

[Demo] NLP Dataset for Customer Service Automation

Company Type	Telecommunications Equipment Manufacturers
Inquiry Category	Network connectivity and signal issues
Inquiry Sub-Category	Network security
Description	Customers seeking guidance and solutions for enhancing the security of their network, such as setting up firewalls, implementing VPNs, or addressing potential vulnerabilities.
Data Size	5,062 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Telecommunications Equipment Manufacturer" customer inquiry. (Purchased data will not be masked.)

What encryption _____ recommend _____ wired and wireless _____ an _____ framework?

Can _____ of secured enterprise communication _____ appropriate for both _____ and wireless systems?
_____ given _____ preferred _____ wired and _____ settings of enterprise communication framework?
_____ know which type _____ protocols are _____ securing _____ wireless and wired _____?

I want _____ encryption standards _____ you suggest _____ wired and _____ connections.

The _____ of _____ include _____ encrypting _____ for wired _____ wireless communications.
_____ encrypting _____ of both cable and _____ business _____ were _____ to determine.

Suggestions on encryption methods _____ commercial _____ wireless _____ are worth _____.

_____ recommendations on _____ to _____ and wired communications in _____ corporate _____?

I _____ to _____ the preferred _____ wired _____ wireless _____ in an _____ context.
_____ for _____ networks and wireless?

_____ know which _____ encryption _____ is the best _____ securing wireless _____ transmissions in your _____?

_____ you have recommendations _____ how _____ wireless _____ wired communications _____ network?

Which _____ standards _____ for wireless and wired _____ connections in _____ enterprise _____?

I want to _____ the encrypting standards you suggest for _____ and wireless _____.

_____ would _____ suggest to _____ securely _____ wired _____ an enterprise communication framework?

Do _____ any ciphers _____ would work well for _____ both wired _____ wireless devices?

_____ tell me _____ encryption standards _____ suggest for _____ connection in _____ setting.

_____ us a proposal of _____ communication protocols _____ good for _____ and wireless systems?

Do _____ type _____ best _____ securing wireless or wired transmissions in _____

_____ preferred encryption _____ for wired and wireless comms _____?

_____ the best _____ encryption _____ networks, cables, _____ wireless devices _____ worth looking _____.

What _____ protocols do _____ recommend for _____ transmissions within a _____?

Do _____ know _____ encryption protocols that _____ best _____ securing _____ wired transmissions _____ network?

_____ us _____ proposal of secured enterprise communication protocols _____ are _____ wireless environments?

_____ want to _____ the encryption standards you _____ wired and _____ connections _____ communication setup.

I _____ to _____ the _____ standards _____ are suggested _____ wired _____ in _____ business _____ set up.

_____ encryption _____ for _____ and wireless comms included _____ the _____ for _____?

Can _____ offer a _____ for _____ enterprise _____ system _____ over both _____ wireless?

_____ you give us _____ any _____ enterprise _____ that are _____ for wired or wireless _____?

Do you recommend _____ of _____ protocol _____ best _____ securing wireless or _____ transmissions within _____?

_____ have any suggestions on _____ best _____ for _____ communication _____?

_____ encryption standards _____ appropriate _____ wired _____ wireless _____ an enterprise _____ framework?

_____ were _____ determine _____ best encrypting standards _____ and _____ for business communications.

Any _____ on _____ secure wired _____ wireless connections _____ enterprise communication _____?

Do you have any ideas about which _____ well _____ enterprise _____ and wireless _____?

_____ work _____ for secured enterprise communication _____ and wireless devices?

_____ were sought _____ find the _____ for cable and wireless _____ in _____.

What cipher protocols _____ recommend to secure _____ in _____ corporate network?

_____ to _____ encryption _____ suggest for our _____ and Wireless _____ in _____ business setting.

I have _____ question _____ the _____ to _____ for wired and _____ in _____ communication setup.

_____ standards _____ you recommend _____ securely connecting wired and Wireless _____ communication _____?

_____ know of any _____ protocols _____ for _____ wireless or _____ transmissions in _____ corporate network?

_____ you _____ any _____ on _____ to secure wired and _____ in _____ network?

Which encryption standards should be _____ for _____ and _____ internet _____ framework?

I would _____ to _____ the encryption standards _____ for wired and _____ connections _____ up.

_____ you have _____ recommendation on which ciphers are _____ for securing _____ or _____ transmissions _____?

Suggestions on _____ for encryption of _____ cables, _____ wireless _____ could _____ helpful.

Suggestions are wanted for the best encrypting _____ network _____

_____ on the _____ of commercial _____ and wireless devices?

Which of _____ recommended _____ practices target _____ and _____ in _____ business _____?

Which _____ be used _____ secure the _____ and _____ a corporate _____ setup?

Suggestions _____ methods _____ networks, cables, _____ wireless?

_____ should _____ used on _____ in an enterprise communication framework?

Can _____ a _____ of _____ secured enterprise communication protocols that are good _____ wired _____?

Can _____ give _____ for an _____ system that is _____ over both _____ and wired _____?

_____ would _____ for securely connecting wired and Wireless in _____ enterprise communication _____?

_____ you give us a proposal of secured _____ communication _____ that are _____ both _____?

The _____ encrypting _____ cable _____ wireless networks _____ business communications _____.

_____ best encryption _____ for wired _____ in companies?

Recommendations _____ determine the _____ encrypting standards of _____ wireless _____ in the _____.

_____ it _____ wired and _____ communications used by enterprises?

_____ you _____ a recommendation of which protocol _____ for _____ wireless _____ our corporate?

What encryption _____ are _____ wired and _____ communication _____ enterprise?

Which _____ would you _____ wired _____ in an enterprise communication framework?

_____ the preferredEncryption _____ for cables and airwaves?

I would _____ to know _____ encryption standards you _____ our _____ and _____ connections _____ the _____.

Suggestions about the best _____ methods _____ commercial _____?

_____ for _____ communication system that is secured _____ wired and wireless?

suggestions on _____ best encryption methods _____ networks, _____

_____ you _____ what type _____ protocols are best _____ or _____ in your business?

Do _____ think _____ is helpful to suggest standards _____ of _____ and wireless _____ enterprise _____?

Do you _____ of any _____ that _____ work well _____ secured _____ both wired _____ devices?

_____ you think _____ would be _____ to suggest _____ for _____ of wired _____ an _____ setup?

_____ you _____ us _____ proposal _____ secured _____ communication protocols that _____ suitable _____ both _____ and _____?

_____ set-up _____ an enterprise _____ preferred _____ for wired _____ wireless comms?

Which _____ you point _____ others for securely connecting wired _____ wireless devices _____ framework?

_____ want to know the encryption _____ you _____ for _____ communications _____ the _____.

I _____ the _____ protocols _____ encrypting _____ and wireless links in _____.

I want _____ ciphers _____ suggest for _____ wired and wireless _____ setup of _____ business.

_____ you know _____ security protocols are _____ for securing wireless _____ wired _____ your _____?

_____ standards for _____ wireless networks for _____ were _____ to determine.

Do you _____ of _____ that _____ work nicely for _____ enterprise communication _____ wired _____ wireless _____?

The _____ of an enterprise _____ include _____ encryption standards _____ wireless _____.

_____ would _____ to _____ the _____ to use _____ wired _____ wireless connections _____ an enterprise _____ setup.

_____ framework _____ is it recommended to use _____ type of encryption?

_____ the cipher standards you suggest _____ wireless connections in _____ business communication set _____.

What _____ protocols are _____ securing the wired and Wireless transmission _____?

Is there a recommendation _____ and _____ in _____ enterprise _____ setup?

Do you _____ a recommendation about _____ or wired _____ in _____ corporate?

Do _____ have advice on how _____ secure _____ and wired _____?

_____ on _____ encrypting methods _____ commercial _____ and wireless devices _____ to attention.

_____ would _____ know the _____ encryption _____ wireless connections in _____ enterprise.

_____ it possible _____ a preferred _____ standard _____ and wireless communications _____ enterprise?

_____ a preferred _____ standard _____ wired and _____ in _____?

In the firm's framework _____ and _____ it recommended _____ preferred _____?

_____ which _____ of _____ protocols are best for securing _____ wired transmission _____ corporation?

Can _____ give _____ proposal for an _____ secured over wired _____ wireless?

Suggestions on the _____ use for commercial networks _____?

_____ there recommended Encoding _____ wired and wireless _____?

Do _____ which type _____ encryption protocols _____ best _____ securing wireless or _____ transmissions _____?

Suggestions on the _____ methods _____ of _____ cables, and wireless networks _____.

What _____ recommend to secure _____ and Wireless _____ within the _____?

_____ you _____ proposal of _____ enterprise _____ protocols you _____ are ideal _____ wired and wireless?

Suggestions on _____ best _____ commercial networks or _____

_____ type of encryption protocols _____ best _____ wired transmissions _____ corporate?

I want to _____ what the best _____ for _____ in an _____ up.

_____ standard should _____ used to _____ and _____ in a _____ communication _____?

Should _____ be _____ regarding preferred security encryptions _____ and wireless _____ framework?

What _____ protocols _____ for _____ and Wireless transmission within _____ network?

Do preferred _____ standards include _____ comms in _____ set-up _____ an _____?

_____ inquired about _____ security measures _____ wired and wireless _____ in _____

_____ to know _____ encryption _____ you suggest _____ wired _____ connections in our _____ communications setup.

_____ would _____ to _____ the encrypting _____ for our wired and _____ connection _____ a _____ setting.

_____ best for _____ communication _____ both wired and wireless systems?

_____ have _____ protecting both _____ wireless transmissions within the corporate _____?

Do you have _____ recommendations _____ secure _____ wired and _____ the corporate _____?

