

[Demo] NLP Dataset for Customer Service Automation

Company Type	Water and Wastewater Utility Companies
Inquiry Category	Emergency response and assistance requests
Inquiry Sub-Category	Sewage backup or overflow
Description	Customers experiencing sewage backups or overflows, posing health hazards and requiring prompt response and repair to prevent further contamination and damage.
Data Size	9,082 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Water and Wastewater Utility Company" customer inquiry. (Purchased data will not be masked.)

What ____ are taken to ____ from a ____?

How ____ sewage spills ____?

____ is ____ excess ____ incident ____ continuing?

More ____ overflow are ____ by ____ actions?

____ contamination stopped during ____ incident?

____ there anything ____ can ____ spills?

____ can we ____ overflows ____ worse?

Measures ____ sewage pollution?

There ____ ways ____ potential ____ spread.

Is there any ____ against ____?

____ being taken ____ stop ____ overflows?

There ____ steps that can ____ stop spills from ____.

____ precautions ____ pollution caused by ____?

How ____ you stop ____ from ruining ____ lives after ____?

____ prevent additional waste ____?

What ____ do ____ sewage spills ____?

What ____ you do ____ prevent ____?

What ____ in ____ to ____ spills?

I need to ____ what ____ are ____ spills.

____ actions ____ taken to ____ sewage ____?

How ____ you combat ____?

What can be done ____ prevent ____ from ____?

____ can sewage ____ be ____?

What are ____ overflow is ____?

____ are ____ taken ____ avoid ____ from ____ sewage spill.

____ be done ____ avoid more ____ from sewer ____?

Measures ____ prevent ____?

There ____ in ____ avoid ____ spill pollution.

_____ that _____ put in _____ to _____ sewage pollution.

Which actions _____ pollution _____ overflows?

_____ sewage _____ pollution to _____ minimum?

_____ can _____ sewage overflow _____ causing more _____?

_____ can we _____ post-sewage _____?

What _____ the _____ taken to stop the _____?

_____ have _____ to _____ sewer spill pollution?

_____ are _____ protocols _____ place _____ post-sewage pollution.

How _____ you reduce _____?

_____ there _____ to prevent _____ spills?

Is _____ steps against more wastewater _____?

Measures to _____ avoid _____?

What _____ stop sewer _____ from causing toxic _____ discharges?

Want to prevent _____?

_____ can you stop _____?

How do you _____?

_____ be _____ stop sewage pollution.

How _____ sewage _____?

_____ safeguards to restrain _____ discharge of toxic _____ caused _____ sewer _____.

_____ sewage overflow pollution?

_____ can _____ prevent _____ sewage overflow?

How to _____ messes?

_____ are the _____ that _____ taken _____ stop _____ leaking of _____?

What _____ the _____ keep _____ of the water?

There _____ can do to prevent _____.

_____ a sewer backup issue, _____ do to prevent more _____?

Is _____ any _____ taken against _____?

How is _____ stopped?

What _____ avoid sewage spills?

_____ prevent waste spills?

Measures _____ for _____ pollution.

_____ is _____ backup _____ what methods _____ used _____ prevent pollution?

_____ should we _____ sewage-manure _____?

How do we _____?

What is the _____ prevent spills _____ overflow?

_____ precautions _____ to _____ against pollution caused _____ sewer _____.

_____ a plan _____ sewage _____ pollution.

What measures impede _____?

_____ to avoid sewer spill _____.

Measures to stop sewage _____.

Is there any _____ more _____?

What _____ are _____ stop sewage _____?

_____ are the _____ taken to stop _____?

_____ averting post-sewage pollution.

The steps that _____.

_____ should we prevent _____ from _____ spill?

_____ are in _____ for avoiding _____?

_____ any precautions implemented _____ additional spillage _____?

How _____ overflow sewage _____?

_____ the measures _____ to _____ overflows?

When there is _____ sewer _____ techniques are _____ prevent _____?

Is there _____ you _____ to prevent sewage _____ bigger _____?

_____ to _____ future sewage-manure crises?

There are solutions _____ stop _____ of pollutants _____ a _____.

Should _____ avoid _____ wastewater _____?

How do _____ from continuing?

So, _____ the plan _____ from coming from _____?

_____ we _____ sewage overflow?

When there _____ a _____ backup _____ methods _____ prevent more pollution?

How _____ you _____ the _____ the _____ overflows?

_____ actions _____ to _____ the _____ overflow?

Are _____ any _____ place against additional _____?

What are _____ sewage overflow?

How _____ you protect the _____?

