

[Demo] NLP Dataset for Customer Service Automation

Company Type	Mobile Network Operators
Inquiry Category	Privacy and security concerns
Inquiry Sub-Category	Privacy settings and permissions
Description	Inquiries about how to manage and customize privacy settings on devices, apps, or online platforms to control the collection, use, and sharing of their personal data.
Data Size	5,030 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Mobile Network Operator" customer inquiry. (Purchased data will not be masked.)

_____ should be _____ if a breach occurs _____ privacy settings _____ an _____ or platform?

What _____ to be done _____ has _____ settings?

If a _____ weak privacy _____ should _____ to protect _____?

If a platform has _____ settings, what _____.

In light _____ insufficient privacy controls, _____ measures _____ should be taken _____ there _____ a _____?

_____ do if there are bad _____ privacy _____?

_____ light of insufficient _____ controls, what _____ to _____ an app _____?

Should there _____ reprisals for _____ who _____ the _____ the _____ of _____ weak _____ settings on _____ platform?

_____ are _____ that need _____ an app/platform _____ bad privacy settings.

If an _____ options lead _____ access or _____ what should be _____?

_____ should _____ if there is _____ privacy _____ on _____ platform?

_____ should _____ do when _____ weak _____?

_____ to deal _____ violation _____ to _____ settings?

_____ may be _____ in _____ for _____ with breaching _____ due to _____ settings _____ app-based _____.

If there are _____ default privacy _____ an _____ what _____ be _____?

_____ are _____ options _____ apps, _____ what _____ we do?

_____ repercussions _____ who violate the privacy _____ the _____ due to the _____ settings _____ platform.

What _____ if weak _____ settings occur _____ application?

There _____ be consequences for those _____ violate _____ the _____ due _____ privacy _____ their platform.

What _____ is a weak privacy _____ on an _____ or _____?

_____ are _____ privacy _____ on apps, so _____ to handle them?

What should I _____ if _____ app _____ settings?

What should be _____ in _____ event _____ privacy breech because _____?

_____ can _____ done _____ an app has _____ privacy _____?

What _____ to _____ if _____ privacy settings _____ not _____ enough?

_____ be consequences for _____ who _____ privacy _____ due to weak privacy settings _____ platform.

_____ remedies _____ default privacy violation?

What can _____ to fix _____ poor _____ defaults?

What should we do ____ there is ____ settings ____ ?

What ____ need ____ a platform ____ bad privacy settings?

What actions ____ be taken ____ settings ____ ?

____ an app/platform has bad ____ what ____ do?

When ____ are weak privacy ____ you ____ ?

What ____ when ____ settings occur?

If weak default privacy configurations on ____ or ____ result ____ security ____ be ____ ?

____ breaches caused ____ low app privacy ____ ?

What ____ if there is bad ____ .

____ there ____ for ____ application's privacy ____ to weak default settings?

Should there ____ consequences for those ____ privacy ____ the application ____ to ____ on that platform?

____ light ____ insufficient factory-set ____ what ____ done to protect ____ app?

What ____ settings are not ____ enough to ____ a breach?

Is it necessary ____ take actions ____ app ____ settings?

____ do ____ do when ____ weak ____ happens?

____ should happen ____ the privacy ____ application are ____ ?

____ settings ____ weak, ____ to act?

What action ____ taken if there ____ privacy settings?

____ actions should be taken ____ a ____ weak ____ ?

____ should be ____ fix ____ weakness in the privacy ____ platform?

____ an application's ____ security options ____ rise to unauthorized ____ or ____ breeches, ____ best course ____ ?

____ should be ____ for ____ who ____ the ____ of ____ due ____ weak ____ settings.

____ has bad privacy settings, ____ should I ____ ?

____ should ____ do ____ a ____ setting is present?

What ____ do ____ settings occur on an ____

____ light ____ privacy controls, what ____ you discover a ____ violation?

____ insufficient privacy controls, ____ the precautions ____ when there ____ security breach?

____ give rise ____ unauthorized access, what ____ of action is advisable?

____ should be ____ is a ____ breach due to weak default ____ application?

What are the actions to ____ has ____ privacy ____ ?

____ a default privacy ____ .

What ____ do ____ weak ____ settings?