_____ know the encryption standards you _____ for _____ wired and _____ a business _____.

_____ would _____ highlighted _____ secure wired _____ wireless connections _____ communication framework?

Do you _____ which _____ of _____ is best _____ wireless _____ wired transmissions within our corporate _____?

Any recommendations on _____ both _____ in our _____ setup?

I would like to _____ standards you _____ wired _____ connections _____ the _____ communications setup.

Discuss which _____ well for secured _____ on both wired _____.

Is _____ that you _____ of _____ in _____ framework for cables and _____?

Do _____ recommendation for how _____ secure _____ wired _____ within _____ corporate network?

_____ on the best _____ encryption _____ commercial networks, _____ and _____ devices _____ look.

I want to know how _____ use _____ and _____ connections _____ an enterprise _____.

_____ the _____ encryption methods for the commercial _____?

_____ on the _____ for commercial networks, cables _____ services is _____.
 _____ you _____ what _____ are best for securing _____ or _____ in our _____?
 _____ wanted _____ know _____ you suggest for _____ and wireless _____ the _____ world.
 Which _____ best _____ and wireless communication _____ the corporate network?
 _____ you give us a proposal _____ enterprise _____ protocols _____ ideal _____ both wired _____ wireless?
 Are _____ standards for wired and _____ set of _____ they use in _____?
 What's _____ in _____ firm's _____ for cables _____ airwaves?
 _____ to know the _____ encryption to _____ wired _____ wireless _____ in _____ enterprise
 _____ suggesting a _____ for business communications?
 _____ recommend _____ protocol _____ best for securing _____ or wired transmissions _____ your business?
 _____ want _____ know the encryption standards that _____ the wired and _____ connections _____ setup.
 _____ of any ciphers that _____ work well _____ secured enterprise communication _____ devices?
 _____ you give _____ of _____ secure enterprise communication protocols _____ be _____ wired _____ wireless systems?
 Suggestions _____ methods for encryption of commercial _____ wireless _____ be made _____ attention.
 _____ regarding the best encryption _____ for _____ cables, _____?
 _____ to know _____ standards _____ suggest _____ our wired and wireless connections _____ business _____
 _____ recommendations be given _____ security _____ wired and _____ of enterprise _____ framework?
 _____ encryption standards for _____ and _____ connections _____?
 _____ ciphers _____ nicely for _____ enterprise communication on _____ wired and _____ devices?
 Do _____ a _____ best way _____ or wired transmissions in _____ corporate?
 Do _____ what _____ of protocols _____ the best _____ securing wireless or _____ our _____?
 _____ best _____ for _____ networks, cables and Wireless?
 _____ give us a _____ any secure _____ communication _____ that are suitable _____ wireless environments?
 _____ standards would _____ used _____ protect _____ and wired _____ business _____?
 Do _____ type of ciphers are _____ securing wireless _____ wired _____ in _____?
 The best encrypting standards _____ cable and _____ communications were _____ determine.
 Do you _____ what _____ protocols are _____ securing wireless _____ transmissions _____ the _____?
 _____ you _____ a _____ standard for _____ wired and _____ communications _____?
 Does anyone have any good _____ on _____ and _____ business setup?
 Can you _____ us _____ secured enterprise communication protocols that are _____ or _____ environments?
 _____ the _____ of the _____ include _____ encryption standards for _____ communications?
 Do _____ a proposal _____ an _____ system that's secured over wired _____?
 Is it recommended that _____ certain type _____ in _____ for cables _____?
 What _____ would you _____ to secure _____ Wireless transmission within _____ corporate _____?
 Which encryption _____ would you recommend _____ wired _____ in an enterprise _____ framework?
 Are _____ any particular _____ protocols _____ can be _____ for secure _____ over _____ and _____ systems?
 Do _____ know the type of _____ protocols _____ securing wireless or _____ your business?
 _____ want _____ best encryption for _____ and _____ in an enterprise.
 Suggestions _____ best methods for _____ cables and wireless _____ appreciated.
 Which _____ recommend _____ for _____ connecting _____ and _____ in an enterprise _____ framework?
 Best encryption _____ wireless communications for _____?
 Do you have a _____ of _____ secure _____ wired _____ within our _____?
 _____ would _____ know the _____ standards you suggest for wired _____ in _____ business _____.
 I need to know _____ encryption _____ you suggest _____ wired _____ in _____ communication set _____.
 Recommendations _____ on _____ the best ciphers _____ for cable and _____ in _____.
 _____ should _____ on wired and _____ for business communications?
 _____ in _____ encryption _____ that you _____ for _____ and wireless _____ connections.
 _____ cipher protocols do _____ recommend for _____ wireless _____ a corporate network?
 _____ methods for encrypting commercial _____ cables and wireless _____ can _____ to the _____.
 Can _____ recommend the best encrypting _____ communication _____?

_____ you _____ us _____ of secured enterprise communication _____ that are _____ wired and wireless _____?
 Is _____ best encryption standards for _____ wireless _____?
 What standards would _____ for _____ and wireless connections in _____?
 Do _____ have a _____ which type _____ is _____ wireless or wired transmissions _____ our _____?
 _____ like _____ know _____ encryption _____ you _____ the wired _____ wireless connection _____ the business.
 _____ standards _____ you _____ for securely connecting wired _____ an enterprise _____ framework?
 Recommendations were sought to _____ standards for cable _____ networks in _____.
 _____ cipher _____ recommend for securing wired _____ within _____ corporate network?
 _____ for an _____ communication system that _____ secured over _____ and wireless?
 _____ have _____ recommendation on _____ protocols _____ best for _____ wireless _____ wired _____ in _____ corporation?
 _____ you give _____ a proposal of secured _____ protocols _____ are _____ wired or _____?
 I want to _____ for wired _____ business connections.
 _____ encryption protocols _____ best for _____ wireless _____ transmissions in our _____?
 Recommendations were _____ to determine _____ standards for _____ networks in _____
 Suggestions _____ encryption _____ for commercial _____ wireless services is _____.
 _____ know of _____ that work well for _____ wired and wireless _____?
 _____ the _____ for our wired _____ wireless connections _____ business setup.
 In _____ for _____ airwaves, _____ it _____ to use _____ encryption norms?
 _____ about _____ proposal for _____ communication system _____ secured _____ wireless and wired _____?
 What encryption protocols _____ we use in _____ for _____ and _____?
 What _____ you _____ for _____ wireless _____ in an enterprise communication _____?
 _____ understand the preferred _____ when _____ wired _____ links in _____ workplace.
 _____ recommendation _____ best _____ to _____ wireless or wired transmissions _____ our corporate?
 _____ want _____ encryption standards you _____ for _____ wired _____ wireless _____ in _____ business set-up.
 Should encryption _____ wired _____ communications be included in _____ of _____?
 I would like to _____ the _____ standards for _____ wireless _____ environment.
 _____ know _____ standards you suggest for _____ wired and wireless connection _____ setup.
 _____ the _____ methods for _____ of _____ cables _____ wireless devices _____ appreciated.
 _____ standards for _____ for encrypting enterprise communications.
 _____ standard preferred for wired and _____ businesses?
 _____ were _____ to determine the _____ encrypting _____ cable _____ wireless networks in _____.
 Can you provide a _____ an _____ system that's _____ and _____ systems?
 _____ you suggest _____ a _____ wired _____ wireless _____ in _____ communication framework?
 _____ us _____ proposal of any _____ enterprise _____ protocols _____ are great for wired _____?
 I want to _____ encryption standards _____ for _____ wireless communications _____ business.
 I want _____ what the _____ encryption is _____ wired and _____ in _____.
 Do _____ know of _____ protocols that are best _____ securing wireless _____ in _____?
 _____ you _____ a secure wired or wireless _____ communication framework?
 Do _____ know _____ of ciphers _____ best for _____ wireless _____ transmissions _____ the _____?
 Do _____ know which type _____ encryption protocols are _____ for _____ transmissions _____ your _____
 _____ the _____ methods for _____ networks, _____ and Wireless!
 Do _____ know _____ ciphers would _____ for enterprise _____ wireless devices?
 Do _____ ideas on which ciphers _____ work well _____ secure enterprise _____ both _____ wireless _____?
 _____ want _____ know the encryption standards _____ suggest _____ wireless communications _____ business.
 _____ preferred encryption standard for _____ and wireless _____?
 _____ protocols _____ recommend _____ securing _____ wired and Wireless communication _____ the corporate _____?
 _____ have _____ recommendations _____ how to secure _____ wired _____ in _____ business setup?
 What _____ standards should be _____ for _____ and _____ in _____ communication _____?
 _____ you recommend which type _____ encryption _____ are best for _____ wireless _____ your _____?
 _____ regarding _____ security _____ and _____ settings _____ enterprise communication framework _____ be provided.

Do ____ have ____ of which ____ of ____ best ____ wired transmissions in the corporate?

The ____ up ____ an ____ should ____ standards for ____ and wireless ____.

____ encryption ____ for cable and wireless networks ____ sought in ____ business ____.

The best ____ standards for ____ cable ____ networks ____ business ____ were ____.

I ____ the best encryption ____ for ____ and ____ within an enterprise ____.

____ were sought ____ best encrypting standards for ____ networks for business ____.

Suggestions ____ for encryption of commercial ____ wireless services is ____.

