

[Demo] NLP Dataset for Customer Service Automation

Company Type	Natural Gas Companies
Inquiry Category	Information about renewable natural gas
Inquiry Sub-Category	Renewable Natural Gas Infrastructure and Distribution
Description	Customers may have questions about the infrastructure required for distributing renewable natural gas, including pipelines, transportation, and storage systems, as well as the availability of refueling stations for vehicles.
Data Size	5,002 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Natural Gas Company" customer inquiry. (Purchased data will not be masked.)

Are there ____ pipelines to ____ ____ gas across ____ ____?

Is it possible ____ sustainable ____ all ____ US?

____ a lot ____ to ____ renewable gas nationwide?

Is there ____ to ____ throughout the country?

Are ____ networks ____ ship clean ____?

I want ____ know if ____ green ____ countrywide.

Do ____ exist enough transportation lines ____ deliver ____ to ____ entire ____?

____ enough ____ exist ____ transportation ____ gas in America?

Is the country's ____ of handling renewable ____?

Is ____ carrying ____ natural ____?

____ there ____ carry renewable ____ across the nation?

____ pipelines ____ spread renewable ____ nationwide?

Is an ____ distribution ____ present ____ green ____?

Do we have ____ to ____?

____ there ____ channels to ____ natural ____ throughout America?

Do ____ have ____ pipes ____ of ____ natural gas?

____ there ____ carry renewable natural gas?

____ many ____ natural ____ lines exist?

The ____ of ____ may be ____ by a shortage ____.

Do ____ have ____ gas lines to distribute ____?

Is ____ infrastructure sufficient to ____?

You ____ there ____ enough pipelines ____ green natural ____?

____ exist enough transportation ____ to deliver natural ____ all of ____?

Is it ____ distribute renewable ____ gas ____ country?

Is there ____ cross ____ transport of ____ gas?

Is ____ a adequate ____ natural gas?

____ gas lines in place to ____ gas?

____ there ____ pipes for ____ gas nationwide?

Is it possible _____ channels _____ renewable fuel gases in every _____?

Does _____ distribution _____ green _____ gas?

Is _____ a _____ to _____ eco-gas around the _____?

Are _____ gas _____ nationwide?

_____ for green _____ to move _____ the country?

Is _____ enough _____ to distribute renewable _____ over _____?

Do _____ sufficient infrastructure _____ renewable _____ gas?

_____ be enough networks _____ ship clean _____ gas _____?

_____ we have enough _____ natural gas?

_____ there are enough lines for the _____?

_____ there _____ for _____ gas?

You _____ there's enough _____ for all that _____?

Is _____ sufficient to move _____ gas throughout _____?

_____ conduits _____ sustainable natural _____ distribution?

_____ we _____ to _____ in the country?

_____ exist enough channels to transport _____ America?

_____ the current network _____ to deliver _____ all over _____?

Does the _____ of renewable natural _____ nationwide _____?

_____ reliable network of pipes _____ green _____ gas?

Can we _____ renewable _____ gas _____?

_____ we have _____ pipes _____ sustainable _____ gas?

Is _____ we have _____ channels to spread _____ in every _____?

_____ distribution _____ eco-friendly gas can _____ affected _____ a _____ of _____.

_____ we _____ deliver renewable _____ gas _____?

Is _____ possible _____ use _____ for _____ transportation of renewable _____ gas?

Is _____ to spread _____ the States?

_____ it _____ to distribute _____ across several states?

Do _____ ship _____ countrywide?

Do _____ have _____ capacity _____ distribute renewable _____ nationwide?

Is there _____ network _____ pipes that _____ gas?

_____ we _____ deliver _____ natural gas _____?

Is it possible to _____ natural gas _____?

_____ there enough _____ for _____ natural _____?

Is _____ an _____ way _____ renewable natural _____ in _____ US?

_____ pipes _____ fuel around _____ country?

_____ not enough _____ all over the states?

Is _____ enough capacity _____ natural gas _____?

_____ natural gas _____ lines exist _____ America?

_____ to _____ renewable _____ throughout the country?

Are _____ enough lines to _____?

Is there _____ deliver sustainable natural gas _____?

Is _____ possible _____ the _____ distribute clean _____ across states?

There is _____ about whether there _____ transportation lines _____ natural gas _____ city.

_____ enough natural _____ green energy _____?

Is _____ feasible _____ distribute _____ natural gas across _____?

_____ the _____ infrastructure _____ enough for _____ gas?

Is _____ pipes to spread renewable _____?

_____ a shortage _____ pipes for spreading _____ over _____?

_____ enough transportation _____ deliver _____ every city in the country

Do we have the _____ natural _____?

Green gas can ____ moved ____ country ____ is sufficient.

Is ____ carry renewable ____ gas nationwide?

Is ____ a way to spread ____?

____ have enough pipes for all ____?

Is ____ for ____ gas nationwide?

____ we ____ channels ____ the ____ of ____ natural gas?

____ we able to ____ renewable ____ all ____ country?

____ we have enough ____ to ____ gas ____?

Do we have ____ pipes to ____ America?

____ there ____ gas delivery nationwide?

Is ____ networks ____ natural gas ____ over the place?

____ to distribute ____ natural gas?

Are we ____ transport ____ natural gas to ____?

____ there ____ green ____ in ____ nation?

____ be ____ in our nation ____ there are ____ pipes.

____ the ____ network ____ to ____ sustainable natural gas ____ country?

Are ____ enough to ____ gas ____?

Are ____ to deliver ____ natural gas ____ country?

There ____ transportation ____ deliver renewable natural gas ____.

____ a ____ to cross-country ____ renewable ____ gas?

____ infrastructure in place ____ move ____ gas ____ the ____?

Is ____ current ____ enough ____ distribute eco-friendly ____?

For moving ____ gas throughout the ____ infrastructure ____?

____ there ____ pipelines ____ renewable sources?

I ____ if ____ carry ____ fuel ____.

____ we able to ____ throughout the nation

____ we ____ to spread natural ____?

____ pipes ____ green ____ countrywide?

Do there exist enough transportation lines ____ bring ____ country?

____ we have ____ for delivery nationwide?

____ gas pipelines ____ green energy distribution?

____ there ____ to ____ country ____ of renewable natural ____?

Is ____ a sufficient ____ for ____ Natural ____?

____ there be ____ transportation ____ to deliver ____ gas ____ city in the ____?

____ distribution ____ eco-friendly gas could ____ by a shortage ____.

Does ____ network of pipes ____ throughout America?

Does ____ have ____ ability to deliver sustainable natural ____ America?

____ we ____ renewable natural ____ nation?

____ we able to ____ renewable natural gas ____?

Does pipe ____ green ____?

____ pipes ____ fuel ____ the country?

Are ____ able ____ sustainable ____ across America?

____ the current ____ deliver ____ natural gas ____ the country?

____ there enough capacity ____ transport ____ gas ____ America?

____ distribution of ____ gas may ____ by ____ of pipes.

Is there a ____ of ____ preventing the ____?

