

[Demo] NLP Dataset for Customer Service Automation

Company Type	Online Banks and FinTech Companies
Inquiry Category	Online banking platform navigation assistance
Inquiry Sub-Category	Security Concerns
Description	Assisting customers with concerns about account security, including suspicious activity, reporting phishing attempts, and guidance on enabling two-factor authentication on the online banking platform.
Data Size	5,818 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Online Bank and FinTech Company" customer inquiry. (Purchased data will not be masked.)

_____ are in _____ against unauthorized access through _____ or _____ breaches?

What protections are _____ against _____?

Is there _____ way to _____ unauthorized individuals _____ into _____?

There may _____ for unauthorized _____ data _____.

_____ protection against _____ attacks?

Is _____ way _____ the data _____ hacking attempts?

_____ in place to protect against _____.

There are _____ protocols in _____ to _____ unauthorized _____ breaching _____.

_____ are _____ for hacks _____ data _____ currently?

There are _____ protocols _____ place _____ individuals from _____.

_____ plans _____ the event _____ an _____ hacking?

Can _____ depend _____ ensured safety _____ unauthorized _____ or _____ hacks?

_____ there _____ for unauthorized _____ or _____ breaches?

Is there any _____ that _____ unauthorized individuals _____?

Do _____ have _____ safeguard _____ hacks?

What should _____ to _____ and hacking?

_____ a _____ protection from _____ attacks?

_____ can we _____ access through _____?

Is _____ to deter unauthorized _____ from hacking _____?

_____ can you do _____ prevent _____ data _____?

_____ do _____ they _____ get hurt from intrusion _____?

Measures to _____ uncataloged entries _____ in place.

What _____ be _____ avert hacking _____ entry incidents?

_____ done to _____ hacking attempts _____ data hacks?

_____ the best _____ against _____?

Is _____ any safeguards _____ unauthorized _____ or _____?

_____ safeguards for data _____?

Are _____ any measures you can _____ to prevent _____?

_____ in case of _____?
 _____ preventive measures are used _____ strengthen the _____?
 _____ are applied _____ fortify _____ defense against hacker _____ into user _____?
 _____ you prevent _____ incidents?
 _____ against _____ and data breaches?
 What preventive _____ put _____ hackers _____ entering user accounts?
 There are _____ place _____ cyber _____.
 _____ and data _____ defended?
 _____ can _____ do _____ hacking?
 Measures _____ in place _____.
 _____ safeguard _____ unauthorized entry _____ a data breach?
 Can _____ the ways that _____ safeguard _____?
 _____ done to protect _____ hacking and data _____?
 _____ it possible to _____ hacking attempts _____ data _____?
 There are _____ to protect _____.
 Do you have _____ precautions in _____ breeches?
 _____ does _____ me against _____ and breach _____?
 _____ in case _____ hacking.
 Tell _____ protect against data _____.
 I _____ know how _____ against _____ theft.
 What is the _____ and _____ breeches?
 _____ counteract _____ by hackers?
 _____ you _____ plans _____ hacks?
 _____ security protocols make sure _____ hack _____?
 Does ensured safety _____ attempts _____ unauthorized _____ hacks?
 _____ security measures have been _____ against hacking and _____ data?
 What preventive _____ used to _____ hackers?
 Should _____ be protocols _____ place _____ by hackers?
 _____ are _____ against hackings _____?
 Is it _____ unauthorized access and _____?
 _____ we _____ to avert _____ incidents?
 How _____ you protect your _____?
 _____ be _____ protocols _____ to deter unauthorized people from _____?
 _____ there _____ security plan _____ hackers?
 There are _____ plans _____ attempted _____?
 How are _____ to _____ hack?
 Was there a _____?
 _____ there _____ of safeguarding against _____.
 What _____ unlawful entry and hacking?
 How _____ measures implemented _____ and safeguard data?
 _____ to _____ themselves _____ entry by _____?
 _____ do _____ unauthorized _____ data crimes?
 What _____ be done _____ protect against hacking _____?
 _____ the _____ against _____ access _____ hacking?
 _____ any _____ protocols _____ to stop _____ individuals from hacking?
 _____ are specific protocols _____ place to _____ unauthorized _____ hackers.
 _____ have ways _____ avoid _____?
 _____ safeguard _____ unauthorized entry or _____ breeches?
 Can you _____ cyber attacks and breeches?
 _____ preventive _____ are taken to keep _____ from _____ user _____?

_____ way of protecting _____ hacks?
 _____ explain your protection _____ attacks?
 _____ any safeguards _____ protect against unauthorized access _____?
 Can _____ tell us about _____ cyber _____ and _____?
 _____ steps are taken _____ prevent _____ access _____ hacking _____?
 There are _____ safeguards _____ or _____.
 _____ to _____ hacking, _____ information?
 How _____ protected _____ data _____?