____ would you suggest ____ wired and wireless devices ____ an ____ framework?

____ best encrypting standards ____ cable ____ wireless networks for business ____.

____ regards to ____ and wireless connections ____ an ____ communication ____ is ____ recommend?

Do you ____ what ____ ciphers ____ best ____ securing ____ wireless ____ our corporate?

Suggestions ____ the best cipher ____ for ____ wireless?

In the firm's ____ cables and airwaves, ____ it ____ use ____ kind ____?

____ ideal encryption ____ will address ____ and ____ transmissions utilized by ____.

Are you ____ encrypting ____ wireless communications ____ enterprise?

I want ____ standards you suggest ____ wired ____ wireless business ____.

____ there any ____ protocols that ____ suitable ____ secure ____ communication ____ both ____ systems?

Which of your ____ encryption ____ connections in ____ business network?

I am ____ for some recommendations ____ both wired and ____ in ____.

Is ____ a preferred ____ for ____ and ____ communication in ____?

Can you give ____ proposal of any secured enterprise ____ or wired systems?

____ ideal encryption ____ will ____ both ____ & WiFi ____ transmissions utilized ____.

Which encryption practices target wired ____ a ____?

Are there any ____ both wired and ____ business setup?

____ know which ciphers ____ for ____ enterprise ____ both wired and wireless ____?

I ____ like ____ the ____ you ____ for ____ and ____ connections in the business ____.

I ____ like to ____ best ____ for ____ and ____ connections ____ set up.

____ for ____ wired and ____ settings ____ enterprise communication framework?

____ were ____ on encrypting ____ and wireless ____ business ____.

What ____ the preferred Encryption norms for ____ firm's ____ airwaves?

____ standards are ____ among ____ and ____ in businesses?

I ____ like to know the ____ to ____ when encrypting wired ____ links ____.

I'd ____ to ____ the encryption standards ____ suggest ____ wired ____ in ____ world.

____ standards do ____ think should ____ used for securely ____ wired and wireless ____ Communication ____?

I would like ____ understand ____ when ____ and ____ links ____ business context.

____ on the best methods ____ of commercial ____ cables ____ brought to ____.

Which ____ standards would you point ____ to ____ for ____ connecting ____ and ____ enterprise communication ____?

____ encryption standards are preferred ____ in businesses?

Do ____ know what ____ well for ____ enterprise ____ both wired ____ wireless ____?

I ____ know ____ encryption standards ____ suggest ____ the wired ____ our business.

____ to ____ encryption for wired and ____ conversations ____ the organization.

Suggestions on ____ encryption ____ address ____ and wireless ____ transmissions ____ by ____.

I ____ standards that you suggest for our wired ____ wireless ____ in the ____ the ____

____ you ____ for securing ____ and ____ transmission ____ the corporate network

I ____ to ____ what the ____ standards are ____ wired ____ in ____ business communications ____.

____ cipher protocols ____ you ____ for ____ wired ____ the corporate network?

Which ____ would you ____ out for wireless and ____ an ____ communications ____?

Do you ____ recommendations ____ how to ____ wireless ____ wired ____ your ____?

Do ____ know ____ ciphers ____ well ____ enterprise communication on ____ wireless systems?

Can you ____ for ____ enterprise communication ____ secured ____ and wired?

Do _____ know what _____ best _____ wireless or _____ transmissions in _____ company?

I want _____ encryption _____ you _____ for wired _____ wireless _____ in a _____

_____ you _____ a _____ for an _____ communication system _____ over wireless and _____?

_____ best _____ methods _____ commercial networks, cables _____ Wireless?

Can _____ a _____ for an _____ communication _____ that's _____ over wireless and _____?

_____ security _____ wired _____ wireless for _____ enterprise communications.

_____ want to know _____ protocols are _____ wired _____ wireless links in _____.

_____ there _____ preferred _____ standard for _____ wireless _____ in enterprises?

_____ it _____ you _____ certain type of encryption _____ firm's communication framework _____ airwaves?

_____ have any _____ on how _____ secure _____ and wireless _____ our _____?

Do you _____ type _____ best for securing wireless _____ wired transmissions in _____?

_____ any ideas about ciphers that _____ work well for _____ wired and wireless _____?

I _____ to _____ the _____ that you _____ wireless connections in the _____.

_____ know which type of security protocols are best _____ securing _____ transmissions _____?

What _____ their preferred Encryption _____ in the _____ cables and _____?

Does the set-up of an enterprise _____ wired _____ wireless _____?

You suggest _____ encryption _____ for the wired _____ connections in _____.

_____ guidance about preferred _____ for encrypting _____ and _____ in _____ enterprise _____

Can you give us _____ proposal for _____ enterprise _____ system _____ over _____ and _____?

I would like to know _____ standards _____ connections.

Do you _____ about _____ work well for _____ communication on _____ and _____ systems?

Are _____ suggesting a _____ for _____ and wireless _____ in an _____?

_____ want to know which _____ best _____ wired _____ wireless _____ in an _____.

_____ the best _____ for commercial _____ and wireless?

_____ would _____ suggest to others for _____ connecting _____ and _____ in _____ enterprise _____?

_____ to know _____ the encryption _____ for _____ wireless _____ in the business.

_____ have a _____ of the _____ way _____ secure wireless _____ transmissions _____ organization?

I _____ to know _____ the _____ wireless connections within _____ enterprise set up.

I _____ the best encryption is _____ and wireless _____ in _____ enterprise.

Can you _____ us a proposal _____ secure _____ protocols _____ are perfect _____ wired _____?

What _____ of _____ protocols _____ for securing _____ transmissions in _____ company?

_____ you _____ a _____ of the _____ way to secure wireless or wired _____?

The _____ to _____ on _____ connections for _____ communication was asked.

_____ the _____ encryption standards for cabled _____ wireless _____ communication?

_____ you _____ encrypting _____ for wired _____ wireless communications _____ an enterprise?

Recommendations _____ sought on _____ best encrypting _____ communications

_____ it _____ that _____ preferred encryption norms in _____ firm's _____ cables _____ airwaves?

_____ you _____ us _____ of secured enterprise communication _____ are ideal _____ and wireless _____?

_____ work well _____ enterprise communication on _____ and _____ devices?

_____ preferred _____ standards for wired and _____ comms _____?

_____ encryption _____ should _____ used _____ securely connect _____ and _____ in _____ enterprise messaging _____?

Better _____ standards for wired and wireless _____?

Do _____ which type of _____ are best _____ securing _____ wired transmissions within _____?

_____ any top recommendations for secured signals _____ or _____ work?

_____ want _____ what _____ you _____ for wired and wireless _____ in _____ business.

_____ regarding the _____ methods for encryption of _____ cables _____ are _____.

_____ of _____ enterprise might _____ preferred encryption _____ wired _____ wireless communications.

Do you _____ which _____ secured enterprise _____ on both _____ wireless devices?

Are _____ a _____ encryption standard for _____ communications _____ businesses?

_____ it _____ that _____ certain _____ the firm's framework for cables and airwaves?

Which _____ are _____ for securing _____ communication in _____ corporate _____?

I want _____ standards _____ suggest _____ wired and _____ connections in _____ business communication _____ up.

_____ type of _____ for securing wireless or wired transmissions _____?

_____ standard for _____ and wireless communication in _____?

_____ encrypting standards _____ and _____ networks in the business sector _____.

_____ do you _____ for _____ wired and _____ within the corporate _____?

I _____ to _____ cipher standards you suggest _____ wired _____ connection in _____ setting.

_____ want to understand _____ protocols to use _____ wired and _____ in _____.

I _____ know _____ the best _____ is _____ and _____ an enterprise setting.

Which _____ standards do you _____ for wired and _____ in an _____?

Do you _____ a recommendation _____ or _____ transmissions in _____ business?

_____ suggest _____ encryption _____ wired and wireless _____ in _____ communications setup.

Suggestions _____ best _____ for commercial networks, cables _____?

_____ you have _____ secure _____ and wired communications in _____ company?

_____ you have recommendations _____ how to secure wireless and _____?

Suggestions _____ best methods _____ networks, cables _____ wireless _____ are worth _____ try.

Which encryption standards would you tell _____ about _____ securely _____ wired and _____ enterprise _____?

Do you _____ good _____ secured enterprise _____ both wired _____ wireless systems?

_____ their _____ norms _____ firm's framework for _____ airwaves?

_____ ideas _____ best _____ for _____ networks, cables, and wireless?

Do you have _____ the best type _____ encryption _____ transmissions in our corporation?

Can _____ suggest secure wired _____ in _____ enterprise communication _____?

Do _____ which type _____ best for securing wireless _____ in our corporation?

What _____ protocols would you _____ the _____ Wireless transmission within _____ network?

Do you _____ any _____ on how _____ wired _____ wireless in _____?

_____ the _____ standards for _____ wireless _____ in the enterprise?

_____ do you _____ a secure _____ wireless _____ to _____ enterprise communication _____?

_____ you _____ a proposal of _____ enterprise communication _____ are perfect for _____ wireless _____?

_____ to know the _____ for wired and wireless _____.

Suggestions _____ best encryption methods _____ networks, cable _____?

Suggestions on _____ best encrypting methods _____ networks, _____?

What _____ protocols do you _____ the wired _____ Wireless transmission within _____?

Are _____ suggesting a preferred encryption standard _____ wired _____ organization?

Do _____ recommend which type of encryption _____ is _____ or wired _____ our _____?

Suggestions _____ methods for encryption _____ and _____ services is appreciated.

_____ ciphers _____ work well _____ enterprise communication _____ and _____ systems?

I _____ to know the _____ that _____ wired and wireless connection _____ a business _____.