Is ____ enough infrastructure ____ distribution ____ renewable natural ____?

Is ____ network ____ that ____ carry green gas?

____ we ____ gas all ____ place?

Is it ____ natural ____ nationally?

Is _____ sufficient infrastructure for _____ gas _____ the _____?

Is there a _____ pipes to _____ green _____?

Do _____ have _____ channels _____ renewable natural gas?

_____ there enough pipelines _____ this renewable _____?

Is _____ a way _____ renewable natural gas _____ the _____?

_____ need enough pipes _____ spread renewable _____.

_____ we _____ enough channels _____ move _____ natural gas across _____?

Is _____ network _____ that carry green _____ the US?

Do you _____ are _____ to transport _____ natural gas?

Is _____ renewable gas _____ across _____?

Do _____ sufficient _____ lines that _____ deliver renewable natural _____ to _____?

Can _____ be _____ shortage _____ pipes preventing _____ of _____ gas?

_____ there be adequate _____ to _____?

Is _____ a good network _____ for _____?

_____ exist _____ transportation _____ deliver renewable _____ gas to _____ lot _____ people?

Is _____ any way _____ clean _____ across _____ states?

_____ move _____ natural _____ throughout the _____?

_____ have enough channels for _____ renewable _____ gas _____?

_____ it possible to _____ natural _____ America?

Are _____ channels for _____ transportation of _____ nationwide?

_____ enough _____ to transport _____ gas in America?

Do _____ have enough _____ spread renewable _____ over?

Does _____ enough transportation _____ renewable _____ to the country?

Have _____ for _____ renewable fuel gases?

_____ satisfactory network of pipes _____ natural gas?

Do we have _____ to _____ gas?

_____ there enough infrastructure for the _____ renewable _____?

Short _____ to _____ all around the _____?

_____ exist _____ transport of _____ natural gas in America?

_____ we capable _____ renewable natural _____?

_____ there _____ decent network of _____ gas in America?

_____ should _____ adequate conduits _____ renewable _____ in the US.

Is _____ enough networks that _____ gas _____?

Is _____ infrastructure for _____ natural gas supply?

There _____ be enough natural _____ lines _____ distribution.

_____ possible _____ we _____ channels for _____ renewable fuel gases in _____?

Is _____ gas _____ for distribution _____ green energy?

_____ we _____ to transport _____ natural gas _____ over _____.

_____ we have enough pipelines _____ delivery?

Is _____ enough networks _____ natural gas _____ country?

Is there _____ of _____ that _____ gas?

Is there _____ of renewable natural _____ supplies?

Is it possible to _____ sustainable _____ gas _____.

_____ pipes _____ green _____ fuel _____?

Is _____ current _____ adequate _____ eco-friendly natural gas?

_____ to deliver renewable _____ delivery nationwide?

_____ ought _____ enough _____ lines to _____ renewable natural _____ millions _____ people.

Is _____ enough pipeline _____ the _____ renewable _____ gas?

Is _____ current piping _____ green gas?

_____ enough _____ infrastructure for the _____ gas?

_____ a way to deliver renewable _____ to _____ of _____?
 Is there enough _____ this renewable _____?
 _____ enough _____ exist _____ of renewable gas?
 _____ don't know if _____ is enough _____ ship _____ gas.
 Can we _____ renewable _____ the _____?
 Is there enough channels _____ natural gas _____?
 Can _____ sustainable natural _____ America?
 _____ a _____ network of pipes _____ carry _____ gas?
 Is it _____ renewable _____ nationwide?
 Is _____ a _____ natural gas across _____ States?
 Do _____ to carry _____ natural gas to every _____ the country?
 Are _____ able to transport _____ over America?
 Is there _____ gas _____ for the _____?
 _____ existing pipes _____ evenly _____ renewable natural gas throughout _____?
 Does _____ allow us _____ move _____ across _____ country?
 Can there be _____ distribution _____ sustainable _____ gas?
 _____ we _____ able to _____ the _____ natural _____?
 Is green _____ carried _____ pipes _____?
 Do there _____ enough _____ to _____ renewable natural gas _____?
 _____ capacity to _____ gas nationwide?
 _____ exist enough transportation _____ renewable _____ gas to _____ areas of _____ country?
 Would it be possible _____ spread _____ all _____?
 Are _____ get enough _____ nationwide?
 Is there _____ capacity _____ renewable _____ gas _____ the _____?
 Do _____ hold green _____?
 Do pipes deliver _____?
 Are we _____ distribute _____ natural _____ all over _____?
 _____ the _____ of pipes _____ carry green _____?
 Will there _____ gas _____ spread _____?
 _____ we have _____ transport _____ for renewable _____?
 _____ infrastructure _____ us _____ move green gas _____ the _____?
 _____ exist enough transportation _____ deliver _____ natural gas to each _____ in _____?
 Will _____ to _____ renewable natural _____ throughout the _____?
 Is there _____ for _____ gas?
 Is the _____ enough _____ eco-friendly natural _____?
 Are there enough transportation _____ deliver renewable _____ gas to _____?
 _____ it _____ to _____ renewable _____ gas _____?
 Is _____ shortage _____ pipes _____ from being distributed?
 _____ we spread _____ throughout the _____?
 Do _____ channels _____ to move _____ natural _____ the _____?
 _____ to spread eco-gas in _____ the _____?
 Are there _____ pipeline _____ of renewable _____?
 _____ our infrastructure enough to _____ green _____ the _____?
 Is there a _____ pipes _____ can _____ green _____?
 _____ there _____ pipelines _____ for the _____ gas _____?
 There needs to _____ enough _____ deliver renewable natural _____ individuals.
 Do we _____ channels _____ spreading _____ gases?
 _____ there _____ of green gas _____?
 _____ enough _____ in _____ to spread renewable gas _____?
 _____ there enough _____ to _____ all over America?

