malfunctioning thermostat ____ lead ____ warmth ____ by ____ heating ____?

_____ there _____ defect that deprives adequate _____ it's _____?
 _____ possible that _____ old _____ will not _____ up _____ heat _____ it _____ cold?
 _____ unreliable thermostat _____ heat generation in winter?
 Is _____ stupid _____ with my _____ in _____ weather?
 Is _____ system's _____ heat due to _____ thermostat?
 _____ cold weather, could a faulty _____ cause _____ to make _____?
 Does _____ cause the temperatures in the _____ to _____?
 _____ possibility _____ cause reduced warmth from the heating system.
 Is broken _____ the _____ air during winter?
 In _____ weather, can a _____ difference?
 _____ there _____ output from the _____ thermostat is malfunctioning?
 Is _____ a malfunctioning thermostat _____ cause _____ warmth?
 Is _____ broken _____ for _____ heating _____ low temperatures?
 Is _____ possible _____ a _____ thermostat _____ warmth to _____?
 _____ a _____ limit _____ production while it _____ cold _____?
 In _____ weather, can a _____ give less heat?
 It is _____ faulty _____ heating output.
 When _____ chilly _____ faulty _____ affects _____.
 When _____ freezing outside, _____ thermostat blow _____ warm _____ broken?
 Is _____ a malfunctioning _____ causes _____ warmth?
 _____ my _____ provide _____ much _____ winter due to _____ faulty thermostat?
 _____ it's cold outside, _____ the heater _____ air _____ thermostat is _____?
 _____ cause _____ warmth from the heater?
 _____ am wondering if _____ to a faulty thermostat that _____ doesn't _____.
 Is it possible _____ thermostat _____ less warmth _____ weather?
 Can a faulty thermostat cause _____ from _____?
 _____ heat output _____ winter _____ by an imperfect _____?
 Under _____ temperatures, _____ inadequate functioning _____ lead _____ reduced warmth?
 Is it the _____ thermostat _____ with _____ heat _____ the _____?
 If _____ thermostat _____ faulty, would _____ a lower heat output _____?
 Is _____ low temperatures?
 _____ a _____ thermostat make my _____ in cold _____?
 _____ the _____ messing with my _____ winter?
 Is the _____ system's _____ by _____ faulty _____?
 _____ the _____ malfunction, _____ the heating system make _____?
 _____ could give less _____ if the thermostat _____.
 A faulty _____ cause less _____ heating system.
 Will a faulty _____ reduced _____?
 _____ Thermostat malfunction, could _____ heating _____ less warmth?
 _____ a reduction in heating _____ due _____ a _____ thermostat?
 _____ low _____ icy temps may _____ to _____ thermo.
 In _____ cold climate, _____ lead _____ less heat generation?
 _____ it _____ have an unreliable _____ in the _____?
 _____ a malfunctioning _____ responsible _____ weather?
 _____ the _____ the heaters going to go _____ the _____ malfunctioning?
 I wonder _____ a _____ can make the _____ less _____.
 When _____ outside _____ be due to _____ faulty thermostat?
 A _____ thermostat _____ less warmth in _____ heating _____.
 Will _____ messed _____ thermostat make _____ weak on _____?
 Will a _____ thermostat cause _____ warmth _____?

Is _____ possible _____ malfunctioning _____ is to blame for _____ icy _____?

A faulty _____ cause _____.

_____ possible _____ insufficient functioning of the _____ result in _____ from the _____?

Does the _____ system's _____ is _____ by _____ faulty _____?

_____ climates, an imperfect _____ might diminish _____.

_____ a faulty thermostat _____ weather?

_____ thermostat flawed in _____?

It may be _____ that _____ malfunctioning thermostat _____.

_____ cause _____ warmth during _____ conditions?

_____ of _____ equipment cause _____ warmth?

_____ affecting heating output during the cold _____.

Can _____ malfunctioning thermostat cause _____ to _____ warmth?

An _____ thermostat _____ affect heat _____.

_____ for _____ thermoregulator to _____ heat production during the cold _____?

Is it _____ the _____ well under _____ temperatures?

Is _____ faulty _____ a factor in _____?

Will there _____ warmth from _____ heater because of _____?

During _____ weather, do _____ result in _____?

Is _____ that a _____ will cause _____ heating _____?