Can you give _____ a proposal _____ secured _____ communication _____ that are _____ both wired _____?

_____ you know _____ any _____ protocols _____ are the best for securing wireless _____ transmissions _____?

_____ need to _____ encryption standards _____ you suggest _____ wired and _____ business communications setup.

_____ that they _____ in enterprises _____ preferred _____ standards for wired and _____ communications?

In _____ framework _____ cables _____ it recommended that _____ use _____ encrypts?

_____ encryption standards to _____ and _____ connections _____ business?

_____ on _____ encryption techniques _____ commercial networks, _____ and _____?

_____ on the _____ for encryption of _____ wireless networks could be _____.

_____ you have any _____ the best _____ for _____ networks?

Do you _____ type _____ encryption protocol is best _____ securing _____ transmissions _____ our corporate _____?

What _____ cipher _____ for _____ and Wireless transmission _____ the corporate network?

_____ want to know _____ suggest _____ the _____ and wireless connections _____ the business communication _____.

_____ on the _____ methods _____ commercial _____ and wireless networks would _____ helpful.

____ you have a ____ of which ____ are ____ securing ____ or wired ____ within ____ corporate ____?
 ____ us a ____ any secured enterprise communication protocols that are ____ for ____ wired ____?
 I ____ know ____ encryption standards ____ you ____ for ____ wireless business ____.
 Do you ____ which ciphers ____ for ____ communication ____ wired and ____ systems?
 ____ would like to ____ best encryption ____ wired ____ connections ____ set up.
 ____ you recommend the type of ____ best for securing wireless ____ within ____ corporate ____?
 I want to ____ encryption standards ____ a wired and ____ a business setting.
 ____ the firm's framework ____ cables and ____ it recommended to ____ certain ____?
 ____ any recommendations ____ how to ____ and ____ communications on ____ corporate network?
 ____ for ____ enterprise communication on both ____ and wireless devices?
 I ____ the encryption ____ suggest ____ wired and Wireless connections ____ business ____.
 ____ want to ____ suggest for ____ and wireless connections in ____ communication set ____.
 ____ there preferred ____ wired ____ comms in enterprises?
 ____ cipher ____ you ____ for securing the wired ____ Wireless communication ____ corporate ____?
 Are ____ any ____ encryption ____ suitable for secure ____ communication over both ____?
 ____ which ciphers work well for ____ communication ____ both wired ____ wireless ____?
 Which ____ you recommend ____ wired ____ wireless ____ in an enterprise ____ framework?
 ____ there ____ methods for wired ____ comms?
 Do ____ which ciphers would ____ for secured enterprise ____ both ____ and ____?
 ____ like to know ____ standards you suggest ____ wired ____ wireless ____.
 Suggestions ____ the ____ methods ____ encryption of ____ and ____ devices are worth ____.
 ____ please give ____ a ____ of any ____ enterprise ____ that are perfect ____ or wireless ____?
 Do you ____ a recommendation of ____ wired transmissions within the ____ network?
 ____ you ____ securing ____ and ____ transmission within the corporate network.
 ____ there recommendedEncoding methods ____ enterprise ____?
 ____ want to know ____ standards for ____ andwireless connections in ____.
 What cipher protocols would ____ and wireless ____ a ____ network?
 ____ be used ____ wired ____ wireless connections in an ____ framework?
 ____ preferred ____ standard ____ wired andwireless communication ____ enterprises?
 Which ____ standards ____ you ____ wired and wireless internet ____ in ____ framework?
 ____ encryption standards ____ you recommend ____ others ____ connecting wired and ____ devices in ____ Communication ____?
 Do you have ____ about ____ to secure wired ____ transmissions ____ network?
 Do ____ of ____ best ____ to ____ wireless or ____ transmissions in ____ corporate network?
 ____ for the best ____ use for wired and ____ an enterprise ____.
 ____ have a ____ of which protocol ____ best ____ securing wireless or ____ transmissions ____?
 ____ you ____ recommendation ____ which ____ securing wireless or wired transmissions in ____ business?
 Which ciphers are ____ protecting ____ and ____ communication in ____?
 ____ on the best ____ encryption ____ cables ____ wireless services ____ appreciated
 Are ____ suggesting a ____ encryption ____ wired and ____ in ____?
 ____ you ____ which ____ of encryption protocol ____ for securing wireless ____ transmissions in ____?
 ____ want ____ know the encryption standards that you ____ and ____ connection in ____.
 Are preferred ____ for ____ included in the ____ of ____ used in ____?
 ____ be given for ____ security encryptions ____ wireless settings of the ____ framework?
 ____ firm's ____ cables ____ is it recommended ____ you use ____ types of ____?
 Do ____ securing ____ wired and Wireless ____ in the corporate ____?
 ____ best ____ and wireless networks in business communications ____.
 ____ do ____ suggest to protect ____ and ____ in an enterprise ____?
 ____ encryption standards are appropriate for ____ and ____ devices ____ enterprise communication ____?
 Suggestions ____ appropriate encrypted frameworks for ____ and wireless ____ used ____?
 I want ____ know the ____ the wired and wireless ____ in the _____.

____ you ____ ciphers ____ protect ____ wireless ____ connections in an ____ communication ____ ?
 Which ____ would be ____ securing wired ____ within the ____ communication ____ ?
 I want ____ know the encryption standards ____ you ____ wired ____ wireless ____ in ____ up.
 ____ on the ____ methods ____ cables and wireless ____ can be brought to ____ .
 ____ advice on ____ wired ____ wireless links in an enterprise ____ .
 ____ of ____ enterprise ____ protocols that are perfect for ____ wired ____ wireless?
 Is the preferredEncryption ____ for ____ and ____ communication ____ ?
 ____ standards would you highlight ____ and ____ connections within ____ enterprise ____ framework?
 Recommendations were sought ____ cable ____ wireless in business communications
 I ____ to know ____ encryption ____ that you ____ for ____ and ____ in our business ____ .
 ____ have ____ recommendations on secured signals ____ or ____ at work?
 I want ____ know the ____ protocols to use ____ and ____ a ____ context.
 ____ want to ____ the ____ that ____ our wired ____ wireless connections in our business ____
 Are preferred ____ for wired ____ in the set ____ for ____ ?
 I ____ like ____ the ____ you suggest for our wired ____ setup.
 Is the ____ encryption preferred for wired ____ in ____ ?
 ____ encrypting ____ preferred among wired ____ communications in ____ ?
 ____ you ____ ciphers will work ____ secure ____ communication on ____ wireless systems?
 Are you ____ wired and wireless encryption standards ____ enterprise ____ ?
 Do you think ____ be ____ to suggest standards for encryption ____ wired ____ in ____ ?
 Which standards ____ think ____ be used ____ connect ____ and Wireless ____ an ____ framework?
 Suggestions ____ encryption ____ for commercial networks, ____ and ____
 What ____ about encryption ____ and ____ connections ____ enterprise communications framework?
 Can ____ us ____ proposal ____ an ____ communication ____ that's ____ wireless and ____ systems?
 ____ securing wired ____ wireless communication in the ____ network?
 ____ protocols do you ____ securing ____ wired ____ wireless ____ in ____ corporate network?
 ____ best methods ____ of commercial ____ cables and Wireless services ____ .
 Suggestions on ____ best encryption ____ networks ____ wireless.
 ____ like ____ the ____ that ____ for wired ____ wireless communications in the business ____ up.
 Suggestions of the ____ encryption methods ____ cables ____ ?
 Do you recommend ____ to ____ wired ____ wireless in ____ business ____ ?
 I need ____ know ____ encryption standards ____ wired ____ wireless ____ in a ____ .
 Can you ____ us a ____ of ____ protocols that ____ for ____ wireless systems?
 ____ the best ____ methods for ____ commercial networks?
 ____ to know the ____ standards you recommend for ____ wired and ____ setup.
 Which ____ would ____ for ____ enterprise ____ on both ____ and ____ ?
 ____ you ____ for securing ____ wireless ____ an enterprise communication setup?
 Suggestions ____ the ____ for encryption ____ commercial ____ wireless services, ____ appreciated.
 ____ you ____ a recommendation of ____ or wired transmissions in ____ company?
 I'd like ____ the ____ standards ____ for wired and wireless ____ business communication ____ up.
 I ____ to know the ____ standards ____ suggest ____ wireless communication ____ business.
 Do you ____ on ____ to ____ wired transmissions ____ your corporate network?
 I am looking ____ best encryption ____ use for ____ in an ____ setup.
 ____ you ____ any top recommendations on ____ waves at work?
 ____ looking ____ recommendations ____ to ____ wired and wireless in our ____ setup.
 ____ you ____ proposal of ____ communication protocols you believe are perfect ____ and wireless?
 What cipher ____ corporate network use ____ secure ____ wired ____ transmissions?
 You ____ standards for wired and ____ in ____ communication setup.
 ____ us a ____ of any secured enterprise communication protocols ____ are ____ for wired ____ ?
 ____ suggest ____ securely ____ wired and ____ devices in an ____ messaging framework?

Suggestions regarding _____ for encryption _____ cables and _____ services are _____.

_____ want _____ know _____ you _____ cipher standards _____ and wireless communications in _____.

Is the encryption _____ for wired _____ wireless _____?

_____ you _____ any _____ how _____ protect wireless and _____ transmissions _____ your _____ network?

_____ on the best _____ for _____ or wireless

Which _____ encryption _____ are best _____ wireless _____ transmissions in _____ corporation?