How _____ sewage?

Measures to _____ pollution?

How could _____ prevented?

_____ can _____ sewage leaks?

_____ any actions taken _____ overflow?

What can _____ do _____ prevent pollution _____?

What are _____ precautions _____ to _____ sewage _____?

_____ can be done _____ sewer overflow _____ discharges?

_____ are _____ for _____ post-sewage _____.

Any _____ stop that _____ sewer _____ tainting my tap _____?

_____ can pollutants be _____ sewer _____?

_____ how are _____ it?

_____ you protect _____ during _____ of sewage?

_____ there a _____ against pollution caused _____ sewer _____.

How does _____ excess sewer _____?

Do _____ doing _____ stop _____ from _____ a bigger mess?

Is there a _____ to keep _____ nasty _____ my tap _____?

How is _____ when _____ sewer _____?

_____ avoid sewer _____ pollution

_____ do _____ sewage pollution?

_____ do _____ protect the environment _____.

What do _____ prevent more _____?

_____ in _____ to discourage sewer overflows?

_____ is _____ how?

_____ are in _____ in _____ to avoid _____.

There are _____ to _____ from sewer overflows.

_____ there _____ sewer _____ issue, _____ are _____ methods _____ to prevent pollution.

_____ do _____ do _____ stop sewer _____?

There are strategies to stop _____ in _____ sewage _____.

How can you _____ from _____?

Is there _____ action _____ against _____ havoc?

How _____ to prevent the _____?

_____ prevent pollution _____ discharges?

What safeguards _____ put _____ place to discourage _____?

_____ can _____ to prevent _____ backup from continuing?

How can _____ leaking?

_____ steps _____ could _____ sewage spills.
 _____ are _____ that _____ be taken _____ stop _____ spills.
 _____ actions _____ pollution?
 _____ to prevent _____ of _____ crisis?
 _____ there be _____ against _____ havoc?
 _____ that can be taken to _____ ?
 _____ we _____ the sewer _____ from getting worse?
 How _____ going to _____ overflow?
 _____ needed to prevent sewage _____ ?
 _____ steps are being _____ sewage _____ ?
 _____ ways of controlling _____ .
 How can _____ sewage _____ ?
 _____ we doing _____ overflow?
 _____ stop the _____ pollution?
 _____ we protect _____ environment from _____ ?
 What ought _____ to prevent _____ ?
 _____ are _____ place for avoiding _____ .
 _____ do I _____ more sewage _____ ?
 _____ to make sure the _____ doesn't _____ my tap _____ ?
 What _____ we _____ prevent _____ seepage?
 _____ can be _____ protect sewage _____ ?
 _____ to stop _____ ?
 Do _____ have _____ plans to _____ that _____ spill _____ tainting my _____ ?
 _____ to avoid _____ messy _____ ?
 _____ there measures that _____ spillages?
 Ways _____ preventing _____
 How can _____ prevent sewer _____ ?
 _____ actions to stop sewage _____ ?
 _____ can _____ avoid _____ impacting _____ environment?
 _____ are protocols _____ place _____ post-sewage _____ .
 How _____ stop the ruining of our _____ after _____ ?
 _____ the methods used _____ stop _____ there _____ a _____ backup?
 How _____ stopped _____ incident?
 What _____ be done to _____ pollution _____ sewage _____ ?
 _____ there any _____ taken _____ wastewater _____ ?
 _____ stop _____ overflow sewage pollution?
 How can _____ stop _____ ?
 _____ sewer _____ what methods are used to _____ more _____ ?
 Measures _____ stop more _____ ?
 _____ there _____ way _____ further _____ a sewage spill?
 _____ do you _____ the _____ ?
 What _____ be _____ stop sewer _____ events that cause _____ ?
 Is it possible _____ further _____ ?
 Steps _____ avoid _____ spill pollution, _____ ?
 _____ prevent _____ pollution from sewer _____ ?
 Which _____ do you use _____ guard _____ pollution _____ by _____ ?
 What _____ measures _____ additional waste _____ ?
 _____ are steps that _____ avoid a sewage _____ .
 Steps _____ sewer _____ .
 What _____ to prevent _____ backup from happening?

Which precautions protect _____?

How _____ you protect the _____?

_____ plans _____ sewage from causing more pollution?

So, _____ to prevent _____ from causing _____ pollution?

_____ do when _____ spills?

_____ of _____ the _____ effluent _____.

_____ precautions against _____ spillage _____?

_____ actions _____ taken to _____ the _____?

_____ to prevent _____ from _____?

How _____ stopping _____ sewer _____?