_____ there _____ channels _____ distribute _____ natural _____ in America?
 Is _____ pipelines enough _____ clean _____ gas _____ the _____?
 Enough _____ for green _____ distribution?
 _____ green gas _____ for our _____?
 _____ we capable of spreading _____ the country?
 _____ the current piping _____ to _____ the eco-friendly _____?
 Are _____ pipelines _____ the distribution _____ natural gas?
 Is _____ channels _____ the transport _____ renewable _____ nationwide?
 Is _____ current network _____ to _____ sustainable natural _____?
 Is there enough pipeline _____ natural gas all _____?
 _____ sufficient channels _____ transporting _____ natural gas _____ country?
 _____ enough channels _____ of renewable natural gas?
 Can _____ get natural _____ over _____?
 There are _____ to distribute green _____.
 Are _____ enough channels _____ the distribution of renewable _____?
 Is _____ enough _____ for _____ natural gas _____?
 Can _____ enough pipelines _____ distribute _____ gas?
 Is _____ a _____ network for _____ of renewable _____?
 _____ think there's _____ pipe _____ natural gas?
 _____ it _____ to distribute natural _____ from _____ nationally?
 Do _____ have _____ for _____ renewable _____ everywhere?
 The distribution _____ eco-friendly gas might _____ by a _____.
 Do _____ green _____ fuels _____?
 _____ there enough _____ spreading renewable _____?
 _____ there _____ for spreading renewable _____ all _____?
 Is _____ pipes for renewable gas _____ spread _____?
 Is _____ possible to use _____ pipes _____ natural gas?
 _____ transportation lines in the country to _____ natural gas to _____?
 _____ there a _____ for _____ distribution of _____ natural _____?
 _____ there enough _____ lines _____ renewable _____ gas delivery?
 Is it possible to _____?
 _____ the infrastructure _____ move green _____?
 Do there exist _____ lines that _____ natural gas _____ the _____?
 _____ may be _____ lines to deliver _____ natural gas _____ of _____.
 Is it possible _____ distribute _____ natural _____ around _____?
 Are _____ that _____ clean _____ gas everywhere?
 Is _____ enough capacity across the _____ sustainable _____?
 Are we _____ to _____ natural _____ the _____?
 _____ have _____ conduits _____ distribute renewable _____ gas?
 _____ our infrastructure adequate _____ moving green _____ the _____?
 Do _____ distribute eco-friendly natural gas?
 Are we _____ by _____ spreading renewable _____?
 _____ it _____ to get _____ gas _____?
 _____ compatible _____ support _____ deployment?
 _____ a _____ of pipes _____ carry _____ natural _____ in America?
 _____ don't _____ our _____ meet _____ standards _____ carrying sustainable _____ the country.
 There _____ not enough pipes _____ spread _____ all _____.
 _____ the _____ network _____ eco-friendly _____ gas?
 Are _____ transportation _____ that deliver renewable _____?
 Do _____ exist transportation lines _____ can _____ renewable _____ every _____?

Can ____ be ____ way ____ sustainable ____ gas across the ____?

Is ____ a national ____ of ____?

____ enough transportation lines that ____ deliver ____ gas ____ millions ____ people?

Is the infrastructure ____ the ____ gas?

____ there ____ to ____ eco-friendly natural ____ nationwide?

____ we ____ sustainable natural ____ America?

____ enough infrastructure for ____ gas?

____ the ____ network able to ____ natural gas?

____ US pipelines ____ distribute ____ natural ____ across states?

Are there ____ pipelines ____?

Short ____ pipes ____ carry ____ all over ____?

____ we have ____ gas lines to ____?

Is there enough ____?

____ pipes ____ eco-gas across the ____?

Are ____ covered ____ pipes ____ the renewable gas?

____ possible to distribute ____ across the US?

Do there aren't enough channels ____ transporting ____?

____ natural gas ____ for the ____ green ____?

____ have ____ pipelines to ____ renewable natural ____?

____ natural gas ____ for ____ energy.

____ there ____ transportation ____ to deliver ____ gas?

Do ____ exist for the transportation ____ natural ____?

There may be enough transportation ____ deliver renewable natural ____ the ____.

____ network sufficient to ____ eco-friendly ____ gas ____?

____ enough pipes ____ distribute green ____ the country?

____ able ____ our natural gas throughout the ____?

____ it ____ the ____ pipes ____ distribute renewable natural ____ throughout the ____?

____ there ____ for ____ natural gas.

Do we ____ the ____ distribute ____ natural ____?

____ renewable natural ____ throughout the ____?

____ a way to distribute clean natural ____?

Is there ____ for ____?

Short on pipes ____ all ____?

Will there be ____ transportation ____ renewable ____ to ____ of ____ country?

Is ____ the US ____ distribute clean ____ gas ____ multiple ____?

Is ____ possible to ____ renewable ____ gas ____ country?

Is it ____ us ____ spread ____ everywhere?

____ there's enough transportation for ____?

____ there be ____ gas ____ for ____ gas?

Got ____ clean natural gas?

____ current network ____ to ____ natural gas ____ the US?

Are ____ enough pipes ____ gas?

Are ____ ample networks ____ natural ____?

____ distribution ____ could be ____ by ____ shortage of pipelines.

____ we have enough ____ for ____ renewable ____ gases?

Short ____ pipes to ____ eco-gas all ____?

Are there ____ gas ____ to ____?

____ our network sufficient ____ green ____ the country?

____ enough ____ lines available ____ deliver ____ every part of the country?

Are we capable of ____ natural ____ across ____?

Is there enough _____ dispersion of _____ supply?
 _____ there a sufficient _____ of _____ green gas?
 Are we able _____ carry _____ natural _____ over _____?
 _____ there enough _____ for the _____ renewable natural _____ the _____?
 Is _____ for renewable gas across _____?
 _____ compatible _____ systems _____ the _____ of _____?
 Is _____ enough _____ lines to deliver _____ to _____ whole _____ country?
 Do we _____ transportation _____ natural gas?
 Distribution _____ gas _____ be _____ by a _____ of _____.
 _____ our infrastructure _____ to move _____ the country?
 Are we _____ transport _____ gas throughout our _____?
 _____ have adequate transportation of _____?
 _____ there _____ enough _____ lines to _____ natural _____ to _____ of _____ across the _____?
 _____ to move _____ gas enough?
 Is _____ possible _____ distribute renewable _____ across _____ nation?
 _____ there be _____ green gas _____ country?
 Is _____ enough _____ sustainable natural _____ all _____ America?
 _____ may not be _____ networks _____ renewable _____ gas.
 There _____ be _____ pipes in place _____ renewable gas _____.
 Are we able to _____ natural _____ nation?
 The _____ eco-friendly _____ could _____ hampered by _____ shortage _____ pipelines.
 _____ there _____ for _____ gas _____ spread?
 _____ we _____ renewable natural gas _____?
 _____ have enough _____ to spread renewable _____?
 _____ carry _____ gas countrywide?
 Does our _____ allow _____ green _____?
 Is it _____ move green _____ nation?
 _____ on pipes to _____ the states?
 _____ enough _____ to _____ renewable gas _____?
 _____ be enough channels _____ natural _____ in America?
 _____ it possible _____ the _____ to distribute _____ across the states?
 Should _____ enough gas _____ renewable _____?
 _____ there enough channels _____ transport of _____ nationwide?
 Is _____ a _____ pipes to _____ eco-gas _____ states?
 Do there _____ exist _____ deliver renewable natural gas _____ country?
 _____ it possible _____ spread _____ throughout _____ country?
 _____ pipes to spread eco-gas all _____ states.
 There _____ enough _____ spread _____ all over _____ states.
 Can we _____ natural gas _____?
 _____ pipes _____ all that green _____?
 Is there _____ us _____ renewable gas around?
 Are _____ transport _____ renewable _____ gas in the _____?
 _____ to get renewable _____ gas across-country?
 _____ question about whether there _____ transportation _____ to _____ renewable _____ gas _____ every city in the _____.
 Are _____ good _____ that carry _____ gas?
 Do there exist _____ to deliver _____ gas _____ of individuals?
 Is _____ network _____ to _____ sustainable natural _____ across _____?
 _____ we _____ channels _____ the _____ of renewable gas?
 Were we covered _____ enough _____ to _____?
 _____ we able to _____ renewable natural _____ nation?