Recommendations regarding _____ encryptions _____ wired and _____ settings _____ framework?

Suggestions _____ methods _____ cables and wireless services are appreciated.

Should _____ for _____ preferred encryption standards _____ wired and wireless _____?

I _____ to _____ wired and wireless ties in an _____.

What is their _____ firm's framework _____ and airwaves?

_____ their preferredEncryption rules _____ the _____ for cables _____ airwaves?

_____ are the cipher protocols that _____ the wired _____ transmission _____ corporate network?

Are there preferred _____ wired and wireless _____?

The _____ of _____ enterprise _____ include preferred encryption standards _____ wireless _____.

Can you _____ a proposal _____ an _____ communication system _____ over _____ wireless?

I'm _____ for _____ on _____ to secure _____ wired and wireless in _____.

Recommendations were sought on _____ best encryption _____ networks.

Do you _____ advice on _____ secure _____ wireless transmissions _____ the _____?

I want _____ know the encryption _____ for _____ connections _____ business setup.

Do you _____ protocols _____ best for securing _____ or wired _____ in _____ network?

Can you give us _____ of any secured _____ you think _____ for both _____?

Suggestions _____ best encryption methods for Commercial _____?

_____ were _____ on the _____ wireless _____ cable networks in the _____ world

_____ sought for _____ best _____ for cable and wireless _____ in _____.

_____ you give _____ for an _____ communication _____ that _____ secure over _____ and _____?

Which encryption _____ should _____ use _____ wired _____ connections _____ our _____?

I need _____ the encryption _____ you _____ wired _____ wireless connections _____ business environment.

Are there _____ on _____ wired and _____ our business setup?

Do _____ suggestions on how _____ secure _____ wireless _____ at the _____?

_____ best ways to encryption of commercial networks, cables _____ worth _____.

_____ cipher protocols you _____ are for securing _____ and _____ the corporate _____.

_____ would you suggest _____ used _____ wired and _____ connections in _____ enterprise _____ framework?

_____ the _____ encryption methods for commercial _____ wireless?

_____ us a proposal of _____ secured _____ protocols _____ are _____ both wired and wireless?

_____ there _____ recommendedEncoding _____ wired/wireless enterprise _____?

_____ recommend which _____ encryption _____ wireless or wired transmissions within our corporate network?

Which _____ you _____ for _____ internet connections _____ an enterprise communications framework?

Do _____ think it _____ be _____ to suggest _____ for encrypting _____ connections in an _____?

Are _____ encryption standards for _____ and wireless _____ the _____ practices for _____?

I _____ what the _____ are _____ wired _____ wireless _____ in a _____ setting.

_____ standards preferred by _____ for _____ wireless comms?

Do _____ recommendations _____ to secure _____ wired communication _____ corporate network?

Are _____ suggesting a _____ encryption standard _____ wired _____ communications _____?

_____ should _____ network use to _____ wired and _____ transmission?

_____ need _____ recommendations _____ how to _____ both _____ and _____ in _____ setup.

_____ standards should businesses use _____ their _____ and _____ connections in _____?

_____ ciphers will work _____ secured enterprise _____ on both _____ wireless devices?

_____ there _____ recommended encoding _____ wired and wireless _____?

Do _____ know what _____ of _____ best for _____ or _____ our company?

What _____ protocols _____ for _____ the _____ and Wireless _____ the _____ network?
 _____ of encryption protocols _____ for securing wireless or wired transmissions _____?

Which encryption _____ should _____ on wired _____ connections _____ communication?
 _____ on _____ for encryption of _____ and cables are _____.

Do you have _____ recommendation of _____ type _____ for _____ wired _____ in your business?
 _____ you _____ it's useful _____ suggest _____ for encryption _____ wired and _____ connections in _____?

_____ recommendations on how to _____ wired _____ in _____ business set up?
 _____ have _____ how to secure wireless and wired _____ workplace?

Which _____ should _____ and wireless network connections in _____ enterprise _____ framework?
 Do you know of ciphers that _____ work _____ wired and _____?

Are _____ any ciphers that work _____ for _____ enterprise _____ both _____ devices?
 _____ what type _____ best for securing _____ or _____ transmissions _____ our corporate network?

Suggestions for the _____ for commercial networks _____.

What cipher _____ do _____ recommend for _____ wired _____ in a _____?
 _____ give us a proposal _____ any secured _____ think are _____ wired and wireless systems?

Can you give _____ for _____ communication _____ wireless and wired systems?
 Suggestions on _____ for encrypting commercial networks, cables, and _____ to _____.

Is the _____ encryption _____ wireless _____ in employers?
 _____ you _____ any _____ which ciphers _____ work well for _____ enterprise communication on _____ devices?

Will _____ of _____ enterprises include _____ encryption standards _____ and _____ comms?
 _____ which _____ work _____ for _____ enterprise communication _____ wired and wireless devices?

Are _____ preferred _____ standard _____ wireless communications in businesses?
 In _____ for cables and airwaves, is _____ to _____ a certain _____?

_____ there _____ preferred encryption _____ and wireless _____ the enterprise?
 _____ you provide us a proposal _____ enterprise communication _____ both wired _____?

I _____ know _____ encryption standards you _____ wireless connections _____ business setting
 _____ any _____ that would _____ for secured enterprise communication on both _____ and _____?

In _____ comm framework for _____ airwaves, _____ that people use _____ encryption?
 Advice _____ and wireless encryption standards for _____ needed.

Which type _____ is best _____ securing wireless or wired _____?
 _____ want to know _____ encryption standards that you _____ for _____ and _____ business _____ setup.

Are _____ standards _____ wired and _____ included in the _____ standards _____ use?
 _____ have _____ recommendations _____ how to secure both wired _____ wireless _____ our _____?

_____ type of _____ protocols _____ best _____ wireless or wired _____ in our corporate?
 Suggestions _____ for commercial networks, cables and Wireless?

What _____ protocols _____ you recommend _____ securing wired _____ Wireless _____ within _____?
 Is _____ a recommendation for encrypting wired and _____ enterprise _____?

_____ want to know the _____ protocols _____ wired and _____ links _____.

I want _____ know _____ cipher _____ that _____ and wireless _____ our business communication _____ up.
 _____ is _____ preferred Encryption _____ in the _____ for _____ and airwaves?

Is it possible for _____ preferred _____ wireless _____ enterprise communication framework?
 Do you _____ a recommendation _____ ciphers _____ best _____ securing _____ or _____ transmissions _____ corporate?

_____ you _____ are recommended Encoding _____ wired/wireless enterprise comms?
 _____ suggestions on encryption methods _____ commercial _____ cables, _____?

What cipher _____ recommend for securing _____ and Wireless _____ corporate network?
 _____ have any _____ on _____ secure wireless _____ transmissions on your corporate _____?

Do you recommend a type _____ that is _____ for securing wireless _____ our _____?
 _____ firm's _____ cables and airwaves, _____ recommended to use _____ encryption _____?

_____ standards _____ businesses _____ their wired and wireless connections _____?
 Are the _____ encryption _____ wired _____ comms used _____ enterprises?

_____ encryption standards do you _____ and wireless internet _____ an enterprise _____?
 _____ want to know the ciphers you suggest _____ wired and _____ in _____ business.
 I _____ like _____ know _____ encryption _____ you _____ and wireless connections in _____ business _____.
 What cipher _____ you suggesting _____ securing the wired _____ in the _____?
 Which _____ be _____ for _____ wired and _____ within _____ enterprise communications _____?
 Suggestions on _____ for commercial _____ and Wireless?
 Best encryption standards _____ business _____?
 Which type of encryption protocols is _____ securing wireless _____?
 _____ you suggesting _____ preferred cipher _____ for _____ and _____ communications _____?
 Any _____ encrypting wired _____ wireless _____ in an enterprise _____?
 I _____ to _____ the encryption _____ you suggest for _____ wireless _____ the _____.
 _____ you suggesting _____ encryption _____ for _____ and wireless communication _____?
 _____ ciphers _____ work _____ secure enterprise _____ on both wired _____?
 _____ a _____ for _____ enterprise communication _____ that's secured over wireless and _____?
 Do you _____ what _____ protocols are _____ for _____ in your business?
 Is it _____ to provide recommendations _____ preferred security encryptions _____ wired _____ communication _____?
 What _____ should _____ to protect _____ wired _____ for _____ communications?
 Can _____ suggest _____ for _____ over wired _____ wireless systems?
 _____ set of _____ for enterprises _____ standards for wired and _____?
 _____ are the _____ encryption _____ for _____ communications in the _____?
 Are there _____ on how _____ wired transmissions in your _____?
 _____ need _____ the _____ standards _____ suggest for _____ and wireless _____ in the _____ environment.
 Suggestions _____ best methods _____ encryption of _____ networks, _____ services, _____ appreciated.
 Which _____ standards would you point _____ and wireless _____ connections _____ enterprise _____ framework?
 I want _____ understand _____ for _____ wireless _____ in the workplace.
 _____ need to _____ the best _____ for wired and _____ setup.
 Are _____ a _____ wired and wireless communication _____ businesses?
 I would like _____ the encryption standards you suggest _____ wireless _____ our business _____.
 Is it _____ you _____ type _____ in the _____ for cables _____ airwaves?
 Which _____ are the _____ securing _____ wired and _____ our _____ network?
 Should _____ set _____ practices for enterprises _____ ciphers _____ wired _____ communications?
 Which standards _____ you point to for _____ in _____ Communication framework?
 _____ a recommendation on _____ of _____ best for securing wireless or _____ transmissions _____ the _____?
 Can you _____ us _____ secured enterprise communication protocols _____ ideal _____ wired _____ wireless applications?
 What security mechanisms are _____ networks _____ through _____ wire _____?
 Suggestions _____ the best _____ of commercial _____ cables and _____ worth _____ look.
 Do _____ know which _____ work _____ for _____ enterprise _____ wired and _____?
 Which encryption standards _____ be _____ Wireless _____ an enterprise communication framework?
 _____ know which _____ work _____ for secured enterprise _____ and wireless devices.
 Do you _____ ciphers would work _____ in secure _____ on _____ and _____?
 Which _____ would _____ for securing _____ and _____ communication in _____ network?
 _____ encryption protocols _____ be _____ for wired and _____ enterprise?
 Suggestions _____ methods for _____ commercial _____ cables _____ wireless devices _____ be provided.
 Suggestions _____ the _____ for _____ of commercial networks, _____ and _____ could _____ useful.
 I want to _____ that _____ wired and wireless _____ in _____ business.
 _____ best _____ methods _____ commercial networks, cable and _____?
 I _____ to _____ standards you suggest _____ wired and _____ in _____ of the business.
 _____ you _____ which ciphers _____ work nicely _____ secured _____ communication _____ wired _____ devices?
 _____ know what _____ of security _____ best _____ securing _____ wired transmissions _____ our corporation?
 _____ encryption standards are _____ among _____ and _____?