If ____ has ____ settings, what should be done?

What ____ you need to do ____ bad privacy ____ ?

____ an ____ platform has ____ settings, what should ____ do?

____ for those who ____ the privacy of ____ to weak ____ settings on ____ platform?

Can ____ tell me ____ to ____ a ____ breach caused ____ weak ____ settings ____ application?

____ platform has weak ____ should be done to ____ ?

How ____ against ____ breeches ____ given ____ default settings.

If ____ is a poor default ____ settings ____ app or platform, ____ ?

If an application's ____ security options ____ unauthorized ____ what ____ ?

____ there ____ weak pre-setted privacy ____ on apps?

What should ____ done if ____ a ____ breach ____ of ____ default ____ on an ____ platform?

When ____ what do I ____ with the ____ options on ____ ?

How ____ deal with ____ violations ____ poor ____ ?

____ the platform has bad ____ should be ____ ?

If ____ are ____ default ____ what do I ____ ?

____ there ____ on how to ____ privacy options ____ apps?

____ should ____ if the ____ or app ____ poor default ____ ?

____ punishments for ____ who ____ the ____ the ____ due ____ the weak default settings.

Any advice _____ deal with weak privacy _____?

Should there _____ reprisals _____ violating the _____ the application due to _____ on those _____?

_____ should _____ consequences _____ who _____ the _____ of the _____ because of the _____ settings on the _____.

_____ should _____ if the _____ default security options give _____ unauthorized access _____?

What _____ do _____ Default Privacy settings _____ strong _____?

Is it _____ to _____ with breaching _____ privacy settings _____ systems?

Should there _____ for those _____ the privacy of the _____ weak privacy settings on _____?

In light of insufficient _____ controls, what _____ be _____ security _____ an _____?

What _____ we _____ when _____ occur?

_____ should _____ an application's default _____ allow unauthorized access?

What _____ do if _____ are weak _____ settings on _____?

_____ to _____ default _____ flaw?

If the _____ privacy settings _____ the _____ what _____ we _____?

_____ platform _____ weak privacy _____ what are the _____ be taken _____ fix _____?

What _____ be taken if privacy _____ on _____ application _____?

_____ you _____ me _____ to _____ there's a security _____ caused _____ privacy settings on _____ application?

How to _____ with _____ weak _____?

What _____ is weak privacy _____?

_____ light of insufficient factory-set _____ controls, _____ should _____ when _____ is _____ violation?

How should weak default _____ configurations _____ treated _____ in a _____ breach?

_____ be _____ for those who _____ of _____ application due _____ weak default settings on _____.

_____ be _____ against _____ who _____ privacy _____ the application due to _____ privacy _____.

Should _____ punished for violating _____ privacy of the _____ weak privacy _____?

What _____ I do _____ has _____ privacy settings.

In light _____ privacy _____ should be _____ if _____ is found to have _____ hacked?

_____ should we _____ if weak _____ present?

What _____ happen _____ there _____ initial data _____ measures on _____?

Should there _____ for _____ who _____ the _____ of the _____ to _____ settings?

If an application's default security _____ access, what _____ be done _____?

_____ an application or _____ is compromised _____ what actions _____ be taken?

_____ any established protocols for dealing _____ due to insufficient _____ settings _____?

What _____ be taken _____ is a weak _____ privacy _____.

How _____ the _____ settings are _____?

What should _____ when _____ is _____ weak _____ privacy _____?

_____ I do _____ there is an app _____ has _____ privacy _____?

_____ the _____ has _____ privacy settings, _____ be done?

_____ there protocols in place to _____ with breaching _____ settings on _____?

_____ about _____ that has _____ settings?

_____ actions _____ be _____ an app has _____ settings?

Is _____ on how to _____ a _____ to weak _____ on apps?

There _____ be _____ against those who violate _____ of _____ of _____ privacy settings.

_____ there _____ the _____ of _____ application due to weak default _____?

What _____ should be _____ weak default _____ exist?

In _____ of _____ controls, _____ are measures to be _____ security breach _____?

Is there a _____ to deal with _____ privacy _____ app-based _____?

How to _____ security issues _____ privacy _____?

_____ should we _____ when _____ is _____ privacy settings _____ an _____?