Is _____ enough transportation line to _____ natural _____ to _____ the _____?

Is there _____ PIPELINES _____?

_____ it be _____ to distribute _____ gas _____?

_____ possible to _____ renewable natural _____ across _____ country?

_____ we have _____ to _____ renewable natural _____ nationwide?

Is _____ any way _____ renewable gas nationwide?

_____ there _____ pipes _____ renewable gas?

_____ the current network large _____ to distribute _____?

Is _____ enough gas _____ renewable _____?

_____ possible _____ dispersion of _____ natural gas supplies?

_____ currently _____ eco-friendly natural gas across _____?

_____ there _____ way to _____ country transportation of _____?

_____ eco-friendly gas _____ be _____ by _____ of pipes.

Can there be _____ deliver _____ natural gas to every _____ the _____?

_____ distribution _____ eco-friendly _____ might be affected _____ a _____ pipelines.

_____ there enough _____ gas _____ nationwide _____ natural gas _____?

_____ possible to get _____ pipelines to ship _____ gas?

Do we have _____ infrastructure to _____ renewable _____?

_____ way to _____ renewable _____ gas across the _____ States?

Do there _____ transportation lines _____ deliver _____ natural gas _____ of _____.

Are _____ for _____ renewable natural gas in _____?

_____ distribute renewable natural gas _____?

Are _____ channels for _____ transportation of _____ gas _____?

Is _____ to transport _____ all _____ the country?

Are _____ enough _____ distribution _____ gas?

Can _____ natural _____ dispersed _____?

_____ we have the ability to _____ gas _____?

_____ the current network _____ to _____ sustainable natural _____ all _____?

_____ exist enough _____ lines to deliver _____ natural gas _____ of _____?

Is there _____ dispersal _____ natural gas supply?

_____ sufficient distribution infrastructure for _____?

_____ the _____ sufficient to _____ eco-friendly gas?

Are we going _____ renewable _____?

Is _____ possible _____ distribute renewable natural _____?

_____ it possible _____ gas to be _____ across _____ US?

_____ adequate transportation _____ natural _____ throughout _____ nation?

_____ pipeline resources _____ ability to spread _____ efficiently?

Do we have _____ gas delivery?

Is _____ for spreading renewable _____ all _____?

_____ there _____ enough channels for _____ of _____ natural gas _____?

There _____ be _____ lines _____ renewable gas _____.

Is _____ current _____ enough to _____ eco-friendly _____ gas?

_____ we _____ transport _____ natural _____ throughout the country?

Is it possible _____ green _____ country?

_____ pipelines to spread renewable _____?

Are _____ many _____ to spread _____?

_____ know if we have _____ for the transportation _____ natural _____.

_____ network to _____ renewable natural _____?

_____ channels to carry _____ natural gas _____ America?

Do _____ channels _____ to carry _____ gas _____ America?

____ it possible ____ natural gas ____?
 ____ it ____ to ____ renewable natural ____ all over ____?
 ____ there enough transportation lines to ____ gas to ____ the ____?
 Is ____ enough transportation ____ to carry ____ millions ____ people?
 ____ of eco-friendly ____ may ____ affected by ____ of ____.
 Will the distribution ____ gas ____ by ____ shortage ____ pipes?
 Is there ____ renewable gas ____ across ____?
 Is there ____ channels ____ the ____ renewable ____ gas?
 Do ____ have enough pipes for ____ renewable gas ____?
 Are we ____ gas ____ America?
 ____ there ____ pipe to ____ green gas ____ the ____?
 Is ____ adequate ____ renewable natural ____ in ____ US?
 ____ there ____ for ____ gas mess yet?
 Is there ____ we ____ renewable gas ____?
 ____ good network of pipes that ____ gas?
 You ____ there ____ transportation for the ____ gas?
 Do there ____ enough transportation lines that ____ to ____ the country?
 ____ we ____ to transport renewable natural ____ nation?
 Do we ____ the ability ____ distribute ____ nationally?
 ____ there ____ network ____ transport renewable ____ gas across ____?
 ____ wonder ____ we have enough ____ to spread ____?
 ____ get ____ natural gas ____ all over ____?
 Is ____ network ____ distribute green ____?
 ____ should ____ enough pipeline ____ renewable ____.
 ____ take renewable natural ____ nationwide?
 ____ know ____ there ____ enough transportation ____ deliver renewable ____ gas ____ every ____ in the country?
 ____ able to transport ____ renewable ____ the country?
 Is ____ country's natural gas ____ handle renewable natural ____?
 Does there ____ enough ____ lines to ____ renewable ____ gas ____ part ____ the ____?
 Will ____ channels to transport renewable ____ gas ____?
 ____ enough ____ to ship clean natural ____ all ____?
 ____ there a ____ to carry ____ gas?
 ____ infrastructure for moving green gas ____ in ____?
 Do ____ for ____ gas everywhere?
 Do there exist enough ____ renewable ____ to all ____ the ____?
 ____ enough networks to ship ____?
 Are ____ gas lines to distribute ____ gas?
 Should ____ to distribute ____ natural ____ nationwide?
 Do ____ carry ____ natural fuel ____?
 We ____ enough ____ gas ____ green ____ distribution.
 ____ pipe for ____ distribution ____ renewable natural gas?
 Does ____ country have ____ to deliver renewable ____ gas ____ city?
 ____ we able to ____ gas ____ over?
 ____ possible to ____ natural gas ____?
 Do ____ pipes ____ natural gas?
 ____ there's enough infrastructure ____ all ____ green natural ____?
 ____ any ____ pipes that carry green natural ____?
 ____ to ____ renewable gas nationally?
 ____ the ____ hampered by a ____ of pipelines?
 Is our ____ enough ____ moving ____ the country?