In _____ framework for cables and airwaves, is it _____ you _____?

_____ work well for secured _____ both wired _____ devices?

Are the _____ standards _____ wired _____ communications _____ in _____ set _____ that enterprises use?

_____ you _____ type of encryption protocols _____ for _____ wireless or wired _____?

Is _____ a recommendation on _____ wireless _____ our corporate network?

_____ the _____ methods _____ of commercial networks, cables and _____ appreciated.

_____ suggestions on the _____ methods _____ encryption _____ cables, _____ wireless services is _____.

What _____ for business communication in _____ and _____?

How _____ you _____ encryption for _____ and _____ in an _____ communication setup?

_____ any recommendedEncoding methods _____ wired and _____ enterprise _____?

Can you _____ a _____ of _____ enterprise communication protocols _____ perfect for both wired and _____?

Do you _____ the _____ protocols that _____ best for securing _____ transmissions in our company?

_____ are wanted _____ the _____ encrypting _____ considering both _____ and _____

_____ the best encryption methods to _____ networks and _____?

I _____ the encryption standards you _____ for the _____ Wireless _____ in the _____ communications _____.

Do you _____ a recommendation _____ the _____ way _____ secure wireless or _____?

Is _____ preferred _____ standard _____ wired _____ communication _____ enterprises?

_____ you know which _____ good _____ on both _____ and wireless devices?

What ciphers should we _____ wired _____ wireless _____ within our _____?

I _____ to know the encryption standards _____ wireless connections in the _____ environment

What _____ protocols _____ you _____ for securing the _____ and Wireless transmission _____?

Suggestions _____ the best methods for _____ networks, cables, and _____.

Do you have _____ recommendations _____ secure both _____ and wireless _____ the _____?

_____ give _____ a _____ of _____ secure _____ protocols _____ are appropriate for wired _____ wireless environments?

_____ the _____ may _____ preferred encryption standards _____ wired _____ wireless comms.

What _____ work _____ communication _____ the wired and wireless systems?

_____ you _____ a _____ of secured enterprise communication _____ perfect _____ wired and _____?

In the firm's framework for cables _____ that you _____ of _____

_____ which type of _____ are best _____ wireless or _____ in your _____?

_____ it preferred encryption standards _____ and _____ in _____?

_____ you know _____ of _____ securing wireless or wired _____ the corporate?

_____ suggesting a preferred encryption _____ and wireless communications _____ business?

_____ encrypting standards for _____ wireless _____ for _____ communications were _____.

Do _____ think it would _____ to _____ standards for encrypting wired _____ wireless _____ setup?

_____ want _____ know the encryption standards _____ suggest for _____ in a _____.

Suggestions _____ methods _____ commercial _____ cables and wireless _____ is appreciated.

_____ best methods for _____ networks, cables and _____ services, is _____.

Are you _____ need of _____ suitable wired _____ standards for an _____?

Do you know of _____ that _____ for secure _____ wired and wireless _____?

Do _____ the _____ of _____ are best _____ wireless or wired _____ in _____ company?

_____ on the _____ methods for _____ cables and wireless?

In the _____ is it recommended _____ you _____ a certain _____ of encryption?

_____ need _____ know _____ encryption to use for _____ and wireless _____ an _____ setup.

_____ on the best _____ cables and wireless networks are _____.

_____ you know which _____ of _____ for securing wired _____ wireless _____ corporate network?

Suggestions _____ best _____ of _____ cables _____ wireless networks are needed.

Got _____ recommendations _____ wired _____ in our business setup?

_____ know what _____ encryption standards are for the _____ andwireless connections _____ the _____.

I would _____ to _____ encryption _____ you suggest for _____ wired and _____ our _____ set-up.

Are preferred encryption _____ wireless included _____ the set _____ of _____?

Do you think it would _____ helpful to suggest standards _____ and _____ in _____?

_____ of _____ protocols is the _____ securing _____ or wired _____ our _____ network?

How about _____ to _____ wired and wireless in our _____?

_____ you think it's helpful _____ standards for encryption of _____ connections _____ enterprise _____?

What encrypting standards do businesses _____ to _____ wireless _____?

_____ there _____ for wired/wireless _____ comms?

I _____ the encryption standards for _____ and _____ connections in _____ business _____.

_____ ideas _____ ciphers that _____ work _____ secure enterprise _____ both wired and wireless devices?

_____ encryption standards would _____ tell others _____ connecting _____ and wireless _____ enterprise communication framework?

_____ you _____ us a proposal _____ any secure enterprise communication _____ good _____ wired and _____?

I want _____ you suggest for the _____ and _____ connection _____ a _____ setting.

Suggestions _____ for _____ of _____ and wireless _____ are worth a look.

Are _____ encryption standards for _____ in the set-up _____?

_____ any _____ encryption protocols _____ secure _____ communication _____ both wired _____ wireless _____?

Are _____ suggesting _____ use of a preferred encryption _____ and _____ communications _____?

_____ you _____ a _____ wired and _____ communications _____ the workplace?

_____ suggestions _____ the _____ encryption methods for _____ networks, _____ Wireless?

Can _____ give us _____ proposal for an enterprise _____ system _____ over _____ and _____ systems?

_____ type of encryption protocols _____ securing _____ or _____ transmissions _____ our _____?

Does _____ up of the _____ include preferred encryption _____ and _____?

Do you _____ any ideas _____ for enterprise _____ networks?

Suggestions _____ best encryption _____ for _____ cables and wireless _____.

_____ ciphers would _____ wired _____ Wireless in _____ enterprise communication framework?

_____ on _____ best _____ of commercial _____ cables and _____ devices can _____ brought _____.

Do they _____ preferred encryption standards for _____ wireless _____?

_____ standards _____ and wireless _____ connections within an enterprise communication framework?

_____ recommend a way _____ wired and wireless transmissions _____ network?

Do you know _____ would _____ for _____ communication _____ both wired _____ wireless _____?

Which _____ would you _____ for securely connecting _____ and _____ an _____?

Please tell me _____ suggest _____ wired _____ wireless _____ in our _____ setup.

_____ you _____ preferred encryption standard _____ and _____ in businesses?

I want to _____ suggest for the wired and wireless connections _____.

I _____ to know _____ encryption _____ you _____ and wireless communications _____ the _____.

_____ have _____ recommendations about _____ to protect _____ wired and wireless _____ within _____?

_____ encryption standards would _____ suggest for wired _____ wireless _____ inside _____ framework?

_____ us a proposal _____ an enterprise communication _____ is _____ both wired _____ wireless

Does _____ have any _____ protecting _____ connections in _____ communication setup?

Recommendations regarding preferred _____ encryptions _____ provided _____ wired _____ settings _____ enterprise _____ framework.

_____ solution for _____ enterprise _____ is secured over both wired _____ wireless?

_____ methods will _____ wiring-based and wireless network _____ by businesses.

_____ do you suggest to _____ wired _____ Wireless in an _____ framework?

_____ type of _____ protocols _____ wireless or _____ transmissions in our _____?

Can you give a proposal _____ enterprise _____ system _____ both _____?

Which standards _____ about for securely connecting _____ wireless in _____ communication _____?

Can _____ any secured enterprise communication _____ you think are _____ wireless?

_____ you _____ a _____ which protocol is _____ for _____ or wired transmissions in _____?

_____ you have _____ on how _____ secure _____ transmissions _____ the _____ network?

_____ on _____ for _____ of _____ networks, cables and wireless services _____.

_____ you recommend _____ wired and _____ connections _____ an enterprise _____?

Are _____ suggesting _____ use _____ a preferred _____ for wired _____ wireless communications _____?

Which standards _____ and wireless connections in a _____ setup?

Suggestions _____ for commercial _____ or wireless?

What encryption _____ should _____ use for _____ wireless _____?

_____ best _____ standards for _____ and wireless _____ business _____ were _____ determine.

_____ suggesting a preferred encryption standard for _____ and _____ communications _____?

Do you _____ of protocols are best for securing _____ wired _____ corporate _____?

_____ standards to use _____ wireless and wired _____ for _____?

Do _____ on _____ to secure _____ or _____ transmissions within _____ corporate network?

Do you _____ which ciphers _____ enterprise communication on _____ and wireless _____?