_____ a _____ thermostat cause _____?

_____ there a _____ defect _____ deprives _____ heating when _____?

There _____ in the winter due _____ a faulty _____.

a _____ thermostat _____ cause _____

_____ thermostat _____ in reduced _____?

Is _____ possible _____ thermostat can _____ heating?

Is there _____ problem _____ cause reduced warmth?

The _____ not provide as _____ if the thermostat _____.

Will a faulty _____ heating unit _____ in cold _____?

Is _____ that a _____ could _____ to _____ produced by _____ heating system?

In _____ can _____ broken thermostat _____ less _____?

_____ possible that inadequate _____ the thermostat _____ in _____ warmth from the _____?

_____ could _____ heat levels be _____ result _____ an imperfect _____?

_____ possible that _____ unreliable _____ lead to decreased heat _____ winter?

_____ it _____ insufficient functioning _____ thermostat _____ result _____ warmth from the heaters?

_____ a faulty _____ reason _____ warmth _____ the heating system?

If the _____ not _____ will a cold _____ heating?

_____ cold _____ be _____ by _____ malfunctioning _____?

Is _____ because of broken _____ heat is _____ good?

If _____ thermostat malfunctioned, _____ the heating _____ less _____?

If the thermostat _____ work, _____ heater go down?

Could _____ heat _____ be _____ an imperfect _____?

Is _____ malfunctioning _____ control unit _____ for _____ warmth?

A malfunctioning thermostat might be _____ cold _____.

_____ thermostat _____ result in _____

Should _____ be _____ about _____ due to malfunctioning _____?

The _____ may _____ cold outside.

_____ warmth _____ by _____ temp control unit?

_____ a _____ thermostat make a _____?

If _____ is _____ a cold _____ affect the heating?

_____ it possible to _____ a _____ in _____ weather.

____ bad thermo ____ quality ____ cold?
 Can ____ the amount of warmth ____ winter?
 ____ the ____ doesn't ____ could the ____ provide ____ warmth?
 ____ thermostat ____ heating ____ winter?
 Might an ____ heat ____ winter?
 Is it ____ temp ____ affects heating output?
 ____ be concerned about reduced ____ a ____ thermostat?
 ____ there reduced ____ of a ____ temp ____ unit?
 Maybe faulty ____ causes ____ in ____?
 ____ wonder ____ a malfunctioning thermostat ____ in cold ____.
 Is ____ malfunctioning in ____ weather?
 ____ weather, could a ____ thermostat lead ____ less ____ being ____?
 Can a ____ Adjuster affect ____ output ____ cold?
 ____ stupid thermostat ____ my ____ in the winter?
 ____ cold weather a ____ could lead to less ____ by ____ system.
 ____ faulty thermostat causing ____ heating ____ less warmth during cold ____?
 ____ the thermostat make ____ heating ____ the ____?
 Can ____ thermostat ____ heat in ____?
 ____ a faulty ____ causing weak ____ winter?
 ____ it ____ that a busted temp ____ output?
 Wrong thermostat ____ to blame for ____ heat.
 ____ cause the heating ____ low ____.
 The heating ____ have reduced ____ to ____ thermostat.
 ____ my heating unit provide less heat ____ thermostat?
 ____ it because ____ a faulty thermostat that ____ enough heat when ____?
 Is lower heat levels ____ because ____?
 ____ imperfect thermostat a problem ____?
 ____ possible that the ____ thermostat reduces heat in ____?
 Is it ____ the ____ weather to ____ caused ____ malfunctioning ____?
 Is ____ a ____ weak ____ air in winter?
 A faulty ____ my ____ unit to provide ____ heat in ____.
 ____ cold ____ thermostat could ____ the heating ____ lose warmth.
 ____ that a broken ____ would make ____ heater ____ heat?
 Is ____ thermostat making ____ system ____?
 ____ heating ____ have reduced ____ a faulty thermostat.
 ____ that a ____ thermostat can ____ less ____ warmth?
 In ____ climates, an ____ may ____ output.
 ____ adjusters ____ heating ____ in cold weather?
 ____ the ____ bad ____ cold ____?
 Is ____ possible that ____ thermostat causes colder ____ from ____?
 Is ____ possible that ____ thermostats ____ in ____?
 Will ____ heating ____ give me less heat ____ because of a ____?
 ____ the ____ warmth ____ the heating system ____ by a ____?
 Does ____ thermostat decrease the ____?
 ____ temperature ____ faulty will ____ cold environment ____ the heating?
 ____ thermo bad for ____ during ____?
 Is it possible ____ warmth ____ malfunctioning thermostat?
 ____ possible that a malfunctioning ____ hamper ____ low temperatures?
 ____ broken ____ control ____ reason heat isn't ____ it's ____?
 ____ thermostat ____ might lead to _____.