____ distribution ____ for ____ natural gas?
 ____ not ____ enough ____ lines to deliver ____ gas to everyone ____ country?
 Do ____ channels exist ____ gas ____ America?
 Is ____ possible to distribute renewable ____ nation?
 Can ____ existing ____ evenly carryrenewable ____ gas throughout ____?
 ____ pipes to ____ green energy?
 ____ there be ____ distribution ____ for ____ gas?
 Can ____ natural gas ____ across ____?
 Is ____ infrastructure ____ to ____ gas around the ____?
 ____ renewable natural ____ nationwide?
 There ____ transportation lines ____ deliver ____ natural ____ to ____ the country.
 ____ existing lines ____ demand ____ spreading carbon ____ in America?
 Is ____ infrastructure sufficient ____ move ____ gas ____ the ____?
 Is the ____ sufficient ____ move green ____ the ____?
 Are ____ enough transportation ____ the country ____ can ____ gas?
 Is there ____ green ____ our fine ____?
 We ____ know if ____ enough ____ to ____ gas.
 ____ we able ____ sustainable natural gas ____?
 ____ pipes ____ natural ____ the country?
 ____ for green energy ____?
 ____ our infrastructure adequate ____ around the country?
 Is there ____ conduits ____ sustainable ____?
 ____ there be adequate ____ distribute ____ natural ____?
 ____ we ____ enough ____ can spread renewable ____ everywhere.
 Is ____ enough ____ distribute ____ gas?
 ____ there ____ for this renewable ____?
 Does ____ infrastructure provide enough ____ natural ____?
 ____ a ____ of pipes that carry green ____?
 ____ there ____ way ____ natural Gas nationally?
 Do transportation lines ____ renewable ____ gas ____ city in ____ country?
 ____ the network ____ to ____ natural gas ____?
 ____ enough transportation to ____ natural ____ to ____ of ____ country?
 How ____ pipes are ____ for spreading renewable ____?
 ____ there ____ good ____ of ____ carry the green ____ gas?
 ____ enough transportation ____ in the country?
 ____ piping ____ distribute eco-friendly gas?
 ____ US ____ enough to distribute ____ natural gas ____?
 Will ____ able to deliver ____ gas to America?
 Are there ____ send clean natural ____?
 Can ____ renewable ____ gas in ____?
 Is ____ network ____ the distribution of ____ gas?
 ____ infrastructure for green ____ gas?
 Is ____ network ____ carry ____ natural gas?
 ____ there sufficient ____ transport ____ gas?
 Short ____ to send ____ the states?
 ____ enough pipes ____ carry ____ renewable ____?
 Are ____ able to ____ natural gas throughout ____?
 ____ enough channels for the transport ____ natural ____?
 Are ____ sustainable natural gas all over ____?
 Do ____ exist ____ lines to deliver ____ natural gas ____ country?

Are US pipes sufficient _____ distribute _____ natural _____ ?

Are _____ clean natural gas?

_____ there enough _____ to _____ renewable _____ gas _____ the _____?

I _____ know _____ there _____ pipeline _____ ship _____ natural gas.

_____ sufficient channels _____ move renewable _____ gas?

_____ there enough transportation _____ that _____ natural gas _____ all _____ the _____?

_____ there enough _____ gas pipelines for _____ green _____?

Is _____ any reliable network _____ that _____ gas?

_____ there not exist _____ to deliver _____ gas _____ all parts _____ country?

_____ there be _____ that green gas?

Do we _____ channels _____ gas?

_____ there enough _____ to deliver _____ to every city _____ the _____?

Can _____ spread _____ nationwide?

Can pipes _____ countrywide?

Is _____ enough _____ to _____ distributed _____?

_____ the infrastructure adequate _____ in the country?

Is there _____ pipeline _____ spread _____?

_____ country's _____ distribution _____ handle _____ natural gas distribution?

_____ network of pipes _____ carries green _____ in America?

_____ there enough _____ the transportation of _____ gas _____?

_____ of _____ natural gas all over _____ country?

_____ there be enough _____ to transport _____ over _____?

Is there _____ pipes that _____ green natural _____?

Can _____ eco-friendly _____ nationwide?

Are _____ for renewable _____ to be _____?

Do you _____ ship _____ natural gas _____?

Do we have _____ transport natural _____?

_____ able _____ bring _____ natural _____ nationwide?

Are _____ to transport _____ natural _____ in our _____?

_____ not _____ transportation lines to _____ renewable natural _____ every city _____ country.

Is _____ enough _____ to _____ natural _____ nationwide?

Can we distribute _____?

_____ on _____ to _____ to all the _____?

You think there's _____ infrastructure _____ gas?

_____ a _____ to distribute renewable _____ gas?

_____ exist _____ transportation lines that deliver _____ gas to _____?

Are we able _____ renewable natural _____ country?

_____ exist enough _____ to deliver renewable _____ gas?

Is _____ infrastructure _____ distribute green _____?

Is _____ sufficient channels for the _____ of _____?

_____ there enough pipes in place _____?

_____ current _____ the ability _____ deliver sustainable _____ gas throughout _____?

_____ our _____ to _____ green gas?

Is _____ to _____ renewable _____ gas _____.

_____ sufficient infrastructure _____ of renewable natural _____?

Do _____ channels _____ to _____ renewable natural _____ America?

Has _____ networks _____ clean _____ gas?

There should _____ sufficient _____ to distribute _____ in _____ US.

Is there _____ network _____ for green natural _____ in _____?

_____ there _____ networks to carry _____ natural gas _____?

Short _____ get eco-gas _____ all of _____ states?
 _____ there _____ lines to deliver _____ natural gas to _____ city _____ country?
 _____ there exist enough _____ the _____ renewable natural _____?
 _____ enough conduits to distribute _____ the US?
 The _____ eco-friendly gas _____ hindered _____ a _____ of pipes.
 _____ distribute renewable natural _____ the _____?
 _____ infrastructure _____ renewable _____ gas delivery nationwide?
 Are _____ distribute eco-friendly natural _____?
 Do _____ have enough _____ ship clean _____ gas _____?
 _____ enough _____ to bring renewable _____ in America?
 Are _____ enough pipelines _____ renewable _____ nationwide?
 Do _____ enough _____ lines to deliver renewable _____ to millions _____?
 Can _____ natural gas _____?
 _____ we have _____ channels for _____ transport _____ gas?
 Is _____ capable of _____ natural gas to _____?
 _____ current _____ strong enough _____ deliver _____ gas all _____ America?
 Is _____ distribution _____ support green natural _____?
 _____ the _____ network able _____ gas all over America?
 Are _____ able to transport renewable _____ throughout _____.
 _____ transports renewable natural gas _____ the nation?
 _____ our infrastructure able _____ green _____ the country?
 _____ enough _____ lines to deliver _____ parts of the country?
 Does there _____ transportation lines that _____ natural _____ every part _____ the _____?
 Are _____ for the transport _____ gas across the _____?
 _____ there _____ for _____ of renewable _____ gas supply?
 Is _____ enough _____ to distribute renewable _____?
 _____ be enough _____ for renewable _____?
 Is _____ a network capable of delivering sustainable _____?
 Are _____ pipes _____ renewable gas all _____?
 Is _____ eco-gas _____ over the country?
 Is there _____ for _____ energy distribution?
 Are _____ able to transport _____ the _____?
 _____ we _____ spread renewable gas _____ the nation?
 _____ there enough _____ to deliver renewable _____?
 Is _____ enough _____ for _____ renewable gas?
 Is _____ natural gas infrastructure _____ it _____?
 _____ possible _____ enough channels to _____ fuel gases _____ every state?
 Are _____ channels for transporting _____ gas _____ country?
 You _____ enough transportation _____ green _____ gas?
 Is there enough _____ to _____?
 _____ be used _____ transportation of renewable _____ gas?
 _____ country's _____ distribution _____ to handle _____ natural gas distribution?
 _____ we _____ to _____ natural gas throughout _____ nation?
 _____ be _____ natural gas transportation throughout _____?
 Will there be enough _____ to _____ natural gas _____?
 Is _____ a network of pipes that carry _____?
 Is there _____ gas delivery _____?
 _____ there _____ adequate _____ for green _____ gas?
 Is _____ current network _____ enough to _____ sustainable _____ gas _____?
 _____ there enough _____ delivery _____ renewable _____ gas nationwide?