How _____ business communications be secured _____ wireless?

I want to _____ best _____ for _____ wireless _____ in _____ enterprise setting.

Is _____ across wired and _____ enterprise comms?

Can _____ provide _____ proposal _____ an enterprise communication _____ over wireless _____ systems?

_____ an enterprise _____ we _____ regarding _____ for encrypting wired and _____.

Do _____ know _____ type _____ is best for _____ wireless or _____ in _____?

_____ of your recommended _____ target wired _____ in _____ business _____?

_____ cipher protocols _____ for securing wired _____ wireless transmission _____ corporate _____?

Are there _____ encryption _____ used for _____ communication over both wired _____?

_____ you _____ recommendation _____ which type _____ protocol _____ best _____ securing wireless _____ wired transmissions in _____?

_____ security mechanisms are _____ for _____ networks _____ both _____ and _____?

Recommendations were _____ on _____ best encryption standards were _____ and _____ in _____.

I _____ to know _____ encryption _____ that you suggest _____ wireless connection _____ our _____.

_____ encryption _____ would _____ for _____ and wired _____ connections in _____ enterprise communication _____?

_____ on _____ best _____ for _____ of _____ networks, _____ devices can be brought _____ attention.

I want _____ encryption standards _____ and wireless _____ our _____ set up.

_____ a preferred standard _____ secure _____ an enterprise?

Suggestions _____ the _____ methods _____ encryption of _____ networks, _____ can _____ brought to attention.

_____ on _____ methods for _____ encryption of _____ and _____ devices are appreciated.

_____ you suggesting _____ preferred cipher _____ wired _____ in a _____?

I want to know _____ way _____ encryption for wired _____ wireless _____ setup.

_____ should be used for _____ and Wireless in _____ communication framework?

Can _____ be given _____ security encryptions in the _____ enterprise communication framework?

I want _____ know _____ standards _____ for wired _____ wireless connections _____ our business communication _____.

How _____ recommend cipher protocols _____ securing the wired and _____ network?

_____ ciphers would work _____ enterprise communication on _____ wireless _____?

I want _____ preferred _____ wired and _____ links in the _____.

The _____ of _____ can _____ encryption _____ wired and wireless _____.

Can you _____ a proposal of secured enterprise communication _____ perfect _____ and _____?

_____ be _____ regarding preferred _____ in both wired and wireless _____ of _____?

I _____ the _____ standards _____ suggest for _____ and wireless _____ the business set _____.

_____ know what type of protocols _____ securing _____ transmissions in our corporation?

Suggestions on _____ best _____ encryption of _____ and _____ services is _____.

Is the preferred _____ for _____ wireless _____ used _____ enterprises?

What _____ for _____ secure wired _____ wireless _____ to your _____ framework?

I _____ to know _____ wired and _____ in our business communication set up

_____ know which _____ would work _____ for _____ communication _____ and wireless devices?

Do _____ know what _____ for securing wireless _____ wired _____ in the _____?

Recommendations _____ on _____ encryption standards _____ and wireless networks _____ business _____.

_____ you _____ proposal _____ secure _____ communication protocols _____ are _____ for both wired and _____?

Do you have suggestions _____ and wired transmissions in _____?

Can _____ recommend standards for _____ wired _____ an enterprise _____ setup?

What _____ you _____ securing _____ and _____ in a corporate network?

Suggestions _____ the best _____ for _____ and wireless?

_____ about _____ security _____ in _____ wireless settings _____ enterprise communication _____ can be _____.

_____ specific ciphers _____ can be _____ secure _____ communication over wired _____ wireless _____?

_____ set of practices _____ include preferred _____ wired and wireless _____?

_____ preferred encryption standards _____ and _____ included _____ the _____ of _____ enterprise?

_____ standards do _____ prefer _____ connecting wired and _____ devices _____ enterprise _____ framework?

Suggestions _____ encryption _____ commercial networks, cables _____ Wireless.

_____ methods are recommended for _____ in _____ wireless?

_____ want _____ know _____ the _____ are _____ wired and wireless _____ in _____ communication setup.

The best encrypting _____ cable _____ the business sector _____ to be _____.

I wish to know the _____ you _____ our wired and _____ a _____.

I would _____ know _____ encryption standards _____ for _____ wireless _____ a business.

_____ you _____ of ciphers _____ best for _____ wireless _____ transmissions in a corporate _____?

_____ want to _____ encryption standards for _____ wired _____ wireless connections _____ business _____.

Which standards would _____ for securely connecting _____ and Wireless _____ enterprise _____ framework?

_____ set-up _____ the enterprise _____ preferred encryption _____ for _____ and _____?

Suggestions _____ the _____ networks, cables, and Wireless

I want _____ know what the _____ standards _____ the wired _____ wireless _____ in _____ communications _____.

I want _____ know _____ standards _____ suggest _____ and wireless business _____.

I am _____ the best encryption to _____ wired and _____ in _____ set _____.

_____ encryption methods for _____ cables _____ wireless networks _____ helpful.

Are _____ suggesting _____ standard _____ wired _____ wireless communications in _____?

Which _____ recommend _____ securely connecting _____ and wireless devices _____ an _____ communication _____?

_____ encryption standards for _____ and _____ comms _____ enterprises?

Is there a _____ encryption _____ and _____ business _____?

_____ preferred encryption standards for _____ wireless _____ by _____?

Do _____ have _____ which type of _____ is _____ securing wireless or _____ transmissions in _____?

_____ suggest _____ encryption standards for _____ and wireless communications _____ business _____.

_____ there a recommendation on _____ both _____ wireless transmissions _____ the _____ network?

_____ want _____ know _____ encryption _____ suggest for _____ wireless _____ a business communication setup.

_____ of the _____ preferred _____ standards for _____ and wireless comms.

Which encrypting standards _____ for _____ wired _____ in _____ enterprise communication _____?

I want _____ encryption _____ wired and _____ connections within _____ enterprise _____ setup.

I would _____ to _____ the _____ standards you suggest _____ wireless connections in _____ communication _____.

In the _____ for _____ and _____ it recommended that people _____ preferred _____

Are there _____ standards for encrypting wired _____ in an _____?

_____ standards _____ for secure _____ and wireless _____ within _____ enterprise communication _____?

Suggestions _____ the best _____ networks, cables and _____ devices _____ appreciated.

Is there a recommendation on how _____ and _____ corporate _____?

I _____ encryption standards that _____ the wired and wireless _____ in _____ business setup.

_____ methods for _____ networks _____ wireless?

Do _____ have _____ securing wired and _____ an enterprise _____ setup?

The _____ of _____ may _____ preferred encryption standards _____ wireless communications.

Do _____ suggestions on how to _____ wireless and _____ communication _____ network?

Do you _____ a recommendation _____ is _____ for _____ wireless or wired transmissions _____ your business?

Can _____ a _____ for an _____ communication _____ that is _____ over both _____ and _____?

_____ the best _____ standards for _____ and wireless _____ the business world.

____ want ____ know the ciphers you ____ for ____ and ____ the business _____.
 ____ are your recommendations ____ a ____ wired or ____ enterprise ____ framework?
 I ____ to know ____ encryption ____ you suggest for ____ wireless ____ in ____ business ____ up.
 ____ on the ____ ciphers ____ commercial networks, ____ and ____?
 Which ____ wired ____ connections in an enterprise communication framework?
 ____ want ____ know ____ are for wired and wireless ____ in the _____.
 ____ the enterprise ____ preferred ____ for wired ____ wireless ____?
 Is it ____ to suggest ____ encrypting wired ____ wireless ____ in ____?
 Do ____ type ____ protocols that are ____ for ____ or wired ____ in ____ corporate network?
 Is ____ any ____ encryption protocols ____ secure enterprise ____ over both wired and ____?
 ____ you ____ on how ____ and wired ____ in ____ corporate network?
 I want ____ know ____ encryption standards are ____ our ____ wireless connection in ____ business.
 I ____ encryption ____ wired and Wireless connections in the ____ communication setup.
 I ____ to know the ____ wired and wireless ____ organization.
 ____ want to ____ encryption standards are ____ wired and wireless ____ the _____.
 What ____ protocols ____ you ____ the ____ and ____ within a corporate network?
 Which standard ____ you ____ securely connecting ____ in an ____ framework?
 ____ for ____ with preferred ____ wired and ____ links ____ an ____ context.
 Do ____ work well ____ secured ____ communication ____ both wired ____ wireless systems?
 How should wired ____ used ____ secure ____ communications?
 Encryption standards for ____ in ____?
 ____ there any recommendedEncoding ____ wired andwireless ____?
 ____ need to ____ the ____ for the wired and wireless ____ communications ____.
 Do ____ have any ____ to ____ both wired ____ wireless ____ in ____ network?
 ____ there any preferred encryption ____ for wired ____ enterprises?
 ____ want to know the encryption ____ for ____ wireless connections ____ the _____.
 ____ know ____ the best encryption is for wired ____ conversations in _____.
 Suggestions on ____ commercial networks ____ wireless.
 ____ recommendedEncoding methods ____ andwireless ____ comms?
 Recommendations ____ sought ____ the ____ standards ____ wireless networks in businesses.
 ____ you ____ a proposal of ____ secure enterprise communication protocols ____ are ideal ____ wireless ____?
 I want to ____ best way toEncrypt ____ and ____ within ____ up.
 Are you suggesting ____ preferred ____ for wired ____ wireless communications?
 I want to ____ encryption ____ you suggest ____ wireless connections in _____.
 ____ encryption methods for ____ networks, ____ and Wireless
 Which ____ do ____ prefer for ____ wireless ____ an ____ communication framework?
 ____ you ____ recommendations ____ how ____ secure ____ transmissions in ____ corporate network?
 ____ standards would you tell ____ about ____ connecting wired ____ in ____ enterprise messaging ____?
 Suggestions of ____ best encryption methods ____ networks ____?
 ____ best encrypting ____ for cable and ____ business ____ discussed.
 Suggestions regarding ____ best ____ for ____ commercial networks, ____ wireless ____ can ____ to attention.
 Are you suggesting ____ encryption ____ for wired and ____ an ____?
 Are ____ any ____ would ____ well for ____ communication on both ____ wireless ____?
 ____ the ____ encryption methods for ____ networks, ____ and ____?
 Can you give ____ a ____ enterprise ____ that ____ secured over ____ and wireless?
 ____ standards would ____ out for wireless and ____ an enterprise communication ____?
 ____ the preferred encryption standards for wired ____ in ____ set ____ by enterprises?
 ____ encryption standards do you ____ for wired ____ wireless ____ in ____ enterprise ____?
 ____ give ____ a proposal ____ any secured enterprise communication protocols ____ ideal ____ orwireless ____?
 ____ you ____ ciphers that would work well for ____ wired ____ wireless systems?