_____ thermostats cause chilly _____?
 In _____ climate, _____ unreliable thermostat?
 _____ cold weather, should _____ concerned about _____ heating _____ a malfunctioning _____?
 Is _____ reduction _____ due to _____ faulty thermostat?
 Can _____ thermoregulator _____ heat _____ is freezing outside?
 Will my heating unit _____ less warmth _____ winter _____ a _____?
 _____ think faulty _____ weak heat during _____ winter.
 Should _____ prepare for _____ decrease _____ from my heating _____ due _____ a _____?
 Is _____ imperfect thermostat _____ for _____ in _____?
 I wonder if _____ bad thermostat _____ in _____.
 _____ affected by malfunctioning temperature controls.
 Is a broken _____ heat _____ cold weather?
 _____ a _____ impair _____ system's warmth?
 Is _____ possible that _____ will _____ to less heat _____?
 Does _____ faulty thermostat prevent _____ system _____ warmth?
 Is _____ that broken temp adjuster _____ output?
 _____ it possible that _____ causes _____?
 _____ less _____ caused by _____ performance of the _____?
 Is it _____ that _____ functioning of _____ thermostat could _____ under _____ conditions?
 In _____ the bad _____ reduces _____.
 _____ reduced _____ caused by _____ faulty _____?
 Is _____ cold environment bad _____ temperature control _____ faulty?
 _____ thermostat _____ would the _____ output from the heater _____ down?
 Is it possible _____ a _____ winter _____ to go _____?
 Could a _____ thermostat _____ less _____ heating system in cold _____?
 Is it _____ an ill-functioning _____ heating?
 _____ that _____ thermostat can cause reduced warmth _____ heating system.
 _____ malfunctioning _____ cause cold _____?
 _____ going to _____ me _____ heat in winter due to _____ thermostat?
 In cold _____ is the thermostat malfunctioning _____?
 Is _____ system's _____ reduced because of _____ thermostat?
 _____ lead to less warmth in _____ chill.
 _____ know if a _____ thermostat _____ make my _____ system _____ effective _____ cold _____.
 _____ the _____ to affect heating _____?
 Can _____ bad thermostat _____ winter _____?
 Was _____ messing _____ warm heat _____ the cold?
 Was the _____ in _____ weather?
 Is _____ malfunctioning thermostat _____ to the _____ temperatures?
 _____ it _____ have an _____ during chilly temperatures?
 Is _____ warmth from _____ heating _____ to _____ thermostat?
 Is _____ that _____ of _____ will _____ in _____ warmth from the Heater?
 A thermostat _____ could _____ less warmth _____.
 _____ broken temp-reg a _____?
 _____ it _____ that _____ faulty thermostat will _____ in _____ from the _____?
 A _____ temp _____ unit _____ winter could _____ warmth.
 _____ it _____ that _____ thermostat will _____ weak on freezing _____?
 Is bad _____ affect heat _____?
 Did _____ in _____ warmth?
 _____ that a faulty thermostat _____ warmth in _____ weather?
 _____ the thermostat _____ and affecting _____ output during _____?

_____ the cause of colder _____ the heater?

Can _____ malfunctioning _____ less heat?

_____ the _____ is malfunctioning, _____ the heat output _____ heater _____?

Warmness low in icy _____ be _____ thermo.

_____ possible that a malfunctioning thermostat _____ decrease in _____?

_____ impair the _____ system's warmth?

_____ thermostat _____ the Heater _____ less heat?

In _____ weather _____ thermostat may _____.

_____ it possible that a _____ thermostat _____ cause _____ the _____?

_____ cold weather, _____ a thermostat _____?

_____ am concerned _____ reduced _____ to a _____ thermostat.

_____ it _____ a _____ can cause reduced warmth?

_____ mean less heat _____ the _____.

Bad _____ can _____ in _____.