How _____ further _____ with _____?

How are the _____ overflows?

What are _____ taken _____ prevent _____?

_____ steps _____ further wastewater havoc.

How to _____?

Is _____ taken _____ further wastewater _____.

Is _____ stop sewage _____ making _____ bigger mess?

_____ should be taken against _____.

_____ do _____ keep _____ causing pollution?

What _____ should _____ discourage sewage _____?

_____ actions taken to prevent _____ overflow?

What _____ sewage _____?

_____ steps need _____ be taken _____ havoc?

What _____ can _____ taken to eliminate pollutants _____?

During _____ excess sewer _____ how _____ stopped?

_____ you _____ overflow is avoided?

_____ to _____ sewage _____ pollution?

What steps will _____ taken _____ spill?

How _____ prevent pollution?

_____ taken against spillage _____?

_____ are _____ actions _____ to stop _____?

_____ do _____ the sewer backups from _____?

_____ going to avoid _____ pollution _____ sewage spill?

What are the _____ that _____ to _____ overflows?

_____ measures to _____ sewage _____?

_____ do _____ about _____ overflows?

_____ in place _____ sewer _____?

What _____ done to _____ sewage spills _____?

There _____ can prevent _____ spills.

I want _____ measures are _____ to fight _____.

_____ there _____ done to protect against _____?

_____ are the _____ prevent _____ overflows?

What should _____ stop the _____?

What _____ the _____ that have _____ taken _____ overflow?

What _____ we do _____ pollutants out of _____?

Can there _____ spill from _____ my tap again?

_____ could be _____ to _____ sewage _____?

Measures _____ to avoid _____?

_____ you prevent further _____ sewage _____?

_____ we _____ sewage overflow _____?

_____ spills avoided?

_____ should be _____ protect _____ sewage leaks?

_____ actions stop _____ the _____ overflows?

_____ are taken _____ prevent _____ pollution?

_____ there anything that can _____ avoid _____ from sewer _____?

How _____ we _____ more pollution when _____ a sewer _____?

What _____ the actions _____ to _____ from sewer _____?

What do you _____ to _____ the _____ spills?

_____ does it _____ to prevent _____?

_____ exist _____ stop sewage _____.

_____ might you stop _____?

_____ can _____ to _____ further _____ overflows?

What _____ done to _____ a _____ from happening?

How _____ we _____ waste _____?

Please _____ to _____ spill pollution?

_____ we _____ overflows from causing more _____?

How do _____ sewer _____?

Does the _____ pollution?

_____ are _____ steps _____ are taken _____ prevent _____ overflows?

Steps to _____ pollution, _____?

_____ done about sewer _____?

In _____ sewage _____ to stop the spread _____ pollutants?

How is the _____ there's _____ sewer incident?

What can _____ to _____ sewage _____ from _____ again?

How can _____ stop _____ excrement?

_____ precautions help prevent pollution _____?

_____ there _____ excess _____ incident, how is _____ halted?

_____ can we keep _____ leaks _____?

_____ there a strategy _____ in a _____ backup?

_____ sewer _____ and how _____ it from getting worse?

_____ there be _____ in _____ to avoid _____?

_____ actions _____ stop the _____?

How can _____ mitigated?

Any plan to _____ the sewer spill _____?

Measures _____ prevent _____ spillage?

_____ are the actions that _____ taken against _____ of _____?

_____ there precautions _____ against additional _____?

_____ to prevent _____?

_____ do _____ prevent _____ sewage?

What _____ more sewage spills?

Is _____ way _____ pollution from sewer _____?

_____ to _____ sewage?

_____ there _____ for avoiding _____ pollution?

_____ to avoid sewer _____ pollution.

How _____ you _____ overflow Contamination?

_____ there _____ taken _____ spillage pollution?

_____ the ways _____ can _____ prevented?

Measures that _____ prevent _____ waste _____?

Measures _____ to _____ implemented _____ sewage _____.

_____ sewer backup _____ what methods are used _____ prevent _____?

How _____ sewage _____ flooding?

So, _____ the _____ to _____ from _____ pollution?

_____ prevent sewage overflow pollutants?

What are _____ you _____ taking _____ gnarly leaking?

What can be done _____ further _____ sewage _____?

What _____ do _____ reduce pollutants _____ sewage _____?

_____ can _____ backups from getting worse?

Measures _____ in place _____ sewer _____.

_____ were _____ to _____ sewage overflow?

What _____ the measures _____ taken _____ prevent _____ overflows?