Which standards _____ to others for securely _____ wireless _____ enterprise communication framework?

Suggestions on _____ for encryption _____ cables, and wireless devices can be _____.

_____ type _____ ciphers _____ the best for _____ wireless or wired transmissions in _____?

_____ to _____ protocols _____ wireless links in an enterprise context.

_____ to know _____ the encryption standards _____ for wired _____ the business _____ up.

_____ encryption _____ should _____ on wired _____ in _____ enterprise communication framework?

I _____ the _____ for our _____ and wireless connections in _____ environment.

Do you _____ of _____ that _____ well for _____ communication _____ wired _____ wireless systems?

_____ you know _____ encryption protocols are best for _____ and wired _____ corporate?

Recommendations were sought _____ determine the best _____ both cable _____ wireless _____.

_____ would _____ recommend to protect _____ and _____ connections _____ an enterprise _____?

Suggestions on the best _____ and commercial _____

_____ you _____ a _____ standard _____ encryption for wired and _____ communications _____?

_____ specific _____ protocols that are suitable for _____ over both _____ and _____ systems?

_____ give us _____ enterprise communication _____ that _____ for wired and wireless systems?

_____ do _____ think should _____ used _____ securely _____ wired and Wireless _____ enterprise _____ framework?

Can you _____ us a proposal for _____ secured _____ wireless _____ wires?

What _____ preferred encryption standards for _____ wireless _____ in _____?

Do _____ know of any encryption _____ that _____ best _____ securing _____ wired _____ in _____?

_____ you have _____ recommendation _____ how to best secure wireless _____ our _____?

_____ there _____ recommended encoding methods _____ enterprise _____?

cipher _____ that you _____ for securing the _____ Wireless _____ the _____

_____ you know _____ of _____ are best for securing _____ your business?

_____ want _____ know the encryption _____ recommend for _____ wireless connections in a _____.

I _____ to know the _____ standards you _____ wired and _____ in our _____.

Do _____ have _____ recommendations _____ how _____ secure _____ wired and wireless _____ business _____?

_____ set of _____ for enterprises include preferred _____ standards _____ wireless?

_____ was asked _____ standards _____ to protect _____ connections _____ business communications.

_____ want to know the _____ standards _____ for wired _____ communications _____ a _____.

_____ you give us _____ of any secured _____ protocols that _____ perfect for _____ or _____?

Suggestions _____ ways _____ of _____ networks, cables and wireless devices _____ looking _____.

Can you _____ a _____ for _____ enterprise communication _____ over _____ wired _____ wireless systems?

Do you _____ which type _____ protocols _____ wireless or _____ our company?

_____ on _____ encryption _____ for commercial _____ and wireless.

Can _____ give _____ proposal _____ any _____ enterprise communication protocols _____ perfect for _____ and wireless?

I _____ to _____ the encryption standards you _____ for wired _____ business _____.

_____ there _____ preferred _____ standard _____ wired _____ wireless comms used _____?

Does _____ set of _____ preferred encryption standards for _____ and wireless _____?

Which ciphers do _____ recommend _____ wired and wireless _____ communication _____?

Suggestions on _____ for _____ networks, _____ and wireless _____ could help.

Which _____ think should be used _____ connecting wired _____ in an _____ framework?

Can _____ give _____ a proposal of any secured enterprise _____ good for _____ wireless systems?

Is there _____ specific _____ that can be _____ secure _____ over _____ wired _____ wireless systems?

_____ the _____ methods for _____ networks, cables _____ wireless devices can be _____ attention.

_____ you _____ best ciphers for secured enterprise communication _____ wireless _____?

_____ have _____ type of encryption protocols is best for securing wireless _____ your _____?

_____ the set _____ for _____ encryption standards for wired and _____?

_____ would be _____ wired and wireless connections _____ communication framework?

I _____ to _____ encryption _____ the wired and wireless _____ in _____ business

I _____ like _____ know _____ encryption _____ you _____ our _____ and wireless _____ our business setup.

_____ ciphers _____ for securing wired and wireless _____ in _____ network?

Do _____ recommend a _____ wired and _____ communications inside _____ network?

_____ would _____ to know the _____ standards _____ our wired _____ connection in _____ setup of _____.

_____ preferred encryption standards _____ wireless communications _____ the _____?

_____ standards _____ be highlighted for secure _____ wireless _____ enterprise communication _____?

Seeking _____ preferred protocols _____ encrypting wired _____ links in an _____.

Do _____ have a proposal _____ an _____ communication _____ is secured _____ wired _____?

Suggestions for _____ best encryption _____ for commercial _____.

_____ there _____ ciphers _____ work well _____ secured enterprise communication _____ and _____?

_____ be given for _____ encryptions _____ and wireless settings _____ enterprise communication framework?

Can _____ me what enc methods _____ biz _____?

Do _____ recommend the _____ of encryption protocols that are _____ for _____ our corporate?

_____ on _____ best methods of _____ commercial networks, cables _____ wireless _____ helpful.

What standards _____ used _____ protect _____ and wired _____ business communication?

Does _____ set-up _____ enterprises include _____ encryption _____ and wireless _____?

Does the _____ encryption _____ for _____ and _____ communication?

Are _____ any _____ encryption _____ are suitable for secure _____ wired and wireless _____?

_____ want _____ know the encryption _____ you suggest _____ the _____ and Wireless _____ in the _____.

Is it recommended _____ use preferred _____ standards _____ the _____ framework _____ cables _____?

Does the _____ of the _____ include _____ encryption _____ for _____ communications?

_____ have _____ recommendations on _____ best way to _____ or wired transmissions within _____?

_____ standards would _____ suggest _____ securely _____ and wireless _____ in _____ enterprise _____ framework?

Do you _____ type of encryption protocols _____ best _____ or _____ transmissions in _____?

_____ the _____ framework for _____ airwaves, is it recommended _____ people use _____?

_____ of an enterprise _____ include _____ encryption _____ for wired _____ wireless _____.

_____ you _____ recommendations on _____ protect _____ and _____ on your corporate network?

I _____ to know _____ you suggest _____ wired and wireless connections _____ communications _____.

Are preferred _____ for _____ wireless _____ included in _____ for enterprises?

Do _____ on _____ to secure _____ wireless transmissions in _____ corporate _____?

_____ you _____ how _____ secure enterprise communication over both wired _____ wireless _____?

Do you have _____ how to secure _____ wired communications _____ corporate _____?

_____ think _____ would _____ helpful _____ suggest standards _____ the _____ wired and _____ connections in an _____ setup?

Can you suggest standards _____ secure _____ setup?

_____ the _____ standards for _____ wired and wireless _____ our business _____.

Suggestions _____ best _____ encryption of commercial networks, cables _____ wireless _____ be _____ attention.

I would _____ to know the _____ standards _____ the wired _____ the _____ setup.

Is the _____ of _____ for wired _____ wireless _____ in _____?

_____ encryption _____ would you _____ for _____ and _____ internet _____ inside _____ communications framework?

What _____ preferred _____ wired and _____ businesses?

Which _____ would _____ people _____ connecting wired _____ wireless _____ in an enterprise messaging framework?

_____ an enterprise context, _____ guidance _____ preferred _____ for encrypting _____ wireless _____.

Which standard _____ you use _____ securely _____ wireless _____ communication framework?

_____ the _____ for _____ and _____ recommended _____ people use preferred encryption rules?

I wish to know the _____ that you suggest _____ our wired _____ in _____.

_____ ways _____ encryption of commercial networks, cables and _____ services _____.

Can you _____ a _____ communication system to be secured _____ wired _____ wireless?

Do you _____ any ideas _____ to _____ work well for _____ enterprise _____ on both _____ wireless _____?

Suggestions _____ the best methods _____ commercial networks, _____ and wireless _____ check.

_____ you have a _____ of which type of _____ best _____ securing _____ your business?

Do you have _____ suggestions _____ to _____ wired and _____ in _____ network?

____ you ____ give ____ a ____ of any ____ communication protocols ____ are ____ for ____ wired and ____ ?
 ____ standards would ____ used for ____ wired ____ in an enterprise ____ ?
 I ____ like ____ know ____ best encryption ____ wired and ____ in an ____ .
 I ____ to ____ standards ____ for the wired and wireless ____ the setup of ____ .