_____ it possible _____ faulty _____ the _____ system's warmth?

If _____ the heating _____ might _____ provide enough _____.

_____ be _____ blame for _____ reduced warmth _____ the heating system.

_____ that a malfunctioning Thermostat causes _____?

Is _____ that _____ malfunctioning _____ prevent effective heating during _____?

_____ the _____ affected _____ imperfect thermostat _____ winter?

_____ thermostat malfunctioning when _____ cold _____?

The _____ of the _____ to _____ warmth.

Can a _____ the _____ cooler?

_____ faulty thermostat _____ affect _____ heating system's _____ cold _____.

Is _____ a _____ that _____ heaters _____ generate enough heat?

_____ it possible that _____ reduced warmth in icy _____?

_____ possible that insufficient _____ the _____ result _____ warmth from the Heater?

_____ thermostat bad for _____ low temperatures?

_____ cold weather, would _____ broken _____ affect _____ system?

Is _____ of _____ thermostat could result in _____ warmth _____ the heater?

_____ weather may be _____ malfunctioning _____.

Is it possible _____ flawed _____ to limit _____ it _____ cold _____?

_____ heat output in _____ affected by _____ thermostat.

_____ it possible a _____ can cause _____ in winter _____?

_____ faulty _____ weather will cause reduced _____ from _____ heaters.

Does a _____ the _____ system's _____?

Can a _____ thermostat _____ weather?

_____ broken thermostat _____ the heating?

Can cold _____ malfunctioning thermostat?

_____ I _____ a _____ warmth from _____ of a faulty thermostat?

Is broken _____ the _____ hot air _____ winter?

_____ it's _____ you _____ the thermostat is malfunctioning?

_____ it _____ cold, do _____ Thermostat defects deprive _____?

can _____ weather _____ by _____ thermostat

_____ there _____ reduction _____ due to a _____ thermostat?

_____ bad _____ affect heat _____?

Is it _____ faulty thermoregulator _____ production _____ the _____ weather?

_____ heating system's _____ compromised by a _____?

_____ it possible _____ an imperfect _____ can _____ output _____ winter?

_____ a broken _____ the temperature _____?

Can _____ weather _____ related to a _____ ?

_____ it _____ malfunctioning _____ causes less warm weather?

_____ it possible _____ malfunctioning thermostat _____ heating _____ low temperatures?

_____ for a broken _____ to make the heaters _____ heat in _____ ?

Is _____ reduced warmth in the _____ a _____ thermostat?

When _____ outside, the _____ thermostat _____ affect _____.

_____ I _____ a decrease _____ from my heating _____ is faulty?

If _____ is bad, _____ I _____ lower heat output _____ ?

_____ low _____ icy _____ may _____ to faulty thermo.

Is _____ possible _____ thermostat _____ warmth in cold weather?

Is the reduced _____ a _____ control unit?

_____ system _____ provide less warmth if _____ thermostat _____.

Problems with _____ temp _____ cause reduced _____.

_____ it _____ for _____ faulty _____ a cooler winter?

_____ a _____ bad _____ during cold weather?

_____ faulty thermostat _____ affects heating _____ during the _____ weather.

Thinks _____ the _____ thermostat affecting _____ when it's _____.

Is reduced _____ icy _____ caused _____ thermostat?

Is it possible _____ imperfect thermostat _____ levels during _____ weather?

_____ cold weather the _____ be _____.

Is _____ thermostat _____ to lead _____ less _____ ?

_____ faulty thermostat _____ cause reduced _____ heating system.

_____ be _____ by a malfunctioning _____ ?

_____ the _____ could the heating _____ not _____ as much _____ ?

_____ my _____ unit _____ less heat in winter _____ malfunctioning _____ ?

_____ a _____ that a faulty _____ could _____ reduced _____.

Is there _____ warmth _____ thermostat?

Is a _____ cause _____ warmth?

_____ malfunctioning thermostat causing reduced _____ in _____ system?

_____ it possible a _____ thermostat _____ ?

Can _____ malfunctioning _____ be _____ warmth?

Is it possible a _____ could cause _____ down?

Is it _____ an _____ heat output in the _____ ?

It _____ possible _____ malfunctioning _____ causes less _____.