_____ it happening to _____?

_____ avoid another overflowing?

_____ you _____ to prevent _____ overflow?

Measures _____ avoid _____ pollution.

There are strategies to _____ spread of _____ sewage _____.

How _____ be _____ spilling?

The _____ sewer spill _____ needed.

_____ you guard against pollution _____?

_____ stop more _____ spillages?

_____ taken _____ further wastewater havoc?

_____ the _____ taken to prevent _____?

_____ being put _____ to stop sewage _____.

_____ is _____ sewage spill _____?

_____ do we _____ leaks?

_____ the steps _____ taken to prevent _____ sewage _____?

_____ do _____ to prevent a _____?

_____ there _____ way to _____ by sewer overflows.

How-to _____ more _____ messes?

Do you _____ are _____ to _____ sewage from making _____ bigger _____?

_____ there ways _____ sewage _____?

_____ is _____ company _____ the _____ during _____ overflows?

Which _____ continued _____ sewer overflows?

_____ to prevent _____ sewer backup?

How _____ stop _____ sewage _____?

Measures _____ overflow pollution?

_____ for _____ sewer pollution?

_____ there any action _____ the continued _____ filth?

_____ to _____ the spread _____.

Ways of _____ the _____.

Is there _____ plan _____ prevent _____ from _____ more _____?

_____ actions are _____ stop the _____?

_____ are _____ measures you use _____ combat _____?

_____ to avoid _____ pollution.

What actions are _____ the _____ of _____ material?

_____ that prevent _____ waste _____?

_____ stop sewage _____.

_____ are safeguards to prevent sewer _____ waste discharges.

What safeguards _____?

How _____ going _____ avoid _____ spill?

_____ is _____ plan _____ keep _____ pollution.

_____ steps are _____ clean up after a _____?
 There are strategies _____ flowing into _____ backup.
 What _____ actions that prevent _____?
 How do _____ leaks?
 _____ can be done _____?
 Which precautions _____ from _____ by sewer _____?
 How _____ the sewage overflow from _____?
 Measures _____ sewer pollution?
 _____ pollutants from _____ prevented by what _____.
 _____ can _____ to _____ a sewage _____?
 How is it stopped when _____ is _____?
 _____ prevents _____ spread _____ spills?
 What _____ be _____ to _____ future _____?
 Is _____ any _____ wastewater havoc?
 _____ actions _____ waste seepage?
 _____ we _____ sewage overflows?
 _____ can be _____ to stop _____?
 _____ to prevent more _____?
 What should _____ leaks?
 Is there something _____ can do _____ sewage from _____ even _____?
 There are steps _____ sewage _____.
 What steps _____ taken _____ the _____?
 _____ can _____ to stop _____ a sewer overload?
 How do _____ against pollution _____ overflows?
 Which _____ are _____ against _____ caused _____ sewer _____?
 Measures that _____ prevent _____?
 Measures _____ to stop more _____.
 Steps _____ avoid sewer _____?
 _____ do _____ control _____ pollution?
 _____ there be actions _____ waste _____?
 _____ can _____ done to _____ sewer _____?
 How _____ dirty _____ messes?
 _____ should be done _____ pollution.
 _____ for controlling pollutants in a _____.
 _____ actions can _____ protect _____ sewage leaks?
 _____ are taken _____ reduce _____ sewer overflows?
 How _____ spills stop _____?
 _____ discharge of _____ prevented?
 _____ prevent _____ sewage-manure crisis?
 _____ avoiding _____ spill pollution?
 _____ are _____ taken to prevent _____ overflows?
 _____ are the steps _____ to _____?
 _____ measures in _____ sewage pollution?
 _____ are the actions _____ prevent _____?
 When _____ incident happens how _____ it _____?
 During a sewer _____ stopped?
 _____ pollution is _____ from _____.
 How _____ we prevent _____?
 Is _____ you can do _____ sewage from turning into _____?
 _____ sewer spill pollution _____ required.

_____ be _____ to prevent sewage _____?

Some actions _____ be _____ prevent sewage _____.

What _____ to _____ sewage spillage.

_____ sewage _____ what _____ safeguards?

Which _____ impede _____ the _____ system?

_____ do _____ sewer backup?

_____ is a sewer backup _____ methods are _____ prevent _____ pollution?

_____ are _____ to stop _____ of pollutants _____ a _____ backup

Is there anything you _____ stop sewage _____?

_____ actions _____ against the _____?

What _____ done _____ prevent a sewage overflow _____?

_____ are taken to _____ overflow?

What was _____ prevent _____?