Is there a distribution _____?

Are _____ lines _____ deliver renewable natural gas _____?

_____ we _____ to deliver _____ gas across the _____?

_____ to _____ eco- friendly natural gas nationwide?

Are there _____ networks _____ ship clean _____ gas _____?

Will _____ transportation _____ to _____ renewable natural _____ every part of the _____?

Does the _____ have _____ to _____ natural gas?

_____ on _____ carry _____ all _____ states?

Short on _____ get _____ over _____?

_____ the _____ infrastructure _____ the distribution _____ gas _____ renewable _____?

_____ the piping _____ distribute eco-friendly _____ gas?

_____ it possible _____ dispersed renewable _____?

Can there be _____ for _____ gas?

_____ natural _____ across the nation?

_____ possible to distribute _____ natural gas _____ us?

Do _____ have the capacity _____ natural gas _____?

_____ there enough _____ transport _____ natural _____ in the _____?

Is _____ enough capacity _____ distribution _____ natural _____ nationwide?

Can _____ be _____ carry renewable _____ gas?

Is _____ to _____ renewable natural gas to _____ areas of _____?

_____ sufficient _____ for _____ green gas throughout the _____?

Is _____ to _____ natural _____ throughout the _____?

_____ possible _____ natural gas nationwide?

_____ you have _____ deliver clean _____ gas everywhere?

Are _____ for this renewable _____?

_____ you _____ to _____ renewable gas _____ the country?

Are we _____ enough _____ to carry the _____?

Is _____ possible _____ renewable _____ within the nation?

Do _____ have sufficient _____ the _____ of _____ gas?

_____ suffice to deliver _____ natural _____?

_____ enough pipeline _____ eco-friendly natural _____ nationwide?

Is there _____ of _____ green natural gas?

Is _____ possible to _____ natural gas _____ the _____?

_____ transportation lines to _____ renewable natural gas _____ part _____ the nation?

We don't _____ if we have enough _____ transporting _____.

Do _____ conduits to _____ natural _____ in the _____?

_____ we have _____ capacity to distribute _____ gas _____?

_____ distribution infrastructure present _____ green _____?

_____ we currently _____ distribute eco-friendly natural _____ the _____?

_____ transport sustainable natural _____ all over America?

Can transportation _____ renewable _____ gas _____ every _____ of _____ country?

_____ there _____ enough transportation lines _____ deliver _____ natural _____ lots _____ people?

_____ it enough _____ move _____ gas?

Is _____ that _____ natural _____ everywhere?

_____ to _____ renewable natural gas in _____ country?

Can there _____ renewable gas?

Do we have _____ transport of renewable natural _____?

_____ enough _____ transport renewable natural _____?

Is there _____ networks to carry _____ across _____?

Is there any _____ cross-country _____ natural gas?

_____ transportation lines to _____ gas to the whole _____?

_____ enough _____ for the _____ of _____ natural gas?

How many _____ do _____ have _____ transporting renewable _____?

_____ enough channels _____ carry _____ natural _____ in the _____?

Is _____ piping network sufficient _____ eco _____ natural _____?

_____ exist to transport renewable _____ across America?

Is it _____ disperse renewable natural _____ country?

_____ have the proper _____ for transporting _____ gas?

_____ there _____ way _____ bring renewable _____ the country?

Are there enough _____ renewable _____?

Is there a way _____ distribute _____ the _____?

Is _____ current _____ capable of _____ sustainable _____ all _____ the _____?

Is _____ natural gas _____ energy distribution?

Are we _____ to _____ natural _____?

_____ it possible _____ renewable natural gas across _____?

_____ our infrastructure _____ to carry _____ gas throughout _____?

_____ dispersal of renewable natural gas supply?

_____ exist _____ transportation lines to _____ natural _____ to people?

_____ we able _____ transport sustainable _____ all around _____?

_____ wonder if there is a sufficient _____ green _____.

There _____ enough transportation lines _____ deliver _____ part of _____ country

Does the _____ have _____ networks _____ renewable natural _____?

_____ think there's _____ pipeline for _____ natural _____?

_____ there enough conduits _____ natural _____ across _____ US?

Can _____ pipeline _____ handle _____ gas distribution?

_____ think _____ pipes for all the _____ natural _____?

_____ there enough pipelines _____ gas _____?

Are we able _____ natural _____ the country?

Is _____ covered _____ enough pipes _____ gas?

_____ there exist _____ transportation _____ gas across the country?

Is _____ enough _____ to _____ natural _____?

Is there _____ natural gas?

Do there _____ transportation _____ deliver renewable _____ gas _____ every _____ of the _____?

_____ there _____ to _____ renewable gas _____?

Is _____ US capable _____ distributing _____ across states?

Short _____ pipes _____ the states?

Is _____ possible _____ renewable natural _____ in _____ country?

_____ gas lines _____ green _____?

_____ not _____ transportation lines _____ natural gas to _____ part of the _____?

_____ shortage of pipes to distribute eco-gas _____ the _____?

Will there be _____ conduits to _____?

Are _____ enough pipes to _____?

_____ possible _____ transport sustainable _____ throughout America?

Is _____ that _____ green _____ gas?

Should there _____ enough transportation lines _____ renewable _____ gas to _____ country?

_____ sufficient channels _____ transportation _____ renewable natural gas?

_____ there _____ for _____ green gas?

Is _____ ship _____ natural gas?

_____ there _____ transportation _____ deliver renewable _____ gas _____ of individuals?

Is there _____ conduits to distribute renewable _____?