_____ bad _____ for my _____ in the cold?

Does _____ prevent the heating _____ from _____ warmth?

_____ thermostat _____ to cause _____ warmth?

_____ it possible _____ malfunctioning _____ can _____ warmth?

Is a _____ malfunctioning _____ temperatures?

_____ there _____ reduced _____ in the _____ due to _____ thermostat?

Is _____ malfunctioning thermostat _____ blame for _____ ?

Can a _____ the temperature _____ ?

_____ weather been caused by _____ ?

Does a _____ contribute to _____ ?

Does _____ broken _____ mean _____ in _____ cold weather?

Is the _____ system capable _____ providing _____ thermostat breaks?

Is _____ thermostat _____ with _____ warmth in _____ ?

Can a _____ thermostat _____ the _____ give _____ warmth?

_____ it _____ for _____ malfunctioning thermostat to _____ cold?

Can _____ make my _____ system _____ effective _____ cold weather?

____ it ____ a faulty thermostat ____ in ____ heating system?
 ____ it possible for a ____ limit heat production ____ cold?
 Is ____ that ____ be caused by a malfunctioning ____?
 Can ____ messed-up ____ poor?
 ____ a broken ____ to make ____ heater ____ less ____?
 Should I be ____ about ____ weather ____ to a ____ thermostat?
 ____ the heating system ____ impacted ____ controls ____ are ____?
 Is ____ heat ____ good ____ because of broken ____ control?
 Is ____ possible that insufficient functioning ____ could ____ to ____?
 ____ the ____ my warm heat ____ the cold?
 ____ the thermostat be faulty?
 ____ temp comfort ____ could ____ affected ____ a ____ switch.
 ____ faulty ____ cause my heating unit to ____ less ____ weather.
 Can ____ cause ____ warmth in ____?
 The thermostat could ____ for less ____ chill.
 ____ thermostat is malfunctioning when ____?
 ____ cold ____ thermostat lead to reduced heat generation?
 ____ less ____ if the thermostat ____.
 If the ____ the heating ____ provide enough ____?
 ____ conditions be attributed to ____ malfunctioning ____?
 ____ you think ____ should be ____ about ____ heating due ____ a ____?
 ____ it possible ____ a ____ thermostat ____ cause decreased ____?
 Could a ____ thermostat ____ the ____ system ____ warmth ____ cold weather?
 heating system's low ____ wrong ____
 ____ malfunctioning ____ would affect ____.
 ____ cold weather conditions, ____ faulty thermostat could ____.
 ____ possible ____ a ____ thermostat is to ____ less warm ____?
 ____ cold ____ an ineffective ____ controller ____ warming efficacy?
 ____ the heating system's warmth be ____ a ____?
 ____ freezing days, ____ thermostat ____ the heating weak?
 ____ thermostat malfunctioning affect the ____ the ____ system?
 Under ____ could ____ of the thermostat result ____ warmth ____ the ____?
 When ____ outside, the thermostat ____.
 ____ the heating system affected ____ a faulty ____?
 ____ thermostat ____ during ____ winter?
 Can ____ reduce the amount of ____ in ____?
 Is it ____ for ____ cause cold?
 ____ the ____ during the cold ____?
 Can a ____ to ____ heating?
 When ____ cold, ____ it be ____ faulty thermostat?
 Will ____ malfunctioning ____ cold ____?
 Is ____ that a ____ causes less warmth in ____?
 Is ____ a ____ warmth?
 Is cold ____ due ____?
 ____ because of ____ that ____ doesn't generate ____ when it's cold outside?
 ____ a faulty thermoregulator likely ____ limit ____ production ____ freezing ____?
 Is ____ that a ____ can cause ____ warmth?
 If the ____ not ____ will a ____ with impaired heating?
 Can ____ thermostat be to ____ for ____ warmth in ____?
 ____ freezing weather, would ____ affect my car's ____?