Measures _____ to avoid _____?

_____ possible actions _____ prevent more _____.

_____ safeguards _____ occurrence of sewage _____?

There _____ steps taken _____ wastewater _____?

The _____ against wastewater _____?

Any _____ to keep the _____ spill _____ tap _____?

What _____ we _____ about _____?

During _____ incident, _____ thecontamination stopped?

What _____ done to prevent _____ spills _____ becoming _____?

_____ there _____ sewage overflow pollution?

How _____ prevent _____ spillage?

Is there anything you _____ do _____ from _____ an _____ bigger _____?

What _____ the _____ you _____ prevent _____?

_____ do _____ company _____ against _____ during sewage _____?

_____ sewage overflow?

_____ be _____ to _____ further discharge?

Will there _____ to _____ spill _____ tainting my tap _____?

Which precautions _____ effects _____ sewer _____?

Measures _____ pollution

_____ taken to prevent _____ overflow from _____ again?

_____ steps being _____ to avoid a _____ spill?

_____ measures _____ avoiding sewer _____?

What _____ the _____ sewage spillage?

_____ is avoided, _____?

_____ there any _____ pollution _____ there _____ a sewer backup?

_____ be taken against _____ havoc?

_____ stop _____ waste seepage?

_____ do you _____ the _____ overflow?

_____ steps _____ to prevent spills _____ sewage _____.

_____ put in _____ avoid sewer _____?

_____ can be done _____ spills from _____?

_____ steps _____ taken to _____ spills?

_____ plan to keep sewage from _____ pollution?

_____ to _____ leaks?

What precautions _____ used _____ guard _____?

What _____ are _____ in place _____ sewage _____?

When _____ sewer backup issue arises, what _____ are _____?

How _____ prevent _____ from getting worse?

What steps _____ taken to _____ from happening?

_____ are _____ place to _____ post-sewage spill _____.

What can _____ to prevent more _____ sewage _____?

_____ we do _____ prevent _____ during sewer _____?

There are _____ can _____ prevent toxic waste discharges caused by _____.

_____ you stop sewage _____?

_____ precautions taken against _____ pollution?

_____ avoid further yucky wastewater _____?

What _____ to _____ sewage spillage?

Any actions _____ be taken _____ waste seepage?

What _____ steps _____ further waste _____?

_____ do _____ stop sewer _____ from continuing?

_____ control sewage _____?

There _____ for stopping _____ sewage backup.

What can _____ do _____ the _____?

Which precautions _____ against sewer _____?

How _____ you find _____ way _____ prevent _____?

What _____ done _____ stop _____ leaking of filth?

_____ sewage _____ be avoided?

Are _____ that prevent _____ waste _____?

How _____ stopped?

_____ methods _____ used to _____ when _____ is a sewer _____?

What can be _____ pollution _____ sewage overflow?

_____ can you fight _____?

What _____ the _____ you're taking _____ more _____ leaking?

How _____ seweroverflows _____?

How _____ you stop _____ waters _____ our _____ sewer _____?

Efforts are _____ pollution.

How _____ avoided.

_____ you _____ sewage pollution?

Steps being _____ pollution, please?

How do you _____ of _____ environment during _____?

_____ we avoiding sewage _____?

Measures that prevent _____?

_____ we _____ the sewage overflow?

_____ avoid _____ wastewater messes?

_____ sewage spills _____ getting _____?

_____ safeguards do _____ sewage spills?

What _____ be _____ to prevent sewage _____ getting _____?

Is _____ sewage spills from getting _____?

_____ actions _____ the _____ from the sewer _____?

_____ are protocol for _____.

_____ is _____ plan to keep _____ from causing _____.

_____ there any _____ taken _____ pollution?

_____ are the _____ prevent a sewage _____ happening?

What _____ keep sewage out of the _____?

Do _____ prevent waste from _____ spread?

_____ a _____ backup, what should be _____ to prevent _____?

How _____ the _____ during _____ incident?

_____ to _____ more waste _____.

Measures _____ more waste _____?

What actions are taken _____ the _____ sewage _____?

Is _____ action that can _____ taken _____ wastewater _____?

How _____ overflow from occurring?

_____ there is _____ sewer _____ issue, _____ methods _____ used to _____ pollution?

_____ combat _____ spills effectively?

Tell me _____ measures _____ combat sewage _____.

_____ steps _____ avoid sewer _____ pollution

Is there a _____ to _____ pollutants _____ sewage backup?

What _____ the precautions _____ against pollution _____ overflows?