____ we able ____ renewable natural ____ delivery ____?
 ____ we ____ enough transportation for ____ of ____ natural ____?
 ____ there ____ transportation ____ available to ____ renewable ____ ____ millions of people?
 Is there ____ on ____ spread ____?
 ____ there be ____ for the transport ____ gas?
 Is ____ spread renewable gas ____.
 Do we ____ pipeline to ____ natural ____?
 ____ an ____ supply of ____ natural gas ____ country?
 Is it possible ____ distribute ____ across ____ States?
 ____ it possible ____ clean natural gas ____?
 ____ on ____ to spread ____ all ____ US?
 ____ we ____ enough ____ to transport ____ gas?
 ____ there be ____ distribution ____ for green natural ____?
 Is the ____ natural gas ____ capable ____ handling renewable ____?
 ____ there enough ____ for distribution of renewable ____?
 Is there ____ network ____ pipes ____ carry green ____?
 Is it possible ____ current ____ to deliver ____ gas ____ the ____?
 Is there ____ network ____ pipes ____ natural gas?
 ____ there ____ any ____ that ____ renewable natural ____ to every city?
 ____ there ____ pipe ____ place ____ efficiently ____ gas in America?
 Is there enough ____ natural gas in ____?
 Does there ____ enough transportation lines ____ gas ____ millions of ____?
 ____ there enough ____ to deliver ____ to ____ part of the ____?
 ____ sufficient ____ moving green gas?
 ____ a ____ network ____ for carrying green ____ gas in ____?
 ____ spreading renewable gas everywhere?
 ____ possible that ____ gas ____ be distributed ____ states?
 Is ____ possible ____ natural gas in the ____?
 Can we distribute renewable ____ over ____?
 Is ____ transportation lines to deliver ____ natural ____ cities in ____ country?
 ____ there enough ways ____ distribute ____ natural gas ____?
 Is ____ network able to ____ gas ____ of America?
 ____ there ____ infrastructure for moving ____?
 ____ have ____ to spread renewable gas?
 Is the network ____ distribute ____?
 ____ we ____ for ____ transportation of natural gas?
 ____ we ____ to distribute renewable ____ across the country?
 Do we have enough ____ for distributing ____?
 Is ____ plenty of ____ to ____ gas?
 ____ adequate distribution infrastructure ____ green ____ gas?
 ____ to ____ renewable natural ____ throughout the country?
 ____ enough ____ carry renewable natural ____?
 Is there ____ renewable ____ delivery?
 ____ there ____ for dispersion ____ renewable natural ____?
 Is ____ renewable natural gas to ____ nation?
 ____ enough pipes ____ to distribute renewable ____?
 Do there ____ exist enough ____ to ____ natural ____ every city?
 Are ____ transportation lines ____ renewable ____ to millions?
 Is there ____ infrastructure ____ green ____?
 Is ____ for moving ____ gas in ____ country?

Is _____ to evenly transmit _____ natural _____ throughout the _____?

Alright, enough natural _____ lines _____?

Is _____ pipe for renewable _____?

_____ capacity for distributing _____ natural _____?

_____ US pipelines enough _____ distribute _____?

_____ there be sufficient channels _____ the _____ natural _____?

_____ a way to _____ renewable _____ gas to _____ part _____ country?

Do we _____ enough _____ distribute _____ gas nationwide?

_____ enough _____ to go across _____ country?

Is the infrastructure _____ moving green _____ country?

Is there _____ reliable _____ of _____ to _____ gas?

Is the _____ moving green _____ the country?

Do _____ have _____ to transport _____ natural _____?

Can _____ handle _____ of renewable natural gas?

_____ there enough gas lines _____ distribute _____?

Is there _____ for _____ of _____ gas?

We don't know if _____ have _____ channels _____ the _____ gas.

_____ renewable _____ gas distribution _____ exist in _____?

Does there exist enough transportation _____ gas _____ every _____ in _____ country?

Do _____ exist enough _____ bring _____ to every _____ in the country?

Is _____ for green natural _____?

Is there Adequate _____ infrastructure for _____?

_____ we _____ channels for renewable _____ gas?

Is _____ sufficient _____ to move _____?

Is there a _____ place _____ green _____ gas?

Do _____ channels exist for _____ gas _____ America?

Are there _____ nationwide?

_____ we _____ renewable gas nationwide?

Does _____ suffice _____ distribute _____ natural _____?

_____ able _____ distribute _____ gas _____ over the country?

Can _____ to _____ renewable natural gas?

Do _____ have _____ natural _____ lines _____ spread renewable _____?

Is it possible to _____ gas _____?

Is our _____ to carry _____?

Do _____ know if _____ are _____ renewable natural gas?

_____ you _____ enough pipes to _____ that green _____?

Is _____ infrastructure good _____ gas?

Is _____ to distribute eco-friendly _____ widely _____ the _____ network?

Can we get renewable _____ of _____ nation?

Do _____ sufficient transportation lines to _____ renewable _____ city in the _____?

There can _____ enough transportation _____ to deliver _____ millions of _____.

Is it possible for _____ nationwide _____ natural _____?

_____ there _____ renewable _____ pipelines?

Is _____ good network _____ carry _____ natural gas _____ the US?

_____ there be enough _____ gas _____ energy distribution?

Is it _____ to _____ clean natural _____?

_____ we _____ able to _____ eco-friendly natural _____?

Have networks to _____ gas _____?

_____ have enough _____ to _____ natural gas?

_____ we able to _____ renewable _____ throughout the _____?

_____ a good _____ infrastructure _____ green _____?
 Does _____ have _____ conduits to _____ sustainable _____ gas?
 _____ there _____ of pipes _____ green natural gas?
 There _____ be _____ networks _____ renewable natural _____.
 Do there _____ that _____ deliver _____ natural gas?
 _____ enough pipes _____ renewable _____ around?
 How _____ natural gas _____ America?
 Are we _____ to distribute _____ over the _____?
 Is _____ enough _____ of renewable natural gas in _____?
 _____ the _____ network _____ sufficient to _____ eco-friendly natural _____?
 Is _____ spread renewable gas _____?
 _____ the _____ natural _____ infrastructure _____ renewable natural gas?
 _____ exist enough _____ renewable _____ gas to the nation?
 Is it possible _____ natural _____ to _____ distribution infrastructure?
 Is our _____ green gas _____ the country?
 Is _____ enough pipeline _____ to _____ in America?
 _____ need _____ pipes _____ spread _____ around.
 _____ we able to _____ natural gas to _____ America?
 _____ enough channel to _____ renewable natural _____ America?
 Are _____ gas lines _____ gas nationwide?
 Is _____ possible to _____ the nation?
 Do _____ transportation _____ have enough capacity to _____ to every _____?
 _____ there enough _____ the renewable gas _____?
 Do enough channels exist _____ bring _____?
 _____ you think _____ to _____ renewable natural gas _____?
 Can there _____ gas lines _____?
 _____ green _____ fuel carried _____ pipes?
 Are _____ sufficient channels _____ of _____ gas?
 There _____ pipelines for renewable _____ nationally.
 _____ there sufficient _____ carry _____ gas?
 _____ the _____ pipes distribute renewable natural _____ country?
 _____ network _____ carries green natural _____?
 _____ there _____ for _____ natural _____ nationwide?
 _____ we have _____ transport renewable _____ gas?
 Does _____ nation have _____ transportation of _____?
 _____ there _____ to distribute _____ gas across the _____?
 Is there _____ in place _____ the _____ gas?
 _____ enough gas pipes _____ gas?
 _____ there _____ natural _____ lines _____ spread _____ gas nationwide?
 Is _____ infrastructure for green _____?
 _____ enough _____ renewable natural gas?
 Do _____ have enough pipelines _____ natural gas _____?
 _____ rely _____ for cross country _____ of renewable natural gas?
 Is _____ to distribute _____ throughout the US?
 Is _____ sufficient _____ to _____ gas?
 Is _____ networks to send _____ natural _____?
 It's _____ for _____ gas _____ green energy distribution.
 _____ there _____ to deliver renewable _____ gas to _____ of _____?
 _____ the country's natural _____ distribution of _____ gas?
 _____ for _____ of natural gas?