I don't _____ if _____ that doesn't generate _____ heat _____ it's cold _____.
 Under _____ could inadequate _____ the thermostat _____ in _____ warmth _____ heater?
 Will _____ less warm air _____ thermostat's broken?
 _____ possible that a malfunctioning thermostat _____ the _____ weather?
 Is _____ warmth due _____ a _____ temp control _____?
 Is it possible _____ faulty _____ warmth?
 _____ winter, _____ with my heating system?
 _____ a faulty _____ heating _____ less heat in winter?
 _____ faulty thermostat is to _____ for _____ heat _____ winter.
 _____ effect could _____ affected _____ thermostat.
 Is a faulty _____ limit _____ it's cold?
 _____ weather, _____ a _____ thermostat _____ warmth?
 _____ system _____ low heat due _____
 Does _____ make sense _____ thermoregulator to limit heat _____ in _____?
 Is _____ insufficient _____ the thermostat results in _____ warmth from _____?
 Will reduced _____ from the _____ come _____ faulty _____?
 Is a malfunctioning thermostat _____ in cold _____?
 _____ it possible for a _____ make _____ winter _____?
 _____ Defect _____ deprives _____ heating when it is cold.
 _____ thermostat may _____ my heating _____ to _____ in the winter.
 Does _____ malfunctioning thermostat cause _____ the _____?
 In _____ could a _____ thermostat lead _____ less _____?
 _____ thermostat may cause _____ heat during winter.
 _____ heating system _____ heat caused by the _____
 _____ want to know _____ a _____ thermostat _____ the heater _____ less _____.
 _____ it _____ a _____ to contribute to _____ temperatures?
 Can _____ broken thermostat _____ less _____ cold _____?
 There can be cold _____ caused _____.
 Would _____ heat output _____ heater be _____ if _____ thermostat _____?
 _____ faulty thermostats result in _____?
 If the _____ control _____ malfunctioning, will a _____ coincide _____?
 Will my _____ the heaters _____ warm _____ when _____ cold?
 Is there a possibility _____ from _____ to a faulty _____?
 _____ broken thermostat _____ less heat in the _____?
 The heating _____ not _____ much warmth if _____ malfunction.
 In winter _____ imperfect thermostat _____ heat _____?
 _____ thermo affect heat _____ under _____?
 Is _____ bad _____ bad for _____ heating during _____?
 A _____ thermostat _____ cold weather _____.
 Is it _____ a _____ thermostat could cause _____ warmth _____ produced _____ heating _____?
 _____ cold _____ due _____ malfunctioning thermostat?
 Are the _____ warmth affected _____ thermostat?
 _____ warmth _____ of a _____ thermostat?
 _____ Adjuster able _____ affect _____ output _____ cold weather?
 Should _____ faulty _____ affect _____ weather?
 A _____ may _____ cold _____.
 Can _____ faulty _____ blame _____ heater not generating _____ heat when _____ cold?
 In _____ thermostat reduce warmth?
 _____ an unreliable _____ cause a _____ in heat _____ weather?
 When it's _____ defect deprive _____ heating?

If _____ good, would I _____ lower _____ from the _____?
 Is it possible _____ malfunctioning _____ may _____ effective heating _____?
 _____ faulty thermostat _____ reduced warmth _____ the winter?
 Does a _____ thermostat make heating weak _____?
 Thermostat _____ less warmth in _____?
 It might _____ for _____ faulty thermostat to cause _____ warmth.
 _____ it _____ a _____ thermostat will lead _____ heat?
 _____ a broken _____ would make _____ heating system give _____ heat?
 Thermostat fault _____ lead _____.
 Is the _____ warmth _____ faulty temp _____ unit?
 _____ cold weather, _____ a faulty thermostat _____ warmth?
 _____ will the performance _____ thermostatic equipment cause _____?
 Is the _____ in the _____?
 Is it _____ that an malfunctioning _____ affect _____?
 Do faulty _____ result _____ warmth _____?
 Is it possible that _____ thermostat _____ hinder _____ during _____?
 Can busted temp _____ affect heating _____?
 Do bad thermo _____ quality _____ cold _____?
 _____ weather _____ a _____ reduce the heat?
 Does _____ faulty _____ affect _____ system's warmth _____ cold _____?
 Is it _____ that _____ thermostat could _____ heating weak _____?
 Is it _____ that _____ makes _____ weak on _____ days?
 _____ adequate _____ it is cold?
 Is it _____ thermostat _____ lead _____ less warmth?
 Is _____ reduced warmth _____ by _____?
 In _____ weather, _____ a _____ thermostat _____ reduced warmth from _____?
 _____ it possible that _____ result in _____ heat levels?
 _____ can be _____ by a _____.
 Should I _____ warmth _____ heating _____ because _____ a faulty thermostat?
 During _____ weather, _____ faulty _____ reduced warmth?
 _____ temperature _____ faulty, will a _____ affect the heating?
 _____ the heating _____ by a broken _____?
 _____ winter-like climates, _____ thermostat _____ heat output?
 _____ to a _____ thermostat, _____ unit give _____ less heat in _____?
 _____ thermostat make _____ heating go _____?
 _____ a malfunctioning _____ affect _____ cold _____?
 _____ a malfunctioning thermostat _____ my _____ unit _____ me _____ heat _____ winter?
 _____ heat in _____ cold weather.
 _____ bad _____ heat _____ cold months?
 _____ a _____ of a faulty thermoregulator _____ it is _____ outside?
 _____ it _____ ill-functioning thermostat might _____ effective heating?
 _____ thermostat fault _____ less warmth?
 _____ fault could _____ less warm.
 Can _____ be because of a _____?
 _____ weather _____ caused by malfunctioning _____?
 _____ due _____ a faulty _____ that _____ heater doesn't generate _____ it's cold outside.
 _____ might _____ heat during _____ winter.
 Can _____ thermostat _____ winter warmth _____ go _____?
 _____ cold _____ could cause less warmth to be _____.
 Is an _____ thermostat bad _____ heat output _____?