_____ future _____ overflow pollution?

_____ steps to protect _____ sewage _____?

_____ are _____ be _____ against pollution caused by _____.

_____ are taken _____ prevent _____ pollution from _____ sewage _____.

Is _____ way _____ stop _____ pollution?

_____ do _____ to _____ overflow?

_____ that _____ to _____ sewage overflow.

What _____ taken to _____ pollutants out _____ the _____ overflow?

How do we prevent _____ more problems?

_____ we avoid more _____?

_____ me what _____ were _____ combat sewage _____.

_____ wastewater havoc be _____?

_____ the actions taken to _____ filthy material?

There are steps _____ to _____ further _____ spill.

_____ doing _____ prevent sewage overflow?

_____ of _____ effluent spread.

_____ avoiding _____ wastewater messes?

How _____ measures in _____ sewer _____?

Measures _____ taken to _____.

Is _____ any plan _____ the _____ sewer spill _____ tainting my _____?

_____ are steps that can _____ to _____ overflows.

_____ being _____ to prevent _____ pollution _____ sewage spill?

_____ can you _____ overflows?

What _____ to _____ sewage spillage?

What is _____ prevent _____ overflow _____ happening again?

_____ in _____ help avoid _____ pollution?

_____ actions can be _____ spills?

There _____ that _____ prevent sewage _____.

_____ sewage overflows?

What are _____ taken _____ prevent _____?

Should _____ be safeguards to _____?

_____ sewage _____ how _____ you _____ environment?

_____ there _____ plan to _____ the _____ from tainting my _____?

_____ plan _____ keep the _____ from _____ more pollution?

_____ you stop _____ waters _____ after sewer overflow?

_____ are _____ allowing sewage _____ overflow?

How _____ avoided from _____?

Will _____ to _____ that _____ spill _____ tainting my tap again?

_____ do _____ prevent sewage _____?

_____ pollution _____ spills is _____.

How _____ steps _____ avoid _____ sewage spill?

_____ steps _____ taken _____ further wastewater _____?

_____ to _____ sewer spill _____ please?

What should be done _____ waste discharges _____ overflow _____?

How _____ prevent _____ overflow from _____?

_____ to prevent _____?

Are _____ in place to stop _____?

_____ me _____ measures _____ in place to _____ sewage _____.

What _____ taken _____ prevent a sewage _____?

What are the _____ taken _____ sewage _____?

_____ can _____ done to _____ spills from _____ environment?

_____ the sewer spill from tainting _____ tap again?

_____ are the steps _____ spills _____ overflow?

_____ be _____ to _____ pollutants out of the _____?

There are _____ post-sewage pollution.

How are sewer _____?

_____ me, _____ the _____ that combat sewage _____?

How can _____ sewer backup _____ worse?

How can _____ sewage overflow from _____?

Steps _____ avoiding sewer _____?

Measures _____ impede _____ waste _____?

When _____ is a sewer _____ issue, what _____ to _____ pollution?

_____ are _____ in which you can _____ overflow?

How can _____ from _____ sewage _____?

_____ there _____ a sewer backup, _____ methods _____ to _____ pollution?

_____ are protocols _____ for prevention _____ pollution.

How _____ the wastewater?

Which _____ to stop pollution _____ sewer _____?

There _____ prevent sewage _____.

There _____ precautions _____ can _____ taken _____ pollution caused _____ overflows.

Steps _____ avoid _____ pollution, _____.

_____ of _____ the potential _____ of _____.

_____ to _____ pollution.

Does _____ have _____ to _____ the sewer _____ from _____ tap again?

_____ sewage _____ kept out of _____?

How can _____ causing _____ pollution?

How are _____?

_____ pollution _____ sewer lines?

There should _____ steps _____ wastewater _____.

_____ be done _____ keep the _____ from _____ my _____ again?

_____ there be _____ to _____ sewage _____?

_____ to fight sewage spills?

How _____ the sewage _____?

What safeguards _____ deter _____ overflows?

_____ can be _____ to _____ toxic waste _____ sewer _____ events?

_____ be _____ stop _____ overflow events from _____ waste discharges?

When _____ is _____ backup, _____ methods used to _____ pollution?

What can _____ do _____ prevent _____ from becoming _____?

What are _____ to _____ from causing more _____?

_____ you _____ Sewage overflow?

Measures _____ reducing sewer _____?

What should _____ done _____ crisis?

_____ should we do to _____?

_____ are used against _____ spillage _____?

Measures _____ further _____ pollution?

There _____ that could prevent _____.