_____ there enough transportation _____ for renewable _____ gas _____?

_____ there enough networks _____ gas?

Can we deliver _____?

_____ our _____ enough _____ move green gas _____ country?

_____ we _____ the _____ natural gas all over the _____?

_____ way for _____ US _____ distribute clean _____ gas _____ the states?

_____ there enough pipelines for _____ natural _____ nationwide?

Is _____ spread _____ gas nationally?

_____ there _____ shortage of pipes to _____ throughout _____?

_____ we able to _____ renewable natural _____ Nation?

_____ there be _____ lines for _____?

_____ there enough _____ ship _____ natural _____ everywhere?

Is there _____ of _____ that _____ the _____ gas?

_____ we transport sustainable natural _____?

Is there a _____ of _____ that _____ green _____?

Is there enough _____ transport _____ natural _____ in _____?

_____ we have _____ capacity to _____ renewable _____?

Is _____ pipes _____ renewable gas?

Is _____ transportation lines _____ deliver renewable _____ part of _____ nation?

Did we have _____ transport of renewable _____?

_____ aren't enough _____ to _____ gas to every _____ of the _____.

_____ enough _____ of renewable natural _____ the country?

Are _____ with enough pipes _____ spreading _____ renewable _____?

Is _____ sufficient to distribute clean _____ states?

_____ the US have adequate conduits _____ distribute _____?

_____ have _____ pipes to _____ natural gas?

Should we _____ to spread _____ everywhere?

Are we _____ distribute eco-friendly natural _____ country?

Is there sufficient infrastructure _____ green _____ throughout _____?

_____ have an _____ way _____ transport _____ natural gas?

Should _____ distribute renewable _____ gas nationally?

Are _____ able _____ transport _____ gas _____ of _____ nation?

Are _____ enough _____ transportation of renewable _____ gas _____ America?

_____ there still exist _____ lines to _____ renewable _____ gas _____ people?

_____ there _____ network of _____ carry _____ gas across America?

Are we _____ distribute _____ natural _____ across the _____?

_____ pipes for _____ eco-gas _____ country?

Is there _____ natural gas?

Is _____ dispersed _____ natural gas _____?

_____ there enough green _____ pipes in _____?

_____ possible for _____ current piping _____ to distribute _____ gas?

_____ pipelines _____ to distribute _____ natural _____?

_____ we transport renewable _____?

Short on pipes _____ make _____ over _____?

Is _____ pipelines sufficient to distribute _____ states?

_____ possible for the US _____ distribute clean _____ US?

_____ there a _____ distribution _____ for _____?

_____ we have _____ lines _____ gas?

Are _____ able _____ renewable natural gas throughout _____?

Does the _____ distribution of renewable natural gas?

Is there _____ supply of renewable _____ delivery _____?

_____ we _____ natural gas _____?

_____ the network _____ pipes _____ natural gas _____ America satisfactory?

_____ transportation lines _____ deliver renewable _____ gas to millions of _____?

Do _____ have enough _____ natural gas?

The distribution of _____ gas _____ stopped _____ shortage of _____.

_____ pipelines _____ dispersal _____ renewable natural gas?

Is _____ enough _____ renewable natural _____?

_____ we _____ enough _____ lines to _____ renewable _____ gas?

_____ a shortage of pipes _____ the distribution _____ eco-friendly _____.

Is it _____ clean natural _____ across US _____?

Can compatible pipes _____ of _____?

_____ have enough _____ to _____ natural gas?

_____ there sufficient channels for the _____ natural _____?

_____ there enough _____ natural gas across America?

_____ there exist _____ lines to _____ renewable _____ gas to every _____ the _____?

_____ it possible to _____ supply nationwide?

Are _____ natural gas all _____ America?

Can existing _____ meet the demand _____ in _____?

Is there a _____ carry _____ gas?

_____ the _____ to spread renewable _____ across _____ country?

Is _____ network _____ pipes carrying _____ in America?

Can there _____ conduits _____ distributing sustainable _____?

_____ should _____ transportation lines _____ deliver _____ natural _____ to _____ of individuals.

Is the current _____ able _____ deliver sustainable _____?

_____ green _____ carried _____ pipes across _____ country?

Is _____ possible to _____ countryWide?

Do there _____ enough transportation lines _____ natural _____ millions _____ people?

_____ to _____ renewable natural gas to each city in the _____?

Does _____ current _____ the _____ natural _____ all over the country?

Is there _____ access to _____ sustainable _____ across _____?

Will we have _____ renewable _____ around?

Is there a _____ green _____ gas?

Can _____ enough transportation lines _____ natural gas?

_____ you _____ networks to _____ clean _____?

_____ the _____ pipelines evenly _____ renewable natural _____ throughout _____?

_____ aren't enough networks to carry _____ the _____.

Is it possible _____ bring renewable _____ nation?

Is _____ network _____ deliver sustainable natural _____ over America?

Should _____ have enough channels _____ renewable _____?

_____ enough capacity to transport _____ natural _____ America?

_____ to transport renewable _____ gas across the _____?

_____ there exist _____ transportation lines to _____ gas _____ whole of _____ country?

_____ enough _____ distribute renewable natural gas _____ the _____?

_____ the _____ able to _____ sustainable _____ gas _____ the country?

_____ enough _____ lines _____ renewable natural gas to _____ in the country.

_____ the _____ piping _____ sufficient to distribute _____ eco-friendly _____?

_____ isn't enough transportation _____ renewable _____ to _____ of the country.

Is the _____ of _____ sustainable _____ gas nationwide?

_____ enough transportation lines _____ gas to be delivered _____ every _____?

_____ tell _____ if _____ conduits to distribute _____ natural gas?
_____ we in a _____ transport _____ natural gas _____ nation?
Are we capable _____ natural _____ all over _____?
Do there _____ enough _____ to _____ gas _____ millions of users?
_____ there exist adequate _____ lines to _____ renewable natural _____ every part _____?
Is a _____ distribution infrastructure _____?
Is _____ for _____ natural gas?
_____ there enough pipelines _____ spread renewable _____ across _____?
_____ enough _____ for renewable natural _____ nationwide?
Is _____ for _____ distribute _____ natural gas across many _____?
Do there exist enough transportation _____ deliver _____ natural _____?
Is _____ infrastructure good enough to _____ gas _____?
Are you _____ gas everywhere?
_____ we able to transport _____ all _____ US?
_____ enough _____ lines _____ deliver renewable _____ gas _____ all of _____ country?
Is _____ network _____ delivering _____ natural gas _____ over _____ US?
Is there _____ renewable gas _____ the country?
_____ have _____ capacity to _____ renewable _____?
_____ exist _____ transportation lines _____ renewable _____ gas to all of _____?
Is it possible _____ natural _____ across the _____?
_____ there sufficient _____ spreading _____ gas _____?
_____ think _____ enough transportation _____ green gas?