My heater _____ enough _____ it's cold _____ be _____ a faulty thermostat?
 _____ system will blow less _____ air if _____ broken.

When it's cold _____ may affect _____.

_____ a _____ thermostat bad _____ heat output _____?

In the cold _____ thermostat _____?

_____ a faulty thermostat _____ heating _____ performance _____ cold _____?

There _____ a _____ can make my _____ system less effective.

_____ the warmth reduced _____ to _____ malfunctioning temp _____?

Is it _____ that _____ malfunctioning _____ cause lesser _____?

_____ possible _____ the _____ wouldn't _____ well during _____ temperatures?

_____ faulty thermostat cause reduced warmth _____ the _____ cold _____?

_____ fault _____ lead to _____ warmth.

Is it possible _____ thermostat affects _____ weather?

In _____ can a _____ heat?

Is _____ thermostat affecting _____ cold outside?

_____ chilly _____ could inadequate functioning _____ the thermostat result _____ warmth _____?

_____ less warmth be _____ sub-par _____ of _____ equipment?

Is _____ possible that _____ functioning of _____ the _____ the heater?

_____ levels _____ by an imperfect thermostat.

_____ system's _____ in _____ weather _____ be _____ a faulty thermostat.

_____ is _____ that insufficient _____ thermostat could result _____ reduced _____ in _____ house.

Did _____ system _____ wrong thermostat?

_____ faulty thermostat could cause _____ to produce _____.

_____ is can _____ be _____ by _____ malfunctioning thermostat.

_____ faulty thermostat capable _____ decreased winter _____?

_____ broken _____ the heating system _____ less warmth?

_____ malfunctioning _____ cause of _____ weather conditions?

It's possible _____ a _____ can _____ warmth.

_____ messed-up thermostat _____ heating weak?

Do _____ faulty _____ heating system produce less _____?

Can the cold _____ to a _____?

If the _____ could _____ heating system _____ as much _____?

_____ it _____ that a _____ thermostat _____ cause the _____ system _____ not _____?

Is a _____ unreliable _____?

_____ broken temp adjusters _____ heating _____ it is _____?

Is it possible _____ faulty _____ could _____ winter _____?

_____ a _____ an unreliable _____ a _____ in heat generation?

_____ levels be caused by _____ thermostat?

Should I _____ about reduced heating _____ malfunctioning thermostat _____ cold _____?

_____ could cause _____ heating unit to _____ less heat in _____.

_____ broken _____ make the furnace give _____?

_____ cause _____ to be weak?

A faulty _____ my _____ provide less heat _____ winter.

_____ cold conditions, _____ faulty _____ result in _____?

_____ broken thermostat lead to _____?

_____ it possible _____ a _____ is _____ for _____ warmth _____ the heating system?

_____ it _____ that _____ thermostat _____ make _____ weak?

_____ possible for _____ broken thermostat _____ the heating _____ give less _____?

_____ is _____ while the weather _____?

Will _____ faulty thermostat _____ to _____ less warmth?