Measures _____ to _____ from _____ Sewage overflow

_____ that keep _____ waste _____ happening?

How is _____ stopped?

Ways _____ to _____ spread of _____.

How to _____ further _____.

_____ any plan _____ keep _____ sewer _____ tainting _____ tap again.

How _____ we stop _____?

What are we doing _____?

_____ can we prevent sewer _____ from _____?

What actions _____ be _____ environment _____ sewage overflow?

_____ are _____ to prevent _____ overflows _____ more pollution?

Is _____ a _____ prevent _____ from _____ a _____ backup?

_____ that _____ additional waste _____?

What _____ to stop _____ sewage _____?

How are _____?

_____ sewage _____ prevent pollution?

What _____ think should _____ combat sewage spills?

_____ me _____ the _____ will combat sewage _____.

What steps can _____ prevent pollution from _____?

What are the _____ taken to _____ sewage _____?

Which actions _____ taken _____ stop _____ pollution from _____?

How _____ you _____ overflow sewage _____?

What _____ are _____ taken _____ avoid pollution _____ spill?

_____ more wastewater messes.

How _____ overflows from getting _____?

_____ can be done to _____?

During an excess sewer incident, _____ can _____?

_____ you _____ against sewage overflows _____ environment?

_____ to _____ spread _____ effluent.

_____ what _____ measures _____ to fight _____ spills effectively.

_____ an excess _____ incident stop _____?

Can _____ implemented to _____ sewage _____?

_____ are _____ steps _____ spills from _____ overflow?

How do you _____?

Which _____ taken _____ sewage leaks?

What are _____ that are taken to _____?

Measures to _____?

What are _____ actions taken _____ continued _____ of _____?

What _____ the steps _____ taken _____ overflows?

_____ it do _____ prevent sewage _____?

How _____ we _____ sewage spills _____?

_____ measures taken to _____ sewage _____?

_____ there _____ taken _____ Wastewater _____?

_____ to _____ sewer pollution?

_____ we _____ against more sewage _____?

Any _____ to stop _____ sewer _____ tap again?

_____ stop _____ waste spillages?

Steps are _____ to _____ from a sewage _____.

How _____ sewage overflow _____?

_____ can we _____ to _____ crises?

What _____ be _____ to _____ overflow?

How _____ sewage _____?

There are _____ that can be _____ the _____ of _____ sewage backup.

_____ can _____ stop ongoing _____ overflows?

_____ implemented _____ stop further sewage _____.

_____ are _____ actions to _____ sewage _____?

_____ are in place to prevent _____ waste _____ events?

What actions can be taken to _____?

_____ do you _____ more _____?

What's _____ keep sewage _____ making more _____?

What are _____ against sewage leaks?

What steps are taken _____ the _____ from _____?

_____ will you _____ the _____ sewage _____?

_____ it _____ prevent _____ sewage spills?

Do _____ precautions to _____ spread _____?

_____ avoid _____ sewage pollution?

Measures to _____ waste _____?

How _____ you _____ sewage _____?

Any _____ can be taken to _____?

_____ there be _____ more _____ seepage?

What steps _____ been _____ prevent _____ from _____ sewage _____?

_____ you _____ environment _____ of pollution _____ sewage overflows?

_____ are _____ against the leak _____ filth?

_____ steps are being taken _____ from a sewage _____?

When _____ excess _____ incident occurs _____ is _____?

What _____ we do _____ stop _____?

Ways _____ the potential _____ effluent.

What _____ done _____ sewage spill?

When _____ is _____ sewer backup issue, _____ used to prevent _____?

_____ if any steps _____ taken _____ wastewater havoc.

Measures _____ prevent _____?

What _____ to _____ pollution during _____ overload?

_____ waste spillages?

Is _____ any _____ stop _____ sewer _____ tainting my tap _____?

_____ the situation halted during _____?

Which _____ ongoing pollution _____ system?

How _____ it prevent _____?

_____ to _____ sewage?

_____ do to protect _____ leaks?

Tell _____ measures to combat _____.

What can _____ stop further _____?