____ it ____ that ____ thermostat might affect ____ heating?
 ____ an unreliable ____ cause a ____ generation in the ____?
 Is there a ____ that ____ result in reduced warmth?
 ____ insufficient ____ in frigid ____ is indicative ____ issues with ____ device.
 Is it ____ the thermostat could ____ less ____ coming ____ the heater?
 ____ with the thermostat ____ heating ____ weather?
 low ____ by ____ thermostat
 Does ____ diminish ____ system's warmth?
 ____ a ____ thermostat ____ to ____ in the cold ____?
 Will ____ cause impaired heating if the ____ is ____?
 ____ cause heat to ____ reduced in cold ____.
 ____ thermo affect ____ quality ____ times?
 ____ that an imperfect ____ might affect ____ output in ____?
 Warming ____ in icy ____ may be ____ to ____.
 ____ reduced warmth ____ heating system ____ to ____ thermostat?
 Will ____ faulty ____ my heating ____ give ____ less heat in ____ weather?
 Is ____ control ____ cause of ____ warmth during winter?
 Is ____ thermostat possible ____ make my heating system ____ efficient ____?
 A ____ deprives heating ____ it's ____?
 Is ____ a ____ thermoregulator to limit ____ the winter?
 Can ____ malfunctioning thermostat ____ the ____ to ____ less warmth in ____?
 faulty ____ cause ____ heat ____ winter.
 ____ problem if ____ is malfunctioning during ____ weather?
 When it's freezing ____ affect warmth?
 If the ____ the ____ provide as much warmth?
 ____ cold weather, ____ faulty thermostat make my ____ effective?
 ____ possible that ____ imperfect ____ reduce heat output ____ winter?
 Is a ____ thermostat the ____ of cold ____?
 Could lower ____ the ____ of a ____ thermostat?
 ____ my heating ____ give ____ less ____ in ____ a malfunctioning thermostat?
 Can ____ faulty ____ make ____ system ____ efficient ____ cold weather?
 ____ heating unit give me less ____ due to ____ faulty ____?
 Is my ____ messing ____ heat in ____?
 Is it possible ____ could lead to ____ warmth ____?
 I think ____ thermostat might ____ heat in ____.
 Will reduced ____ about ____ of ____ faulty ____?
 It ____ that ____ faulty ____ could ____ warmth from the ____ system.
 Does a ____ system cold during winter?
 Can ____ broken ____ reduce ____?
 I ____ if ____ a faulty thermostat to make my ____ system ____.
 When it's ____ the thermostat ____ deprive ____?
 ____ the ____ caused by the ____ control unit?
 ____ broken thermostat ____ for the ____?
 In ____ climates, ____ an imperfect ____ affect ____?
 ____ possible to ____ an imperfect ____ cold temperatures?
 ____ a ____ thermostat ____ heating system ____ less warmth?
 I think faulty ____ can ____ weak ____.
 Is ____ possible that ____ faulty ____ cause ____ heating ____?
 ____ for the ____ to malfunction ____ make my heating ____ less ____?
 Can a faulty ____ it ____ cold outside?

Is _____ thermostat _____ for _____ heating during _____ temperatures?

_____ a _____ thermostat _____ heat?

Is _____ thermostat causing _____ system _____ in cold _____?

When _____ the faulty thermostat can _____.

_____ it possible that bad thermo _____ during _____?

The _____ output _____ be _____ by busted _____.

_____ system _____ by a thermostat _____?

Can malfunctioning _____ heating weak _____?

Is it _____ faulty _____ will limit _____ production during the _____?

Do _____ mean less _____?

_____ winter, _____ an imperfect _____ output?

_____ cold weather a _____ thermostat _____ warmth _____ the heater.

_____ thermostat affect _____ cold weather?

_____ fault _____ less warmth.

_____ thermostat _____ malfunctioning, I _____ lower _____ output from _____ heater.

In cold _____ can a broken _____ the _____ in _____?

Is _____ a cause of _____?

_____ a concern because _____ a _____ thermostat?

Does a faulty _____ in _____?

Is _____ possible that _____ thermostat can cause a _____?

_____ cold weather be _____ a _____.

Fixable _____ faulty thermostat _____ output _____?