_____ avoid _____ wastewater messes?

_____ to prevent waste _____.

_____ there any action taken against _____ ?
 Measures are _____ in place to _____ .
 What are _____ steps _____ spillage?
 _____ you do to _____ overload?
 _____ there _____ keep sewage from causing _____ pollution?
 How _____ we _____ backups?
 What _____ we do _____ protect against _____ ?
 How will you _____ from _____ lives?
 _____ overflows stopping pollution?
 _____ is _____ avoided?
 _____ steps _____ stop _____ discharges?
 When there _____ sewer _____ issue, _____ methods are _____ to _____ .
 _____ impede the _____ of sewage _____ ?
 _____ a sewer backup _____ happening again?
 What _____ excess sewer incident.
 Measures to _____ spilling?
 _____ can _____ taken _____ prevent sewage _____ ?
 _____ we _____ the sewer _____ from _____ contaminated?
 What actions do _____ sewage _____ ?
 Measures in _____ sewer _____ ?
 _____ is _____ overflow _____ ?
 Is there any steps _____ wastewater _____ ?
 There _____ to _____ sewage overflow.
 Is _____ taken against _____ havoc?
 Do _____ know _____ to _____ prevent sewage spillage?
 What _____ were taken _____ combat _____ ?
 Which _____ are _____ guard against _____ from _____ overflows?
 _____ limit _____ pollution?
 _____ leaks?
 _____ protocols _____ place to prevent _____ pollution.
 _____ you stop _____ overflow?
 _____ actions were taken against _____ of _____ material?
 _____ situation _____ when the sewer _____ ?
 _____ anything _____ can do to prevent further _____ ?
 _____ any precautions _____ implemented _____ additional _____ ?
 What safeguards _____ from _____ ?
 There _____ safeguards _____ discharges when sewer overflow _____ occur.
 Is _____ way _____ avoid sewage _____ ?
 _____ is a _____ what methods are _____ to keep _____ under _____ ?
 _____ to stop _____ sewage _____ implemented.
 How _____ sewage _____ ?
 What _____ are _____ sewage spills?
 _____ steps _____ could _____ to prevent spills from _____ overflow.
 How does _____ the environment during _____ ?
 What _____ are in _____ to keep _____ causing _____ ?
 How does _____ incident _____ contamination?
 _____ strategies _____ stop the pollution _____ a sewage _____ .
 _____ are protocols in _____ pollution?
 Is there _____ precautions _____ spillage _____ ?
 _____ taken _____ guard against pollution _____ sewer overflows?

What methods ____ you ____ combat ____?
 ____ can you ____ stop ____ sewage ____?
 Which ____ from ____ overflow?
 ____ steps ____ avoiding sewer ____.
 ____ is ____ keep sewage out of ____?
 During ____ overflows, ____ does your company ____ ____?
 ____ do you stop sewage from ____?
 How to ____ from entering ____?
 ____ stop sewer pollution?
 ____ being ____ to ____ pollution ____ a sewage spill?
 There are ____ that ____ used ____ stop toxic waste discharges ____ by ____.
 How ____ you ____ overflow?
 ____ be done to ____ the spread of ____ during ____?
 ____ an excess ____ incident ____ theContamination ____?
 How ____ we going to ____ from a ____?
 ____ of wastewaters ____ controlled?
 What do ____ do ____ the ____?
 Is ____ any ____ to ____ spill from tainting my ____?
 What ____ to ____ sewage overflow?
 Which ____ against ____ sewage overflows?
 ____ do ____ contain sewage ____?
 What can be done ____ discharges ____ occurring?
 Is there ____ can be done ____ avoid ____ a ____?
 ____ done to ____ the ____ crisis?
 How about steps to ____.
 ____ used to ____ sewer overflow pollution?
 Which ____ keep ____ from ____ by sewer ____?
 ____ backup issue ____ what are the ____ to ____ more pollution?
 ____ measures ____ use ____ combat ____ quickly and effectively?
 What can ____ to keep ____ discharges ____ happening?
 There ____ to ____ overflows.
 How ____ sewage-manure ____ prevented?
 ____ there anything ____ can ____ sewage ____ a bigger mess?
 How ____ the steps taken ____?
 ____ there ____ way ____ further wastewater ____?
 Ways ____ effluent spread.
 ____ can ____ to protect against sewage ____?
 So, what ____ keep sewage ____ pollution?
 ____ do we ____ sewage ____?
 ____ the measures ____ sewage pollution?
 How ____ stop ____ leaks?
 There ____ be ____ to ____ against pollution ____ by sewer overflows.
 ____ do ____ further ____ from sewer ____?
 ____ measures ____ we ____ to ____ spills?
 How are we ____?
 ____ done to eliminate ____ spills?
 ____ you ____ sewage ____ spills?
 ____ avoid Yucky ____ messes?
 How ____ unpleasant wastewater ____?
 ____ are the ____ prevent sewage ____?

Which _____ you _____ to _____ sewer _____?

_____ we _____ to prevent _____ sewer _____?

_____ done _____ sewage pollution?
